Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION. 1. This Act may be cited as the "Water Resources Planning Act".

(42 U.S.C. 1962 nt)

STATEMENT OF POLICY

SEC. 2. In order to meet the rapidly expanding demands for water throughout the Nation, it is hereby declared to be the policy of the Congress to encourage the conservation, development, and utilization of water and related land resources of the United States on a comprehensive and coordinated basis by the Federal Government, States, localities, and private enterprise with the cooperation of all affected Federal agencies, States, local governments, individuals, corporations, business enterprises, and others concerned.

(42 U.S.C. 1962)

EFFECT ON EXISTING LAWS

SEC. 3. Nothing in this Act shall be construed—

(a) to expand or diminish either Federal or State jurisdiction, responsibility, or rights in the field of water resources planning, development, or control; nor to displace, supersede, limit or modify any interstate compact or the jurisdiction or responsibility of any legally established joint or common agency of two or more States, or of two or more States and the Federal Government; nor to limit the authority of Congress to authorize and fund projects;

(b) to change or otherwise affect the authority or responsibility of any Federal official in the discharge of the duties of his office except as required to carry out the provisions of this Act with respect to the preparation and review of comprehensive regional or river basin plans and the formulation and evaluation of Federal water and related land resources projects;

(c) as superseding, modifying, or repealing existing laws applicable to the various Federal agencies which are authorized to develop or participate in the development of water and related land resources or to exercise licensing or regulatory functions in relation thereto, except as required to carry out the provisions of this Act; nor to affect the jurisdiction, powers, or prerogatives of the International Joint Commission, United States and Canada, the Permanent Engineering Board and the United States Operating Entity or Entities established pursuant to the Columbia River Basin Treaty, signed at Washington, January 17, 1961, or the International Boundary and Water Commission, United States and Mexico;

(d) as authorizing any entity established or acting under the provisions hereof to study, plan, or recommend the transfer of waters between areas under the jurisdiction of more than one river basin commission or entity performing the function of a river basin commission.

(42 U.S.C. 1962-1)

TITLE I—WATER RESOURCES COUNCIL

SEC. 101. There is hereby established a Water Resources Council (hereinafter referred to as the "Council") which shall be composed of the Secretary of the Interior, the Secretary of Agriculture, the Secretary of the Army, the Secretary of Commerce, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Administrator of the Environmental Protection Agency, and the Chairman of the Federal Power Commission. The Chairman of the Council shall request the heads of other Federal agencies to participate with the Council when matters affecting their responsibilities are considered by the Council. The Chairman of the Council shall be designated by the President.

(42 U.S.C. 1962a)

SEC. 102. The Council shall—

(a) maintain a continuing study and prepare an assessment biennially, or at such less frequent intervals as the Council may determine, of the adequacy of supplies of water necessary to meet the water requirements in each water resource region in the United States and the national interest therein; and

(b) maintain a continuing study of the relation of regional or river basin plans and programs to the requirements of larger regions of the Nation and of the adequacy of administrative and statutory means for the coordination of the water and related land resources policies and programs of the several Federal agencies; it shall appraise the adequacy of existing and proposed policies and programs to meet such requirements; and it shall make recommendations to the President with respect to Federal policies and programs.

(42 U.S.C. 1962a-1)

SEC. 103. (a) The Council shall establish, after such consultation with other interested entities, both Federal and non-Federal,

as the Council may find appropriate, and with the approval of the President, principles, standards, and procedures for Federal participants in the preparation of comprehensive regional or river basin plans and for the formulation and evaluation of Federal water and related land resources projects. Such procedures may include provision for Council revision of plans for Federal projects intended to be proposed in any plan or revision thereof being prepared by a river basin planning commission.

(b) The Council shall develop standards and criteria for economic evaluation of water resource projects. For the purpose of those standards and criteria, the primary direct navigation benefits of a water resource project are defined as the product of the savings to shippers using the waterway and the estimated traffic that would use the waterway. "Savings to shippers" means the difference between (1) the freight rates or charges prevailing at the time of the study for the movement by the alternative means, and (2) those which would be charged on the proposed waterway. Estimated traffic that would use the waterway will be based on those freight rates, taking into account projections of the economic growth of the area.

(42 U.S.C. 1962a-2)

SEC. 104. Upon receipt of a plan or revision thereof from any river basin commission under the provisions of section 204(3) of this Act, the Council shall review the plan or revision with special regard to—

(1) the efficacy of such plan or revision in achieving optimum use of the water and related land resources in the area involved;

(2) the effect of the plan on the achievement of other programs for the development of agricultural, urban, energy, industrial, recreational, fish and wildlife, and other resources of the entire Nation; and

(3) the contributions which such plan or revision will make in obtaining the Nation's economic and social goals.

Based on such review the Council shall—

(a) formulate such recommendations as it deems desirable in the national interest; and

(b) transmit its recommendations, together with the plan or revision of the river basin commission and the views, comments and recommendations with respect to such plan or revision submitted by any Federal agency, Governor, interstate commission, or United States section of an international commission, to the President for his review and transmittal to the Congress with his recommendations in regard to authorization of Federal projects.

(42 U.S.C. 1962a-3)

SEC. 105. (a) For the purpose of carrying out the provisions of this Act, the Council may: (1) hold such hearings, sit and act at such times and places, take such testimony, receive such evidence, and print or otherwise reproduce and distribute so much of its proceedings and reports thereon as it may deem advisable; (2) acquire, furnish, and equip such office space as is necessary; (3) use the

United States mails in the same manner and upon the same conditions as other departments and agencies of the United States; (4) employ and fix the compensation of such personnel as it deems advisable, in accordance with the civil service laws and Classification Act of 1949, as amended; (5) procure services as authorized by section 15 of the Act of August 2, 1946 (5 U.S.C. 55a), at rates not in excess of the daily equivalent of the rate prescribed for grade GS-18 under section 5332 of title 5 of the United States Code in the case of individual experts or consultants;¹ (6) purchase, hire, operate, and maintain passenger motor vehicles; and (7) incur such necessary expenses and exercise such other powers as are consistent with and reasonably required to perform its functions under this Act.

(b) Any member of the Council is authorized to administer oaths when it is determined by a majority of the Council that testimony shall be taken or evidence received under oath.

(c) To the extent permitted by law, all appropriate records and papers of the Council may be made available for public inspection during ordinary office hours.

(d) Upon request of the Council, the head of any Federal department or agency is authorized (1) to furnish to the Council such information as may be necessary for carrying out its functions and as may be available to or procurable by such department or agency, and (2) to detail to temporary duty with such Council on a reimbursable basis such personnel within his administrative jurisdiction as it may need or believe to be useful for carrying out its function, each such detail to be without loss of seniority, pay, or other employee status.

(e) The Council shall be responsible for (1) the appointment and supervision of personnel, (2) the assignment of duties and responsibilities among such personnel, and (3) the use and expenditures of funds.

(42 U.S.C. 1962a-4)

A commission shall terminate upon decision of the Council or agreement of a majority of the States composing the commission. Upon such termination, all property, assets, and records of the commission shall thereafter be turned over to such agencies of the United States and the participating States as shall be appropriate in the circumstances: *Provided*, That studies, data, and other materials useful in water and related land resources planning to any of the participants shall be kept freely available to all such participants.

(b) State members of each commission shall elect a vice chairman, who shall serve also as chairman and coordinating officer of the State members of the commission and who shall represent the State governments in Federal-State relations on the commission.
