§ 1216.317 Classified information.

Environmental assessments and impact statements which contain classified information to be withheld from public release in the interest of national security or foreign policy shall be organized so that the classified portions are appendices to the environmental document itself. The classified portion shall not be made available to the public.

§ 1216.318 Deviations.

From time to time there will arise good and valid reasons for a deviation from these procedures. These procedures are not intended to be a substitute for sound professional judgment. Accordingly, if and as problems arise which justify a deviation, the proposed deviation and supporting rationale shall be forwarded to the Associate Administrator for Management. Unless such documentation is received, it will be assumed that each planning and decisionmaking action is in accordance with these procedures.

OTHER REQUIREMENTS

§ 1216.319 Environmental resources document.

Each Field Installation Director shall ensure that there exists an environmental resources document which describes the current environment at that field installation, including current information on the effects of NASA operations on the local environment. This document shall include information on the same environmental effects as included in an environmental impact statement (see 14 CFR 1216.307). This document shall be coordinated with the Associate Administrator for Management and shall be published in an appropriate NASA report category for use as a reference document in preparing other environmental documents (e.g., environmental impact statements for proposed actions to be located at

the NASA field installation in question). The Director of each NASA field installation shall ensure that existing resource documents are reviewed and updated, if necessary, by December 31, 1980, and at appropriate intervals thereafter.

§ 1216.320 Environmental review and consultation requirements.

(a) Headquarters officials and Field Installation Directors shall, to the maximum extent possible, conduct environmental analyses, assessments, and any impact statement preparation concurrently with environmental reviews required by the laws and regulations listed below:

(1) Section 106 of the National Historic Preservation Act of 1966 (16 U.S.C. 470(f)) requires identification of National Register properties, eligible properties, or properties which may be eligible for the National Register within the area of the potential impact of a NASA proposed action. Evaluation of the impact of the NASA action on such properties shall be discussed in draft environmental impact statements and transmitted to the Advisory Council on Historic Preservation for comments.

(2) Section 7 of the Endangered Species Act (16 U.S.C. 1531 et seq.) requires identification of and consultation on aspects of the NASA action that may affect listed species or their habitat. A written request for consultation, along with the draft statement, shall be conveyed to the Regional Director of the U.S. Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate, for the Region where the action will be carried out.

(3) Executive Order 11988 (Floodplains Management) and Executive Order 11990 (Wetlands), as amended, and implemented by 14 CFR subpart 1216.2—*Floodplains and Wetlands Management*, prescribe procedures to avoid adverse impacts associated with the occupancy and modification of floodplains and wetlands and require identification and evaluation of actions which are proposed for location in or which may affect a floodplain or wetland. A comparative evaluation of such actions
