

Camp Spiecher

This has truly been the best assignment I have had in my military career. I love the US Army Corps of Engineers' compound with the wet CHU's and the conveniences of home. I've meet so many wonderful people, I wish I could pack you all up and take you back to Fort Sill, Oklahoma with me. "Bless your Hearts".

To my wife, Teresa...thank you for your support from the home front. You make my heart beat; and to my babies...you three are my lifeline.

To my co-workers: Christine...impressive speech! Evelyn...my motivator, my role model and

my mentor. Jodelle...makes me want to sing and dance. Levonson...my entertainment and History teacher. Mike (Old School)...my walking partner. Julie...taught me how to reflect on *self*.

Thank you...I will miss you all.
