**DEPARTMENT OF THE INTERIOR****Committee Establishment: United States Geological Survey—Climate Change Science Program Committee for Synthesis and Assessment Product 1.2: Past Climate Variability and Change in the Arctic and at High Latitudes****AGENCY:** U.S. Geological Survey, Interior.**ACTION:** Establishment of a Federal Advisory Committee

**SUMMARY:** This notice is published in accordance with Section 9(a) of the Federal Advisory Committee Act of 1972 (Pub. L. 92-463). Following consultation with the General Services Administration, notice is hereby given that the Secretary of the Interior has established the U.S. Geological Survey—Climate Change Science Program Committee for Synthesis and Assessment Product 1.2: Past Climate Variability and Change in the Arctic and at High Latitudes.

The Climate Change Science Program (CCSP), a consortium of Federal agencies performing climate science, has established a synthesis and assessment (S&A) program as a part of

its Strategic Plan. There are 21 S&A products to be administered by 13 Federal agencies over a 5-year period. The U.S. Geological Survey (USGS), a participant in the CCSP, is responsible for three S&A products. S&A product 1.2: Past Climate Variability and Change in the Arctic and at High Latitudes is the subject of this proposed Federal Advisory Committee.

The primary function of the Committee is to synthesize and assess the state of knowledge on past climate variability at high latitudes and communicate this information to the USGS. Committee members will meet and discuss issues relating to the study design, research methodology, data sources and quality, and study findings. The Committee will draft a report that will serve as the CCSP definitive document on current knowledge pertaining to the topic of past climate variability at high latitudes. Membership will consist of non-Federal scientists who are recognized as experts in the climate science community.

**DEPARTMENT OF THE INTERIOR****Committee Establishment: Climate Change Science Program Committee for Synthesis and Assessment Product 4.2: Thresholds of Climate Change****AGENCY:** U.S. Geological Survey, Department of the Interior.**ACTION:** Establishment of a Federal Advisory Committee.

**SUMMARY:** This notice is published in accordance with Section 9(a) of the Federal Advisory Committee Act of 1972 (Pub. L. 92-643). Following consultation with the General Services Administration, notice is hereby given that the Secretary of the Interior has established the Advisory Committee for the United States Geological Survey—Climate Change Science Program for Synthesis and Assessment Product 4.2—Thresholds of Climate Change. The Climate Change Science Program (CCSP), a consortium of Federal agencies performing climate science, has established a synthesis and assessment (S&A) program as a part of its Strategic Plan. There are 21 S&A

products to be administered by 13 Federal agencies over a 5-year period. The U.S. Geological Survey, a participant in the CCSP, is responsible for three S&A products. S&A product 4.2: Thresholds of Climate Change is the subject of this Federal Advisory Committee.

The primary function of the Committee is to synthesize and assess the state of knowledge on the topic of thresholds of climate change and communicate this information to the U.S. Geological Survey. Committee members will meet and discuss issues relating to the study design, research methodology, data sources and quality, and study findings. The Committee will draft a report that will serve as the CCSP definitive document on current knowledge pertaining to the topic of thresholds of climate change. Membership will consist of Federal and non-Federal scientists who are recognized as experts in the climate science community.

## DEPARTMENT OF THE INTERIOR

### Geological Survey

#### National Earthquake Prediction Evaluation Council

**AGENCY:** U.S. Geological Survey, Department of the Interior.

**ACTION:** Notice of Meeting.

**SUMMARY:** Pursuant to Public Law 96-472, the National Earthquake Prediction Council (NEPEC) will hold a 1-day workshop on May 18, 2007, and a short meeting on May 19, 2007. The workshop will be held at the Portland State Office Building, 1st Floor, Room 1D, 800 NE Oregon Street, Lloyd District, Portland, Oregon. On May 19, the short meeting will be held at the Double Tree Hotel, Lloyd Center, 1000 NE Multnomah, Portland, Oregon. The Committee is comprised of members from academia and the Federal Government. The Committee shall advise the Director of the U.S. Geological Survey (USGS) on proposed earthquake predictions, on the completeness and scientific validity of the available data related to earthquake predictions, and on related matters as assigned by the Director.

At the 1-day workshop on May 18, the Committee will discuss with scientific experts the evidence for and nature of episodic nonvolcanic tremor and aseismic creep events and their possible relation to seismic slip on the Cascadia subduction interface and will discuss with emergency managers how the aseismic slip events and other earthquake-related phenomena in Cascadia should be communicated to the public. At the meeting on May 19, the Committee will review the

workshop findings and compose recommendations to the USGS on what type of public information might be most appropriate and effective when episodic tremor and creep events are detected, and the Committee will receive brief updates on previous discussion topics.

Workshops and meetings of the National Earthquake Prediction Evaluation Council are open to the public. A draft workshop agenda is available on request (contact information below). In order to ensure sufficient seating and hand-outs, it is requested that visitors pre-register by May 11. Members of the public wishing to make a statement to the Committee should state that intentions so that time may be allotted in the agenda.

**DATES:** May 18, 2007, commencing at 8:30 a.m. and adjourning at 5 p.m., and May 19, 2007, commencing at 8 a.m. and adjourning at noon.

*Contact:* Dr. Michael Blanpied, Executive Secretary, National Earthquake Prediction Evaluation Council, U.S. Geological Survey, MS 905, 12201 Sunrise Valley Drive, Reston, Virginia 20192, (703) 648-6696, [mblanpied@usgs.gov](mailto:mblanpied@usgs.gov).

## DEPARTMENT OF JUSTICE

### Drug Enforcement Administration

[OMB Number 1117-0023]

#### Agency Information Collection Activities: Proposed Collection; Comments Requested

**ACTION:** 60 day emergency notice of information collection under review import/export declaration for list i and list ii chemicals DEA form 486.

The Department of Justice, Drug Enforcement Administration (DEA), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with emergency review procedures of the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. If granted, the emergency approval is only valid for 180 days. Comments should be directed to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention:

Department of Justice Desk Officer, Washington, DC 20503. Comments are encouraged and will be accepted for 10 days until May 21, 2007.

If you have comments, especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Mark W. Caverly, Chief, Liaison and Policy Section, Office of Diversion Control, Drug Enforcement Administration, Washington, DC 20537.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
