What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable us to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.

2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the Docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does this Apply to?

Affected entities: Entities potentially affected by this action (*with SIC Code/ 2002 NAICS Code indicated in parentheses*) are refiners (2911/324110), importers (5172/424720), pipelines (4613), petroleum marketers and other distributors (5171, 5172/424710, 424720), terminals (5171/424710), fuel oil dealers (5172/424720), fuel additive manufacturers (2911/424720), petroleum retailers and wholesale purchaser-consumers (5171, 5172/424710, 424720) and laboratories (8734/541380).

Title: Recordkeeping and Reporting Requirements for Motor Vehicle and Non-Road Diesel Fuel.

ICR numbers: EPA ICR No 1718.08, OMB Control No. 2060-0308.

ICR status: This ICR is currently scheduled to expire January 31, 2008. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9. They are also displayed by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers recordkeeping and reporting requirements for motor vehicle diesel fuel and non-road, locomotive and marine diesel fuel. It also includes recordkeeping and reporting associated with the placement of codes on dyed diesel fuel (the dye is required under IRS regulations). The main purpose for recordkeeping and reporting is to ensure compliance with the regulations at 40 CFR part 80, *Subpart I—Motor Vehicle, Non-Road, Locomotive, and Marine Diesel Fuel*. Because the diesel fuel regulations are written to permit several types of flexibility, periodic reporting (annual and quarterly) is necessary in order for EPA to monitor compliance. Most reporting is mandatory. Parties may assert a claim of business confidentiality and submissions covered by such a claim will be treated in accordance with procedures at 40 CFR

part 2 and established Agency procedures.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.6 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

A document entitled "Draft Annual Burdens associated with Motor Vehicle and Non-Road Diesel Fuel/Applicable January 2008 through December 2010" has been placed in Docket No. EPA-HQ-OAR-2007-1121. This draft document provides a more detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 4,675.

Frequency of response: Annual, quarterly, and/or on occasion.

Estimated total average number of responses for each respondent: 91.1

Estimated total annual burden hours: 426,075 hours.

Estimated total annual costs: \$2,626,000 (All purchased services.)

Are There Changes in the Estimates From the Last Approval?

There is a decrease of 48,083 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease is due in large part to reporting requirements that are no longer applicable to all or most parties (e.g. initial registration, application for small refiner status, and pre-compliance reporting). There is also an associated decrease of \$5,874,000 in costs and an associated decrease of 18,036 in the number of responses.

What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review

and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: November 9, 2007.

Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) or Superfund, Section 128(a); Notice of Grant Funding Guidance for State and Tribal Response Programs

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) will begin to accept requests, from December 1, 2007 through January 31, 2008, for grants to supplement State and Tribal Response Programs. This notice provides guidance on eligibility for funding, use of funding, grant mechanisms and process for awarding funding, the allocation system for distribution of funding, and terms and reporting under these grants. EPA has consulted with state and tribal officials in developing this guidance.

The primary goal of this funding is to ensure that state and tribal response programs include, or are taking reasonable steps to include, certain elements and a public record. Another goal is to provide funding for other activities that increase the number of response actions conducted or overseen by a state or tribal response program. This funding is not intended to supplant current state or tribal funding for their response programs. Instead, it is to supplement their funding to increase their response capacity.

For fiscal year 2008, EPA will consider funding requests up to a maximum of \$1.5 million per state or tribe. Subject to the availability of funds, EPA regional personnel will be
