AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM); reopening of comment period.

SUMMARY: This document announces a reopening of the comment period for the above-referenced NPRM. The NPRM proposed the adoption of a new airworthiness directive for all Airbus Model A300, A310, and A300-600 series airplanes. That NPRM invites comments concerning the proposed requirements for revising the Emergency Procedures sections of the airplane flight manuals to advise the flightcrew of new procedures for emergency evacuation. SUPPLEMENTARY INFORMATION: We proposed to amend 14 CFR part 39 with a notice of proposed rulemaking (NPRM) for an AD for all Airbus Model A300, A310, and A300-600 series airplanes. The NPRM was published in the **Federal Register** on September 28, 2007 (72 FR 55124). The NPRM proposed to require revising the Emergency Procedures sections of the airplane flight manuals to advise the flightcrew of new procedures for emergency evacuation. The NPRM action invites comments on the overall regulatory, economic, environmental, and energy aspects of the proposed AD.

Actions Since NPRM Was Issued

Since we issued the NPRM, the DOT's Docket Management System (DMS) was replaced by the Federal Docket Management System (FDMS). FDMS is a government-wide, electronic docket management system, which contains the public dockets and is the method used for submitting comments on the overall regulatory, economic, environmental, and energy aspects of proposed rulemaking actions. However, due to the service disruption caused by the transition from DOT's DMS to the

FDMS, the docket material was not posted on the FDMS until November 1, 2007. Therefore, we have determined that the public was not provided adequate opportunity to submit comments on the NPRM. As a result, we have decided to reopen the comment period for 30 days to receive additional comments.

No part of the regulatory information has been changed; therefore, the NPRM is not republished in the **Federal Register**.

Comments Due Date

We must receive comments on this AD action by December 20, 2007.

Issued in Renton, Washington, on November 8, 2007.

Manager, Transport Airplane Directorate, Aircraft Certification Service.
