The AMERICAN NEWSPAPER DIRECTORY for 1874 exhibits the names of 7,784 Newspapers, issued in the United States and Dominion of Canada; an increase of 493 over last year, 862 over the count for 1872, and 1,276 over that of 1871.

The new newspaper enterprises embarked within the year just passed have averaged four a day, or twenty-eight each week; but a large number have failed to obtain a foot-hold, while a considerable number of the older ones have been consolidated or have died, thus keeping down the actual increase to the figures given.

The increase has been divided among the various States as follows: Alabama, 19; Arkansas, 7; California, 19; Connecticut, 8; Delaware, 2; Florida, 7; Georgia, 7; Illinois, 44; Kansas, 16; Kentucky, 14; Maine, 2; Maryland, 7; Massachusetts, 11; Michigan, 33; Minnesota, 6; Mississippi, 7; Missouri, 21; Nebraska, 22; Nevada, 3; New Hampshire, 4; New Jersey, 9; New York, 97; North Carolina, 15; Ohio, 41; Oregon, 6; Pennsylvania, 21; Rhode Island, 2; Tennessee, 9; Vermont, 5; Virginia, 1; West Virginia, 6; Wisconsin, 12; Territories, 29; Dominion of Canada, 29.

In other States there has been a decrease in the number of periodicals issued, as follows: District of Columbia, 9; Indiana, 21; Louisiana, 15; South Carolina, 2; Texas, 1. The State of Iowa issues 324, exactly the same number as last year.

We find 29 daily, 403 weekly, 10 semi-monthly, 70 monthly, and 1 quarterly more than in 1873; while tri-weeklies and semi-weeklies have fallen behind; a similar state of affairs to that chronicled last year, showing that these sorts of papers are not appreciated by the public.

The circulations, as given in the volume, will be found generally smaller than in previous issues, and possibly more nearly what they should be. Not claiming any right to ask proof of circulation where no claim is made, the Editor of the DIRECTORY has disposed of the matter in accordance with a plan set forth at some length in another place. In no less than two instances proprietors of prominent journals have furnished affidavits at figures which were notoriously false. These affidavits, when found to be false, were

disregarded, and should other such be furnished for forthcoming editions, the names of the parties giving them will not be kept secret.

Every publisher has a right to order the clause "objects to stating circulation" to be inserted in the place of figures. This clause cuts off all inquiry, but if any figures are furnished the Editor of the DIRECTORY is compelled to scrutinize them with a view of making the information conveyed as reliable as in the nature of the case is possible.

The general popularity of the DIRECTORY among publishers is proved by the amount of advertising patronage extended to it—more than one-fourth of all the periodicals issued being represented in its advertising pages. This is a larger patronage than has ever been extended to any previous volume, but still falls far below the percentage shown in the English Directory, in which fully seven-tenths of all the papers occupy some portion of advertising space.

ISSUED WEEKLY,

Contains weekly Reports of the establishment of new newspapers (now averaging five daily, or thirty-five every week), Suspensions, Consolidations, Enlargements and Improvements.

Is the only publication in which these complete reports appear, and is relied upon by Advertising Agencies and all persons whose business interests require them to keep informed upon such matters.

It has an exchange list of more than five thousand newspapers and a considerable subscription list among printers. Is mainly supported by its advertising patronage from dealers in printing materials.

Its advertising rates are—

**25 cents a line a week; \$13 a line a year.**

**\$25 a column a week; \$1,300 a column a year.**

**\$50 a page a week; \$2,600 a page a year.**

No deviation.

Subscribers are not desired among the class of general advertisers, as the paper contains many editorials and other articles intended to influence and instruct publishers on questions of advertising from the agent's standpoint; all of which, to have circulated beyond the class for whose eyes they are intended, would be of no advantage to those in whose interests the paper is issued.

**Subscription Price, \$2 a Year in Advance.**

Sample copies, 10 cents.

## WHAT IS AN ADVERTISING AGENCY?

A gentleman lately stepped into the office of the *New York Times* for the purpose of inserting a notice of "Situation Wanted" for a cook, who had lived in his family and for whom he was desirous of obtaining a place before he closed up house-keeping, as he then contemplated. The girl had, at a former period lived in Brooklyn, and, having friends there, it was thought best to insert the advertisement in the *Brooklyn Union*. Intending to give the matter his personal attention, he inquired the location, in Brooklyn, of the office of the *Union*. He was informed that if he was going there for the purpose of causing this advertisement to appear in that paper he could save himself the trouble by leaving the order in the advertising agency, in the Times building, up stairs.

The gentleman thereupon came to the agency with the order,—six lines, one insertion,—for which he paid sixty cents, being informed that that was the amount required according to the rates of the *Brooklyn paper*. Never having heard of an advertising agency before, the advertiser wished to know how much additional

he must pay for being saved the journey, ferry fares and time. In answer to this he was informed that, upon making settlement with the *Union*, the sum of twelve cents would be allowed to the agency as a commission or payment for the service rendered in taking and forwarding the order.

This incident conveys nearly all that can be told to explain the uses of a Newspaper Advertising Agency. Had the notice been intended for a San Francisco paper, for one in Montreal, New Orleans or any of the New York City journals, it would have been received on the same terms. The Advertising Agency is a convenience; it is nothing more.

The advertising agent, from the knowledge gained by experience, becomes an expert. He learns from papers the lowest prices which they say they will accept for advertisements. He learns from advertisers the rebates and favors which they have obtained. He knows the strong points and the weak points of the publishers; what papers will take advertisements low and what class of advertisements they will take lowest.

To NINETY-NINE persons in every hundred the words NEWSPAPER ADVERTISING AGENCY convey no idea. They never heard of such a thing, or, if they have, wondered what it was all about. Of the forty millions of people in the United States not more than one in five hundred pays a penny in a year for an advertisement in a newspaper. Of those who do, barely one in ten advertises beyond his own immediate neighborhood, and consequently has no occasion to consult or advise with any agent or middle man.

The above calculations give 10,000 persons, distributed throughout the Union, but mainly in the largest cities, who advertise or desire to advertise in papers issued at a distance from their homes, about the character, appearance, value, circulation and prices of which they have no reliable information. An Advertising Agency is the source from which such information may be obtained.

Inasmuch as no more than one person in five thousand has any personal interest in them, and that the existence of such institutions dates back hardly forty years, no cause exists for wonder that, to the general public, their uses are unknown.

To many persons who have some knowledge of Advertising Agencies, the scope of their business is still unknown. We write with a hope of making the matter better understood and to answer some of the questions which are so frequently propounded by interested inquirers.

A Newspaper Advertising Agency doing a general business is an institution where are received and kept on file copies of newspapers issued in various parts of the country, which are mailed to the agency, that they may be there accessible to persons who desire to use their advertising columns. Schedules or tables of rates, and special information about the cost of advertising in each separate paper are also a necessary part of the paraphrenalia of the agency.

Some Agencies make a specialty of a certain class of publications, as for instance; in New York one takes advertising only for Magazines, another for papers printed in the German language; several confine their operations almost exclusively to publications issued in the city; while in various parts of the country are those who make a leading specialty of the Religious Press: others again represent only country papers, while a few act for every class, shade, and denomination of the entire press of the country.

As the files of papers which are found at the agency are furnished by publishers gratuitously, they are taken as establishing the authority of the agency to represent such as are regularly received, and for which a schedule of advertising rates has been furnished.

The cost of the yearly subscription upon his publication is a tax which the publisher pays for the support of the agency. As the payment of this tax is voluntary, the regular receipt of the paper is, with reason, taken to be the sufficient authorization of the agency to represent it. By this rule may be tested the comparative hold possessed by the various establishments of this kind upon the confidence and esteem of newspaper publishers: but it may also be taken as a general rule, that where an advertisement must be confined to a class of papers, an agency making a specialty of that class will be likely to have the best facilities for serving him.

## WHO ARE THE PATRONS OF ADVERTISING AGENCIES?

Few persons have any conception of the amount of money paid for newspaper advertising. The number of papers printed in the various States exceeds six thousand; while the advertising patronage of a single New York daily is said to exceed \$750,000 per annum! To insert a single column on the last page of the principal illustrated weekly costs no less than \$720 a week—\$4 a line! If every paper averages an annual receipt of \$1,000 per annum from advertisements, we have \$6,000,000 in the aggregate; while, if every paper printed received the magnificent patronage of the daily above referred to, it would amount to sufficient to pay the national debt in five months!

Only those advertisers in the largest cities have occasion to apply to an agency concerning advertising in their own vicinity. The principal patrons of the Advertising Agency are those who wish to reach distant points. Of these, first in importance are the patent medicine men; next comes that class whose announcements commence with the words "Agents Wanted," which includes dealers in subscription books, sewing machines, patent rights, and the thousand and one articles which may be sold by hawkers or peddlers; then come the Bond advertisements, "For Investment," Land Companies, "All Wanting Farms," Gift Concerts, Newspaper Prospectuses, Business Cards, &c., &c. Advertisements of "Information Wanted," are also among those most frequently brought to the agency, but as they go into few papers, and for no more than one or two issues, their cost is inconsiderable.

Several individual advertisers, known to the writer, are in the habit of investing yearly upward of \$100,000 per annum, but their number will not exceed ten. Perhaps fifty or more spend as much as \$20,000; while those who pay sums ranging from \$1,000 to \$10,000 may be counted by hundreds. The amounts expended by those remaining, to make up the ten thousand who send advertisements beyond their immediate neighborhood, range from one dollar upward, according as hope, caprice, their desire to experiment, or their means of paying may dictate.

## WHAT THE ADVERTISER GAINS BY EMPLOYING THE AGENCY.

"What do I gain by going to the Advertising Agency in preference to appealing to the paper direct?" is the question most frequently propounded by the novice in advertising. To this the true answer can only be, Convenience and the benefit of experience.

The old advertiser, of undoubted responsibility, who knows what he is about, knows the value of papers, their prices; knows how to set up his advertisement to secure the best display in the smallest space, and how to order its insertion that the publisher will not extract a justification for an extra or increased charge, has nothing to gain by transacting his business through an agency except the convenience of making one transaction, verifying one account at one place, at one time, and paying one bill instead of many. Yet the old advertiser deals mainly through agencies for this reason, and the saving of time, stationery and postage.

It is not fair to suppose that the reputable agent will underbid his principal; his duty does not lie in that direction. It is his province to arrange that his advertiser shall not pay for more space than he requires; that he get a good position without an unnecessary extra charge. The advertiser who deals through a reputable agency knows beforehand that the cost is not to exceed a given sum. If more must be paid, the matter is submitted for his reconsideration. How many advertisers have received from publishers bills amounting to dollars when they expected to pay dimes only—to hundreds of dollars when they supposed tens would be all that would be required? How many have ordered the insertion of cards by word of mouth, believing that advertising was cheap, and learned when too late how erroneous was any such supposition?

It is a notorious fact that as soon as advertisers begin to do business through agencies their bills decrease in individual papers, and the amount saved is devoted to extending the announcement in other journals, procuring thereby a wider circulation. It is in recognition of this fact that some publishers decline allowing any commission to an agency on advertisements from those who have previously dealt with the paper direct. So thoroughly is it understood that no advertiser now deals direct who understands his interests, pays his advertising bills, and makes them pay him, that it is often considered an evidence of irresponsibility or incapacity for an advertiser to apply direct for terms of advertising. There are exceptions to this rule among the largest and oldest advertisers, who commenced business before the agency system was perfected; but it requires good credit and a well-known name to bring specific answers from publishers to applications for rates or even orders for insertion, as many an advertiser has found out to his chagrin, although rated in the mercantile books as of first-rate standing.

As the advertising agent is paid for his service and for assuming to become responsible to the publisher for the payment of all bills for advertising ordered through the agency, it becomes common for advertisers to demand the same allowance on their own business when they deal direct. To this demand publishers who are in the habit of sustaining their rates rarely respond, but, inasmuch as the making of the request is supported by such questions as, "Isn't my money as good as that of the agent's," &c., &c., expose the advertiser to the imputation of being deficient in sense or moral rectitude, or that he believe the publisher to be so; the latter sometimes forgets himsel

and the duty he owes his agent, and makes a reduction equivalent to the agent's commission, as the easiest way of satisfying the advertiser and putting an end to further talk or correspondence. The advertiser not infrequently finds, by after experience, that the agent is able to procure for him even a greater reduction, and at the same time retain his own commission intact.

A moment's careful consideration will convince an advertiser of good sense that although a publisher would prefer the order direct, when sure of his pay, for the sake of saving the reduction taken by the agency for a commission, yet if the reduction *must* be made in one shape or another, leaving him nothing to gain, he will prefer to give it to the agent, to whom it can be allowed without seeming to break down his rates or violating his self-respect.

The advantages of the Newspaper Advertising Agency to the advertiser then are these:—Experience without cost; one contract instead of many; guarded against unnecessary extra charges, and knowing in advance the price, beyond which an order will not be carried without his full knowledge and consent.

Of those advertisers who believe that they can obtain the same net terms direct as would be accorded to the agency, we ask, is it reasonable that publishers should extend as good rates to an advertiser who expends \$5,000 a year as to an agent who forwards \$50,000 a month? If any one is to be pleased or catered to, is it not, under the circumstances, more likely to be the agent? Would six thousand publishers contribute free their periodicals from year to year, the subscriptions upon which amounts, taking dailies, weeklies, and all, to more than \$20,000 per annum, and then set about undermining the institution for the support of which they have paid so much? Is such a supposition reasonable? The truth is that between the best class of agencies and the publishers there is no competition. On any considerable order, the agent, by taking advantage of every point in the advertiser's favor, is *always* below the aggregate price obtained by application to publishers. Unfortunately, however, there does exist a difference in the prices which will be obtained from the various agencies.

Before entrusting his work to an agency an advertiser should first satisfy himself of its ability to secure for him the best advantages, after which his business should be placed in the hands of the agent selected, and kept there as long as he is faithfully served. When confidence is no longer had in the agent let the advertiser resort to no half-way measure, but withdraw his patronage altogether.

### THE BEST ADVERTISING AGENCY.

The best Advertising Agency is one that secures so much business from a good class of advertisers as to enable it to command from the greatest number of publishers the most favorable rates ever accorded.

The American Newspaper Advertising Agency of Geo. P. Rowell & Co., No. 41 Park Row, New York, is the principal one in the United States, and by far the most complete establishment of the kind in the world, for in no other country are these institutions conducted with anything like the system which obtains here. Messrs. Geo. P. Rowell & Co. established their agency in 1865, and in 1870 consolidated with and succeeded to the business of the advertising agency conducted till that time, since 1840, by Mr. John Hooper, who was the first advertising agent who did business in the city of New York.

Messrs. Geo. P. Rowell & Co. control by far the largest amount of advertising patronage ever secured by any institution of the kind. From their office is forwarded an amount of advertising patronage but little short of that emanating from all the other agencies in the United States combined. They receive and have on file all newspapers published in the United States and Canadas, without a single exception of importance. They receive the best terms and largest reductions allowed to any advertising agency.

They are the source from which all other advertising agencies, without any exception, derive their information about newspapers. Let an advertiser step into any agency and ask the name of the publisher of a paper at any distant point; let him ask how many papers are issued in such and such a city, how many are daily, how many weekly, what is the politics, character, or circulation. To any or all of these questions he will receive no reply until a reference has been made to Geo. P. Rowell & Co's Annual Newspaper Directory. No account is kept in any other agency of the new papers which are started, now averaging five every day; or of the old ones, which die or change hands. For all information of this kind all the agencies depend upon Geo. P. Rowell & Co's Weekly Newspaper Reporter.

Besides the advantage of their position at the head of their business, they have special contracts which give them an unequalled advantage in more than two thousand of the newspapers of the country. To such an extent is this advantage known and recognized, that every agency, large and small, throughout the country sends its orders, to a greater or smaller extent, through the agency of Geo. P. Rowell & Co.

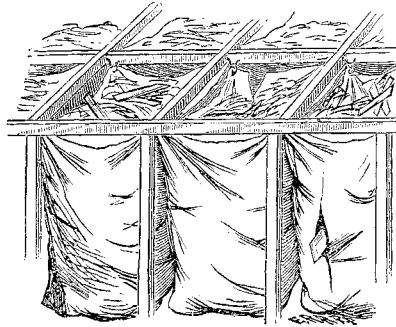

Another advantage possessed by them consists in the fact that they conduct the American Printers' Warehouse, from which they sell all articles needed in a printing office, and have standing on their books, at all times, from \$20,000 to \$80,000 in balances due from publishers, mainly representing profits on goods sold, and upon which they are frequently willing to make large discounts to advertisers who happen to require any of the papers in question.

### What is Done With the Newspapers?

"The new postage law brings a considerable revenue from the New York advertising agencies. Geo. P. Rowell & Co's quarterly bills upon newspapers received, exceed \$430; those of S. M. Pettengill & Co. are above \$350, while the agencies of W. J. Carlton, Bates & Locke, W. W. Sharpe and others most prominent, pay from one-fourth to one-eighth of the above amounts."—*N. Y. Sun*, March 3, 1874.

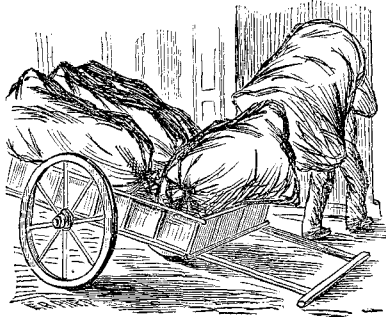

The above paragraph has been extensively copied into the newspapers of the country. When it is borne in mind that the sum of five cents pays the postage upon thirteen papers, it is easy to calculate that for the postage exacted from Messrs. Geo. P. Rowell & Co. they are entitled to receive considerably more than one hundred thousand papers every three months, or more than a thousand every day. On occasions in the winter when the snows interfere with the regular running of the mails, as soon as the blockade is removed it not unfrequently happens that as many as twenty-five bushels of newspapers will be received in a single morning.

What becomes of all the papers? What do you do with them? are questions which are often asked. The papers come from every quarter, and are assorted throughout the day and night by the Post-office employees. Those addressed to Geo. P. Rowell & Co's Advertising Agency are thrown into large mail bags, arranged on a rack or frame made to support them, with the mouth held open, and these, when filled, are

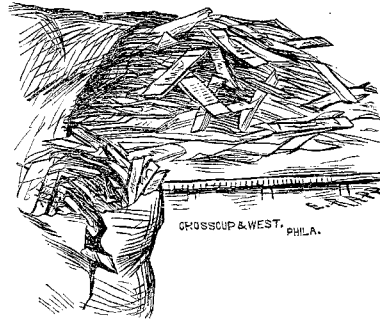

hanging at the top and set aside to wait until called for. On Mondays and mornings after holidays as many as three or four bags are filled, each one containing several bushels of newspapers in their wrappers, each bag being packed as closely as possible.

The mail bags are brought to the office, after

which the papers are taken from the bags and

heaped upon a table. Then the wrappers are

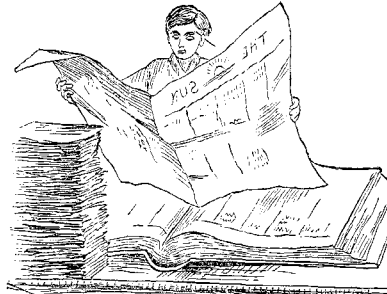

taken off and the papers smoothed out, uniformly folded and arranged by States. The various

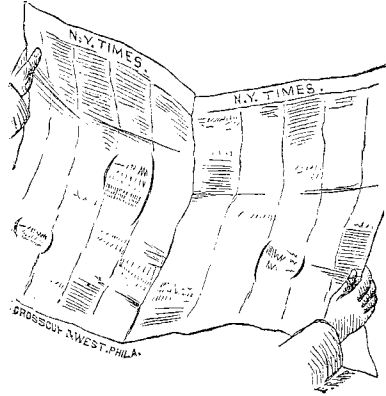

piles are then handed over to the men who have in charge the business of examining each separate paper to make sure that advertisements ordered from the Agency are being inserted according to the specifications of contract.

The country is divided into sections and apportioned out to as many men. One devotes his entire time to papers issued in the city of New York; another checks those in States near by; one has Canada, one the South, and another the Territories and Pacific coast.

With his book spread open before him the work of examination and checking proceeds.

Every paper in which an advertisement is running is opened out and the advertisements, one

or more, are marked with a crayon so as to be easily found or seen at a glance when the advertiser comes to make his examination before paying his bill.

The checking books are arranged to show the actual number of insertions which every advertisement is to receive. Special marks are used to designate special things, and the checking clerk, guided by instructions, produces a page which will show the advertiser at a glance whether his insertions have been truly and correctly rendered, or otherwise.

By the accompanying diagram the plan is made plain, as in use for a weekly paper. The name of the advertiser, the space, position, style and length of time an advertisement must appear are all indicated. The various marks have their meanings—all easily understood and not readily mistaken.

If a paper fails to come to hand, the checking book reveals the fact, and it is sent for. It may not be of much importance, but the clerks in charge are instructed not to consider that, but to get

the paper and keep files complete.

- /** first insertion.
- /** correct insertion.
- /** wrong position.
- /** short space.
- X** omission.

If an advertisement is materially wrong, is out of position, has important typographical errors, or for any reason is not what the advertiser is entitled to expect, notice is dispatched to the publisher at once, and the error is made good by another insertion or a reduction from the bill.

This system is carried to great perfection. The checking books are kept permanently for inspection by advertisers. The papers themselves are kept three months from date of issue, after that time the Agency does not guarantee to exhibit them.

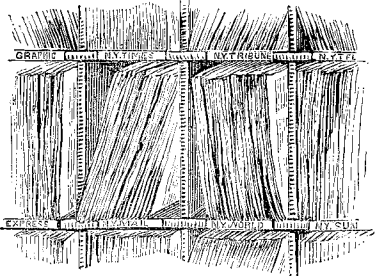

After the examination and marking, the paper is again folded, and receives a heavy mark on its

upper right hand corner to indicate that it has passed through the requisite examination, and is ready to be placed upon file. It is then taken

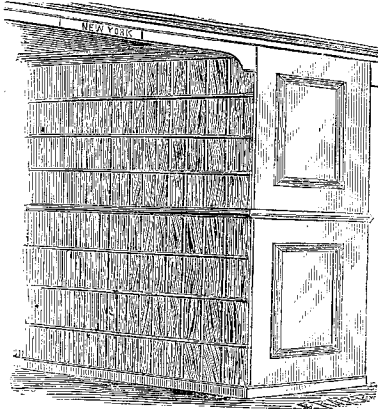

and placed in the space accorded to it. Every weekly paper is assigned a pigeon-hole, 8 inches by 10 1-2 and one foot deep, while to a daily is accorded three such. These spaces are all desig-

nated by a label, having printed upon it the

name of the paper to which the space is accorded.

These being placed in tiers or cases placed back to back and set up to form galleries, so as to permit of the whole being arranged alphabetically

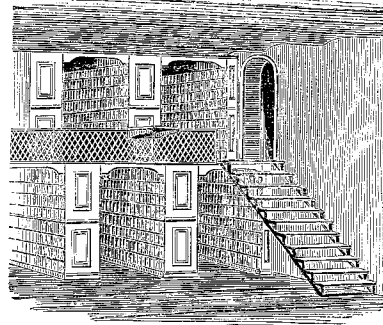

by States, the name of each State being designated on the cases and again over the entrance to each separate gallery.

A stranger is thus enabled to search out the depository for his own local paper, or any other that he may desire to see, with as much readiness as he finds a word in a dictionary or a name in a directory.

These galleries being arranged one story above another and as compactly as possible, occupying portions of the same rooms where all the work upon the papers is performed, leaves nothing to be desired in the way of convenience.

An advertiser whose rule it is to pay no bills until he sees *all the papers* can here be accommodated, and a business amounting to \$20,000 per annum in cheap country papers can be looked after (every copy of every paper examined) by the advertiser, or his representative, who will devote three days' time to the examination four times a year.

The time required for examining papers is mainly used in looking after the advertisement which is *not* there. This work has all been done beforehand, and each advertisement is marked plainly with a black crayon. If it is so marked the advertiser takes in its appearance, style, position, everything in an instant, and if it is *not* marked he need go no farther; it is not there, and he is entitled to one other insertion or an allowance.

An important use of having complete files of papers so conveniently arranged consists in being able to produce for large advertisers samples of all the papers in which they wish to insert their announcements, that they may see for themselves what each paper looks like, and judge what style of advertising will be most effective in each.

When the papers have accumulated until their allotted spaces assume a crowded appearance, then comes the final solution of the problem of "What do you do with them?" Boys go through the galleries, extract the superfluous papers from each of the spaces (being careful to have a complete file for at least three months), throw them into one great heap; after which a

dealer in paper stock comes and carts them all away, and in another month they may be found in the store of the paper dealer, made into new bundles, upon which may again be printed other papers to repeat the same round of experiences.

# EXPLANATIONS.

The statements in relation to circulation in this issue of the AMERICAN NEWSPAPER DIRECTORY are in many instances smaller than in previous issues. The method of arriving at the figures has been to take an average of those given in accordance with the programme set forth in the blank furnished to publishers, of which the following is a copy:

(COPY OF BLANK.)

## REPORT FOR AMERICAN NEWSPAPER DIRECTORY FOR 1874. CIRCULATION.

This blank is furnished every publisher who desires his circulation correctly reported in the Directory. It is to be filled by inserting the proper figures in the spaces left for answers to questions Nos. 1, 2 and 3. Questions Nos. 4 and 5 are to be answered Yes. The blank is to be regularly signed and dated. If returned without being properly filled, signed and dated, or if not returned at all, the circulation will be estimated from the best information to be obtained at the office of the Directory. If a publisher objects to having his circulation given that fact will be stated.

  3. QUESTION. How many copies were printed for the first edition issued in the month next preceding last month?

  4. QUESTION. Were the editions given above the *bona fide* regular edition, same as would have been printed if this report were not to have been made?  
Answer. —
  5. QUESTION. Are you willing to verify the above statements by affidavit, if we so desire, and show such proof of the correctness of your statement as will enable us to satisfy inquirers, should the same be questioned?  
Answer. —
- It is hereby made known that the five questions printed above have been carefully read and truly answered by the undersigned.

PUBLISHER.....  
PAPER..... ISSUED.....  
PLACE..... STATE.....

DATE OF SIGNING.....

\* By the word edition is meant the number of copies of any one issue or date, whether printed at one run of the press or at two or more distinct times.  
† If publication is issued less frequently than once a month, the blank can be changed so as to give the three latest issues.

In some instances, from local jealousies or other causes, the statements of publishers have been questioned, and in such cases, the affidavits have been called for, and when *promptly* furnished the figures are marked with a dagger, (†) which indicates that the affidavit is on file in this office, and can be seen by interested persons.

The star (\*) against estimated circulations, indicates that a larger issue was claimed, but no affidavit was furnished in response to the application therefor.

The Blank above referred to, was furnished two separate times to every publisher who has failed to *respond*.

The of circulation has been omitted in cases where a description of the publications did not appear in the last edition of the DIRECTORY.

Where no advertisements are taken for a publication, the matter of circulation, being unimportant, has been omitted, and the fact stated thus: "Do not insert advertisements."

Where publications are bought and circulated by persons and firms that advertise therein by means of descriptive articles in the reading columns, or devoted to the (almost) exclusive interests of any particular person or firm, or to the ventilation of any certain idea, or established solely as advertising schemes, embracing a class with circulations almost entirely gratuitous, they are termed "advertising sheets," and no circulation given.

Where *italic* matter follows the description of a publication, it is by order of the publisher, and is paid for as an advertisement.

The publishers of the DIRECTORY assume no responsibility for any statements made in italic type, every publisher of a newspaper being allowed to print in that manner anything for which he is willing to pay the price demanded, viz.: *ten cents a word*.

The above marks are introduced into the Directory for 1874 in accordance with a plan long under discussion among the principal Advertising Agencies. The established Agencies desire, as far as they consistently can, to discriminate in favor of publishers who conduct business with a reasonable regard to the interests of such institutions, and in accordance with the views expressed by their convention, held at the Astor House, in the city of New York, April 16 and 17, 1873.

There are four classes of publishers for whom Advertising Agents find it unsatisfactory to transact business, viz.: (1) Those who do not send papers. (2) Those who have no schedule of rates. (3) Those who decline all offers of business or rarely respond to applications or offers. (4) Those who cannot be depended upon to answer friendly applications for information.

Papers marked ○ will be found generally on the files of agencies entitled to receive them. Those marked ⊖ issue a table of rates. ⊕ indicate papers likely to respond in business-like terms to communications on business, and those marked ● will generally be found willing to convey any information for which an advertiser is entitled to ask.

The absence of either mark need not of necessity prove the publisher wanting in the particular indicated. All the marks are indications of good, and a paper designated by the entire five will be found in nearly every case to be under first-class business management.

when, under the old law, the letter list was awarded to the paper having the largest circulation, as certified under oath, the Courier got the award for ten consecutive years; when, under the revenue law, newspapers having less than 5,000 circulation were exempt from tax, all the papers in Lafayette and Northern Indiana, except the Courier, claimed the exemption; "I entered the press room and counted 4,600," is the published certificate of B. S. H. Good, formerly of Demas, Barnes & Co., now of Good & Roof, No. 34 Broadway; "I consider the Courier the best advertising medium in Indiana," is the unsolicited tribute of John D. Park, Cincinnati; as the Courier never sends out solicitors to misrepresent the business of rival papers, this statement of facts, from the record, is made in simple vindication.

## NEW YORK.

ris and H. C. Page, editors; object to stating circulation; office No. 26 Ann street, *between the Herald Building and Nassau street; the Era has for years enjoyed the recognition of the leading merchants, bankers and business men of New York, and is the official newspaper designated by the Bank Department to publish the weekly statements of the State banks. Gen. Morris, having recently assumed the position of editor-in-chief, the Commercial Advertiser says: "Gen. Morris is an able writer and a ripe scholar. In political and social life, as well as in literary circles, he is highly respected and esteemed. He was for several years an officer in the regular army, served gallantly during the war of the rebellion, and bears on his person the scars from wounds received in battle. We congratulate the Era on the acquisition it has made, and it has our best wishes for its continued prosperity." As an independent journal, and the cheapest Sunday and Weekly paper (three cents per copy) in the city, it has a good circulation among a good class of citizens. As an advertising medium, with its low rates and carefully-written editorial notices, it is worthy the consideration of business men. For full particulars address the editors, and see advertisement elsewhere in this volume. Our object and endeavor is to give our patrons the worth of their money, and we always earnestly strive to do so.* ○○○○

- that of any one of several of the old high-priced papers; it circulates among all classes and in all localities within two hundred miles of Cincinnati; wherever there has been a contest its circulation has been found more than double that of any of the other papers; in Covington, Newport, Hamilton, Dayton, Harrison, Aurora, Lawrenceburg, Troy, Piqua, and in fact in all the outside cities where the papers are handled by agents, and the circulation is known to the public, the Star is found to have a list about equal to that of all the other Cincinnati papers combined.* ○○○○
- CINCINNATI Times**; every evening except Sunday, and **Weekly**, Thursdays; republican; four pages; size 28x44; subscription—daily \$8, weekly \$2; established 1844; Cincinnati Times Co., editors and publishers; object to stating circulation. *Of the newspapers published in Cincinnati the "Times" holds the leading position; its circulation very largely exceeds that of any other paper published in the West; this result is due to the fact that the paper has been in existence over thirty years, has always been conducted with ability, independent of party politics, and therefore receiving the support of all classes of community. The Daily "Times," besides its large circulation in Cincinnati, Covington and Newport, is distributed every day by carriers in nearly all the railroad cities and towns within three hundred miles of its place of publication; it is also sold by newsboys on all of the seventy trains that leave the city each day. The Weekly "Times" has a circulation unlimited by the farthest bounds of any State or Territory in the Union; it is as popular in the East or South as in the North and West; and this immense circulation has been steady and growing for over twenty years; it is not fluctuating or transient; it has 10,240 local agents who, promptly as the year's roll round, send in their clubs of ten, twenty, thirty, fifty, seventy-five, one hundred, and even two hundred subscribers. Opinions of advertisers.—New York, April 2, 1874.—Cincinnati "Times" Company: I have been abundantly satisfied with the result of advertising in the "Times;" although I have tried every good medium, the "Times" satisfies me best.—Henry T. Williams, Business Agent of "The Independent." Cincinnati, April 8, 1874.—Publishers of the Cincinnati Daily and Weekly "Times": Gentlemen—Advertising in all the leading journals of this city, our experience compels us to say that through your medium we have received more communications and derived more benefit than through any of the others; we cheerfully recommend it to the public as the best.—Yours truly, A. E. Burkhardt & Co., Hatters and Dealers in Furs. Proprietors of Cincinnati Weekly "Times." Gentlemen—We have advertised in the Weekly "Times" for some four or five years, and consider it one of the best mediums for that purpose in the country; experience has convinced us that there are but ten or twelve papers altogether in the Union in which it really pays to advertise our business, and the "Times" comes close up to the head of the list.—Yours, very respectfully, Howard & Co., Jewelers, N. Y. City. Great Western Gun Works, Pittsburgh, July 10, 1873.—Publishers Weekly "Times": Gentlemen—One year ago I contracted for advertising in over 2,000 papers, and among them all of the leading papers of the country. I so arranged the advertisements that I could tell exactly from what papers I received replies, and I kept a correct account of them for three months. The result shows that in the number of letters received the "Times" stands second on the list, and for the amount of money invested it is far ahead of any.—Yours, very truly, J. H. Johnson. ○○○○*

ADVERTISEMENTS OF NEWSPAPERS.

## Advertiser's Gazette.

The ADVERTISER'S GAZETTE was first issued in November, 1866, the second year after the establishment of our Agency. It has been published with regularity four years as a monthly, and three as a quarterly. To clip from current newspapers and solicit advertisements by letter or printed circular, has been the constant employment of at least one man in our office for seven years; and frequently, for weeks at a time, we have had two, sometimes three, engaged in the occupation. To all the names thus procured the ADVERTISER'S GAZETTE has been mailed. Our revised list of advertisers now numbers

### NINE THOUSAND NAMES.

During the past four years we have advertised this book at a net cost to us of more than \$50,000; distributed through that period as per the table below:

	\$14,890 82		9,269 33

TOTAL IN FOUR YEARS.....\$50,338 82

All our advertisements refer to this book. It is given to every applicant for an estimate, to every inquirer about advertising. The applications for it by mail, produced by advertising, amount to an average of about thirty copies a day; of

these applicants we place on our list only such as explain their business and appear likely to become advertisers.

We expect to advertise this book more extensively in 1874 than ever before. The times have shown, and are showing, that the agencies which can live and make a profit are those which do the very largest general business, and such as confine themselves to specialties. We seek a general business, and can point to single customers from whom we have realized upwards of \$5,000 in commissions within a period of two years, who tell us that they were first made acquainted with our facilities through a perusal of the ADVERTISER'S GAZETTE.

The ADVERTISER'S GAZETTE will be published monthly, on the 20th of every month. It will contain substantially the same matter, with monthly revisions and occasional additions and substitutions. It will be sent in single wrappers, addressed and under full stamp postage, to all applicants; handed to all inquirers at our office; sent with all estimates for advertising furnished by us; also sent under full stamp postage four times within the year to every person who has ever paid us a dollar for advertising; who ever made an inquiry about advertising; to every person on the revised list of nine thousand advertisers described above. Any one who has been much among advertisers will testify that we have been faithful in the distribution of our circulars.

Our prices for inserting newspaper advertisements will be as follows:

	1 mo.	1 yr.	1/2 page.	1 mo.	1 yr.
1 page,	\$50.	\$600.	1/4 page,	\$20.	\$240.
1/2 " "	\$30.	\$360.	1/8 " "	15.	180.
1/4 " "	\$25.	\$300.			

Ours is the only agency which regularly and systematically APPEALS TO ALL THE ADVERTISERS OF THE COUNTRY.

**WE FURNISH A COPY OF OUR LIST OF 9000 NAMES OF ADVERTISERS FOR TWO HUNDRED DOLLARS.**

ON AND AFTER FEBRUARY 1, 1874,  
THE RATES FOR ADVERTISING IN "MOORE'S RURAL NEW-YORKER"  
WILL BE AS FOLLOWS:

## Hall's Journal of Health.

Published at **40 BROADWAY, NEW YORK**, for \$1 a Year; or Nine Copies for \$5, Twenty Copies for \$10.

Nearly 150,000 of Dr. Hall's books on health have been sold, showing an encouraging progress in the tastes of the people for health publications; and an increasing appreciation of the importance of taking care of the health, as it is a thousandfold easier to keep well than to get well. The **JOURNAL OF HEALTH** shows how to get well and to keep well without any medicine whatever; but if medicine is needed it is wisest and safest and best to send for a physician. Yet as there are multitudes of accidents and sudden sickness when a physician cannot be promptly had, there should be a book in every dwelling showing how to act and what to do in every emergency. Such a book is "Health at Home," 800 pages, \$5; to be had only at this office or of agents, not at any book store, it being a subscription book. Persons desiring agencies must apply to the publishers, **S. M. BETTS & Co., Hartford, Conn.** This book shows also how mothers can secure healthy births without danger or much suffering; that the physical and moral health of the new being have their foundations laid before birth by the modes of life and thought and feeling of mothers during gestation, a subject of immense practical importance. ### CARDINAL PRINCIPLES OF THE "IRISH WORLD."

Of the principles of the IRISH WORLD it is scarcely necessary to speak here. It is now in its fourth year, and in that time it has attained a larger and wider circulation than is possessed by any other paper—daily or weekly, secular or religious—published in the United States. Its character, therefore, ought to be pretty well known. Nevertheless, we deem it proper, on certain occasions, to lift aloft our banner, and to put forth in bold relief the cardinal points of our Prospectus.

The IRISH WORLD is Catholic, it is American, it is Irish, and it is Democratic.

#### Catholic in Religion.

We believe that life in this lower world is a probationary state. We believe that God has revealed His will to men. We believe, moreover, that the organization known throughout the world as the Catholic Church is the depository of His revealed will, and that it is the visible agency by which men are to reach their destination—Heaven. Let Protestants who may chance to read these lines reflect on this subject. Putting aside prejudices, let them honestly examine into the claims of the Catholic Church, and see if she is really the church or only a sect. If she is a sect, then neither we nor they are obliged to obey her; if, on the other hand, she is the church of God, then both they as well as we are bound to hear her. Much is said of the spiritual slavery of

Catholics. But all that sort of talk is but the babbling of ignorance. Truth alone makes free. There are high-spirited persons in false religions—men who have the aspirations of freemen; but still they are not free. Until they have broken the trammels of errors, they are not free. There are others who profess no religious belief, and that class sometimes say they are free—seeing they are untrammelled by sectarian prejudices. This is a very fallacious supposition. A mere negation cannot make one free. Truth alone makes free. The saints were the greatest freemen that ever lived. And theirs was not a passive freedom merely—it was active and vigorous. Whilst sturdy in defending the faith, they denounced every pious fraud, tore the mask from hypocrisy, and rebuked vice in high places.

#### American in Nationality.

It has been so ordained that the children of men should be divided into certain great families which we call nations. Our nationality is America. To the flag of the United States only do we owe allegiance; to the flag of no other power on earth do we look to for protection. This country is our home, and is forever to be the home of our children. Let us always feel this. There is a small class of bigots who, with Anglo-Saxon arrogance, strut themselves before people as the true and only genuine American type, and affect to look upon us—and, indeed, upon all others differing from them—as an alien element, who owe all the privileges we now enjoy solely to their great-souled generosity alone. But we should not be disturbed by such ridiculous airs. We enjoy no privileges—we possess only rights. Whether we look to the past or to the present—whether we regard abstract justice or actual service rendered—our title to this land is as old and strong as that of any other element.

#### Irish in Race.

But the fact that this country is our home and that our allegiance is due first to its flag, should not make us oblivious of other associations, or oblige us to sunder the ties of natural affection. Though American by nationality, we are yet Irish by race. Ireland is our fatherland, and the Irish people the world over are our blood relations. And this relationship shall exist between our children and their children. We owe a duty to Ireland. This duty which is imposed on us gives us the right to a voice in settling the Irish Question. We have no desire that the Irish on this side of the sea should rule Ireland—but we shall never be satisfied until Ireland is free to rule herself. This can never be while an English soldier treads her soil. We hold that the utter destruction of British domination in Ireland is essential to the welfare of the people in that land, and conducive to the honor of the Irish in all lands.

#### Democratic in Politics.

No work of man is perfect. As a matter of course, no human government ever devised was perfect. Nevertheless, man must go on with his work notwithstanding its imperfections. If we cannot achieve the most desirable thing, we must endeavor to effect the best possible thing. We hold the only form of government which is just in theory, is that which rests its foundations on the consent of the governed, and whose functions and jurisdiction are defined by law. In other words, we hold that the most legitimate form of political government is that which is established on the democratic principle. We hold that as the whole human race sprung from the one father, Adam, that as all nations of the earth are made of one blood, all that is intrinsic to human nature is common to all alike. No man has any more natural rights than another. This is a universal principle which none but usurpers and the apologists of usurpers will deny. If the democratic doctrine may be asserted in this country, it can also be defended in other countries.

#### To Our Friends.

These are the doctrines of the IRISH WORLD. And for the propagation of these doctrines we ask the co-operation of every lover of truth and justice. Let every believer in the IRISH WORLD do an hour's work for it. Speak of it in your visits to friends. Go over its pages and point out, besides its principles, its various departments of news and literature of all sorts.

 Fireside Literature.**

SIDNEY S. NORTON.....EDITOR AND PUBLISHER.

**Office, 150 Broadway, corner Liberty Street, New York.**

The aims and objects of THE AGE are these:

- 1.—To furnish its readers with a fresh, impartial, and independent record of insurance in all its branches.
- 2.—To afford a thoroughly liberal and impartial medium for the discussion and ventilation of all subjects bearing on insurance.
- 3.—To prove to the public that honesty and independence, even in the conduct of an insurance journal, are not incompatible with success and insurance interests.
- 4.—To give a literary, story-telling and readable supplement, which will make the AGE a welcome guest at the fireside, as well as in the office.

THE AGE is a complete record of all important facts and figures relating to the management, financial condition and standing of various insurance companies throughout the country, in which assurers are interested, and from which indemnity for losses must be sought.

Passing to lighter topics it should be borne in mind that THE AGE mingles Mirth with Business, Pleasant Chat with Dry Statistics, and in "OUR AGENCY FIRESIDE" treats its readers to such a delightful and varied banquet of stories, biographies, essays, witticisms, poetry, and common-sense reading, that this literary supplement alone is worth the small sum charged for the whole paper.

Finally, as the AGE has a circulation of 5,000, and is sent to all the prominent insurance and shipping agents, underwriters and companies in America, England and Canada, advertisers will find it an invaluable medium through which to attract the notice of the public.

### Opinions of the Trade.

I fully appreciate the value of your excellent WEEKLY as well as your own personal services and sacrifices in the interest of the trade. We have all much to thank you for. You richly merit the united and constant support of the trade in every section of the country.—ROBERT CLARKE.

We desire to express heartily our appreciation of the work you are doing in securing an exact record of American publications, and trust that you will receive from the various publishers the information you make it so easy for them to give.—HURD & HOUGHTON, publishers, Riverside, Cambridge, Mass.

You have laid the jobbers and the retailers of the country under great obligations by your successful efforts to provide a trade periodical so fully meeting their wants, and we hope they will show a substantial appreciation.—GEO. E. STEVENS & Co., publishers, booksellers, and stationers, Cincinnati, O.

We wish to compliment you on the completeness of your paper. It is becoming more and more valuable, and we are pleased to find that the booksellers of the smaller cities are being heard from.—LORING, SHORT & HARMON, publishers, booksellers, and stationers, Portland, Me.

It is mainly because the WEEKLY is so good, so much better than anything we have had before, that we have wanted three copies, and have been vexed when we received only one or two.—SUMNER WHITNEY & Co., publishers and importers of law-books, San Francisco, Cal.

Your paper is now a real benefit to the public and the book-trade.—S. C. GRIGGS & Co., publishers, Chicago.

We wish to express our obligations to you for the efforts you make to promote the interests of the book-trade.—JOHN H. THOMAS & Co., booksellers and stationers, Dayton, O.

We wish to thank you for the enterprise, and to express our hope that it will be successful. We, who are so far from the market, need such a paper. Now, if the publisher or manufacturer will tell us what they have, the trade can keep their goods.—MOSELEY & Bro., booksellers, stationers, and music dealers, Madison, Wis.

I am well pleased with the WEEKLY, and more than ever convinced that if the whole trade would unite in your support, we would find any other medium of information superfluous. \* \* \* I think it may interest you to learn that many retail dealers make up their orders for new books almost entirely from the WEEKLY.—WM G. BOYD, bookseller and stationer, Selma, Ala.

I depend entirely upon the PUBLISHERS' WEEKLY for my information, and I don't know how any bookseller who makes any pretension to keeping up with the times can do business without having its pages to refer to.—J. M. DAVIS, bookseller and stationer, Farmington, Me.

Your WEEKLY is the best thing of the kind that I have ever seen, and I could not get along without it. I would not be without it for five times the subscription price.—J. D. STANTON, bookseller, stationer, and dealer in wall-paper, window blinds, etc., Wheeling, W. Va.

We find your WEEKLY our best source of information regarding new books, and have it in constant use.—BROWN & FAENCE, booksellers, stationers, and newsdealers, Toledo, O.

We follow up the WEEKLY with increasing interest and cannot see how any bookseller can get along without it; *live ones can't*.—B. EARL & SON, publishers, booksellers, stationers, and blank-book manufacturers, Fall River, Mass.

We are highly delighted with the WEEKLY, and would not be without it for double the price.—J. L. SIBOLE with J. B. Lippincott & Co

I consider the PUBLISHERS' WEEKLY the best of any that are published.—E. B. MYERS, Law publisher, Chicago.

It would be impossible to tell you how much I prize the WEEKLY. I can't see how I ever did business without it.—A. J. WARD, book agent, Newport, R. I.

We cannot dispense with the welcome visits of your truly valuable WEEKLY.—BARBER & WHITCOMB, booksellers and stationers, Norwich, N. Y.

The WEEKLY has become a necessity with me.—GEO. W. GREENE, Jr., jobber and dealer in books, stationery and fancy goods, Newburg, N. Y.

We could not keep a book-house without the PUBLISHERS' WEEKLY.—ROBERTS & HILLHOUSE, booksellers and stationers, Kalamazoo, Mich.

We could not do without your WEEKLY.—J. W. BURKE & Co., publishers, booksellers, stationers, etc., Macon, Ga.

We derive more benefit from the WEEKLY than from all the publishers' circulars received.—CRUMRINE & NICHOL, booksellers, and stationers, Steubenville, O.

I do not want to miss a single number of the WEEKLY. It is more important to me than my "Daily Times."—W. W. WATKINS, bookseller and stationer, Cazenovia, N. Y.

I cannot afford to lose a single number of the WEEKLY.—H. E. PRATT, bookseller, and stationer, Binghamton, N. Y.

We can't get along without the WEEKLY.—WEST, JOHNSTON & Co., booksellers and stationer, Richmond, Va.

We find that we look for the WEEKLY as a friend indeed every week, and must have it.—ROBT. A. HEIM & Co., Atchison, Kan.

Things are out of joint when the WEEKLY don't come regular.—F. A. TAYLOR, bookseller and stationer, St. Paul, Minn.

The PUBLISHERS' WEEKLY is the most useful of any of the Literary Bulletins that I have ever had, and I think I have tried them all.—CHAS. E. HAMMETT, Jr., bookseller, stationer, etc.

THE JEWELLER does one thing and does it well: it goes to over four thousand retail dealers, as well as to manufacturers, jobbers and importers. It takes the trade news and the trade advertisements from those who want them read, direct to those who want to read them—to the very people who, above all others, this class of advertisers desire to reach, and the only people in the world who care to read their announcements.

The retail dealer in jewelry and kindred goods has learned that he can find in THE JEWELLER all that any paper can tell him of use or value in the prosecution of his business, therefore he is not likely to waste time by searching unlikely places for what is brought all together in compact form ready to his hand. THE JEWELLER is of service to the retail dealer, and he takes it.

To the manufacturer, the jobber, the importer, and to all who wish to reach all these branches of business at once, we extend the invitation to avail themselves of the advantages we offer. Address all communications to

## Appletons' Journal.

**APPLETON'S JOURNAL IS A MAGAZINE OF WEEKLY ISSUE, DEVOTED TO  
POPULAR LITERATURE, SCIENCE, ART, EDUCATION,  
AND SOCIAL DEVELOPMENT.**

Its characteristic feature is *comprehensiveness*—its contents including choice serial novels, the best attainable short stories, papers of adventure and travel, illustrated descriptions of places, sketches, with portraits of distinguished people, essays on social, literary, and other topics, of popular interest; with a full survey of doings in literature, art, science, music, the drama, and movements in education and social life.

The purpose is to furnish a periodical which will give, in addition to an abundance of entertaining popular literature, contributed by writers of acknowledged standing, a thorough survey of the progress of thought, the advance of the arts, and the doings in all the higher branches of intellectual effort.

It should be noted that, in pursuance of this plan, the space at our disposal is far more extensive than that of the magazines issued in monthly form, at the same yearly subscription. *The fifty-two numbers of APPLETONS' JOURNAL, forming one year's issue, contain one-third more literary material than the twelve corresponding issues of the largest of the monthlies, and of course, a much larger proportion in excess of the smaller ones.* We may add that a candid examination will show that, with greater quantity there is no inferior quality of literary production.

For those who prefer it, the *JOURNAL* is put up in *MONTHLY PARTS*, and in this form its scope and variety, as compared with other magazines, become conspicuously apparent.

**Price 10 Cents per Number; or \$4 00 per Annum, in advance. Subscriptions received for Twelve or Six Months. Subscription Price of Monthly Parts, \$4 50.**

### SPECIAL OFFER.

Any person procuring FIVE Yearly Subscriptions, for weekly numbers, and remitting \$20.00, will be entitled to a copy for one year *gratis*; FIFTEEN Yearly Subscribers, for weekly numbers, and remitting \$50.00, will entitle sender to a copy for one year *gratis*.

The postage within the United States is 20 cents a year, payable quarterly, in advance, at the office where received. Subscriptions from Canada must be accompanied with 20 cents additional to prepay the United States postage. New York City Subscribers will be charged 20 cents per annum additional, which will prepay for postage and delivery of their numbers.

In remitting by mail, a post-office order or draft, payable to the order of D. APPLETON & Co., is preferable to bank-notes, as, if lost, the order or draft can be recovered without loss to the sender.

## Technologist, or Industrial Monthly.

It is the cheapest, most thoroughly reliable and most handsomely illustrated periodical of its class, and during the four years in which it has been before the public it has attained an acknowledged position in the front ranks of Industrial Journalism. It contains the very best matter, the freshest and most reliable information in regard to all scientific discoveries, mechanical and manufacturing improvements, and industrial undertakings, and the finest illustrations that can possibly be procured. In short, the publishers are determined to make the journal so valuable that no Architect, Builder, Carpenter, Inventor, Engineer, Machinist, Manufacturer, Mason, Painter, Plumber, Smith, or Practical Worker, can possibly afford to do without it.

An Important Feature is the monthly report of all the valuable articles which appear in the industrial and scientific papers of this country and Europe. Few men, except professional journalists, take more than two or three of these papers; and still less do they find the leisure to read them; and yet no wide-awake worker can afford to be without a knowledge of what is going on. This we give each month in condensed form, and at a very trifling cost,—our subscription rate being **Only \$1 50 Per Year, or 15 Cents Per Number.** These features have resulted in a large and increasing circulation, so that the **TECHNOLOGIST** is one of the very best mediums for advertising. Our rates are fifty cents per line, with liberal discounts on large advertisements and on those that are continued.

# The Catholic Review.

A WEEKLY NEWSPAPER.

SUITABLE FOR SUNDAY READING IN CATHOLIC FAMILIES.

COMMENDED TO THE PATRONAGE OF THE FAITHFUL BY THE BISHOP OF BROOKLYN  
THE ARCHBISHOP OF NEW YORK, A LARGE NUMBER OF THE OTHER AMERI-  
CAN PRELATES, AND HIS EMINENCE CARDINAL CULLEN,  
ARCHBISHOP OF DUBLIN.

The reasons why the CATHOLIC REVIEW has obtained the largest and most profitable advertising patronage given to any Catholic paper are :

1.—The extent of its circulation in the dioceses of New York, Brooklyn and Newark, which include over one million Catholics. In these sections its circulation exceeds that of any Catholic paper, and it goes to over 1,000 post-offices in the East and West.

2.—The character of its circulation. The convenience of its form, the beauty of its type and paper, the carefulness of its press work, are qualities which gratify the correct taste of the educated classes and justify the expectation of superior qualities in the editorial matter.

3.—By its enterprise in the collection of news, and by its calm, dignified and unyielding tone in the statement of opinions and discussion of facts it has won an unapproachable reputation. Its circulation is therefore correspondingly valuable in character. The CATHOLIC REVIEW is the cheapest, handsomest and best Catholic paper published. Address,

Its pages are a weekly *brochure* of Sparkling Thought, Refined Fancy, Mature, Caustic, yet not unkindly criticism, and, its ideal being perfect impartiality, it has filled an honorable nook, the very existence of which has hitherto been denied by all whose view of criticism has been limited by professional advertisements. The reading matter of the ARCADIAN is furnished by the ablest writers, consisting of criticisms on current Art and Literary matters, and general Musical and Theatrical intelligence. The object of the publisher is to supply a refined and enterprising medium for the expression of timely views on æsthetic and social topics, and enlightened opinions on Literature and Art. The praise and support which have been given to our enterprise are universal and spontaneous. All that is now necessary for us to do is to assure subscribers and the public in general that the standard we have established shall be maintained, and that we shall continue to give liberal and lively attention to all new productions in the Literary and Artistic World.

TO ADVERTISERS.

# The Army and Navy Journal

OFFERS ADVANTAGES

To Certain Advertisers which are Presented by no other Weekly Newspaper in the United States. The Character and Extent of its Circulation May be Inferred from the Following :

- 1st. It is the ONLY MILITARY AND NAVAL JOURNAL in the United States, and supplies the Army, Navy, Marine Corps and Revenue Marine with complete official information of those services, and is a necessity to them. It is safe to say that it is regularly read by Every Army and Navy Officer in the United States, and all the more intelligent, prudent and thoughtful of the Enlisted Men of the two services are also its regular and careful readers. It is found in Every Camp and Garrison Reading Room for soldiers in the country.
- 2d. It stands, both at home and abroad, in the Very Front Rank of the Military Journals of the world.
- 3d. It is the OFFICIAL GAZETTE of the National Guard of the State of New York, and is the Standard Authority in the country on Militia matters, which secures its circulation among the Militia of Every State and Territory of the Union.
- 4th. It is the OFFICIAL JOURNAL of the National Rifle Association, an association which commands the pecuniary support of the State of New York, and attracts the attention of all who are interested in Rifle Shooting in all parts of the country.
- 5th. The number of enlisted men of the Army is 30,000; of the Navy, 10,000. The number of officers of the Army is 2,500; of the Navy and Marine Corps, 3,000. The National Guard of New York numbers 25,000, and in the different States the active Militia Force foots up to over 75,000. The appropriations of the U. S. Government for the year ending June 30, 1874, for the army and navy, amounted to over ninety-seven Millions of Dollars.
- 6th. It also circulates largely among Ex-Officers of Volunteers of our late war, both North and South.
- 7th. Its Foreign Circulation is large and of a character probably not equaled by that of any other weekly journal in the country. It is on file at every War and Navy Office of Europe, and includes among its regular subscribers the most famous soldiers and military students of the Old World.
- 8th. The Circulation of the JOURNAL is therefore among men of assured incomes who are able to buy what the advertiser may have to sell, and among classes whose wants are numerous and varied. The purchases annually made by the enlisted men alone of the Army, of one house advertising in the JOURNAL, amount, we are informed, to many thousand dollars' worth.
- 9th. The ARMY AND NAVY JOURNAL, besides goes extensively into the Families of Officers and Soldiers and Sailors as an indispensable guide to the movements of relatives and friends.
- 10th. The advertisements in the JOURNAL are set in clear, conspicuous type, with special reference to taste and attractiveness.

Among the classes of advertisers who will specially find their profit in using the columns of the ARMY AND NAVY JOURNAL are :

Gun Manufacturers; Dealers in Military and Naval Goods of all sorts; Hatters; Tailors; Inventors of Military and Naval Contrivances; Dealers in Potted Meats and Desiccated Goods; Grocers, Wine and Liquor Merchants; Cigar Dealers; Gentlemen's Furnishing Goods Dealers; Shoe-makers; Dry Goods Dealers; Publishers and Booksellers; Jewelers; Life Insurance Companies; Dealers in Fancy Goods, and others.

The constituency of the ARMY AND NAVY JOURNAL among these several classes is represented by the best known houses, as will be seen by a reference to the paper.

The ARMY AND NAVY JOURNAL's circulation is one of the stablest of any weekly newspaper in the United States. It is steadily increasing. Its advertising patronage is larger than that of any other professional paper in the country.

**AN ILLUSTRATED PAPER IN THE PORTUGUESE LANGUAGE.**  
 PUBLISHED MONTHLY IN NEW YORK, ON THE EVE OF THE SAILING OF THE  
 REGULAR MONTHLY PACKETS OF THE ST. THOMAS AND BRAZIL LINE.

**This Paper Circulates Principally in Brazil.**

"It is one of the handsomest papers published, its illustrations being fine, large and exquisitely printed."—*The Boston Post*.

"O Novo MUNDO continues to deserve the highest commendation. Its influence cannot fail to be in the highest degree salutary in promoting a kindly intercourse with Brazil, by making its people acquainted with the resources and progress of the United States."—*The Evening Post, N. Y.*

"The illustrated Portuguese paper, O Novo MUNDO, which is published monthly for dissemination in South America, is doing exceedingly good work. Its selections of illustrations are admirable, and it has the mission in its reading matter of increasing the knowledge of this Con-

tinental, and cultivating friendly relations between us and Brazil."—*The Evening Mail, N. Y.*

"We must pronounce O Novo MUNDO a very respectable enterprise, abreast of the times, and ably edited. That it will be a valuable medium for spreading still further knowledge in Brazil of the products of American invention and skill, already so popular there, we have no doubt."—*The Nation, N. Y.*

"Without being asked, we venture to recommend, as we have done already more than once, O Novo MUNDO, the illustrated Portuguese (Brazilian) newspaper, whose office is in the Times building. It has, by the way, entered upon its second year. Its editorial articles are numerous, thoughtful, enlightened, and in the best sense of the term religious."—*The Nation, N. Y.*

## La America Ilustrada.

**AN ILLUSTRATED JOURNAL IN THE SPANISH LANGUAGE.**  
 PUBLISHED TRI-MONTHLY, ON THE EVE OF THE SAILING OF THE REGULAR.  
 SOUTH AMERICAN PACKETS.

"LA AMERICA ILUSTRADA is the name of a new illustrated paper, published by J. C. Rodrigues, New York. It is published in the Spanish language, tri-monthly, on the eve of the sailing of the South American packets, for circulation in the Spanish-speaking countries to the south of us. The second number has just been issued, containing fine engravings and excellent reading that cannot fail to make it a popular success. It compares favorably with any of our American productions."—*The Boston Post*.

"LA AMERICA ILUSTRADA is the title of an illustrated Spanish Journal published in New York. The first number is before us, and we must confess that for richness and variety of engravings, typographical neatness and general appearance, it surpasses any of the illustrated Eastern weeklies published in English. The tropical and Oriental artistic sketches have great warmth and life-like power. As a literary journal, LA AMERICA ILUSTRADA takes high rank. Among its special contributors are such eminent Spanish-American writers as Senora Juana Manso, member of the Committee of Public Instruction of Buenos Ayres—a noble woman, whose labors have been incessant in the cause of popular education; Hon. Antonio Flores, Minister of Ecuador in Washington; Professor Mantilla, of New York University; Don José Antonio Calcano, a member of the Spanish Academy, and the most distinguished of South American poets. Other writers of no less distinction contribute to its columns. This new journal covers the fields of literature, philosophy, politics, education, arts, science and commerce, and has for its special object the diffusion among Latin Americans of 'those politi-

cal and social principles which have raised the United States to its actual splendor.' Not only Spanish-Americans, but every person speaking the rich, beautiful and vigorous Spanish language, will find LA AMERICA ILUSTRADA a fountain of intellectual wealth and artistic beauty. Published by J. C. Rodrigues, New York."—*San Francisco News Letter*.

"Perhaps the most elegantly-printed newspapers in America are O Novo MUNDO, a Portuguese illustrated monthly, published by J. C. Rodrigues, New York, for the Brazilian public, as well as for readers of Portuguese here; and a Spanish tri-monthly, LA AMERICA ILUSTRADA, of the same size and general character, and published by the same firm, for the Spanish-speaking Americans. Both use the plates of engravings designed for European and American illustrated papers; for instance, THE NEW WORLD of February 23, has the fine portrait of Charles Sumner, that appeared originally in *Every Saturday*, as well as a larger portrait of the Brazilian Viscount of Itaboraity; and ILLUSTRATED AMERICA, of February 29, has an English head of Gladstone, and an American one of Bryant. The editorial contents of both papers are more than respectable, and in the Spanish one much space is given to poetry and literature. We notice there a paper on the famous romance of chivalry, 'Tirante, the White,' ironically complimented by Cervantes. The Spanish journal contains also a letter from Donna Juana Manso, at Buenos Ayres, and verses by two Cuban poets and a Venezuelan. The Portuguese journal (Brazilian rather), gives much space to the quarrel between England and the United States."—*Springfield Republican*.

# CORNER STONE

A JOURNAL OF  CURRENT EVENTS.

Entered according to Act of Congress, in the year 1870, by S. W. E. Beckner, in the Clerk's Office of the District Court of the United States, in the Southern District of New York.

VOL. V. NEW YORK, SATURDAY, MAY 10, 1873. No. 47.

With charity for none, but contempt for all—Frauds.

Advertise in the CORNER STONE, if your business calls for first-class patrons. We live by making our wants known, and always know what we want by seeing them ADVERTISED.

This, our CORNER STONE, is founded on a solid foundation of RIGHT, and we have the MIGHT to speak the sentiments of TRUTH.

**THE CORNER STONE.**

BY W. L. GARDNER.

What have ye there?  
A perfect square—  
An emblem of four own,  
First, last and least  
In the "North East,"  
A CORNER STONE.  
  
A firm, sound base,  
On which to place  
The Master Mason's throne,  
A pattern true  
Of what we do—  
A CORNER STONE.  
  
An upright man,  
Made by God's plan,  
Work that will stand alone;  
A monument  
Of life well spent—  
A CORNER STONE.  
  
Ho! Masons all,  
Obey the call,  
Let charity be shown;  
With precepts rare,  
Live by the square,  
A CORNER STONE.

**THE CORNER STONE.**

The above is the title of a sprightly weekly, published by S. W. E. Beckner, 636 Broadway, N. Y. It is devoted principally to Masonic and Theatrical News, and presents an elegant appearance.—"California Spirit of the Times."

The "Corner Stone" is one of the liveliest weeklies extant. It grows steadily in size, merit and public favor.—"N. Y. Republican."

The sparkling little "Corner Stone," of New York City, comes to us as an exchange. It is not a "rough ashlar" either, but a polished gem of the first water, and "square" at that. May its superstructure continue to rise steadily on its present foundation, until it shall rear its lofty head in eternal sunshine.—"Arcanum Ark," Philadelphia.

Publisher CORNER STONE,  
636 Broadway, N. Y.

The New York CORNER STONE is largely circulated.—*Extract from Affidavit in the Supreme Court, before Judge Cardozo, July 12, 1871.*

The "Corner Stone," devoted to Masonry, the Drama, Fine Arts and the working classes. Typographically it is a success, and no doubt suits the masses.—"N. Y. Express."

The "Corner Stone," published at 636 Broadway, New York, comes to us in a new and appropriate dress. It discusses all questions relating to the present age in a straight-forward and justifiable manner. It is also devoted to the interests of Masons, Theatians, and to the people in general. We bespeak for it an extensive patronage.—"Ours Illustrated," Providence, R. I.

The spiciest, wittiest and most entertaining paper is the "Corner Stone," devoted to Masonry, Theatricals and general intelligence. Liberal in its views, and discusses all points from an independent standpoint. It is truly a masonic organ, and very acceptable to the fraternity.—"Utica Daily Bee."

We have lately added to our exchange list the "Corner Stone," published at 636 Broadway, New York. It is neatly gotten up, has a taking head and title, shows brains all through, deserves success, and we wish for it an unlimited prosperity.—"Green Room," New Haven, Conn.

The "Corner Stone," published at 636 Broadway, every Saturday, by S. W. E. Beckner, is a pretty little sheet devoted to Masonry, Fine Arts and the Drama. Though small, it contains a large amount of reading matter, being set in solid type.—"New York Sun."

The "Corner Stone" is saucy, wide-awake and thoroughly independent; it "goes for" all corruptionists, high and low. Its character is a sure guarantee of success.—"New York Herald."

It would pay the readers of our paper in Utica, whether masonically inclined or not, to subscribe for the "Corner Stone," a masonic paper of real masonic truths, published in New York City. Its editor and proprietor is not only a Mason, but a man as well.—"Bee."

The "Corner Stone," a masonic weekly, published by S. W. E. Beckner, an educated Mason and past master, is a charming little paper, live to the issues of the times. It is bound to become a success, being cosmopolitan in character, but devoted to the interests of masonry.—"New York Evening Globe."

# The Sanitarian.

A MONTHLY JOURNAL.

A. N. BELL, M. D., Editor.

The purpose of this publication is to so present the results of the various inquiries which have been, and which may hereafter be made for the preservation of health and the expectations of human life, as to make them most advantageous to the public and to the medical profession.

The resources of sanitary science are inexhaustible. It is a chief object of the *SANITARIAN* to awaken public attention to the extent of the field, and to the facts indicating how beneficently it may be cultivated. This is done by showing the amount of ill health and mortality from preventable causes of disease; by pointing out the nature of those causes, and the way in which they operate, by showing that such causes are removable; and by exhibiting improved health, longevity and happiness as the fruits of their removal.

The laws of physiology and general pathology are kept in view, as the basis of health; and by which hygienic constitutes a department of science which the medical profession can advantageously share with the public, or apply to individuals according to circumstances.

The practical questions of State Medicine: the health of armies and navies, marine hygiene, quarantine, civic cleanliness, water supply, drainage and sewerage. Sanitary architecture: light, space, warming and ventilation. Climate and domicile: epidemic, endemic and hereditary diseases. Occupation, exercise and habits, food and beverages, in all varieties of quality and quantity. In short, whatever thing, condition or circumstance is *en rapport* with or antagonistic to, the most perfect culture of mind and body are considered legitimate matter for the *SANITARIAN* to discuss, advocate, condemn or reject at the *bar of health*. Advertisements fall under the same category, none are admitted of even questionable character in this regard.

### Opinions of the Press.

"The Sanitary question is now uppermost in the public mind, and it is gratifying to see that the discussion of it is not going to be kept as a "mystery" in the medical profession. Every human being is concerned in this matter; and, if sanitary science has any suggestions to make, they must be made directly to the people themselves. This is what the periodical before us aims to do, and this it is doing well."—*Popular Science Monthly*.

"As its name implies, *The Sanitarian* is devoted entirely to Sanitary Science, in its liberal and proper sense. The field it occupies is a most important one, and the editor admirably qualified for the work he has undertaken."—*Medical Examiner*.

"A review of *The Sanitarian* induces us to repeat, that the appearance of a Journal of this character cannot be regarded with too much favor. Consistent with his announcement, Dr. BELL seems to have spared no pains to secure for the journal the continued approbation of the public, by treating in a clear and yet comprehensive manner of subjects with which the public are directly interested, and the importance of which cannot be overestimated."—*Appleton's Journal*.

"*The Sanitarian* ought to be in every family, on account of the practical common sense manner in which it treats questions of public and private health."—*The National*.

# The Christian Cynosure,

ORGAN OF

THE NATIONAL CHRISTIAN ASSOCIATION, OPPOSED TO SECRET SOCIETIES.

A RELIGIOUS, UNDENOMINATIONAL JOURNAL.

Weekly Edition, \$2. . . . { Per Year. } . . . Fortnightly Edition, \$1.

THE Special AIM OF THIS PAPER IS TO GIVE COMPLETE AND INTELLIGENT INFORMATION OF THE OPERATIONS OF THE "NATIONAL ASSOCIATION," GIVING ALSO THE Arguments WHICH UNDERLIE THEIR EFFORTS.

THE CHRISTIAN CYNOSURE, teaches that "God alone is Lord of the conscience and hath left it free from the doctrines and commandments of men;"—that Christ is the only Lawgiver, and the Bible the only law, in religion.

Hence, all attempts to bind the conscience, even to good, by secret and intimidating or solemn oaths, pledges and ceremonies, are impious rivalships of the religion of Christ, and when salvation is promised by the human rites and precepts of such "orders," they are substitutes for the **Atonement**, and attempts to cut the only connection between Man and his Maker.

It maintains that **Secret Centralized Societies** are in their nature different from, and **opposed to popular government**, and that their oaths and extraordinary obligations should be suppressed by law; and that **foresworn men** are disqualified for jurors and unfit to legislate, or to execute laws for a free people.

In the words of the National Platform—"We hold that ours is a Christian and not a heathen government; and that this fact should be recognized in its organic law," and "That God requires and man needs a Sabbath."

It considers the attempt to single out the Bible from all other books and exclude it from our national schools, a national insult to God which must invoke his displeasure.

VALUABLE MISCELLANEOUS FAMILY READING; A CHILDREN'S COLUMN; RELIGIOUS AND GENERAL NEWS; MARKET REPORTS, ETC., ETC., ARE FOUND IN EVERY NUMBER.

THE LEADING NEWSPAPER WEST OF NEW ORLEANS.

---

Has an extensive circulation in the Parishes of St. Mary, St. Martin, Iberia, Vermillion, Lafouche, Terrebonne and Assumption.

Located at Brashear City, the terminus of Morgan's Louisiana and Texas Railroad, and Morgan's line of ocean steamships, which ply daily between Brashear City, Galveston, Indianola, Rockport, Havana and other ports; the terminus, also, of the Atchafalaya Mail Transportation Steamers, which ply between Brashear City, New Iberia and St. Martinsville, carrying passengers, freight and the United States mails.

Since the great success achieved by Mr. Charles Morgan, of New York, in digging a channel through the mouth of the Atchafalaya Bay, that will admit vessels drawing fifteen feet of water to the port of Brashear, it has become the entrepot of a large number of sail vessels from New York and other ports, coming after sugar, live oak, oranges, etc., Brashear has grown within the past year from a little village to a town of three thousand inhabitants, and the population is daily increasing.

The NEWS, with a circulation of over fourteen hundred weekly, has established a reputation unparalleled in this section of the country; it is acknowledged to be the leading journal west of New Orleans in all enterprises, and one of the handsomest papers in the country. Its folio in form contains twenty-eight columns, size 24x36. Established upon the firmest financial basis; cost is never pitted against importance; Conservative in politics; devoted to the advancement of all the material interests of the Commonwealth of Louisiana. As an advertising medium it offers unusual facilities, having a large and increasing circulation throughout the Atchakapas Parishes. Business will be conducted upon the basis of prompt payments and low rates.

In connection with the NEWS the editor and publisher carries on a large real estate agency, and has for sale a large quantity of sugar and cotton lands in different parts of the State. Persons wishing information about the purchase or sale of real estate in Louisiana will have their inquiries promptly answered by inclosing postage stamp.

## The New Orleans German Gazette.

The undersigned, Proprietor of the "German Gazette," published daily and weekly, begs leave to call your attention to the great advantages offered to merchants, mechanics, and business men in general, by availing themselves of the columns of his paper for advertising purposes.

Every business man of experience is aware of the enormous benefits derived from an advertisement published in a newspaper of large circulation.

The GERMAN GAZETTE is now in its twenty-fourth year of prosperous existence, and has a "far larger circulation than any other German publication throughout the South." It is read in every German household, consulted by every business man of that nationality in this city and all over the South, especially in Louisiana, Texas, Mississippi and Alabama.

It is well known that numerous German merchants and mechanics are scattered throughout the country, who naturally look to a newspaper published in their native tongue for information relating to their business necessities. The GAZETTE is therefore an advertising medium suited to the interest of every business man.

OFFICE OF THE

**Wisconsin Lumberman,****62 Oneida St., Grand Opera House,**E. B. NORTHROP,  
H. A. CHITTENDEN, Jr., } Editors.

MILWAUKEE, WIS., 1874.

*Gentlemen:*

Your attention is invited to the accompanying description of the WISCONSIN LUMBERMAN:

This production is no longer an experiment. It has already attained sufficient patronage to insure its maintenance at its present standard for the year 1874. We mean, however, to continue the ratio of improvement which has marked our efforts thus far. Although one of the youngest, we claim that the WISCONSIN LUMBERMAN is one of the best publications of its class.

Being a "class publication," and first-class at that, it affords communication to eastern manufacturers of machinery and dealers in merchandise with a class of extensive and liberal consumers *which they can reach by no other means.*

Our circulation in the six pineries of Wisconsin, on both sides of Michigan, among manufacturers on the Mississippi and dealers in Milwaukee, Chicago and St. Louis, is such as to incline us to believe that your business would derive advantage by advertising with us.

We offer, in the shape of a discount from our published advertising rates, twenty per cent., corresponding to agents' commissions, on all business transacted directly with this office, in person or by mail, and a further discount of five per cent. on all payments in advance.

We shall reserve the right to increase our published advertising rates at any time—not to affect contracts previously taken.

There is no discount from our subscription price, which is \$2 a year, as we believe the Lumberman's Register alone will be worth that sum to eastern business houses dealing with Lumbermen in the North-West, as well as to every one engaged in the manufacture or sale of lumber.

South Bethlehem, is situated at the foot of Lehigh Mountain, Lehigh Valley. The healthfulness of our future city is insured. A region of charming scenery, the attractiveness of our homes to strangers will ever be a source of satisfaction and profit. Our immediate vicinity and about us, is acknowledged by all to be the richest in needful minerals of any section of the United States, if not of the world. With our four railroads with their many close connections and cheap freights to carry raw and manufactured freightage, a canal of good capacity and a river capable of being converted into the finest, most useful, necessary and profitable ship canal in the world, our means of transportation, north, south, east and west, are unsurpassed by any place possessing equal advantages. Surrounding wealth and facilities for manufacturing, and in addition, nearness to Atlantic shipping ports, and the Markets of New York, Boston, Philadelphia, and Baltimore, makes the future of this city most promising. We have the richest Zinc accumulations in the world. Between here and Mauch Chunk, in Northampton and Lehigh counties, are inexhaustible deposits of iron-ore, and near by, mountains of coal and slate await our demands. We have large quantities of good stone for several purposes, and plenty of limestone also. 34, 36 and 38 Fulton Street,

BROOKLYN, N. Y.

Brooklyn has now a population of over 450,000, and Long Island of nearly three-fourths of a million. The EAGLE was established when Brooklyn was but a village. It has been the only organ to advocate its interests. It has in turn shared the city's prosperity, and has secured an influence second to no journal in the country.

ITS CIRCULATION IS LARGER THAN THAT OF ANY OTHER EVENING PAPER IN  
THE UNITED STATES.

Independent in politics, its specialty is in carefully presenting the local interests of every class, organization and neighborhood upon the Island. New York papers cannot do this without sacrificing country subscribers.

Advertisers who desire to reach this immense and compact population, equal to that of all the Pacific States, can only do so through the EAGLE.

Advertising is worth so much per 1,000 circulation. The EAGLE gives four times more circulation for the same money than is given by any other first-class journal in New York, San Francisco, New Orleans or Boston. It has reading matter upon each page.

# Troy Times.

THE N. Y. "GRAPHIC" SAYS:

**"The Most Widely-Circulated Daily in New York State, not Metropolitan, is the Troy Times."**

## ADVERTISE IN THE BEST.

A dealer can make no better investment than in the advertising columns of a largely-circulated newspaper. The TROY DAILY TIMES circulates fully SIX THOUSAND FIVE HUNDRED *more papers than any other Journal* within a radius of ten miles around Troy, and it is safe to say there are not two hundred persons within this limit (who take any other paper) that do not take the TIMES. Twenty-five dollars will do a power of advertising in the TIMES. It will communicate any fact to all households in Troy, West Troy, Cohoes, Green Island, Waterford, Lansingburgh, and all villages along the lines of Railroads running out of Troy. If a dealer can offer inducements to the public, one announcement in a conspicuous column of the TIMES will communicate the fact to nearly ONE HUNDRED THOUSAND PEOPLE; and in no other way can the same publicity be gained for TWENTY TIMES THE AMOUNT.

**Circulation and Patronage Increasing.**

Labor being the basis of all civilization, the political management of all public affairs, and the considerations paid to officials for their services to the people, must be measured by the unit of the laboring man's dollar. The pulpit from which we must preach must be the plow handle; the rostrum from which we must proclaim must be the anvil and the workshop, and the text from which shall be drawn the burden of our discourse, must be "In the sweat of thy face shalt thou eat bread."

**A Partner Wanted** to add CASH capital enough to entitle him to a half interest, and remove this paper to some large city in the West.

Address,

**REFORM LEADER, Oskaloosa, Iowa.**

It reaches every Presbyterian settlement in the Territories and States west of the Mississippi River. It reaches nearly every post-office (school district) in Montana, Wyoming and Colorado; and a large number in Utah, Nevada, Arizona, New Mexico, Kansas and Nebraska. In five of these States and Territories it has a more even and widely-extended circulation than any of the local secular papers in the same area. It reaches a large number of the earnest Sabbath-School workers of the Territories. It reaches a larger number of those interested in building up the Common School System of the Territories than any other paper. It reaches a large number of intelligent readers in the mining and other frontier settlements and at the United States military posts, who, to a great extent, secluded from the outside world, keep pace with its progress by means of books and magazines, which they order by mail. It is the only Presbyterian newspaper between St. Louis and San Francisco, a distance of 2,000 miles. The constant and widely-extended trips (25,000 miles annually) of the Editor, as Superintendent of Missions, into all portions of the Territories, give him unequaled facilities for reaching and influencing the masses, extending the circulation of the paper and benefiting advertisers.

4. That the RECORDER circulates extensively in every part of Kentucky, and is distributed from every important post-office in the State.
5. The RECORDER has also considerable circulation in the surrounding States, particularly the Southern.
6. We limit our advertisements in character, to the solid, legitimate, substantial, business interests of the country.
7. That the RECORDER reaches forty to fifty thousand readers weekly.

**An Old Established Paper! A Certified Circulation! Largest Daily in the State!**

THE FIRST STEAM PRESS IN THE WABASH VALLEY!

It has published the cable and associated press dispatches for many years. It has a larger circulation than any other newspaper in Lafayette or Northern Indiana. When, under the old law, the letter list was awarded for the paper having the largest circulation, as certified under oath, the COURIER got the award for ten consecutive years. When, under the revenue law, newspapers having less than 5,000 circulation were exempt from tax, all the papers in Lafayette and Northern Indiana, except the COURIER, claimed the exemption. "I entered the press room and counted 4,600," is the published certificate of B. S. H. Good, formerly of Demas Barnes & Co., now of Good & Roof, No. 34 Broadway. "I consider the COURIER the best advertising medium in Indiana," is the unsolicited tribute of John D. Park, Cincinnati. As the COURIER never sends out solicitors to misrepresent the business of rival papers, this statement of facts from the record is made in simple vindication. We certify all the circulation we claim!

WOONSOCKET.....RHODE ISLAND.

On February 6th, 1874, THE PATRIOT was enlarged by the addition of one column to each page, making a Newspaper of fifty-six columns, or of the same size as the *New York Times* and the *Boston Daily Globe*. THE PATRIOT in its enlarged and improved form, is printed with new copper-faced types, from the celebrated "Dickinson Foundry" of Messrs. Phelps, Dalton & Co., Boston, and printed on a new double-cylinder press, built to order by Messrs. R. Hoe & Co., New York. The paper on which THE PATRIOT is printed is first-class, as heretofore. With these mechanical improvements, the Publisher hopes to present a Newspaper which, by reason of its plain and elegant print, will be a comfort to its fifty thousand readers. The general character of THE PATRIOT will remain unchanged, but improvements will be introduced, whereby its value to its patrons, will be largely enhanced. Its Publisher's aim will continue to be to make the "Old Pat" the Best Family Newspaper in the United States. As aforetime, it will continue independent of all Political Parties and all Partisan and Personal Cliques, approving Right wherever found, and condemning Wrong in whatsoever guise it may appear.

### To the Advertising Public.

THE PATRIOT has been published forty-one years without missing a day. As an advertising medium it has few equals in New England. No other country journal in the United States has so large a circulation (8,000), and it is constantly increasing. For terms apply to the Publisher, or to GEO. P. ROWELL & Co., New York.

### Subscription Terms—Strictly in Advance.

Single copies, one year, \$2 50. To clubs, five to twenty copies, \$2 00 each; twenty to fifty copies, \$1 75 each; fifty to one hundred copies, \$1 50 each.

## Chicago, Ill., Railway Review.

A Weekly Journal of Railway Progress and Manufactures, together with a Supplement, devoted to Railway History and Law.

Subscription.....\$3 00 Per Annum.

THE CHICAGO RAILWAY REVIEW is a weekly journal of 16 pages, and is now the only railway paper published in this city, and is the oldest journal of its class in the West.

Though bearing the name of the chief interior railway center in the United States, it still remains,—as, indeed it should for that very reason be,—a National medium of information in its specialty. And such has been its purpose from the first. The aim has been to render it a journal of news and opinion, embracing every topic and question relating to the railway interests of the country. A glance at its reading columns,—and, not less, at its advertising pages,—demonstrates its character in this respect, as a comprehensive, condensed, authoritative and fresh medium of all information of interest and use to all persons in any way connected with railway ownership, operation, finance and manufactures. It presents, each week, a full summary of railway operation and progress, with all needful information concerning foreign Roads; also a digest of facts, opinions and decisions in legislation and law; together with items concerning railway inventions and improvements, operation and finance, lands and settlement, manufactures and the construction of new lines, and the extension and improvement of old ones.

In its Editorial columns, which are full, varied, original and fresh, it aims at the unprejudiced discussion of the current railway "situation," in a manner at once considerate and independent,—favorable to all, partial to none who are in any way identified with this great branch of our country's progress.

As a matter of importance to advertisers, we give below a list of the cities and villages tributary to Cleveland in Northern Ohio and Western Pennsylvania, where the LEADER and EVENING NEWS are delivered by Carriers or sold by News Agents. To show the importance of these cities and villages in a commercial point of view, we give the reputed population of each.

From the above statistical statement, it will be seen that Cleveland has a larger number of tributary cities and villages than any other city west of the Alleghenies or the Hudson, and which also show a larger population than the cities and villages of an equal amount of territory adjacent to any city in the West. The total population of the above 76 cities and villages amounts to **351,400**, which added to the population of Cleveland, which is **140,000**, gives a grand total of over **491,500** population in which the LEADER and NEWS circulates. This will account for the exceedingly large circulation we have. The advertiser, we again say, will bear in mind that our papers are delivered by Carriers or sold by News Agents in all the above places.

#### Post Office Letter List.

Justice to the Publishers of the LEADER and NEWS, as well as to Advertisers, requires us to state that under a law of Congress, the Post Office Letter List is required to be given to the paper having the largest circulation within the Post Office limits, which service is to be paid for, unless another paper should offer to publish the list free, when in that case no compensation would be allowed. Accordingly the Letter List of the Cleveland Post Office was awarded to the LEADER as having the largest circulation, as shown by the sworn statement, both of that paper and the HERALD. The LEADER published the List, charging for so doing the regular price, when the HERALD offered to publish it free, for the purpose of conveying the impression that it has the largest circulation. This accounts for the LEADER and NEWS not publishing the List, they having no advertising space to give away.

#### THE WEEKLY LEADER.

The WEEKLY LEADER is a large 40-column paper, furnished for **\$1 25 per annum**, and circulates in all the above places, and in nearly every town in the Northern half of Ohio, and is one of the best mediums through which an advertisement will reach the farmer.

We therefore unhesitatingly recommend the WESTERN WEEKLY and its publishers to the favorable notice of business men and advertisers.

Every business man ought to patronize this paper as the very best advertising medium amongst the large Scandinavian population in Minnesota and neighboring States. A liberal advertising in the NORDISK FOLKEBLAD is unquestionably the cheapest and the surest way to get the **Scandinavian Trade. Try it!**

The half a million Scandinavians in this country consume as much merchandise for sustenance and comfort as the same number of any other nationality, but business men will have to advertise in the Scandinavian newspapers, if they want to obtain Scandinavian trade, as the Scandinavians generally read no other papers. The NORDISK FOLKEBLAD having a decided preference among the Scandinavian newspapers in this country as to age, reputation and circulation, we trust the great advantages of advertising in our paper will stand apparent to every sensible business man. The greatest part of Scandinavian business men in Minnesota, Iowa and Wisconsin, being agents for our paper, it would seem that advertising in the same might be of great benefit to wholesale dealers East and West. A liberal advertising in the NORDISK FOLKEBLAD is unquestionably the cheapest and the best mode to obtain the trade of this numerous and honest class of retailers.

## The Cincinnati Commercial

HAS BEEN ESTABLISHED THIRTY-TWO YEARS, AND CONDUCTED STRICTLY AS  
AN IMPARTIAL NEWSPAPER.

It is without the reproach of the friendship of Rings or the favor of Political Parties, but is compensated for the lack of the spoils of Jobbers and the patronage of Officials, by the GOOD WILL OF GOOD CITIZENS, and firmly holds the commanding position fairly earned, of the Independent and Leading Journal of the most Central of the Great Cities of the United States.

It is known to the well-informed that the center of population of the Nation is in South-western Ohio, a few miles east of Cincinnati. It is the good fortune of this City to be supported on all sides by a fertile country and prosperous communities; and through them all, to the extent of a full day's travel by rail, in each direction from Cincinnati, the COMMERCIAL is the favorite Newspaper.

The territory occupied by the constituency of the DAILY COMMERCIAL includes the Ohio Valley which comprehends the better part of half a dozen great States.

The circulation of this paper exceeds that of its immediate partisan competitors combined. IN THE AGGREGATE THE DAILY ISSUE IS THE LARGEST IN THE MISSISSIPPI VALLEY. It is far greater in Ohio than that of any other journal in the State; and equal in Indiana, Kentucky, West Virginia, Southern Illinois and Central Tennessee, to that of the most popular journals of those States.

The business reader will observe that the list comprises the splendid cities that are the Manufacturing, Commercial, Educational, Social and Political Capitals of Ohio, Indiana, Kentucky, and Tennessee, as well as of West Virginia and Southern Illinois, and many other places more remote.

It is the people of the highest intelligence and the largest means—those who have the most intimate relations with the world and are busiest in its affairs; the Professional Men, the Cultivated Women, the Educators, the Merchants, the Manufacturers; those who hold office, or are looking for it, and are, therefore, eager for all the news, and must take, in addition to an "organ" of the party, a paper that shows fair play with the public intelligence; those in the easiest circumstances and with the most liberal tastes—the prosperous, the pushing, the purchasing, growing people—the most productive classes, and those that consume most; who make up the bulk of the takers of this first-class paper—the general favorite in more than a hundred cities.

We present, with much confidence, the claims of the CINCINNATI COMMERCIAL to be considered the most valuable medium of advertising in the country, with perhaps, the exception of a few Eastern sheets of special recommendations, and taking into consideration the price, position, and classification of advertisements, and the extent and character of circulation, we feel warranted in saying that THE COMMERCIAL OFFERS EXTRAORDINARY INDUCEMENTS, not only to General Business Men, but to MANUFACTURERS, BOOK PUBLISHERS, SCHOOLS AND COLLEGES, AND DEALERS IN ARTICLES OF TASTE AND LUXURY.

A peculiarity of our daily distribution, that will strike those having some knowledge of Journalism and experience in business affairs, is, that large as the circulation of the COMMERCIAL is in Cincinnati, THERE IS A GREATER CIRCULATION OF THE PAPER OUTSIDE THE LIMITS OF THE CITY THAN WITHIN THEM.

It is not, then, Cincinnatians alone to whom the Eastern advertiser in the columns of the COMMERCIAL addresses himself, but the people of the vast valley of the Ohio—the center of the country and the heart of the continent. Certainly it is the richest field within reach in which to seek for generous customers who appreciate all the good things of the world.

Has a large and steadily-increasing circulation, not only in Maryland, but also in the adjoining sections of West Virginia and Pennsylvania. The great rolling mills of the Baltimore and Ohio railroad company, Thomson & Paxton's Steel Works, and other prominent manufactures are located at Cumberland, which is the best point on the Baltimore and Ohio Railroad between Baltimore and the Ohio River, being the terminus of the Pittsburgh, Washington and Baltimore Railroad (Connellsville route), Cumberland and Pennsylvania Railroad, Bedford Division Pennsylvania Railroad, Eckhart Branch Railroad, and Chesapeake and Ohio Canal. It is a growing city in every respect.

# The Christian Observer

IS ONE OF THE

**BEST ADVERTISING MEDIUMS IN THE SOUTHERN OR SOUTH-WESTERN STATES.**

There are very few papers in the Southern half of our country that rival it in circulation. It is sent every week to nearly **Two Thousand Five Hundred Post-Offices**, and is read by probably **Sixty Thousand** readers. Its subscribers are generally among the more intelligent and wealthier classes of the community—the well-to-do Farmers, the Manufacturers, the Business men, Lawyers, and Physicians—leading men. A calculation has been made showing that at a moderate estimate, **Thirty Millions of Dollars** are expended annually by its readers. And it is reasonable to suppose that a portion of this sum will be expended with those manufacturers, publishers, schools and business men, who obtain an introduction through the columns of a favorite family paper.

The CHRISTIAN OBSERVER is the **Oldest Religious Paper in this Country.** It has consolidated or absorbed a large number of religious papers. In 1813, the *Christian Remembrancer* was started in Philadelphia, at the instance of Dr. Archibald Alexander; in 1816, the *Evangelical and Literary Magazine* in Richmond, Va., and in 1822, the *Family Visitor*, in the same City, by Rev. Dr. J. H. Rice; in 1826, the *North Carolina Telegraph* by the Rev. Dr. R. H. Morrison (Gen. Stonewall Jackson's father-in-law); in 1827, the *Western Luminary*, at Bardstown, Ky., which was subsequently removed to Cincinnati, by Rev. Dr. John Breckinridge; in 1834, the *Standard* in Cincinnati, by Rev. Dr. Wilson; soon after, the *Western Presbyterian Herald*, in Louisville, Ky., and at later date the *Presbyterian Witness*, at Knoxville, Tenn. All these papers and their successors have been consolidated, and are represented in the CHRISTIAN OBSERVER, with its principal office in Louisville, Ky., and its branch office in Richmond, Va.

The CHRISTIAN OBSERVER is an admirable medium for reaching nearly all parts of the southern and South-western country. It goes into nearly every Presbyterian congregation in this region. It is taken by the most educated intelligent and cultivated classes. It is a good advertising medium for Publishers, Schools, Manufacturers, Dealers—for everybody who wants to communicate with these classes of the community.

## The Advance.

1874.

WIDE-AWAKE PAPER FOR THE FAMILY.

1874.

**Its National Reputation** as a live and fearless advocate of Christian progress is not better founded than its claim to reliability and "soundness in the faith." **Improved Facilities** enable the publishers to offer new inducements to subscribers. It is proposed to make the paper more valuable and interesting, if possible, for 1874, in all its departments. The ablest and best writers of the country will not only appear as contributors, but will speak through the *Editorial Columns*. **A New Feature** will be our monthly Illustrated Bible Studies, adapted to the wants of those using the International Series of Lessons. The comments are valuable alike to teachers and scholars, while the other reading matter and illustrations will be particularly attractive to youth who have outgrown the children's papers. This is given away as a premium to "THE ADVANCE" subscribers, and is an attractive and valuable periodical. The space hitherto devoted to comments upon the Sunday-school lessons is gained for other interesting matter. We publish, also, eight-page **Lesson Leaves**, prepared by representatives of different denominations, containing besides the usual question helps, &c., new music and a concert exercise or Bible picture. One leaf of two pages can be distributed separately each Sunday.

**Terms of Subscription, \$3 per Annum, in Advance.**

**HARD TIMES OFFER.**—For a club of two or more subscribers, \$2 50 each, without premiums. **ADVANCE**, with chromos and mats, ready for framing, \$3 40. **ADVANCE**, with Illustrated Bible Dictionary, \$3 75. **ADVANCE**, with large Library Map, \$4 00. These prices include expense of delivery. We have an extensive Club List at special rates, with the principal weekly and monthly juvenals and other periodicals and newspapers.

N. B.—An enterprising agent wanted in every county in the United States. Liberal Cash Commissions allowed. Samples free.

**C. H. HOWARD & CO., Publishers, 151 and 153 Fifth Avenue, Chicago, Illinois.**

## Illustrated Bible Studies.

A BRIGHT AND ATTRACTIVE PAPER FOR YOUTH.

**The Most Economical Periodical for Sunday-School Teachers, Bible Classes and Older Scholars. Unsectarian.**

The **BIBLE STUDIES**, issued monthly, is the most helpful paper for teachers, in preparing the lessons of the **INTERNATIONAL SERIES**, yet brought before the public; and by its illustrations, incidents, and articles specially prepared, it is made particularly attractive to the youth who have outgrown the children's paper. The best talent obtainable is employed, and articles are presented from the most prominent writers and Sunday-school workers of all denominations. The large Dore Bible pictures and others of rare merit, illustrative of the lessons, form a feature unrivaled by any other kindred periodical. Issued at the beginning of each month, it contains the lessons for the ensuing Sabbaths. **The Lesson Leaves**, one copy of which is given away with each of the "Studies," are superior to anything of the kind yet published. They have eight pages, and contain, besides questions and notes, new songs, and at intervals a Concert Exercise, and a map or other engraving. These we supply without the "Studies," at one cent each; or, for 100 or more at a time, at 75 cents per 100. **The Subscription Price** of the **ILLUSTRATED BIBLE STUDIES** is \$1 00 per year in advance. Our premium and Club offers are unequalled, either as to attractiveness or economy. **The Bible Studies and two Beautiful Chromos.**—On receipt of \$1 00, and 15 cents for postage and mailing, we will send one copy of the **BIBLE STUDIES** one year, and a pair of our charming Floral Crosses. On receipt of 25 cents extra, that is, \$1 40 in all, we will send the chromos, post-paid, in elegant oval and gilt mats, which are needed in framing. **What They Say.**—"I have examined the 'Summer' and 'Autumn' Floral Crosses, and regard them as unequalled in taste and beauty by any works of art in the same line thus far produced."—W. C. Gray, Editor of **THE INTERIOR**. "I take pleasure in uniting with my friend Mr. Gray, in what he says of the premium chromos. I have seen nothing of the kind which seems so charming, either in the conception or the execution."—J. A. SMITH, Editor of the **STANDARD**. "We all admire the 'Crosses' very much indeed. They are elegant in design and beautiful in coloring. Two real gems, and perfect treasures."—Mrs. W. B. Donkersley, Paterson, New Jersey. "The Floral Crosses are beautiful."—Schuyler Colfax. **The Bible Studies and Smith's Bible Dictionary.**—On receipt of \$15 00 we will send ten copies of the **BIBLE STUDIES** one year, and ten copies of Dr. Wm. Smith's celebrated Bible Dictionary. The regular price of the Dictionary is \$3 00. No teacher should be without it.

**Cheap Club Rates.**—On receipt of \$7 50 we will send to any one address 10 copies of the **Bible Studies**, without premium, one year, *i. e.* at 75 cents each. On receipt of \$15 we will send to any one address 30 copies of the **Bible Studies**, without premium, one year, *i. e.* at 50 cents each. On receipt of \$20 we will send to any one address 50 copies of the **Bible Studies**, without premium, one year, *i. e.* at 40 cents each. N.  better than in any paper published in the Country. **KERN, STEBER & CO.,**

**TO ADVERTISERS.**

**The Prairie Farmer,**

The ablest and best-established agricultural journal at the West, is published with special reference to meeting the wants of the industrial people of the West, and, therefore, more nearly interests this class than any journal published at the East and designed specially for Eastern readers.

Hence, while **The Prairie Farmer has by the far the largest circulation of any agricultural paper issued West of New York,** it is more thoroughly read and more carefully preserved by Western men than any Eastern journal.

Its circulation is distributed among the most intelligent, enterprising and thrifty farmers and industrial people, who are able to buy and will buy the best of everything that their business or other necessities require.

There is no inventor or manufacturer of staple articles at the West, nor any dealer therein, who does not advertise in its columns; and there are none at the East who can afford to overlook the advantages it affords.

With **THE PRAIRIE FARMER** advertising is not the main source of revenue, and hence the publishers exercise the right to discriminate between the valuable and the worthless, receiving no advertisement that would do discredit to its columns, but only such as may be of interest and use to its patrons.

**THE PRAIRIE FARMER** is published weekly, with clear type, on good paper, and for neatness of appearance stands unrivaled by any journal in the country.

New advertisements are carefully indexed, and all others classified under appropriate headings, both for the benefit of advertisers and the convenience of readers.

## The Pittsburgh Daily Dispatch.

AN INDEPENDENT REPUBLICAN JOURNAL.

PITTSBURGH.....PENNSYLVANIA.

Established February 8, 1845.

HAS NOW A CIRCULATION OF NEARLY 15,000.

As a Medium through which to Influence Business from Western Pennsylvania,  
Eastern Ohio and West Virginia, is not approached  
by any other Paper in the State.

The DISPATCH is a large four-paged paper, containing thirty-six columns of matter; and as regards business, circulation and influence, occupies the same position here as the *Herald* does in New York, the *Ledger* in Philadelphia, the *Tribune* in Chicago and the *Commercial* in Cincinnati. It is a first-class journal in all respects; and Eastern merchants desirous of influencing Western trade cannot advertise their business through a better medium. In a late article on the Press of Pennsylvania, published in the Philadelphia *Proof-Sheet*, the following allusion to the DISPATCH occurs: \* \* \* "The DISPATCH is printed on a Hoe four-cylinder rotary press, purchased at a cost of about \$20,000. It makes a specialty of local news, and has long been an institution of the City of Pittsburgh. Its daily circulation is over 14,000, and it has a highly lucrative and steadily-increasing advertising patronage. The DISPATCH is conducted on the strictest business principles, and is undoubtedly the most valuable newspaper property in the State outside of Philadelphia."

---

## The Weekly Dispatch

Is same size as the daily, and conducted on the same independent principles. Its circulation is over 8,000, and is well diffused through western Pennsylvania, Eastern Ohio, West Virginia and the adjoining States. It is a choice family journal, and, being published at the low price of \$1 a year, in clubs of ten, it is a popular paper with the masses, and its circulation is consequently steadily on the increase. For reaching traders, merchants, etc., in the States named, no better medium can be used. For advertising rates, apply to

And for the general advertiser, its rates are believed to be lower and more advantageous than those of most of its contemporaries.

Among the objects of this paper are the following: To collect facts and incidents gathered from experience in reference to domestic animals. To show how the abuse of dumb animals of any kind becomes a wrong, not only to the creatures themselves, but to their owners. To expose the various methods of cruelty prevalent, especially in large cities, by which horses, cattle, swine, fowl, etc., are often unthinkingly maltreated and tortured. To show how such treatment affects in reference to our food supply, the health of the community, and sows the seeds of disease. To call public attention to the overcrowding of cattle, swine and fowl in freight cars, and allowing them to suffer for want of food and drink during transit. To demand a closer legal inspection of slaughtering establishments, meat-markets and stock-yards. To instill these sentiments into the minds of the children and youth. And generally to arouse public sentiment to the growth of these evils, and the necessity for a remedy, until the proper laws shall be enacted, and enforced by courts, juries, policemen, and officials generally. The attention of clergymen, teachers and all classes interested in this cause is earnestly invited to this reform, which knows no party, section, or sect; but appeals to the humanity and justice of all mankind.

PUBLISHED DAILY AND WEEKLY, BY CLARK W. BRYAN & CO.,

**SPRINGFIELD.....MASSACHUSETTS.**

**Daily, \$7 a Year; Weekly, \$2 a Year.**

It is the only evening paper in a city of 30,000 inhabitants, and has a larger circulation than any daily of its kind in Western Massachusetts. Its edition has more than doubled during the past two years, and is constantly on the increase. It is, without doubt, the best advertising medium in the city, its low price placing it within the reach of every family, however humble their position. The WEEKLY UNION, a large quarto, eight-page sheet, published every Friday, is made up from the choicest selections from the DAILY, and contains more reading matter than any news paper in New England, out of Boston. Within a circle of twenty miles about Springfield there is now a population of 150,000, which is rapidly increasing. The UNION, which has been in successful existence for ten years, circulates largely among this population, as well as in the border towns of Connecticut and Vermont, and is the best advertising medium, considering its low rates, that is to be had in the State.

DAILY AND WEEKLY,

HERALD PUBLISHING CO., PUBLISHERS, ALLENTOWN, PENNSYLVANIA.

Daily, \$5.50; Weekly, \$1.50 per Year, in Advance.

THE AVERAGE CIRCULATION OF THE MORNING HERALD IS 2,400 COPIES DAILY.

A dealer can make no better investment than in the advertising columns of a largely-circulated newspaper. A good advertisement in a widely-circulated newspaper is the best of all salesmen. An advertisement in a good, widely-circulated newspaper is a faithful salesman, who never slumbers. It is talking for you all over the country, night and day. The MORNING HERALD has the largest circulation of any daily paper in the Lehigh Valley. Circulation outside of Allentown, in this and adjoining counties, larger than any two dailies published in this city. We will make the WEEKLY HERALD the most complete and interesting chronicler of events local to this part of Pennsylvania that has yet been published. We want it to carry into the farm houses, the hotels, the workshops and all the homes of the country hereabouts such a knowledge of current questions of State and national importance, as may be gathered from a consideration of the views of the most eminent writers on both sides of such questions.

THE BEST ADVERTISING MEDIUM IN THE SOUTH. CONSULT THE PUBLISHERS FOR RATES.

**Voice of the Press.**

Permeating, as it does, every section of the South, it has no equal as an advertising medium.—*Atlanta, Ga., Granger.*

With such a Baptist population as Georgia claims, to say nothing of Alabama and Middle Tennessee, THE INDEX ought to have fifty thousand subscribers.—*Texas Baptist Herald.*

The organ of the Baptist denomination, with no competition of note, it will be strange if its subscription list does not number more than any journal in the South.—*Monroe, Ga., Advertiser.*

THE CHRISTIAN INDEX.—It is a large, eight-page paper, beautifully printed, and ably edited, with perhaps as able a corps of religious contributors as any paper published in our country, North or South.—*Quitman, Ga., Independent.*

THE INDEX AND BAPTIST is in quarto size, filled to the brim with denominational information, doctrinal, religious and miscellaneous reading matter, with several columns of news items from different sections of the country.—*Eatonton, Ga., Messenger.*

THE CHRISTIAN INDEX, published at Franklin Steam Printing House, Atlanta Georgia, is becoming the most popular Baptist periodical in the South. It is conducted with commendable enterprise, and is posted in all matters of importance transpiring among the Baptist fraternity.—*Christian Family Companion, Dale City, Pa.*

THE CHRISTIAN INDEX.—This pioneer Christian journal is published at Atlanta Georgia, by Jas. P. Harrison & Co., at \$2.50 per annum. The INDEX is a large eight-page, ably-edited and neatly-printed paper, devoted principally to the cause of the Missionary Baptist Church of Christ. It contains, however, a large amount of literary and agricultural matter, and general and State news. Its editors are all men of much ability, and we have no hesitancy in saying THE INDEX is one among the best religious papers published.—*Randolph, Ala., Enterprise.*

A splendid specimen of journalistic taste and enterprise.—*Rome, Ga., Courier.*

THE INDEX is one of the very best religious journals in the country.—*Atlanta, Ga., Sun.*

THE INDEX has been for years the leading Baptist paper of the South.—*Atlanta, Ga., Herald.*

Really a most excellent Baptist paper, one of the very best.—*Hartford, Conn., Christian Secretary.*

One of the very best denominational papers published in the United States.—*Albany, Ga., News.*

It has a wide field for its circulation and merits a generous patronage.—*Christian, Mass., Secretary.*

A capital Baptist paper, greatly enlarged and improved making it the equal of any.—*Baltimore, Md., Episcopal Methodist.*

THE CHRISTIAN INDEX has been changed from the folio to the quarto form, and vastly improved. It is one of our most attractive exchanges.—*Western Recorder, Louisville, Kentucky.*

To our mind it is the very best among the entire list of papers published in the interest of the Baptist church, and will compare favorably with the ablest and best of the whole Christian family.—*Mountain Eagle, Ala.*

THE INDEX is one of the old established and able papers of the denomination. In point of size, convenient form, and beauty of mechanical execution, it is without an equal in the South, and not surpassed by similar publications anywhere.—*Atlanta, Ga., Commonwealth.*

THE CHRISTIAN INDEX.—This journal offers to Western Merchants and Manufacturers, inducements equal to any other similar publication. Issued in Atlanta, Georgia, and patronized by a denomination numbering 250,000 members; circulating freely throughout the States of Georgia, Alabama, Florida, Tennessee, North and South Carolina, it represents an extensive field.—*New Orleans Picayune.*

**ANY ONE SENDING \$6 00, BY MONEY ORDER OR CHECK, WILL RECEIVE**

**The Presbyterian for One Year, Price \$2 50;**

The *Republic Centennial*, a pictorial monthly, \$4, and any one of the following \$5 books: "Adams' Sacred Allegories," "Cyclopedia Best Thoughts, Charles Dickens;" "Esop's Fables," (Imperial, splendidly illustrated); "Cyclopedia English Poetry," Heber Poems, Shakspeare or Goldsmith. All \$5 each.

We call attention to the fact that the PRESBYTERIAN (whose price is only \$2 50 per year) has as much reading matter as any *Three Dollar* paper in the country. A careful comparison is invited. It does not say of itself that "it is the best paper without exception, pronounced so by all who read it," and other hackneyed "bosh" of like tenor; but it can and does say that it will compare favorably with any other paper in the country. Its correspondence embraces letters from all quarters of the globe, and the list of its editorial corps, and contributors, published on the eighth page, comprising as it does some of the ablest writers in the Church, is a sufficient guarantee of its ability to grapple with the leading questions of the day, and its general worth and reliability as a Religious Family Journal. The PRESBYTERIAN gives Chromos, Bibles, Commentaries, and other *premiums*, and will continue to do so as long as the interests of the paper and of the subscribers are subserved by them, but it makes no misrepresentations about them.

FOR THE PURPOSE OF PUBLISHING TRACTS,

BOOKS, AND

**The Index,****A WEEKLY PAPER DEVOTED TO FREE AND RATIONAL RELIGION.**

It is the object of **THE INDEX** to give public utterance to the boldest, most cultivated and best matured thought of the age on all religious questions, and to apply it directly to the social and political amelioration of society.

It is edited by Francis E. Abbot, assisted by Abram W. Stevens, with the following list of Editorial contributors: O. B. Frothingham, New York City; Thomas W. Higginson, Newport, R. I.; William J. Potter, New Bedford, Mass.; William H. Spencer, Haverhill, Mass.; Richard P. Hallowell, Boston, Mass.; Mrs. E. D. Cheney, Jamaica Plain, Mass.; Rev. Charles Voysey, London, England; Prof. Francis W. Prof. **MAX MUELLER** of Oxford, England, in a letter to the Editor, published in the **INDEX** for January 4, 1873, says; "That the want of a journal entirely devoted to Religion in the widest sense of the word should be felt in America—that such a journal should have been started and so powerfully supported by the best minds of your country, is a good sign of the times. There is no such journal in England, France, or Germany; though the number of so-called religious or theological periodicals is, as you know, very large." ## The Boston Daily Advertiser,

ESTABLISHED 1814.

THE LEADING AND MOST WIDELY-CIRCULATED COMMERCIAL AND FAMILY NEWSPAPER OF NEW ENGLAND.

To regular and routine departments, special features will be added from time to time, as events may call for them; and no pains or labor will be spared to make the DAILY ADVERTISER as welcome and interesting to family and social circles as it is indispensable to the business community. In political matters, so far as parties are now divided on national questions, the DAILY ADVERTISER is warmly and consistently Republican; but recognizes no party obligation to defend or apologize for public men and measures simply because they bear that name. With regard to the general interests of the community, we aim to keep in mind and advocate whatever tends to promote its welfare—temperance, good morals, sound principles, wise legislation, —and above all, a healthy hatred of shams, always on the watch for places of influence and repute to which they are not entitled by ability, character or by public or private services.

Bankers, Merchants, Manufacturing Houses, Tradesmen, Hotel-Keepers, in every part of the United States, Commission Houses, etc., etc., desiring to establish or increase a connection in New England, should advertise in the columns of the Boston DAILY ADVERTISER.

### THE WEEKLY ADVERTISER.

The WEEKLY ADVERTISER contains all the reading matter of the DAILY not purely transient, and a carefully digested summary of the news of the week, stories, miscellaneous reading selected from the best sources or contributed by writers specially engaged, and an agricultural department prepared exclusively for this edition.

## "The Boys' Own"

Aims to be in Every Way a Paper for Boys and Young Men. Although but Half  
a Year Old, it has Reached the Large Circulation  
of Twenty-four Thousand Copies.

### "THE BOYS' OWN"

Is the only Boys' Paper in this country that receives advertisements, to which it devotes but  
a part of ONE PAGE; and it must be conceded that, to reach the class for whom "THE BOYS' OWN"  
is designed, there can be no other medium so valuable to the advertiser.

To those who wish to reach this class the Publisher offers his columns at a very low rate, viz.,

### THE COMPANION,

While it is nominally a paper for young people, is virtually a family paper, and is taken in many families in which there are no children. Its purpose is to interest while it amuses; to be judicious, practical, sensible, and to have really permanent worth, while it attracts for the hour.

It is handsomely illustrated, and has for contributors some of the most attractive writers in the country. Among these are: Dr. I. I. Hayes, Samuel Woodworth Cozzens, Edward Eggleston, Louisa M. Alcott, Rebecca Harding Davis, C. W. Flanders, S. S. Robbins, Louise C. Moulton, "Sophie May," C. A. Stevens, Ruth Chesterfield and M. A. Denison.

Its reading is very varied in character; sprightly and entertaining. It gives Stories of Adventure, Letters of Travel, Editorials upon Current Topics, Historical Articles, Biographical Sketches, Religious Articles, Stories of Home and School Life, Tales, Poetry, Selections for Declamation, Anecdotes, Puzzles, Facts and Incidents.

**Subscription Price, \$1.50. Specimen Copies Sent Free.**

### TO ADVERTISERS.

At first thought by advertisers, the impression is that the COMPANION does not make so profitable a medium for advertising as other first-class weekly journals of equal circulation. This its Publishers can show by abundant testimony is a mistake. It is a better medium than almost any other in the country, simply from the fact that it is read by all the members of the family, instead of by one portion alone. This can be fully shown and proved.

**It has a bona fide Circulation of 120,000 Copies Weekly,**

To regular subscribers. Its advertising is limited to THREE columns—so few they are sure to be seen. Its rates, in proportion to its circulation, are lower than those of any other first-class weekly.

RATES: Sixty cents per agate line; Cuts (subject to inspection), 10 per cent. extra; Special Notices, \$1 per line, count.

THE TOBACCO LEAF commends itself to every one in any way interested in tobacco, either as grower, manufacturer or dealer. It gives annually an immense amount of information regarding the "weed," and thus constitutes itself a *vade mecum* that has long since been recognized as standing at the head of special trade publications. Its market reports are full and exhaustive, and come from every quarter of the globe where tobacco is sold. It keeps the reader *au courant* with all the latest Internal Revenue decisions, and thus does away with the necessity for a separate subscription to other journals to secure that end. To the grower of Tobacco, it presents all the latest discoveries, new methods of cultivation, and results of experiments in this and other lands. In short, THE TOBACCO LEAF is complete in itself, and contains every thing necessary to be known by the trade. It is the only weekly publication exclusively devoted to tobacco.

## The Freethinker.

DEVOTED TO RELIGION, SCIENCE AND ART, AND FREE THOUGHT FOR THE MILLION.

MONTHLY EDITION, 100,000 COPIES.

DR. FR. LEISS.....CHIEF EDITOR.

Twelve numbers will form a volume. Subscription Price on middle fine paper, 25 cents; on extra fine paper, 35 cents a volume. The object we have in view, and which we flatter ourselves capable of accomplishing, is shadowed forth in the name we give to this publication. We wish to further Freethought by furnishing a Freethought periodical to the million. The general tenor of the FREETHINKER will somewhat differ from that of other "liberal" papers, most of which hesitate to come out with the truth. We denounce this half-and-half policy, we think the times ripe, and the FREETHINKER will exhibit the same uncompromising and dauntless spirit against error and superstition, as its twin brother, the German "Freidenker," has done during the last three years in this country. Therefore we shall freely criticise all irrational doctrines and systems of untruth, opposing to them the philosophy of common sense. The paper must be sold everywhere, at the news-stands and by newsboys, and therefore we earnestly invite our friends throughout the country to join in this work of universal circulation, by ordering from us for distribution or sale in their respective districts, large numbers of copies (as 500, 1,000 or upwards), which we will supply at the rate of \$1.10 by the hundred. A limited number of advertisements will be accepted. Parties wishing to advertise in this universally-circulated journal, can make arrangements at the office, or with GEO. P. ROWELL & Co., Agents, 41 Park Row, New York.

"The Oldest and Best of the Eclectics."

## Eclectic Magazine

1874.

OF FOREIGN LITERATURE.

1874.

**Science.**—To this Department the ECLECTIC gives a large space. It not only presents from month to month an ample record of Discovery and Invention, but gathers from the whole field of foreign current literature the best articles of the most authoritative thinkers and writers.

**Literature.**—A class of writers contribute to the English magazines and newspapers such as seldom appear in American periodicals; and the best of these essays, reviews, sketches, criticisms and poems are reproduced in the ECLECTIC. It is surpassed in this department by none of the literary monthlies.

**Fiction.**—The ECLECTIC offers its readers the best serial stories to be had, together with the short stories for which the English magazines have a high and deserved reputation.

**Editorial Departments.**—The Editorial Departments are Literary Notices, Foreign Literary Notes, Science and Varieties; and they are made as complete as possible. No other Eclectic publication attempts anything like these departments.

**Steel Engravings.**—Each number contains a Fine Steel Engraving on some subject of general interest—usually a portrait. These engravings are executed in the best manner by the best artists, and add greatly to the attractiveness of the Magazine.

The aim of the ECLECTIC is to be instructive without being dull, and entertaining without being trivial; and it will be found indispensable to all those readers who endeavor to keep up with the varied intellectual activity of the time.

THE "ADVERTISER" WILL BE DEVOTED TO LITERATURE, ART, SCIENCE, EDUCATION, AGRICULTURE AND POLITICAL AND RELIGIOUS NEWS.

It will maintain an independent and bold position, attacking wrong and corruption wherever found, and meting out praise wherever due. It will especially advocate the claims of White River Valley to immigrants, and to this end we invite correspondence from all who desire to aid us in setting forth the natural advantages of our section in the fertility of soil, salubrity of climate, pure health-giving waters, magnificence of scenery and the hospitality of our people. The ADVERTISER will advocate and aid all feasible railroad projects, and be a warm defender of universal education. It will contend for pure political government, and the expunging of religious dogmas from the church. In a word, the ADVERTISER will speak its own thoughts fearlessly and independent of present political elements—allowing no dictation from any quarter and hesitating at no time to apply the lash to meanness and villainy wherever found. Thus unbridled, we launch out into the great field of newspaperdom, and invite the aid of all good and enterprising citizens to the accomplishment of our purposes as set forth above. Special attention and time will be given to local affairs throughout the country, and we will esteem it a great favor if our friends will furnish us any items of news of a local interest from their respective neighborhoods.

## Harper's Periodicals.

All of these are illustrated in the best style, and are beautiful specimens of artistic and mechanical work. We doubt if any other publishing house in the world does so much for the education of the people. These periodicals are always on the side of good morals, good citizenship, and good government.—*The Methodist*.

### Harper's Magazine.

A Complete Set of HARPER'S MAGAZINE, now comprising 47 Volumes, in neat Cloth binding, will be sent by express, freight at expense of purchaser, for \$2 25 per volume. *Single volumes*, by mail, *postpaid*, \$3. Cloth cases, for binding, 58 cents, by mail, *postpaid*.

Publishers and Editors both appear to understand the needs of the popular mind, even those needs of which many people are unconscious themselves. They aim to awaken a taste for knowledge as well as to gratify it, and their system in doing this is to make knowledge entertaining. The *Magazine* penetrates into the log-houses of Western farmers as well as into city drawing-rooms. Its comprehensiveness makes it acceptable to everybody who is pleased by pictures, and who has any love of reading. The serial novels by eminent English and American novelists, the short, bright, and telling stories of American domestic life, the profusely illustrated articles of travel and adventure, the careful-

ly prepared essays on political, historical and scientific subjects, the wealth of rich and racy reflection in "The Editor's Easy Chair" and of anecdote in "The Editor's Drawer," are among its constant attractions to the general reader.—*Boston Globe*.

The character which this *Magazine* possesses for variety, enterprise, artistic wealth, and literary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The *Magazine* has done good and not evil all the days of its life.—*Brooklyn Eagle*.

### Harper's Weekly.

The Annual Volumes of HARPER'S WEEKLY, in neat Cloth binding, will be sent by express, free of expense, for \$7 each. A complete Set, comprising *Seventeen Volumes*, sent on receipt of cash at the rate of \$5 25 per vol., *freight at expense of purchaser*.

The *Weekly* is the ablest and most powerful illustrated periodical published in this country. Its editorials are scholarly and convincing, and carry much weight. Its illustrations of current events are full and fresh, and are prepared by our best designers. With a circulation of 150,000, the *Weekly* is read by at least half a million persons, and its influence as an organ of opinion is

simply tremendous. The ablest description can not equal the impression given by a striking picture, and while the written or spoken words are soon forgotten, the impression made by the artist is indelible. The *Weekly* maintains a positive position, and expresses decided views on political and social problems.—*Louisville Courier-Journal*.

### Harper's Bazar.

The Six Volumes of HARPER'S BAZAR, for the years 1868, '69, '70, '71, '72, '73, elegantly bound in Green Morocco Cloth, will be sent on receipt of cash at the rate of \$5 25 per vol., *freight at expense of purchaser*.

The *Bazar* is the organ of the fashionable world, and the expounder of that world's laws; and it is the authority in all matters of manners, etiquette, costume, and social habits. It fills a place that no other publication ever has even sought to fill, and does so because of the amplitude of its range and from its breadth and extent of view.—*Boston Traveller*.

The *Bazar* commends itself to every member of the household—to the children by droll and

pretty pictures, to the young ladies by its fashion-plates in endless variety, to the provident matron by its patterns for the children's clothes, to *paterfamilias*, by its tasteful designs for embroidered slippers and luxurious dressing-gowns. But the reading-matter of the *Bazar* is uniformly of great excellence. The paper has acquired a wide popularity for the fireside enjoyment it affords, and has become an established authority with the ladies of America.—*Evening Post*, N. Y.

#### HARPER'S MAGAZINE, WEEKLY AND BAZAR.

One Copy of either for One Year, \$4 00, Postage Prepaid.

HARPER'S MAGAZINE, HARPER'S WEEKLY, or HARPER'S BAZAR will be sent for One Year to any Subscriber, *Postage Prepaid*, on receipt of Four Dollars by the Publishers.

The three publications, the MAGAZINE, WEEKLY, and BAZAR, will be supplied, for One Year, for \$10 in one remittance; any two of them for \$7; postage payable by the Subscriber at the office where received.

An Extra Copy of either the MAGAZINE, the WEEKLY, or the BAZAR will be supplied gratis to every Club of Five Subscribers who send \$4 each in one remittance; or Six Copies, without extra copy, of either publication, for \$20. Postage payable by the Subscribers at the offices where received.

In *remitting by mail*, a POST OFFICE ORDER or DRAFT payable to the order of HARPER & BROTHERS is preferable to Bank Notes, since, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. The Post-Office Department recommends that, when neither of these can be procured, the money be sent in a REGISTERED LETTER. The registration-fee has been reduced to fifteen cents, and the present registration system, the postal authorities claim, is virtually an absolute protection against losses by mail. *All Post-Masters are obliged to register letters when requested.*

## COMBINATION JOB AND NEWS SERIES.

---

This press has been a candidate for public favor for the past two years, and has proven itself successful as being best adapted to all classes of news and general job office work, and as a press easily handled by any person of fair skill as a pressman.

They are by far the quickest running single cylinder press ever offered to the trade, the speed only being limited by the ability of the feeder. The saving in ink alone is an important item. It has no tapes, consequently no delays by breakage or setting of same when making forms up.

The impression can be tripped at any time by the feeder—the fly is tripped at the same time as the impression.

**"LIBERTY" JOB PRINTING PRESSES**

First Premium World's Fair, London, 1862, Paris Exposition, 1867, and Vienna Weltausstellung, 1873.

The Following are the Advantages of this Press over all others:

Simplicity of Construction, Durability and Strength of Build, in which the best materials are used; Ease in Running; the Ability to Print a Form as large as can be locked up in the Chase; Convenience of "Making Ready," Adjusting, or Cleaning; Facility of Correcting a Form without Removing it from the Bed, as it can be brought into nearly a horizontal position.

Three Rollers may be used for Inking a Form. These are held in stationary fixtures, without springs, and are readily removed by the operator without soiling his fingers.

Size No. 2 has a Special Arrangement for Printing Cards, by which means Cards are dropped into a box below, or, may at will, be retained on the platen for examination.

While the impression is being taken, the Form, the Platen, and the Ink Distributing Table are brought before the eyes of the operator; and the inking rollers are always in sight. The face of the Bed never moves beyond the vertical line, therefore no type can drop out. The Fly-Wheel may run either way, without altering the working of the press.

Figs. 2 and 5, being the same size rules with smaller quadrats in the channels, and the space gained is taken up at the ends, to show their adaptability for different sizes of types and simplicity in adjustment. Figs. 3 and 6 have a small quadrat in the center only, to show the inward spring of the brass, and which holds the types firmly after justification. When the Curves are not in use, care should be taken to insert a quadrat the size of the channel in the center of each, as above, in order to keep the interior and exterior together. This will facilitate matters when you again wish to use them. The straight pieces or clamps, also patented, comprised in each set, will be found a useful auxiliary in various kinds of job work. # Campbell Press Works,

39 Beekman St., New York.

We take great pleasure in offering to the craft our **Country Press**, which has been before the public for the past ten years, over seven hundred of which we now have running, doing their full quota of work in a thorough and satisfactory manner.

They are all built to standard gauges and templets, any part of the same sized press being interchangeable with another, thus making them desirable on account of repairs—as parts are kept in stock and can be promptly forwarded on receipt of orders for same.

For accuracy of register they are unequalled, a great majority of the color work of this and neighboring cities being worked on these presses. All the parts of our so-called Complete Presses are readily applied to the Country Press, which is a great feature to growing offices, as the increase of business may be met without the purchase of a new press.

# THE MONITOR PRINTING PRESS.

*The Firmest, Fastest, Strongest and most Simple of Presses.*

WORKS THE LARGEST FORMS OF ANY PRESS OF ITS CLASS.

The Latest Invention is the best. Superior in every point. Patented 1872.

Economy, Speed, Perfect Work. The best Printing Machine yet Invented.

THE TEST OF MERIT IS FOUND IN PRACTICAL WORK.

**Eighth-Medium, 8x12 inches inside of Chase.**  
**Quarto-Medium, 11x16 1-2 inches inside of Chase.**  
**Half-Medium, 14x21 inches inside of Chase.**

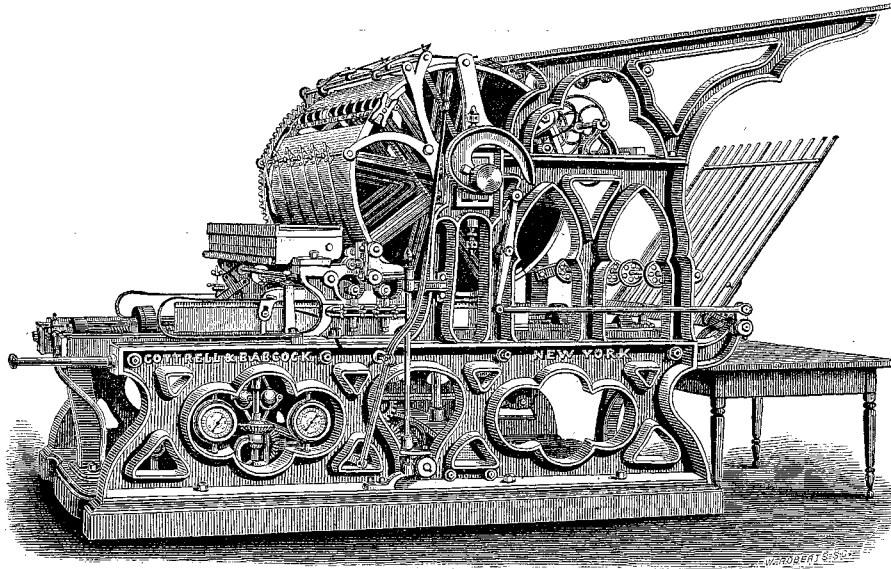

Distinctive features are found in the construction of this Press which have not been attained by other presses now in use. In neatness of design, correct workmanship and finish, it has no rival. It is simple in its construction, having one-third less moving parts than any other first-class press. It is firm and fast, giving a perfect impression with no possibility of slur. The impression may be suspended at any point, and with the same operation the inking of the form is suspended. The impression can be increased or decreased with absolute accuracy while the press is in motion. This feature has not been attained by others. The mechanism of this press is such that however rapidly the press may be running the impression is taken so gradually, it does perfect work, printing a full form of solid matter with greater ease and with less jar or noise than any other bed and platen jobber. The chases fit on the bed either way, so the pressman can change the form without unlocking. These Presses may be run either way. The work on these Presses being done by special machinery, each separate part is made with such accuracy we can duplicate any part readily, so it will apply without further fitting. We furnish diagrams showing each distinct part numbered. **The Manufacturers Guarantee all they set forth.**

These Presses will be on exhibition and can be seen and practically tested by calling on GEO. P. ROWELL & CO., 41 Park Row, New York. Address communications,

# COTTRELL & BABCOCK'S IMPROVED AIR SPRING PRESSES

We have recently substituted an **Improved Air Spring** for the Wire Spring heretofore in use on our Presses, which enables them to run at a higher rate of speed, with entire safety, and with less noise and jar, and, consequently, with less wear to the machine. Patents were granted on May 2, October 17 and December 12, 1871, to C. B. Cottrell for the following improvements on the Air Spring, and June, 1873, for an improved method of driving the sliders:

First. A **Self-Adjusting or Yielding Plunger**, so constructed as to obviate all difficulty from paper, tapes, or other matter falling on the Plunger when the Press is in motion, which has been so productive of damage and delay with the Air Spring as previously made.

Second. We have placed an **Automatic Valve in the Plunger**, which prevents all strain or drag on the return motion of the Bed, caused by vacuum in the Air Chamber, thereby saving power.

Third. We have applied a **Governor** to regulate the amount of spring according to the speed, which enables the Press to be started at any point without helping it over the centers by hand, a convenience which all pressmen will appreciate.

Also, on July 15, 1873, a patent was granted C. B. Cottrell for a new method of driving the sliders, so they will always run evenly with the bed, thereby saving power and wear of Friction Rollers.

# THE BULLOCK PRINTING PRESS.

These great machines continue to grow in favor with publishers of newspapers who begin to see that the days of all Hand-Feed Printing Machines for fast work are numbered, whether for printing one or both sides of a sheet; for where is the sense of feeding by hand when it can be done better by machinery and without cost?

## THE BULLOCK SELF-FEEDING AND PERFECTING PRESS.

FEEDS ITSELF FROM ROLLS OF PAPER MILES IN LENGTH, AND PRINTS BOTH SIDES OF THE SHEET AT ONE OPERATION, THUS SAVING THE WHOLE COST OF FEEDING BY HAND.

Forty **BULLOCK SELF-FEEDING AND PERFECTING PRESSES** are now in operation—some of them daily for the past seven years—in the following establishments:

<b>Government Printing Office, Washington, D. C.</b>	
<b>Philadelphia Democrat,</b>	<b>Chicago Times,</b>
<b>Philadelphia Star,</b>	<b>Chicago Post,</b>
<b>Philadelphia City Item,</b>	<b>Missouri Republican,</b>
<b>New York Sun,</b>	<b>Cincinnati Volksblatt,</b>
<b>Brooklyn Argus,</b>	<b>Daily Telegraph, London, Eng.,</b>
<b>Boston Herald,</b>	<b>Weekly Journal, London, Eng.,</b>
<b>New York Herald,</b>	<b>New Yorker Presse,</b>
<b>Pittsburgh Leader,</b>	<b>Chicago Tribune,</b>
<b>Chicago Staats-Zeitung,</b>	<b>Indianapolis, Journal,</b>
<b>Cincinnati Star,</b>	<b>Baltimore Evening News.</b>
<b>Cincinnati Enquirer,</b>	

The **BULLOCK** is the first invention of its kind that was brought into practical and successful use. It is entirely original in design, arrangement and operation, and is not borrowed from English or French inventions, as some new machines are. As it is, there is nothing abroad or at home that the **BULLOCK** can borrow, being in all respects better than anything there or here. The **Bullock** is not only the **Best**, but the **Cheapest Press in the World**. For further information, address

**Dick's '67 Patent, Made "Triple Mailer"**

IN 1872, INCLUDING THE "RIGHT" TO USE,

Is to every one the cheapest as well as the best; because always most equitably sold, without discrimination, at a cost graduated in exact proportion to each publisher's aggregate weekly addresses—requires, to start with, one-third less type and material, and preserves it good seven times longer than any one of the 32 patented Address-printing Machines; while, to crown all, it addresses papers at more than twice the speed of the best Mailer among them; one unassisted operator having with it addressed and pitched to the wrappers 7,334 newspapers in one hour, fully 2 papers every second of the 60 minutes, giving it that superiority in economy of money, material, time and labor which fully accounts for its now addressing, as all Postmasters know, manifold more newspapers than all the other 32 patents combined; showing that the publisher who is in haste to adopt a Mailing Machine, risks nothing in sending his order, (all orders are filled promptly, and invariably on the same terms), without previous correspondence, in the terms following:—ORDER FOR PATENT MAILER. To ROBERT DICK, 139 W. Tupper St., Buffalo, N. Y. SIR: Send us Best Mailer, boxed, \$10 25; 1 pair Mounted Blades, \$2, and Years' "Right" at as low a price, *pro rata*, as to any publisher, but not to exceed 75 cents per year for 100 weekly addresses. **IMPORTANT TO PRINTERS.****NEW COMPOSITION**

FOR

**INKING ROLLERS.**

Protected by Letters Patent, Granted by the United States, Dated May 6, 1864; June 21, 1864; September 24, 1864; February 27, 1865; also, by Great Britain, Dated March 31, 1865, to

**FRANCIS & LOUTREL,**

PATENTEES AND MANUFACTURERS,  
NEW YORK CITY.

**MERITS OF THE COMPOSITION.**

All printers fully realize the importance of having their inking rollers in proper condition to do good work and the constantly changing condition of the old glue and molasses roller has long called for something better, whereby the perplexity, time, and expense may be saved, and at the same time better work be secured without that close attention usually required to keep rollers in good order. We call attention to the following as some of the principal advantages of our composition:

It never loses its suction; it never shrinks, as it contains no water or other fluids to evaporate; it always remains moist; it never skins over on the face; it never cracks on the face; can be recast from year to year, thereby saving the material; it does not become hard by cold weather; our rollers are tougher than any others in use, and are not injured by age or climate; they do not require washing at the end of the day's work, as other rollers—ordinary book ink will not dry on them in four or five days; they are cheaper than ordinary rollers in use, although first cost may be more; as they do not require washing daily like other rollers, there is a saving of ink, time and material; when once set they will not require resetting from day to day, as there is no shrinkage; they are good proof rollers, as ink does not dry on them; an average of two tokens a day more can be worked by use of these rollers on each press.

**PRICE, SIXTY CENTS PER POUND.**

We Send with Composition Directions for Casting, Recasting and for Using.

**THE TRADE WILL PLEASE TAKE NOTICE**

that our patents give the exclusive use of glue and glycerine, either with or without saccharine matter, for printing purposes, and all unauthorized manufacture or uses of glycerine and glue for printing purposes is an infringement thereof. Many printers may be drawn into this infringement unawares, as some of the manufacturers of glycerine are advertising "Glycerine for Printers' Rollers." The patents for the use of glycerine were fully sustained in the Circuit Court of the United States, Francis & Loutrel vs. Borchardt & Bergman, July, 1866. Any person requiring any information on this subject may obtain it by addressing the proprietors.

It shields the eyes and effectually protects the respiratory organs against Smoke, Steam, Noxious Gasses and Malarious Atmosphere. It enables FIREMEN, MINERS, INSURANCE PATROL and others to penetrate a burning building or a mine to save life, remove property, or get near enough to the fire to effectually put it out by ordinary appliances. The protector will also be found invaluable in Foundries, Drug and Spice Mills, Plaster Mills, White Lead Works, Steel and Cutlery Works, Guano Ships, in the Dry Crushing of Quartz, and for many other purposes.

**DIRECTIONS.**—Secure the Protector to the face by the band around the head in a position to see through the glasses, and have the spring fit closely on each side the nose to exclude the breath from the eyes. Dampen the sponge with water thoroughly, and secure it with the pin to the curtain in a proper position to cover the mouth and nostrils perfectly.

When the sponge and curtain become filled with impurities, they can be cleansed and readjusted.

The steel springs inclosed within the rubber, can be bent at will to fit the forehead and sides of the nose.

# LEVER SLIDING KNIFE PAPER CUTTER

For Job Printers & Binders.

SHERIDAN'S

PATENT.

This is the most powerful Lever Cutter in use, and very superior to any of the other Lever Machines offered to the trade, and does its work in the most satisfactory manner, cutting perfectly true and smooth. It is well-made and simple in its construction, is very strong, and not liable to get out of order. The Lever is on the side, working toward the front, thus enabling the operator to use one hand on the work when necessary, instead of working across the front of the Machine, or obliging the operator to go around to the side, as in other Lever Cutters, and it is superior in power and rapidity to many of the Wheel Machines now being offered.

"REV. MR. WHITE:—DEAR SIR: For simplicity, neatness, ease of handling, adaptation to its purpose, and cheapness, your Paper File is a *ne plus ultra*.

"Since I have used it, I wonder how we got along without it. I find it excellent to hold not papers only, and letters, but maps, and charts, and plans. The maps and plans once in this paper File, can be rolled up and carried about, and unrolled for use far better than if they were in paste-board covers. It is approved by every one to whom I have shown it.

**Designing and Engraving on Wood**

In the Best Style and at the Most  
 Reasonable Prices.

We invite your attention to the superior facilities afforded in our establishment for the execution of Engravings on Wood—a style of illustration, which has been brought within a few years to a high degree of perfection, and is now in almost universal use, both in commercial and literary publications. It is now a recognized fact among business men, that an advertisement, descriptive notice, circular or pamphlet, in order to secure the attention of the public, must be accompanied by an illustration; and only those rendered conspicuous and attractive by this means are sure of being read. Every cut on an advertising page is seen and examined more or less attentively, while the plain advertisements pass unobserved. In like manner, a fine engraving on a business card will often insure its preservation, and the address and line of business of a merchant or manufacturer is strongly impressed on the memory of the customer by an appropriate design on his envelope, letter head or circular. Engraving on Wood has of late years been given the preference over any other method of illustration, and as regards distinctness of outline, minute exhibition of details, economy, durability and convenience of use, neither steel, lithograph or copper plate can take the place of the wood-cut in its modern perfection.

We are prepared to furnish, promptly and on short notice, engravings and electrotypes of any class, at prices which cannot fail to be satisfactory. A wood-cut can be executed either from a model, a drawing, or a good photograph. If a photograph is sent, one with a light background is much preferred, as the details of the object to be engraved are thus more clearly shown. We shall be pleased to receive your orders, and will give them our most careful attention. Requests for information, inquiries as to price, &c., will be promptly answered. Address,

# Appleton's American Cyclopaedia.

NEW REVISED EDITION.

Entirely Rewritten by the Ablest Writers on Every Subject. Printed from New Type, and Illustrated with Several Thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPÆDIA was completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled THE AMERICAN CYCLOPÆDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history.

In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of political and historical events.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotyped plates have been used, but every page has been printed on new type, forming, in fact, a new Cyclopaedia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations, which are introduced for the first time in the present edition, have been added not for pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to insure their artistic excellence; the cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopaedia, and worthy of its high character.

This work is sold to subscribers only, payable on delivery of each volume. It will be completed in sixteen large octavo volumes, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithographic Maps.

## A PRINTED COPY

### OF YOUR ADVERTISEMENT.

It is the experience of advertisers that to secure a handsome and effective display of any advertisement which is to appear in a large number of newspapers, care must be taken to furnish each with copy which, if followed, will produce the desired effect.

An ordinary compositor has not the necessary skill to make an attractive card from manuscript, but even a boy will do very well when he has before him a printed slip, showing which words should be displayed and what sorts of type may be advantageously used.

Recognizing the importance of this matter, we fitted up an office with special reference to enabling our compositors to make the most attractive display possible, in the designated space, with every advertisement intrusted to their care.

At the same time, our selections of type are confined mainly to those styles which are standard and likely to be found in every well-ordered newspaper office.

Employing men of known skill and experience, we give them the additional benefit of constant practice, and are thus enabled to secure advantages of no small importance to our customers.

**THE LARGEST CIRCULATION IN THE WORLD,**

COMPARED WITH ALL RELIGIOUS JOURNALS OF EVERY COUNTRY IS THAT OF

## The Christian Union.

**HENRY WARD BEECHER, Editor.**

The religious journals, because of the intelligence and prosperity of the classes among whom they circulate, are confessedly the best Advertising Mediums. The superiority of any one of these papers over any others must be found in its greater circulation and comparatively cheaper rates. Such superiority the CHRISTIAN UNION has over *all* others. Its SWORN CIRCULATION is more than DOUBLE that of any other Religious Weekly, while it is four or five times greater than most of its class. So, also, its rates for each thousand of circulation are *twenty per cent.* lower than the average price charged by the fifteen Religious Weeklies having the largest circulation, itself excepted; while a similar comparison with the principal Secular Weeklies shows a saving to the advertiser of nearly *forty per cent.* One reason why advertisers find the CHRISTIAN UNION so profitable a medium, is that on its immense subscription list there are *no dead names*; it keeps only a live, paying, *real* circulation.

The practical result of these advantages—greater circulation and lower rates—is that advertisers get more for their money.

### TESTIMONIALS.

"In a test of two weeks we find that THE CHRISTIAN UNION has proved the best advertising medium. We advertise in about *twenty* leading papers, some of them claiming over 100,000 circulation, but find that more than *one-half* of our applications state that our advertisement was seen in THE CHRISTIAN UNION. \* \* \* \* \*

Very truly yours, PETER HENDERSON & CO."  
Seedsmen, etc., N. Y.

We shall be pleased to do what we can to increase the circulation of your publication, as we consider it valuable, both for its reading matter and as an advertising medium. It is a noticeable fact that our customers who advertise in the "Union" once always want it on their list.

S. M. PETTEGILL & Co,  
General Advertising Agents, New York.

After an experience of some years, we consider the CHRISTIAN UNION to be one of the best if not the best of the advertising mediums in the country.

CLAXTON, REMSEN & HAFELFINGER,  
Publishers, Philadelphia.

Shrewd advertisers will certainly be impressed by the above statements. The subscribers to Henry Ward Beecher's paper are people who read and think; people of enterprise and intelligence, generally well-to-do in the world, in all parts of the American Continent, and so of varied wants, alive to what is new and excellent, and among such it best pays to advertise. Messrs. HARPER BROTHERS, J. R. OSGOOD & CO., and all the leading publishers; Messrs. BROWN BROTHERS, FISK & HATCH, and all the prominent financial agents; Messrs. A. T. STEWART & CO., LORD & TAYLOR, B. K. BLISS & SONS, ENOCH MORGAN'S SONS, and other well-known houses, are among our regular advertisers, and have *proved* the value of the paper as a means of reaching their customers.
