

roads will be required for the proposed action, including construction of approximately 40 miles of new system and temporary roads, and approximately 50 miles of reconstruction and maintenance of existing forest system roads. Approximately 2 miles of existing road will be closed and/or decommissioned at the conclusion of the proposed activities.

The proposed action requires amendments to the Forest Plan with respect to connectivity among stands exhibiting old forest structure, scenic values, and total area (at the specific stand, subwatershed and watershed level) allowed to be in the less than 20 year old age class. Implementation of the proposed actions could begin in late 2008.

Possible Alternatives. Alternatives will include the proposed action, no action, and additional alternatives that respond to issues generated during the scoping process. The agency will give notice of the full environmental analysis and decision-making process so interested and affected people may participate and contribute to the final decision.

Scoping. Correspondence with tribes, government agencies, organizations, and individuals who have indicated interest will be conducted and input will be solicited.

Preliminary Issues. Preliminary issues identified include the potential effects of the proposed action on long-term forest conditions and sustainability, fish and wildlife habitat, hydrology and water quality, soils and scenic values.

Comment. Public comments on this proposed action are requested to identify issues and alternatives to the proposed action and to focus the scope of the analysis. Comments received in response to this solicitation, including names and addresses of those who comment, will be considered part of the public record on this proposed action, and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decisions under 36 CFR parts 215 or 217. Additionally, pursuant to 7 CFR 1.27 (d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that under the FOIA, confidentiality may be granted in only very limited circumstances such as to protect trade secrets. The Forest Service

will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied; the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days.

Early Notice of Importance of Public Participation in Subsequent Environmental Review. A draft EIS will be filed with the Environmental Protection Agency (EPA) and made available for public review by January 2008. The EPA will publish a Notice of Availability (NOA) of the draft EIS in the **Federal Register**. The final EIS is scheduled to be available April 2008.

The Forest Service believes at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts the agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F. 2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviews may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

In the final EIS, the Forest Service is required to respond to substantive comments received during the comment period for the draft EIS. The Forest Service is the lead agency and the responsible official is Craig Dixon, District Ranger, North Fork John Day Ranger District, Umatilla National Forest. The responsible official will decide where, and whether or not to salvage timber, and remove potential hazard trees. The responsible official will select the treatment alternative(s) for the Farley Vegetation Management, as well as potential mitigation and monitoring measures that may be needed. The decision will be documented in a record of decision. The decision will be subject to Forest Service Appeal Regulations (36 CFR part 215).

Forest Service

Notice of New Fee Site; Federal Lands Recreation Enhancement Act, (Title VIII, Pub. L. 108-447)

AGENCY: Coronado National Forest, USDA Forest Service, Tucson, Arizona.

ACTION: Notice of New Fee Site.

SUMMARY: The Coronado National Forest proposes to begin charging a new \$150.00 per day fee for rental of the Rockfellow House located 10 miles west of Sunsites, Arizona. Rental of the Cabin includes overnight use. Rental of the cabin and other facilities within the Arizona National Forests has shown that the public appreciates and enjoys the availability of historic rental facilities. Funds from the rentals will be used for the continued operation and maintenance of the Rockfellow House.

DATES: Rockfellow House will become available for rent July, 2008.

ADDRESSES: Coronado National Forest, 300 West Congress, Tucson, AZ 85701

FOR FURTHER INFORMATION CONTACT: Kathy Makansi, Archaeologist, Coronado National Forest, (520) 760-2502.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108-447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are established. The

Coronado National Forest currently has one other rental facility. This facility is booked regularly throughout the rental season. A business analysis for the rental of the Rockfellow House shows that people desire having this sort of recreation experience on the Coronado National Forest. A market analysis indicates that the \$150.00 daily fee is both reasonable and acceptable for this sort of unique recreation experience.

People wanting to rent the Rockfellow House will need to do so through the National Recreation Reservation Service, at www.recreation.gov or by calling 1-877-444-6777. The National Recreation Reservation Service charges a \$9 fee per reservation.

Dated: November 13, 2007.
