Applicants: Ecofin Holdings Limited.
Description: FERC-65A Exemption Notification of Status of Ecofin Holdings Ltd as Passive Investors under PH07-25.

Filed Date: 06/29/2007.

Accession Number: 20070629-4023.
Comment Date: 5 p.m. Eastern Time on Friday, July 20, 2007.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that

enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Kimberly D. Bose,
Secretary.

[Docket No. CP07-208-000]

Rockies Express Pipeline LLC; Notice of Overflight and Limited Site Visit for the Proposed Rockies Express-East Pipeline Project

July 6, 2007.

The staff of the Federal Energy Regulatory Commission (Commission) is issuing this notice to announce the date and location of an overflight and site visit for the proposed Rockies Express-East Pipeline Project. The Commission staff will be preparing an environmental impact statement (EIS) for Rockies Express Pipeline LLC's project in Missouri, Illinois, Indiana, and Ohio. The planned facilities would consist of about 637.8 miles of pipeline and 7 new compressor stations. The EIS will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

The helicopter overflight will be held on July 17 and 18, 2007. The July 19, 2007 site visit first focuses on the proposed pipeline crossing location of the following resources in Ohio, as time allows:

- Hamilton Compressor Station site;
- Little Miami Scenic State Park;
- Caesar Creek Wildlife Area;
- Deer Creek State Park;
- Big Darby Creek;
- Perry State Forest;
- Blue Rock State Forest; and
- Barnesville Reservoir.

Anyone interested in participating in the site visit on July 19, 2007, should meet at the Hampton Inn at 2093 S. Hamilton Road in Columbus, Ohio at 7 a.m. Participants must provide their own transportation. Because of the length of the project other site visits will be announced in the future.

This event is posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/>

EventsList.aspx along with other related information. For additional information, please contact the Commission's Office of External Affairs at (202) 502-8004.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[CP07-395-000]

Wyoming Interstate Company, Ltd. (WIC); Notice of Intent to Prepare an Environmental Assessment for the Proposed Medicine Bow Expansion Project and Request for Comments on Environmental Issues

July 11, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of constructing and operating Wyoming Interstate Company, Ltd.'s (WIC) proposed Medicine Bow Expansion Project.

The proposed Medicine Bow Expansion Project includes installation of one 24,930-horsepower (hp) turbine compressor unit with ancillary facilities at the existing Douglas Compressor Station in Converse County, Wyoming, located on its Medicine Bow Pipeline System. The added compressor unit would enable WIC to create 330,000 dekatherms per day of additional capacity on its Medicine Bow Lateral System. WIC requests the Commission to grant its request by November 1, 2007 for a targeted in-service date of June 1, 2008.

A map depicting WIC's proposed facilities is provided in Appendix 1.¹

Construction would take place completely within the fenced-in compressor station site on about 8 acres. Operation of these facilities would require the permanent use of approximately 1.37 acres of industrial land.

The Environmental Assessment Process

The National Environmental Policy Act (NEPA) requires the Commission to consider the environmental impacts of a

proposed project whenever it considers the issuance of a Certificate of Public Convenience and Necessity as has been requested by WIC. NEPA also requires the Commission to undertake a process to identify and address concerns the public may have about proposed projects. This process is commonly referred to as "scoping". The main goal of the "scoping" process is to identify public concerns and then address them in the environmental assessment. By this Notice of Intent, the Commission requests public comments on environmental issues that should be addressed in the environmental assessment.

The Commission's staff will prepare an environmental assessment that will discuss the potential environmental impacts resulting from the proposed project under the following general headings:

- Geology and Soils.
- Water Resources and Wetlands.
- Fisheries, Vegetation and Wildlife.
- Threatened and Endangered Species.

The Commission's staff will also evaluate possible alternatives to the proposed project or portions of the project and make recommendations on how to lessen or avoid impacts to the identified environmental resources.

Upon completion of the staff's environmental assessment and depending on the issues identified and/or comments received during the "scoping" process, the EA may be published and mailed to federal, state and local government agencies; elected officials; environmental and public interest groups; affected landowners; other interested parties; local libraries and newspapers; and the Commission's official service list for this proceeding. A 30-day comment period would be allotted for review of the EA if it is published. Staff would consider all comments submitted concerning the EA before making their recommendations to the Commission.

To ensure your comments are considered, please carefully follow the instructions in the public participation section of this notice.

Federal, state, or local agencies wishing to participate in the development of the environmental assessment may request "cooperating agency" status. Cooperating agencies are encouraged to participate in the scoping process and provide us with written comments concerning the proposed project. Cooperating agencies are also

welcome to suggest format and content changes that will make it easier for them to adopt the EA; however, we will decide what modifications will be adopted in light of our production constraints. Agencies wanting to participate as a cooperating agency should send a letter describing the extent to which they would like to be involved in the development of this EA. Please submit these letters as indicated in the public participation section of this notice.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the proposed project. By becoming a commentor, your comments and concerns will be addressed in the EA and considered by the Commission. The more specific your comments, the more useful they will be. Generally, comments are submitted regarding the potential environmental effects, reasonable alternatives and measures to avoid or lessen environmental impact.

This notice and request for environmental comments is being sent to affected landowners; federal, state and local government representatives and agencies; environmental and public interest groups; other interested parties in this proceeding; and local libraries and newspapers. We encourage government representatives to notify their constituents of this notice and to encourage their comments concerning this proposed project.

To ensure that your comments are properly recorded, please mail them to our office on or before August 10, 2007. When filing comments please:

- Send an original and two copies of your letter to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426.
- Label one copy of your comments to the attention of Gas Branch 2, DG2E; and Reference Docket No. CP07-032-000 on the original and both copies.

Please note that the Commission encourages the electronic filing of comments. To file electronic comments online please see the instructions² on the Commission's Web site at www.ferc.gov. When filing electronic comments, prepare your submission in the same manner as you would if filing on paper and save it to a file on your hard drive. Please note before you can file electronic comments with the

¹ The appendices referenced in this notice will not be printed in the **Federal Register**. Copies are available on the Commission's Web site (excluding maps) at www.ferc.gov or from the Commission's Public Reference Room—(202) 502-8371.
