

Warehouse operators are responsible for the quantity and quality of commodities stored in emergency and temporary storage space to the same extent as their liability for licensed storage space. All commodities stored in emergency and temporary storage space are considered a part of the warehouse operator's commingled inventory.

Warehouse Security

CCC strongly recommends that warehouse operators review their warehouse security plans and conduct a prudent risk assessment in connection with their application for emergency and temporary storage space. Warehouse operators may want to pay particular attention to threats that may not have been considered significant in the past and consider restricting access to facilities to authorized personnel only.

Farm Service Agency

Information Collection: Measurement Service Requests

AGENCY: Farm Service Agency, USDA.

ACTION: Notice; Request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Farm Service Agency (FSA) is seeking comments from all interested individuals and organizations on a new information collection associated with the Measurement Service Requests.

DATES: Comments on this notice must be received on or before July 10, 2007 to be assured consideration.

ADDRESSES: The comments should be addressed to Sandy Bryant, Common Provisions Branch Chief, USDA, FSA, Farm Programs, Production Emergencies and Compliance Division, 1400 Independence Avenue, SW., STOP 0517, Washington, DC 20250-0523. The comments also may be submitted by e-mail to: Joe.Lewis@wdc.usda.gov. The comments should be also sent to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503

FOR FURTHER INFORMATION CONTACT: Joe Lewis, USDA, Farm Service Agency, Production Emergencies and

Compliance Division, (202) 720-0795 and Eloise.Taylor@wdc.usda.gov. Comments should include the OMB number and title of the information collection.

SUPPLEMENTARY INFORMATION:

Description of Information Collection

Title: Management Service Requests (FSA-409).

OMB Control Number: 0560-NEW.

Type of Request: New Information Collection.

Abstract: The producers may request measurement services from the FSA using form FSA-409, Measurement Service Records. The measurement service requests, though not required for program participation, are customarily provided by the County Office. The request may include staking, and referencing and measurement after planting, and bin or quantity measurements in accordance with 7 CFR part 718. Information determined by the FSA during a farm visit for measurement services is reported on the FSA-409. Mandatory fees are assessed by the County Office to recover costs associated with a farm visit to perform these services.

Estimate of Annual Burden: Public reporting burden for this collection of information is estimated to average .50 hours per response.

Respondents: Producers.

Estimated Number of Respondents: 135,000.

Estimated Number of Responses per Respondent: 1.0.

Estimated Total Annual Burden on Respondents: 20,250 hours.

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Signed in Washington, DC on May 2, 2007.

Foreign Agricultural Service

Notice of a Request for a Revision of a Currently Approved Information Collection

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Department's intention to request a revision for a currently approved information collection in support of the Export Sales Reporting program.

DATES: Comments should be submitted no later than July 10, 2007.

Additional Information and Comments: Contact Peter W. Burr, Export Sales Reporting, Branch Chief, Stop 1021, U.S. Department of Agriculture, 1400 Independence Avenue, SW., Washington, DC 20250-1021, telephone; (202) 720-9209, e-mail: esr@fas.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Export Sales Reporting Program.
OMB Number: 0551-0007.

Expiration Date of Approval: October 31, 2007.

Type of Request: Revision of a currently approved information collection.

Abstract: Section 602 of the Agricultural Trade Act of 1978, as amended, requires the reporting of information pertaining to contracts for export sale of certain specified agricultural commodities and other commodities that may be designated by the Secretary. In accordance with Sec. 602, individual weekly reports submitted shall remain confidential and shall be compiled and published in compilation form each week following the week of reporting. Any person who knowingly fails to report shall be fined not more than \$25,000 or imprisoned for not more than 1 year, or both. Regulations at 7 CFR part 20 implement the reporting requirements, and prescribe a system for reporting information pertaining to contracts for export sales.

USDA's export sales reporting system was created after the large unexpected purchase of U.S. wheat and corn by the

Soviet Union in 1972. To make sure that all parties involved in the production and export of U.S. grain have access to up-to-date export information, the U.S. Congress mandated as export sales reporting requirements in 1973. Prior to the establishment of the Export Sales Reporting System, it was impossible for the public to obtain information on export sales activity until the actual shipments had taken place. This frequently resulted in considerable delay in the availability of information.

Under the export sales reporting system, U.S. exporters are required to report all large sales of certain designated commodities by 3 p.m. (eastern time) on the next business days after the sale is made. The designated commodities for these daily reports are wheat (by class), barley, corn, grain sorghum, oats, soybeans, soybean cake and meal, and soybean oil. Large sales for all reportable commodities except soybean oil are defined as 100,000 metric tons or more of one commodity in one day to a single destination or 200,000 tons or more of one commodity during the weekly reporting period. Large sales for soybean oil are 200,000 tons and 40,000 tons, respectively.

Weekly reports are also required, regardless of the size of the sales transaction, for all of these commodities, as well as wheat products, rye, flaxseed, linseed oil, sunflowerseed oil, cotton (by staple length), cottonseed, cottonseed cake and meal, cottonseed oil, rice (by class), cattle hides and skins (cattle, calf, and kip), and beef. The reporting week for the export sales reporting system is Friday–Thursday. The Secretary of Agriculture has the authority to add other commodities to this list.

U.S. exporters provide information on the quantity of their sales transactions, the type and class of commodity, the marketing year of shipment, and the destination. They also report any changes in previously reported information, such as cancellations and changes in destinations.

The estimated total annual burden of 31,190 hours in the OMB inventory for the currently approved information collection will be increased by 11,757 hours to 42,947 hours. The estimated increase is based on the growth in U.S. exports of reported commodities during this period.

Estimate of Burden: The average burden, including the time for reviewing instructions, gathering data needed, completing forms, and record keeping is estimated to be 30 minutes.

Respondents: All reports of wheat and wheat flour, feed grains, oil seeds, cotton, rice, cattle hides and skins, beef,

and any products thereof, and other commodities that the Secretary may designate as produced in the United States.

Estimated number of respondents: 340 for forms FAS 97, 98, 99, and 100.

Requests for Comments: Send comments regarding (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Copies of the current information collection may be obtained from Tamoria Thompson-Hall, FAS Information Collection Coordinator, at (202) 690–1690 or e-mail at Tamoria.Thompson@usda.gov. Comments may be sent to Peter W. Burr, Office of Trade Programs/Import and Trade Support Programs Division/Export Sales Reporting, FAS, 1400 Independence Avenue, Stop 1021, SW., Washington, DC 20250–1021 or esr@fas.usda.gov, or to the Desk Office for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503. Comments can also be hand delivered to Export Sales Reporting, U.S. Department of Agriculture, Room 456, 1250 Maryland Avenue, Washington, DC 20024. Persons with disabilities who require an alternative means of communication of information (Braille, large print, audiotape, etc.) should contact USDA's Target Center at (202) 720–2600 (voice and TDD). All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Government Paperwork Elimination Act: FAS is committed to compliance with the Government Paperwork Elimination Act, which requires Government agencies, in general, to provide the public the option of submitting information or transacting business electronically to the maximum extent possible.

Signed at Washington, DC, on April 26, 2007.
