Federal Civilian Workforce Statistics

Biennial Report of Employment by Geographic Area

As of December 31, 2002

FOREWORD

This report is the twenty-sixth in a series (biennial since 1980) published by the U.S. Office of Personnel Management (OPM). It presents civilian employment of the Federal Government by State, county, metropolitan statistical area, U.S. territory, and foreign country. For the States, counties, and metropolitan statistical areas, employment figures are shown by major pay systems and by selected Federal agencies. For U.S. territories and foreign countries, employment figures depict U.S. citizen and non-citizen status by selected agency. Sources, coverage, definitions of terms, and highlights of the geographic survey are presented in the narrative.

This publication is now available to the public in electronic format. You may obtain copies of this publication via OPM's World Wide Web Site at: <http://www.opm.gov/feddata/>

The electronic version of this publication is published in Adobe Acrobat's Portable Document Format (pdf). The electronic version requires the Acrobat Reader for viewing and printing. You may obtain copies of the Acrobat Reader from Adobe Systems Incorporated World Wide Web Site at:

<http://www.adobe.com/proindex/acrobat/readstep.htm> Acrobat uses hypertext and electronic bookmarks to help the reader navigate through the document. You are welcome to copy or print the statistical tables and charts for use in your own reports and presentations, and may make copies of this publication for distribution purposes.

The 1998 and 2000 publications are also posted at our website. Paper and microfiche copies of the 1980 through 1998 publications are available from the National Technical Information Service. Their World Wide Web Site is <http://www.ntis.gov>, their telephone is 703-487-4650, and their address is 5285 Port Royal Road, Springfield, VA 22161.

More detailed tabulations from this survey, including data at the city level and data on work schedule by geographic area and agency, and data from previous surveys are available in the office. Additional information may be obtained by calling 202-606-1789, by e-mail at fedstats@opm.gov, by fax at 202-606-1719, or by written request addressed to the U.S. Office of Personnel Management, Room 7439, Theodore Roosevelt Building, 1900 E Street, NW, Washington, DC 20415-6000.

Note to Readers:

This survey and publication are a biennial series. Therefore, the next publication, with data as of December 31, 2004, will be published late in 2005.

OFFICE OF THE DIRECTOR

UNITED STATES
OFFICE OF PERSONNEL MANAGEMENT
WASHINGTON, DC 20415-1000

A Message from the Director

I am pleased to present the Office of Personnel Management's report on Federal Civilian Workforce Statistics, Biennial Report of Employment by Geographic Area as of December 31, 2002. This biennial publication is the only official source of detailed geographic data/information on our Federal civilian workforce. To enhance the usefulness of the workforce data, we have analyzed the data and presented it in a variety of statistical graphs and tables that we hope are the most useful and meaningful to you.

These statistics provide a biennial geographic overview of the Federal Government's talented workforce and reflects a refocused mission as Departments and Agencies respond to President George W. Bush's mandate for a Government that is citizen-centered, results-oriented and market-based.

If you would like additional information on our civilian workforce, or if you have suggestions for our staff, please call 202-606-1789 or email fedstats@opm.gov.

A handwritten signature in black ink, appearing to read "Kay Coles James".

Kay Coles James
Director

SURVEY HIGHLIGHTS

Population Coverage

Data on active Federal civilian employment as of December 31, 2002, cover all Federal departments and agencies except for the Central Intelligence Agency, National Security Agency, Defense Intelligence Agency, National Imagery and Mapping Agency, Army / Air Force Exchange Service, Consolidated Metropolitan Technical Personnel Center, Defense Career Management and Support Agency, Uniformed Services University of the Health Sciences, Defense Counterintelligence Field Activity, and seasonal employees other than Department of Defense's Education Activity. This survey includes the U.S. Postal Service. Special treatment is made for seasonal employees.

Major Geographic Areas

Federal civilian employment totaled 2,799,667 in the geographic survey as of December 31, 2002. Federal civilian employment worldwide increased by +1.2 percent (+33,775) since our previous survey as of December 31, 2000.

Most Federal civilian employees worked in the United States (2,706,383 or 96.7 percent) while some worked in the U.S. territories (18,958 or 0.6 percent) and in foreign countries (74,326 or 2.7 percent). There were 342,928 employees (12.2 percent) working in the Washington, District of Columbia-Maryland-Virginia-West Virginia Metropolitan Statistical Area and 2,363,455 (84.4 percent) located in the United States outside the Nation's capital area. Most Federal employees (87.2 percent) located in the United States and Puerto Rico worked in metropolitan areas. Changes since the 2000 survey are discussed in the following sections.

States

Federal civilian employment varied by State from 244,863 in California to 5,245 in Delaware. Seven States had more than 100,000 Federal civilian workers: California 244,863; Texas 165,837; Virginia 143,234; New York 133,017; Maryland 132,718; Florida 121,662; and Pennsylvania 106,358. There were also 188,855 Federal civilian employees working in the Nation's capital city of Washington in the District of Columbia. The table on the next page shows employment by State in descending order. State distributions are shown on Table 3 by pay system category and on Table 5 by county (or independent city) and selected agency.

Short-Term State Trends

Since December 2000, the District of Columbia and 32 States had net increases in Federal civilian employment. State changes reflected the Department of Transportation's (DOT) new Transportation Security Administration and the continuing U.S. Postal Service (USPS) cutbacks. Nevada had the largest net percentage gain of +13.1 percent due to DOT +1,613 and USPS -402.

Florida gained 8,395 workers (+7.4 percent) due to DOT +7,571 and Department of Veterans Affairs +803 despite USPS -2,467. The District of Columbia gained 7,886 workers (+4.4 percent) due to Navy +3,056; DOT +1,335; State Department +1,090 and Congress +800 despite USPS -1,077 and Federal Deposit Insurance Corporation -534. Texas gained 3,438 workers (+2.1 percent) due to DOT +5,725; Department of Justice +1,055; and Army +801 despite USPS -4,019 and Air Force -919.

GEOGRAPHIC DISTRIBUTION OF FEDERAL CIVILIAN EMPLOYMENT RANKED BY STATE WITH TREND CHANGES

States	Employment			Percent Change

** Excludes seasonal employment other than Defense Department's Education Activity.

*** Mostly Judicial Branch (62%) and the Federal Bureau of Investigation (36%).

Another nine States added more than 1,000 employees each: Arizona +2,965; Utah +2,957; Washington +2,648; Maryland +2,571; Hawaii +2,005; Nevada +1,754; Georgia +1,591; Colorado +1,507; and New Jersey +1,009.

Eighteen States lost Federal civilian employees. Connecticut had the largest net percentage loss (-4.70 percent) due to USPS -1,329. Ohio had the largest loss in raw numbers (-3,468) due to USPS -4,208 and DOT +1,409. California lost 2,976 (-1.2 percent) due to USPS -11,437 despite DOT +7,023; and the Departments of Justice +1,071; Agriculture +927; and Health and Human Services +651. Three other States lost more than 1,000 employees each: Illinois -1,483; Virginia -1,398; and Tennessee -1,122.

Long-Term State Trends

The twenty-year long-term trend from 1982 to 2002 showed sizeable changes among the States; nationwide, net Federal civilian employment has dropped (down 42,888 or -1.6 percent). Thirty States gained and twenty States lost Federal civilian employment during the last 20 years. The following ten States showed changes of at least 10,000 Federal civil servants each: Florida +36,879; North Carolina +14,159; Georgia +13,645; Arizona +12,661; Texas +10,157; Missouri -11,396; Alabama -11,996; New York -20,599; Pennsylvania -22,707; and California -55,922. The District of Columbia lost 24,040 employees (-11.3 percent).

Ten States showed a 15 percentage or more increase as follows: Nevada +65 percent, Florida and Vermont +43 percent each, Arizona +37 percent, North Carolina +33 percent, New Hampshire +32 percent, West Virginia +27 percent, Rhode Island +19 percent, Georgia +18 percent, and Minnesota +17 percent.

Declines greater than 15 percent took place in the following seven States: Maine -24 percent,

Alabama -20 percent, California -19 percent, Pennsylvania and South Carolina -18 percent each, Missouri -17 percent, and Tennessee -15 percent. The trend table on pages 4-5 presents Federal civilian employment by State from 1980 to 2002.

Metropolitan Areas

Each of the 337 Metropolitan Statistical Areas (MSAs) in the United States and Puerto Rico had Federal civilian employees in December 2002. Most Federal civilian employees in the United States (excluding the 51,794 with unspecified State) and Puerto Rico worked in metropolitan areas (87.2 percent or 2,327,823). Small towns and rural areas outside MSAs had only 12.8 percent (342,049) of the Federal workers.

The Washington, DC-MD-VA-WV MSA had the most Federal civil servants (342,928) because most of the large agencies have their headquarters there. The next four largest concentrations of Federal civilian employment were in: New York, NY with 66,279; Chicago, IL with 63,230; Los Angeles-Long Beach, CA with 53,771; and Philadelphia, PA-NJ with 53,067 workers. There were 21 other large MSAs with more than 20,000 Federal civilian employees. The Arecibo, Puerto Rico MSA had the lowest Federal population with just 144. MSA distributions are shown on Table 2 by pay system category and on Table 4 by major agency.

Consolidated Metropolitan Statistical Areas (CMSAs) have populations of more than one million and meet other criteria specified by the Office of Management and Budget's Office of Information and Regulatory Affairs; 76 of the MSAs make up the 19 CMSAs. The largest CMSAs were the Washington-Baltimore, DC-MD-VA-WV CMSA with 387,538 Federal civilian employees; the New York-Northern New Jersey-Long Island, NY-NJ-CT-PA CMSA with 151,689; and the Los Angeles-Riverside-Orange County, CA CMSA with 90,823.

Notes: Excludes Central Intelligence Agency, National Security Agency, Defense Intelligence Agency, National Imagery and Mapping Agency, Army/Air Force Exchange Service, Consolidated Metropolitan Technical Personnel Center, and seasonal employees other than Defense Department's Education Activity.

Metropolitan Statistical Areas include Atlanta, GA; Norfolk-Virginia Beach-Newport News, VA-NC; San Diego, CA; Oklahoma City, OK; Kansas City, MO-KS; St. Louis, MO-IL; and San Antonio, TX. All the rest are Consolidated Metropolitan Statistical Areas.

Since December 2000, Federal civilian employment in the United States (excluding unspecified State) and Puerto Rico increased in Metropolitan Statistical Areas by +1.0 percent (+22,689) and also increased in small towns and rural areas by +2.4 percent (+8,121). The table on the preceding page shows the 13 CMSAs and 7 MSAs with more than 25,000 Federal civilian employees in December 2000 or 2002.

Twelve of the large metropolitan areas added workers during 2001 and 2002 while eight metropolitan areas lost workers. Washington-Baltimore, DC-MD-VA-WV CMSA gained the most employees (+8,233) and Miami-Fort Lauderdale, FL CMSA had the largest percentage gain (+14.6 percent). San Francisco-Oakland-San Jose, CA CMSA lost the most employees (-3,411) and St. Louis, MO-IL MSA had the largest percentage loss (-10.9 percent).

Agency changes affecting metropolitan areas were primarily the continuing U.S. Postal Service cutbacks and the Department of Transportation's new Transportation Security Administration. Air Force cutting 926 caused the losses in the San Antonio, TX MSA. Navy adding 1,356 caused the expansion in the Norfolk-Virginia Beach-Newport News, VA-NC MSA. Many sizeable agency changes occurred in the Washington-Baltimore, DC-MD-VA-WV CMSA: Transportation +4,358; Health and Human Services +1,239; State +1,106; Congress +800; Treasury +654; Justice +595; U.S. Postal Service -3,403; and Federal Deposit Insurance Corporation -539.

Postal cutbacks outweighed the Transportation additions as the primary agency changes in the Los Angeles-Riverside-Orange County, CA CMSA; Chicago-Gary-Kenosha, IL-IN-WI CMSA; Philadelphia-Wilmington-Atlantic City, PA-NJ-DE-MD CMSA; San Francisco-Oakland-San Jose, CA CMSA; Detroit-Ann Arbor-Flint, MI CMSA;

Houston-Galveston-Brazoria, TX CMSA; Kansas City, MO-KS MSA; and St. Louis, MO-IL MSA. Transportation additions outweighed the Postal cutbacks as the primary agency changes in the New York-Northern New Jersey-Long Island, NY-NJ-CT-PA CMSA (plus Veterans Affairs down 885); Boston-Worcester-Lawrence, MA-NH-ME-CT CMSA; Seattle-Tacoma-Bremerton, WA CMSA; Atlanta, GA MSA (plus Health and Human Services up 833); Dallas-Fort Worth, TX CMSA; San Diego, CA MSA; Denver-Boulder-Greeley, CO CMSA; Miami-Fort Lauderdale, FL CMSA; and Oklahoma City, OK MSA.

Overseas Areas and U.S. Citizenship

Federal civilian employees overseas totaled 93,284 in December 2002 (3.3 percent of worldwide total) of which 18,958 worked in U.S. territories and 74,326 in foreign countries. The U.S. territories with the most Federal civilian employees were: Puerto Rico with 15,283; Guam with 2,319; and U.S. Virgin Islands with 1,129. The five foreign countries with the most Federal civilian employees were: 18,642 in Germany; 11,142 in Republic of Korea (South Korea); 7,364 in Japan; 6,268 in Italy; and 3,026 in the United Kingdom (Great Britain). Table 6 shows employment in foreign countries and Table 7 in U.S. territories.

Since December 2000, Federal civilian employment in foreign countries rose slightly by 862 for a +1.2 percent gain. There were 652 more employees in Chad due to the State Department and 127 more in Bahrain due to the Defense Department. In the U.S. Territories, Federal civilian employment expanded by 967 for a +5.4 percent gain. Puerto Rico added 569, U.S. Virgin Islands 216, and Guam 147; all these increases were due to the Department of Transportation.

* Excludes employees in Central Intelligence Agency, National Security Agency, Defense Intelligence Agency, National Imagery and Mapping Agency, Army/Air Force Exchange Service, Consolidated Metropolitan Technical Personnel Center, Defense Career Management and Support Agency, and seasonal employees other than Defense Department's Education Activity.

** Mostly Judicial Branch (62%) and the Federal Bureau of Investigation (36%).

The United States Government employed 67,585 U.S. citizens in overseas locations as well as 25,699 direct-hire noncitizens as of December 31, 2002. Federal civilian employees in U.S. territories were mostly U.S. citizens. Federal civilian employment in foreign countries consisted of 48,636 U.S. citizens and 25,690 noncitizens. U.S. citizenship of employees by agency is shown by foreign country on Table 6 and by U.S. territory on Table 7.

Since December 2000, employment in foreign countries rose slightly, up 862 or +1.2 percent; U.S. citizens increased by 1,064 or +2.2 percent due to the State Department while noncitizens dropped by 202 or -0.8 percent due to the Defense Department. Federal civilian employment in U.S. territories grew by 967 or +5.4 percent; U.S. citizens increased by 975 or +5.4 percent due to the Department of Transportation while the noncitizens decreased by 8.

Major Agencies

About two-thirds of Federal civilian employees worked in three large agencies: U.S. Postal Service (881,491 or 31.5 percent); Department of Defense (675,349 or 24.1 percent); and the Department of Veterans Affairs (224,472 or 8.0 percent). These agencies have employment in all States as shown in the table on the preceding page. Defense Department employment was more concentrated in coastal States partly due to naval installations. With their service delivery responsibilities, the U.S. Postal Service and Department of Veterans Affairs employment distributions more closely reflected the Nation's general population distribution. Table 1 lists each agency with Federal civilian employment totals for all areas as well as for the United States. Employment in larger agencies is shown in Table 4 by Metropolitan Statistical Area and in Table 5 by State and county.

Since December 2002, the Department of Defense reduced slightly overall, down 688 or -0.1 percent. However, the Department restructured somewhat with Army up 3,134 or +1.4 percent, Navy up 2,385 or +1.3 percent, and Air Force up 515 or +0.3 percent while Defense Logistics Agency dropped 1,672 or -7.0 percent and other Defense activities dropped 5,050 or -5.9 percent. The U.S. Postal Service continued to decline, losing 75,083 or -7.8 percent. The Department of Veterans Affairs gained 4,280 or +1.9 percent. The Department of Transportation more than doubled in size, increasing by 71,139 or +111.6 percent due to the creation of its new Transportation Security Administration. Employment in all the other agencies (one-third of all Federal civilian employees) expanded by 34,127 or +4.0 percent.

Other agencies with sizeable increases included the Judicial Branch (+2,511 or +7.9 percent) and the Departments of Health and Human Services (+7,371 or +11.5 percent), Justice (+6,556 or +5.2 percent), Agriculture (+6,223 or +6.7 percent), Treasury (+5,303 or +4.0 percent), Interior (+3,005 or +4.8 percent), and State (+2,641 or +9.2 percent). The two agencies with sizeable decreases were Tennessee Valley Authority (-1,785 or -13.7 percent) and Federal Deposit Insurance Corporation (-1,167 or -17.4 percent).

Pay Systems

About half (46.0 percent or 1,287,964) of Federal civil servants were paid under the General Schedule as of December 31, 2002. Postal pay plans covered a third (31.5 percent or 881,537). Wage systems for blue-collar workers covered 7.6 percent (212,358). The remaining 14.9 percent (417,808) were mostly white-collar workers paid under various other pay plans.

FEDERAL CIVILIAN EMPLOYMENT BY STATE AND WORK SCHEDULE
December 31, 2002

* Excludes employees in Central Intelligence Agency, National Security Agency, Defense Intelligence Agency, National Imagery and Mapping Agency, Army/Air Force Exchange Service, Consolidated Metropolitan Technical Personnel Center, Defense Career Management and Support Agency, and seasonal employees other than Defense Department's Education Activity.

** Mostly Judicial Branch (62%) and the Federal Bureau of Investigation (36%).

The employment distributions by pay system were similar for Federal employment in the United States and U.S. territories. In foreign countries, the Foreign Service raised the percentage of employment in "other" pay plans, while there were fewer General Schedule, fewer wage, and no postal employees there. The Washington, DC-MD-VA-WV Metropolitan Statistical Area had proportionately higher white-collar employment with 217,341 or 63.4 percent General Schedule; 13,382 or 3.9 percent wage systems; 24,048 or 7.0 percent postal pay plans; and 88,157 or 25.7 percent in other (mostly white-collar) pay plans. Pay system distributions are shown on Table 1 by agency for all areas as well as for the United States, on Table 2 for metropolitan statistical areas, and on Table 3 for States.

Pay system distribution changes were much larger than the overall increase of 1.2 percent since December 2000 with General Schedule employment up 33,861 (+2.7 percent), wage systems down 8,401 (-3.8 percent), postal pay systems down 75,088 (-7.8 percent), and "other" pay systems up 83,403 (+24.9 percent) mostly in the new Transportation Security Administration.

Work Schedules

Most (88.5 percent) Federal civil servants nationwide worked a full-time work schedule, usually a 40-hour workweek. Another 5.6 percent worked part-time on a regular schedule such as 4 hours each workday and the remaining 6.0 percent worked an intermittent schedule (working only as needed) such as forest fire fighters.

The table on the previous page presents Federal civilian employment within the United States by State and work schedule (excluding most seasonal employees) as of December 31, 2002. Full-time employment as a percent of total employment ranged from 95.9 percent in the District of Columbia, 93.7 percent in Virginia, and 92.7 percent in Hawaii to 74.7 percent in New Hampshire, 80.1 percent in Wisconsin, and 81.3 percent in Iowa.

Two-thirds of part-time and intermittent employees nationwide worked for the U.S. Postal Service (67.7 percent or 210,776). The other major employers of part-timers were the Departments of Veterans Affairs (18,427); Defense (13,554); Agriculture (3,856); Treasury (2,735); Justice (2,706); and Interior (2,629) as well as the Social Security Administration (2,818). Other major agency employers of intermittent workers were the Departments of Health and Human Services (9,524); Agriculture (4,589); Veterans Affairs (4,125); Defense (3,759); Commerce (3,388); Treasury (3,355); and Interior (2,943) as well as the Federal Emergency Management Agency (3,530).

Since December 2000, total Federal civilian employment in the United States increased by 31,946 (+1.2 percent). Full-time employment expanded by 78,892 or 3.4 percent due mostly to 67,415 in the new Transportation Security Administration. The U.S. Postal Service caused the declines in part-time employment (down 13,368 or -8.2 percent) and intermittent employment (down 33,578 or -17.2 percent).

Seasonal Workforces

Since this report includes employment on the specific date of December 31, 2002, all tables exclude seasonal employees except for 13,589 working in December for the Department of Defense Education Activity. However, since other seasonal employees make up a significant part of the workforce for some agencies and States during the year, we have included this special section on the seasonal workforces.

Seasonal employees work less than 12 months a year on an annually recurring basis; seasonal employees may work a full-time, part-time, or intermittent work schedule when on duty. Examples of seasonal employees are school teachers and outdoor workers.

Various agencies have different seasonal workforces. Treasury's Internal Revenue Service employees work mostly during tax season in the first half of the year while the Department of Defense Education Activity and Interior's Indian Schools employees work a school year. Weather is the seasonal factor for some agencies; seasonal employees in National Parks, National Forests, and Bureau of Land Management worked more in the warmer months. Seasonal employees worked throughout the year at Commerce's Census Bureau, Justice's Immigration and Naturalization Service, Army Corps of Engineers, Agricultural Marketing Service, and Naval Sea Systems Command.

Seasonal employment data were reviewed for March 2002, June 2002, September 2002, and December 2002; the largest employment numbers for any of the four reporting dates are presented on the following "Calendar Year 2002 Peak Seasonal Workforce" table. For example, the Internal Revenue Service had 3,101 seasonal employees in California in March; 1,312 in June; 655 in September; and 840 in December, so we showed the largest total of 3,101 in the table. The table on page 13 thus presents the Calendar Year 2002 largest seasonal workforces by State, with a U.S. territory total, foreign country total, and grand total. Each agency total was figured independently and then added to make the grand total. Note: These data exclude the U.S. Postal Service, Tennessee Valley Authority, and several other smaller agencies that do not participate in the Central Personnel Data File.

During peak employment periods throughout 2002, there were a total of 78,053 seasonal employees. During their seasonal periods, 79.0 percent worked full-time, 10.5 percent worked part-time, and 10.5 percent worked an intermittent work schedule.

Since 2000, peak seasonal employment grew by 4,167 or +5.6 percent due to increases in the Internal Revenue Services (+5,935) and National Forests (+2,655) which overcame the cutbacks in Census Bureau (-3,490) and Defense Education Activity (-2,293). The percentages by work schedule changed slightly, with more full-time and fewer intermittents.

Most seasonal employees worked for the Internal Revenue Service (34,096 or 43.7 percent of the 78,053 peak seasonal employees); Agriculture Department's Forest Service (12,861 or 16.5 percent) shown as "National Forests"; or in schools operated by the Department of Defense Education Activity (14,496 or 18.6 percent) and the Interior Department's Bureau of Indian Affairs (4,654 or 6.0 percent) shown as "Indian Schools."

Internal Revenue Service employed 34,096 seasonals in most States with 3,486 in Pennsylvania; 3,291 in New York; 3,101 in California; 3,042 in Texas; 2,747 in Kentucky; 2,673 in Utah; 2,666 in Tennessee; 2,581 in Georgia; 2,361 in Missouri; 2,016 in Oregon; 1,845 in Massachusetts; and 1,329 in South Dakota. Census Bureau had 474 seasonals, almost all in Indiana. Immigration and Naturalization Service had 448 seasonals in many locations; 102 of these were in New York.

The 14,496 seasonals in the Department of Defense Education Activity were mostly located overseas, primarily in Germany (4,909); Japan (2,792); Great Britain (837), Italy (705); and South Korea (605). The 4,645 seasonals in American Indian schools were mostly in New Mexico (1,754) and Arizona (1,230).

The 1,868 seasonal employees working in the National Parks were located throughout the United States and U.S. territories while the 12,861 working in National Forests were primarily located in the Pacific Northwest: 2,610 in California; 2,001 in Idaho; 1,582 in Oregon; 1,247 in Washington; 1,104 in Montana; and 1,002 in Utah. Bureau of Land Management had 903 seasonals including 200 in Oregon, 172 in Alaska, and 152 in Idaho. Army Corps of Engineers had 921 seasonals with 172 in Mississippi, 97 in Wisconsin, 96 in Tennessee, and 92 in Pennsylvania.

Agricultural Marketing Service had 2,742 seasonal employees with 662 in Texas, 516 in Tennessee, and 342 in Arkansas. Naval Sea Systems Command had 1,259 seasonals with 745 in Washington, 287 in Maine, and 225 in Virginia.

APPENDIX I

POPULATION COVERAGE, SURVEY CHANGES & DEFINITIONS

POPULATION COVERAGE

This survey publication covers all Federal civilian employees as of December 31, 2002, except for the following agencies and groups of employees (some exempt by law from personnel reporting requirements for reasons of security):

- a. Central Intelligence Agency
- b. National Security Agency
- c. Defense Intelligence Agency
- d. National Imagery and Mapping Agency
- e. Army / Air Force Exchange Service
- f. Consolidated Metropolitan Technical Personnel Center
- g. Defense Career Management and Support Agency
- h. Uniformed Services University of the Health Sciences
- i. Defense Counterintelligence Field Activity
- j. Seasonal employees (except Department of Defense Education Activity) due to their variation in numbers throughout the year. The 26,897 seasonal employees excluded from the December 2002 geographic survey were in the following agencies: 9,316 Treasury; 7,084 Agriculture; 5,873 Interior; 1,384 Navy; 1,265 Army; and 1,975 in other agencies.

The Office of Management and Budget determined that the Public Health Service's Commissioned Corps are military employees and not civilian employees. Therefore, Commissioned Corps will no longer be listed here as not reporting to the geographic survey.

SURVEY CHANGES

Agency changes between December 2000 and December 2002 are listed below.

New Agencies

- a. Commission on Ocean Policy (part of Legislative Branch)
- b. Delta Regional Authority
- c. Pentagon Force Protection Agency (part of Other Defense Agencies)
- d. United States-China Security Review Commission (part of Legislative Branch)
- e. Vietnam Education Foundation
- f. White House Commission on the National Moment of Remembrance
- g. Transportation Security Administration (part of the Department of Transportation) is a new subelement which had 68,680 employees.

Terminated Agencies

- a. National Education Goals Panel
- b. Presidential Advisory Commission on Holocaust Assets in the United States
- c. Trade Deficit Review Commission
- d. This list excludes four agencies that came and went between the 2000 and 2002 geographic survey.

Agency Title Changes

The U.S. Holocaust Memorial Council became the U.S. Holocaust Memorial Museum. One agency summarized under Other Defense Activities also had a title change.

State, U.S. Territory, or Foreign

Country coverage changed to add Yugoslavia and to drop Serbia and Montenegro.

County or Independent City coverage had two changes from the previous survey. The independent city (county-equivalent) of Clifton Forge, Virginia reverted to town status effective July 1, 2001; Clifton Forge is now an incorporated place within Alleghany County, rather than a separate county-equivalent surrounded by Alleghany County. Broomfield County, Colorado was created from parts of Adams, Boulder, Jefferson, and Weld Counties effective November 15, 2001; the boundaries of Broomfield County reflect the boundaries of Broomfield city legally in effect on November 15, 2001.

Metropolitan Area. The Office of Management and Budget issued revised statistical definitions for metropolitan areas effective June 30, 1999, and these were the definitions still effective for the December 31, 2002 survey.

There are 337 Metropolitan Statistical Areas (MSAs). For statistical analysis, 76 of the MSAs are combined into the 19 Consolidated Metropolitan Statistical Areas (CMSAs).

Pay System changes during 2001-2002 were new and terminated pay plans in the "Other" pay system category as listed below:

New Pay Plans

- a. AA - Administrative Appeals Judges
- b. EN - National Nuclear Security Administration Ed Service Only (for use by Department of Energy's National Nuclear Security Administration only)
- c. HU - Haskell Indian Nations University demonstration project (for Department of Interior's use only)
- d. IR - Internal Revenue Service Broadband Classification and Pay Systems Positions Only (for Department of Treasury's Internal Revenue Service only)
- e. NB - Office of the Comptroller of the Currency Only (for Department of Treasury's Office of the Comptroller of the

Currency only)

- f. SK - SEC employees formerly under the GS, GM, and EZ pay plans (for Securities and Exchange Commission only)
- g. SO - SEC employees formerly under the ES pay plan (for Securities and Exchange Commission only)
- h. SV - Transportation Security Administration employees other than Executives (for Department of Transportation's Transportation Security Administration only)
- i. SW - Transportation Security Administration Executives (for Department of Transportation's Transportation Security Administration only)

Terminated Pay Plans

- a. CZ - Canal Area General Schedule-type positions
- b. SZ - Canal Area Special Category-type positions
- c. WZ - Canal Area Wage System-type positions
- d. TW - Bureau of Engraving and Printing and U.S. Mint Police in Washington, DC, Only (for Treasury Department's Bureau of Engraving and Printing and U.S. Mint only)

U.S. Citizenship coverage was unchanged from the previous survey.

Work Schedule coverage was unchanged from the previous survey.

DEFINITIONS

Effective Date. Most data in this report are as of December 31, 2002.

Agency. For this report, an agency is any administration, authority, board, commission, committee, conference, corporation, council, department, foundation, independent agency, office, or tribunal whose civilian employees are paid from appropriated funds, and for whom a valid two-digit alphabetic identifying code exists (assigned by U.S. Office of Personnel Management when new agency is staffed).

Although some departments refer to their major subelements as "agencies," these subelements are not separately classed as agencies in this report. Subelement data are available in this report only for the Department of Defense and for the special analysis of the seasonal workforce.

Geographic Area. Employment data are based on where employees work (duty location). OPM does not collect data on employee place of residence. Agencies report place of employment using standard geographic location codes defined by the General Services Administration. These codes reflect Federal Information Processing Standards issued by the National Institute of Standards and Technology in the Department of Commerce. This report includes the location of Unspecified State. About two-thirds (62 percent) of the "unspecified" State data are the employees of the Judicial Branch located outside the Washington, DC-MD-VA-WV Metropolitan Statistical Area. Over one-third (36 percent) of the "unspecified" State data are the employees of the Justice Department's Federal Bureau of Investigation which, for employee security reasons, does not report duty locations outside the Washington, DC-MD-VA-WV MSA.

This report presents data by State, U.S. territory, and foreign country. U.S. territories refer to all outlying areas of the United States, including territories, commonwealths, protectorates, dependencies, etc. U.S. territories now include: American Samoa, Guam, Johnston Atoll, Midway Islands, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands, Wake Island, and miscellaneous Pacific islands such as Baker, Howland, Jarvis, and Navassa Islands, Kingman Reef and Palmyra Atoll. No Federal civilian employment was reported from the miscellaneous Pacific Islands.

Table 5 shows detailed data by counties within States. Counties include county-equivalent areas such as Alaska boroughs, Alaska census areas, Louisiana parishes, and Virginia independent cities. The survey also collected data by city or place; those data are not published but are available from the survey manager.

Tables 2 and 4 present data by Metropolitan Statistical Area, an integrated economic and social unit with a recognized large population nucleus; these areas are defined in Federal Information Processing Standards (FIPS) Publication 8-6. There are 337 Metropolitan Statistical Areas (MSAs) with a city of at least 50,000 population or an urbanized area with at least 50,000 population and a total metropolitan area population of at least 100,000 (75,000 in New England). For statistical analysis, 76 of the MSAs are combined into the 19 Consolidated Metropolitan Statistical Areas (CMSAs) with more than one million population and meeting certain other specified requirements.

Pay System Category. This report presents employment by four categories called "pay systems": General Schedule, Wage, Postal Service, and a residual "Other" category. Each system represents a combination of two or more individual pay plans. The General Schedule system includes the General Schedule pay plan, the principal pay plan covering white-collar employees in the Federal Government, and the pay plan for employees covered by the Performance Management and Recognition System (PMRS) termination procedures. The Wage System encompasses most blue-collar employees and supervisors, generally paid at rates prevailing in the localities where they work. The Postal Service system covers all employees paid under postal pay schedules (plans), which includes all U.S. Postal Service and Postal Rate Commission employees. The remaining pay plans not included in one of these three major systems make up the "Other" category. Some examples are the Executive Schedule, the Senior Executive Service, pay plans for positions whose rates of pay are administratively determined, Foreign Service pay plans, and doctor and nurses schedules (pay plans) in the Department of Veterans Affairs.

U.S. Citizenship. Tables 6 and 7 show the U.S. citizenship of Federal civilian employees working overseas. Employees are identified as either U.S. citizens or noncitizens of the United States. Residents born in Guam, Puerto Rico, and the U.S. Virgin Islands have U.S. citizenship. Natives of American Samoa and Swains Island are not U.S. citizens but, as a group, owe permanent allegiance to the United States; they are identified

as U.S. citizens in this report.

Work Schedule. Beginning with the 1979 survey, detailed work schedule information by agency on the Federal civilian workforce is available for States, counties, cities, and MSAs, although this report includes only a summary table. Work schedule identifies full-time, part-time, and intermittent employees, as defined below:

Full-time includes those employees regularly scheduled to work the number of hours and days required by the administrative workweek for their employment group or class. Most full-time employees have an administrative workweek of five days of eight hours each.

Part-Time includes those employees regularly scheduled to work less than the number of hours and days required by the administrative workweek for their employment group or class. Those part-time employees hired before April 8, 1979, could be scheduled for any number of hours less than 40 per week. Beginning April 8, 1979, permanent part-time employees could not be scheduled for more than 32 hours per week and could be scheduled for less than 16 hours per week only under unusual circumstances.

Intermittent includes those employees employed on an irregular or occasional basis, whose hours or days are not on a prearranged schedule, and who receive pay only for the time actually employed or for services actually performed.

Please note that seasonal employees, except for the Department of Defense Education Activity, are not included in the main geographic survey tables. Seasonal employees work less than 12 months a year on an annually recurring basis; seasonal employees may work a full-time, part-time, or intermittent work schedule when on duty.

APPENDIX II

DATA SOURCES, SURVEY METHODOLOGY & ERROR ANALYSIS

ACKNOWLEDGMENTS

The project manager for this report was statistician Christine E. Steele. The survey and publication were prepared under the direction of Deputy Associate Director Nancy H. Kichak and Group Manager Gary A. Lukowski. We gratefully acknowledge the contributions of Zoraida V. Arledge, Eulus S. Moore, Randall T. Matke, Matthew S. Walters, and Carol W. Goodroe.

INTRODUCTION

Associated with every statistical survey are different types of errors affecting each stage of the survey, from initial data collection to the printing of the publication. This Appendix covers areas of potential errors arising from various survey operations. When possible, we estimated the size of the error. When no information was available about the sources and potential impact of error, we noted it. We did not attempt to determine how the errors interact. The user of this publication should consider the various data limitations discussed below.

DATA SOURCES

Most of the data in this publication came from the Central Personnel Data File; Federal agencies reported the additional data. These two data sources are described briefly below.

Central Personnel Data File. The Central Personnel Data File (CPDF), started in 1972 and maintained by the U.S. Office of Personnel Management (OPM), is an automated system of individual records for most Federal civilian employees. It is updated quarterly from data submitted by agency input of employment status files. We edit all input files for validity, and insert

functional blanks into data fields with errors. In December 2002, CPDF contained 1,843,738 active records on non-Postal Federal civilian employees.

Non-CPDF Data Collection. Non-CPDF data were collected through three procedures. First, the U.S. Postal Service (USPS) and Tennessee Valley Authority submitted individual employee records on magnetic tape; we converted these data to the CPDF record format. Second, most of the other non-CPDF agencies and the CPDF agencies with foreign nationals employed overseas submitted summarized data on OPM Form 1312 with geographic location, pay system category, work schedule (if located in United States), and U.S. citizenship (if located overseas). Third, we generated geographic survey data for the Congress, Architect of the Capitol, Botanic Gardens, Library of Congress, General Accounting Office, Congressional Budget Office, Office of Compliance, U.S. Court of Appeals for Veterans Claims, Commission on Security and Cooperation in Europe, Judicial Branch, White House Office, Office of the Vice President, Office of Policy Development, Board of Governors of the Federal Reserve System, Postal Rate Commission, Panama Canal Commission, Vietnam Education Foundation, and White House Commission on the National Moment of Remembrance, mostly from their December 2002 Monthly Report of Federal Civilian Employment (SF 113-A).

DATA CORRECTIONS

Automated Edits. Records for all active employees were extracted from the CPDF file excluding seasonal employees (other than the 13,589 teachers and staff with the Department of Defense Education Activity which were included). Special extracts were prepared from CPDF to reflect the seasonal workforces (see pages 12-14).

Special processing was done for the CPDF data by matching CPDF records with unspecified geographic location against the CPDF error files (from CPDF edits) to substitute back in the original geographic location and U.S. citizenship code. These geographic locations were rejected again by the subsequent geographic survey edits but we had data which could be corrected (cannot correct unspecified data).

After the above special processing, CPDF records along with all the other data submitted for the survey were edited by an automated procedure to meet criteria specific to this report. The edits identify and reject all employee records with unspecified or invalid data for geographic location, U.S. citizenship (for overseas locations), work schedule (for USA locations), pay plan, agency, and agency subelement (for Defense Department in the main survey and for other agencies in the special analysis of the seasonal workforce).

Corrections. We analyzed the error listings and made 15,980 corrections to increase the coverage of the report and insure the most accurate representation of the status of agencies and employment. No corrections were needed for agency or U.S. citizenship codes. Defense subelement was corrected for three records. The 432 CPDF records with unspecified pay plan were assigned to "other" pay plans. Unspecified work schedule was changed to full-time for three employee records.

The unspecified State code 99 was assigned for 4 unspecified or erroneous geographic locations. State code was corrected for 2 records. U.S. Territory codes were corrected for 12 while 599 erroneous foreign country codes in agency reports were corrected. County codes were updated for

12,589 (mostly U.S. Postal Service). City errors were corrected for 88 with name available in agency reports; the other 2,248 city or place code errors (mostly U.S. Postal Service) were changed to unspecified.

BENCHMARKS

Table I below shows the distribution of records used for the December 2002 survey (after making all data corrections) compared to benchmarks (BM).

Table I: Geographic Survey Benchmarks

Source	Survey	Benchmark	% of BM
CPDF	1,816,839	1,850,827	98.16
USPS	881,491	820,749	107.40
Agencies	75,646	77,725	97.33
Noncitizens			
Overseas	25,691	25,879	99.27
Total	2,799,667	2,775,180	100.88

This survey achieved 100.88 percent coverage worldwide when benchmarked against December 2002 data collected on the Monthly Report of Federal Civilian Employment (Standard Form 113-A). Data in this survey were benchmarked against the December 2002 113-A data adjusted to geographic survey coverage by including all intermittent employees.

Some agency survey totals were more than 5 percent different from their benchmark totals. Most were small agencies with small actual differences which yielded percentage differences greater than 5 percent. Treasury, Agriculture, Interior, and Small Business Administration survey totals were more than 5 percent lower than their benchmark totals because the survey excludes their seasonal employees. U.S. Postal Service data includes inactives.

After completion of all the editing and data corrections, we merged the accepted CPDF and non-CPDF data and improved place names for 343 records in five locations. The statistical table outputs were then generated. Checks were made for consistency among the reports for the current

survey. The 2002 data were also compared with the 2000 survey data. Differences in category totals more than 5 percent above or below the overall change were investigated to determine the cause of 2000 to 2002 changes.

SOURCES OF ERROR

Data Collection. Each quarter, all Federal agencies participating in the CPDF system update their agency files to document their employees' status. Timely file submission by the agencies may be prevented by the loss of automated input in transit to our agency or by system problems within the submitting agency.

To measure the completeness of agency employment reflected by the December 2002 Central Personnel Data File, the number of employee records by agency extracted for the survey was compared with the employment counts by agency (including all intermittents and excluding foreign nationals employed overseas) from an independent reporting system, the Monthly Report of Federal Civilian Employment (SF 113-A system). Comparing the 1,816,839 CPDF records available for the survey against the 1,850,827 adjusted 113-A data for the same agencies yielded a 1.8 percent difference. This difference is due to the 26,897 seasonals not in the main survey, definitional differences (such as effective dates) between the CPDF and 113-A populations, and miscellaneous reporting errors and processing errors in both the CPDF and 113-A data collection systems.

Survey Processing Errors. All known errors in the edit programs, edit lookup tables, and report programs were corrected.

Excluded Records. The main survey excluded these employee records: 26,897 seasonal employees as of December 31, 2002 (other than the Department of Defense Education Activity).

Data Quality. A September 1994 CPDF Accuracy Survey estimated the percentage of valid (passes CPDF system edits) but inaccurate (differs from the Official Personnel Folder record) data contained in the CPDF. The following Table II shows Governmentwide estimates for the key data elements included in the Geographic Survey.

Table II: Data Element Error Rates
(September 1994 CPDF Accuracy Survey)

Data Element	Percentage Error
Agency	0.7
Pay Plan	0.7
Work Schedule	0.7
Location	0.0
Pay Status	0.0
U.S. Citizenship	0.0

The results of the most recent CPDF accuracy evaluation show the percentage of valid but inaccurate data is about 1 percent for agency (all errors in agency subelement), pay plan (used for assigning pay system category), and work schedule and zero percent for geographic location, pay status (used for extracting CPDF employees in pay status), and U.S. citizenship.

The results of that CPDF data element evaluation cannot be directly applied to this Geographic Survey data because of timeframe and definitional differences in the survey populations; however, these presented results give an overall indication of the quality of the data in this publication. The quality of the non-CPDF data has not been measured.

Data Definition Changes. Appendix I covers the changes in definitions and coverage of agency, geographic location, and pay system since the previous survey; these changes can affect 2000 to 2002 data comparisons.

Redefinitions of a data element are a source of error that can be difficult to measure. New work schedule codes for seasonal employees were effective October 1981 and new work schedule codes for on-call employees were effective November 1985. Agencies had to identify these employees and submit work schedule code corrections for them. Further-more, the agencies have to process personnel actions at the beginning and end of each work season to activate and de-activate seasonal employees; failure to do so is another potential source of error.
