**SUPPLEMENTARY INFORMATION:** The Westpark public housing development was originally constructed in the early 1940's to provide temporary homes for defense workers and their families during World War II. The 82-acre site is located in West Bremerton, and is bounded by Kitsap Way on the north, Oyster Bay Road on the east, and State Route 3 on the west. There are currently 631 public housing units on the site, a community center and other community facilities. The existing site is physically isolated and physically deteriorated, and in 2003 it was designated as "blighted" by the City of Bremerton for purposes of community renewal efforts

pursuant to the state Community Renewal Law (Chapter 35.81 Revised Code of Washington).

The Westpark Redevelopment, sponsored by the Bremerton Housing Authority, would demolish all existing housing structures and infrastructure and redevelop the site as a mixed-use, mixed-income, pedestrian oriented, master planned community. It would contain approximately 759 housing units; 60,000 square feet of commercial uses in a 5-acre village center and in mixed-use buildings; and 28 acres of parks and open space. New housing would be for sale and for rent, single family and multi-family, and would incorporate low income, affordable and market rate units to meet a variety of housing needs. All existing public housing units will be replaced either on-site (190 units) or off-site (441), at locations in the City and Kitsap County; no net loss of low income housing units would occur. The project will require relocation of all existing residents. Alternatives considered in the EIS include No Action (involving no redevelopment) and a Design Alternative (with a larger retail area, the same number of housing units, and additional stormwater controls).
