NORTH DAKOTA.

Population 5250,000.....Rep. Plur. in 1888, 11,489

Rep. vote, 25,290; Dem. 13,801; Prohib. 418.

STATE CAPITAL, BISMARCK.

NORTH DAKOTA is bounded north by Manitoba and the Northwest Territories, south by South Dakota, east by Minnesota, and west by Montana. Land area about 75,000 square miles. The Missouri River furnishes navigation for boats of three to six hundred tons burden. The Red River of the North, also navigable, drains the great wheat valley on its eastern border. That portion of the State east of the Missouri River is mostly rolling prairie; the soil on the Missouri Slope being a black, sandy loam, with clay subsoil; while in the Red River Valley it is a vegetable deposit of unsurpassed richness. West of the Missouri river the land is more broken, with stretches of excellent farming and grazing lands along the line of the Northern Pacific Railroad. The northern and central parts are especially adapted to the raising of wheat and other cereals, potatoes, vegetables and the earlier varieties of corn. The Missouri River and all small streams and lakes are lined with timber, and west and north of Bismarck are found inexhaustible beds of lignite coal.

There are 55 Counties in North Dakota. Newspapers are published in 37.—Cities, towns, and villages in which papers are published number 75, of which 34 designated by a dagger (†) are county-seats. Of the 123 papers which insert advertisements published in the State, 11 are daily, 1 semi-weekly 108 weekly, and 3 monthly.

OHIO.

Population 3,198,062.....Rep. Plur. in 1888, 19,599
 Rep. vote, 416,054; Dem. 396,455; Prohib. 24,356; Union Labor 3,496.

STATE CAPITAL, COLUMBUS.

OHIO is bounded north by Michigan and Lake Erie, east by Pennsylvania and West Virginia, south by West Virginia and Kentucky, and west by Indiana; greatest length from east to west 225 miles; greatest breadth 200 miles; land area, 40,700 square miles. The general character of the surface is that of a plateau from about 800 to 1,000 feet above the sea. The most prominent feature is the great divide which separates the drainage of Lake Erie from that of the Ohio River. This passes diagonally across the State from Trumbull County in the northeast to Mercer and Darke Counties in the west. Its average height is about 600 feet above the lake; and from it the surface slopes gradually northward toward the lake and southward toward the River. The rivers and streams have excavated deep valleys, which give to the surface its distinctive undulating or rolling character. The soil is universally fertile; and Ohio holds a leading position in every branch of agriculture. The uplands are well suited to wheat, the southern slope of the water-shed to grain generally, the northern slope for grazing and dairying, and the northeast section or Western Reserve especially so. The bottom lands of the Miami, Muskingum, and Scioto rivers are very rich in corn; the Western Reserve and Miami regions are famous for apples. Flax and linseed are staple products, and tobacco is largely grown in most of the southern counties. The fishing interests of Lake Erie are important. The manufactures of the State are very numerous and valuable. Iron, pork-packing, farm implements, clothing, flouring and grist mill products, lumber, malt and distilled liquors being among the most important. The number of manufacturing establishments in the State in 1880, was 20,699: amount of capital invested in them, \$188,939,614; total number of hands employed, 173,609; amount paid in wages \$62,103,800; value of materials used, \$215,334,258; value of products, \$348,293,390. Coal underlies a greater part of the State; iron-ore is abundant, especially in the south; salt is very largely produced from springs; petroleum is an important product, also lime and cement. Good grindstones and building-stones are obtained at Amherst, Berea (Berea grit), Buena Vista, and Independence. There are excellent qualities of limestone and sandstone for building, especially at Massillon and Dayton. Marl deposits abound in the Maumee Valley and other points. There are good pottery and fire-clays, the fire-bricks of Mineral Point being among the best in the United States. Cleveland, Massillon, Youngstown, and the towns on the Ohio River are the chief seats of the iron manufacture, which includes pig, forged and rolled; iron castings and sheet iron works, rails, Bessemer steel rails, etc. The discovery of natural gas in apparently inexhaustible quantities at Findlay, and many other places in the State, has given its industrial interests an additional and marked impetus. The railroad facilities are rapidly increasing, and Ohio is now a net-work of well-constructed and busy transportation lines.

There are 88 Counties in Ohio. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 353, of which 88 designated by a dagger (†) are county-seats. Of the 1,000 papers which insert advertisements published in the State, 102 are daily, 6 tri-weekly, 18 semi-weekly, 732 weekly, 4 fortnightly, 13 semi-monthly, 1 every three weeks, 123 monthly, 1 bi-monthly and 9 quarterly.

STATE CAPITAL, SALEM.

OREGON is bounded north by Washington Territory, east by Idaho, south by Nevada and California, and west by the Pacific Ocean; average length from east to west, about 360 miles; average breadth, about 260 miles; land area, 94,560 square miles. It is divided unequally by the Cascade Mountains. East of this range the surface is generally undulating table-land, with high cone-like hills and deep canyons. Between the Cascade and Coast Ranges is the Willamette Valley, 40 miles wide by 140 miles long, and exceedingly fertile; from the Coast Range westward the surface is mountainous, hilly, and broken. This section is suited for wool-growing, stock-raising, and the growth of winter wheat, barley, oats, and hay. The eastern portion does better as a stock-raising region, but good wheat is grown there. In the valley, wheat, corn hops, tobacco, wool, flax, fruit, linseed, dairy products, and potatoes are raised in large quantities. The Rogue River Valley, on account of its mild climate, is well adapted for raising fruits and grapes and large quantities are shipped from there annually. Manufactures are lumber—the large Douglas spruce affording the best masts and spars in the world; leather, boots and shoes, saddlery, milling and smelting of ores, carriages, furniture, liquors, linseed-oil, etc. The number of manufacturing establishments in the State in 1880, was 1,080; amount of capital invested in them, \$6,312,056; total number of hands employed, 3,473; amount paid in wages, \$1,667,016; value of materials used, \$6,954,436; value of products, \$10,931,232. All manufacturing enterprises have increased fully 50 per cent. in the last two years, and nearly double since 1880. The packing of beef and pork, and canning of salmon are successfully carried on. Gold and silver are produced, but not in very large amounts; copper and iron-ore are abundant; clay, glass-sand, granite, marble, etc., are plentiful.

There are 31 Counties in Oregon. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 59, of which 26 designated by a dagger (†) are county-seats. Of the 121 papers which insert advertisements published in the State, 12 are daily, 3 semi-weekly, 95 weekly 2 semi-monthly and 9 monthly.

PENNSYLVANIA

Population 4,282,891.....Rep. Plur. in 1888, 79,458

Rep. vote, 526,091; Dem. 446,633; Prohib. 20,947; Union Labor 3,873.

STATE CAPITAL, HARRISBURG.

PENNSYLVANIA is bounded north by New York and Lake Erie, east by New York and New Jersey, south by Delaware, Maryland, and West Virginia, and west by West Virginia and Ohio. Its greatest length from east to west is about 302 miles; its greatest breadth about 175 miles; mean length 280 miles; mean breadth 158 miles; land area, 44,985 square miles. The surface is exceedingly varied, chiefly level or slightly undulating in the southeast, hilly and mountainous in the interior, and generally rolling or broken in the west. A series of parallel ridges, members of the Appalachian system, each with a distinct name, traverse the State from northeast to southwest. The easternmost of these is the South Mountain, an extension of the Blue Ridge, and the westernmost and highest the Allegheny, from which the surface slopes generally toward Ohio. Nearly one fourth of the State is wooded, and a very large amount of lumber is manufactured, Williamsport and Lock Haven being the chief centres of this industry. The soil of the valleys and plains is generally fertile, and some of it exceedingly so. Lancaster County, and some of the counties bordering on the Ohio River, are the most productive. The State excels in dairy and market-garden produce and all the agricultural staples of the Northern States. The tobacco crop is exceeded only by that of Kentucky and Virginia, reaching in 1880 nearly 37,000,000 lbs., of which amount Lancaster County alone produced two-thirds, and York nearly 6,000,000 lbs. Its beds of anthracite and bituminous coal and iron-ore, and the great oil basin, are sources of immense wealth. Anthracite coal is found mainly in the counties of Carbon, Dauphin, Luzerne, and Schuylkill, to some extent in Columbia and Northumberland, and semi-anthracite in limited areas in Sullivan and Wyoming. Bedford, Bradford, Centre, Clearfield, Fulton, Lycoming, and Tioga counties contain fields of semi-bituminous coal, while the bituminous coal beds are located beyond the main Allegheny Ridge, every county west of it, with the exception of Erie, yielding more or less of this coal. Mercer supplies a good block coal for furnace use. The petroleum region is situated mainly in the counties of Venango, Butler, McKean, and Clarion. Salt springs abound in the same region, also natural gas wells, the gas from which is used for heating and lighting purposes. It is rich in minerals, slate, and building-stone of many kinds. There are many medicinal springs, the principal of which are at Bedford, Doubling Gap, Ephrata, Yellow Springs, and York. The southeastern corner of the State (bounded by a line running from Trenton, N. J., to Norristown, thence nearly to Lebanon, thence across the Susquehanna in a southwesterly direction to the Maryland line, east of Gettysburg), is rich in limestone and marble, of which great quantities are quarried for use in Philadelphia. This region also produces combined iron and chromium ores, hematite, magnetite iron, and corundum. Nickel is found at Lancaster, galena at Phoenixville, zinc at Friedensville and Bethlehem. A handsome black limestone is quarried at Williamsport, roofing-slates in the Lehigh and Delaware Valleys, Silurian limestone in the Cumberland Valley and at other points. In manufactures, Pennsylvania is second only to New York, and Philadelphia is one of the principal seats of foreign and coast-wise trade. The leading exports are grain, provisions, petroleum, tobacco, oil-cake, lumber, tallow, hides, leather, shoes, cotton goods, machinery, and coal. Erie and Pittsburgh are also great commercial centres. Kensington and Chester are the chief ship building stations. Pittsburgh, Allegheny, Harrisburg, Reading, and Scranton are the chief seats of the iron manufactures. The number of manufacturing establishments in the State in 1880, was 31,232, amount of capital invested in them, \$474,510,993; total number of hands employed, 387,072; amount paid in wages, \$134,055,904; value of materials used, \$165,020,563; value of products, \$744,518,445.

There are 67 Counties in Pennsylvania. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 375, of which 67 designated by a dagger (†) are county-seats. Of the 1,215 Papers which insert advertisements published in the State, 161 are daily, 3 tri-weekly, 15 semi-weekly, 833 weekly, 7 fortnightly, 15 semi-monthly, 174 monthly, 4 bi-monthly, and 13 quarterly.

RHODE ISLAND.

Population 304,284.....Rep. Plur. in 1884, 6,639

Rep. vote, 19,030; Dem. 12,391.

STATE CAPITALS, NEWPORT AND PROVIDENCE.

RHODE ISLAND is bounded on the north and east by Massachusetts, south by the Atlantic Ocean, and west by Connecticut. Its extreme length from north to south is 47½ miles; extreme breadth, 40 miles; average breadth, 35 miles; land area, 1,085 square miles. The surface is for the most part rough, hilly, and stony. There are no mountains, and few hills of any eminence. Nearly one fourth is woodland. Soil generally fertile, especially that of the smaller islands; but parts are level and marshy. Rhode Island is not an agricultural State. The wheat and buckwheat crop is merely nominal; other cereals small; dairy and market-garden produce and live-stock very moderate. In 1880 nearly one fourth of the population was engaged in manufacturing. The most prominent industries are cotton, woolen and worsted goods, machinery, jewelry, silver and plated ware, clothing, iron and ironware, rubber and elastic goods, leather, refined sugar and molasses, and flouring-mill products. The number of manufacturing establishments in the State in 1880, was 2,205; amount of capital invested in them, \$75,575,943; total number of hands employed, 62,878; amount paid in wages, \$21,355,619; value of materials used, \$58,103,443; value of products, \$104,163,621. Coal is mined at Cumberland, Portsmouth, and Valley Falls, but is hard and difficult to burn. There are extensive granite quarries at Westerly.

There are 5 Counties in Rhode Island. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 22, of which the 4 designated by a dagger (†) are county-seats. Of the 51 papers which insert advertisements published in the State, 9 are daily, 2 semi-weekly, 45 weekly, 2 fortnightly and 3 monthly.

SOUTH CAROLINA.

Population 995,577.....Dem. Maj. in 1888, 52,089

Colored pop., 604,332.

Dem. vote, 65,825; Rep. 13,736.

STATE CAPITAL, COLUMBIA.

SOUTH CAROLINA is bounded north and northeast by North Carolina, southeast by the Atlantic Ocean west and southwest by Georgia. Its greatest length from east to west is about 275 miles, and its greatest breadth about 210 miles; land area, 30,170 square miles. The surface presents nearly the same features as that of North Carolina. The coast for 100 miles inland is low and level, with sandy soil, numerous swamps, and extensive pine forests; then follows a tract of low sand-hills, the soil of which is moderately productive. The land rises abruptly on the western edge of this belt, and continues to rise until it terminates in the Blue Ridge, the highest peak of which, Table Mountain, is 4,000 feet above the sea. The swamps embrace over 1,000,000 acres, and the pine lands 6,000,000. The sea islands are mainly devoted to sea-island cotton and rice, and the palmetto grows on them; the tidal swamps to rice; inland swamps, when drained, to rice, cotton, corn and pease; the salt marshes to long cotton; the oak and pine and oak and hickory lands to corn and cotton; and the pine-barrens to fruits and vegetables. Rice, cotton, and corn thrive best in the central and southern counties. The northwestern region produces corn, wheat, barley, oats, tobacco, and many fruits. Stock-raising and wool-growing are carried on with profit. Figs and pomegranates grow in the lower counties, and the peach and grape thrive over the State generally; strawberries abundant. The manufactures are principally cotton goods, flour, lumber, machinery, tar, turpentine, carriages, and fertilizers. The number of manufacturing establishments in the State in 1880, was 2,078; amount of capital invested in them, \$11,205,894; total number of hands employed, 22,128; amount paid in wages, \$2,836,289; value of materials used, \$9,885,838; value of products, \$16,738,008. Since 1880 the number of manufacturing establishments has increased to over 3,000, employing more than 34,000 persons, and the value of products has increased 91 per cent., of which increase the cotton manufacture contributes nearly one-fourth, and lumber mills and flour and other mills more than 50 per cent. of the remainder; of the agricultural products cotton furnishes one-half and corn about one-fourth. The value of live-stock has increased \$7,000,000; farm and vegetable productions, \$7,700,000, and mineral products, \$720,000. In 1860, under slave labor, South Carolina products, from all sources, amounted to \$54,455,707; in 1887; under free labor they reached a total of \$101,682,530. Commerce is mainly confined to Charleston, Georgetown, and Beaufort. Exports are chiefly rice, cotton, lumber, phosphate, naval stores, cotton-seed and its oil, oil-cake, fish, and spring vegetables. Considerable shad and oyster fishing. The mineral wealth, though large, has not been much developed. Considerable gold is found in the northwestern counties; there were four mines worked in 1887 yielding \$100,000; there are large deposits of excellent iron-ore in Greenville, Pickens, Spartanburg, and Union Counties; manganese, copper, lead, and bismuth are also found, mainly in the northwest; white and colored marbles and limestones, granites and cyanites, soapstones, flagging-stone, and bluish-stone abundant. During 1886 and 1887 there was a rapid development of the quarries, especially in Fairfield Co., where is found, what is claimed to be, the finest granite in the United States. It is of beautiful appearance, great strength and fine quality. Aiken County contains immense beds of the finest porcelain clay. A little coal is found in Chesterfield County. The most valuable mineral at the present day is, however, a bone phosphate marl, a fossil of very remote origin and one of the best of fertilizers, found in the lowlands and river beds near Charleston; on the Stono, Ashepoo and Edisto Rivers, and also near St Helena Sound. This product has grown from 18,000 tons in 1868-70 to 432,757 tons in 1887.

There are 35 Counties in South Carolina. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 60, of which 35 designated by a dagger (†) are county-seats. Of the 112 papers which insert advertisements published in the State, 6 are daily, 1 tri-weekly, 1 semi-weekly, 94 weekly, 2 semi-monthly, 7 monthly and 1 quarterly.

SOUTH DAKOTA.

Population 400,000.....Rep. Maj. in 1888, 14,567 (Congressional).

Rep. vote, 39,326; Dem. 24,759; Prohib. 918.

SOUTH DAKOTA is bounded north by North Dakota, east by Minnesota and Iowa, south by Nebraska, and west by Montana and Wyoming. Land area about 79,000 square miles. The Missouri River furnishes navigation for boats of three to six hundred tons burden. That portion of the State east of the Missouri River is mostly rolling prairie; the soil on the Mississippi Slope being a black, sandy loam, with clay subsoil. West of the River the land is more broken, with mining or grazing land in the south-western section or Black Hills region. The northern and central parts of the State are especially adapted to the raising of wheat and other cereals, potatoes, vegetables, and the earlier varieties of corn. In the southern part corn and flax are also successfully grown. The Missouri River and all small streams and lakes are lined with timber.

There are 79 Counties in South Dakota. Newspapers are published in 50.—Cities, towns, and villages in which papers are published number 146, of which 46 designated by a dagger (†) are county-seats. Of the 254 papers which insert advertisements published in the State, 15 are daily, 1 tri-weekly, 3 semi-weekly, 225 weekly and 10 monthly.

TENNESSEE.

Population 1,542,359.....Dem. Plur. in 1888, 19,791
 Colored pop., 403,151. Dem. vote, 158,779; Rep. 138,989; Prohib. 5,969; Union Labor 48.
 STATE CAPITAL, NASHVILLE.

TENNESSEE is bounded north by Kentucky and Virginia; southeast by North Carolina; south by Georgia, Alabama, and Mississippi; west by Arkansas and Missouri; greatest length from east to west 432 miles, breadth 109 miles; land area, 41,750 square miles. The State is popularly divided into East, Middle, and West Tennessee. East Tennessee comprises the eastern mountain border, the beautiful East Tennessee Valley, and about half of the Cumberland Mountain plateau. Middle Tennessee reaches from about the center of the plateau to the Tennessee River, and is a region of fertile terraces, including the vast elliptical basin of nearly 5,000 square miles, known as the Garden of Kentucky. West Tennessee extends from the Tennessee River to the Mississippi, and is somewhat broken in the east, succeeded by a rolling plain descending to the latter river. The Mississippi bottom is a low, flat, alluvial plain, covered with forests and abounding with lakes and swamps. West Tennessee is extremely fertile, and produces corn and cotton in large quantities. Middle Tennessee is generally fertile, giving excellent grain, tobacco, and much cotton, especially toward the south. East Tennessee valley lands are fertile, producing corn, cotton, and winter-wheat; potatoes, oats, hay, and hemp are extensively produced; great numbers of stock are raised, and the wool-clip is large and excellent. Tennessee is rich in marble of various kinds, limestone and other building-stone; valuable copper mines exist in Polk County; coal and iron-ore are very abundant. Iron mining and smelting is becoming very extensive, and much iron-ore is exported to the iron-working towns on the Ohio River. The number of manufacturing establishments in the State in 1880, was 4,326; amount of capital invested in them, \$20,092,845; total number of hands employed, 22,445; amount paid in wages, \$5,254,775; value of materials used, \$22,834,262; value of products \$37,074,886. The lumbering interest is very great. Wool-carding and cloth-dressing are carried on extensively. Flouring and grist-mill products are very large. Union County contains zinc and lead mines. Colored marbles are found in immense quantities in East and West Tennessee; roofing-slates in East Tennessee; hydraulic limestone in East, Middle and West Tennessee; there are also building limestone, sandstone, and granite, fire and potter's clay.

There are 96 Counties in Tennessee. Newspapers are published in 84.—Cities, towns and villages in which papers are published number 101, of which 75 designated by a dagger (†) are county-seats. Of the 241 papers which insert advertisements published in the State, 17 are daily, 4 semi-weekly, 186 weekly, 1 fortnightly, 3 semi-monthly, 25 monthly, 1 bi-monthly and 4 quarterly.

STATE CAPITAL, AUSTIN.

TEXAS is bounded north by New Mexico, the Indian Territory, and Arkansas, east by the Indian Territory, Arkansas, and Louisiana, southeast by the Gulf of Mexico, southwest by Mexico, and west by New Mexico; greatest length about 825 miles; greatest breadth about 740 miles; land area, 262,290 square miles. From the Sabine River to the Trinity River is the great timber region, generally level and sandy in the south, rolling and fertile in the north. From the Trinity to the Colorado is prairie, timbered along streams, with an extensive forest in the north called the "Cross Timbers." Western Texas embraces the counties between the Colorado and Rio Grande; four-fifths of it is prairie; timber generally confined to banks of streams. Between the Colorado and the Brazos Rivers are the Comanche and Leon River Mountain ranges. In the north and northwest are the Church and Double Mountains, and the surface is generally broken until the Llano Estacado, or Staked Plain, is reached, when the surface is gently undulating, and vegetation scanty. Between the Pecos and Rio Grande are several ranges, sometimes attaining an elevation of 5,000 feet. The chief crops are cotton, corn, and wheat. The former two may be grown in nearly any part of the State, but especially in the eastern and central sections; the latter chiefly in the north and centre. Sea island cotton is grown on the coast. Sugar cane is raised chiefly on the Brazos and other rivers, near their mouths, and rice in the southeast. Oats, barley, tobacco, and sweet and white potatoes are grown to a moderate extent. Swine thrive on the abundant mast of the forests. The chief occupation westward is stock-raising and wool-growing. Figs and oranges thrive in the south. Manufacturing interests are increasing. The number of manufacturing establishments in the State in 1880, was 2,996; amount of capital invested in them, \$9,245,561; total number of hands employed, 12,159; amount paid in wages, \$3,343,087; value of materials used, \$12,956,269; value of products, \$20,719,328. The number of manufacturing establishments in 1887 is reported as being 3,945. Capital invested, \$12,327,414; hands employed, 16,212; amount of wages, \$4,457,449; value of materials, \$17,275,025; value of products, \$27,626,437. There are immense deposits of copper along the line of the Texas Pacific Railroad; coal, timber, limestone, soapstone and iron are found in the same region. Argentiferous galena is found in large quantities in northwestern Texas; immense quantities of magnetic iron in Mason, Llano, and the western counties which is now being developed. There is a field of bituminous coal about 6,000 square miles in extent, and a field of anthracite in Brown, Coleman, Comanche, and Hamilton Counties. Salt is produced in large quantities from springs in El Paso, Lampasas, and Llano Counties; asphaltum is abundant. Large quantities of salt-petre are found in Blanco and Burnet Counties; marble and roofing-slate, grindstones, pott and fire-clays, marl, and other fertilizers are found in great quantities.

There are 242 Counties in Texas. Newspapers are published in 172.—Cities, towns, and villages in which papers are published number 273, of which 152 designated by a dagger (†) are county-seats. Of the 482 papers which insert advertisements published in the State, 42 are daily, 1 tri-weekly, 5 semi-weekly, 40 weekly, 5 semi-monthly, 18 monthly, and 1 quarterly.

STATE CAPITAL, MONTPELIER.

VERMONT is the most northwesterly of the New England States, bounded north by Quebec, east by New Hampshire, south by Massachusetts, and west by New York. It is 143 miles long by from 40 to 85 miles wide, with a land area of 9,135 square miles. The Green Mountains traverse it from north to south, mainly in two ranges, generally covered with dense forests, but affording excellent pasturage. Western Vermont and a large tract of the eastern part comprise beautiful pastoral regions, but the central part is rugged and mountainous. The best soil is found on the western slope of the mountains near the border of Lake Champlain, and in the valley lands of the Connecticut River. The State occupies a prominent position in agriculture. When its area, population, amount of forest-land, and long severe winters are considered, there is perhaps no other State that yields so large a return. All the ordinary agricultural staples are abundantly produced; wool and dairy products are large and excellent; cattle, sheep, and horses are raised in large numbers, and the yield of maple-sugar is unequalled. Manufactures occupy a prominent position in its industries, and cover a wide range of goods. The number of manufacturing establishments in the State in 1880, was 2,874; amount of capital invested in them, \$23,265,224; total number of hands employed, 17,540; amount paid in wages, \$5,164,479; value of materials used, \$18,330,677; value of products, \$31,354,366. Large quantities of lumber are exported, and marble and slate extensively quarried. The principal marble quarries are at Brandon, Dorset, Isle La Motte, Manchester, Middlebury, New Haven, Pittsford, Proctorsville (serpentine), Roxbury (verd-antique), Rutland, Shelburne Sutherland Falls, Swanton and West Rutland; slate quarries at Castleton, Fair Haven, Guilford, Northfield, Pawlet and Poultney; granite at Barre and Brattleboro. Potters' clay comes from Bennington and Rutland; steatite from Castleton and Grafton. Manganese, brown hematite, kaolin and ochre from Brandon, South Wallingford and Manchester Center; copper-ore from Vershire and Corinth. Rutland is now (1888) the largest marble center in the world, not less than \$6,000,000 of capital and 4,000 men being employed in 15 quarries and 20 mills. During the last ten years the development of the granite business at Barre, six miles from Montpelier, has been very large. Nearly \$2,000,000 of capital and 1,000 men are employed in it. Burlington is a large market for Vermont and Ottawa lumber, having extensive mills and a trade extending throughout the Eastern States. Vermont continues to be the greatest breeding state of fine horses (Morgans and Hambletonians) and of Spanish merino sheep. Every year numbers of these superior animals are shipped to all parts of this country, to South America and to Australia.

There are 14 Counties in Vermont. Newspapers are published in 13.—Cities, towns, and villages in which papers are published number 45, of which 12 designated by a dagger (†) are county-seats. Of the 77 papers which insert advertisements published in the State, 4 are daily, 63 weekly, 1 semi-monthly, 1 every three weeks and 8 monthly.

VIRGINIA.

Population 1,512,565.....Dem. Plur. in 1888, 1,539
 Colored pop., 631,616. Dem. vote, 151,977; Rep. 150,438; Prohib., 1,678.

STATE CAPITAL, RICHMOND.

VIRGINIA is bounded north by West Virginia and Maryland, east by Maryland and the Atlantic Ocean, south by North Carolina and Tennessee, and west by Kentucky and West Virginia. Its greatest length from east to west is about 440 miles, its greatest breadth 192 miles; land area, 40,125 square miles. The surface is divided into six great natural divisions, the Tidewater comprising the south and southeast; the Middle, an undulating plain, extending westward to the Coast Range; the Piedmont, from the Coast Range to the Blue Ridge Mountains, and from the Potomac River to North Carolina; the Blue Ridge, stretching across the State in a southwesterly direction; the Valley—a part of the great Appalachian Valley, reaching from Canada to Alabama—a broad belt of rolling country between the Blue Ridge and the Kittatinny or North Mountain; and the Appalachian, a mountainous region traversed by the Alleghenies. The soil in the Tidewater region is a light sandy loam, yielding large crops of vegetables and small fruits. The Valley Region has a rich fertile soil, well adapted for cereals. Much of the Mountain Region is uncultivated and chiefly forest land; but the parallel valleys are very fertile. The Piedmont, Blue Ridge, Valley, and Appalachian regions are noted for their grasses. The yield of tobacco is only equaled by that of Kentucky. Some cotton is grown in the Tidewater section; fruit grows all over the State. A considerable part of the tide-water region is devoted to raising early vegetables for northern markets. Dairying, stock-raising, and wool-growing are important industries. The timber export is large. There are profitable fisheries of bass, shad, etc., and the oyster trade is very important. The manufacturing interests are comparatively small, but are increasing, the chief seats being Richmond, Alexandria, Danville, and Lynchburg. The number of manufacturing establishments in 1880, was 5,710; amount of capital invested in them, \$26,963,990; total number of hands employed, 40,131; amount paid in wages \$7,425,261; value of materials used, \$32,883,933; value of products, \$51,730,992. Virginia has excellent natural advantages for commerce, but it is only lately that she has begun to take a prominent part in foreign trade. There are beds of anthracite, semi-bituminous, and bituminous coal in the southwestern counties, not much developed; salt is an important product of this region. There are coal-bearing strata in other parts of the State, particularly near Richmond; the coal is bituminous, and generally of good quality. Virginia has vast beds of gypsum and marl, abundant iron-ore, fine granite, marble, and other building stones; zinc, sulphur, kaolin, fire-clay, and many other minerals. It abounds in mineral springs of great reputation.

There are 100 Counties in Virginia. Newspapers are published in 70.—Cities, towns, and villages in which papers are published number 101, of which 57 designated by a dagger(†) are county-seats. Of the 225 papers which insert advertisements published in the State, 21 are daily, 2 tri-weekly, 6 semi-weekly, 164 weekly, 3 semi-monthly, 28 monthly, and 1 bi-monthly.

WASHINGTON.

Population 300,000.....Rep. Maj. in 1888, 7,371 (Congressional).

Chinese pop., 2,584.

Rep. vote, 26,291; Dem. 18,920.

STATE CAPITAL, OLYMPIA.

WASHINGTON is bounded north by British Columbia, west by the Pacific Ocean and east by the Bitter Root Range of the Rocky Mountains. It is divided by the Cascade Mountains, into two distinct parts. Western Washington is a fine timber country, with many fertile valleys, well settled and very productive in vegetables, which grow to an immense size; fruit of all kinds and hops. Extensive coal and iron mines are being operated, coke ovens established, and the State will be, in a short time, the Pennsylvania of the Pacific Coast. The discoveries during the past two years have been of copper, silver, galena and gold mines, all of which are rapidly being developed. Eastern Washington is especially adapted for the raising of all kinds of grain, fruit, vegetables, hops, corn, and particularly wheat, of which staple there was raised this year half a million tons. The climate is perfection; the mean average temperature for the year being 53°. It is the best agricultural country on the Pacific Coast. Cattle and stock of all kinds do remarkably well; the ranges are good and it is not considered necessary to feed the stock in the winter time, owing to the generally light snow-fall and the abundance of natural grasses. Puget Sound, is itself a vast harbor, having an extent of 1,594 miles of shore line, and Seattle, its principal sea-port, is fast becoming the metropolis of the northwest Pacific Coast. Fish of all kinds abound, and the canning of salmon employs many hundred people in the season. Manufacturing establishments are increasing every day and the State is on the eve of great developments. Hops are a leading product of Western Washington, the yield in 1887 approximating 25,000 bales. The output of coal for 1887 was 530,000 tons. The output of lumber for the same year was 645,440,000 feet. The number of manufacturing establishments in the State, in 1887, was 632; amount of capital invested in them, \$9,456,000; total number of hands employed, 12,000; amount paid in wages, \$2,326,000; value of materials used, \$4,156,760; value of products, \$7,785,000.

There are 34 Counties in Washington. Newspapers are published in 31.—Cities, towns, and villages in which papers are published number 59, of which 27 designated by a dagger (†) are county-seats. Of the 113 papers which insert advertisements published in the State, 14 are daily, 96 weekly and 3 monthly.

WEST VIRGINIA.

Population 618,457.....Dem. Plur. in 1888, 506

Colored pop., 25,886. Dem. vote, 78,677; Rep., 78,171; Union Labor, 1,508; Prohib. 1,034.

STATE CAPITAL, CHARLESTON.

WEST VIRGINIA is bounded north and east by Pennsylvania and Maryland, east and south by Virginia, and west by Kentucky and Ohio. Its greatest length from north to south is about 240 miles; greatest breadth, 160 miles; land area, 24,645 square miles. A large part of the surface is mountainous and hilly; about two-thirds is covered with forest. The soil of the ridges is fertile to the tops, and the summits of many mountains are flat, natural meadows or glades. The valley of the Great Kanawha is the finest grazing region of the State. Blue grass is indigenous; the lumber trade is important. Nearly the whole of the State lies within the Allegheny coal system, and large quantities of coal are exported both by river and rail, and new mines are constantly being opened. It is generally bituminous. The Kanawha Valley is one of the great salt-producing regions of the United States. Petroleum is extensively produced, chiefly in Ritchie, Pleasants, Marshall, Wood, and Wirt Counties. Natural gas is found in several sections, Wheeling and the Northern Pan Handle using it as fuel almost to the exclusion of coal. Limestone, sandstone, and grinding stone abound generally through the State. The minerals and mineral springs are inexhaustible. West Virginia is especially famous for wool. Other great staples are corn, wheat, oats, and tobacco. Manufactures are comparatively undeveloped, except in the towns along the Ohio River. The leading industries are steel and iron in various forms, glass, flour, salt, wood pulp, liquor, lumber, queensware and porcelain, fire-brick, leather, cigars and tobacco, and machinery. Wheeling is the largest and most important city. Population 85,000. It is the manufacturing center and all the industries enumerated above, except salt, flourish there. The number of manufacturing establishments in the State in 1880, was 2,375; amount of capital invested in them, \$13,883,200; total number of hands employed, 14,311; amount paid in wages, \$4,313,965; value of materials used, \$14,027,388; value of products, \$22,567,126.

There are 54 Counties in West Virginia. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 71, of which 52 designated by a dagger (†) are county-seats. Of the 142 papers which insert advertisements published in the State, 7 are daily, 1 semi-weekly, 122 weekly, 2 fortnightly, 1 semi-monthly, and 9 monthly.

STATE CAPITAL, MADISON.

WISCONSIN is bounded north by Lake Superior, northeast by Michigan, east by Lake Michigan, south by Illinois, and west by Iowa and Minnesota. Its greatest length from north to south is 300 miles; greatest breadth, 250 miles; land area, 54,450 square miles. The surface is generally an elevated plain, with high bluffs along the rivers and lakes, and elsewhere gently undulating, diversified with prairie, woodlands, and numerous lakes. The State ranks high in agricultural products. The northern part of the State is heavily timbered but is fast settling up. It has a somewhat severe climate, but outside the wooded country the soil is good, produces large crops but not of corn. The lumber business of this section of the State, in pine and hard wood, has built up many large and flourishing inland cities like Oshkosh, Eau Claire, Wausau, Chippewa Falls, Stevens' Point, Merrill and Shawano. During the past three years an immense deposit of the best iron ore, extending across the entire northern part of the State and known as the Gogebic iron belt, has developed many valuable mines, and the shipments of Bessemer and hematite ore have added millions of wealth to the productive capacity of the State and largely increased the population. Galena limestone, lead, and zinc in the southwest, chiefly near Mineral Point. One of the best hydraulic cements comes from the neighborhood of Milwaukee. Wheat, corn, rye, oats, barley, potatoes, dairy products, and maple-sugar are all raised in large quantities; hops are exceedingly prolific; fruit-growing is an important industry. Cheese and butter making have increased to enormous proportions, especially in the central and southern counties, and the growing of seed-leaf tobacco for wrappers has become an important and profitable industry, the product commanding the highest market price. Large numbers of horses are bred; sheep are numerous, and the wool clip large and valuable. The lakes and streams abound with fish, especially trout and black bass. Manufactures are thriving and numerous, lumber and wood-work of all kinds holding a very prominent position. The manufactures of furniture, wagons, agricultural implements, leather and brooms are large and increasing, while at Milwaukee are situated several of the largest and wealthiest beer brewing corporations in the world, and the manufactures of cotton and woolen goods, nails, steel rails and merchant iron are conspicuous and valuable. The number of manufacturing establishments in the State in 1880, was 7,674; amount of capital invested in them, \$73,821,802; total number of hands employed, 57,109; amount paid in wages, \$13,814,917; value of materials used, \$85,796,178; value of products, \$128,255,480. Since 1880 there has been a marked growth of manufacturing enterprise in the leading cities of the State. Milwaukee, in particular, has enjoyed a revival in this direction, owing to her natural advantages. The number of miles of railway in 1887 was 4,778; number of farms, 136,108, the value of which, together with their products in 1885, was \$568,187,288; the value of the iron producing establishments and their product, in 1885, was nearly \$200,000,000.

There are 68 Counties in Wisconsin. Newspapers are published in all. — Cities, towns, and villages in which papers are published number 210, of which 67 designated by a dagger (†) are county-seats. Of the 500 papers which insert advertisements published in the State, 43 are daily, 1 tri-weekly, 2 semi-weekly, 422 weekly, fortnightly 7 semi-monthly, and 23 monthly.

ALASKA.

Population **§2,500.**

Indian pop. 13,000.

TERRITORIAL CAPITAL, SITKA.

ALASKA is bounded north by the Arctic Ocean, east by the Northwest Territories of Canada, west and south by the Pacific Ocean, Behring's Sea and Strait, and numerous islands. It has a land area of about 600,000 square miles. The northern half is low with great swampy morasses along the streams, running back into low, rolling hills. Native Indians inhabit that section, living along the streams in small bands. The southern half is mountainous, and along the southwest coast are some of the highest mountain peaks on the American continent; Mount St. Elias, the highest, is estimated at 20,000 feet. The principal industry at present is mining, the country being seamed by the largest quartz veins in the world. The Alaska Mill and Mining Co. have erected a \$600,000 plant of 120 stamps, and chlorination works on Douglas Island, across the bay from Juneau, which has been running night and day for five years. Their ledge of solid quartz is 600 feet wide, and the ore averages about \$14 per ton. The company ships \$100,000 a month in gold bricks. Other mining companies are erecting works on the same island, and at Berner's Bay, fifty miles north of Juneau, and in the Basin near the city. In a few years the fisheries and forests of red and yellow cedar will yield large returns. The Seal Islands in Behring Sea pay an enormous yearly revenue to the government. The two principal cities are Sitka, the capital, with a population of 550, and Juneau, the metropolis and supply point, with a population of 1,200. The western coast, from the southern boundary to Cape Spencer, is lined with a continuous chain of islands, many of them as large as the State of Maine. Between the islands and mainland are salt water channels, navigable for the largest sized steamships. In the interior is one of the largest rivers in the world, the Yukon, navigable for 2,000 miles, and 60 miles wide at the mouth. The climate along the coast is wet and warm, the thermometer in winter rarely going 5 degrees below zero. In the interior it is warm in summer, but cold in winter.

There are 4 papers published in Alaska, of which 3 are weekly and 1 monthly.

ARIZONA.

TERRITORIAL CAPITAL, PRESCOTT.

ARIZONA is bounded north by Utah and Nevada, south by New Mexico, and west by California and Nevada; land area, 112,920 square miles. It lies entirely within the Valley of the Colorado. The streams generally flow through deeply eroded chasms. The soil is very fertile when irrigated, even on the alkaline plains; and the mountain lands are well adapted to stock-raising and wool-growing. Wheat, barley, and corn appear to be the principal crops; but pastoral occupations are better suited to the country, and more profitable than strictly agricultural pursuits. With the increase in the number of irrigating canals, of which there are said to be now 400 miles, representing a cost of \$1,000,000, a corresponding increase may be looked for in land subjected to tillage, of which there are millions of acres suited to the growth of every variety of grasses, grains, fruits and vegetables grown in the temperate and semi-tropic zones, and which only require irrigation to make it yield abundantly. The chief wealth of the Territory, however, lies in its mineral deposits. Gold, silver, lead, copper, iron, cinnabar, salt, borax, etc., abound, and the mining and working of gold and silver ores is at present the leading industry. The number of manufacturing establishments in the State in 1880, was 66; amount of capital invested in them, \$272,600; total number of hands employed, 220; amount paid in wages, \$111,180; value of materials used, \$380,023; value of products, \$618,365.

There are 10 Counties in Arizona. Newspapers are published in all.— Cities, towns, and villages in which papers are published number 15, of which 10 designated by a dagger (†) are county-seats. Of the 35 papers which insert advertisements published in the Territory, 8 are daily, and 27 weekly.

Chinese pop., 3,379.

Rep. vote, 8,151; Dem. 6,404.

TERRITORIAL CAPITAL, BOISE CITY.

IDAHO is bounded north by British Columbia, east by Montana and Wyoming, south by Utah, and west by Oregon and Washington; land area, 84,290 square miles. The surface is chiefly mountainous, but there are also large tracts of prairie and fertile valleys. In the southeast is a volcanic region, abounding in geysers and saline springs. It is generally better adapted for grazing than for agriculture. Corn is not profitably raised, owing to the shortness of the summer. Barley, wheat, oats, potatoes, dairy products, and wool are the staples. There are vast tracts covered with sage-grass, on which cattle fatten readily. Many of these plains, if irrigated, would make excellent wheat-growing districts. Gold and silver are plentiful in all parts of the territory, and are largely produced, the product in 1887 reaching \$8,000,000. The number of manufacturing establishments in the State in 1880, was 162; amount of capital invested in them, \$677,215; total number of hands employed, 388; amount paid in wages, \$136,326; value of materials used, \$844,874; value of products \$1,271,317.

There are 18 Counties in Idaho. Newspapers are published in all.— Cities, towns, and villages in which papers are published number 25, of which 15 designated by a dagger (†) are county-seats. Of the 38 papers which insert advertisements published in the Territory, 3 are daily, 2 tri-weekly, 2 semi-weekly and 31 weekly.

NEW MEXICO.

Population 133,530.....Dem. Maj. in 1888, 1,650 (Congressional).

Dem. vote, 16,131: Rep. 14,481.

TERRITORIAL CAPITAL, SANTA FE.

NEW MEXICO is bounded north by Colorado; east by the Indian Territory and Texas, south by Texas and Mexico, and west by Arizona; land area, 122,460 square miles. Its general surface is a region of high plateaus, traversed by mountain ranges with isolated peaks. The valleys are generally nearly level, and their soil fertile. In the southeast is a part of the barren "Llano Estacado" or "Staked Plain." The mesas, or table lands, occupy a large part of the surface, making stock-raising and wool growing the leading occupations; the bunch-grass affording rich pasturage, and neither hand-feeding nor shelter is ever necessary for the herds and flocks. Agriculture is successful in the valleys, glens and on the foot spurs of the mountain ranges. Irrigation is frequently resorted to in the valleys but never on the foothills; for on the latter nature supplies moisture sufficient for the most luxurious crops. In fact during the last three years farming on the mesas and in the valleys without irrigation has largely increased and has proven perfectly successful, causing the old inhabitants to say that the rain-fall has increased. New comers think it has arisen from deep ploughing and better methods of farming. Wheat, corn, beans, onions, cabbage, alfalfa, oats, wild hay, and all kinds of vegetables are the chief crops. Of fruits, the apple, peach, melon, fig, apricot, pomegranate, and especially grapes, flourish. Gold, silver, copper, iron, and lead exist, and all are being extensively worked. Manufactures are confined principally to grain, quartz, and lumber milling, manufacturing wines and brandies, the making of blankets by the Navajo Indians, and coarse pottery by the Pueblos. UTAH.

Population 143,963.....Mormon Maj. in 1888, 6,643 (Congressional).

Mormon vote, 10,127; Gentile, 3,484.

TERRITORIAL CAPITAL, SALT LAKE CITY.

UTAH is bounded north by Idaho and Wyoming, east by Wyoming and Colorado, south by Arizona; and west by Nevada; land area, 82,190 square miles. The surface is very mountainous, interspersed with arid plains, valleys, and basins; much of it is utterly sterile. Irrigation is nearly everywhere necessary but if a perfect system were adopted, much of the soil now worthless would produce good crops, as it contains most if not all of the elements of fertility. Wheat, oats, barley, corn, potatoes, dairy produce, hay, and wool are the chief products. Cattle-raising is a profitable industry, and is often successfully carried on where farming is impracticable. The chief wealth of the territory, however, is in its minerals. Gold and silver are largely produced, as are also lead, iron, copper, coal, and salt. Manufactures are chiefly those of goods needed for home consumption, but of late extensive works for the mining and smelting of ores have been established. The number of manufacturing establishments in the State, in 1880, was 640; amount of capital invested in them, \$2,656,657; total number of hands employed, 2,495; amount paid in wages, \$853,863; value of materials used, \$2,561,737; value of products, \$4,324,992.

There are 24 Counties in Utah. Newspapers are published in 18. — Cities, towns, and villages in which papers are published number 9, of which 8 designated by a dagger (†) are county-seats. Of the 35 papers which insert advertisements published in the Territory, 6 are daily, 6 semi-weekly, 14 weekly, 3 semi-monthly, and 6 monthly.

WYOMING

Population 40,000.....Rep. Maj. in 1888, 2,894 (Congressional).

Chinese pop., 914.

Rep. vote, 10,451; Dem. 7,557.

TERRITORIAL CAPITAL, CHEYENNE CITY

WYOMING is bounded north by Montana, east by Dakota and Nebraska, south by Colorado and Utah, and west by Utah, Idaho, and Montana; land area, 97,575 square miles. Its surface is broken by mountain ranges, deep river canyons, flat-topped hills or buttes, the latter a feature of South Wyoming, and which rise from valley or plain like walled cities or mounds. There are large elevated plateaus or parks, of which the principal is the Great Yellowstone or National Park. Stock-raising, sheep-husbandry, and coal-mining are the leading pursuits. Irrigation is needed in a large part of the country to make the soil productive. Gold and silver are plentiful. There are vast beds of iron-ore and plenty of good coal. Gypsum, salt, soda, sulphur, copper, and other minerals are found. In manufactures, the sawing of lumber and railroad ties, milling of quartz, and railroad repair and machine shops in the towns on the line of the Union Pacific Railroad, occupy the leading place. The number of manufacturing establishments in the State, in 1880, was 57; amount of capital invested in them, \$364,673; total number of hands employed, 391; amount paid in wages, \$187,798; value of materials used, \$601,214; value of products, \$898,494.

There are 10 Counties in Wyoming. Newspapers are published in all,—Cities, towns and villages in which papers are published number 14, of which 7 designated by a dagger (†) are county-seats. Of the 28 papers which insert advertisements published in the Territory, 4 are daily, 1 semi-weekly and 23 weekly.

BRITISH COLUMBIA.

Population \$114,286.

PROVINCIAL CAPITAL, VICTORIA.

BRITISH COLUMBIA is bounded on the north by the parallel of 60° north, on the west by the Pacific Ocean and Alaska, on the south by the 49th parallel (the boundary of the United States), on the east by the Rocky Mountains and the meridian of 120° west. It is the largest of all the Canadian Provinces, having an area of 341,305 square miles. It includes a number of islands, the largest being Vancouver, which contains the capital of the Province, has an area of about 20,000 square miles, and produces the finest coal on the Pacific Coast. About 250,000 tons are exported annually to the United States, and the quantity is steadily increasing. The Province is about 700 miles long and 500 wide. Its surface is largely mountainous and densely wooded, producing the largest trees in the world. Lumbering is one of the principal industries, but as the land becomes cleared the soil is found very fertile and well adapted for agriculture of all kinds. The climate is temperate and healthy, and is particularly suitable for stock raising. Gold has been found in large quantities, and mining it is one of the chief industries. Upwards of \$15,000,000 of this metal have been exported during the last 15 years. The fisheries are also very valuable, their produce in 1886 having been reckoned at \$4,834,848. Fur-bearing animals are very numerous. The principal town on the mainland is Vancouver, the terminus of the Canadian Pacific Railway. Though barely two years old it has a population of over 5,000.

Of the 15 papers which insert advertisements published in British Columbia, 6 are daily, 2 semi-weekly, and 7 weekly.

MANITOBA.

Population 5123,175.

PROVINCIAL CAPITAL, WINNIPEG.

MANITOBA is bounded south by Minnesota and North Dakota, east by Ontario and Keewatin, and north and west by Keewatin and the northwest Territories, and has an area of 60,520 square miles. Its surface is principally prairie land, with groves of timber along the rivers and streams. The soil is probably the richest in the world, and produces the finest wheat known in the market. In 1887 the average yield was 27.7 bushels per acre. All other cereals grow and ripen in great abundance, and so do vegetables and small fruits of all kinds. For grazing and cattle raising the facilities are unbounded, hay being chiefly made from the prairie grasses, which are very nutritious, and in illimitable abundance. Cultivated grasses also answer well. The growth of the Province has been very rapid, the increase in population between 1881 and 1886 having been 74.56 per cent. Winnipeg is on the main line of the Canadian Pacific Railway, which passes through the Province from east to west, and from it several railways branch out into the Province and the United States. The means of water communication are also very considerable.

Newspapers are published in 13 Counties of the Province.—Cities, towns, and villages in which papers are published number 16, of which 3, designated by a dagger (†) are county-seats. Of the 35 papers which insert advertisements, 2 are daily, 27 weekly, 5 monthly and 1 bi-monthly.

NEW BRUNSWICK.

Population 342,047.

PROVINCIAL CAPITAL, FREDERICTON.

NEW BRUNSWICK is bounded north by Quebec, east by the Gulf of St. Lawrence, west and south by the Bay of Fundy, part of Nova Scotia, and Maine. It is 210 miles in length and 180 miles in breadth, and has a coast line of about 500 miles. Its area is 27,174 square miles. Surface generally very undulating, scarcely an elevation on the west coast exceeding 300 feet, on the north there is a section of mountainous character, consisting of hills ranging from 500 to 800 feet in height, covered with dense forest, and surrounded by fertile valleys and table lands. Its forests are very extensive, and lumbering is one of the principal industries. The climate is very healthy and the soil fertile, with great agricultural capabilities. Ship-building is extensively carried on, and the fisheries, viz: salmon, smelt, herring and lobster, are second in value only to those of Nova Scotia. Their value in 1887 was \$1,180,227. Coal, antimony, copper, iron, manganese and other minerals are found in considerable quantities. Manufactures are chiefly sawed lumber and wooden wares, cotton and woollen goods, refined sugar, rope and cordage, canned goods, polished granite, boots and shoes, edge tools, furniture, paper castings, machinery, locomotives, etc. Chief exports—lumber, fish, cotton goods, potatoes, butter and eggs, beef and mutton, gypsum, hay, etc.

NORTHWEST TERRITORIES

Population \$96,000.

SEAT OF GOVERNMENT, REGINA.

The NORTHWEST TERRITORIES are bounded north by the Arctic Ocean, east by the Atlantic Ocean and Hudson's Bay, west by Alaska and British Columbia, and south by the United States and portions of the Dominion. They cover an area of about 2,647,730 square miles, and were formerly known as the Hudson's Bay Territory. In 1882 four provisional districts were formed, viz: Alberta, Saskatchewan, Assiniboia and Athabasca. The population of the first three at a census taken in 1885 was 48,362. The four districts contain 431,000 square miles, or 275,840,000 acres, the greater number of which are fit for cultivation. Assiniboia and Saskatchewan contain the best wheat lands, while Alberta is peculiarly well adapted for grazing and stock raising. Upwards of 4,000,000 acres are already under lease for these purposes, on which are more than 100,000 head of cattle. The Canadian Pacific Railway runs through Assiniboia and Alberta. The population of the remainder of the Territories consists principally of Hudson Bay Company employes and Indians. An immense coal field 300 miles wide commences 150 miles east of the Rocky Mountains and extends to the Arctic Ocean, and is now being worked in several places. Lumber is also abundant in many places, so that a good supply of fuel is amply provided for. The completion of the Canadian Pacific Railway has given an impetus to farming and cattle raising that is rapidly settling the southern portion of the country, while the placing of powerful steamers on the Athabasca, the Pease and Mackenzie Rivers of the North is destined at an early day to open up to settlement the immense tracts of mineral and timber land that constitute almost all the "North Country." These steamers ply in waters two thousand miles north of the North Saskatchewan and far within the Arctic Circle.

There are 16 papers which insert advertisements published in the Northwest Territories, of which 2 are daily and 14 weekly.

NOVA SCOTIA.

Population \$476,900.

PROVINCIAL CAPITAL, HALIFAX.

NOVA SCOTIA consists of a very narrow peninsula, connected with New Brunswick by a narrow isthmus about 16 miles wide, and of the island of Cape Breton. It is bounded on the north by the Gulf of St. Lawrence, on the east and south by the Atlantic, on the west by the Bay of Fundy and New Brunswick. It is 300 miles long and from 80 to 100 wide, with an area of 20,907 square miles, or 11,000,000 acres, of which 5,000,000 are fit for tillage. The Cobequid Range runs through the interior, the soil on both sides of which is very fertile; also in the beautiful valley of the Annapolis River. The soil is very rich and fertile, and agricultural productions are very extensive; wheat, rye, oats, barley, buckwheat, corn, vegetables, and fruit grow abundantly. The principal minerals are coal, iron and gold. Coal is in great abundance, and is freely worked, 250,000 tons being exported in 1886. Iron is in large quantities and practically inexhaustible; it is of a fine quality and commands the highest price in the market. There are 58 gold mines in working order, the value produced in 1886 was \$455,564. Manganese, gypsum, and roofing-slate abound. Manufactures are numerous, and include coarse cloth, flannels, blankets, carpets, boots and shoes, saddlery, furniture and farm implements. Ship-building is important. The fisheries are reckoned among the richest in the world; the value of their produce in 1886 was \$8,415,361. The capital city, Halifax, is situated on the west side of the harbor of that name, and contains over 40,000 inhabitants. The harbor is one of the finest in the world, over half a mile in width at its narrowest part, and extensive enough to contain all the navies of the world. Halifax has two sugar refineries, a dry dock, paint works, cotton factory. It is the winter port for the direct mail steamers, and has direct communication with Liverpool, Boston, Baltimore, Quebec and the West Indies. As a summer resort it is yearly becoming better known; its suburbs furnish the pleasantest drives and bathing facilities, and its public gardens have been pronounced by all who have visited them the most beautiful on this side of the Atlantic.

Newspapers are published in 14 Counties of this Province.—Cities, towns, and villages in which papers are published number 26, of which 9 designated by a dagger (†) are county-seats. Of the 58 papers which insert advertisements published in the Province, 5 are daily, 3 tri-weekly, 2 semi-weekly, 44 weekly, 1 every third week, 2 monthly and 1 bi-monthly.

ONTARIO.

Population \$2,121,003.

PROVINCIAL CAPITAL, TORONTO.

ONTARIO is bounded on the east by Quebec, north and northwest by Hudson's Bay and the Northwest Territories, southwest and south by the Great Lakes and St. Lawrence River, and has an area of 181,806 square miles, exclusive of its water surface. It is the most populous and wealthy Province of the Dominion of Canada, and contains a number of large cities with populations of from 30,000 to 45,000, amongst others being Ottawa, population 35,000, which is the Seat of Government and capital of the Dominion. Surface is mostly undulating, traversed by the Laurentian Hills and Blue Mountains, but except in the neighborhood of Lake Superior and Georgian Bay they nowhere exceed a few hundred feet in height. The agricultural resources are very great. Three-fourths of the present area of habitation is fertile, while an immense region beyond is capable of cultivation; very large crops of cereals are raised. The apple orchards of the southwest are very productive, and small fruits and vegetables are prolific. Stock raising and dairy farming succeed remarkably well, cattle, butter and cheese being exported in large quantities. Its mineral treasures are exceedingly rich and varied; iron, copper, lead and silver are very abundant. Some gold has been found between Georgian Bay and the Ottawa River; petroleum, salt, rock-salt and peat beds also exist. Manufactures are rapidly increasing in number and importance, among the principal being agricultural implements of all kinds, wagons, carriages, railroad stock, including locomotives, cotton and woolen factories, tanneries, furniture, paper, soap, wooden ware factories, &c. The railway enterprise is very great, and in addition to the great trunk lines, the Grand Trunk Railway and Canadian Pacific, every important section has competing lines stretching out to it. Its educational system is a combination of the best features of the schools of other countries, and is claimed to be the best in the world, especially in its common schools.

Newspapers are published in 48 Counties and Districts of this Province. — Cities, towns, and villages in which papers are published number 205, of which 39 designated by a dagger (†) are county-seats. Of the 468 papers which insert advertisements published in the Province, 42 are daily, 1 tri-weekly, 4 semi-weekly, 351 weekly, 1 fortnightly, 10 semi-monthly, 57 monthly, and 2 quarterly.

QUEBEC is bounded north by Hudson Bay, east by Labrador and the Gulf of St. Lawrence, south by New Brunswick, Maine, New Hampshire and New York, southwest by the Ottawa River, which separates it from Ontario. Length from east to west 700 to 1,000 miles, breadth about 300 miles; area about 188,688 square miles. Surface south of St. Lawrence generally hilly, northern part mountainous and rocky and abounding in rivers and small lakes. A great part of the surface is covered with forests. Soil in many districts is rich, and cereals grow well. Oats, potatoes and hay are the chief crops; also wheat, barley, rye, buckwheat, flax, peas and beans. Hops and apples are extensively grown. Cattle raising and cheese dairying are important industries. Copper and mica abound in the eastern townships, and iron almost everywhere. Lead, silver, platinum, zinc, &c. are in abundance, and there are large deposits of phosphate of lime in the Ottawa River district; 26,000 tons were exported in 1886. Gold is found in several places. The lumber industry is the principal one, produce of the forest to the value of \$9,603,441 having been exported in 1886. The fisheries are also important and rank next to those of New Brunswick in value. Ship building is carried on in Quebec. Lumber is a valuable article of export. The principal manufactures are cloth, linen, furniture, leather, sawed timber, flax, iron and hardware, paper chemicals, boots and shoes, cotton and woolen goods, agricultural implements, etc. Montreal, though not the capital, is the largest city in the Province and the commercial capital of the Dominion. It has a population of 192,000.

Newspapers are published in 28 Counties of this Province.—Cities, towns, and villages in which papers are published number 33, of which 15 designated by a dagger (†) are county-seats. Of the 135 papers which insert advertisements published in the Province, 22 are daily, 3 tri-weekly, 6 semi-weekly, 82 weekly, 1 fortnightly, 1 semi-monthly, and 20 monthly.

NEWFOUNDLAND

Population 197,335.

CAPITAL, ST. JOHN'S.

NEWFOUNDLAND is in the Atlantic Ocean, at the mouth of the Gulf of St. Lawrence; bounded north and northeast by Labrador (Belle Isle Straits intervening); Cape Breton is off its southwest point; east by the Atlantic Ocean, and west by the Gulf of St. Lawrence. Its extreme length is 350 miles; average breadth 130 miles, and area 40,200 square miles. Surface generally rugged, with numerous lakes and rivers; not much timber, except along the streams and on the western side of the island. Soil is fertile near many of the lakes and rivers, and in many places farming is profitable. Wheat grows well; so do potatoes and green crops generally; apples and small fruits are profitable. The timber lands are unsettled, and lumbering is not carried on. The fisheries, both on the Grand Banks and in-shore, are very extensive and valuable. The seal fishery employs many vessels and steamers. Principal exports are fish and fish-oils, seal-oil and skins, and amount to more than \$5,000,000 annually. The coast of Labrador, on the mainland, is now included in the colony; it comprises about 120,000 square miles, but has only 4,211 inhabitants.

There are 8 papers which insert advertisements published in Newfoundland, 3 daily, 2 semi-weekly and 3 weekly.

THE TOGA MINERS.

Eight Hundred Coal Workers Leave

The Mine

The eight hundred coal miners who have been working at the Toga mine for several months, have today left the mine in a body, and are expected to return to their homes in a few days. The miners were employed by the Toga Coal and Iron Company, and were working under a contract which provided for a wage of \$1.00 per day, and for a bonus of \$1.00 per ton of coal mined. BISHOP REAF'S LETTER.

On the Occasion of the Closing of the Year

The Bishop of the Diocese of Elmira, in his annual letter to the clergy, has addressed the following words to them: "I have the honor to acknowledge the receipt of your letter of the 10th inst., and to thank you for the interest which you have manifested in the welfare of the diocese. I am glad to hear that you are all engaged in the work of the Lord, and that you are striving to bring about a more general revival of religion in our country. I trust that you will continue to be faithful to your duty, and that you will be able to bring about a more general revival of religion in our country."

JUST NOW IT WAS DONE

THE CASE OF THE LATE

The case of the late [Name], which has been the subject of much discussion, has now been decided. The court has ruled in favor of the plaintiff, and has awarded him a sum of money. The decision is based on the fact that the defendant had acted in a wrongful manner, and that the plaintiff had suffered a loss as a result of the defendant's actions. The court's decision is a landmark one, and is expected to have a significant impact on the law.

WOLLYN SPEAKS.

An Important Comment

Mr. Wollyn, in his recent address to the [Organization], has made an important comment on the current state of affairs. He has pointed out the need for a more unified approach to the problem at hand, and has urged the members of the organization to work together in a more effective manner. His comments are well received, and are expected to lead to a more successful outcome for the organization.

THE JONES SCALE WORKS.

JONES OF BINGHAMTON.

Binghamton, N. Y., May 27, 1887.

DEAR SIR: It rarely happens in the history of any advertiser's experience with any one paper that he can say frankly, and without hesitation, that such a paper is the best, and for this reason it affords us greater pleasure to say most emphatically, that we had during the year 1886 no one paper which brought us so many returns of so much actual business as THE AMERICAN RURAL HOME. Our experience has been considerable, and we do not feel more indebted to any one than to you. We seldom if ever feel called upon to give an unsolicited testimonial, but we feel in renewing our contract with you it is due to THE AMERICAN RURAL HOME to say what we have. Wishing you the best of success, we are

Yours truly,
JONES OF BINGHAMTON.

KEMP & BURPEE MANUFACTURING CO.

KEMP'S MANURE SPREADER, PULVERIZER, AND CART COMBINED.

Syracuse, N. Y., May 18, 1887.

DEAR SIR: If advertisers want inquiry for their goods especially in the agricultural line we commend THE AMERICAN RURAL HOME on the strength of our experience with it this spring, it having turned in an unprecedented number of inquiries, the largest we ever had from any one paper in response to our advertisement this spring. We have been surprised at the large returns, which exceeded our expectations.

Yours truly,
KEMP & BURPEE MFG. CO.

WORLD'S DISPENSARY AND INVALIDS' HOTEL.

Buffalo, N. Y., May 16, 1887.

GENTLEMEN: We have always regarded THE AMERICAN RURAL HOME as an excellent medium for advertising. Circulating as it does among a class of people who read such publications thoroughly, and being ably edited, gives it a value as an advertising medium not possessed by many of the more cheaply-gotten-up papers with which the country is flooded. Yours truly,

WORLD'S DISPENSARY MEDICAL ASSOCIATION,
R. V. PIERCE, President.

OFFICE OF OBORN BROTHERS.

MANUFACTURERS OF THE ECLIPSE, TRIUMPH AND VICTOR HAY CARRIERS.

Marion, O., May 21, 1887.

GENTLEMEN: We can cheerfully say that THE AMERICAN RURAL HOME stands at the head for inquiries, also for cash returns. We have adopted a system that we can credit each paper that we advertise in with inquiries from it, and we find that THE AMERICAN RURAL HOME stands as one of the very best for responses, and we can recommend it to all manufacturing firms as one of the best mediums to get their implements before the public. A trial will convince any one that its results for the money expended will have no equal. Yours respectfully,

OBORN BROS.

PAID CIRCULATION, 30,000

There is a good reason for the fact that no well *posted* advertiser in agricultural papers thinks of omitting the *Wisconsin Agriculturist* from a general list of mediums. It has a strictly

PAID CIRCULATION

In the first place; and, in the second place, the quality of its circulation is probably higher than that of any other agricultural paper now published. During the past two years its large and efficient corps of solicitors has attended every important farmer's institute, convention and fair in the west, and in this way over ten thousand new subscribers have been added to its lists. Such subscribers are payers and buyers, and that is why the *Wisconsin Agriculturist* pays advertisers better than most papers.

ESTABLISHED 1811.

OHIO STATE JOURNAL

COLUMBUS, OHIO.

Sworn Circulation for Twelve Months of 1888:

DAILY Average, 11,981

WEEKLY Average, 19,436

Following are a few of the foundation stones of belief in the efficacy of judicious advertising in the DAILY and WEEKLY OHIO STATE JOURNAL:

Columbus has a population of over 100,000. The city is located in the center of the third State of the Union. Reach out 150 miles in every direction and you find people, PEOPLE, PEOPLE, millions of them. You also find as rich a territory, in its natural products, as exists on the earth. Columbus herself is the second richest city, *per capita*, in the Union. She has fourteen lines of railroads that dive out into a royal domain in every direction. Not an early morning train leaves Columbus that does not carry the DAILY OHIO STATE JOURNAL. This paper has been continuously published at this point since 1811. The DAILY is a 56, and the WEEKLY a 64-column quarto, each as handsome as a picture. Within a radius of 100 miles you will find it in every city, village and hamlet. It is needless to add that the people know, respect and read it. Where the DAILY cannot reach, the WEEKLY STATE JOURNAL is certain to be found. It is a magnificent family paper, edited with special reference to the requirements of the American country home, and its like is not published in America. On the green earth, there is no publication that reaches as many families in Central, Southeastern and Northwestern Ohio as the DAILY and WEEKLY STATE JOURNAL. We will back this statement with a 50,000 line contract.

If any man desires to bring his business before the people of Ohio, manifestly the best thing he can do is to close a contract with the OHIO STATE JOURNAL. Don't fritter your advertising appropriation away; put it where, with a generous and *bona fide* circulation, you get also character and influence. Address,

THE GREAT PIONEER FAMILY PAPER
THE 6
SATURDAY EVENING POST
 FOUNDED, A.D. 1821

THE OLDEST AND BEST

The Saturday Evening Post, of Philadelphia, enjoys the proud distinction of being the oldest family and literary paper in America, if not in the world. Originally established by Benjamin Franklin in 1723 and appearing in its present character in 1891, it has had an uninter-rupted career of 161 years! The history of The Post is the history of American literature and authorship. Not a single novel so prominent and important as of the Revolution made its way to the public eye without the words have not adorned its pages. It is no wonder then that The Post claims the right to add to the story of being the oldest family paper, the even more honorable title of also being the best. Most enterprising in what was the highest, finest, most distinguished, in a word the best, of its kind, it has never been kept free from the describing and painting the picture characterizes many other so-called literary and family papers. It gives more for the money, and of a better class, than any other publication in the world. To the people everywhere it will prove the best, most instructive, reliable and useful paper that ever entered their homes.

The Post has no per capita advance. It has no per capita advance. The Post has no per capita advance and has a large and rapidly increasing national circulation, making it a valuable medium for advertisers.

This Interests YOU!

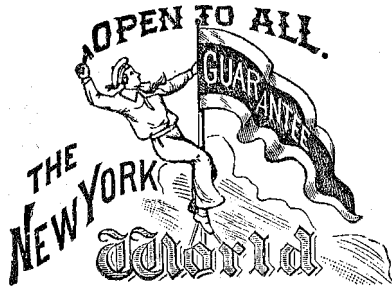

The subject of newspaper circulations was touched upon by George P. Rowell the widely-known Advertising Agent, in his address at the banquet tendered the American Newspaper Publishers' Association at the Hoffman House, Feb. 14. Mr. Rowell said:—

"No other article is so frequently bought and sold as the daily newspaper. * * * Take the newspapers of Philadelphia. There is one newspaper there, and I don't suppose that it would occur to you as first, second or third in importance, that yesterday showed me indisputable proofs of having an average daily circulation of 154,000. There are two newspapers in Boston having each an average daily circulation of over 125,000. *There is one paper in this city (New York) which this week has given proofs that I am forced to accept of having a circulation for its Sunday edition of over 260,000 copies.* The great wonder is, not how so many papers are sold, but how so many of them can be got out."

"What New York paper did you refer to in the above remarks?" Mr. Rowell was asked by a WORLD reporter the next day.

"I meant the SUNDAY WORLD," he replied.

CIRCULATION BOOKS

GUARANTEES

That the bona-fide average circulation of the SUNDAY WORLD for 1888 was **260,326** copies, and that this was over **TWO AND A HALF TIMES** the circulation of the New York Sunday Herald, more than **DOUBLE** that of the New York Sunday Sun, and more than 50,000 in excess of the New York Sunday Herald, Tribune and Times combined—*And to refund all moneys paid for advertising if, upon proper test, the above statement is not verified.*

10,709,520

 This was the number of copies of **THE WORLD** printed during the month of March, as certified to by three leading bankers (W. A. Camp, O. D. Baldwin, and Thos. L. James), who made the investigation at the request of prominent advertisers.

"LOCALITY" NOT A BAR.

ADVERTISERS have a tendency not to advertise in some one given journal on the plea that it is "merely a local publication," and can do nothing for advertisers in other than the local market.

The American Architect and Building News

Is not in any sense "merely a local publication;" it is on the contrary "National," in the fullest sense of the word; but even if it were local, the absurdity of the plea, in its case, is shown by the fact that in Boston fifty architects' offices alone did during the year 1888 work in the following towns *outside* of the State of Massachusetts.

Is it supposable that the material for all these buildings was supplied from the Boston Market? Or that Boston architects do not need to know advertisers in other places than Boston?

WHAT OUR WESTERN CUSTOMERS SAY.

SALES WIDELY SCATTERED.

"The results of advertising in the FARM AND HOME has proved **very satisfactory** to us. A noticeable feature is, **our sales through your medium have been widely scattered** throughout the country."—ASPINWALL MANUFACTURING CO., Three Rivers, Wisconsin.

IN THE FRONT RANK.

"We are pleased to say that our advertisement in the FARM AND HOME has been satisfactory to us. The best evidence of this is the fact that we have included the paper in our list for 1889, notwithstanding we have found it desirable to drop out several of our old list. We have retained on our agriculturist list, for 1889, all of **the best paying papers**, and we consider **yours to be in the front rank**."—J. W. PENFIELD & SON, Willoughby, O.

PAYS A LARGE PREMIUM.

"We regard the FARM AND HOME as one of the very best advertising mediums, and we know of **no paper published that will pay a larger premium on the money invested** in its advertising columns."—CHALLENGE WINDMILL AND FEED-MILK COMPANY, Batavia, Illinois.

STANDS IN THE FRONT.

"The results of our advertising in the FARM AND HOME has been satisfactory. This is shown by the fact that we continue our advertisement with you from year to year. By comparing our list of inquiries we notice that your paper stands in the front."—FOOS MANUFACTURING COMPANY, Springfield, O.

EQUAL TO ANY.

"I am advertising in **eighteen of the leading agricultural papers** in the country, and consider yours equally as good as any of them, if not the best on my list. **If I only advertised in one paper, would take yours**."—O. E. THOMPSON, Ypsilanti, Michigan.

GOOD RESULTS.

"Our advertisement of seeds in FARM AND HOME gave us **good results**, and we expect to be with you again."—SPRINGFIELD SEED CO., Springfield, O.

REACHES A CLASS WHO BUY GOODS.

"We consider the FARM AND HOME a **first-class advertising medium** even at your prices. The class of readers are such that numbers count, that is, **your circulation too**, appears to be among a class of people **most of whom buy goods**."—MCMULLEN WIRE FENCE CO., Chicago, Illinois.

FRUITFUL INQUIRIES.

"Our advertisement in your FARM AND HOME of our Lefel's Iron Wind Mill has called forth a greater number of **fruitful inquiries** than any other paper representing us."—SPRINGFIELD MACHINE COMPANY, Springfield, Ohio.

STANDS AT THE HEAD.

"Of all papers we have used this season, FARM AND HOME **stands at the head**, both as to number of inquiries and actual business resulting therefrom."—SMALLEY MANUFACTURING CO., Manitowoc, Wisconsin.

WHAT OUR EASTERN ADVERTISERS SAY.

SECOND IN A LIST OF 26 PAPERS.

"We keep careful account of the number of inquiries we receive from each paper, and so far this fall, FARM AND HOME stands **second in a list of twenty-six papers** we are now using. We like your paper and recommend it to anyone having farm implements to sell."—THE EDWARD HARRISON MILL COMPANY, New Haven, Connecticut.

ALWAYS PAID WELL.

"I and my predecessors have used the columns of FARM AND HOME for a **number of years**. It has **always paid well** and stands on my list near the head. Indeed it is **one of the most valuable mediums** for advertising that I have employed."—DUANE H. NASH, (Acme Harrow), Millington, N. J.

EVERY CENT A GOOD INVESTMENT.

"Among the advertising mediums we use there are few whose **actual returns are greater than FARM AND HOME**, and still fewer which can show **as high a percentage of profit in the investment**. While advertising in FARM AND HOME costs money, we consider **every cent a good investment**."—JONES, OF BINGHAMTON, Binghamton, New York.

ONE OF THE BEST.

"We have kept very strict account of the sales which we have made resulting from our advertising. Many papers which we have used have been worthless, and we have for the last two or three years been sorting out the best papers and using them only. This year we have gotten down to **one-half dozen papers—the best**, we believe in the country—and **one of the number is your FARM AND HOME**. The reason that we have selected these papers is not that the price of advertising in them is cheap, but on the contrary, we believe the papers we are using cost us more than many others which we have formerly

used; but it is our opinion that they reach the **better class of customers** throughout the Union."—A. W. STEVENS' SONS, Auburn, New York.

SEVERAL THOUSAND CREDITS.

"We keep a strict account of all the letters and postals received that mention the papers they saw the advertisement in. The FARM AND HOME has **several thousand marks** placed to its credit during the past two years."—WILSON BROS., Easton, Pennsylvania.

SURPRISING RESULTS.

"THE FARM AND HOME we believe from our experience to be **one of the very best advertising mediums** in this country. We have used its columns **very extensively** the past four or five years, and the general results obtained from it have **surprised us**, from the fact of the **broad extent of country** that has been reached through your medium. **No one will make a mistake who uses your columns**."—HIGGANUM MFG CORPORATION, Higganum, Connecticut.

ONE OF THE BEST.

"Considering FARM AND HOME **one of the best mediums** in the country, we have, for a few years back, used its columns to quite an extent, with **perfect satisfaction**."—BRADLEY & COMPANY, Syracuse, New York.

FIRST ON THE LIST.

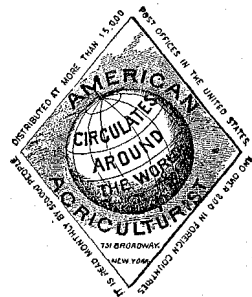

"We advertise extensively and keep a close watch on results, and we **most decidedly rank FARM AND HOME first on the list** of paying mediums. Through the FARM AND HOME I have **sold goods in nearly every State** in the Union. I also find, judging from correspondence, that it **reaches a class of readers who are ready to buy** and who keep fully abreast of the times."—A. F. SWAN, "Standard Roofing," New York.

The **FRANCO-CALIFORNIEN, COURRIER DE SAN FRANCISCO**, is the only daily French newspaper on the Pacific Coast. It is, next to the *Alta California*, the oldest paper in California, and the natural organ, not only of the French population, but also of all the different nationalities speaking the French language. It is the official paper of the French government on this Coast. Its influence, Politically and Commercially, is recognized by all. It is a sound and wholesome publication, and circulates among all classes of our population. It is one of the best advertising mediums on the Pacific Coast.

THE DAILY AND WEEKLY DISPATCH

RICHMOND, VIRGINIA.

THE DISPATCH COMPANY, PUBLISHERS.

Advertisers will find that THE DISPATCH is incomparably the best medium in Virginia for reaching buyers amongst merchants, manufacturers, farmers, mechanics, miners, railroad companies, colleges, schools, ministers, lawyers, physicians, State, town and county officials, and all classes of our people. It is the leading Democratic newspaper. It is published at the capital of the State, which has a population of 81,031; Manchester (on the opposite side of the river) has 8,000, and Richmond's suburbs 6,000--total 95,032. Six railroads center here, two of which control over 6,000 miles of railroads. Its 729 manufactories have an invested capital of \$12,744,885, employ 19,737 workmen, and sold in 1888, \$23,851,441 of products. The jobbing trade of Richmond in 1888 amounted to \$27,465,000. The whole of Virginia is prospering, and is an attractive field for advertisers. Within ten years one and a half million acres have been added to the area under cultivation, making over twenty million acres of farming land in use, while the increase in staple farm products has been greater than the increase in acreage. There are over 4,200 miles of railroad in our territory, and there are now 600 miles more under construction. New towns, villages, furnaces, factories and mills have sprung up on these great highways of trade. The value of Virginia manufactures increased from \$51,619,692 in 1880 to \$120,610,507 in 1888. Our Foreign and Inter-State commerce has quadrupled in the past fifteen years.

THE DAILY DISPATCH has a circulation double the combined circulation of all the other daily newspapers of the city. Outside of Richmond its circulation is larger than any daily newspaper in the State. It is served by news-dealers and carriers in all the principal towns and on railroad passenger trains in Virginia and North Carolina. THE WEEKLY DISPATCH more thoroughly covers all the counties of the State than any newspaper published in Virginia. SWORN STATEMENTS OF THE CIRCULATION OF THE DAILY AND WEEKLY DISPATCH WILL BE FURNISHED ADVERTISERS. They will thus know how much they get for what they pay.

New York, September 1st, 1889.

GENTLEMEN:

The above papers, published in all of the principal central cities of the United States, (Detroit, Cleveland, Pittsburgh, Cincinnati, St. Louis and Indianapolis,) have a combined daily guaranteed circulation of over 200,000.

"Detroit Evening News," circulates in every part of the State an average of 46,000 copies every day. Sells for two cents. The number of readers in Michigan who do not read the "News" is very small. The "Sunday News" has 39,000

"Pittsburgh Chronicle Telegraph," issues every afternoon and weekly. Daily sells for two cents, and Weekly for one dollar a year. Established in 1841. Enjoys the prestige of both the United and Associated Press reports; has 22,000 daily, and 27,000 weekly. It is one of the substantial papers of the country.

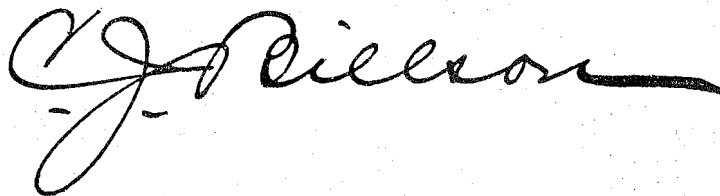

"The Cincinnati Evening Post,"—A wonder in modern Journalism. Sells for one cent and circulates over 56,000 copies each afternoon in Cincinnati and surrounding towns, within a radius of 150 miles.

"The Cleveland Press," the oldest one-cent paper in the country west of Philadelphia, with but one exception. The only exclusive afternoon paper in Cleveland. Circulation 40,000 every day.

"The St. Louis Evening Chronicle," the only one-cent paper in St. Louis Has 27,000 actual daily circulation, and is growing every day.

"The Indianapolis Sun," the only one-cent paper in Indiana, only established in March, 1888, but already it is one of the principal papers of the State.

Very truly yours,

Popular Gardening AND Fruit Growing

The worth of POPULAR GARDENING and FRUIT GROWING to advertisers is based on the fact that it goes to the well-to-do classes who believe in having, and are able to have complete homes surrounded with the luxuries of horticulture, such as fine fruits, flowers and plants, lawns, trees and vegetables in abundance, in common with all improvements that yield comfort and pleasure. The fact should be impressed that it is **strictly a paper for the people and for all people**, not a trade or class journal.

That the enterprise of the present journal which has **bought out and terminated** no less than **seven** similar ones, yet keeps the price for reaching those identical readers, beside a very large increase, considerably below one-half the former aggregate price, is esteemed by advertisers is apparent from the continued enlargement of this department.

RATES FOR ADVERTISING SPACE:

FORTY cents per agate line each insertion. 100 lines \$38; 250 lines \$90; 500 lines \$165; 750 lines \$225; 1000 \$370; one-half page at one time, \$78; full page at one time, \$140. Specified positions 25 per cent. advance on above terms. No reading notices. No advertisement inserted for less than \$1.50 net. Advertisers buying space at the 100 line and upward rates are allowed one year from the date of order in which to use the same.

The CALL continues, as in the past, at the head of all San Francisco newspapers.

That the MORNING CALL is beyond question The Family Newspaper of San Francisco is best attested by the many letters in our possession from the leading firms of San Francisco. We append a few. They speak for themselves:

J. J. O'BRIEN & CO.,

DRY GOODS IMPORTERS.

SAN FRANCISCO, Sept. 1888.

Having been a continuous advertiser in the MORNING CALL for the past twenty odd years, we beg to state that we have at all times considered it the best medium used by us for advertising purposes. Result and observation satisfy us that it circulates in the home circles to a greater degree than any other newspaper printed on the Pacific Coast. This is so confirmed that we rely almost wholly upon its columns for whatever part of our success in business is dependent upon newspaper advertising. At the present time we are using its columns to the extent of \$30,000 per year.

J. J. O'BRIEN & Co.

M. J. FLAVIN & CO.,

THE I. X. L. STORES.

SAN FRANCISCO, Sept. 1888.

We take pleasure in stating that the MORNING CALL is one of the best advertising mediums on the Pacific Coast, if not the best. The above facts we prove

practically when we state that we hardly believe that we have been out of that paper three consecutive days in seventeen years.

M. J. FLAVIN & Co.

KEANE BROS.,

DRY GOODS IMPORTERS.

SAN FRANCISCO, Sept. 1888.

Having used the columns of the MORNING CALL very extensively for a number of years past, we desire to testify to its effectiveness as an advertising medium. Its general circulation among the public, and principally in the homes of all classes, commends it to all judicious advertisers.

KEANE BROS.

CITY OF PARIS,

DRY GOODS EMPORIUM.

SAN FRANCISCO, Sept. 1888.

We desire to state that for many years we have used the columns of the MORNING CALL as a medium to reach the homes of all classes in the community. We value it as one of, if not the very best advertising mediums in California.

READ WHAT A FEW WELL KNOWN ADVERTISERS HAVE TO SAY ABOUT THE

NEW YORK WEEKLY WITNESS

BINGHAMTON, N. Y., June 11, 1889.

THE WITNESS, NEW YORK CITY—

Dear Sirs: We have advertised the Jones Scale for twenty-five years and a large business has been built by constant appeals to the public through the press. A subscriber generally takes a newspaper for the reason that he believes in the doctrines therein taught. He places confidence in its advertisements in the ratio of deserving as developed by the class admitted to its columns. The great success of the Jones Scale is due to the fact that we have the confidence of the people, and the religious press has been our best medium through which to gain that confidence, and we rate the WITNESS as second to none.

Yours truly,
JONES OF BINGHAMTON,
Ed. F. JONES, Pres.

New York, July 12, 1888.

NEW YORK WEEKLY WITNESS—

Gentlemen: We have used the columns of the WITNESS for many years, and we consider it one of the best mediums to reach the women. We commend your paper very highly to all advertisers that wish to reach the women-folk. Truly yours, GREAT AMERICAN TEA CO.

Boston, July 25, 1888.

Messrs. JOHN DOUGALL & Co.—

Gentlemen: We have advertised in the WITNESS off and on for a number of years. I think it a good medium, and reaches a desirable class of customers. The Book says: "In her left hand riches and honor." Certain it is that Christian and temperance people who read religious papers are, as a rule, prudent and thrifty, and have money to buy necessities and luxuries.

ELIJAH A. MORSE,
Proprietor Rising Sun Stove Polish.

BURLINGTON, Vt., July 23, 1888.

WITNESS, NEW YORK:—

We have goods for the homes of America, and we find we can get a good introduction into the homes by using the WITNESS. That is why we advertise in it.

Yours truly, WELLS & RICHARDSON CO.

Boston, July 26, 1888.

JOHN DOUGALL & Co.—

Gentlemen: We have a good opinion of the WITNESS, else we should not have so long advertised in it.

Yours truly,
OLIVER DITSON CO.
N. B.—This firm has advertised in the WITNESS for fifteen years, without a week's break.

PHILADELPHIA, PA., April 27, 1889.

THE NEW YORK WEEKLY WITNESS—

Dear Sirs: We know the WITNESS to be a very valuable advertising medium, and one that has always paid us well.

Very truly yours,
CHARLES F. HIRES,
Manufacturer Hires' Root Beer.

PHILADELPHIA, July 21, 1888.

JOHN DOUGALL & Co.—

Gentlemen: Our advertisement in the WITNESS appeals to an intelligent constituency who have not been slow to appreciate the merits of our methods of medical treatment.

Yours truly,
STARKEY & PALEN.

Boston, July 25, 1888.

We have found the WITNESS an eminently suitable medium for the introduction of our books and periodicals, which are largely intended for the young. It seems to reach the family people of the right class, who are desirous of obtaining what is good for their children.

D. LOTHROP COMPANY.

Lowell, Mass., July 24, 1888.

PUBLISHER WITNESS, NEW YORK—

Dear Sir: Our business being general and our goods sold by dealers in every village in the country, it is impossible for us to trace the results realized from any medium. We believe if we could do so, the returns from the WITNESS would be highly satisfactory; that is why we continue to patronize your columns.

Very truly yours,

MESSRS. PALMER & REY,
PACIFIC STATES ADVERTISING BUREAU,
TRIBUNE BUILDING, N. Y.

Gentlemen:—It gives us pleasure to say that we regard the Pacific Coast Daily and Weekly Newspapers of your list, as excellent advertising mediums. It would be difficult to see how the Pacific Coast could be well covered without resort to your list, and we may also add, that we have had occasion to send you but very few, if any, complaints, and our orders have been executed by you to our entire satisfaction.

Very respectfully yours,

THE CHARLES A. VOGELER CO.
SANDLOSS.

ROCHESTER, N. Y., May, 1887.

MESSRS. PALMER & REY.

Gentlemen:—A year ago we made a contract with you for carrying our business in all the papers on the Coast with which we were not then doing business. We feel the impetus good advertising does in good papers, and are satisfied that your list and your patents, are papers indispensable to the general or continental advertiser, who wishes to cover the coast territory cheaply and effectively.

Yours truly,

H. H. WARNER & CO.

PHILADELPHIA, PA., May 25, 1887.

MESSRS. PALMER & REY.

Gentlemen:—As to the value of the Pacific Coast Daily and Weekly Newspapers represented by you, having tested the same by advertising therein for the past two years, we have found them paying mediums, and in our opinion they fairly cover the field.

Very truly yours,

J. H. ZEILIN & CO.

BUFFALO, N. Y., May 26, 1887.

MESSRS. PALMER & REY.

Gentlemen:—The simple fact that we patronize your papers, in our opinion, is the best evidence that we consider them good.

Yours truly,

R. V. PIERCE.

ASK YOURSELF NOT "CAN I AFFORD TO ADVERTISE," BUT

CAN I AFFORD
NOT
TO ADVERTISE
IN THE
LOTHROP
MAGAZINES?

If you have something to advertise—
An article of interest or value to the family in general or its individual members, young or old—be sure to place the

LOTHROP MAGAZINES

on your list when making contracts or asking estimates.
Each Magazine has its distinctive features and separate field. Specially favorable rates will be made for two or more in combination.

All the magazines are essentially Family Magazines. We desire to impress on the minds of advertisers the value of BABYLAND and THE PANSY in particular, as advertising mediums; and OUR LITTLE MEN AND WOMEN and CHAUTAUQUA YOUNG FOLKS' JOURNAL only in a lesser degree proportionate to a somewhat smaller circulation—this latter being reasonably met in the adjustment of the advertising rates.

The Lothrop Magazines:

WIDE AWAKE.....\$2.40 a year.
BABYLAND.....50 cents a year.
THE PANSY.....\$1.00 a year.
OUR LITTLE MEN AND
WOMEN.....\$1.00 a year.
CHAUTAUQUA YOUNG FOLKS'
JOURNAL.....\$1.00 a year.

Each Magazine has broad, open pages, wide columns, and the advertisements are well displayed.

Remember, these Magazines are in every way desirable for your advertising,

LARGE CIRCULATION, LOW RATES,

and universally acknowledged to be the *BEST MAGAZINES PUBLISHED* for young people and the family.

Two hundred lines, nonpareil, to each advertising page (3 columns).

NEW HAMPSHIRE'S METROPOLIS.

Manchester is the Metropolis of New Hampshire. In population, wealth and business it is more than one-eighth of the entire State. It has more people, push and perseverance than several of the ten counties of the State. Its business enterprises are prosperous to a remarkable degree. Its wage workers earn more than nine million dollars a year, and spend their earnings freely and intelligently. Its mills make 341 miles of cloth every day, and its shops turn out locomotives and other machines that have a reputation as wide as the country. Its leading newspapers were established in 1850, and ever since have been issued from the MIRROR office.

THE MIRROR AND FARMER**MANCHESTER, NEW HAMPSHIRE.****JOHN B. CLARKE, Editor and Proprietor.**

Has more readers and more influence than any other Family and Farm Journal ever printed in New England. Its subscribers live in every State and Territory, and are mainly prosperous, progressive agriculturists, whose patronage it holds by giving them the best. Its Dairy Department reflects the best work and thought of the best makers of gilt-edged butter and fine cheese. Its Poultry Department has never been matched. Its Horse Department is authority among breeders and owners throughout New England, and its Veterinary column is always reliable.

PROFESSOR J. W. SANBORN, DEAN OF THE MISSOURI AGRICULTURAL COLLEGE, WRITES EXCLUSIVELY FOR IT, AND OTHER WRITERS OF NATIONAL REPUTATION ARE CONSTANTLY EMPLOYED TO KEEP IT AT THE FRONT AS AN EXPONENT OF SUCCESSFUL FARMING.

THE DAILY MIRROR AND AMERICAN

Mirrors the industrious, ambitious, substantial and rapidly-growing city in which it is published. It is the organ of the brain and brawn, of the muscle and nerve, that keeps things humming about Amoskeag Falls. It has a large circulation, and its patrons read it from top to bottom and believe in it.

Advertising rates in both these papers are, in proportion to their circulation and influence, extremely low.

N. W. AYER & SON, Newspaper Advertising Agents, Times Building, Philadelphia.

BUFFALO NEWS**BUFFALO, NEW YORK.****CIRCULATION, 41,131 DAILY.**

The undersigned, as a Committee, on invitation of Mr. J. A. BUTLER, Business Manager of THE BUFFALO EVENING NEWS, have investigated the circulation of THE BUFFALO EVENING NEWS for the period of one year, viz.: 1888, and during the month of January, 1889. The examination, which covered a period of five days, was made as follows:

By taking three months of the Committee's own selecting—August, October and December, 1888—the cash for these three months shows a Daily paid circulation of **41,131** Copies. The working boards show a mailing and Daily circulation list of **41,882**. While the amount of paper furnished THE NEWS, after deducting ten per cent. for waste, would show a Daily Circulation of **42,284**.

The conclusions of this Committee, therefore, are: That the Circulation of THE NEWS is between **41,000** and **42,000**, and the Daily paid circulation for the thirteen months covered by this investigation was **41,131**.

To all of which this Committee unanimously agree.

ALLEN'S LISTS.

Indorsed by more than 95 per cent. of all leading advertisers, as standing at the head of the front rank, of America's advertising mediums.

FACT! The periodicals of Allen's Lists reach the homes of the better classes of the masses by mail; they are wanted, are subscribed for, are paid for, and are thought much of.

FACT! The gilt-edged monthlies are always liberally patronized by the shrewdest advertisers, who, by experience, know their value.

FACT! Each month I guarantee to print and circulate over - 1,000,000 Copies.
The borrowing demand for my periodicals is known to be large, and for each month doubtless exceeds - 250,000 Copies.
Total number of families reached by Allen's Lists each month, over - 1,250,000
Should less than 1,000,000 copies be printed and circulated in any month, I will make a discount in exact proportion, to each advertiser.

Affidavit of Circulation of all Issues Furnished Each Advertiser Monthly.

FACT! Allen's Lists guarantee, and prove up, over 1,000,000 circulation every month. In this connection it will be well to remember, that as a rule, 100,000 *proved circulation is worth more than 500,000 claimed.*

FACT! I wish to notify my friends that the advertising space in Allen's Lists overflows every month, and that those who delay until the last moment generally get left. My own necessities and interests require several columns of advertising space for my own use, for the simple reason that I am able to reap a larger profit per line, or per column, for, and to the extent of that amount of space, than I charge advertisers. Some of my ads. pay me a profit, from my own lists, of from \$10 to \$20 per agate line. I am careful not to compete with my advertisers, and it will be noticed that I rarely ever advertise the same lines that they do; I never intend to.

FACT! I base my entire claim to the grand advertising patronage which I receive, on *results to the advertiser.*

FACT! Many advertisers lose the money made from worthy mediums, through patronizing worthless ones. Shrewd advertisers select their advertising mediums with the greatest care, knowing that failure will result if the selection is not judicious.

FACT! Millions of dollars are thrown away every year on worthless advertising mediums. Shrewd advertisers know, that as a rule, 100,000 circulation proved is worth more than 500,000 claimed.

FACT! Every advertiser who receives returns by mail, would profit by including in his address a separate post-office box or street number for every medium in which he advertised; this would teach that three-fourths of even very carefully selected advertising mediums are worse than worthless, and that one-fourth have to carry the whole. Many advertisers who now find it difficult to make a profit, can make **BIG MONEY**, if they will sort out the wheat from the chaff. Allen's Lists court the system indicated above, and for actual tests the proprietor will **back them for big money against the world, or field.**

FACT! The periodicals of Allen's Lists are carefully edited, and have a large galaxy of able contributors; they are highly esteemed by the better classes of the masses, are preserved in their homes and loaned to their neighbors. At my rates, such circulation always pays its advertising patrons. Allen's Lists pay, in season and out of season, and in numerous cases have been known to give a handsome profit, from ads. so weak, that dead failures resulted from other mediums that are regarded as gilt-edged, and that really are gilt-edged. Allen's Lists out-pull them all; that is the general verdict.

Detroit Journal

DETROIT, MICHIGAN.

Issued every afternoon except Sunday. Three editions daily. Four pages except Saturdays, 8 pages on Saturday. Eight columns to the page, width of column 12 cns pica, length 21 1/2 inches.

The DETROIT JOURNAL has just divided \$5,907.09 between the 21 Detroit Charities, making \$281.28 for each, (the net results of the 4 days Charity Floral Exhibition which it organized and recently conducted.) Not satisfied with its first success, it is already planning for another and much greater affair for 1890.

This report, in which we take considerable pride, illustrates the standing, strength and following the DETROIT JOURNAL has in the city and state where it is best known.

The other Detroit daily papers practically ignored our recent enterprise, so that the success was wholly our own.

One of the days, April 4, there were over 11,000 people in the building, and at 8.15 P. M., when the doors were ordered closed, there were about 3,000 waiting to get in.

What better proof is needed of its value as an advertising medium?

We have now a guaranteed circulation of **sixty thousand**, twenty-nine thousand of which are yearly subscribers. THE REVIEW goes among the best reading people of the United States, having a large circulation among lawyers, the clergy, bankers, and the wealthy class generally. It reaches the most desirable class for the advertiser. It has a larger circulation than all the Reviews printed in the English language combined. It possesses high character, immense circulation and great influence. It is not intended for any exclusive class, but for all who wish to keep abreast of the times. It contains none but the most brilliant and attractive literary matter. The entire United States are being canvassed for subscriptions in sections, and the result is so encouraging that we can safely announce that our circulation will reach the enormous figure of **One Hundred Thousand** by the end of the year. Our advertising rates are much cheaper than any other publication with the same circulation in the United States. We will be glad to show to any one our circulation by Post Office receipts, stating that we have at least Twenty-nine Thousand Copies to go in single wrappers each month through the Post Office.

THE CINCINNATI COMMERCIAL GAZETTE

STANDS IN THE FRONT RANK OF AMERICAN NEWSPAPERS.

While the DAILY COMMERCIAL GAZETTE enjoys the largest circulation among the best classes within the limits of Cincinnati, the constituency of the paper throughout the surrounding states is most important. There are over one thousand regular carriers for the COMMERCIAL GAZETTE, who deliver the paper daily in large numbers to its readers in the splendid galaxy of thriving cities and towns within the territory tributary to Cincinnati.

THE WEEKLY GAZETTE

The weekly edition of the COMMERCIAL GAZETTE is one of the oldest and most widely circulated family and farm papers in the West. It carries all the news of the week to nearly one hundred thousand rural homes, and is in every sense a family paper. Over three thousand Club Agents, by personal effort among the people, at their homes, on their farms, and in their shops, maintain this large subscription list.

The Advertising Rates for both Daily and Weekly are low, extent and character of circulation considered.

For the best class of advertisements (and no others are admitted to its columns) the quality of its circulation is unsurpassed. It has a reading and buying constituency.

Its weekly edition is between **8,000** and **10,000** copies, and its Subscription Books are at all times open to the inspection of present or would-be advertisers.

It claims the credit of being, at least one of, the best printed of the Religious Weeklies, and its advertisements are particularly well presented.

THE SOUTHERN MERCURY.

TEXAS FARMERS ALLIANCE ADVOCATE.

ISSUED EVERY THURSDAY AT

DALLAS, TEXAS, U. S. A.

CIRCULATION, 30,000.

There are now over 7,000 lodges of the Farmers' Alliance in Texas, with a membership of over 250,000, composed of farmers, mechanics, teachers, ministers and physicians, and THE MERCURY, being the official journal of the Farmers' Alliance of Texas, and the National Farmers' Alliance of America, goes officially to these lodges and is extensively read by the membership, who patronize those who patronize their co-operative paper, thus making it a valuable advertising medium.

Texas is the largest State in the Union. Dallas is the largest city in the largest State in the Union. Texas is almost wholly an agricultural State. To reach the agriculturists—farmers—THE SOUTHERN MERCURY is the medium: 1st. Because it has a larger guaranteed circulation than any other paper in Texas. 2d. Because it is read almost exclusively by farmers at their homes. 3d. Because it is constantly increasing in circulation. 4th. Because the facts set forth above are true and can be substantiated. Address, for sample copies,

E. S. THAYER, Manager, "The Southern Mercury," Dallas, Texas, U. S. A.

WE GUARANTEE CIRCULATION OR ASK NO PAY.

WE GUARANTEE OUR ADVERTISERS TO OUR SUBSCRIBERS.

ADVERTISING RATES.

Advertisements of unexceptionable character will be inserted in regular advertising columns at 75 cents per Agate line. Reading Notices \$1.50 per line count. All reading notices set in Brevier solid and followed by the word "Advt."

SCALE OF DISCOUNTS.

3 consecutive insertions.....	5 per cent.
6 " " ".....	10 per cent.
12 " " ".....	20 per cent.

In order to accommodate advertisers who may prefer a discount for space used, we offer an alternative scale as follows:

500 lines.....	5 per cent.
1,000 ".....	10 per cent.
2,000 ".....	20 per cent.

Either one of the above scales may be taken, but under no circumstances can they be combined on the same order.

The space discount can only apply to business done within a period of twelve months from date of contract, and contracts from two or more persons cannot be combined to secure it.

We do not guarantee positions.

Solid Agate is the basis of measurement, fourteen lines to the inch. Eight words average one line. No extra charge for cuts or heavy display.

Copy must be received at least 30 days before date of issue. All advertisements are subject to approval of the publisher.

No deviation will be made from above rates under any circumstances.
