The Defense-Wide Working Capital Fund finances the commercial and support-type operations of the Defense Logistics Agency, Defense Finance and Accounting Service, and the Defense Information Systems Agency. The Fund finances, in accordance with section 2208 of 10 U.S.C. through receipt of funded customer reimbursable orders, operating and capital expenses (excluding Military Construction), and uses cost accounting and business management techniques to provide DoD managers with information that can be used to monitor, control, and minimize its cost of operations. The Fund purchases and sells fuel to defense customers, whose budget requests contain funding to purchase fuel, based on a FY 2009 forecast for crude oil equivalent to a West Texas Intermediate cost of \$84.01 a barrel and an average refined petroleum product of \$109.21 a barrel.

REFINED PETROLEUM PRODUCTS, MARGINAL EXPENSE TRANSFER ACCOUNT

Due to difficulties forecasting fuel prices ten-to-twenty months in advance of the fiscal year, the Department of Defense FY 2009 Authorization Request includes a request for a permanent, indefinite appropriation to cover the difference between the funds the Department budgets for the purchase of refined petroleum products and the actual market prices the Department pays for fuel, i.e., the additional marginal expense.

The military departments and Defense agencies will continue to budget for fuel and other refined petroleum products as they have in the past. The budget request for fuel starts with the Administration's economic assumptions about the future cost of crude oil, which is based on the futures market and is consistent with private sector forecasts.

The indefinite appropriation applies only to the additional marginal expense of purchasing refined petroleum products. Not covered are the additional costs that the Defense-Wide Working Capital Fund charges its customers for transportation, facilities, overhead, and depreciation.

The indefinite appropriation would provide additional funds when fuel prices increase above the budgeted price. When fuel prices drop below the budgeted price, the extra budgeted funds would be cancelled. Over time it is anticipated that any additional funds provided by the indefinite appropriation would be offset by the cancellation of funds budgeted for fuel purchases, but not needed for that purpose due to decreases in the price of fuel.

The establishment of a separate transfer account will provide visibility. In addition, business rules have been established to allow for the monthly reconciliation of Department of Defense purchases. The monthly reconciliation will ensure that transactions to and from the transfer account are transparent and auditable.

The Defense Commissary Agency Working Capital Fund finances the cost of Commissary Operations and Resale Stocks activities. Commissary Operations pays the operating costs of 262 commissaries worldwide, agency and region headquarters, and support services. Costs include civilian pay, transportation of commissary goods overseas, rewarehousing, shelf stocking, janitorial services in each commissary, and base support as a tenant organization. Resale Stocks pays for the purchase of inventory for resale to commissary patrons.

Section 1175 of Title 10, United States Code, enacted by section 662 of the National Defense Authorization Act for Fiscal Years 1992 and 1993, Public Law 102-190, established the Voluntary Separation Incentive (VSI) Fund to help manage the ongoing military force drawdown. VSI provides annual payments to selected active-duty Service members with more than six but less than 20 years of service who leave the service voluntarily. The Section 1175(h)(3) provided that after December 31, 1992, all voluntary separation incentive payments shall be made from the fund. The fund is financed through actuarially-determined Government contributions from the Department of Defense personnel appropriations to cover the unfunded liability and the present value of future benefits for those separating and interest on the investments. The total present value costs of VSI benefit payments must have been deposited in the fund by the time authority to approve VSI benefits ended, December 31, 2001. Permanent authority to make these payments is contained in section 8044 of the 1997 Defense Appropriations Act.

Section 2350k of U.S.C. Title 10 established a trust fund for cash contributions from any nation in support of relocation of elements of the Armed Forces within that nation. The Host Nation Support for Relocation account is financed through these cash contributions and interest accrued on the cash balances. Funds may be used to defray costs incurred in connection with the relocation for which the contribution was made.

The Cadet Fund is a Revolving Trust Fund account maintained for the benefit of US Air Force Academy Cadets. This account, established by Congress, helps cadets with personal financial needs (non-duty). Each year the fund attempts to collect an amount equal to its disbursements and the account maintains itself through the disbursement and collection process with no additional appropriated funding requirement. The fund is reimbursed by cadets through payroll deductions.

This fund was established in 1992 as a result of the consolidation of Defense Commissaries. The trust fund pays commissary costs to acquire (including leases), construct, convert, expand, improve, repair, maintain, and equip the physical infrastructure of commissary stores and central processing facilities of the Defense Commissary system. Surcharge funds are also utilized for real property, environmental evaluation, and construction costs including costs for surveys, administration, overhead, planning, and design. Title 10 of the United States Code prescribes costs which may be financed by the Trust Fund.

## TITLE VIII—GENERAL PROVISIONS

SEC. 8001. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.

SEC. 8002. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense: *Provided*, That salary increases granted to direct and indirect hire foreign national employees of the Department of Defense funded by this Act shall not be at a rate in excess of the percentage increase authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code, or at a rate in excess of the percentage increase provided by the appropriate host nation to its own employees, whichever is higher: *Provided further*, That this section shall not apply to Department of Defense foreign service national employees serving at United States diplomatic missions whose pay is set by the Department of State under the Foreign Service Act of 1980: *Provided further*, That the limitations of this provision shall not apply to foreign national employees of the Department of Defense in the Republic of Turkey.]

SEC. [8003] 8002. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year, unless expressly so provided herein.

SEC. 8004. No more than 20 percent of the appropriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last 2 months of the fiscal year: *Provided*, That this section shall not apply to obligations for support of active duty training of reserve components or summer camp training of the Reserve Officers' Training Corps.]

### (TRANSFER OF FUNDS)

SEC. [8005] 8003. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed [\$3,700,000,000] \$5,000,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes,

and for the same time period, as the appropriation or fund to which transferred: *Provided*, [That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by the Congress: *Provided further*,] That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act: [*Provided further*, That no part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprogramming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprogramming is requested has been denied by the Congress: *Provided further*, That a request for multiple reprogrammings of funds using authority provided in this section must be made prior to June 30, 2008:] *Provided further*, That transfers among military personnel appropriations shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under this section: [*Provided further*, That no obligation of funds may be made pursuant to section 1206 of Public Law 109-163 (or any successor provision) unless the Secretary of Defense has notified the congressional defense committees prior to any such obligation].

SEC. 8006. (a) Not later than 60 days after enactment of this Act, the Department of Defense shall submit a report to the congressional defense committees to establish the baseline for application of reprogramming and transfer authorities for fiscal year 2008: *Provided*, That the report shall include—

(1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;

(2) a delineation in the table for each appropriation both by budget activity and program, project, and activity as detailed in the Budget Appendix; and

(3) an identification of items of special congressional interest.

(b) Notwithstanding section 8005 of this Act, none of the funds provided in this Act shall be available for reprogramming or transfer until the report identified in subsection (a) is submitted to the congressional defense committees, unless the Secretary of Defense certifies in writing to the congressional defense committees that such reprogramming or transfer is necessary as an emergency requirement.]

SEC. 8007. The Secretaries of the Air Force and the Army are authorized, using funds available under the headings "Operation and Maintenance, Air Force" and "Operation and Maintenance, Army", to complete facility conversions and phased repair projects in support of Red Flag Alaska exercises, which may include upgrades and additions to Alaskan range infrastructure and training areas, and improved access to these ranges.]

### (TRANSFER OF FUNDS)

SEC. [8008] 8004. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: *Provided*, That transfers may be made between such funds: *Provided further*, That transfers may be made between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation and the "Operation and Maintenance" appropriation accounts in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that such transfers may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure or increase the value of war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8009. Funds appropriated by this Act may not be used to initiate a special access program without prior notification 30 calendar days in advance to the congressional defense committees.]

SEC. [8010] 8005. [None of the funds provided in this Act shall be available to initiate: (1) a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any 1 year of the contract or that includes an unfunded contingent liability in excess of \$20,000,000; or (2) a contract for advance procurement

leading to a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any 1 year, unless the congressional defense committees have been notified at least 30 days in advance of the proposed contract award: *Provided*, That no part of any appropriation contained in this Act shall be available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: *Provided further*, That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed \$500,000,000 unless specifically provided in this Act: *Provided further*, That no multiyear procurement contract can be terminated without 10-day prior notification to the congressional defense committees: *Provided further*, That the execution of multiyear authority shall require the use of a present value analysis to determine lowest cost compared to an annual procurement: *Provided further*, That none of the funds provided in this Act may be used for a multiyear contract executed after the date of the enactment of this Act unless in the case of any such contract—

(1) the Secretary of Defense has submitted to Congress a budget request for full funding of units to be procured through the contract and, in the case of a contract for procurement of aircraft, that includes, for any aircraft unit to be procured through the contract for which procurement funds are requested in that budget request for production beyond advance procurement activities in the fiscal year covered by the budget, full funding of procurement of such unit in that fiscal year;

(2) cancellation provisions in the contract do not include consideration of recurring manufacturing costs of the contractor associated with the production of unfunded units to be delivered under the contract;

(3) the contract provides that payments to the contractor under the contract shall not be made in advance of incurred costs on funded units; and

(4) the contract does not provide for a price adjustment based on a failure to award a follow-on contract.】

Funds appropriated in title III of this Act may be used for a multiyear procurement contract as follows:

【Army CH-47 Chinook Helicopter; M1A2 Abrams System Enhancement Package upgrades; M2A3/M3A3 Bradley upgrades】 *Army Family of Medium Tactical Vehicles*; and SSN Virginia Class Submarine.

SEC. 【8011】 8006. Within the funds appropriated for the operation and maintenance of the Armed Forces, funds are hereby appropriated pursuant to section 401 of title 10, United States Code, for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code. Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of chapter 20 of title 10, United States Code, and these obligations shall be reported as required by section 401(d) of title 10, United States Code: *Provided*, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: *Provided further*, That upon a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

SEC. 【8012】 8007. (a) During fiscal year 【2008】 2009, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

【(b) The fiscal year 2009 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2009 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 2009.】

【(c)】 Nothing in this section shall be construed to apply to military (civilian) technicians.

【SEC. 8013. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.】

SEC. 【8014】 8008. None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time spent as a full-time student is credited toward completion of a service commitment: *Provided*, That this section shall not apply to those members who have reenlisted with this option prior to October 1, 1987: *Provided further*, That this section applies only to active components of the Army.

【SEC. 8015. (a) None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of the enactment of this Act, is performed by more than 10 Department of Defense civilian employees unless—

(1) the conversion is based on the result of a public-private competition that includes a most efficient and cost effective organization plan developed by such activity or function;

(2) the Competitive Sourcing Official determines that, over all performance periods stated in the solicitation of offers for performance of the activity or function, the cost of performance of the activity or function by a contractor would be less costly to the Department of Defense by an amount that equals or exceeds the lesser of—

(A) 10 percent of the most efficient organization's personnel-related costs for performance of that activity or function by Federal employees; or

(B) \$10,000,000; and

(3) the contractor does not receive an advantage for a proposal that would reduce costs for the Department of Defense by—

(A) not making an employer-sponsored health insurance plan available to the workers who are to be employed in the performance of that activity or function under the contract; or

(B) offering to such workers an employer-sponsored health benefits plan that requires the employer to contribute less towards the premium or subscription share than the amount that is paid by the Department of Defense for health benefits for civilian employees under chapter 89 of title 5, United States Code.

(b)(1) The Department of Defense, without regard to subsection (a) of this section or subsection (a), (b), or (c) of section 2461 of title 10, United States Code, and notwithstanding any administrative regulation, requirement, or policy to the contrary shall have full authority to enter into a contract for the performance of any commercial or industrial type function of the Department of Defense that—

(A) is included on the procurement list established pursuant to section 2 of the Javits-Wagner-O'Day Act (41 U.S.C. 47);

(B) is planned to be converted to performance by a qualified nonprofit agency for the blind or by a qualified nonprofit agency for other severely handicapped individuals in accordance with that Act; or

(C) is planned to be converted to performance by a qualified firm under at least 51 percent ownership by an Indian tribe, as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)), or a Native Hawaiian Organization, as defined in section 8(a)(15) of the Small Business Act (15 U.S.C. 637(a)(15)).

(2) This section shall not apply to depot contracts or contracts for depot maintenance as provided in sections 2469 and 2474 of title 10, United States Code.

(c) The conversion of any activity or function of the Department of Defense under the authority provided by this section shall be credited toward any competitive or outsourcing goal, target, or measurement that may be established by statute, regulation, or policy and is deemed to be awarded under the authority of, and in compliance with, subsection (h) of section 2304 of title 10, United States Code, for the competition or outsourcing of commercial activities.】

(TRANSFER OF FUNDS)

SEC. 【8016】 8009. Funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protege Program developmental assistance agreement pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2302 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.

## (TRANSFER OF FUNDS)—Continued

[SEC. 8017. None of the funds in this Act may be available for the purchase by the Department of Defense (and its departments and agencies) of welded shipboard anchor and mooring chain 4 inches in diameter and under unless the anchor and mooring chain are manufactured in the United States from components which are substantially manufactured in the United States: *Provided*, That for the purpose of this section manufactured will include cutting, heat treating, quality control, testing of chain and welding (including the forging and shot blasting process): *Provided further*, That for the purpose of this section substantially all of the components of anchor and mooring chain shall be considered to be produced or manufactured in the United States if the aggregate cost of the components produced or manufactured in the United States exceeds the aggregate cost of the components produced or manufactured outside the United States: *Provided further*, That when adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis, the Secretary of the service responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations that such an acquisition must be made in order to acquire capability for national security purposes.]

[SEC. 8018. None of the funds available to the Department of Defense may be used to demilitarize or dispose of M-1 Carbines, M-1 Garand rifles, M-14 rifles, .22 caliber rifles, .30 caliber rifles, or M-1911 pistols.]

[SEC. 8019. No more than \$500,000 of the funds appropriated or made available in this Act shall be used during a single fiscal year for any single relocation of an organization, unit, activity or function of the Department of Defense into or within the National Capital Region: *Provided*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the congressional defense committees that such a relocation is required in the best interest of the Government.]

[SEC. 8020. In addition to the funds provided elsewhere in this Act, \$15,000,000 is appropriated only for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544): *Provided*, That a prime contractor or a subcontractor at any tier that makes a subcontract award to any subcontractor or supplier as defined in section 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code, shall be considered a contractor for the purposes of being allowed additional compensation under section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544) whenever the prime contract or subcontract amount is over \$500,000 and involves the expenditure of funds appropriated by an Act making Appropriations for the Department of Defense with respect to any fiscal year: *Provided further*, That notwithstanding section 430 of title 41, United States Code, this section shall be applicable to any Department of Defense acquisition of supplies or services, including any contract and any subcontract at any tier for acquisition of commercial items produced or manufactured, in whole or in part by any subcontractor or supplier defined in section 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code.]

[SEC. 8021. None of the funds appropriated by this Act shall be available to perform any cost study pursuant to the provisions of OMB Circular A-76 if the study being performed exceeds a period of 24 months after initiation of such study with respect to a single function activity or 30 months after initiation of such study for a multi-function activity.]

SEC. [8022] 8010. Funds appropriated by this Act for the American Forces Information Service shall not be used for any national or international political or psychological activities.

SEC. [8023] 8011. During the current fiscal year, the Department of Defense is authorized to incur obligations of not to exceed \$350,000,000 for purposes specified in section 2350j(c) of title 10, United States Code, in anticipation of receipt of contributions, only from the Government of Kuwait, under that section: *Provided*, That upon receipt, such contributions from the Government of Kuwait shall be credited to the appropriations or fund which incurred such obligations.

[SEC. 8024. (a) Of the funds made available in this Act, not less than \$33,705,000 shall be available for the Civil Air Patrol Corporation, of which—

(1) \$26,553,000 shall be available from “Operation and Maintenance, Air Force” to support Civil Air Patrol Corporation operation and maintenance, readiness, counterdrug activities, and drug demand reduction activities involving youth programs;

(2) \$6,277,000 shall be available from “Aircraft Procurement, Air Force”; and

(3) \$875,000 shall be available from “Other Procurement, Air Force” for vehicle procurement.

(b) The Secretary of the Air Force should waive reimbursement for any funds used by the Civil Air Patrol for counter-drug activities in support of Federal, State, and local government agencies.]

SEC. [8025] 8012. (a) None of the funds appropriated in this Act are available to establish a new Department of Defense (department) federally funded research and development center (FFRDC), either as a new entity, or as a separate entity administrated by an organization managing another FFRDC, or as a nonprofit membership corporation consisting of a consortium of other FFRDCs and other nonprofit entities.

(b) No member of a Board of Directors, Trustees, Overseers, Advisory Group, Special Issues Panel, Visiting Committee, or any similar entity of a defense FFRDC, and no paid consultant to any defense FFRDC, except when acting in a technical advisory capacity, may be compensated for his or her services as a member of such entity, or as a paid consultant by more than one FFRDC in a fiscal year: *Provided*, That a member of any such entity referred to previously in this subsection shall be allowed travel expenses and per diem as authorized under the Federal Joint Travel Regulations, when engaged in the performance of membership duties.

(c) Notwithstanding any other provision of law, none of the funds available to the department from any source during fiscal year [2008] 2009 may be used by a defense FFRDC, through a fee or other payment mechanism, for construction of new buildings, for payment of cost sharing for projects funded by Government grants, for absorption of contract overruns, or for certain charitable contributions, not to include employee participation in community service and/or development.

(d) Notwithstanding any other provision of law, of the funds available to the department during fiscal year 2008, not more than 5,517 staff years of technical effort (staff years) may be funded for defense FFRDCs: *Provided*, That of the specific amount referred to previously in this subsection, not more than 1,060 staff years may be funded for the defense studies and analysis FFRDCs: *Provided further*, That this subsection shall not apply to staff years funded in the National Intelligence Program (NIP) and the Military Intelligence Program (MIP).

(e) The Secretary of Defense shall, with the submission of the department’s fiscal year 2009 budget request, submit a report presenting the specific amounts of staff years of technical effort to be allocated for each defense FFRDC during that fiscal year and the associated budget estimates.

(f) Notwithstanding any other provision of this Act, the total amount appropriated in this Act for FFRDCs is hereby reduced by \$57,725,000.]

[SEC. 8026. None of the funds appropriated or made available in this Act shall be used to procure carbon, alloy or armor steel plate for use in any Government-owned facility or property under the control of the Department of Defense which were not melted and rolled in the United States or Canada: *Provided*, That these procurement restrictions shall apply to any and all Federal Supply Class 9515, American Society of Testing and Materials (ASTM) or American Iron and Steel Institute (AISI) specifications of carbon, alloy or armor steel plate: *Provided further*, That the Secretary of the military department responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: *Provided further*, That these restrictions shall not apply to contracts which are in being as of the date of the enactment of this Act.]

SEC. [8027] 8013. For the purposes of this Act, the term “congressional defense committees” means the Armed Services Committee of the House of Representatives, the Armed Services Committee of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives.

SEC. [8028] 8014. During the current fiscal year, the Department of Defense may acquire the modification, depot maintenance and repair of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles, through competition between Department of Defense depot maintenance activities and private firms: *Provided*, That the Senior Acquisition Executive of the military department or Defense Agency concerned, with power of delegation, shall certify that successful bids include comparable estimates of all direct and indirect costs for both public and private bids: *Provided further*, That Office of Management and Budget Circular A-76 shall not apply to competitions conducted under this section.

SEC. [8029] 8015. (a)(1) If the Secretary of Defense, after consultation with the United States Trade Representative, determines that a foreign country which is party to an agreement described in paragraph (2) has violated the terms of the agreement by discriminating against certain types of products produced in the United States that are covered by the agreement, the Secretary of Defense shall rescind the Secretary's blanket waiver of the Buy American Act with respect to such types of products produced in that foreign country.

(2) An agreement referred to in paragraph (1) is any reciprocal defense procurement memorandum of understanding, between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the Buy American Act for certain products in that country.

(b) The Secretary of Defense shall submit to the Congress a report on the amount of Department of Defense purchases from foreign entities in fiscal year [2008] 2009. Such report shall separately indicate the dollar value of items for which the Buy American Act was waived pursuant to any agreement described in subsection (a)(2), the Trade Agreement Act of 1979 (19 U.S.C. 2501 et seq.), or any international agreement to which the United States is a party.

(c) For purposes of this section, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

[SEC. 8030. Notwithstanding any other provision of law, funds available during the current fiscal year and hereafter for "Drug Interdiction and Counter-Drug Activities, Defense" may be obligated for the Young Marines program.]

SEC. [8031] 8016. During the current fiscal year, amounts contained in the Department of Defense Overseas Military Facility Investment Recovery Account established by section 2921(c)(1) of the National Defense Authorization Act of 1991 (Public Law 101-510; 10 U.S.C. 2687 note) shall be available until expended for the payments specified by section 2921(c)(2) of that Act.

SEC. [8032] 8017. (a) Notwithstanding any other provision of law, the Secretary of the Air Force may convey at no cost to the Air Force, without consideration, to Indian tribes located in the States of North Dakota, South Dakota, Montana, and Minnesota relocatable military housing units located at Grand Forks Air Force Base and Minot Air Force Base that are excess to the needs of the Air Force.

(b) The Secretary of the Air Force shall convey, at no cost to the Air Force, military housing units under subsection (a) in accordance with the request for such units that are submitted to the Secretary by the Operation Walking Shield Program on behalf of Indian tribes located in the States of North Dakota, South Dakota, Montana, and Minnesota.

(c) The Operation Walking Shield Program shall resolve any conflicts among requests of Indian tribes for housing units under subsection (a) before submitting requests to the Secretary of the Air Force under subsection (b).

(d) In this section, the term "Indian tribe" means any recognized Indian tribe included on the current list published by the Secretary of the Interior under section 104 of the Federally Recognized Indian Tribe Act of 1994 (Public Law 103-454; 108 Stat. 4792; 25 U.S.C. 479a-1).

SEC. [8033] 8018. During the current fiscal year, appropriations which are available to the Department of Defense for operation and maintenance may be used to purchase items having an investment item unit cost of not more than \$250,000: *Provided*, That upon determination by the Secretary of Defense that such action is necessary to meet the operational requirements of a Commander of Combatant Command engaged in contingency operations overseas, such funds may be used to purchase items having an investment item cost of not more than \$500,000.

[SEC. 8034. (a) During the current fiscal year, none of the appropriations or funds available to the Department of Defense Working Capital Funds shall be used for the purchase of an investment item for the purpose of acquiring a new inventory item for sale or anticipated sale during the current fiscal year or a subsequent fiscal year to customers of the Department of Defense Working Capital Funds if such an item would not have been chargeable to the Department of Defense Business Operations Fund during fiscal year 1994 and if the purchase of such an investment item would be chargeable during the current fiscal year to appropriations made to the Department of Defense for procurement.

(b) The fiscal year 2009 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2009 Department of Defense budget shall be prepared and submitted to the Congress on the basis that any equipment which was classified as an end item and funded in a procurement appropriation contained in this Act shall be budgeted for in a proposed fiscal year 2009 procurement appropriation and not in the supply management business area or any other area or category of the Department of Defense Working Capital Funds.]

SEC. [8035] 8019. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, [2009] 2010: *Provided*, That funds appropriated, transferred, or otherwise credited to the Central Intelligence Agency Central Services Working Capital Fund during this or any prior or subsequent fiscal year shall remain available until expended: *Provided further*, That any funds appropriated or transferred to the Central Intelligence Agency for advanced research and development acquisition, for agent operations, and for covert action programs authorized by the President under section 503 of the National Security Act of 1947, as amended, shall remain available until September 30, [2009] 2010.

SEC. [8036] 8020. Notwithstanding any other provision of law, funds made available in this Act for the Defense Intelligence Agency may be used for the design, development, and deployment of General Defense Intelligence Program intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

[SEC. 8037. Of the funds made available in this Act under the heading "Defense Production Act Purchases", not less than \$18,400,000 shall be made available for the competitive, domestic expansion of essential vacuum induction melting furnace capacity and vacuum arc remelting furnace capacity for military aerospace and other defense applications: *Provided*, That the facility must be owned and operated by an approved supplier to the military departments and to defense industry original equipment manufacturers.]

[SEC. 8038. Of the funds appropriated to the Department of Defense under the heading "Operation and Maintenance, Defense-Wide", not less than \$10,000,000 shall be made available only for the mitigation of environmental impacts, including training and technical assistance to tribes, related administrative support, the gathering of information, documenting of environmental damage, and developing a system for prioritization of mitigation and cost to complete estimates for mitigation, on Indian lands resulting from Department of Defense activities.]

[SEC. 8039. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a "Made in America" inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code, whether the person should be debarred from contracting with the Department of Defense.

(c) In the case of any equipment or products purchased with appropriations provided under this Act, it is the sense of the Congress that any entity of the Department of Defense, in expending the appropriation, purchase only American-made equipment and products, provided that American-made equipment and products are cost-competitive, quality-competitive, and available in a timely fashion.]

## (TRANSFER OF FUNDS)—Continued

SEC. [8040] 8021. None of the funds appropriated by this Act shall be available for a contract for studies, analysis, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines—

(1) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work;

(2) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source; or

(3) the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support: *Provided*, That this limitation shall not apply to contracts in an amount of less than \$25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

[SEC. 8041. (a) Except as provided in subsections (b) and (c), none of the funds made available by this Act may be used—

(1) to establish a field operating agency; or

(2) to pay the basic pay of a member of the Armed Forces or civilian employee of the department who is transferred or reassigned from a headquarters activity if the member or employee's place of duty remains at the location of that headquarters.

(b) The Secretary of Defense or Secretary of a military department may waive the limitations in subsection (a), on a case-by-case basis, if the Secretary determines, and certifies to the Committees on Appropriations of the House of Representatives and Senate that the granting of the waiver will reduce the personnel requirements or the financial requirements of the department.

(c) This section does not apply to—

(1) field operating agencies funded within the National Intelligence Program; or

(2) an Army field operating agency established to eliminate, mitigate, or counter the effects of improvised explosive devices, and, as determined by the Secretary of the Army, other similar threats.]

[SEC. 8042. The Secretary of Defense, notwithstanding any other provision of law, acting through the Office of Economic Adjustment of the Department of Defense, may use funds made available in this Act under the heading "Operation and Maintenance, Defense-Wide" to make grants and supplement other Federal funds in accordance with the guidance provided in the Joint Explanatory Statement of the Committee of Conference to accompany the conference report accompanying this Act.]

## [(RESCISSIONS)]

Research, Development, Test and Evaluation, Defense-Wide, 2007/2008, \$144,000,000.]

[SEC. 8044. None of the funds available in this Act may be used to reduce the authorized positions for military (civilian) technicians of the Army National Guard, Air National Guard, Army Reserve and Air Force Reserve for the purpose of applying any administratively imposed civilian personnel ceiling, freeze, or reduction on military (civilian) technicians, unless such reductions are a direct result of a reduction in military force structure.]

SEC. [8045] 8022. None of the funds appropriated or otherwise made available in this Act may be obligated or expended for assist-

ance to the Democratic People's Republic of Korea unless specifically appropriated for that purpose.

SEC. [8046] 8023. Funds appropriated in this Act for operation and maintenance of the Military Departments, Combatant Commands and Defense Agencies shall be available for reimbursement of pay, allowances and other expenses which would otherwise be incurred against appropriations for the National Guard and Reserve when members of the National Guard and Reserve provide intelligence or counterintelligence support to Combatant Commands, Defense Agencies and Joint Intelligence Activities, including the activities and programs included within the National Intelligence Program and the Military Intelligence Program: *Provided*, That nothing in this section authorizes deviation from established Reserve and National Guard personnel and training procedures.

[SEC. 8047. During the current fiscal year, none of the funds appropriated in this Act may be used to reduce the civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 2003, level: *Provided*, That the Service Surgeons General may waive this section by certifying to the congressional defense committees that the beneficiary population is declining in some catchment areas and civilian strength reductions may be consistent with responsible resource stewardship and capitation-based budgeting.]

SEC. [8048] 8024. (a) None of the funds available to the Department of Defense for any fiscal year for drug interdiction or counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(b) None of the funds available to the Central Intelligence Agency for any fiscal year for drug interdiction and counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

[SEC. 8049. None of the funds appropriated by this Act may be used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin: *Provided*, That the Secretary of the military department responsible for such procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: *Provided further*, That this restriction shall not apply to the purchase of "commercial items", as defined by section 4(12) of the Office of Federal Procurement Policy Act, except that the restriction shall apply to ball or roller bearings purchased as end items.]

[SEC. 8050. None of the funds in this Act may be used to purchase any supercomputer which is not manufactured in the United States, unless the Secretary of Defense certifies to the congressional defense committees that such an acquisition must be made in order to acquire capability for national security purposes that is not available from United States manufacturers.]

[SEC. 8051. None of the funds made available in this or any other Act may be used to pay the salary of any officer or employee of the Department of Defense who approves or implements the transfer of administrative responsibilities or budgetary resources of any program, project, or activity financed by this Act to the jurisdiction of another Federal agency not financed by this Act without the express authorization of Congress: *Provided*, That this limitation shall not apply to transfers of funds expressly provided for in Defense Appropriations Acts, or provisions of Acts providing supplemental appropriations for the Department of Defense.]

[SEC. 8052. (a) Notwithstanding any other provision of law, none of the funds available to the Department of Defense for the current fiscal year may be obligated or expended to transfer to another nation or an international organization any defense articles or services (other than intelligence services) for use in the activities described in subsection (b) unless the congressional defense committees, the Committee on International Relations of the House of Representatives, and the Committee on Foreign Relations of the Senate are notified 15 days in advance of such transfer.

(b) This section applies to—

(1) any international peacekeeping or peace-enforcement operation under the authority of chapter VI or chapter VII of the United Nations Charter under the authority of a United Nations Security Council resolution; and

(2) any other international peacekeeping, peace-enforcement, or humanitarian assistance operation.

(c) A notice under subsection (a) shall include the following:

(1) A description of the equipment, supplies, or services to be transferred.

(2) A statement of the value of the equipment, supplies, or services to be transferred.

(3) In the case of a proposed transfer of equipment or supplies—

(A) a statement of whether the inventory requirements of all elements of the Armed Forces (including the reserve components) for the type of equipment or supplies to be transferred have been met; and

(B) a statement of whether the items proposed to be transferred will have to be replaced and, if so, how the President proposes to provide funds for such replacement.】

SEC. 【8053】 8025. None of the funds available to the Department of Defense under this Act shall be obligated or expended to pay a contractor under a contract with the Department of Defense for costs of any amount paid by the contractor to an employee when—

(1) such costs are for a bonus or otherwise in excess of the normal salary paid by the contractor to the employee; and

(2) such bonus is part of restructuring costs associated with a business combination.

(INCLUDING TRANSFER OF FUNDS)

SEC. 【8054】 8026. During the current fiscal year, no more than \$30,000,000 of appropriations made in this Act under the heading “Operation and Maintenance, Defense-Wide” may be transferred to appropriations available for the pay of military personnel, to be merged with, and to be available for the same time period as the appropriations to which transferred, to be used in support of such personnel in connection with support and services for eligible organizations and activities outside the Department of Defense pursuant to section 2012 of title 10, United States Code.

【SEC. 8055. During the current fiscal year, in the case of an appropriation account of the Department of Defense for which the period of availability for obligation has expired or which has closed under the provisions of section 1552 of title 31, United States Code, and which has a negative unliquidated or unexpended balance, an obligation or an adjustment of an obligation may be charged to any current appropriation account for the same purpose as the expired or closed account if—

(1) the obligation would have been properly chargeable (except as to amount) to the expired or closed account before the end of the period of availability or closing of that account;

(2) the obligation is not otherwise properly chargeable to any current appropriation account of the Department of Defense; and

(3) in the case of an expired account, the obligation is not chargeable to a current appropriation of the Department of Defense under the provisions of section 1405(b)(8) of the National Defense Authorization Act for Fiscal Year 1991, Public Law 101–510, as amended (31 U.S.C. 1551 note): *Provided*, That in the case of an expired account, if subsequent review or investigation discloses that there was not in fact a negative unliquidated or unexpended balance in the account, any charge to a current account under the authority of this section shall be reversed and recorded against the expired account: *Provided further*, That the total amount charged to a current appropriation under this section may not exceed an amount equal to one percent of the total appropriation for that account.】

SEC. 【8056】 8027. (a) Notwithstanding any other provision of law, the Chief of the National Guard Bureau may permit the use of equipment of the National Guard Distance Learning Project by any person or entity on a space-available, reimbursable basis. The Chief of the National Guard Bureau shall establish the amount of reimbursement for such use on a case-by-case basis.

(b) Amounts collected under subsection (a) shall be credited to funds available for the National Guard Distance Learning Project and be available to defray the costs associated with the use of equipment of the project under that subsection. Such funds shall be available for such purposes without fiscal year limitation.

【SEC. 8057. Using funds available by this Act or any other Act, the Secretary of the Air Force, pursuant to a determination under section 2690 of title 10, United States Code, may implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community in the Federal Republic of Germany: *Provided*, That in the City of Kaiserslautern such agreements will include the use of United States anthracite as the base load energy for municipal district heat to the United States Defense installations: *Provided further*, That at Landstuhl Army Regional Medical Center and Ramstein Air Base, furnished heat may be ob-

tained from private, regional or municipal services, if provisions are included for the consideration of United States coal as an energy source.】

SEC. 【8058】 8028. None of the funds appropriated in title IV of this Act may be used to procure end-items for delivery to military forces for operational training, operational use or inventory requirements: *Provided*, That this restriction does not apply to end-items used in development, prototyping, and test activities preceding and leading to acceptance for operational use: *Provided further*, That this restriction does not apply to programs funded within the National Intelligence Program: *Provided further*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 【8059】 8029. Notwithstanding any other provision of law, funds available to the Department of Defense in this Act shall be made available to provide transportation of medical supplies and equipment, on a nonreimbursable basis, to American Samoa, and funds available to the Department of Defense shall be made available to provide transportation of medical supplies and equipment, on a nonreimbursable basis, to the Indian Health Service when it is in conjunction with a civil-military project.

【SEC. 8060. None of the funds made available in this Act may be used to approve or license the sale of the F–22A advanced tactical fighter to any foreign government.】

SEC. 【8061】 8030. (a) The Secretary of Defense may, on a case-by-case basis, waive with respect to a foreign country each limitation on the procurement of defense items from foreign sources provided in law if the Secretary determines that the application of the limitation with respect to that country would invalidate cooperative programs entered into between the Department of Defense and the foreign country, or would invalidate reciprocal trade agreements for the procurement of defense items entered into under section 2531 of title 10, United States Code, and the country does not discriminate against the same or similar defense items produced in the United States for that country.

(b) Subsection (a) applies with respect to—

(1) contracts and subcontracts entered into on or after the date of the enactment of this Act; and

(2) options for the procurement of items that are exercised after such date under contracts that are entered into before such date if the option prices are adjusted for any reason other than the application of a waiver granted under subsection (a).

(c) Subsection (a) does not apply to a limitation regarding construction of public vessels, ball and roller bearings, food, and clothing or textile materials as defined by section 11 (chapters 50–65) of the Harmonized Tariff Schedule and products classified under headings 4010, 4202, 4203, 6401 through 6406, 6505, 7019, 7218 through 7229, 7304.41 through 7304.49, 7306.40, 7502 through 7508, 8105, 8108, 8109, 8211, 8215, and 9404.

SEC. 【8062】 8031. (a) None of the funds made available by this Act may be used to support any training program involving a unit of the security forces of a foreign country if the Secretary of Defense has received credible information from the Department of State that the unit has committed a gross violation of human rights, unless all necessary corrective steps have been taken.

(b) The Secretary of Defense, in consultation with the Secretary of State, shall ensure that prior to a decision to conduct any training program referred to in subsection (a), full consideration is given to all credible information available to the Department of State relating to human rights violations by foreign security forces.

(c) The Secretary of Defense, after consultation with the Secretary of State, may waive the prohibition in subsection (a) if he determines that such waiver is required by extraordinary circumstances.

(d) Not more than 15 days after the exercise of any waiver under subsection (c), the Secretary of Defense shall submit a report to the congressional defense committees describing the extraordinary circumstances, the purpose and duration of the training program, the United States forces and the foreign security forces involved in the training program, and the information relating to human rights violations that necessitates the waiver.

【SEC. 8063. None of the funds appropriated or made available in this Act to the Department of the Navy shall be used to develop, lease or procure the T-AKE class of ships unless the main propulsion diesel engines and propulsors are manufactured in the United States by a domestically operated entity: *Provided*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certi-

【SEC. 8064. None of the funds appropriated or otherwise made available by this or other Department of Defense Appropriations Acts may be obligated or expended for the purpose of performing repairs or maintenance to military family housing units of the Department of Defense, including areas in such military family housing units that may be used for the purpose of conducting official Department of Defense business.】

SEC. 【8065】 8032. Notwithstanding any other provision of law, funds appropriated in this Act under the heading “Research, Development, Test and Evaluation, Defense-Wide” for any new start advanced concept technology demonstration project or joint capability demonstration project may only be obligated 30 days after a report, including a description of the project, the planned acquisition and transition strategy and its estimated annual and total cost, has been provided in writing to the congressional defense committees: *Provided*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying to the congressional defense committees that it is in the national interest to do so.

【SEC. 8066. The Secretary of Defense shall provide a classified quarterly report beginning 30 days after enactment of this Act, to the House and Senate Appropriations Committees, Subcommittees on Defense on certain matters as directed in the classified annex accompanying this Act.】

【SEC. 8067. Beginning in the current fiscal year and hereafter, refunds attributable to the use of the Government travel card, refunds attributable to the use of the Government Purchase Card and refunds attributable to official Government travel arranged by Government Contracted Travel Management Centers may be credited to operation and maintenance, and research, development, test and evaluation accounts of the Department of Defense which are current when the refunds are received.】

SEC. 【8068】 8033. (a) None of the funds appropriated in this Act may be used for a mission critical or mission essential financial management information technology system (including a system funded by the defense working capital fund) that is not registered with the Chief Information Officer of the Department of Defense. A system shall be considered to be registered with that officer upon the furnishing to that officer of notice of the system, together with such information concerning the system as the Secretary of Defense may prescribe. A financial management information technology system shall be considered a mission critical or mission essential information technology system as defined by the Under Secretary of Defense (Comptroller).

(b)(1) During the current fiscal year, a financial management automated information system, a mixed information system supporting financial and non-financial systems, or a system improvement of more than \$1,000,000 may not receive Milestone A approval, Milestone B approval, or full rate production, or their equivalent, within the Department of Defense until the Under Secretary of Defense (Comptroller) certifies, with respect to that milestone, that the system is being developed and managed in accordance with the Department’s Financial Management Modernization Plan. The Under Secretary of Defense (Comptroller) may require additional certifications, as appropriate, with respect to any such system.

(2) The Chief Information Officer shall provide the congressional defense committees timely notification of certifications under paragraph (1).

(c)(1) During the current fiscal year, a major automated information system may not receive Milestone A approval, Milestone B approval, or full rate production approval, or their equivalent, within the Department of Defense until the Chief Information Officer certifies, with respect to that milestone, that the system is being developed in accordance with the Clinger-Cohen Act of 1996 (40 U.S.C. 1401 et seq.). The Chief Information Officer may require additional certifications, as appropriate, with respect to any such system.

(2) The Chief Information Officer shall provide the congressional defense committees timely notification of certifications under paragraph (1). Each such notification shall include a statement confirming that the following steps have been taken with respect to the system:

(A) Business process reengineering.

(B) An analysis of alternatives.

(C) An economic analysis that includes a calculation of the return on investment.

(D) Performance measures.

(E) An information assurance strategy consistent with the Department’s Global Information Grid.

(d) For purposes of this section:

(1) The term “Chief Information Officer” means the senior official of the Department of Defense designated by the Secretary of Defense pursuant to section 3506 of title 44, United States Code.

【SEC. 8122. (a) Notwithstanding any other provision of law, and in addition to amounts otherwise made available by this Act, there is appropriated \$11,630,000,000 for the “Mine Resistant Ambush Protected Vehicle Fund”, to remain available until September 30, 2008.

(b) The funds provided by subsection (a) shall be available to the Secretary of Defense to continue technological research and development and upgrades, to procure Mine Resistant Ambush Protected vehicles and associated support equipment, and to sustain, transport, and field Mine Resistant Ambush Protected vehicles.

(c)(1) The Secretary of Defense shall transfer funds provided by subsection (a) to appropriations for operation and maintenance; procurement; and research, development, test and evaluation to accomplish the purposes specified in subsection (b). Such transferred funds shall be merged with and be available for the same purposes and for the same time period as the appropriation to which they are transferred.

(2) The transfer authority provided by this subsection shall be in addition to any other transfer authority available to the Department of Defense.

(3) The Secretary of Defense shall, not less than 5 days prior to making any transfer under this subsection, notify the congressional defense committees in writing of the details of the transfer.

(d) The amount provided by this section is designated as an emergency requirement and necessary to meet emergency needs pursuant to subsections (a) and (b) of section 204 of S. Con. Res. 21 (110th Congress), the concurrent resolution on the budget for fiscal year 2008.

## GENERAL PROVISIONS

【SEC. 601. Appropriations provided in this division are available for obligation until September 30, 2008, unless otherwise so provided in this division.】

【SEC. 602. Notwithstanding any other provision of law or of this division, funds made available in this division are in addition to

amounts appropriated or otherwise made available for the Department of Defense for fiscal year 2008.]

[(TRANSFER OF FUNDS)]

[SEC. 603. Upon the determination of the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer between appropriations up to \$4,000,000,000 of the funds made available to the Department of Defense in this division: *Provided*, That the Secretary shall notify the Congress promptly of each transfer made pursuant to the authority in this section: *Provided further*, That the authority provided in this section is in addition to any other transfer authority available to the Department of Defense.]

[SEC. 604. Funds appropriated in this division, or made available by the transfer of funds in or pursuant to this division, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414).]

[SEC. 605. None of the funds provided in this division may be used to finance programs or activities denied by Congress in fiscal years 2007 or 2008 appropriations to the Department of Defense or to initiate a procurement or research, development, test and evaluation new start program without prior written notification to the congressional defense committees.]

[SEC. 606. (a) AVAILABILITY OF FUNDS FOR CERP.—From funds made available in this division to the Department of Defense, not to exceed \$500,000,000 may be used, notwithstanding any other provision of law, to fund the Commander's Emergency Response Program, for the purpose of enabling military commanders in Iraq to respond to urgent humanitarian relief and reconstruction requirements within their areas of responsibility by carrying out programs that will immediately assist the Iraqi people, and to fund a similar program to assist the people of Afghanistan.

(b) QUARTERLY REPORTS.—Not later than 15 days after the end of each fiscal year quarter (beginning with the first quarter of fiscal year 2008), the Secretary of Defense shall submit to the congressional defense committees a report regarding the source of funds and the allocation and use of funds during that quarter that were made available pursuant to the authority provided in this section or under any other provision of law for the purposes of the programs under subsection (a).]

[SEC. 607. During the current fiscal year, funds available to the Department of Defense for operation and maintenance may be used, notwithstanding any other provision of law, to provide supplies, services, transportation, including airlift and sealift, and other logistical support to coalition forces supporting military and stability operations in Iraq and Afghanistan: *Provided*, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees regarding support provided under this section.]

[SEC. 608. During fiscal year 2008, supervision and administration costs associated with projects carried out with funds appropriated to "Afghanistan Security Forces Fund" or "Iraq Security Forces Fund" in this division may be obligated at the time a construction contract is awarded: *Provided*, That for the purpose of this section, supervision and administration costs include all in-house Government costs.]

[SEC. 609. (a) REPORTS ON PROGRESS TOWARD STABILITY IN IRAQ.—Not later than 60 days after the date of the enactment of this Act and every 90 days thereafter through the end of fiscal year 2008, the Secretary of Defense shall set forth in a report to Congress a comprehensive set of performance indicators and measures for progress toward military and political stability in Iraq.

(b) SCOPE OF REPORTS.—Each report shall include performance standards and goals for security, economic, and security force training objectives in Iraq together with a notional timetable for achieving these goals.

(c) SPECIFIC ELEMENTS.—In specific, each report shall require, at a minimum, the following:

(1) With respect to stability and security in Iraq, the following:

(A) Key measures of political stability, including the important political milestones that must be achieved over the next several years.

(B) The primary indicators of a stable security environment in Iraq, such as number of engagements per day, numbers of trained Iraqi forces, and trends relating to numbers and types of ethnic and religious-based hostile encounters.

(C) An assessment of the estimated strength of the insurgency in Iraq and the extent to which it is composed of non-Iraqi fighters.

(D) A description of all militias operating in Iraq, including the number, size, equipment strength, military effectiveness, sources of support, legal status, and efforts to disarm or reintegrate each militia.

(E) Key indicators of economic activity that should be considered the most important for determining the prospects of stability in Iraq, including—

(i) unemployment levels;

(ii) electricity, water, and oil production rates; and

(iii) hunger and poverty levels.

(F) The criteria the Administration will use to determine when it is safe to begin withdrawing United States forces from Iraq.

(2) With respect to the training and performance of security forces in Iraq, the following:

(A) The training provided Iraqi military and other Ministry of Defense forces and the equipment used by such forces.

(B) Key criteria for assessing the capabilities and readiness of the Iraqi military and other Ministry of Defense forces, goals for achieving certain capability and readiness levels (as well as for recruiting, training, and equipping these forces), and the milestones and notional timetable for achieving these goals.

(C) The operational readiness status of the Iraqi military forces, including the type, number, size, and organizational structure of Iraqi battalions that are—

(i) capable of conducting counterinsurgency operations independently;

(ii) capable of conducting counterinsurgency operations with the support of United States or coalition forces; or

(iii) not ready to conduct counterinsurgency operations.

(D) The rates of absenteeism in the Iraqi military forces and the extent to which insurgents have infiltrated such forces.

(E) The training provided Iraqi police and other Ministry of Interior forces and the equipment used by such forces.

(F) Key criteria for assessing the capabilities and readiness of the Iraqi police and other Ministry of Interior forces, goals for achieving certain capability and readiness levels (as well as for recruiting, training, and equipping), and the milestones and notional timetable for achieving these goals, including—

(i) the number of police recruits that have received classroom training and the duration of such instruction;

(ii) the number of veteran police officers who have received classroom instruction and the duration of such instruction;

(iii) the number of police candidates screened by the Iraqi Police Screening Service, the number of candidates derived from other entry procedures, and the success rates of those groups of candidates;

(iv) the number of Iraqi police forces who have received field training by international police trainers and the duration of such instruction; and

(v) attrition rates and measures of absenteeism and infiltration by insurgents.

(G) The estimated total number of Iraqi battalions needed for the Iraqi security forces to perform duties now being undertaken by coalition forces, including defending the borders of Iraq and providing adequate levels of law and order throughout Iraq.

(H) The effectiveness of the Iraqi military and police officer cadres and the chain of command.

(I) The number of United States and coalition advisors needed to support the Iraqi security forces and associated ministries.

(J) An assessment, in a classified annex if necessary, of United States military requirements, including planned force rotations, through the end of calendar year 2008.]

[SEC. 610. Each amount appropriated or otherwise made available in this division is designated as an emergency requirement and necessary to meet emergency needs pursuant to subsections (a) and (b) of section 204 of S. Con. Res. 21 (110th Congress), the concurrent resolution on the budget for fiscal year 2008.]

[SEC. 611. None of the funds appropriated or otherwise made available by this division may be obligated or expended to provide award fees to any defense contractor for performance that does not meet the requirements of the contract.]

[SEC. 612. No funds appropriated or otherwise made available by this division may be used by the Government of the United States to enter into an agreement with the Government of Iraq that would subject members of the Armed Forces of the United States to the jurisdiction of Iraq criminal courts or punishment under Iraq law.]

[SEC. 613. Notwithstanding any other provision of law, the Secretary of the Army may reimburse a member for expenses incurred

## [(TRANSFER OF FUNDS)]—Continued

by the member or family member when such expenses are otherwise not reimbursable under law: *Provided*, That such expenses must have been incurred in good faith as a direct consequence of reasonable preparation for, or execution of, military orders: *Provided further*, That reimbursement under this section shall be allowed only in situations wherein other authorities are insufficient to remedy a hardship determined by the Secretary, and only when the Secretary determines that reimbursement of the expense is in the best interest of the member and the United States. A]

[SEC. 614. In this division, the term “congressional defense committees” means—

(1) the Committees on Armed Services and Appropriations of the Senate; and

(2) the Committees on Armed Services and Appropriations of the House of Representatives.]

[SEC. 615. This division may be cited as the “Emergency Supplemental Appropriations Act for Defense, 2008”.] (*Emergency Supplemental Appropriations Act for Defense, 2008.*)

SEC. 101. None of the funds made available in this title shall be expended for payments under a cost-plus-a-fixed-fee contract for construction, where cost estimates exceed \$25,000, to be performed within the United States, except Alaska, without the specific approval in writing of the Secretary of Defense setting forth the reasons therefor.

SEC. 102. Funds made available in this title for construction shall be available for hire of passenger motor vehicles.

SEC. 103. Funds made available in this title for construction may be used for advances to the Federal Highway Administration, Department of Transportation, for the construction of access roads as authorized by section 210 of title 23, United States Code, when projects authorized therein are certified as important to the national defense by the Secretary of Defense.

SEC. 104. None of the funds made available in this title may be used to begin construction of new bases in the United States for which specific appropriations have not been made.

SEC. 105. None of the funds made available in this title shall be used for purchase of land or land easements in excess of 100 percent of the value as determined by the Army Corps of Engineers or the Naval Facilities Engineering Command, except: (1) where there is a determination of value by a Federal court; (2) purchases negotiated by the Attorney General or the designee of the Attorney General; (3) where the estimated value is less than \$25,000; or (4) as otherwise determined by the Secretary of Defense to be in the public interest.

SEC. 106. None of the funds made available in this title shall be used to: (1) acquire land; (2) provide for site preparation; or (3) install utilities for any family housing, except housing for which funds have been made available in annual Acts making appropriations for military construction.

SEC. 107. None of the funds made available in this title for minor construction may be used to transfer or relocate any activity from one base or installation to another, without prior notification to the Committees on Appropriations of both Houses of Congress.

SEC. 108. None of the funds made available in this title may be used for the procurement of steel for any construction project or activity for which American steel producers, fabricators, and manufacturers have been denied the opportunity to compete for such steel procurement.

SEC. 109. None of the funds available to the Department of Defense for military construction or family housing during the current fiscal year may be used to pay real property taxes in any foreign nation.

SEC. 110. None of the funds made available in this title may be used to initiate a new installation overseas without prior notification to the Committees on Appropriations of both Houses of Congress.

[SEC. 111. None of the funds made available in this title may be obligated for architect and engineer contracts estimated by the Government to exceed \$500,000 for projects to be accomplished in Japan, in any North Atlantic Treaty Organization member country, or in countries bordering the Arabian Sea, unless such contracts are awarded to United States firms or United States firms in joint venture with host nation firms.]

SEC. [112] 111. None of the funds made available in this title for military construction in the United States territories and possessions in the Pacific and on Kwajalein Atoll, or in countries bordering

the Arabian Sea, may be used to award any contract estimated by the Government to exceed \$1,000,000 to a foreign contractor: *Provided*, That this section shall not be applicable to contract awards for which the lowest responsive and responsible bid of a United States contractor exceeds the lowest responsive and responsible bid of a foreign contractor by greater than 20 percent: *Provided further*, That this section shall not apply to contract awards for military construction on Kwajalein Atoll for which the lowest responsive and responsible bid is submitted by a Marshallese contractor.

[SEC. 113. The Secretary of Defense is to inform the appropriate committees of both Houses of Congress, including the Committees on Appropriations, of the plans and scope of any proposed military exercise involving United States personnel 30 days prior to its occurring, if amounts expended for construction, either temporary or permanent, are anticipated to exceed \$100,000.]

[SEC. 114. Not more than 20 percent of the funds made available in this title which are limited for obligation during the current fiscal year shall be obligated during the last two months of the fiscal year.]

## (INCLUDING TRANSFER OF FUNDS)

SEC. [115] 112. Funds appropriated to the Department of Defense for construction in prior years shall be available for construction authorized for each such military department by the authorizations enacted into law during the current session of Congress.

SEC. [116] 113. For military construction or family housing projects that are being completed with funds otherwise expired or lapsed for obligation, expired or lapsed funds may be used to pay the cost of associated supervision, inspection, overhead, engineering and design on those projects and on subsequent claims, if any.

SEC. [117] 114. Notwithstanding any other provision of law, any funds made available to a military department or defense agency for the construction of military projects may be obligated for a military construction project or contract, or for any portion of such a project or contract, at any time before the end of the fourth fiscal year after the fiscal year for which funds for such project were made available, if the funds obligated for such project: (1) are obligated from funds available for military construction projects; and (2) do not exceed the amount appropriated for such project, plus any amount by which the cost of such project is increased pursuant to law.

[SEC. 118. (a) The Secretary of Defense, in consultation with the Secretary of State, shall submit to the Committees on Appropriations of both Houses of Congress, by February 15 of each year, an annual report, in unclassified and, if necessary classified form, on actions taken by the Department of Defense and the Department of State during the previous fiscal year to encourage host countries to assume a greater share of the common defense burden of such countries and the United States.

(b) The report under subsection (a) shall include a description of—

(1) attempts to secure cash and in-kind contributions from host countries for military construction projects;

(2) attempts to achieve economic incentives offered by host countries to encourage private investment for the benefit of the United States Armed Forces;

(3) attempts to recover funds due to be paid to the United States by host countries for assets deeded or otherwise imparted to host countries upon the cessation of United States operations at military installations;

(4) the amount spent by host countries on defense, in dollars and in terms of the percent of gross domestic product (GDP) of the host country; and

(5) for host countries that are members of the North Atlantic Treaty Organization (NATO), the amount contributed to NATO by host countries, in dollars and in terms of the percent of the total NATO budget.

(c) In this section, the term “host country” means other member countries of NATO, Japan, South Korea, and United States allies bordering the Arabian Sea.]

## (INCLUDING TRANSFER OF FUNDS)

SEC. [119] 115. In addition to any other transfer authority available to the Department of Defense, proceeds deposited to the Department of Defense Base Closure Account established by section 207(a)(1) of the Defense Authorization Amendments and Base Closure and Realignment Act (10 U.S.C. 2687 note) pursuant to section 207(a)(2)(C) of such Act, may be transferred to the account established by section 2906(a)(1) of the Defense Base Closure and Realignment Act of 1990 (10 U.S.C. 2687 note), to be merged with, and

to be available for the same purposes and the same time period as that account.

(INCLUDING TRANSFER OF FUNDS)

SEC. [120] 116. Subject to 30 days prior notification, or 14 days for a notification provided in an electronic medium pursuant to sections 480 and 2883, of title 10, United States Code, to the Committees on Appropriations of both Houses of Congress, such additional amounts as may be determined by the Secretary of Defense may be transferred to: (1) the Department of Defense Family Housing Improvement Fund from amounts appropriated for construction in "Family Housing" accounts, to be merged with and to be available for the same purposes and for the same period of time as amounts appropriated directly to the Fund; or (2) the Department of Defense Military Unaccompanied Housing Improvement Fund from amounts appropriated for construction of military unaccompanied housing in "Military Construction" accounts, to be merged with and to be available for the same purposes and for the same period of time as amounts appropriated directly to the Fund: *Provided*, That appropriations made available to the Funds shall be available to cover the costs, as defined in section 502(5) of the Congressional Budget Act of 1974, of direct loans or loan guarantees issued by the Department of Defense pursuant to the provisions of subchapter IV of chapter 169 of title 10, United States Code, pertaining to alternative means of acquiring and improving military family housing, military unaccompanied housing, and supporting facilities.

[SEC. 121. (a) Not later than 60 days before issuing any solicitation for a contract with the private sector for military family housing the Secretary of the military department concerned shall submit to the Committees on Appropriations of both Houses of Congress the notice described in subsection (b).

(b)(1) A notice referred to in subsection (a) is a notice of any guarantee (including the making of mortgage or rental payments) proposed to be made by the Secretary to the private party under the contract involved in the event of—

(A) the closure or realignment of the installation for which housing is provided under the contract;

(B) a reduction in force of units stationed at such installation; or

(C) the extended deployment overseas of units stationed at such installation.

(2) Each notice under this subsection shall specify the nature of the guarantee involved and assess the extent and likelihood, if any, of the liability of the Federal Government with respect to the guarantee.]

(INCLUDING TRANSFER OF FUNDS)

SEC. [122] 117. In addition to any other transfer authority available to the Department of Defense, amounts may be transferred from the accounts established by sections 2906(a)(1) and 2906A(a)(1) of the Defense Base Closure and Realignment Act of 1990 (10 U.S.C. 2687 note), to the fund established by section 1013(d) of the Demonstration Cities and Metropolitan Development Act of 1966 (42 U.S.C. 3374) to pay for expenses associated with the Homeowners Assistance Program. Any amounts transferred shall be merged with and be available for the same purposes and for the same time period as the fund to which transferred.

SEC. [123] 118. Notwithstanding this or any other provision of law, funds made available in this title for operation and maintenance of family housing shall be the exclusive source of funds for repair and maintenance of all family housing units, including general or flag officer quarters: *Provided*, That not more than \$35,000 per unit may be spent annually for the maintenance and repair of any general or flag officer quarters without 30 days prior notification, or 14 days for a notification provided in an electronic medium pursuant to sections 480 and 2883 of title 10, United States Code, to the Committees on Appropriations of both Houses of Congress, except that an after-the-fact notification shall be submitted if the limitation is exceeded solely due to costs associated with environmental remediation that could not be reasonably anticipated at the time of the budget submission: *Provided further*, That the Under Secretary of Defense (Comptroller) is to report annually to the Committees on Appropriations of both Houses of Congress all operation and maintenance expenditures for each individual general or flag officer quarters for the prior fiscal year].

[SEC. 124. Whenever the Secretary of Defense or any other official of the Department of Defense is requested by the subcommittee on Military Construction, Veterans Affairs, and Related Agencies of the

Committee on Appropriations of the House of Representatives or the subcommittee on Military Construction, Veterans Affairs, and Related Agencies of the Committee on Appropriations of the Senate to respond to a question or inquiry submitted by the chairman or another member of that subcommittee pursuant to a subcommittee hearing or other activity, the Secretary (or other official) shall respond to the request, in writing, within 21 days of the date on which the request is transmitted to the Secretary (or other official).]

SEC. [125] 119. Amounts contained in the Ford Island Improvement Account established by subsection (h) of section 2814 of title 10, United States Code, are appropriated and shall be available until expended for the purposes specified in subsection (i)(1) of such section or until transferred pursuant to subsection (i)(3) of such section.

[(INCLUDING TRANSFER OF FUNDS)]

[SEC. 126. None of the funds made available in this title, or in any Act making appropriations for military construction which remain available for obligation, may be obligated or expended to carry out a military construction, land acquisition, or family housing project at or for a military installation approved for closure, or at a military installation for the purposes of supporting a function that has been approved for realignment to another installation, in 2005 under the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101–510; 10 U.S.C. 2687 note), unless such a project at a military installation approved for realignment will support a continuing mission or function at that installation or a new mission or function that is planned for that installation, or unless the Secretary of Defense certifies that the cost to the United States of carrying out such project would be less than the cost to the United States of cancelling such project, or if the project is at an active component base that shall be established as an enclave or in the case of projects having multi-agency use, that another Government agency has indicated it will assume ownership of the completed project. The Secretary of Defense may not transfer funds made available as a result of this limitation from any military construction project, land acquisition, or family housing project to another account or use such funds for another purpose or project without the prior approval of the Committees on Appropriations of both Houses of Congress. This section shall not apply to military construction projects, land acquisition, or family housing projects for which the project is vital to the national security or the protection of health, safety, or environmental quality: *Provided*, That the Secretary of Defense shall notify the congressional defense committees within seven days of a decision to carry out such a military construction project.]

(INCLUDING TRANSFER OF FUNDS)

SEC. [127] 120. During the 5-year period after appropriations available in this Act to the Department of Defense for military construction and family housing operation and maintenance and construction have expired for obligation, upon a determination that such appropriations will not be necessary for the liquidation of obligations or for making authorized adjustments to such appropriations for obligations incurred during the period of availability of such appropriations, unobligated balances of such appropriations may be transferred into the appropriation "Foreign Currency Fluctuations, Construction, Defense", to be merged with and to be available for the same time period and for the same purposes as the appropriation to which transferred.

[SEC. 128. None of the funds in this title shall be used for any activity related to the construction of an Outlying Landing Field in Washington County, North Carolina.]

SEC. 121. Subject to 30 days prior notification, or 14 days for a notification provided in an electronic medium pursuant to sections 480 and 2883 of title 10, United States Code, provided by the Secretary of Defense or the Secretary of the military department concerned to the Committees on Appropriations of both Houses of Congress, during any fiscal year for which an act authorizing military construction projects for that fiscal year has been enacted but appropriations for that fiscal year have been provided under a continuing appropriations resolution, notwithstanding any new start restrictions contained in the continuing resolution, appropriations available for military construction, including those provided under the authority of the continuing resolution, may be used for projects authorized in the military construction authorization act for that fiscal year: *Provided*, That the use of the authority of this section shall not result in the cancellation of any previously authorized military construction project. *Grants to local educational agencies.*—Funds are allocated through four formulas—Basic Grants, Concentration Grants, Targeted Grants and Education Finance Incentive Grants—for local programs that provide extra academic support to help raise the achievement of eligible students in high-poverty schools or, in the case of schoolwide programs, help all students in high-poverty schools to meet challenging State academic standards. States must annually assess all students in at least reading, mathematics, and science. School districts must identify for improvement, and provide assistance to, participating schools that for two consecutive years do not make adequate yearly progress toward ensuring that all students reach the proficient level on the State assessments in reading and mathematics by 2014. Districts must provide students attending such schools the choice of attending another public school that is not identified for improvement. After three or more years of a school not making adequate yearly progress, low-income students who remain in the school may obtain supplemental educational services from a public- or private-sector provider. Schools that do not improve are subject to progressively stronger interventions and, after six years of not making adequate yearly progress, reconstitution under a restructuring plan. Fiscal year 2009 funds would be expended under a reauthorization proposal to expand the benefits of the program to more high school students, refine accountability systems, include science in accountability determinations, and give students in low-performing schools more options.

EDUCATION FOR THE DISADVANTAGED—Continued

*School improvement grants.*—Funds support grants to States to assist schools identified as in need of improvement because they have not met their student achievement goals for at least two consecutive years. Activities may include the development and implementation of school improvement plans, professional development for teachers and staff, corrective actions such as instituting a new curriculum, and the provision of public school choice and supplemental educational services.

*Reading first State grants.*—Funds provide assistance to State and local educational agencies in establishing reading programs for students in grades K–3 that are grounded in scientifically based reading research, in order to ensure that every student can read at grade level or above by the end of third grade.

*Early reading first.*—Competitive grants provide assistance to support local efforts to enhance the school readiness of young children, particularly those from low-income families, through scientific, research-based strategies and professional development that are designed to enhance the verbal skills, phonological awareness, letter knowledge, pre-reading skills, and early language development of children ages three through five. For the reauthorization of ESEA, the Department is proposing amendments to strengthen partnerships between preschool providers and institutions of higher education that provide professional development to early childhood educators.

*Striving readers.*—Funds support the development, implementation, and evaluation of scientifically based reading interventions for middle school or high school students reading significantly below grade level. The program complements the Reading First program, which improves reading in elementary schools.

*Math now for elementary school and middle school students.*—Funds support competitive grants to improve instruction in mathematics for students in kindergarten through 9th grade.

*Literacy through school libraries.*—Funds support competitive grants to local educational agencies to provide students with increased access to up-to-date school library materials and certified professional library media specialists.

*State agency migrant program.*—Funds support formula grants to States for educational services to children of migratory farmworkers and fishers, with resources and services focused on children who have moved within the past 36 months.

*State agency neglected and delinquent program.*—Funds support formula grants to States for educational services to children and youth through age 21 in local and State-run institutions for neglected or delinquent youths, and adult correction facilities.

*Evaluation.*—Funds support a series of impact studies designed to identify effective reading interventions in Title I and studies of the implementation of key No Child Left Behind Act requirements, including assessments, accountability systems, school improvement requirements, public school choice, and supplemental educational services.

*Migrant education projects.*—Funds support grants to institutions of higher education and nonprofit organizations that assist migrant students in earning a high school equivalency certificate or in completing their first year of college.

Impact Aid helps to replace the lost local revenue that would otherwise be available to educate federally connected children. The presence of certain students living on Federal property, such as students who are military dependents or who reside on Indian lands, can place a financial burden on local educational agencies that educate them. The property on which the children live and their parents work is exempt from local property taxes, denying local educational agencies access to the primary source of revenue used by most communities to finance education.

**Basic support payments.**—Payments will be made on behalf of approximately 1.0 million federally connected students enrolled in about 1,240 local educational agencies to assist them in meeting their operation and maintenance costs. Average per-student payments will be approximately \$1,100.

**Payments for children with disabilities.**—Payments in addition to those provided under the Individuals with Disabilities Education Act will be provided on behalf of approximately 55,000 federally connected students with disabilities in about

900 local educational agencies. Average per-student payments will be approximately \$900.

**Facilities maintenance.**—Funds will be used to provide emergency repairs for school facilities that serve military dependents and are owned by the Department of Education. Funds will also be used to transfer the facilities to local educational agencies.

**Construction.**—Approximately 20 construction grants will be awarded competitively to the highest need impact aid districts for emergency repairs and modernization of school facilities.

**Payments for Federal property.**—Payments will be made to approximately 200 local educational agencies in which real property owned by the Federal Government represents 10 percent or more of the assessed value of real property in the local educational agency.

Improving teacher quality:

Improving teacher quality State grants.—Funds support State and school district activities to prepare, train, and recruit high-quality teachers to improve student achievement.

Mathematics and science partnerships.—Funds support State and local efforts to improve students' academic achievement in mathematics and science by promoting strong teaching skills for elementary and secondary school teachers. These efforts may include the integration of teaching methods based on scientifically based research and technology into the curriculum.

Other Activities:

21st Century learning opportunities (formerly 21st Century community learning centers).—Funds in this revised program support formula grants to States, which award subgrants to public or private organizations to provide scholarships for extended learning opportunities to low-income students in under-performing schools.

Foreign language assistance.—Funds support competitive grants to States and school districts to create innovative model programs providing for the establishment, improvement, or expansion of foreign language study for elementary and secondary school students.

State assessments.—Funds support formula and competitive grants to States to develop and implement the assessments, and related accountability efforts, that States use to test children in reading, mathematics, and science.

Education for homeless children and youth.—Funds support formula grants to States to provide educational and support services that enable homeless children and youth to attend and achieve success in school.

Training and advisory services.—Funds support grants to regional equity assistance centers that provide technical assistance to school districts in addressing educational equity related to issues of race, gender, and national origin.

Rural education.—Funds support formula grants under two programs: Small, Rural Schools Achievement and Rural and Low-Income Schools. The Small, Rural Schools Achievement program provides rural local educational agencies with small enrollments with additional formula funds and flexibility in the use of other Federal formula funds. Funds under the Rural and Low-Income Schools program, which targets rural local educational agencies that serve concentrations of poor students, are allocated by formula to States, which in turn allocate funds to eligible local educational agencies within the States.

Supplemental education grants.—Funds support grants to the Federated States of Micronesia and to the Republic of the Marshall Islands in place of grant programs discontinued by the Compact of Free Association Amendments Act of 2003.

Comprehensive centers.—Funds support 21 comprehensive centers that focus on building State capacity to help school districts and schools meet the requirements of the No Child Left Behind Act.

The Indian Education programs support the efforts of local educational agencies and tribal schools to improve teaching and learning for the Nation's American Indian and Alaska Native Children.

*Grants to local educational agencies.*—Formula grants support local educational agencies in their efforts to reform elementary and secondary school programs that serve Indian students, with the goal of ensuring that such programs assist participating students in meeting the same academic standards as all other students. In 2007, the Department made 1,237 formula grants to local educational agencies and tribal schools serving more than 474,000 students.

*Special programs for Indian children.*—The Department makes competitive awards for demonstration projects in early childhood education and college preparation, as well as professional development grants for training Native American teachers and administrators for employment in school districts with concentrations of Indian students.

*National activities.*—Funds support research, evaluation, data collection, and related activities.

*Recruiting and training high-quality teachers and principals:*

*Teacher incentive fund.*—Funds support the development of performance-based compensation systems that reward teachers and principals who are raising student achievement and closing the achievement gap.

*Troops-to-teachers.*—Funds assist eligible members of the armed forces to obtain certification as teachers and to become highly qualified teachers.

*Transition to teaching.*—Funds support competitive grants to establish programs to recruit and retain mid-career professionals and recent college graduates as teachers in high-need schools.

*Teaching American history.*—Funds support competitive grants to school districts for activities to improve history instruction and provide professional development for teachers of American history.

*School choice and flexibility:*

*Charter schools grants.*—Funds support competitive grants to State educational agencies and charter schools to support the planning, design, initial implementation, and dissemination of information regarding charter schools. These schools are created by teachers, parents, and members of the community, and may receive waivers from certain local, State, and Federal regulations. A portion of the funding supports State efforts to assist charter schools in obtaining facilities.

*Credit enhancement for charter school facilities.*—Funds support competitive grants to State and local governments, nonprofit entities, and public and nonprofit consortia, to assist charter schools in acquiring, leasing, and renovating school facilities.

*Voluntary public school choice.*—Funds support competitive grants to State and local educational agencies to implement programs that provide students, particularly students who attend low-performing schools, with expanded public school choice options.

*Magnet schools assistance.*—Funds support competitive grants to local educational agencies to establish and operate magnet school programs that are part of an approved desegregation plan.

*Other activities:*

*Advanced placement.*—Funds support competitive grants to State educational agencies, local educational agencies, and national nonprofit educational entities to expand access for low-income individuals to Advanced Placement (AP) or International Baccalaureate (IB) courses, and grants to States to

pay test fees for low-income students who are enrolled in AP or IB courses.

**Ready-to-learn television.**—Funds support the development, distribution, and production of educational video programming and accompanying materials and services for preschool and elementary school children and their parents to facilitate student academic achievement.

**FIE programs of national significance.**—Funds support nationally significant projects to improve the quality of elementary and secondary education in order to help all children meet challenging State content and student achievement standards.

State Grants:

**Grants to States.**—Formula grants are provided to States to assist them in providing special education and related services to children with disabilities ages 3 through 21.

**Preschool grants.**—Formula grants provide additional funds to States to further assist them in providing special education and related services to children with disabilities ages 3 through 5 served under the Grants to States program.

The goal of both of these programs is to improve results for children with disabilities by assisting State and local edu-

cational agencies to provide children with disabilities with access to high quality education that will help them meet challenging standards and prepare them for employment and independent living.

**Grants for infants and families.**—Formula grants are provided to assist States to implement statewide systems of coordinated, comprehensive, multi-disciplinary interagency programs to provide early intervention services to children with disabilities, birth through age 2, and their families.

The goal of this program is to help States provide a comprehensive system of early intervention services that will enhance child and family outcomes.

**National activities.**—These activities include personnel preparation, technical assistance, and other activities to support State efforts to improve results for children with disabilities under the State Grants programs.

The goal of National Activities is to link States, school systems, and families to best practices to improve results for infants, toddlers, and children with disabilities.

Performance data related to program goals include:

*Vocational rehabilitation State grants.*—The basic State grants program provides Federal matching funds to State vocational rehabilitation (VR) agencies to assist individuals with physical or mental impairments to become gainfully employed. Services are tailored to the specific needs of the individual. Priority is given to serving those with the most significant disabilities. Current law requires that between 1.0 percent and 1.5 percent of the funds appropriated for the VR State grants program be set aside for Grants for Indians.

The program performance measures for this program are based on State VR agency performance indicators developed pursuant to Section 106 of the Rehabilitation Act. One of these indicators measures the percentage of general and combined State VR agencies that assist at least 55.8 percent of individuals receiving services to achieve an employment outcome. In 2006, 82 percent of the agencies met this performance criterion. Another indicator measures the percentage of general and combined State VR agencies that assist at least 85 percent of individuals with employment outcomes to achieve competitive employment. In 2006, 96 percent of general and combined agencies met this performance criterion. These outcome data are based on the approximately 352,140 individuals whose service records were closed in 2006 after receiving services.

The 2009 Budget reflects a multi-year Administration effort to reform job training programs, target resources to programs with documented effectiveness, and eliminate funding for duplicative and overlapping programs. Consistent with this crosscutting reform, the budget eliminates funding for three programs (Supported Employment State Grants, Projects with Industry, and the Migrant and Seasonal Farmworkers program). The services provided by these programs can continue to be provided by the larger Vocational Rehabilitation State Grants program.

*Client assistance State grants.*—Formula grants are made to States to provide assistance in informing and advising clients and applicants of benefits available under the Rehabilitation Act and, if requested, to pursue legal or administrative remedies to ensure the protection of the rights of individuals with disabilities.

*Training.*—Grants are made to States and public or non-profit agencies and organizations, including institutions of higher education, to increase the number of skilled personnel available for employment in the field of rehabilitation and to upgrade the skills of those already employed.

*Demonstration and training programs.*—Grants are made for programs that expand and improve the provision of rehabilitation services or that further the purposes of the Rehabilitation Act.

*Protection and advocacy of individual rights.*—Formula grants are made to State protection and advocacy systems to protect the legal and human rights of individuals with disabilities.

*Independent living.*—Grants are awarded to States and non-profit agencies to assist individuals with significant disabilities in their achievement of self-determined independent living goals. Grants are also awarded to provide support services to older blind individuals to increase their ability to care for their own needs.

*Program improvement.*—Funds are used to promote broad-based planning and coordination, improve accountability, and enhance the Department's ability to address critical areas of national significance in achieving the goals of the Rehabilitation Act. Examples of program improvement activities include technical assistance, dissemination, and performance measurement activities.

*Evaluation.*—Studies are conducted to evaluate the impact and effectiveness of various programs authorized under the Rehabilitation Act.

*Helen Keller National Center for Deaf-Blind Youths and Adults.*—The Center provides services to deaf-blind youths and adults and provides training and technical assistance to professional and allied personnel at its national headquarters center and through its regional representatives and affiliate agencies.

*National Institute on Disability and Rehabilitation Research.*—The Institute carries out a comprehensive and coordinated program of rehabilitation research and related activities. Through grants and contracts, it supports the conduct and dissemination of research and development aimed at improving the lives of individuals with disabilities. The Institute also promotes the development and utilization of new technologies to assist these individuals in achieving greater independence and integration into society.

*Assistive technology.*—Formula grants are made to States to implement comprehensive Statewide programs designed to maximize the ability of individuals with disabilities of all ages to obtain assistive technology. States conduct activities that include alternative financing programs, device reutilization programs, device loan programs, and device demonstrations. Funds also support national technical assistance activities.

This institution provides undergraduate and continuing education programs for persons who are deaf, and graduate programs related to deafness for students who are deaf and students who are hearing. The University also conducts basic and applied research and provides public service programs for persons who are deaf and persons who work with them.

Gallaudet operates two elementary and secondary education programs on the main campus of the University. The Kendall Demonstration Elementary School serves students who are deaf from infancy through age 15, and the Model Secondary School for the Deaf (MSSD) serves high school age students who are deaf. Both schools also develop and disseminate information on effective educational techniques and strategies for teachers and professionals working with students who are deaf or hard of hearing.

In 2007, the appropriation for Gallaudet represented 61.0 percent of the total revenue for university-level programs and 97.8 percent of the revenue related to the elementary and secondary schools. In addition, the University receives other Federal funds such as student financial aid, vocational rehabilitation, Endowment Grant program income, and competitive grants and contracts. The request includes \$6,000,000 for construction related to a soil stabilization problem affecting the MSSD dormitories and classroom building. The request also includes funds for the Endowment Grant program.

*Aid for institutional development:*

**Strengthening institutions.**—Funds support planning and development grants for improving academic programs and financial management at schools that enroll high proportions of disadvantaged students and have low per-student expenditures.

**Strengthening tribally controlled colleges and universities.**—Mandatory (College Cost Reduction and Access Act) funds support grants to American Indian tribally controlled colleges and universities with scarce resources to enable them to improve and expand their capacity to serve Indian students.

**Strengthening Alaska Native and Native Hawaiian-serving institutions.**—Mandatory (College Cost Reduction and Access Act) funds support Alaska Native and Native Hawaiian-serving institutions to enable them to improve and expand their capacity to serve Alaska Native and Native Hawaiian students.

**Strengthening historically Black colleges and universities.**—Discretionary and mandatory (College Cost Reduction and Access Act) funds support grants to help historically Black undergraduate institutions to improve and expand their capacity to serve students, and to strengthen management and fiscal operations.

**Strengthening historically Black graduate institutions.**—Funds support grants to help historically Black graduate institutions to improve and expand their capacity to serve students, and to strengthen management and fiscal operations.

**Minority science and engineering improvement.**—Funds support grants to predominantly minority institutions to help them make long-range improvements in science and engineering education and to increase the participation of minorities in scientific and technological careers.

**Strengthening predominantly Black institutions.**—Mandatory (College Cost Reduction and Access Act) funds support grants to predominantly Black institutions for programs in any of the following areas: science, technology, engineering, or mathematics; health education; internationalization or globalization; teacher preparation; or improving educational outcomes of African American males.

**Strengthening Asian American and Native American Pacific Islander-serving institutions.**—Mandatory (College Cost Reduction and Access Act) funds support grants to help Asian American and Native American Pacific Islander-serving institutions to improve and expand their capacity to serve students, and to strengthen management and fiscal operations.

**Strengthening Native American-serving nontribal institutions.**—Mandatory (College Cost Reduction and Access Act) funds support grants to help Native American-serving nontribal institutions to improve and expand their capacity to serve Native American students.

*Other aid for institutions:*

**Developing Hispanic-serving institutions.**—Discretionary funds support Hispanic-serving institutions to enable them to improve and expand their capacity to serve students. Mandatory (College Cost Reduction and Access Act) funds provide additional support for activities to increase the number of Hispanic and other low income students attaining degrees

in the fields of science, technology, engineering, or mathematics (STEM); and to develop model transfer and articulation agreements between 2-year Hispanic-serving institutions and 4-year institutions in STEM fields.

**International education and foreign language studies programs.**—Funds promote the development and improvement of domestic and overseas international and foreign language programs, and an Institute for International Public Policy.

**Fund for the improvement of postsecondary education.**—Funds support a broad range of postsecondary reform and improvement projects, as well as international consortia programs.

**Interest subsidy grants.**—Balances from prior year appropriations meet mandatory interest subsidy costs of construction loan commitments made prior to 1974.

*Assistance for students:*

**Federal TRIO programs.**—Discretionary funds support postsecondary education outreach and student support services to help individuals from disadvantaged backgrounds prepare for, enter, and complete college and graduate studies. Mandatory (College Cost Reduction and Access Act) funds provide additional support for the TRIO Upward Bound program.

**Gaining early awareness and readiness for undergraduate programs.**—Funds support early college preparation and awareness activities at the State and local levels to ensure that low-income elementary and secondary school students are prepared for and pursue postsecondary education.

**Javits fellowships.**—Funds support fellowships to students of superior ability who have financial need and who are pursuing doctoral degrees in the arts, humanities, and social sciences.

**Graduate assistance in areas of national need.**—Funds support fellowships to graduate students of superior ability who have financial need for study in areas of national need.

**Child care access means parents in school.**—Funds support a program designed to bolster the participation of low-income parents in postsecondary education through the provision of campus-based child care services.

*Other activities:*

**GPRA data/HEA program evaluation.**—Funds support data collection and evaluation activities for programs under the Higher Education Act of 1965, including such activities needed to comply with the Government Performance and Results Act of 1993.

**Advancing America through foreign language partnerships.**—Funds support an initiative to establish fully articulated language programs of study in languages critical to U.S. national security through grants to institutions of higher education for partnerships with school districts for language learning from kindergarten through high school and into advanced language learning at the postsecondary education level.

**College access challenge grant program.**—Mandatory (College Cost Reduction and Access Act) funds support partnerships among Federal, State and local government entities, and philanthropic organizations through matching challenge grants aimed at increasing the number of underrepresented students who enter and remain in postsecondary education.

HISTORICALLY BLACK COLLEGE AND UNIVERSITY CAPITAL FINANCING PROGRAM ACCOUNT—Continued

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond, as well as any administrative expenses for the College Housing and Academic Facilities Loans Program and the Historically Black College and University Capital Financing Program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis. These programs are administered separately but consolidated in the President's budget for presentation purposes.

*College Housing and Academic Facilities Loans Program.*—Funds for this activity pay the Federal costs for administering the College Housing and Academic Facilities Loans (CHAFL), College Housing Loans (CHL), and Higher Education Facilities Loans (HEFL) programs. Prior to 1994, these programs provided financing for the construction, reconstruction, and renovation of housing, academic, and other educational facilities. Although no new loans have been awarded since fiscal year 1993, costs for administering the outstanding loans will remain through 2030.

*Historically Black College and University Capital Financing Program.*—The Historically Black College and University (HBCU) Capital Financing Program provides HBCUs with access to capital financing for the repair, renovation, and construction of classrooms, libraries, laboratories, dormitories, instructional equipment, and research instrumentation. The Higher Education Amendments of 1992 granted the Department authority to enter into insurance agreements with a private for-profit Designated Bonding Authority to guarantee no more than \$375,000,000 in outstanding principal and unpaid accrued interest combined. The bonding authority issues the loans and maintains an escrow account in which five percent of each institution's principal is deposited. The program has now surpassed the statutory loan cap. The Administration's proposal for fiscal year 2009 would increase the loan cap to \$725 million. Analysis has shown that the program can no longer be operated as a zero subsidy program. As a result, the Administration's proposal would include \$10 million in loan subsidy, allowing the program to guarantee an estimated \$61 million in new loans in fiscal year 2009. The Administration will work with the Designated Bonding Authority to target available loan authority at those HBCUs whose financial status restricts their access to traditional sources of capital financing, such as bank loans and bond financing. The Administration is committed to working with Congress to identify and implement any legislative changes as necessary to target the new loan authority in this manner. In addition, the Administration's proposal provides increased funds for Federal administrative activities. These additional funds will allow the Department to expand the technical assistance activities that it provides to HBCUs to increase their financial stability and knowledge.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Federal Government resulting from direct loans obligated in fiscal year 1996 and beyond. The Federal Financing Bank (FFB) purchases bonds issued by the HBCU Designated Bonding Authority. Under the policies governing Federal credit programs, bonds purchased by the FFB and supported by the Department of Education with a letter of credit create the equivalent of a Federal direct loan. HBCU bonds are also available for purchase by the private sector, and these will be treated as loan guarantees. However, the Department anticipates that all HBCU loans will be financed by the FFB. The amounts in this account are a means of financing and are not included in the budget totals.

Notes: Figures include, in all years, institutional matching share of defaulted notes assigned from institutions to the Education Department.

Funding from the Student Financial Assistance account and related matching funds would provide nearly 6.6 million awards totaling over \$19.4 billion in available aid in award year 2009-2010.

**Federal Pell Grants.**—Pell Grants are the single largest source of grant aid for postsecondary education. Funding for this program is provided from two sources: discretionary appropriations and, beginning in fiscal year 2008, mandatory funding authorized under the College Cost Reduction and Access Act of 2007. In 2008, more than 5.7 million undergraduates will receive up to \$4,241 from discretionary funding and an additional \$490 from mandatory funds to help pay for postsecondary education. Undergraduate students establish eligibility for these grants under award and need determination rules set out in the authorizing statute and the annual appropriations act.

**Federal Work Study.**—Federal funds are awarded by formula to qualifying institutions, which provide part-time jobs

to eligible undergraduate and graduate students. Hourly earnings under this program must be at least equal to the Federal minimum wage. Federal funding in most cases pays 75 percent of a student's hourly wages, with the remaining 25 percent paid by the employer. The Federal Work-Study program also requires participating institutions to use at least seven percent of the total funds granted to compensate students employed in community service jobs. The 2009 Budget includes \$980 million for Work-Study, which would generate \$1.2 million in new aid to nearly 800,000 students.

**Funding tables.**—The following tables display student aid funds available, the number of aid awards, average awards, and the unduplicated count of recipients from any Federal student aid program. The tables include aid from programs in the Student Financial Assistance account, as well as aid from the Academic Competitiveness/SMART Grant, TEACH Grant, Federal Family Education Loan, William D. Ford Direct Student Loan, and proposed Loans for Short-Term Training programs. Loan amounts reflect the capital actually loaned, not the Federal cost of these loans. The data in these tables include matching funds wherever appropriate. The 2009 data in these tables reflect the Administration's legislative proposals.

These need-based programs provide grants to U.S. citizens who attend school on a full-time basis. Students receiving

ACADEMIC COMPETITIVENESS/SMART GRANT PROGRAM—Continued

grants must be eligible to receive a Pell Grant and, for second-, third-, and fourth-year students, must maintain at least a 3.0 grade point average.

*Academic Competitiveness Grants (ACG).* These grants are awarded to first-year and second-year students who have completed a rigorous course of study in high school. Grant levels are \$750 for first-year students and \$1,300 for second-year students.

*Science and Mathematics Access to Retain Talent (SMART) Grants.* These grants are awarded to third-year and fourth-year students pursuing a major in mathematics, science, or a foreign language deemed critical to national security. Grant levels are \$4,000 for both third- and fourth-year students.

Taken together with other Federal student aid, grants cannot exceed a student's cost of attendance. Program funding in excess of the amount needed to fund grants in a given year can be carried over for use in subsequent years; if the mandatory funding level is insufficient to fund program grants, grant levels are reduced.

In 2009, the Administration proposes to rescind \$652 million in unobligated balances. Remaining balances are sufficient to meet estimated demand in these programs through the 2010–2011 academic year, when the authorizing statute specifies the program will sunset.

The TEACH grant program, authorized by the College Cost Reduction and Access Act of 2007, awards annual grants of up to \$4,000 to full- or part-time undergraduate and graduate students who agree to teach mathematics, science, foreign languages, bilingual education, or special education, or reading at a high-poverty school for not less than four years within eight years of graduating. The program will begin awarding grants in the 2008–2009 award year. Students must have a grade point average of 3.25 or higher to be eligible to receive a grant. Students who fail to fulfill the service requirements must repay the grants, including interest accrued from the time of award.

Because TEACH grants turn into loans in cases where the service requirements are not fulfilled, for budget and accounting purposes the program is operated consistent with the requirements of the Federal Credit Reform Act of 1990. This program account records subsidy costs reflecting the net present value of the estimated lifetime Federal program costs for grants awarded in a given fiscal year. Under this approach the subsidy cost reflects the cost of grant awards net of expected future repayments for grants that are converted to loans. This treatment will be reexamined for the 2010 Budget, following a review of program implementation and the completion of final program regulations a different approach may ultimately be deemed more appropriate.

The 2009 Budget proposes to eliminate the Perkins Loan program and to recall the entire Federal portion of revolving funds held by participating institutions. The program is duplicative of the larger and more broadly available Federal Family Education Loan and Federal Direct Student Loan programs. The Perkins Loan account records amounts recalled from Perkins Loan institutions and subsequent repayments on outstanding Perkins Loans, as well as reimbursements of institutional funds to participating schools.

The Department of Education manages Federal student aid programs that will provide \$138 billion in Federal student aid grants and loans to 10.9 million students and parents in 2009. Primary responsibility for administering these programs lies with the Office of Postsecondary Education and the performance-based Federal Student Aid (FSA), which are both overseen by the Office of the Under Secretary. FSA was created by Congress in 1998 with a mandate to improve

STUDENT AID ADMINISTRATION—Continued

service to students and other student aid program participants, reduce student aid administration costs, and improve accountability and program integrity.

The 2009 Budget includes \$714 million for student aid administration. Most of these funds support systems maintained by private contractors to process student aid applications; provide and track aid awards to students, parents, and schools; and service the over-\$100 billion portfolio of William D. Ford Direct Student Loans.

Consistent with the 2008 Budget, the Department of Education and the Internal Revenue Service are continuing the implementation of a process to verify students' (and their parents') income, tax and certain household information appearing on their income tax return that they provided as part of their application for Federal student aid. This process is part of ongoing efforts to ensure students receive the correct amount of Federal student aid, and is a key component of the Administration's efforts to reduce erroneous payments government-wide.

The Higher Education Amendments of 1998 clarified that reserve funds held by public and non-profit guaranty agencies participating in the Federal Family Education Loan (FFEL) program are Federal property. These reserves are used to pay default claims from FFEL lenders and fees to support agency efforts to avert defaults. The Federal Government reimburses these reserves for default claim payments.

The following schedule reflects the balances in these guaranty agency funds. During 2008, OMB, Treasury and the Department will continue an ongoing review of the budgetary and financial presentation of these funds in the context of relevant laws and guidance.

The Federal Government operates two major student loan programs: the Federal Family Education Loan (FFEL) program and the William D. Ford Federal Direct Loan (Direct Loan) program. For 2009, the President is committed to improving the efficiency of both programs and allowing institutions of higher education to choose which of these two programs best meets their needs and the needs of their students.

This summary section outlines the structure of these two programs, highlights their differences and similarities, and provides text tables displaying program cost data; loan volume, subsidy, default, and interest rates; and other descriptive information. This section also concludes with a comprehensive discussion of the Administration's policy proposals for the Federal student financial aid programs.

From its inception in 1965 through 2007, the FFEL program has provided \$735 billion in loans to postsecondary students and their parents. Since July 1, 1994, the Direct Loan program has provided \$194 billion in new and consolidation loans to students and parents. Taken together, the FFEL and Direct Loan programs will make over \$70 billion in new loans available in 2008. Because funding for these two programs is provided on a permanent indefinite basis, for budget purposes they are considered separately from other Federal student financial assistance programs. The FFEL and Direct Loan programs should be viewed in combination with these other programs, however, as part of the overall Federal effort to expand access to higher education.

Loan capital in the FFEL program is provided by private lenders. State and private nonprofit guaranty agencies act as agents of the Federal Government, providing a variety of services including collection of some defaulted loans, default avoidance activities, and counseling to schools, students, and lenders. The Government provides substantial payments to these guaranty agencies. The Government also pays interest subsidies to lenders for certain borrowers, as well as most costs associated with loan defaults and other write-offs.

The Direct Loan program was created by the Student Loan Reform Act of 1993. Under this program, the Federal Government provides loan funds to postsecondary institutions directly. The Direct Loan program began operation in academic year 1994-1995 with 7 percent of overall loan volume and is expected to account for 20 percent in academic year 2008-2009. All eligible institutions are free to participate in either the Direct Loan or FFEL program.

The Direct Loan and FFEL programs share many basic elements. Each program offers four types of loans: Stafford, Unsubsidized Stafford, PLUS, and Consolidation. Evidence of financial need is required for a student to receive a subsidized Stafford loan. The other three loan programs are available to borrowers at all income levels. Loans can be used only to meet qualified educational expenses.

For Stafford Loans made on or after July 1, 2006, and before July 1, 2008, the borrower interest rate is fixed at 6.8 percent. The College Cost Reduction and Access Act of 2007 (CCRAA) included a phased interest rate reduction for new Stafford Loans, with fixed rates dropping to 6.0 percent on July 1, 2008, 5.6 percent on July 1, 2009, 4.5 percent on July 1, 2010, and 3.4 percent on July 1, 2011. Rates for new loans originated on or after July 1, 2012, return to 6.8 percent. For most loans made immediately prior to July 1, 2006, the borrower interest rate equals the 91-day Treasury bill rate plus 1.7 percent during in-school, grace, and deferment periods, and the 91-day Treasury bill plus

2.3 percent at all other times, with a cap of 8.25 percent, adjusted annually. Interest payments for these loans are fully subsidized by the Government while a student is in school and during grace and deferment periods. Unsubsidized Stafford loans generally carry the same borrower interest rate as Stafford loans, but have no interest subsidy. (Borrower interest rates on new Unsubsidized Stafford loans were not reduced under the CCRAA, and so will remain at a fixed 6.8 percent.) For most PLUS loans made prior to July 1, 2006, the borrower interest rate equals the 91-day Treasury bill rate plus 3.1 percent, with a cap of 9 percent and no interest subsidy. The fixed borrower interest rate on PLUS loans made on or after July 1, 2006, is 7.9 percent for Direct Loans and 8.5 percent for FFEL.

In the FFEL program, lenders may receive an interest subsidy, called a special allowance, from the Government to ensure a guaranteed rate of return on their loans. Special allowance payments vary by loan type, are determined quarterly, and are based on current borrower interest rates and market-yield formulas. For periods when the borrower interest rate exceeds the special allowance rate on loans made on or after April 1, 2006, lenders remit the difference to the government. The CCRAA reduced special allowance rates and created separate subsidy levels for for-profit and not-for-profit loan holders. For Stafford and Unsubsidized Stafford loans made on or after October 1, 2007, for example, the Federal Government must pay lenders a special allowance if the average 3-month commercial paper rate for a given quarter plus 1.79 percent for for-profit holders or 1.94 percent for not-for-profit holders is higher than the current interest rate charged to borrowers. The CCRAA also reduced the guarantee percentage paid to lenders on most defaults from 97 percent to 95 percent of unpaid loan principal. The Administration will closely monitor the effects of the CCRAA's provisions to ensure they do not cause unintended consequences, increase taxpayer costs, or upset the vital competitive balance between the Federal Family Education Loan and Direct Loan programs.

Consolidation loans allow borrowers to combine loans made under Title IV of the Higher Education Act—FFEL, Direct Loans, and Perkins Loans as well as some loans made under the Public Health Service Act. The interest rate for new FFEL and Direct Consolidation loans equals the weighted average of the interest rate on the loans consolidated, rounded up to the nearest one-eighth of one percent. Lenders may choose to offer a lower rate. Interest rates for all new FFEL and Direct Consolidation Loans are capped at 8.25 percent.

FFEL borrowers pay an origination fee to the Government equal to 3 percent of principal, and are also liable for a guaranty agency insurance premium of up to 1 percent of principal. Guaranty agencies and lenders have the option of paying some or all of a student borrower's insurance premium and origination fee. Direct Loan borrowers are charged an origination fee equal to 3 percent of principal. The Higher Education Reconciliation Act of 2005 included phased reductions that eliminate FFEL origination fees by July 1, 2010, and lower Direct Loan fees to 1 percent by the same date; the Act also required guaranty agencies to collect the insurance premium. Borrowers in both programs may be offered financial incentives to encourage prompt repayment.

Loan limits are also identical across the two programs. Loans made under both programs are discharged when borrowers die, are totally and permanently disabled, or, under some circumstances, declare bankruptcy.

Under both programs, new borrowers after October 1, 1998, who are employed as teachers in schools serving low-income populations for five consecutive, complete school years, qualify for up to \$5,000 in loan forgiveness; this benefit is increased to \$17,500 for mathematics, science, and special education

teachers considered highly qualified under criteria established in the No Child Left Behind Act of 2001. In addition, the CCRAA created a new loan forgiveness program for public-sector employees under which qualifying borrowers who have worked for 10 years while making payments on their student loan will have any remaining loan balance forgiven. This new benefit is only available in the Direct Loan program, though FFEL borrowers may access the benefit by taking out a Direct Consolidation Loan. Under the CCRAA, loan forgiveness for public-sector employees is available for all borrowers, regardless of when they took out their loans; the Budget proposes to limit eligibility to new loans originated on or after July 1, 2009. The five-year savings from this proposal are \$1.464 billion.

Borrowers under Direct Loans may choose from among five repayment plans including income-contingent repayment ("pay-as-you-can"), under which annual repayment amounts vary based on the income of the borrower and the amount borrowed, and payments can be made over 25 years. Borrowers may switch between repayment plans at any time. (Income-contingent repayment is not available to Direct PLUS borrowers). FFEL borrowers may choose from among four repayment plans. Repayment periods under standard, graduated, and income-sensitive repayment may not exceed 10 years. An extended repayment plan of up to 25 years is available for new borrowers with outstanding loans totalling more than \$30,000. FFEL borrowers may change repayment plans annually. The CCRAA created a new partial economic hardship deferment that allows qualifying student borrowers in both programs to choose an income-based repayment plan under which Stafford Loan interest payment are paid by the Federal Government for up to three years and outstanding balances are forgiven after 25 years in repayment. The interest subsidy is also available for the Stafford Loan portion of Consolidation Loans. The Budget proposes to eliminate the interest subsidy under the income-based plan, as similar subsidies are already available through economic hardship and unemployment deferments. The five-year savings from this proposal are \$457 million.

The CCRAA created a pilot program under which the rights to originate PLUS loans to parents in each state will be determined through a competitive auction. The two lowest bidders in each state will win the exclusive right to originate new PLUS loans at institutions in that State beginning on July 1, 2009. New auctions will be held every two years.

The following tables display performance indicators and program data; including projected overall Direct Loan and FFEL costs; loan volume, number of loans, and average loan amount; descriptive data, and program activity assuming passage of the President's budget and legislative request.

<sup>1</sup> Default rates displayed in this table, which reflect projected defaults over the life of a loan cohort, are used in developing program cost estimates. The Department uses other rates based on defaults occurring in the first two years of repayment to determine institutional eligibility to participate in Federal loan programs. These two-year rates tend to be lower than those included in this table.

FFEL program payments are made to lenders (interest subsidies, loan defaults and discharges) and guaranty agencies (default collection costs, administrative services). These payments are partially offset by borrower origination fees and lender fees for originations and an annual consolidation loan holder fee. In Direct Loans, cash outflows are primarily payments to Treasury. Cash inflows include principal and interest payments on outstanding Direct Loans.

The following table shows government payments to and from lenders, guaranty agencies, and borrowers for specific years, regardless of when loans were originated. These flows do not reflect long-term costs to the government, nor the value of outstanding loan assets: these are reflected in credit reform subsidy estimates. For example, defaulted FFEL loans that are repaid through consolidation produce cash revenue in the current year as the underlying loans are paid off, which is included in the table. But these consolidations also incur estimated future costs — such as subsequent re-defaults, loan discharges, and lender interest subsidy payments — that are not reflected.

The Federal Credit Reform Act of 1990 accounts for differences in the amount and timing of cash flows among direct and guaranteed loan programs to make cost estimates for these programs comparable with each other and other federal programs.

by the College Cost Reduction and Access Act of 2007 resulted in a net decrease in FFEL program costs and an increase in Direct Loan program costs. As a result, for new loans the cost difference between FFEL and Direct Loans is smaller than in previous years.

For Consolidation Loans, Direct Loan costs are substantially higher than those in FFEL, largely because roughly half of Direct Loan consolidation volume is from underlying defaulted loans. In comparison, consolidations from default represent less than 2 percent of FFEL consolidation volume. Consolidations from default are much more likely to re-default than other consolidations, resulting in much higher Federal costs. Information on FFEL and Direct Loan consolidation costs and loan volume composition are provided below, as is a table comparing costs across programs by subsidy component.

The chart above compares total FFEL and Direct Loan costs on a subsidy rate basis: program costs calculated under the Federal Credit Reform Act of 1990 and comparably projected estimates of Federal administrative costs, including expenses related to FFEL program oversight and servicing the Direct Loan portfolio. As with any long-term projection, the comparison is based on assumed future interest rates, borrower characteristics, administrative costs, and other factors over the life of the loan cohort. To the degree actual conditions differ from projections, estimated subsidy rates will change.

Cost estimates for the two programs have changed since the 2008 President's Budget, as legislative changes enacted

Totals may not add due to rounding.

The Federal Credit Reform Act of 1990 requires the cost of existing loan cohorts to be reestimated to reflect changes in actual and assumed borrower behavior, interest rates, and other factors. The following table shows the impact of these reestimates in FFEL and Direct Loans.

**Loan Disbursement and Subsidy Costs**

**Total Subsidy Costs—1992–2008**

	FFEL	Direct Loans
Original Subsidy Costs .....	+\$78.0bil	+\$0.7bil
Cumulative Reestimates .....	+\$1.0bil	+\$11.1bil
Net Subsidy Costs .....	+\$78.9bil	+\$11.8bil
Total Disbursements .....	\$745.1bil	\$225.7bil

Changes in interest rate projections are a significant factor in FFEL and Direct Loan reestimates; recent declines in interest rates below historical averages have accordingly been a major driver in changes to program costs. Changes in borrower behavior (notably, prepayment of loans through consolidation and reduction in defaults) have also contributed to these reestimates. The average lifetime subsidy rate for all outstanding FFEL loans after the most recent reestimate is 10.59; the comparable Direct Loan rate is 5.25. For the oldest loan cohorts, many of the subsidy costs have been expended (e.g., in-school interest subsidies).

As required by the Federal Credit Reform Act of 1990, this program account records the subsidy costs associated with Federal Family Education Loans (FFEL), formerly guaranteed student loans (GSL), committed in 1992 and beyond. Beginning with the 1993 cohort, mandatory administrative costs, specifically contract collection costs, are included in the FFEL subsidy estimates of each year's cohort. Subsidy amounts are estimated on a net present value basis.

A description of the FFEL program and accompanying tables are included under the Federal Direct Student Loan program account.

*Loans for Short-Term Training.*—The Administration proposes a new loan program, jointly administered by the De-

partments of Education and Labor, to help dislocated, unemployed, transitioning, or older workers and students. This market-oriented program will allow participants to acquire or upgrade job-related skills through short-term training programs. These programs are usually shorter than 10 weeks and are not currently eligible for Federal student aid. Eligible programs for the new loans must lead to an industry credential, certificate, or employer-endorsed technological/occupational skills.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated and loan guarantees committed in 2009 and beyond (including modifications of direct loans and loan guarantees that resulted from obligations or commitments in any year). Subsidy amounts are estimated on a present value basis.

**Research and Statistics:**

**Research, development, and dissemination.**—Funds support a diverse portfolio of directed research, evaluation studies, research and development centers, and dissemination activities that provide parents, teachers, and schools with scientifically based information on effective educational practice.

**Statistics.**—Funds support the Department's statistical data collection activities, which are conducted by the National Center for Education Statistics (NCES). NCES collects, analyzes, and disseminates statistics on education at all levels, from preschool through postsecondary and adult education, including statistics on international education activities.

**Regional educational laboratories.**—Funds support a network of 10 regional laboratories that provide expert advice, including training and technical assistance, to help States and school districts apply proven research findings in their school improvement efforts. 2009 funds would be used for the fourth year of 5-year contracts for these laboratories and for an evaluation.

**Assessment.**—Funds support the National Assessment of Educational Progress (NAEP). NAEP administers assessments to samples of students in order to gather reliable information about educational attainment in important academic areas. Funds support collection and reporting of national, State, and long-term trend information, including the conduct of biennial State NAEP in reading and mathematics at grades 4 and 8. In 2009, funds will also support costs of conducting assessments in U.S. History, civics, and geography in 2010 and of expanding 12th grade State NAEP to include all States in 2011.

**Research in special education.**—Funds support research to address gaps in scientific knowledge in order to improve special education and early intervention services and results for infants, toddlers, and children with disabilities.

**Statewide data systems.**—Funds support competitive awards to State educational agencies to foster the design, development, and implementation of longitudinal data systems, including pre-kindergarten through grade 12. In 2009, funding will also support data coordination activities and the expansion

of these data systems to include postsecondary and workforce information.

**Special education studies and evaluations.**—Funds support studies, evaluations, and assessments related to the implementation of the Individuals with Disabilities Education Act in order to improve special education and early intervention services and results for infants, toddlers, and children with disabilities.

The Program Administration account includes the direct Federal costs of providing grants and administering elementary and secondary education, Indian education, English language acquisition, higher education, career, technical and adult education, special education programs, and programs for persons with disabilities. It also supports assessment, statistics, and research activities.

In addition, this account includes the cost of providing centralized support and administrative services, overall policy development, and strategic planning for the Department. Included in the centralized activities are rent and mail services; telecommunications; contractual services; financial management and accounting, including payments to schools, education agencies and other grant recipients, and preparation of auditable financial statements; information technology services; personnel management; personnel security; budget formulation and execution; program evaluation; legal services; congressional and public relations; and intergovernmental affairs.

Included in this account is the Department of Education's cost to relocate staff and renovate buildings occupied by Department staff.

Also included in this account are contributions from the public. Activities supported include receptions for Blue Ribbon Schools, Historically Black Colleges and Universities, and School Recognition. Contributions not designated for a specific purpose are in the account's Gifts and Bequests Miscellaneous Fund.

*Reimbursable program.*—Reimbursements to this account are for providing administrative services to other agencies and in-kind travel.

GENERAL PROVISIONS

SEC. 301. No funds appropriated in this Act may be used for the transportation of students or teachers (or for the purchase of equipment for such transportation) in order to overcome racial imbalance in any school or school system, or for the transportation of students or teachers (or for the purchase of equipment for such transportation) in order to carry out a plan of racial desegregation of any school or school system.

SEC. 302. None of the funds contained in this Act shall be used to require, directly or indirectly, the transportation of any student to a school other than the school which is nearest the student's home, except for a student requiring special education, to the school offering such special education, in order to comply with title VI of the Civil Rights Act of 1964. For the purpose of this section an indirect requirement of transportation of students includes the transportation of students to carry out a plan involving the reorganization of the grade structure of schools, the pairing of schools, or the clustering of schools, or any combination of grade restructuring, pairing or clustering. The prohibition described in this section does not include the establishment of magnet schools.

SEC. 303. No funds appropriated in this Act may be used to prevent the implementation of programs of voluntary prayer and meditation in the public schools.

(TRANSFER OF FUNDS)

SEC. 304. Not to exceed 1 percent of any discretionary funds (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) which are appropriated for the Department of Education in this Act may be transferred between appropriations, but no such appropriation shall be increased by more than 3 percent by any such transfer: *Provided*, That the transfer authority granted by this section shall be available only to meet emergency needs and shall not be used to create any new program or to fund any project or

activity for which no funds are provided in this Act: *Provided further*, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.

SEC. 305. None of the funds made available in this Act may be used to promulgate, implement, or enforce any revision to the regulations in effect under section 496 of the Higher Education Act of 1965 on June 1, 2007, until legislation specifically requiring such revision is enacted.

SEC. 306. (a) MAINTENANCE OF INTEGRITY AND ETHICAL VALUES WITHIN DEPARTMENT OF EDUCATION.—Within 60 days after the enactment of this Act, the Secretary of Education shall implement procedures—

(1) to assess whether a covered individual or entity has a potential financial interest in, or impaired objectivity towards, a product or service purchased with, or guaranteed or insured by, funds administered by the Department of Education or a contracted entity of the Department; and

(2) to disclose the existence of any such potential financial interest or impaired objectivity.

(b) REVIEW BY INSPECTOR GENERAL.—

(1) Within 60 days after the implementation of the procedures described in subsection (a), the Inspector General of the Department of Education shall report to the Committees on Appropriations of the House of Representatives and the Senate on the adequacy of such procedures.

(2) Within 1 year, the Inspector General shall conduct at least 1 review to ensure that such procedures are properly implemented and are effective to uncover and disclose the existence of potential financial interests or impaired objectivity described in subsection (a).

(3) The Inspector General shall report to such Committees any recommendations for modifications to such procedures that the Inspector General determines are necessary to uncover and disclose the existence of such potential financial interests or impaired objectivity.

(c) DEFINITION.—For purposes of this section, the term “covered individual or entity” means—

(1) an officer or professional employee of the Department of Education;

(2) a contractor or subcontractor of the Department, or an individual hired by the contracted entity;

(3) a member of a peer review panel of the Department; or

(4) a consultant or advisor to the Department.

SEC. 307. (a) Notwithstanding section 8013(9)(B) of the Elementary and Secondary Education Act of 1965, North Chicago Community Unit School District 187, North Shore District 112, and Township High School District 113 in Lake County, Illinois, and Glenview Public School District 34 and Glenbrook High School District 225 in Cook County, Illinois, shall be considered local educational agencies as such term is used in and for purposes of title VIII of such Act for fiscal years 2008 and 2009.

(b) Notwithstanding any other provision of law, federally connected children (as determined under section 8003(a) of the Elementary and Secondary Education Act of 1965) who are in attendance in the North Shore District 112, Township High School District 113, Glenview Public School District 34, and Glenbrook High School District 225 described in subsection (a), shall be considered to be in attendance in the North Chicago Community Unit School District 187 described in subsection (a) for purposes of computing the amount that the North Chicago Community Unit School District 187 is eligible to receive under subsection (b) or (d) of such section for fiscal years 2008 and 2009 if—

(1) such school districts have entered into an agreement for such students to be so considered and for the equitable apportionment among all such school districts of any amount received by the North Chicago Community Unit School District 187 under such section; and

(2) any amount apportioned among all such school districts pursuant to paragraph (1) is used by such school districts only for the direct provision of educational services.

SEC. 308. Prior to January 1, 2008, the Secretary of Education may not terminate any voluntary flexible agreement under section 428A of the Higher Education Act of 1965 that existed on October 1, 2007. With respect to an entity with which the Secretary of Education had a voluntary flexible agreement under section 428A of the Higher Education Act of 1965 on October 1, 2007 that is not cost neutral, if the Secretary terminates such agreement on or after

January 1, 2008, the Secretary of Education shall, not later than March 31, 2008, negotiate to enter, and enter, into a new voluntary flexible agreement with such entity so that the agreement is cost neutral, unless such entity does not want to enter into such agreement.】

【SEC. 309. Notwithstanding section 102(a)(4)(A) of the Higher Education Act of 1965, the Secretary of Education shall not take into account a bankruptcy petition filed in the United States Bankruptcy Court for the Northern District of New York on February 21, 2001, in determining whether a nonprofit educational institution that is a subsidiary of an entity that filed such petition meets the definition of an “institution of higher education” under section 102 of that Act.】

【(RESCISSION OF FUNDS)】

【SEC. 310. Of the unobligated balances available under the Federal Direct Student Loan Program Administration authorized by section

458 of the Higher Education Act and the Higher Education Reconciliation Act of 2005, \$25,000,000 are rescinded.】

【SEC. 311. The Secretary of Education shall—

(1) deem each local educational agency that received a fiscal year 2007 basic support payment for heavily impacted local educational agencies under section 8003(b)(2) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7703(b)(2)) as eligible to receive a fiscal year 2008 basic support payment for heavily impacted local educational agencies under such section; and

(2) make a payment to such local educational agency under such section for fiscal year 2008. 】【*(Department of Education Appropriations Act, 2008.)*】

Naval Reactors is responsible for all naval nuclear propulsion work, beginning with reactor technology development, continuing through reactor operation, and ending with reactor plant disposal. The Program ensures the safe and reliable operation of reactor plants in nuclear-powered submarines and aircraft carriers (constituting 40 percent of the Navy's combatants), and fulfills the Navy's requirements for new nuclear propulsion plants that meet current and future national defense requirements. Naval Reactors will continue to develop nuclear reactor plant components and systems for the Navy's submarines and next-generation aircraft carriers, continue to maintain the highest standards of environmental stewardship, and address the Program's 50+ year old infrastructure.

Weapons Activities provides for the maintenance and refurbishment of nuclear weapons to sustain confidence in their

safety, reliability, and performance; expansion of scientific, engineering, and manufacturing capabilities to enable certification of the enduring nuclear weapons stockpile; and manufacture of nuclear weapon components under a comprehensive test ban. Weapons Activities also provides for continued maintenance and investment in the Department's enterprise of nuclear stewardship, including the evolution of the Nuclear Weapons Complex to be more responsive and cost effective. Complex Transformation will be realized through a combination of ongoing and new activities that will lead to the elimination of expensive and unneeded redundancies and ensure improvements in efficiency. The Department also supports the capability to return to underground testing, if so directed by the President. The major elements of the program include the following:

**Directed Stockpile Work.**—Encompasses all activities that directly support specific weapons in the stockpile. These activities include: maintenance and day-to-day care; planned refurbishment; reliability assessment; weapon dismantlement and disposal; and research, development, and certification technology efforts to meet stockpile requirements.

**Campaigns.**—Focuses on scientific, technical, and engineering efforts to develop and maintain critical capabilities and tools needed to support stockpile refurbishment and continued assessment and certification of the stockpile for the long-term in the absence of underground nuclear testing.

**Readiness in Technical Base and Facilities.**—Provides the underlying physical infrastructure and operational readiness for the Directed Stockpile Work and Campaign activities. These activities include ensuring that facilities are operational, safe, secure, and compliant with regulatory requirements, and that a defined level of readiness is sustained at facilities funded by the Office of Defense Programs.

**Secure Transportation Asset.**—Provides for the safe, secure movement of nuclear weapons, special nuclear material, and weapon components between military locations and nuclear complex facilities within the United States. It includes program direction funding for couriers.

**Nuclear Weapons Incident Response.**—Manages strategically placed people and equipment to provide a technically trained response to any nuclear or radiological emergency worldwide and continue to counter nuclear terrorism.

**Facilities and Infrastructure Recapitalization.**—Executes a multi-year effort to restore the physical infrastructure of the nuclear weapons complex and supports the responsive infrastructure requirements of the Nuclear Posture Review. This capital renewal and sustainability program focuses on deferred maintenance reduction of mission-critical facilities and infrastructure, and construction of selected utility line items. The Program also is working towards institutionalizing responsible and accountable facility management within NNSA consistent with industry best practices.

**Transformation Disposition.**—Eliminates excess facilities through demolition, transfer, or sale and ensures the vitality of the nuclear weapons complex into the future. The program basis will be linked to Complex Transformation along with routine excess facility disposition and Real Property Asset Management and the inherent stewardship required for disposition of excess facilities.

**Environmental Projects and Operations program.**—Is responsible for management of long-term environmental stewardship at NNSA sites that have a continuing mission and ongoing operations after cleanup is complete. Activities include groundwater treatment, environmental monitoring of surface water and groundwater, soils and landfill remedies; and reporting and liaison requirements for various states and surveillance/monitoring of contaminated, excess buildings.

**Defense Nuclear Security.**—Provides protection for NNSA personnel, facilities, and nuclear weapons. Provides for all safeguards and security requirements including protective

forces and systems (except for personnel security investigations) at NNSA landlord sites, specifically the Lawrence Livermore National Laboratory, Los Alamos National Laboratory, Sandia National Laboratories, the Nevada Test Site, Kansas City Plant, Pantex Plant, Y-12 National Security Complex, and the Savannah River Site Tritium Facilities.

**Cyber Security.**—Provides the requisite guidance needed to ensure that sufficient information technology and information management security safeguards are implemented throughout the NNSA complex.

The mission of this program is to: 1) prevent the spread of materials, technology, and expertise relating to weapons of mass destruction; 2) advance the technologies to detect

the proliferation of weapons of mass destruction (WMD) worldwide; 3) and eliminate or secure inventories of surplus materials and infrastructure usable for nuclear weapons. The program addresses the danger that hostile nations or terrorist groups may acquire WMD or weapons-usable material, dual-use production technology or weapons of mass destruction expertise. The major elements of the program include the following:

*Nonproliferation and Verification Research and Development.*—Conducts long-term research and development leading to prototype demonstrations and detection systems for strengthening U.S. capabilities to respond to current and projected threats to national and homeland security posed by the proliferation of nuclear weapons and diversion of special nuclear material. The program interfaces directly with NNSA and other Department of Energy (DOE) programs as well as other U.S. Government agencies to provide innovative tools, techniques, technologies, and capabilities to meet their nonproliferation, counter-proliferation, and counter-terrorism mission requirements.

*Nonproliferation and International Security.*—Provides policy and technical support to address the entire proliferation spectrum to deny countries the opportunities to overtly acquire the materials, technology, and expertise necessary to develop WMD programs. The program works to strengthen nonproliferation treaties, regimes, and international institutions; expand the reach of the nonproliferation regime by enhancing foreign compliance with nonproliferation norms and obligations; and eliminate proliferation programs and stockpiles of WMD materials thereby reducing the threat of WMD terrorism. Specific activities include implementing and monitoring transparent WMD reductions; strengthening indigenous international safeguards and export controls systems in other countries; transitioning WMD expertise and infrastructure to peaceful purposes; realizing the nonproliferation opportunities associated with the global expansion of nuclear energy; improving associated international safeguards, export control, and interdiction regimes; serving as the technical edge within the interagency for various interdiction activities; and developing and implementing transparency measures to ensure that nuclear materials are secure.

*International Nuclear Materials Protection and Cooperation.*—Continues to improve the security of nuclear material and nuclear warheads in Russia and other countries of proliferation concern by installing Material, Protection, Control and Accounting (MPC&A) upgrades and providing sustainability support to sites with previously installed MPC&A upgrades. Reducing the potential for diversion of nuclear warheads and nuclear materials has been a critical priority for the United States. The United States, through DOE/NNSA's Second Line of Defense Program, will continue to work with international partners to enhance their capabilities to detect, deter, and interdict illicit trafficking in nuclear and other radioactive materials, including the screening of containerized cargo at strategic international seaports.

*Elimination of Weapons-Grade Plutonium Production.*—Enhances nuclear nonproliferation by assisting Russia in ceasing its production of weapons-grade plutonium by providing replacement power production capacity. This will result in the shutdown of the world's last three plutonium producing reactors, and eliminate the production of 1.2 metric tons of plutonium per year.

*Fissile Materials Disposition.*—Conducts activities in both the United States and Russia to dispose of fissile materials that would pose a threat to the United States if acquired by hostile nations or terrorist groups. The program focuses U.S. efforts to accomplish the Plutonium Management and Disposition Agreement between the United States and Russia, which commits both countries to dispose of 34 metric tons

of surplus weapons-grade plutonium; and separate efforts to down blend surplus U.S. highly enriched uranium.

**Global Threat Reduction Initiative (GTRI).**—Through the GTRI, the Department works with Russia and works or plans to work in over 90 other countries worldwide to reduce and protect vulnerable nuclear and radiological material located at civilian sites worldwide that could be used to make a crude nuclear bomb or radiological “dirty bomb.” GTRI has three goals—convert, remove, protect—that provide a comprehensive approach to achieving its mission and denying terrorist access to nuclear and radiological materials.

**Convert.**—Convert research reactors from the use of highly enriched uranium (HEU) to low enriched uranium; this results in permanent threat reduction because the minimization, and to the extent possible, the elimination of HEU in civilian applications means one less source of bomb material.

**Remove.**—Remove or dispose of excess nuclear and radiological material; this results in permanent threat reduction because each kilogram or curie of this dangerous material that is removed reduces the risk that a terrorist bomb will go off.

**Protect.**—Protect at-risk nuclear and radiological materials from theft and sabotage; this results in threat reduction by rapidly upgrading the physical security at vulnerable sites until a permanent threat reduction solution can be implemented.

The Pajarito Plateau Homesteaders Compensation Fund is dedicated to the settlement of two lawsuits in the United States District Court for the District of New Mexico. This fund was authorized by Section 3147 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005, (P.L. 108-375) to pay claims for the Pajarito Plateau homesteaders pertaining to acquisition of their lands and property during the Manhattan Project.

The Defense Environmental Cleanup program is responsible for identifying and reducing risks and managing waste at sites where the Department carried out defense-related nuclear research and production activities that resulted in radioactive, hazardous, and mixed waste contamination requiring remediation, stabilization, or some other type of cleanup action. The budget displays the cleanup program by site.

**Closure Sites.**—Funds geographic sites that are nearing cleanup completion or have completed cleanup and are awaiting transfer to the Office of Legacy Management or other DOE program or private sector entity. The sites include Ash-tabula, Fernald, and Miamisburg (Mound). Also, funds post-closure administration costs after physical completion.

**Hanford Site.**—Funds the Hanford site cleanup and environmental restoration to protect the Columbia River. Because of the immensity of the cleanup program at the Hanford site, the cleanup is managed by two site offices: the Richland Operations Office and the Office of River Protection.

The Hanford site (Richland) is responsible for cleanup of most of the geographic area on the Hanford site, and its projects are displayed in two accounts: projects to be completed by 2012 and projects to be completed before 2035. The primary cleanup focus is the safe storage, treatment and disposal of Hanford's legacy wastes and environmental restoration. Risk to the public, workers, and the environment will be reduced by removing contamination before it migrates to the Columbia River.

The Office of River Protection at the Hanford site is responsible for the storage, retrieval, treatment, immobilization, and disposal of tank waste and the operation, maintenance, engineering, and construction activities in the 200 Area Tank Farms. Its budget has two components, the operation and maintenance of radioactive liquid waste tank farms and construction of the Waste Treatment and Immobilization Plant.

**Idaho.**—Funds the Idaho Cleanup Project, which is aimed at reducing the risk of contamination reaching the Snake River Plain Aquifer from nuclear and hazardous waste buried or stored on-site. It also funds efforts to eliminate infrastructure costs by aggressively conducting cleanup operations to reduce the site "footprint"; stabilize legacy spent nuclear fuel through 2012; and treat and dispose of the sodium bearing tank wastes, close tank farms, perform initial tank soils remediation work as well as preparation of the stored high-level waste calcine for final disposition.

**NNSA Sites.**—Funds the safe and efficient cleanup of the environmental legacy at National Nuclear Security Administration sites including Los Alamos National Laboratory, Nevada Site, and the Separations Process Research Unit, as

well as non-defense activities at Los Alamos and Idaho. The cleanup strategy is a risk-based approach that focuses first on those contaminant plumes and sources that are the greatest contributors to risk. The overall goal is to ensure that risks to the public and workers are controlled, followed by work to clean up soil and groundwater using a risk-based methodology. NNSA is responsible for long-term stewardship of its sites after physical cleanup is completed.

**Oak Ridge.**—Funds defense-related cleanup of the three facilities that make up the Oak Ridge Reservation: the East Tennessee Technology Park, the Oak Ridge National Laboratory, and the Y-12 Plant. The overall cleanup strategy is based on surface water considerations, encompassing five distinct watersheds that feed the Clinch River. Cleanup actions will ensure that waste is contained; on-site surface water quality is improved to meet required standards; and off-site users of the Clinch River remain protected.

**Savannah River Site.**—Funds the safe stabilization, treatment, and disposition of legacy nuclear materials, spent nuclear fuel, and waste at the Savannah River site. The cleanup funding is displayed in three accounts: projects to be completed by 2012, projects to be completed before 2035, and projects related to the Radioactive Liquid Waste Tank Farms, including Defense Waste Processing Facility operations. The Savannah River cleanup strategy has four primary objectives: 1) eliminate the highest risks first through safe stabilization, treatment, and disposition of EM-owned nuclear materials, spent nuclear fuel, and waste; 2) significantly reduce costs of continuing operations and surveillance and maintenance; 3) decommission all EM-owned facilities; and 4) remediate groundwater and contaminated soils, using an area closure approach.

**Waste Isolation Pilot Plant.**—Funds the world's first permitted deep geologic repository for the permanent disposal of radioactive waste, and the Nation's only disposal site for defense-generated transuranic waste. The Waste Isolation Pilot Plant, managed by the Carlsbad Field Office, is an operating facility, supporting the cleanup of transuranic waste from waste generator and storage sites. The Waste Isolation Pilot Plant is crucial to DOE completing its cleanup and closure mission.

**Program Direction.**—Funds the Federal workforce responsible for the overall direction and administrative support of the EM program, including both Headquarters and field personnel.

**Program Support.**—Funds EM Headquarters policy and oversight activities. This includes management and direction for various crosscutting EM and Department of Energy initiatives; establishment and implementation of national and departmental policy; and analyses and integration activities across the Department of Energy complex in a consistent, responsible and efficient manner.

**Safeguards and Security.**—Funds activities to ensure protection against unauthorized access, theft, diversion, loss of custody or destruction of Department of Energy assets and hostile acts that may cause adverse impacts on fundamental national security or the health and safety of Department of Energy and contractor employees, the public or the environment.

**Technology Development and Deployment.**—Funds projects to address the immediate, near- and long-term technology needs identified by the EM sites, enabling them to accelerate their cleanup schedules, treat orphaned wastes, improve worker safety, and provide technical foundations for the sites' end state visions.

**Federal Contribution to the Uranium Enrichment Decontamination and Decommissioning Fund.**—Funds the Federal Government's contribution to the Uranium Enrichment Decontamination and Decommissioning Fund, as required by the Energy Policy Act of 1992.

**Health, Safety and Security.**—The Office of Health, Safety and Security (HSS) provides corporate-level leadership and management to protect the health, safety, and security of the Department’s workers, the public, and the environment. HSS was formed on October 1, 2006, to strengthen the Department’s health, safety, and security functions by integrating the activities of the former Offices of Environment, Safety and Health, and Security and Safety Performance Assurance. HSS functions include: policy and guidance development and technical assistance; analysis of environment, safety, health, and security performance; domestic and international health studies; medical screening programs for former workers; employee compensation support; quality assurance programs; safety and security professional develop-

ment and training; interface with the Defense Nuclear Facilities Safety Board; deployment of advanced security technologies; national security information programs; providing security for the Department’s facilities and personnel in the National Capital Area; security investigations programs; independent oversight of security, cyber security, emergency management, environment, safety and health performance; and implementing safety and security enforcement programs.

**Office of Legacy Management.**—The programs support long-term stewardship activities (e.g., groundwater monitoring, disposal cell maintenance, records management, and management of natural resources) at sites where active remediation has been completed. In addition, Legacy Management is responsible for the management and administration of pension and benefit continuity for contractor retirees at these sites. Beginning in FY 2009, all Legacy Management activities are funded within the Other Defense Activities appropriation.

**Advanced Fuel Cycle Initiative Mixed-Oxide (MOX) Fuel Fabrication Facility.**—The MOX Fuel Fabrication Facility formerly funded in the Defense Nuclear Nonproliferation account will dispose of surplus U.S. plutonium in keeping with the Plutonium Management and Disposition Agreement between the United States and Russia, which commits both countries to dispose of 34 metric tons of surplus weapons-grade plutonium. Funding for this facility is included in this account for the Office of Nuclear Energy to promote and take advantage of synergies between this activity and the Global Nuclear Energy Partnership efforts.

**All other.**—Obligations are included for defense-related administrative support, defense-related activities at Idaho National Laboratory, and the Office of Hearings and Appeals. The Office of Hearings and Appeals adjudicates personnel security cases, complaints of reprisals by contractor employees for “whistleblowing,” and is the appeal authority in various other areas. The Office also decides requests for exception from DOE orders, rules, and regulations. Beginning in FY 2009, the Office will assume the DOE civil rights functions, including the processing of EEO and Title VI/Title IX complaints, oversight to ensure that DOE financial assistance is not being used in a discriminatory way, as well as coordinating the employee concerns program activities performed by Federal officials.

This appropriation was established by the Congress as part of the 1993 Energy and Water Development Appropriation (P.L. 102-377) in lieu of payment from DOE into the Nuclear Waste Fund for activities related to the disposal of defense high-level waste.

The program's cost estimates reflect DOE's best projections, given the scope of work identified and planned schedule of required activities. Future budget requests for the program have yet to be established and will be determined through the annual executive and congressional budget process.

Since passage of the Nuclear Waste Policy Act of 1982, as amended, amounts have been deposited into the Nuclear Waste Fund for costs for activities related to disposal of high-level waste generated from the atomic energy defense activities of DOE. The Defense Nuclear Waste Disposal appropriation was established to ensure payment of the Federal Government's contribution to the nuclear waste repository program. Through 2007, a total of approximately \$3,328 million has been appropriated to support nuclear waste repository activities attributed to atomic energy defense activities. At the end of 2007, the Federal Government has paid \$534 million in advance for the defense share of the program cost.

*High Energy Physics.*—The high energy physics (HEP) program aims to understand how our universe works at its most fundamental level, by discovering the most elementary constituents of matter and energy, probing the interactions between them, and exploring the basic nature of space and time itself. The program encompasses both experimental and theoretical particle physics research and related advanced accelerator and detector technology research and development (R&D). The primary mode of experimental research involves the study of collisions of energetic particles using large particle accelerators or colliding beam facilities.

In addition to contributing to breakthrough discoveries, such as the existence of the invisible “dark energy” that permeates the universe, state-of-the-art technology developed for accelerators and detectors contributes to progress in fields such as fast electronics, high-speed computing, superconducting magnet technology, and high-power radio frequency devices. HEP research also makes major contributions to accelerator technology and provides the expertise necessary for the expansion of such technology into fields such as medical imaging and diagnostics as well as materials, biology, and chemistry research using light sources. One notable recent example is the Linac Coherent Light Source, now completing construction at the Stanford Linear Accelerator Center (SLAC); the concept and proof-of-principle for this state-of-the-art basic energy sciences facility grew out of particle accelerator technology developed for the HEP program.

The HEP budget request supports a world leadership program at Fermilab (the Tevatron Collider and Neutrinos at the Main Injector [NuMI]) and phase-out activities at the SLAC B-factory, which has completed its scientific mission. Funding is provided for the Large Hadron Collider (LHC) research program, including support for software and computing, pre-operations and maintenance of the U.S. built systems that are part of the LHC detectors; and accelerator commissioning and accelerator physics studies using the LHC.

The HEP request also supports development of new scientific opportunities for the U.S. HEP program in the next decade that include forefront neutrino experiments, studies to understand dark energy, strong U.S. participation in LHC physics, and investments in R&D for a potential international linear collider. While the future trajectory of the HEP program has a strong emphasis on the energy frontier, the proposed program will provide the U.S. with a diverse array of world-leading efforts. Accelerator technology R&D is focused on superconducting radio frequency structures, in view of their potential applicability to many scientific disciplines, and the initiation of the Advanced Accelerator R&D Facility to develop new particle acceleration mechanisms for the future.

*Nuclear physics.*—The nuclear physics program works to understand the evolution and structure of nuclear matter, from the smallest building blocks of quarks and gluons, to the stable elements in the Universe created by stars and to unique isotopes created in the laboratory that exist at the limits of stability and possess radically different properties from known matter. The program focuses on three broad but highly related research frontiers: (1) the theory

of strong interactions among quarks and gluons (quantum chromodynamics) and its implications and predictions for the state of matter in the early universe, quark confinement, the role of gluons and the structure of the proton and neutron; (2) the structure of atomic nuclei and nuclear astrophysics, which addresses the origin of the elements, the structure and limits of nuclei, and the evolution of the cosmos; and (3) developing a New Standard Model of Nature’s fundamental interactions and understanding its implications for the origin of matter and the properties of neutrinos and nuclei.

Fundamental research in nuclear physics will provide new insights and advance the world’s knowledge on the nature of matter and energy and develop the scientific knowledge, technologies, and trained manpower that are needed to underpin DOE’s missions for nuclear-related national security, energy, and environmental quality.

The Relativistic Heavy Ion Collider research program at Brookhaven National Laboratory will continue pursuing the characterization of new states of matter and phenomena that occur in hot, dense nuclear matter. The Thomas Jefferson National Accelerator Facility/Continuous Electron Beam Accelerator Facility (CEBAF) experimental program will continue its studies focused on understanding the substructure of the nucleon. Doubling the electron beam energy at CEBAF to 12 giga-electron volts (GeV) opens the opportunity for new discoveries and an understanding of quark confinement—one of the mysteries of modern physics. Construction activities for the upgrade start in 2009. Operations of the Holifield Radioactive Ion Beam Facility at Oak Ridge National Laboratory and the Argonne Tandem Linear Accelerator System at Argonne National Laboratory will be supported for the study of nuclear structure and nuclear astrophysics, as will the operation of accelerator laboratories at universities. Research, development, and conceptual design is initiated for the Facility for Rare Isotope Beams, which will enable a comprehensive description of nuclei, elucidate the origin of the elements in the cosmos, provide an understanding of matter in the crust of neutron stars, and establish the scientific foundation for innovative applications of nuclear science to society. The development and production of commercial and research radioisotopes are provided for medical institutions, universities, research organizations, and industry for a wide array of uses and applications. Activities for the production of radioisotopes are transferred to Science from Nuclear Energy effective in FY 2009.

*Biological and Environmental Research.*—This program funds research in global climate change; environmental remediation; molecular, cellular, and systemic studies on the biological effects of radiation; structural biology; radiochemistry and instrumentation; and DNA sequencing. The program also supports science related to carbon sequestration. In conjunction with the advanced scientific computing research program, a global systems application is continued to accelerate progress in coupled general circulation model development through use of enhanced computer simulation and modeling. The Genomics: GTL activity will develop the science, technology, and knowledge base to harness microbial and plant systems for cost effective renewable energy production, carbon sequestration, and environmental remediation. The request includes \$75 million for Genomics: GTL Bioenergy Research Centers. Research at the Centers will focus on developing the science underpinning biofuel production.

*Basic Energy Sciences.*—The basic energy sciences (BES) program funds basic research in material sciences, chemistry, geosciences, and aspects of biosciences that support the Department’s nuclear and non-nuclear technology programs. In many basic research areas, such as materials science, funding provided by the BES program represents a large percentage, or even the sole source, of Federal funding. The request in-

cludes \$60 million for hydrogen and fuel cell research as part of the President's Hydrogen Initiative as well as funding for basic research for electrical energy storage and an advanced nuclear fuel cycle.

The BES program operates large national user research facilities, including synchrotron light and neutron sources and smaller user facilities such as materials preparation and electron microscopy centers. The request includes continued support to maintain utilization of the Department's large state-of-the-art national user facilities. Funding will maintain the quality of service and availability of facility resources to users, including university and government scientists, as well as private companies who rely on unique BES facilities for their basic research needs. Research areas that will benefit from the facilities funding include structural biology, materials science, superconductor technology, and biomedical research and technology development.

The BES request includes \$178 million for operations of the Spallation Neutron Source (SNS) at Oak Ridge National Laboratory to meet the Nation's neutron scattering needs. The request includes \$19 million to continue design and fabrication of additional instruments beyond the initial instrument suite included in the SNS. The SNS will provide significant scientific, technical, and economic benefits that derive from neutron scattering and materials irradiation research. Reflecting the high priority given to nanoscale research, BES funding for the multi-agency national nanotechnology program includes funding for the operation of the Nanoscale Science Research Centers (NSRCs) at the Oak Ridge, Lawrence Berkeley, Brookhaven, and Argonne national laboratories, and for one NSRC collocated at Sandia and Los Alamos national laboratories. The request also includes \$37 million for construction of the Linac Coherent Light Source at the Stanford Linear Accelerator Center. The BES request also includes \$93 million to finish design and start construction of the National Synchrotron Light Source II

**Fusion Energy Sciences.**—The fusion energy sciences program advances plasma science, fusion science, and fusion technology in order to establish the knowledge base necessary for fusion to become an economically and environmentally attractive energy source. The program is conducting a broad range of research dealing with the many scientific issues it faces with the eventual goal of developing a predictive capability for plasma performance, including burning plasmas; demonstrating enhanced fundamental understanding of magnetic confinement through research on magnetic confinement configuration optimization; and developing the fundamental understanding of high energy density laboratory plasmas.

The budget includes \$214 million for the U.S. contributions to ITER project, an international burning plasma physics experiment being built in France in collaboration with the European Union (EU), Japan, Russia, Korea, China, and India. The EU is providing approximately 45% of the cost of building the facility, while the remaining parties will each provide approximately 9%. ITER is an essential next step toward eventually developing fusion as a commercially viable energy source.

The budget also provides for support of basic research in plasma science in partnership with the National Science Foundation, investigation of innovative confinement concepts, and continued operation of the DIII-D, Alcator C-Mod, and the National Spherical Torus Experiment facilities to develop a fuller understanding of the physics of magnetically confined plasma and to identify approaches that may improve the economical and environmental attractiveness of fusion in the long run. Fabrication of the National Compact Stellarator Experiment will continue at Princeton Plasma Physics Laboratory in collaboration with Oak Ridge National Laboratory. Theory, modeling, and evolving computational methods using high performance computing and enabling technologies re-

search will also be conducted in support of the science experiments.

**Advanced Scientific Computing Research.**—This program supports advanced computational research, applied mathematics, computer science, and networking—to enable the analysis, simulation, and prediction of complex physical phenomena. The program also supports the operation of large supercomputer user facilities and network facilities including leadership computing facilities at the Oak Ridge and Argonne national laboratories, and the National Energy Research Scientific Computing Facility at Lawrence Berkeley National Laboratory. The request includes research, integrated with other science programs, on application of computer simulation and modeling to science problems.

**Science Laboratories Infrastructure.**—The goal of this program is to rehabilitate, replace, or demolish deficient common-use utilities, roads, and buildings and to correct environment, safety, and health deficiencies at the civilian science laboratories. Stewardship responsibilities for over 24,000 acres of the Oak Ridge Reservation are also funded here. The request includes funding for the demolition of the Bevatron Complex at Lawrence Berkeley National Laboratory.

**Safeguards and Security.**—The mission of this program is to ensure appropriate levels of protection against: unauthorized access; theft; diversion, loss of custody, or destruction of DOE assets; and hostile acts that may cause adverse impacts on fundamental science, or the health and safety of DOE and contractor employees, the public, or the environment. The request provides funding for physical protection, protective forces, physical security, protective systems, information security, cyber security, personnel security, materials control and accountability, and program management activities.

**Workforce Development for Teachers and Scientists.**—This program trains young scientists, engineers, technicians, and teachers in the scientifically and technically advanced environment of the Office of Science national laboratories to meet the demand for a well-trained scientific and technical workforce. The program trains teachers to educate the workforce in areas of science, technology, engineering, and mathematics.

**Program Direction.**—Funds the Office of Science federal headquarters and field workforce, which is responsible for directing, administering, and supporting basic energy-related and science-related research disciplines. Federal staff are responsible for SC-wide management, operational policy, and technical/administrative support activities in budget and planning; information technology; infrastructure management; construction management; safeguards and security; environment, safety, and health; and general administration. Funded expenses include salaries, benefits, travel, general administrative support services and technical expertise, and information technology maintenance and enhancements.

In 2008, Congress created four separate accounts to replace Energy Supply and Conservation: Energy Efficiency and Renewable Energy, Electricity Delivery and Energy Reliability, Nuclear Energy, and Legacy Management. In 2009, all Legacy Management activities are funded under Other Defense Activities.

Prior to 2008, Environment, Safety and Health programs were funded in two separate accounts (Energy Supply and Conservation and Other Defense Activities). Beginning in 2008, those activities have been restructured and are now funded by the Health, Safety and Security Program within the Other Defense Activities appropriation.

The FY 2009 budget continues to support the Nuclear Power 2010 program which partners with private industry to demonstrate key regulatory approval processes to encour-

age investments in new, advanced nuclear plants in the United States. The Budget continues to support the Advanced Fuel Cycle Initiative, including the Global Nuclear Energy Partnership, which aims to accelerate the development of technologies that will reduce the volume of high-level waste from spent nuclear fuel, reduce the long-term radiotoxicity of spent nuclear fuel, reduce the long-term proliferation threat posed by civilian inventories of plutonium in spent nuclear fuel, and recover the energy content in spent nuclear fuel in a manner that enhances proliferation-resistance. The Budget also supports the Generation IV Nuclear Energy Systems Initiative (Gen IV), through which the United States will participate in multinational research and development projects in support of next generation nuclear reactors. The Budget further supports the Nuclear Hydrogen Initiative, which will develop advanced technologies that can be used in tandem with Gen IV nuclear plants to generate economic, commercial quantities of hydrogen to support a sustainable, clean energy future for the United States. It is important to note that two Nuclear Energy activities, the Mixed Oxide Fuel Fabrication Facility and Safeguards and Security for Idaho National Laboratory are funded under the Other Defense Activities appropriation.

Nuclear Energy programs also support the Department's critical infrastructure necessary to enable research on advanced nuclear power systems for U.S. national security and other federal agencies, and to maintain and operate the Department's nuclear facilities in a safe, environmentally compliant, and cost-effective manner.

The mission of the Office of Electricity Delivery and Energy Reliability (OE) is to lead national efforts to modernize the electric grid, enhance security and reliability of the Nation's energy infrastructure, and facilitate recovery from disruptions to the energy supply. This effort is accomplished through research, development, demonstration and technology transfer; implementation of the electricity grid modernization requirements contained in the Energy Policy Act of 2005 (including the congestion study and analysis of potential National Interest Electric Transmission corridors as authorized by Section 1221 of that Act), technical assistance and analytical support to States and regions for policies, market mechanisms, and activities that facilitate competitive, reliable, environmentally sensitive, and customer-friendly electric markets; authorization for electricity exports and Presidential permits for cross-border transmission lines; energy power systems analysis; and coordinating and carrying out DOE Lead Sector Specific Agency responsibilities for protecting the Nation's critical energy infrastructure. Partnerships to engage industry, utilities, States, other Federal programs and agencies, universities, national laboratories, and other stakeholders in OE's efforts to ensure a more secure, reliable, efficient, and affordable national electricity supply will continue to be a key element of the program.

This program supports non-defense related long-term stewardship activities (e.g., groundwater monitoring, disposal cell maintenance, and management of natural resources) at sites where active remediation has been completed. In addition, Legacy Management is responsible for the management and administration of pension and benefit continuity for contractor retirees at these sites. These activities will be funded within the Other Defense Activities appropriation beginning in FY 2009.

Programs within the Office of Energy Efficiency and Renewable Energy (EERE) undertake research, development, and deployment activities to advance the use of renewable energy and energy efficiency technologies and related practices to help meet the growing need for clean and affordable energy. EERE also provides grants to States for energy efficiency improvements. Specific 2009 activities include:

**Hydrogen Technology.**—This program develops hydrogen production, storage, and delivery and fuel cell technologies that are more energy efficient, cleaner, safer, and lower in cost. The long-term aim is to develop hydrogen technology that will allow the Nation to aggressively move forward to achieve a vision of a cleaner, more secure energy future. Current research aims to enable industry to commercialize a hydrogen infrastructure and fuel cell vehicles by 2020.

**Biomass.**—This program funds research, development, and technology validation on advanced technologies that could enable future biorefineries to sustainably and economically convert cellulosic biomass to fuels, chemical, heat, and power. The program's goal is to help make cellulosic ethanol cost competitive by 2012 using a wide array of regionally available biomass sources.

**Solar Energy.**—Through the Solar America Initiative, the program will help accelerate the market competitiveness of photovoltaic systems using several industry-led consortia which are focused on lowering the cost of solar energy through manufacturing and efficiency improvements. Concentrating solar power activities are focused on lowering the cost of solar energy using centralized generation and development of thermal storage to provide baseload power on demand.

**Wind Energy.**—This program develops technology in partnership with industry to allow wind power to be cost-competitive in various locales across the more prevalent, lower-wind speed areas. The program also supports activities to help reduce barriers to electric grid interconnection as well as other issues related to technology acceptance in the market.

**Water Power.**—This new effort will initially focus on conducting technology characterizations, resource assessments, and facilitating the advancement of water power technologies.

**Vehicle Technologies.**—This program supports the FreedomCAR and Fuel Partnership and the 21st Century Truck Partnership with industry. Program activities encompass a suite of technologies needed for hybrid, plug-in hybrid, and fuel cell vehicles, including lightweight materials, electronic power control and electric drive motors, and advanced energy storage devices. This program also supports research to improve the efficiency of advanced combustion engines, using fuels with formulations developed for such engines, and incorporating non-petroleum based components. In general, program R&D seeks technology breakthroughs that will enable America's highway transportation to greatly reduce petroleum use. The program also includes community-based outreach via Clean Cities coalitions, competitive awards, and other activities to facilitate the market adoption of alternative fuels and highly efficient automotive technologies.

**Building Technologies.**—In partnership with the buildings industry, the program develops, promotes, and integrates energy technologies and practices to make buildings more efficient and affordable. The Building Technologies program accelerates the availability of highly efficient building technologies and practices through research and development; increases the minimum efficiency of buildings and equipment through the promotion of model building efficiency codes and the promulgation of national lighting and appliance standards; and encourages the use of energy-efficient and renewable energy technologies and practices in residential and commercial buildings.

**Industrial Technologies.**—The program funds cost-shared research in critical technology areas identified in partnership with industry. It also funds energy audits and training pro-

grams to help U.S. industrial firms reduce their energy use. The program targets energy efficiency research opportunities in manufacturing processes and crosscutting energy systems as well as accelerating near-term market adoption of emerging technologies.

**Federal Energy Management Program.**—This program reduces the amount, cost, and environmental impact of the Federal Government’s energy use by advancing energy efficiency, water conservation and renewable energy in Federal facilities, including DOE facilities.

**Facilities and Infrastructure.**—The Budget includes funding for general plant projects and general purpose equipment at the National Renewable Energy Laboratory.

**Weatherization and Intergovernmental Activities.**—This effort includes multiple programs targeted at assisting government and Tribal entities. The State Energy Program provides financial assistance to States through formula and competitive grants, which help facilitate fulfillment of State roles in utility policy, building codes, and other areas as well as enable States to individually tailor energy efficiency projects to meet local needs. The Tribal Energy Program helps Tribal leaders develop energy plans and incorporate renewable energy technologies on Tribal lands. The Asia Pacific Partnership—which includes Australia, China, India, Japan, the Republic of Korea, the U.S., and now Canada—encourages clean energy technology deployment and helps meet goals for energy security, national air pollution reduction, and climate change. Significant programmatic changes in 2009 include the elimination of the Weatherization Assistance program and the Renewable Energy Production Incentive program.

NON-DEFENSE ENVIRONMENTAL CLEANUP

For Department of Energy expenses, including the purchase, construction, and acquisition of plant and capital equipment and other expenses necessary for non-defense environmental cleanup activities in carrying out the purposes of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including the acquisition or condemnation of any real property or any facility or for plant or facility acquisition, construction, or expansion, [and the purchase of not to exceed three passenger motor vehicles for replacement only, \$183,937,000] \$213,411,000, to remain available until expended: *Provided*, That \$13,000,000 is appropriated for environmental remedi-

ation activities associated with the Energy Technology and Engineering Center (ETEC) at the Santa Susana Field Laboratory (SSFL), subject to the following: (1) the Department shall use a portion of this funding to enter into an interagency agreement with the Environmental Protection Agency to conduct a joint comprehensive radioactive site characterization of Area IV of the SSFL; (2) the Department shall ensure that all aspects of the cleanup of radioactive contamination at Area IV of the SSFL comply fully with the Comprehensive Environmental Response, Compensation and Liability Act, if applicable; and (3) the Department shall retain Federal control of ETEC and it shall not be released for other use until such time as the Department has complied with actions directed in paragraphs (1) and (2)]. The Non-Defense Environmental Cleanup program includes funds to manage and clean up sites used for civilian energy research, and non-defense related activities. Past activities related to nuclear energy research and development resulted in radioactive, hazardous, and mixed waste contamination that requires remediation, stabilization, or some other type of action. The budget displays the cleanup program by site.

**West Valley Demonstration Project.**—Funds waste disposition, process building decontamination, removal of non-essential facilities in the near-term, and development of the Decommissioning Environmental Impact Statement. West Valley Demonstration Project plans to achieve Interim End State completion in 2012.

**Gaseous Diffusion Plants.**—Funds surveillance and maintenance of the former Uranium Program facilities and manages legacy polychlorinated biphenyl contamination. Also included are the construction and operation of two depleted uranium hexafluoride conversion facilities at Paducah, Kentucky, and Portsmouth, Ohio, to convert the depleted uranium hexafluoride into a more stable form for reuse or disposition.

**Fast Flux Test Facility.**—Funds the long-term surveillance and maintenance and eventual decontamination and decommissioning of the Fast Flux Test Facility, operated from the 1960s through 1980s.

**Small Sites.**—Funds cleanup, closure, and post-closure environmental activities at a number of geographic sites across the nation, including Argonne National Laboratory, Brookhaven National Laboratory, Energy Technology Engineering Center, Moab, and the Stanford Linear Accelerator Center. Some sites are associated with other Department of Energy programs, particularly the Office of Science, and will have continuing missions after EM completes the cleanup. Others will transition to the Office of Legacy Management or private sector entities for post-closure activities.

The Fossil Energy Research and Development program supports high-priority, high-risk research that will improve the Nation's ability to use coal cleanly and efficiently. The program funds research and development that strengthens the technology base industry uses in developing new products and processes to support these national goals. Fossil Energy R&D supports activities ranging from early concept research in universities and national laboratories to applied R&D and proof-of-concept projects in private-sector firms.

*President's Coal Research Initiative.*—The goal of FutureGen is to demonstrate coal-based electricity generation with carbon capture and storage, through cost-shared partnering between government and industry. The Clean Coal Power Initiative (CCPI) also demonstrates advanced coal technology through projects that are cost-shared between government and industry. The Budget includes \$241 million towards the Government's share of FutureGen and CCPI demonstration projects. Other supporting coal activities include: 1) R&D for advanced coal-fueled power systems that support carbon capture and sequestration, including Integrated Gasification Combined Cycle, hydrogen turbine technology and hydrogen separation technologies; 2) Sequestration R&D, which focuses on greenhouse gas capture and sequestration; and 3) Advanced research, which through early concept research, bridges fundamental research and engineering development. The Department will continue to increase involvement of the private sector and academia to help conduct and direct research toward the most critical challenges to coal use for power generation in the United States.

*Fuel Cells.*—Fuel cells focuses on fuel cell technology for distributed and central power generation systems.

*Oil and Gas.*—The Oil and Gas programs will effect an orderly termination of activities. No additional funding is required for termination.

*Program Direction and Management Support.*—The program provides the funding for all headquarters and field personnel and overhead expenses in Fossil Energy R&D and Clean Coal Technology, including research by Federal employees. In addition, it provides support for day-to-day project management functions. No funding is proposed for the Alaska Natural Gas Transportation Project Loan Guarantee program because existing balances are sufficient to address current project activity. Also included is the Import/Export Authorization program which will continue regulatory reviews and oversight of the transmission of natural gas across the U.S. borders.

*Environmental Restoration.*—DOE is managing the environmental cleanup of former and present Fossil Energy project sites. Activities include environmental protection, onsite cleanup, and cleanup at several former offsite research and development locations in Wyoming and Connecticut and environmental efforts at the National Energy Technology Laboratory Morgantown and Pittsburgh sites, and the Albany Research Center.

Following the sale of the Naval Petroleum Reserve 1 (NPR-1) (Elk Hills) site mandated by the National Defense Author-

ization Act for Fiscal Year 1996 (P.L. 104–106), the most significant post-sale activity is the settlement of ownership equity shares with the former unit partner, Chevron USA Inc. Additional activities include environmental remediation and cultural resource activities.

The account also funds activities at the Naval Petroleum Reserve 3 in Wyoming (Teapot Dome field), a stripper well oil field that the Department is maintaining until it reaches its economic production limit.

In 2005, congressional budget subcommittees implemented a number of structural changes, including the unification of energy efficiency and renewable energy programs under a single subcommittee. Consequently, programs formerly funded under Energy Conservation were funded through the Energy Supply and Conservation account.

#### STRATEGIC PETROLEUM RESERVE

For necessary expenses for Strategic Petroleum Reserve facility development and operations and program management activities pursuant to the Energy Policy and Conservation Act of 1975, as amended (42 U.S.C. 6201 et seq.), [including the hire of passenger motor vehicles, the hire, maintenance, and operation of aircraft, the purchase, repair, and cleaning of uniforms, and the reimbursement to the General Services Administration for security guard services, \$188,472,000] \$344,000,000, to remain available until expended, of which [\$25,000,000 shall be provided to carry out new site land acquisition activities consistent with the budget request] \$171,400,000 is for expansion of the Strategic Petroleum Reserve. The object of this program is to reduce the vulnerability of the United States to energy supply disruptions by maintaining a crude oil stockpile capable of rapid deployment at the direction of the President. This program enables the President to meet the Nation's membership commitments within the International Energy Agency's coordinated energy emergency response plans and programs to deter intentional energy supply disruptions and to take effective, coordinated action should an energy supply disruption occur.

This account provides for ongoing storage site operations and maintenance activities, planning activities, drawdown testing/readiness of the Reserve, planning studies, and program administration. The FY 2009 budget continues to provide further insurance against oil supply disruptions that could harm the U.S. economy by doubling America's protection from the Strategic Petroleum Reserve (SPR) by expanding it from its current size of 695 million barrels (MB) to 1.5 billion barrels. Expansion began in FY 2007 with incremental fill using Federal royalty oil. In FY 2008 DOE will use \$584 million in available balances for the purchase of additional SPR oil, and will continue to fill using Federal royalty oil until 727 MB is achieved in FY 2009. Capacity expansion from 727 million barrels to 1.5 billion barrels will begin in FY 2008 with land acquisition activities.

The key measure of program performance is expressed as capability to comply with Level 1 Technical and Performance Criteria. These criteria are specifically engineered performance and reliability standards applied to critical inventory storage, drawdown, and distribution systems required for drawing down and distributing crude oil inventory.

This account provides for the acquisition, transportation, and injection of petroleum into SPR including U.S. Customs duties, terminal throughput charges, incremental drawdown costs, and other related miscellaneous costs. The Petroleum Account also funds drawdown and sales operations of the Reserve. In September 2005, DOE loaned 9.8 million barrels of oil to refiners and sold 11 million barrels in response to Hurricane Katrina.

The Energy Information Administration (EIA) provides timely, accurate and relevant energy information to meet the requirements of government, industry, and the public in a manner that promotes sound policymaking, efficient markets, and public understanding. In carrying out its legislative mandate, EIA conducts survey and data collection operations, produces energy analyses and forecasts, and publishes data and analyses primarily through the Internet and other electronic media. These programs require that the agency design, develop and maintain information systems on petroleum, natural gas, coal, nuclear, electricity, alternate fuel sources, and energy consumption. Activities include collecting data and ensuring its accuracy; preparing forecasts of alternative energy futures; and preparing reports on energy sources, end-uses, prices, supply and demand, and associated environmental, economic, international, and financial matters. In addition, through its National Energy Information Center, EIA ensures that all information and data products can be accessed through the agency's website, <http://www.eia.doe.gov> and responds to inquiries from the Congress, the Administration, state and local government, industry, news media, financial institutions, academia, and the public. Finally, EIA provides survey and statistical design standards, documentation standards, and energy data public-use forms clearance and burden control services.

The Federal Energy Regulatory Commission (Commission) regulates and oversees key interstate aspects of the electric power, natural gas, oil pipeline, and hydropower industries.

The Commission supports competitive markets, assures access to abundant, reliable energy, promotes the development of a strong energy infrastructure, and prevents market manipulation. Regulated businesses pay fees and charges sufficient to recover the Commission's full cost of operations.

On August 8, 2005, the Energy Policy Act of 2005 (EPAct 2005) was signed into law. This law made fundamental changes by amending the major statutes implemented by the Commission: the Federal Power Act (FPA); the Public Utility Regulatory Policies Act (PURPA); the Public Utility Holding Company Act (PUHCA); the Natural Gas Act (NGA); and the Natural Gas Policy Act (NGPA). As noted below, the changes made by EPAct 2005 enhance the Commission's authority to promote the development of electric and natural gas infrastructure, wholesale competition in the electric industry, electric and natural gas market transparency, and consumer protections. This request includes the resources needed to continue implementing the Commission's increased responsibilities under EPAct 2005.

**Energy Infrastructure.**—The Commission seeks to promote the development of a strong energy infrastructure to meet market and operational demands. The Commission has two primary objectives in this area: stimulate appropriate infrastructure development and maintain a reliable and safe infrastructure.

The Commission determines rates for the interstate transportation of natural gas and oil on jurisdictional pipelines and rates for the interstate transmission and wholesale sales of electric energy. The Commission has authorized tariff provisions, as appropriate, to allow the natural gas and oil pipelines and public utilities to adjust their services to meet their customers' needs to meet competition in their respective markets. The Commission will continue to develop pricing policies and incentive mechanisms to encourage the development of the Nation's energy infrastructure, to promote capital investment, and to support competitive markets. For example, the Commission now has guidelines for regional transmission organizations (RTOs) operating organized electric markets and providing long-term financial transmission rights. These guidelines will increase long-term transmission price certainty in the organized electricity markets and allow for new investments and other long-term power supply arrangements. In addition, the Commission has issued a final rule to offer incentives, where appropriate, for potential investors to build electric transmission facilities. The final rule seeks to ensure investment in the Nation's aging transmission infrastructure, promote electric power reliability and lower costs for consumers by reducing transmission congestion. Furthermore, in Order No. 890, the Commission increased the ability of customers to access new generation resources by, among other things, requiring an open, transparent, and coordinated transmission planning process. Such a process will help eliminate opportunities for discriminatory treatment and provide customers with information to help them decide whether potential investments would reduce congestion or enable integration of new resources.

Among the other fundamental changes, EPAct 2005 also granted the Commission, for the first time, siting authority to relieve congestion within certain interstate transmission corridors when states do not have the authority to act on transmission proposals or withhold approval of such proposals for more than one year. While this authority is more limited than the Commission's natural gas pipeline siting authority, it should lower the regulatory barriers to investment in the transmission grid. The Commission has adopted rules to implement this new authority in accordance with the specific criteria established in EPAct 2005. Similarly, the Commission has adopted rules implementing its new authority to grant market-based rates for natural gas storage and, in November 2006, issued its first order granting such rates. With regard

## SALARIES AND EXPENSES—Continued

to liquefied natural gas (LNG) import terminal facilities, located onshore or in state waters, EPAct 2005 clarified the Commission's exclusive jurisdiction to authorize such facilities. Furthermore, the Commission issues preliminary permits, exemptions, licenses, and relicenses for non-federal hydroelectric projects, enforces their terms and conditions, and performs dam safety inspections. It regulates over 1,700 non-federal dams, which supply about 5 percent of the electric energy generated in the United States. The Commission determines the amount of headwater benefits derived from federally owned and FERC-licensed headwater improvements, collects this amount from licensees, and returns it to the U.S. Treasury.

The Commission will continue to ensure that landowner and environmental concerns involving energy projects are properly addressed and that the public interest is protected when proposed hydropower projects are licensed or existing projects are relicensed, and when it authorizes new natural gas facilities and services. EPAct 2005 adopts procedures that better coordinate the review process for natural gas infrastructure, allowing final decisions to be rendered in a more timely manner. Specifically, the Commission is designated as the lead agency for the purpose of coordinating all applicable authorizations and performing the environmental review on the siting and authorization of LNG import terminal facilities, and interstate natural gas pipelines and storage facilities. In its role as the lead agency, the Commission establishes a schedule that all other permitting agencies must follow and maintains a consolidated record of decisions made or actions taken that will serve as the record for any judicial reviews of such actions. In support thereof, the Commission is in the process of implementing integrated licensing and pre-filing processes and interagency agreements facilitating hydropower licensing, pipeline and storage certification, and LNG facility authorization.

In 2007, the Commission continued to coordinate closely with representatives of all agencies having a role in natural gas safety and security matters, including the U.S. Coast Guard, the Department of Transportation, the Department of Homeland Security, the Federal Bureau of Investigation, and State and local law enforcement. In addition, the Commission placed increased emphasis on plant security measures and improvements in conducting biennial inspections of jurisdictional LNG facilities and in implementing an agreement to coordinate security and safety reviews of these facilities with the Coast Guard and the Office of Pipeline Safety. In the hydropower program, the Commission continued to emphasize its Hydropower Security Program by leading interagency coordination on federal infrastructure, conducting workshops on dam site security and emergency action planning, reviewing over 1,000 Commission-required vulnerability and security assessments of dams, and monitoring the implementation of security upgrades.

The Commission's electric grid reliability efforts are bolstered by its authority under EPAct 2005. For example, the Commission oversees the development and enforcement of mandatory reliability standards for all users, owners, and operators of the bulk power system as well as enforcement procedures for violations of those standards. In March 2007, the Commission, having already certified the ERO, approved and made mandatory 83 of the 102 initial reliability standards submitted by the ERO for Commission approval. These standards address critical utility and grid operations and practices and numerous aspects of monitoring, coordination, communication, and emergency situations needed to ensure reliability. The Commission's continued work to promote electric grid reliability will focus on: 1) overseeing the develop-

ment and enforcement of mandatory electric reliability standards to protect the bulk power system, including cyber security standards; 2) addressing and improving infrastructure security; and 3) coordinating efforts with Canada and Mexico to address reliability standards and other cross-border reliability issues.

*Competitive Markets.*—The Commission believes that competition, combined with effective regulation, is consistent with national policy for wholesale energy markets. To that end, the Commission develops rules that encourage fair and efficient competitive markets and works to prevent the accumulation and exercise of market power.

The Commission continues to promote market transparency and promulgate and approve clear market rules. Order No. 888 set the foundation upon which to attain competitive electric markets ten years ago. The industry that existed in 1996 when Order No. 888 was issued has changed considerably. In February 2007 in Order No. 890, the Commission reformed its open access transmission tariff to ensure that it continues to remedy opportunities for undue discrimination in the provision of transmission services. Chief among these reforms was the elimination of transmission providers' discretion in calculating the available transfer capability, which determines whether transmission capacity is available. In addition, Order No. 890 adopted new services which reduce barriers to entry and facilitate the use of clean energy resources such as wind power. For wholesale power markets, the Commission has also amended its rules governing the qualification for market-based rate authority for public utilities. The Commission routinely places restrictions on affiliate power sales at market-based rates that may affect "captive customers." Furthermore, when authorizing market-based rates, the Commission requires entities to submit triennial market analyses and electronic quarterly reports. Also in 2007, the Commission issued its second staff report to Congress on demand response in electricity markets. In addition, the Commission created a new Energy Innovations Sector tasked with examining demand response, energy efficiency, renewables, and other innovative energy resources in order to determine how these can be better incorporated into the overall energy markets.

With the enactment of EPAct 2005, the Commission has additional authority to protect customers. For example, EPAct 2005 repealed the substantive restrictions imposed under PUHCA 1935, but enacted new statutory provisions, PUHCA 2005, giving the Commission new access to books and records of holding companies and their associated companies. In October 2006, the Commission adopted uniform accounting, reporting and record keeping requirements for holding companies and centralized service companies within holding company systems. These new requirements will provide greater accounting transparency and help protect ratepayers from the pass-through of improper service company costs. In addition, the Commission will use its strengthened merger and corporate review authority to continue to ensure that mergers and consolidations will not harm the public interest. In 2007, the Commission issued a supplemental policy statement clarifying the information to be filed in merger applications; proposed additional blanket authorization for disposition by a public utility of its limited voting interests to a holding company; and proposed to codify restrictions on transactions between franchised public utilities with captive customers and their market-regulated power sales affiliates and their non-utility affiliates to protect against affiliate cross-subsidization. To further support competitive markets, EPAct 2005 also reforms the PURPA treatment of qualifying facilities, eliminating certain ownership restrictions and allowing the Commission to terminate mandatory purchase obligations in certain circumstances. The Commission has adopted rules implementing these statutory changes.

**Enforcement.**—The Commission has adjusted its regulatory policies to meet the dramatic changes that have occurred in both the natural gas and electric industries, in particular the change to greater reliance on competition to set prices. It is important that the Commission understands market dynamics in order to detect violations of statutory and regulatory requirements quickly. The Commission seeks to prevent violations of its rules, enforce compliance with its jurisdictional laws, publicize misconduct where appropriate, and take prompt action to prevent future misconduct. The Commission can identify violations by many methods, including review of market information required to be filed by market participants; investigations of significant price spikes or market anomalies; periodic audits of compliance with Commission tariffs, rules and regulations; referrals from RTO and independent system operator market monitors; tips and complaints from the public and market participants; and self-reports of violations by companies. (The Commission’s October 2005 Enforcement Policy Statement encourages companies to self-report violations to mitigate remedies).

Perhaps most important, the Commission must ensure that jurisdictional utilities have effective internal monitoring and compliance programs in place to help assure that they are following established Commission rules and regulations. The Commission periodically audits the compliance with Commission rules, regulations, and other statutory requirements.

To help market participants and regulated entities comply with the Commission’s rules, the Commission works with stakeholders to explain the intent and requirements of its rules and the laws it administers. In 2006, the Commission adopted rules detailing prohibitions on energy market manipulation. The Commission has also adopted procedures to allow companies to challenge the findings of operational audits before a final order is issued. The Commission also has initiated a “no action letter” process to permit market participants to seek advice on whether staff would recommend action against specific transactions in light of the relevant laws and policies. Such initiatives will provide greater clarity and regulatory certainty.

The Commission’s enforcement tools were greatly reinforced when EPCRA 2005 conferred expanded authority which provided, for the first time, penalty authority for violations of the NGA and all of Part II of the FPA. It further provided or increased (for violations of the NGPA) the level of penalties to \$1 million each day for the duration of the violation. Penalties of this magnitude also are applicable, pursuant to EPCRA 2005 amendments to the FPA and NGA, to any entity (not just companies traditionally subject to the Commission’s jurisdiction) that manipulates wholesale gas or electric markets by engaging in fraud or deceit in connection with jurisdictional transactions. Armed with this expanded authority, the Commission intends to create an even stronger and more effective compliance and enforcement program to protect the public interest.

**Management Initiatives.**—The Commission has initiatives underway and processes in place to support its three strategic goals and the President’s Management Agenda. These activities, including alternative dispute resolution and litigation, and the effective management of human capital, agency resources, and information technology help the Commission work more efficiently both within and across program areas. The Commission also relies on various methods to communicate its policies and actions to the public. Open lines of communication with affected parties are critical for effective functioning of the Commission’s operations.

The Budget proposes to transfer \$149 million in prior-year balances to the Fossil Energy Research and Development program. These balances are no longer needed to complete active projects in the Clean Coal Technology program. The Budget proposes to redirect these funds for work on FutureGen and Clean Coal Power Initiative projects to demonstrate carbon capture for coal-fired power plants.

The alternative fuels program was established in 1980 for the purpose of expediting the development and production of alternative fuels from coal.

Upon default of the borrower in 1985 under a Department of Energy Federal loan guarantee, the Department acquired ownership of the Great Plains Coal Gasification Project plant by foreclosure. On October 31, 1988, the Department completed an asset purchase agreement of the Great Plains Gasification Plant by Dakota Gasification Company (DGC).

Negotiated settlement agreements dated February 16, 1994, resolved all past disputes as well as restructured the Gas Purchase Agreements pricing provisions.

Funds in this account are used to pay for expenses and responsibilities related to the Department's prior operation of the Great Plains Coal Gasification Project and the administration of the Asset Purchase Agreement and related contracts and agreements which transferred the facility to the private sector. Remaining outstanding obligations are for carrying out contractual obligations to the termination of the contract in 2009. The largest recent costs were for technical analysis to determine the reduction in net synthetic natural gas production at the Great Plains Synfuels Plant caused by the operation of an Anhydrous Ammonia Synthesis Plant within the larger gasification facility, and its effect on revenues. The Federal revenue sharing receipts are based on this review and analysis.

The Energy Policy Act of 2005 (Public Law 109-58) created a mandatory Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research program beginning in 2007. The program is funded from Federal revenues from oil and gas leases. This Budget proposes to cancel the program through a legislative proposal.

**ELK HILLS SCHOOL LANDS FUND**

Title XXXIV, Subtitle B of Public Law 104-106 required the Department to sell the government's interest in Naval Petroleum Reserve No. 1 (Elk Hills) pursuant to the terms of the Act. The sale occurred in February 1998. Section 3415 of the Act required, among other things, that the Department make an offer of settlement based on the fair value of the State of California's longstanding claims to two parcels of land ("school lands") within the Reserve. Under the Act, nine percent of the net proceeds were reserved in a contingent fund in the Treasury for payment to the State. In compliance with the Act and in order to remove any cloud over title which could diminish the sales value of the Reserve, the Department entered into a settlement agreement with the State on October 11, 1996. That agreement calls for payment to the State, subject to appropriations, of nine percent of the net proceeds of sale, payable over a seven-year period (without interest), commencing in 1999. Under the settlement agreement and provided that funds are appropriated, the first five installments are for \$36 million each year, and the remaining balance is to be paid in two equal installments in years six and seven unless the seventh payment needs to be deferred in whole or in part due to the equity finalization schedule. Under the settlement agreement, \$300 million has been paid to the State of California. There is no request for funding in FY 2009. The timing and levels of any future budget request are dependent on the schedule and results of the equity finalization process.

The Northeast Home Heating Oil Reserve assures a home heating oil supply for the Northeast States during times of very low inventories and significant threats to immediate supply. Two million barrels of heating oil will protect the Northeast against a disruption for 10 days, the time required for ships to carry heating oil from the Gulf of Mexico to New York Harbor.

Contracts for the storage, operation and maintenance of the reserve were awarded on August 7, 2007. A sale of 35,000 barrels was conducted to offset storage costs. Repurchase of the oil sold is planned for FY2008. Contracts were awarded to Amerada Hess (for 1,000,000 barrels in New York harbor) to Morgan Stanley (for 750,000 barrels in New Haven, CT), and to Amerada Hess (for 250,000 barrels in Groton, CT).

NUCLEAR WASTE DISPOSAL

For nuclear waste disposal activities to carry out the purposes of the Nuclear Waste Policy Act of 1982, Public Law 97-425, as amended (the ["Act"] "NWP" ), including the acquisition of real property or facility construction or expansion, [\$189,000,000] \$247,371,000, to remain available until expended, and to be derived from the Nuclear Waste Fund: *Provided*, That of the funds made available in this Act for Nuclear Waste Disposal, 2.02 percent, but not to exceed \$5,000,000, shall be provided to the State of Nevada solely for expenditures, other than salaries and expenses of State employees, to conduct scientific oversight responsibilities and participate in licensing activities pursuant to the Act: *Provided further*, That notwithstanding the lack of a written agreement with the State of Nevada under section 117(c) of the [Nuclear Waste Policy Act of 1982, Public Law 97-425, as amended, not less than] NWP, 0.4 percent, but not to exceed \$1,000,000, of the amounts provided shall be provided to Nye County, Nevada, for on-site oversight activities under section 117(d) of that Act: *Provided further*, That 3.64 percent, but not to exceed \$9,000,000, shall be provided [to] for affected units of local government, as defined in the [Act] NWP, to conduct appropriate activities and participate in licensing activities: *Provided further*, That of the [\$9,000,000 provided] amounts provided for affected units of local government, 7.5 percent [of the funds provided] shall be made available to affected units of local government in California with the balance made available to affected units of local government in Nevada for distribution as determined by the Nevada units of local government. This funding shall be

provided to affected units of local government, as defined in the Act.]: *Provided further*, That 0.2 percent, but not to exceed \$500,000, shall be provided to the Timbisha-Shoshone Tribe solely for expenditures, other than salaries and expenses of tribal employees, to conduct appropriate activities and participate in licensing activities under Section 118(b) of the NWP. The Committee requires the entities to certify that within 90 days of the completion of each Federal fiscal year, the Nevada Division of Emergency Management and the Governor of the State of Nevada and each of the affected units of local government shall provide certification to the Department of Energy that all funds expended from such payments have been expended for the activities authorized by the Act and this Act: *Provided*, That notwithstanding the provisions of chapters 65 and 75 of title 31, United States Code, the Department shall have no monitoring, auditing or other oversight rights or responsibilities over amounts provided to affected units of local government.]: *Provided further*, That notwithstanding section 116(c)(3) of the NWP, 4.6 percent, but not to exceed \$11,500,000, shall be provided to Nye County, Nevada, as payment equal to taxes under section 116(c)(3) of that Act in this or any previous year: *Provided further*, That the funds for the State of Nevada shall be made available solely to the Nevada Division of Emergency Management by direct payment and to units of local government by direct payment: *Provided further*, That within 90 days of the completion of each Federal fiscal year, the Nevada Division of Emergency Management and the Governor of the State of Nevada and each of the affected units of local government shall provide certification to the Department of Energy that all funds expended from such payments have been expended for activities authorized by the [Act] NWP and this Act: *Provided further*, That failure to provide such certification shall cause such entity to be prohibited from any further funding provided for similar activities: *Provided further*, That none of the funds herein appropriated may be: (1) used directly or indirectly to influence legislative action, except for normal and recognized executive-legislative communications, on any matter pending before Congress or a State legislature or for lobbying activity as provided in 18 U.S.C. 1913; (2) used for litigation expenses; or (3) used to support multi-State efforts or other coalition building activities inconsistent with the restrictions contained in this Act: *Provided further*, That all proceeds and recoveries realized by the Secretary in carrying out activities authorized by the [Act] NWP, including but not limited to, any proceeds from the sale of assets, shall be available without further appropriation and shall remain available until expended: *Provided further*, That no funds provided in this Act or any previous Act may be used to pursue repayment or collection of funds provided in any fiscal year to affected units of local government for oversight activities that had been previously approved by the Department of Energy, or to withhold payment of any such funds]. The Nuclear Waste Disposal Account provides funding to implement the Federal policy for permanent geologic disposal of commercial spent nuclear fuel and high-level radioactive.

The amounts included for 2008 in the budget reflect the levels provided by the FY 2008 Consolidated Appropriations Act (P.L. 110-161, Division C, as amended).

This appropriation was established by the Congress as part of the Nuclear Waste Policy Act of 1982 (P.L. 97-425), as amended, for purposes of radioactive waste disposal activities particularly for the disposal and storage of high-level radioactive waste, spent nuclear fuel, and low-level radioactive waste as well as for research, development, and demonstration regarding disposal of high-level radioactive waste and spent nuclear fuel.

The Office of Civilian Radioactive Waste Management (OCRWM) will move into the next phase of the program with its planned submission to the Nuclear Regulatory Commission (NRC) of a license application to receive a construction authorization to build and operate a permanent geologic repository at Yucca Mountain, Nevada. During the next three to four years, OCRWM's primary focus will be defending the license application to the NRC, and all program activities are oriented towards this effort.

Enactment of the Administration's proposed legislation, the Nuclear Waste Management and Disposal Act, remains a priority for OCRWM in the coming years. Receiving a construction authorization and enactment of the legislative proposal are the key remaining steps to ensure the opening of the Yucca Mountain repository, the establishment of the National and Nevada waste transportation systems, and the completion of the activities required to support and emplacement of spent nuclear fuel and high-level radioactive waste at the repository.

The charter of the DOE isotope production and distribution program covers the production and sale of radioactive and stable isotopes, associated byproducts, surplus materials such as lithium and helium, and related isotope services to the use community utilizing Government-owned facilities. Services include, but are not limited to, irradiation services, target preparation and processing, source encapsulation and other special preparations, analyses, chemical separations, and the lease of stable isotopes for research purposes. The isotopes are priced to recover their production cost.

TITLE 17 INNOVATIVE TECHNOLOGY LOAN GUARANTEE LOAN  
PROGRAM—Continued

The Loan Guarantee Program Office will consider and coordinate Departmental action on all loan guarantee applications submitted to the Department of Energy in compliance with Title XVII of the Energy Policy Act of 2005. Section 1703 of that Act authorizes the Department to provide loan guarantees for renewable energy systems, advanced nuclear facilities, coal gasification, carbon sequestration, energy efficiency, and many other types of projects. These projects must avoid, reduce, or sequester air pollutants or anthropogenic emissions of greenhouse gases; employ new or significantly improved technologies compared to commercial technologies in service in the United States at the time the guarantee is issued; and offer a reasonable prospect of repayment of the principal and interest on the guaranteed obligation.

On October 23, 2007, the Department published in the Federal Register final regulations for the loan guarantee program as authorized by Title XVII of the Energy Policy Act of 2005 (EPA). The final rule was the culmination of a public rule-making process, which began with a Notice of Proposed Rule-making published on May 16, 2007. DOE is implementing this program under authorizing law that allows borrowers to pay the credit subsidy costs of these loan guarantees. DOE is not seeking appropriations for the credit subsidy costs.

On October 4, 2007, the Department invited 16 project sponsors, who submitted pre-applications under the first solicitation in the Fall of 2006, to submit full applications for loan guarantees. These projects include advanced technologies involving the use of biomass, fossil energy, solar, industrial energy efficiency, electricity delivery and energy reliability, hydrogen, and alternative fuel vehicles. The decision to issue loan guarantees will depend on the merits and benefits of particular project proposals and their compliance with statutory and regulatory requirements.

During fiscal year 2008 through 2011, commitments to guarantee loans under Title XVII of the Energy Policy Act of 2005, will total \$38.5 billion. In the Energy and Water Development and Related Agencies Appropriations Act, 2008, Congress authorized the Department to issue loan guarantees under the Title XVII program until September 30, 2009. The Budget now extends that authorization through fiscal years 2010 and 2011, and specifies amounts and uses of loan guarantee authority for those periods consistent with Congressional guidance accompanying the FY 2008 appropriations act. Of the total provided, \$20.0 billion will be available through fiscal year 2010 to support eligible projects other than nuclear power plants. The remaining \$18.5 billion will be available through fiscal year 2011 to support nuclear power plants. The \$38.5 billion provided in FY 2008 through 2011 will be in addition to the \$4.0 billion in authority provided in FY 2007 under P.L. 110-05 Section 20320(a). Loan volume utilized may not be reused.

Because DOE has not yet evaluated the potential subsidy costs for any projects that might be eligible for Title XVII loan guarantees, the fiscal year 2009 budget reflects placeholder estimates for borrower paid loan guarantee subsidy costs, based on an illustrative portfolio. These estimates are not related to any specific project proposals.

DOE will calculate the credit subsidy cost of any loan guarantee on a case-by-case basis in accordance with FCRA and OMB Circular A-11. For any project, the terms and conditions of the guaranteed debt, the risks associated with the project, and any other factor that affects the amount and timing of such cash flows will affect the credit subsidy cost calculation.

The Loan Guarantee Program Office will centralize loan guarantee services for the Department to ensure all processes and criteria are applied uniformly in accordance with established requirements, procedures and guidelines. The Department requests \$19.9 million in funding in fiscal year 2009

to run the Office and support personnel and associated costs. This request will be offset by collections authorized under EPACT 2005. To ensure that the Department meets statutory requirements and implements effective management and oversight of its loan guarantee activities, program funding also will support the procurement of outside expertise in areas such as finance, project engineering, and commercial market assessment.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Alaska Power Administration (APA) was created in 1967 by the Secretary of the Interior to assume the functions of the Bureau of Reclamation in Alaska. These functions include operations, maintenance, transmission, and power marketing of the two Federal hydroelectric projects (Eklutna and Snettisham), and the investigation of future water and power development programs. All Alaska activities of APA, including the Juneau headquarters office, were terminated on September 30, 1998. A fund is maintained to liquidate the remaining obligations of the APA.

The Southeastern Power Administration (Southeastern) markets power generated at 22 Corps of Engineers' hydroelectric generating plants in an eleven-State area of the Southeast. Power deliveries are made by means of contracting for use of transmission facilities owned by others.

Southeastern sells wholesale power primarily to publicly and cooperatively-owned electric distribution utilities. Southeastern does not own or operate any transmission facilities. Its long-term contracts provide for periodic electric rate adjustments to ensure that the Federal Government recovers the costs of operations and the capital invested in power facilities, with interest, in keeping with statutory requirements.

*Program direction.*—Provision is made for negotiation and administration of transmission and power contracts, collection of revenues, development of wholesale power rates, amortization of the Federal power investment, energy efficiency and competitiveness program, investigation and planning of proposed water resources projects, scheduling and dispatch of power generation, scheduling storage and release of water, administration of contractual operation requirements, and determination of methods of operating generating plants individually and in coordination with others to obtain maximum utilization of resources

*Purchase power and wheeling.*—Provision is made for the payment of wheeling fees and for the purchase of electricity in connection with the disposal of power under contracts with utility companies. Customers are encouraged to use alternative funding mechanisms, including customer advances and net billing to finance these activities. Offsetting collections to fund these ongoing operating services are also available up to \$50 million. Estimates for these activities reflect average water levels over the past 20 years and prevailing electricity prices in 2007.

*Reimbursable Program.*—The FY 2008 Consolidated Appropriations Act (P.L. 110-161) provided Southeastern with authority to accept advance payment from customers for reimbursable work associated with operations and maintenance activities, consistent with those authorized in section 5 of the Flood Control Act of 1944. Funds received from any State, municipality, corporation, association, firm, district or individual as an advance payment for reimbursable work will be credited to Southeastern's account and remain available until expended.

A continuing fund maintained from receipts from the sale and transmission of electric power in the Southeastern service area, is available to defray emergency expenses necessary to ensure continuity of service (16 U.S.C. 825s-2). The fund will be activated in fiscal year 2008 to finance power purchases associated with below normal hydro power generation due to severe drought. Consistent with sound business practices, the Southeastern Power Administration has implemented a policy to recover all emergency costs associated with purchased power and wheeling within one year from the time funds are expended, as proposed in the 2008 Budget.

OPERATION AND MAINTENANCE, SOUTHWESTERN POWER ADMINISTRATION

For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy, for construction and acquisition of transmission lines, substations and appurtenant facilities, and for administrative expenses, including official reception and representation expenses in an amount not to exceed \$1,500 in carrying out section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the Southwestern Power Administration, **[\$30,442,000] \$28,414,000**, to remain available until expended: *Provided*, That, notwithstanding 31 U.S.C. 3302, up to \$35,000,000 collected by the Southwestern Power Administration pursuant to the Flood Control Act of 1944 to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures. (*Energy and Water Development and Related Agencies Appropriations Act, 2008.*)

The Southwestern Power Administration (Southwestern) operates in a six-state area as a marketing agent for hydroelectric power produced at the U.S. Army Corps of Engineers'

dams. It also operates and maintains 1,380 miles of high voltage transmission lines, 24 substations, and switching facilities, power system controls and communication sites, and is responsible for the construction and maintenance of these facilities.

Southwestern markets and delivers its power at wholesale rates primarily to publicly and cooperatively owned electric distribution utilities. In compliance with statutory requirements, Southwestern's power sales contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of operations, other costs allocated to power, and the capital investments in power facilities, with interest. Southwestern is also responsible for scheduling and dispatching power and negotiating power sales contracts to meet changing customer load requirements.

**Program direction.**—Provides compensation and all related expenses for personnel who market, deliver, operate, and maintain Southwestern's high-voltage interconnected power system and associated facilities.

**Operations and maintenance.**—Provides essential electrical and communications equipment replacements and upgrades, capitalized moveable equipment, technical services, and supplies and materials necessary for the safe, reliable, and cost effective operation and maintenance of the power system.

**Purchase power and wheeling.**—Provides for the purchase and delivery of energy to meet limited peaking power contractual obligations and transmission line losses resulting from the delivery of power over the Federal system. Federal power receipts and alternative financing methods, including net billing, bill crediting, and customer advances are used to fund system purchased power support and other contractual services. Customers will provide other power resources and/or purchases for the remainder of their firm loads.

**Construction.**—Provides for replacement, addition, and modification of existing infrastructure to sustain reliable delivery of power to customers, to contain annual maintenance costs, and to improve overall efficiency.

**Reimbursable program.**—This activity involves services provided by Southwestern to others under various types of reimbursable arrangements.

A Continuing Fund maintained from receipts from the sale and transmission of electric power in the Southwestern service area, is available permanently for emergency expenses necessary to ensure continuity of electric service and continuous operation of the facilities. The fund is also available on an ongoing basis for paying for purchase power and wheeling expenses when the Administrator determines that such expenses are necessary to meet contractual obligations for the sale and delivery of power during periods of below-average generation (16 U.S.C. 825s-1 as amended further by Public Law No. 101-101). Consistent with sound business practices, Southwestern has developed a policy to recover emergency costs associated with purchased power and wheeling within one year from the time funds are expended, as proposed in the 2008 Budget.

The Western Area Power Administration (Western) markets electric power in fifteen central and western states from federally-owned power plants operated primarily by the Bureau of Reclamation, the Army Corps of Engineers, and the International Boundary and Water Commission. Western operates and maintains about 17,000 circuit-miles of high-voltage transmission lines, more than 290 substations/switchyards and associated power system controls, and communication and electrical facilities for 15 separate power projects. Western also constructs additions and modifications to existing facilities.

In keeping with statutory requirements, Western's long-term power contracts allow for periodic rate adjustments to ensure that the Federal Government recovers costs of operations, other costs allocated to power, and the capital investment in power facilities, with interest.

Power is sold to wholesale customers such as municipalities, cooperatives, irrigation districts, public utility districts, State and Federal Government agencies, and private utilities. Receipts are deposited in the Reclamation Fund, the Falcon and Amistad Operating and Maintenance Fund, the General Fund, the Colorado River Dam Fund and the Colorado River Basins Power Marketing Fund.

*Systems operation and maintenance.*—Provides essential electrical and communication equipment replacements and upgrades, capitalized moveable equipment, technical services, and supplies and materials necessary for safe reliable operation and cost-effective maintenance of the power systems.

*Purchase power and wheeling.*—Provision is made for the payment of wheeling fees and for the purchase of electricity in connection with the distribution of power under contracts with utility companies. Customers are encouraged to contract for power and wheeling on their own, or use alternative funding mechanisms, including customer advances, net billing and bill crediting to finance these activities. Ongoing operating services are also available on a reimbursable basis. As in past years, the budget continues to provide certain receipt financing for purchase power and wheeling expenses from the use of discretionary offsetting receipts collected to recover these expenses.

*System Construction.*—Western's construction and rehabilitation activity emphasizes replacement and upgrades of existing infrastructure to sustain reliable power delivery to its customers, to contain annual maintenance costs, and to improve overall operational efficiency. Western will continue to participate in joint construction projects with customers to encourage more widespread transmission access.

*Program Direction.*—Provides compensation and all related expenses for the workforce that operates and maintains Western's high-voltage interconnected transmission system (systems operation and maintenance program), and those that plan, design, and supervise the construction of replacements, upgrades and additions (system construction program) to the transmission facilities.

*Utah Mitigation and Conservation.*—This account is primarily for environmental mitigation expenditures covering fish and wildlife, and recreation resources impacted by the Central Utah Project and the Colorado River Storage Project (CRSP) in the State of Utah.

*Reimbursable Program.*—This program involves services provided by Western to others under various types of reimbursable arrangements.

Western will continue to spend out of the Colorado River Dam Fund for operations and maintenance activities associated with the Boulder Canyon Project via a reimbursable arrangement with the Interior Department's Bureau of Reclamation. The Colorado River Dam Fund is a revolving fund operated by the Bureau of Reclamation. Authority for Western to obligate directly from the Colorado River Dam Fund comes from section 104(a) of the Hoover Power Plant Act of 1984.

An emergency fund maintained from receipts from the sale and transmission of electric power is available to defray expenses necessary to ensure continuity of service. The fund was activated in 2007 to repair a transformer damaged by lightning at the Huron Substation in South Dakota, and to support repair of transmission line segments in North Dakota damaged by a severe storm. Western has implemented a policy to recover all emergency costs associated with purchased power and wheeling expenses within one year from the time funds are expended, as proposed in the 2008 Budget.

Pursuant to section 423(c) of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995, Western Area Power Administration is requesting funding from the Falcon and Amistad Operating and Maintenance Fund, to defray operations, maintenance, and emergency (O,M&E) expenses for the hydroelectric facilities at Falcon and Amistad Dams on the Rio Grande River. Most of these funds will be made available to the United States Section of the International Boundary and Water Commission through a reimbursable agreement. \$200,000 in the fund is for an emergency reserve that will remain unobligated unless unanticipated expenses arise. Revenues in excess of O,M&E will be paid to the General Fund to repay the costs of replacements and the original investment with interest.

BONNEVILLE POWER ADMINISTRATION FUND

Expenditures from the Bonneville Power Administration Fund, established pursuant to Public Law 93-454, are approved for the Lower Granite Dam fish trap, the Kootenai River White Sturgeon Hatchery, the Nez Perce Tribal Hatchery, Redfish Lake Sockeye Captive Brood expansion, hatchery production facilities to supplement Chinook salmon below Chief Joseph Dam in Washington, Hood River Production Facility, Klickitat production expansion, Mid-Columbia

Coho restoration, and Yakama Coho restoration, and in addition, for official reception and representation expenses in an amount not to exceed \$1,500. During fiscal year [2008] 2009, no new direct loan obligations may be made. (Energy and Water Development and Related Agencies Appropriations Act, 2008.)

Bonneville Power Administration (BPA) is a Federal electric power marketing agency in the Pacific Northwest. BPA markets hydroelectric power from 21 multipurpose water resource projects of the U.S. Army Corps of Engineers and 10 projects of the U.S. Bureau of Reclamation, plus some energy from non-Federal generating projects in the region. These generating resources and BPA's transmission system, consisting of over 15,000 circuit miles of high-voltage transmission lines and 237 substations, are operated as an integrated power system with operating and financial results combined and reported as the Federal Columbia River Power System (FCRPS). BPA provides about thirty five percent of the region's electric energy supply and about three-fourths of the region's electric power transmission capacity.

BPA is responsible for meeting the net firm power requirements of its requesting customers through a variety of means, including energy conservation programs, acquisition of renewable and other resources, and power exchanges with utilities both in and outside the region.

BPA will finance its operations on the basis of the self-financing authority provided by Federal Columbia River Transmission System Act of 1974 (Transmission Act) (Public Law 93-454) and the borrowing authority provided by the Pacific Northwest Electric Power Planning and Conservation Act (Pacific Northwest Power Act) (Public Law 96-501) for energy conservation, renewable energy resources and capital fish facilities. Authority to borrow from the U.S. Treasury is available to the BPA on a permanent, indefinite basis. The amount of borrowing outstanding at any time cannot exceed \$4.45 billion. BPA finances its approximate \$3.5 billion annual cost of operations and investments primarily using power revenues and loans from the U.S. Treasury.

BPA released its Long-Term Regional Dialogue Policy and Record of Decision in July 2007. The Regional Dialogue Policy is focused on defining how BPA will market its wholesale power after 2011 and to ensure it does so in a way that meets key regional and national energy goals and ensures BPA's ability to meet its Treasury obligations.

**Operating Expenses: Transmission Services Business Line.**—Provides funding from revenues for electric transmission research and development and program support of the capital investment program described below for transmission services. Provides for operating about 15,000 miles of transmission line and 237 substations, and for maintaining the facilities and equipment of the Bonneville transmission system in 2009.

**Power Services.**—Provides for the planning, contractual acquisition and oversight of reliable, cost effective resources. These resources are needed to serve BPA's portion of the region's forecasted net electric load requirements. This activity also includes protection, mitigation and enhancement of fish and wildlife affected by hydroelectric facilities on the Columbia River and its tributaries in accordance with the Pacific Northwest Power Act. This activity provides for pay-

ment of the operation and maintenance (O&M) costs of the 31 U.S. Army Corps of Engineers and U.S. Bureau of Reclamation hydro projects, and amortization on the U.S. Bureau of Reclamation capital investment in power generating facilities and irrigation assistance at Bureau facilities. This activity also provides for the planning, contractual acquisition and oversight of reliable, cost effective conservation. It also provides for extending the benefits of low cost Federal power to the residential and small farm customers of investor-owned and publicly-owned utilities, in accordance with the Pacific Northwest Power Act and for activities of the Pacific Northwest Electric Power and Conservation Planning Council required by the Pacific Northwest Power Act.

**Interest.**—Provides for payments to the U.S. Treasury for interest on borrowings to finance BPA's transmission services, conservation, capital equipment, fish and wildlife, and associated projects capital programs under \$4.45 billion of borrowing authority provided by the Transmission Act as amended by the Pacific Northwest Power Act and replenished by Public Law 98-50 and Public Law 108-7. This category also includes interest on Corps of Engineers, BPA and U.S. Bureau of Reclamation appropriated debt.

**Capital Investments: Transmission Services.**—Provides for the planning, design and construction of transmission lines, substation and control system additions, replacements, and enhancements to the FCRPS transmission system for a reliable, efficient and cost-effective regional transmission system. Provides for planning, design, and construction work to repair or replace existing transmission lines, substations, control systems, and general facilities of the FCRPS transmission system.

**Capital Investments Power Services.**—Provides for direct funding of additions, improvements, and replacements at existing Federal hydroelectric projects in the Northwest. It also provides for capital investments to implement environmental activities, and protect, mitigate, and enhance fish and wildlife affected by hydroelectric facilities on the Columbia River and its tributaries, in accordance with the Pacific Northwest Power Act. This activity provides for the planning, contractual acquisition and oversight of reliable, cost effective conservation. The 2009 capital obligations are estimated to be \$560 million.

**Capital Equipment/Capitalized Bond Premium.**—Provides for capital information technologies, and office furniture and equipment, and software capital development in support of all BPA programs. It also provides for bond premiums incurred for refinancing of bonds.

**Contingencies.**—Although contingencies are not specifically funded, the need may arise to provide for purchase of power in low-water years; for repair and/or replacement of facilities affected by natural and man-made emergencies, including the resulting additional costs for contracting, construction, and operation and maintenance work; for unavoidable increased costs for the planned program due to necessary but unforeseen adjustments, including engineering and design changes, contractor and other claims and relocations; or for payment of a retrospective premium adjustment in excess nuclear property insurance.

**Financing.**—The Transmission Act provides for the use by BPA of all receipts, collections, and recoveries in cash from all sources, including the sale of bonds, to finance the annual budget programs of BPA. These receipts result primarily from the sale of power and transmission services. The Transmission Act also provides for authority to borrow from the U.S. Treasury at rates comparable to borrowings at open market rates for similar issues. As amended by the Pacific Northwest Power Act and replenished by Public Law 98-50 and Public Law 108-7, it allows for \$4.45 billion of borrowing from the U.S. Treasury to be outstanding at any time. The amount of BPA's current outstanding bonds with the U.S.

## BONNEVILLE POWER ADMINISTRATION FUND—Continued

Treasury is \$2.24 billion. BPA also currently has \$6.55 billion of non-Federal debt outstanding, including Energy Northwest bonds. BPA will rely primarily on its capital borrowing authority to finance capital projects, but may also elect to use cash reserves generated by revenues from customers to finance some of these investments.

In 2007, BPA made payments to the Treasury of \$1,045 million and also expects to make payments of \$774 million in 2008 and \$673 million in 2009. The 2009 payment will be distributed as follows: interest on bonds and appropriations (\$363 million), amortization (\$276 million), and other (\$34 million). BPA also received credits totaling \$70.5 million applied against its Treasury payments in 2007 to reflect amounts diverted to fish mitigation efforts in the Columbia and Snake River systems.

BPA considers other strategies to sustain funding for its infrastructure investment requirements as well. These additional strategies include optimization of Energy Northwest debt, reserve financing of some amount of transmission investments, and seeking, when feasible, third party financing sources. BPA, in collaboration with Energy Northwest, is pursuing the refinancing of certain Energy Northwest bonds as part of an ongoing debt optimization program. Through this program, BPA uses the reductions in debt service for its Energy Northwest bonds to make advance payments on its Federal debt. Advance payment estimates in the 2009 budget include \$63 million in FY 2008 and \$78 million in FY 2009, consistent with power rate case documentation. Implementation of the refinancing components will be subject to favorable market conditions and interest rate environment.

**Direct Loans.**—During 2009, no new direct loan obligations may be made.

**Operating Results.**—Total revenues are forecast at approximately \$3.4 billion in 2009.

It should be noted that BPA's revenue forecasts are based on several critical assumptions about both the supply of and demand for Federal energy. During the operating year, deviation from the conditions assumed in a rate case may result in a variation in actual revenues of several hundred million dollars from the forecast.

Consistent with Administration policy, BPA will continue to fully recover, from the sale of electric power and transmission, funds sufficient to cover the full cost of Civil Service Retirement System and Post-Retirement Health Benefits for its employees. The entire cost of BPA employees working under the Federal Employees Retirement System is already fully recovered in wholesale electric power and transmission rates.

Western Area Power Administration's (Western) operation and maintenance (O&M) and power marketing expenses for the Colorado River Storage Project, the Colorado River Basin Project, the Seedskadee Project, the Dolores Project and the Fort Peck Project are financed from power revenues.

**Program Direction.**—Western operates and maintains approximately 4,000 miles of transmission lines, substations, switchyards, communications and control equipment associated with this fund. The personnel compensation and related expenses for all these activities are quantified under Program Direction. Wholesale power is provided to utilities over interconnected high-voltage transmission systems. In keeping with statutory requirements, long-term power contracts provide for periodic rate adjustments to ensure that the Federal Government recovers all costs of O&M, and all capital invested in power, with interest.

**Colorado River Storage Project.**—Western markets power and operates and maintains the power transmission facilities of the Colorado River Storage Project consisting of four major storage units: Glen Canyon on the Colorado River, Flaming Gorge on the Green River in Utah, Navajo on the San Juan River in New Mexico, and the Wayne N. Aspinall unit on the Gunnison River in Colorado.

**Colorado River Basin Project.**—The Colorado River Basin Project includes Western's expenses associated with the Central Arizona Project and the United States entitlement from the Navajo coal-fired powerplant. Revenues in excess of operating expenses are transferred to the Lower Colorado River Basin Development Fund.

**Fort Peck Project.**—Revenue collected by Western is used to defray operation and maintenance and power marketing expenses associated with the power generation and transmission facilities of the Fort Peck Project, to defray emergency expenses, and to ensure continuous operation. The Corps of Engineers is responsible for operating and maintaining the power generating facilities at the Fort Peck Project, and Western operates and maintains the transmission system and performs power marketing functions.

**Seedskadee Project.**—This activity includes Western's expenses for O&M, power marketing, and transmission of hydroelectric power from the Fontenelle Dam power plant in southwestern Wyoming.

**Dolores Project.**—This activity includes Western's expenses for O&M, power marketing, and transmission of hydroelectric power from power plants at McPhee Dam and Towaoc Canal in southwestern Colorado.

**RECLASSIFICATION OF RECEIPTS**

The Administration supports reclassification of receipts from mandatory to discretionary (net zero appropriations) for the annual operating expenses of Southeastern, Southwestern, and Western Area Power Marketing Administrations (PMAs). Reclassification of receipts in this manner would allow the PMA programs to benefit from the alignment of PMA receipts with their annual (non-capital) expenditures provided by appropriations. This alignment would foster increased planning certainty for the PMA programs, which would ultimately improve the reliability and operating efficiency of the Federal power system. The Administration will continue to pursue reclassification of receipts through changes to the existing authorizing statutes or by other means.

**Chief Financial Officer (CFO).**—The Office of the Chief Financial Officer provides the Department with centralized oversight for a full range of financial management and program evaluation services. The CFO leads implementation initiatives on Improved Financial Performance and Budget and Performance Integration. CFO financial activities include: budget formulation, presentation and execution; accounting and financial policy; oversight of DOE-wide internal control; and development, maintenance and operation of DOE financial management systems. Management activities include strategic planning and program evaluation. The CFO supports Departmental management by validating cost estimates of major new programs and projects, maintaining cost estimation tools and data bases, and developing cost analysis policy.

**Chief Information Officer (CIO).**—This office provides advice and assistance to the Secretary of Energy and other senior managers to ensure that information technology is acquired and information resources are managed in a manner that complies with policies and procedures of legislation including the Paperwork Reduction Act, the Clinger Cohen Act and the Federal Information Security Act.

**Policy and International Affairs (PI).**—The Office of Policy and International Affairs serves as the primary advisor to the Secretary and the Department on energy supply, demand, and technology policy development, analysis and implementation, and leads the Department's international energy initiatives. PI's objectives are: increasing energy diversity, reducing energy-related environmental impacts, enhancing U.S. energy infrastructure, and increasing energy productivity.

**Management (MA).**—The Office of Management provides DOE with centralized direction and oversight for the full range of management, procurement and administrative services. MA is responsible for project management, acquisition and contract administration, and is addressing skill gaps in these areas. MA's budget also supports the acquisition career development program to certify DOE's acquisition workforce.

**Human Capital Management (HCM).**—This office provides DOE with direction and oversight for the full range of human capital management and administrative services. The Office of Human Capital Management performs functions which directly support the mission of the Department, including; providing leadership and advice to the Department regarding the impact and use of human resource management policies, proposals, programs, and partnership agreements (Performance Management); coordinating programs and developing standards necessary to ensure that Departmental employees maintain the technical qualifications necessary to safely operate DOE facilities (Corporate Recruitment); and providing leadership and direction in dealings with Federal and non-Federal organizations regarding the Department's human resources operations, programs and policies.

**Congressional and Intergovernmental Affairs.**—This office is responsible for coordinating, directing, and promoting the Secretary's and the Department's policies and legislative initiatives with Congress, State, territorial, Tribal and local government officials, and other Federal agencies. The office is also responsible for managing and overseeing the Department's liaison with members of Congress, the White House and other levels of government and stakeholders which includes public interest groups representing state, local and tribal governments.

**Public Affairs.**—This office is responsible for directing and managing the Department's policies and initiatives with the public, news media, and other stakeholders on energy issues and serves as the Department's chief spokesperson. The office manages and oversees all public affairs efforts, which includes public information, press and media services, the departmental newsletter, speech writing, special projects, editorial

services, and review of proposed publications and audiovisuals.

**General Counsel.**—The Office of the General Counsel (GC) is responsible for providing legal services to all DOE offices, and for determining the Department's authoritative position on any question of law with respect to all Department offices and programs, except for those belonging exclusively to the Federal Energy Regulatory Commission. GC's responsibilities include the provision of legal opinions, advice and services to administrative and program offices, and participation in or management of both administrative and judicial litigation. The office is responsible for the coordination and clearance of proposed legislation affecting energy policy and Department activities. The General Counsel serves as the Department's Regulatory Policy Officer under Executive Order 12866. GC administers and monitors standards of conduct requirements, conducts patent program and intellectual property activities, manages the Department's Alternative Dispute Resolution Program, and coordinates rulemaking actions of the Department with other federal agencies. GC also includes the Office of National Environmental Policy Act (NEPA) Policy and Compliance, which provides independent technical and policy reviews to ensure that proposed Department actions comply with NEPA and related environmental requirements. This office serves as the focal point of the Department's NEPA expertise, develops NEPA compliance strategies, coordinates with other agencies on key policy matters, and prepares guidance and provides technical assistance to improve the efficiency and effectiveness of DOE's implementation of the NEPA process.

**Office of the Secretary.**—Directs and leads the management of the Department and provides policy guidance to line and staff organizations in the accomplishment of DOE's mission.

**Economic Impact and Diversity.**—This office is responsible for advising the Secretary on the effects of the Department's policies, regulations and actions on underrepresented population groups, small and minority business enterprises, and minority educational institutions. The office develops Department-wide policies, strategies and goals to implement applicable legislation and Executive Orders that strengthen diversity within the Department and its contractors in all areas of hiring and contracting.

**Cost of Work for Others.**—This activity covers the cost of work performed under orders placed with the Department by non-DOE entities which are precluded by law from making advance payments and certain revenue programs. Reimbursement for these costs is made through deposits of offsetting collections to this account.

This appropriation provides Department-wide, including the National Nuclear Security Administration, audit, inspection, and investigative functions to identify and correct management and administrative deficiencies which create conditions for existing or potential instances of fraud, waste, abuse and violations of law. The audit function provides financial and performance audits of programs and operations. The inspection function provides independent inspections and analyses of the performance, on a system basis, of programs and operations. The investigative function provides for the detection and investigation of improper and illegal activities involving programs, personnel, and operations. Through these efforts the OIG identifies opportunities for cost savings and operational efficiencies; identifies programs that are not meeting performance expectations; recovers monies to the Department and the Treasury as a result of civil and criminal prosecutions; and, identifies ways to make Departmental programs safer and more secure.

**GENERAL PROVISIONS**

**SEC. 301. CONTRACT COMPETITION**

(a) None of the funds in this or any other appropriations Act for fiscal year [2008] 2009 or any previous fiscal year may be used to make payments for a noncompetitive management and operating contract, or a contract for environmental remediation or waste management in excess of \$100,000,000 in annual funding at a current or former management and operating contract site or facility, or award a significant extension or expansion to an existing management and operating contract, or other contract covered by this section, unless such contract is awarded using competitive procedures or the Secretary of Energy grants, on a case-by-case basis, a waiver to allow for such a deviation. The Secretary may not delegate the authority to grant such a waiver.

(b) *In this section:*

(1) *The term "noncompetitive management and operating contract" means a contract that was awarded more than 50 years ago without*

competition for the management and operation of Ames Laboratory, Argonne National Laboratory, Lawrence Berkeley National Laboratory, Livermore National Laboratory, and Los Alamos National Laboratory.

(2) The term “competitive procedures” has the meaning provided in section 4 of the Office of Federal Procurement Policy Act (41 U.S.C. 403) and includes procedures described in section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253) other than a procedure that solicits a proposal from only one source.

(c) For all management and operating contracts other than those listed in subsection (b)(1), none of the funds appropriated by this Act may be used to award a management and operating contract, unless such contract is awarded using competitive procedures or the Secretary of Energy grants, on a case-by-case basis, a waiver to allow for such a deviation. The Secretary may not delegate the authority to grant such a waiver. At least 60 days before a contract award for which the Secretary intends to grant such a waiver, the Secretary shall submit to the Committees on Appropriations of the House of Representatives and the Senate a report notifying the Committees of the waiver and setting forth, in specificity, the substantive reasons why the Secretary believes the requirement for competition should be waived for this particular award.

[(c) Within 30 days of formally notifying an incumbent contractor that the Secretary intends to grant such a waiver, the Secretary shall submit to the Subcommittees on Energy and Water Development of the Committees on Appropriations of the House of Representatives and the Senate a report notifying the Subcommittees of the waiver and setting forth, in specificity, the substantive reasons why the Secretary believes the requirement for competition should be waived for this particular award.]

SEC. 302. UNFUNDED REQUESTS FOR PROPOSALS. None of the funds appropriated by this Act may be used to prepare or initiate Requests For Proposals (RFPs) for a program if the program has not been funded by Congress.

SEC. 303. WORKFORCE RESTRUCTURING. None of the funds appropriated by this Act may be used to—

(1) develop or implement a workforce restructuring plan that covers employees of the Department of Energy; or

(2) provide enhanced severance payments or other benefits for employees of the Department of Energy, under section 3161 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102–484; 42 U.S.C. 7274h).

SEC. 304. SECTION 3161 ASSISTANCE. None of the funds appropriated by this Act may be used to augment the funds made available for obligation by this Act for severance payments and other benefits and community assistance grants under section 3161 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102–484; 42 U.S.C. 7274h) unless the Department of Energy submits a reprogramming [request] notification to the appropriate congressional committees.

SEC. 305. UNEXPENDED BALANCES. The unexpended balances of prior appropriations provided for activities in this Act may be available to the same appropriation accounts for such activities established pursuant to this title. Available balances may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 306. BONNEVILLE POWER AUTHORITY SERVICE TERRITORY. None of the funds in this or any other Act for the Administrator of the Bonneville Power Administration may be used to enter into any agreement to perform energy efficiency services outside the legally defined Bonneville service territory, with the exception of services provided internationally, including services provided on a reimbursable basis, unless the Administrator certifies in advance that such services are not available from private sector businesses.

SEC. 307. USER FACILITIES. When the Department of Energy makes a user facility available to universities or other potential users, or seeks input from universities or other potential users regarding significant characteristics or equipment in a user facility or a proposed user facility, the Department shall ensure broad public notice of such availability or such need for input to universities and other potential users. When the Department of Energy considers the participation of a university or other potential user as a formal partner in the establishment or operation of a user facility, the Department shall employ full and open competition in selecting such a partner. For purposes of this section, the term “user facility” includes, but is not limited to: (1) a user facility as described in section 2203(a)(2)

of the Energy Policy Act of 1992 (42 U.S.C. 13503(a)(2)); (2) a National Nuclear Security Administration Defense Programs Technology Deployment Center/User Facility; and (3) any other Departmental facility designated by the Department as a user facility.

SEC. 308. INTELLIGENCE ACTIVITIES. Funds appropriated by this or any other Act, or made available by the transfer of funds in this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year [2008] 2009 until the enactment of the Intelligence Authorization Act for fiscal year [2008] 2009.

【SEC. 309. LABORATORY DIRECTED RESEARCH AND DEVELOPMENT. Of the funds made available by the Department of Energy for activities at government-owned, contractor-operator operated laboratories funded in this Act or subsequent Energy and Water Development Appropriations Acts, the Secretary may authorize a specific amount, not to exceed 8 percent of such funds, to be used by such laboratories for laboratory-directed research and development: *Provided*, That the Secretary may also authorize a specific amount not to exceed 4 percent of such funds, to be used by the plant manager of a covered nuclear weapons production plant or the manager of the Nevada Site Office for plant or site-directed research and development: *Provided further*, That notwithstanding Department of Energy order 413.2A, dated January 8, 2001, beginning in fiscal year 2006 and thereafter, all DOE laboratories may be eligible for laboratory directed research and development funding.】

【SEC. 310. YIELD RATE. For fiscal year 2008, except as otherwise provided by law in effect as of the date of this Act or unless a rate is specifically set by an Act of Congress thereafter, the Administrators of the Southeastern Power Administration, the Southwestern Power Administration, and the Western Area Power Administration, shall use the “yield” rate in computing interest during construction and interest on the unpaid balance of the costs of Federal power facilities. The yield rate shall be defined as the average yield during the preceding fiscal year on interest-bearing marketable securities of the United States which, at the time the computation is made, have terms of 15 years or more remaining to maturity.】

【SEC. 311. USE PERMIT. The Use Permit granted to the contractor for activities conducted at the Pacific Northwest National Laboratory by Agreement DE-GM05–00RL01831 between the Department of Energy and the contractor shall continue in effect during the term of the existing Operating Contract and the extensions or renewals thereof and shall be incorporated into any future management and operating contract for the Pacific Northwest National Laboratory and such Use Permit may not be waived, modified or terminated unless agreed to by both contractor and the Department of Energy.】

【SEC. 312. (a) ACROSS-THE-BOARD RESCISSIONS.—There is hereby rescinded—

(1) from discretionary accounts in this title that contain congressionally directed projects, an amount equal to 1.6 percent of the budget authority provided for fiscal year 2008 for such projects; and

(2) from all discretionary accounts in this title, an amount equal to 0.91 percent of the other budget authority provided for fiscal year 2008.

(b) DEFINITIONS.—For purposes of this section:

(1) The term “congressionally directed project” means a congressional earmark or congressionally directed spending item specified in the list of such earmarks and items for this division that is included in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act).

(2) The term “other budget authority” means an amount equal to all discretionary budget authority, less the amount provided for congressionally directed projects.

(c) PROPORTIONATE APPLICATION TO OTHER PROGRAMS, PROJECTS, AND ACTIVITIES.—Any rescission made by subsection (a)(2) shall be applied proportionately—

(1) to each discretionary account; and

(2) within each such account, to each program, project, and activity (with programs, projects, and activities as delineated in the appropriation Act or accompanying reports for the relevant fiscal year covering such account).

(d) REPORT.—Within 30 days after the date of the enactment of this section, the Director of the Secretary of Energy shall submit to the Committees on Appropriations of the House of Representatives and the Senate a report specifying the account and amount of each rescission made pursuant to this section.】

SEC. 309. Section 312 of the Energy and Water Development Appropriations Act, 2004 (Pub. L. 108-137), is amended as follows: (1) In the first sentence by inserting between “the material” and “in the concrete silos”, the words “formerly stored”, by inserting before the period: “when such material is disposed at an Nuclear Regulatory Commission-regulated or Agreement State-regulated facility”; and (2) In the second sentence, striking “for the purpose” and everything that follows, and inserting; “after the material has been disposed at an NRC-regulated or Agreement State-regulated facilities and shall not preclude the materials from otherwise being disposed at facilities operated by the Department of Energy so long as the materials meet the disposal facility’s waste acceptance criteria.” Not to exceed 5 per centum of any appropriation made available for Department of Energy activities funded in this Act or subsequent Energy and Water Development Appropriations Acts, not to exceed \$5,000,000, may hereafter be transferred between such appropriations, but no such appropriation, except

as otherwise provided, shall be increased or decreased by more than 5 per centum by any such transfers, and any such proposed transfers: Provided, That 15 days in advance of such transfer, notice shall be submitted to the Committees on Appropriations of the House and Senate.

SEC. 310. Not to exceed 5 per centum of any appropriation made available for Department of Energy activities funded in this Act or subsequent Energy and Water Development Appropriations Acts may be transferred between such appropriations, but no such appropriation, except as otherwise provided, shall be increased or decreased by more than 5 per centum by any such transfers, and notification of such transfers shall be submitted promptly to the Committees on Appropriations of the House and Senate.

SEC. 311. Section 311 of the Energy and Water Development Appropriations Act, 2008 is repealed. (Energy and Water Development and Related Agencies Appropriations Act, 2008.)

The Food and Drug Administration (FDA) is responsible for protecting the public health by assuring the safety, efficacy, and security of human and veterinary drugs, biological products, medical devices, our Nation's food supply, cosmetics, and products that emit radiation. The FDA is also responsible for advancing the public health by helping to speed innovations that make medicines more effective, safer, and more affordable; and helping to provide the public accurate, science-based information about medicines and foods to improve their health. FDA decisions affect Americans on a daily basis. The Budget includes funding for counterterrorism activities that specifically relate to the protection of products or therapies regulated by the FDA (such as drugs, vaccines, foods, and animal feed), and the availability of medical products for public health preparedness in the event of an attack. Specifically, the Budget requests funding for food protection, drug safety, medical device review and safety, and headquarters consolidation in White Oak, Maryland.

The FY 2009 Budget includes a number of new and current user fees. Legislation will be proposed to allow FDA to collect fees to support generic animal drug review activities. The additional resources, estimated at \$5 million in 2009, would enable FDA to reduce review times and respond to the number of generic animal drug applications. The Budget repropose user fees to support activities related to generic human drug reviews, re-inspections of FDA-regulated facilities, and the issuance of export certificates for food and animal feeds.

The Budget includes \$14 million in animal drug user fees. Authorizing language for these fees will be proposed to reauthorize the collection and spending of the fees subject to appropriations language.

The Budget also proposes a new authority to approve low-on protein products.

The Vaccine Injury Compensation Program was established pursuant to Public Law 99-660 and Public Law 100-203, and serves as a source of funds to pay claims for compensation for vaccine related injury or death. Payment of claims associated with vaccine related injury or death occurring before October 1, 1988 are financed from the General Fund and are reflected in this account. Given sufficient carry-over funds from prior years' appropriations to pay for the balance of the pre-1988 claims yet to be adjudicated, no appropriation is requested in 2009 to cover payment of pre-1988 claims. By statute, no new claims are accepted for this account. Payment of claims associated with vaccine related injury or death occurring after October 1, 1988 are reflected in the Vaccine Injury Compensation Program trust fund account.

P.L. 104-299 and P.L. 104-208 authorize Health Resources and Services Administration (HRSA) to guarantee up to \$160 million in private loans to health centers for the costs of developing and operating managed care networks or plans and for the construction, renovation and modernization of medical facilities. As required by the Federal Credit Reform Act of 1990, this financing account records all cash flows to and from the Government resulting from the Health Center Loan Guarantee program. The program account for this activity is displayed in the Health Resources and Services account (75-0350) as a line in the program and financing schedule. The Budget proposes to rescind the unobligated balances of the Health Center Guaranteed Loan subsidy.

ADMINISTRATIVE PROVISIONS, INDIAN HEALTH SERVICE

Appropriations in this Act to the Indian Health Service shall be available for services as authorized by 5 U.S.C. 3109 but at rates not to exceed the per diem rate equivalent to the maximum rate payable for senior-level positions under 5 U.S.C. 5376; hire of passenger motor vehicles and aircraft; purchase of medical equipment; purchase of reprints; purchase, renovation and erection of modular buildings and renovation of existing facilities; payments for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; and for uniforms or allowances therefor as authorized by 5 U.S.C. 5901-5902; and for expenses of attendance at meetings which are concerned with the functions or activities for which the appropriation is made or which will contribute to improved conduct, supervision, or management of those functions or activities.

In accordance with the provisions of the Indian Health Care Improvement Act, non-Indian patients may be extended health care at all tribally administered or Indian Health Service facilities, subject to charges, and the proceeds along with funds recovered under the Federal Medical Care Recovery Act (42 U.S.C. 2651-2653) shall be credited to the account of the facility providing the service and shall be available without fiscal year limitation. Notwithstanding any other law or regulation, funds transferred from the Department of Housing and Urban Development to the Indian Health Service shall be administered under Public Law 86-121 (the Indian Sanitation Facilities Act) and Public Law 93-638, as amended.

Funds appropriated to the Indian Health Service in this Act, except those used for administrative and program direction purposes, shall not be subject to limitations directed at curtailing Federal travel and transportation.

[None of the funds made available to the Indian Health Service in this Act shall be used for any assessments or charges by the Department of Health and Human Services unless identified in the budget justification and provided in this Act, or approved by the House and Senate Committees on Appropriations through the re-programming process.]

Notwithstanding any other provision of law, funds previously or herein made available to a tribe or tribal organization through a contract, grant, or agreement authorized by title I or title V of the Indian Self-Determination and Education Assistance Act of 1975 (25 U.S.C. 450), may be deobligated and reobligated to a self-determination contract under title I, or a self-governance agreement under title V of such Act and thereafter shall remain available to the tribe or tribal organization without fiscal year limitation.

None of the funds made available to the Indian Health Service in this Act shall be used to implement the final rule published in the Federal Register on September 16, 1987, by the Department of Health and Human Services, relating to the eligibility for the health care services of the Indian Health Service until the Indian Health Service has submitted a budget request reflecting the increased costs associated with the proposed final rule, and such re-

quest has been included in an appropriations Act and enacted into law.

With respect to functions transferred by the Indian Health Service to tribes or tribal organizations, the Indian Health Service is authorized to provide goods and services to those entities, on a reimbursable basis, including payment in advance with subsequent adjustment. The reimbursements received therefrom, along with the funds received from those entities pursuant to the Indian Self-Determination Act, may be credited to the same or subsequent appropriation account that provided the funding, with such amounts to remain available until expended.

Reimbursements for training, technical assistance, or services provided by the Indian Health Service will contain total costs, including direct, administrative, and overhead associated with the provision of goods, services, or technical assistance.

The appropriation structure for the Indian Health Service may not be altered without advance notification to the House and Senate Committees on Appropriations. (*Department of the Interior, Environment, and Related Agencies Appropriations Act, 2008.*)

This program provides Federal support to strengthen the capacity of the Nation's health care delivery system to provide substance abuse prevention, addiction treatment, and mental health services, for people at risk for or experiencing substance abuse or mental illness. SAMHSA builds partnerships with states, communities, tribal and private not-for-profit organizations to address the needs of individuals with substance abuse disorders and/or mental illness and to identify and respond to the community risk factors that contribute to these illnesses.

Medicaid assists States in providing medical care to their low-income populations by granting Federal matching payments under title XIX of the Social Security Act to States with approved plans.

Medicaid estimates assume budget authority for expenses that are incurred but not reported (IBNR).

Authorized as part of Title XIX, Vaccines for Children (VFC) finances the purchase of vaccines for low-income, eligible children. VFC is administered by the Centers for Disease Control and Prevention and is funded entirely by the Federal Government.

The Budget includes \$35 million in user fees to finance survey and certification activities. Centers for Medicare & Medicaid Services (CMS) would charge revisit user fees to health care facilities cited for deficiencies during initial certification, recertification, or substantiated complaint surveys. Proposed appropriations language provides authority to collect and spend these fees. The amount appropriated from the Federal Hospital Insurance (HI) and Federal Supplementary Medical Insurance (SMI) trust funds would be reduced on a dollar-for-dollar basis with fees collected.

The Balanced Budget Act of 1997 established the State Children's Health Insurance Program (SCHIP) under Title XXI of the Social Security Act. Title XXI provides Federal matching funds to States to enable them to extend coverage to uninsured children from low-income families. States are

able to use Title XXI funds for obtaining health benefit coverage for uninsured children through a SCHIP program, a SCHIP Medicaid expansion program, or a combination of both.

The Budget includes a package of reforms that encourage competition and efficiency, promote high quality care, rationalize payments, improve program integrity, enhance fiscal sustainability, and strengthen responsibility for health care choices.

HEALTH CARE FRAUD AND ABUSE CONTROL ACCOUNT

In addition to amounts otherwise available for program integrity and program management, \$198,000,000, to be transferred from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund, as authorized by section 201(g) of the Social Security Act, of which \$147,038,000 is for the Medicare Integrity Program at the Centers for Medicare and Medicaid Services to conduct oversight of activities for Medicare Advantage and the Medicare Prescription Drug Program authorized in title XVIII of the Social Security Act, including activities listed in section 1893(b) of such Act (42 U.S.C. 1395ddd(b)); of which \$18,967,000 is for the Department of Health and Human Services Office of Inspector General; of which \$13,028,000 is for the Medicaid and SCHIP program integrity activities; and of which \$18,967,000 is for the Department of Justice: Provided, That the report required section 1817(k)(5) of the Social Security Act for FY 2009 shall include measures of the operational efficiency and impact on fraud, waste and abuse in the Medicare, Medicaid and SCHIP programs for the funds provided by this appropriation.

P.L. 104-191 established the Health Care Fraud and Abuse Control (HCFAC) account within the Federal hospital insurance trust fund and appropriated funds, to be available without further appropriation, from the trust fund to the HCFAC account for specified health care fraud and abuse control activities of the Department of Health and Human Services (HHS), the Department of Justice, and other agencies.

This schedule reflects the estimated distribution of the account for 2008 and 2009. As required by statute, actual 2008 and 2009 agency distributions will be determined by the Secretary of HHS and the Attorney General consistent with the Administration's priorities.

	2007 actual	2008 actual	2009 est.
Department of Justice, DOJ	52	54	54
Office of the Inspector General, HHS	166	173	175
Other specific HHS fraud and abuse projects	32	32	34
Total	250	259	263

The 2009 Budget includes the following structural changes to the Health Care Fraud and Abuse Control Account: (1) splitting the current funding provided jointly to the Department of Health and Human Services and the Department of Justice into separate funding streams; (2) eliminating the annual negotiations process between the two Departments; and (3) requiring the Federal Bureau of Investigations and the Medicare Integrity Program to contribute to the annual HCFAC report.

The 2009 Budget also includes a discretionary request for efforts to safeguard Medicaid, Medicare Advantage, and the Medicare prescription drug benefit, and will supplement the mandatory funds made available by P.L. 104-191.

It is important that these cost increases and new enforcement investments be fully funded. The Administration is proposing to fund them as contingent appropriations. To ensure full funding of the new enforcement investments, the Administration proposes to employ a budget enforcement mechanism that allows for an adjustment by the Budget Committees to the section 302(a) allocation to the Appropriations Commit-

tees found in the concurrent resolution on the budget. In addition, the Administration will also seek to establish statutory spending limits, as defined by section 251 of the Balanced Budget and Emergency Deficit Control Act of 1985, and to adjust them for this purpose. These adjustments would only be permissible if the use of these funds was clearly restricted to the specified purpose. The maximum allowable adjustment to the 302(a) allocation and/or the statutory spending limit would be \$198 million for 2009 (see chapter 15 in Analytical Perspectives).

The HCFAC entities will develop a comprehensive plan for Medicare, Medicaid and SCHIP program integrity activities. The plan will indicate how program integrity appropriations from all sources (DRA, HIPAA and the discretionary cap adjustment) will be allocated to address program integrity priorities. These priorities include the fraud, waste, and abuse vulnerabilities of these programs, and efforts to address responsibilities under the Improper Payments Improvement Act.

The Supplementary Medical Insurance (SMI) program is a voluntary program that affords protection against the costs of physician and certain other medical services. The program also covers treatment of end-stage renal disease for eligible enrollees. SMI costs are financed by premium payments from enrollees and contributions from the general revenues.

The status of the trust fund is as follows:

Authorized under the Medicare Modernization Act as section 1860 D-31 of the Social Security Act, the Medicare Transitional Drug Assistance program provided low-income beneficiaries with \$600 per year in 2004 and 2005 to help them pay for their prescription drugs and covered the cost of enrollment fees. Some benefits remained available in early 2006, until beneficiaries had the opportunity to enroll in the voluntary Medicare prescription drug benefits.

This request includes a new legislative proposal that will make technical changes to ensure that all child support en-

forcement services are available in international child support cases. Additionally, this request includes several proposals from previous President's Budgets aimed at increasing child support collections, improving States' efforts to collect medical support on behalf of children, increasing resources to support and facilitate non-custodial parents' access to and visitation of their children, providing Tribal child support programs with access to the same waivers and enforcement tools that States have, and increasing the annual spending limit on the Repatriation program.

LOW-INCOME HOME ENERGY ASSISTANCE

For making payments under section [2604(a)-(d)] 2602(b) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. [8623(a)-(d)] 8621(b) ), [\$2,015,206,000] \$1,700,000,000.

The legislative proposals include provisions to introduce an option available to all States to participate in an alternative financing system for child welfare that will better meet the needs of each State's foster care population. States choosing to participate face far fewer administrative burdens and will receive funds in the form of flexible grants. There is also a proposal to increase the match rate for the District of Columbia to align with the match rate used in the Medicaid program.

Note.—The reimbursable program (HCFAC) in the Administration on Aging (AoA) reflects the estimated distribution of the allocation account for 2008 and 2009. Actual 2008 and 2009 distributions will be determined by the Secretary of HHS and the Attorney General.

**Administration on Aging.**—The proposed level will provide continued funding for core formula grant programs that provide nutrition, supportive services and caregiver support services through the aging network. These programs are part of a comprehensive system of home and community-based support for older people and their families.

The Budget will fund the Choices for Independence demonstration which aims to help older individuals and their families conserve and extend their personal resources through the use of low-cost, community-based alternatives in long-term care.

This program supports coordination, leadership, and development of Federal health information technology activities and Federal initiatives for the nationwide advancement of interoperable health information technology, in cooperation with participants in the health sector. The Office of the National Coordinator for Health Information Technology was created by Executive Order 13335, for the purpose of addressing strategic planning, coordination, and the analysis of key technical, economic and other issues related to the public and private adoption of health information technology.

Through this program, activities related to and supporting the President's Health Information Technology Initiative are coordinated across several HHS organizations, as shown in the following consolidated table.

The Public Health and Social Services Emergency Fund (PHSSEF) provides resources to support a comprehensive program to prepare for the health and medical consequences of bioterrorism or other public health emergencies. This account includes funding for the Office of the Assistant Secretary for Preparedness and Response (ASPR), as authorized by the Pandemic and All-Hazards Preparedness Act. Funds will be used for the advanced development of pandemic and biodefense countermeasures, hospital preparedness and other emergency preparedness activities including the National Disaster Medical System that was transferred to HHS from the Department of Homeland Security in January 2007. The PHSSEF also includes funding for activities to support the detection and control of pandemic influenza.

The Nonrecurring Expenses Fund is a no-year account that captures expired unobligated balances from discretionary accounts prior to cancellation. The Fund will be used for non-recurring expenses that are difficult to accommodate or arise outside of the normal budget process. Beginning with 2008 appropriations, transfers will occur up to five years after expiration, when it is certain that original obligations have been fully paid and closed out. Advance notification of a proposed use of the Fund will be submitted to the relevant Committees on Appropriations of the House of Representatives and the Senate, with justification for the proposed areas/projects.

HHS Service and Supply Fund (SSF) provides a wide range of logistical and support services to components of the Department and other Federal agencies. The Program Support Center includes activities such as personnel and payroll support, information technology, financial management operations, and administrative services, including acquisitions management, building and property management, telecommunication services, medical supplies repackaging and distribution services, and the Federal Occupational Health Service. The Office of Secretary activities include the fund manager, departmental contracts, audit resolutions, Commissioned Corps force management, web management, claims, acquisition integration and modernization, small business, grants tracking, and competitive sourcing.

Most Commissioned Corps officers work for agencies in the Department of Health and Human Services and are reflected in the agencies' personnel summaries. However, some officers are assigned to other Federal agencies. The allocation account section in the following personnel summary shows officers assigned to other agencies, which are paid directly by that agency, either through an allocation account or by directly citing that agency's appropriation.

The Office of Inspector General (OIG) identifies and recommends actions to correct fraud, waste, and abuse in HHS administered and assisted programs and operations through audits, evaluations, and investigations.

In addition to the discretionary resources appropriated to the OIG, the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and the Deficit Reduction Act of 2005 (DRA) make available mandatory funding for use by the OIG. These funds are used to combat Medicare, Medicaid, and State Children's Health Insurance Program (SCHIP) fraud, waste, and abuse through a coordinated health care fraud and abuse control (HCFAC) program with the Department of Justice, and to establish a Medicaid Integrity Program under DRA. The following table shows total funding resources for the OIG:

SEC. 202. The Secretary shall make available through assignment not more than 60 employees of the Public Health Service to assist in child survival activities and to work in AIDS programs through and with funds provided by the Agency for International Development, the United Nations International Children’s Emergency Fund or the World Health Organization.

SEC. 203. None of the funds appropriated in this Act for the National Institutes of Health, the Agency for Healthcare Research and Quality, and the Substance Abuse and Mental Health Services Administration shall be used to pay the salary of an individual, through a grant or other extramural mechanism, at a rate in excess of Executive Level I I.

SEC. 204. None of the funds appropriated in this title for Head Start shall be used to pay the compensation of an individual, either as direct costs or any proration as an indirect cost, at a rate in excess of Executive Level II.

SEC. 205. None of the funds appropriated in this Act may be expended pursuant to section 241 of the Public Health Service Act, except for funds specifically provided for in this Act, or for other taps and assessments made by any office located in the Department of Health and Human Services, prior to the preparation and submission of a report by the Secretary of Health and Human Services to the Committees on Appropriations of the House of Representatives and the Senate detailing the planned uses of such funds.]

SEC. [206] 205. Notwithstanding section 241(a) of the Public Health Service Act, such portion as the Secretary of Health and Human Services shall determine, but not more than 2.4 percent, of any amounts appropriated for programs authorized under such Act shall be made available for the evaluation (directly, or by grants or contracts) of the implementation and effectiveness of such programs.

(TRANSFER OF FUNDS)

SEC. [207] 206. Not to exceed 1 percent of any discretionary funds (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) which are appropriated for the current fiscal year for the Department of Health and Human Services in this Act may be transferred between [a program, project, or activity] appropriations, but no such [program, project, or activity] appropriation shall be increased by more than 3 percent by any such transfer: *Provided*, That [the transfer authority granted by this section shall be available only to meet emergency needs and shall not be used to create any new program or to fund any project or activity for which no funds are provided in this Act:] *an appropriation may be increased by up to an additional 2 percent after notification of the House and Senate Committees on Appropriations: Provided further*, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.

(TRANSFER OF FUNDS)

SEC. [208] 207. The Director of the National Institutes of Health, jointly with the Director of the Office of AIDS Research, may transfer up to 3 percent among institutes and centers from the total amounts identified by these two Directors as funding for research pertaining to the human immunodeficiency virus: *Provided*, That the Committees on Appropriations of the House of Representatives and the Senate are promptly notified [at least 15 days in advance] of [any] the transfer.

(TRANSFER OF FUNDS)

SEC. [209] 208. Of the amounts made available in this Act for the National Institutes of Health, the amount for research related to the human immunodeficiency virus, as jointly determined by the Director of the National Institutes of Health and the Director of the Office of AIDS Research, shall be made available to the “Office of AIDS Research” account. The Director of the Office of AIDS Research shall transfer from such account amounts necessary to carry out section 2353(d)(3) of the Public Health Service Act.

SEC. [210] 209. None of the funds appropriated in this Act may be made available to any entity under title X of the Public Health Service Act unless the applicant for the award certifies to the Secretary that it encourages family participation in the decision of minors to seek family planning services and that it provides counseling to minors on how to resist attempts to coerce minors into engaging in sexual activities.

SEC. [211] 210. Notwithstanding any other provision of law, no provider of services under title X of the Public Health Service Act shall be exempt from any State law requiring notification or the reporting of child abuse, child molestation, sexual abuse, rape, or incest.

SEC. [212] 211. None of the funds appropriated by this Act (including funds appropriated to any trust fund) may be used to carry out the Medicare Advantage program if the Secretary of Health and Human Services denies participation in such program to an otherwise eligible entity (including a Provider Sponsored Organization) because the entity informs the Secretary that it will not provide, pay for, provide coverage of, or provide referrals for abortions: *Provided*, That the Secretary shall make appropriate prospective adjustments to the capitation payment to such an entity (based on an actuarially sound estimate of the expected costs of providing the service to such entity’s enrollees): *Provided further*, That nothing in this section shall be construed to change the Medicare program’s coverage for such services and a Medicare Advantage organization described in this section shall be responsible for informing enrollees where to obtain information about all Medicare covered services.

SEC. [213] 212. (a) Except as provided by subsection (e) none of the funds appropriated by this Act may be used to withhold substance abuse funding from a State pursuant to section 1926 of the Public Health Service Act (42 U.S.C. 300x-26) if such State certifies to the Secretary of Health and Human Services by May 1, [2008] 2009, that the State will commit additional State funds, in accordance with subsection (b), to ensure compliance with State laws prohibiting the sale of tobacco products to individuals under 18 years of age.

(b) The amount of funds to be committed by a State under subsection (a) shall be equal to 1 percent of such State's substance abuse block grant allocation for each percentage point by which the State misses the retailer compliance rate goal established by the Secretary of Health and Human Services under section 1926 of such Act.

(c) The State is to maintain State expenditures in fiscal year [2008] 2009 for tobacco prevention programs and for compliance activities at a level that is not less than the level of such expenditures maintained by the State for fiscal year [2007] 2008, and adding to that level the additional funds for tobacco compliance activities required under subsection (a). The State is to submit a report to the Secretary on all fiscal year [2007] 2008 State expenditures and all fiscal year [2008] 2009 obligations for tobacco prevention and compliance activities by program activity by July 31, [2008] 2009.

(d) The Secretary shall exercise discretion in enforcing the timing of the State obligation of the additional funds required by the certification described in subsection (a) as late as July 31, [2008] 2009.

(e) None of the funds appropriated by this Act may be used to withhold substance abuse funding pursuant to section 1926 of the Public Health Service Act from a territory that receives less than \$1,000,000.

SEC. [214] 213. In order for the [Centers for Disease Control and Prevention] *Department of Health and Human Services* to carry out international health activities, including HIV/AIDS and other infectious disease, chronic and environmental disease, and other health activities abroad during fiscal year [2008] 2009:

(1) The Secretary of Health and Human Services (in this section referred to as the "Secretary of HHS") may exercise authority equivalent to that available to the Secretary of State in section 2(c) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2669(c)). The Secretary of HHS shall consult with the Secretary of State and relevant Chief of Mission to ensure that the authority provided in this section is exercised in a manner consistent with section 207 of the Foreign Service Act of 1980 (22 U.S.C. 3927) and other applicable statutes administered by the Department of State.

(2) The Secretary of HHS is authorized to provide such funds by advance or reimbursement to the Secretary of State as may be necessary to pay the costs of acquisition, lease, alteration, renovation, and management of facilities outside of the United States for the use of the Department of Health and Human Services. The Department of State shall cooperate fully with the Secretary of HHS to ensure that the Department of Health and Human Services has secure, safe, functional facilities that comply with applicable regulation governing location, setback, and other facilities requirements and serve the purposes established by this Act. The Secretary of HHS is authorized, in consultation with the Secretary of State, through grant or cooperative agreement, to make available to public or nonprofit private institutions or agencies in participating foreign countries, funds to acquire, lease, alter, or renovate facilities in those countries as necessary to conduct programs of assistance for international health activities, including activities relating to HIV/AIDS and other infectious diseases, chronic and environmental diseases, and other health activities abroad.

SEC. [215] 214. (a) **AUTHORITY.**—Notwithstanding any other provision of law, the Director of the National Institutes of Health (in this section referred to as the "Director of NIH") may use funds available under section 402(b)(7) or 402(b)(12) of the Public Health Service Act to enter into transactions (other than contracts, cooperative agreements, or grants) to carry out research identified pursuant to such section 402(b)(7) (pertaining to the Common Fund) or research and activities described in such section 402(b)(12).

(b) **PEER REVIEW.**—In entering into transactions under subsection (a), the Director of the NIH may utilize such peer review procedures (including consultation with appropriate scientific experts) as the Director determines to be appropriate to obtain assessments of scientific and technical merit. Such procedures shall apply to such transactions in lieu of the peer review and advisory council review procedures that would otherwise be required under sections 301(a)(3),

405(b)(1)(B), 405(b)(2), 406(a)(3)(A), 492, and 494 of the Public Health Service Act.

[SEC. 216. Funds which are available for Individual Learning Accounts for employees of the Centers for Disease Control and Prevention ("CDC") and the Agency for Toxic Substances and Disease Registry ("ATSDR") may be transferred to "Disease Control, Research, and Training", to be available only for Individual Learning Accounts: *Provided*, That such funds may be used for any individual full-time equivalent employee while such employee is employed either by CDC or ATSDR.]

[SEC. 217. Notwithstanding any other provisions of law, funds made available in this Act may be used to continue operating the Council on Graduate Medical Education established by section 301 of Public Law 102-408.]

[SEC. 218. The Director of the National Institutes of Health shall require that all investigators funded by the NIH submit or have submitted for them to the National Library of Medicine's PubMed Central an electronic version of their final, peer-reviewed manuscripts upon acceptance for publication, to be made publicly available no later than 12 months after the official date of publication: *Provided*, That the NIH shall implement the public access policy in a manner consistent with copyright law.]

[SEC. 219. (a) The Secretary of Health and Human Services is authorized to award a grant to the Delta Health Alliance, a nonprofit alliance of academic institutions in the Mississippi Delta region that has as its primary purposes addressing longstanding, unmet health needs and catalyzing economic development in the Mississippi Delta.

(b) To be eligible to receive a grant under subsection (a), the Delta Health Alliance shall solicit and fund proposals from local governments, hospitals, health care clinics, academic institutions, and rural public health-related entities and organizations for research development, educational programs, health care services, job training, and planning, construction, and equipment of public health-related facilities in the Mississippi Delta region.

(c) With respect to the use of grant funds under this section for construction or major alteration of property, the Federal interest in the property involved shall last for a period of 1 year following the completion of the project or until such time that the Federal Government is compensated for its proportionate interest in the property if the property use changes or the property is transferred or sold, whichever time period is less. At the conclusion of such period, the Notice of Federal Interest in such property shall be removed.

(d) There are authorized to be appropriated such sums as may be necessary to carry out this section in fiscal year 2008 and in each of the five succeeding fiscal years.]

SEC. [220] 215. Not to exceed \$35,000,000 of funds appropriated by this Act to the institutes and centers of the National Institutes of Health may be used for alteration, repair, or improvement of facilities, as necessary for the proper and efficient conduct of the activities authorized herein, at not to exceed \$2,500,000 per project.

(TRANSFER OF FUNDS)

SEC. [221] 216. Of the amounts made available [in this Act] for the National Institutes of Health, 1 percent of the amount made available for National Research Service Awards (NRSA) shall be made available to the Administrator of the Health Resources and Services Administration to make NRSA awards for research in primary medical care to individuals affiliated with entities who have received grants or contracts under section 747 of the Public Health Service Act, and 1 percent of the amount made available for NRSA shall be made available to the Director of the Agency for Healthcare Research and Quality to make NRSA awards for health service research.

SEC. 217. *Of the unobligated balances available under the heading: Health Resources and Services Administration, the amounts made available to the Health Centers Loan Guarantee Program authorized under section 330 (d) of the Public Health Service Act and Title II of P.L. 104-208 are cancelled.*

SEC. 218. *Notwithstanding section 835 of title VIII and subpart II of title VII of the Public Health Service Act, an institution of higher education with a student loan revolving fund established under these authorities shall, no later than September 30, 2009, pay to the Secretary of Health and Human Services the Federal portion of all the liquid assets of such fund, as determined by the Secretary on June 30, 2009: Provided, That amounts collected under the preceding provision are cancelled: Provided further, That the institution shall not make any new loans under these authorities until the*

amount equal to that Federal portion determined on June 30, 2009, has been paid to the Secretary.

**SEC. 219. NONRECURRING EXPENSES FUND.** Section 223 of the Department of Health and Human Services Appropriations Act, 2008 (Division G of Public Law 110–161), is amended in its first proviso by inserting “, with respect to this or any succeeding fiscal year,” after “by this or any other Act”.

**【SEC. 222.** None of the funds made available in this Act may be used—

(1) for the Ombudsman Program of the Centers for Disease Control and Prevention; and

(2) by the Centers for Disease Control and Prevention to provide additional rotating pastel lights, zero-gravity chairs, or dry-heat saunas for its fitness center.】

**【SEC. 223.** There is hereby established in the Treasury of the United States a fund to be known as the “Nonrecurring expenses fund” (the Fund): *Provided*, That unobligated balances of expired discretionary funds appropriated for this or any succeeding fiscal year from the General Fund of the Treasury to the Department of Health and Human Services by this or any other Act may be transferred (not later than the end of the fifth fiscal year after the last fiscal year for which such funds are available for the purposes for which appropriated) into the Fund: *Provided further*, That amounts deposited in the Fund shall be available until expended, and in addition to such other funds as may be available for such purposes, for capital acquisition necessary for the operation of the Department, including facilities infrastructure and information technology infrastructure, subject to approval by the Office of Management and Budget: *Provided further*, That amounts in the Fund may be obligated only after the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of the planned use of funds.】

**【(RESCISSION OF FUNDS)】**

**【SEC. 224.** Of the funds available within the Health Professions Student Loan program authorized in subpart II, Federally-Supported Student Loan Funds, of title VII of the Public Health Service Act, \$15,000,000 are rescinded.】

**【SEC. 225. (a) CONTINUATION OF AVAILABILITY OF PERMITTED NUMBER OF MEDICAL RESIDENCY POSITIONS UNDER THE MEDICARE PROGRAM.—**Section 1886(h)(4)(H) of the Social Security Act (42 U.S.C. 1395ww(h)(4)(H)) is amended by adding at the end the following:

“(v) SPECIAL PROVIDER AGREEMENT.—If an entity enters into a provider agreement pursuant to section 1866(a) to provide hospital services on the same physical site previously used by Medicare Provider No. 05–0578—

“(I) the limitation on the number of total full time equivalent residents under subparagraph (F) and clauses (v) and (vi)(I) of subsection (d)(5)(B) applicable to such provider shall be equal to the limitation applicable under such provisions to Provider No. 05–0578 for its cost reporting period ending on June 30, 2006; and

“(II) the provisions of subparagraph (G) and subsection (d)(5)(B)(vi)(II) shall not be applicable to such provider for the first

three cost reporting years in which such provider trains residents under any approved medical residency training program.”.

(b) TECHNICAL CORRECTION OF SECTION 422 OF MMA.—

(1) IN GENERAL.—Section 1886(h)(7) of the Social Security Act (42 U.S.C. 1395ww(h)(7)) is amended—

(A) by redesignating subparagraph (D) as subparagraph (E); and

(B) by inserting after subparagraph (C) the following new subparagraph:

“(D) ADJUSTMENT BASED ON SETTLED COST REPORT.—In the case of a hospital with a dual accredited osteopathic and allopathic family practice program for which—

“(i) the otherwise applicable resident limit was reduced under subparagraph (A)(i)(I); and

“(ii) such reduction was based on a reference resident level that was determined using a cost report and where a revised or corrected notice of program reimbursement was issued for such cost report between September 1, 2006 and September 15, 2006, whether as a result of an appeal or otherwise, and the reference resident level under such settled cost report is higher than the level used for the reduction under subparagraph (A)(i)(I);

the Secretary shall apply subparagraph (A)(i)(I) using the higher resident reference level and make any necessary adjustments to such reduction. Any such necessary adjustments shall be effective for portions of cost reporting periods occurring on or after July 1, 2005.”.

(2) EFFECTIVE DATE.—Subject to paragraph (3), the amendments made by paragraph (1) shall take effect as if included in the enactment of section 422 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108–173).

(c) OFFSETTING COSTS.—

(1) IN GENERAL.—The amount of funds available to the Physician Assistance and Quality Initiative Fund for expenditures—

(A) under the first sentence of section 1848(l)(2)(A) of the Social Security Act (42 U.S.C. 1395w–4(l)(2)(A)) is reduced by \$500,000; and

(B) under the first amount in the second sentence of such section is reduced by \$24,500,000.

(2) CONFORMING AMENDMENTS.—Section 1848(l)(2)(A) of the Social Security Act (42 U.S.C. 1395w–4(l)(2)(A)) is amended—

(A) in the first sentence, by inserting after “\$1,350,000,000” the following: “, as reduced by section 524 and section 225(c)(1)(A) of the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008 (division G of the Consolidated Appropriations Act, 2008)”;

(B) in the second sentence, by inserting after “\$325,000,000” the following: “, as reduced by section 225(c)(1)(B) of such Act.”.】

The Departmental Operations account funds basic support to the Secretary of Homeland Security, including executive planning and decision-making, management of departmental operations, institutional and public liaison activities, and other program support requirements to ensure effective operation and management of the Department. Specific activities funded by the Departmental Operations account include:

*Office of the Secretary and Executive Management.* Directs and leads management of the Department and provides policy guidance to operating bureaus within the organization. Plans and executes departmental strategies to accomplish agency objectives. Provides leadership to the Department and includes the following offices: the Office of the Secretary; the Office of the Deputy Secretary; the Office of the Chief of Staff; the Office of Policy; the Office of the Executive Secretary; the Office of Public Affairs; the Office of Legislative and Intergovernmental Affairs; the Office of the General Counsel; the Office of Civil Rights and Liberties; the Office of the Citizenship and Immigration Services Ombudsman; the Office of Privacy; and the Office of Counternarcotics Enforcement.

*Under Secretary for Management.* Oversees management and operations of the Department, including procurement and acquisition, human capital policy, security, planning and systems, facilities, property, equipment, and administrative services for the Department. The Management Directorate is comprised of the Immediate office of the Under Secretary for Management, the Office of the Chief Procurement Officer, the Office of the Chief Human Capital Officer, the Office of the Chief of Administrative Services, and the Office of the Chief Security Officer, which all report to the Under Secretary for Management.

*Consolidated Department of Homeland Security Headquarters.* The Administration will finalize its consolidation of existing DHS headquarters operations at the Nebraska Avenue Complex (NAC), a facility that is currently owned by the General Services Administration. In support of this activity, the Departmental Operations request includes \$6,000,000 for the estimated costs associated with basic tenant improvements. Furthermore, the Administration proposes an aggressive DHS headquarters consolidation program at the St. Elizabeths West Campus in Washington, DC. To support this project, the DHS Departmental Operations request includes \$120,000,000 for DHS to fund its portion of the St. Elizabeths headquarters construction project costs that will not be covered by GSA, e.g. information technology and physical security.

*Chief Financial Officer.* Funds basic support for financial and budget operations for the Department of Homeland Security. Provides support funding for budget policy and operations; program analysis and evaluation; development of departmental financial management policies; operations, and systems, including consolidated financial statements; oversight of all matters involving relations between the Government Accountability Office and the Office of the Inspector General; policy and operations associated with the DHS bank card program; management of department internal controls; department-wide oversight of grants and assistance awards,

and resource management systems. Beginning in 2009, the budget provides financial systems consolidation and migration funds directly to the Resource Management Transformation Office to continue its Department-wide financial systems improvement and consolidation efforts.

*Office of the Federal Coordinator for Gulf Coast Rebuilding.* The budget provides \$292,000 for the Federal Coordinator for Gulf Coast Rebuilding giving the Office one month of funding. The Office was established by Executive Order 13390 for a period of three years, ending on November 1, 2008.

The Analysis and Operations account provides the resources to improve the analysis and sharing of threat information. This account supports the activities of the Office of Intelligence and Analysis and the Office of Operations Coordination. Even though these two offices are different and distinct in their missions, they closely work together and collaborate with other Departmental components and related Federal agencies, as well as State, local, tribal, foreign, and private sector partners, to improve intelligence analysis, information sharing, and situational awareness. In 2005, as a part of its Second Stage Review, DHS transferred the Homeland Security Operations Center and intelligence activities of the Information Analysis and Infrastructure Protection (IAIP) Directorate to Analysis and Operations. Funding for legacy intelligence and monitoring activities are now funded in this account.

**Office of Intelligence and Analysis (I&A).**—I&A is responsible for the Department's intelligence and information gathering and sharing capabilities for and among all components of DHS. This office houses the Department's Chief Intelligence Officer. This office ensures that information is gathered from all relevant DHS field operations and is fused with information from other parts of the Intelligence Community to produce accurate, timely and actionable analytic intelligence products and services for DHS stakeholders. The Under Secretary for Intelligence and Analysis leads I&A, and is also the Department's Chief Intelligence Officer responsible for managing the entire DHS Intelligence Enterprise.

**Office of Operations Coordination (OPS).**—The mission of the Office of Operations Coordination is to integrate information concerning the operations, activities and requirements

of all DHS components with other Federal, state, local, tribal, private sector and international partners' information to facilitate a coordinated and efficient effort to secure the Homeland against all threats and hazards. In the execution of this mission, Operations Coordination disseminates threat information, maintains and disseminates domestic situational awareness, performs incident management and facilitates operational coordination among all DHS components. Operations Coordination works with component leadership and other Federal partners to translate intelligence data and policy into action, and to ensure that those actions are joint, well coordinated and executed in a timely fashion. Operations Coordination supports the DHS mission to lead the national unified effort to secure America by maintaining the National Operations Center (NOC) and by providing 24/7 incident management capability to ensure a seamless integration of threat monitoring and information flow. The NOC is the primary national-level hub for domestic incident management, operations coordination and situational awareness standing as a 24/7 multi-agency organization, fusing law enforcement, national intelligence, emergency response and private sector reporting. The information flow is with other Federal, state, local, tribal, and private sector entities, as well as domestic situational awareness to senior DHS and White House leadership.

The mission of the U.S. Citizenship and Immigration Services (USCIS) is to adjudicate and grant immigration and citizenship benefits and provide accurate and useful information to its customers. USCIS also promotes an awareness and understanding of citizenship, while ensuring the integrity of our immigration system. USCIS approves millions of immigration benefit applications each year, ranging from work authorization, lawful permanent residency, and asylum and refugee status.

The Budget invests in new technology and a business process platform to improve and automate business operations, eliminating paper-based processing and improving information sharing, along with enhancing USCIS ability to identify and prevent immigration benefit fraud.

SALARIES AND EXPENSES

The United States Secret Service (USSS) performs two critical homeland security missions: protection and criminal investigations. The USSS protects the President and Vice President, their families, visiting heads-of-state/government, and other designated individuals, such as the Secretary of Homeland Security; investigates threats against these protectees; protects the White House, Vice Presidents Residence, Foreign Missions, and other designated buildings within the Washington, D.C. area; and designs, coordinates, and implements operational security plans for designated National Special Security Events. The USSS investigates violations of laws relating to: counterfeiting of obligations and securities of the United States; financial crimes, such as access device fraud, financial institution fraud, identity theft, and computer fraud; computer-based attacks on our nations financial, banking, and telecommunications infrastructure; and provides critical forensic support for associated investigations for the National Center for Missing and Exploited Children (NCMEC).

The Budget proposes \$5,966 million in discretionary and mandatory resources for the Transportation Security Administration's aviation security and Federal Air Marshals activities. Of this amount an estimated \$2,329 million is financed by offsetting collections from passenger and air carrier security fees, air cargo fees, and fees collected at Ronald Reagan Washington National Airport for general aviation. Also reflected within this total is a new mandatory proposal for a temporary, four-year surcharge to the Passenger Security Fee of \$0.50 per enplanement with a maximum increase of \$1.00 per one-way trip or up to \$6.00. The additional fee collections would be deposited in the mandatory Aviation Security Capital Fund and dedicated to the purchase and installation of explosives detection systems for checked baggage and address the need to recapitalize and upgrade existing explosive detection equipment deployed immediately after September 11, 2001.

Overall funding in this account will be used to fund screening personnel, compensation and benefits, and related expenses for transportation security officers; screening technology; privatized passenger and baggage screener contracts; airport managerial and support activities; air cargo screening operations; and operational testing and activities to improve flight deck and air crew safety; and the Federal Air Marshal Service.

The Budget proposes \$37 million for surface transportation security activities. This funding will support operational requirements associated with day-to-day support personnel and resources dedicated to assessing the risk of terrorist attack on non-aviation transportation modes, assessing the standards and procedures to address those risks, and ensuring compliance with regulations and policies. This also includes resources to support a cadre of inspectors deployed to augment surface transportation security.

The Budget proposes \$173 million in mandatory and discretionary resources of which \$133 million is direct appropriation and the remainder is derived from fees. The mission of Vetting and Credentialing programs is to enhance the interdiction of terrorists and the instruments of terrorism by streamlining terrorist-related threat assessment by coordinating procedures that detect, identify, track, and interdict people, cargo, conveyances, and other entities and objects that pose a threat to homeland security. This includes safeguarding legal rights, including freedoms, civil liberties, and information privacy guaranteed by Federal law. This appropriation includes the following programs: Secure Flight, Crew Vetting, Other Vetting Programs, Registered Traveler, Transportation Worker Identification Credential, Alien Flight Student, and Hazardous Material Commercial Driver's License Endorsement.

The Federal Law Enforcement Training Center (FLETC) provides the necessary facilities, equipment, and support services for conducting advanced, specialized and refresher training for Federal law enforcement personnel. FLETC personnel conduct the instructional programs for the basic law enforcement recruits and some advanced training based on agency requests. As space is available, law enforcement training is provided to certain State, local and foreign law enforcement personnel on a space-available basis. FLETC is the leading service provider for federal law enforcement training.

This account provides for the acquisition and related costs for the expansion and maintenance of the Federal Law Enforcement Training Center, to include funding for the Facilities Master Plan, Minor Construction and Maintenance, Environmental Compliance, and Communications Systems. The

ACQUISITIONS, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES—Continued

Master Plan provides the long range blueprint for expansion of facilities to meet the training requirements of over 80 Partner Organizations. Minor Construction and Maintenance provides alterations and maintenance funding for approximately 300 buildings at four locations (Glynco, Georgia; Artesia, New Mexico; Charleston, South Carolina; and Cheltenham, Maryland). Environmental Compliance funding is to ensure compliance with the EPA and State environmental laws and regulations. Communications Systems funding is to maintain and repair or replace the fiber optics telecommunications cable system.

penditure, prepared by the Secretary of Homeland Security and submitted within 90 days after the date of enactment of this Act, to modernize the policies and technologies used to identify and remove criminal aliens, that—

(1) presents a strategy for U.S. Immigration and Customs Enforcement to identify every criminal alien, at the prison, jail, or correctional institution in which they are held;

(2) establishes the process U.S. Immigration and Customs Enforcement, in conjunction with the U.S. Department of Justice, will use to make every reasonable effort to remove, upon their release from custody, all criminal aliens judged deportable;

(3) presents a methodology U.S. Immigration and Customs Enforcement will use to identify and prioritize for removal criminal aliens convicted of violent crimes;

(4) defines the activities, milestones, and resources for implementing the strategy and process described in sections (1) and (2); and

(5) includes program measurements for progress in implementing the strategy and process described in sections (1) and (2):

Provided further, That the Secretary of Homeland Security or a designee of the Secretary shall report to the Committees on Appropriations of the Senate and the House of Representatives, at least quarterly, on progress implementing the expenditure plan required in the preceding proviso, and the funds obligated during that quarter to make that progress: Provided further, That the funding and staffing resources necessary to carry out the strategy and process described in sections (1) and (2) under this heading shall be identified in the President's fiscal year 2009 budget submission to Congress]. As the largest investigative arm of the Department of Homeland Security, Immigration and Customs Enforcement (ICE) brings a unified and coordinated focus to the enforcement of Federal immigration and customs laws.

The 2009 Budget supports the Administration's plan to improve border security and the enforcement of our Nation's immigration laws through the Secure Border Initiative. The Budget funds all components of immigration enforcement, including resources for new detention beds; expansion of the Cyber Crimes Center to increase cybercrime-related investigations; increased critical infrastructure investigations at ports of entry and other sensitive facilities; increased the collaboration with State and local law enforcement agencies through an expansion of the 287(g) program; and increased Commercial Fraud/International Property Rights investigations. In addition, the President's Budget increases ICE's workforce dedicated to investigating criminal and serious misconduct by ICE and Customs and Border Protection (CBP) employees, and provides resources for the expansion of the Visa Security Program.

ICE works to protect the United States and its people by deterring, interdicting, and investigating threats arising from

the movement of people and goods into and out of the United States; and by protecting Federal Government facilities across the Nation. Major programs funded by the Salaries and Expenses appropriation include:

**Investigations.**—Responsible for investigating a range of issues, including human smuggling; weapons, narcotics and all other contraband smuggling; export enforcement, such as investigating illegal arms exports and exports of dual-use equipment that may threaten national security; financial crimes, such as money laundering and bulk cash smuggling; customs fraud and intellectual property rights violations; cybercrime; immigration crimes; and human rights violations.

**Intelligence.**—Responsible for the collection, analysis, and dissemination of strategic and tactical intelligence data for use by the operational elements of ICE and DHS.

**Detention and Removal.**—Responsible for promoting the public safety and national security by ensuring the departure from the United States of all removable aliens through the fair enforcement of the nation's immigration laws.

**International Affairs.**—Responsible for investigating violations involving contraband smuggling, immigration violations, money laundering, arms/technology trafficking, child sexual exploitation and cyber crimes overseas.

**Principal Legal Advisor.**—Serves as the legal representative for the U.S. Government at immigration court hearings, and provides the legal advice, training, and services required to support the ICE mission while defending the immigration laws of the United States.

(1) a detailed accounting of the program's progress to date relative to system capabilities or services, system performance levels, mission benefits and outcomes, milestones, cost targets, program management capabilities, identification of the maximum investment (including lifecycle costs) required by the Secure Border Initiative network or any successor contract, and description of the methodology used to obtain these cost figures;

(2) a description of how activities will further the objectives of the Secure Border Initiative, as defined in the Secure Border Initiative

multi-year strategic plan, and how the plan allocates funding to the highest priority border security needs;

(3) an explicit plan of action defining how all funds are to be obligated to meet future program commitments, with the planned expenditure of funds linked to the milestone-based delivery of specific capabilities, services, performance levels, mission benefits and outcomes, and program management capabilities;

(4) an identification of staffing (including full-time equivalents, contractors, and detailees) requirements by activity;

(5) a description of how the plan addresses security needs at the Northern Border and the ports of entry, including infrastructure, technology, design and operations requirements;

(6) a report on costs incurred, the activities completed, and the progress made by the program in terms of obtaining operational control of the entire border of the United States;

(7) a listing of all open Government Accountability Office and Office of Inspector General recommendations related to the program and the status of Department of Homeland Security actions to address the recommendations, including milestones to fully address them;

(8) a certification by the Chief Procurement Officer of the Department that the program has been reviewed and approved in accordance with the investment management process of the Department, and that the process fulfills all capital planning and investment control requirements and reviews established by the Office of Management and Budget, including Circular A-11, part 7;

(9) a certification by the Chief Information Officer of the Department that the system architecture of the program is sufficiently aligned with the information systems enterprise architecture of the Department to minimize future rework, including a description of all aspects of the architectures that were and were not assessed in making the alignment determination, the date of the alignment determination, and any known areas of misalignment along with the associated risks and corrective actions to address any such areas;

(10) a certification by the Chief Procurement Officer of the Department that the plans for the program comply with the Federal acquisition rules, requirements, guidelines, and practices, and a description of the actions being taken to address areas of non-compliance, the risks associated with them along with any plans for addressing these risks, and the status of their implementation;

(11) a certification by the Chief Information Officer of the Department that the program has a risk management process that regularly and proactively identifies, evaluates, mitigates, and monitors risks throughout the system life cycle and communicates high-risk conditions to U.S. Customs and Border Protection and Department of Homeland Security investment decision makers, as well as a listing of all the program's high risks and the status of efforts to address them;

(12) a certification by the Chief Human Capital Officer of the Department that the human capital needs of the program are being strategically and proactively managed, and that current human capital capabilities are sufficient to execute the plans discussed in the report;

(13) an analysis by the Secretary for each segment, defined as no more than 15 miles, of fencing or tactical infrastructure, of the selected approach compared to other, alternative means of achieving operational control; such analysis should include cost, level of operational control, possible unintended effects on communities, and other factors critical to the decision making process;

(14) a certification by the Chief Procurement Officer of the Department of Homeland Security that procedures to prevent conflicts of interest between the prime integrator and major subcontractors are established and that the Secure Border Initiative Program Office has adequate staff and resources to effectively manage the Secure Border Initiative program, Secure Border Initiative network contract, and any related contracts, including the exercise of technical oversight, and a certification by the Chief Information Officer of the Department of Homeland Security that an independent verification and validation agent is currently under contract for the projects funded under this heading; and

(15) is reviewed by the Government Accountability Office: *Provided further*, That the Secretary shall report to the Committees on Appropriations of the Senate and the House of Representatives on program progress to date and specific objectives to be achieved through the award of current and remaining task orders planned for the balance of available appropriations: (1) at least 30 days prior to the award of any task order requiring an obligation of funds

SBI<sup>net</sup> is the component of the Secure Border Initiative charged with developing and installing an integrated solution that includes technology and tactical infrastructure at and between our Nation's ports of entry. CBP is the executive agency for DHS in the development of SBI<sup>net</sup>. The initial focus of SBI<sup>net</sup> will be on Southwest Border investments where there are serious vulnerabilities to border security, but will also address requirements at the Northern and coastal borders. Further, SBI<sup>net</sup> will develop a common operating picture of the border within command center environments across the borders, which will provide uniform data to all DHS agencies and be interoperable with stakeholders external to DHS.

The Automation Modernization account is divided into two program and project activities, Automated Commercial Environment (ACE) and Critical Operations Protection and Processing Support (COPPS). The funding for information technology initiatives as well as maintenance of the existing information technology infrastructure at CBP resides in this account. ACE is being developed and deployed in increments and will replace the current trade management system, the Automated Commercial System. ACE will provide tools and enhance the business processes that are essential to securing U.S. borders from terrorists by providing intelligence required to target illicit goods, while ensuring the efficient processing of legitimate goods. COPPS provides nearly all the CBP Information Technology (IT) infrastructure to operate and main-

tain mission-critical IT systems requisite to secure the borders while facilitating legitimate trade and travel.

Funding requested in this account supports the operations of the Coast Guard as it carries out its duties as a maritime,

military, multi-mission operating agency and one of the five armed forces. To fulfill its mission, the Coast Guard employs multipurpose vessels, aircraft, and shore units, strategically located along the coasts and inland waterways of the United States and in selected areas overseas. In 2008, the Department of Homeland Security was named Executive Agent for development of a national backup for critical systems used in position, navigation and timing. Enhanced LORAN (eLORAN) has been identified as the primary candidate for this backup. In 2009, the administration of the LORAN-C program will migrate to the National Protection and Programs Directorate of the Department of Homeland Security in preparation for conversion of LORAN-C operations to eLORAN. Coast Guard is expected to continue operation of the system on a reimbursable basis in 2009.

For necessary expenses of acquisition, construction, renovation, and improvement of aids to navigation, shore facilities, vessels, and aircraft, including equipment related thereto; and maintenance, rehabilitation, lease and operation of facilities and equipment, as authorized by law; **【\$1,125,083,000】 \$1,205,118,000**, of which \$20,000,000 shall be derived from the Oil Spill Liability Trust Fund to carry out the purposes of section 1012(a)(5) of the Oil Pollution Act of 1990 (33 U.S.C. 2712(a)(5)); of which **【\$45,000,000】 \$69,000,000** shall be available until September 30, **【2012】 2013**, to acquire, repair, renovate, or improve vessels, small boats, and related equipment; of which **【\$173,100,000】 \$95,174,000** shall be available until September 30, **【2010】 2011**, for other equipment; of which **【\$40,997,000】 \$50,000,000** shall be available until September 30, **【2010】 2011**, for shore facilities and aids to navigation facilities; of which **【\$82,720,000】 \$500,000** shall be available for personnel **【compensation and benefits and】** related costs; and of which **【\$783,266,000】 \$990,444,000** shall be available until September 30, **【2012】 2013**, for the Integrated Deepwater Systems program: **Provided further**, That of the funds made available for the Integrated Deepwater Systems program, \$327,416,000 is for aircraft and \$243,400,000 is for surface ships: **Provided further**, That of the amount provided in the preceding proviso for aircraft, \$70,000,000 may not be obligated for the Maritime Patrol Aircraft until the Commandant of the Coast Guard certifies that the mission system pallet Developmental Test and Evaluation of the HC-144A CASA Maritime Patrol Aircraft is complete: **Provided further**, That no funds shall be available for procurements related to the acquisition of additional major assets as part of the Integrated Deepwater Systems program not already under contract until an alternatives analysis has been completed by an independent qualified third party: **Provided further**, That \$300,000,000 of the funds provided for the Integrated Deepwater Systems program may not be obligated until the Committees on Appropriations of the Senate and the House of Representatives receive and approve a plan for expenditure directly from the Coast Guard that—

- (1) defines activities, milestones, yearly costs, and lifecycle costs for each procurement of a major asset, including an independent cost estimate for each;
- (2) identifies lifecycle staffing and training needs of Coast Guard project managers and of procurement and contract staff;
- (3) identifies competition to be conducted in each procurement;
- (4) describes procurement plans that do not rely on a single industry entity or contract;
- (5) includes a certification by the Chief Human Capital Officer of the Department that current human capital capabilities are sufficient to execute the plans discussed in the report;
- (6) contains very limited indefinite delivery/indefinite quantity contracts and explains the need for any indefinite delivery/indefinite quantity contracts;
- (7) identifies individual project balances by fiscal year, including planned carryover into fiscal year 2009 by project;
- (8) identifies operational gaps by asset and explains how funds provided in this Act address the shortfalls between current operational capabilities and requirements;
- (9) includes a listing of all open Government Accountability Office and Office of Inspector General recommendations related to the program and the status of Coast Guard actions to address the recommendations, including milestones for fully addressing them;
- (10) includes a certification by the Chief Procurement Officer of the Department that the program has been reviewed and approved in accordance with the investment management process of the Department, and that the process fulfills all capital planning

and investment control requirements and reviews established by the Office of Management and Budget, including Circular A-11, part 7;

- (11) identifies use of the Defense Contract Auditing Agency;
- (12) includes a certification by the head of contracting activity for the Coast Guard and the Chief Procurement Officer of the Department that the plans for the program comply with the Federal acquisition rules, requirements, guidelines, and practices, and a description of the actions being taken to address areas of non-compliance, the risks associated with them along with plans for addressing these risks, and the status of their implementation;
- (13) identifies the use of independent validation and verification; and
- (14) is reviewed by the Government Accountability Office:

**Provided further**, That the Secretary of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives, in conjunction with the President's fiscal year 2009 budget, a review of the Revised Deepwater Implementation Plan that identifies any changes to the plan for the fiscal year; an annual performance comparison of Deepwater assets to pre-Deepwater legacy assets; a status report of legacy assets; a detailed explanation of how the costs of legacy assets are being accounted for within the Deepwater program; and the earned value management system gold card data for each Deepwater asset: **Provided further**, That the Secretary shall submit to the Committees on Appropriations of the Senate and the House of Representatives a comprehensive review of the Revised Deepwater Implementation Plan every five years, beginning in fiscal year 2011, that includes a complete projection of the acquisition costs and schedule for the duration of the plan through fiscal year 2027: **Provided further**, That the Secretary shall annually submit to the Committees on Appropriations of the Senate and the House of Representatives, at the time that the President's budget is submitted under section 1105(a) of title 31, United States Code, a future-years capital investment plan for the Coast Guard that identifies for each capital budget line item—

- (1) the proposed appropriation included in that budget;
- (2) the total estimated cost of completion;
- (3) projected funding levels for each fiscal year for the next five fiscal years or until project completion, whichever is earlier;
- (4) an estimated completion date at the projected funding levels; and
- (5) changes, if any, in the total estimated cost of completion or estimated completion date from previous future-years capital investment plans submitted to the Committees on Appropriations of the Senate and the House of Representatives:

**Provided further**, That the Secretary shall ensure that amounts specified in the future-years capital investment plan are consistent to the maximum extent practicable with proposed appropriations necessary to support the programs, projects, and activities of the Coast Guard in the President's budget as submitted under section 1105(a) of title 31, United States Code, for that fiscal year: **Provided further**, That any inconsistencies between the capital investment plan and proposed appropriations shall be identified and justified: **Provided further**, That of amounts made available under this heading in Public Laws 108-334 and 109-90 for the Offshore Patrol Cutter, \$98,627,476 are rescinded: **Provided further**, That of amounts made available under this heading in Public Law 108-334 for VTOL unmanned aerial vehicles (VUAV), \$162,850 are rescinded: **Provided further**, That of amounts made available under this heading in Public Law 109-90 for unmanned air vehicles (UAVs), \$32,942,138 are rescinded: **Provided further**, That of amounts made available under this heading in Public Law 109-295 for VTOL unmanned aerial vehicles (UAVs), \$716,536 are rescinded: **Provided further**, That of the amount provided under this heading, \$95,800,000 is designated as described in section 5 (in the matter preceding division A of this consolidated Act)]. Funding requested in this account will support the Coast Guard's continuing plans for fleet improvement and research into improved Coast Guard technology, systems, and methods.

The majority of the funding requested in this account provides for the acquisition, construction, and improvement of vessels, aircraft, information management resources, shore fa-

ilities, and aids to navigation required to execute the Coast Guard's missions and achieve its performance goals.

**Vessels.**—In 2009, the Coast Guard will continue the Response Boat-Medium project, replacing the existing, obsolete, non-standard utility boat fleet and providing additional capability and capacity to perform Coast Guard missions.

**Deepwater.**—The Deepwater capability replacement project continues with full scale development. In 2009, the Coast Guard will continue to acquire and build the integrated Deepwater system.

**Other Equipment.**—In 2009, the Coast Guard will invest in numerous management information and decision support systems that will result in increased efficiencies. Rescue 21, the national distress and response system modernization project, will continue deployment. The Coast Guard will continue installation of the Nationwide Automatic Identification System to improve maritime domain awareness in both port and coastal areas.

**Shore Facilities.**—In 2009, the Coast Guard will invest in modern structures that are more energy-efficient, comply with regulatory codes, minimize follow-on maintenance requirements, and replace existing dilapidated structures.

This account reflects funding associated with the Coast Guard's permanent indefinite discretionary authority to maintain the cost of accruing the military, Medicare-eligible health benefit contributions to the Department of Defense Medicare-Eligible Retiree Health Care fund. Contributions are for Coast Guard military personnel who will become future Medicare-eligible retirees, their dependents, or their survivors. In 2009, the Coast Guard estimates it will pay \$257,305,000 to the fund.

RETIRED PAY

For retired pay, including the payment of obligations otherwise chargeable to lapsed appropriations for this purpose, payments under the Retired Serviceman's Family Protection and Survivor Benefits Plans, payment for career status bonuses, concurrent receipts and combat-related special compensation under the National Defense Authorization Act, and payments for medical care of retired personnel and their dependents under chapter 55 of title 10, United States Code, **[\$1,184,720,000] \$1,236,745,000**, to remain available until expended. The Internal Revenue Code of 1986, as amended by TEA-21 and SAFETEA-LU, provides for the transfer of Highway Trust Fund revenue derived from the motor boat fuel tax and certain other taxes to the Aquatic Resources Trust Fund. Appropriations are authorized from this fund to meet expenditures for programs specified by law, including sport fish restoration and boating safety. Excise tax receipts for the trust fund include motorboat fuel tax receipts, plus receipts from excise taxes on sport fishing equipment, sonar and fish finders, small engine fuels, and import duties on fishing equipment and recreational vessels.

This account provides grants for the development and implementation of a coordinated national recreational boating safety program. Boating safety statistics reflect the success in meeting the program's objectives. No discretionary appropriation is requested for 2009 from the Sport Fish Restoration and Boating Safety Trust Fund. Pursuant to the Safe, Accountable, Flexible, Efficient Transportation Equity Act—A Legacy for Users (SAFETEA-LU, P.L. 109-59) the Boat Safety program receives 18.5 percent of the funds collected in the Sport Fish Restoration and Boating Safety Trust Fund. In addition, \$5.1 million from historical balances is available to the program in 2009, also pursuant to provisions in SAFETEA-LU.

The Oil Spill Liability Trust Fund is used to finance oil pollution prevention and cleanup activities by various Federal agencies. In accordance with the provisions of the Oil Pollution Act of 1990, the Fund may finance annually up to \$50 million of emergency resources and all valid claims from injured parties resulting from oil spills. For Coast Guard, this funds the Trust Fund Share of Expenses and Oil Spill Recovery accounts. The Consolidated Omnibus Budget Reconciliation Act of 1989, Public Law 101-239, triggered collection of a five cent tax on each barrel of oil produced domestically or imported to be deposited into the Oil Spill Liability Trust Fund. The authority to collect the oil barrel tax expired on December 31, 1994; however, the Energy Policy Act of 2005 (P.L. 109-58) reinstated this authority starting April 1, 2006.

**UNITED STATES VISITOR AND IMMIGRANT STATUS INDICATOR TECHNOLOGY**

For necessary expenses for the development of the United States Visitor and Immigrant Status Indicator Technology project, as authorized by section 110 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1365a), **[\$475,000,000]** \$390,300,000, to remain available until expended: *Provided*, That of the amount provided under this heading, \$275,000,000 is designated as described in section 5 (in the matter preceding division A of this consolidated Act); *Provided further*, That of the total amount made available under this heading, \$125,000,000 may not be obligated for the United States Visitor and Immigrant Status Indicator Technology project until the Committees on Appropriations of the Senate and the House of Representatives receive and approve a plan for expenditure prepared by the Secretary of Homeland Security that includes—

(1) a detailed accounting of the program's progress to date relative to system capabilities or services, system performance levels, mission benefits and outcomes, milestones, cost targets, and program management capabilities;

(2) an explicit plan of action defining how all funds are to be obligated to meet future program commitments, with the planned expenditure of funds linked to the milestone-based delivery of specific capabilities, services, performance levels, mission benefits and outcomes, and program management capabilities;

(3) a listing of all open Government Accountability Office and Office of Inspector General recommendations related to the program and the status of Department of Homeland Security actions to address the recommendations, including milestones for fully addressing them;

(4) a certification by the Chief Procurement Officer of the Department that the program has been reviewed and approved in accordance with the investment management process of the Department, and that the process fulfills all capital planning and investment control requirements and reviews established by the Office of Management and Budget, including Circular A-11, part 7;

(5) a certification by the Chief Information Officer of the Department of Homeland Security that an independent verification and validation agent is currently under contract for the project;

(6) a certification by the Chief Information Officer of the Department that the system architecture of the program is sufficiently aligned with the information systems enterprise architecture of the Department to minimize future rework, including a description of all aspects of the architectures that were and were not assessed in making the alignment determination, the date of the alignment determination, and any known areas of misalignment along with the associated risks and corrective actions to address any such areas;

(7) a certification by the Chief Procurement Officer of the Department that the plans for the program comply with the Federal acquisition rules, requirements, guidelines, and practices, and a description of the actions being taken to address areas of non-

compliance, the risks associated with them along with any plans for addressing these risks, and the status of their implementation;

(8) a certification by the Chief Information Officer of the Department that the program has a risk management process that regularly identifies, evaluates, mitigates, and monitors risks throughout the system life cycle, and communicates high-risk conditions to agency and Department of Homeland Security investment decision makers, as well as a listing of all the program's high risks and the status of efforts to address them;

(9) a certification by the Chief Human Capital Officer of the Department that the human capital needs of the program are being strategically and proactively managed, and that current human capital capabilities are sufficient to execute the plans discussed in the report;

(10) a complete schedule for the full implementation of a biometric exit program or a certification that such program is not possible within five years;

(11) a detailed accounting of operation and maintenance, contractor services, and program costs associated with the management of identity services; and

(12) is reviewed by the Government Accountability Office]. (*Department of Homeland Security Appropriations Act, 2008.*)

The Department of Homeland Security's (DHS) United States Visitor and Immigrant Status Indicator Technology (US-VISIT) project was established in May 2003 to continue the implementation of a series of statutory initiatives designed to enhance national security at our borders. Those initiatives collectively require DHS to create an automated entry and exit system; to integrate existing biometric databases; use available data to match alien arrival and departure records; and use biometrics to screen visa applicants and applicants for admission to the United States against law enforcement databases.

The US-VISIT mission is to collect, maintain, and share information, including biometric identifiers, on foreign nationals seeking to enter the United States. This information is

TECHNOLOGY—Continued

collected to determine whether individuals should be prohibited from entering the United States; determine whether individuals can receive, extend, change, or adjust immigration status; determine whether individuals have overstayed or otherwise violated the terms of their admission; determine whether individuals should be apprehended or detained for law enforcement action; and determine whether individuals need special protection and/or attention (e.g., refugees).

US-VISIT's budget activities consist of Identity Management and Screening Services; Unique Identity; Comprehensive Biometric Exit; Operations and Maintenance; and Mission Support.

The Infrastructure Protection and Information Security (IPIS) appropriation funds Infrastructure Protection and Cybersecurity and Communications activities.

**Infrastructure Protection (IP).**—The mission of IP is to lead the coordinated national effort to reduce the risk to our critical infrastructures and key resources (CIKR). IP integrates relevant information, such as intelligence analyses and vulnerability assessments, to identify priorities and support protective measures. Through sharing of information with security partners, IP enhances protection, response, mitigation, and restoration activities across the nation and the international community. IP uses the National Infrastructure Protection Plan and mechanisms under the National Response Plan to provide support to government and private entities in response to significant threats and incidents. IP also works to directly protect the nation's CIKR assets by serving as the designated Sector Specific Agency for five of the seventeen CIKR sectors: Dams, Emergency Services, Nuclear, Chemical, and Commercial Facilities. In addition, IP was recently designated to oversee the improvement of the nation's chemical security by regulating high risk chemical facilities.

**Cybersecurity and Communications (CS&C).**—The mission of the Office of Cybersecurity and Communications is to assure the security, resiliency, and reliability of the nation's cyber and communications infrastructure in collaboration with the public and private sectors, including international partners. Specifically, CS&C is focused on preparing for and responding to catastrophic incidents that could degrade or overwhelm the networks, systems, and assets that operate our nation's information technology (IT) and communications infrastructure. The CS&C budget includes the National Cyber Security Division, the National Communications System, and Office of Emergency Communications.

**National Cyber Security Division (NCS).**—NCS disseminates cybersecurity information in a timely, understandable, and responsible manner to key stakeholders and provides a system for citizens, businesses, and other institutions to communicate directly with the United States Government regarding cybersecurity information. Additionally, NCS studies the interconnection of cyber assets to identify critical points in our Nation's cyber infrastructure that could be exploited by malicious persons. Funds are executed through a variety of programs intended to: 1) partner with the private sector, government, military and intelligence stakeholders in risk assessment and mitigation of vulnerabilities and threats to critical IT assets and activities that affect the operation of the critical infrastructures of the U.S.; and 2) provide cyber threat and vulnerability analysis, early warning, and incident response assistance for public and private sector constituents.

**National Communications System (NCS).**—The NCS provides mission-critical national security and emergency preparedness (NS/EP) telecommunications for Federal, State and local governments, and private industry through the following

functions: 1) administering the National Coordinating Center for Telecommunications to facilitate the initiation, coordination, restoration and reconstitution of NS/EP telecommunications services or facilities under all circumstances; 2) developing and ensuring the implementation of plans and programs that support telecommunications infrastructure hardness, redundancy, mobility, connectivity and security; 3) serving as the focal point for industry and government NS/EP telecommunications planning and partnerships; and 4) enhancing the use of cyber and telecommunications infrastructures by providing the information, concept of operations, and unified interoperable capabilities which enable governments to accomplish their command and coordination essential functions. In addition, the Department, acting as Executive Agent, will undertake development of enhanced Long Range Navigation (eLORAN) as a backup for the Global Positioning System (GPS) in the homeland. NCS will oversee LORAN-C modernization as a first step toward providing back-up capability for critical infrastructure that depends on GPS for position, navigation and timing.

*The Office of Emergency Communications (OEC).*—The OEC supports and promotes the ability of emergency responders and government officials to continue to communicate in the event of natural disasters, acts of terrorism, or other man-made disasters. OEC works to ensure, accelerate, and attain interoperable and operable emergency communications nationwide by administering the Interoperable Communications Technical Assistance Program (ICTAP), the Integrated Wireless Network (IWN) program, and elements of the SAFECOM program. The OEC also fosters development of interoperable emergency communications capabilities through outreach to State, local, and tribal governments.

Funding for Biodefense Countermeasures was provided for as an advance appropriation in the 2004 Homeland Security Appropriations Act. This program, which is jointly managed by the Departments of Homeland Security and Health and Human Services, supports the governments efforts to secure medical countermeasures to strengthen the Nation's preparedness against bioterror attacks by pre-purchasing critically needed vaccines and other countermeasures for biodefense. In 2009, the final portion from the 2004 advance appropriation, \$2.1 billion, will be available for use as determined by the Departments of Homeland Security and Health and Human Services.

FEMA provides State and local governments with grants, training, exercises, and technical assistance to improve their readiness for terrorism incidents and catastrophic events. This assistance strengthens homeland security preparedness by supporting development of key capabilities in prevention, protection, response, and recovery.

*Homeland Security Prevention and Protection Grant Programs.* Prevention and Protection programs support projects to build specific capabilities in the Prevention and Protection mission areas set forth in the National Preparedness Guidelines, Target Capabilities List, and National Strategy for Homeland Security of 2007. Major components of the 2009 request include:

*State Homeland Security Grants (\$200 million).*—Grants to States to support the implementation of prevention and protection capabilities per each State’s homeland security strategy. Final grant allocations will be determined by the Secretary on the basis of risk and effectiveness and then adjusted to ensure that each State receives a minimum allocation. At least 25% of all funds shall be directed to law enforcement terrorism prevention activities.

*Urban Area Security Initiative (\$825 million).*—Grants to address the unique homeland security needs of high-risk metropolitan areas and to assist those areas in building enhanced and sustainable capabilities to prevent and protect against acts of terrorism. Final grant allocations will be determined by the Secretary on the basis of risk and effectiveness. At least 25% of all funds shall be directed to law enforcement terrorism prevention activities.

*National Security and Terrorism Prevention Grants (\$110 million).*—This program provides competitive grants to specific State and local agencies to support proposals which address national vulnerabilities identified by the Secretary as priorities. In 2009, the Secretary will invite States to submit project proposals to support REAL ID implementation and buffer zone protection for critical infrastructure. Final grant allocations will be determined competitively by the Secretary on the basis of how well proposals address identified national vulnerabilities.

*Port Security Grant Program (\$210 million).*—As part of the transportation and infrastructure protection portfolio of programs, these grants support projects which enhance the layered protection of the Nation’s seaports. Final grant allocations will be determined by the Secretary on the basis of risk.

*Public Transportation Security Grant Program (\$175 million).*—As part of the transportation and infrastructure protection portfolio of programs, these grants support security projects at transit systems in high-risk urban areas. Final grant allocations will be determined by the Secretary on the basis of risk.

*Over-the-Road Bus Security Grant Program (\$12 million).*—As part of the transportation and infrastructure protection

portfolio of programs, these grants support security enhancement projects for over-the-road bus operations. Final grant allocations will be determined by the Secretary on the basis of risk.

*Trucking Industry Security Program (\$8 million).*—As part of the transportation and infrastructure protection portfolio of programs, these grants enhance security and overall preparedness on the Nation’s highways. Final grant allocations will be determined by the Secretary on the basis of risk.

*Homeland Security Response and Recovery Grant Programs.* Response and Recovery programs support projects to build specific capabilities in the Response and Recovery mission area set forth in the National Preparedness Guidelines, Target Capabilities List, and National Strategy for Homeland Security of 2007. These programs are a complement to other major programs requested within FEMA including \$300 million for Firefighter Assistance Grants. Major components of the 2009 request include:

*The Citizen Corps Grant Program (\$15 million).*—These grants support Citizen Corps Councils with efforts to engage citizens in personal preparedness, exercises, ongoing volunteer programs, and surge capacity response. This program provides funding by formula basis to all 56 States and territories.

*Emergency Management Performance Grants (\$200 million).*—These grants support State and Urban Area efforts to achieve target levels of capability in catastrophic planning and emergency management. This program provides funding by formula basis to all 56 States and territories.

*Other State and Local Programs.*

*National Exercise Program (\$40 million).*—Funds exercises for WMD events and other major incidents.

*State and Local Training Programs (\$79 million).*—Supports the unique training facilities managed by the Center for Domestic Preparedness and competitive grants to the other members of the National Domestic Preparedness Consortium.

*Technical assistance (\$10 million).*—Supports technical assistance for grantees in catastrophic planning and other key investment areas.

*Evaluations and Assessments (\$16 million).*—Supports preparedness policy development, data collection, and program evaluation.

These grants provide direct assistance to local fire departments for investments to improve their ability to safeguard the lives of firefighting personnel and members of the public in the event of a terrorist attack. The \$300 million request for FY 2009 is focused on grants for training, equipment, and personal protective gear. The competitive, peer-review grant process will give priority to applications that enhance capabilities needed for terrorism response and other major incidents.

Funding for Operations, Management, and Administration provides for the development and maintenance of an integrated, nationwide capability to prepare for, mitigate against, respond to, and recover from the consequences of terrorist

attacks and other major disasters and emergencies, in partnership with other Federal agencies, State and local governments, volunteer organizations and the private sector. As part of FEMA's efforts to develop the operating budget for fixed costs and improve administrative efficiency, the 2009 request includes funds to enable the conversion of all remaining Cadre On-Call Regional Employees (COREs) to permanent positions. Activities also include coordination of Federal homeland security programs affecting state, local, and regional authorities in the National Capital Region, congressional outreach, national security functions, information technology services, and facilities management. In addition, the United States Fire Administration will become part of FEMA's Operations, Management, and Administration appropriation in 2009. The USFA supports the preparedness of the Nation's fire and emergency medical service leaders through training on how to evaluate and minimize community risk, improve protection of critical infrastructure, and prepare for fires, natural hazards, and terrorism emergencies.

Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.): *Provided further*, That of the amount provided in the previous proviso, \$30,000,000 shall not be available for transfer for management and administration functions until the Federal Emergency Management Agency submits an expenditure plan to the Committees on Appropriations of the Senate and the House of Representatives regarding the 250 positions: *Provided further*, That the Federal Emergency Management Agency shall hereafter submit a monthly

"Disaster Relief" report to the Committees on Appropriations of the Senate and the House of Representatives to include—

- (1) status of the Disaster Relief fund including obligations, allocations, and amounts undistributed/unallocated;
- (2) allocations, obligations, and expenditures for Hurricanes Katrina, Rita, and Wilma and all open disasters;
- (3) information on national flood insurance claims;
- (4) obligations, allocations, and expenditures by State for unemployment, crisis counseling, inspections, housing assistance, manufactured housing, public assistance, and individual assistance;
- (5) mission assignment obligations by agency, including:

- (A) the amounts to other agencies that are in suspense because the Federal Emergency Management Agency has not yet reviewed and approved the documentation supporting the expenditure or for which an agency has been mission assigned but has not submitted necessary documentation for reimbursement;
- (B) an explanation if the amounts of reported obligations and expenditures do not reflect the status of such obligations and expenditures from a government-wide perspective; and
- (C) each such agency's actual obligation and expenditure data;

- (6) the amount of credit card purchases by agency and mission assignment;
- (7) specific reasons for all waivers granted and a description of each waiver;
- (8) a list of all contracts that were awarded on a sole source or limited competition basis, including the dollar amount, the purpose of the contract, and the reason for the lack of competitive award; and
- (9) an estimate of when available appropriations will be exhausted, assuming an average disaster season:

*Provided further*, That for any request for reimbursement from a Federal agency to the Department to cover expenditures under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), or any mission assignment orders issued by the Department for such purposes, the Secretary of Homeland Security shall take appropriate steps to ensure that each agency is periodically reminded of Department policies on—(1) the detailed information required in supporting documentation for reimbursements, and(2) the necessity for timeliness of agency billings. Through the Disaster Relief Fund, FEMA provides a significant portion of the total Federal response to Presidentially-declared major disasters and emergencies. Primary assistance programs include Federal assistance to individuals and households, public assistance, and hazard mitigation assistance, which includes the repair and reconstruction of State, local, and nonprofit infrastructure. Beginning in 2009, disaster readiness and support activities will be funded through the Disaster Readiness and Support Activities account.

Through the Disaster Readiness and Support Activities (DRSA) account, FEMA funds advanced readiness initiatives that prepare and equip FEMA to provide Federal support during disasters, as well as critical administrative functions that support the timely delivery of services during disasters. DRSA resources are not disaster specific, but rather provide support across FEMA for all Presidentially-declared disasters and emergencies. These efforts will improve the quality of support to disaster victims, including better communications, a more efficient intake process, more efficient delivery systems for disaster commodities, and improved oversight of disaster aid through technical assistance contractors.

The Flood Map Modernization Fund is used to update, modernize and maintain the inventory of over 100,000 flood maps. The flood maps are used to determine appropriate risk-based premium rates for the National Flood Insurance Program, to complete flood hazard determinations required of the nation's lending institutions, and to develop appropriate disaster response plans for Federal, State, and local emergency management personnel.

The National Flood Insurance Act of 1968, as amended, authorizes the Federal Government to provide flood insurance on a national basis. Flood insurance may be sold or continued in force only in communities which enact and enforce appropriate floodplain management measures. Communities must participate in the program within one year of the time they are identified as flood-prone in order to be eligible for flood insurance and some forms of Federal financial assistance for acquisition or construction purposes. In addition, Federally regulated funding institutions can not provide loans to non-participating communities with an identified flood hazard.

In 2009, the Budget assumes collection of all of the administrative and program costs associated with flood insurance activities from policy holders. In addition, \$90,000,000 from premium collections will be used to support repetitive and severe repetitive loss mitigation. Under the emergency program, structures in identified flood-prone areas are eligible for limited amounts of coverage at subsidized insurance rates. Under the regular program, studies must be made of different flood risks in flood-prone areas to establish actuarial premium rates. These rates are charged for insurance on new construction. Coverage is available on virtually all types of buildings and their contents in amounts up to \$350,000 for residential and \$1 million for other types.

This account also supports National Flood Mitigation activities that reduce the risk of flood damage to structures insurable under the National Flood Insurance Program. These activities provide flood mitigation assistance planning support to States and communities through the Flood Mitigation Assistance grant program.

Disaster assistance loans authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) are loans to States for the non-Federal portion of cost-sharing funds and community disaster loans to local governments incurring substantial loss of tax and other revenues as a result of a major disaster. The funds requested for this program include direct loans and a subsidy based on criteria including loan amount and interest charged. As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans). The subsidy amounts are estimated on a present value basis. Loan activity prior to 1992, which is budgeted for on a cash basis, totals less than \$500,000 in every year and is not presented separately. In 2009, administrative costs related to disaster assistance loans are included in the Operations, Management and Administration appropriation account.

Appropriations in this title support the advancement of homeland security through basic and applied research; fabrication of technology demonstration devices; development and testing of standards; development and testing of prototypes and full-scale pre-production hardware; the procurement of products, systems, and other capital equipment necessary to meet the missions of the Department of Homeland Security and the activities of the Science and Technology Directorate. This work may be performed by contractors, government laboratories and facilities, universities, and non-profit organizations. Funding is also provided for the operations, maintenance and construction of laboratory facilities.

The 2009 Budget provides for major technology and development efforts, including detection, destruction, disposal, and mitigation of chemical and biological agents and conventional explosives. Funding also is provided for the test and evaluation of technologies, systems, and processes developed to counter these threats and for the acquisition of equipment and operations needed to field those technologies, systems, and processes, as well as others that may be available without further development, as part of the counter-WMD and counter-terror activities of the Department.

Research and development and acquisition funds for each fiscal year will be available for obligation until expended.

This account supports the personnel and related administrative costs for the Domestic Nuclear Detection Office (DNDO). The DNDO is a jointly-staffed office established to improve the Nation's capability to detect and report unauthorized attempts to import, possess, store, develop, or transport nuclear or radiological material for use against the Nation, and to further enhance this capability over time.

The 2009 Budget provides for 144 positions, an increase of 14 positions over FY 2008. As a jointly-staffed office, the DNDO staff is made up of approximately 50 detailees augmenting approximately 80 DNDO Federal staff members. All

## MANAGEMENT AND ADMINISTRATION—Continued

DNDO contributions to the DHS Working Capital Fund are included within the Management and Administration request.

Management and Administration funds will be available for obligation until the end of the fiscal year.

This account supports the research and development programs of the Domestic Nuclear Detection Office (DNDO). DNDO is dedicated to both the development and enhancement of global nuclear detection architecture; deployment support

for the domestic detection system; coordination of effective sharing of nuclear detection-related information; the coordination of nuclear detection research and development and the establishment of procedures and training for end users of nuclear detection equipment.

The 2009 Budget provides for a systems development program aimed at providing near-term technical solutions addressing pressing operational requirements and a transformational research and development program to deliver long-term technology breakthroughs, which will provide significant improvement to overall systems performance, cost, and operability. Funding is also provided for the test and evaluation of all developed systems prior to acquisition decisions, ensuring that a full systems characterization has been conducted prior to any deployments. Additionally, funding is provided to expand operational support programs that provide information analysis and situational awareness, technical support, training curricula, and response protocols to field-users.

Research, development, and operations funds for each fiscal year will be available for obligation until expended.

This account supports the acquisition and deployment of radiation detection technologies by the Domestic Nuclear Detection Office (DNDO). DNDO will acquire a full range of radiation detection technologies, including fixed, mobile, and relocatable radiation portal monitors and backpack and handheld detection systems. These technologies are deployed at the Nation's ports of entry as well as in urban areas through the Securing the Cities initiative. The scope of DNDO acquisitions have broadened to include maritime security and aviation environments as well.

The DNDO acquisition program is directly tied to robust systems development, systems engineering, and test and evaluation programs. The methodology employed in this program ensures that all acquired systems have been fully evaluated prior to any acquisition decisions, such that all systems deployed are operated in a known and efficient manner. Additionally, all deployed technologies will be accompanied by the appropriate training, exercise, and response protocols. This will ensure that all systems are operated properly, and all alarms are immediately reported to the appropriate agencies and personnel.

Systems acquisitions funds for each fiscal year will be available for obligation for three years.

## GENERAL PROVISIONS

SEC. 501. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 502. Subject to the requirements of section 503 of this Act, the unexpended balances of prior appropriations provided for activities in this Act may be transferred to appropriation accounts for such activities established pursuant to this Act: *Provided*, That balances so transferred may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 503. (a) None of the funds provided by this Act, provided by previous appropriations Acts to the agencies in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year [2008] 2009, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that: (1) creates a new program, project, or activity; (2) eliminates a program, project, office, or activity; or (3) increases funds for any program, project, or activity for which funds have been denied or restricted by the Congress; (4) proposes to use funds directed for a specific activity by either of the Committees on Appropriations of the Senate or the House of Representatives for a different purpose; or (5) contracts out any function or activity for which funding levels were requested for Federal full-time equivalents in the object classification tables contained in the fiscal year 2008 Budget Appendix for the Department of Homeland Security, as specified in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act)], unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such reprogramming of funds.

(b) None of the funds provided by this Act, provided by previous appropriations Acts to the agencies in or transferred to the Department of Homeland Security that remain available for obligation or expenditure in fiscal year [2008] 2009, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditure for programs, projects, or activities through a reprogramming of funds in excess of \$5,000,000 or 10 percent, whichever is less, that: (1) augments existing programs, projects, or activities; (2) reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent as approved by the Congress; or (3) results from any general savings from a reduction in personnel that would result in a change in existing programs, projects, or activities as approved by the Congress; unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such reprogramming of funds.

(c) Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of Homeland Security by this Act or provided by previous appropriations Acts may be transferred between such appropriations, but no such appropriations, except as otherwise specifically provided, shall be increased by more than 10 percent by such transfers: *Provided*, That any transfer under this section shall be treated as a reprogramming of funds under subsection (b) and shall not be available for obligation unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such transfer.

[(d) Notwithstanding subsections (a), (b), and (c) of this section, no funds shall be reprogrammed within or transferred between appropriations after June 30, except in extraordinary circumstances which imminently threaten the safety of human life or the protection of property.]

[SEC. 504. None of the funds appropriated or otherwise made available to the Department of Homeland Security may be used to make payments to the "Department of Homeland Security Working Capital Fund", except for the activities and amounts allowed in the President's fiscal year 2008 budget, excluding sedan service, shuttle service, transit subsidy, mail operations, parking, and competitive sourcing: *Provided*, That any additional activities and amounts shall be approved by the Committees on Appropriations of the Senate and the House of Representatives 30 days in advance of obligation.]

SEC. [505] 504. Except as otherwise specifically provided by law, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year [2008] 2009 from appropriations for salaries and expenses for fiscal year [2008] 2009 in this Act shall remain available through September 30, [2009] 2010, in the account and for the purposes for which the appropriations were provided: *Provided*, That prior to the obligation of such funds, [a request] notice thereof shall be submitted to the Committees on Appropriations of the Senate and the House of Representatives [for approval] in accordance with section 503 of this Act.

SEC. [506] 505. Funds made available by this Act for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year [2008] 2009 until the enactment of an Act authorizing intelligence activities for fiscal year [2008] 2009.

SEC. [507] 506. The Federal Law Enforcement Training Accreditation Board shall lead the Federal law enforcement training accreditation process, to include representatives from the Federal law enforcement community and non-Federal accreditation experts involved in law enforcement training, to continue the implementation of measuring and assessing the quality and effectiveness of Federal law enforcement training programs, facilities, and instructors.

SEC. [508] 507. None of the funds in this Act may be used to make a grant allocation, discretionary grant award, discretionary contract award, or to issue a letter of intent totaling in excess of \$1,000,000, or to announce publicly the intention to make such an award, including a contract covered by the Federal Acquisition Regulation, unless the Secretary of Homeland Security notifies the Committees on Appropriations of the Senate and the House of Representatives at least three full business days in advance: *Provided*, That no notification shall involve funds that are not available for obligation: *Provided further*, That the notification shall include the amount of the award, the fiscal year in which the funds for the award were appropriated, and the account from which the funds are being drawn: *Provided further*, That the Federal Emergency Management Agency shall brief the Committees on Appropriations of the Senate and the House of Representatives five full business days in advance of announcing publicly the intention of making an award of State Homeland Security grants; Urban Area Security Initiative grants; or Regional Catastrophic Preparedness Grants.

SEC. [509] 508. Notwithstanding any other provision of law, no agency shall purchase, construct, or lease any additional facilities, except within or contiguous to existing locations, to be used for the purpose of conducting Federal law enforcement training without the advance [approval] notification of the Committees on Appropriations of the Senate and the House of Representatives, except that the Federal Law Enforcement Training Center is authorized to obtain the temporary use of additional facilities by lease, contract, or other agreement for training which cannot be accommodated in existing Center facilities.

[SEC. 510. The Director of the Federal Law Enforcement Training Center shall schedule basic and/or advanced law enforcement training at all four training facilities under the control of the Federal Law

Enforcement Training Center to ensure that these training centers are operated at the highest capacity throughout the fiscal year.】

SEC. 【511】 509. None of the funds appropriated or otherwise made available by this Act may be used for expenses for any construction, repair, alteration, or acquisition project for which a prospectus, if required under chapter 33 of title 40, United States Code, has not been approved, except that necessary funds may be expended for each project for required expenses for the development of a proposed prospectus.

SEC. 【512】 510. None of the funds in this Act may be used in contravention of the applicable provisions of the Buy American Act (41 U.S.C. 10a et seq.).

【SEC. 513. (a) None of the funds provided by this or previous appropriations Acts may be obligated for deployment or implementation, on other than a test basis, of the Secure Flight program or any other follow-on or successor passenger prescreening program, until the Secretary of Homeland Security certifies, and the Government Accountability Office reports, to the Committees on Appropriations of the Senate and the House of Representatives, that all ten of the conditions contained in paragraphs (1) through (10) of section 522(a) of Public Law 108–334 (118 Stat. 1319) have been successfully met.

(b) The report required by subsection (a) shall be submitted within 90 days after the Secretary provides the requisite certification, and periodically thereafter, if necessary, until the Government Accountability Office confirms that all ten conditions have been successfully met.

(c) Within 90 days after the date of enactment of this Act, the Secretary of Homeland Security shall submit to the Committees on Appropriations of the Senate and the House of Representatives a detailed plan that describes: (1) the dates for achieving key milestones, including the date or timeframes that the Secretary will certify the program under subsection (a); and (2) the methodology to be followed to support the Secretary's certification, as required under subsection (a).

(d) During the testing phase permitted by subsection (a), no information gathered from passengers, foreign or domestic air carriers, or reservation systems may be used to screen aviation passengers, or delay or deny boarding to such passengers, except in instances where passenger names are matched to a Government watch list.

(e) None of the funds provided in this or previous appropriations Acts may be utilized to develop or test algorithms assigning risk to passengers whose names are not on Government watch lists.

(f) None of the funds provided in this or any other Act may be used for data or a database that is obtained from or remains under the control of a non-Federal entity: *Provided*, That this restriction shall not apply to Passenger Name Record data obtained from air carriers.】

【SEC. 514. None of the funds made available in this Act may be used to amend the oath of allegiance required by section 337 of the Immigration and Nationality Act (8 U.S.C. 1448).】

【SEC. 515. None of the funds appropriated by this Act may be used to process or approve a competition under Office of Management and Budget Circular A–76 for services provided as of June 1, 2004, by employees (including employees serving on a temporary or term basis) of United States Citizenship and Immigration Services of the Department of Homeland Security who are known as of that date as Immigration Information Officers, Contact Representatives, or Investigative Assistants.】

SEC. 【516】 511. None of the funds appropriated to the United States Secret Service by this Act or by previous appropriations Acts may be made available for the protection of the head of a Federal agency other than the Secretary of Homeland Security: *Provided*, That the Director of the United States Secret Service may enter into an agreement to perform such service on a fully reimbursable basis.

【SEC. 517. Section 517(b) of the Department of Homeland Security Appropriations Act, 2007 (18 U.S.C. 3056 note) is amended to read as follows:

“(b) For fiscal year 2008, and each fiscal year thereafter, the Director of the United States Secret Service may enter into an agreement to perform protection of a Federal official other than a person granted protection under section 3056(a) of title 18, United States Code, on a fully reimbursable basis.”.】

【SEC. 518. (a) The Secretary of Homeland Security shall research, develop, and procure new technologies to inspect and screen air cargo carried on passenger aircraft at the earliest date possible.

(b) Existing checked baggage explosive detection equipment and screeners shall be utilized to screen air cargo carried on passenger aircraft to the greatest extent practicable at each airport until technologies developed under subsection (a) are available.

(c) The Assistant Secretary (Transportation Security Administration) shall work with air carriers and airports to ensure that the screening of cargo carried on passenger aircraft, as defined in section 44901(g)(5) of title 49, United States Code, increases incrementally each quarter.

(1) EFFECTIVE DATE.—The amendments made by this section shall become effective on the later of June 30, 2008, or the first day of the first pay period beginning at least 6 months after the date of the enactment of this Act.

(2) TRANSITION RULES.—

(A) NONAPPLICABILITY OF MANDATORY SEPARATION PROVISIONS TO CERTAIN INDIVIDUALS.—The amendments made by subsections (a)(3) and (b)(6), respectively, shall not apply to an individual first appointed as a customs and border protection officer before the effective date under paragraph (1).

(B) TREATMENT OF PRIOR CBPO SERVICE.—

(i) GENERAL RULE.—Except as provided in clause (ii), nothing in this section or any amendment made by this section shall be considered to apply with respect to any service performed as a customs and border protection officer before the effective date under paragraph (1).

(ii) EXCEPTION.—Service described in section 8331(31) or 8401(36) of title 5, United States Code (as amended by this section) rendered before the effective date under paragraph (1) may be taken into account to determine if an individual who is serving on or after such effective date then qualifies as a customs and border protection officer by virtue of holding a supervisory or administrative position in the Department of Homeland Security.

(C) MINIMUM ANNUITY AMOUNT.—The annuity of an individual serving as a customs and border protection officer on the effective date under paragraph (1) pursuant to an appointment made before that date shall, to the extent that its computation is based on service rendered as a customs and border protection officer on or after that date, be at least equal to the amount that would be payable—

(i) to the extent that such service is subject to the Civil Service Retirement System, by applying section 8339(d) of title 5, United States Code, with respect to such service; and

(ii) to the extent such service is subject to the Federal Employees' Retirement System, by applying section 8415(d) of title 5, United States Code, with respect to such service.

(D) **RULE OF CONSTRUCTION.**—Nothing in the amendment made by subsection (c) shall be considered to apply with respect to any appointment made before the effective date under paragraph (1).

(3) **ELECTION.**—

(A) **INCUMBENT DEFINED.**—For purposes of this paragraph, the term “incumbent” means an individual who is serving as a customs and border protection officer on the date of the enactment of this Act.

(B) **NOTICE REQUIREMENT.**—Not later than 30 days after the date of the enactment of this Act, the Director of the Office of Personnel Management shall take measures reasonably designed to ensure that incumbents are notified as to their election rights under this paragraph, and the effect of making or not making a timely election.

(C) **ELECTION AVAILABLE TO INCUMBENTS.**—

(i) **IN GENERAL.**—An incumbent may elect, for all purposes, either—

(I) to be treated in accordance with the amendments made by subsection (a) or (b), as applicable; or

(II) to be treated as if subsections (a) and (b) had never been enacted.

Failure to make a timely election under this paragraph shall be treated in the same way as an election made under subclause (I) on the last day allowable under clause (ii).

(ii) **DEADLINE.**—An election under this paragraph shall not be effective unless it is made at least 14 days before the effective date under paragraph (1).

(4) **DEFINITION.**—For purposes of this subsection, the term “customs and border protection officer” has the meaning given such term by section 8331(31) or 8401(36) of title 5, United States Code (as amended by this section).

(5) **EXCLUSION.**—Nothing in this section or any amendment made by this section shall be considered to afford any election or to otherwise apply with respect to any individual who, as of the day before the date of the enactment of this Act—

(A) holds a position within U.S. Customs and Border Protection; and

(B) is considered a law enforcement officer for purposes of subchapter III of chapter 83 or chapter 84 of title 5, United States Code, by virtue of such position.】

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

This chapter presents the budget estimates and program justifications for the Department of Housing and Urban Development (HUD). HUD's core mission is to increase homeownership, support community development, and increase access to affordable housing free from discrimination. The 2009 Budget for HUD assumes major reform proposals for the Federal Housing Administration (FHA), the Housing Choice Voucher (HCV) program, and the Community Development Block Grant (CDBG) program. These reforms will enhance the effectiveness of HUD's programs.

The Department continues to emphasize expanding homeownership opportunities for all. Toward that goal, in 2009 FHA continues to propose financing options for families who have good credit histories but lack the savings needed for the downpayment on a home, and for families who have impaired credit histories and who would normally be served only by the sub-prime market. Also, the Budget provides nearly \$2 billion for the HOME Investment Partnerships Program, including \$50 million for the American Dream Downpayment Initiative. The improved performance of FHA and other homeownership efforts will help meet the goal of adding 5.5 million new minority homeowners by 2010.

While maintaining a budget-based approach, the 2009 Budget proposes changes to the Housing Choice Voucher Program to give State and local housing authorities more decision-making authority to better address the unique needs of their communities, such as the flexibility to serve more households.

The Budget includes a substantial increase for Project-Based Housing, providing \$7 billion to renew all project-based rental contracts, and a \$400 million advance appropriation to bridge renewal funding into 2010. The 2009 request is over \$1 billion above 2008 and is the largest renewal funding provided in the history of the program.

HUD continues to support and improve Public Housing and has initiated the effort to adopt asset-based project management to allow significant improvements and efficiencies. The Budget provides \$4.3 billion for Public Housing Operating subsidies and \$2 billion for the Public Housing Capital Fund.

HUD continues to focus on combating homelessness and eliminating chronic homelessness with a record \$1.636 billion for Homeless Assistance, including up to \$50 million for a Samaritan initiative to provide supportive housing linked to services for chronically homeless persons.

Funding in the 2009 Budget for the Fair Housing Assistance and Fair Housing Initiatives programs (FHAP and FHIP) will continue to strengthen the ability of public and private fair housing groups, and partnerships between them, to enforce the laws protecting all Americans against illegal housing discrimination. With the publication of the National Housing Discrimination Study, HUD now has the information necessary to improve enforcement, reduce discrimination, and address accessibility issues. The 2009 FHIP budget includes funding for an update of the 2000 National Housing Discrimination Study.

The Community Development Block Grant (CDBG) program, along with other Federal programs for community and economic development, will be targeted in 2009 to increase the focus and effectiveness of Federal efforts to provide adequate economic opportunity in low-income communities. HUD has proposed legislation to revise the CDBG allocation formulas to better target needy communities, to provide bonus funds tied to performance, and to make further reforms to increase CDBG's effectiveness.

HUD continues to support the reduction of housing overcrowding in Indian country with \$627 million in housing grants. The Budget also continues to support Indian community and economic development.

The 2009 Budget includes \$116 million in lead hazard reduction grants to continue the 10-year program to eradicate lead hazards in housing. The elimination of lead hazards for children is on track and the number of children with elevated blood lead levels has been reduced from 890,000 between 1991 and 1994 to 235,000 in 2007.

To ensure the effective implementation of its programs, the Budget provides the Department's Office of Policy Development and Research (PD&R) with funds necessary to ensure timely provision of data, provide research and analysis of national housing and economic conditions, and evaluate the performance of programs, consistent with the Government Performance and Results Act of 1994.

HUD is one of five Departments that are leading the Federal Government in tapping the potential of faith-based and community organizations to improve housing and help develop communities.

The Department will continue the management reform effort initiated in 2001 and undertake further efforts in 2008 and 2009 to refocus HUD on its core mission and key programs as part of a continuing series of planned reforms to improve program performance.

## PREVENTION OF RESIDENT DISPLACEMENT—Continued

HUD received \$79 million in 2005 via a FEMA mission assignment to provide housing assistance to families that were displaced by Hurricane Katrina. Eligible recipients included families that had been receiving HUD assistance, and those who were homeless prior to Hurricane Katrina. Through a \$390 million supplemental appropriation pursuant to P.L. 109-148, the Robert T. Stafford Disaster Relief and Emergency Act (42 U.S.C. 5121 et seq.), HUD continued to support similar activities. It is expected that there will soon be no more transactions within this account because this mission assignment is complete. Eligible families will continue to receive assistance through their current localities of residence.

TENANT-BASED RENTAL ASSISTANCE  
(INCLUDING TRANSFER OF FUNDS)

For activities and assistance for the provision of tenant-based rental assistance authorized under the United States Housing Act of 1937, as amended (42 U.S.C. 1437 et seq.) (“the Act” herein), [not otherwise provided for, \$16,391,000,000] \$11,881,000,000, to remain available until expended[, of which \$12,233,000,000] shall be available on October 1, [2007] 2008 (in addition to the \$4,158,000,000 previously appropriated under this heading that will become available on October 1, 2008), and [\$4,158,000,000] \$4,000,000,000, to remain available until expended, shall be available on October 1, [2008] 2009: *Provided*, That the amounts made available under this heading [are provided as follows:]

[(1)] [\$14,694,506,000] shall be available for renewals of expiring section 8 tenant-based annual contributions contracts (including renewals of enhanced vouchers under any provision of law authorizing such assistance under section 8(t) of the Act), and including renewal of other designated housing vouchers initially funded in fiscal year 2008 (such as Family Unification and Veterans Affairs Supportive Housing vouchers): *Provided further*, That notwithstanding any other provision of law, from amounts provided under this paragraph and any carryover, the Secretary for the calendar year [2008] 2009 funding cycle shall provide renewal funding for each public housing agency based on [voucher management system (VMS) leasing and cost data for the most recent Federal fiscal year] the amount public housing agencies were eligible to receive in calendar year 2008 and by applying the [2008] 2009 Annual Adjustment Factor as established by the Secretary, and by making any necessary adjustments for the costs associated with [deposits to family self-sufficiency program escrow accounts or] the first-time renewal of tenant protection or HOPE VI vouchers or vouchers that were not in use during the 12-month period in order to be available to meet a commitment pursuant to section 8(o)(13) of the Act: *Provided further*, That notwithstanding the first proviso, except for applying the 2008 Annual Adjustment Factor and making any other specified adjustments, public housing agencies specified in category 1 below shall receive funding for calendar year 2008 based on the higher of the amounts the agencies would receive under the first proviso or the amounts the agencies received in calendar year 2007, and public housing agencies specified in categories 2 and 3 below shall receive funding for calendar year 2008 equal to the amounts the agencies received in calendar year 2007, except that public housing agencies specified in categories 1 and 2 below shall receive funding under this proviso only if, and to the extent that, any such public housing agency submits a plan, approved by the Secretary, that demonstrates that the agency can effectively use within 12 months the funding that the agency would receive under this proviso that is in addition to the funding that the agency would receive under the first proviso: (1) public housing agencies that are eligible for assistance under section 901 in Public Law 109-148 (119 Stat. 2781) or are located in the same counties as those eligible under section 901 and operate voucher programs under section 8(o) of the United States Housing Act of 1937 but do not operate public housing under section 9 of such Act, and any public housing agency that otherwise qualifies under this category must demonstrate that they have experienced a loss of rental housing stock as a result of the 2005 hurricanes; (2) public housing agencies that would receive less funding under the first proviso than they would receive under this proviso and that have been

placed in receivership within the 24 months preceding the date of enactment of this Act; and (3) public housing agencies that spent more in calendar year 2007 than the total of the amounts of any such public housing agency's allocation amount for calendar year 2007 and the amount of any such public housing agency's available housing assistance payments undesignated funds balance from calendar year 2006 and the amount of any such public housing agency's available administrative fees undesignated funds balance through calendar year 2007: *Provided further*, That notwithstanding the first two provisos under this paragraph, the amount of calendar year 2008 renewal funding for any agency otherwise authorized under such provisos shall be reduced by the amount of any unusable amount (as determined by the Secretary, due to limits in this paragraph with respect to an agency's authorized level of units under contract) in such agency's net restricted assets account, in accordance with the most recent VMS data in calendar year 2007 that is verifiable and complete, which exceeds 7 percent of the amount of renewal funding allocated to the agency for the calendar year 2007 funding cycle pursuant to section 21033 of Public Law 110-5, as amended by section 4802 of Public Law 110-28: *Provided further*, That the amount of calendar year 2009 renewal funding for any agency otherwise authorized shall be reduced by any amount in such agency's unusable net restricted assets account (as determined by the Secretary) in accordance with the most recent VMS data for federal fiscal year 2008 that is verifiable and complete: *Provided further*, That up to \$50,000,000 shall be available only: (1) to adjust the allocations for public housing agencies, after application for an adjustment by a public housing agency that experienced a significant increase, as determined by the Secretary, in renewal costs from portability under section 8(r) of the Act of tenant-based rental assistance; and (2) for adjustments for public housing agencies with voucher leasing rates at the end of the calendar year that exceed the average leasing for the 12-month period used to establish the allocation: *Provided further*, That for additional rental subsidy due to unforeseen circumstances as determined by the Secretary and for both the one-time funding and increased costs of housing assistance payments resulting from the portability provisions of the housing choice voucher program *Provided further*, That none of the funds provided under this paragraph may be used to support a total number of unit months under lease which exceeds a public housing agency's authorized level of units under contract: *Provided further*, That the Secretary shall, to the extent necessary to stay within the amount specified under this paragraph, [after subtracting \$723,257,000 from such amount,] pro rate each public housing agency's allocation otherwise established pursuant to this paragraph: *Provided further*, That except as provided in the last proviso, the entire amount specified under this paragraph[, except for \$723,257,000] shall be obligated to the public housing agencies based on the allocation and pro rata method described above and the Secretary shall notify public housing agencies of their annual budget not later than 60 days after enactment of this Act: *Provided further*, That the Secretary may extend the 60 day notification period with the prior written [approval] notice of the House and Senate Committees on Appropriations: *Provided further*, That public housing agencies participating in the Moving to Work demonstration shall be funded pursuant to their Moving to Work agreements and shall be subject to the same pro rata adjustments under the previous proviso[:]. *Provided further*, that of the amounts made available under this heading for fiscal year 2009,

[(2)] [\$200,000,000] \$150,000,000 is for section 8 rental assistance for relocation and replacement of housing units that are demolished or disposed of pursuant to the Omnibus Consolidated Rescissions and Appropriations Act of 1996 (Public Law 104-134), conversion of section 23 projects to assistance under section 8, the family unification program under section 8(x) of the Act, relocation of witnesses in connection with efforts to combat crime in public and assisted housing pursuant to a request from a law enforcement or prosecution agency, enhanced vouchers under any provision of law authorizing such assistance under section 8(t) of the Act, HOPE VI vouchers, mandatory and voluntary conversions, and tenant protection assistance including replacement and relocation assistance: *Provided further*, That [the Secretary shall provide replacement vouchers for all units that were occupied within the previous 24 months that cease to be available as assisted housing due to demolition, disposition, or conversion, subject only to the availability of funds.] additional section 8 tenant protection rental assistance costs may be funded in 2009 by utilizing unobligated balances, including recaptures and carryover, remaining from funds

appropriated to the Department of Housing and Urban Development under this heading, the heading "Annual Contributions for Assisted Housing", and the heading "Housing Certificate Fund", for fiscal year 2008 and prior years notwithstanding the purpose for which they were originally appropriated;

[(3)] [\$49,000,000] \$48,000,000 is for family self-sufficiency coordinators under section 23 of the Act[.];

[(4)] at least \$7,929,000 shall, and up to [\$6,494,000] \$9,911,250 may, be transferred to the Working Capital Fund[.];

[(5)] [\$1,351,000,000] \$1,400,000,000 for administrative and other expenses of public housing agencies in administering the section 8 tenant-based rental assistance program and which up to [\$35,000,000] \$40,000,000 shall be available to the Secretary to allocate to public housing agencies that need additional funds to administer their section 8 programs, [with up to \$30,000,000 to be for] including fees associated with section 8 tenant protection rental assistance, the administration of disaster related vouchers, Veterans Affairs Supportive Housing vouchers, and other incremental vouchers: Provided further, That no less than [\$1,316,000,000] \$1,360,000,000 of the amount provided in this paragraph shall be allocated for the calendar year [2008] 2009 funding cycle on a basis to public housing agencies as provided in section 8(q) of the Act as in effect immediately before the enactment of the Quality Housing and Work Responsibility Act of 1998 (Public Law 105-276) : Provided further, That the Secretary shall, to the extent necessary to stay within the amount provided under this paragraph, pro rate each public housing agency's allocation otherwise established pursuant to this paragraph: Provided further, That all amounts provided under this paragraph shall be only for activities related to the provision of tenant-based rental assistance authorized under section 8, including related development[.];

[(6)] \$20,000,000 for incremental voucher assistance through the Family Unification Program] \$39,000,000 is for Housing Assistance Payments to prevent the involuntary displacement of low-income elderly and disabled families displaced by Hurricanes Katrina and Rita after the Disaster Housing Assistance Program (DHAP) ends[.]; and

[(7)] \$75,000,000 is for incremental rental voucher assistance for use through a supported housing program administered in conjunction with the Department of Veterans Affairs as authorized under section 8(o)(19) of the United States Housing Act of 1937: Provided further, That the Secretary of Housing and Urban Development shall make such funding available, notwithstanding section 204 (competition provision) of this title, to public housing agencies that partner with eligible VA Medical Centers or other entities as designated by the Secretary of the Department of Veterans Affairs, based on geographical need for such assistance as identified by the Secretary of the Department of Veterans Affairs, public housing agency administrative performance, and other factors as specified by the Secretary of Housing and Urban Development in consultation with the Secretary of the Department of Veterans Affairs: Provided further, That the Secretary of Housing and Urban Development may waive, or specify alternative requirements for (in consultation with the Secretary of the Department of Veterans Affairs), any provision of any statute or regulation that the Secretary of Housing and Urban Development administers in connection with the use of funds made available under this paragraph (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment), upon a finding by the Secretary that any such waivers or alternative requirements are necessary for the effective delivery and administration of such voucher assistance: Provided further, That assistance made available under this paragraph shall continue to remain available for homeless veterans upon turn-over.

[(8)] \$30,000,000 for incremental vouchers under section 8 of the Act for nonelderly disabled families affected by the designation of a public housing development under section 7 of the Act, the establishment of preferences in accordance with section 651 of the Housing and Community Development Act of 1992 (42 U.S.C. 13611), or the restriction of occupancy to elderly families in accordance with section 658 of such Act (42 U.S.C. 13618), and to the extent the Secretary determines that such amount is not needed to fund applications for such affected families, for other nonelderly disabled families. The Tenant-Based Rental Assistance Program (also known as the Housing Choice Voucher Program) provides housing assistance to approximately 2 million extremely low- to low-income families. This is the Federal government's largest program for assisting low-income families to rent decent, safe and sanitary housing in the private market. The program includes set-asides for homeless veterans and tenant-protection vouchers, which are provided to families who must relocate due to public housing demolitions or when landlords opt out of project-based contracts. About 2,400 state and local Public Housing Authorities (PHAs) administer the Voucher program.

TENANT-BASED RENTAL ASSISTANCE—Continued  
(INCLUDING TRANSFER OF FUNDS)—Continued

The Administration reaffirms its commitment to reforming the Voucher program by amending the appropriations language and re-submitting legislative reform proposals similar to the Voucher and Rent Simplification Act of 2007. The policy objectives are to allow PHAs to serve more families, simplify program administration, and promote local flexibility for more efficient service delivery. More specifically, the Administration proposes to: (1) remove the cap on the authorized number of units PHAs can serve. This would enable PHAs to utilize funds they are currently unable to spend beyond their authorized number of units; (2) provide a stable, predictable, budget-based renewal funding formula. This budget-based allocation method is transparent, appropriately compensates and rewards PHA performance, and results in predictable future year funding allocations for PHAs; (3) reform the administratively burdensome rent determination formulas so that the changes provide PHAs with the necessary flexibility over tenant rents to address the needs and priorities of their communities, gain administrative cost-savings, increase the incentives for able adults to work, and help eliminate improper payments; and (4) identify and adjust for unspent prior year balances from PHAs to determine FY09 funding levels and to promote the PHA's accountability in managing Voucher budgets.

Legislation to implement the Administration's reform proposal will be submitted to the Congress early in 2008.

The Housing Certificate Fund, until 2005, provided funding to both project-based and tenant-based components of the Section 8 program. Project-based Rental Assistance and Tenant-based Rental Assistance are now separately funded accounts. The Housing Certificate Fund retains and recovers balances from previous years' appropriations.

PROJECT-BASED RENTAL ASSISTANCE

The Budget requests \$7 billion for project-based rental assistance in 2009 and a \$400 million advance appropriation to become available in 2010. These funds are sufficient to renew all contracts through fiscal year 2009 and into the first part of fiscal year 2010

**Project-based Rental Assistance.**—This program assists approximately 1.3 million low- and very low-income households in obtaining decent, safe, and sanitary housing in private accommodations. Project-based Rental Assistance serves families, elderly households, disabled households, and provides transitional housing for the homeless. Through this funding, HUD supports approximately 18,000 contracts with owners of multifamily rental housing to provide housing for low- and

very low income families. This funding pays the difference between what a household can afford, generally 30 percent of eligible income, and the approved market-base rent for a housing unit. Program activity includes the following:

**Contract Renewals.**—The contract renewals set-aside provides funding for HUD to renew expiring lease contracts. Currently, around 80 percent of the contracts are renewed annually; the other 20 percent are funded from previously appropriated long-term contracts. These funds go directly to the housing costs of low- and very low income families in the program.

**Section 8 Amendments.**—A funding amendment to a Section 8 contract is required to maintain the project until its contract expiration date when actual costs incurred exceed the amount of budget authority originally obligated for the project. These additional costs are proposed to be entirely funded in 2009 by utilizing recoveries of excess balances remaining on expired Section 8 contracts that utilized less than anticipated resources in completing the contract. No new funds are requested in 2009 for Section 8 Amendment activity.

**Contract Administrators.**—The Contract Administrators set-aside is necessary to fund the local level administration of this program. Through this set-aside, HUD funds contracts with performance-based contract administrators. These entities, which are typically public housing authorities or state housing finance agencies, are responsible for conducting on-site management reviews of assisted properties; adjusting contract rents; reviewing, processing, and paying monthly vouchers submitted by owners; renewing contracts with property owners; and responding to health and safety issues at properties. For 2009, up to \$232 million is requested for this set-aside.

**Working Capital Fund Transfer.**—At least \$5 million or up to \$6.25 million is requested in 2009 to fund development of and modifications to technology systems that support these activities.

**PUBLIC HOUSING CAPITAL FUND**  
(INCLUDING TRANSFER OF FUNDS)

For the Public Housing Capital Fund Program to carry out capital and management activities for public housing agencies, as authorized under section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) (the “Act”) **[\$2,438,964,000] \$2,024,000,000**, to remain available until September 30, **[2011] 2012: Provided**, That notwithstanding any other provision of law or regulation, during fiscal year **[2008] 2009** the Secretary of Housing and Urban Development may not delegate to any Department official other than the Deputy Secretary and the Assistant Secretary for Public and Indian Housing any authority under paragraph (2) of section 9(j) regarding the extension of the time periods under such section: *Provided further*, That for purposes of such section 9(j), the term “obligate” means, with respect to amounts, that the amounts are subject to a binding agreement that will result in outlays, immediately or in the future: *Provided further*, That of the total amount provided under this heading, up to **[\$12,000,000] \$7,420,000** shall be for carrying out activities under section 9(h) of such Act; **[not to exceed \$16,847,000 may] at least \$14,577,000 shall, and up to \$18,221,250 may**, be transferred to the Working Capital Fund; and up to \$15,345,000 shall be to support the ongoing Public Housing Financial and Physical Assessment activities of the Real Estate Assessment Center (REAC): *Provided further*, That no funds may be used under this heading for the purposes specified in section 9(k) of the Act: **[Provided further**, That of the total amount provided under this heading, not to exceed \$18,500,000 shall be available for the Secretary to make grants, notwithstanding section 204 of this Act, to public housing agencies for emergency capital needs resulting from unforeseen or unpreventable emergencies and natural disasters occurring in fiscal year 2008: **] Provided further**, That of the total amount provided under this heading, **[\$40,000,000] \$37,620,000** shall be for supportive services, service coordinators and congregate services as authorized by section 34 of the Act (42 U.S.C. 1437z-6) and the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 et

The Public Housing Capital Fund, a formula-driven program based on estimated need, is designed to respond to the capital and management improvement requirements of public housing.

Of the \$2.02 billion requested for the Public Housing Capital Fund, approximately \$1.94 billion is provided to cover

annual accrual needs. Other uses include up to \$7 million for technical assistance, up to \$15 million for public housing financial and physical assessment support, \$37.6 million for support services, and up to \$10 million for administrative and judicial receiverships. In addition, at least \$14.6 million shall be transferred to the Working Capital Fund to fund development of and modifications of systems that support public housing. Funds for disaster relief are not requested. FEMA disaster assistance is available for any needs that are not covered by the required property insurance.

The Public Housing Capital Fund protects and enhances a valuable affordable housing resource, which serves approximately 1.2 million families with limited income. Of those families, 32 percent are elderly and 20 percent are disabled.

The 2009 Budget provides resources to support the estimated \$2 billion annual capital accrual needs of the public housing inventory. Over the next year, the Department will conduct a new capital needs study of public housing. Since the last capital needs study in 1998, the backlog of capital needs for public housing is estimated to have been reduced through demolitions of more than 157,000 of the most distressed public housing stock as well as modernization and redevelopment of several hundred thousand units. A mandatory conversion rule has been implemented that will greatly accelerate the demolition of units beyond repair. In fiscal year 2007, 85.7 percent of housing units meet HUD's physical standards, compared to 82 percent in 2001.

## PUBLIC HOUSING OPERATING FUND

For **[2008] 2009** payments to public housing agencies for the operation and management of public housing, as authorized by section 9(e) of the United States Housing Act of 1937 (42 U.S.C. 1437g(e)), **[\$4,200,000,000] \$4,300,000,000**; of which \$5,940,000 shall be for competitive grants and contracts to third parties for the provision of technical assistance to public housing agencies related to the transition and implementation of asset-based management in public housing: *Provided*, That, in fiscal year **[2008] 2009** and all fiscal years hereafter, no amounts under this heading in any appropriations Act may be used for payments to public housing agencies for the costs of operation and management of public housing for any year prior to the current year of such Act: *Provided further*, That no funds may be used under this heading for the purposes specified in section 9(k) of the United States Housing Act of 1937. Operating subsidies are provided to public housing authorities (PHAs) to assist in funding the operation and maintenance expenses of public housing units in accordance with Section 9(e) of the United States Housing Act of 1937, as amended. The 2009 request of \$4.3 billion is a 2.4 percent increase in operating subsidies, reflecting higher costs for day-to-day expenses.

The following tables display the sources of PHAs' expected revenue and expenditures by category in 2009. The distribution is based on historical data reported by PHAs to HUD.

**Sources of PHAs' Operating Revenue**

Category (in millions of dollars)	Annual income	Percent of total
Operating Subsidies .....	\$4,294	60%
Dwelling Rental .....	2,568	36%
Investment .....	124	1%
Other Income .....	204	3%
Total, Operating Revenue .....	7,190	100%

**Operating Subsidies.**—Represent HUD's contributions to a PHA's operating budget. Under the current formula-based approach, HUD sets a formula-determined allowable expense level (AEL) for each PHA and separately computes utility and audit costs. The PHA's dwelling rental income is also projected and the subsidy is the difference between the projected AEL, utility, and audit expenses and projected dwelling rental income. AEL is not based on actual cost data from PHAs. HUD, after consultation with PHAs, has adopted a new operating subsidy formula based on the previously congressionally sanctioned cost study conducted by the Harvard Graduate School of Design. The new formula was implemented beginning in 2007.

**Dwelling Rental.**—Income derived from tenants' rents.

**Investment Income.**—Income from interest earned on general fund investments.

**Other Income.**—Includes income from other sources such as renting rooftop space for signs or broadcasting, and from operating services for tenants, such as laundromats or day care centers.

**PHAs' Operating Expenditures**

Category (in millions of dollars)	Annual expenditures	Percent of total
Utilities .....	\$1,730	24%
Administration .....	2,076	29%
General Operating Expenses .....	595	8%
Maintenance .....	2,391	33%
Tenant Services .....	206	3%

Total, Operating Expenses/*/ .....	7190	100%

**Utilities.**—Includes water, sewer, electricity, gas, and fuel.

**Administration.**—Includes administrative salaries, legal expenses, staff training, travel, accounting fees, auditing fees, sundry, and outside management costs.

**General Operating Expenses.**—Includes insurance, payments made to local governments in lieu of taxes, terminal leave payments, employees benefit contributions, collection losses, interest on administrative and sundry notes, and other general expenses.

**Ordinary Maintenance and Operations.**—Consists of expenses for labor, materials, contracts and garbage fees associated with the day-to-day operation of the public housing authority.

**Tenant Services.**—Covers salaries, recreation, publication, contract costs, training, and other expenses.

**Protective Services.**—Includes expenses for labor, materials, and contract costs.

**Asset-Based Management Technical Assistance.**—Provides \$5.9 million in competitive grants to support PHAs transitioning to project-based accounting and asset-based management.

The Public Housing Drug Elimination Grants program was terminated in the 2002 Budget—no new appropriations have been provided since fiscal year 2001. The program was found to have limited impact. Current regulatory tools, such as tenant screening and eviction, are effective in reducing drug-related crime in public housing. PHAs can supplement other public housing security efforts using operating funds if they choose.

The HOPE VI program in coordination with funding from the Public Housing Capital Fund has completed its goal of contributing to the demolition of 100,000 severely distressed public housing units. The HOPE VI program, while completing its goal, was found to be more costly than other programs and slow to complete redevelopments. The budget proposes no additional funds.

The remaining balance in this program of over \$1.4 billion at the end of 2006 will spend out over several years as the redevelopment projects are completed. Cumulative results of the HOPE VI program as of June 30, 2007 follow: 68,657 households have been relocated, 87,445 units have been demolished, 61,222 units (new and rehabilitated) have been completed, and 58,719 completed units have been occupied.

Title I of the Native American Housing Assistance and Self-Determination Act (NAHASDA) of 1996 (P.L. 104-330) authorized the Native American Housing Block Grant program. This program provides an allocation of funds on a formula basis to Indian tribes and their tribally designated housing entities to help them address housing needs within their communities. HUD has determined, using 2000 Census data, that 273,658 American Indian/Alaska Native households, out of 965,684 have "severe housing needs." This is defined as a lack of basic plumbing or kitchen facilities, having more than 1.01 persons per room, or having a cost burden of over 50 percent of income. According to the Senate Committee on Indian Affairs, in 2002, 90,000 Indian families were homeless or underhoused. On tribal lands, 28 percent of Indian households were found to be overcrowded or to lack adequate plumbing and kitchen facilities, compared to 5.4 percent of national households. The Budget supports a program goal to reduce over-crowding on Native lands by 10 percent.

The Native American Housing Block Grant program includes a guaranteed loan provision (Title VI). A guarantee level of \$17 million is proposed for this loan guarantee program for 2009. A primary goal of the Title VI program is to encourage private lenders to provide financing in Indian country. Therefore, the program provides for the federal guarantee of notes or other obligations issued by Indian tribes or tribally designated housing entities for the purpose of financing affordable housing activities described in section 202 of the Act.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1998 and beyond (including modifications of guarantees that resulted from obligations in any given year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Hawaiian Homelands Homeownership Act of 2000 (P.L. 106-568) amended the Native American Housing Assistance and Self-Determination Act of 1996 by adding Title VIII, which authorized the Native Hawaiian Housing Block Grant program. This program provides an allocation of funds to assist and promote affordable housing activities to develop, maintain and operate affordable housing for eligible low-income Native Hawaiian families.

It authorizes annual grants to the Department of Hawaiian Home Lands (DHHL) for housing and housing-related assistance, pursuant to an annual housing plan, within the area in which DHHL is authorized to provide that assistance. DHHL uses performance measures and benchmarks that are based on the needs and priorities established in its five- and one-year housing plans.

The Low-Rent Public Housing Loan Fund provides direct Federal loans to fund remaining Public Housing Agency and Indian Housing Authority construction, acquisition, and modernization activities reserved under the Annual Contributions appropriation through 1986. These loans are made by borrowing from the Treasury. Under legislation enacted during 1986 (Public Law 99-272), amounts borrowed from the Treasury are forgiven at the end of each fiscal year and the loans to PHAs/IHAs are forgiven as construction, acquisition, and modernization activities are completed. Under the provisions of this legislation, \$2 million borrowed from the Treasury was forgiven in 2007, \$1 million will be borrowed from the Treasury and forgiven in 2008, and an estimated \$1 million will be borrowed from the Treasury and forgiven in 2009.

Since 1987, new reservations of capital funds for construction, acquisition, and modernization activities have been provided directly from the Public Housing Capital Fund appropriations.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1992 and beyond (including modifications of guarantees that resulted from obligations in any year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

This program provides access to sources of private financing for Indian families, Indian tribes, and their tribally designated housing entities who otherwise could not acquire housing financing because of the unique legal status of Indian trust land. The Budget proposes increased funding to support additional loan guarantee activity and to provide managerial and systems support. The latter is important given the significant growth in loan activity under this program. Loan commitments increased 128 percent from 2005 to 2007, supporting homeownership efforts on Indian lands.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 2001 and beyond (including modifications of guarantees that resulted from obligations in any year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

This program provides access to sources of private financing to eligible Native Hawaiian families who reside on the Hawaiian Home Lands and who otherwise could not acquire private financing because of the unique legal status of the Hawaiian Home Lands. The Budget proposes no funds for this program in 2009 because the unobligated balance of credit subsidy and the uncommitted loan limitation brought forward will be sufficient to support 2009 loan volume.

The Housing Opportunities for Persons With AIDS (HOPWA) program provides States and localities with resources and incentives to devise long-term comprehensive strategies for meeting the housing needs of persons with HIV/AIDS and their families. HOPWA funds provide stable housing arrangements, help reduce risks of homelessness and improve access to care for program participants. HOPWA funding is used in an efficient manner, resulting in the program's achievement of performance goals at a very modest cost per person assisted. The \$300 million requested for 2009 will support approximately 70,500 housing units for persons with HIV/AIDS and their families.

States and metropolitan areas receive 90 percent of funds by formula based on the number of cases of AIDS. The final 10 percent is awarded competitively to States, local governments, and private nonprofit entities, including faith-based organizations, for projects of national significance with priority for renewal of the projects providing permanent supportive housing. Awards are also made to States and local governments for projects in jurisdictions that do not qualify for a formula allocation. In addition, approximately \$1.5 million is available for technical assistance to grantees and project sponsors to strengthen management of programs and ensure responsiveness in meeting client needs. Another \$1.75 million is transferred to the Working Capital Fund to support information technology systems needed to operate the program.

It is proposed that the data sources used to calculate annual HOPWA formula allocations for eligible States and cities be updated to permit HUD to implement adjustments to the HOPWA formula through regulation by using current data on the number of persons living with AIDS and to allow for a housing cost factor that reflects differences in area housing needs. Whereas the current formula distributes formula grant resources by the cumulative number of AIDS cases, the revised formula will account for the present number of people living with AIDS, as well as differences in housing costs in the qualifying areas.

The Community Development Block Grant (CDBG) program provides flexible annual formula grants to State and local governments to benefit mainly low- to moderate-income persons. The funding is used for a wide-range of community and economic development activities, such as housing rehabilitation and construction, job creation and retention, public services, and public infrastructure improvements. Seventy percent of the CDBG formula grants are distributed to mainly urban areas (entitlement communities), and thirty percent to the States (non-entitlement communities).

The Budget re-proposes the CDBG Reform Act, which adopts an improved formula to better target funds to communities with the greatest economic need and holds communities accountable for results. The current formula has not been updated in over 30 years and as a result, many lower-income communities receive less assistance than wealthier communities. In addition to the improved formula, the proposal would be designed with a Challenge Grant Fund component, which provides incentives to communities to invest in projects more strategically. Legislation to authorize these reforms will be transmitted in early 2008. The Budget also proposes \$5 million in technical assistance funding to assist grantees in the program and at least \$3 million for the Working Capital Fund.

As part of the reforms, HUD programs such as Brownfields Economic Development Initiative, Community Development Loan Guarantee Program (Section 108), and Rural Housing and Economic Development are proposed for termination. These programs are duplicative — their activities are eligible to be funded by CDBG and other Federal programs.

The Indian Community Development Block Grant program will continue to be funded in this account at \$57 million. This program provides eligible grantees with direct grants for use in developing viable Indian and Alaska Native Communities, including decent housing, a suitable living environment, and economic opportunities, primarily for low and moderate income persons.

No funding is requested for Empowerment Zones/Enterprise Communities/Renewal Communities (EZ/EC/RC).

The EZ/EC/RC initiative helps revitalize distressed neighborhoods by attracting business development and providing employment opportunities to residents of high poverty urban areas. The initiative complements the President's goals of strengthening communities and focusing federal resources on areas of greatest need, primarily through the expansion of businesses. This effort will continue to be done through tax incentives rather than grants.

An amendment to the Internal Revenue Code enacted in 2001 approved major tax incentives to revitalize areas of pervasive poverty, unemployment, and general distress, and HUD designated 40 urban and rural RCs and a third round of 8 urban EZs under the 2001 law. The designations under that law continue into FY 2010. The 2001 law also allows the 22 urban EZs from the earlier rounds to receive the same package of tax incentives for the same time period.

The 2009 Budget requests no funding for the Brownfields Economic Development Initiative (BEDI) program and it is proposed to be terminated as a part of the broader CDBG program reforms. BEDI activities can be funded with Community Development Block Grant (CDBG) funds.

BEDI is a competitive grant program designed to stimulate and promote economic and community development, and is used in conjunction with the Community Development Loan Guarantee program. Brownfields are abandoned, idled, and underused industrial and commercial facilities and land where expansion and redevelopment is burdened by real or potential environmental contamination.

Grants were made in accordance with selection criteria deemed appropriate for brownfields projects, including an applicant's capacity to operate a brownfields program and the extent it works with environmental regulatory agencies, as well as the projected future economic benefits to the community.

The HOME Investment Partnerships Program is authorized by the National Affordable Housing Act (P.L. 101-625), as amended. This program provides flexible annual formula grant assistance to States and units of local government to increase homeownership and expand the supply of affordable housing for low- to very-low income persons. Sixty percent of the formula grant funds is awarded to participating local governments and 40 percent is awarded to states. Eligible activities include acquisition, rehabilitation, new construction of affordable housing, and tenant-based rental assistance.

Program evaluations, including the Program Assessment and Rating Tool (PART), have found that the program has a clear purpose, strong management, and can demonstrate results. In its PART assessment, the HOME program received a "Moderately Effective" rating based on the program's potentially significant impact on affordable housing problems, the progress towards its annual performance goals, and its ability to demonstrate improved efficiency over time. The funding provided in the 2009 Budget will result over time in the production of 85,350 units of affordable housing through new construction, rehabilitation, and/or acquisition. Tenant-based rental assistance will be provided for 17,760 units.

In addition, the \$50 million requested for the American Dream Downpayment Initiative (ADDI) will help expand homeownership opportunities to approximately 6,500 low-income first-time homebuyers and continue to support expansion of minority homeownership.

The Budget requests \$40 million for grants to eligible national and regional non-profits and consortia for land acquisition for home sites and improvement of utilities and other site infrastructure, of which, \$990,000 will be used for technical assistance.

Self-Help Homeownership Opportunity Program (SHOP) funds assist low-income homebuyers willing to contribute "sweat equity" toward the construction of their houses. The funds increase the ability of non-profit organizations to leverage funds from other sources and will produce at least 2,000 new homeownership units for very low to low-income people. As a result, SHOP directly contributes to the Presidential priority of promoting homeownership, especially the ten-year goal to have 5.5 million new minority homeowners. Minorities comprise about 78 percent of the program participants. The program's track record has shown that it can leverage at least \$7 in resources from other sources for each federal dollar. The 2006 Program Assessment Rating Tool (PART) found SHOP to be "Effective."

The Homeless Assistance Grants account provides funds for the Shelter Plus Care, Supportive Housing, Emergency Shelter Grants, and Section 8 Moderate Rehabilitation Single Room Occupancy programs. These programs, which award funds through the Continuum of Care process, enable localities to shape and implement comprehensive, flexible, coordinated approaches to address the multiple issues of homelessness. Many communities have made great strides in creating comprehensive approaches to ending chronic homelessness through the development of State Interagency Councils and local plans.

The Budget requests \$1.636 billion for a wide range of activities to assist homeless persons and prevent future homelessness. Increased funding will continue to support the Administration's goal of ending chronic homelessness by creating new permanent supportive housing for this population. In addition, the Budget places a major emphasis on permanent housing by requiring 30 percent of funds to be used for this purpose. In fiscal year 2006, 57 percent of competitive funds awarded were used for housing purposes and it is estimated that the Budget will support approximately 160,000 emergency, transitional and permanent beds for homeless families and individuals.

The Administration will again propose legislation to combine HUD's three competitive grant programs—Shelter Plus Care, Supportive Housing, and Section 8 Moderate Rehabilitation Single Room Occupancy—into a single program with flexibility to better meet community needs. The new consolidated program will incorporate up to \$50 million for the Samaritan Housing Initiative that will specifically address the supportive housing needs of chronically homeless individuals. The Department continues to pursue expanded interagency efforts to meet the needs of the homeless and to accomplish the Administration's goal of ending chronic homelessness.

Funding is also requested for program evaluation and technical assistance to provide, among other services, needed assistance to grantees to resolve problems that hinder successful project completion and implementation, and for homeless management information systems (HMIS) support, including the continuing operation of tracking systems required by House Report 105-610.

The 2009 Budget requests no funding for the Rural Housing and Economic Development (RHED) program. The program is duplicative, particularly of programs provided through the U.S. Department of Agriculture, which manages a portfolio of rural housing and economic development grants programs that vastly exceed HUD's RHED program in terms of services, budget and staffing. The needs of rural communities are also addressed with greater resources through the Community Development Block Grants and HOME Investment Partnerships Program.

The RHED program was created to encourage innovative approaches to serve the housing and economic development needs of the nation's rural communities.

The Revolving Fund (liquidating programs) was established by the Independent Offices Appropriations Act of 1955 for the efficient liquidation of assets acquired under a number of housing and urban development programs. The operational expenses are financed from a permanent, indefinite appropriation to administer the remaining repayments of loans and recaptures in the portfolio. Annually, any amounts in the account are returned as a dividend to the Treasury.

The Section 312 loan program portfolio, which provided first and junior lien financing at below market interest rates for the rehabilitation of homes in low-income neighborhoods, constituted a large portion of the account activities. This program ceased to originate new loans over ten years ago. Since the sale of the Section 312 loan portfolio to the private sector in 2001, activity in this account has been minimal.

The 2009 Budget requests no funding for the Community Development Loan Guarantee program (Section 108). The program activities, such as economic development projects and affordable housing construction, can be funded with Community Development Block Grant (CDBG) funds and/or other private financing options. As a part of the broader CDBG and federal economic development program reforms, the program is proposed to be terminated. The 2007 Program Assessment Rating Tool (PART) found that the program was "Results not Demonstrated."

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the loan guarantees committed since 1992 (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses for this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

**Guaranteed Loans.** The Community Development Loan Guarantee program (Section 108) has provided a mechanism for the Federal guarantee of private loans. The financing account shows the status of privately financed guaranteed loan commitments made in and after 1992. No funding is requested for new section 108 loans in 2009. An accompanying liquidating account shows activity for Federal Financing Bank (FFB) direct loan activity obligated prior to July 1, 1986, and any pre-1992 loan guarantee activity.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from loan guarantees committed in 1992 and beyond (including modifications of loan guarantees that resulted from commitments in any year). The amounts in this account are a means of financing and are not included in the budget totals. As required by the Federal Credit Reform Act of 1990, no administrative expenses can be recorded in the financing account.

**Guaranteed Loans.** Guaranteed loan assistance under the Community Development Loan Guarantee (Section 108) program is provided to eligible communities to finance economic development activities, housing rehabilitation, development or expansion of public facilities, acquisition of real property, rehabilitation of publicly-owned real property, and certain related expenses. Until 1986, the Federal Financing Board (FFB) in the Department of Treasury financed these guaranteed loans. The Consolidated Omnibus Budget Reconciliation Act of 1985 required private financing of all loan guarantees committed after July 1, 1986. The FFB will continue disbursing loans for commitments approved prior to July 1, 1986. The activity shown in the above account reflects privately financed guaranteed loans for which commitments were made prior to 1992.

As required by the Federal Credit Reform Act of 1990, this liquidating account records all cash flows to and from the Government resulting from Federal Financing Bank (FFB)

This account consolidates all activities under the Section 202 Housing for the Elderly Program, including capital grants for construction of new low-income housing units, project rental assistance contracts (PRAC), conversion of existing properties to assisted living, and service coordinators. The program funds the following: the construction of new units via capital advance grants to nonprofit owners, provided that the owner reserves the units for very low-income elderly individuals for no less than 40 years; project rental assistance contracts to fund the difference between a HUD-approved, per-unit operating cost and 30 percent of the tenant's adjusted income; a grant program funding service coordinators who work on-site to help the project's residents obtain critical services; assistance for converting elderly housing units to assisted living facilities under a stand-alone grant program.

The account is displayed as two general activities—"Expansion" and "Rental Assistance Renewal and Operating Expenses"—to provide information on programmatic functions and resource usage. Expansion funds include capital grants for new unit construction and project rental assistance provided for an initial period to each new project, while Rental Assistance Renewal and Operating Expenses cover costs associated with existing units and other expenses. Up to \$15 million of 2009 Expansion funds may be used for a demonstration project that leverages additional capital from various sources—such as private investors through tax credits—to support the construction of additional elderly housing units.

The 2009 Budget expands the number of housing units assisted by this program by providing \$339 million to construct approximately 2,400 new units of housing. In addition, all housing previously supported will continue to receive operating subsidies. Finally, congregate services and other supportive social services for residents, such as benefit counseling, will receive \$80 million, and upgrades of developments to assisted living facilities are funded at \$25 million.

This account consolidates all activities funded under section 811, Housing for Persons With Disabilities program, including capital grants for the construction of new units, project rental assistance contracts (PRAC), vouchers for persons with disabilities, and cost amendments as needed. The program funds: the construction of new units via capital advance grants to nonprofit owners, provided that the owner reserves the units for very low-income persons with disabilities for no less than 40 years; project rental assistance contracts to fund the difference between a HUD-approved, per-unit operating cost—which may include certain services—and (usually) 30 percent of the tenant's adjusted income; annual costs associated with renewing "main stream" vouchers reserved for persons with disabilities, which are administered by the Office of Public and Indian Housing.

The account is displayed as two general obligation activities—"Expansion" and "Rental Assistance Renewal and Operating Expenses"—to provide better information on programmatic functions and resource usage. Expansion funds include capital grants for new housing unit construction and project rental assistance provided for an initial period (usually 3 years) to each new project, while Rental Assistance Renewal and Operating Expenses cover costs associated with existing units and other expenses. Up to \$10 million of 2009 Expansion funds may be used for a demonstration project that leverages additional capital from various sources—such as private investors through tax credits—to support the construction of additional disabled housing units.

The Housing Counseling Assistance Program provides comprehensive housing counseling services to eligible homeowners and tenants through grants to nonprofit intermediaries, state governmental entities, and other agencies with presences ranging from local to national, as well as teaming up with such partners to provide technical assistance and training. Eligible counseling activities include pre- and post-purchase education, personal financial management, reverse mortgage product education, foreclosure prevention/mitigation, and rental counseling. As such, the Housing Counseling Assistance Program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, elderly citizens, and the homeless. The program impacts numerous HUD programs and Presidential priorities, including the Administration's current foreclosure mitigation efforts, and provides a key short- and long-term solution to the far-reaching home finance difficulties currently facing the country. The primary objectives of the program are to expand homeownership opportunities, improve access to affordable housing, increase financial literacy, and aid in HUD's commitment to bridging the minority homeownership gap. Additionally, the program supports individuals with FHA-insured loans, supporting the overall soundness of the portfolio to the American taxpayer's benefit.

This program has been funded through a set-aside under the HOME program appropriation for the past several years. However, in 2009, it is again being proposed as a separate account. The increasing social importance and cross-Departmental relevance of the program suggest an unprecedented need for an independently-appropriated, self-sufficient program. In addition, authority is proposed to make available up to \$2,000,000 for administrative support necessary to improve the management of the housing counseling program and enable the program to respond more nimbly to ever-evolving needs.

The Other Assisted Housing Account contains the programs listed below:

**Rent Supplement.**—Rent supplement assistance payments will continue to be made on behalf of qualified low-income tenants in approximately 15,041 units as of September 30, 2007, which have not converted to Section 8.

**Section 235.**—The Housing and Urban-Rural Recovery Act of 1983 (Public Law 98-181) authorized a restructured Section 235 (Homeownership Assistance) program that provided homeowners a 10-year interest reduction subsidy on their mortgages.

**Section 236.**—The Housing and Urban Development Act of 1968, as amended, authorizes the Section 236 Rental Housing Assistance Program which subsidizes the monthly mortgage payment that an owner of a rental or cooperative project is required to make. This interest subsidy reduces rents for lower income tenants.

This account includes funding necessary to amend Rent Supplement and Rental Assistance Payment (RAP) contracts in state-aided multifamily housing projects to address cost increases beyond the maximum annual payment limitation previously established for the affected contracts. As some of these rental assistance contracts are terminated due to prepayments or other reasons, remaining balances are recovered. The account includes language to cancel the amounts recovered from projects where rental assistance has been terminated.

The Homeownership and Opportunity for People Everywhere Program, funded from fiscal year 1992-1995, provided affordable homeownership opportunities for low-income families. Units were converted to homeownership from public and Indian housing properties in HOPE I, from FHA-insured and Government-held multifamily properties in HOPE II, and from Government-owned or -held single family properties in HOPE III. HOPE Grants were used for property acquisition, rehabilitation, mortgage subsidies, security measures, and technical assistance. In addition, grants have been devoted to counseling and training of residents, and other activities intended to help them become economically self-sufficient homeowners. This schedule reflects the expenditure of prior year balances.

The Interstate Land Sales Full Disclosure Act provides protection to the public with respect to purchase or leases of subdivision lots. Statements of record must be filed with the Secretary before subdivisions with 100 or more lots may be sold in interstate commerce, except when the subdivision is eligible for exemption.

The Secretary is authorized to charge a fee, to be paid by the developer when filing a statement of record. The fee receipts are permanently appropriated and have helped finance a portion of the direct administrative expenses incurred in program operations.

The Housing and Urban Development Act of 1968 authorized the Secretary to establish a revolving fund into which rental collections in excess of the established basic rents for units in Section 236 subsidized projects would be deposited.

The Housing and Community Development Amendment of 1978 authorized the Secretary, subject to approval in appro-

priation acts, to transfer excess rent collections received after 1978 to the Troubled Projects Operating Subsidy program, renamed the Flexible Subsidy Fund. Prior to that time, collections were used for paying tax and utility increases in Section 236 projects. The Housing and Community Development Act of 1980 amended the 1978 Act by authorizing the transfer of excess rent collections regardless of when collected. The Budget proposes that the resources from the Rental Housing Assistance Fund continue to be transferred to the Flexible Subsidy Fund, with the exception of amounts required to make refunds of excess income remittances as authorized by Public Law 106-569.

## 【FLEXIBLE SUBSIDY FUND】

## 【(TRANSFER OF FUNDS)】

【From the Rental Housing Assistance Fund, all uncommitted balances of excess rental charges as of September 30, 2007, and any collections made during fiscal year 2008 and all subsequent fiscal years, shall be transferred to the Flexible Subsidy Fund, as authorized by section 236(g) of the National Housing Act.】 (Department of Housing and Urban Development Appropriations Act, 2008.)

The Flexible Subsidy Fund assisted financially troubled subsidized projects under certain FHA authorities. The subsidies were intended to prevent potential losses to the FHA fund resulting from project insolvency and to preserve these projects as a viable source of housing for low and moderate-income tenants. Priority was given to projects with Federal insurance-in-force and then to those with mortgages that had been assigned to the Department of Housing and Urban Development. Excess rental income in the Rental Housing Assistance Fund not refunded to project owners will continue to be transferred to the Flexible Subsidy Fund.

The Federal Housing Administration (FHA) provides mortgage insurance to encourage lenders to make credit available to borrowers for which the conventional market does not adequately serve. These include first-time homebuyers, minorities, lower-income families, and residents of underserved areas (central cities and rural areas).

In 2009, FHA is requesting an aggregate limitation of \$185 billion on loan guarantees for the Mutual Mortgage Insurance (MMI) fund and is proposing legislative changes to reform FHA.

In 2002, the President issued America's Homeownership Challenge to increase first-time minority homeowners by 5.5 million through 2010. The Budget continues Administration efforts to modernize FHA with proposals for new mortgage products targeted toward families who face the obstacles of having poor credit histories or little savings. These new mortgages will have risk-based premiums tied to credit scores and the size of downpayments. This will result in more families having access to mortgage financing and will reward families with lower mortgage payments for having good credit histories and saving more for downpayments. The Budget also proposes to increase the FHA single-family national loan limit ceiling from 87 percent to 100 percent of the conforming loan limit of \$417,000.

Because of deteriorating market conditions, as well as adverse loan performance and improved estimation techniques, the baseline credit subsidy rate for FHA's single family program—assuming no programmatic changes—is positive, meaning that total costs exceed receipts on a present value basis, and therefore would require appropriations of credit subsidy budget authority or premium increases to continue operation. Under the Budget's policy proposals, FHA will be able to set premiums that are based on risk and are sufficient to avoid the need for credit subsidy appropriations. Barring the authority to establish risk-based premiums, however, FHA will use its existing authority to raise the upfront premiums on most borrowers up to maximums of 1.95 percent (purchase) and 1.75 percent (re-finance) and the annual premium to a maximum of 0.52 percent (purchase) in order to avoid a positive subsidy rate.

The Budget establishes a separate risk category for seller-financed downpayment assistance mortgages. Actuarial anal-

ysis has found that these loans are very costly, with default rates well in excess of other FHA single-family purchase mortgages. Placing seller-financed downpayment assistance loans in a separate program from other FHA single-family mortgages will prevent erosion of the credit quality in the general FHA single-family portfolio. Because of the high default rate for seller-financed downpayment assistance loans, the program has a positive subsidy rate and would require appropriations to operate in 2009, even if FHA were to charge the highest possible premiums rates allowable under current law. The Budget proposes no new loan guarantees under this program; it provides no funding for its credit subsidy costs.

The Budget also proposes that new loans for the Condominium, the Section 203(k) rehabilitation, and Home Equity Conversion programs come from the MMI fund in order to consolidate single-family programs in one fund; previously these loans were made under the General and Special Risk funds. Those single-family loans made prior to 2009 will remain under the General and Special Risk funds. The proposal includes the removal of the statutory cap on the number of Home Equity Conversion Mortgages insured by FHA. The effects of these proposals are illustrated in separate schedules published for the MMI and General and Special Risk funds.

As required by the Federal Credit Reform Act of 1990, this account records administrative expenses for this program, as well as the subsidy costs, if any, associated with the loan guarantees committed in 1992 and thereafter. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and thereafter (including modifications of direct loans that resulted from obligations in any year). The amounts in this account are a means of financing and are not included in the budget totals.

The \$50 million in 2009 direct loan limitation in the MMI Fund would permit the Department to use Purchase Money

Mortgages (PMMs) to help finance the sale of acquired single family properties. HUD would extend credit for these single-family homes to community nonprofit organizations or local government entities, which would be expected to sell the properties to low- and moderate-income buyers. The use of PMMs provides a tool for State and local nonprofit organizations to use in revitalizing communities, and creates enhanced homeownership opportunities for low- and moderate-income families.

In 2002, a Capital Reserve account was established for the Mutual Mortgage Insurance Fund. Financial reserves, including securities, of the MMI Fund were transferred from the liquidating account to the Capital Reserve account. In 2003, this mandatory account started earning interest on Treasury investments, collecting negative subsidy and downward reestimates from the Financing account, and paying upward reestimates to the Program account. The Liquidating account now only reflects cashflows related to pre-1992 books of business.

The Federal Housing Administration Fund currently consists of four separate insurance funds.

In order to present more clearly the operations of the various funds, FHA's budget transactions are separated into two major business segments. The basic single-family insurance programs in the Mutual Mortgage Insurance (MMI) fund and the multifamily Cooperative Management Housing Insurance (CMHI) funds form one segment. All other multifamily and other specialized insurance programs in the General Insurance and Special Risk Insurance funds (GI/SRI) form the other segment.

The Federal Credit Reform Act of 1990 creates a structure of three accounts for existing credit program. For each of the FHA business segments (MMI/CMHI and GI/SRI) there is a liquidating account, which records the revenues and costs associated with loan insurance committed prior to October 1, 1991, a financing account which records the revenues and costs associated with commitments to insure loans made after September 30, 1991, and, a program account which records the transactions associated with the program subsidy costs, if any, and the costs of administering the program.

This liquidating account records, for this program, all cash flows to and from the Government resulting from MMI/CMHI loans insured prior to 1992 and is shown on a cash basis. All new activity in this program in 1992 and thereafter (including modifications of loans insured in any year) is recorded in the corresponding program (86-0183) and financing (86-4587 and 86-4242) accounts.

In 2002, the MMI Capital Reserve account was established to maintain reserves required by statute that were previously deposited in the liquidating account.

The program activity in the "Program Highlights" table shown below reflects only the activity in the MMI/CMHI liquidating and financing accounts. The GI/SRI program activity can be found with the GI/SRI liquidating account (86-4072) and financing account (86-4077).

This account includes budget authority for insurance programs requiring positive credit subsidies, as well as administrative contract costs for all General and Special Risk Insurance Fund programs. Unlike previous years, this account no longer receives appropriations for Departmental personnel costs, illustrated by the considerable reduction in both total budget authority and obligation activities in both 2008 and 2009.

As required by the Federal Credit Reform Act of 1990, this account records, for the single family, multifamily, hospital, and Title I insurance programs of FHA's General Insurance and Special Risk Insurance Funds, the subsidy costs associated with the loan guarantees committed or direct loans obligated in 1992 and thereafter (including modifications of loan guarantees or direct loans that resulted from obligations or commitments in any year), as well as administrative expenses of these programs. The subsidy amounts are estimated on a present value basis; the administrative expenses are accounted for on a cash basis.

The Budget proposes a consolidation of FHA single-family programs under the Mutual Mortgage Insurance fund, which would shift several programs—including condominium mortgage insurance and home equity conversion mortgage (HECM) insurance—currently administered through this account, as reflected in separate schedules in this section.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and thereafter (including loan modifications) for FHA's General Insurance and Special Risk Insurance Fund programs. The amounts in this account are a means of financing and are not included in the budget totals. As required by the Federal Credit Reform Act of 1990, no administrative expenses can be recorded in the financing account.

This schedule includes two direct loan programs. One provides bridge loan financing to facilitate the disposition of multifamily housing owned by the Department to non-profit organizations who agree to preserve it as affordable rental or cooperative housing. The second is a single-family direct loan

program for purchase money mortgages, as discussed in the preceding section for the Mutual Mortgage Insurance Fund.

The General Insurance fund provides insurance for a large number of specialized mortgage insurance programs, including insurance of loans for property improvements, cooperatives, condominiums, nursing homes, rental housing and non-profit hospitals.

The Special Risk Insurance fund provides insurance on behalf of mortgagors who otherwise would not be eligible for mortgage insurance. In addition, the fund provides insurance on mortgages covering experimental housing where strict adherence to State or local building regulations is not observed.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, all cash flows to and

from the Government resulting from loan guarantees committed and direct loans obligated prior to 1992. This account is shown on a cash basis. New insurance and direct loan activity in 1992 and thereafter in the GI/SRI programs are recorded in corresponding program (86-0200) and financing (86-4077 and 86-4105) accounts.

Note.—Amounts for direct loan obligations reflect reservations of direct loan funds for elderly and disabled projects. Loan obligations shown under the program and financing schedule reflect loans that have reached the initial closing stage of processing.

The Housing for the Elderly or Handicapped Fund, a combined liquidating account was established pursuant to section 202 of the Housing Act of 1959, as amended. The loan program is no longer active—no new loan commitments were made after 1991—although projects developed under it continue to operate. The program provided direct loans to non-profit organizations sponsoring the construction and management of rental housing for the elderly or non-elderly persons with disabilities. Any remaining activity for the loan program includes amendments for projects reaching final endorsement, payment of interest and repayment of borrowings to Treasury, and management of the loan portfolio.

Projects included an assured range of necessary services for the occupants of such projects. In addition, the section 8 rental assistance program has been used in conjunction with the section 202 program, such that HUD rental assistance payments partially cover the loan liability. Applications under the two programs have been processed simultaneously.

The data included in these schedules represent direct loan activities funded under the Housing for the Elderly or Handicapped Loan Fund. Further, activities in support of the needs of the elderly and disabled have been carried out under a grant program funded in the 1991 Appropriations Act (P.L. 101-507) and authorized in the National Affordable Housing Act (P.L. 101-625).

After April 1, 1992, all projects for which there were administrative reservations converted to the capital advance assistance program.

The program and financing schedule for this account summarizes the Federal government's obligations for this loan program.

The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended by the Manufactured Housing Improvement Act of 2000, authorizes development and enforcement of appropriate standards for the construction, design, and performance of manufactured homes to assure their quality, durability, affordability, and safety. All manufactured homes produced since the standards took effect on June 15, 1976, must comply with Federal construction and safety standards. The States are actively encouraged to participate in the program under compliance plans approved by HUD. New program requirements mandated by the Manufactured Housing Improvement Act of 2000 include procurement of an Administering Organization, formation of a Consensus Committee to recommend revisions to and interpretations of the manufactured housing standards, development and implementation of standards for installation of manufactured housing, and development and implementation of a dispute resolution program.

Fees are charged to the manufacturers for each manufactured home transportable section produced and to any dispute resolution and installation program participant. These fees and appropriations will be used to fund the costs of authorized activities necessary for the consensus committee, HUD, and its agents to carry out all aspects of the manufactured housing legislation. Fees are deposited in a trust fund administered by the Department, and a portion of the fee receipts are transferred to the salaries and expenses account to defray the direct administrative expenses of the program.

The Budget proposes to supplement the program's fee revenue with a direct appropriation, which will offset the effect of declining fee revenue caused by a substantial reduction in manufactured housing production rates, and help pay for startup costs associated with the new installation and dispute resolution programs.

**GOVERNMENT NATIONAL MORTGAGE  
ASSOCIATION**

The Government National Mortgage Association (Ginnie Mae) was formed by Congress in 1968. It is a wholly owned government corporation within the U.S. Department of Housing and Urban Development (HUD). It was established to support Federal housing initiatives by providing liquidity to the secondary mortgage market and to attract capital from the global capital markets for the nation's mortgage markets. Its primary function is to guarantee the timely payment of principal and interest on Mortgage-Backed Securities (MBS) that are backed by loans insured or guaranteed by the Federal Housing Administration (FHA), the Department of Veterans Affairs (VA), Rural Development in the U.S. Department of Agriculture, and HUD's Office of Public and Indian Housing.

*Financing.*—Ginnie Mae issuers are assessed commitment, guarantee, and other fees to cover cost incurred by Ginnie Mae, and to fund a reserve against possible future payments under the guarantee.

The Housing and Urban Development Act of 1970 directs the Secretary to undertake programs of research, studies, testing, and demonstrations related to the HUD mission. These functions are carried out internally and through contracts with industry, nonprofit research organizations, and educational institutions, and through agreements with State and local governments and other Federal agencies.

In 2009, the research program includes funds for HUD program evaluations, for work related to the removal of barriers to affordable housing, and critical research and studies. Program evaluations provide critical information for PART reviews, as well as regular periodic reviews of major HUD programs. National housing surveys will continue in 2009, including the American Housing Survey, the Survey of New Home Sales and Completions, the Survey of Market Absorption of Multifamily Units and the Survey of New Manufactured Housing Placements. Other significant activities in 2009 include: (1) providing research and policy analysis support to the Secretary in connection with his role in regulating the Government-Sponsored Enterprises, Fannie Mae and Freddie Mac; (2) providing research and policy analysis support for the Real Estate Settlements Procedures Act (RESPA), FHA Reform, CDBG formula effectiveness, predatory lending, and asset management; and (3) continuing research on low-income and minority homeownership.

Set-aside funds are not requested for the Partnership for Advancing Technology (PATH) program in 2009, but PATH will remain an eligible activity under the Research and Technology account and will be administered by the Office of Policy Development and Research.

Since 2006, the University Partnership Programs have been funded from the Research and Technology account. These grants, pursuant to Section 107 of the Housing and Community Development Act of 1974, were funded prior to 2006 under the Community Development Block Grant account. These programs were and will continue to be administered by the Office of Policy Development and Research. The University Partnership Programs provide grants to colleges and universities to help form partnerships with the communities in which they are located, with resources used for various neighborhood development and revitalization activities. The University Partnership Programs include the following: Alaska Native/ Native Hawaiian Institutions program, Tribal Colleges and Universities program, Historically Black Colleges and Universities program, and the Hispanic Serving Institutions program.

The Budget proposes \$51 million for fair housing activities to support efforts to end housing discrimination. Of the amount requested, \$25 million is for the Fair Housing Assistance Program (FHAP) and \$26 million is for the Fair Housing Initiatives Program (FHIP).

Up to \$6 million is provided for the Housing Discrimination Study (HDS) of 2010, which will begin research activities in 2009. This study will estimate the national levels of discrimination faced by African-Americans, Hispanics, and Asian and Pacific Islander renters and homebuyers. Further, it will provide comparable data to determine any changes in the level of discrimination from the 2000 HDS Study, and will measure FHIP's effectiveness in providing fair housing enforcement.

FHAP, authorized by Title VIII of the Civil Rights Act of 1968 as amended, provides funding to State and local agencies to assure prompt and effective processing of Title VIII (Civil Rights Act of 1968) complaints. The funding requested for FHAP will support fair housing enforcement by funding

State and local fair housing organizations to meet the needs of currently underserved populations. It will also address the persistently high rate of discrimination against minorities as identified by HUD's 2000 HDS. It is estimated that in 2009 there will be two new State and local agencies with laws equivalent to the Fair Housing Act, increasing the total number to 113 agencies.

FHIP, authorized by the Housing and Community Development Act of 1987, as amended by the Housing and Community Development Act of 1992, provides funding to States and local governments, and public and private non-profit organizations that administer programs to prevent or eliminate discriminatory housing practices. FHIP also provides funding to programs and activities designed to enforce the rights granted by title VIII of the Civil Rights Act of 1968, or substantially equivalent State and local fair housing laws. In addition, FHIP supports funding for education and outreach programs designed to inform the public concerning rights and obligations under these laws.

This funding request recognizes the priority of fighting housing discrimination in an effective and efficient manner. The Budget also reflects activities addressing predatory lending and continued support for the rebuilding efforts in hurricane-impacted communities in the Gulf Coast region. Combined, these activities are key elements of the Administration's efforts to expand homeownership opportunities and access to housing free from discrimination.

Title X of the Housing and Community Development Act of 1992 (Public Law 102-550), known as the Residential Lead-Based Paint Hazard Reduction Act, authorized the Secretary to establish the Lead-Based Paint Hazard Control Grant Program. The primary purpose of the program is to reduce the exposure of young children to lead-based paint and other environmental hazards in their homes, including protecting them from permanent developmental problems and asthma, and exposure to pesticides and carbon monoxide.

The program is a major part of a 10-year strategy to eliminate by 2010 the number one environmental disease impacting children, lead poisoning. The Budget includes \$92.6 million for HUD's Lead Hazard Control Program competitive grants, \$8.8 million for the Technical Support Program, and \$14.6 million for the Healthy Homes Initiative. The budget includes a provision that would allow the transfer of unobligated balances and recaptured funds from undersubscribed competitive programs to other competitive programs experiencing oversubscription. It also includes language granting the Secretary authority to carry out investigations, administer oaths, and subpoena documents related to lead hazard investigations.

The Lead Hazard Control Grant Program provides grants of \$1 million to \$3 million to State and local governments and Indian tribes for control of lead-based paint hazards in low-income rental and owner-occupied housing. The grants are also designed to stimulate the development of a housing maintenance and rehabilitation workforce trained in lead-safe work practices and a certified hazard evaluation and control industry. In awarding grants, HUD promotes the use of new, low-cost approaches to hazard control that can be replicated across the nation. Newly-established programmatic efficiency

measures, such as mitigation cost estimates, will help HUD determine best practices and maximize resources.

The Healthy Homes Initiative will enable the Department to assess and control housing-related hazards that contribute to childhood diseases and injuries. The initiative will demonstrate and evaluate methods for controlling two or more housing-related diseases through a single intervention. A public education/outreach effort designed to enable the public to prevent children's exposure to hazards will also be conducted through a competitive grant process.

The Office of Healthy Homes and Lead Hazard Control will continue its Technical Support Program, which will include public education; technical assistance for State and local agencies, private property owners, HUD programs and field offices and professional organizations; quality control to ensure that the evaluation and control of lead-based paint hazards is done properly in HUD-assisted housing; and development of standards, technical guidance, regulations and improved testing and hazard control methods.

The Administration, Operations and Management (AOM) account was created by the Consolidated Appropriations Act, 2008, which created nine new administrative expense accounts across the Department. As the largest single administrative account, AOM funds many central Departmental functions, including: the Office of Administration, the Office of the Chief Financial Officer, the Office of the Chief Procurement Officer, the Office of Departmental Operations and Coordination, the Office of the General Counsel, the Office of Field Policy Management, and several other offices across the Department, including the Office of the Secretary. The AOM account also serves as the primary funding source for all non-personnel expenses, such as travel, overhead expenses (e.g., rent and utilities), contract services, and other functions. The Office of the Chief Financial Officer will provide funds control oversight and accountability by administering the central non-personnel expense funds.

The Executive Direction account was created by the Consolidated Appropriations Act, 2008, and contains a number of obligation sub-functions covering various high-level management offices and central administrative functions. The Budget proposes to eliminate this account for 2009, and instead spreads the relevant management offices' resources to their respective bureaus, with the remaining central functions moving to the Administration, Operations and Management account. The administrative burden and lack of flexibility afforded by the account outweighs potential management benefits.

Beginning with the passage of the Consolidated Appropriations Act, 2008, this account will no longer receive new appropriations. Instead, salary and expense activities are now spread across many accounts, achieving greater transparency and accountability within the Department. Resources remaining in this account reflect prior-year appropriations and otherwise unexpended amounts.

Formerly, this appropriation financed virtually all salaries, benefits, travel, contract expenses, and related administrative costs associated with administering the programs of the Department of Housing and Urban Development.

This appropriation provides agency wide audit and investigative functions to identify and correct management and administrative deficiencies that create conditions for existing or potential instances of fraud, waste and mismanagement. The audit function provides internal audit and contract audit. Internal audits review and evaluate all facets of agency operations. The investigative function provides for the detection and investigation of improper and illegal activities involving programs, personnel, and operations. The Budget proposes \$115 million, an increase of 2.7 percent, to maintain the existing staff level.

The Office of Federal Housing Enterprise Oversight (OFHEO) was authorized in the Federal Housing Enterprise Safety and Soundness Act of 1992. OFHEO was established in 1992 to regulate the financial safety and soundness of two housing Government-sponsored enterprises (GSEs)—Fannie Mae and Freddie Mac. OFHEO is required to ensure that the GSEs meet capital standards, and to conduct onsite annual examinations at the GSEs for the purpose for ensuring their financial safety and soundness.

The Budget re-proposes a new strengthened housing GSE regulator as an independent agency. All OFHEO resources would be transferred to it. The Administration continues to support direct funding of these activities with mandatory assessmentson Fannie Mae and Freddie Mac.

The Working Capital Fund (WCF), authorized by the Department of Housing and Urban Development Act of 1965, finances the information technology business functions of the Department. The WCF provides funding for the operation, maintenance, and modernization of IT systems in support of FHA Mortgage Insurance, housing assistance, grants programs, disaster relief, and core financial and general operations. The Budget requests a direct appropriation of \$224 million for IT business operations, infrastructure, and 280 personnel. An additional \$89 million in program transfers are also requested to develop, modify, and enhance systems that benefit specific programs.

## GENERAL PROVISIONS

(INCLUDING [RESCISSION] CANCELLATION OF FUNDS)

SEC. 201. Fifty percent of the amounts of budget authority, or in lieu thereof 50 percent of the cash amounts associated with such budget authority, that are recaptured from projects described in section 1012(a) of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (42 U.S.C. 1437 note) shall be [rescinded] *cancelled* or in the case of cash, shall be remitted to the Treasury, and such amounts of budget authority or cash recaptured and not [rescinded] *cancelled* or remitted to the Treasury shall be used by State housing finance agencies or local governments or local housing agencies with projects approved by the Secretary of Housing and Urban Development for which settlement occurred after January 1, 1992, in accordance with such section. Notwithstanding the previous sentence, the Secretary may award up to 15 percent of the budget authority or cash recaptured and not [rescinded] *cancelled* or remitted to the Treasury to provide project owners with incentives to refinance their project at a lower interest rate.

SEC. 202. None of the amounts made available under this Act may be used during fiscal year [2008] 2009 to investigate or prosecute under the Fair Housing Act any otherwise lawful activity engaged in by one or more persons, including the filing or maintaining of a non-frivolous legal action, that is engaged in solely for the purpose of achieving or preventing action by a Government official or entity, or a court of competent jurisdiction.

SEC. 203. (a) Notwithstanding section 854(c)(1)(A) of the AIDS Housing Opportunity Act (42 U.S.C. 12903(c)(1)(A)), from any amounts made available under this title for fiscal year [2008] 2009 that are allocated under such section, the Secretary of Housing and Urban Development shall allocate and make a grant, in the amount determined under subsection (b), for any State that—

(1) received an allocation in a prior fiscal year under clause (ii) of such section; and

(2) is not otherwise eligible for an allocation for fiscal year [2008] 2009 under such clause (ii) because the areas in the State outside of the metropolitan statistical areas that qualify under clause (i) in fiscal year [2008] 2009 do not have the number of cases of acquired immunodeficiency syndrome (AIDS) required under such clause.

(b) The amount of the allocation and grant for any State described in subsection (a) shall be an amount based on the cumulative number of AIDS cases in the areas of that State that are outside of metropolitan statistical areas that qualify under clause (i) of such section

854(c)(1)(A) in fiscal year [2008] 2009, in proportion to AIDS cases among cities and States that qualify under clauses (i) and (ii) of such section and States deemed eligible under subsection (a).

(c) Notwithstanding any other provision of law, the amount allocated for fiscal year [2008] 2009 under section 854(c) of the AIDS Housing Opportunity Act (42 U.S.C. 12903(c)), to the City of New York, New York, on behalf of the New York-Wayne-White Plains, New York-New Jersey Metropolitan Division (hereafter “metropolitan division”) of the New York-Newark-Edison, NY-NJ-PA Metropolitan Statistical Area, shall be adjusted by the Secretary of Housing and Urban Development by: (1) allocating to the City of Jersey City, New Jersey, the proportion of the metropolitan area’s or division’s amount that is based on the number of cases of AIDS reported in the portion of the metropolitan area or division that is located in Hudson County, New Jersey, and adjusting for the proportion of the metropolitan division’s high incidence bonus if this area in New Jersey also has a higher than average per capita incidence of AIDS; and (2) allocating to the City of Paterson, New Jersey, the proportion of the metropolitan area’s or division’s amount that is based on the number of cases of AIDS reported in the portion of the metropolitan area or division that is located in Bergen County and Passaic County, New Jersey, and adjusting for the proportion of the metropolitan division’s high incidence bonus if this area in New Jersey also has a higher than average per capita incidence of AIDS. The recipient cities shall use amounts allocated under this subsection to carry out eligible activities under section 855 of the AIDS Housing Opportunity Act (42 U.S.C. 12904) in their respective portions of the metropolitan division that is located in New Jersey.

(d) Notwithstanding any other provision of law, the amount allocated for fiscal year [2008] 2009 under section 854(c) of the AIDS Housing Opportunity Act (42 U.S.C. 12903(c)) to areas with a higher than average per capita incidence of AIDS, shall be adjusted by the Secretary on the basis of area incidence reported over a three year period.

SEC. 204. Except as explicitly provided in law, any grant, cooperative agreement or other assistance made pursuant to title II of this Act shall be made on a competitive basis and in accordance with section 102 of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3545).

[SEC. 205. Funds of the Department of Housing and Urban Development subject to the Government Corporation Control Act or section 402 of the Housing Act of 1950 shall be available, without regard to the limitations on administrative expenses, for legal services on a contract or fee basis, and for utilizing and making payment for services and facilities of the Federal National Mortgage Association, Government National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Financing Bank, Federal Reserve banks or any member thereof, Federal Home Loan banks, and any insured bank within the meaning of the Federal Deposit Insurance Corporation Act, as amended (12 U.S.C. 1811-1831).]

[SEC. 206. Unless otherwise provided for in this Act or through a reprogramming of funds, no part of any appropriation for the Department of Housing and Urban Development shall be available for any program, project or activity in excess of amounts set forth in the budget estimates submitted to Congress.]

SEC. [207] 205. Corporations and agencies of the Department of Housing and Urban Development which are subject to the Government Corporation Control Act, are hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to each such corporation or agency and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of such Act as may be necessary in carrying out the programs set forth in the budget for [2008] 2009 for such corporation or agency except as hereinafter provided: *Provided*, That collections of these corporations and agencies may be used for new loan or mortgage purchase commitments only to the extent expressly provided for in this Act (unless such loans are in support of other forms of assistance provided for in this or prior appropriations Acts), except that this proviso shall not apply to the mortgage insurance or guaranty operations of these corporations, or where loans or mortgage purchases are necessary to protect the financial interest of the United States Government.

[SEC. 208. None of the funds provided in this title for technical assistance, training, or management improvements may be obligated or expended unless the Secretary of Housing and Urban Development provides to the Committees on Appropriations a description of each proposed activity and a detailed budget estimate of the costs associated with each program, project or activity as part of the Budget

Justifications. For fiscal year 2008, the Secretary shall transmit this information to the Committees by March 15, 2008 for 30 days of review.]

**[SEC. 209.** The Secretary of Housing and Urban Development shall provide quarterly reports to the House and Senate Committees on Appropriations regarding all uncommitted, unobligated, recaptured and excess funds in each program and activity within the jurisdiction of the Department and shall submit additional, updated budget information to these Committees upon request.]

**SEC. [210] 206.** (a) Notwithstanding any other provision of law, the amount allocated for fiscal year [2008] 2009 under section 854(c) of the AIDS Housing Opportunity Act (42 U.S.C. 12903(c)), to the City of Wilmington, Delaware, on behalf of the Wilmington, Delaware-Maryland-New Jersey Metropolitan Division (hereafter “metropolitan division”), shall be adjusted by the Secretary of Housing and Urban Development by allocating to the State of New Jersey the proportion of the metropolitan division’s amount that is based on the number of cases of AIDS reported in the portion of the metropolitan division that is located in New Jersey, and adjusting for the proportion of the metropolitan division’s high incidence bonus if this area in New Jersey also has a higher than average per capita incidence of AIDS. The State of New Jersey shall use amounts allocated to the State under this subsection to carry out eligible activities under section 855 of the AIDS Housing Opportunity Act (42 U.S.C. 12904) in the portion of the metropolitan division that is located in New Jersey.

(b) Notwithstanding any other provision of law, the Secretary of Housing and Urban Development shall allocate to Wake County, North Carolina, the amounts that otherwise would be allocated for fiscal year [2008] 2009 under section 854(c) of the AIDS Housing Opportunity Act (42 U.S.C. 12903(c)) to the City of Raleigh, North Carolina, on behalf of the Raleigh-Cary, North Carolina Metropolitan Statistical Area. Any amounts allocated to Wake County shall be used to carry out eligible activities under section 855 of such Act (42 U.S.C. 12904) within such metropolitan statistical area.

(c) Notwithstanding section 854(c) of the AIDS Housing Opportunity Act (42 U.S.C. 12903(c)), the Secretary of Housing and Urban Development may adjust the allocation of the amounts that otherwise would be allocated for fiscal year [2008] 2009 under section 854(c) of such Act, upon the written request of an applicant, in conjunction with the State(s), for a formula allocation on behalf of a metropolitan statistical area, to designate the State or States in which the metropolitan statistical area is located as the eligible grantee(s) of the allocation. In the case that a metropolitan statistical area involves more than one State, such amounts allocated to each State shall be in proportion to the number of cases of AIDS reported in the portion of the metropolitan statistical area located in that State. Any amounts allocated to a State under this section shall be used to carry out eligible activities within the portion of the metropolitan statistical area located in that State.

**[SEC. 211.** The Secretary of Housing and Urban Development shall submit an annual report no later than August 30, 2008 and annually thereafter to the House and Senate Committees on Appropriations regarding the number of Federally assisted units under lease and the per unit cost of these units to the Department of Housing and Urban Development.]

**[SEC. 212.** The President’s formal budget request for fiscal year 2009, as well as the Department of Housing and Urban Development’s congressional budget justifications to be submitted to the Committees on Appropriations of the House of Representatives and the Senate, shall use the identical account and sub-account structure provided under this Act.]

**[SEC. 213.** Amounts made available in this Act or previous appropriations Acts for tenant-based rental assistance and used for non-elderly disabled families or for the Family Unification Program shall, to the extent practicable, remain available for each such respective purpose upon turn-over.]

**SEC. [214] 207.** A public housing agency or such other entity that administers Federal housing assistance for the Housing Authority of the county of Los Angeles, California, the States of Alaska, Iowa, and Mississippi shall not be required to include a resident of public housing or a recipient of assistance provided under section 8 of the United States Housing Act of 1937 on the board of directors or a similar governing board of such agency or entity as required under section (2)(b) of such Act. Each public housing agency or other entity that administers Federal housing assistance under section 8 for the Housing Authority of the county of Los Angeles, California and the States of Alaska, Iowa and Mississippi *that chooses not to include*

*a resident of Public Housing or a recipient of section 8 assistance on the board of directors or a similar governing board shall establish an advisory board of not less than 6 residents of public housing or recipients of section 8 assistance to provide advice and comment to the public housing agency or other administering entity on issues related to public housing and section 8. Such advisory board shall meet not less than quarterly.*

**[SEC. 215.** (a) Notwithstanding any other provision of law, subject to the conditions listed in subsection (b), for fiscal years 2008 and 2009, the Secretary of Housing and Urban Development may authorize the transfer of some or all project-based assistance, debt and statutorily required low-income and very low-income use restrictions, associated with one or more multifamily housing project to another multifamily housing project or projects.

(b) The transfer authorized in subsection (a) is subject to the following conditions:

(1) The number of low-income and very low-income units and the net dollar amount of Federal assistance provided by the transferring project shall remain the same in the receiving project or projects.

(2) The transferring project shall, as determined by the Secretary, be either physically obsolete or economically non-viable.

(3) The receiving project or projects shall meet or exceed applicable physical standards established by the Secretary.

(4) The owner or mortgagor of the transferring project shall notify and consult with the tenants residing in the transferring project and provide a certification of approval by all appropriate local governmental officials.

(5) The tenants of the transferring project who remain eligible for assistance to be provided by the receiving project or projects shall not be required to vacate their units in the transferring project or projects until new units in the receiving project are available for occupancy.

(6) The Secretary determines that this transfer is in the best interest of the tenants.

(7) If either the transferring project or the receiving project or projects meets the condition specified in subsection (c)(2)(A), any lien on the receiving project resulting from additional financing obtained by the owner shall be subordinate to any FHA-insured mortgage lien transferred to, or placed on, such project by the Secretary.

(8) If the transferring project meets the requirements of subsection (c)(2)(E), the owner or mortgagor of the receiving project or projects shall execute and record either a continuation of the existing use agreement or a new use agreement for the project where, in either case, any use restrictions in such agreement are of no lesser duration than the existing use restrictions.

(9) Any financial risk to the FHA General and Special Risk Insurance Fund, as determined by the Secretary, would be reduced as a result of a transfer completed under this section.

(10) The Secretary determines that Federal liability with regard to this project will not be increased.

(c) For purposes of this section—

(1) the terms “low-income” and “very low-income” shall have the meanings provided by the statute and/or regulations governing the program under which the project is insured or assisted;

(2) the term “multifamily housing project” means housing that meets one of the following conditions—

(A) housing that is subject to a mortgage insured under the National Housing Act;

(B) housing that has project-based assistance attached to the structure including projects undergoing mark to market debt restructuring under the Multifamily Assisted Housing Reform and Affordability Housing Act;

(C) housing that is assisted under section 202 of the Housing Act of 1959 as amended by section 801 of the Cranston-Gonzales National Affordable Housing Act;

(D) housing that is assisted under section 202 of the Housing Act of 1959, as such section existed before the enactment of the Cranston-Gonzales National Affordable Housing Act; or

(E) housing or vacant land that is subject to a use agreement;

(3) the term “project-based assistance” means—

(A) assistance provided under section 8(b) of the United States Housing Act of 1937;

(B) assistance for housing constructed or substantially rehabilitated pursuant to assistance provided under section 8(b)(2) of such Act (as such section existed immediately before October 1, 1983);

(C) rent supplement payments under section 101 of the Housing and Urban Development Act of 1965;

(D) interest reduction payments under section 236 and/or additional assistance payments under section 236(f)(2) of the National Housing Act; and

(E) assistance payments made under section 202(c)(2) of the Housing Act of 1959;

(4) the term “receiving project or projects” means the multifamily housing project or projects to which some or all of the project-based assistance, debt, and statutorily required use low-income and very low-income restrictions are to be transferred;

(5) the term “transferring project” means the multifamily housing project which is transferring some or all of the project-based assistance, debt and the statutorily required low-income and very low-income use restrictions to the receiving project or projects; and

(6) the term “Secretary” means the Secretary of Housing and Urban Development.】

SEC. 【218】 208. (a) No assistance shall be provided under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f) to any individual who—

(1) is enrolled as a student at an institution of higher education (as defined under section 102 of the Higher Education Act of 1965 (20 U.S.C. 1002));

(2) is under 24 years of age;

(3) is not a veteran;

(4) is unmarried;

(5) does not have a dependent child;

(6) is not a person with disabilities, as such term is defined in section 3(b)(3)(E) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b)(3)(E)) and was not receiving assistance under such section 8 as of November 30, 2005; and

(7) is not otherwise individually eligible, or has parents who, individually or jointly, are not eligible, to receive assistance under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f).

(b) For purposes of determining the eligibility of a person to receive assistance under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f), any financial assistance (in excess of amounts received for tuition) that an individual receives under the Higher Education Act of 1965 (20 U.S.C. 1001 et seq.), from private sources, or an institution of higher education (as defined under the Higher Education Act of 1965 (20 U.S.C. 1002)), shall be considered income to that individual, except for a person over the age of 23 with dependent children.

【SEC. 220. Notwithstanding any other provision of law, in fiscal year 2008, in managing and disposing of any multifamily property that is owned or has a mortgage held by the Secretary of Housing and Urban Development, the Secretary shall maintain any rental assistance payments under section 8 of the United States Housing Act of 1937 and other programs that are attached to any dwelling units in the property. To the extent the Secretary determines, in consultation with the tenants and the local government, that such a multifamily property owned or held by the Secretary is not feasible for continued rental assistance payments under such section 8 or other programs, based on consideration of (1) the costs of rehabilitating and operating the property and all available Federal, State, and local resources, including rent adjustments under section 524 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (“MAHRAA”) and (2) environmental conditions that cannot be remedied in a cost-effective fashion, the Secretary may, in consultation with the tenants of that property, contract for project-based

rental assistance payments with an owner or owners of other existing housing properties, or provide other rental assistance. The Secretary shall also take appropriate steps to ensure that project-based contracts remain in effect prior to foreclosure, subject to the exercise of contractual abatement remedies to assist relocation of tenants for imminent major threats to health and safety. After disposition of any multifamily property described under this section, the contract and allowable rent levels on such properties shall be subject to the requirements under section 524 of MAHRAA.】

## LAND AND MINERALS MANAGEMENT

### BUREAU OF LAND MANAGEMENT

The Bureau of Land Management (BLM) is charged with the multiple use management of natural resources on 258 million acres of surface estate of public land, about one-eighth of the land in the United States. BLM also administers approximately 700 million acres of onshore Federal mineral estate underlying BLM and other surface ownerships. In addition, BLM has trust responsibilities on 56 million acres of Indian trust lands for mineral operations and cadastral (land) survey. The lands managed by BLM provide important natural resources, recreational and scenic values to the American people, as well as resource commodities and revenue to the Federal Government, States, and counties. It is the mission of BLM to sustain the health, diversity, and productivity of the public lands for the use and enjoyment of present and future generations.

**Land resources.**—Provides for management of rangeland and forest resources; riparian areas; soil, water, and air activities; wild horses and burros; and cultural resources.

MANAGEMENT OF LANDS AND RESOURCES—Continued

*Wildlife and fisheries management.*—Provides for maintenance, improvement, or enhancement of fish and wildlife habitats as part of the management of public lands and ecosystems.

*Threatened and endangered species management.*—Provides for protection, conservation, consultation, recovery, and evaluation of populations and habitats of threatened, endangered and special status animal and plant species.

*Recreation management.*—Provides for management and protection of recreational resource values, designated and potential wilderness areas, and collection and expenditure of recreation user fees.

*Energy and minerals management.*—Provides for management of onshore oil and gas, coal, geothermal resources and other leasable minerals; mineral materials activities; and the administration of encumbrances on the mineral estate on Federal and Indian lands. The Budget proposes to increase user fees to recover certain bureau costs for these activities in 2009 and thereafter.

*Realty and ownership management.*—Provides for management and non-reimbursable processing of authorizations and compliance for realty actions and rights-of-way (including Alaska), administration of land title records and completion of cadastral surveys on public lands.

*Resource protection.*—Provides for management of the land use planning and National Environmental Policy Act processes, including monitoring activities. Also ensures the health and safety of users of the public lands through protection from criminal and other unlawful activities; the effects of hazardous material and/or waste; and physical safety hazards.

*Transportation and facilities maintenance.*—Provides for maintenance of administrative and recreation sites, roads, trails, bridges and dams, including compliance with building codes and standards and environmental protection requirements. These funds allow for the systematic management of facilities with critical health and safety concerns, and ensure the protection of natural and cultural resources and the environment.

*Land and resource information systems.*—Provides for the operation and maintenance of existing bureau-wide automated systems and for the development and bureau-wide implementation of Land and Resource Information Systems.

*Workforce and organizational support.*—Provides for the management of specified bureau business practices, such as human resources, Equal Employment Opportunity, financial resources, procurement, property, general use automated systems, and fixed costs.

*Communication sites.*—Provides for the processing of communication site use authorization requests.

*Mining law administration.*—Provides for exploration and development of minerals on public lands pursuant to the General Mining Law of 1872, including validity examinations, patent application reviews, enforcement of environmental and bonding requirements, and recordation of mining claims. Program costs are expected to be fully offset by claim maintenance and other fees.

*Challenge Cost Share (CCS).*—This program leverages non-Federal funding, in-kind services, and materials with Federal funding to conduct on-the-ground projects that improve conditions of the public lands. These conservation, restoration, and enhancement projects benefit forestry, range, riparian, fish, wildlife, threatened and endangered species, recreation, and cultural resources.

**Western Oregon resources management.**—Provides for the management of 2.4 million acres of lands that are primarily forested ecosystems in western Oregon. These lands support a number of resource management activities including timber management, grazing management, and recreation management. In support of these management activities, BLM is involved in improving critical watersheds, restoring wildlife and fish habitat, providing safe recreation opportunities, and preserving cultural resources.

**Western Oregon information and resource data systems.**—Provides for the acquisition, operation and maintenance of the automated data support systems required for the management of the Oregon and California programs.

**Western Oregon transportation and facilities maintenance.**—Provides for the maintenance of office buildings, warehouse and storage structures, shops, greenhouses, recreation sites and the transportation system that is necessary to assure public safety and effective management of the lands in western Oregon.

**Western Oregon construction and acquisition.**—Provides for the acquisition of road easements and road use agreements for timber site access and for other resource management activities including recreation use. This activity also provides for transportation planning, survey and design of access and other resource management roads and construction projects.

Permanent operating funds accounts include:

*Operations and maintenance of quarters.*—Funds in this account are used to maintain and repair BLM employee-occupied quarters from which rental charges are collected. Agencies are required to collect quarters rentals from employees who occupy Government-owned housing and quarters. This housing is provided only in isolated areas or where an employee is required to live on-site at a Federally owned facility or reservation.

*Forest ecosystems health and recovery.*—Funds in this account are derived from revenue generated from the Federal share of receipts from the sale of salvage timber from the Oregon and California grant lands, public domain lands, and Coos Bay Wagon Road lands. This account was established to allow BLM to more efficiently and effectively address forest health issues. Funds can be used for other forest health purposes, including release from competing vegetation and density control treatments.

*Timber sale pipeline restoration fund.*—This fund provides for the deposit and use of fees collected by BLM for sales of non-salvage timber pursuant to the timber salvage provisions of Public Law 104-19 and Public Law 105-83. Of the total deposited into this account, 75 percent is to be used for preparation of timber sales to fill the timber pipeline on lands administered by BLM, and 25 percent is to be expended on the backlog of recreation projects on BLM lands.

*Expenses, road maintenance deposits.*—Users of certain roads under BLM's jurisdiction make deposits for maintenance purposes. Moneys collected are appropriated for necessary road maintenance. Moneys collected on Oregon and California grant lands are available only for those lands (43 U.S.C. 1762(c), 43 U.S.C. 1735(b)).

*Federal Lands Recreation Enhancement Act, BLM.*—The Federal Lands Recreation Enhancement Act (FLREA) was enacted on December 8, 2004 as part of the Consolidated Appropriations Act for 2005. FLREA replaces the Recreation Fee Demonstration Program, and most current BLM sites will transition to the new program. All receipts collected under this authority will be deposited to this account. BLM returns 100 percent of these receipts back to the site where the fees were generated. FLREA authorizes this program through 2014.

*Acquisitions in Deschutes, Oregon from land sale receipts.*—Pursuant to Public Law 105-221, the Oregon Public Lands Transfer Act, the Secretary of the Interior is authorized to

use the proceeds from sales in Deschutes County to purchase environmentally sensitive lands.

*Operations and acquisitions in Nevada from land sale receipts.*—Pursuant to Public Law 105-263, 85 percent of receipts from sales of public domain lands in southern Nevada are used to acquire environmentally sensitive land in the State, implement certain conservation initiatives on Federal land in Clark County, Nevada, make capital improvements to areas administered by the National Forest Service, Fish and Wildlife Service, and BLM in Clark County, Nevada, and develop parks, trails, and natural areas in Clark County, Nevada.

*Lincoln County Land Sales Act.*—Public Law 106-298 authorizes the Secretary to dispose of certain lands in Lincoln County, Nevada, and distribute the proceeds as follows: five percent to the State of Nevada; 10 percent to the County; and 85 percent to an interest bearing account that is available for expenditure without further appropriation.

*White Pine County Land Sales Act.*—Public Law 109-432 authorizes the Secretary to dispose of certain lands in White Pine County, Nevada, distribute the proceeds as follows: five percent to the State of Nevada; 10 percent to the County; and 85 percent to an account that is available for expenditure without further appropriation for the management of archaeological resources, wilderness protection, recreation activities, preparation of a management plan, reimbursement for sale costs, and other purposes.

*Leases from Naval Petroleum Reserve No. 2.*—The 2005 Energy Policy Act established this fund for environmental investigation and restoration on that site. A portion of revenue from new leases on the site is authorized to be deposited to this account.

*Leases from Naval Oil Shale Reserve No. 3.*—P.L. 107-345 established a fund for environmental investigation and restoration of this site. The Budget proposes to cancel \$24.7 million in appropriated balances that are not expected to be needed to complete the required cleanup authorized by the Act.

*BLM Permit Processing Improvement Fund.*—The 2005 Energy Policy Act established this pilot program. Fifty-percent of the rents from non-geothermal onshore mineral leases are authorized to be deposited in this fund through 2015 and used to increase BLM oil and gas permit processing.

*Geothermal Lease Revenue Fund.*—The 2005 Energy Policy Act established this fund. Twenty-five percent of geothermal bonuses, rents, and royalties are authorized to be deposited to this account through 2010 and used to expedite geothermal leasing activities.

*Federal land disposal.*—The Federal Land Transaction Facilitation Act, P.L. 106-248 114 Stat. 613, provides that the Administration will conduct sales of lands that have been classified as suitable for disposal under current resource management plans. This law provides that receipts from such sales may be used to acquire non-Federal lands with significant resource values that fall within the boundaries of areas now managed by DOI.

*Excess Stewardship Receipt Fund.*—Funds in this account are derived from stewardship contracts in which the revenues derived from forest products exceed the costs of services. As authorized by P.L. 108-7, these residual receipts can be used for other approved stewardship contracts.

**BLM Permit Processing Improvement Fund.**—The 2005 Energy Policy Act established this pilot program to improve oil

and gas permit processing. Fifty-percent of the rents from non-geothermal onshore mineral leases are authorized to be deposited into this account through 2015. The Budget proposes to eliminate this fund and to substitute new user fees for this activity.

**Geothermal Lease Revenue Fund.**—The 2005 Energy Policy Act established this fund to expedite geothermal leasing. Twenty-five percent of geothermal bonuses, rents, and royalties are authorized to be deposited to this account through 2010. The Budget proposes to eliminate this fund and to provide additional funding for these purposes through increased user fees.

**Federal Land Disposal.**—The Federal Land Transaction Facilitation Act (FLTFA), P.L. 106-248 (114 Stat. 613), authorizes the sale of BLM lands that have been classified as suitable for disposal under resource management plans in place at the time the Act was passed and allows DOI to retain the proceeds from such sales to cover the administrative costs of those sales and to acquire other high-value non-Federal lands within specially-designated areas, such as national parks, refuges, and monuments. The Budget proposes to amend FLTFA to: 1) allow BLM to use updated management plans to identify areas suitable for disposal; 2) allow a portion of the receipts to be used by BLM for restoration projects; 3) return 70 percent of the net proceeds from these sales to the Federal Treasury; and 4) cap DOI receipt retention at \$60 million per year.

Miscellaneous permanent payments include:  
*Payments for Oregon and California and Coos Bay Wagon Road grant lands, receipts.*—Under provisions of the Secure Rural Schools and Community Self-Determination Act of 2000 (Public Law 106–393), annual payments to the 18 Oregon & California (O&C) counties were derived from any revenues, fees, penalties, or miscellaneous receipts received by the Federal Government from activities by BLM on O&C and Coos Bay Wagon Road lands. These receipts were exclusive of deposits to any relevant trust fund, i.e., Timber Sale Pipeline Restoration and Forest Ecosystem Health and Recovery funds, or permanent operating funds. Public Law 106–393 expired in 2006, and the final payments for 2006 were made in 2007, consistent with the Act. Public Law 110–28 provided payments for one additional year. (A proposal to temporarily extend, but phase out and fully offset, payments previously provided under P.L. 106–393 is included within the Department of Agriculture’s budget request.) In 2009, the DOI payments from this account are assumed to revert to the terms of two prior statutes enacted in 1937 and 1939, 50 Stat. 874 and 53 Stat. 753. Payments to 17 Oregon counties under the 1937 statute will be 50 percent of revenues from O&C grant lands. Payments under the 1939 statute are for lost tax revenue in two Oregon counties and are estimated to be 25 percent of all revenues from Coos Bay Wagon Road grant lands.

*Payments to States (proceeds of sales).*—States are paid five percent of the net proceeds from sale of public land and public land products (31 U.S.C. 1305).

*Payments to States from grazing receipts, etc., public lands outside grazing districts.*—States are paid 50 percent of the grazing receipts from public lands outside of grazing districts (43 U.S.C. 315i, 315m).

*Payments to States from grazing receipts, etc., public lands within districts.*—States are paid 12½ percent of grazing receipts from public lands inside grazing districts (43 U.S.C. 315b, 315i).

*Payments to States from grazing receipts, etc., public lands within grazing districts, miscellaneous.*—States are paid specifically determined amounts from grazing receipts derived from miscellaneous lands within grazing districts when payment is not feasible on a percentage basis (43 U.S.C. 315).

*Payments to counties, National Grasslands.*—Of the revenues received from the use of Bankhead-Jones Act lands administered by BLM, 25 percent is paid to the counties in which such lands are situated, for school and road purposes (7 U.S.C. 1012).

*Payments to Nevada from receipts on land sales.*—(A) Public Law 96–586 authorizes and directs the Secretary to sell not more than 700 acres of public lands per calendar year in and around Las Vegas, Nevada, the proceeds of which are to be used to acquire environmentally sensitive lands in the Lake Tahoe Basin of California and Nevada. Annual revenues are distributed to the State of Nevada (five percent) and the county in which the land is located (10 percent). (B) Public Law 105–263, as amended by P.L. 107–282, authorizes the disposal through sale of approximately 49,000 acres in Clark County Nevada, the proceeds of which are to be distributed as follows: a) five percent for use in the general education program of the State of Nevada; b) 10 percent for use by the Southern Nevada Water Authority for water treatment and transmission facility infrastructure in Clark County, Nevada; and c) the remaining 85 percent to be used to acquire environmentally sensitive lands in Nevada; make capital improvements to areas administered by NPS, FWS and BLM in Clark County, Nevada; develop a multi-species habitat plan in Clark County, Nevada; develop parks, trails and natural areas and implement other conservation initiatives

in Clark County, Nevada; and reimburse BLM for costs incurred arranging sales and exchanges under the Act. (C) Public Law 106–298 authorizes the sale of certain lands in Lincoln County, Nevada. The proceeds of these sales are to be distributed as follows: a) five percent to the State of Nevada for general education purposes; b) 10 percent to Lincoln County for general purposes with emphasis on supporting schools; and c) the remaining 85 percent to be used by the Secretary of the Interior to acquire environmentally sensitive lands in the State of Nevada, for identification and management of unique archaeological resources, for development of a multi-species habitat conservation plan in the county, and for other specified administrative purposes.

*Cook Inlet Region Inc. property.*—This account received funding appropriated by section 9102 of the fiscal year 1990 Department of Defense Appropriations Act for the acquisition of Federal real properties, improvements on such lands or rights to their use or exploitation, and any personal property related to the land purchased by the Cook Inlet Region, Incorporated as authorized by the provisions of section 12(b) of Public Law 94–204 (43 U.S.C. 1611). Funds are made available to BLM for administration and subsequent payment to accounts accepting Cook Inlet Region, Incorporated offers for Federal properties.

*Native Alaskan groups' properties.*—Funds were appropriated by Public Law 102–172 for the Calista Corporation, and by Public Law 102–415 for the Haida Corporation and the Gold Creek Susitna Association, Incorporated, for the acquisition by those groups of Federal real properties in fulfillment of claims originally settled in 43 U.S.C. 1617, the Alaska Native Claims Settlement Act.

**MISCELLANEOUS PERMANENT PAYMENT ACCOUNTS**

(Legislative proposal, subject to PAYGO)

Payments to states from land sales will increase because of the budget proposal to remove the current 2010 expiration date for the Federal Land Facilitation Transaction Act, and to allow the use of updated management plans to identify areas suitable for disposal under that Act.

**PAYMENT TO ALASKA, ARCTIC NATIONAL WILDLIFE REFUGE**

(Legislative proposal, subject to PAYGO)

The Budget assumes that the first oil and gas lease sale in the coastal plain of the Arctic National Wildlife Refuge (ANWR) would be held in 2010, producing \$7.0 billion in receipts from bonuses which would be shared 50/50 between the Federal government and the State of Alaska. The Federal share of the royalties from the leased areas would be directed to reducing the budget deficit.

The Helium Act Amendments of 1960, Public Law 86–777 (50 U.S.C. 167), authorized activities necessary to provide sufficient helium to meet the current and foreseeable future needs of essential government activities.

The Helium Privatization Act of 1996, Public Law 104–273, provides for the eventual privatization of the program and its functions. In 2009, the Helium program will consist of:

- (a) continued storage and transmission of crude helium;
- (b) complete disposal of helium refining facilities and other excess property not needed for storage and transmission of crude helium;
- (c) oversight of the production of helium on Federal lands; and
- (d) administration of in-kind and open market crude helium gas sale program.

The estimates assume that the helium program will continue full implementation of the Helium Privatization Act.

The Minerals Management Service (MMS) is responsible for managing the Nation's oil, natural gas, and other energy and mineral resources on the Outer Continental Shelf (OCS) and with collecting Federal mineral revenues from the OCS and onshore Federal and Indian lands. MMS's goal is to ensure environmental protection, promote responsible use, and realize fair market value for these natural resources. Through all of its programs, MMS works to ensure that the public receives maximum benefit from America's OCS resources and mineral revenues.

**Outer Continental Shelf Lands.**—The Offshore Energy and Minerals Management program coordinates MMS's responsibilities for OCS activities, which range from administering OCS leases and monitoring the safety of offshore facilities to protecting America's coastal and marine environments. As the Nation's designated steward of the mineral resources on the OCS, MMS has worked diligently for over 25 years to build a successful offshore program with a legal and regulatory framework that will provide for safe and environmentally sound OCS mineral resource development. The Energy Policy Act of 2005, enacted on August 8, 2005, provided MMS with new authorities to oversee Federal offshore renewable energy projects and related uses of America's offshore public lands. As a result, MMS is required to develop and administer a permitting program, promulgate new regulations, and manage pre-existing wind energy projects.

**Minerals Revenue Management.**—Through the Minerals Revenue Management program, MMS ensures that the Nation's Federal and Indian mineral revenues, whether received through in-kind or in-value royalties, are accurately reported and paid in compliance with laws, regulations, and lease terms. Revenues collected by MMS are one of the largest sources of non-tax revenue to the Federal Government. MMS disburses mineral revenues to states, the Office of the Special Trustee for American Indians, other Federal agencies, and the General Fund of the United States Treasury. Through the Royalty In Kind (RIK) program, MMS administers in-kind royalties so that the resources received are managed in a manner that best benefits the Nation.

**General Administration.**—The General Administration program is responsible for providing leadership, securing resources, developing organizational capabilities, coordinating strategic planning efforts, building infrastructure and assuring the appropriate delivery of services for the entire MMS organization.

For Mineral Leasing and Associated Payments (MLAP), the Mineral Leasing Act (MLA), 30 U.S.C. 181 et seq., provides that all States be paid 50 percent of the revenues resulting from the leasing of mineral resources on Federal public domain lands within their borders. In addition, under MLA, 40 percent of revenues are deposited in the Reclamation Fund, which funds western water projects, and the remaining 10 percent is deposited in the General Fund of the United States Treasury. By law, Alaska receives no funds from the Reclamation Fund, but receives a 90-percent share of mineral leasing receipts. In addition, the State of Oklahoma is paid 37½ percent of the Red River oil and gas royalties in lieu of State and local taxes on Kiowa, Comanche, and Apache Tribal lands, to be used for construction and maintenance of public roads and support of public schools (65 Stat. 252). Mineral leasing revenues are derived from royalties, rents, bonuses, and other revenues, including minimum royalties, late payment interest, settlement payments, gas storage fees, estimated royalty payments, and recoupments.

States receive 50 percent of Federal revenues generated from mineral production occurring on Federal Lands within that State's boundaries. To partially cover the costs of administering the Federal mineral leasing program, the Budget proposes to amend the MLA to allow MMS to deduct two percent from the required payments to States under the Act. MMS was authorized until 2000 to deduct a certain amount from State mineral revenue payments based on an assessment of the Federal Government's costs to manage and oversee mineral leasing and production (referred to as "net receipts sharing", or NRS). NRS authority was repealed in 2000, during a time of Federal budget surpluses. The Administration's pro-

MINERAL LEASING AND ASSOCIATED PAYMENTS—Continued

posal would return to a form of NRS similar to that which was in a place prior to 2000. However, the proposal addresses concerns raised about the administrative complexity of the original NRS process by simplifying how costs are allocated. Instead of attempting to allocate specific program costs on a State-by-State basis, the Administration has proposed a simple two percent deduction from the State share of revenues (equivalent to one percent of total mineral revenues) prior to making individual State allocations.

The FY 2008 Interior, Environment, and Related Agencies Appropriations Act, enacted as Division F, Title I of P.L. 110–161, implemented the proposed two-percent deduction from State payments, effective for fiscal year 2008. The Budget proposes authorizing legislation to amend the Mineral Leasing Act to make this change in the Federal-State revenue allocation permanent.

The Energy Policy Act of 2005 (P.L. 109–58) amends section 31 of the Outer Continental Shelf (OCS) Lands Act (43 U.S.C. 1356 et seq.) to require that, for a four-year period, \$250,000,000 in OCS revenues be paid annually to coastal States and coastal political subdivisions that have submitted approved coastal impact assistance plans. The formula for distribution is based on the amount of qualified OCS revenues generated off the coastline of each producing State. In addition, 35 percent of each State’s allocable share is to be distributed to coastal political subdivisions based on population, coastline, and distance to applicable OCS leases.

The Gulf of Mexico Energy Security Act of 2006 opens some additional areas in the Gulf of Mexico for offshore oil and gas leasing, while maintaining moratoria on activities east of the Military Mission Line and within certain distances from the coastline of Florida. The Act provides that 37.5 percent of Outer Continental Shelf revenues from certain leases be distributed to four coastal States (Alabama, Louisiana, Mississippi, and Texas) based on a complex allocation formula and subject to an annual cap in later years. The receipts are available in the year following collection, and the first disbursement is estimated to be in 2009. The funding provided is to be used primarily for coastal protection and restoration activities.

Title IV of the Department of the Interior and Related Agencies Appropriation Act, 1998 (P.L. 105-83) established the Environmental Improvement and Restoration Fund account. As required by law, 50 percent of the principal and 50 percent of the interest from the Alaska Escrow account are deposited into the Environmental Improvement and Restoration Fund. The law requires that the corpus of the Fund be invested. Twenty percent of the interest earned by the Fund is permanently appropriated to the Department of Commerce and the unappropriated balance of interest remains in the fund. At this time, no budget authority is requested.

Flood Control payments to states are shared according to the Flood Control Act of 1936 (33 U.S.C. 701 et seq.) which provides that 75 percent of revenue collected be shared with the State in which it was collected. These funds are to be expended as the State legislature may prescribe for the benefit of the public schools and roads in the county from which the revenue was collected or for defraying any of the expenses of county government. These expenses include public obligations of levee and drainage districts for flood control and drainage improvements.

The Energy Policy Act of 2005 (P.L. 109-58) amended section 20 of the Geothermal Steam Act of 1970 (30 U.S.C. 1019 et seq.). The amendment provides that for the revenues collected from geothermal leasing, 50 percent of the revenues are to be paid to the State and 25 percent are to be paid to the county in which the leased lands or geothermal resources are located. In addition, the remaining Federal revenues received during the first five fiscal years following enactment of the Energy Policy Act, after excluding funds paid to State and county governments, are deposited into a separate Treasury account for use by DOI in the implementation of the Geothermal Steam Act of 1970 and the Energy Policy Act of 2005.

The Energy Policy Act of 2005 (P.L. 109-58) amended section 20 of the Geothermal Steam Act of 1970 (30 U.S.C. 1019 et seq.) to provide that 25 percent of the revenues collected from geothermal leasing be paid to the county in which the leased lands or geothermal resources are located. This payment is in addition to the 50 percent of Federal revenues that have historically been paid to the State in which the leased lands or geothermal resources are located. The Budget proposes to eliminate these county payments and return to the traditional 50/50 Federal-State revenue sharing arrangement.

**Environmental protection.**—This activity funds those functions that directly contribute to ensuring that the environment is protected during surface coal mining operations. It also addresses those activities that ensure that coal operators adequately reclaim the land after mining is completed.

Under this activity, OSM provides regulatory grants to States to operate enforcement programs under the terms of the Surface Mining Control and Reclamation Act of 1977 (SMCRA). It also provides for the operation of Federal and Indian land programs and the oversight of State programs, and supports State regulatory program development and maintenance. In addition, this activity funds environmental reclamation efforts through the collection of civil penalties for post-SMCRA reclamation and funds from bond forfeitures, and provides funding for underground and coal outcrop fires.

**Technology development and transfer.**—This activity provides funding to enhance the technical skills that States and Indian tribes need to operate their regulatory programs. It provides technical outreach to States and Indian tribes to solve problems related to the environmental effects of coal mining. The Applicant Violator System is funded from this activity.

**Financial management.**—This activity provides the resources for the managing, accounting, and processing of collections and for the pursuit of delinquent civil penalties. This includes developing and maintaining information management systems that support these functions and enhance the agency's ability to deny new mining permits to applicants with unabated State or Federal violations.

**Executive direction and administration.**—This activity provides funding for executive direction, general administrative support, and the acquisition of certain agency-wide common services, such as rent, telephones, and postage.

*Environmental restoration.*—This activity funds those functions that contribute to reclaiming lands affected by past coal

mining practices. Funds are used to restore land and water resources and the environment that have been degraded by mining prior to the passage of SMCRA.

This activity provides discretionary funding for the Federal reclamation program, which includes the Federally-administered emergency reclamation program, high-priority projects in States that do not have a reclamation program, and watershed cooperative agreements. Beginning in 2008, this activity will provide mandatory reclamation grants for qualified States and Tribes, instead of the discretionary grants provided through 2007.

*Technology development and transfer.*—This activity provides funding to enhance the technical skills that the States and Indian tribes need to operate their reclamation programs. OSM conducts technical studies on mining and reclamation-related problems.

*Financial management.*—This activity provides funds to identify, notify, collect, and audit fees from coal operators for the Abandoned Mine Reclamation Fund. OSM seeks to maximize voluntary compliance with the SMCRA's reclamation fee provisions.

*Executive direction and administration.*—This activity provides funding for executive direction, general administrative support, and the acquisition of certain agency-wide common services such as rent, telephones, and postage.
