# INTRODUCTION.

---

## GEOGRAPHICAL ARRANGEMENT.

THE Catalogue is arranged by States in geographical order for the convenience of advertisers who desire to cover any particular section of the country. The grouping together of neighboring States has been endorsed by many leading advertisers as a means of great saving of time and labor in making up advertising lists.

For those, however, who prefer an alphabetical arrangement, the alphabetical index, running head-lines and title pages afford ample means for ready reference.

## POPULATION.

United States populations are from the Census of 1880. In a few instances, where the population of places was not separately returned by the enumerators, local information has been made use of, and all such are marked "est."—estimated. In many cases where the population is of an uncertain or floating character, or in places which have sprung up into sudden notoriety, as in the mining districts, it has been thought advisable to omit any statement whatever, the information received being often of so conflicting a nature as to preclude anything like a fair estimate.

Canadian populations are from the Census of 1881.

## POLITICAL STATISTICS.

The majorities and pluralities are exclusively those of the Presidential election of 1880. Exception has been taken in many of the reports received to the figures given in the edition for 1881, because in recent local or State elections the majorities have often been increased or reduced, and in some cases reversed. But, believing that a general election affords the best evidence of the actual political proclivities of the inhabitants of the respective counties, we have chosen that as the standard.

## STATE AND COUNTY HEADINGS.

This important feature of the work has been very carefully revised; a large number of reports having suggested additions and emendations which we have gladly adopted. With the publication of the full Census

Reports on the Agricultural and Industrial interests of the country, which may be looked for at no very distant date, we shall be enabled to still further improve them. They are, however, now of great value to advertisers of specialties, who, by carefully examining them, can readily decide which counties are likely to prove remunerative territory, and thus confine their expenditures within limits which may be expected to yield the greatest return for their outlay.

As in the previous edition, an effort has been made to place the leading crops first in order, but it may be well to state, that in the case of manufactures, it is not intended to enumerate all the manufacturing interests of each county, but simply to designate those counties which, from the extent of their manufacturing interests, give reasonable promise of fair return to those whose advertisements appeal particularly to the manufacturing classes. For instance, where manufactures are enumerated and the word "Manufactures" is printed in **bold-face** type, the county is considered to be a good field for special advertising, each advertiser, of course, to decide for himself what particular locality best suits his specialty. Where the manufactures, however, are limited in number or in the value of products, and the word is printed in roman type, the inference is, that while there may possibly be considerable manufacturing done in the county, it does not prevail to such an extent as to particularly effect its value from an advertiser's stand-point. So, too, many counties in which no mention whatever is made of manufactures, may yet have varied manufacturing interests scattered through them, or there may indeed be one or more important interests located in them, but they are not deemed sufficiently important to recommend them as specially valuable for that species of advertising which appeals largely to the mechanical and laboring classes for its returns.

#### CIRCULATION.

In the edition for 1881 an effort was made to procure affidavits, in the belief that their general use would increase confidence in the statements of circulation appearing in it. We were gratified by the results of this effort, affidavits having been received from nearly nine hundred newspapers. In entering upon the revision for this edition, we determined, if possible, to very materially increase the number, and have succeeded in obtaining about eighteen hundred.

In a few instances affidavits have been received which were evidently made to cover special issues. As the use of these would be likely to mis-

lead rather than aid an advertiser, they were rejected, and the circulation in such cases either estimated or omitted altogether. From our increased efforts to obtain accurate statements of circulation, and the additional reliability attaching to so large a proportion of them by the weight of an affirmation, we believe that they generally represent fair average circulations, and that the book more nearly approaches perfection in this particular than any previous edition of this or any similar publication.

Aiming at strict impartiality in this important part of our work, and desiring always to be just to publishers, in our efforts to procure accurate and trustworthy information for advertisers, we shall gladly receive communications from any who may consider themselves unfairly dealt with in the estimate placed upon the circulation of their papers, and will cheerfully correct in future editions any mistakes made in the present one, if furnished with satisfactory evidence of our error.

We are frequently in receipt of letters from publishers suggesting investigation into the claims made by others. While expressing our thanks for all such communications, we would remind our correspondents that owing to the immense amount of work pertaining to the revision, and the limited time remaining for it between the receipt of reports and the sending of the book to press, it is generally impracticable to give such cases the consideration and investigation requisite in order that they may be verified or corrected for the edition then being prepared. All complaints of this kind are, however, carefully noted, and whatever can be done towards correctly reporting them is done.

Circulations for which affidavits have been furnished have been set in **bold-face** type in the Catalogue, and designated by an asterisk (\*) in the County and Class Lists. Those claimed by publishers are marked with a double dagger (‡) throughout the book; those set in roman figures and unmarked, represent our own estimates.

Circulation is not given in the following instances—where the paper has been established during the current year; in many cases where it appears for the first time in the Annual; where the information received is unsatisfactory, or the reports are conflicting; where publishers have requested omission; and where the publication is devoted exclusively, or nearly so, to advertising the business or interests of individuals, business houses or corporations. Papers of this latter class are designated in the Catalogue as “issued for advertising purposes,” and in the County and Class Lists by the letters “*adv.*” in the circulation column.

Papers which are believed to decline general advertising are designated in the Catalogue by the words "*no advts.*" in the circulation column, and are omitted entirely from the County and Class Lists.

#### NEWSPAPER ADVERTISEMENTS.

In order to make the advertisements of greater value to publishers, we have printed in the Catalogue against the name of each paper having an advertisement, the number of the page on which that advertisement appears. This will enable an advertiser to refer directly to it, without the aid of an index, and that, too, at the moment when the information it contains would be likely to interest him most.

We point with pleasure to the advertising pages of this edition, bearing as they do the announcements of very many of the leading journals of the country, and believe that our patrons can best study their interests by a careful examination of them, thus acquiring a mass of valuable information which for the sake of compactness and facility of reference must necessarily be excluded from the Catalogue itself.

While conscious of the imperfections and liability to error inseparable from a work of this character, we send forth the edition for 1882 in the belief that so far as honest and faithful work, coupled with a liberal expenditure, can accomplish our aims, we have succeeded in presenting to the advertising public a fresh, accurate and thoroughly impartial compendium of the American Press.

*Philadelphia, August 1, 1882.*

WE conduct a Newspaper Advertising Agency. Our business was established in 1869. The aggregate of the first year's business was \$15,000. A room 18x20 answered all our requirements, and clerks were unnecessary accessories. Year by year this amount has been increased till we now handle a greater volume of business than any other concern in our line. We occupy for business purposes an aggregate of over 8,250 square feet of floor room, and our pay-roll for July included the names of seventy-eight employees. To accomplish this success, we have been compelled to make a close and constant study of the subject of Newspaper Advertising. Long practice in adapting it to the requirements of all kinds of business in every section of the country, has made us admittedly expert. We confine our attention entirely to Newspaper Advertising, and our business is so thoroughly systematized that we are enabled to guarantee prompt and proper fulfillment of an advertiser's wishes. We have no specialties, but hold ourselves ready and able to take any acceptable order for American Newspaper Advertising, and place it where it is wanted and as it is wanted, better and more cheaply than it can be done in any other way.

We number among our customers leading houses in all branches of business, and would be pleased to extend the list indefinitely.

To intending advertisers we furnish, without charge, any desired information on the subject of Newspaper Advertising, suggest selections of newspapers for the proper covering of any section of the country, and submit proofs of proposed advertisements.

Our charges are the lowest consistent with honest, faithful work, and we are confident of our ability to make it to any responsible advertiser's interest to deal with us.

## HOW TO OBTAIN AN ESTIMATE.

---

In writing to ascertain the cost of advertising, please observe the following suggestions:

1. When possible always send copy of your advertisement. If you have no printed copy, send it in writing.

2. Mention the space you wish it to occupy in LINES or INCHES. Don't say anything about squares. The size of an advertising square varies from four lines to two and a half inches.

3. Name the papers you wish to use. If undecided on this point, state the cities and towns, or at least the particular section of country you would like to reach.

4. State the length of time you desire it inserted in the different papers.

5. In case your plans are not fully matured, it is always well to state about the amount of money you purpose expending. By so doing you will enable us to make the most suitable selection for your use, including only the best and cheapest papers to cover the ground.

Estimates free. Address

## AMERICAN NEWSPAPERS

GIVING THE PLACES IN WHICH THEY ARE PUBLISHED IN THE UNITED STATES, TERRITORIES, AND DOMINION OF CANADA, ARRANGED ALPHABETICALLY IN STATES BY GEOGRAPHICAL SECTIONS; THE COUNTIES IN WHICH THE PLACES ARE SITUATED, AND THE POPULATION OF EACH; AND IN CONNECTION WITH THE PAPERS THE FREQUENCY OF ISSUE, POLITICS, DENOMINATION OR GENERAL CHARACTER, YEAR OF ESTABLISHMENT, SIZE, CIRCULATION, AND PUBLISHER'S PRICE FOR TEN LINES ONE MONTH.

---

Populations in the United States are from the Census of 1880. Canadian populations are from the Census of 1881.

Circulations for which affidavits have been furnished, are printed in **bold-face** figures; those furnished by publishers, but not sworn to, are designated by a double-dagger (‡); those unmarked are estimated.

When statement of circulation is omitted, we have been unable to obtain any satisfactory information, or the paper was established during the current year, or else is issued for advertising purposes. The word "*decline*" indicates that the publishers have declined or objected to furnish any statement for publication.

County-seats are indicated by a dagger (†).

## KIND WORDS FOR THE ANNUAL.

---

*From Inter-Ocean, Chicago, Ill.*

The best encyclopædia of information pertaining to the newspapers of this country ever published. The newspaper directories published within the last few years have been incomplete in many particulars, and have never fully met the demand of the reading public for special or general information. They were unreliable as catalogues, unfair as records of business, and inadequate as encyclopædias. This was the more exasperating because the field was one of extraordinary interest. The pretense of covering so great a field of activity in a publication subordinated to the selfish ends of a particular firm did not wear well, and newspaper directories fell into disfavor. The publishers of the Newspaper Annual have worked on a different principle. They have made the collection of official statistical information a specialty, and have given the public a descriptive catalogue of the newspapers of the United States and Canada which has as much interest for the general reader as for the business man. Business men could not ask for a more comprehensive guide to the placing of advertising.

*From National Baptist, Philadelphia.*

Represents a massive and substantial business. Messrs. N. W. Ayer and Son stand in the fore front of Advertising Agencies in the world. Their Annual contains so many statistics of the country, that we frequently use it as a sort of encyclopædia for facts relating to it.

*From Commercial, Cincinnati, Ohio.*

The most complete newspaper directory in the United States.

*From News, Chicago, Ill.*

Unquestionably the best newspaper directory ever issued; a credit to the enterprise of N. W. Ayer & Son, the publishers, and a full realization of what might be reasonably expected from the experience and resources of the largest and best conducted advertising agency in the United States.

# NEWSPAPERS

—OF THE—

## UNITED STATES AND CANADA

ARRANGED BY COUNTIES.

---

A COMPLETE CATALOGUE OF ALL PAPERS, IN WHATEVER LANGUAGE, PUBLISHED IN THE UNITED STATES, TERRITORIES, AND DOMINION OF CANADA, WHICH INSERT ADVERTISEMENTS, ARRANGED ALPHABETICALLY BY COUNTIES, AND GEOGRAPHICALLY IN STATES BY SECTIONS, GIVING THE LOCATION, AREA, NATURAL FEATURES, CHIEF PRODUCTS AND MANUFACTURES, COUNTY-SEAT, POPULATION, AND POLITICAL MAJORITY OF EACH STATE, TERRITORY, AND COUNTY IN THE UNITED STATES, AND THE GENERAL CHARACTERISTICS AND CIRCULATION OF EACH PAPER ACCORDING TO THE LATEST AND BEST OBTAINABLE INFORMATION.

---

Populations in the United States are from the Census of 1880. Canadian populations are from the Census of 1881.

Circulations for which affidavits have been furnished, are designated by an asterisk (\*); those furnished by publishers, but not sworn to, are designated by a double-dagger (‡); those unmarked are estimated.

When statement of circulation is omitted, we have been unable to obtain any satisfactory information, or the paper was established during the current year, or else is issued for advertising purposes, in which latter case "adv." is placed in the circulation column. The word "decline" indicates that the publishers have declined or objected to furnish any statement for publication.

County-seats are indicated by a dagger (†). Unless otherwise specified, the papers are issued weekly.

# MAINE.

Population 648,936.....Rep. Plur. 8,868

Gbk. vote, 4,408.

STATE CAPITAL, AUGUSTA.

MAINE is the most northeasterly State in the Union, bounded on the north by Quebec and New Brunswick, east by New Brunswick, south by the Atlantic Ocean, and west by New Hampshire and Quebec; land area, 29,895 square miles. The northern part is mainly a wilderness of forest-land with rugged surface and groups of detached mountains: thinly peopled, except in the fertile tracts of Aroostook County in the northeast inhabited by French Canadians. The southern part is varied, seldom much broken, and has tracts of great fertility, while others are only moderately fertile, especially in the southeast. The hay and potato crop is large and excellent; corn thrives in the south, and winter wheat in the northeast; oats are very fine and prolific, and barley next. Dairy products are of great value. Large numbers of horses and cattle are exported. Wool is abundant and of good quality. The principal fruits are the cherry, plum, pear, and apple. The State holds a prominent position in the lumber trade; fisheries are important, and the canning of fish, lobsters, green-corn, fruits, and vegetables is extensively carried on. The seaboard towns enjoy a large coasting and West India trade. Cotton manufacture is one of the leading industries. Large quantities of lime are exported from Camden, Rockland, and Thomaston. Granite is extensively quarried at Bath, Dix Island, Hallowell, Rockland, West Sullivan, etc. Ice is an important and profitable article of export. The chief seats of the lumber trade are, Bangor, Biddeford, Calais, Eastport, Fairfield, and Machias; of cotton manufacture, Augusta, Biddeford, Lewiston, and Saco; of ship building, Bath, Bangor, Belfast, Calais, Damariscotta, Machias, Rockland, Thomaston and Waldoboro. Woolens are made at Bridgeton, Dexter, Lewiston, Sanford, and Warren; boots and shoes at Auburn, Fairfield, Farmington and Richmond. Bangor has foundry and machine shops, furniture factories, and steam planing mills. Apart from these special branches of trade, Belfast, Ellsworth, Gardiner, Hallowell, Portland, Rockland, Skowhegan, and Waterville are seats of varied and extensive manufactures.

There are 16 Counties in Maine. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 51, of which the 13 designated by a dagger (†) are county-seats. Of the 106 papers which insert advertisements published in the State, 10 are daily, 1 tri-weekly, 81 weekly, 1 bi-weekly, 1 semi-monthly, 11 monthly, and 1 quarterly.

# NEW HAMPSHIRE.

Population 346,991.....Rep. Plur. 4,058

Gbk. vote, 528.

STATE CAPITAL, CONCORD.

NEW HAMPSHIRE is bounded on the north by Quebec, east by Maine and the Atlantic Ocean, south by Massachusetts, and west by Vermont. Its length is 180 miles from north to south; its extreme breadth 93 miles; average breadth 50 miles; land area, 9,005 square miles. Most of the State, except the southeastern part, has a rough and hilly surface. In the northern part are the White Mountains. The State is generally well wooded, and the yield of timber is very large. The Valley of the Connecticut is famed for the beauty of its farms and villages. In productions, the hay-crop is by far the most valuable, and while this is steadily increasing the agricultural interests have for some years been gradually declining. While there are some very fertile tracts among the valley lands, the greater part of the surface is rugged and stony, and much more valuable as woodland or pasture than as tilled land. Oats, barley, rye, buckwheat, and corn are very generally cultivated. Dairy farming and wool-growing are followed to some extent. Tobacco is grown in Cheshire County, in the southwestern part of the State. Fruit-raising is generally profitable. In some localities southward the peach is successfully cultivated. Fine building granite is extensively quarried at Concord, Milford, Pelham, Plymouth, and other points, and a fine soapstone at Francestown. Iron-ore is mined principally at Franconia, but abounds in several other localities. There is a thin vein of tin at Jackson. Lead, silver, and zinc are developed in Madison and Warren. Manufactures constitute by far the largest industry. There is scarcely a town of any considerable size without its important manufacture. It is especially noted for its textile interests. According to the census of 1870, in the value of cotton goods produced, New Hampshire was excelled only by Massachusetts, Rhode Island, and Pennsylvania. The other main industries are boots and shoes, carriages, flouring-mills, saddlery, clothing, starch, etc.

There are 10 Counties in New Hampshire. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 46, of which the 10 designated by a dagger (†) are county-seats. Of the 87 papers which insert advertisements published in the State, 9 are daily, 2 semi-weekly, 63 weekly, 2 bi-weekly, 2 semi-monthly, and 9 monthly.

## VERMONT.

Population 332,286.....Rep. Plur. 27,251

Gbk. vote, 1,215.

STATE CAPITAL, MONTPELIER.

VERMONT is the most northwesterly of the New England States, bounded north by Quebec, east by New Hampshire, south by Massachusetts, and west by New York. It is 130 miles long by from 35 to 85 miles wide, with a land area of 9,135 square miles. The Green Mountains traverse it from north to south, mainly in two ranges, generally covered with dense forests, but affording excellent pasturage. Western Vermont and a large tract of the eastern part comprise beautiful pastoral regions, but the central part is rugged and mountainous. The best soil is found on the western slope of the mountains near the border of Lake Champlain, and in the valley lands of the Connecticut River. The State occupies a prominent position in agriculture. When its area, population, amount of forest-land, and long severe winters are considered, there is perhaps no other State that yields so large a return. All the ordinary agricultural staples are abundantly produced; wool and dairy products are large and excellent; cattle, sheep, and horses are raised in large numbers, and the yield of maple-sugar is unequaled. Manufactures occupy a prominent position in its industries, and cover a wide range of goods. Large quantities of lumber are exported, and marble and slate extensively quarried. The principal marble quarries are at Brandon, Castleton, Dorset, Fair Haven, Isle La Motte, Manchester, Middlebury, New Haven, Proctorsville (serpentine), Rosebury (verd-antique), Rutland, Shelbourne and Swanton; slate quarries at Castleton, Fair Haven, Guilford, and Putney. Potters' clay comes from Bennington and Rutland; steatite from Castleton and Grafton. Manganese, brown hematite, kaolin and ochre from Brandon; copper-ore from Vershire and Corinth.

There are 14 Counties in Vermont. Newspapers are published in 13.—Cities, towns, and villages in which papers are published number 35, of which 9 designated by a dagger (†) are county-seats. Of the 61 papers which insert advertisements published in the State, 3 are daily, 51 weekly, 1 bi-weekly, and 6 monthly.

# MASSACHUSETTS.

**Population 1,783,085.....Rep. Plur. 53,245**

Gbk. vote, 4,548.

STATE CAPITAL, BOSTON.

MASSACHUSETTS is bounded north by Vermont and New Hampshire, east by the Atlantic Ocean, south by the Atlantic Ocean and by Rhode Island and Connecticut, and west by Rhode Island and New York. Its extreme length is 160 miles, and breadth from 47 to about 90 miles; land area, 8,040 square miles. The surface is greatly diversified; mountainous in the extreme west; hilly and broken in the east and northeast, and in the southeast mainly low and sandy. Toward the east is the fertile Valley of the Connecticut River. The mountains are the Green, the Taconic, and the Hoosac, with detached members of the White Mountains. The soil is generally somewhat sterile, but energy and intelligence have succeeded in making it very productive. The Connecticut Valley, however, can hardly be excelled for fertility. Dairy products are very extensive, as is also the yield of wool, hay, maple-sugar, and honey. Corn and potatoes are very largely produced. Of grain, the crop of oats, rye, and barley is large, buckwheat moderate, and wheat (winter), small. The tobacco crop is very great; live-stock abundant (cattle largely in excess). More than half the fishing vessels owned in the United States belong to Massachusetts. Its direct imports in 1874 amounted to \$52,737,580, and its exports to \$30,746,777. Manufactures, however, constitute by far the largest of its industries. Not only is it the center of the American boot, shoe, leather, wool, and cotton trades, but all the large towns are busy seats of more or less numerous branches of manufacture. The chief seats of the ship-building interests are Boston, Newburyport, and Salem. The State is rich in building-stone, principally granite, which is largely quarried at Rockport, Graniteville, Fall River, and Quincy; a handsome brown sandstone in the Connecticut Valley, and marble and limestone in Berkshire County; Berkshire County has also deposits of excellent iron-ore, which is extensively mined and smelted. The State has some coal, but it has not been worked to any extent, its excessive hardness rendering its use unprofitable, except in special cases.

There are 14 Counties in Massachusetts. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 145, of which the 19 designated by a dagger (†) are county-seats. Of the 415 papers which insert advertisements published in the State, 42 are daily, 1 tri-weekly, 9 semi-weekly, 273 weekly, 7 bi-weekly, 4 semi-monthly, 71 monthly, and 8 quarterly.

## RHODE ISLAND.

Population 276,531.....Rep. Plur. 7,416

Gbk. vote, 236.

STATE CAPITALS, NEWPORT AND PROVIDENCE.

RHODE ISLAND is bounded on the north and east by Massachusetts, south by the Atlantic Ocean, and west by Connecticut. Its extreme length from north to south is 47½ miles; extreme breadth, 40 miles; average breadth, 35 miles; land area, 1,055 square miles. The surface is for the most part rough, hilly, and stony. There are no mountains, and few hills of any eminence. Nearly one fourth is woodland. Soil generally fertile, especially that of the smaller islands; but parts are level and marshy. Rhode Island is not an agricultural State. The wheat and buckwheat crop is merely nominal; other cereals small; dairy and market-garden produce and live-stock very moderate. In 1870 nearly one fourth of the population was engaged in manufacturing. The most prominent industries are cotton, woolen and worsted goods, machinery, jewelry, silver and plated ware, clothing, iron and ironware, rubber and elastic goods, leather, refined sugar and molasses, and flouring-mill products. Coal is mined at Cumberland, Portsmouth, and Valley Falls, but is hard and difficult to burn. There are extensive granite quarries at Westerly.

There are 5 Counties in Rhode Island. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 15, of which the 4 designated by a dagger (†) are county-seats. Of the 42 papers which insert advertisements published in the State, 7 are daily, 2 semi-weekly, 28 weekly, 1 bi-weekly, and 4 monthly.

# CONNECTICUT.

Population 622,700.....Rep. Plur. 2,656

Gbk. vote, 868.

STATE CAPITAL, HARTFORD.

CONNECTICUT is bounded north by Massachusetts, east by Rhode Island, south by Long Island Sound, and west by New York. Its average length from east to west is 86 miles; its average breadth, 55 miles; land area, 4,845 square miles. The eastern part is principally composed of rounded hills, which, though stony, afford rich pasturage; and the valleys support a thrifty agricultural and manufacturing population. The Connecticut Valley, near the river, and at a distance from the Sound, is very fertile. In the south the land is broken and the soil sandy and gravelly, but when well manured yields good crops of potatoes, rye, oats, and corn. In the west the surface is rough and the hills are abrupt. Agriculture is not a leading industry. Dairy products and hay are the principal staples of the east and west. Tobacco is largely grown in the Connecticut Valley. Corn, rye, oats, and potatoes are grown in nearly all sections. The land near the large cities and towns is chiefly devoted to market-gardening. Connecticut is mainly a manufacturing State, and its industries are very extensive and varied. Excellent iron is made from Connecticut ores, and very large quantities of brown stone are taken from the celebrated Portland sandstone quarries.

There are 8 Counties in Connecticut. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 56, of which the 8 designated by a dagger (†) are county-seats. Of the 142 papers which insert advertisements published in the State, 20 are daily, 1 semi-weekly, 98 weekly, 1 every ten days, 2 bi-weekly, 1 semi-monthly, 1 every third week, 15 monthly, 1 bi-monthly, and 2 quarterly.

## NEW YORK.

Population 5,082,871.....Rep. Plur. 21,033

Gbk. vote, 12,373.

STATE CAPITAL, ALBANY.

NEW YORK is bounded on the north and northwest by Lake Ontario and the provinces of Ontario and Quebec, east by Vermont, Massachusetts, Connecticut, and the Atlantic Ocean, south by the Atlantic Ocean, New Jersey, and Pennsylvania, and west and northwest by Pennsylvania and Lake Erie. Its greatest length from north to south is 312 miles; its greatest breadth 412 miles; land area, 47,620 square miles. The surface is exceedingly diversified. It has numerous ranges of mountains, chains of hills, many beautiful valleys, much undulating land, some broad plains, and numerous beautiful lakes. The greater portion of the soil is arable, much of it exceedingly fertile. The mountainous districts are mainly good grazing land, and the dairy products are enormous, notably in St. Lawrence County. Immense crops of cereals are grown in the valley lands; tobacco is raised in several counties, and corn generally throughout the State. In the neighborhood of the large cities, market-gardening is extensively carried on. The State is well wooded, and the timber varied and excellent. It abounds in building-stone, consisting of granite, white and colored marbles, of which those of Westchester County are the most important; Potsdam and Medina sandstones and gray and blue limestones; also in fine brick-clay. It has large quarries of slate and stone for flagging. A vast amount of salt is made, chiefly from the springs of Onondaga County. There are also illuminating gas springs in several counties. New York has no coal. In 1870 the State ranked first in the value of its manufactures. The industries cover almost the whole range of business, and are well distributed over the State. In 1874 it had in vessels of all classes a tonnage of over 1,700,000 tons, more than a third of the tonnage of the country. The fishing industry is relatively large and valuable.

There are 60 Counties in New York. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 370, of which the 57 designated by a dagger (†) are county-seats. Of the 1,327 papers which insert advertisements published in the State, 136 are daily, 3 tri-weekly, 17 semi-weekly, 852 weekly, 13 bi-weekly, 20 semi-monthly, 247 monthly, 5 bi-monthly, 33 quarterly, and 1 semi-annual.

# PENNSYLVANIA.

Population 4,282,892.....Rep. Plur. 37,276

Gbk. vote, 20,668.

STATE CAPITAL, HARRISBURG.

PENNSYLVANIA is bounded north by New York and Lake Erie, east by New York and New Jersey, south by Delaware, Maryland, and West Virginia, and west by West Virginia and Ohio. Its greatest length from east to west is about 302 miles; its greatest breadth about 175 miles; mean length 280 miles; mean breadth 158 miles; land area, 44,985 square miles. The surface is exceedingly varied, chiefly level or slightly undulating in the southeast, hilly and mountainous in the interior, and generally rolling or broken in the west. A series of parallel ridges, members of the Appalachian system, each with a distinct name, traverse the State from northeast to southwest. The easternmost of these is the South Mountain, an extension of the Blue Ridge, and the westernmost and highest the Allegheny, from which the surface slopes generally toward Ohio. Nearly one fourth of the State is wooded, and a very large amount of lumber is manufactured, Williamsport and Lock Haven being the chief centres of this industry. The soil of the valleys and plains is generally fertile, and some of it exceedingly so. Lancaster County, and some of the counties bordering on the Ohio River, are the most productive. The State excels in dairy and market-garden produce and all the agricultural staples of the Northern States. The tobacco crop is exceeded only by that of Kentucky and Virginia, reaching in 1880 nearly 37,000,000 lbs., of which amount Lancaster County alone produced two-thirds, and York nearly 3,000,000 lbs. Its beds of anthracite and bituminous coal and iron-ore, and the great oil basin, are sources of immense wealth. Anthracite coal is found mainly in the counties of Carbon, Dauphin, Luzerne, and Schuylkill, to some extent in Columbia and Northumberland, and semi-anthracite in limited areas in Sullivan and Wyoming. Bedford, Bradford, Centre, Clearfield, Fulton, Lycoming, and Tioga counties contain fields of semi-bituminous coal, while the bituminous coal beds are located beyond the main Allegheny Ridge, every county west of it, with the exception of Erie, yielding more or less of this coal. Mercer supplies a good block coal for furnace use. The petroleum region is situated mainly in the counties of Venango, Butler, McKean, and Clarion. Salt springs abound in the same region, also natural gas wells, the gas from which is used for heating and lighting purposes. It is rich in minerals, slate, and building-stone of many kinds. There are many medicinal springs, the principal of which are at Bedford, Doubling Gap, Ephrata, Yellow Springs, and York. The south-eastern corner of the State (bounded by a line running from Trenton, N. J., to Norristown, thence nearly to Lebanon, thence across the Susquehanna in a southwesterly direction to the Maryland line, east of Gettysburg), is rich in limestone and marble, of which great quantities are quarried for use in Philadelphia. This region also produces combined iron and chromium ores, hematite, magnetic iron, and corundum. Nickel is found at Lancaster, galena at Phoenixville, zinc at Friedensville and Bethlehem. A handsome black limestone is quarried at Williamsport, roofing-slates in the Lehigh and Delaware Valleys, Silurian limestone in the Cumberland Valley and at other points. In manufactures, Pennsylvania is second only to New York, and Philadelphia is one of the principal seats of foreign and coast-wise trade. The leading exports are grain, provisions, petroleum, tobacco, oil-cake, lumber, tallow, hides, leather, shoes, cotton goods, machinery, and coal. Erie and Pittsburgh are also great commercial centres. Kensington and Chester are the chief ship building stations. Pittsburgh, Allegheny, Harrisburg, Reading, and Scranton are the chief seats of the iron manufactures.

There are 67 Counties in Pennsylvania. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 299 of which 67 designated by a dagger (†) are county-seats. Of the 996 Papers which insert advertisements published in the State, 109 are daily, 3 tri-weekly, 5 semi-weekly, 687 weekly, 5 bi-weekly, 10 semi-monthly, 164 monthly, 2 bi-monthly, and 11 quarterly.

# NEW JERSEY.

Population 1,131,116.....Dem. Plur. 2,010

Gbk. vote, 2,617.

STATE CAPITAL, TRENTON.

NEW JERSEY is bounded north and northeast by New York, east by New York and the Atlantic Ocean, south by the Atlantic Ocean and Delaware Bay, and west by Delaware and Pennsylvania. Its extreme length is 167 miles; its greatest breadth 59 miles, and its least 32 miles; land area, 7,455 square miles. The surface is mountainous in the northwest, hilly in the northeast and central parts, low and gently undulating in the south. The mountains, a part of the Appalachian system, are the Kittatinny or Blue, and the Highland Range. Between them lies the Kittatinny Valley, about 10 miles wide: soil productive but varied—the northern part adapted to grain and grass; the central part has been well fertilized, and yields abundant farm and market-garden products and fruit; the southern part is sandy and light. Its agricultural products generally, including market-garden produce, are very extensive. Large quantities of grapes and small fruits are grown in the south. Cranberries are one of the leading productions. It is celebrated for its marl deposits, peat, bog-iron ore, and glass-sand. It has become one of the leading States in the value of its manufactures, ranking seventh in this respect in 1870. The manufactures embrace a wide range of goods. Its iron-mines, quarries, and clay-banks are very valuable, and the fisheries (deep-sea, oyster, and fresh-water), a source of great profit. Iron-ore is found generally through the State. Clay for gas-retorts and fire-brick is found at Amboy, and valuable deposits of franklinite at Mine Hill and Stirling. In the northwestern portion of the State, excellent roofing-slates, building and flag-stones and rich hematites are abundant. It has a large coasting trade and considerable ship building is carried on.

There are 21 Counties in New Jersey. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 93, of which 21 designated by a dagger (†) are county-seats. Of the 213 Papers which insert advertisements published in the State, 25 are daily, 1 tri-weekly, 5 semi-weekly, 166 weekly, 1 bi-weekly, 2 semi-monthly, 12 monthly, and 1 bi-monthly.

# DELAWARE.

**Population 146,608.....Dem. Maj. 1,033**

STATE CAPITAL, DOVER.

DELAWARE is bounded north by Pennsylvania, east by the Delaware River and Bay, and the Atlantic Ocean, south and west by Maryland. Its length from north to south is 96 miles, its breadth ranging from 9 to 12 miles in the north to about 36 miles in the south; land area 1,960 square miles. The surface in the north is finely diversified with hill and dale, but southward it is almost a dead level, with marshes and swampy tracts. The soil in the interior of the State is light and easily cultivated. The agricultural products are grain, corn, and market-garden produce; peach-growing is a prominent industry. Manufactures are various, and are carried on chiefly in Wilmington and its vicinity.

There are 3 Counties in Delaware. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 9, of which 3 designated by a dagger (†) are county-seats. Of the 25 papers which insert advertisements published in the State, 5 are daily, 17 weekly, 2 monthly, and 1 quarterly.

# MARYLAND.

Population 934,943.....Dem. Maj. 15,191

(210,236 col'd.)

STATE CAPITAL, ANNAPOLIS.

MARYLAND is bounded north by Pennsylvania, east and southeast by Delaware and the Atlantic Ocean, west by West Virginia, and south and southwest by Virginia, West Virginia, and the District of Columbia. The Chesapeake Bay divides the greater part of it into two unequal parts, known as the Eastern and Western Shores. Its extreme length from east to west on its northern border is 198 miles, and its width, following the course of the Potomac, varies from 3 or 4 miles to about 120 miles; land area, 9,860 square miles. The surface of the Eastern Shore is mostly level, and in parts low and swampy, but towards the north rocky and broken. The Western Shore, between the Potomac River and Chesapeake Bay, presents mainly the same general features. The northwest is very mountainous: five or six ridges of the Alleghenies, principally the Blue and Laurel, traverse that section. In the extreme west are the beautiful elevated valleys named Glades. The soil of the Eastern Shore and the lower part of the Western is generally light and sandy, well adapted for peaches and market-gardening; that of the central and northern parts very rich, yielding immense crops of tobacco, wheat, and corn. The mountain slopes are thickly wooded. The oyster fisheries are more extensive than in any other State. The manufactures are very numerous—canned goods (fruits, meats, and oysters) being one of the most important. Boots and shoes, bricks, cement, chemicals, clothing, cotton and woolen goods, cooperage, tobacco, flour, leather, lumber, machinery, and metallic wares are leading industries. Its commerce is confined principally to Baltimore, whose foreign trade is very important. Maryland coal is used extensively in all the Atlantic States. Fire clays are abundant; those of Mt. Savage have a wide reputation. Brown hematite is found in the Trenton limestone, and bog-ore on the Eastern Shore. There are numerous quarries of marble, granite, serpentine, and other building stone, limestone for burning, and roofing-slate. Kaolin is found in Anne Arundel County; magnesite near Baltimore, from which large quantities of magnesia, carbonate, and Epsom salts are manufactured. There are many other minerals, including alum, amber, barytes, breccia, cements, chromium, hone-stone, mill-stone, iron pyrites, ochres, etc., some of which are very plentiful. Especial attention is given to tobacco-growing in the lower counties of the Western Shore.

There are 23 Counties in Maryland. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 46, of which 23 designated by a dagger (†) are county-seats. Of the 141 papers which insert advertisements published in the State, 12 are daily, 111 weekly, 4 semi-monthly, 12 monthly, and 2 quarterly.

# VIRGINIA.

**Population 1,512,565.....Dem. Maj. 43,956**

Colored, 631,616.

STATE CAPITAL, RICHMOND.

VIRGINIA is bounded north by West Virginia and Maryland, east by Maryland and the Atlantic Ocean, south by North Carolina and Tennessee, and west by Kentucky and West Virginia. Its greatest length from east to west is about 410 miles, its greatest breadth 192 miles; land area, 40,125 square miles. The surface is divided into six great natural divisions, the Tidewater comprising the south and southeast; the Middle, an undulating plain, extending westward to the Coast Range; the Piedmont, from the Coast Range to the Blue Ridge Mountains, and from the Potomac River to North Carolina; the Blue Ridge, stretching across the State in a southwesterly direction; the Valley—a part of the great Appalachian Valley, reaching from Canada to Alabama—a broad belt of rolling country between the Blue Ridge and the Kittatinny or North Mountain; and the Appalachian, a mountainous region traversed by the Alleghenies. The soil in the Tidewater region is a light sandy loam, yielding large crops of vegetables and small fruits. The Valley Region has a rich fertile soil, well adapted for cereals. Much of the Mountain Region is uncultivated and chiefly forest land; but the parallel valleys are very fertile. The Piedmont, Blue Ridge, Valley, and Appalachian regions are noted for their grasses. The yield of tobacco is only equaled by that of Kentucky. Some cotton is grown in the Tidewater section; fruit grows all over the State. The eastern section is largely devoted to raising early vegetables for northern markets. Dairying, stock-raising, and wool-growing are important industries. The timber export is large. There are profitable fisheries of bass, shad, etc., and the oyster trade is very important. The manufacturing interests are comparatively small, but are increasing, the chief seats being Richmond, Alexandria, Danville, and Lynchburg. Virginia has excellent natural advantages for commerce, but it is only lately that she has begun to take a prominent part in foreign trade. There are beds of anthracite, semi-bituminous, and bituminous coal in the southwestern counties, not much developed; salt is an important product of this region. There are coal-bearing strata in other parts of the State, particularly near Richmond; the coal is bituminous, and generally of good quality. Virginia has vast beds of gypsum, and marl, abundant iron-ore, fine granite, marble, and other building stones; zinc, sulphur, kaolin, fire-clay, and many other minerals. It abounds in mineral springs of great reputation.

There are 100 Counties in Virginia. Newspapers are published in 65.—Cities, towns, and villages in which papers are published number 85, of which 53 designated by a dagger (†) are county-seats. Of the 185 papers which insert advertisements published in the State, 19 are daily, 4 tri-weekly, 7 semi-weekly, 123 weekly, 2 semi-monthly, 29 monthly and 1 quarterly.

## WEST VIRGINIA.

Population 618,457.....Dem. Plur. 11,148

Colored, 25,586.

Gbk. vote, 9,079.

STATE CAPITAL, CHARLESTON.

WEST VIRGINIA is bounded north and east by Pennsylvania and Maryland, east and south by Virginia, and west by Kentucky and Ohio. Its greatest length from north to south is about 240 miles; greatest breadth, 160 miles; land area, 24,645 square miles. A large part of the surface is mountainous and hilly; about two-thirds is covered with forest. The soil of the ridges is fertile to the tops, and the summits of many mountains are flat, natural meadows or glades. The valley of the Great Kanawha is the finest grazing region of the State. Blue grass is indigenous; the lumber trade is important. Nearly the whole of the State lies within the Allegheny coal system, and large quantities of coal are exported, although comparatively few mines have been opened. It is generally bituminous. The Kanawha Valley is one of the great salt-producing regions of the United States. Petroleum is extensively produced, chiefly in Ritchie, Pleasants, Wood, and Wirt Counties. Limestone, sandstone, and grinding stone abound generally through the State. The minerals and mineral springs are inexhaustible. West Virginia is especially famous for wool. Other great staples are corn, wheat, oats, and tobacco. Manufactures are comparatively undeveloped, except in the towns along the Ohio River. The leading industries are iron in various forms, flour, salt, liquor, lumber, leather, and machinery.

There are 34 Counties in West Virginia. Newspapers are published in 45.—Cities, towns, and villages in which papers are published number 57, of which 43 designated by a dagger (†) are county-seats. Of the 103 papers which insert advertisements published in the State, 4 are daily, 2 semi-weekly, 92 weekly, 1 bi-weekly, 2 semi-monthly, and 2 monthly.

# NORTH CAROLINA.

**Population 1,399,750.....Dem. Maj. 8,326**

Colored, 531,277.

STATE CAPITAL, RALEIGH.

NORTH CAROLINA is bounded north by Virginia, east and southeast by the Atlantic Ocean, south by South Carolina and Georgia, and west by Tennessee. Its extreme length from east to west is 490 miles; extreme breadth, 185 miles; land area, 48,580 square miles. The surface is very varied. For nearly 100 miles inland from the coast the country is level, marshy, and swampy; soil sandy but very fertile. It is estimated that there are nearly 3,000,000 acres of swamps in this region. Next is the middle section, with varied surface and fine soil. The surface then rises into small hills, increasing in altitude until they reach the mountainous region in the west. Some of the peaks in the Black Mountains and the Blue Ridge attain an elevation of from 5,000 to 6,000 feet. This region contains good grazing land, much hard timber; and stock-raising is largely carried on. In the coast region the river bottoms and reclaimed swamp lands are very fertile, and here rice, cotton, corn, honey, beeswax, apples, peaches, and pears abound. The Scuppernon and Catawba grapes are native here; cranberries are extensively produced. The pine region is mainly uncultivated, but a large trade is done in timber, tar, and turpentine. Cotton is raised chiefly in the southern counties. The middle section is adapted to the growth of cereals, tobacco, and cotton; sweet potatoes are a leading staple. The principal manufactures are flour, lumber, tar, turpentine, rosin, cotton and woolen goods, tobacco, zinc (smelted and rolled), carriages, boots and shoes. It exports coastwise and to foreign ports large amounts of lumber, cotton, tobacco, flour, and fish. The fisheries are very large and valuable. The State is very rich in minerals. Gold is mined to a considerable extent in Cabarrus, Mecklenburg, Lincoln, and Rowan Counties, and there is a branch of the United States Mint at Charlotte. Silver, lead, and zinc are found in association, particularly in Davidson County; silver ores mixed with lead or copper, principally in the interior counties; copper ores cover a wide field, and there is a very valuable mine in Ashe County; mica is found among the granites of Cleveland, Mitchell, and Yancey Counties; there is an abundance of corundum and many other metals, and even precious stones are found. Coal and iron are very abundant; the coal is mostly bituminous, and is contained in two fields, one in Stokes and Rockingham Counties, known as Dan River Field, the other in Chatham and Moore Counties, known as Deep River Field. The whole of the region from the navigable waters of the Roanoke and Cape Fear Rivers westward to Cherokee County contains rich beds of magnetic and hematite ores; the "Cranberry" mine, in Mitchell County, yields the purest magnetic ore yet found in the United States, producing a remarkably strong and tenacious iron.

There are 96 Counties in North Carolina. Newspapers are published in 57. — Cities, towns, and villages in which papers are published number 67, of which 48 designated by a dagger (†) are county-seats. Of the 135 papers which insert advertisements published in the State, 12 are daily, 1 tri-weekly, 3 semi-weekly, 166 weekly, 2 bi-weekly, 4 semi-monthly, and 7 monthly.

## SOUTH CAROLINA.

**Population 995,577.....Dem. Plur. 54,241**

Colored, 604,332.

Gbk. vote, 566

STATE CAPITAL, COLUMBIA.

SOUTH CAROLINA is bounded north and northeast by North Carolina, southeast by the Atlantic Ocean, west and southwest by Georgia. Its greatest length from east to west is about 275 miles, and its greatest breadth about 210 miles; land area, 30,170 square miles. The surface presents nearly the same features as that of North Carolina. The coast for 100 miles inland is low and level, with sandy soil, numerous swamps, and extensive pine forests; then follows a tract of low sand-hills, the soil of which is moderately productive. The land rises abruptly on the western edge of this belt, and continues to rise until it terminates in the Blue Ridge, the highest peak of which, Table Mountain, is 4,000 feet above the sea. The swamps embrace over 1,000,000 acres, and the pine lands 6,000,000. The sea islands are mainly devoted to sea-island cotton and rice, and the palmetto grows on them; the tidal swamps to rice; inland swamps, when drained, to rice, cotton, corn and pease; the salt marshes to long cotton; the oak and pine and oak and hickory lands to corn and cotton; and the pine-barrens to fruits and vegetables. Rice, cotton, and corn thrive best in the central and southern counties. The northwestern region produces corn, wheat, barley, oats, tobacco, and many fruits. Stock-raising and wool-growing are carried on with profit. Figs and pomegranates grow in the lower counties, and the peach and grape thrive over the State generally; strawberries abundant. The manufactures are principally cotton goods, flour, lumber, machinery, tar, turpentine, carriages, and fertilizers. Commerce is mainly confined to Charleston, Georgetown, and Beaufort. Exports are chiefly rice, cotton, lumber, phosphate, naval stores, cotton-seed and its oil, oil-cake, fish, and spring vegetables. Considerable shad and oyster fishing. The mineral wealth, though large, has not been much developed. Considerable gold is found in the northwestern counties; there are large deposits of excellent iron-ore in Greenville, Pickens, Spartanburg, and Union Counties; manganese, copper, lead, and bismuth are also found, mainly in the northwest; white and colored marbles and limestones, granites and cyanites, soapstones, flagging-stone, and buhr-stone abundant. Aiken County contains immense beds of the finest porcelain clay. A little coal is found in Chesterfield County. The most valuable mineral at the present day is, however, a bone phosphate marl, a fossil of very remote origin and one of the best of fertilizers, found in the lowlands and river beds near Charleston; on the Stono, Ashepoo and Edisto Rivers, and also near St. Helena Sound.

There are 34 Counties in South Carolina. Newspapers are published in 33.—Cities, towns, and villages in which papers are published number 44, of which 32 designated by a dagger (†) are county-seats. Of the 33 papers which insert advertisements published in the State, 5 are daily, 3 tri-weekly, 1 semi-weekly, 6S weekly, 1 semi-monthly, and 5 monthly.

# GEORGIA.

**Population 1,542,180.....Dem. Plur. 48,321**

Colored, 725,133.

Gbk. vote, 481.

STATE CAPITAL, ATLANTA.

GEORGIA is bounded north by Tennessee and North Carolina, northeast by South Carolina, southeast by the Atlantic Ocean, south by Florida, and west by Alabama. Its extreme length from north to south is 320 miles, extreme breadth 254 miles; land area, 58,980 square miles. The surface is varied; along the coast and Florida line it is low and swampy; the great Okeefinokee Swamp is in the southeast. Back from the coast is a stretch of sandy land, mostly pine barrens, and yielding large amounts of timber and naval stores. A series of terraces bring the land in the middle of the State to about 575 feet above tidewater, from which elevation it rises toward the north more rapidly, until it becomes mountainous, being there crossed by spurs of the Appalachians. The soil of the islands is sandy, producing sea-island cotton; that of the mainland, rich alluvial, producing corn, cotton, and rice; the middle region is red loam, yielding good cotton, corn, tobacco, etc. In the north there is much fertile soil: grain, tobacco, fruits, and vegetables are largely grown, but not much cotton, which is mainly raised in the central, west-central, and southwestern regions. Sugar-cane is grown in the south, and considerable pork fattened, mainly for home consumption; sweet potatoes are largely produced; wool is prominent, but corn and cotton are the leading staples. In 1870 the manufacturing establishments numbered 3,836, employing nearly 18,000 hands. Among the leading industries are lumber, flour, boots and shoes, carriages, cotton and woolen goods, wool-carding and cloth-dressing, leather, saddlery, metallic wares, furniture, castings, machinery, farm implements, etc. The latest detailed information gives the number of cotton factories in the State at 38, with 123,233 spindles and 2,125 looms; 14 woolen factories, with 42,000 spindles and 185 looms, the most numerous and important of which are at Augusta and Columbus. 1,375 grain mills, 734 saw mills, 77 wagon and carriage shops, 13 iron furnaces and foundries, 11 kilns, 4 potteries, 68 tanneries, 2 rolling mills, 5 paper mills, 3 rice mills, 12 furniture factories, 6 turpentine distilleries, etc., and the number at the present day is probably much greater. Besides Augusta and Columbus there are cotton factories at Athens, Atlanta, Decatur, Macon, and West Point. Atlanta has large iron works. Albany, Dalton, Marietta, Rome, Thomasville are manufacturing towns. Darien, Brunswick, and St. Marys manufacture and export lumber. Minerals: bituminous coal in the northwestern portion; immense deposits of iron-ore in Bartow and Cherokee Counties; abundant fossiliferous iron-ore on the east side of Taylor's Ridge; copper-ore in Gilmer County; gold is most plentiful in Cherokee, Carroll, Cobb, and Lumpkin Counties; silver, lead, and many other minerals, granite, marble, gypsum, slate, and petroleum; excellent statuary marble in Cherokee County; hydraulic limestone in Bartow County. There are numerous mineral springs of which the Indian Springs of Forsyth County are the best known.

There are 137 Counties in Georgia. Newspapers are published in 101. — Cities, towns, and villages in which papers are published number 109, of which 88 designated by a dagger (†) are county-seats. Of the 189 papers which insert advertisements published in the State, 15 are daily, 3 tri-weekly, 3 semi-weekly, 151 weekly, 2 semi-monthly, and 15 monthly.

## FLORIDA.

**Population 269,493.....Dem. Maj. 4,310**

Colored, 126,690

STATE CAPITAL, TALLAHASSEE.

FLORIDA is bounded north by Alabama and Georgia, east by the Atlantic Ocean, south and west by the Gulf of Mexico and Alabama. The peninsular portion of the State is about 375 miles long by an average breadth of 90 miles; the upper portion 360 miles from east to west by from 30 to 90 miles from north to south; land area, 54,240 square miles. Surface is diversified with numerous lakes, the largest, Okeechobee, being 40 miles long by about 30 miles broad. The largest portion of the southern part of the peninsula is occupied by the Everglades, an evergreen marsh or swamp, impassable in the rainy season, and resembling an immense lake dotted with innumerable islands of from half an acre to hundreds of acres in extent, the whole comprising over 2,000,000 acres. From the northern end of the swamp to Georgia is mostly a dead level, with occasional undulations and small hills. West of the neck of the peninsula the surface becomes a little more uneven; the central portion is the most fertile, but there are many pine-barrens there. There are numerous gentle eminences called hammocks, which are remarkably fertile, as are also the swamp-lands when ditched and drained. The soil of the east and west peninsula districts is generally sandy and poor. Sugar-cane is raised chiefly along the Gulf coast. Both long and short staple cotton and tobacco are grown, but corn and rice are the principal cereals. Oranges, lemons, limes, pineapples, olives, and grapes flourish luxuriantly; garden vegetables are largely produced. Cattle require little care, are not housed in winter, and large numbers are raised and shipped to Havana. Hogs fatten on the roots and mast of the forest. Sponge is found on many parts of the coast. Manufactures of pine-lumber, ship-timber, tar, rosin, turpentine, cotton-seed-oil and cake, palmetto hats and braids; salt is made by solar evaporation; cigars are manufactured at Key West in large quantities. There are considerable fisheries.

There are 39 Counties in Florida. Newspapers are published in 29.—Cities, towns, and villages in which papers are published number 37, of which 27 designated by a dagger (†) are county-seats. Of the 52 papers which insert advertisements published in the State, 2 are daily, 1 semi-weekly, and 49 weekly.

# ALABAMA.

Population 1,262,505.....Dem. Plur. 34,509

Colored, 800,103.

Gbk. vote, 4,642.

STATE CAPITAL, MONTGOMERY.

ALABAMA is bounded north by Tennessee, east by Georgia and Florida, south by Florida and the Gulf of Mexico, and west by Mississippi. Its extreme length north to south is 336 miles, breadth varying from about 150 to 200 miles; land area, 51,540 square miles. The Alleghany range enters the State at the northeast, and extends towards the centre, finally losing itself in mere hills; then follows a tract of rolling prairies, interspersed with pine barrens and exceedingly rich alluvial bottoms, including the cane-brake region, one of the richest cotton producing districts in the world. From this to the Florida border and the Gulf the land is generally flat. This part is thinly settled, and is mostly covered with pine forests. North of this is the broad belt of rich black soil, a space of several miles in breadth, constituting the great cotton producing section of the State. The soil then becomes sandy and poor, but abundant water-power renders it capable of becoming a fine manufacturing district. The mineral region occupies the northeast part, while the northwest is a good agricultural and stock-raising country. Cotton is grown throughout the State, but mainly in the central belt alluded to; tobacco chiefly in the north; very fine wheat in the north and northeast; rice in the south; corn largely all over the State. Dairy products, fruits, wool, oats, and sweet potatoes are produced in considerable quantities. Manufactures have been unimportant until lately, when considerable increase has been manifested, but agriculture is by far the leading industry. The chief manufactures are flour, lumber, leather, cotton goods and cotton gins, thread and yarn, iron, and machinery. Commerce centres at Mobile. Cotton and lumber are the chief exports. Extensive beds of brown hematite of an excellent quality are found in Bibb, Cleburne, Jefferson, St. Clair, Shelby, and Talladega Counties. There are other extensive beds of ore. The coal fields contain thick fields of bituminous coal of several kinds: considerable gold has been mined; silver and copper are also found; potter's, porcelain and fire clays, hydraulic limestone, manganese and many other minerals exist in considerable quantities; there are various building-stones. The statuary granite and white marble of Coosa County and the variegated marbles of Talladega and adjacent counties are not surpassed by any in the country.

There are 66 Counties in Alabama. Newspapers are published in 60.—Cities, towns, and villages in which papers are published number 71, of which 36 designated by a dagger (†) are county-seats. Of the 120 papers which insert advertisements published in the State, 7 are daily, 1 semi-weekly, 104 weekly, 1 bi-weekly, 1 semi-monthly, and 6 monthly.

MISSISSIPPI is bounded north by Tennessee, east by Alabama, south by the Gulf of Mexico and Louisiana, and west by the Mississippi River, which separates it from Louisiana and Arkansas. Its extreme length from north to south is 332 miles; average breadth, 142 miles; land area, 46,340 square miles. The surface is generally hilly or undulating, except in the Mississippi bottom, from Vicksburg to the Tennessee line, and between the Mississippi and Yazoo rivers, where it is low and swampy, subject to inundation and covered with a dense growth of timber, but with soil which, if reclaimed, would be exceedingly fruitful. Below Vicksburg the surface for some miles inland is hilly, and known as the "cane hills" or "bluffs," and with a generally productive soil. There is a very fertile prairie region in the northeast. The southern part is chiefly a level pine region, and furnishes good pasturage and large quantities of timber, tar, turpentine, etc. The soil of this tract is poor and sandy. Cotton and corn are the great staples. Wheat is grown in the north, and rice and sugar-cane in the south. Grazing is an important industry, much pork is fattened, and the clip of wool is large. Dairy products, sorghum, tobacco, and sweet potatoes are produced in considerable quantities. The manufactures are neither varied nor very extensive, lumber and grist-mill products being the most important. Its commerce is carried on principally through New Orleans and Mobile; coasting and river trade large. The State has no coal or iron of practical value. Its mineral deposits are confined mainly to fertilizers, soft limestone and clays. Tishomingo County has large beds of fine pipe and potter's clay; there is also some sandstone suitable for rough masonry.

There are 74 Counties in Mississippi. Newspapers are published in 63. — Cities, towns, and villages in which papers are published number 76, of which 58 designated by a dagger (†) are county-seats. Of the 117 papers which insert advertisements published in the State, 3 are daily, 6 tri-weekly, 103 weekly, and 5 monthly.

## LOUISIANA.

Population 939,946.....Dem. Plur. 33,419

Colored, 483,655.

Gbk. vote, 432.

STATE CAPITAL, NEW ORLEANS.

LOUISIANA is bounded north by Arkansas and Mississippi, east by Mississippi and the Gulf of Mexico, south by the Gulf of Mexico, and west by Texas. Its extreme length from east to west is about 300 miles, and breadth 240 miles; land area, 45,420 square miles. Surface generally low and level. There are low hills in the north and northwest, from which the land slopes gradually to the Mississippi and the Gulf. Much of the land along the river is below the surface at the spring freshets, and is protected from overflow by the levees, which are built on both banks below Baton Rouge, and on the west bank throughout the State. Many of the principal rivers and bayous are protected in like manner. It is estimated that one fifth of the surface of the State is liable to more or less frequent inundation. The soil of the river-bottoms is exceedingly fertile, and yields large crops of cotton, sugar-cane, rice, etc. Its prairies are not generally productive, but afford good pasture in places. The hilly section yields good cotton crops, but is largely covered with pine barrens. The great staples are cotton, sugar, rice, and corn. The State produces nearly all the sugar made in the United States. The yield of rice is very large, and the quality excellent. Cattle-raising is an important interest. The manufacturing interests are not large. The leading industries are lumber, naval stores, castings, machinery, tobacco, clothing, flouring-mill products, cotton-seed oil, and ship building. Its commerce, carried on chiefly through New Orleans, is extensive and important. Iron-ores, ochre, gypsum, and marl are abundant; large deposits of sulphur in the south-west, and an immense amount of solid rock-salt on Petit Anse Island.

There are 58 Parishes in Louisiana. Newspapers are published in 53.—Cities, towns, and villages in which papers are published number 58, of which 50 designated by a dagger (†) are parish capitals. Of the 105 papers which insert advertisements published in the State, 9 are daily, 1 semi-weekly, 90 weekly, 1 bi-weekly, 3 monthly, and 1 bi-monthly.

STATE CAPITAL, AUSTIN.

TEXAS is bounded north by New Mexico, the Indian Territory, and Arkansas, east by the Indian Territory, Arkansas, and Louisiana, southeast by the Gulf of Mexico, southwest by Mexico, and west by New Mexico; greatest length about 825 miles; greatest breadth about 740 miles; land area, 262,290 square miles. From the Sabine River to the Trinity River is the great timber region, generally level and sandy in the south, rolling and fertile in the north. From the Trinity to the Colorado is prairie, timbered along streams, with an extensive forest in the north called the "Cross Timbers." Western Texas embraces the counties between the Colorado and Rio Grande; four-fifths of it is prairie; timber generally confined to banks of streams. Between the Colorado and the Brazos Rivers are the Comanche and Leon River Mountain ranges. In the north and northwest are the Church and Double Mountains, and the surface is generally broken until the Llano Estacado, or Staked Plain, is reached, when the surface is gently undulating, and vegetation scanty. Between the Pecos and Rio Grande are several ranges, sometimes attaining an elevation of 5,000 feet. The chief crops are cotton, corn, and wheat. The former two may be grown in nearly any part of the State, but especially in the eastern and central sections; the latter chiefly in the north and centre. Sea island cotton is grown on the coast. Sugar cane is raised chiefly on the Brazos and other rivers, near their mouths, and rice in the southeast. Oats, barley, tobacco, and sweet and white potatoes are grown to a moderate extent. Swine thrive on the abundant mast of the forests. The chief occupation westward is stock-raising and wool-growing. Figs and oranges thrive in the south. Manufacturing interests are increasing. There are immense deposits of copper along the line of the Texas Pacific Railroad; coal, timber, limestone, soapstone and iron are found in the same region. Argentiferous galena is found in large quantities in northwestern Texas; immense quantities of magnetic iron in Mason, Llano, and the western counties. There is a field of bituminous coal about 6,000 square miles in extent, and a field of anthracite in Brown, Coleman, Comanche, and Hamilton Counties. Salt is produced in large quantities from springs in El Paso, Lampasas, and Llano Counties; asphaltum is abundant. Large quantities of salt-petre are found in Blanco and Burnet Counties; marble and roofing-slate, grindstones, potter's and fire-clays, marl, and other fertilizers are found in great quantities.

There are 225 Counties in Texas. Newspapers are published in 127.—Cities, towns, and villages in which papers are published number 160, of which 116 designated by a dagger (†) are county-seats. Of the 294 papers which insert advertisements published in the State, 35 are daily, 1 tri-weekly, 3 semi-weekly, 284 weekly, 3 semi-monthly, 17 monthly, and 1 quarterly.

## ARKANSAS.

**Population 802,525.....Dem. Plur. 18,828**

Colored, 210,668.

Gbk. vote, 4,079.

STATE CAPITAL, LITTLE ROCK.

ARKANSAS is bounded north by Missouri, east by Missouri, Tennessee, and Mississippi, south by Louisiana, southwest by Texas, and west by the Indian Territory; greatest length from north to south, 240 miles, and breadth from 170 to 250 miles; land area, 53,045 square miles. The eastern part is low and level, with dense forests and many swamps and lakes, and is frequently more or less inundated by the Mississippi, Arkansas, and other rivers. The surface rises toward the centre, where it is hilly and diversified with forests and rolling prairies. Further west are branches of the Ozark Mountains, comprising the Black Hills in the north, Cane Hills in the northwest, and the Ouachita Hills in the south. The Valley of the St. Francis, in the northeast, is nearly all swamp; the soil is very varied. The river bottoms are very fertile, and yield large crops of cotton, corn, sweet potatoes, tobacco, and fruit. The soil is less productive on the uplands, but in many places, especially north, produces good crops of wheat, oats, etc. Cotton is the chief staple; corn next. Hay is an important crop. The principal manufactures are flour and grist-mill products, cotton-gins, leather, wool-carding, and lumber. Coal, argentiferous galena, zinc, copper, and iron, marble, grindstone, granite, and kaolin are among the minerals. Good coal is mined in Crawford, Conway, Franklin, Johnson, Perry, Pope, Pulaski, Sebastian, Scott, Washington, White, and Yell Counties. Silver is found in connection with galena in Pulaski and Sevier Counties, and with lead in Benton, Carroll, Independence, Izard, Lawrence, Madison, Marion, Newton, Randolph, Searcy, and Washington Counties; excellent marble, especially in Madison County. Slate for all purposes is quarried in Pike, Pulaski, Polk, and Sevier Counties; Grant and Hot Springs Counties have extensive quarries of Arkansas bone or oil-stone. Among the mineral springs, the "Hot Springs of Arkansas," at Hot Springs, Garland County, are the most renowned.

There are 74 Counties in Arkansas. Newspapers are published in 65.—Cities, towns and villages in which papers are published number 82, of which 61 designated by a dagger (†) are county-seats. Of the 126 papers which insert advertisements published in the State, 8 are daily, 2 semi-weekly, 113 weekly, 1 semi-monthly, and 2 monthly.

# KENTUCKY.

**Population 1,648,690.....Dem. Plur. 43,449**

Colored, 271,451.

Gbk. vote, 11,498.

STATE CAPITAL, FRANKFORT.

KENTUCKY is bounded north by Ohio and Indiana, northwest by Illinois, east by West Virginia and Virginia, south by Tennessee, and west by Missouri; greatest length from east to west, 350 miles; greatest breadth, 178 miles; land area, 40,000 square miles. The surface in the east and southeast is mountainous, being broken by numerous parallel ranges of the Alleghany system, with deep valleys. Northwest of this section is the famous Blue Grass Region, with a gently undulating upland surface, with deep valleys at the rivers. Between the Green and Cumberland Rivers the surface is level and known as the "Barrens," with occasional low round-topped hills, which are covered with oaks. The western part is generally level, varied by slight undulations. The soil is generally fertile, that portion between Lexington and the Ohio River especially so, being commonly known as the "Garden of Kentucky." The chief products are tobacco, corn, wheat, oats, rye, barley, potatoes, and hemp. Kentucky has acquired a world-wide fame for its thoroughbred horses and short-horn cattle. The wool clip is very large, and immense numbers of swine are raised. Dairy products are very extensive; also sorghum-molasses, maple-sugar, honey, and wax; some cotton is raised in the southwest, near the Tennessee, Cumberland, and Mississippi rivers. The manufacturing interests are varied and important, and are carried on chiefly in the towns on the Ohio River; the most extensive industry is the smelting and working of iron. Whisky is an important product of the central counties. Salt is made in large quantities from the springs of Clay and other counties. Coal and iron deposits are the most valuable minerals of this State; it has excellent building-stone; silver-ore is found near Cumberland Falls.

There are 117 Counties in Kentucky. Newspapers are published in 77.—Cities, towns, and villages in which papers are published number 89, of which 73 designated by a dagger (†) are county-seats. Of the 196 papers which insert advertisements published in the State, 13 are daily, 2 tri-weekly, 11 semi-weekly, 143 weekly, 5 semi-monthly, and 22 monthly.

STATE CAPITAL, NASHVILLE.

TENNESSEE is bounded north by Kentucky and Virginia; southeast by North Carolina; south by Georgia, Alabama, and Mississippi; west by Arkansas and Missouri; greatest length from east to west 432 miles, breadth 109 miles; land area, 41,750 square miles. The State is popularly divided into East, Middle, and West Tennessee. East Tennessee comprises the eastern mountain border, the beautiful East Tennessee Valley, and about half of the Cumberland Mountain plateau. Middle Tennessee reaches from about the center of the plateau to the Tennessee River, and is a region of fertile terraces, including the vast elliptical basin of nearly 5,000 square miles, known as the Garden of Kentucky. West Tennessee extends from the Tennessee River to the Mississippi, and is somewhat broken in the east, succeeded by a rolling plain descending to the latter river. The Mississippi bottom is a low, flat, alluvial plain, covered with forests and abounding with lakes and swamps. West Tennessee is extremely fertile, and produces corn and cotton in large quantities. Middle Tennessee is generally fertile, giving excellent grain, tobacco, and much cotton, especially toward the south. East Tennessee valley lands are fertile, producing corn, cotton, and winter-wheat; potatoes, oats, hay, and hemp are extensively produced; great numbers of stock are raised, and the wool-clip is large and excellent. Tennessee is rich in marble of various kinds, limestone and other building-stone; valuable copper mines exist in Polk County; coal and iron-ore are very abundant. Iron mining and smelting is becoming very extensive, and much iron-ore is exported to the iron-working towns on the Ohio River. There were 40 cotton mills in operation in 1875. The lumbering interest is very great. Wool-carding and cloth-dressing are carried on extensively. Flouring and grist-mill products are very large. Union County contains zinc and lead mines. Colored marbles are found in immense quantities in East and West Tennessee; roofing-slates in East Tennessee; hydraulic limestone in East, Middle and West Tennessee; there are also building limestone, sandstone, and granite, fire and potter's clay.

There are 94 Counties in Tennessee. Newspapers are published in 73.—Cities, towns and villages in which papers are published number 87, of which 69 designated by a dagger (†) are county-seats. Of the 180 papers which insert advertisements published in the State, 9 are daily, 1 semi-weekly, 139 weekly 10 semi-monthly, 19 monthly and 2 quarterly.

## OHIO.

Population 3,198,062.....Rep. Plur. 34,227

Gbk. vote, 6,456.

STATE CAPITAL, COLUMBUS.

OHIO is bounded north by Michigan and Lake Erie, east by Pennsylvania and West Virginia, south by West Virginia and Kentucky, and west by Indiana; greatest length from east to west 225 miles; greatest breadth 200 miles; land area, 40,700 square miles. The general character of the surface is that of a plateau from about 800 to 1,000 feet above the sea. The most prominent feature is the great divide which separates the drainage of Lake Erie from that of the Ohio River. This passes diagonally across the State from Trumbull County in the northeast to Mercer and Darke Counties in the west. Its average height is about 600 feet above the lake; and from it the surface slopes gradually northward toward the lake and southward toward the River. The rivers and streams have excavated deep valleys, which give to the surface its distinctive undulating or rolling character. The soil is universally fertile; and Ohio holds a leading position in every branch of agriculture. The uplands are well suited to wheat, the southern slope of the water-shed to grain generally, the northern slope for grazing and dairying, and the northeast section or Western Reserve especially so. The bottom lands of the Miami, Muskingum, and Scioto rivers are very rich in corn; the Western Reserve and Miami regions are famous for apples. Flax and linseed are staple products, and tobacco is largely grown in most of the southern counties. The fishing interests of Lake Erie are important. The manufactures of the State are very numerous and valuable. Iron, pork-packing, farm implements, clothing, flouring and grist mill products, lumber, malt and distilled liquors being among the most important. Coal underlies a greater part of the State; iron-ore is abundant, especially in the south; salt is very largely produced from springs; petroleum is an important product, also lime and cement. Good grindstones and building-stones are obtained at Amherst, Berea (Berea grit), Buena Vista, and Independence. There are excellent qualities of limestone and sandstone for building, especially at Massillon and Dayton. Marl deposits abound in the Maumee Valley and other points. There are good pottery and fire-clays, the fire-bricks of Mineral Point being among the best in the United States. Cleveland, Massillon, Youngstown, and the towns on the Ohio River are the chief seats of the iron manufacture, which includes pig, forged, and rolled; iron castings and sheet iron works, rails, Bessemer steel rails, etc.

There are 88 Counties in Ohio. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 273, of which 88 designated by a dagger (†) are county-seats. Of the 722 papers which insert advertisements published in the State, 51 are daily, 6 tri-weekly, 6 semi-weekly, 574 weekly, 3 bi-weekly, 8 semi-monthly, 1 every three weeks, 65 monthly, and 8 quarterly.

# INDIANA.

**Population 1,978,301.....Rep. Plur. 6,642**

Gbk. vote, 12,966.

STATE CAPITAL, INDIANAPOLIS.

INDIANA is bounded north by Michigan and Lake Michigan, east by Ohio, south by Kentucky, and west by Illinois. Its extreme length north and south is 276 miles: average breadth 140 miles; land area, 35,910 square miles. About two thirds of the surface is undulating or level prairie; near the Ohio and other streams the surface is hilly and often abrupt and rugged. In the extreme northwest there is a sandy tract, with considerable marsh-land. The northeast abounds in oak-openings and prairie land, interspersed with many small lakes. The soil is generally fertile, much of it exceedingly so; the richest is found along the Wabash, White, and White Water Rivers. There is abundance of coal of good quality. The iron manufacture is extensive, Indiana coal being particularly suited to its manufacture, but the ores used come mainly from the Lake Superior region, Missouri, and Tennessee. Indiana has some bog-ore and local deposits of better grades which have been worked to some extent. There are some salt-springs, good sandstone, limestone, fire-brick, potter's clays, and kaolin. Indiana ranks high as a grain-producing and stock-raising State. Corn, wheat, oats, tobacco, and potatoes are raised in large quantities. Butter, wool, hay, maple-sugar, and sorghum-molasses also, are important products; timber is largely exported. Manufactures are numerous and extensive, the chief industries being flouring and grist-mill products, lumber, woolen goods, furniture, carriages and wagons, iron and iron-ware, machinery, agricultural implements, pork-packing, liquors, metallic wares, leather, boots, shoes, and clothing.

There are 92 Counties in Indiana. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 185, of which 92 designated by a dagger (†) are county-seats. Of the 488 papers which insert advertisements published in the State, 52 are daily, 3 tri-weekly, 2 semi weekly, 390 weekly, 1 bi-weekly, 12 semi-monthly, and 28 monthly.

# ILLINOIS.

**Population 3,077,871** ..... **Rep. Plur. 40,716**

Gbk. vote, 26,358.

STATE CAPITAL, SPRINGFIELD.

ILLINOIS is bounded north by Wisconsin, northeast by Lake Michigan, east by Indiana, southeast and south by Kentucky, and west by Missouri and Iowa; extreme length north and south 385 miles; extreme breadth 218 miles; land area, 56,000 square miles. The surface is mostly level table-land, inclining gently toward the south, with bluffs along the principal rivers. A small tract in the northwest, around Galena, is somewhat broken, and a low mountain ridge extends across the southern end from Grand Tower, on the Mississippi River, to Shawneetown, on the Ohio, about 850 feet above sea-level. This is a great fruit region. The prairies are sometimes level, but generally undulating. More than two-thirds of the State is a productive bituminous coal-field. The iron-ore is good only when mixed with Michigan and Missouri ores. Lead and zinc are mined extensively in the northwest. Copper-ore, gypsum, and marble are found in various places. Limestone and freestone abound. The prairie soils are deep and fertile; that of the river bottoms is often inexhaustible. A tract called the American Bottom, extending along the Mississippi River a length of ninety miles by about five in breadth, has an alluvial soil about twenty-five feet in depth. Illinois is unexcelled as an agricultural State, and is among the first in manufactures. Spring and winter wheat, corn, and other cereals, dairy produce, wool, and hay, are leading products. The industrial pursuits embrace a wide range of articles, and the seats of manufacture are distributed generally throughout the State. Fishing interests center chiefly at Chicago.

There are 102 Counties in Illinois. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 352, of which 102 designated by a dagger (†) are county-seats. Of the 927 papers which insert advertisements published in the State, 73 are daily, 3 tri-weekly, 15 semi-weekly, 717 weekly, 2 bi-weekly, 20 semi-monthly, 88 monthly, and 9 quarterly.

# MICHIGAN.

Population 1,636,937.....Rep. Plur. 53,890

Gbk. vote, 34,735.

STATE CAPITAL, LANSING.

MICHIGAN is bounded north by Lake Superior, east by Lakes Huron, St. Clair, and Erie, and their connecting rivers, south by Ohio and Indiana, and west by Lake Michigan; land area, 57,430 square miles. It consists of two peninsulas, of which the southern is the principal seat of wealth and population. It is a very level region, abounding in lakes and streams, with very extensive forests of pine and other timber in the north, oak-openings or natural parks in the south, and prairies in the southwest. The soil contains sufficient sand to make it easily tilled, and few sections excel this part of the State as a farming region. In the west and southwest is the great fruit-belt. Winter wheat, oats, and potatoes are abundant and of excellent quality; corn and other cereals are largely grown. Dairy products are very valuable. Wool is raised in very large quantities; live-stock is plentiful. Peppermint is raised extensively in the southwest, and grapes in the south. The surface of the northern peninsula is generally rough and mountainous, with a severe climate and poor soil; but its mineral wealth is very great, especially in copper, iron and silver. Large quantities of iron-ore are mined and shipped to Pennsylvania, Ohio, Indiana, and Illinois to be smelted either alone or with the inferior ores found in those States. Marquette, Ishpeming, Negannee, and Escanaba are the the points of shipment. By far the most important copper mines of the country are in this State. There is a large quantity of coal, used chiefly for local and railroad purposes. The salt-producing territory covers about 8,000 square miles, and the value of the product in 1880 was more than double that of New York State; it is procured from artesian wells, and the Saginaw River is the chief centre of manufacture. Michigan ranks first among the States in the value and extent of its lumber product. Gypsum, fire-clay, and glass-sand are also found. Manufactures are important and varied in extent. Among the leading are iron, lumber, salt, wooden-ware, furniture, farm implements, leather, cotton and woolen goods, machinery, castings, and hollow-ware.

There are 78 Counties in Michigan. Newspapers are published in 75.—Cities, towns, and villages in which papers are published number 245, of which 72 designated by a dagger (†) are county-seats. Of the 482 papers which insert advertisements published in the States, 37 are daily, 3 tri-weekly, 4 semi-weekly, 410 weekly, 2 bi-weekly, 5 semi-monthly, 20 monthly, and 1 quarterly.

# WISCONSIN.

Population 1,315,497.....Rep. Plur. 29,763

Gbk. vote, 7,980.

STATE CAPITAL, MADISON.

WISCONSIN is bounded north by Lake Superior, northeast by Michigan, east by Lake Michigan, south by Illinois, and west by Iowa and Minnesota. Its greatest length from north to south is 300 miles; greatest breadth, 260 miles; land area, 54,450 square miles. The surface is generally an elevated plain, with high bluffs along the rivers and lakes, and elsewhere gently undulating, diversified with prairie, woodlands, and numerous lakes. The State ranks high in agricultural products. The forest region in the north is but thinly settled, has a rigorous climate, and the soil is poor. Wheat, corn, rye, oats, barley, potatoes, dairy products, and maple-sugar are all raised in large quantities; hops are exceedingly prolific; fruit-growing is an important industry. Large numbers of horses are bred; sheep are numerous, and the wool clip large and valuable. Copper-ore is worked at several points; galena limestone, lead, and zinc in the southwest, chiefly near Mineral Point. One of the best hydraulic cements comes from the neighborhood of Milwaukee. The lakes and streams abound with fish, especially trout and grayling. Manufactures are thriving and numerous, lumber and wood-work of all kinds holding a very prominent position. Leather, boots and shoes, saddlery, metallic wares, bricks and lime are important branches of manufacture.

There are 63 Counties in Wisconsin. Newspapers are published in all. — Cities, towns, and villages in which papers are published number 163, of which 62 designated by a dagger (†) are county-seats. Of the 352 papers which insert advertisements published in the State, 23 are daily, 2 tri-weekly, 2 semi-weekly, 298 weekly, 3 bi-weekly, 6 semi-monthly, and 18 monthly.

## MISSOURI.

Population 2,168,380.....Dem. Plur. 55,042.

Colored, 145,350.

Gbk. vote, 35,045.

STATE CAPITAL, JEFFERSON CITY.

MISSOURI is bounded north by Iowa, east by Illinois, Kentucky, and Tennessee, south by Arkansas, west by Indian Territory, Kansas, and Nebraska; length, north to south, 277 miles; average breadth, about 244 miles, ranging from 208 miles in the north to 312 miles in the south; land area 68,735 square miles. The Missouri River divides the State into two distinct parts. The surface north of the river is generally nearly level, while that south of it is undulating, becoming rougher and somewhat mountainous as it approaches the Ozark Mountains. There are also here open, treeless plains, an extension of those in Kansas, and in the southeast, bordering on the Mississippi River, is an extensive marshy tract, called the "Sunk Country," the result of the earthquake of 1811-12. It contains every variety of soil. Corn, wheat, oats, and tobacco are the staple products, but barley, rye, hay, fruit, white and sweet potatoes, dairy and market-garden products, wool, cattle, and pork are raised largely in excess of home needs. Sorghum and castor-oil beans are largely produced. Cotton, hemp, and flax are cultivated to some degree in the southern counties; so are grapes, and much wine is made. The principal live-stock are sheep and swine. Iron and lead ore are mined and manufactured in very large quantities, and the supply is inexhaustible. Many other minerals abound; also marble, limestone, glass-sand, kaolin, fire-clay, etc. Beside iron and lead, there are important manufactures in many branches of trade.

There are 114 Counties in Missouri. Newspapers are published in all. — Cities, towns, and villages in which papers are published number 225, of which 110 designated by a dagger (†) are county-seats. Of the 543 papers which insert advertisements published in the State, 43 are daily, 3 tri-weekly, 2 semi-weekly, 428 weekly, 8 semi-monthly, 53 monthly, 3 bi-monthly, and 3 quarterly.

## IOWA.

Population 1,624,615.....Rep. Plur. 78,059

Gbk. vote, 32,927.

STATE CAPITAL, DES MOINES.

IOWA is bounded north by Minnesota, east by Wisconsin and Illinois, south by Missouri, and west by Nebraska and Dakota. Its greatest length from east to west is 300 miles, and breadth 208 miles; land area, 55,475 square miles. The surface is generally rolling prairie, with no mountains nor even high hills, but with frequent bluffs along streams; and in places near large rivers it presents a broken appearance, caused by erosion from torrents. The southern part is the most level, beautifully diversified with prairies, groves, and the numerous affluents of the two great rivers. In the northeast the surface is more elevated, with numerous low hills with tops covered with oaks, and abounding in lead and other ore; but the distinguishing feature of Iowa is its beautiful diversified prairies, which are everywhere fertile and easily tilled, and having few stones or stumps, are especially adapted for the use of agricultural machinery. The valleys of the Red Cedar, Iowa, and Des Moines rivers contain the richest soils; northward of these the soil becomes less fertile, but still productive and remunerative. Building-stone is abundant; coal and lead are very extensively worked. Iron-ore and other minerals are found. The cereals generally, dairy and market-garden products, wool, linseed, sorghum, and live-stock of all kinds are very largely produced. Grapes grow well in the south, and fruit-culture is increasing. The manufacturing interests are rapidly developing, the leading branches being flour, lumber, wood-working, carriages, woollen goods, boots and shoes, pork-packing, saddlery, furniture, malt liquors, and farm implements.

There are 99 Counties in Iowa. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 293, of which 97 designated by a dagger (†) are county-seats. Of the 576 papers which insert advertisements published in the State, 35 are daily, 1 tri-weekly, 9 semi-weekly, 497 weekly, 1 bi-weekly, 6 semi-monthly, 24 monthly, 2 bi-monthly, and 1 quarterly.

# MINNESOTA.

Population 780,773.....Rep. Plur. 40,588

Gbk. vote, 3,267.

STATE CAPITAL, ST. PAUL.

MINNESOTA is bounded north by British America, east by Wisconsin and Lake Superior, south by Iowa, and west by Dakota. Its extreme length from north to south is 380 miles; breadth varies from 183 miles in the center to 262 on the south line, and about 330 on the north border; land area, 79,205 square miles. The surface is generally an undulating plain, diversified with rolling prairies, dotted with lakes and groves, with frequent timber belts. The northeast is generally rugged and hilly, with immense forests and much marsh-land. The Red River Valley is a dead level. The southeast is a beautiful rolling prairie region, while the surface rises from the undulating prairies of the south and southwest to the Hauteur des Terres or Heights of Land in the northwest. It is thought that the northeast may develop valuable mineral resources, but the yield of minerals is at present unimportant. The soil is fertile, about two thirds of it being adapted to the cultivation of cereals and general farm produce. Very large quantities of spring wheat are raised even as far as the Manitoba line, while corn grows well all over the State. Oats, barley, hops, flaxseed, and hay are leading products. Wool-growing is remunerative in the southwest. Maple-sugar is an important product. Cattle, horses, and swine are largely exported, and pork-packing is a valuable industry. Manufactures are rapidly increasing in number and value. The leading branches are flour and grist mill products, lumber and woodenware, carriages, furniture, and cooperage, while boots and shoes, brick, leather, lime, saddlery, and woolen goods are also extensively manufactured.

There are 79 Counties in Minnesota. Newspapers are published in 71. — Cities, towns, and villages in which papers are published number 121, of which 67 designated by a dagger (†) are county-seats. Of the 226 papers which insert advertisements published in the State, 12 are daily, 1 semi-weekly, 197 weekly, 1 bi-weekly and 15 monthly.

## KANSAS.

Population 996,093.....Rep. Plur. 61,731  
Colored, 48,107. Gbk. vote, 19,710.

STATE CAPITAL, TOPEKA.

KANSAS is bounded north by Nebraska, east by Missouri, south by the Indian Territory, and west by Colorado. Its length from east to west is 416 miles, and from north to south 210 miles; land area, 81,700 square miles. The surface is chiefly undulating in the east, while the western part has a rolling and varied surface, with every requisite for grazing. There are no mountains, very few lakes, and those small and shallow; no marshes but salt marshes, and these are valuable; probably only five per cent. of the area is forest, and this distributed mainly along streams and in occasional groves and small tracts. The western half, however, is very scantily supplied with timber, but there is an abundance of coal, which is used for domestic purposes, but not for export, and several varieties of good building-stone. The bottom and table lands are chiefly a rich black loam, and highly productive. Winter and spring wheat, corn, rye, oats, and potatoes are the chief products, while broom-corn, sorghum, flax, hemp, castor-beans, tobacco, and hay are also largely produced. Cattle-raising is a prominent industry, and sheep farming is becoming frequent in the western part. Dairy products are increasing rapidly, and progress is also being made in fruit-growing and wine-making. Manufactures are being developed, and the number of establishments is rapidly increasing, but at present the chief industries are agriculture, stock-raising, and fruit-culture.

There are 104 Counties in Kansas. Newspapers are published in 84.—Cities, towns, and villages in which papers are published number 191, of which 79 designated by a dagger (†) are county-seats. Of the 356 papers which insert advertisements published in the State, 25 are daily, 311 weekly, 1 semi-monthly, 18 monthly, and 1 bi-monthly.

# NEBRASKA.

Population 452,402.....Rep. Plur. 26,456

Gbk. vote, 3,853.

STATE CAPITAL, LINCOLN.

NEBRASKA is bounded north by Dakota, east by Iowa and Missouri, south by Kansas and Colorado, and west by Colorado and Wyoming Territory. Its extent from north to south is about 210 miles; greatest length about 420 miles; land area, 76,185 square miles. The surface is generally a vast gently undulating plain, with a gradual ascent toward the mountains; the river bottoms are level. There are some bluffs along the Missouri River, some hills in the northwest, which is also partly occupied by the Mauvais Terres or Bad Lands. The Missouri is the only navigable river. East of the Bad Lands and south of the Niobrara is a tract of sand hills which affords some pasturage. Timber is scarce. There is little coal, and that poor, but peat abounds. Brick and potter's clay plentiful, and there are extensive saline deposits; good building-stone abundant. The eastern half of the State is a rich agricultural region, and the west is mainly adapted to grazing; the bottom lands are very rich. The leading products are wheat, corn, barley, oats, sorghum, flax, and hemp; vegetables, small fruits, and grapes are raised extensively. More than 150 species of wild grasses have been classified, which afford excellent pasturage to large numbers of cattle and sheep. There is some manufacturing of various articles, chiefly needed for home consumption.

There are 70 Counties in Nebraska. Newspapers are published in 61.—Cities, towns, and villages in which papers are published number 115, of which 58 designated by a dagger (†) are county-seats. Of the 199 papers which insert advertisements published in the State, 11 are daily, 1 semi-weekly, 178 weekly, 3 semi-monthly, and 6 monthly.

# COLORADO.

**Population 194,327.....Rep. Plur. 2,803**

Gbk. vote, 1,435.

STATE CAPITAL, DENVER.

COLORADO is bounded north by Nebraska and Wyoming Territory, east by Nebraska and Kansas, south by the Indian Territory and New Mexico, and west by Utah. Average length from east to west 380 miles, breadth, 280 miles; land area, 103,645 square miles. The surface consists of three divisions—the mountains and parks, the foot-hills, and the plains. It is intersected near the center by the Sierra Madre Range of the Rocky Mountains, including the highest peaks, among which are Pike's and Long's Peaks, Mts. Torrey, Lincoln, Gray, Yale, Harvard, the Spanish Peaks, etc. The mountains enclose the wonderful valleys or basins known as parks, many of which are small, but others larger than some entire States. These parks are well timbered, and abound with beautiful scenery, being diversified with low hills and ridges, which contain the sources of all the great rivers that rise in the State. The eastern part of Colorado is an immense plain, well adapted to stock-raising. Agriculture is not carried on to any great extent, as extensive irrigation is in most cases necessary to render the soil productive. Where this is resorted to, the yield is very good. Cattle raising and sheep farming are the chief agricultural pursuits. Lumbering is an important industry, but the mining of gold, silver, and other metals is the chief source of wealth.

There are 33 Counties in Colorado. Newspapers are published in 29.—Cities, towns, and villages in which papers are published number 55, of which 25 designated by a dagger (†) are county-seats. Of the 128 papers which insert advertisements published in the State, 26 are daily, 1 semi-weekly, 94 weekly, 1 semi-monthly, 5 monthly, and 1 bi-monthly.

## NEVADA.

Population 62,266.....Dem. Maj. 879

Chinese, 5,416.

STATE CAPITAL CARSON CITY.

NEVADA is bounded north by Oregon and Idaho, east by Utah and Arizona, and southwest and west by California. Extreme length from north to south, 455 miles in the eastern, and 210 in the western boundary; greatest breadth, 320 miles, decreasing to 310 miles in the north and to a point in the south; land area, 109,740 square miles. Surface generally is a table-land about 4,000 feet above the sea, traversed by nearly parallel mountain ranges, between which are valleys varying in width from 5 to 20 miles, in some cases narrow canyons, and in others broad deserts, covered with sage-brush and other scanty herbage. The soil when irrigated is fertile, and produces spring wheat, barley, oats, potatoes, butter, hay, wool, etc. There is much good pasturage, and cattle fatten readily upon it. Cotton and sub-tropical fruits do well in the south. It has for years been the leading State in the production of the precious metals. The milling and smelting of ore is the leading manufacturing pursuit. Lumber sawing, once important, is declining, owing to the rapid disappearance of the forests.

There are 15 Counties in Nevada. Newspapers are published in 13.—Cities, towns, and villages in which papers are published number 18, of which 12 designated by a dagger (†) are county-seats. Of the 30 papers which insert advertisements published in the State, 12 are daily, 17 weekly, and 1 monthly.

# CALIFORNIA.

**Population 864,694**.....**Dem. Plur. 78**  
 Chinese, 75,132. Gbk. vote 3,382.

STATE CAPITAL, SACRAMENTO CITY.

CALIFORNIA is bounded north by Oregon, east by Nevada and Arizona, south by Lower California, and west by the Pacific Ocean. A line drawn through its center, following the curves of the eastern and western borders, would measure about 770 miles. Its greatest breadth is about 330 miles; least breadth, 150 miles; average breadth, 230 miles; land area, 155,950 square miles. It is the largest State in the Union except Texas. The surface is traversed by two great ranges, the Sierra Nevada in the east and the Coast Range in the west, while between them is the beautiful and fertile valley of the rivers Sacramento and San Joaquin. The Yosemite and other valleys are on the western slope of the Sierra Nevadas, and the eastern slope teems with minerals. The north is an elevated mountain region, with a rugged surface and poor soil. The soil of a large part of the State is very deep and rich, and the yield of agricultural products generally is very great. The wheat crop sometimes amounts to over 13,000,000 bushels, and the wool-clip to 24,000,000 pounds. As many as 5,000,000 gallons of wine and 150,000 gallons of brandy have been made in a single season. Dried fruits are extensively produced; oranges, lemons, and other tropical fruits, and honey, are raised in the south, and tobacco, corn, barley, and hops in various parts of the State. Indeed, California is famous for her wheat, wool, vineyard produce, and agricultural products generally, scarcely less than for her yield of the precious metals. Manufacturing interests are growing rapidly, the principal being lumber, flour, woollens, wine, brandy, tobacco, cigars, machinery, and metallic wares. There is considerable fishing and coasting-trade.

There are 52 Counties in California. Newspapers are published in all. — Cities, towns, and villages in which papers are published number 112, of which 51 designated by a dagger (†) are county-seats. Of the 334 papers which insert advertisements published in the State, 52 are daily, 1 tri-weekly, 9 semi-weekly, 240 weekly, 2 bi-weekly, 7 semi-monthly, 22 monthly, and 1 quarterly.

STATE CAPITAL, SALEM.

OREGON is bounded north by Washington Territory, east by Idaho, south by Nevada and California, and west by the Pacific Ocean; average length from east to west, about 360 miles; average breadth, about 260 miles; land area, 94,560 square miles. It is divided unequally by the Cascade Mountains. East of this range the surface is generally undulating table-land, with high cone-like hills and deep canyons. Between the Cascade and Coast Ranges is the Willamette Valley, 40 miles wide by 140 miles long, and exceedingly fertile; from the Coast Range westward the surface is mountainous, hilly, and broken. This section is suited for wool-growing, stock-raising, and the growth of winter wheat, barley, oats, and hay. The eastern portion does better as a stock-raising region, but good wheat is grown there. In the valley, wheat, hops, tobacco, wool, flax, fruit, linseed, dairy products, and potatoes are raised in large quantities. Corn does not thrive, as the summers are too cool. Manufactures are lumber—the large Douglas spruce affording the best masts and spars in the world; leather, boots and shoes, saddlery, milling and smelting of ores, carriages, furniture, liquors, linseed-oil, etc. The packing of beef and pork, and canning of salmon are successfully carried on. Gold and silver are produced, but not in very large amounts; copper and iron-ore are abundant; potter's clay, glass-sand, granite, marble, etc., are plentiful.

There are 23 Counties in Oregon. Newspapers are published in 21.—Cities, towns, and villages in which papers are published number 32, of which 19 designated by a dagger (†) are county-seats. Of the 71 papers which insert advertisements published in the State, 6 are daily, 1 semi-weekly, 57 weekly, 2 semi-monthly, and 5 monthly.

# ARIZONA.

**Population 40,440**.....**Dem. Maj. 489** (*Congressional*).  
Chinese, 1,680.

TERRITORIAL CAPITAL, PRESCOTT.

ARIZONA is bounded north by Utah and Nevada, south by New Mexico, and west by California and Nevada; land area, 112,920 square miles. It lies entirely within the Valley of the Colorado. The streams generally flow through deeply eroded chasms. The soil is very fertile when irrigated, even on the alkaline plains; and the mountain lands are well adapted to stock-raising and wool-growing. Wheat, barley, and corn appear to be the principal crops; but pastoral occupations are better suited to the country, and more profitable than strictly agricultural pursuits. The chief wealth of the Territory, however, lies in its mineral deposits. Gold, silver, lead, copper, iron, cinnabar, salt, borax, etc., abound, and the mining and working of gold and silver ores is at present the leading industry.

There are 9 Counties in Arizona. Newspapers are published in 7.—Cities, towns, and villages in which papers are published number 9, of which 7 designated by a dagger (†) are county-seats. Of the 22 papers which insert advertisements published in the Territory, 8 are daily, and 14 weekly.

# DAKOTA.

**Population 135,177.....Rep. Maj. 9,456** (*Congressional*).

TERRITORIAL CAPITAL, YANKTON.

DAKOTA is bounded north by Manitoba, east by Minnesota and Iowa, south by Nebraska, and west by Wyoming and Montana; land area, 147,700 square miles. It is intersected by the Missouri River, which is here navigable. Most of the eastern part is dry, rolling prairie, with many lakes and streams. The southwest contains large tracts of the Bad Lands, while to the north and west of this region are the Black Hills. Some of the highlands and river bottoms are well wooded, but the Territory as a whole is rather deficient in timber. The soil is exceedingly varied; that of the Bad Lands and some high land is inarable, but the Missouri River bottoms are exceedingly fertile. The northeast or Pembina country is a fine wheat section, as are also the prairie lands along the line of the Northern Pacific Railroad and the smaller river bottoms. Corn and other cereals, potatoes, tobacco, etc., grow well in the south. A great part of the Territory affords every requisite for successful stock-raising. Gold and silver are found in the Black Hills. There are no manufactures of importance.

There are 63 Counties in Dakota. Newspapers are published in 41.—Cities, towns, and villages in which papers are published number 69, of which 23 designated by a dagger (†) are county-seats. Of the 101 papers which insert advertisements published in the Territory, 10 are daily, 1 semi-weekly, 89 weekly, and 1 monthly.

# IDAHO.

Population 32,610.....Dem. Plur. 1,514 (Congressional).

Chinese, 3,379.

TERRITORIAL CAPITAL, BOISE CITY.

IDAHO is bounded north by British Columbia, east by Montana and Wyoming, south by Utah, and west by Oregon and Washington; land area, 84,290 square miles. The surface is chiefly mountainous, but there are also large tracts of prairie and fertile valleys. In the southeast is a volcanic region, abounding in geysers and saline springs. It is generally better adapted for grazing than for agriculture. Corn is not profitably raised, owing to the shortness of the summer. Barley, wheat, oats, potatoes, dairy products and wool are the staples. There are vast tracts covered with sage-grass, on which cattle fatten readily. Many of these plains, if irrigated, would make excellent wheat-growing districts. Gold and silver are plentiful in all parts of the territory, and are largely produced.

There are 14 Counties in Idaho. Newspapers are published in 8.—Cities, towns, and villages in which papers are published number 10, of which 6 designated by a dagger (†) are county-seats. Of the 14 papers which insert advertisements published in the Territory, 1 is tri-weekly, 1 semi-weekly, and 12 weekly.

# MONTANA.

**Population 39,159.....Dem. Maj. 1,428 (Congressional).**

Chinese, 1,765.

TERRITORIAL CAPITAL, VIRGINIA CITY.

MONTANA is bounded north by British America, east by Dakota, south by Wyoming and Idaho, and west by Idaho; land area, 145,310 square miles. Surface generally mountainous, especially in the west. Along the three forks of the Missouri River, as well as elsewhere through the Territory, there is much undulating prairie, with a fertile soil. The Missouri River is navigable to Fort Benton; the Yellowstone is also navigable. Perhaps nowhere else are such advantages offered to the stock-raiser and wool-grower as are here found. Very little hay or winter foddering is needed, the stock feeding on the rich grasses and ranging all winter in the sheltered valleys. Of agricultural staples, spring wheat, potatoes, butter, barley, oats, and vegetables are the most prominent. The chief minerals are gold and silver, of which large quantities are obtained. Leading manufacturing interests are lumber-sawing, quartz-milling and stamping, flour, etc.

There are 12 Counties in Montana. Newspapers are published in 11.—Cities, towns, and villages in which papers are published number 12, of which 10 designated by a dagger (†) are county-seats. Of the 23 papers which insert advertisements published in the Territory, 7 are daily, 1 semi-weekly, and 15 weekly.

## NEW MEXICO.

**Population 119,565.....Rep. Maj. 1,273 (Congressional).**

TERRITORIAL CAPITAL, SANTA FE.

NEW MEXICO is bounded north by Colorado; east by the Indian Territory and Texas, south by Texas and Mexico, and west by Arizona; land area, 122,460 square miles. Its general surface is a region of high plateaus, traversed by mountain ranges with isolated peaks. The valleys are generally nearly level, and their soil fertile when irrigated. In the east is a part of the barren "Llano Estacado" or "Staked Plain." Stock-raising and wool-growing are the leading occupations, the bunch-grass affording rich pasturage, and neither hand-feeding nor shelter is ever necessary for the herds and flocks. Agriculture is successful only when irrigation is resorted to, and wheat, corn, beans, and onions are the chief crops. Of fruits, the apple, peach, melon, fig, apricot, pomegranate, and especially grapes, flourish. Gold, silver, copper, iron, and lead exist, and all are worked to some extent. Manufactures are confined principally to grain, quartz, and lumber milling, the making of blankets by the Navajo Indians, and coarse pottery by the Pueblos.

There are 12 Counties in New Mexico. Newspapers are published in 9. — Cities, towns, and villages in which papers are published number 17, of which 6 designated by a dagger (†) are county-seats. Of the 31 papers which insert advertisements published in the Territory, 6 are daily, 1 semi-weekly, 22 weekly, 1 bi-weekly, and 1 monthly.

# UTAH.

Population 143,963.....Mormon Maj. 17,203 (Congressional).

TERRITORIAL CAPITAL, SALT LAKE CITY.

UTAH is bounded north by Idaho and Wyoming, east by Wyoming and Colorado, south by Arizona; and west by Nevada; land area, 82,190 square miles. The surface is very mountainous, interspersed with arid plains, valleys, and basins; much of it is utterly sterile. Irrigation is nearly everywhere necessary but if a perfect system were adopted, much of the soil now worthless would produce good crops, as it contains most if not all of the elements of fertility. Wheat, oats, barley, corn, potatoes, dairy produce, hay, and wool are the chief products. Cattle-raising is a profitable industry, and is often successfully carried on where farming is impracticable. The chief wealth of the territory, however, is in its minerals. Gold and silver are largely produced, as are also lead, iron, copper, coal, and salt. Manufactures are chiefly those of goods needed for home consumption, but of late extensive works for the mining and smelting of ores have been established.

There are 23 Counties in Utah. Newspapers are published in 7.—Cities, towns, and villages in which papers are published number 8, of which 5 designated by a dagger (†) are county-seats. Of the 24 papers which insert advertisements published in the Territory, 5 are daily, 6 semi-weekly, 8 weekly, 2 semi-monthly, and 3 monthly.

# WASHINGTON.

**Population 75,116.....Rep. Maj. 1,797 (Congressional).**  
(Chinese, 3,186.)

TERRITORIAL CAPITAL, OLYMPIA.

WASHINGTON is bounded north by British Columbia, east by Idaho, south by Oregon, and west by the Pacific Ocean; land area, 66,880 square miles. It is divided by the Cascade Mountains into two distinct sections. The western is a heavily timbered country, rugged and broken, with a few fertile prairies. The eastern has extensive plains, although it has also some broken surface; timber, as a rule, much less abundant. This section is admirably adapted to stock-raising, the soil of its prairies well suited for agriculture; but the chief agricultural region, however, is in the western section, although corn does not thrive so well there, because the summers are too cool. Wheat, barley, oats, hay, and butter are the chief crops; a little gold and silver are mined; salt abounds on the Spokan Plain, and there is good coal. The chief article of export is lumber; some ship-building is carried on. There is considerable fishing, especially salmon, the canning and salting of which is a prominent industry.

There are 26 Counties in Washington. Newspapers are published in 14.—Cities, towns, and villages in which papers are published number 18, of which 11 designated by a dagger (†) are county-seats. Of the 35 papers which insert advertisements published in the Territory, 6 are daily and 29 weekly.

## WYOMING.

**Population 20,789.....Dem. Maj. 147** (*Congressional*).

Chinese 914.

TERRITORIAL CAPITAL, CHEYENNE CITY.

WYOMING is bounded north by Montana, east by Dakota and Nebraska, south by Colorado and Utah, and west by Utah, Idaho, and Montana; land area, 97,575 square miles. Its surface is broken by mountain ranges, deep river canyons, flat-topped hills or buttes, the latter a feature of South Wyoming, and which rise from valley or plain like walled cities or mounds. There are large elevated plateaus or parks, of which the principal is the Great Yellowstone or National Park. Stock-raising, sheep-husbandry, and coal-mining are the leading pursuits. Irrigation is needed in a large part of the country to make the soil productive. Gold and silver are plentiful. There are vast beds of iron-ore and plenty of good coal. Gypsum, salt, soda, sulphur, copper, and other minerals are found. In manufactures, the sawing of lumber and railroad ties, milling of quartz, and railroad repair and machine shops in the towns on the line of the Union Pacific Railroad, occupy the leading place.

There are 8 Counties in Wyoming. Newspapers are published in 5, at the county-seats designated by a dagger (†). Of the 11 papers published in the Territory, 4 are daily, and 7 weekly.

## NORTHWEST TERRITORIES.

Population 56,446.

TERRITORIAL CAPITAL, BATTLEFORD.

The NORTHWEST TERRITORIES are bounded north by the Arctic Ocean, east by the Atlantic Ocean, west by the Pacific Ocean, and south by the United States and portions of the Dominion, covering an area about 1,912,502 of square miles, and were formerly known as the Hudson's Bay Territory. One fourth of the area is susceptible of cultivation. The belt of the Saskatchewan, 80 miles wide by 800 long, is very fertile, while the valleys of the Athabasca and Peace Rivers, beyond the Saskatchewan, contain the best wheat lands, and comprises an area of about 300,000,000 acres. The greater part of the present population is Indian. An immense coal-field 300 miles wide commences 150 miles east of the Rocky Mountains, and extends to the Arctic Ocean.

# ONTARIO.

Population 1,923,228.

PROVINCIAL CAPITAL, TORONTO.

ONTARIO is bounded north and northeast by Quebec, southeast, south-southwest, and west by the St. Lawrence River, the Great Lakes, and Kewatin District, northwest and north by Hudson's Bay and the Northwest Territories; length from southeast to northwest about 750 miles; breadth from northeast to southwest, 500 miles; area about 107,780 square miles. Surface is mostly undulating, traversed by the Laurentian Hills and Blue Mountains, but except in the neighborhood of Lake Superior and Georgian Bay they nowhere exceed a few hundred feet in height. The agricultural resources are very great. Three fourths of the present area of habitation is fertile, while an immense region beyond is capable of cultivation; very large crops of cereals are raised. The apple orchards of the southwest are very productive, and small fruits and vegetables are prolific. Its mineral treasures are exceedingly rich and varied; iron, copper, lead, and silver are very abundant; some gold has been found between Georgian Bay and the Ottawa River; petroleum, salt, rock-salt, and peat beds also exist. Manufactures are important, and cover a wide range of articles.

Newspapers are published in 45 Counties of this Province.—Cities, towns, and villages in which papers are published number 172, of which 35 designated by a dagger (†) are county-seats. Of the 387 papers which insert advertisements published in the Province, 31 are daily, 1 tri-weekly, 6 semi-weekly, 295 weekly, 1 bi-weekly, 4 semi-monthly, 45 monthly and 1 quarterly.

# QUEBEC.

Population 1,359,027.

PROVINCIAL CAPITAL, QUEBEC.

QUEBEC is bounded north by Labrador and Hudson Bay; east by Labrador and the Gulf of St. Lawrence; south by New Brunswick, Maine, New Hampshire, and New York; southwest by Ottawa and Ontario rivers. Length from east to west 700 to 1,000 miles, breadth about 300 miles; area about 193,355 square miles. Surface south of the St. Lawrence generally hilly, northern part generally mountainous and rocky; the greater part of the surface is covered with forests. Soil in many districts is rich, and cereals grow well. Oats, potatoes, and hay are the chief crops; wheat, barley, rye, buckwheat, flax, peas, and beans; corn grows well only in the southwest; hops and apples are also raised. Copper is found in large quantities in the east; iron almost everywhere; gold chiefly on the banks of the Chaudiere River. Lumber is a valuable article of export; manufactures are of considerable value, and varied in kind. Ship-building is carried on in Quebec, and the fisheries are valuable.

Newspapers are published in 22 Counties of this Province.—Cities, towns, and villages in which papers are published number 25, of which 15 designated by a dagger (†) are county-seats. Of the 110 papers which insert advertisements published in the Province, 19 are daily, 5 tri-weekly, 5 semi-weekly, 59 weekly, 1 semi-monthly, 20 monthly, and 1 quarterly.

# NEW BRUNSWICK.

Population 321,233.

PROVINCIAL CAPITAL, FREDERICTON.

NEW BRUNSWICK is bounded north by Quebec, east by the Gulf of St. Lawrence, south by the Bay of Fundy and part of Nova Scotia, and west by Maine. Greatest length from north to south 230 miles; breadth 190 miles; area about 27,322 square miles. Surface generally flat or undulating; for about twelve miles inland from the Gulf of St. Lawrence and Northumberland Strait the surface is low and marshy. It has extensive forests. Lumbering is the chief occupation; agricultural products are small, and do not supply the home demand. Ship-building is extensively carried on. The salmon fisheries are very prolific. Manufactures are chiefly sawed lumber and wooden wares, cotton and woolen goods, paper castings, machinery, locomotives, &c. Chief exports—lumber, fish, iron, coal, gypsum, hay, etc.

Newspapers are published in 7 Counties of this Province. — Cities, towns, and villages in which papers are published number 12, of which 1 designated by a dagger (†) is a county-seat. Of the 32 papers which insert advertisements published in the Province, 5 are daily, 1 tri-weekly, 1 semi-weekly, 23 weekly, and 2 monthly.

## NOVA SCOTIA.

Population 440,572.

PROVINCIAL CAPITAL, HALIFAX.

NOVA SCOTIA consists of a very narrow peninsula called Nova Scotia proper, and of the island of Cape Breton. It is bounded north by Prince Edward Island and the Gulf of St. Lawrence; northeast, southeast, south, and southwest by the Atlantic Ocean; northwest by the Bay of Fundy and New Brunswick. Greatest length from northeast to southwest 350 miles; greatest breadth about 120 miles; area about 21,731 square miles. The Cobequid Range runs through the interior, the soil on both sides of which is very fertile; also in the beautiful valley of the Annapolis River. Agricultural productions are very extensive; wheat, rye, oats, barley, buckwheat, corn, vegetables, and fruit grow abundantly. The minerals are gold and iron, the latter inexhaustible and of a fine quality. Manganese, gypsum, and roofing-slate abound. Manufactures are numerous, and include coarse cloths, flannels, blankets, carpets, boots and shoes, saddlery, furniture, and farm implements. Ship-building is important. The fisheries are very abundant, those of Newfoundland alone, perhaps, exceeding them in value.

Newspapers are published in 14 Counties of this Province.—Cities, towns, and villages in which papers are published number 19, of which 9 designated by a dagger (†) are county-seats. Of the 47 papers which insert advertisements published in the Province, 5 are daily, 3 tri-weekly, 33 weekly, 2 semi-monthly, 3 monthly, and 1 quarterly.

## NEWFOUNDLAND.

Population 161,436.

CAPITAL, ST. JOHN'S.

NEWFOUNDLAND is in the Atlantic Ocean, at the mouth of the Gulf of St. Lawrence; bounded north and northeast by Labrador (Belle Isle Straits intervening); Cape Breton is off its southwest point; east by the Atlantic Ocean, and west by the Gulf of St. Lawrence. Its extreme length is 419 miles; extreme breadth 300 miles. Surface generally rugged, with numerous lakes and rivers; not much timber, except along the streams and on the western side of the island. Soil is fertile near many of the lakes and rivers, and in many places farming is profitable. Wheat grows well; so do potatoes and green crops generally; apples and small fruits are profitable. The timber lands are unsettled, and lumbering is not carried on. The fisheries, both on the Grand Banks and in-shore, are very extensive and valuable. The seal fishery employs many vessels and steamers. Principal exports are fish and fish-oils, seal-oil and skins.

There are 12 papers which insert advertisements published in Newfoundland, 2 daily, 1 tri-weekly, 3 semi-weekly, 5 weekly, and 1 bi-weekly.

# THE AMERICAN

PUBLISHED EVERY MORNING AT  
 NASHVILLE, TENN.

*The only member of the Western Associated Press in Nashville, and  
 the only paper issued Every Day.*

Subscription, per annum: Daily, \$12.00. Daily except Sunday, \$10.60. Weekly, \$1.00.

THE AMERICAN, published in Nashville, the Capital of Tennessee, is the result of a consolidation of the two oldest journals of the State, the *Republican Banner* and *The Union and American*, files of which date back to 1812.

The consolidation was effected Sept., 1875, and gave to *The American* the large subscription lists of both its predecessors, which it has steadily increased from date of consolidation to a circulation never before attained by any paper in this section. The publishers now confidently claim the best newspaper published in the South, reaching with its several editions of the Daily and Weekly every village, country town, and small post office in Tennessee; while it is spread broadcast throughout the populous counties of Southern Kentucky, Northern Georgia, Alabama, Mississippi, and going extensively with its regular mails, into Arkansas, Louisiana and Texas. *The American* is a member of the Western Associated Press, giving to every issue the full volume of Associated Press dispatches from all parts of the world, simultaneously with the leading Western journals. It is the leading Daily published at the capital of a State rich in native resources and commerce—the centering point of six important Railway through lines, and within an hour by rail of half a dozen thriving, populous county-seats. It is on sale at all news-stands in this section of the South, and is a welcome visitor at the fireside, in the workshops and business houses all over Tennessee and adjoining states.

## *To Advertisers.*

The rates of advertising in *The American* enabling you to address this large and intelligent constituency, are reasonable. Sample copies mailed free and terms of advertising furnished on application. Address,

# THE ARGUS

ALBANY, NEW YORK.

THE GREAT DEMOCRATIC PAPER OF THE STATE.

It is by far the best advertising medium outside of the metropolis, in the State. Its facilities for obtaining news and the manner in which it is placed before the reading public are unsurpassed.

Advertisers will find it to their advantage to use its columns as an agent to herald their business throughout the large territory where it is daily received. Terms for advertising can be procured from N. W. AYER & SON, Advertising Agents, Philadelphia, Pa., or upon application at the office of publication.

All communications should be addressed

It has been established for more than half a century.

It represents a constituency of near two hundred thousand, a majority of whom read it. Its subscribers, as a rule, are responsible citizens.

Thousands of the best people of the South read no other paper, and can, therefore, be reached only by this.

Its high moral character gives it an influence not possessed or claimed by the secular press.

As a rule, the prudent business man will avail himself of the best medium at his command to bring his business to the attention of those who constitute the worth and wealth of a community. THE CHRISTIAN INDEX, published at Atlanta—the Gate City of the South, and the Capital of Georgia—is read more generally in the cities, in the villages, and in the country, by people of every pursuit, than perhaps any other paper in the South.

The above considerations render this paper an unsurpassed advertising medium for the Southern States, and, certainly, very strongly commend it to the favor and patronage of all practical business men who desire to enjoy a liberal Southern trade.

ADVERTISING RATES:—20 cents per line for first insertion—15 cts. per line for each subsequent insertion.

NEW YORK PUBLISHING COMPANY,  
PUBLISHERS OF THE  
DAILY, WEEKLY and SUNDAY NEWS  
AND  
TAGES and SONNTAGS-NACHRICHTEN

NEW YORK NEWS BUILDING,

25 Park Row, New York.

THE DAILY NEWS has the largest circulation of any daily published in the United States. The price charged for advertisements in THE DAILY NEWS is not more, and in some cases it is less, than the price charged by journals which have not more than half or even one-third the circulation of THE NEWS. Advertisements inserted in all three editions without extra charge. THE DAILY NEWS is now the *cheapest advertising medium in existence*.

THE WEEKLY NEWS has a large circulation in every section of the country. Merchants, manufacturers, patent medicine dealers, and all classes of business men will find its columns a *very valuable medium for advertising*.

THE SUNDAY NEWS has a large circulation throughout the city and along the lines of the railroads leading from the city. Advertisements inserted on liberal terms—at lower rates than in any other Sunday paper published, when circulation is taken into consideration.

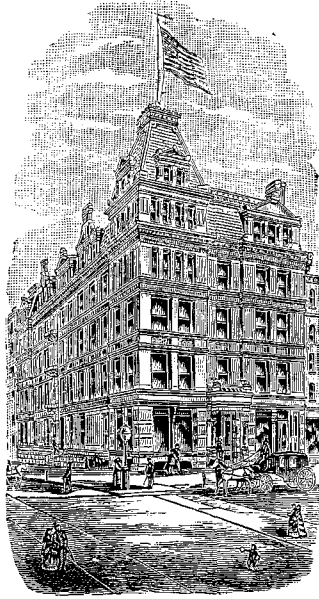

DIE TAGES-NACHRICHTEN has a larger circulation than any other daily German newspaper published in the world.

DIE SONNTAGS-NACHRICHTEN has a larger circulation in the city than any other German Sunday paper issued.

To Advertisers for the German Trade:

All classes of mechanics and dealers who are seeking for German trade will find advertisements in the columns of THE TAGES AND SONNTAGS-NACHRICHTEN reach a larger number of readers than they would by any other channel.

### Indianapolis Sentinel

DAILY, WEEKLY AND SUNDAY.

INDIANAPOLIS, IND.

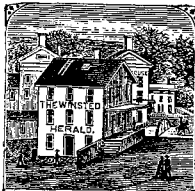

INDIANAPOLIS SENTINEL COMPANY, Publishers.

As the State Representative and Exponent of the Demo-  
cratic party, no paper seeks to divide the  
field with the SENTINEL.

Its circulation during each month averages larger than  
that of any other morning paper in the State. Almost  
every farmer or stock raiser in Indiana takes or frequently  
sees THE WEEKLY STATE SENTINEL. Our tariff of rates  
is far below any Western daily of equal character and  
influence.

N. W. AYER & SON, Newspaper Advertising Agents,  
Times Building, Philadelphia.

### The Winsted Herald

An eight-column Folio,  
Published at  
WEST WINSTED, CONN.  
On Friday of each week.  
J. H. VAILL,  
Editor and Business Manager.

Has an average circulation  
of 2,000 copies, double that of  
any of the other ten papers  
in the county, and (if reports  
be true) about four times as great a circulation as most of  
them. Its rates for advertising are so low that we are  
almost ashamed to announce them: 75 cents per square,  
one week; \$1.25 per square, one month; \$8.00 per square,  
one year. Special rates and specimen copies furnished  
on application. Subscription \$2.00 per year; all papers  
STOP when pay runs out.

N. W. AYER & SON, Newspaper Advertising Agents.

# THE PITTSBURG TIMES

**The official newspaper of Allegheny County.**

THE TIMES not only circulates very extensively throughout Pittsburg, Allegheny, Birmingham, Temperanceville, East Liberty, and all other adjoining suburbs, but has a wide-spread circulation throughout all towns within a radius of 150 miles of Pittsburg, covering in territory Pennsylvania, Eastern Ohio, and West Virginia. This includes a large circulation in the great Oil Country, in which section the TIMES enjoys the advantage of being the leading paper. Advertisers should bear this fact in mind.

For commercial, financial, ship, river and home news it has no superior in Pittsburg. The large circulation of the TIMES in a measure is owing to the fact that it is the *only 2 cent* morning newspaper published in Pittsburg, and as a very large percentage of the population are employed in iron mines and the coal interests, it has succeeded in establishing a foothold which is enjoyed by no other paper.

A particular feature of the TIMES is its ably edited River Column, placing it in the lead of all its cotemporaries, and giving it the privilege of being the admitted authority on all coal, oil, iron and river matters. This important branch has given the TIMES a wide-spread circulation in the many river towns on the Allegheny, Monongahela and Ohio rivers.

**The Standard**

CHICAGO, ILL.

THE STANDARD is in the thirtieth year of its publication. It is a large, handsome, and ably edited weekly paper, and the organ of one of our largest and most influential religious denominations. It has eight pages, pasted and cut. It goes into all parts of the Northwest, its special field of circulation being the States of Michigan, Indiana, Illinois, Wisconsin, Iowa, Minnesota, Kansas, Nebraska, Colorado, and the new States and Territories beyond. It goes into the families all over this broad territory, and, it would be safe to say, is read weekly by one hundred thousand people—from the great lakes to the Rocky Mountains, and from the southern extremity of Illinois to the far North. THE STANDARD is the principal religious paper taken by the Baptist denomination. Through its columns whole States can be reached. It finds its way into every town, hamlet and neighborhood, and will bear a record of what the advertiser has to sell into the very heart of the consuming community. Subscription, \$2.50 per year, postage paid.

Rates of advertising, solid agate measure:—For first insertion, per line, 25 cts.; each subsequent insertion, per line, 20 cts. Twenty per cent. deduction on 3-mos. orders.

# New Yorker Staats-Zeitung

DAILY SUNDAY AND WEEKLY.

ESTABLISHED 1834.

The high position in American Journalism occupied by this  
GREAT GERMAN DAILY is too well known  
to require comment.

As the most able, the most powerful, the most widely circulated of all German papers, it has  
secured a world-wide distinction. It is recognized by every class and element  
as the worthy exponent and representative of the genius and spirit  
of the German population of the United States.

Its popularity and great circulation among intelligent and  
prosperous Germans, bestows upon it a value as an  
Advertising medium which is not possessed

*Advertisements must reach us by Saturday to insure insertion in the next issue.*

The publisher of THE SATURDAY EXPRESS holds it to be good policy to make his space valuable to advertisers. In no other way can a sound and honest advertising business be built up.

He calls attention to these points which recommend the EXPRESS:

1. While other newspapers charge a cent or more a line for each thousand circulation, THE EXPRESS charges only about one-half a cent a line.

2. The circulation of THE EXPRESS is guaranteed, and we will verify it at any time by the oath of the publisher, the statement of the paper dealer and printer, or the receipts for postage.

3. THE EXPRESS is well printed from good plain type, on clear white paper. It is printed on large cylinder presses, which bring out the lines of a fine cut with distinctness.

## COPIES EACH AND EVERY ISSUE

### EXPLANATORY.

The farmers and planters of the South raise a class of farm products almost entirely different from those of their brethren in the North; and while the enormous circulation of FARM AND FIRESIDE, which was greater than any other Agricultural Journal ever attained, is a proof that FARM AND FIRESIDE is the most popular Agricultural Journal ever published, yet we found it impossible with one paper to do justice to all sections of our great and growing country; therefore we opened an office in Louisville, Ky., October 1, 1881, and divided the subscription list of FARM AND FIRESIDE into two sections. Those subscribers living south of the Ohio River now receive the **LOUISVILLE FARM AND FIRESIDE**, which has a circulation of 62,000 copies; those in the Northern States receive the FARM AND FIRESIDE published at Springfield, Ohio, which now has a circulation of 91,000 copies. The latter paper still retains all of its many features which have made it so popular, while the **LOUISVILLE FARM AND FIRESIDE** has an entirely different corps of Correspondents and Editors, who are familiar with all the varied industries and products of the South; so that the FARM AND FIRESIDE published at Louisville, Ky., is a Journal especially adapted to those States, where we shall push its circulation and should soon surpass, in circulation, any paper in the South, and prove the most valuable Advertising Medium in the United States to those desiring to reach SOUTHERN TRADE.

COUNTRY, AND HAS MOST FAITHFULLY LABORED FOR THE  
ADVANCEMENT AND ESTABLISHMENT OF  
MINING UPON A PERMANENT AND  
LEGITIMATE BASIS.

THE UNCOMPROMISING ADVOCATE OF THE PRODUCTION OF GOLD, SILVER, AND OTHER METALS  
TO MEET THE MANUFACTURING AND FINANCIAL DEMANDS OF THE PEOPLE.

Published midway between the mines and the sources of their supply, in a position to observe the best interests of the mining industry, in the centers of capital and the fields of operation, no effort will be spared to faithfully represent and advance the development of mining, in whatever locality mineral may be found. THE MINING REVIEW has a well-earned reputation for integrity, fairness, faithfulness, and a fearless advocacy of the legitimate development of mining in the line of production, and this reputation it will maintain.

The Iron, Coal, and Financial Interests of Mining will receive intelligent consideration.

Carefully collected reports from the Mines of every State and Territory are given.

Special market reports from the leading Mining Exchanges published regularly.

Reliable correspondents have been established in every important Mining Camp, and THE MINING REVIEW begins its Seventh Volume with better facilities and under more favorable auspices than ever before, and is thoroughly prepared to take and maintain its place as one of the chief representative Mining journals of the country.

# THE CINCINNATI COMMERCIAL

M. HALSTEAD & CO., PROPRIETORS,

Is a Journal of National reputation, very largely circulated throughout the Ohio Valley, and well known in every corner of the country.

THE COMMERCIAL has been established forty years, and has recently been greatly enlarged and improved, until it equals in dimensions the leading London papers; it is equipped with the finest Printing Machinery in the world.

The great size of the paper in its present form offers ample space for reading matter as well as advertisements; and the fact that the paper comes from the presses cut at the top and pasted at the back, makes every column open for display, and equalizes the advantages of the inner and outer pages.

The daily COMMERCIAL is issued every day in the year, and enjoys not only in Cincinnati, but within a radius of one day's railroad travel from the place of its publication, the largest circulation among enterprising, reading, purchasing people.

The weekly edition of THE CINCINNATI COMMERCIAL is the same size as the daily, and commands an audience in the two hundred and fifty towns of Ohio, Indiana and Kentucky. Its circulation is in excess of Forty thousand copies, and its rates for advertising less than one-half cent per line for each thousand of circulation.

**Missionary Herald**

BOSTON, MASSACHUSETTS.

*This is the oldest Monthly Magazine in the United States, and is one  
of the largest in mail circulation.*

ITS SUBSCRIPTION LIST INCLUDES EVERY STATE AND  
TERRITORY IN THE UNITED STATES.

It also includes Canada and the other British Provinces in North America; Mexico; the West Indies; South America; most of the countries in Europe; the Sandwich Islands and Micronesia; Australia; South Africa; and the cities of Turkey, India, China and Japan.

Although the publishers of a magazine are not regarded as responsible for statements contained in advertisements, yet such has been the standing of THE MISSIONARY HERALD for more than half a century that nothing will be intentionally admitted, even upon an advertising page, which is not of intrinsic value. By limiting advertisements to works of high merit, it is hoped to make the pages of special value, both to advertising patrons and to the many thousand readers.

Advertisements are not admitted unless of such character as to be believed to be above question, and from parties so reliable that the readers will be safe in ordering from any distance. Advertisements of articles offered at less price than the same of good quality could be manufactured, agencies which promise improbable income from trifling investments, etc., etc., are neither solicited nor admitted.

There is no better evidence of the value of the advertising pages than the fact that advertising patrons use them continuously, month after month, and year after year.

Advertisements intended for a given number must be received before the tenth of the previous month.

Advertisements are limited to four leaves and one cover page.

*Advertising Rates—Payable Monthly.*

# THE MINNEAPOLIS MORNING TRIBUNE

MINNEAPOLIS, MINNESOTA.

The attention of advertisers is respectfully called to the peculiar value of the MINNEAPOLIS MORNING TRIBUNE as the only medium for reaching a large, intelligent, prosperous, enterprising and *buying* constituency.

As the United States census shows, Minneapolis is now, by many thousands, the largest city in Minnesota, or west and north of Chicago and Milwaukee; it is growing faster than any other considerable city in America, and it is the principal business center of the New Northwest, which is advancing in population and wealth more rapidly and substantially than any other section of the United States.

THE TRIBUNE is a first-class metropolitan morning journal of the same size and form as The New York Herald. It is the newspaper representative and exponent of Minneapolis—the *only morning paper published in this city of 65,000 people*, the leading Republican Daily northwest of Chicago, and has a general circulation throughout the whole of Minnesota and adjacent portions of Iowa, Wisconsin and Dakota, a region embracing an unusually intelligent population, exceeding 1,500,000.

The Daily TRIBUNE has a larger average circulation in Minneapolis and St. Paul combined than any other morning or evening paper. It has a larger circulation in Minneapolis alone than any other paper has in St. Paul and Minneapolis combined.

Judicious advertisers do not ignore such a constituency, or neglect to employ the best means of reaching it.

THE WEEKLY TRIBUNE AND FARMERS' UNION reaches a large and prosperous farming population in Minnesota and the Northwest. For all advertisers who wish to communicate with a thrifty agricultural constituency, there is no better medium.

THE MINNEAPOLIS TRIBUNE COMPANY,  
Minneapolis, Minnesota.

## HEROLD DES GLAUBENS

ST. LOUIS, MISSOURI.

GERMAN PRINTING AND PUBLISHING ASSOCIATION, Editors and Proprietors.  
L. BLANKEMEIER, Manager Business Department.

Established 1850. Has a circulation of 14,000 copies; is read by the clergy as well as by almost the entire Catholic German population of the West; is the official organ for several dioceses, and has been endorsed by most of the ecclesiastical dignitaries in the United States. Advertisers will find the HEROLD DES GLAUBENS a sure means of reaching a great consuming class—people who buy all merchandise advertised. The value of religious papers as advertising mediums is conceded by all extensive advertisers. These papers are thoroughly read and not merely glanced over and cast aside like the dailies. Write to the office, 309 Convent Street, for specimen copy.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

## DAILY AND WEEKLY TRIBUNE

BRainerd, MINNESOTA.

ARTHUR E. CHASE, Editor and Proprietor.

# COMMERCIAL BULLETIN

PRICE CURRENT and SHIPPING LIST.  
NEW ORLEANS, LA.

THE ONLY STRICTLY COMMERCIAL PAPER PUBLISHED IN NEW ORLEANS.

It gives full and accurate reports of all the business transactions of each day, and contains Tables of Imports, Exports, and Stocks, which are not published in any other sheet in the city.

AS AN ADVERTISING MEDIUM for all those who wish to bring their business promptly and conspicuously before importers, city and COUNTRY MERCHANTS and dealers, PLANTERS, mechanics, consumers, traders, and the people generally, the COMMERCIAL BULLETIN PRICE CURRENT AND SHIPPING LIST is unsurpassed. Its circulation covers a wider extent of territory than most daily newspapers; every number being read carefully by the business community, thus making it one of the BEST AND MOST USEFUL ADVERTISING SHEETS in New Orleans.

It has by far the most extended and best circulation of any commercial paper in the South and West, and is a recognized authority throughout the United States. It is sent to subscribers in nearly every county and town in the great Mississippi Valley and in the Gulf States, besides having a general circulation in every State in the Union. Advertisers will consult their interests by a liberal use of the columns of the COMMERCIAL BULLETIN. Independent of our subscription list, which embraces the first merchants and financiers of the American and European cities, the LARGE NUMBERS FORWARDED BY NEW ORLEANS FACTORS TO THEIR CORRESPONDENTS THROUGHOUT THE COTTON AND SUGAR REGIONS, THE GULF STATES AND THE WEST, enable its patrons to make known their business to purchasers who can scarcely be approached in any other way.

## THE KANSAS CITY TIMES

Enters the fourteenth year of its existence under most favorable auspices, having recently introduced great improvements in various departments, rendered necessary by its unprecedented increase in circulation; and being accorded by the public evidences of confidence and a measure of patronage far beyond what was anticipated. THE TIMES is the favorite among advertisers because—

Its rates are reasonable for benefits returned;  
 Its circulation is the largest and among the best classes;  
 Its enterprise in publishing the news renders it popular;  
 Its independence in all matters commands respect;  
 Its management is liberal and progressive;  
 Its system in business is straightforward and satisfactory;  
 Its location is the center of a great wealth-producing region;  
 Its Daily and Sunday editions are ahead in circulation of all competitors;

Its Weekly edition is the equal in its list of subscribers to the greatest weeklies in the country;

Its advertising space has been found valuable and satisfactory.

Its reputation for reliability and enterprise is unquestioned;

Its readers are people of intelligence and have means to invest;

Its standing as a newspaper is second to none anywhere;

THE TIMES has lately purchased its second rotary press, and is now printed on an Improved Scott Perfecting press, with a capacity of 30,000 per hour, bought at an expense of \$25,000, and supplying it with unequalled facilities for keeping pace with its rapidly increasing Daily circulation.

The rates of advertising in the Daily and Sunday editions are as follows: Display, first page, 15c a line; other pages, 10c a line. Reading notices, 25c a line. Business notices, 15c a line. In the Weekly: Display, first page, 35c a line; other pages, 30c a line. Reading notices, 75c a line. Business notices, 50c a line. All advertisements measured at fourteen lines to the inch.

---

The place to advertise is where the people are prosperous. Iowa, Nebraska, Minnesota, Kansas, Missouri, Wisconsin, Dakota, and Colorado embrace a population equally and evenly prosperous. The land is all productive, and crops and stock grow and produce wealth unequalled in any other section of the country. In this section, Manufactories are springing up, Railroads are being built, Labor-saving Machinery is in demand, Luxuries find customers, Agents find remunerative employment, Inventions are appreciated, and Books and Papers are a necessity.

THE WESTERN NEWSPAPER UNION is a Stock Company, incorporated June 11, 1880, under the laws of Iowa, with principal office at Des Moines, and branch offices at Kansas City, Mo., and Omaha, Neb. It is the successor to three auxiliary companies, known as the Iowa Printing Company, of Des Moines, Iowa; Kansas City Newspaper Union, of Kansas City, Mo.; and Omaha Newspaper Union, of Omaha, Neb. We are now furnishing auxiliary sheets to over 300 publishers in Iowa, Nebraska, Kansas, Missouri, Minnesota, Wisconsin, and the *Territories*, and are pleased to be able to state that our list of patrons is steadily increasing. As an advertising medium, we claim for our lists that they are unexcelled. They are composed of the best weekly papers of the West, and go direct to the home of the people. They are strictly family papers, and *advertising in them will pay*.

RATES.—Regular rates of advertising in the combined lists, \$8.00 per agate line per insertion. Liberal discounts on large orders. Estimates furnished for either list separately when desired. Cuts or Electrotypes should be made on solid metal, and not over two and one-eighth inches—13 pica ems—in width. Nine electros needed for entire list.

For estimates for advertising in the WESTERN NEWSPAPER UNION, or either of its branches, address all communications to

## MANCHESTER, N. H.

Manchester is a large, live, and growing city. According to the census of 1880 it contained 32,458 inhabitants, and was in population the first in the State, the seventh in New England, and the fifty-fourth in the Union. Since that time two new mills, employing nearly 1,500 operatives, have been started, and her population is to-day more than 35,000. The city is in wealth, business, and population more than one-tenth of the entire State. She pays one-ninth of the State tax, is the fourth city of the Union in the value of her cotton and woolen manufactures, and the third in New England in growth during the last decade. She makes 179 miles of cloth per day, can build fifteen locomotives a month, and fifty steam fire engines a year, and an endless variety of other products of skill and industry. Her corporations run nearly 400,000 spindles, employ 10,000 operatives, and pay in monthly wages nearly \$450,000.

IT HAS TWO LEADING PAPERS:

### The Daily Mirror and American

Has been for thirty years the leading, most widely circulated and most influential daily in Manchester. It has grown with the city from small beginnings to great strength and stability. It is read in nearly every intelligent and well-to-do family in the city and vicinity, and is the one paper which reflects at once the best opinions and the enterprise, courage and thrift of the best classes. It issues three editions daily, and as an advertising medium is worth all others that circulate here.

### The Weekly Mirror and Farmer

Is an eight-page weekly, issued every Thursday morning. It has a larger circulation than any other newspaper published in New England out of Boston, and stands confessedly at the very head of the list of New Hampshire journals. Its agricultural department is without a rival in State papers, and commands the support of farmers of all classes and parties, and its soldiers' department makes it a household word in the family of every Union veteran in New Hampshire and Vermont.

No advertiser can reach the best patronage in these States through any other source. Advertisements in MIRROR AND FARMER, 10 cents a line, each insertion, or \$1.20 an inch, or \$45 an inch a year in Daily, the same for one insertion, all editions; three insertions, \$2.25; one week, \$3.37; one year, \$30. No extra charge for unobjectionable cuts, but they must be on solid metal body. No discount from rates. Don't send offers under price. Specimen copies sent free on application.

# The Chicago News

Is universally regarded as one of the most remarkable developments of modern journalism. It was founded as an afternoon and evening paper in 1875. The MORNING NEWS was first published in March, 1881, and the WEEKLY NEWS in July, 1878.

Its exceptional success rests upon its intelligent appreciation of the need of a cheap but high grade newspaper in the largest center of population in the West. It has aggressively and progressively met the whole situation at every step, and has not only secured a position of great influence, but the largest and densest circulation west of New York, and one of the five largest in America. It is a member of the Western Associated Press, and in addition to the unrivalled news service furnished by this Association, it enjoys the exceptional advantage of its own special telegraphic wire from Chicago to Washington and New York on the East, and to Milwaukee and St. Paul on the North. Giving all the news through reportorial and telegraphic facilities superior to those of any other Chicago paper, and at minimum prices, it commends itself to all classes in the community; to rich and poor alike, in that it offers an absolutely complete record of the news of the day in concise form, without the needless verbiage and amplification which render so many metropolitan journals "a weariness to the flesh," while its price brings it within the reach of all classes. Being an independent paper, the organ of no party, sect or class, it is the one universally read Chicago paper, and its daily editions require five of the best printing machines known, each of which has a practicable speed of from 20,000 to 48,000 completed papers per hour.

The CHICAGO DAILY NEWS was the originator of "elastic journalism" in the West. It is not limited to any one size of space or number of pages. Its MORNING issue generally consists of four pages of seven or eight columns each; its NOON issue of four or six pages of either six or seven columns each; its EVENING issue of either four, six or eight pages of either six or seven columns each, or of four pages of seven or eight longer columns each. The MORNING NEWS is sold for two cents per copy everywhere; the NOON NEWS and EVENING NEWS at one cent per copy in Chicago and two cents outside of Chicago. The CHICAGO DAILYNEWS in its three issues has an average daily circulation of over 90,000 copies.

The CHICAGO WEEKLY NEWS has four pages of eight columns each, sells at seventy-five cents per year, and circulates regularly from 35,000 to 50,000 copies among the farm and village people of the entire country.

An Eastern office has been established at Room 47, Tribune Building, New York, under the immediate management of Mr. A. H. SIEGFRIED, late of St. Paul, which is an actual extension of the Chicago business department, with all of its discretion and power.

The exact sworn circulation of the NEWS is published every day. It is a known quantity, exactly ascertainable at any moment, and with no limit against investigation.

For detailed statement of circulation see next page.

# The Sun.

NEW YORK, JANUARY, 1882

THE SUN for 1881 consumed four million one hundred and ninety-four thousand three hundred and ninety-one (4,194,391) pounds of printing paper in its Daily, Sunday, and Weekly editions.

This is equal to sixty million seven hundred and seventy-two thousand six hundred and seventy-seven (60,772,677) copies of the daily size.

The actual circulation for the past year was :

<b>Daily</b> .....	<b>39,701,161</b>
<b>Sunday</b> .....	<b>7,037,604</b>
<b>Weekly</b> .....	<b>3,498,154</b>

This gives for each day in the year the following average:

<b>Copies of the Daily edition</b> .....	<b>126,841</b>
<b>Copies of the Sunday edition</b> .....	<b>135,339</b>
<b>Copies of the Weekly edition</b> .....	<b>67,273</b>

THE SUN has advertising space to sell. In the Daily and Sunday editions its price for ordinary advertisements is **40** cents per agate line. Preferred positions and displayed matter from 50 cents to \$2.50 per line. In the Weekly 50 cents an agate line of space; no extra charge for display. Preferred positions 75 cents to \$2 per line.

At this price, advertising in the several editions of THE SUN is cheaper than its publisher has ever been able to obtain in any other medium, and he has spent hundreds of thousands of dollars in making known THE SUN, and the advantages it offers to the business community.

THE SUN is published every day in the year, at Nos. 166, 168 and 170 Nassau Street, New York City.

# THE NATIONAL REPUBLICAN

1882.

(DAILY AND WEEKLY.)

Unquestionably the liveliest, brightest and best newspaper ever published in Washington. The increase in its circulation is unprecedented in the history of Washington newspapers. It contained 4,616 more new advertisements in the year 1881 than in the corresponding period of 1880. It has more readers than any paper published at the National Capital.

The Weekly Edition has already reached a circulation larger than that of all the weekly editions of other papers in Washington combined, and is rapidly increasing. It is a double sheet of eight pages, fifty-six columns, devoted to news, politics, and general information.

During the sessions of Congress it will furnish a satisfactory report of the proceedings, and will at all times give complete and reliable information of the official doings in the various Executive Departments.

A faithful record will be given of all appointments, promotions, dismissals, assignments, and other matters of interest connected with the Army and Navy.

In politics, it will be Stalwart Republican and an

## EARNEST CHAMPION OF LIBERALISM AGAINST BOURBON DEMOCRACY,

and will advocate in a fearless and independent manner what shall appear to be for the best interests of the country.

A large space will be devoted especially to the agricultural and producing interests of the country.

It will furnish a record of the interesting social events of the day, making its Society Department a feature. The location of THE REPUBLICAN gives it superior facilities for presenting to its readers faithful reports of all that occurs at the National centre of literature, science, and art, while its intercourse with public men enables it to make a special feature of the social, and political events and gossip peculiar to the National Capital.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

## THE CLARK COUNTY RECORD

CHARLESTOWN, INDIANA.

W. S. FERRIER, Editor and Publisher.

Established in 1868. Subscription, \$2.00 a year.

Circulates in 5,000 of the best families of Clark, Scott, Jefferson, and Flord Counties. Rates of Advertising: twenty-five cents per inch, per insertion. Advertisements of less than four inches in length, inserted for a less time than one month, will be charged at rate of forty cents per inch, per insertion. Local Notices, ten cents per line, per insertion. We make no exceptions to above terms, believing it to be unjust to charge one individual or firm one price and others different prices. The prices we offer are as low as we can afford, and as proof that it pays to advertise with us at these rates, we find no difficulty in filling all of our available space at the prices designated. All advertising must be paid for quarterly, in advance, unless the parties are known to us to be perfectly responsible.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

## The Leading Newspaper of Northwestern Pennsylvania

On the 9th of August, 1878, the New York Daily *Graphic* illustrated Erie, Pa., and among its descriptive notices of the prominent institutions of the city, it published the following relative to **THE ERIE MORNING DISPATCH**:

"The leading journal of the city is THE MORNING DISPATCH. The Dispatch Steam Printing House, at No. 9 South Park, is a handsome and commodious structure, as will be seen by our illustration. It is provided with all the modern improvements in printing machinery, apparatus for stereotyping, engraving, etc. It is 24 by 96 feet, five stories in height, including a basement press-room and 'copy' elevators leading from the counting-room to every department, and all the conveniences which a first-class printing establishment requires for the prompt and economical transaction of a large and flourishing business. THE MORNING DISPATCH, established 1861, is a leading Republican journal, and is the oldest, most influential and flourishing daily in Northwestern Pennsylvania. THE WEEKLY DISPATCH, established 1851, has a large circulation in the rural districts tributary to Erie, and in neighboring States, and is one of the most prominent of our provincial newspapers." **FOR PRESIDENT IN 1884: DAVID DAVIS.**  
**WESTERN MINNESOTA**  
**A. De Lacy Wood's Herman Herald.**

HERMAN, MINNESOTA.

It is generally conceded that one of the richest agricultural regions in the new Northwest is situated in Western Minnesota, along the Breckenridge Division of the St. Paul, Minneapolis and Manitoba Railway. The country bordering this great road is thickly settled with well-to-do farmers who realize from their fertile soil an average of TWENTY-FIVE BUSHELS PER ACRE.

The HERMAN HERALD enjoys a large circulation, and publishes all the news and information regarding this magnificent wheat country; inducements to settlers and the marvelous development of this almost illimitable agricultural region; gives sketches of the great country tributary to the Manitoba Road, with its boundless grain fields and thriving towns. THE HERALD is one of the most valuable advertising mediums in the State. Advertising rates and sample copy of the paper sent free on application. Official paper and only newspaper in Grant County. The editor of the HERALD had the honor of inaugurating the first and second Editorial Excursions, and served one term as Secretary of the Minnesota State Editorial Association.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

**Hopkinsville Weekly News**

HOPKINSVILLE, KENTUCKY.

WALLIS, KENNEDY & MULLEN, Publishers.

Hopkinsville is the county-seat of Christian County, which produced, in 1881, more tobacco and wheat than any other county in the State. Christian County has an area of 237,287 acres, and a population of 33,000. Hopkinsville has a population of 5,000 according to last census. During the past year a public school building, costing \$20,000, has been erected, and the school is acknowledged to be one of the best in Kentucky.

THE NEWS circulates in all parts of the County among the most intelligent and refined classes of people, and on account of its independent political position and its full and accurate reports of the daily auction sales of tobacco in the city, is steadily increasing in circulation. Advertisers will consult their interests by writing to the publishers for rates, etc.

ESTABLISHED 1867.

# THE ADVANCE

CHICAGO.

## Memorandum of facts showing its value as an Advertising medium.

THE ADVANCE is the only widely circulated paper of the Congregational denomination published west of the Alleghanies, and the only, but one, in the country. It goes into every State and Territory in the United States, and into twenty Foreign Countries. It is mailed to 1,400 Post Offices in the four States of Illinois, Iowa, Michigan and Wisconsin, and to over 1,000 in New England and New York.

The advertising space of the ADVANCE is limited, and its invariable rule is to insert nothing objectionable or doubtful therein—hence the company is good.

The style and shape of the ADVANCE—the popular quarto form, pasted and cut—gives every page a prominent showing, so that no advertisement is hidden on inside pages, or lost in long columns of miscellaneous matter. Special attention is given to proper classification.

Actual results show its value. Persons who make a study of people, and ways of reaching them, give the ADVANCE their patronage. The best and most successful publishers, manufacturers, merchants and institutions East and West are regularly represented in its columns.

All the leading Advertising Agencies have the ADVANCE upon their lists.

Our schedule of rates and discounts is as follows:

Inside Pages. ....	20 cents per agate line, each insertion.
Outside Pages.....	25 " " " " " "
Business Notices....	30 " " " " " "

DISCOUNTS.—On orders amounting to \$10.00, a discount of five per cent.; on \$15.00, ten per cent.; on \$30.00, fifteen per cent.; on \$50.00, twenty per cent.; on \$100, twenty-five per cent.; on \$200, thirty per cent.

All Advertisements and Notices are reckoned by solid Agate lines, of which 14 make an inch of space.

We should be pleased at any time to receive your order. Correspondence may be addressed to the paper, or to

1858. THE LEADING NEBRASKA NEWSPAPER. 1882.

**Omaha Republican**

OMAHA, NEBRASKA.

C. E. YOST, Manager.

THE OMAHA DAILY REPUBLICAN has the largest general circulation and a larger local advertising patronage (its columns showing the high standing it has among business men and advertisers at home) than any Nebraska daily newspaper.

THE WEEKLY REPUBLICAN has now over 10,000 annual pre-paid subscribers. The first (Jan. 10, 1881) and second (April 8, 1882) annual premium distributions, in which premiums were given, valued from \$350.00 down, were highly successful. The 1883 distribution will eclipse the others in number and value of premiums, and we confidently expect will give us 20,000 pre-paid subscribers. We carry no delinquent subscribers. It is the best advertising medium west of the Mississippi River.

N. W. AYER & SON, Newspaper Advertising Agents,

# The Detroit Free Press

DETROIT, MICHIGAN.

The several editions of the DETROIT FREE PRESS, named below, cover to a great extent the English reading world.

The DAILY FREE PRESS, the oldest established daily newspaper in Michigan, is considered the metropolitan journal of the State, in all parts of which it circulates, and also largely in Western Ontario.

The TRI-WEEKLY FREE PRESS is sent to subscribers, composed in good part of well-to-do farmers and mechanics.

The WEEKLY FREE PRESS is not only sent to subscribers in all parts of the United States, Canada, and British Columbia, but is sold by newsdealers everywhere.

The "Household" is a supplement devoted to topics of a domestic nature. The contributions are all original. This supplement is sent out weekly, accompanying all editions.

The foreign subscriptions having greatly increased, the publication of an English edition of the WEEKLY FREE PRESS was begun in London, England, in July, 1881. The success of the enterprise was pronounced, reaching in the first six months a sale of 50,000 copies weekly. The paper is sold at every news-stall in England, Ireland and Scotland; also at the kiosks in Paris, France. It affords peculiar facilities for advertisers wishing to reach the public of Great Britain.

The several editions of the FREE PRESS contain so much interesting original matter; its literary qualities, wit, humor, pathos, and poetry are of so excellent a character, and the enterprise shown in the collection of news for the DAILY is so marked, that the paper is constantly growing in popularity, making new friends and extending its circulation.

#### ADVERTISING RATES:

In DAILY, per inch, one week, \$3.50; one month, \$10.00; three months, \$26.00; six months, \$47.00; one year, \$80.00. Want column, one cent per word, each insertion.

In WEEKLY, display advertisements, 40 cents per Agate line, each insertion, with 20 per cent. discount for three months; 30 per cent for six months, and 40 per cent. for one year.

Address, THE INTER OCEAN, 85 Madison Street, Chicago, Illinois.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

# THE INTER OCEAN

THE INTER OCEAN, the youngest of the three leading morning papers of Chicago, is one of the most enterprising and most influential. It was established a little more than ten years ago by the Hon. J. Young Scammon, the first number having been issued March 25, 1872. It was thrown into competition and rivalry with journals of twenty and twenty-five years' standing, but its distinctive political character as an uncompromising Republican paper, its fairness and fearlessness in discussing public questions, its promptness in grappling with new issues then coming to the front, and its enterprise and spirit in news-gathering, made it more popular and more successful than new ventures of the kind usually are. Before the end of the exciting campaign of 1872, THE INTER OCEAN had struck its gait, had made its mark, and was recognized as a power in politics.

In 1873 the Hon. F. W. Palmer, of Des Moines, Iowa, bought a large interest in the paper, and became editor-in-chief.

During the period of financial depression that succeeded, THE INTER OCEAN was one of the few papers that steadily increased its circulation. This was true of all editions, but the increase in the weekly was unprecedented in the history of Northwestern papers.

Mr. Palmer continued as editor-in-chief until October, 1875, when the old company was compelled, under the pressure of heavy indebtedness, to sell the paper to a new organization, the present Inter Ocean Publishing Company. By this transfer Wm. Penn Nixon, who since May, 1872, had been business manager, was made the controlling spirit of the institution. Under his supervision the paper was put on a firm footing by the infusion of new capital, the introduction of new and improved machinery, and the reorganization of all departments. New Bullock presses took the place of the old eight cylinder Hoe, and under the direction of Mr. Walter Scott, then superintendent of the machinery department, machines for folding, cutting, and pasting were for the first time in this country made to work satisfactorily in connection with perfecting presses. Improvements quite as noticeable were made in other departments, and when in 1880 the establishment was moved to the new building on Madison street, THE INTER OCEAN was recognized as being in outfit, arrangement and organization one of the most complete newspaper offices in the United States.

In the work of reorganization Mr. Nixon had the benefit of a large experience and the advantage of experiments made in certain directions by other publishers in Chicago, and he profited by both. In the new Inter Ocean Building, editorial rooms, business offices, mailing, composing and press rooms are models in their way, and are probably the most accessible, convenient, and compact in the city. In every department a simplicity and thoroughness of organization prevails, the main object being to bring the whole working force into closer relations and more direct sympathy with the management than is secured in the method usually followed in large establishments. The same system is extended to agents, correspondents, and solicitors throughout the several States.

To this thorough organization, and the constancy with which the paper has maintained its political integrity, THE INTER OCEAN is indebted for its growing influence, rapidly increasing circulation, and noticeable prosperity. The aggregate circulation of the several editions is probably larger than that of any other political paper in the country. THE WEEKLY INTER OCEAN has a circulation of over ninety thousand copies; and a significant fact is that the postage on THE INTER OCEAN for last year was \$18,484, with one exception the largest amount paid by any newspaper in the United States, and an increase of nearly \$5,000 on the amount paid by THE INTER OCEAN two years ago. Both as to the relative standing of the paper and as to the ratio of increase in circulation, these simple facts speak louder than columns of mere words.

In addition to its correspondence bureaus in New York, Boston, London, Paris and other news centers, THE INTER OCEAN is one of the two or three papers in the United States having a special telegraph line from its office to Washington. This wire extends from the night editor's room in Chicago to the office of the correspondent in Washington, and communication being instantaneous and not subject to interruption, the Washington office is, to all intents and purposes, as much under the eyes of the editor as are the departments in the home office. The advantage of this arrangement has been illustrated on several occasions, and the experiment, one of the first to be tried in this country, has proved in every way satisfactory to the originators.

In its editorial conduct THE INTER OCEAN has always been noted for earnestness, consistency and boldness. It strikes hard, but fights always on open ground, and with disposition to treat even enemies fairly. In the South, where it would be supposed the radical Republicanism of the paper would provoke determined and settled hostility, a common remark is: "We like THE INTER OCEAN because we always know where to find it." Much in the same spirit it is spoken of by political opponents at home, which is but another way of saying that the editorials have no uncertain sound.

Of late years THE INTER OCEAN has given special attention to local affairs, and has led in several remarkable crusades against demoralizing agencies and influence in the city. All these things—thoroughness in organization, enterprise in news-gathering, an even-tempered aggressiveness in discussion, readiness to grapple with new questions, fair mindedness towards opponents, unaffected interest in moral and economic questions, quickness of preception as to the needs and demands of the growing Northwest, and an unswerving loyalty to the dominant, progressive and most intelligent sentiment of the Republican party—have contributed to make THE INTER OCEAN what it is, a thoroughly representative and successful Chicago paper.

The cut on this leaf shows the Madison street front of the INTER OCEAN Building. The press-rooms are in the basement, and extend from the street to the alley in the rear. In connection with them are the packing-rooms of the mail and express departments. On the first floor are the counting-room, the office of the general manager, and the office of the superintendent of circulation in the city. On the second floor is the mailing department proper, or the rooms devoted to the correspondence and subscriptions of the weekly and semi-weekly. The editorial rooms *en suite*, the library, and the city editor's and reporters' rooms are on the third floor, and the night editor's, telegraph editors', operators', proof-readers' and composing rooms on the fourth floor. The new location has been of great advantage to the paper in local business, and it now has a patronage that is both complimentary and profitable.

# Y WASG

("THE PRESS.")

PITTSBURGH, PENNSYLVANIA.

**The only Welsh Journal published West of the Allegheny Mountains, and acknowledged to have the Largest Circulation by far of any Welsh Journal in America.**

Will be devoted to General News, Manufactures, Agriculture, Literature, Art, Science, Politics, and the protection and general advancement of the Welsh people as a nation in the United States. The exclusive Welsh character of this journal, and hence its large national circulation, makes its value to the advertiser most apparent. Y WASG is the best source of information to nearly 30,000 Welsh speaking and reading citizens of the State of Pennsylvania alone. And in the Eastern States Y WASG finds its way into every city, town and hamlet where a manufacturing establishment exists, or coal or ore is produced, or a Welsh family resides; while throughout the West it is next to impossible to find a locality not peopled to a considerable extent by our nationality. The attention of business men in general is called to this unrivaled opportunity of reaching by advertisement so many thousands of the most important people in the United States through the columns of Y WASG. The columns of the paper will at all times be found to contain matter of an attractive, interesting and instructive character. The Welsh people being proverbially Republican, the politics of the paper will be uncompromisingly Republican.

Subscription, \$2.00 per annum.

All communications, and for rates for advertising, must be addressed to

# THE "Transcript-Messenger,"

PUBLISHED WEEKLY AT

GOLDSBORO, N. C.,

EVERYBODY SAYS,

**Is the Largest and Best Paper published in the State; and what everybody says is generally true.**

The Wilmington (Del.) *Every Evening*, says: "We doubt if there are to be found any poorer papers than some of those in the South, but again there are some wonderfully good papers there. We know of no country weekly paper in the United States one whit better than the TRANSCRIPT-MESSENGER, published at Goldsboro, North Carolina. It is a sheet with thirty-six broad columns, and the pressure of advertising compels it to issue a supplement of sixteen columns. We will venture the guess that no city weeklies can hurt such a paper as this."

The Greenville (N. C.) *Reflector* of April 14, 1882, says: "The last issue of the Goldsboro MESSENGER contains a statement of its subscription list and we find that nearly 6,000 names are enrolled there. Without doubt the MESSENGER is the best weekly paper in North Carolina, and deserves the patronage of all. We congratulate its able and energetic editor on his success, and wish his paper may still continue to increase in influence and circulation."

# THE MORNING NEWS

SAVANNAH, GEORGIA.

Daily and Weekly News, Sunday Morning Telegram,  
and Southern Farmers' Monthly.

The SAVANNAH MORNING NEWS, in addition to its large circulation in Savannah, is taken at nearly every post office in Georgia and Florida, and has a fair circulation in adjoining states. Its value as an advertising medium is endorsed by the leading business names of the city in which it is published, as will be seen by the following testimonials:

I commenced business in Savannah in 1865, since which time I have spent large sums in advertising in various ways. I have been a regular advertiser in the SAVANNAH MORNING NEWS, having paid them, during the time, over \$5,000. While I have discontinued almost all other modes of advertising, I still continue my advertisement in the NEWS, as I consider it the best means of reaching the buyers in this section of the country.

SAMUEL P. HAMILTON, Importer and Dealer in Watches, Jewelry and Diamonds.

We have advertised in the DAILY and WEEKLY NEWS for a number of years past, and take pleasure in saying that as a medium to reach the trade of South Georgia and Florida it has no equal.

W. W. GORDON & CO., Cotton Factors.

I have been a constant advertiser in the DAILY MORNING NEWS ever since I began business, and have experienced the best results from using its columns. For advertising proprietary articles it has no superior.

OSCEOLA BUTLER, Druggist.

I commenced business in 1865 on a very small scale; but by persistent advertising in the MORNING NEWS and a close attention to my business I to-day have one of the largest establishments in my line to be found in the Southern States, and I am convinced that your valuable paper has contributed in a great measure to place me in my present position.

K. PLATSHEK, Millinery and Fancy Goods.

We have found the MORNING NEWS a valuable medium for addressing the people of this section, and always feel that an advertisement in its columns is a good investment.

PALMER BROS., Hardware, Agricultural Implements, &c.

I have been a constant advertiser in the NEWS—both daily and weekly—for four years, and I regard every dollar spent as a good investment. I would not pretend to do business without its aid. It is worth a dozen drummers.

D. WEISBEIN, Dry Goods Merchant.

I have advertised in your valuable paper for the past four years, and have no hesitancy in saying that it has been greatly to my advantage. I consider the MORNING NEWS really the only advertising medium of any value in this part of the state.

T. P. BOND, Grain and Provision Merchant.

Our firm has advertised in the NEWS for several years past, and we are pleased to say the results have been entirely satisfactory, and we consider the MORNING NEWS the best advertising medium in this section of the country.

C. L. GILBERT & CO., Wholesale Grocers.

I believe my successful business career due in a great measure to continual judicious advertising and printing, and have always regarded the MORNING NEWS as a very efficient instrument in acquiring my present large and expanding business.

JOSEPH B. REEDY, Grocer and Importer of Fruit.

I have been a constant advertiser in the DAILY MORNING NEWS for twelve years, and I know it to be a valuable advertising medium. I expect to use its columns as long as I am in business.

CORMACK HOPKINS, Stoves and Tinware.

We think the MORNING NEWS the best advertising medium in this state, and we recommend it to all advertisers who wish to reach the people of Savannah and of Georgia.

ALLEN & LINDSAY, Furniture and Carpets.

I have been a constant advertiser in the MORNING NEWS for more than ten years, and the results have been very satisfactory to me. I consider the NEWS the best advertising medium in this section of the country, and I expect to continue using its columns as long as I remain in business.

J. W. TYNAN, Engineer and Machinist.

We have hundreds of similar certificates from other A1 firms who have advertised in the SAVANNAH MORNING NEWS. For rates and sample copies, address

J. H. ESTILL, 3 Whitaker Street, Savannah, Ga.

# The Dubuque Daily and Weekly Telegraph

DUBUQUE, IOWA,

DUBUQUE TELEGRAPH COMPANY, PUBLISHERS,

IS THE ONLY TWO-CENT JOURNAL PUBLISHED IN THE STATE OF IOWA,

And has a circulation more than double that of any other Journal published in the City of Dubuque, and although Independent, it is the most influential paper published in Dubuque, if not in the State of Iowa. This was evidenced at the October election, 1881. Dubuque County is Democratic, having an average majority of about 1,500. At the Democratic Convention, M. M. Ham, the editor of the "Dubuque Herald," which is the Democratic organ of the county, was unanimously nominated for the office of State Senator, and J. K. Graves was nominated by the Republican Convention. The "Dubuque Times," the Republican county organ, refused to support Mr. Graves and came out in favor of Mr. Ham, thus leaving Mr. Graves without a party organ to support him. The TELEGRAPH being the only real Independent paper published in the county, and not daunted by the gloomy prospect (six out of the eight papers published in the county having declared for Mr. Ham) came out in favor of Mr. Graves, and after a vigorous canvass Mr. Graves was elected by an unprecedented majority, being nearly 2,000 or 3,500 more than the party vote. Mr. Graves's majority was nearly equal to Mr. Ham's entire vote.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

# Chester Evening News

CHESTER, PENN'A.

PUBLISHED BY BOWEN & TROTH.

Subscription, \$3.00 per annum, in advance.

A live local Daily; full of news; well established. Receives both Special and National Associated Press Dispatches.

Has a larger circulation than all other Chester papers combined, and is therefore a good advertising medium.

Rates of advertising, which are considered low, furnished on application.

N. W. AYER & SON, Advertising Agents, Times Building, Philadelphia.

## The Jackson Standard

JACKSON, OHIO.

DAVIS MACKLEY, Publisher.

D. and J. H. MACKLEY, Editors.

Established in March, 1847. Official paper of Jackson County.

Every Thursday. Subscription, \$1 per year. In politics, Radical or "Stalwart" Republican. There are three railroads now running through Jackson County, and thousands of tons of coal are mined in the county every year, and thousands of tons of pig-iron manufactured every year, and business and population are increasing rapidly. THE STANDARD is a profitable advertising medium. It is a four-page, thirty-two column paper, printed at home. Its low price secures for it a very large circulation, and the profits are made from its advertising, caused by its character and circulation.

N. W. AYER & SON, Advertising Agents, Philadelphia.

## The Rushford Spectator

RUSHFORD, ALLEGANY CO., N. Y.

FRANK B. SMITH, Publisher.

Circulation, 1,000.

Independent. Weekly. Thursdays.

THE SPECTATOR is a seven-column, four-page folio, and circulates in the richest dairy and agricultural part of New York State and Allegany County. It is independent in politics and devoted to the interests of the people in general. Its print is clear and distinct, every advertisement being made to work up properly. No cuts inserted without solid bases. It is one of the best advertising mediums in the country. It is all printed at home, and has the largest circulation of any newspaper in the Northern District of the county.

N. W. AYER & SON, Advertising Agents, Philadelphia.

## The Saturday Journal

NEW YORK.

A valuable advertising medium. A sunnyside weekly for the firesides, homes and shops of the United States and Canada.

THE SATURDAY JOURNAL circulates very largely among trades people, in shops, in farmers' homes, among students, and is a great favorite with transient readers on cars, steamboats, etc. It is also among the best preserved of all the literary family weeklies, one copy frequently passing through several households.

THE SATURDAY JOURNAL has a large and rapidly increasing circulation in every city, village and town in America, and as its advertising space is limited to two columns, it offers a splendid medium to general advertisers.

Advertising rates, 50 cents per line, nonpareil space. Double price for cuts.

All orders should be addressed

THE ONLY

Democratic Newspaper published in the  
Democratic City of Baltimore.

A LIVE TWO-CENT JOURNAL ISSUED EVERY DAY IN  
THE YEAR.

WILLIAM T. CROASDALE, *Editor and Publisher.*

EDWIN WARFIELD, *Business Manager.*

*It has a large and rapidly growing circulation in Maryland,  
the Virginias, the Carolinas and Southern  
Pennsylvania.*

Advertisers will do well to remember that a paper of THE DAY's political creed receives the support of the character, intelligence and wealth in the communities in which it especially circulates.

THE DAY is a party paper, with principles and ideas of its own to urge upon its party. It is the advocate of honest finance, the strictest maintenance of the public faith, the thorough reform of the civil service, and the destruction of the spoils system in the Federal and State governments. It is the persistent champion of the constitutional, wholesome and necessary doctrine of State Rights, and the upholder, as against the States or any combination of men, of the equally sacred and essential rights guaranteed by the Constitution to the Federal government. Being recognized by the press throughout the country as a paper displaying ability in editorial conduct and enterprise in the gathering of news, it commands the respect as well as attracts interest, and judicious advertisers know that such a paper reaches a class of people highly desirable as customers.

## Eastern Illinoisan

MARSHALL, ILLINOIS.

WHITEHEAD & SON, Editors and Publishers.

PUBLISHED EVERY SATURDAY

Terms, per year, \$1.50.

Democratic in politics, and the only paper in Eastern Illinois which devotes its columns particularly to the discussion of Free Trade.

*A word to advertisers.*—The Illinoisan is a good advertising medium for several reasons: First.—Its circulation is large and continually increasing. Second.—Because every line of the paper is read, advertisements and all. Third.—Under its present management it will never be filled up with cheap advertisements which amount to or approach a gratuity. We have no space in our paper to give away, and no disposition to get advertisements to fill up our paper or to make a show. Every line of our advertisements is inserted and continued at paying rates. Fourth.—Every advertiser in our paper shows that he is doing a business by which he can afford to pay for his advertising, and that his business is not kept on feeble legs by cheap or gratuitous advertising.

# Chronicle and Constitutionalist

PUBLISHED DAILY, TRI-WEEKLY AND WEEKLY.

The Oldest Newspaper in the Southern States.

## TO BUSINESS MEN.

Augusta, in Georgia, has a population of 40,000, and is the manufacturing centre of the State, furnishing employment to over five thousand hands in the various branches of manufacture.

Augusta is also the financial and commercial centre for supplying the wants of more than five hundred thousand of the most prosperous and enterprising people in the entire South.

Augusta is situated on the Savannah River, the head of navigation, a line of light draught steamers plying between the city and the sea, and is also a great Railway centre—the Georgia, the Macon & Augusta, the Central, the Port Royal, the South Carolina, and the Charlotte, Columbia & Augusta Railroads, with daily trains entering the city, bringing the citizens of the surrounding country in close connection. The Augusta & Knoxville Railroad has recently opened another section of valuable territory with this city, thus increasing the commercial importance of Augusta.

## THE CHRONICLE AND CONSTITUTIONALIST

Represents the enterprise of the most prosperous people in the South—a population with as many wants as the entire population of Connecticut—and wants that are every day increasing. It is the only newspaper of influence circulating from Augusta to Atlanta; from Augusta to Savannah; from Augusta to Macon; from Augusta to Charleston; from Augusta to Port Royal; from Augusta to Columbia, and from Augusta throughout Georgia and South Carolina, and is the recognized channel for every form of business communication in this section.

**TO BUSINESS MEN AND MANUFACTURERS**, who make goods that are in demand in the South, THE CHRONICLE AND CONSTITUTIONALIST offers a first-class audience—that appreciates a business statement, and an audience that is daily growing more numerous and prosperous, and one of especial value to dealers in Grocers' Sundries, Hardware of various descriptions, such as Safes, Scales, Mechanics' Tools, Cutlery, Builders' Supplies, and all descriptions of Labor Saving, Agricultural and Mill Machinery, Fertilizers, Cotton Machinery, Dry Goods, Notions, Clothing, Boots, Shoes, Hats, etc.

We invite correspondence from manufacturers and merchants in the North, who understand the requirements of the people of the South, in full confidence that they will be well repaid for their outlay in any advertising done in the columns of the CHRONICLE AND CONSTITUTIONALIST.

Address, **WALSH & WRIGHT, Augusta, Georgia.**

# The Ogdensburg Advance

OGDENSBURG, N. Y.

Is printed in the largest city in Northern New York, and is acknowledged the leading local paper in St. Lawrence County. It has lately adopted the plan of having a paid correspondent at every village in the county, and every week presents all the local news and gossip that every one in the country so loves to read. Its circulation, which for years had remained stationary at about 2,000, is now increasing rapidly, and it is among the best and most reliable class of readers who stay by a paper year in and year out.

The ADVANCE is printed on new type and with new presses and it is conceded that it is

THE BEST PRINTED,  
HAS THE MOST LOCAL NEWS,  
USES THE BEST PAPER,  
HAS THE MOST SUPERIOR MAKE-UP,  
LESS OBJECTIONABLE ADVERTISEMENTS,

And that its circulation is increasing faster than any other paper in St. Lawrence County. It is an excellent medium for advertising and its rates are reasonable.

# The Nashville Banner

NASHVILLE, TENNESSEE.

MORNING, AFTERNOON AND WEEKLY.

This paper, established as an evening Daily paper April, 1876, and as such obtaining a larger local circulation than any paper ever published in Nashville, a demand was created for a Daily morning edition, which was complied with, beginning May 7, 1882. The growth of the Morning edition has been almost phenomenal, while the Evening edition, instead of losing ground, has largely increased. The transferred matter from one to the other edition being small, the entire force on both different, and each a substantially distinct paper, has inaugurated a new phase of enterprise in the newspaper field of the South. With ample capital, with no motive, except to supply a great people with what they want, THE BANNER has no favors to ask, and none to grant, except for the great interests of the people, State and national.

Charges for advertising in either Daily editions and Weekly are distinct. Estimates for either one, or all three, on application. Terms are cash or its equivalent.

THE BANNER, by reason of peculiar circumstances, has recently added to its management two of the best-known and most experienced persons in Tennessee journalism, both lately connected with *The Nashville American* in its chief Editorial and Business departments. THE BANNER is, in no sense, an experiment, but enjoys the confidence and esteem of the people of not only Tennessee, but of those of the Southern States generally.

Address, BANNER COMPANY, Nashville, Tenn.

# Daily and Weekly Bee

SACRAMENTO, CALIFORNIA.

JAMES McCLATCHY &amp; CO., Proprietors and Publishers.

The attention of all who may be in any way benefited by advertising in a first-class, widely circulated paper is called to the fact that the DAILY BEE represents the richest district in California, and the only section where anything like average crops are assured each year, embracing the grain, wine and mining interests. This includes the counties of Butte, Yuba, Sutter, Tehama, Lake, Colusa, Shasta, Yolo, Solano, Napa, Placer, Nevada, El Dorado, Amador, San Joaquin, Calaveras and Sacramento, and is the peculiar field of the DAILY BEE, as railroad facilities enable us to reach all points within this region ahead of all competitors. The BEE has agencies in nearly every town in Central and Northern California and Western Nevada. Its circulation doubled in the country during 1880, and is constantly increasing. Its circulation in Sacramento is double that of any other paper, it having been published at the Capital continuously for 36 years. The WEEKLY BEE is one of the best family newspapers published on the coast. It is a handsome eight-page paper, containing sixty-four columns of reading matter, and contains the life of the DAILY BEE, now noted all over California as the spiciest, ablest, most brilliant and the most independent journal published on the Pacific Coast. Daily, \$6 a year. Weekly, \$3.

# Home and Farm

LOUISVILLE, KY.

To dispel any doubt that may exist as to the exact circulation of HOME AND FARM, we annex such official records, duly sworn to, that all may know the facts. This is well shown, not only by the certificate of the Post-Office Department, but also by that of the printers, Messrs. R. W. MEREDITH & Co. Therefore, the facts stand out in bold relief. HOME AND FARM issued during the year commencing October 1, 1880, and ending September 15, 1881, Two Million Eight Hundred and Twenty Thousand Papers (2,820,000), or an average for each semi-monthly issue of 117,500, as follows:

Through the Louisville Post-Office we have sent 260,624 pounds, for which we have paid \$5,212.48. There are on an average ten papers to the pound, making the post-office circulation for the year 2,606,240. To this we add those delivered within the city of Louisville and county of Jefferson, those sent to agents, those distributed by the news companies, and those sent to foreign post-offices, aggregating for the year 213,760 papers, or a total yearly circulation of Two Million Eight Hundred and Twenty Thousand. This far surpasses any thing ever done in one year by any other agricultural journal in the world. Each issue represents 5 7/8 tons, or within 250 pounds of being 6 tons.

#### SUMMARY.

2,820,000	papers issued per annum.	Averaging 117,500	papers issued each issue.
282,000	pounds issued per annum.	11,750	pounds issued each issue.
141	tons issued per annum.	5 7-8	tons issued each issue.

# THE METHODIST

ESTABLISHED 1860.

A FIRST-CLASS RELIGIOUS, LITERARY AND FAMILY WEEKLY NEWSPAPER.

INDEPENDENT, NATIONAL AND PROGRESSIVE!

It is one of the best, brightest and cheapest of the religious weeklies. It is edited with great ability by

REV. DAVID H. WHEELER, D.D., LL.D., and  
REV. DANIEL CURRY, D.D., LL.D.,

assisted by able contributors. Among its many departments are Editorials on Current and Religious Topics, a Weekly Sermon, a Serial Story, a Department for the Children, an Excellent Exposition of the Weekly Sunday School Lesson, Church News from all sections, &c. The METHODIST contains **twenty pages weekly**, and is only

**\$2.00 a Year.**

THE METHODIST takes rank with the first religious journals of the country in character, influence and circulation.

It represents the progressive and intelligent element of the largest Christian denomination in the United States—a Church numbering over **12,000** regular ministers and about **2,000,000** Church members.

It reaches the leading men of the denomination in all the great centres, and in the towns and villages of the country, and finds its way to the reading-rooms of their public libraries and Young Men's Christian Associations. THE METHODIST has a National circulation and a first-class constituency. We invite attention to our liberal

A NATIONAL AGRICULTURAL PAPER.

# THE AMERICAN GRANGE BULLETIN

CINCINNATI, OHIO.

A large eight-page, 48-column weekly FARMERS' PAPER. Eight years old; circulating in every State in the Union and Canada. Representing over one million of the most intelligent and progressive farmers and their families in their Granges, Farmers' Clubs, and other organizations, with Farm, Horticultural, Live Stock, Poultry, Bee, Farmers' Club, "Experimental Farm," Household and other Departments. A pure, high-toned paper in every respect.

Guaranteed circulation for 1882—22,000 copies per week.

## OUR LITTLE GRANGERS

A farm paper for farmers' children. An eight-page monthly Supplement to THE AMERICAN GRANGE BULLETIN, and going FREE TO ALL ITS SUBSCRIBERS. The children's paper has, in addition, an independent circulation of about 2,500 copies.

No better advertising medium can be found than these two popular FARMERS' PAPERS. Only selected advertisements solicited or accepted. No "Bitters" or quack nostrums of any kind wanted at any price. We guarantee to protect our readers against all humbug advertisements, hence an advertisement with us is worth far more than when mixed up in a paper with all sorts of trash. We have never given premiums or club rates, but instead send out 3,000 to 5,000 (at special seasons 10,000) "Sample Copies," per week, to all parts of the country. We have the names of the officers of all Granges in the United States and Canada (lists alone of 82,000 names), besides those of farmers' clubs and other societies. All these receive "Sample Copies" several times during a year. We guarantee to place a yearly advertisement into at least 100,000 DIFFERENT FARMERS' HOMES.

PRICE OF BOTH PAPERS COMBINED, \$1.60 PER YEAR.

"OUR LITTLE GRANGERS," ALONE, 50c. PER YEAR.

## HOW TO REACH 225,000 HOMES.

THE WEEKLY AND MONTHLY PERIODICALS PUBLISHED BY THE

# Western Methodist Book Concern

Are the intimate friends of the family. They are always welcomed, and are read with great care and confidence by their patrons. 86,000 homes are reached regularly by the Weeklies, and 137,000 by the Monthlies. Examine the following facts in regard to them:

**WEEKLIES.**

**Western Christian Advocate**, published at Cincinnati since 1832, mailed to 3,300 post offices, has the largest circulation of any religious weekly in the West. 26,040 copies mailed Dec. 1, 1880. Advertisements 25c. a line.

**Northwestern Christian Advocate**, published at Chicago since 1852, is mailed to 3,000 post offices, and has the largest circulation of any religious weekly in the Northwest. 22,080 copies mailed December 1, 1880. Advertisements, 20 cents a line.

**Central Christian Advocate**, published at St. Louis since 1856, is mailed to 2,100 post offices, and has the largest circulation of any religious paper published in that city. 16,084 copies mailed November 3, 1880. Advertisements, 15 cents a line.

**Christian Apologist**, the German Methodist paper of America, has been published at Cincinnati since 1837. Is mailed to 2,300 post offices, and its circulation is unsurpassed by any religious German paper in the United States. 16,432 copies were mailed December 4, 1880. Advertisements, 15 cents a line.

**Methodist Advocate** has been published at Atlanta since 1869. Has a circulation of 3,500. Advertisements, 8 cents a line.

**Sandebudet** is a Swedish paper published at Chicago. Has a circulation of 2,000 among the Scandinavians. Advertisements, 8 cents a line.

**MONTHLIES.**

**Sunday-School Journal**. A monthly for Sunday-School Teachers. Its contents relate chiefly to current Sunday-School items. It is studied regularly by a large number in all evangelical denominations. The Eastern edition circulates 85,000 copies, and the Western edition 44,000 copies. Inside page, Eastern edition, \$192; Western edition, \$96; both, \$240.

**Haus und Herd**. A literary and illustrated magazine in the German language, for the family and Sunday-school. Besides a general circulation among the German members of the Methodist Episcopal Church, it has many patrons among other literary classes, and goes into every State and Territory. Inside page, \$25.

Agate measure, 14 lines to an inch, is the standard for the *Western*, *Northwestern*, and *Central Advocates*; on the balance we use nonpareil measure, 12 lines to an inch.

PLEASE NOTICE.—We can make our *best rates* for advertisements *running for a long time*, going into the *greatest number of papers*, or occupying the *largest space*.

Estimates for advertising in any of our publications cheerfully furnished upon application.

We are giving particular attention to our Advertising Department and to the wants of Advertisers, and will be glad to have your advertising business. Correspondence solicited. Sample copies of any of our publications forwarded free for examination. Address

The FARMERS' REVIEW is the paper for the Business Farmer. Money-Making Farmers not only grow a good crop, but they study the WEEKLY CROPS and MARKET REPORTS in the FARMERS' REVIEW and by thus keeping posted on the supply and demand of and for their wares, they always sell at good prices. Thus all our readers become Money-Making Farmers. All shrewd advertisers know this and appreciate the character as well as the extent of a newspaper's circulation.

# Points for Advertisers

- I. *Everybody likes to look at pictures.* Frank Leslie's Publications are full of pictures; therefore *everybody sees them* and the advertisements which they contain.
- II. *Illustrated papers are rarely destroyed.* In many cases they are preserved and bound; therefore your advertisement *has a permanent value*, and does protracted service.
- III. *Frank Leslie's publications are sold everywhere*, and are on file in hotels, reading-rooms, clubs, etc., in every civilized country; therefore your advertisement has a *circulation far greater* than the number of copies printed.
- IV. *Frank Leslie's publications are weeklies and monthlies.* None of them are glanced through for the news of the morning, and then thrown aside; *they are read.*
- V. *Frank Leslie's publications use the best type, paper and ink which can be obtained*; therefore your advertisement in them is *printed clearly, handsomely and distinctly.*
- VI. *Frank Leslie's publications reach the better classes*,—those *who have taste and the means to gratify it*; therefore advertisers who wish to find actual purchasers will secure them by addressing Frank Leslie's readers.
- VII. *Frank Leslie's publications measure advertisements in nonpareil*—a *clear gain of 10 per cent.* to the advertiser over the ordinary agate measurement.
- VIII. *Frank Leslie's publications will design and engrave for the advertiser, at trifling cost, illustrations which will double the value of the advertisement.* Illustrations once used are invariably continued by successful advertisers.
- IX. *Frank Leslie's publications pay the advertiser.* The repeated and continuous patronage of many of the largest advertisers, to whom we are permitted to refer, proves this. Did it not pay them, they would not continue it.

Specimen Copies of any of the Publications and estimates will be furnished at any time to any desirous of informing themselves with a view to advertising.

## JACKSONVILLE WEEKLY JOURNAL

(JACKSONVILLE, ILLINOIS),

In June, 1882, when it entered its 39th volume. The old-style 4-page, "blanket-shape" had long before been abandoned for an 8-page form, with a 2-page supplement afterwards added, but the latest change, and a permanent one, is the issue of the JOURNAL in 24-page, 4-column size. With pages numbered, leaves cut and wired, it forms now the neatest, as well as largest weekly newspaper published in the West. The smallness of the page is a great convenience to all readers, the number of them a great advantage to all advertisers. Following Departments—Agricultural, Educational, Personal, Secret Societies, Temperance, Religious, State News, New York Fashion Letter, Colorado and Washington Correspondence, beside the Editorial, Local and Telegraphic, are regularly maintained. Everything impure, sensational and untrustworthy is carefully excluded from reading and advertising columns. The circulation of the WEEKLY JOURNAL has increased wonderfully under the present management. Terms still the same, \$1.50 per year, in advance. Daily, \$10 per year. For advertising rates, address,

Butte City is now recognized as the liveliest and most active mining section in the United States. Its population is now (January, 1882) about 9,000, and is rapidly increasing. The Utah and Northern Railroad has just completed its line to the city, and its effect is already being felt in the increased emigration. The mines of the district are fast developing into rich and permanent bonanzas. The Northern Pacific Railroad has now at least 10,000 men employed in the Territory. New mills and smelters are constantly going up, and it is confidently predicted that in less than a year Butte City will have at least 16,000 inhabitants. Taken all in all, there can be no better field for special advertising than is offered by this section to-day. Address all orders and communications to

LEE MANTLE, Business Manager.

CHICAGO, ILLINOIS.

A LARGE EIGHT-PAGE WEEKLY PAPER, DEVOTED TO THE EXPOSITION OF  
MODERN SPIRITUALISM.

**ESTABLISHED IN 1865.**

This superior advertising medium circulates almost entirely among a highly intelligent, thinking class of people, most of whom are possessed of pecuniary competence, and are able to test and appreciate all within the range of their needs which is brought before them in the advertising columns of the "Religio-Philosophical Journal."

The Great West, imperial in its resources, is now, by the return of prosperity, in condition to BUY; and advertisers who take judicious advantage of the golden opportunity will reap the abundant harvest.

**PRESS COMMENTS:**

\* \* \* Seems disposed to discuss questions in excellent temper and spirit of toleration. \* \* \* Few care to investigate in its spirit of finding truth at any cost.—*Inter-Ocean.*  
 \* \* \* Seems to have got the inside track among the religious weeklies.—*Chicago (Sunday) Times.*  
 \* \* \* A paper which will command the respect of all, both friends and opponents.—*Ponitac (Ill.) Sentinel.*  
 It is considered good authority on all matters relating to spiritual philosophy.—*Lowell (Mass.) Morning Times.*  
 THE OPPONENTS OF SPIRITUALISM, who desire to be familiar with its progress and development, will find the JOURNAL a fair, candid and trustworthy channel of information. We respectfully commend the paper to all classes.

**CURRENT COMMENDATIONS FROM WIDELY OPPOSITE SOURCES.**

read your paper every week with great interest.—*H. W. Thomas, D.D., Methodist.*  
 You are conducting the JOURNAL in the true spirit of honest research.—*B. F. Underwood, Materialist.*  
 Good for you! Never man in your ranks did half so well, that I know of. Brave it is, and right.—*Rev. Robert Collyer, Unitarian.*

## Daily and Weekly Illinois State Register

SPRINGFIELD, ILLINOIS.

The REGISTER, both Daily and Weekly, has advantages over all other papers in the State.  
**FIRST**—It is the leading and the official paper of the Capital City, which has within its real limits 30,000 persons to whom the DAILY REGISTER is delivered each morning by carrier. Springfield has also nine railroads; the great State House of the West; rolling mills; a mammoth watch factory; a dozen coal shafts; large foundries and other industries.

**SECOND**—The REGISTER is the official paper of Sangamon county, which has a population of over 60,000, is underlaid with six feet of coal, and produces (from official census of 1880) five hundred thousand bushels of oats, over one million bushels of wheat, and seven million bushels of corn.

**THIRD**—The REGISTER has been published forty-seven years; is recognized as the leading Democratic paper of the State, and is the only metropolitan Democratic paper published in the State; is older, and wields an influence not even possessed by the great papers of Chicago.

Sangamon county is the centre of a circle of nine counties, which have a combined population of 300,000, and the REGISTER goes to every post-office in these nine counties regularly, besides many others.

# THE NEW ERA

DAILY AND WEEKLY.

LANCASTER, PA.

J. M. W. GEIST, Editor.

THE NEW ERA is the leading exponent of the Independent Republican sentiment in Central Pennsylvania. Its editor was one of the founders and for over twenty-five years conducted the Lancaster *Express*, which was the pioneer in exposing political fraud and corruption in its own party; and in that journal, as well as in the more successful one he has editorially controlled for the past five years, he has steadily battled, within the lines of the National Republican organization, for substantial reform in our State and local politics.

**PRINCIPLES OF THE NEW ERA.**—THE NEW ERA has vigorously and consistently opposed Personal Rule and machine domination, the tyranny of the Caucus, and the violation of that unwritten law of the Republic which wisely limits the presidential tenure to two terms. It aided in and rejoiced over the victory which gave to the nation an independent Christian Statesman for President in the person of the lamented Garfield, and declared undying hostility to the spoils system, which was indirectly responsible for his untimely taking off. It was foremost in support of the Independent action at Harrisburg which forced the withdrawal of the caucus candidate of the machine for United States Senator. It stood firmly by President Garfield in his manly resistance to the arrogant claims of the dictatorial bosses, led by Senator Conkling, denying the Executive the rightful exercise of his constitutional prerogative. And it will ever be foremost in all contests waged for the rights of the Many against the Few.

**SPECIAL FEATURES OF THE NEW ERA.**—In all its departments THE NEW ERA is a first-class newspaper. Its telegraphic, local and special reports of current events are always up with the times and abreast of the progress of the most advanced journalism. It excels as a family and business newspaper. One of its leading features, of daily growing interest to the Pennsylvania farmer, is its special reports of the Leaf Tobacco industry, from the planting of the seed through all its stages to the curing and marketing of the product. This department five years ago was entrusted to a member of its staff, who more thoroughly understands the subject in all its details than any other attache of the press, because his knowledge was gained by experience and observation in the center of the most fertile and productive tobacco-growing district in the country, the value of the crop in Lancaster ranging as high as three million dollars annually. So highly have THE NEW ERA tobacco articles been appreciated by experts abroad that they have been copied into the Annual Report of the State Board of Agriculture, being the only articles thus honored that were not written expressly for that document. Their author, Mr. FRANK R. DIFFENDERFFER, was also selected by the United States Census Bureau to prepare the paper for this State on that specialty for the forthcoming census report.

**ITS VALUE AS AN ADVERTISING MEDIUM.**—THE NEW ERA circulates fifty per cent. of all the newspapers (including two competing dailies and five weeklies) mailed at the Lancaster Post Office. This fact is shown by the Postmaster's Official Report, and can be easily verified by those interested. Published in the business centre of the richest agricultural county in the United States, THE NEW ERA is unsurpassed as a local advertising medium.

**TERMS OF THE NEW ERA.**—THE DAILY NEW ERA is a handsome folio sheet of twenty-eight columns, with supplementary pages added when emergencies call for expansion, and is mailed to subscribers for five dollars a year, or fifty cents for a single month.

THE WEEKLY NEW ERA is a double folio of fifty-six columns, with supplementary pages during the real estate season (of which interest it is the recognized organ), increasing the size to seventy columns. Mailed to subscribers at two dollars a year. Specimen copies mailed to any address when requested.

#### ITS CIRCULATION.

We believe the circulation of **THE IRISH WORLD** is not surpassed by that of any other weekly newspaper in the land, and as to its extent, we give advertisers every facility to satisfy themselves from our books and from News Co., Express and Post-office receipts.

#### NOT HALF THE ACTUAL CIRCULATION GIVEN.

"I am satisfied from the examination I made of **THE IRISH WORLD** that the circulation given in the March number of my Advertisers' Guide Book is not half the actual."

J. H. BATES, Advertising Agent, 41 Park Row, New York.

#### SIX SETS OF STEREOTYPE PLATES, AND SIX FAST PRESSES.

We use in printing our regular weekly edition six of the best and fastest presses, and are obliged to make at least six—sometimes seven and eight sets of plates.

The time occupied by the six presses in printing one side of the weekly issue averages twenty hours, commencing at 7 o'clock every Thursday morning. Advertisers or their representatives are at liberty to see for themselves the presses in operation at any hour, until late Friday morning, at Mr. Scott's press-rooms, Spruce St.; Mr. Preston's press-rooms, Rose St., and Mr. Green's press-rooms, Beekman St.

#### EXPERIENCE OF ADVERTISERS IN THE IRISH WORLD.

"We have advertised largely in the **IRISH WORLD** with satisfactory results."

HALL & RUCKEL, Wholesale Druggists, New York.

"I have had more orders from my small advertisement in the **IRISH WORLD** than from any other paper I have advertised in."

SHEA, the Clothier, 434 Broome St., New York.

"We are in receipt of numerous orders which we can trace to the **IRISH WORLD** from every State and Territory in the Union, and from Canada."

N. MARSH, Advertising Department, HENRY DALLY, JR., New York.

"I have received through the **IRISH WORLD** one thousand seven hundred applications for my books, coming from every State and territory in America, from various parts of Canada, New Brunswick, Nova Scotia, England, Ireland and Scotland."

M. O'DOWD, Agent, Atlantic and Pacific Railroad, St. Louis, Mo.

"Our advertisement of 'Zell's Encyclopedia' in **THE IRISH WORLD** has brought us more satisfactory returns than we got from any other weekly newspaper—and we have tried them all."

B. W. BOND, New York Agent.

#### FROM THE ANTIPODES.

"Our advertisement in the **IRISH WORLD** has brought us orders for our books from all parts of the United States and Canada, Great Britain and Ireland, and even from afar off New Zealand."

R. MOORE, Manager, National Book Co., New York.

We would also refer to MESSRS. D. APPLETON & Co, publishers, of Bond Street, New York, as to the beneficial result of advertising their books in the **IRISH WORLD**.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.
