DEPARTMENT OF COMMERCE

Economics and Statistics Administration

Measuring Innovation in the 21st Century Economy Advisory Committee; Notice of Public Meeting

AGENCY: Economics and Statistics Administration, Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Department of Commerce (DOC) is announcing the first meeting of the Measuring Innovation in the 21st Century Economy Advisory Committee. The meeting is open to the public. Seating at the meeting will be on a first-come, first-served basis. Interested parties may register on the Advisory Committee Web site: <http://www.innovationmetrics.gov>.

DATES: The meeting will be held on Thursday, February 22, 2007, from approximately 2 p.m. to 6 p.m. On-site sign-in begins at noon. Pre-registration is encouraged but not required.

ADDRESSES: The meeting will be held in the Vista Ballroom at The Wyndham Washington Hotel, 1400 M Street, NW., Washington DC. The Wyndham telephone number is 202-429-1700.

FOR FURTHER INFORMATION CONTACT: Elizabeth E.R. Anderson, Deputy Under Secretary for Economic Affairs, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC 20230; *facsimile:* 202-482-0432 or Jacque Mason, ESA Communications and Advisory Committee Liaison, Room 4855, telephone: 202-482-5641, or online: <http://www.innovationmetrics.gov>.

SUPPLEMENTARY INFORMATION: In accordance with the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. 2, and the General Services Administration rule on Federal Advisory Committee Management, 41 CFR part 101-6, the Secretary of Commerce determined that the establishment of the Measuring Innovation in the 21st Century Economy Advisory Committee (the "Committee") was in the public interest in connection with the performance of duties imposed on the Department by law.

The Committee will advise the Secretary on new or improved measures of innovation in the economy that will

help explain how innovation occurs in different sectors of the economy, how it is diffused across the economy, and how it impacts economic growth and productivity.

The Committee consists of fifteen members appointed by the Secretary of Commerce and is composed of individuals from business and academia. The Committee will function solely as an advisory body, in compliance with the provisions of the Federal Advisory Committee Act. The Charter was filed under the Federal Advisory Committee Act.

The meeting is physically accessible to people with disabilities. Individuals requiring special accommodations at this meeting including sign language interpretation or other auxiliary aids should contact Jacque Mason at the address listed under **FOR FURTHER INFORMATION CONTACT** at least 5 business days prior to the meeting so that appropriate arrangements can be made. The meeting will be videotaped and made public on the Committee Web site within one month after the meeting date.

Elizabeth "E.R." Anderson,

Deputy Under Secretary for Economic Affairs.

Clad Steel Plate from Japan; Final Results of the Expedited Sunset Review (Second Review) of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On October 2, 2006, the Department of Commerce (the Department) initiated the second sunset review of the antidumping duty order on clad steel plate from Japan pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). On the basis of a notice of intent to participate and a complete substantive response filed on behalf of the domestic interested parties, and no response from respondent interested parties, the Department conducted an expedited sunset review of the antidumping duty order pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(B). As a result of this sunset review, the Department finds that revocation of the order would be likely to lead to continuation or recurrence of dumping

at the levels indicated in the "Final Results of Review" section of this notice.

EFFECTIVE DATE: January 31, 2007.

FOR FURTHER INFORMATION CONTACT: Nichole Zink or Brandon Farlander, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0049 and (202) 482-0182, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 2, 2006, the Department of Commerce initiated a sunset review of the antidumping duty order on clad steel plate from Japan pursuant to section 751(c) of the Act. *See Initiation of Five-year (Sunset) Reviews*, 71 FR 57921 (October 2, 2006) (*Notice of Initiation*). The Department received a notice of intent to participate from the domestic parties, Mittal Steel USA (Mittal Steel) and United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO-CLC (USW), within the deadline specified in 19 CFR 351.218(d)(1)(i). Mittal Steel claims interested party status under section 771(9)(C) of the Act as a domestic manufacturer of clad steel plate. USW claims interested party status under section 771(9)(D) of the Act as a certified union or recognized union group of workers which is representative of an industry engaged in the manufacture, production, or wholesale in the United States of clad steel products.

The Department received a complete substantive response from Mittal Steel within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We did not receive a substantive response from respondent interested parties in this proceeding. As a result, pursuant to 19 CFR 351.218(e)(1)(iii)(C), the Department determined that it was appropriate to conduct an expedited 120-day sunset review of this antidumping duty order.

Scope of the Order

The scope of this order is all clad¹ steel plate of a width of 600 millimeters

¹ Cladding is the association of layers of metals of different colors or natures by molecular interpenetration of the surfaces in contact. This limited diffusion is characteristic of clad products and differentiates them from products metalized in other manners (e.g., by normal electroplating). The various cladding processes include pouring molten cladding metal onto the basic metal followed by rolling; simple hot-rolling of the cladding metal to ensure efficient welding to the basic metal; any
