*Needs and Uses:* The Americans with Disabilities Act of 1990 (ADA), Public Law 101-336, 104 Statute 327, 366-69, was enacted on July 26, 1990. The purpose of the ADA is to provide a clear and comprehensive national mandate to end discrimination against individuals with disabilities and to bring persons with disabilities into the economic and social mainstream of American life; to provide enforceable standards addressing discrimination against individuals with disabilities; and to ensure that the Federal government play a central role in enforcing these standards on the behalf of individuals with disabilities. Title IV of the ADA adds § 225 to the Communications Act of 1934. Section 225 of the Communications Act, requires the Commission to promulgate regulations that require all domestic telephone common carriers to provide telecommunications relay services (TRS). 47 CFR part 64, subpart F of the Commission's rules, implements certain provisions of the ADA. It contains the operational, technical, and functional standards required of all TRS providers and the procedures for state certification. Although § 225 of the Communications Act imposes on all common carriers providing interstate or intrastate telephone services an obligation to provide to hearing and speech-impaired individuals telecommunications services that enable them to communicate with hearing individuals, and charges the Commission with regulatory oversight, states may seek to establish intrastate relay services that satisfy federal requirements.

Pursuant to 47 CFR 64.602 Commission's rules, any violation of subpart F by any common carrier engaged in intrastate communications will be subject to the same remedies, penalties, and procedures as are applicable in interstate communications.
