INTRODUCTION.

The number of Newspapers and Periodicals enumerated in this edition of the AMERICAN NEWSPAPER ANNUAL is 21,955, an increase of 730 over the number given in the issue for 1896.

This notable increase in the number of Newspapers and Periodicals in the United States and Canada may be accepted as indicating that the worst of the depression in this line of industry has been passed and that we may reasonably look for an improvement in the near future. The instances of suspension and consolidation of established papers have been much fewer during the past year than in 1895 and there has also been an improvement in the character and appearance of the new ventures over those of the last year or two. The increase above noted is somewhat larger than that shown in the ANNUAL for 1894, viz.: 569; which was a considerable falling off from the year previous and was the first indication of adverse conditions. In the edition of 1895 the increase was but 368, while in that for 1896 it had fallen to 83. Two causes have, however, tended to add to the normal increase for the past year; first, the Presidential Election, which always gives birth to a considerable number of papers, many of which do not survive the campaign; and, secondly, the publication of this edition of the ANNUAL having been delayed in order that it might contain the detailed vote of that election it records the growth of a somewhat longer period than customary. Allowing for both these circumstances, however, there are enough indications of an improvement in the newspaper world to give encouragement.

About the usual number of new papers have been started during the year. Care has been taken to exclude such as were manifestly only for campaign purposes. Experience teaches also that it is not wise to insert every paper that comes to hand in its first or early number; for, while the exclusion may be unfortunate in a few instances, much dead matter is thereby kept out of the book; not a few of these ventures never reaching beyond their first number, and very many failing to maintain an existence of over a few weeks.

The semi-weekly still grows in favor, the increase in the number in this issue is 71 against 45 in the previous one. The number of semi-weeklies (473), however, does not include the "weekly in two parts."

The monthlies which have been decreasing in number for two or three years are again on the advance. The 1895 edition of the ANNUAL noted a loss of 102—that of 1896, 88; this edition shows an increase of 53.

An analysis of the Tabulated Statement on page 8 shows that the New England section suffers a loss of 7. The gains in Connecticut, Maine, New Hampshire and Vermont amount to 10, while Massachusetts shows a decrease of 15, and Rhode Island 2. New York State gains 27. The Middle States, as a whole, gain 11. Pennsylvania has 23 more than last year and Delaware 4. Maryland and New Jersey lose one and two respectively and the Dis-

tract of Columbia suffers a loss of 13. The South gains 280; every State participating in the increase: Georgia contributing 41; Texas, 39; North Carolina, 35; Alabama, 32; Kentucky, 24; Tennessee, 22; Mississippi, 19; West Virginia, 18; Louisiana, 16; Arkansas, 13; Florida, 9, and Virginia, 1. The Western States gain 431; 76 of these, however, belong to Utah, transferred from the Territorial column. The only States in this section which show losses are Nebraska with 32; Kansas, 17 (this State has lost 82 in three years); Oregon, 6; South Dakota, 4; Washington, 2, and Montana, 1. Of those which show gains, Missouri heads the list with 70, which places her in the list of States having over 1,000 papers; Illinois follows with 63, Michigan 56, Minnesota 45, California and Indiana 34 each, Iowa and Wisconsin 29 each, Ohio 23, Colorado 18, Idaho 7, North Dakota 5, Wyoming 3 and Nevada 1.

The Territories, allowing for Utah now in the State column, show a gain of 28, of which the Indian Territory furnishes 15 and Arizona 7. Canada has 998 papers, an increase of 28 over last year.

The States having more than 1,000 papers are, New York, 1,976; Illinois, 1,720; Pennsylvania, 1,469; Ohio, 1,165, Iowa, 1,139 and Missouri, 1,018. Those having between 500 and 1,000 are, Indiana, 833; Michigan, 792; Texas, 790; Massachusetts, 712; Kansas, 698; California, 681; Wisconsin, 641; Nebraska, 617 and Minnesota, 615.

As will be seen in the Summary and Comparative Statement (p. 9), the total number of counties in the United States is 2,833, as in the last edition, a gain of one in South Carolina being offset by the loss of one in Michigan, while the number of counties in the United States and Canada in which newspapers are published has increased 9. The number of towns in which papers are published is 8,873, an increase of 284, the largest increase since 1890. The whole number of county seats is 2,695; a gain of 55. There is shown a gain of 80 in the number of dailies. The tri-weeklies have lost 4, while the semi-weeklies have gained 71. The number of weeklies recorded is 507 larger than last year; fortnightlies have gained 8, semi-monthlies have gained 1, the monthlies 53, the bi-monthlies 9 and the quarterlies 5. The number of miscellaneous issues remains as last year.

In addition to the number of publications embraced in the following pages there are several hundred others which, in accordance with our custom, we do not insert. Among these may be mentioned local church papers, private and high school magazines, and a number of others of no value to the general advertiser or the general public—for whose benefit this work is primarily designed.

POPULATION.—Population is taken mainly from the official reports of the United States census of 1890 and the Canadian census of 1891. Kansas, Massachusetts, Minnesota, New Jersey, Rhode Island, South Dakota, Utah and Wisconsin took census in 1895 and the populations in those States are from the official reports. Iowa took census in 1895, but we have been unable to obtain a copy of the report owing to a delay in the State printing office. Where publishers have furnished us with figures we have used them, marking them "estimated," as customary. Population in Michigan is from the State census of 1894.

STATE AND COUNTY HEADINGS.—The State and County headings have been carefully revised and brought up to the present time. The State headings especially are exceedingly interesting and instructive reading, giving concise and valuable statements of the wonderful resources and growth of the country. The county headings are of great value to advertisers of specialties, who, by carefully examining them can readily decide which counties are likely to prove remunerative territory, and thus confine their expenditures within limits which may be expected to yield the greatest return for their outlay.

TOWN HEADINGS.—These headings have also been carefully revised. The location of the county in the State is given by a system of initial letters, which enables the reader to find quickly any county on the map, or to determine its location, no matter what may be the contour of a State, or however numerous may be its counties. The distance of the town, and in most cases the direction from some prominent point is given; its means of communication by railroad, water or stage; whether it is a telegraph and express station or not, and if not, what the nearest telegraph or express point is. If a place has a bank the word "Bank" appears, if more than one, "Banks," if there is no bank in the place the nearest, or most accessible, or the usual banking town for that point is given. Then follows the description of the place itself, setting forth as fully as possible its advantages of location, the nature of the surrounding district, with its productions, agricultural or otherwise, the leading manufactures, and educational and other public institutions.

SUB-EDITIONS.—As in previous issues we have endeavored to distinguish between independent and distinct publications and those which are simply reprints of some other paper with but little and often with no change whatever beyond the name. All papers so issued, as far as it was possible to trace them, have been entered in the Catalogue under the name of the leading paper, and, under the place of apparent publication, the name of the sub-edition is given with a reference to the paper issuing it. In the County List these sub-editions do not appear at all; the main paper has an italic note referring to the Catalogue for information respecting its sub-edition or editions.

It may be well to add that it is very difficult at times to determine positively this question of similarity of issue. Publishers of such papers generally are not willing to give information nor to send sample copies, and it is possible that in some instances an error may have been made either in quoting a paper as a sub-edition of another, when it would be fairly entitled to an independent entry if all the facts were known, or in giving a paper an independent standing when it is not entitled to it. Every effort has, however, been made to guard against either of these possibilities.

NAMES OF EDITORS AND PUBLISHERS.—No labor has been spared in the effort to have this department of the work as accurate as possible at the time of going to press; the continual changes of ownership and places of publication, however, necessarily preclude absolute accuracy.

POLITICAL STATISTICS.—In accordance with our established custom the political statistics are those of the latest Presidential election.*

CIRCULATION.

(See also article on page 16.)

Circulations for which affidavits have been furnished are set in **bold-face** type throughout the book. Detailed statements are designated by a six-pointed star (*). A double dagger (‡) indicates the publisher's claim unsupported by either affidavit or detailed statement. Our own estimates are set in Roman figures and unmarked.

While we would greatly prefer a detailed statement of issues for a whole year, yet records for six or eight months, will, if properly signed by the publisher or some responsible person for him, ordinarily entitle the paper to a rating in accordance therewith. We say *ordinarily*, because we do not believe that the rendering of such a statement is incontestible proof of its correctness, and there are instances in which such statements, even when

*We are indebted to the publisher of the *Chicago News Almanac* for this information.

supported by affidavits, could not be accepted in the face of positive information to the contrary; but we believe that such instances are comparatively few in number, and in the large majority of cases a detailed statement covering a period of several months, properly signed, is *prima facie* evidence of its reliability.

It frequently happens that the publishers when sending in their orders and copy for advertisements in the AMERICAN NEWSPAPER ANNUAL inclose therewith a statement of circulation, generally accompanied by a request that the ratings of their papers in the ANNUAL may be made to agree with the figures thus given. This will not be done. Circulation ratings are fixed before the solicitation of advertisements begins, from reports made out in proper form, and signed by publishers, or, in the event of failure to receive such reports, from any believed-to-be-authentic information in the Editorial Office.

Although the greater number of ratings are determined when copy is being made in July and August we are always willing to revise the figures as late as Sept. 30th, provided acceptable statements are sent to the editor of the ANNUAL, entirely apart from any consideration of the subject of advertising therein, with which he has nothing to do. Advertisements, however, being received up to the time of going to press, not unfrequently contain much later information than can possibly be given in the Catalogue. This will explain, in many cases, what would otherwise appear to be discrepancies between the statements made in the advertisements and the ratings given the papers in the various lists.

Circulation is not given in the following instances—where the paper has been established during the current year, or is entered for the first time in the ANNUAL; where the information received is unsatisfactory, or the reports are conflicting; where publishers have requested omission, in which case the word "Decline" is printed in the circulation column, and where the publication is devoted exclusively, or nearly so, to advertising the business or interests of the individual, business house or corporation issuing it. Papers of this latter class are designated in the Catalogue as "issued for advertising purposes," and in the County and Class Lists by the letters "Adv." in the circulation column.

We aim at strict impartiality in this important part of our work, and desiring always to avoid injustice to publishers, in our efforts to procure accurate and trustworthy information for advertisers, we will gladly receive communications from any who may consider themselves unfairly dealt with in any statement in this volume, and will cheerfully correct in future editions any mistakes made in the present one, if furnished with satisfactory evidence of error.

Papers which are believed to decline general advertising are designated in the Catalogue by the words "No Advts." in the circulation column, and are omitted entirely from the County and Class Lists.

NEWSPAPER ADVERTISEMENTS.—An alphabetical index to the advertisements will be found commencing with page 1499. A careful examination of these will result in the acquisition of a mass of valuable information which, for the sake of compactness and facility of reference, must necessarily be excluded from the Catalogue itself. We invite attention to the article on this subject on page 1362.

THE REVISION of this book for the edition of 1898 will be commenced immediately, and newspaper publishers will confer a favor by notifying us of the establishment, suspension or change of any papers within their knowledge, or by calling our attention to any inaccuracies.

AMERICAN NEWSPAPERS

GIVING THE PLACES IN WHICH THEY ARE PUBLISHED IN THE UNITED STATES, TERRITORIES, AND DOMINION OF CANADA, ARRANGED ALPHABETICALLY IN STATES; A DESCRIPTION OF EACH PLACE, ITS LOCATION, RAILROAD AND OTHER MEANS OF COMMUNICATION, TELEGRAPH AND EXPRESS ROUTES AND BANKING FACILITIES; THE COUNTIES IN WHICH THE PLACES ARE SITUATED, WITH THE LOCATION AND POPULATION OF EACH; AND, IN CONNECTION WITH THE PAPERS, THE FREQUENCY OF ISSUE, POLITICS, DENOMINATION OR GENERAL CHARACTER, YEAR OF ESTABLISHMENT, SIZE, CIRCULATION, SUBSCRIPTION PRICE AND NAMES OF EDITORS AND PUBLISHERS.

Populations in the United States, unmarked, are from the United States Census of 1890, or State Census of 1895, as indicated in the foot notes, except in Michigan, where they are from the State Census of 1894. Those marked with an asterisk (*) are estimated. Canadian populations are mainly from the Census of 1891.

Circulations from which affidavits have been furnished, are printed in **bold-face** figures; detailed statements are designated by a six-pointed star (*); when neither affidavit nor detailed statement is furnished, they are designated by a double-dagger (‡); those unmarked are estimated.

Where statement of circulation is omitted, we have been unable to obtain any satisfactory information, or the paper was established during the current year, or is entered for the first time in the ANNUAL, or else is issued for advertising purposes. The word "decline" indicates that the publishers have declined or objected to furnish any statement for publication.

County seats are indicated by a dagger(†).

CIRCULATION

The form sent to every publisher when the revision of the ANNUAL commences contains the following:

By CIRCULATION we do not mean the number of readers, on a basis of five (or any other number of) readers to each copy of the paper; nor do we mean sheets, nor impressions. The legitimate circulation of a newspaper or a periodical is its regular, necessary issue, sent to names on its honestly compiled mailing list or subscription book; sold over the counter, or through news agents or news boys. Returned and unused papers should not be included in the count.

When we sent out our revision forms for this edition, we enclosed with each the following circular:

We wish to call your attention to the remarks on the reverse of the accompanying revision form, and ask a careful reading of them.

Our understanding of the term, "CIRCULATION" is embodied in the first paragraph (quoted above). The word "AVERAGE" is liable to be misinterpreted. It is the custom of some publishers to issue occasional large extra editions; to add these and the regular editions together for a given time, and divide the total by the number of days, weeks or months, as the case may be, contained within that period. This is not what we desire. By "AVERAGE CIRCULATION" we mean that number of complete copies which *usually* fills the needs of the mailing lists, and the demand either in or out of the office.

Averages made up by including one or more large editions are not fair averages; they are admissible only when made from a uniform, a slightly fluctuating, or a steadily growing circulation.

Statements in detail enable us to see to what extent special or extra editions figure in the issues of a given period, and when such statements are furnished, publishers may rely on being rated fairly, and they will have no cause of complaint against us, if, in the absence of such reports, our ratings are inadequate.

A form of daily and weekly detailed statement is herewith enclosed.

SWORN DETAILED STATEMENTS covering a period of not less than six months preceding date of report we consider the strongest kind of statements that can be made. All such will be printed in **bold face type**, and marked with a star (*).

We earnestly ask those publishers who desire that the vexed question of circulation shall be placed on a more satisfactory footing to second our efforts in that direction by making their own reports in such a shape that they may be unimpeachable.

In response to the above suggestions we received 525 sworn detailed statements, 441 detailed statements not sworn to, making a total of 966. In addition to these there were 969 sworn reports without statements in detail, making a total of 1,935 verified circulation reports. The number of sworn statements with and without detail was 1,494. There were a considerable number of detailed statements which are not included in the above count; not filling our requirements in length of time or fulness of detail they were not accepted. We consider this a very satisfactory result on first application and trust that when publishers are fully awake to the importance of these verified reports and the prominence which is given them in the ANNUAL the number will be largely increased.

| CHICAGO †, pop. 1,099,850; COOK Co. (N.E.), pop. 1,191,922. On Lake Mich. and Chicago R. 24 railroads from all sections of the country center here. Tel. Exp. Banks. According to the Census of 1890 it is the second city in population of the United States, and is the leading commercial city of the West. A port of entry, and center of shipment of western produce to the East. Its trade in grain, provisions, live stock and lumber is the largest of any city in the world. The hog and beef killing and packing industries are very large, and the manufactures are numerous and important, including extensive steel ship building works, brewing and distilling, iron, steel, wood, leather, brick, chemicals, shoes, cigars and tobacco and other industries. Chicago has a series of handsome parks, many magnificent public and commercial buildings, the University of Chicago, various theological seminaries, and many other institutions. | | | | | |

| MINNEAPOLIS †, pop. 192,833; HENNEPIN CO. (S.E.C.), pop. 217,798. On Mississippi R., at Falls of St. Anthony, 10 m. W. by N. of St. Paul. A railroad center, having 5 trunk lines from Chicago, and 7 other lines. Tel. Exp. Banks. The river here falls about 80 feet, furnishing immense water power. The flour and lumber manufactures are of the highest importance, there being 19 large lumber and 26 flour mills, of which one is the largest in the world. There are numerous other manufactures. The shipping trade is very extensive, the city being claimed to be the greatest wheat market in the world. Here is the University of Minnesota (non-sectarian and open to both sexes), Augsburg Theological Seminary (Lutheran), etc. The Falls of St. Anthony are in the centre of the city. In the vicinity are numerous lakes. | | | | | | | | | |

| ST. LOUIS, pop. 451,770. On Mississippi R., abt. 20 m. bel. mouth of Missouri. Has 20 lines of railroad, comprising nearly all the trunk lines running West, and several starting from this point. Tel. Exp. Banks. One of the leading cities of the United States, with an immense distributing and manufacturing business. Its principal articles of manufacture include tobacco, flour, beer, plate glass chairs, carriages, saddles, agricultural implements, stoves, bricks, iron goods, boots and shoes, white lead, linseed and cottonseed oil. The commerce in coal, grain, cotton, and hog products is very extensive. Live stock is very largely handled, and many other articles are extensively dealt in. St. Louis has numerous important institutions, including Washington and St. Louis Universities, Shaw Botanical Gardens, etc., while one of its most striking features is the grand bridge which crosses the Mississippi at this point. | | | | | |

Banks. A port of entry, and an important manufacturing point. The falls of the river furnish abundant water power, which is largely utilized. Rochester is one of the great flour producing cities of the world. It has also extensive clothing and boot and shoe manufactures. Carriages and iron bridges are extensively produced, and many other industries are largely carried on. The nursery interest of Rochester is the largest in the United States, and the trade in garden and farm seeds is very heavy. There is an extensive lake commerce with foreign ports, and a larger domestic trade. Here are Rochester University (Baptist), Rochester Theological Seminary (Baptist), the Warner Observatory, the Ward Geological Museum and other institutions. | | | | | |

| PITTSBURGH †, pop. 238,617; ALLEGHENY Co. (W.S.W.), pop. 551,959. On Ohio R., at junc. of Allegheny and Monongahela Rs. 354 m. W. by N. of Philadelphia. Penna. & Bait. & Ohio; Pittsb. & Lake E.; and several other railroads. Tel. Exp. Banks. The second city of Pennsylvania, and the leading iron and steel manufacturing city in America. Its pig iron product is said to be one-fourth, and its steel product more than one-half of the total product of the United States. The glass manufacture is also very important, the product being claimed to be about one-half of the total produced in this country. Coke is very largely pro- duced, and there are numerous smaller manufactures. The abundance of natural gas fuel gives Pittsburgh special advantages in manufacturing. The commerce of this city is also very considerable; oil, coal, lumber, iron, steel, and glass products, etc., being largely distrib- uted. Here are the Western University of Pennsylvania, Pittsburgh Female College (Metho- dist), a handsome City Hall, a United States Arsenal, etc. | | | | | |
