INTRODUCTION.

CIRCULATION.

Circulations for which affidavits have been furnished have been set in **bold-face** type in the Catalogue, and designated by an asterisk (*) in the County and Class Lists. Those not sworn to by publishers are marked with a double dagger (‡) throughout the book; those set in Roman figures and unmarked, represent our own estimates.

The information upon which the revision of the ANNUAL is based is gathered mainly in March of each year and the circulation ratings are in most cases believed to be the average for the three preceding months. Publishers are at liberty to amend their statements, if they desire to do so, as late as the 1st of July, at which time the revision of the book is practically closed. Advertisements on the other hand are received up to the hour of going to press and not unfrequently contain much later information than can possibly be given in the Catalogue. This will explain in many cases what would otherwise appear to be discrepancies between the statements made in the advertisements and the ratings given the papers in the book itself.

Circulation is not given in the following instances—where the paper has been established during the current year; where the information received is unsatisfactory, or the reports are conflicting; where publishers have requested omission, in which case the word “Decline” is printed in the circulation column, and where the publication is devoted exclusively, or nearly so, to advertising the business or interests of individuals, business houses or corporations. Papers of this latter class are designated in the Catalogue as “issued for advertising purposes,” and in the County and Class Lists by the letters “Adv.” in the circulation column.

Aiming at strict impartiality in this important part of our work, and desiring always to be just to publishers, in our efforts to procure accurate and trustworthy information for advertisers, we shall gladly receive communications from any who may consider themselves unfairly dealt with in the estimate placed upon the circulation of their papers, and will cheerfully correct in future editions any mistakes made in the present one, if furnished with satisfactory evidence of our error.

Papers which are believed to decline general advertising are designated in the Catalogue by the words “No Advts.” in the circulation column, and are omitted entirely from the County and Class Lists.

The political majorities and pluralities are those of the Presidential election of 1888, that being chosen as the standard in the belief that a general election affords the best evidence of the actual political proclivities of the people.

NAMES OF EDITORS AND PUBLISHERS.

Every effort has been made to have this department of the work as accurate as possible at the time of going to press; the continual changes of ownership and places of publication, however, necessarily preclude absolute accuracy.

POPULATION.

Unmarked populations in the United States are from the Federal Census of 1880, or from the State or Territorial Census of 1885. The foot notes indicate from which source the figures are derived. Canadian populations are from the Census of 1881. Populations marked with a section mark (§) are from recent estimates of State or local authorities.

THE STATE AND COUNTY HEADINGS,

an important feature of the work, subject to constant and careful revision, are of great value to advertisers of specialties, who, by carefully examining them, can readily decide which counties are likely to prove remunerative territory, and thus confine their expenditures within limits which may be expected to yield the greatest return for their outlay.

NEWSPAPER ADVERTISEMENTS.

In order to make the advertisements of greater value to publishers, in addition to the index (1121 to 1126), we have printed in the Catalogue against the name of each paper having an advertisement, the number of the page on which that advertisement appears. This will enable an advertiser to refer directly to it, without the aid of an index, and that, too, at the moment when the information it contains would be likely to interest him most. A careful examination of the advertising pages will result in the acquisition of a mass of valuable information which, for the sake of compactness and facility of reference, must necessarily be excluded from the Catalogue itself.

The revision of this book for the edition of 1890 will be commenced immediately, and publishers of newspapers will confer a favor by notifying us of the establishment, suspension, or change of any papers within their knowledge, or by calling our attention to any inaccuracies in the present edition, that may come to their notice.

N. W. AYER & SON.

Philadelphia, August 31, 1889

WITH this issue THE AMERICAN NEWSPAPER ANNUAL completes the first decade of its existence.

In 1880 it was a book of 616 pages.

In 1889 it has 1,126 pages.

In 1880 it gave the names of 10,574 Newspapers and Periodicals.

In 1889 it has 17,265.

THEN it was a list of Newspapers, *only*.

Now it is also a Gazetteer of valuable information, giving, in the equivalent of upward of sixty pages of solid agate, thousands of facts relating to the location, soil, agricultural and manufacturing products, etc., of the Counties of the United States; the latest estimates of population, and the vote cast for the candidates of each party at the late Presidential election.

THEN it was an *experiment*.

Now it is an established *success*.

The favorite with advertisers.

The most reliable in its lists of papers, and in its statements concerning them.

THE STANDARD WORK OF ITS KIND, and the only one which contains the newspaper statistics of the year in which it is issued.

WAS Newspaper Advertising a success with you last year? If not—Why not? It pays others. It ought to pay YOU ; and will—if wisely done.

NEWSPAPER ADVERTISING, *Brightly Started, Rightly Stuck To, Solidly Backed Up*, ensures business success

ABILITY—to produce Best Effect in Least Space—KNOWLEDGE—to wisely select papers—SKILL—to prepare an advertisement. *These are required in Successful Newspaper Advertising.*

THE AGENT who advises the use of papers because of personal interest in them—who gives short space—or less insertions than agreed, IS AS DISHONEST as the cashier who steals your money.

Keeping
EVERLASTINGLY AT IT
Brings Success

Bright, persistent, thoughtful Newspaper Advertising PAYS.
Other kinds may—but probably will not.

CATALOGUE

—OF—

AMERICAN NEWSPAPERS

GIVING THE PLACES IN WHICH THEY ARE PUBLISHED IN THE UNITED STATES, TERRITORIES, AND DOMINION OF CANADA, ARRANGED ALPHABETICALLY IN STATES; THE COUNTIES IN WHICH THE PLACES ARE SITUATED, AND THE POPULATION OF EACH; AND IN CONNECTION WITH THE PAPERS THE FREQUENCY OF ISSUE, POLITICS, DENOMINATION OR GENERAL CHARACTER, YEAR OF ESTABLISHMENT, SIZE, CIRCULATION, SUBSCRIPTION PRICE AND NAMES OF EDITORS AND PUBLISHERS.

Populations in the United States, if unmarked, are from the Census of 1880 or State and Territorial Census of 1885. Canadian populations are from the Census of 1881.

Those marked with a section mark (§) are from recent estimates of State or local authorities.

Circulations for which affidavits have been furnished, are printed in **bold-face** figures; those furnished by publishers, but not sworn to, are designated by a double-dagger (‡); those unmarked are estimated.

When statement of circulation is omitted, we have been unable to obtain any satisfactory information, or the paper was established during the current year, or else is issued for advertising purposes. The word "decline" indicates that the publishers have declined or objected to furnish any statement for publication.

County-seats are indicated by a dagger (†).

UNITED STATES.

Population of the United States, (1880) 50,155,783.
 Estimated Population - - - (1889) 62,000,000.

ALABAMA.

Population 1,262,505Dem. Plur. in 1888, 61,123

Colored pop. 600,103. Dem. vote, 117,320; Rep. 56,197; Prohib. 593.

STATE CAPITAL, MONTGOMERY.

There are 66 Counties in Alabama. Newspapers are published in 65.—Cities, towns and villages in which papers are published number 108, of which 63 designated by a dagger (†) are county-seats.—Of the 185 papers which insert advertisements published in the State, 15 are daily, 2 semi-weekly, 157 weekly, 2 semi-monthly, and 9 monthly.
