MILWAUKEE †, pop. *203,979; MILWAUKEE Co. (S.E.) , pop. *241,460. On Lake Michigan, at m. of Milwaukee R., 30 m. N. of Chicago, 80 m. E. of Madison. Milw. & N. W. & N. West.; Chic., Milw. & St. P.; Wis. Cent.; Milw., Lake Sh. & West. R.Rs. Tel. Adams; U. S.; Amer.; Nor. Pac. Exp. A port of entry, and the largest city in the State. The manufacturing interests here are numerous and extensive. The Bay View Rolling Mills employ nearly 2000 men, the E. P. Allis machine shops about 1500. Knit goods are very extensively produced. Flour is also manufactured in very great quantities. The mammoth breweries produce annually over 1,000,000 barrels of beer. Other important products are leather, lumber, boots and shoes, carriages, furniture, tobacco and cigars. Milwaukee has an excellent harbor and a very large shipping trade, being among the greatest grain markets in the world. Its wheat shipments are over 9,000,000 bushels annually, and large quantities of corn, barley, oats, rye, flour, and lumber are handled. Here are a State Normal School, an Industrial School for Girls, and, in the vicinity, a National Soldiers' Home.

NEWSPAPERS
—OF THE—
UNITED STATES AND CANADA
ARRANGED BY COUNTIES.

A COMPLETE CATALOGUE OF ALL PAPERS IN WHATEVER LANGUAGE PUBLISHED
IN THE UNITED STATES, TERRITORIES, AND DOMINION OF CANADA, WHICH
INSERT ADVERTISEMENTS, ARRANGED ALPHABETICALLY BY COUNTIES
AND STATES, GIVING THE LOCATION, NATURAL FEATURES, CHIEF PRO-
DUCTS AND MANUFACTURES, COUNTY SEAT, POPULATION, AND VOTE BY
PARTIES AT THE LATEST PRESIDENTIAL ELECTION OF EACH STATE, TERRI-
TORY, AND COUNTY IN THE UNITED STATES, AND THE GENERAL CHAR-
ACTERISTICS AND CIRCULATION OF EACH PAPER ACCORDING TO THE LAT-
EST AND BEST OBTAINABLE INFORMATION.

Populations in the United States preceded by an asterisk (*) are from the U. S. Census of 1890; all others are the same as given in the edition for 1889, no information having been received in time for publication. Canadian populations are from the Census of 1881.

Circulations for which affidavits have been furnished are designated by an asterisk (*); those furnished by publishers, but not sworn to, are designated by a double-dagger (‡); those unmarked are estimated.

When statement of circulation is omitted, we have been unable to obtain any satisfactory information, or the paper was established during the current year, or entered for the first time in the ANNUAL, or else is issued for advertising purposes, in which latter case "adv." is placed in the circulation column. The word "decline" indicates that the publishers have declined or objected to furnish any statement for publication.

County Seats are indicated by a dagger (†). Unless otherwise specified the papers are issued weekly.

ALABAMA.

Population *1,550,000.....Dem. Plur. in 1888, 61,123

Dem. vote, 117,320; Rep. 56,197; Prohib. 533.

STATE CAPITAL, MONTGOMERY.

ALABAMA is bounded north by Tennessee, east by Georgia and Florida, south by Florida and the Gulf of Mexico, and west by Mississippi. Its extreme length north to south is 336 miles, breadth varying from about 150 to 200 miles; land area, 51,540 square miles. The Alleghany range enters the State at the northeast, and extends toward the centre, finally losing itself in mere hills; then follows a tract of rolling prairies, interspersed with pine barrens and exceedingly rich alluvial bottoms, including the cane brake region, one of the richest cotton producing districts in the world. From this to the Florida border and the Gulf the land is generally flat. This part is thinly settled, and is mostly covered with pine forests, which are of great value, while the product of naval stores here is very considerable. North of this is the broad belt of rich black soil, a space of several miles in breadth, constituting the great cotton producing section of the State. The soil then becomes sandy and poor, but abundant water power renders it capable of becoming a fine manufacturing district. The mineral region occupies the northeast part, while the northwest is a good agricultural and stock raising country. The mountain district and the valley of the Tennessee possess fine forests of hardwood timber. Cotton is grown throughout the State, but mainly in the central belt alluded to; tobacco chiefly in the north; very fine wheat in the north and north east; rice in the south; corn largely all over the State. Dairy products, fruits, wool, oats, and sweet potatoes are produced in considerable quantities. Manufactures have been unimportant until lately, when considerable increase has been manifested, but agriculture is by far the leading industry, though it is somewhat rapidly declining in comparative importance. The chief manufactures are flour, lumber, leather, cotton goods and cotton gins, thread and yarn, iron and machinery, that of iron and its products having enormously increased within the past few years. Commerce centres at Mobile. Cotton and lumber are the chief exports. In the year ending Aug. 30th, 1889, 230,680 bales of cotton were received at Mobile, while the export of lumber aggregated 48,284,162 feet. The total value of exports was \$3,192,997. Extensive beds of brown hematite of an excellent quality are found in Bibb, Cleburne, Jefferson, St. Clair, Shelby, and Talladega Counties. Jefferson County is the main seat of the iron production. There are other extensive beds of ore. The coal fields contain thick fields of bituminous coal of several kinds; considerable gold has been mined; silver and copper are also found; potter's, porcelain and fire clays, hydraulic limestone, manganese and many other minerals exist in considerable quantities; there are various building stones. The statuary granite and white marble of Coosa County and the variegated marbles of Talladega and adjacent counties are not surpassed by any in the country.

There are 66 Counties in Alabama. Newspapers are published in 65.—Cities, towns, and villages in which papers are published number 115, of which 65 designated by a dagger (†) are county seats. Of the 206 papers published in the State, 17 are daily, 3 semi-weekly, 172 weekly, 1 fortnightly, 4 semi-monthly, and 9 monthly.

ARIZONA.

Population *59,601.....Dem. Maj. in 1888, 3,834 (Congressional)

Dem. vote, 7,686; Rep. 3,852.

TERRITORIAL CAPITAL, PHENIX.

ARIZONA is bounded north by Utah and Nevada, south by Mexico, east by New Mexico, and west by California and Nevada; length, north to south, about 400 miles, breadth averaging about 300 miles; land area, 112,920 square miles. It lies entirely within the Valley of the Colorado, which stream forms nearly all the western boundary. The streams generally flow through deeply eroded chasms, among them being the remarkable "Grand Canon of the Colorado." The soil is very fertile when irrigated, even on the alkaline plains; and the mountain lands are well adapted to stock raising and wool growing. Wheat, barley, and corn appear to be the principal crops; Sugar cane has been successfully cultivated in the southwest; but pastoral occupations are better suited to the country, and more profitable than strictly agricultural pursuits. With the increase in the number of irrigating canals, of which there are said to be now 400 miles, representing a cost of \$1,000,000, a corresponding increase may be looked for in land subjected to tillage, of which there are millions of acres suited to the growth of every variety of grasses, grains, fruits and vegetables grown in the temperate and semi-tropic zones, and which only require irrigation to make them yield abundantly. The chief wealth of the Territory, however, lies in its mineral deposits. Gold, silver, lead, copper, iron, cinnabar, salt, borax, etc., abound, and the mining and working of gold and silver ores is at present the leading industry. The product of gold and silver in 1888 was valued at \$5,123,868, of copper and lead at \$2,500,000, of which 95 per cent. was copper. There are valuable deposits of coal and iron, which await the extension of railroads to be developed. The length of railroad lines in 1889 was 1,093 miles; taxable property of the Territory valued at \$26,575,692.

There are 10 Counties in Arizona. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 15, of which 10 designated by a dagger (†) are county seats. Of the 34 papers published in the Territory, 9 are daily, and 25 weekly.

ARKANSAS.

Population *1,043,000.....Dem. Plur. in 1888, 27,210

Dem. vote, 85,962; Rep. 58,752; Union Labor, 10,613; Prohib. 614

STATE CAPITAL, LITTLE ROCK.

ARKANSAS is bounded north by Missouri, east by Missouri, Tennessee, and Mississippi, south by Louisiana, southwest by Texas, and west by the Indian Territory; greatest length from north to south, 240 miles, and breadth from 170 to 250 miles; land area, 53,045 square miles. The eastern part is low and level, with dense forests and many swamps and lakes, and is frequently more or less inundated by the Mississippi, Arkansas, and other rivers. The surface rises toward the centre, where it is hilly and diversified with forests and rolling prairies. Further west are branches of the Ozark Mountains, comprising the Black Hills in the north, Cane Hills in the northwest, and the Ouachita Hills in the south. The Valley of the St. Francis, in the northeast, is nearly all swamp; the Valley of the Arkansas, from the Indian Territory line entirely across the State, is unsurpassed as a cotton producing country; the Valley of the White in the north, abounding in forests, is also rich in agriculture; in the southern part of the State are the Saline, Ouachita, Little Missouri and Red rivers, while in the southeast the Bayou Bartholomew makes a large country tributary to the Mississippi River. The soil is very varied. The river bottoms are very fertile, and yield large crops of cotton, corn, sweet potatoes, tobacco and fruit. The soil is less productive on the uplands, but in many places, particularly north, produces good crops of wheat, oats, and fruit, especially apples. Cotton is the chief staple; corn next. Hay is an important crop. Stock raising is growing rapidly, the mild winters being highly beneficial to stock, and the cost of "keeping up" stock thus avoided. The principal manufactures are cotton seed oil, flour and grist mill products, cotton gins, leather, wool carding, and lumber. The State estimate of taxable property for 1888 was \$154,000,000, the railroad property being valued at \$18,106,558. In the absence of any statistics from official sources it may be said that the manufacturing and agricultural interests have very largely increased since 1880, while the transfer of timber into merchantable lumber has grown to wonderful proportions. The production of black walnut lumber for cabinet purposes is an important industry. The value of the lumber product of 1888 was estimated at \$17,000,000, in 1880 it was nothing. In the matter of ores, mechanical and precious, Arkansas is coming to the front as one of the greatest of ore producing States, and millions of dollars are now being used in their development. As a fruit country the northwestern part of Arkansas is unrivalled, especially as to apples. There are now nearly 2,000 miles of railroads where there were only a little over 500 in 1880, and perhaps as many more miles have been surveyed or are in process of construction. Coal, argentiferous galena, zinc, copper, and iron, marble, grind stone, granite, and kaolin are among the minerals. Good coal is mined in Crawford, Conway, Franklin, Johnson, Perry, Pope, Pulaski, Sebastian, Scott, Washington, White, and Yell Counties. Silver is found in connection with galena in Pulaski and Sevier Counties, and with lead in Benton, Carroll, Independence, Izard, Lawrence, Madison, Marion, Newton, Pulaski, Randolph, Searcy, and Washington Counties; excellent marble, especially in Madison County. Slate for all purposes is quarried in Pike, Pulaski, Polk, Garland and Sevier Counties; Garland County has extensive quarries of Arkansas hone or oil-stone. In Pulaski County, a few miles south of Little Rock, very extensive quarries of blue granite have been opened up within the past year, and valuable discoveries of iron have also been made. Among the mineral springs, the "Hot Springs of Arkansas," at Hot Springs, Garland County, are the most renowned.

There are 75 Counties in Arkansas. Newspapers are published in all.—Cities, towns and villages in which papers are published number 119, of which 70 designated by a dagger (†) are county-seats. Of the 211 papers published in the State, 15 are daily, 1 semi-weekly, 191 weekly, and 4 monthly.

CALIFORNIA.

Population *1,342,000.....Rep. Plur. in 1888, 7,087

Rep. vote, 124,816; Dem. 117,729; Prohib. 5,761; American, 1,591.

STATE CAPITAL, SACRAMENTO CITY.

CALIFORNIA is bounded north by Oregon, east by Nevada and Arizona, south by Lower California, and west by the Pacific Ocean. A line drawn through its centre, following the curves of the eastern and western borders, would measure about 770 miles. Its greatest breadth is about 330 miles; least breadth, 150 miles; average breadth, 230 miles; land area, 155,980 square miles. It is the largest State in the Union except Texas. The surface is traversed by two great ranges, the Sierra Nevada in the east and the Coast Range in the west, while between them is the beautiful and fertile valley of the rivers Sacramento and San Joaquin. The Yosemite and other valleys are on the western slope of the Sierra Nevadas, and the eastern slope teems with minerals. The north is an elevated mountain region, with a rugged surface and poor soil. The soil of a large part of the State is very deep and rich, and the yield of agricultural products generally is very great. Irrigation is needed in many parts of the state, particularly in the southern portion and is being rapidly introduced. Not less than 3,000,000 acres have been reclaimed in this manner, and the reservoirs and ditches are being extensively added to. For every kind of fruit that grows in semi-tropical and temperate climates, California is, in soil and climate, pre-eminently favorable. The wheat crop ranges from 20,000,000 to 24,000,000 bushels a year. Barley in 1887, reached 40,000,000 bushels. Cattle and sheep are largely raised, the cattle in 1888 numbering 504,307. Sheep, 3,926,673. The wool clip of 1889 was estimated at 33,500,000 pounds. The yield of raisins in 1887 was 20,000,000 pounds, and the estimated yield of wine for 1888 was 17,000,000 gallons, of brandy 400,000 gallons and of grapes 600,000 pounds. Dried fruits are extensively produced; oranges, lemons, and other tropical fruits, and honey, are raised in the south, and tobacco, corn, barley, and hops in various parts of the State. Beet root, for conversion into sugar, is being profitably raised. The olive is attracting a great deal of attention, and justly so, as the State furnishes on its hills and mountain slopes the soil exactly suited to its production, and it is believed that in a few years the California olive groves will rival those of the Mediterranean. Indeed, California is famous for her wheat, wool, vineyard produce, and agricultural products generally, scarcely less than for her yield of the precious metals. The estimated production of gold and silver in 1887 was \$20,000,000, of quicksilver nearly 600,000 pounds, and of petroleum, 12,400,000 gallons, while natural gas has been discovered at Stockton, Santa Barbara, Redwood City and other points. There are numerous other minerals, including valuable deposits of lead, copper, iron, chromium, antimony, borax, rock salt, soda, potash, sulphur etc. Manufacturing interests are growing rapidly, the principal being lumber, flour, woolens, wine, brandy, tobacco, cigars, machinery, and metallic wares. The annual value of the fishing interest is about \$6,000,000. The assessed value of the taxable property in 1889 was \$1,102,059,276; Length of railroads, 1887, 5,766 miles.

There are 53 Counties in California. Newspapers are published in 52.—Cities, towns, and villages in which papers are published number 204, of which 51 designated by a dagger (†) are county seats. Of the 554 papers published in the State, 88 are daily, 11 semi-weekly, 402 weekly, 1 fortnightly, 6 semi-monthly and 46 monthly.

COLORADO.

Population *410,267.....Rep. Plur. in 1888, 13,207

Rep. vote, 50,774; Dem. 37,567; Prohib. 2,191; Union Labor, 1,266.

STATE CAPITAL, DENVER.

COLORADO is bounded north by Nebraska and Wyoming Territory, east by Nebraska and Kansas, south by the Indian Territory and New Mexico, and west by Utah. Average length from east to west 380 miles, breadth, 280 miles; land area, 103,645 square miles. The surface consists of three divisions—the mountains and parks, the foot-hills, and the plains. It is intersected near the center by the Sierra Madre Range of the Rocky Mountains, including the highest peaks, among which are Pike's and Long's Peaks, Mts. Torrey, Lincoln, Gray, Yale, Harvard, the Spanish Peaks, etc. The mountains enclose the wonderful valleys or basins known as parks, many of which are small, but others larger than some entire States. These parks are well timbered, and abound with beautiful scenery, being diversified with low hills and ridges, which contain the sources of all the great rivers that rise in the State. The eastern part of Colorado is an immense plain, well adapted to stock raising. Agriculture is being carried on to a greater extent than ever before. Extensive irrigating ditches have been constructed; and are being rapidly added to, both in the river valleys of the west, and along the Arkansas in the east. The total length of canals at the present time is nearly 4,000 miles; acres irrigated, over 2,000,000. Where water can be had the soil is very productive. The leading farm products are wheat, corn, barley, oats, hay, potatoes, fruits, garden and dairy products. In 1888 the yield of wheat was 2,516,843 bushels, of oats 1,565,385, of corn, 908,224, and of potatoes 2,856,864. Cattle raising and sheep farming are the chief agricultural pursuits. In 1888 there were estimated to be 2,000,000 sheep, and 1,500,000 cattle, while the wool clip was nearly 10,000,000 pounds. Lumbering is an important industry, but the mining of gold, silver, and other metals is the chief source of wealth. The output of gold and silver for 1888 was \$23,031,047; of lead \$7,006,691. Large beds of lignite, of good quality, exist, the total extent of coal bearing strata in the state being estimated at more than 26,000,000 acres, or as large as all England. In 1888 there were produced 2,185,477 tons of coal. Petroleum has been discovered, and thirty wells have been opened near Florence. Copper, cement, fire clay, and manganese are worked to some extent, while the iron of the state is manufactured into steel and iron rails.

There are 55 Counties in Colorado. Newspapers are published in 54.—Cities, towns, and villages in which papers are published number 131, of which 50 designated by a dagger (†) are county seats. Of the 281 papers published in the State, 24 are daily, 3 semi-weekly, 238 weekly, 1 fortnightly, 1 semi-monthly, and 14 monthly.

DISTRICT OF COLUMBIA.

Population, *229,796.....No Vote

The DISTRICT OF COLUMBIA is inclosed by the State of Maryland, except on the southwest, which is bounded by the Potomac River; land area, 60 square miles. Surface undulating, with a fine fertile soil. The agricultural and market garden products are large, and the principal manufacture is that of flour, at Georgetown, at which place also is carried on an extensive coasting trade in coal, tobacco, grain, and flour. Brick, lumber, confectionery, and carriage manufacture are other leading industries.

Of the 59 papers published in the District, 4 are daily, 35 weekly, 1 fortnightly, 1 semi-monthly, 17 monthly, and 1 quarterly.

FLORIDA.

Population *376,000.....Dem. Plur. in 1888, 12,904

Dem. vote, 39, 561; Rep. 26,657; Prohib. 423.

STATE CAPITAL, TALLAHASSEE.

FLORIDA is bounded north by Alabama and Georgia, east by the Atlantic Ocean, south and west by the Gulf of Mexico and Alabama. The peninsular portion of the State is about 375 miles long by an average breadth of 90 miles; the upper portion 360 miles from east to west by from 30 to 90 miles from north to south; land area, 53,690 square miles. The surface is diversified with numerous lakes, the largest, Okeechobee, being 40 miles long by about 30 miles broad. There is a coast line of about 1150 miles, while the water surface comprises one fifteenth of the whole. The largest portion of the southern part of the peninsula is occupied by the Everglades, an evergreen marsh or swamp, impassable in the rainy season, and resembling an immense lake dotted with innumerable islands of from half an acre to hundreds of acres in extent, the whole comprising over 2,000,000 acres. From the northern end of the swamp to Georgia is mostly a dead level, with occasional undulations and small hills. West of the neck of the peninsula the surface becomes a little more uneven; the central portion is the most fertile, but there are many pine barrens there. There are numerous gentle eminences called hammocks, which are remarkably fertile, as are also the swamp lands when ditched and drained. Sugar cane is raised chiefly along the Gulf coast. Both long and short staple cotton and tobacco are grown, but corn and rice are the principal cereals. Oranges, lemons, limes, pineapples, figs, olives, and grape flourish luxuriantly; garden vegetables are largely produced, for the northern market, while of recent years the shipment of oranges north has become very important. Cattle require little care, are not housed in winter, and large numbers are raised and shipped to Havana. Hogs fatten on the roots and mast of the forest. Sponge is found on many parts of the coast. Manufactures of pine lumber, ship timber, tar, rosin, turpentine, cotton seed oil and cake, palmetto hats and braids; salt is made by solar evaporation; cigars are manufactured at Key West and Ybor City, near Tampa, in large quantities. During 1887 a great impetus was given to the growing of tobacco. In June, 1889, deposits of phosphate rock were discovered, supposed to underlie parts of 8 or 10 counties, and to be of very great quantity. They are being developed, and will doubtless prove of high commercial value. There are considerable fisheries, the inland and coast waters being full of fish; oysters are abundant, and the sponge and coral fisheries are of importance.

There are 45 Counties in Florida. Newspapers are published in 42.—Cities, towns, and villages in which papers are published number 76, of which 40 designated by a dagger (†) are county seats. Of the 132 papers published in the State, 14 are daily, 3 tri-weekly, 107 weekly, 2 fortnightly, 1 semi-monthly, and 5 monthly.

GEORGIA.

Population 1,896,000.....Dem. Plur. in 1888, 60,003

Dem. vote, 100,499; Rep. 40,496; Prohib. 1,808.

STATE CAPITAL, ATLANTA.

GEORGIA is bounded north by Tennessee and North Carolina, northeast by South Carolina, southeast by the Atlantic Ocean, south by Florida, and west by Alabama. Its extreme length from north to south is 320 miles, extreme breadth 254 miles; land area, 59,475 square miles. The surface is varied; along the coast, it is intersected by numerous rivers and sounds, and the country for miles inland is a succession of ridges of pines and live oaks and swamps of cypress; the great Okefinokee Swamp is in the southeast. Back from the coast is a stretch of sandy land, mostly pine barrens, and yielding large amounts of timber and naval stores. A series of terraces bring the land in the middle of the State to about 575 feet above tidewater, from which elevation it rises toward the north more rapidly, until it becomes mountainous, being there crossed by spurs of the Appalachians. The soil of the islands is sandy, producing sea island cotton; that of the mainland, rich alluvial, producing corn, cotton, and rice; the middle region is red loam, yielding good cotton, corn, tobacco, etc. In the north there is much fertile soil; grain, tobacco, fruits, and vegetables are largely grown, but not much cotton, which is mainly raised in the central, west central, and southwestern regions. Sugar cane is grown in the south, and considerable pork fattened, mainly for home consumption; sweet potatoes are largely produced; wool is prominent, but corn and cotton are the leading staples. Among the leading industries are lumber, flour, boots and shoes, carriages, cotton and woolen goods, wool carding and cloth dressing, leather, saddlery, metallic wares, furniture, castings, machinery, farm implements, etc. The number of cotton factories in the State in 1880 was 40, with 198,656 spindles, and 4,498 looms. In 1889, they had increased to 54, with 350,000 spindles and 8,000 looms. The most important are at Augusta and Columbus, the other chief seats of the cotton manufacture are Athens, Atlanta, Decatur, Macon, Savannah, and West Point. Savannah, the commercial capital of the State, is the most important South Atlantic seaport. The city is the seat of a large foreign and domestic commerce. Its railroads extend to all parts of the country, and its steamships ply daily to the principal North Atlantic ports. Savannah is the largest naval stores and second largest cotton and rice port in the United States, and also an important point for the manufacture and shipment of lumber and fertilizers. Atlanta has large iron works, and is developing as a manufacturing city with highly encouraging rapidity. Rome, Dalton, Marietta, Thomasville are manufacturing towns. The product of the cotton factories and iron works in 1888 was valued at \$8,668,468. The iron and steel trade is overtaking the cotton manufacture in importance. Other important branches of manufacture are lumber, flour, pulp, etc. Darien, Brunswick, and St. Marys manufacture and export lumber. Minerals; bituminous coal in the northwestern portion; immense deposits of iron ore in Bartow and Cherokee Counties; copper ore in Gilmer County; gold is most plentiful in Cherokee, Carroll, Cobb, and Lumpkin Counties; silver, lead, and many other minerals, granite, marble, gypsum, slate, and petroleum; excellent marble in Pickens and Cherokee Counties; hydraulic limestone in Bartow County. There are numerous mineral springs of which the Indian Spring in Butts County and the Bowden Lithia, or Salt Spring, in Douglas County are the best known. The development of the rich marble resources in north Georgia during the past five years has been wonderful. There are inexhaustible quarries of the finest marble in Pickens, Cherokee, Murray and adjoining counties and millions of dollars have been invested in opening them. The assessed value of taxable property in 1889 was about \$380,000,000. Length of railroad lines 4,420 miles.

There are 137 Counties in Georgia. Newspapers are published in 120.—Cities, towns, and villages in which papers are published number 159, of which 109 designated by a dagger (†) are county seats. Of the 282 papers which insert advertisements published in the State, 20 are daily, 1 semi-weekly, 225 weekly, 1 fortnightly, 3 semi-monthly, 30 monthly and 2 quarterly.

IDAHO.

Population *84,229Rep. Maj. in 1888, 1,747 (Congressional)

Rep. vote, 8,151; Dem. 6,404.

STATE CAPITAL, BOISE CITY.

IDAHO is bounded north by British Columbia, east by Montana and Wyoming, south by Utah, and west by Oregon and Washington; its length from north to south is about 410 miles, width varying from 44 to 306 miles; land area, 86,294 square miles. The surface is chiefly mountainous, but there are also large tracts of prairie and fertile valleys. In the southeast is a volcanic region, abounding in geysers and saline springs. It is generally better adapted for grazing than for agriculture, and stock raising is being dilligently prosecuted. Corn is not profitably raised, owing to the shortness of the summer. Barley, wheat, oats, potatoes, dairy products and wool are the staples. There are vast tracts covered with sage grass, on which cattle fatten readily. Fruits of excellent quality are grown in considerable abundance. Many of these plains, if irrigated, would make excellent wheat growing districts. Irrigation has been employed to some extent, and there is abundant water in the streams and lakes, if properly applied, to reclaim the 8,000,000 acres which are susceptible of irrigation. The forest covered area is very large, embracing about 10,000,000 acres, the timber being chiefly "lodge pole" pine of small diameter, but growing very thickly. Other trees are fir, spruce, cedar, etc., some of these being very large. Gold, silver and lead are plentiful in all parts of the State and are largely produced, the product in 1889 reaching 17,344,600, this being nearly twice that of 1888. This great increase is due to the discovery of large deposits of silver and lead in Shoshone Co. Length of railroads in 1889, 888 miles.

There are 18 Counties in Idaho. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 37, of which 15 designated by a dagger (†) are county seats. Of the 46 papers published in the State 3 are daily, 3 semi-weekly, and 40 weekly.

ILLINOIS.

Population *3,801,285.....Rep. Plur. in 1888, 22,104

Rep. vote, 370,475; Dem. 348,371; Prohib. 21,695; Union Labor, 7,000.

STATE CAPITAL, SPRINGFIELD.

ILLINOIS is bounded north by Wisconsin, northeast by Lake Michigan, east by Indiana, southeast and south by Kentucky, and west by Missouri and Iowa; extreme length north and south 385 miles; extreme breadth 218 miles; land area, 56,650 square miles. The surface is mostly level table land, inclining gently toward the south, with bluffs along the principal rivers. A small tract in the northwest, around Galena, is somewhat broken, and a low mountain ridge extends across the southern end from Grand Tower, on the Mississippi River, to Shawneetown, on the Ohio, about 850 feet above sea level. This is a great fruit region. The prairies are sometimes level, but generally undulating. More than two-thirds of the State is a productive bituminous coal field. The total production of coal in 1889 was 11,597,968 tons, the number of mines being 854, distributed through 49 counties. The iron ore is good only when mixed with Michigan and Missouri ores. Lead and zinc are mined extensively in the northwest. Copper ore, gypsum and marble are found in various places. Limestone and freestone abound. The prairie soils are deep and fertile; that of the river bottoms is often inexhaustible. A tract called the American Bottom, extending along the Mississippi River a length of ninety miles by about five in breadth, has an alluvial soil about twenty-five feet in depth. Illinois is unexcelled as an agricultural State, and is among the first in manufactures. Spring and winter wheat, corn, and other cereals, dairy produce, wool, and hay, are leading products. Corn is produced most abundantly, the 1889 crop rendering the enormous aggregate of 247,930,589 bushels. The industrial pursuits embrace a wide range of articles, and the seats of manufacture are distributed generally throughout the State. The leading articles of manufacture include iron and steel and their products, wooden ware, furniture, farming implements, cars and carriages, flour, watches, woolen goods, bridge work, lumber, tiles, glassware, soap, malt and distilled liquors, etc. In 1889 the assessed valuation of property in the State was \$800,771,626, including \$77,352,455 of railroad property. There are 11,825 miles of railroads belonging to 53 lines, this state ranking first in length of railway lines. Fishing interests center chiefly at Chicago, which is also the centre of an immense business in live stock and lumber. Natural gas in large quantities has lately been discovered at various points in the State, and is successfully used for heating and lighting in Litchfield.

There are 102 Counties in Illinois. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 515, of which 102 designated by a dagger (†) are county seats. Of the 1,436 papers published in the State, 117 are daily, 21 semi-weekly, 1,076 weekly, 1 every ten days, 6 fortnightly, 31 semi-monthly, 1 every third week, 176 monthly, 2 bi-monthly, and 5 quarterly.

ADAMS CO. (Ex.W.).....Pop. *61,400
Dem. vote in 1888, 7,196; Rep. 6,088; Pro. 287; Lab. 72.

Undulating; soil fertile; coal beds in the west and east, and good limestone at Quincy. Products—Corn, wheat and oats very large; butter, wool, pork; live stock. Manufactures numerous and varied. COUNTY SEAT, Quincy, pop. *32,000.

 POPULATION: * Census of 1890. Unmarked—Census of 1880, or later reports. † County Seat.

INDIANA.

Population *2,223,822.....Rep. Plur. in 1888, 2,392

Rep. vote, 263,361; Dem. 260,969; Prohib. 9,877; Union Labor, 2,694.

STATE CAPITAL, INDIANAPOLIS.

INDIANA is bounded north by Michigan and Lake Michigan, east by Ohio, south by Kentucky, and west by Illinois. Its extreme length north and south is 276 miles; average breadth 140 miles; land area 35,910 square miles. About two-thirds of the surface is undulating or level prairie; near the Ohio and other streams the surface is hilly and often abrupt and rugged. In the extreme northwest there is a sandy tract, with considerable marsh land. The northeast abounds in oak openings and prairie land, interspersed with many small lakes. The soil is generally fertile, much of it exceedingly so; the richest is found along the Wabash, White, and White Water Rivers. There is abundance of coal of good quality. The iron manufacture is extensive, Indiana coal being particularly suited to this industry, but the ores used come mainly from the Lake Superior region, Missouri, and Tennessee. Indiana has some bog ore and local deposits of better grades which have been worked to some extent. There are some salt springs, good sandstone, limestone, fire brick, potter's clays, and kaolin. Limestone is particularly abundant, being practically inexhaustible in quantity. Indiana ranks high as a grain producing and stock raising State. Corn, wheat, oats, tobacco, and potatoes are raised in large quantities. Corn is the most abundant product, its yield in 1885 being 181,994,000 bushels. Of live stock cattle are raised largely, numbering in 1884 1,356,148, while the swine numbered 2,692,652. Butter, wool, hay, maple sugar, and sorghum molasses also, are important products; timber is largely exported. Manufactures are numerous and extensive, the chief industries being flouring and grist mill produce, lumber, woollen goods, furniture, carriages and wagons, iron and iron ware, machinery, agricultural implements, pork packing, liquors, metallic wares, leather, boots, shoes, and clothing. The taxable property of the State in 1889 was assessed at \$821,512,984. The railroads of the state are over 6,000 miles in length. The most important fact of the present is the discovery of a very large natural gas belt, said to be the largest known in the world. This is proving a great stimulus to manufacturing enterprises. This belt extends over 21 counties, or more than 6,000 square miles. There are 133 wells yielding over 10,000 cubic feet per day, 15 yielding between 3,000,000 and 5,000,000 cubic feet, and 10 whose registered capacity exceed 5,000,000 cubic feet per day. 76 cities and towns are at present supplied with it.

There are 92 Counties in Indiana. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 275, of which 92 designated by a dagger (†) are county-seats. Of the 677 papers published in the State, 91 are daily, 4 semi-weekly, 507 weekly, 2 fortnightly, 9 semi-monthly, 63 monthly, and 1 quarterly.

INDIAN TERRITORY.

TERRITORIAL CAPITAL, TAH-LE-QUAH.

INDIAN TERRITORY is bounded north by Kansas, east by Missouri and Arkansas, south and west by Texas. Land area about 69,000 square miles. The surface is mainly rolling prairie, with broad stretches of rich land along the streams, and an abundance of timber. In the west is a broad belt of forest, known as the "cross timbers," stretching north and south across the Territory with a breadth of from 40 to 60 miles. Still further west the country resembles that of the "Great Plains,"—the long incline leading to the Rocky Mountains. There is much fertile soil, but it has been little developed by the Indians, less than 500,000 acres being cultivated. Indian corn is the largest crop, 1,615,000 bushels being produced in 1884. A district in the centre of the Territory, known as Oklahoma, was opened to settlement by the whites in April, 1889, and now has probably 60,000 settlers, who are actively developing the region. A number of towns have been built, and agriculture is being actively pushed. The tract embraces nearly 2,000,000 acres.

THERE are 10 Nations in the Territory. Newspapers are published in 4.—Cities, towns, and villages in which papers are published number 12, of which 2 designated by a dagger (†) are court houses. Of the 17 papers which insert advertisements in the Territory, 16 are weekly and 1 monthly.

IOWA.

Population *1,920,000.....Rep. Plur. in 1888, 31,721

Rep. vote, 211,589; Dem. 179,877; Union Labor, 9,105; Prohib. 3,550.

STATE CAPITAL, DES MOINES.

IOWA is bounded north by Minnesota, east by Wisconsin and Illinois, south by Missouri, and west by Nebraska and Dakota. Its greatest length from east to west is 300 miles, and breadth 208 miles; land area, 55,475 square miles. The surface is generally rolling prairie, with no mountains nor even high hills, but with frequent bluffs along streams; and in places near large rivers it presents a broken appearance, caused by erosion from torrents. The southern part is the most level, with prairies, groves, and the numerous aduents of the two great rivers. In the northeast the surface is more elevated, with numerous low hills with tops covered with oaks, and abounding in lead and other ore; but the distinguishing feature of Iowa is its prairies, which are everywhere fertile and easily tilled, and, having few stones or stumps, are especially adapted for the use of agricultural machinery. The valleys of the Red Cedar, Iowa, and Des Moines rivers contain the richest soils; northward of these the soil becomes less fertile, but is still productive and remunerative. Building stone is abundant; coal and lead are extensively worked, the product of the former being 4,105,558 bushels. Iron ore and other minerals are found. The cereals generally, dairy and market garden products, wool, linseed, sorghum, and live stock of all kinds are very largely produced. As in Illinois and Indiana, corn is the most important product, its yield in 1884 being given as 242,496 bushels; oats, 74,718,000; wheat, 38,332,000. Grapes grow well in the south, and fruit culture is increasing. Stock raising is an industry of growing importance. Though only 40 years old in 1886 the State then ranked first in swine, second in milk cows and other cattle, and third in horses. The manufacturing interests are rapidly developing, the leading branches being flour, lumber, wood working, carriages, woolen goods, boots and shoes, pork packing, saddlery, furniture, malt liquors, and farm implements. Assessed valuation of taxable property in 1889, \$522,567,477.

There are 99 Counties in Iowa. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 396, of which 99 designated by a dagger (†) are county seats. Of the 812 papers published in the State, 51 are daily, 1 tri-weekly, 11 semi-weekly, 692 weekly, 5 fortnightly, 7 semi-monthly, 44 monthly, and 1 quarterly.

KANSAS.

Population *1,680,000.....Rep. Plur. in 1888; 80,159

Rep. vote, 182,904; Dem. 102,745; Union Labor, 37,788; Prohib. 6,779.

STATE CAPITAL, TOPEKA.

KANSAS is bounded north by Nebraska, east by Missouri, south by the Indian Territory, and west by Colorado. Its length from east to west is 410 miles, and from north to south 210 miles; land area, 82,300 square miles. The surface is chiefly undulating in the east, while the western part has a rolling and varied surface, with every requisite for grazing. There are no mountains, very few lakes, and those small and shallow; no marshes but salt marshes, and these are valuable. When the State was settled only five per cent. of the area was forest, and this was distributed mainly along streams and in occasional groves and small tracts; but it is estimated that the area of forest trees has since increased twenty per cent. by voluntary growth, transplanting, and by seed. The western half, however, is very scantily supplied with timber, but there is an abundance of coal, which is used for domestic purposes and for export to Nebraska, Missouri and other points; over 40,000,000 bushels being mined in 1889, employing 5,600 hands. There are several varieties of good building stone. The bottom and table lands are chiefly a rich black loam, and highly productive. Winter and spring wheat, corn, rye, oats, and potatoes are the chief products, while broom corn, sorghum, flax, hemp, castor beans, tobacco, and hay are also largely produced. The wheat crop of 1889 was 36,219,851 bushels; that of corn, 278,541,393 bushels. Cattle raising is a prominent industry, and sheep farming is becoming frequent in the western part. The number of cattle in the State is over 2,000,000, that of hogs about the same number, and of sheep over 1,000,000. Dairy products are increasing rapidly, and progress is also being made in fruit growing and wine making. During 1886 and 1887 attention has been especially devoted in Kansas to the development of a process for making sugar from sorghum, which culminated successfully in 1887. This result is filling the State with sugar factories which promise to be a source of great wealth to the State and of incalculable benefit to the farmers. Glass works were also established in Fort Scott and Paola in 1887. Manufactures are being developed, and the number of establishments is rapidly increasing, but at present the chief industries are agriculture, stock raising, and fruit culture. The principal cities are Topeka, Wichita, Atchison, Leavenworth and Fort Scott. There are 8,755 miles of railway within the limits of the State; 2,070 of which were built during 1887. Assessed valuation of property in 1889, \$360,815,073.

There are 106 Counties in Kansas. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 417, of which 102 designated by a dagger (†) are county seats. Of the 818 papers published in the State, 45 are daily, 3 semi-weekly, 740 weekly, 4 semi-monthly, 24 monthly 1 bi-monthly and 1 quarterly.

LOGAN CO. (W.).....Pop. 3,112

Rep. vote in 1888, 609; Dem. 233; Lab. 33.

Gently undulating; well drained; soil rich and very productive. Smoky Hill river and numerous branches intersect it. Building stone of best quality, white and red magnesia. Good brick clay in places. No hard pan or underlying stone. All cereals and fruits of this latitude do well here. Good stock country, mild winters with but little snow. No manufacturing yet. Settled but two or three years. Some government land yet. COUNTY SEAT, Russell Springs, pop. *300.

KENTUCKY.

Population *1,880,000.....Dem. Plur. in 1888, 28,666

Dem. vote, 188,800; Rep. 155,184; Prohib., 5,225.

STATE CAPITAL, FRANKFORT.

KENTUCKY is bounded north by Ohio and Indiana, northwest by Illinois, east by West Virginia and Virginia, south by Tennessee, and west by Missouri; greatest length from east to west, 350 miles; greatest breadth, 178 miles; land area, 42,000 square miles. The surface in the east and southeast is mountainous, being broken by numerous parallel ranges of the Alleghany system, with deep and fertile valleys. Northwest of this section, and in the centre of the State, is the famous Blue Grass Region, with a gently undulating upland surface, and deep valleys at the rivers. Between the Green and Cumberland Rivers the surface is level and known as the "Barrens," because of the lack of stout timber in much of it. The western part is generally level with slight undulations. The soil of the whole State is remarkably fertile, and renews itself readily; that part between Lexington and the Ohio River is known as the "Garden of Kentucky." Cereals grow to greater perfection and maturity in Kentucky than almost any other State. The chief products are tobacco, hemp, corn, wheat, oats, rye, barley and potatoes. Kentucky has acquired a world wide fame for its thoroughbred horses and short horn cattle. The wool clip is very large, and immense numbers of hogs are raised. Dairy products are very extensive; also sorghum molasses, maple sugar, honey, and wax; some cotton is raised in the southwest near the Tennessee line. Tobacco is of vast importance, nearly half the American crop being handled within the State, Louisville being the greatest leaf market in the world; in 1887, 137,000 hogsheads were sold in the open market there. Coal, iron, building stones, clays, etc., are abundant. The timber forest in southeastern Kentucky covers 10,000 square miles underlaid with coking and bituminous coals of superior grade. The greatest known area of coking and fine cannel coals exists at the head of the Kentucky river. The coal product of 1888 was 2,342,058 tons. Large quantities of so-called "Red River" and the Oriskany ores used in the manufacture of car wheels and other fine iron products are annually mined, the product during the last decade averaging over 50,000 tons annually. The manufacturing interests are varied and important, and are carried on chiefly in the towns on the Ohio River; an extensive industry is the smelting and working of iron, while all wood manufactures flourish. Assessed valuation of property in 1889, \$501,676,267. Length of railroad lines in 1889, 2,835 miles. Whisky is an important product of the central counties, and more mules are raised than in any other State. Salt is made from springs in the mountain counties. Louisville is situated at the falls of the Ohio and has two steel bridges across that river, and 14 independent railroad lines. It makes more plows, jeans, cement and oak tanned sole leather than any city in the world.

There are 119 Counties in Kentucky. Newspapers are published in 98.—Cities, towns, and villages in which papers are published number 123, of which 95 designated by a dagger (†) are county seats. Of the 271 papers published in the State, 21 are daily, 1 tri-weekly, 8 semi-weekly, 212 weekly, 1 fortnightly, 8 semi-monthly, and 20 monthly.

LOUISIANA.

Population *1,122,000.....Dem. Maj. in 1888, 54,369

Dem. vote, 85,082; Rep. 80,663; Prohib. 160.

STATE CAPITAL, BATON ROUGE.

LOUISIANA is bounded north by Arkansas and Mississippi, east by Mississippi and the Gulf of Mexico, south by the Gulf of Mexico, and west by Texas. Its extreme length from east to west is about 300 miles, and breadth 240 miles; land area, 45,420 square miles. Surface generally low and level. There are low hills in the north and northwest, from which the land slopes gradually to the Mississippi and the Gulf. Much of the land along the river is below the surface at the spring freshets, and is protected from overflow by the levees, which are built on both banks below Baton Rouge, and on the west bank throughout the State. Many of the principal rivers and bayous are protected in like manner. It is estimated that one-fifth of the surface of the State is liable to more or less frequent inundation. The extent of navigable water surpasses that of any other State in the Union. The soil of the river bottoms is exceedingly fertile, and yields large crops of cotton, sugar cane, rice, etc. Its prairies are productive, and afford good pasture in places. The hilly section yields good cotton crops, but about half is covered with pine barrens. The total wooded area of the State is estimated at 16,608,800 acres, or three fifths of the total area. The timber is mainly pine, but there are large bodies of valuable cypress, and some important groves of live oaks. The great staples are cotton, sugar, rice, and corn. The State produces nearly all the sugar made in the United States. The sugar product has rapidly increased of recent years, and is now claimed to be nearly 200,000 tons, worth \$20,000,000, while about 500,000 persons are said to be supported by the industry. The yield of rice is very large, and the quality excellent. Cattle raising is an important interest. The manufacturing interests are not large. The leading industries are lumber, naval stores, castings, machinery, tobacco, clothing, flouring mill products, cotton seed oil, beer, and ship building. Its commerce, carried on chiefly through New Orleans, is extensive and important. Iron ores, ochre, gypsum, and marl are abundant; large deposits of sulphur exist in Calcasieu Parish, and an immense amount of solid rock salt on Petit Anse Island. Valuation of taxable property in 1889 \$268,076,914.

There are 59 Parishes in Louisiana. Newspapers are published in 57.—Cities, towns, and villages in which papers are published number 81, of which 55 designated by a dagger (†) are parish capitals. Of the 154 papers published in the State, 11 are daily, 1 semi-weekly, 131 weekly, 1 semi-monthly, 8 monthly, and 2 bi-monthly.

MAINE.

Population *660,261.....Rep. Plur. in 1888, 23,253

Rep. vote, 73,734; Dem. 50,481; Prohib. 2,691; Union Labor, 1,344.

STATE CAPITAL, AUGUSTA.

MAINE is the most northeasterly State in the Union, bounded on the north by Quebec and New Brunswick, east by New Brunswick, south by the Atlantic Ocean, and west by New Hampshire and Quebec; its extreme length is 302 miles, width 285 miles, which is extended to 2500 miles by the many indentations; land area, 29,895 square miles. The northern part is mainly a wilderness of forest land with rugged surface and groups of detached mountains; thinly peopled, except in the fertile tracts of Aroostook County. In the northeast, on the St. John's River, are several French Canadian settlements. The southern part is varied, seldom much broken, and has tracts of great fertility, while others are only moderately fertile, especially in the southeast. The hay and potato crop is large and excellent; corn thrives in the south, and winter wheat in the north-east; oats are very fine and prolific, and barley next. Dairy products are of great value. Large numbers of horses and cattle are exported. Wool is abundant and of good quality. The principal fruits are the cherry, plum, pear, and apple. The State holds a prominent position in the lumber trade; fisheries are important, and the canning of fish, lobsters, green corn, fruits, and vegetables is extensively carried on. The seaboard towns enjoy a large coasting and West India trade. Large quantities of lime are exported from Camden, Rockland, and Thomaston. Granite is extensively quarried at various points, the works employing 4000 men. Slate is quarried in large quantities at Brownsville and Monson. Ice is an important and profitable article of export. The leading articles of manufacture are cotton goods, lumber, woolen goods, leather, paper, boots and shoes, foundry and machine shop products, ships, agricultural implements, etc. The chief seats of the lumber trade are Augusta, Bangor, Biddeford, Calais, Eastport, Fairfield, Lewiston and Machias; of cotton manufacture, Augusta, Biddeford, Lewiston, Brunswick, Saco and Waterville; of ship building, Bath, Bangor, Belfast, Calais, Damariscotta, Machias, Rockland, Thomaston and Waldoboro. Woolens are made at Bridgton, Dexter, Dover, Lewiston, Madison, Oxford, Sanford, and Warren; boots and shoes at Auburn, Bangor, Fairfield, Farmington, Lewiston, Richmond, Skowhegan, Norway, Paris, and Mechanic Falls. Bangor has foundry and machine shops, furniture factories, and steam planing mills. Extensive hemlock sole leather tanneries are located at Brookton, Grand Lake Stream, Kingman, Lincoln, Lowell, Medway, and Winn. Large spool factories are located at Foxcroft, South Lincoln, and Willimantic. Apart from these special branches of trade, Belfast, Ellsworth, Gardiner, Hallowell, Portland, Rockland, Skowhegan, and Waterville are seats of varied and extensive manufactures. The water power of Maine is simply immense. The Hydrographic Survey gives it 2,656,200 horse power, which is equivalent to the working energy of 34,000,000 men laboring without intermission. Assessed valuation of property in 1889, \$242,039,614. Length of railroad lines in 1889, 1,356 miles.

There are 16 Counties in Maine. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 75, of which the 16 designated by a dagger (†) are county seats. Of the 164 papers published in the State, 18 are daily, 2 semi-weekly, 105 weekly, 3 fortnightly, 2 semi-monthly, 31 monthly, and 8 quarterly.

ANDROSCOGGIN CO. (S.W.) Pop. *48,888

Rep. vote in 1888, 4,898; Dem. 3,585; Pro. 219; Lab. 201.

Undulating; soil very productive; fine farming region. Products—Butter, cheese, potatoes, corn, hay, wool, and grain; sweet corn for canning. Manufactures—principally cotton and woolen goods and shoes. COUNTY SEAT, Auburn, pop. *11,228.

MARYLAND.

Population *1,070,000 Dem. Plur. in 1888, 6,182

Dem. vote, 106,168; Rep. 99,986; Prohib. 4,767.

STATE CAPITAL, ANNAPOLIS.

MARYLAND is bounded north by Pennsylvania, east and southeast by Delaware and the Atlantic Ocean, west by West Virginia, and south and southwest by Virginia, West Virginia, and the District of Columbia. The Chesapeake Bay divides the greater part of it into two unequal parts, known as the Eastern and Western Shores. Its extreme length from east to west on its northern border is 198 miles, and its width, following the course of the Potomac, varies from 3 or 4 miles to about 120 miles; land area, 9,860 square miles. The surface of the Eastern Shore is mostly level, and in parts low and swampy, but towards the north rocky and broken. The Western Shore, between the Potomac River and Chesapeake Bay, presents mainly the same general features. The northwest is very mountainous; five or six ridges of the Alleghenies, principally the Blue and Laurel, traverse that section. In the extreme west are the beautiful elevated valleys named Glades. The soil of the Eastern Shore and the lower part of the Western is generally light and sandy, well adapted for peaches and market gardening; that of the central and northern parts very rich, yielding immense crops of tobacco, wheat, and corn. The mountain slopes are thickly wooded. The oyster fisheries are more extensive than in any other State. The manufactures are very numerous—canned goods (fruits, meats, and oysters,) being one of the most important. Boots and shoes, bricks, cement, chemicals, clothing, cotton and woolen goods, cooperage, tobacco, flour, leather, lumber, machinery, and metallic wares are leading industries. Its commerce is confined principally to Baltimore, whose foreign trade is very important. Maryland coal is used extensively in all the Atlantic States, the annual product being about 3,000,000 tons. Fire clays are abundant; those of Mt. Savage have a wide reputation. Brown hematite is found in the Trenton limestone, and bog ore on the Eastern Shore. There are numerous quarries of marble, granite, serpentine, and other building stone, limestone for burning, and roofing slate. Kaolin is found in Anne Arundel County; magnesite near Baltimore, from which large quantities of magnesia, carbonate, and Epsom salts are manufactured. There are many other minerals, including alum, amber, barytes, breccia, cements, chromium, hone stone, mill stone, iron pyrites, ochres, etc., some of which are very plentiful. Especial attention is given to tobacco growing in the lower counties of the Western Shore.

There are 23 Counties in Maryland. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 55, of which 23 designated by a dagger (†) are county seats. Of the 182 papers published in the State, 16 are daily, 140 weekly, 4 semi-monthly, 17 monthly, 1 eight times a year, and 4 quarterly.

ALLEGANY CO. (N.W.).....Pop. *41,362

Rep. vote in 1888, 4,072; Dem. 3,299; Pro. 167.

Traversed by the main Allegheny Mountains and several other high ridges; bituminous coal is extensively mined; iron ore, lime stone and sand stone. Products—Butter, wool, maple sugar, fruit, corn, oats, wheat, rye, and live stock. Manufactures. COUNTY SEAT, Cumberland, pop. *12,007.

MASSACHUSETTS.

Population *2,233,407.....Rep. Plur. in 1888, 32,037

Rep. vote, 188,892; Dem. 151,855; Prohib. 8,701.

STATE CAPITAL, BOSTON.

MASSACHUSETTS is bounded north by Vermont and New Hampshire, east by the Atlantic Ocean, south by the Atlantic Ocean and by Rhode Island and Connecticut, and west by Rhode Island and New York. Its extreme length is 160 miles, and breadth from 47 to about 90 miles; land area, 8,040 square miles. The surface is greatly diversified; mountainous in the extreme west, hilly and broken in the east and northeast, and in the southeast mainly low and sandy. Toward the west is the fertile Valley of the Connecticut River. The mountains are the Taconic, and the Hoosac (continuations of the Green mountain ranges of Vermont), with detached members of the White Mountains. The soil is generally somewhat sterile, but energy and intelligence have succeeded in making it very productive. The Connecticut Valley, however, can hardly be excelled for fertility. Dairy products are very extensive, as is also the yield of wool, hay, maple sugar, and honey. Corn and potatoes are very largely produced. Of grain, the crop of oats, rye, and barley is large, buckwheat moderate, and wheat (winter), small. The tobacco crop is large; live stock abundant (cattle largely in excess). More than half the fishing vessels owned in the United States belong to Massachusetts. Manufactures, however, constitute by far the largest of its industries. Not only is it the center of the American boot, shoe, leather, wool, paper and cotton trades, but all the large towns are busy seats of more or less numerous branches of manufacture. Assessed valuation of property in 1889, \$2,072,170,863. The chief seats of the ship building interests are Boston, Newburyport and Salem. The State is rich in building stone, principally granite, which is largely quarried at Rockport, Graniteville, Fall River, Monson, and Quincy; a handsome brown sandstone in the Connecticut Valley, and marble and limestone in Berkshire County; Berkshire County has also deposits of excellent iron ore. Except Rhode Island, it is the most densely peopled State. Railroads enter almost every town, and are sufficient in extent to gridiron the State with lines $4\frac{1}{2}$ miles apart if they were evenly distributed, the total length in 1887 being 3377 miles. Fall River, Lowell, New Bedford and Lawrence are, in this order, the chief cotton manufacturing centers in the country.

There are 14 Counties in Massachusetts. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 221, of which the 19 designated by a dagger (†) are county seats. Of the 690 papers published in the State, 62 are daily, 7 semi-weekly, 466 weekly, 10 fortnightly, 12 semi-monthly, 123 monthly, 2 bi-monthly, and 8 quarterly.

BARNSTABLE CO. (Ex.E.) Pop. *29,171.

Rep. vote in 1888, 3,371; Dem. 1,045; Pro. 180.

Peninsula 60 m. long, known as Cape Cod, and a few small islands; low and level; soil light and sandy. The inhabitants are employed in fishing and the coasting trade; cranberries are extensively cultivated; agricultural products nominal. COUNTY SEAT, Barnstable, pop. (township) *4,022.

CIRCULATION: † Publishers' reports. Roman figures—estimated. *Sworn.
 POPULATION: *Census of 1890. Unmarked—Census of 1880, or later reports. †County Seat.

MICHIGAN.

Population *2,175,000.....Rep. Plur. in 1888, 22,918

Rep. vote, 236,387; Dem. 213,469; Prohib. 20,945; Union Labor, 4,555.

STATE CAPITAL, LANSING.

MICHIGAN is bounded north by Lake Superior, east by Lakes Huron, St. Clair, and Erie, and their connecting rivers, south by Ohio and Indiana, and west by Lake Michigan and Wisconsin; land area, 57,430 square miles. It consists of two peninsulas, of which the southern is the principal seat of wealth and population, its length, north to south, being about 300 miles; width, about 200; coast line of State on lakes not less than 1600 miles. This part of the State is a very level region, abounding in lakes and streams, with very extensive forests of pine and other timber in the north, oak openings or natural parks in the south, and prairies in the southwest. The soil contains sufficient sand to make it easily tilled, and few sections excel it as a farming region. In the west and southwest is the great fruit belt. Winter wheat, oats, and potatoes are abundant, and of excellent quality; corn and other cereals are largely grown. Dairy products are very valuable. Wool is raised in very large quantities, the product of 1887 being about 15,000,000 pounds; live stock is plentiful. Peppermint and celery are raised extensively in the southwest, and grapes in the south. The surface of the northern peninsula is somewhat rough and mountainous, with a good soil in most parts outside the mining regions; its mineral wealth is very great, especially in copper, iron and silver. Large quantities of iron ore are mined and shipped to Pennsylvania, Ohio, Indiana, and Illinois to be smelted either alone or with the inferior ores found in those States. Marquette, Ishpeming, Negaunee, Gladstone, St. Ignace and Escanaba are the principal points of shipment. By far the most important copper mines of the country, and what is claimed to be the largest iron mine in the world, are in this State. The output of iron in 1887 was 4,393,353 tons as against 1,948,334 in 1880. There is a large quantity of coal in the lower peninsula used chiefly for local and railroad purposes. The salt producing territory covers about 9,500 square miles, and the amount of the product in 1889 was 4,334,889 barrels, which is more than double that of New York State; it is procured from artesian wells, and the Saginaw River and the mouth of the Manistee are the chief centres of manufacture. 80,000 barrels of dairy salt were produced in 1887, which has been pronounced by competent judges to be the best in the world. 3600 hands are employed in the salt manufacture. Michigan ranks first among the States in the value and extent of its lumber product; the largest interest centering in East Saginaw. The lumber product, however, is rapidly falling off, through the rapid and wasteful reduction of the forest area. Gypsum, fire clay, and glass sand are also found. Manufactures are important and varied in extent. Among the leading are iron, lumber, salt, wooden ware, furniture, farm implements, leather, cotton and woolen goods, machinery, castings, and hollow-ware. Assessed value of taxable property, in 1888, \$850,636,718.

There are 84 Counties in Michigan. Newspapers are published in 81.—Cities, towns, and villages in which papers are published number 319, of which 79 designated by a dagger (†) are county seats. Of the 672 papers published in the State, 45 are daily, 2 tri-weekly, 5 semi-weekly, 561 weekly, 15 semi-monthly, 52 monthly, and 2 quarterly.

ALCONA CO. (N.E.).....Pop. *5,367

Rep. vote in 1888, 645; Dem. 542; Pro. 7; Lab. 6.

Nearly level; soil generally fertile; good general farming country. Products—Wheat, oats, and potatoes; lumber; lath, shingles, and paper pulp wood. COUNTY SEAT, Harrisville, (twp.) pop. *1,983.

MINNESOTA.

Population *1,415,000.....Rep. Plur. in 1888, 38,107

Rep. vote, 142,492; Dem. 104,385; Prohib. 15,311; Union Labor, 1,094.

STATE CAPITAL, ST. PAUL.

MINNESOTA is bounded north by British America, east by Wisconsin and Lake Superior, south by Iowa, and west by Dakota. Its extreme length from north to south is 380 miles; breadth varies from 183 miles in the center to 262 on the south line, and about 330 on the north border; land area, 83,365 square miles. The surface is generally an undulating plain, diversified with rolling prairies, dotted with lakes and groves, with frequent timber belts. The northeast is generally rugged and hilly, with immense forests and much marsh land. The Red River Valley is a dead level. The southeast is a beautiful rolling prairie region, while the surface rises from the undulating prairies of the south and southwest to the Hauteur des Terres or Heights of Land in the northwest. It is thought that the northeast may develop valuable mineral resources, iron ore being said to abundant, but the yield of minerals is at present unimportant. There are productive fisheries of white fish and lake trout in Lake Superior. The soil is fertile, about two-thirds of it being adapted to the cultivation of cereals and general farm produce. Very large quantities of spring wheat are raised even as far as the Manitoba line, while corn grows well all over the State. Oats, barley, hops, flaxseed, and hay are leading products. The reported crops of 1889 yield the following statement of the leading products: wheat, 46,660,583 bushels; oats, 48,253,799; corn, 22,115,769; barley, 9,105,209. Wool growing is remunerative in the southwest. Maple sugar is an important product. Cattle, horses, and swine are largely exported, and pork packing is a valuable industry. Manufactures are rapidly increasing in number and value. The leading branches are flour and grist mill products, lumber and woodenware, carriages, furniture, and cooperage, while boots and shoes, brick, leather, lime, saddlery, and woolen goods are also extensively manufactured. Length of railroad lines in 1889, 5,303 miles.

There are 80 Counties in Minnesota. Newspapers are published in 76.—Cities, towns, and villages in which papers are published number 201, of which 72 designated by a dagger (†) are county seats. Of the 456 papers published in the State, 28 are daily, 1 tri-weekly, 377 weekly, 8 semi-monthly, 39 monthly, 2 bi-monthly, and 1 quarterly.

MISSISSIPPI.

Population *1,347,000.....Dem. Maj. in 1888, 55,375

Dem. vote, 85,471; Rep. 30,096; Prohib. 218; Union Labor, 22.

STATE CAPITAL, JACKSON.

MISSISSIPPI is bounded north by Tennessee, east by Alabama, south by the Gulf of Mexico and Louisiana, and west by the Mississippi River, which separates it from Louisiana and Arkansas. Its extreme length from north to south is 332 miles; average breadth, 142 miles; land area, 46,340 square miles. The surface is generally hilly or undulating, except in the Mississippi bottom, from Vicksburg to the Tennessee line, and between the Mississippi and Yazoo rivers, where it is low and swampy, subject to inundation, and covered with a dense growth of timber, but with soil which, if reclaimed, would be exceedingly fruitful. Below Vicksburg the surface for some miles inland is hilly, and known as the "cane hills" or "bluffs," and with a generally productive soil. There is a very fertile prairie region in the northeast. The southern part is chiefly a level pine region, and furnishes good pasturage and large quantities of timber, tar, turpentine, etc. The soil of this tract is poor and sandy. Cotton and corn are the great staples, the product of cotton being surpassed probably only by Texas. The corn crop is over 25,000,000 bushels; that of oats over 3,000,000. Wheat is grown in the north, and rice and sugar cane in the south. Grazing is an important industry, much pork is fattened, and the clip of wool is large. Dairy products, sorghum, tobacco, and sweet potatoes are produced in considerable quantities. The manufactures are neither varied nor very extensive, lumber and grist mill products being the most important, while cotton goods and cotton seed oil and cake rank next in importance. Its commerce is carried on principally through New Orleans and Mobile; coasting and river trade large. The State has no coal or iron of practical value. Its mineral deposits are confined mainly to fertilizers, soft limestone and clays. Tishomingo County has large beds of fine pipe and potter's clay, there is also some sandstone suitable for rough masonry.

There are 75 Counties in Mississippi. Newspapers are published in 72.—Cities, towns, and villages in which papers are published number 99, of which 67 designated by a dagger (†) are county seats. Of the 166 papers published in the State, 8 are daily, 2 tri-weekly, 144 weekly, 1 semi-monthly, and 11 monthly.

MISSOURI.

Population *2,778,000.....Dem. Plur. in 1888, 25,701

Dem. vote, 261,954; Rep. 236,253; Union Labor, 18,589; Prohib. 4,539.

STATE CAPITAL, JEFFERSON CITY.

MISSOURI is bounded north by Iowa, east by Illinois, Kentucky, and Tennessee, south by Arkansas, west by Indian Territory, Kansas and Nebraska; length, north to south, 277 miles; average breadth, about 244 miles, ranging from 208 miles in the north to 312 miles in the south; land area 68,735 square miles. The Missouri River divides the State into two distinct parts. The surface north of the river is generally nearly level, while that south of it is undulating, becoming rougher and somewhat mountainous as it approaches the Ozark Mountains. There are also here open, treeless plains, an extension of those in Kansas, and in the southeast, bordering on the Mississippi River, is an extensive marshy tract, called the "Sunk Country," the result of the earthquake of 1811-12. The State contains every variety of soil. Corn, wheat, oats, and tobacco are the staple products, the yield of corn being about 200,000,000 bushels annually, but barley, rye, hay, fruit, white and sweet potatoes, dairy and market garden products, wool, cattle, and pork are raised largely in excess of home needs. Sorghum and castor oil beans are largely produced. Cotton, hemp, and flax are cultivated to some degree in the southern counties; so are grapes, and much wine is made. The principal live stock are sheep and swine. Iron ore is mined and manufactured in very large quantities, and the supply is inexhaustible. Lead ore is also largely produced, but its product is declining in consequence of the immense output of the western mines. Many other minerals abound; also marble, limestone, glass sand, kaolin, fire clay, etc. Beside iron and lead, there are important manufactures in many branches of trade, the product of flour ranking second in importance to that of iron and steel. In the last ten years Missouri has grown rapidly in population and wealth, railroads have multiplied, and extensive areas of territory, particularly in the southwest and southeast portions of the State, have been brought into cultivation, and now support large populations, and afford a considerable surplus to feed the world. Kansas City and Springfield are notable instances of increase. The State is in a prosperous condition, and offers more inducements to labor and capital than any other of the southwestern States. Value of taxable property in 1889 \$750,131,139.

There are 114 Counties in Missouri. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 333, of which 112 designated by a dagger (†) are county seats. Of the 810 papers published in the State, 81 are daily, 2 tri-weekly, 5 semi-weekly, 631 weekly, 3 fortnightly, 12 semi-monthly, 1 every third week, 68 monthly, 2 bi-monthly, and 5 quarterly.

MONTANA.

Population *131,769.....Rep. Maj. in 1888, 5,126 (Congressional)

Rep. vote, 22,486; Dem. 17,360.

STATE CAPITAL, HELENA.

MONTANA is bounded north by British America, east by North and South Dakota, south by Wyoming and Idaho, and west by Idaho; length from east to west about 540 miles, breadth about 280 miles; land area, 145,210 square miles. Surface generally mountainous, especially in the west. Along the three forks of the Missouri River, as well as elsewhere through the State, there is much undulating prairie, with a fertile soil. The Missouri River is navigable to Fort Benton; the Yellowstone is also navigable. Perhaps nowhere else are such advantages offered to the capitalist, mining operator, stock raiser and wool grower as are here found. Very little hay or winter foddering is needed, the stock feeding on the rich grasses, and ranging all winter in the sheltered valleys. Of agricultural staples, spring wheat, potatoes, butter, barley, oats and vegetables are the most prominent. Irrigation is greatly needed to develop the agricultural resources, there being 10,000,000, and perhaps double that number of acres which may be reclaimed in this manner. The timber lands are enormous in area, being estimated at nearly 40,000 square miles. Yellow pine is the most useful timber, the trees attaining a diameter of from 5 to 7 feet. The chief minerals are gold, silver, copper and lead, of which large quantities are obtained, while tin and nickel are reported. Leading manufacturing interests are mining, lumber sawing, quartz milling and stamping, flour, etc. The output of minerals in 1887 was estimated at \$4,000,000 in gold, \$16,000,000 in silver, and the enormous amount of 72,000,000 pounds of copper, which it was estimated would be increased to 120,000,000 pounds in 1889. The lead product of 1888 was about 25,000,000 pounds. Iron is abundant, but has not yet been developed. The wool clip was about 6,000,000 pounds. A superior quality of bituminous coal, in what is said to be one of the largest and most compact coal fields in the country, is being developed about 50 miles from Billings. Assessed valuation of taxable property in 1889 \$79,376,944.

There are 16 Counties in Montana. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 30, of which 16 designated by a dagger (†) are county seats. Of the 64 papers published in the State, 13 are daily, 1 tri-weekly, 4 semi-weekly, 41 weekly, 1 fortnightly, 2 semi-monthly, and 2 monthly.

NEBRASKA.

Population *1,100,000Rep. Plur. in 1888, 27,873

Rep. vote, 108,425; Dem, 80,552; Prohib. 9,429; Union Labor, 4,226.

STATE CAPITAL, LINCOLN.

NEBRASKA is bounded north by Dakota, east by Iowa and Missouri, south by Kansas and Colorado, and west by Colorado and Wyoming Territory. Its extent from north to south is about 240 miles; greatest length about 420 miles; land area, 76,185 square miles. The surface is generally a vast gently undulating plain, with a gradual ascent toward the mountains; the river bottoms are level. There are some bluffs along the Missouri River, some hills in the north-west, which is also partly occupied by the Mauvais Terres or Bad Lands. The state is well watered, three important rivers, the Niobrara, the Platte, and the Republican crossing it from west to east, while the Missouri flows for 500 miles along the eastern border. The Missouri is the only navigable river. East of the Bad Lands and south of the Niobrara is a tract of sand hills of 8,000 square miles area, which afford some pasturage. Timber is scarce. There is little coal, and that poor, but peat abounds. Brick and potter's clay plentiful, and there are extensive saline deposits; good building stone abundant. The eastern half of the State is a rich agricultural region, and the west is mainly adapted to grazing; the bottom lands are very rich. There is an abundant rainfall in the east, and that of the west seems increasing annually since the era of agriculture, so that the farm limit is extending westward. The leading products are wheat, corn, barley, oats, sorghum, flax, and hemp; vegetables, small fruits, and grapes are raised extensively. More than 150 species of wild grasses have been classified, which afford excellent pasturage to large numbers of cattle and sheep. Manufacturing interests are but little developed, being confined to a few cities, principally Omaha, Lincoln and Nebraska City. They include meat packing and canning, smelting and refining, and the making of flour, farming implements, wagons, cars, etc. Assessed valuation of taxable property in 1889, \$182,763,528.

There are 89 Counties in Nebraska. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 321, of which 82 designated by a dagger (†) are county seats. Of the 608 papers published in the State, 32 are daily, 1 semi-weekly, 553 weekly, 1 every ten days, 1 fortnightly, 4 semi-monthly, 14 monthly, 1 bi-monthly, and 1 quarterly.

NEVADA.

Population *44,327.....Rep. Maj. in 1888, 1,903.

Rep. vote, 7,229; Dem. 5,326; Prohib. 41.

STATE CAPITAL, CARSON CITY.

NEVADA is bounded north by Oregon and Idaho, east by Utah and Arizona, and southwest and west by California. Extreme length from north to south, 485 miles in the eastern, and 210 in the western boundary; greatest breadth, 320 miles, decreasing to 810 miles in the north to a point in the south; land area, 109,740 square miles. Surface generally is a table land about 4,000 feet above the sea, traversed by nearly parallel mountain ranges, between which are valleys varying in width from 5 to 20 miles, in some cases narrow canons, and in others broad deserts, covered with sage brush and other scanty herbage. The soil when irrigated is fertile, and produces spring wheat, barley, oats, potatoes, butter, hay, wool, etc. There is much good pasturage, and cattle fatten readily upon it. The State lies almost wholly in the "Great Basin," the most arid region of North America. Yet it is considered possible, by storing the waters of its mountain streams, to reclaim several millions of acres by irrigation. Cotton and sub-tropical fruits do well in the south. It has for years been the leading State in the production of the precious metals. The milling and smelting of ore is the leading manufacturing pursuit. The output of precious metals in 1888 was nearly \$12,305,608. A valuable deposit of anthracite coal has been discovered on the Elko River near Humboldt, which is being developed. The cattle interests of the State are next in importance to its mineral resources. The wool product in 1887 was 3,000,000 pounds. Lumber sawing, once important, is declining, owing to the rapid disappearance of the forests.

There are 14 Counties in Nevada. Newspapers are published in 13.—Cities, towns, and villages in which papers are published number 15, of which 12 designated by a dagger (†) are county seats. Of the 24 papers which insert advertisements published in the State, 10 are daily and 14 weekly.

NEW HAMPSHIRE.

Population *381,000.....Rep. Plur. in 1888, 2,272

Rep. vote, 45,728; Dem. 43,456; Prohib. 1,588.

STATE CAPITAL, CONCORD.

NEW HAMPSHIRE is bounded on the north by Quebec, east by Maine and the Atlantic Ocean, south by Massachusetts, and west by Vermont. Its length is 180 miles from north to south; its extreme breadth 93 miles; average breadth 50 miles; land area, 9,005 square miles. Most of the State, except the southeastern part, has a rough and hilly surface. In the northern part are the White Mountains. The State is generally well wooded, and the yield of timber is very large. The Valley of the Connecticut is famed for the beauty of its farms and villages. In productions, the hay crop is by far the most valuable, and while this is steadily increasing the agricultural interests have for some years been gradually declining. While there are some very fertile tracts among the valley lands, the greater part of the surface is rugged and stony, and much more valuable as woodland or pasture than as tilled land. Oats, barley, rye, buckwheat, and corn are very generally cultivated. Dairy farming and wool growing are followed to some extent. Tobacco is grown in Cheshire County, in the southwestern part of the State. Fruit raising is generally profitable. In some localities southward the peach is successfully cultivated. Fine building granite is extensively quarried at Concord, Milford, Pelham, Plymouth, and other points, and a fine soapstone at Franconstown. Iron ore is mined principally at Franconia, but abounds in several other localities. There is a thin vein of tin at Jackson. Lead, silver, and zinc are developed in Madison and Warren. Manufactures constitute by far the largest industry. There is scarcely a town of any considerable size without its important manufacture. It is especially noted for its textile interests. The other main industries are boots and shoes, leather, lumber, carriages, flouring mills, saddlery, clothing, starch, etc.

There are 10 Counties in New Hampshire. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 61, of which the 12 designated by a dagger (†) are county seats. Of the 143 papers published in the State, 15 are daily, 3 semi-weekly, 112 weekly, 2 fortnightly, and 11 monthly.

NEW JERSEY.

Population *1,408,000.....Dem. Plur. in 1888, 7,149

Dem. vote, 151,493; Rep. 144,344; Prohib. 7,904.

STATE CAPITAL, TRENTON.

NEW JERSEY is bounded north and northeast by New York, east by New York and the Atlantic Ocean, south by the Atlantic Ocean and Delaware Bay, and west by Delaware and Pennsylvania. Its extreme length is 167 miles; its greatest breadth 59 miles, and its least 32 miles; land area, 7,455 square miles. The surface is mountainous in the northwest, hilly in the northeast and central parts, low and gently undulating in the south. The mountains, a part of the Appalachian system, are the Kittatinny or Blue, and the Highland Range. Between them lies the Kittatinny Valley, about 10 miles wide; soil productive but varied—the northern part adapted to grain and grass; the central part has been well fertilized, and yields abundant farm and market garden products and fruit; the southern part is sandy and light. Its agricultural products generally, including market garden produce, are very extensive. The central part is the most thickly settled and is, in fact, a vast market garden for the supply of New York and Philadelphia. Large quantities of grapes and small fruits are grown in the south. Cranberries are one of the leading productions. It is estimated that more than half of the cranberries produced in the United States are grown in this State. The chief cranberry counties are Ocean, Atlantic, and Burlington. It is celebrated for its marl and clay deposits, peat, bog iron ore, and glass sand. It has become one of the leading States in the value of its manufactures, which embrace a wide range of goods. Prominent among the instances of greatest growth may be mentioned the pottery and rubber interests, while glass making is an important industry in the sandy region of the south. Its iron mines, zinc mines, slate quarries, and clay banks are very valuable, and the fisheries (deep sea, oyster, and fresh water), a source of great profit. Iron ore is found generally through the State. There are a large number of productive mines of magnetic iron ore in Sussex, Passaic, Morris, and Warren Counties. Clay for gas retorts and fire brick is found at Amboy, and valuable deposits of franklinite at Mine Hill and Striving. In the northwestern portion of the State, excellent roofing-slates, building and flag stones and rich hematites are abundant. It has a large coasting trade, and considerable ship building is carried on. Newark, the metropolis, has a population of 182,000, and its manufacturing industries are claimed to be more important in proportion to population than those of any other city in the United States. Within the past ten years the sea coast has been built up in almost a continuous line of villages from Sandy Hook to Cape May Point, and the temporary residents in the summer season will reach as high as 100,000 persons.

There are 21 Counties in New Jersey. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 125, of which 21 designated by a dagger (†) are county seats. Of the 316 papers published in the State, 45 are daily, 1 tri-weekly, 4 semi-weekly, 232 weekly, 2 fortnightly, 6 semi-monthly, 24 monthly, 1 bi-monthly, and 1 quarterly.

ATLANTIC CO. (S.S.E.).....Pop. *28,825

Rep. vote in 1888, 3,031; Dem. 2,560; Pro. 263.

Level; soil sandy; marshy near the sea; extensive forests of small pines. Products—Cranberries, white and sweet potatoes, hay, little wheat, and wine; small fruits, especially blackberries, strawberries, and grapes; there are numerous factories of clothing and shoes. COUNTY SEAT, May's Landing, pop. 850.

NEW MEXICO.

Population 133,530.....Dem. Maj. in 1888, 1,650 (Congressional)

Dem. vote, 16,131; Rep. 14,481.

TERRITORIAL CAPITAL, SANTA FE.

NEW MEXICO is bounded north by Colorado, east by the Indian Territory and Texas, south by Texas and Mexico, and west by Arizona; greatest length, north to south, 390 miles, average width, 335 miles. Land area, 122,460 square miles. Its general surface is a region of high plateaus, traversed by mountain ranges with isolated peaks. The valleys are generally nearly level, and their soil fertile. In the southwest is a part of the barren "Llano Estacado" or "Staked Plain." The mesas, or table lands, occupy a large part of the surface, making stock raising and wool growing the leading occupations; the bunch grass affording rich pasturage, and neither hand feeding nor shelter is necessary for the herds and flocks. In 1888 the Territory possessed 1,127,529 cattle, 1,339,790 sheep, and 45,119 horses. Agriculture is successful in the valleys, glens and on the foot spurs of the mountain ranges. Irrigation is frequently resorted to in the valleys but never on the foot hills; for on the latter nature supplies moisture sufficient for the most luxuriant crops. In fact during the last three years farming on the mesas and in the valleys without irrigation has largely increased and has proven perfectly successful, causing the old inhabitants to say that the rain fall has increased. New comers think it has arisen from deep ploughing and better methods of farming. There is excellent promise from irrigation. On the Rio Grande alone there are works now projecting sufficient to reclaim from three to four million acres, There are many other river valleys of high fertility, whose soil is susceptible of irrigation, and in the future the Territory must attain agricultural importance. Wheat, corn, beans, onions, cabbage, alfalfa, oats, wild hay, and all kinds of vegetables are the chief crops. Of fruits, the apple, peach, melon, fig, apricot, pomegranate, and especially grapes, flourish. Gold, silver, copper, iron, and lead exist, and all are being extensively worked, while the gold output is increasing. The total mineral product for 1887 was valued at \$4,229,234. Iron ore has recently been discovered in extensive deposits in Lincoln Co. Bituminous coal is very abundant and large deposits of fine anthracite exist. The mining product in 1888 was about 500,000 tons. Large mica mines are worked, plumbago, cement, fire clay, gypsum, and mineral paint are found; marbles and other excellent building stones abound. Manufactures are confined principally to grain, quartz, and lumber milling, manufacturing wines and brandies, the making of blankets by the Navajo Indians, and coarse pottery by the Pueblos.

There are 15 Counties in New Mexico. Newspapers are published in 13.—Cities, towns, and villages in which papers are published number 27, of which 10 designated by a dagger (†) are county seats. Of the 48 papers published in the Territory, 5 are daily, 41 weekly, 1 semi-monthly, and 1 monthly.

NEW YORK.

Population *6,021,400Rep. Plur. in 1888, 13,074

Rep. vote, 648,909; Dem. 635,835; Prohib. 30,231; United Labor, 2,668; Union Labor, 626.

STATE CAPITAL, ALBANY.

NEW YORK is bounded on the north and northwest by Lake Ontario and the provinces of Ontario and Quebec, east by Vermont, Massachusetts, Connecticut, and the Atlantic Ocean, south by the Atlantic Ocean, New Jersey, and Pennsylvania, and west and northwest by Pennsylvania and Lake Erie. Its greatest length from north to south is 312 miles; its greatest breadth 412 miles; land area, 47,620 square miles. The surface is exceedingly diversified. It has numerous ranges of mountains, chains of hills, many beautiful valleys, much undulating land, some broad plains, and numerous beautiful lakes. The greater portion of the soil is arable, much of it exceedingly fertile. The mountainous districts are mainly good grazing land, and the dairy products are enormous, notably in St. Lawrence, Herkimer, and Oneida Counties. Immense crops of cereals are grown in the valley lands; hops in Otsego, Madison, Chautauqua, and Oneida Counties; fruit and grapes in the Hudson and Pleasant Valleys; tobacco is raised in several counties, and corn generally throughout the State. In the neighborhood of the large cities, market gardening is extensively carried on. The State is well wooded, and the timber varied and excellent. Its leading mineral is iron ore, of which the mines, especially those of the Champlain and Adirondack regions, yield heavily, and produce some of the most necessary ores for the iron manufacturing interest of the Middle States. Galena is found in large quantities in St. Lawrence and other counties. It abounds in building stone, consisting of granite, white and colored marbles, of which those of Westchester and St. Lawrence Counties are the most important; Potsdam and Medina sandstones and gray and blue limestones; also in fine brick clay. It has large quarries of slate and stone for flagging. There are extensive deposits of hydraulic cement and gypsum, the former being largely produced at Rondout, Manlius, and Akron, the latter near Syracuse. A vast amount of salt is made, chiefly from the springs of Onondaga County, the product being more than 10,000,000 bushels annually. In recent years new and promising salt fields have been developed in Wyoming and Genesee Counties. There are illuminating gas springs in several counties, and oil is found near Olean, Wellsville, etc. New York has no coal. The State ranks first in the value of its manufactures. The industries cover almost the whole range of business, and are well distributed over the State. Assessed taxable value of property in 1888, \$3,361,129,177; length of railroad lines, 1887, 7,456 miles. In 1874 it had in vessels of all classes, a tonnage of over 1,700,000 tons, more than a third of the tonnage of the country. The fishing industry is relatively large and valuable, the menhaden and oyster fisheries being the most productive.

There are 60 Counties in New York. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 438, of which the 61 designated by a dagger (†) are county seats. Of the 1,785 papers published in the State, 161 are daily, 3 tri-weekly, 32 semi-weekly, 1,095 weekly, 14 fortnightly, 38 semi-monthly, 1 every third week, 396 monthly, 13 bi-monthly, 31 quarterly, and 1 semi-annual.

NORTH CAROLINA.

Population *1,673,000..... Dem. Plur. in 1888, 13,118

Dem. vote, 147,902; Rep. 134,784.

STATE CAPITAL, RALEIGH.

NORTH CAROLINA is bounded north by Virginia, east and southeast by the Atlantic Ocean, south by South Carolina and Georgia, and west by Tennessee. Its extreme length from east to west is 490 miles; extreme breadth, 185 miles; land area, 48,580 square miles. The surface is very varied. For nearly 100 miles inland from the coast the country is level, marshy, and swampy; soil sandy but very fertile. It is estimated that there are nearly 3,000,000 acres of swamps in this region. Next is the middle section, with varied surface and fine soil. The surface then rises into small hills, increasing in altitude until they reach the mountainous region in the west. Some of the peaks in the Black Mountains and the Blue Ridge attain an elevation of from 5,000 to 6,000 feet. This region contains good grazing land, with much hard timber; and stock raising is largely carried on. In the coast region the river-bottoms and reclaimed swamp lands are very fertile, and here rice, cotton, corn, honey, beeswax, apples, peaches, and pears abound. The Scuppernon and Catawba grapes are native here; cranberries are extensively produced. The pine region is mainly uncultivated, but a large trade is done in timber, tar, and turpentine. Cotton is raised chiefly in the southern counties. The middle section is adapted to the growth of cereals, tobacco, and cotton; sweet potatoes are a leading staple. The principal manufactures are flour, lumber, tar, turpentine, rosin, cotton and woolen goods, tobacco, zinc (smelted and rolled), carriages, boots and shoes. The manufacture of cotton goods more than doubled from 1880 to 1885, there being in the latter year 80 mills, with 4,519 looms and 200,333 spindles. The increase has continued since that date. It exports coastwise and to foreign ports large amounts of lumber, cotton, tobacco, flour, and fish. The fisheries are very large and valuable. The State is very rich in minerals. Gold is mined to a considerable extent in Cabarrus, Mecklenburg, Lincoln, and Rowan Counties, and there is a branch of the United States Mint at Charlotte. Silver, lead, and zinc are found in association, particularly in Davidson County; silver ores mixed with lead or copper, principally in the interior counties; copper ores cover a wide field, and there is a very valuable mine in Ashe County; mica is found among the granites of Cleveland, Mitchell, and Yancey Counties; there is an abundance of corundum and many other metals, and even precious stones are found. Coal and iron are very abundant; the coal is mostly bituminous, and is contained in two fields, one in Stokes and Rockingham Counties, known as Dan River Field, the other in Chatham and Moore Counties, known as Deep River Field. The whole of the region from the navigable waters of the Roanoke and Cape Fear Rivers westward to Cherokee County contains rich beds of magnetic and hematite ores; the "Cranberry" mine, in Mitchell County, yields the purest magnetic ore yet found in the United States, producing a remarkably strong and tenacious iron.

There are 96 Counties in North Carolina. Newspapers are published in 79.—Cities, towns, and villages in which papers are published number 114, of which 72 designated by a dagger (†) are county seats. Of the 205 papers published in the State, 22 are daily, 3 semi-weekly, 159 weekly, 3 fortnightly, 4 semi-monthly, 13 monthly, and 1 quarterly.

NORTH DAKOTA.

Population *181,000 Rep. Plur. in 1888; 11,489

Rep. vote, 25,290; Dem. 13,801; Prohib. 418.

STATE CAPITAL, BISMARCK.

NORTH DAKOTA is bounded north by Manitoba and the Northwest Territories; South by South Dakota, east by Minnesota, and west by Montana. Length, east to west, about 355 miles. width, about 200 miles. Land area about 75,000 square miles. The Missouri River furnishes navigation for boats of three to six hundred tons burden. The Red River of the North, also navigable, drains the great wheat valley on its eastern border. That portion of the State east of the Missouri River is mostly rolling prairie; the soil on the Missouri Slope being a black, sandy loam, with clay subsoil; while in the Red River Valley it is a vegetable deposit of unsurpassed richness. West of the Missouri river the land is more broken, with stretches of excellent farming and grazing lands along the line of the Northern Pacific Railroad. In the north is a group of hills of moderate elevation known as Turtle Mountain. In the southwest is a district of eroded clay hills, called the "Bad Lands." Most of the latter forms good grazing ranges. The northern and central parts are especially adapted to the raising of wheat and other cereals, potatoes, vegetables and the earlier varieties of corn. The Red River Valley is not equalled on this continent for wheat production. The principal crops of the State for 1889 were as follows; wheat, 26,721,660; oats, 9,746,098, barley, 2,760,902; corn, 1,000,175; potatoes, 1,401,301 bushels; dairy products, 5,809,000 pounds of butter, 564,000 pounds of cheese; wool clip, 524,380 pounds. The area in cultivation in 1889 was approximately 4,700,000 acres. The rainfall is not great, but seems sufficient for ordinary years. The Missouri River and all small streams and lakes are lined with timber, and west and north of Bismarck are found inexhaustible beds of lignite coal.

There are 55 Counties in North Dakota. Newspapers are published in 37. —Cities, towns, and villages in which papers are published number 75, of which 34 designated by a dagger (†) are county seats. Of the 127 papers published in the State, 7 are daily, 115 weekly, and 5 monthly.

OHIO.

Population *3,600,000.....Rep. Plur. in 1888, 19,599

Rep. vote, 416,054; Dem. 396,455; Prohib. 24,356; Union Labor, 3,496.

STATE CAPITAL, COLUMBUS.

OHIO is bounded north by Michigan and Lake Erie, east by Pennsylvania and West Virginia, south by West Virginia and Kentucky, and west by Indiana; greatest length from east to west 225 miles; greatest breadth 200 miles; land area, 40,700 square miles. The general character of the surface is that of a plateau of about 800 to 1,000 feet above sea level. The most prominent feature is the great divide which separates the drainage of Lake Erie from that of the Ohio River. This passes diagonally across the State from Trumbull County in the northeast to Mercer and Darke Counties in the west. Its average height is about 600 feet above the lake; and from it the surface slopes gradually northward toward the lake and southward toward the river. The rivers and streams have excavated deep valleys, which give to the surface its distinctive undulating or rolling character. The soil is universally fertile; and Ohio holds a leading position in every branch of agriculture. The uplands are well suited to wheat, the southern slope of the watershed to grain generally, the northern slope to grazing and dairying, and the northeast section or Western Reserve especially so. The bottom lands of the Miami, Muskingum, and Scioto rivers are very rich in corn; the Western Reserve and Miami regions are famous for apples. Flax and linseed are staple products, and tobacco is largely grown in most of the southern counties. The forests have largely disappeared, but several million acres of excellent hardwood timber remain. The fishing interests of Lake Erie are important. The manufactures of the State are very numerous and valuable. Iron, pork packing, farm implements, clothing, flouring and grist mill products, lumber, malt and distilled liquors are among the most important. Assessed valuation of taxable property, 1889, \$1,705,182,719; including horses valued at \$43,486,497; cattle, sheep, hogs, and mules, \$43,511,000. Coal underlies a greater part of the State: iron ore is abundant, especially in the south; salt is very largely produced from springs; petroleum is an important product, also lime and cement. Good grindstones and building stones are obtained at Amherst, Berea (Berea grit), Buena Vista, and Independence. There are excellent qualities of limestone and sandstone for building, especially at Massillon and Dayton. Marl deposits abound in the Maumee Valley and other points. There are good pottery and fire clays, the fire bricks of Mineral Point being among the best in the United States. Cleveland, Massillon, Youngstown, and the towns on the Ohio River are the chief seats of the iron manufacture, which includes pig, forged, and rolled; iron castings and sheet iron works, rails, Bessemer steel rails, etc. The discovery of natural gas in apparently inexhaustible quantities at Findlay, and many other places in the State, has given its industrial interests an additional and marked impetus. The railroad facilities are rapidly increasing, and Ohio is now a net work of well constructed and busy transportation lines.

There are 88 Counties in Ohio. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 365, of which 88 designated by a dagger (†) are county seats. Of the 1,062 papers published in the State, 115 are daily, 6 tri-weekly, 17 semi-weekly, 757 weekly, 4 fortnightly, 21 semi-monthly, 1 every third week, 132 monthly, 1 bi-monthly, and 8 quarterly.

OREGON.

Population *304,000.....Rep. Plur. in 1888, 6,769

Rep. vote, 33,298; Dem. 26,524; Prohib. 1,677; Union Labor, 363.

STATE CAPITAL, SALEM.

OREGON is bounded north by Washington, east by Idaho, south by Nevada and California, and west by the Pacific Ocean; average length from east to west, about 300 miles; average breadth, about 260 miles; land area, 94,560 square miles. It is divided unequally by the Cascade Mountains. East of this range the surface is generally undulating table land, with high cone like hills and deep canyons. Between the Cascade and Coast Ranges is the Willamette Valley, 40 miles wide by 140 miles long, and exceedingly fertile; from the Coast Range westward the surface is mountainous, hilly, and broken. This section is suited for wool growing, stock raising, and the growth of winter wheat, barley, oats, and hay. The eastern portion does better as a stock raising region, but good wheat is grown there. In the valley, wheat, corn, hops, tobacco, wool, flax, fruit, linseed, dairy products, and potatoes are raised in large quantities. The mountain regions are abundantly forested, the principal species being fir, cedar, pine, birch, and spruce. Many of the trees are gigantic in size, and afford excellent lumber. The Rogue River Valley, on account of its mild climate, is well adapted for raising fruits and grapes and large quantities are shipped from there annually. The manufactures comprise lumber—the large Douglas spruce affording the best masts and spars in the world;—leather, boots and shoes, saddlery, milling and smelting of ores, carriages, furniture, liquors, linseed oil,

The number of manufacturing establishments in the State in 1880, was 1,080; amount of capital etc. All manufacturing enterprises have increased fully 50 per cent. in the last two years, and nearly double since 1880. The packing of beef and pork, and canning of salmon are successfully carried on. The Salmon pack of 1889 was estimated at 350,000 cases; the total catch for the year at 2,000,000 pounds. Gold and silver are produced, but not in very large amounts; copper and iron ore are abundant; clay, glass sand, granite, marble, etc., are plentiful.

There are 31 Counties in Oregon. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 70, of which 27 designated by a dagger (†) are county-seats. Of the 142 papers published in the State, 16 are daily, 1 semi-weekly, 114 weekly, 2 semi-monthly and 9 monthly.

SOUTH CAROLINA.

Population *1,194,000.....Dem. Maj. in 1888, 52,059

Dem. vote, 65,825; Rep. 13,736.

STATE CAPITAL, COLUMBIA.

SOUTH CAROLINA is bounded north and northeast by North Carolina, southeast by the Atlantic Ocean, west and southwest by Georgia. Its greatest length from east to west is about 275 miles, and its greatest breadth about 210 miles; land area, 30,170 square miles. The surface presents nearly the same features as that of North Carolina. The coast for 100 miles inland is low and level, with sandy soil, numerous swamps, and extensive pine forests; then follows a tract of low sand hills, the soil of which is moderately productive. The land rises abruptly on the western edge of this belt, and continues to rise until it terminates in the Blue Ridge, the highest peak of which, Table Mountain, is 4,000 feet above the sea. The swamps embrace over 1,000,000 acres, and the pine lands 6,000,000. The sea islands are mainly devoted to sea island cotton and rice, and the palmetto grows on them; the tidal swamps to rice; inland swamps, when drained, to rice, cotton, corn and peas; the salt marshes to long cotton; the oak and pine and oak and hickory lands to corn and cotton; and the pine barrens to fruits and vegetables. Rice, cotton, and corn thrive best in the central and southern counties. The northwestern region produces corn, wheat, barley, oats, tobacco, and many fruits. Stock raising and wool growing are carried on with profit. Figs and pomegranates grow in the lower counties, and the peach and grape thrive over the State generally; strawberries abundant. The manufactures are principally cotton goods, flour, lumber, machinery, tar, turpentine, carriages, and fertilizers. Since 1860 the number of manufacturing establishments has increased to over 3,000, employing more than 34,000 persons, and the value of products has increased 91 per cent., of which increase the cotton manufacture contributes nearly one-fourth, and lumber mills and flour and other mills more than 50 per cent. of the remainder; of the agricultural products cotton furnishes one-half and corn about one-fourth. The value of live stock has increased \$7,000,000; farm and vegetable productions, \$7,700,000, and mineral products, \$720,000. In 1860, under slave labor, South Carolina products, from all sources, amounted to \$54,455,707; in 1887, under free labor they reached a total of \$101,682,530. Commerce is mainly confined to Charleston, Georgetown, and Beaufort. Exports are chiefly rice, cotton, lumber, phosphate, naval stores, cotton seed and its oil, oil cake, fish, and spring vegetables. Considerable shad and oyster fishing. The mineral wealth, though large, has not been much developed. Considerable gold is found in the northwestern counties; there were four mines worked in 1887 yielding \$100,000; there are large deposits of excellent iron ore in Greenville, Pickens, Spartanburg, and Union Counties; manganese, copper, lead, and bismuth are also found, mainly in the northwest; white and colored marbles and limestones, granites and cyanites, soapstones, flagging stone, and buhr stone abundant. During 1886 and 1887 there was a rapid development of the quarries, especially in Fairfield Co., where is found, what is claimed to be, the finest granite in the United States. It is of beautiful appearance, great strength and fine quality. Aiken County contains immense beds of the finest porcelain clay. A little coal is found in Chesterfield County. The most valuable mineral at the present day is, however, a bone phosphate marl, a fossil deposit of recent origin and one of the best of fertilizers, found in the lowlands and river beds near Charleston; on the Stono, Ashepoo and Edisto Rivers; also near St. Helena Sound. This product has grown from 18,000 tons in 1868-70 to 432,757 tons in 1887. In the year ending August 31, 1889, 212,101 tons were taken from the beds of navigable streams.

There are 35 Counties in South Carolina. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 67, of which 35 designated by a dagger (†) are county seats. Of the 123 papers published in the State, 6 are daily, 1 tri-weekly, 1 semi-weekly, 104 weekly, 4 semi-monthly, 5 monthly, 1 bi-monthly, and 1 quarterly.

SOUTH DAKOTA.

Population *378,000.....Rep. Maj. in 1888, 14,567 (Congressional)

Rep. vote, 89,826; Dem. 24,759; Prohib. 918.

SOUTH DAKOTA is bounded north by North Dakota, east by Minnesota and Iowa, south by Nebraska, and west by Montana and Wyoming. Length, east to west, nearly 360 miles; width, about 240 miles. Land area about 86,000 square miles. The Missouri River furnishes navigation for boats of three to six hundred tons burden. That portion of the State east of the Missouri River is mostly rolling prairie; the soil on the Mississippi Slope being a black, sandy loam, with clay subsoil. West of the River the land is more broken, with mining and grazing land in the southwestern section or Black Hills region, which is a mountain district of nearly 5,000 square miles in extent, exceedingly rich in valuable minerals, and in great part well adapted to stock raising. It is largely forested, and with the aid of irrigation much of it might be adapted to agriculture. The northern and central parts of the State are especially adapted to the raising of wheat and other cereals, potatoes, vegetables, and the earlier varieties of corn. In the southern part corn and flax are also successfully grown. Recently the agricultural section of the State has been largely added to by the opening to settlement of the great Sioux reservation of more than 22,000,000 acres in extent, a well watered and highly fertile region, whose cultivation must contribute greatly to the products of the State. The Missouri River and all small streams and lakes are lined with timber. The principal agricultural products in 1889 were as follows: wheat, 17,287,332 bushels; corn, 21,821,898; oats, 11,623,615; barley, 1,694,875; and flax, 2,754,376. Dairy products, 7,974,000 pounds of butter, 940,000 pounds of cheese. Wool clip, 1,218,100 pounds. Length of railroad lines in 1899, 2,340 miles. Assessed valuation of taxable property, \$97,342,440. The Black Hills possess some of the richest gold mines in the world. Tin occurs in great abundance, though as yet but little developed, from difficulty in reducing. Other important minerals are silver, copper, iron, gypsum, mica, marble, building stone, lime, brick, fire, and potter's clay, and coal. Petroleum and natural gas are also present, while various other minerals exist.

There are 78 Counties in South Dakota. Newspapers are published in 52.—Cities, towns, and villages in which papers are published number 141, of which 48 designated by a dagger (†) are county seats. Of the 267 papers published in the State, 19 are daily, 3 semi-weekly, 235 weekly, 1 semi-monthly, and 9 monthly.

TENNESSEE.

Population *1,804,000Dem. Plur in 1888, 19,791

Dem. vote, 158,779; Rep. 139,988; Prohib. 5,969; Union Labor, 48.

STATE CAPITAL, NASHVILLE.

TENNESSEE is bounded north by Kentucky and Virginia; southeast by North Carolina; south by Georgia, Alabama, and Mississippi; west by Arkansas and Missouri; greatest length from east to west 432 miles, breadth 109 miles; land area, 41,750 square miles. The State is popularly divided into East, Middle, and West Tennessee. East Tennessee comprises the eastern mountain border, the beautiful East Tennessee Valley, and about half of the Cumberland Mountain plateau. Middle Tennessee reaches from about the center of the plateau to the Tennessee River, and is a region of fertile terraces, including the vast elliptical basin of nearly 5,000 square miles, known as the Garden of Kentucky. West Tennessee extends from the Tennessee River to the Mississippi, and is somewhat broken in the east, succeeded by a rolling plain, descending to the latter river. The Mississippi bottom is a low, flat, alluvial plain, covered with forests and abounding with lakes and swamps. West Tennessee is extremely fertile, and produces corn and cotton in large quantities. Middle Tennessee is generally fertile, giving excellent grain, tobacco, and much cotton, especially toward the south. East Tennessee valley lands are fertile, producing corn, cotton, and winter wheat; potatoes, oats, hay, and hemp are extensively produced; great numbers of stock are raised, and the wool clip is large and excellent. Swine are extensively grown, and much attention is paid to fine breeds of horses. The wheat crop in 1889 aggregated 9,076,356; that of corn 79,451,730 bushels; the cotton crop was estimated at 159,371 bales of 465 pounds each. Peanuts form a product of some importance, the yield in 1884 being 1,250,000 bushels. Tennessee is rich in marble of various kinds, limestone and other building stone; valuable copper mines exist in Polk County; coal and iron ore are very abundant. The coal deposits underlie 5,100 square miles, much of it rich in coal. The product in 1885 was 1,000,000 tons; that of iron in 1886, 328,600 tons. Iron mining and smelting is becoming very extensive, and much iron ore is exported to the iron working towns on the Ohio River. The lumbering interest is very great, there being a very large area of valuable hardwood timber, of which about 16,000,000 acres have scarcely been touched as yet. Wool carding and cloth dressing are carried on extensively. Flouring and grist mill products are very large. Union County contains zinc and lead mines. Colored marbles are found in immense quantities in East and West Tennessee; roofing slates in East Tennessee; hydraulic limestone in East, Middle and West Tennessee; there are also building limestone, sandstone, and granite fire and potter's clay.

There are 96 Counties in Tennessee. Newspapers are published in 84.—Cities, towns and villages in which papers are published number 110, of which 77 designated by a dagger (†) are county seats. Of the 268 papers published in the State, 22 are daily, 3 semi-weekly, 207 weekly, 1 fortnightly, 4 semi-monthly, 28 monthly, and 3 quarterly.

TEXAS.

Population *2,142,000Dem. Plur. in 1888, 146,461

Dem. vote, 234,883; Rep. 88,422; Union Labor, 29,459; Prohib. 4,749.

STATE CAPITAL, AUSTIN.

TEXAS is bounded north by New Mexico, the Indian Territory, and Arkansas, east by the Indian Territory, Arkansas, and Louisiana, southeast by the Gulf of Mexico, southwest by Mexico, and west by New Mexico; greatest length about 825 miles; greatest breadth about 840 miles; land area, 262,290 square miles. From the Sabine River to the Trinity River is the great timber region, generally level and sandy in the south, rolling and fertile in the north. From the Trinity to the Colorado is prairie, timbered along streams, with an extensive forest in the north called the "Cross Timbers." The total area of timber is about 36,000,000 acres, of which 25,000,000 is in pines. The pecan tree is widely distributed, and is a valuable nut bearing tree, its yield in 1887 being estimated at 9,000,000 pounds. Western Texas embraces the counties between the Colorado and Rio Grande; four-fifths of it is prairie; timber generally confined to banks of streams. Between the Colorado and the Brazos Rivers are the Comanche and Leon River Mountain ranges. In the north and northwest are the Church and Double Mountains, and the surface is generally broken until the Llano Estacado, or Staked Plain, is reached, when the surface is gently undulating, and vegetation scanty. Between the Pecos and Rio Grande are several ranges, sometimes attaining an elevation of 5,000 feet. The chief crops are cotton, corn, and wheat. The former two may be grown in nearly any part of the State, but especially in the eastern and central sections; the latter chiefly in the north and centre. Sea island cotton is grown on the coast. Sugar cane is raised chiefly on the Brazos and other rivers, near their mouths, and rice in the southeast. Oats, barley, tobacco, and sweet and white potatoes are grown to a moderate extent. Swine thrive on the abundant mast of the forests. The chief occupation westward is stock raising and wool growing. The cattle assessed for taxation in 1888 numbered 6,517,529; valued at over \$81,000,000. Figs and oranges thrive in the south. The crops of 1887 were: corn, 55,775,745 bushels; oats, 13,490,925 bushels; wheat, 5,174,454 bushels; sweet potatoes, 3,823,563 bushels; cotton, 1,123,238 bales. Manufacturing interests are increasing. The leading products are lumber, cotton seed oil, flour, carriages, foundry and machine shop products, woolens, marble, etc. There are immense deposits of copper along the line of the Texas Pacific Railroad; coal, timber, limestone, soapstone and iron are found in the same region. Argentiferous galena is found in large quantities in northwestern Texas; immense quantities of magnetic iron in Mason, Llano, and the western counties which is now being developed. There is a field of lignite coal about 6,000 square miles in extent, and a field of semi-anthracite in Brown, Coleman, Comanche, and Hamilton Counties. Salt is produced in large quantities from springs in El Paso, Lampasas, and Llano Counties; asphaltum is abundant. Large quantities of salt petre are found in Blanco and Burnet Counties; marble and roofing slate, grindstones, potter and fire clays, marl and other fertilizers are found in great quantities. Value of taxable property in 1888, \$681,084,904. Length of railroad lines, 1889, 8,151 miles. In 1888 Texas still contained over 67,000,000 acres of public lands, an area larger than that of any State, but California and Nevada.

There are 245 Counties in Texas. Newspapers are published in 178.—Cities, towns, and villages in which papers are published number 297, of which 165 designated by a dagger (†) are county seats. Of the 537 papers published in the State, 43 are daily, 1 tri-weekly, 4 semi-weekly, 459 weekly, 9 semi-monthly, 20 monthly, and 1 quarterly.

UTAH.

Population *206,408.....Mormon Maj. in 1888, 6,643 (Congressional)

Mormon vote, 10,127; Gentile, 3,484.

TERRITORIAL CAPITAL, SALT LAKE CITY.

UTAH is bounded north by Idaho and Wyoming, east by Wyoming and Colorado, south by Arizona, and west by Nevada; length, north to south, about 350 miles; width about 260 miles; land area, 82,190 square miles. The surface is very mountainous, interspersed with arid plains, valleys, and basins; much of it is utterly sterile. The grazing and mountain lands comprise about seven-eighths of the Territory. Irrigation is nearly everywhere necessary, but if a perfect system was adopted, much of the soil now worthless would produce good crops, as it contains most if not all of the elements of fertility. Wheat, oats, barley, corn, potatoes, hay, and wool are the chief products. Cattle raising is a profitable industry, and is often successfully carried on where farming is impracticable. The chief wealth of the territory, however, is in its minerals. Gold and silver are largely produced, as are also lead, iron, copper, coal, and salt. The metallic product for 1888 was; gold, \$7,557,242; silver, \$5,737,527; lead, \$1,203,313; copper, \$288,681. Manufactures are chiefly those of goods needed for home consumption, but of late extensive works for the mining and smelting of ores have been established. Assessed valuation of property in 1889, \$51,917,312.

There are 24 Counties in Utah. Newspapers are published in 10.—Cities, towns, and villages in which papers are published number 11, of which 8 designated by a dagger (†) are county seats. Of the 46 papers published in the Territory, 9 are daily, 1 tri-weekly, 8 semi-weekly, 18 weekly, 3 semi-monthly, and 7 monthly.

VERMONT.

Population *332,350.....Rep. Plur. in 1888, 28,404

Rep. vote, 45,192; Dem. 16,788; Prohib. 1,460.

STATE CAPITAL, MONTPELIER.

VERMONT is the most northwesterly of the New England States, bounded north by Quebec, east by New Hampshire, south by Massachusetts, and west by New York. It is 143 miles long by from 40 to 85 miles wide, with a land area of 9,185 square miles. The Green Mountains traverse it from north to south, mainly in two ranges, generally covered with dense forests, but affording excellent pasturage. Western Vermont and a large tract of the eastern part comprise beautiful pastoral regions, but the central part is rugged and mountainous. The best soil is found on the western slope of the mountains near the border of Lake Champlain, and in the valley lands of the Connecticut River. The State occupies a prominent position in agriculture. When its area, population, amount of forest land, and long severe winters are considered, there is perhaps no other State that yields so large a return. All the ordinary agricultural staples are abundantly produced; wool and dairy products are large and excellent; cattle, sheep, and horses are raised in large numbers, and the yield of maple sugar is unequalled. Manufactures occupy a prominent position in its industries, and cover a wide range of goods, including flour, furniture, cotton and woolen goods, leather, agricultural tools, tin and copper ware, lumber, etc. Assessed valuation of property in the State, 1889, \$160,587,057. Large quantities of lumber are exported, and marble and slate extensively quarried. The principal marble quarries are at Brandon, Dorset, IsleLa Motte, Manchester, Middlebury, New Haven, Pittsford, Proctorsville, (serpentine), Roxbury (verd-antique), Rutland, Shelburn, Sutherland Falls, Swanton and West Rutland; slate quarries at Castleton, Fair Haven, Gullford, Northfield, Pawlet and Poultney granite at Barre and Brattleboro. Potters' clay comes from Bennington and Rutland; steatite from Castleton and Grafton. Manganese, brown hematite, kaolin and ochre from Brandon, South Wal-lingford and Manchester Centre; copper ore from Vershire and Corinth. Rutland is the largest marble centre in the world, not less than \$6,000,000 of capital and 4,000 men being employed in 15 quarries and 20 mills. The total output of marble in 1889 was 3,863,500 cubic feet. During the last ten years the development of the granite business at Barre, six miles from Montpelier, has been very large. Nearly \$2,000,000 of capital and 1,200 men are employed in it, while the 1889 output was 364,961 cubic feet. Burlington is a large market for Vermont and Ottawa lumber, having extensive mills and a trade extending throughout the Eastern States. Vermont continues to be the greatest breeding state of fine horses (Morgans and Hambletonians) and of Spanish merino sheep. Every year numbers of these superior animals are shipped to all parts of this country, to South America and to Australia.

There are 14 Counties in Vermont. Newspapers are published in 13.—Cities, towns, and vil-lages in which papers are published number 45, of which 12 designated by a dagger (†) are county seats. Of the 82 papers published in the State, 4 are daily, 66 weekly, 1 semi-monthly, 1 every third week, and 10 monthly.

ADDISON CO. (W.).....Pop. *22,203

Dem. vote in 1888, 4,036; Rep. 618; Pro. 164.

Near the lake the surface is level, but becomes rugged and mountainous toward the east; soil fertile; quarries of white and veined marble. Products—Butter, cheese, hay, honey, wool, maple sugar, and potatoes very large; corn, wheat, buckwheat, with oats largely in excess; live stock. Manufactures principally lumber, iron, pulp, and wool. COUNTY SEAT, Middlebury, pop. 2,993.

VIRGINIA.

Population *1,878,000Dem. Plur. in 1888, 1,539

Dem. vote, 151,977; Rep. 150,488; Prohib. 1,678.

STATE CAPITAL, RICHMOND.

VIRGINIA is bounded north by West Virginia and Maryland, east by Maryland and the Atlantic Ocean, south by North Carolina and Tennessee, and west by Kentucky and West Virginia. Its greatest length from east to west is about 440 miles, its greatest breadth 192 miles; land area, 40,125 square miles. The surface is divided into six great natural divisions, the Tidewater comprising the south and southeast; the Middle, an undulating plain, extending westward to the Coast Range; the Piedmont, from the Coast Range to the Blue Ridge Mountains, and from the Potomac River to North Carolina; the Blue Ridge, stretching across the State in a southwesterly direction; the Valley—a part of the great Appalachian Valley, reaching from Canada to Alabama—a broad belt of rolling country between the Blue Ridge and the Kittatinny or North Mountain; and the Appalachian, a mountainous region traversed by the Alleghenies. The soil in the Tidewater region is a light sandy loam, yielding large crops of vegetables and small fruits. The Valley Region has a rich fertile soil, well adapted for cereals. Much of the Mountain Region is uncultivated and chiefly forest land; but the parallel valleys are very fertile. The Piedmont, Blue Ridge, Valley, and Appalachian regions are noted for their grasses. The yield of tobacco is only equaled by that of Kentucky. Some cotton is grown in the Tidewater section; fruit grows all over the State. A considerable part of the tide water region is devoted to raising early vegetables for northern markets. Dairying, stock raising, and wool-growing are important industries. The timber export is large. There are profitable fisheries of bass, shad, etc., and the oyster trade is very important. The manufacturing interests are comparatively small, but are increasing, the chief seats being Richmond, Alexandria, Danville, and Lynchburg. The more important products are iron, tobacco, leather, coke, cotton, paper, agricultural implements, machinery, etc. Virginia has excellent natural advantages for commerce, but it is only lately that she has begun to take a prominent part in foreign trade. There are beds of anthracite, semi-bituminous, and bituminous coal in the southwestern counties, not much developed; salt is an important product of this region. There are coal bearing strata in other parts of the State, particularly near Richmond; the coal is bituminous, and generally of good quality. Virginia has vast beds of gypsum and marl, abundant iron ore, fine granite, marble, and other building stones; zinc, sulphur, kaolin, fire clay, and many other minerals. It abounds in mineral springs of great reputation. Iron and manganese are extensively mined, also zinc and lead ores. Lime burning is an important industry. Considerable quantities of coal are produced from the Trans-Appalachian district, the total coal output increasing from 300,000 tons in 1883 to 1,250,000 in 1887.

There are 100 Counties in Virginia. Newspapers are published in 71.—Cities, towns, and villages in which papers are published number 105, of which 57 designated by a dagger (†) are county seats. Of the 234 papers published in the State, 25 are daily, 2 tri-weekly, 5 semi-weekly, 178 weekly, 1 semi-monthly, 22 monthly and 1 bi-monthly.

WASHINGTON.

Population *349,496Rep. Maj. in 1888, 7,371 (Congressional)

Rep. vote, 26,291; Dem. 18,920.

STATE CAPITAL, OLYMPIA.

WASHINGTON is bounded north by British Columbia, west by the Pacific Ocean, east by Idaho, and south by Oregon. Its average length, east to west, is 330 miles; width, 220 miles; land area 69,994 square miles. It is divided by the Cascade Mountains, into two distinct parts. Western Washington is a fine timber country, with many fertile valleys, well settled and very productive in vegetables which grow to an immense size, fruit of all kinds, and hops. Dairying is an interest of growing importance. Extensive coal and iron mines are being operated, coke ovens established, and the State will be, in a short time, the Pennsylvania of the Pacific Coast. The discoveries during the past two years have been of copper, silver, galena and gold mines, all of which are rapidly being developed. There is also an abundance of iron ore, limestone, granite, marble, etc. Eastern Washington is especially adapted for the raising of all kinds of grain, fruit, vegetables, hops, corn, and particularly wheat. The climate is perfection; the mean average temperature for the year being 53°. It is the best agricultural country on the Pacific Coast. Cattle and stock of all kinds do remarkably well; the ranges are good and it is not considered necessary to feed the stock in the winter time, owing to the generally light snow fall and the abundance of natural grasses. Puget Sound, is itself a vast harbor, having an extent of 1,594 miles of shore line, and Seattle, its principal sea port, is fast becoming the metropolis of the northwest Pacific Coast. Fish of all kinds abound, and the canning of salmon employs many hundred people in the season. Manufacturing establishments are increasing every day and the State is on the eve of great developments. Ship building is one of the most important industries. The principal articles of export are lumber, coal, wheat and salmon. Hops are a leading product of Western Washington, the yield in 1888 being 35,492 bales. The output of coal for the same year was 1,215,715 tons; that of lumber was 760,985,145 feet. Of the area of the State, 20,000,000 acres are in timber, with 10,000,000 additional of mineral and mountain lands, mostly timbered. Parts of this area bear immense trees, ten to twelve feet in diameter and 300 feet high. The assessed valuation of taxable property in 1889 was \$124,795,449, being double that of 1887.

There are 34 Counties in Washington. Newspapers are published in 33.—Cities, towns, and villages in which papers are published number 92, of which 29 designated by a dagger (†) are county seats. Of the 181 papers published in the State, 23 are daily, 1 tri-weekly, 149 weekly, 1 semi-monthly, and 7 monthly.

WEST VIRGINIA.

Population *775,000.....Dem. Plur. in 1888, 506

Dem. vote, 78,677; Rep. 78,171; Union Labor, 1,508; Prohib. 1,084.

STATE CAPITAL, CHARLESTON.

WEST VIRGINIA is bounded north and east by Pennsylvania and Maryland, east and south by Virginia, and west by Kentucky and Ohio. Its greatest length from north to south is about 240 miles; greatest breadth, 160 miles; land area, 24,645 square miles. A large part of the surface is mountainous and hilly; about two-thirds is covered with forest. The soil of the ridges is fertile to the tops, and the summits of many mountains are flat, natural meadows or glades. The valley of the Great Kanawha is the finest grazing region of the State. Blue grass is indigenous; the lumber trade is important, the forests being principally composed of hardwood timber of the most valuable kinds. Nearly the whole of the State lies within the Allegheny coal system, and large quantities of coal are exported both by river and rail, and new mines are constantly being opened. The total area underlaid by coal is estimated at not less than 16,000 square miles. The production increased from 600,000 tons in 1873 to over 4,000,000 tons in 1886. It is generally bituminous. The Kanawha Valley is one of the great salt producing regions of the United States. Petroleum is extensively produced, chiefly in Ritchie, Pleasants, Marshall, Wood, and Wirt Counties. Natural gas is found in several sections, Wheeling and the Northern Pan Handle using it as a fuel almost to the exclusion of coal. Limestone, sandstone, and grinding stone abound generally through the State. The minerals and mineral springs are inexhaustible. West Virginia is especially famous for wool, while the live stock interests generally are large. Other great staples are corn, wheat, oats, and tobacco. Manufactures are comparatively undeveloped, except in the towns along the Ohio River. The State has enormous water power, all its streams having a rapid descent, but so far this has been but little utilized. The leading industries are steel and iron in various forms, glass, flour, salt, wood pulp, liquor, lumber, queensware and porcelain, fire brick, leather, cigars and tobacco, and machinery. The cigar manufacture is important, there being produced in the year ending June, 30, 1889, 46,928,800 cigars in 114 factories. Wheeling is the largest and most important city; it is the manufacturing center and all the industries enumerated above, except salt, flourish there.

There are 54 Counties in West Virginia. Newspapers are published in 53.—Cities, towns, and villages in which papers are published number 73, of which 50 designated by a dagger (†) are county seats. Of the 148 papers published in the State, 11 are daily, 3 semi-weekly, 125 weekly, 1 fortnightly, 1 semi-monthly, and 7 monthly.

WISCONSIN.

Population *1,682,000.....Rep. Plur. in 1888, 21,321

Rep. vote, 176,553; Dem. 155,232; Prohib. 14,277; Union Labor, 8,552.

STATE CAPITAL, MADISON.

WISCONSIN is bounded north by Lake Superior, northeast by Michigan, east by Lake Michigan, south by Illinois, and west by Iowa and Minnesota. Its greatest length from north to south is 300 miles; greatest breadth, 260 miles; land area, 54,450 square miles. The surface is generally an elevated plain, with high bluffs along the rivers and lakes, and elsewhere gently undulating, diversified with prairie, woodlands, and numerous lakes. The State ranks high in agricultural products. The northern part of the State is heavily timbered but is fast settling up. In 1886 the forest area still occupied about one half the State. It has a somewhat severe climate, but outside the wooded country the soil is good, producing large crops but not of corn. The lumber business of this section of the State, in pine and hard wood, has built up many large and flourishing inland cities like Oshkosh, Eau Claire, Wausau, Chippewa Falls, Stevens' Point, Merrill and Shawano. During the past three years an immense deposit of the best iron ore, extending across the entire northern part of the State and known as the Gogebic iron belt, has developed many valuable mines, and the shipments of Bessemer and hematite ore have added millions of wealth to the productive capacity of the State and largely increased the population. Galena limestone, lead, and zinc exist in the southwest, chiefly near Mineral Point. One of the best hydraulic cements comes from the neighborhood of Milwaukee. Wheat, corn, rye, oats, barley, potatoes, dairy products, and maple sugar are all raised in large quantities; hops are exceedingly prolific; fruit growing is an important industry. Cheese and butter making have increased to enormous proportions, especially in the central and southern counties, and the growing of seed leaf tobacco for wrappers has become an important and profitable industry, the product commanding the highest market price. The leading agricultural products for 1888 were as follows: oats, 41,733,682; corn, 29,058,867; wheat, 9,786,983; barley, 10,502,443 bushels; tobacco, 14,293,865; butter, 31,619,926; cheese, 38,583,472 pounds. Large numbers of horses are bred; sheep are numerous, and the wool clip large and valuable. The lakes and streams abound with fish, especially trout and black bass. Manufactures are thriving and numerous, lumber and wood work of all kinds holding a very prominent position. The manufactures of furniture, wagons, agricultural implements, leather and brooms are large and increasing, while at Milwaukee are situated several of the largest and wealthiest beer brewing corporations in the world, and the manufactures of cotton and woolen goods, nails, steel rails and merchant iron are conspicuous and valuable. Since 1880 there has been a marked growth of manufacturing enterprise in the leading cities of the State. Milwaukee, in particular, has enjoyed a revival in this direction, owing to her natural advantages. The number of miles of railway in 1887 was 4,778; number of farms, 136,108, the value of which, together with their products in 1885, was \$568,187,288; the value of the iron producing establishments and their product, in 1885, was nearly \$200,000,000.

There are 68 Counties in Wisconsin. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 220, of which 67 designated by a dagger (†) are county-seats. Of the 522 papers published in the State, 47 are daily, 1 tri-weekly, 2 semi-weekly, 440 weekly, 2 fortnightly, 7 semi-monthly, and 23 monthly.

WYOMING.

Population *60,000.....Rep. Maj. in 1888, 2,894, (Congressional)

Rep. vote, 10,451; Dem. 7,557.

STATE CAPITAL, CHEYENNE CITY.

WYOMING is bounded north by Montana, east by Dakota and Nebraska, south by Colorado and Utah, and west by Utah, Idaho, and Montana; length, east to west, 365 miles; width, 274 miles; land area, 97,575 square miles. Its surface is broken by mountain ranges, deep river canons, flat topped hills or buttes, the latter a feature of South Wyoming, and which rise from valley or plain like walled cities or mounds. There are large elevated plateaus or parks, of which the principal is the Great Yellowstone or National Park. There are extensive areas of pine and spruce timber, widely distributed throughout the mountain regions. Stock raising, sheep husbandry, and coal mining are the leading pursuits. Irrigation is needed in a large part of the country to make the soil productive. It is estimated that 10,000,000 acres may be reclaimed by irrigation. This is being actively applied, more than 4,500 miles of irrigation ditches having been dug in the past ten years. The question of the formation of reservoirs by the Government is under consideration. Gold and silver are plentiful. There are vast beds of iron ore and plenty of good coal, the latter underlying 30,000 square miles of territory, much of it workable. In 1888 nearly 2,000 miners were employed, the product being 1,455,240 tons. Gypsum, salt, soda, sulphur, copper, lead, tin, and other minerals are found. Petroleum seems abundant in central and northern Wyoming. It is produced to some extent. In manufactures, the sawing of lumber and railroad ties, milling of quartz, and railroad repair and machine shops in the towns on the line of the Union Pacific Railroad, occupy the leading place.

There are 12 Counties in Wyoming. Newspapers are published in all.—Cities, towns and villages in which papers are published number 19, of which 7 designated by a dagger (†) are county seats. Of the 38 papers published in the State, 5 are daily, 1 semi-weekly, and 32 weekly

ALBANY CO. (E.).....Pop. 15,000

Rep. vote in 1888, 1,584; Dem. 1,024.

ALASKA.

Population 2,500.

(Indian pop., 13,000.)

TERRITORIAL CAPITAL, SITKA.

ALASKA is bounded north by the Arctic Ocean, east by the Northwest Territories of Canada, west and south by the Pacific Ocean, Behring's Sea and Strait, and numerous islands. It has a land area of about 577,000 square miles, its greatest length, from north to south, being 1100 miles and greatest breadth over 700 miles. The northern half is low with great swampy morasses along the streams, running back into low, rolling hills. Native Indians inhabit that section, living along the streams in small bands. The southern half is mountainous, and along the southwest coast are some of the highest mountain peaks on the American continent; Mount St. Elias, the highest, is estimated at 20,000 feet. The northwesterly section comprises the peninsula of Alaska and the Aleutian islands, the latter the seat of the valuable fur seal and sea otter fisheries. This district is mountainous and actively volcanic. The principal industry at present is mining, the country being seamed by the largest quartz veins in the world. The Alaska Mill and Mining Co. have erected a \$600,000 plant of 120 stamps, and chlorination works on Douglas Island, across the bay from Juneau, which have been running night and day for five years. Their ledge of solid quartz is 600 feet wide, and the ore averages about \$14 per ton. The company ships \$100,000 a month in gold bricks. Other mining companies are erecting works on the same island, and at Berner's Bay, fifty miles north of Juneau, and in the Basin near the city. In a few years the fisheries and forests of red and yellow cedar will yield large returns. The Seal Islands in Behring Sea pay an enormous yearly revenue to the government. The two principal cities are Sitka, the capital, with a population of 550, and Juneau, the metropolis and supply point with a population of 1,200. The western coast, from the southern boundary to Cape Spencer, is lined with a continuous chain of islands, many of them as large as the State of Maine. Between the islands and mainland are salt water channels, navigable for the largest sized steamships. In the interior is one of the largest rivers in the world, the Yukon, navigable for 2,000 miles, and 60 miles wide at the mouth. The climate along the coast is wet and warm, the thermometer in winter rarely going 5 degrees below zero. In the interior it is warm in summer, but cold in winter.

There are 4 papers published in Alaska, of which 3 are weekly and 1 monthly.

BRITISH COLUMBIA.

Population 114,286.

PROVINCIAL CAPITAL, VICTORIA.

BRITISH COLUMBIA is bounded on the north by the parallel of 60° north, on the west by the Pacific Ocean and Alaska, on the south by the 49th parallel (the boundary of the United States), on the east by the Rocky Mountains and the meridian of 120° west. It is the largest of all the Canadian Provinces, having an area of 390,344 square miles. It includes a number of islands, the largest being Vancouver, which contains the capital of the Province, has an area of about 14,000 square miles, and produces the finest coal on the Pacific Coast. Over 300,000 tons are exported annually to the United States, and the quantity is steadily increasing. The Province is about 700 miles long and 500 wide. The Fraser River, its principal stream, is 800 miles long, and 600 yards wide at its mouth; its valley containing much the greater part of the arable land. Its surface is largely mountainous and densely wooded, producing trees of enormous size. Lumbering is one of the principal industries, but as the land becomes cleared the soil is found very fertile and a considerable area is well adapted for agriculture of all kinds. The fruit growing industry is expected to become important. The climate is temperate and healthy, and is particularly suited for stock raising. Gold has been found in large quantities, and mining it is one of the chief industries. Upwards of \$15,000,000 of this metal have been exported during the last 15 years. Copper, and iron ore are widely distributed, and many other minerals are found. The fisheries are also very valuable, their produce in 1886 having been reckoned at \$4,884,848. Fur bearing animals are very numerous. The principal town on the mainland is Vancouver, the terminus of the Canadian Pacific Railway.

Of the 16 papers published in British Columbia, 7 are daily, 1 semi-weekly, and 8 weekly.

KOOTENAY DISTRICT. (—) Pop. —.

MANITOBA.

Population 123,175.

PROVINCIAL CAPITAL, WINNIPEG.

MANITOBA is bounded south by Minnesota and North Dakota, east by Ontario and Keewatin, and north and west by Keewatin and the Northwest Territories, and has an area of 60,520 square miles. Its surface is principally prairie land, with groves of timber along the rivers and streams. The soil is probably the richest in the world, and produces the finest wheat known in the market. In 1887 the average yield was 27.7 bushels per acre. All other cereals grow and ripen in great abundance, and so do vegetables and small fruits of all kinds. For grazing and cattle raising the facilities are unbounded, hay being chiefly made from the prairie grasses, which are very nutritious, and in illimitable abundance. Cultivated grasses also answer well. Coal of the lignitic variety, is abundant though mining operations have not yet been attempted. The Laurentian district of the north and east are thought to be rich in other minerals, though they are as yet unexplored. This region gives a rich section in furs, while its streams are full of fish. The growth of the Province has been very rapid, the increase in population between 1881 and 1886 having been 74.56 per cent. Winnipeg is on the main line of the Canadian Pacific Railway, which passes through the Province from east to west, and from it several railways branch out into the Province and the United States. The means of water communication are also very considerable.

Newspapers are published in 13 Counties of the Province.—Cities, towns, and villages in which papers are published number 16, of which 3 designated by a dagger (†) are county-seats. Of the 40 papers 2 are daily, 30 weekly, 1 semi-monthly, 6 monthly and 1 bi-monthly.

NORTHWEST TERRITORIES.

Population 96,000.

SEAT OF GOVERNMENT, REGINA.

The NORTHWEST TERRITORIES are bounded north by the Arctic Ocean, east by the Atlantic Ocean and Hudson's Bay, west by Alaska and British Columbia, and south by the United States and portions of the Dominion. They cover an area of about 2,646,730 square miles, and were formerly known as the Hudson's Bay Territory. In 1882 four provisional districts were formed, viz: Alberta, Saskatchewan, Assiniboia and Athabasca. The population of the first three at a census taken in 1885 was 48,362. The four districts contain 431,000 square miles, or 275,840,000 acres, the greater number of which are fit for cultivation. The fertile belt of the Saskatchewan Valley alone contains an area of 64,000 square miles, with a rich and deep soil of vegetable mould, while still better wheat lands exist in the valleys of the Athabasca and Pease Rivers, a region of very extensive area. Assiniboia and Saskatchewan contain the best wheat lands, while Alberta is peculiarly well adapted for grazing and stock raising. Upwards of 4,000,000 acres are already under lease for these purposes, on which are more than 100,000 head of cattle. The Canadian Pacific Railway runs through Assiniboia and Alberta. The population of the remainder of the Territories consists principally of Hudson Bay Company employes and Indians. An immense coal field 300 miles wide commences 150 miles east of the Rocky Mountains and extends to the Arctic Ocean, and is now being worked in several places. Lumber is also abundant in many places, so that a good supply of fuel is amply provided for. The completion of the Canadian Pacific Railway has given an impetus to farming and cattle-raising that is rapidly settling the southern portion of the country, while the placing of powerful steamers on the Athabasca, the Pease and Mackenzie Rivers of the North is destined at an early day to open up to settlement the immense tracts of mineral and timber land that constitute almost all the "North Country." These steamers ply in waters two thousand miles north of the North Saskatchewan and far within the Arctic Circle.

There are 17 papers published in the Northwest Territories, of which 2 are daily and 15 weekly.

ALBERTA DISTRICT. (W.) Pop. 13,000

The Rocky Mountains and foot hills occupy the western section; country undulating eastward. The southwest portion excellent for grazing, with good grass and water. Here are the great cattle ranges of Canada, with over 110,000 cattle, 25,000 horses, and numerous sheep. Dairying a promising industry. The supply of timber is immense. Coal is abundant on the Bow and Belly Rivers; some mining done. Iron ore occurs, and large deposits of petroleum have been found. The mountain section is rich in minerals, including iron, gold, silver, galena, and copper. At Banff, in the mountains, is the National Park of Canada. Here are valuable sulphur springs, and much picturesque scenery. Anthracite coal occurs here. CAPITAL, —

NEW BRUNSWICK.

Population 342,047.

PROVINCIAL CAPITAL, FREDERICTON.

NEW BRUNSWICK is bounded north by Quebec, east by the Gulf of St. Lawrence, west and south by the Bay of Fundy, part of Nova Scotia, and Maine. It is 210 miles in length and 180 miles in breadth, and has a coast line of about 500 miles. Its area is 27,174 square miles. Surface generally very undulating, there being scarcely an elevation on the west coast exceeding 300 feet, while on the north there is a section of mountainous character, consisting of hills of considerable elevation, covered with dense forest, and surrounded by fertile valleys and table lands. Its forests are very extensive, and lumbering is one of the principal industries. The climate is very healthy and the soil fertile, with great agricultural capabilities. The principal cereals, root plants, and vegetables are raised, with apples and the small fruits. Ship building formerly extensively carried on, has fallen off of late years. The fisheries viz: salmon, smelt, herring and lobster, are second in value only to those of Nova Scotia. Their value in 1887 was \$4,180,227. Coal, antimony, copper, iron, manganese and other minerals are found in considerable quantities. Manufactures are chiefly sawed lumber and wooden wares, cotton and woolen goods, refined sugar, rope and cordage, canned goods, polished granite, boots and shoes, edge tools, furniture, paper, castings, machinery, locomotives, etc. Chief exports—lumber, fish, cotton goods, potatoes, butter and eggs, beef and mutton, gypsum, hay, etc.

Newspapers are published in 10 Counties of this Province.—Cities, towns, and villages in which papers are published number 15, of which 6 designated by a dagger (†) are county seats. Of the 39 papers published in the Province, 6 are daily, 1 tri-weekly, 2 semi-weekly, 26 weekly, 1 semi-monthly, and 3 monthly.

NOVA SCOTIA.

Population 476,900.

PROVINCIAL CAPITAL, HALIFAX.

NOVA SCOTIA consists of a very narrow peninsula, connected with New Brunswick by a narrow isthmus about 16 miles wide, and of the island of Cape Breton. It is bounded on the north by the Gulf of St. Lawrence, on the east and south by the Atlantic, on the west by the Bay of Fundy and New Brunswick. It is 300 miles long and from 80 to 100 wide, with an area of 20,907 square miles, or about 13,000,000 acres, of which 5,000,000 are fit for tillage. The Cobequid Range runs through the interior, the soil on both sides of it being very fertile; which is also the case in the beautiful valley of the Annapolis River. The soil is very rich and productive, and agricultural productions are extensive, wheat, rye, oats, barley, buckwheat, corn, vegetables, and fruit growing abundantly. Apples are exported in considerable quantities. The forests are extensive and valuable, and the yield of timber is large. The principal minerals are coal, iron and gold. Coal is in great abundance, and is freely worked, 250,000 tons being exported in 1886. Iron is in large quantities and practically inexhaustible; it is of a fine quality and commands the highest price in the market. There are 58 gold mines in working order, the value produced in 1886 being \$455,564. Manganese, gypsum, and roofing slate abound. Manufactures are numerous, and include coarse cloth, flannels, blankets, carpets, boots and shoes, saddlery, furniture and farm implements. Ship-building is important. The fisheries are reckoned among the richest in the world; the value of their produce in 1886 was \$8,415,361. The capital city, Halifax, is situated on the west side of the harbor of that name, and contains over 40,000 inhabitants. The harbor is one of the finest in existence over half a mile in width at its narrowest part, and extensive enough to contain all the navies of the world. Halifax is the winter port for the direct mail steamers, and has direct communication with Liverpool, Boston, Baltimore, Quebec and the West Indies. As a summer resort it is yearly becoming better known; its suburbs furnish the pleasantest of drives and superior bathing facilities, and its public gardens have been pronounced by all who have visited them the most beautiful on this side of the Atlantic.

Newspapers are published in 14 Counties of this Province.—Cities, towns, and villages in which papers are published number 26, of which 10 designated by a dagger (†) are county seats. Of the 63 papers published in the Province, 6 are daily, 4 tri-weekly, 3 semi-weekly, 46 weekly, 1 every third week, 2 monthly and 1 bi-monthly.

ANNAPOLIS CO. (W.).....Pop. 20,598

Mountainous along its northern district, on Bay of Fundy; southern portion level; soil very fertile, consisting of diked salt marsh, intervals, and upland. Celebrated for its agricultural products, being the best farming and fruit growing district of the Province. The Annapolis orchards are famous, particularly for their apples; small fruits also abundant. Hops are profitably raised. Indian corn ripens here. Has an iron mine. Ship building large. Has a good harbor and considerable commerce. COUNTY SEAT, Annapolis, pop. 2,833.

ONTARIO.

Population 2,121,003.

PROVINCIAL CAPITAL, TORONTO.

ONTARIO is bounded on the east by Quebec, and the Labrador peninsula, north and north-west by Hudson's Bay and the Northwest Territories, southwest and south by the Great Lakes and St. Lawrence River, west by Manitoba, and has an area of 181,800 square miles, exclusive of its water surface. It is the most populous and wealthy Province of the Dominion of Canada, and contains a number of large cities with populations of from 30,000 to 45,000, amongst others being Ottawa, population 35,000, which is the seat of Government and capital of the Dominion. Surface is mostly undulating, traversed by the Laurentian Hills and Blue Mountains, but except in the neighborhood of Lake Superior and Georgian Bay these nowhere exceed a few hundred feet in height. The agricultural resources are very great. Three-fourths of the present area of habitation is fertile, while an immense region beyond is capable of cultivation; very large crops of cereals are raised. The apple orchards of the southwest are very productive, and small fruits and vegetables are prolific. Stock raising and dairy farming succeed remarkably well, cattle, butter and cheese being exported in large quantities. Timber is largely produced and exported, including pine, oak, maple, walnut, hickory, etc. There are very extensive saw mills at Ottawa. The mineral treasures are exceedingly rich and varied; iron, copper, lead and silver are very abundant. Some gold has been found between Georgian Bay and the Ottawa River; petroleum, salt, rock salt and peatbeds also exist, the annual yield of petroleum being nearly 16,000,000 gallons. Mica is extensively worked. Marble, said to be equal to that of Carrara, is quarried. Galena, plumbago, and various other minerals exist. Manufactures are rapidly increasing in number and importance, among the principal being agricultural implements of all kinds, wagons, carriages, railroad stock, including locomotives, cotton and woolen factories, tanneries, furniture, paper, soap, wooden ware factories, etc. The railway enterprise is very great, and in addition to the great trunk lines, the Grand Trunk Railway and Canadian Pacific, every important section has competing lines stretching out to it. Its educational system is a combination of the best features of those of other countries, and is claimed to be the best in the world, especially in its common schools.

Newspapers are published in 48 Counties and Districts of this Province.—Cities, towns, and villages in which papers are published number 206, of which 43 designated by a dagger (†) are county seats. Of the 491 papers published in the Province, 43 are daily, 1 tri-weekly, 5 semi-weekly, 359 weekly, 2 fortnightly, 12 semi-monthly, 66 monthly, and 3 quarterly.

ALGOMA CO. (N.W.).....Pop. 20,320

Undulating and well watered. Largely forested; productive fisheries; mineral wealth large; rich mines of silver, copper and iron. Gold and lead found. Grain raised in large quantities. Manufactures of lumber and railroad supplies. COUNTY SEAT, Sault Ste Marie, pop. 780.

CIRCULATION: † Publishers' reports. Roman figures—estimated. *Sworn. † County Seat.
 POPULATION: ‡ Estimated. Unmarked—Census of 1881.

PRINCE EDWARD ISLAND.

Population 118,523.

PROVINCIAL CAPITAL, CHARLOTTETOWN.

PRINCE EDWARD ISLAND is bounded north by the Gulf of St. Lawrence, east by Cape Breton Island, south by Nova Scotia proper, and west by New Brunswick. The greatest length is 130 miles; greatest breadth, 34 miles; least breadth, 4 miles; area about 2,134 square miles. The surface is gently undulating, large part of it formerly forest, but the forest area has been greatly reduced by lumbering operations, fires, etc. Soil a light loam, not known to contain available minerals, but remarkably rich and particularly favorable for the growth of grasses. Principal productions—wheat, barley, oats, horses, sheep, pork, potatoes, cheese, starch, etc. It has valuable fisheries, especially of cod, mackerel, lobsters, and oysters; upwards of thirty-five thousand barrels of the latter being shipped annually from the port of Summerside alone. Has manufactures of tweeds, flannels, pottery, boots and shoes, agricultural implements and domestic articles, sufficient only for home use; ship building was formerly carried on to a considerable extent, but has recently become much reduced.

Newspapers are published in 2 Counties of this Province.—Cities, towns, and villages in which papers are published number 2. Of the 11 papers published 2 are daily, and 9 weekly.

PRINCE CO. (W.).....Pop. 34,347

Undulating; soil fertile. Has hard wood and coniferous forests. Potatoes, oats, wheat and barley raised in great abundance; also peas, beans, turnips and apples; large crops of hay and clover. Sheep, horses, eggs, etc., exported. The fisheries are valuable; has large mackerel fleets; oyster trade important. Some ship building done. COUNTY SEAT, Summerside, pop. 2,000.

POPULATION: ‡ Estimated. Unmarked—Census of 1881.

QUEBEC.

Population 1,462,043.

PROVINCIAL CAPITAL, QUEBEC.

QUEBEC is bounded north by Hudson Bay, east by Labrador and the Gulf of St. Lawrence, south by New Brunswick, Maine, New Hampshire and New York, southwest by the Ottawa River, which separates it from Ontario. Length from east to west 700 to 1,000 miles, breadth about 300 miles; area about 188,688 square miles. Surface south of St. Lawrence generally hilly, northern part mountainous and rocky and abounding in rivers and small lakes. A great part of the surface is covered with forests. Soil in many districts is rich, and cereals grow well. Oats, potatoes and hay are the chief crops; also wheat, barley, rye, buckwheat, flax, peas and beans are raised. Hops and apples are extensively grown. Cattle raising and cheese dairying are important industries. Copper and mica abound in the eastern townships, and iron almost everywhere. Lead, silver, platinum, zinc, etc., are in abundance, and there are large deposits of phosphate of lime in the Ottawa River district; 26,000 tons were exported in 1886. Gold is found in several places. The lumber industry is the principal one, produce of the forest to the value of \$9,603,441, having been exported in 1886. The fisheries are also important and rank next to those of New Brunswick in value. Ship building is carried on in Quebec. Lumber is a valuable article of export. The principal manufactures are cloth, linen, furniture, leather, sawed timber, flax, iron and hardware, paper, chemicals, boots and shoes, cotton and woolen goods, agricultural implements, etc. Montreal, though not the capital, is the largest city in the Province and the commercial capital of the Dominion. It has a population of about 200,000.

Newspapers are published in 26 Counties of this Province.—Cities, towns, and villages in which papers are published number 33, of which 17 designated by a dagger (†) are county seats Of the 134 papers published in the Province, 20 are daily, 1 tri-weekly, 7 semi-weekly, 78 weekly, 1 fortnightly, 25 monthly, 1 bi-monthly, and 1 quarterly.

NEWFOUNDLAND.

Population 197,335.

CAPITAL, ST. JOHN'S.

NEWFOUNDLAND is in the Atlantic Ocean, at the mouth of the Gulf of St. Lawrence, bounded north and northeast by Labrador (Belle Isle Straits intervening); Cape Breton is off its southwest point; east by the Atlantic Ocean, and west by the Gulf of St. Lawrence. Its extreme length is 350 miles; average breadth 130 miles, and area 40,200 square miles. Surface generally rugged, with numerous lakes and rivers; not much timber, except along the streams and on the western side of the island. Soil is fertile near many of the lakes and rivers, and in many places farming is profitable. Wheat grows well; so do potatoes and green crops generally; apples and small fruits are profitable. The timber lands are unsettled, and lumbering is not carried on. Copper and lead are mined; the other minerals comprise iron, silver, manganese, nickle, plumbago, marble, limestone, coal, etc. The fisheries, both on the Grand Bank and in-shore, are very extensive and valuable. The seal fishery employs many vessels and steamers. The Newfoundland cod fishery is the most extensive of the kind in the world. The aggregate annual catch of cod in North American waters is estimated at about 150,000,000 fish, worth about \$15,000,000. Principal exports are fish and fish-oils, seal-oil and skins, and amount to more than \$5,000,000 annually. Manufactures are very limited, and are confined to St. John's. The coast of Labrador, on the mainland, is now included in the colony; it comprises about 120,000 square miles, but has only 4,211 inhabitants.

There are 8 papers published in Newfoundland, 3 daily, 2 semi-weekly and 3 weekly.

DISTRICT OF HARBOR GRACE.

Pop. 15,000

Rolling and hilly. Borders on Atlantic Ocean, and has fishing interests and considerable shipping trade. CAPITAL, Harbor Grace, pop. 3,000.

Daily Press and Knickerbocker

ALBANY, NEW YORK.

ESTABLISHED, 1843.

THE DAILY PRESS AND KNICKERBOCKER is one of the oldest and best known Dailies published at the Capital of the Empire State. It gives all the telegraphic and general news with promptitude, and is a welcome visitor at 10,000 firesides every morning. It is a model newspaper, as attested by the fact that it has a far larger circulation than any other Daily published in Albany. TERMS, SIX DOLLARS PER YEAR.

THE SUNDAY PRESS is the pioneer Sunday Journal in the State outside of New York City. It gives all the Associated and United Press dispatches, and has special departments, making it a favorite family journal. \$2.00 a year. THE WEEKLY PRESS is a popular and widely read newspaper. Terms, \$1.00 a year.

These papers are printed, folded and counted on a Web Perfecting Press, at the rate of 30,000 an hour. The Press buildings are lighted with the Edison Electric Light. The establishment is one of the most complete newspaper offices in the world.

THE PRESS COMPANY, PRESS BUILDINGS, 18 Beaver Street.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

The Leading Swedish Weekly of the Northwest.

Flushing Journal

FLUSHING, NEW YORK.
C. W. SMITH, Publisher.
A live and popular newspaper, issued every evening and weekly. Circulates largely throughout Flushing, College Point, Whitestone, Newton, Corona, Bayside, Little Neck, Great Neck, Manhasset, Roslyn, north-shore villages, and all Long Island post offices.
"The JOURNAL is the newspaper in Flushing which gives advertisers the most for their money."—*Rowell's American Newspaper Directory.*

Journal

BALLSTON SPA, NEW YORK.
H. L. GROSE & CO., Editors and Publishers.
Established 1788. A journal for the family. It is our aim to give every week all the news of the day, a choice selection of reading matter, free from vulgarity and immorality, a fair treatment of political opponents, and a summary of general intelligence. We will strive to maintain our place in the front rank of the Weekly papers of the State. Send for advertising rates.

The Gouverneur Herald-Times

GOVERNEUR, NEW YORK.

REYNOLDS & COX, Publishers.

Established 1858.

The HERALD-TIMES has the largest guaranteed circulation of any Weekly published in northern New York. *No commissions or discounts to advertisers or agencies.*

Established 1867.

The Nashua Weekly Post

NASHUA, IOWA.

B. M. DEWEY, Publisher.

Official paper of Chickasaw County.

NEW YORK.

317 Chamber of Commerce,
CHICAGO.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

The Clinton County Democrat

DE WITT, IOWA.

Issued every Tuesday by H. L. BARTER, Editor.
The DEMOCRAT was established in 1882, and embraces every Post Office in Clinton Co., within the area of its circulation. It claims no competition with the boss "circulation liar" of Lyons, neither does it claim the earth, but a trial order for advertising space will prove the truth of our recommendation, as to its value as a medium for reaching the majority of the English reading people of the county. Rates given on application.

1846. FORTY-FIFTH YEAR. 1890.

The New York Home Journal

CHANGE OF FORM, 8 to 12 PAGES.

Increased in size. Improved in quality. Reduced in cost. "The best Literary and Society paper in America."
Subscription: One copy, one year, \$2.00; three copies, one year, \$5.00; one copy, three years, \$5.00.

Address, MORRIS PHILLIPS & CO.,
240 BROADWAY, NEW YORK.

On this 22d day of August, 1890, personally appeared before me Charles Winnicott, who deposes and says that he is the Superintendent of the Press rooms of the SAN FRANCISCO DAILY REPORT, and that he knows of his own knowledge that the above figures, regarding the number of DAILY REPORTS printed, are absolutely correct.

In witness whereof, I have hereunto set my hand and affixed my official seal, this 22d day of August, 1890.
 E. L. THARP, Notary Public.

Averaging 40,000 per day.

THE DAILY REPORT IS THE LEADING EVENING NEWSPAPER, USES TWO LIGHTNING PERFECTING PRESSES—EIGHT-PAGE PRESSES—ON ITS REGULAR EDITIONS EVERY DAY, AND HAS THE LARGEST CIRCULATION OF ANY EVENING NEWSPAPER ON THE PACIFIC COAST.

A. FRANK RICHARDSON, Special Agent,
 317 Chamber of Commerce, CHICAGO. 13, 14 & 15 Tribune Building, NEW YORK.
 N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

THE OLDEST DAILY IN AMERICA
THE NORTH AMERICAN
 Philadelphia's
 Popular Penny Paper.
MORE THAN 100,000 READERS
EACH DAY.
 Ordinary Advertising, 15c. per line.
 Reading Notices, 50c. per line.
 Office: 701 Chestnut St., Philadelphia.

Chester Evening News

CHESTER, PENNSYLVANIA.

W. H. BOWEN, Publisher.

Published daily (Sundays excepted) in the NEWS BUILDING, Market Street.

OLDEST AND LARGEST DAILY IN DELAWARE COUNTY.

THE NEWS is the most widely circulated of all the papers published in Chester, and as an advertising medium is far in advance of any other paper published in Delaware county.

Rates furnished on application.

N. W. AYER & SON, Advertising Agents, Philadelphia.

DAILY. SUNDAY. WEEKLY.

Wheeling Register

WHEELING, WEST VIRGINIA.

City's population 40,000. Population including adjoining towns of Bellaire, Benwood, Martin's Ferry and Bridgeport 75,000.

THE LEADING PAPER OF WEST VIRGINIA. Sunday Edition has more than double the circulation of any other paper in the State.

Has a larger circulation than any other paper issued in the State—all editions. It also circulates largely in the adjoining counties of Ohio and Pennsylvania.

Its proprietors are determined that it shall maintain its position as the leading paper of the State.—*Fairmount Index* (Dem.).

It is really the only daily newspaper in the State.—*Clarksburg Telegram* (Rep.).

N. W. AYER & SON, Advertising Agents, Philadelphia.

New Orleans

Christian Advocate

112 CAMP ST., NEW ORLEANS, LA.

REV. C. W. CARTER, D. D. Editor.

J. G. GRANT, Publisher.

D. L. MITCHELL, Business Manager.

It is 37 years old. It reaches 35,000 readers weekly.

IT IS THE MOST INFLUENTIAL AND WIDELY CIRCULATED RELIGIOUS PAPER IN THE SOUTHWEST.

N. W. AYER & SON, Advertising Agents, Philadelphia.

DAILY AND WEEKLY.

The Dubuque Telegraph

DUBUQUE CITY, IOWA.

City circulation is SIX TIMES and its general circulation FOUR TIMES that of any other paper published in Dubuque City. Circulates 200,000 Copies Monthly.

DAILY, \$4.00 per year. WEEKLY, \$1.00 per year.

THREE DAILIES IN ONE! FIVE WEEKLIES IN ONE!

DAILY TELEGRAPH, established 1870; WEEKLY TELEGRAPH, 1871; WEEKLY INDEPENDENT, 1881; DAILY DEMOCRAT, 1882; WEEKLY DEMOCRAT, 1883; INDUSTRIAL LEADER, 1886; DAILY INDEPENDENT, 1887; WEEKLY INDUSTRIAL WEST, 1889. In 1885 the Dubuque Printing Co., purchased the TELEGRAPH and DEMOCRAT, both Daily and Weekly. In the fall of 1888, the LEADER; in 1889, the INDEPENDENT, Daily and Weekly; Jan. 1st, 1890, the INDUSTRIAL WEST, consolidating them with the TELEGRAPH. This leaves the TELEGRAPH the only evening paper in the Third Congressional District of Iowa. Its consolidated list gives it a circulation second to but a few journals in the Northwest.

The Atlanta Journal

ATLANTA, GEORGIA.

DAILY, AFTERNOON AND WEEKLY.

(No Sunday Edition.)

THE JOURNAL is the only Paper in Atlanta which makes SWORN STATEMENTS of its EDITIONS.

Some Men Would Kick

If they got their advertising for nothing. To them it is impossible to address argument. Other men have instinctive appreciation of a good newspaper when they see it, and are willing and ready to pay a fair rate for space. *To them we talk.* Did you ever see a copy of the

Charlestown Enterprise?

Send for one. The ENTERPRISE looks like a Newspaper, and by the way, it is a Newspaper; a local Newspaper without a superior in points of typographical excellence, quality of its contents, or thoroughness in local news gathering. It is a local paper, pure and simple, catering to the wants of the people of Charlestown, a district of Boston, one mile square, containing a population of 45,000. The advertising columns show what the merchants of Charlestown think of the paper. The advertising rates are not flexible, but equitable and impartial.

CHARLESTOWN ENTERPRISE COMPANY, PUBLISHERS,

8 CITY SQUARE, CHARLESTOWN, MASS.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

The Florida Times-Union

JACKSONVILLE, FLORIDA.

Issued every morning. Terms \$10.00 a Year. \$5.00 Six Months. \$2.50 Three Months.

IT HAS THE EXCLUSIVE ASSOCIATED AND UNITED PRESS FRANCHISES. RECEIVES SPECIALS FROM ALL QUARTERS ON IMPORTANT TOPICS, AND HAS CORRESPONDENTS IN ALL THE LEADING NEWS CENTRES OF THE COUNTRY.

The Weekly Times-Union

(WEEKLY EDITION OF THE DAILY TIMES-UNION)

A large 72-column paper, issued every Thursday, containing all the news of the week, State and general, and a great variety of interesting reading, including farm and household matters, and full market and weather reports. With the growing interest in Florida everywhere, the Weekly is rapidly attaining a universal circulation.

MAILED, POSTAGE FREE, FOR \$1.00 A YEAR, WITH A COLORED MAP OF FLORIDA FREE.

Specimen copies free to any address.

One of the best advertising mediums anywhere.

The Minneapolis Journal

MINNEAPOLIS, MINNESOTA.

Has nearly double the circulation of that of any other Minnesota Paper.

ITS DAILY AVERAGE CIRCULATION (SWORN TO) IS NOW OVER **30,000**.

Its circulation in the city of Minneapolis alone is greater than the total circulation of any other Minneapolis Paper.

MORE COPIES OF THE JOURNAL ARE SOLD EVERY DAY IN MINNEAPOLIS THAN ARE SOLD THERE BY ALL OTHER DAILY PAPERS COMBINED.

THE JOURNAL is read by all classes. It can be found in nearly every house in Minneapolis. It is the best Newspaper published in Minneapolis.

MINNEAPOLIS RETAIL MERCHANTS ADVERTISE MORE EXTENSIVELY IN THE JOURNAL THAN IN ALL OTHER MINNEAPOLIS PAPERS COMBINED.

Any Minneapolis merchant will tell you that he gets more returns from advertising in THE JOURNAL than he does from all other papers combined.

THE JOURNAL is the popular medium for "want" advertisements. It has three times as many "want" advertisements as has any other Minneapolis Paper.

THE JOURNAL therefore gives better service for less money than any other paper published in its field.

ITS YEARLY ADVERTISING RATES ARE ONE EIGHTH OF A CENT PER 1,000 OF CIRCULATION.

Advertising rates and sample copies sent on application to the

EASTERN BUSINESS OFFICE, 18 TRIBUNE BUILDING, NEW YORK.

THE VOICE

If your advertisement pays you in any able, well-made, widely circulated paper, can you give any reason why it will not pay you equally well in the VOICE—and better, if we give more circulation for less money?

FACTS: THE VOICE has nearly **100,000** annual subscribers. Its total circulation for the past two years has averaged **135,000** copies weekly. It goes to people of means and who are the most desirable customers. Its high character as a journal lends weight to its advertising columns.

GEORGE BATTEN, FUNK & WAGNALLS,
Advertising Manager, 18 & 20 Astor Place, N. Y. Publishers.

The Homiletic Review

Briefly: The number of Protestant Clergymen in active service in the United States is about 70,000. Nearly 33½ per cent. of these are subscribers to THE HOMILETIC REVIEW. We know of no publication through which to reach so large a class-constituency at so reasonable a cost.

The Homiletic Review

Is a magazine of 96 pages, published monthly. Religious thought, sermonic literature and discussions of practical issues constitute its field, and few periodicals have received so universal and enthusiastic commendation in Europe and America.

GEORGE BATTEN, FUNK & WAGNALLS,
Advertising Manager, 18 & 20 Astor Place, N. Y. Publishers.

The Literary Digest

Is a weekly summary of Books and Periodical Literature.*

It advertises your business THOROUGHLY at a very reasonable price. Be sure and place it on your list.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

The Banner

NASHVILLE, TENNESSEE.

PUBLISHED DAILY AND WEEKLY.

THE BANNER has the largest circulation of any daily paper in the City of Nashville or the State of Tennessee, which statement the publishers are willing to substantiate by opening their subscription books for inspection.

The paper is independent in politics, free and untrammelled in utterance, and one of the best Dailies in the South, paying more for its telegraphic news service than any other evening paper published south of the Ohio River. It takes both the Associated and United Press Dispatches, and a special morning service of 5,000 words daily, and almost an equally large daily service from special correspondents. The consequence is that the most intelligent readers subscribe for and are satisfied with the **BANNER** as a complete newspaper, and the fact that it is an 8-page Daily, sold at ten cents a week, makes it popular with all classes. Its actual bona-fide circulation is over 7,000 copies Daily. The **BANNER's** circulation is not general, but confined to a territory of 100 miles radius, with Nashville as a centre, in which section the Daily alone has from 2,000 to 3,000 more subscribers than any other Tennessee Daily. Monthly, quarterly and yearly statements of circulation are made and furnished advertisers, and the publishers of the **BANNER** will pay \$500 to any one who can show them inaccurate, misleading or deceiving, the press room and circulation books always remaining open for inspection.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

The
Philadelphia Record

PHILADELPHIA, PA.

HAS NO EQUAL AS AN ADVERTISING MEDIUM.

IT IS NOT ONLY THE MOST WIDELY CIRCULATED NEWSPAPER IN PHILADELPHIA, BUT THE NUMBER DELIVERED IN THE HOUSES OF THE PEOPLE EXCEEDS THE AGGREGATE CIRCULATION OF ANY OTHER NEWSPAPER PUBLISHED IN THE CITY.

Its Sworn Average Daily Circulation for 6 Months in 1890 was 120,272 Copies.

Its Sworn Average Sunday Circulation for 6 Months in 1890 was 79,152 Copies.

IT IS ONE OF THE MOST USEFUL NEWSPAPERS PUBLISHED IN THE UNITED STATES.

THE INTERESTS OF ITS READERS ARE MADE ITS EXCLUSIVE STUDY. FEW OTHER NEWSPAPERS ARE READ SO FULLY AND ENTIRELY, AND ITS READERS ARE ATTACHED TO IT BY A SPIRIT OF REAL GOOD-WILL.

WHO ARE ITS READERS?

PERSONS WHO DO SOME THINKING FOR THEMSELVES, IN EVERY CONDITION OF LIFE, WHETHER RICH OR POOR, POSSIBLY THE MOST OF THEM COME FROM THE THOUGHTFUL WORKING CLASSES, AND THIS CONSTITUTES ITS HIGHEST MERIT FOR ADVERTISING PURPOSES.

THE RECORD PUBLISHES BUT ONE EDITION DAILY.

MORNING CALL

THE CALL was established in 1853, 37 years ago, its circulation *has steadily grown*—not suddenly sprung up—to its present splendid numbers, it possesses that **character, standing, and influence** that is commonly called *quality*, and makes its columns valuable to advertisers, from having the confidence of its readers who favorably regard what they see therein.

THE CALL is clean, pure, reliable and pre-eminently the *morning family newspaper* of California. The business firms of San Francisco and the leading Eastern advertisers have steadily used it for many years, and how they regard it, the following testimonials best attest.

What the leading San Francisco Merchants say of THE CALL:

J. J. O'BRIEN & CO.
 DRY GOODS IMPORTERS,
 SAN FRANCISCO.

Having been a continuous advertiser in the MORNING CALL for the past twenty odd years, we beg to state that we have at all times considered *it the best medium* used by us for advertising purposes. *Result and observation satisfy us that it circulates in the home circles to a greater degree than any other newspaper printed on the Pacific Coast.* This is so confirmed that we rely almost wholly upon its columns for whatever part of our success in business is depended upon newspaper advertising. At the present time *we are using its columns to the extent of \$30,000 per year.*
 J. J. O'BRIEN & Co.

M. J. FLAVIN & CO.,
 THE I. X. L. STORES,
 SAN FRANCISCO.

We take pleasure in stating that THE MORNING CALL is one of the best advertising mediums on the Pacific Coast, *if not the best.* The above facts we prove

practically when we state that we hardly believe that we have been out of that paper three consecutive days in *seventeen years.*
 M. J. FLAVIN & Co.

KEANE BROS.,
 DRY GOODS IMPORTERS,
 SAN FRANCISCO.

Having used the columns of THE MORNING CALL very extensively for a number of years past, we desire to testify to its effectiveness as an advertising medium. Its general circulation among the public, and *principally in the homes of all classes*, commends it to all judicious advertisers.
 KEANE BROS.

CITY OF PARIS,
 DRY GOODS EMPORIUM,
 SAN FRANCISCO.

We desire to state that for many years we have used the columns of THE MORNING CALL as a medium to reach the *homes* of all classes in the community. We value it as one, if not *the very best* advertising medium in California.
 G. VERDIER & Co.

If you want to reach the HOMES of the people of California, you cannot afford to do without the SAN FRANCISCO CALL.

NEW YORK OFFICE,
 90 POTTER BUILDING.

F. K. MISCH,
 EASTERN MANAGER.
 [OVER.]

Established in 1855.

The Evening Bulletin

SAN FRANCISCO, CALIFORNIA.

Circulation 17,125

The *only California paper* receiving in the American Newspaper Directory the "bulls-eye" (⊙) mark. Its special "golden" value and high character is thus indicated.

"A great newspaper, having the confidence of a large constituency, is made in only one way. *It grows.*"

The San Francisco *Wasp* in a review of the newspapers of San Francisco, says: "The EVENING BULLETIN is a substantial journal, high-toned, and in point of editorial ability it is the equal of any other daily paper in the country."

The San Francisco EVENING BULLETIN is so thoroughly recognized as being the

Leading Evening Newspaper of the Pacific Coast,

so far ahead of its competitors—if they can really be called competitors—and so well known throughout the country during the 35 years of its existence as the paper to reach *the purchasing class*, that it seems hardly necessary to bring its merits to your attention.

New advertisers, however, are often deceived by claims of large circulations made by newspapers of but little if any reputation or standing, and the character of whose circulation—even if they had what they claim—is such that it is of small value to an advertiser, as compared to a newspaper like the BULLETIN, whose readers have faith and confidence in what they see in its columns.

The Weekly Bulletin

TWELVE PAGES.

Circulation 20,975

IS THE LARGEST AND BEST WEEKLY NEWSPAPER PUBLISHED IN THE WEST and is in every respect a first-class Family newspaper, appealing to the interest of every member of the household. The best paying advertising medium, circulating all over the Pacific Coast, British Columbia, Australia, and the islands of the Pacific Ocean.

FOR ADVERTISING RATES, ADDRESS

THE BULLETIN, San Francisco, Cal.

OR

[OVER.]

150 Nassau Street,
New York, Feb. 1, 1890.

MESSRS. N. W. AYER & SON.

Dear Sirs:—We were requested by a prominent advertising firm with whom we have a yearly contract to render them a statement of the number of copies of the NEW YORK WEEKLY WITNESS printed and issued on certain dates.

We were glad to be able to supply the needed information, as follows:

1889—Oct. 30, number of copies, . . . 66,000	1889—Dec. 18, number of copies, . . . 67,000
Nov. 6, " " " . . . 63,000	" 25, " " " . . . 68,000
" 13, " " " . . . 66,300	1890—Jan. 2, " " " . . . 69,000
" 20, " " " . . . 67,900	" 9, " " " . . . 66,800
" 27, " " " . . . 67,000	" 16, " " " . . . 65,000
Dec. 4, " " " . . . 100,000	" 23, " " " . . . 63,000
" 11, " " " . . . 65,200	" 30, " " " . . . 65,000

The contract referred to was made on a basis of 50,000 per week. This is the kind of measure we like to mete out to our customers.

We commend this to your careful consideration.

Yours truly,

JOHN DOUGALL & CO.,
Publishers NEW YORK WEEKLY WITNESS.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

The New York Medical Journal

1, 3 and 5 Bond St., NEW YORK CITY.

EDITED BY FRANK P. FOSTER, M. D.

PUBLISHED BY D. APPLETON & CO.

A WEEKLY REVIEW OF MEDICINE.

Is the leading Journal of America, and the best medium for reaching the Medical Profession. THE JOURNAL is now in the twenty-sixth year of its publication; it has a large and constantly increasing circulation, its subscribers representing all the States and Territories. It is also supplied to all medical officers of the Army, Navy, and Marine Hospital Service, and is sent to many foreign countries. It numbers among its contributors many of the most scientific and best known physicians of America, whose names alone are a sufficient guarantee of the quality and practical utility of the articles contributed by them.

THE JOURNAL appeals directly to the better portion of the profession, in whose hands it is for the advantage of ADVERTISERS that notices of their goods should be placed.

The rates are as low as is consistent with the circulation and character of THE JOURNAL, and the manner and style in which advertisements are presented.

Correspondence solicited and all desired information cheerfully furnished.

Address, HENRY W. QUIN, Advertising Department.

The Popular Science Monthly

1, 3 and 5 Bond St., NEW YORK CITY.

Published by D. APPLETON & CO. Founded by the late Professor E. L. YOUMANS. Edited by DR. W. J. YOUMANS. The character of the circulation must of necessity be the very best—worth more TO ADVERTISERS than a circulation of four times the number in a magazine of a miscellaneous character. THE POPULAR SCIENCE MONTHLY was established (May, 1872) to raise the standard of popular reading in this country. Magazines are more and more taking the place of books; first-class minds are devoting themselves with increasing readiness to the work of popular instruction; and their contributions upon the most important subjects find a place in the magazine for the benefit of the more intelligent classes of the community. THE POPULAR SCIENCE MONTHLY deals with those more general and practical subjects which are of the greatest interest and importance to the people at large. It aims to present the results of the most careful thought and precise inquiry on the subjects of personal and household hygiene, medicine, architecture, agriculture, the improvement of food products, and the detection and prevention of adulterations. Correspondence solicited and all desired information furnished. Address,

HENRY W. QUIN, Advertising Dept. D. Appleton & Co., 1, 3 and 5 Bond St., New York City.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

MICHAEL WALSH, LL. D., Ph. D., Editor and Proprietor.

THE BEST IRISH AND CATHOLIC PAPER IN THE ENGLISH LANGUAGE.

Archbishop Corrigan's Kind Words and Wishes.

ARCHBISHOP'S HOUSE, NO. 452 MADISON AVENUE,
NEW YORK, October 15, 1889.

Mr. Michael Walsh, Editor and Proprietor, Sunday Democrat:

MY DEAR SIR—I am very glad to know that you have become the sole proprietor of the SUNDAY DEMOCRAT. You have already accomplished a great deal in defending the rights of the Church and of its legitimate ministers, and I trust that in the future you may be able to accomplish even more in that direction as you have now entire control of that journal.

Begging God to bless your efforts, and with kindest regards, I am, my dear sir, very faithfully yours,

M. A. CORRIGAN, Archbishop.

Bishop Wigger's Congratulations.

SETON HALL COLLEGE, SOUTH ORANGE, N. J.
October 30, 1889.

Mr. Michael Walsh:

DEAR SIR:—Enclosed please find check for my subscription to the SUNDAY DEMOCRAT. I am delighted to learn that you are now the sole owner of the paper. I beg leave to congratulate you on your success. You have the ability and doubtless also the good will to make it even a better paper than it has been in the past, and that is saying a great deal. With best wishes, I remain, yours sincerely,

W. M. WIGGER, Bishop of Newark.

THE SUNDAY DEMOCRAT HAS BEEN THE FAVORITE CATHOLIC PAPER OF WAGE-EARNERS FOR THE PAST FIFTEEN YEARS. IT IS THE BEST IRISH AND CATHOLIC PAPER PUBLISHED IN THE ENGLISH LANGUAGE.

The circulation of the Sunday Democrat keeps pace with the rapid growth of the Catholic Church in the United States.

Subscription, per year, in advance, \$1.00.

TIME HAS PROVED

THAT THE

New York Tribune

(DAILY AND SUNDAY)

Possesses a Constituency

which yields to advertisers the best results for their expenditures for advertising. Summer and Winter Resorts frankly admit that

THE TRIBUNE

brings them the most responsible and profitable customers. Merchants say that

THE TRIBUNE

throngs their stores with the best and largest buyers. Furniture men have received remarkable orders from the readers of

THE TRIBUNE.

People who want either employees or situations reach the most desirable classes through the columns of

THE TRIBUNE.

The list might be extended indefinitely. As for

The Weekly Tribune

the value of this great paper of the Farmers, Country Merchants, and Union Veterans of the country is almost too well known to need explanation. It need only be said that THE WEEKLY TRIBUNE reaches the most reputable, responsible and ambitious classes in our country population—people who buy and pay for what they get.

Rates furnished by mail or personally upon application to

THE TRIBUNE, New York.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

Daily Times-Herald

DALLAS, TEXAS.

TIMES PUBLISHING CO., Proprietors.

Sworn circulation 2,200 to 2,600. Official organ of the city of Dallas, and of Dallas County. Active and progressive, enjoying a large and increasing circulation, the TIMES-HERALD offers to advertisers an unexcelled medium for this vicinity. Rates moderate, and will be made known on application. Moved into its new building and put in Web Perfecting Press April 15.

Established in 1837.

The News-Herald

HILLSBORO, OHIO.

GEO. W. BARRERE, Publisher.

Issued every Thursday. Subscription, \$1.50.

The leading Republican paper, and the best advertising medium in the county.

Established 1808.

The Ohio Patriot

NEW LISBON, OHIO.

W. S. POTTS, Editor and Proprietor.

This old reliable Democratic paper is published at the County Seat of one of the wealthiest and most populous counties in the State. It is read each week by about 30,000 people, and reaches every nook and corner of the county. Its readers are not confined to any political party; all read it. It is the best advertising medium in Eastern Ohio.

1873.

Evening Star

1890.

GREENBUSH, NEW YORK.

C. F. R. COE, Publisher.

Alive and always moving forward. Full of pluck and enterprise. Democratic. Four pages. Located in a live town, whose chief industries are pork-packing, milling and manufacturing in general. Only all-at-home paper printed in Greenbush. Official county and village paper. Largest circulation in the county.

The Optic

IMLAY CITY, MICHIGAN.

OPTIC STEAM PRINTING CO., Publishers.

H. H. LYONS, Editor.

THE OPTIC, though a few years younger than one or two of its contemporaries, has a circulation second to none, its all-seeing eye penetrates the homes of nearly all the best families in the county. Terms, \$1. The best equipped printing office in Lapeer County. An excellent advertising medium. Population Imlay City 1,300.

THE LEADING PAPER.

Issued Weekly.

Has a general circulation throughout the Pacific Northwest. Best advertising medium in Eastern Oregon.

Rates on Application.

Everybody Reads It.

Best Advertising Medium.

The Delta County Banner

COOPER, TEXAS.

A. S. HORNBECK, Editor and Publisher.

Eight-column Folio.

Oldest, Largest and Best Newspaper in Delta County.

Largest Circulation.

Established 1847.

The Freeport Bulletin

FREEPORT, ILLINOIS.

O. F. POTTER, Publisher.

Dally and Weekly.

Oldest paper in Stephenson County and, with one exception, in Northwestern Illinois.

Wisconsin Free Press

OCONOMOWOC, WISCONSIN.

EDWIN HURLBUT, Editor and Publisher.

The FREE PRESS is in its sixteenth volume. Commencing with a circulation of only 300, it now prints a weekly average of over 2,000 copies, and its safe to say has over 10,000 readers. No better advertising medium in the State.

The Nationalist

MANHATTAN, KANSAS.

Oldest Paper in the County.

Has the largest circulation.

At the front in all things.

Business solicited. Advertising contracts carried out in spirit as well as letter.

The Champion

ATCHISON, KANS.

JOHN A. MARTIN, Founder.

GEO. JONES, Business Manager.

Daily and Weekly. Oldest and best paper in the State. Daily Edition has the largest circulation of any morning paper in Kansas. Conducted with signal courage and ability for over 35 years. Large and increasing circulation in all parts of the State and elsewhere. One of the best advertising mediums in the West. Send for Rates.

DAILY, every Evening. WEEKLY, every Wednesday.

The Courier

JACKSON, MICHIGAN.

By the JACKSON COURIER CO., (Incorporated.)

Independent in politics. The best local paper in the city.

Circulation constantly increasing.

THE EVENING COURIER is one of the best advertising mediums in Central Michigan. Rates on application.

The La Grange Democrat

LA GRANGE, INDIANA.

Has a larger circulation, in proportion to its party vote, than any other county paper in the United States. Here are the figures: Cleveland's vote in 1884, 1,397; DEMOCRAT's average circulation, '84, '85, '86, 1,464; Cleveland's vote in 1888, 1,589; DEMOCRAT's average circulation, '87, '88, '89, '90, 1,704. Contracts for advertising made payable on condition that these figures are correct. The DEMOCRAT does more advertising for N. W. Ayer & Son than any Weekly in 12th Cong. dis.

NEW HAMPSHIRE'S METROPOLIS.

MANCHESTER is the metropolis of New Hampshire. In population, wealth, and business it is more than one eighth of the entire State. It has more people, push, and perseverance than several of the ten counties of the State. Its business enterprises are prosperous to a remarkable degree. Its wage-workers earn more than nine million dollars a year, and spend their earnings freely and intelligently. Its mills make 359 miles of cloth every day, and its shops turn out locomotives and other machines that have a reputation as wide as the country. Its leading newspapers were established in 1850, and have ever since been issued from the MIRROR office.

THE MIRROR AND FARMER

Has more readers and more influence than any other weekly and farm journal ever printed in New England. Its SUBSCRIBERS live in every State and Territory, and are mainly prosperous, progressive agriculturists, whose patronage it holds by giving them the best. Its DAIRY DEPARTMENT reflects the best work and thought of the best makers of gilt-edged butter and fine cheese. Its POULTRY DEPARTMENT has never been matched. Its HORSE DEPARTMENT is authority among breeders and owners throughout New England, and its VETERINARY COLUMN is always reliable. Writers of national reputation are constantly employed to keep it at the front as an exponent of successful farming.

THE DAILY MIRROR AND AMERICAN

MIRRORS the industrious, ambitious, substantial, and rapidly growing city in which it is published. It is the organ of the brain and brawn, of the muscle and nerve, that keeps things humming about Amoskeag Falls. It has a large circulation, and its patrons read it from top to bottom and believe it.

ADVERTISING RATES in both these papers are, in proportion to their circulation and influence, extremely low.

JOHN B. CLARKE, Editor and Publisher.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

READ THESE TESTIMONIALS:

HOUSEKEEPER.

We always head our lists every year, in making up our seasons advertising, with THE HOUSEKEEPER. We consider it the best paper of its class published, because it brings us more business than any other three papers of similar character.

JULY 21, 1890.

Yours respectfully,
L. G. SPENCER,
Manufacturer of Baby Carriages, Bicycles, Toys, etc., 221 W. Madison St., Chicago.

THE HOUSEKEEPER:

It is with sincere pleasure that I take this opportunity of telling you of what value THE HOUSEKEEPER has been in my business. I started in this comparatively new business in the West five years ago, and have tried a great many mediums of advertising, but can truthfully say your paper has brought me more returns than all the others. It reaches an intelligent thinking class of people that are seeking information.

JULY 21, 1890.

Very truly yours,

MRS. G. W. KNETTLE,
Purchasing Agent, Minneapolis, Minn.

THE HOUSEKEEPER:

There is no ambiguity about the returns that come in response to our advertisement in THE HOUSEKEEPER. It brings in a never failing stream of satisfactory returns, and we shall of course continue to use it as long as we continue to advertise.

New York, April 18, 1890.

Respectfully yours,

MARCHAL & SMITH PIANO CO.

We have many more letters of this nature. For rates and any further particulars apply to any responsible advertising agent or address

THE HOUSEKEEPER, Minneapolis, Minn.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

Demorest's Family Magazine

NEW YORK CITY, (15 East 14th St.)

W. JENNINGS DEMOREST, Publisher.

If you want to reach all the best families in America, or any single member of them, the best way to do it is through this *Wonderful Family Magazine*. It is not only the best \$2.00 Magazine in the world, but its advertising rates are fifty per cent. lower than any other with the same circulation.

The Lexington Intelligencer

LEXINGTON, MISSOURI.

ALEX. A. LESUEUR, Editor.

ETHAN ALLEN, Secretary and Treasurer.

Oldest paper, and has a *bona fide* circulation larger than any three other papers published in the county. Is the official paper of the city and county. Is almost universally taken by the farmers, and has a good list at every post office in the county, together with a large home patronage. Issued Weekly.

The Independent American

CRESTON, IOWA.

W. H. ROBB, Editor and Proprietor.

The oldest Farm and Labor Paper in Iowa.

Established, 1882. Circulation, 1,104.

Deutsche Zeitung für Texas

VICTORIA, TEXAS.

H. SPORER, Editor and Publisher.

A wide awake German newspaper with a large and steadily growing circulation among thrifty German people. Only German paper in the Shoe String district. First class advertising medium. Send for rates and sample copy. Independent. Issued Thursdays. 12 pages, 22x16. Subscription price, \$2.00 per year.

Nevada Representative

NEVADA, IOWA.

PAYNE & SON, Publishers.

The leading newspaper in Story County. Republican in politics. Advertising rates reasonable and furnished on application. Favorable clubbing terms with the best papers and magazines of the country. Subscription \$1.50 per year. Fine job printing a specialty.

Circulation well distributed over the County.

Established, 1878. Circulation, 1,100.

Three Rivers Tribune

THREE RIVERS, MICH.

GEO. A. B. COOKE, Publisher and Proprietor.

An eight-page, Weekly Republican paper. *Best Paper, Best Readers, Best Advertising Medium.*

Rates Reasonable. Advertising Solicited.

A family paper. Sworn Circulation over 9,000.

The Troy Observer

TROY, NEW YORK.

M. F. COLLINS, Editor and Proprietor.

A Democratic paper of 12 pages. Official organ of the city and county. Circulates in every town and village in Northern New York, and large portions of Vermont and Massachusetts. An excellent advertising medium. Sample copies sent on application.

Troy Budget

TROY, NEW YORK.

C. L. MACARTHUR & SON, Proprietors.

Established 1791. Issued Saturday nights and Sunday mornings. Read by all classes and thousands who read no other paper. 12, 16 or more pages as advertising demands. Best advertising medium in Northern and Eastern New York and adjoining States. Financial and transient small advertisements are its features.

The Reason It Doubled

That the TRIBUNE, FAIRFIELD, IOWA, has grown so rapidly in circulation is because the editor went personally to the homes of hundreds of farmers, and wrote them up; thus showing a personal interest, not only in the subscription lists, but the paper's influence also. Our editor is still at this work and will keep it up, and thus keep THE TRIBUNE the best advertising medium in Jefferson county.

The Arkansas State Journal

MALVERN, HOT SPRINGS CO., ARK.

D. A. MCCOLLOUGE, Editor and Publisher.

Is the best advertising medium in Southwest Arkansas. Has a large circulation in the City of Hot Springs. Also circulates throughout the entire State.

Democratic in politics. Official in character. Extensive in circulation. Advertise in it and get rich.

Massachusetts Ploughman

BOSTON, MASS.

LINUS DARLING, Proprietor.

Leading Agricultural Paper in New England. Enlarged to an eight page paper, and one of the largest of the kind in New England. Devoted to Agriculture, Horticulture, Sheep Husbandry, Stock Raising, Domestic Economy, Choice Literature, General News, Wool Markets, Produce Markets, Cattle Markets, etc. Terms, Two Dollars a Year in Advance.

Established 1850.

Buffalo Christian Advocate

REV. S. McGERALD, Editor.

A. D. McGERALD, Business Manager.

Has the largest circulation of any Methodist Weekly published in New York State, outside of New York City.

The Kansas Workman

ELDORADO, KANSAS.

A four-column, twelve-page paper. Advocates the abrogation of our collection laws, as the only weapon which can be used in defence of the Home against the raids of the money Power. Terms \$1.00 in advance.

Herkimer Democrat

HERKIMER, N. Y.

H. P. WITHERSTINE & CO., Publishers.

Issued every Wednesday.

Published at the County Seat, and one of the best advertising mediums in the Mohawk Valley. 12 pages, cut and pasted. Fiftieth year of publication.

Established 1846.

The Liberty Tribune

LIBERTY, CLAY CO., MISSOURI.

IRVING GILMER, Proprietor.

The leading paper in Clay County. All home print, and one of the best advertising mediums of any County Seat paper in the State.

Star of the West

BEARDSTOWN, ILL.

J. P. HODGE, Editor and Publisher.

An aggressive, newsy, well printed, 6-column, 8-page paper, which in three years has left all competitors, and stands as the best advertising medium in Cass County. Circulation already the largest in the county. Is increasing more rapidly now than ever before.

THE EVENING TELEGRAPH

CHAS. E. WARBURTON, Proprietor.

THE EVENING TELEGRAPH, from the time of its establishment, has been continually in the receipt of telegraphic news from the Associated Press, and has thus been enabled to lay before its readers all the news from every quarter of the world at

the earliest possible moment. This service is supplemented by special dispatches and correspondence from all the leading news centers. Special attention is also given to general literature, and to art, musical and dramatic criticism, etc.

The Weekly Times

IS A LARGE, ATTRACTIVE AND INSTRUCTIVE FAMILY PAPER FOR HOME AND GENERAL READING.

It contains the latest and freshest news, the most accurate and reliable information, and is altogether a most desirable, not to say indispensable Home and General Journal. It has a large circulation, with new subscriptions coming in every day, and triumphantly ended the year of 1889 with an average of over 82,000 copies each issue, which it expects to largely increase in 1890.

The Chicago Mail

ISSUES THREE EDITIONS—12, 3 and 5 o'clock.

TERMS BY MAIL—One Year, \$3.50; Six Months, \$2.00.

Each of which is anxiously awaited for and eagerly sought after. It enters the majority of households in Chicago, and the neighboring State as well. Has a fine circulation, and as an Advertising Medium throughout the City and surrounding towns and country it cannot be excelled.

Address THE CHICAGO TIMES CO., Editors and Publishers, Cor. Washington St. and Fifth Ave.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

Established 1883.

Northwestern Farmer & Breeder

ST. PAUL, MINNESOTA.

Published until May 1st, 1890, at FARGO, N. DAK.
E. A. WEBB, Publisher.

Circulation is largely among the stockmen and grain growers in the Dakotas, Minnesota and Montana. The only agricultural or live stock paper published in St. Paul.

The Wellsville Wide-Awake

WELLSVILLE, MISSOURI.

J. B. MORAN, Editor and Proprietor.

In January, 1890, THE WIDE AWAKE was sold to its present proprietor, at which time its circulation was 200. Now it has an actual circulation of 500 weekly, and its subscription list is growing rapidly.

Montgomery County is a good field for advertisers.

Vicksburg Evening Post

Daily Edition.

VICKSBURG, MISSISSIPPI.

J. G. CASHMAN & CO., Publishers.

Vicksburg is the largest city in Mississippi, and THE POST is the most popular and influential paper in Vicksburg.

It is the best medium for advertisers who wish their advertisements read by the people of this section.

Subscription \$8.00 per year.

The Butte Daily Miner

BUTTE, MONTANA.

A city of 30,000 inhabitants with its surroundings; most populous mining community in the country; \$500,000 a month paid out in wages.

THE MINER is the only morning Daily published in Butte. It is the largest paper in the State, and the best between St. Paul and the coast.

Menominee Democrat

MENOMINEE, MICHIGAN.

SOULTS & O'DONNELL, Proprietors.

Circulation 1,200. \$2.00 per year.

One of the leading newspapers of the Upper Peninsula of Michigan. Contains from 20 to 30 columns of home advertising the year round.

Population of city, 1890 census, 11,000. The greatest lumber producing point in the world.

The Addison Courier

ADDISON, MICHIGAN.

A. J. KEMPTON, Editor and Proprietor.

Established June, 1884. Best located, equipped and patronized small town newspaper in the State. Issued every Saturday morning from the new COURIER Printing House (first floor 20x60 feet).

81 Warren Street, New York.

"It's humorous paragraphs are more quoted by exchanges than *Puck*, *Judge*, or *Life*."—*Hartford Post.*

MUNSEY'S WEEKLY is a journal of ideas, and is the best printed publication in America, is clean and pure, and beautifully illustrated.

The *Norristown Herald*, an artist in the humorous field itself, says: "MUNSEY'S WEEKLY is about as neat a specimen of typography as comes out of New York City, while its illustrations and letter press are first class, its writers and artists being among the best."

The *Philadelphia Ledger*, in a quarter column editorial notice, says: "MUNSEY'S WEEKLY is distinctively original, and is ably and brilliantly edited. In its artistic features it is strong and excellent, its illustrations being particularly meritorious and effective."

The *Boston Sunday Times*, edited by the popular Dan Knowlton, says: "MUNSEY'S WEEKLY is deservedly popular. The wit is bright and funny, the selections well chosen, the illustrations well engraved, and the whole paper admirably printed."

The *New York Telegram* says: "MUNSEY'S WEEKLY is an admirable humorous publication. The best wits, keenest satirists, and most clever artists contribute to its columns."

MUNSEY'S WEEKLY goes into the homes of those who are able to spend money for whatever they fancy.

First-class Advertisement only received through any reliable Agency.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

Farm Journal

PHILADELPHIA.

WILMER ATKINSON, Editor and Publisher.

CHAS. F. JENKINS, Associate Publisher.

A live, clean, boiled down, common sense Monthly. It has a general circulation, with more subscribers than any other monthly Agricultural paper. Its columns are filled with the best class of advertisers, and no patent medicine, fraudulent or snide card is inserted.

A SAMPLE COPY WILL SPEAK FOR ITSELF.

Average 1889, over 200,000 copies per month.

The Argus and Patriot

MONTPELIER, VERMONT.

HAS A SUBSCRIPTION LIST OF OVER 7,500 AT
\$2.00 PER YEAR IN ADVANCE.

It is by far the best advertising medium in the State as is shown by the fact that while the most of the State papers are only \$1.00 per year, people are willing to pay \$2.00 for the ARGUS and PATRIOT.

EVERY ISSUE IS EAGERLY READ BY A LARGE
NUMBER OF PEOPLE NOT SUBSCRIBERS.

Book and List open to inspection.

N. W. AYER & SON, Advertising Agents, Philadelphia.

The Concordia Blade

CONCORDIA, KANSAS.

Enters upon its twelfth year under most favorable auspices, having recently introduced great improvements in various departments, rendered necessary by its unprecedented increase in circulation.

OVER 2,600 COPIES.

OF THE BLADE are issued weekly, and is getting larger; and being accorded by the public is evidence of confidence and a measure of patronage far beyond what was anticipated. Advertising in the West should be profitable, and THE BLADE is just the paper to use in order to get your advertising before a large scope of country readers who are well to do.

Its rates are reasonable.

Its circulation is the largest and among the best classes. Its enterprise in publishing the news renders it popular. Its independence in all matters commands respect. Its management is liberal and progressive. It recognizes no competition as a political educator. Its system in business is upright and satisfactory.

Established 1879.

Eleventh Year of Publication.

The Ladies' World

Published monthly by S. H. MOORE & CO.

27 Park Place, New York City.

Yearly average—for 12 Months (Nov. 1889—Oct. 1890),
187,250 copies per issue.

Half Yearly Average—Jan.-June, 1890, 182,500 copies
per issue, all to paid in advance subscribers.

This paper goes entirely to ladies of the refined and educated class throughout the entire United States and Canada, and is read by nearly a million women every month. All expired subscriptions promptly dropped.

There will be issued an extra large edition for December, 1890, of over 300,000 copies. Send for estimates on this and regular editions.

The Kansas City Journal

KANSAS CITY, MISSOURI.

JOURNAL COMPANY, Publishers.

THE MOST POPULAR PAPER IN THE WEST.

Its Daily, Sunday and Tri-weekly editions surpass—each in its particular field—any similar publications in the West. THE JOURNAL has built up a reputation for reliability and sincerity coupled with enterprise, in supplying its readers in every sphere and vocation in life, that which is morally healthful, discretely entertaining and safely instructive. It is wanting in no detail that goes to make perfection in a paper for the family or the business man.

The Kansas City Weekly Journal and Agriculturalist

Is deservedly the most popular family Weekly in the West, combining with its *news* and *literary* features, a department devoted to *practical farming*, *gardening*, *household work* and every daily avocation of an active people. Its chaste stories, usually illustrated, are special favorites of the young people.

WILLIAM G. DAVID, Publisher.

Issued Tuesdays and Fridays.

BEST MEDIUM FOR ADVERTISING.

Largest circulation in Wayne County, 1,950 guaranteed.

Established 1863.

Waltham Free Press

WALTHAM, MASS.

A. STARBUCK, Editor and Publisher.

Daily and Weekly.

Unsurpassed in circulation; unequaled as an advertising medium; goes particularly among buyers. Waltham is a thriving, rapidly growing city of 20,000 inhabitants. Good wages to employees is the rule.

Republic-Journal

LITTLETON, N. H.

GEORGE C. FURBER, Proprietor.

Issued Weekly.

It has the largest circulation of any paper in New Hampshire north of Concord, the Capital, comprising three-fourths of the State, and larger than any local paper in the State. Littleton is the largest town in the White Mountain region, and the REPUBLIC-JOURNAL is especially valuable to advertisers desiring to reach summer tourists. No objectionable advertisements inserted.

Established 1887.

Circulation 900.

The Enterprise

PLAINFIELD, ILLINOIS.

U. S. G. BLAKELY, Editor and Proprietor.

A Wide-a-Wake, Progressive Local Newspaper.

The only paper printed in Plainfield and it is safe to estimate that it is read by 4,000 people each week. It circulates in one of the richest farming districts in Illinois which makes it a valuable advertising medium. Send for sample copy and advertising rates.

Established 1883.

The Bullion

EL PASO, TEXAS.

C. LONGUEMARE, Editor and Proprietor.

Devoted to the mining and industrial interests of the Southwest. Circulates in every town and mining camp in New Mexico, Arizona, Western Texas and Mexico. Best advertising medium in the Southwest.

Delaware County Democrat

CHESTER, PENNA.

Issued every Thursday. \$1.00 a year, in advance; \$1.50 if not paid within the year.

The only Democratic paper in Delaware County. Thoroughly Democratic, yet thoroughly independent to criticize errors and condemn faults no matter where found. It is the best advertising medium published in the county, because it is read by the more intelligent of both parties.

South Jersey Republican

HAMMONTON, NEW JERSEY.

ORVILLE E. HOYT, Publisher.

The "Old Reliable" Paper of the County.

TWENTY-EIGHTH YEAR.

Home and Farm

SEMI-MONTHLY.

LOUISVILLE, KENTUCKY.

THE LEADING AGRICULTURAL JOURNAL OF THE SOUTH AND WEST.

FOR FOURTEEN YEARS HOME AND FARM HAS BEEN IN THE SOUTH THE CHIEF AUTHORITY ON AGRICULTURAL MATTERS. IT IS EDITED WITH THE UTMOST CARE, AND WITHOUT REGARD TO EXPENSE. NO JOURNAL HAS EVER WON SO COMPLETELY THE CONFIDENCE OF SUCH AN EXTENDED CONSTITUENCY. IT RETAINS THIS CONFIDENCE BY DEALING FAIRLY WITH SUBSCRIBERS AND ADVERTISERS ALIKE. ALL OBJECTIONABLE ADVERTISEMENTS REFUSED. LOTTERIES AND GIFT ENTERPRISES EXCLUDED. IT IS A HOME as well as A FARM JOURNAL. ITS ADVERTISERS AS WELL AS CONTRIBUTORS ARE COMPELLED TO RECOGNIZE THIS FACT.

The circulation the past ten years has ranged from 75,000 to 100,000. Averaging the last two years over

90,000 COPIES PER ISSUE.

HOME AND FARM has gained a position in agricultural journalism such as no other publication has secured. It is an indispensable medium of advertising for merchants and manufacturers wishing to establish a trade in the South and West. Rates reasonable. Address,

HOME AND FARM, LOUISVILLE, KENTUCKY.

The Critic

JESUP, IOWA.

DICKINSON & GROUT, Publishers.

First-class job office in connection.

Commercial work a specialty.

All work done cheap with neatness and dispatch.

Four Rules for Advertisers

THE FIRST RULE

HAVE SOMETHING WORTH ADVERTISING. The merchant may crowd his store by the use of bright and attractive posters; but if his store is filled with trash, the more people he draws to the exhibition of that trash, the worse for him. The sound business man knows that goods which are not worth buying are not worth advertising, and that nothing will more quickly darken his prospects than the printer's ink that eulogizes cheats.

THE SECOND RULE

PUT THE ADVERTISEMENT IN AN ATTRACTIVE WAY. The average country printer believes that the bigger and blacker the type of his hand-bills, and the more different styles of type he can crowd thereon, the better. The men who nowadays are making advertising an art know that words must be few and winged, cuts, simple and beautiful, and type clear, if the advertisement is to be successful.

THE THIRD RULE

KEEP ON ADVERTISING. You know it is said that a man looks at an advertisement five times before he sees it; the sixth time he sees it; the seventh time, remembers having seen it before; the eighth time, is disgusted with it; the tenth time, begins to think there must be something in it; the twelfth time, goes and buys.

FINALLY

THE GOLDEN* RULE.

Will place your business before the best people in every State and Territory of the Union. Has A SWORN CIRCULATION OF 51,424 COPIES WEEKLY to annual paid subscribers and brings replies, new business, success to those who use its columns.

For rates apply to

THE GOLDEN RULE COMPANY, 50 BROMFIELD ST., BOSTON.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

P. O. Box "B."

KANSAS CITY, MO.

25 CTS. PER YEAR.

C. M. BROOKE, Publisher.

ACTUAL AVERAGE CIRCULATION FOR THE PAST YEAR, 15,500 COPIES EACH ISSUE.

The MISSOURI AND KANSAS FARMER is issued monthly (on 15th), at the remarkable low subscription rate of 25 cents a year, or 15 cents for six months. It has 8 large clean printed pages, with six columns (20 inches long) on each page.

IT WAS ESTABLISHED IN 1884 BY ITS PRESENT PUBLISHER, AND HAS NEVER CHANGED HANDS NOR MISSED A MAILING DATE. IT IS AND ALWAYS HAS BEEN "ALL HOME PRINT," AND IT SETS EVERY LINE OF ITS OWN TYPE—DOES NOT NOR NEVER HAS USED STEREOTYPE PLATES TO CHEAPEN THE COST OF PRODUCTION.

Its advertising rates are 15 cents per agate line, or \$2.00 per inch each issue. No advertisements but those which are perfectly "clean" in character will be received at any price.

FORMS CLOSE ON THE 10th OF EACH MONTH.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

Daily and Weekly News

GOSHEN, INDIANA.

A veritable "land of milk and honey." Census population, over 6,000; county (Elkhart), 40,000. Manufacturing town; county, rich farmers. Both Daily and Weekly, eight pages, six columns. Subscriptions spot cash. Best class of readers. Neatly printed and first-class mechanical work. Try it. Both town and country almost exclusively Americans and reading people.

N. W. AYER & SON, Advertising Agents, Philadelphia.

Established 1846.

Issued every Saturday.

Cambridge Chronicle

CAMBRIDGEPORT, MASS.

F. H. BUFFUM, Editor and Publisher.

The News-Tribune

MUSCATINE, IOWA.

MUSCATINE NEWS CO., Publishers.

DAILY AND WEEKLY.

The official city and county paper, and the only Democratic paper in the county. Is located at the County Seat, a live town of 12,000 inhabitants, on the Mississippi river. Its Weekly circulates from twenty-seven different post offices within a radius of fifty miles from Muscatine. Send for sample copy and rates.

N. W. AYER & SON, Advertising Agents, Philadelphia.

Issued Daily (except Sunday.) \$5.00 per year.

The Daily News

LITCHFIELD, ILLINOIS.

JAMES H. COX, Proprietor.

A seven column folio, now in its fourth year. The only Daily published in Montgomery County, Ill. Average Daily circulation the first six months of this year, ending July 1st, 1890, 800. This paper is located in a rich farming, stock raising and manufacturing region. A limited number of respectable advertisements will be received at reasonable rates.

N. W. AYER & SON, Advertising Agents, Philadelphia.

QUALITY in everything is certainly desirable, and in the selection of a good advertising medium, **QUANTITY** is not the only necessity. **QUICK** sales for his goods are what the sensible or shrewd advertiser wants, and he can certainly secure the best **RETURNS** for all the money invested by placing an advertisement in the

LIVE-STOCK INDICATOR

Published at Kansas City, Mo.—much better than from some "claiming" twice or three times its circulation. WRITE FOR RATES.

Weatherford Constitution

WEATHERFORD, TEXAS.

WILLIAM F. BECK, Editor and Proprietor.

WEEKLY, 4,500. DAILY, exceeding 1,000.

The *Weatherford Daily* and *Weekly Sun* consolidated with the *CONSTITUTION* July 19th, 1890.

Published in the most prosperous town, in the most prosperous section of Texas. Advertisers can reach through its columns Cotton Planters, Wheat Growers, Fine Stock Raisers, Fruit Growers and Nurserymen.

N. W. AYER & SON, Advertising Agents, Philadelphia.

Saturday Evening Post

BURLINGTON, IOWA.

J. W. MURPHY, Editor and Proprietor.

The *Post* is the organ of the great middle class of this section of the valley. It is not taken by the very rich or the very poor.

The *Post* is a 12-page paper of 72 columns, is plainly printed from new type, rigidly excludes what is known as plate matter, and carefully caters to the cultivated taste of the best class of people.

The *Post* prints regularly over 4,000 copies, and circulates in more than 200 country villages in Iowa, Illinois and Missouri.

N. W. AYER & SON, Advertising Agents, Philadelphia.

Morning Sun Herald

MORNING SUN, IOWA.

DORNON & TRACY, Publishers.

The largest circulation in Louisa County.

The *HERALD* is one of the few all-home-print papers of the State. It is situated in a county into which no city papers circulate, so that with the aid of the *HERALD* only can this field be reached. Advertisers should not hesitate to seize this opportunity to invade a rich agricultural district, which they now fail to touch. Send for our rates.

N. W. AYER & SON, Advertising Agents, Philadelphia.

The Daily Tribune

GREENSBURG, PENNA.

TRIBUNE PUBLISHING CO.

Largest circulation of any Daily in Westmoreland County. It circulates by carriers in 38 towns in the county.

Tribune-Herald

Weekly. The oldest Republican paper in Westmoreland County. Politically and otherwise it is fearless. Largest paper in the county. 54 columns. \$1.50 per year.

N. W. AYER & SON, Advertising Agents, Philadelphia.

Elgin Courier

ELGIN, ILLINOIS.

H. D. HEMMENS, Editor and Publisher.

Official Paper of the city, and the official organ of the Elgin Board of Trade.

The Leading Daily of Kane County.

The *Ebburn Record*, *Maple Park Herald* and *Geneva New Era* were this year consolidated with the Weekly edition.

N. W. AYER & SON, Advertising Agents, Philadelphia.

FARM AND HOME

A NATIONAL
SEMI-
MONTHLY.

Springfield, Mass.,
—AND—
Chicago, Ill.

PUBLISHED
IN TWO
EDITIONS.

A STEADY INCREASE. FARM AND HOME for the past year has shown a steady increase over the previous year, 24,248 subscribers having been added to its lists

SIX MONTHS' RECORD To July 1, 1890, shows the average circulation of each issue of FARM AND HOME to have been 221,333 copies.

This number has been required for its regular list of paid subscribers, with the exception of those used by our agents in canvassing for new subscribers, and for advertisers and exchanges. No sample copy circulation.

The circulation of FARM AND HOME is now increasing so rapidly that our editions require at least

250,000 COPIES EACH ISSUE,

And we Guarantee a Circulation Not Less Than This for the Coming Year.

EASTERN EDITION

Not Less Than 130,000 Copies Each Issue.

WESTERN EDITION

Not Less Than 120,000 Copies Each Issue.

With the above circulation each issue of FARM AND HOME at the usual average will have

OVER A MILLION READERS.

ADVERTISING RATES for either Eastern or Western Edition 80 cents per agate line each insertion.
For both Editions \$1.50 per agate line each insertion. Discounts for large contracts made known on application.

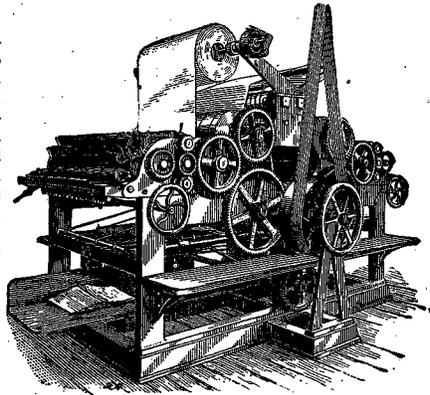

COPY MUST REACH US
10 DAYS BEFORE DATE OF ISSUE.

Nearly every successful business house has experienced, at some time, A LONG FELT WANT. FARM AND HOME has been there for two years. This particular want has been a Perfecting Press that could print its immense and fast increasing editions with speed and without sacrificing good work.

THE WANT HAS BEEN SUPPLIED

✦ ✦ ✦

By the Stonemetz Printers' Machinery Co. of Millbury, Mass., who have built for us, at a cost of \$10,000, a press that fills the bill, and FARM AND HOME is now printed and folded upon this press, doing away with the slow and inconvenient method of hand feed, flat bed presses and folding machines. The Stonemetz Press takes the paper in rolls and automatically prints, folds, pastes, and perforates FARM AND HOME complete, at a speed of 5000 copies per hour. With this Perfecting Press we are better prepared to meet the increasing growth of FARM AND HOME, and push it more vigorously than at any time in its history.

✦ ✦ ✦

ENLARGED AND IMPROVED. With the Oct. 1st issue, FARM AND HOME was enlarged so as to permit of nearly 15 per cent more reading matter, without change of subscription. This enlargement allows us to add new features of interest and increase some of our present departments, which cannot fail to greatly add to the value of FARM AND HOME

To its Million of Readers.

FARM AND HOME now has one of the best equipped publishing houses in the United States. Its five story building, in Springfield, Mass., gives it abundant room, and is furnished with the latest improved appliances needed for the quick and convenient transaction of business.

THE IDEA OF DIVIDING ITS CIRCULATION

Into two editions, Eastern and Western, which was carried out two years since, has resulted in a largely increased business, both in subscriptions and advertising.

OUR WESTERN OFFICE To make its Western edition still better adapted to the field in which it circulates the publishers have decided to have one of its managing editors located in the West, with headquarters in our present business office, 543 Rookery Building, Chicago, Ill. Communications for the editor, as well as business letters, can hereafter be addressed **543 Rookery Building, Chicago, Ill.,** or to **Springfield, Mass.**

★ PUBLIC OPINION. ★

TWO ANSWERS OUT OF THOUSANDS.

BLAIR CAMERA COMPANY, MANUFACTURERS OF PHOTOGRAPHIC APPARATUS.

Boston, August 2d, 1890.

Manager PUBLIC OPINION, Washington, D. C.

Dear Sir—We find on examining reports of inquiries received here and at our branch houses, for the Hawk-Eye Booklet, and for Catalogues, that up to July 17th, "PUBLIC OPINION" leads in the number of replies.

But two others record as many, and both of these had larger advertisements.

Yours very truly,

THE BLAIR CAMERA Co., S. N. Turner, Secretary.

N. B. The Hawk-Eye Advertisements were placed in thirty leading papers and magazines. THE BLAIR CAMERA Co.

THE ST. PAUL BOOK AND STATIONERY COMPANY.

THE TADELLA ALLOYED ZINC PENS.

St. Paul, Minn., July 24th, 1890.

We must say that "PUBLIC OPINION" is one of the best mediums we have ever used, and we are indebted to it for large sales of our Tadella Zinc Pens. We only wish our other advertising mediums would show as good results.

ESTABLISHED 1804.
BUCKS COUNTY INTELLIGENCER.
WEEKLY—FRIDAY.

The Most Complete Mediums
FOR
Advertising in Bucks County.

ESTABLISHED 1886.
DOYLESTOWN INTELLIGENCER.
DAILY—EXCEPT SUNDAY.

Daily--Intelligencer--Weekly

DOYLESTOWN, PENNSYLVANIA.

THE BUCKS COUNTY INTELLIGENCER, (Weekly), is the oldest paper in the county, and prints double the amount of Local News of any other Bucks County Weekly; it has longer columns and more of them than any county contemporary; it has double the number of subscribers of the next most widely circulating paper—eighty-five per cent. of them in Bucks County.

THE DOYLESTOWN INTELLIGENCER, (Daily), has been twice enlarged since its establishment. It is the Pioneer Bucks County Daily Paper. The Daily is to Doylestown what the Weekly is to Bucks County. Its increase of circulation, from its first issue, has been steady and substantial.

CIRCULATION DURING JUNE 1890, WEEKLY, 3,700; DAILY, 1,107.

Rate lists revised May 16th, 1890. Terms low and uniform. Nothing published can compete with the INTELLIGENCER, in its own field, either in price or circulation, hence its value to advertisers.

SEND FOR MAP, SHOWING FIELD AND FIGURES OF CIRCULATION. PRICES OF ADVERTISING AND SAMPLE COPIES MAILED ON APPLICATION.

ALFRED PASCHALL & CO., DOYLESTOWN, PENNA.

A POPULAR PAPER FOR ALL THE PEOPLE. AN ADVERTISING MEDIUM, PAR EXCELLENCE.

Guaranteed Circulation in 1889 over 325,000.

IT IS A MONTHLY SEMI-MILITARY AND HOUSEHOLD PUBLICATION, DEVOTED TO THE
PROGRESSIVE WELL-BEING OF ALL DOMESTIC CIRCLES IN OUR HOMES
AND COUNTRY, AND A NEVER-FALLING CHAMPION

OF THE

CAUSE OF THE VETERANS OF THE LATE CIVIL WAR.

Circulation in 1889 was over 325,000.

In its sixth year, making new friends with every issue, **Home and Country** is pushing onward and forward, with a purpose of reaching a **Half a Million** circulation annually. As the Veteran's **True Friend** and the People's Paper it is taken into the homes and cherished in the hearts of all who love their country in every part of the union.

A NEW FEATURE.

By medium of its **Country Store Columns**, through correspondence, its friends, subscribers, and readers generally, especially those in localities distant from manufacturing centers, can purchase useful and necessary articles of a staple character at prices lower than elsewhere, with satisfaction guaranteed

As an Advertising Medium,

Home and Country stands pre-eminent. It is adapted to general advertisers of the whole Union, by reason of its circulation in every field of social and industrial life. Advertisers who have any share of such business they desire to place where it will do them good, will do well to address **Home and Country**, 96-98 Maiden Lane, New York City, at their earliest convenience. Now is the accepted time.

Sample copies on application. Subscribers always welcome.

THE DAILY NEWS

HAS A GREATER CIRCULATION THAN ANY OTHER PAPER IN EASTERN MAINE.

IT OWNS AND PUBLISHES SEVEN FIRST-CLASS WEEKLY PAPERS WHICH COVER AN ENORMOUS TERRITORY AND ARE WELCOME WEEKLY VISITORS TO THOUSANDS OF HOMES.

The Bangor Weekly News,
 The Winterport Sun, The Hampden News,
 The Newport Mascot,
 The Brewer Citizen, The Up-River News,
 The Bucksport Clipper.

The Subscription Price of any of these Weeklies is ONLY ONE DOLLAR A YEAR.

THE ADVERTISING RATES

Of THE DAILY and of the WEEKLY PAPERS are low, and the advertisers will testify that their patronage of these papers invariably produces the greatest results.

THE DAILY NEWS has unusual facilities for the collection of news. Its telegraphic service, by direct wires to its own office, is unequalled. Telegraph messages are received at any hour of the day or night over special wires ending in the DAILY NEWS building. No other newspaper in Maine possesses the same advantages. Its local news is gathered by a large and active corps of reporters, and presented to its readers in an attractive manner.

THE NEWS IS FEARLESS, JUST AND INDEPENDENT! IT SERVES NO PARTY, CLIQUE OR CLAN!

IT IS THE PEOPLE'S PAPER.

Sample copies sent on application.

THE DAILY NEWS, Bangor, Maine.

THE DAILY NEWS Publishing House is perfectly equipped for producing Newspapers, Books, Magazines. Contract work a specialty. Lithographing done by skilled artists on the premises.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

The Daily and Weekly Derrick OIL CITY, PENNSYLVANIA.

Circulation 12,000—a larger output of papers than all the other papers published in Venango Co. combined. We guarantee this and can show the proof. Circulates among farmers, mechanics and laboring men generally. Touches every important point in Venango, Mercer, Clarion, Butler, Armstrong, Allegheny, Washington, Warren and Forest Counties, Pa., and has a wide general circulation.

Established 1861. Daily and Weekly. 29th year.

The Meriden Republican MERIDEN, CONNECTICUT.

W. M. F. GRAHAM, Editor.

THE REPUBLICAN PUBLISHING CO., Pubs.

The only paper in Meriden that publishes the full Associated Press dispatches. It has a special wire and its own telegraph operator.

THE REPUBLICAN is an old family and long-established paper of Meriden.

Established 1855.

The Leavenworth Times LEAVENWORTH, KANSAS.

THE TIMES PUBLISHING CO., Publishers.

THE TIMES is indorsed by thousands. It is the only Leavenworth paper receiving the morning Western Associated Press Reports. It has subscribers in every post-office, and is read in every city, village and hamlet in the State of Kansas. It is an advocate of Republican principles in a State that gives 50,000 Rep. majority.

Tolland County Leader ROCKVILLE, CONNECTICUT.

E. L. BURR, Publisher.

Eight pages. Home print.

The leading-all medium for this vicinity. Contains all the local news of this lively new city of 8,000 inhabitants, and of the county.

Largest circulation, and advertising rates reasonable.

Phillips Phonograph PHILLIPS, FRANKLIN COUNTY, ME.

J. W. BRACKETT, Publisher.

I have recently purchased the "Wild Woods Echo," and as a result of the consolidation the PHONOGRAPH has over 2,000 regular circulation, which we will prove in any way to satisfy advertisers. This is the largest circulation of any paper published in Franklin County, Maine. The northern part of the county can actually be covered through no other paper. Rates furnished.

DAILY AND WEEKLY.

The True American TRENTON, NEW JERSEY.

Daily circulation, 5,412. Weekly, 500. Exclusively to regular subscribers.

The best advertising medium in Trenton, a city of 60,000 inhabitants.

Official County Paper. Official City Paper.

Oberlin Opinion OBERLIN, KANSAS.

F. W. CASTERLINE, Editor and Proprietor.

Always bright and newsy, and kept in advance of the times.

Republican in politics, but liberal to all.
\$1.50 per year.

Established 1805.

The Gazette BEDFORD, PA.

The Leading Newspaper of Bedford County.

"The Bedford GAZETTE is a model among country newspapers."—*N. Y. World*.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

NEW ENGLAND FIRESIDE

POTTER & POTTER, Publishers,

86 and 92 Federal Street, BOSTON, MASS.

30,000 COPIES MONTHLY.

TO OUR ADVERTISERS.

Although you all know us as publishers of the *YANKEE BLADE*, you are not so familiar with us as publishers of *NEW ENGLAND FIRESIDE*. We take pleasure, however, in inviting your attention to our new publication—new to us, although many of you already know it as an excellent advertising medium under its former management. We promise you it shall be no less valuable in the future, for we propose to keep it at the head of its class, as a high-toned family paper, particularly valuable to the ladies of the household. Aside from its valuable reading matter, its sixteen pages are typographically and artistically excelled by none.

We positively guarantee to print and circulate an average of 30,000 copies of *NEW ENGLAND FIRESIDE* during the year.
POTTER & POTTER, Publishers.

Rates for advertising in *NEW ENGLAND FIRESIDE* until further notice:
20 cents per Agate line per issue.

Price for Reading Notices, 50 per cent. additional, or **30 cents per Agate line.**

CONTRACT ADVERTISING IN EXTRA EDITIONS.

Advertisers making a contract to run for six months or one year in *NEW ENGLAND FIRESIDE*, will be entitled to the benefits of all *Extra Editions* issued during this period without additional cost, but *no increase of space* will be allowed in these editions except at the advanced rate. In all ordinary editions space may be increased at pleasure, upon which the time discount will be allowed. On space contracts the Advertiser will be allowed to insert in *Extra Editions one-twelfth only* of the total number of lines contracted for, except at the advanced rate.

DISCOUNTS FOR SPACE.

To be used within One Year from date of order.

Orders for 3 months, 5 per cent. Orders for 6 months, 10 per cent. Orders for 12 months, 15 per cent.

DISCOUNTS FOR TIME.

200 Lines,	5 per cent.	600 Lines,	15 per cent.
400 "	10 "	1000 "	20 "

Advertisers may use either scale of discounts, but *cannot combine the two.*

Length of column, 13½ inches. Width of column, 2 3-16 inches. All Advertisements are measured in Agate, 14 lines to the inch.

Advertisements should reach us before the 1st of the month in order to insure insertion.

Only first-class advertisements will be accepted.

Order direct or through any established agency.

POTTER & POTTER, Publishers,
86 and 92 FEDERAL STREET, BOSTON, MASS.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

"If I had but \$1,000 to expend in advertising, I would expend it all in Allen's Lists."
FRANK FINCH, Seedsman, Clyde, New York.

In the Gilt-Edged Field "ALLEN'S LISTS" Steadily Lead.

Office of FRANK FINCH,
Dealer in
GARDEN, FIELD AND FLOWER SEEDS.

CLYDE, N. Y., Sept 11th, 1890.

E. C. ALLEN, Augusta, Me. Dear Sir.—"Last spring I used the columns of several of the most popular newspapers for advertising my business such as I had found by previous experience to be first-class mediums, and which were well printed and gave a large circulation among a thrifty class of readers: after a careful examination of all the orders received in reply to the advertisement (22,650), I was able to trace 22,515, and tell where the parties saw my advertisement. I have made out a "statement" of the papers used, and enclose the same in this letter, for your inspection. Of course you will be pleased to see "ALLEN'S LISTS" at the head, and you may well be proud of the showing, for there are several papers in the List which are considered by shrewd advertisers as "gilt-edged" mediums, and the fact that "ALLEN'S LISTS" come in ahead of them all is pretty good evidence that they are just what advertisers want. Now I have been advertising for the past fourteen years, and have always taken some method of finding out the papers which were profitable, and culling out those that I found by experience were of little value, and as a result, my advertising has nearly always proved profitable. What I regret most, is that all the mediums I have used have not brought the returns that "ALLEN'S LISTS" do. Had they all been as valuable I might have been a millionaire by this time. To sum up the whole matter in a few words, I will say that after testing nearly all of the very best advertising mediums in the United States, I have found that "ALLEN'S LISTS" bring more cash orders in proportion to the cost, than any other advertising mediums I am using or ever have used. If I had but \$1,000 to expend in advertising, I would expend it all in 'ALLEN'S LISTS.'"

Very respectfully,

"FRANK FINCH."

The Statement.

ONE AND THE SAME ADVERTISEMENT, OCCUPYING EXACTLY THE SAME SPACE, WAS USED
FOR ALL INSERTIONS IN ALL THE PAPERS AND PERIODICALS.

The "cost of advertising" shows the amount paid each paper and periodical by Mr. Finch.

THE MEANS OF IDENTIFYING THE RETURNS FROM EACH PERIODICAL WERE VERY
NEARLY PERFECT.

	Number of Insertions.	Cost of Advertising.	Number of Orders Received at 25 Cents Each.	Cost of Procuring Each Order.
"ALLEN'S LISTS," AUGUSTA, ME	2	\$606.06	7,535	8 Cents.
MODERN PRISCILLA, LYNN, MASS	1	8.72	59	8 3/4 Cents.
LADIES' WORLD, NEW YORK, N. Y.	2	104.67	1,133	9 3/4 "
THE LADIES' HOME JOURNAL, PHILADELPHIA, PA.	1	119.70	1,260	10 3/4 "
THE YOUTH'S COMPANION, BOSTON, MASS.	5	714.75	6,961	10 3/4 "
HOUSEWIFE, NEW YORK, N. Y.	2	75.00	663	11 1/2 "
FARM AND FIRESIDE, } LADIES HOME COMPANION, } SPRINGFIELD, OHIO.	2	239.40	2,067	11 1/2 "

The BEST of the afternoon DAILY NEWSPAPERS
published in New York City.

BRIGHT-NEWSY-ABLE-BRILLIANT.

PUBLICATION OFFICE,
126 FULTON STREET, NEW YORK.

N. W. AYER & SON, Advertising Agents, Philadelphia.

THE readers of POPULAR GARDENING embrace substantial common-sense people who own improved homes, and are constantly on the alert to add to the comforts and pleasures of life. This is shown by the fact that they gather about them flowers, vines, fruits, lawns, etc. They are quite evenly divided among people of all occupa-

tions in town and country. The idea that this is a special class journal is a mistake; it is no more so than are the luxuries named peculiar to any one class.

RATES FOR ADVERTISING SPACE:

Forty cents per agate line, each insertion. 50 lines, \$10.00; 100 lines, \$35.00; 250 lines, \$81.00; 500 lines, \$145.00; 1,000 lines, \$250.00; one-half page at one time, \$78.00; full page at one time, \$130.00. Designated page position (first page accepted), guaranteed only for 25 per cent. advance on above terms, and for 30 lines or more per issue. No reading notices. No advertisement inserted for less than \$1.50 net per month. Advertisers buying space at the 100 line and upward rates are allowed one year from the date of order in which to use the same.

Advertising rates very Reasonable.

Subscriptions and advertisements payable in advance.

N. W. AYER & SON, Advertising Agents, Philadelphia.

Table Talk

PHILADELPHIA, PA.

Seeks to do business with only those whom it is in a position to benefit. It prefers not to accept the money of others. It believes that advertising mediums should be chosen with the same intelligence as is shown in selecting the class of people upon whom solicitors are to call for orders. If the people to whom TABLE TALK "talks" every month are not the kind which certain advertisers wish to reach, we frankly tell them. This may not seem shrewd business policy, but we are willing to take our chances of it paying in the long run.

TABLE TALK circulates mainly among wide-awake and progressive families. Its subscribers are deeply interested in all that pertains to the household and particularly to the Table, and wish to keep posted on everything new that pertains to these subjects. It is therefore apparent that advertisements of all kinds of food, products, kitchen utensils, china, glass and silverware, cutlery, table appurtenances, etc., in fact, everything that pertains to the household, are appropriate for TABLE TALK, and must pay the advertiser.

Weekly. Eight pages. Two dollars per year.

British American Citizen

BOSTON, MASSACHUSETTS.

Circulation larger than four of the Dailies, and three-fourths of the Weeklies of Boston.

Covers a field left untouched by other papers—the English, Scotch, Canadian, Welch, etc.

A Blackmailing Lie.

A much-vaunted newspaper directory, assuming to represent facts in the interest of advertisers, rates the Jonesboro and Johnson City (Tennessee) HERALD AND TRIBUNE at 500 circulation. At the time this is discovered we are wetting down 62 quires of paper, carrying seven hands on the pay-roll, printing by steam power, and setting from 60,000 to 70,000 ems for each issue. The motive for this shameless libel may be found in our refusal to advertise in the blackmailer's directory. CHAS. H. DARLINGTON, Mgr.

The Youghiogeny Times

The North American Review

HIGH WATER MARK, 76,000 COPIES.

THE REVIEW has a wide circulation in every State in the Union among those whom it is most desirable for advertisers to reach. It goes every month to the homes of the best reading people in the country, those who wish to know what the most eminent writers and thinkers of the age have to say upon the great topics and practical interests of the day. It is not intended for any special class, but, as its pages are open to the advocates of all sides of important public questions, it is read by men and women of all shades of opinion—politics, religion, etc.—numbering its readers by thousands, among statesmen, lawyers, the clergy, medical men, bankers, merchants and the financial class generally; in short, among all who have money to spend, and are ready to spend it in the purchase of whatever ministers to the comfort and convenience of life.

THE REVIEW is also a favorite periodical among the most intelligent women in the country, every number containing articles specially appropriate for the class of subscribers.

No American periodical offers a better opportunity for effective and profitable advertising.

CITY OF PHILADELPHIA, ss.:

Personally appeared before me, the subscriber, John F. Pole, Magistrate of Court No. 10, of the said city, Harrington Fitzgerald, who being duly sworn according to law, does depose and say: that he is the Manager of THE PHILADELPHIA ITEM; that to the best of his knowledge and belief the above table correctly shows the circulation of THE ITEM from January 1st, 1890, to June 30th, 1890, inclusive, and further deponent saith not.

HARRINGTON FITZGERALD.

Sworn and subscribed before me this 28th day of July, A. D. 1890.

JOHN F. POLE, Magistrate of Court No. 10.

Another
Magnificent Quadruple.

THE ITEM

Receives Word from R. Hoe & Co., New York, that its
New Sixty-Five Thousand Dollar (\$65,000)
Mammoth Press is Ready. A Superb and
Unrivalled Piece of Mechanism.

THE ITEM IS ALWAYS PROUDLY AT THE HEAD IN ALL MATTERS OF PROGRESS, NEVER MIND WHAT THE PHASE IS IN JOURNALISM.

Last year, although we had just put in a new Hoe Press, capable of printing Fifty Thousand (50,000) copies per hour, our circulation grew so rapidly that we were compelled to get R. HOE & CO., to build for us another new and greatly improved Quadruple Machine, capable of printing, folding and counting One Hundred Thousand (100,000) copies per hour.

EVEN THE GREAT CAPACITY OF THESE SPLENDID PRESSES PROVED INADEQUATE, AND THE ITEM WAS AGAIN COMPELLED TO ORDER ANOTHER QUADRUPLE.

The new Mammoth Press will be the most magnificent piece of machinery ever invented for the Newspaper business, and will have the greatest capacity yet known. It will print, paste, count and fold, and count in fifty bundles, One Hundred and Sixteen Thousand (116,000) copies every hour.

THIS SUPERB PIECE OF MECHANISM WILL CONSIST OF OVER TEN THOUSAND (10,000) SEPARATE PIECES, AND WILL WEIGH FIFTY-SIX TONS, AND WILL BE THE MOST ORIGINAL AND UNIQUE PRESS EVER BUILT, AND THE ONLY ONE IN THE WORLD.

R. HOE & CO., have notified us that **THE ITEM'S** new Press will soon be ready. When it is in working order, our Three Presses will have a combined capacity of **Two Hundred and Sixty-six Thousand (266,000) per hour**, and many who are not now able to receive **THE ITEM** in time, owing to our large and constantly increasing circulation, both **Daily, Sunday and Weekly**, will then be gratified, as our **Twenty-four Rapid Wholesale Delivery Wagons** will be able to serve their routes much earlier in Philadelphia and surrounding Towns.

THE "ITEM" ANNEX.

[From the PUBLIC LEDGER.]

Colonel FITZGERALD and his four sons are pushing **THE PHILADELPHIA ITEM** beyond the confines of its old quarters at Seventh and Jayne streets, and are now undertaking to accommodate the overplus of business by erecting a large addition in the rear of the present building on Jayne street.

The pressure recently, it is said, has actually necessitated the procurement of more room and increased facilities. To this end a long lease was recently secured on the Whiteley estate lot back of **THE ITEM** building, which was not purchasable, and now workmen are engaged tearing away the old structure on it, and making ready to put up the new and extensive addition.

The plans provide for a large, roomy and well-lighted three-story brick building, with granite trimmings, having a fronting of 24 feet on the north side of Jayne street, and extending 126 feet in depth parallel with Seventh street. Back of the rear wall space enough will be left for a huge light well.

The basement will be excavated to a depth of 12 feet the entire width of the building for a distance of 40 feet back from Jayne street. The first story will be 15 feet high to the ceiling, second story 13 feet high, and the third story 13 feet high. The Thorne patent skylight will supply the light from the roof.

In the basement the publishers propose to put two 60-horse power boilers of the I. P. Morris Co. construction, together with a capacious stack and all the other appurtenances of a first-class boiler room. Instead of the brick arches they also propose to introduce the corrugated iron ceiling, which being attached to the flue, will, it is believed, not only improve the ventilation but minimize the danger of fire.

On the first floor the new \$65,000 R. Hoe & Co. great Quadruple press is to go, and in this department, naturally, the firm is taking great interest. The press has the new arrangement of plates, and economizes all the space on the type-cylinders, and is guaranteed to print 116,000 papers every hour.

The second floor is to be utilized mainly for the purposes of the Distribution Department.

The third floor will be fitted up as an extra Composition Room, with Stereotype Foundry in the rear.

Electricity as well as gas and other modern conveniences are to be introduced throughout the building. The cost of the new building and its fixtures, with the press, boilers, engines, etc., it is estimated, will be over One Hundred Thousand (\$100,000) Dollars.

**S. C. BECKWITH, Foreign Agent,
48 Tribune Building, New York and 509 The Rookery, Chicago.**

400 & 402 N. 3d St., ST. LOUIS, MO.

ESTABLISHED IN 1821.

The Christian Register

IS A REPRESENTATIVE UNITARIAN PAPER.

For the best class of advertisements (and no other are admitted to its columns) the quality of its circulation is unsurpassed. It has a reading and buying constituency.

Its weekly edition is between **8,000** and **10,000** copies, and its Subscription Books are at all times open to the inspection of present or would-be-advertisers.

It claims the credit of being, at least one of, the best printed of the Religious Weeklies, and its advertisements are particularly well presented.

A sample copy sent you upon application to

CHRISTIAN REGISTER ASSOCIATION, 141 Franklin St., BOSTON, MASS.

A busy and popular four-page, twenty-eight column newspaper, devoted to the interests and general welfare of the industrious and well-to-do people who populate this section.

Terms, in advance, \$1.00 per annum.

“LOCALITY” NOT A BAR.

ADVERTISERS have a tendency not to advertise in some one given journal on the plea that it is “merely a local publication,” and can do nothing for advertisers in other than the local market.

The American Architect and Building News

Is not in any sense “merely a local publication;” it is on the contrary “National” in the fullest sense of the word; but even if it were local, the absurdity of the plea in its case, is shown by the fact that in Boston fifty architects’ offices alone did during the year 1888 work in the following towns’ outside of the State of Massachusetts.

MINNESOTA, NORTH DAKOTA, SOUTH DAKOTA, N. W. WISCONSIN.

A COMPACT, BUT VERY LARGE AND VERY RICH FIELD FOR ADVERTISING, COVERED WITH SINGULAR DENSENESS AND COMPLETENESS IN PROPORTION TO ITS POPULATION.

THE COUNTIES COVERED BY THESE LISTS, EMBRACED IN THE ABOVE TERRITORY, CONTAIN AT LEAST 85 PER CENT. OF THE WHOLE POPULATION, AND CANNOT BE REACHED BY ANY OTHER LISTS.

ADVERTISING RATES.

Price, per Agate line, each insertion:

Northwestern Newspaper Union,	\$1.25
Dakota Newspaper Union,50

The two lists, \$1.60 per line.

Special rates made, upon application, for yearly contracts or large advertisements.

Reading notices, set in Minion type, 50 per cent. per line more than above rates.

No advertisement counted less than two lines. No reading notice counted as less than one and one-half lines of Minion.

Fourteen lines of Agate type make one inch. About nine words, without display, make a line.

Ten lines of Minion type make one inch. About seven words of Minion type make a line.

Advertisements begin with each Monday, and copy must be in hand by the previous Thursday

But one electrotype is needed for the two lists. This must not be over thirteen ems wide.

Advertisers are invited to carefully examine our lists as printed in the weekly record papers at each of our publication offices, and when practicable we prefer to have advertisers check each and every paper from the files in our New York office. These files contain from 90 to 95 per cent. of full printed papers, and are a guarantee of the thoroughness of our work.

For special rates, apply to

A. Frank Richardson,

EASTERN REPRESENTATIVE,

317 Chamber of Commerce,
CHICAGO.

13, 14, & 15 Tribune Building,
NEW YORK.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

ST. LOUIS "STAR-SAYINGS"

DAILY AND SUNDAY.

8,137,850 IN TEN MONTHS!

Total for 304 days, **8,137,850.**

Daily average, **29,760.**

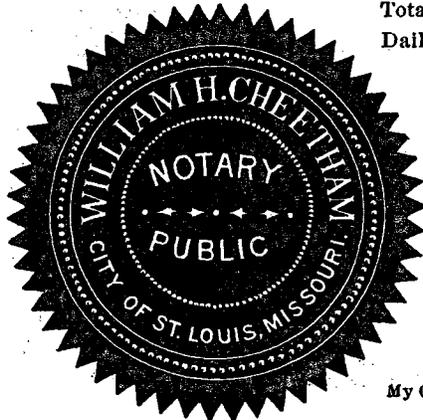

I hereby certify the above to be true and correct.

CHAS. A. GITCHELL,
Business Manager.

Sworn to and subscribed before me this, the 7th day of May, 1890.

WM. H. CHEETHAM,
Notary Public, City of St. Louis.

My Commission expires December 13, 1893.

A. FRANK RICHARDSON, Eastern Representative, 13 & 14 Tribune Building, New York.

The Representative Mid-Continent Journal. Always in the Lead.

The Kansas City Times

KANSAS CITY, MISSOURI

HAS STARTED AN AFTERNOON EDITION KNOWN AS

The Evening Times

PUBLISHED BY THE KANSAS CITY TIMES CO.

FIRST ISSUE OCTOBER 9TH, 1890.—CIRCULATION 30,000.

THE EVENING TIMES HAS MET WITH A CORDIAL RECEPTION AND IS A PHENOMENAL SUCCESS FROM THE START.

Twenty-nine thousand three hundred (29,300) copies were printed and sold the first issue, and these figures will show a gradual and substantial rise from this time on.

THE NEW CANDIDATE FOR POPULAR SUPPORT HAS BEEN NAMED THE "BELLE OF THE EVENING," AND HAS FULFILLED ALL THE EXPECTATIONS OF THE READING PUBLIC.

It has given Kansas City what it has long needed—a bright, clean, modern eight-page Afternoon Newspaper.

KANSAS CITY TIMES (Morning),	19,666	KANSAS CITY TIMES (Sunday),	32,000
KANSAS CITY TIMES (Evening),	29,300	KANSAS CITY TIMES (Weekly)	45,000

Combined Circulation,	125,966
-----------------------	---------

A MEDIUM OF SURPASSING VALUE FOR ADVERTISERS. THE MOST WIDELY CIRCULATED NEWSPAPER BETWEEN CHICAGO AND SAN FRANCISCO.

MORRISON MUNFORD, Pres. and Gen. Mgr. CHAS. E. HASBROOK, Sec'y and Bus. Mgr.

S. C. BECKWITH, Sole Agent Foreign Advertising, 48 TRIBUNE BUILDING, NEW YORK.
509 "THE ROOKERY," CHICAGO.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

The Fort Worth Gazette

DAILY, SUNDAY AND WEEKLY,

FOR THIS CLASS OF BUSINESS IS A MEDIUM OF SURPASSING VALUE, REACHING AS IT DOES THE WELL-TO-DO AND INTELLIGENT MASSES.

HIGH PRAISE.—One of the very leading advertisers in the land writes: "We congratulate you upon the admirable location you occupy in Texas, and the thorough manner in which you cover the field."

MANY APPLICATIONS.—Another says: "We are in receipt of many applications for catalogues, with the information that they saw our advertisement in the FORT WORTH GAZETTE."

LARGEST CIRCULATION, Daily and Weekly, of any Newspaper in Texas, and THE LOWEST RATES. The expression is unanimous that THE GAZETTE, in addition to being the most widely read newspaper in Texas (present population over 2,000,000 people), is also the fairest, the ablest and the best.

THE GAZETTE is the leading newspaper of Texas. Located at Fort Worth, the greatest railroad center of the South, St. Louis alone excepted, it is afforded distributing facilities far superior to those of any other Daily in the State, and it has the LARGEST BONA-FIDE CIRCULATION OF ANY TEXAS NEWSPAPER. It is the only Daily that circulates in the Great Pan Handle Country on day of issue, or at all to any extent. Sample copies on application. Soliciting your orders.

S. C. BECKWITH, Sole Eastern Agent, 48 TRIBUNE BUILDING, NEW YORK, 509 "THE ROOKERY," CHICAGO.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

Leading Afternoon Paper of the South.

New Orleans States

DAILY, 11,000. SUNDAY, 13,000. WEEKLY, 7,500.

J. PINCKNEY SMITH, Manager.

ANY ADVERTISER WHO DESIRES TO COVER THE CITY OF NEW ORLEANS CAN DO SO MORE THOROUGHLY AND AT LESS COST BY USING THE DAILY STATES THAN BY ANY OTHER MEANS.

It prints two editions Daily, and the paper goes out by every steamer and railroad line leaving the city.

DAILY STATES PUBLISHING CO., New Orleans, La.

S. C. BECKWITH, SOLE AGENT FOREIGN ADVERTISING,
509 "THE ROOKERY," CHICAGO. 48 TRIBUNE BUILDING, NEW YORK.
