The collection includes mechanisms to collect information to request a priority, to obtain a sponsor for requesting a priority, and for other administrative requirements of the program, is required from any person or organization having an NS/EP service for which they wish priority restoration from the vendor providing the service. Information is also required to allow immediate installation of a new service to support NS/EP requirements. Information is required from vendors to allow the OMNCS to track and identify the telecommunications services that are being provided priority treatment. This is a previously approved collection.
