NORTH CAROLINA.

Population 2,059,326.

STATE CAPITAL, RALEIGH.

NORTH CAROLINA is bounded north by Virginia, east and southeast by the Atlantic Ocean, south by South Carolina and Georgia, and west by Tennessee. Its extreme length from east to west is 490 miles; extreme breadth, 185 miles; land area, 48,580 square miles. The surface is very varied. For nearly 100 miles inland from the coast the country is level, marshy, and swampy; soil sandy but very fertile. It is estimated that there are nearly 3,000,000 acres of swamps in this region. Next is the middle section, with varied surface and fine soil. The surface then rises into small hills, increasing in altitude until they reach the mountainous region in the west. Some of the peaks in the Black Mountains and the Blue Ridge attain an elevation of from 5,000 to 6,000 feet. This region contains good grazing land, with much hard timber; and stock raising is largely carried on. In the coast region the river bottoms and reclaimed swamp lands are very fertile, and here rice, cotton, corn, honey, beeswax, apples, peaches, and pears abound. The Scuppernong and Catawba grapes are native here; cranberries are extensively produced. The pine region is mainly uncultivated, but a large trade is done in timber, tar, and turpentine. Cotton is raised chiefly in the southern counties. The middle section is adapted to the growth of cereals, tobacco, and cotton; sweet potatoes are a leading staple. The principal manufactures are flour, lumber, tar, turpentine, rosin, cotton and woolen goods, tobacco, zinc (smelted and rolled), carriages, boots and shoes. The manufacture of cotton goods is very large and is constantly increasing. It exports coastwise and to foreign ports large amounts of lumber, cotton, tobacco, flour, and fish. The fisheries are very large and valuable. The State is very rich in minerals. Gold is mined to a considerable extent in Cabarrus, Mecklenburg, Lincoln, and Rowan Counties, and there is a branch of the United States Mint at Charlotte. Silver, lead, and zinc are found in association, particularly in Davidson County; silver ores mixed with lead or copper, principally in the interior counties; copper ores cover a wide field, and there is a very valuable mine in Ashe County; mica is found among the granites of Cleveland, Mitchell, and Yancey Counties; there is an abundance of corundum and many other metals, and even precious stones are found. Coal and iron are very abundant; the coal is mostly bituminous, and is contained in two fields, one in Stokes and Rockingham Counties, known as Dan River Field, the other in Chatham and Moore Counties, known as Deep River Field. The whole of the region from the navigable waters of the Roanoke and Cape Fear Rivers westward to Cherokee County contains rich beds of magnetic and hematite ores; the "Cranberry" mine, in Mitchell County, yields the purest magnetic ore yet found in the United States, producing a remarkably strong and tenacious iron.

The number of newspapers and periodicals published in North Carolina is 277, including 30 daily, 21 semi-weekly, 194 weekly, 4 fortnightly, 7 semi-monthly, 16 monthly, 1 bi-monthly and 4 quarterly. The places of publication number 159, of which 83, designated by a dagger (†), are county seats.

NORTH DAKOTA.

Population 437,070.

STATE CAPITAL, BISMARCK.

NORTH DAKOTA is bounded north by Manitoba and Saskatchewan, South by South Dakota, east by Minnesota, and west by Montana. Length, east to west, about 355 miles, width, about 200 miles. Land area about 70,195 square miles. The Missouri River furnishes navigation for boats of three to six hundred tons burden. The Red River of the North, also navigable, drains the great wheat valley on its eastern border. That portion of the State east of the Missouri River is mostly rolling prairie; the soil on the Missouri Slope being a black, sandy loam, with clay subsoil; while in the Red River Valley it is a vegetable deposit of unsurpassed richness. West of the Missouri river the land is more broken, with stretches of excellent farming and grazing lands along the line of the Northern Pacific Railroad. In the north is a group of hills of moderate elevation known as Turtle Mountain. In the southwest is a district of eroded clay hills, called the "Bad Lands," generally a good grazing region. The northern and central parts are especially adapted to the raising of wheat and other cereals, potatoes, vegetables and the earlier varieties of corn. The Red River Valley is not equalled on this continent for wheat production. The principal crops of the State are wheat, oats, barley, corn, potatoes, dairy products, butter, cheese, and wool. The rainfall is not great, but seems sufficient for ordinary years. The Missouri River and all small streams and lakes are lined with timber, and west and north of Bismarck are found inexhaustible beds of lignite coal.

The number of newspapers and periodicals published in North Dakota is 351, including 11 daily, 1 semi-weekly, 32 weekly, 1 semi-monthly and 6 monthly. The places of publication number 258, of which 46, designated by a dagger (†), are county seats.

 POPULATION: State census of 1905. * Estimated. † County Seat. ‡ Size of page.

OHIO.

Population 4,448,677.

STATE CAPITAL, COLUMBUS.

OHIO is bounded north by Michigan and Lake Erie, east by Pennsylvania and West Virginia, South by West Virginia and Kentucky, and west by Indiana; greatest length from east to west 225 miles; greatest breadth 200 miles; land area, 40,760 square miles. The general character of the surface is that of a plateau of about 800 to 1,000 feet above sea level. The most prominent feature is the great divide which separates the drainage of Lake Erie from that of the Ohio River. This passes diagonally across the State from Trumbull County in the northeast to Mercer and Darke Counties in the west. Its average height is about 600 feet above the lake; and from it the surface slopes gradually northward toward the lake and southward toward the river. The rivers and streams have excavated deep valleys, which give to the surface its distinctive undulating or rolling character. The soil is universally fertile; and Ohio holds a leading position in every branch of agriculture. The uplands are well suited to wheat, the southern slope of the watershed to grain generally, the northern slope to grazing and dairying, and the northeast section or Western Reserve especially so. The bottom lands of the Miami, Muskingum, and Scioto rivers are very rich in corn; the Western Reserve and Miami regions are famous for apples. Flax and linseed are staple products, and tobacco is largely grown in most of the southern counties. The forests have largely disappeared, but several million acres of excellent hardwood timber remain. The fishing interests of Lake Erie are important. The manufactures of the State are very numerous and valuable. Iron, pork packing, farm implements, clothing, flouring and grist mill products, lumber, malt and distilled liquors are among the most important. Coal underlies a greater part of the State; iron ore is abundant, especially in the south; salt is very largely produced from springs; petroleum is an important product, also lime and cement. Good grindstones and building stones are obtained at Amherst, Berea (Berea grit), Buena Vista, and Independence. There are excellent qualities of limestone and sandstone for building, especially at Massillon and Dayton. Marl deposits abound in the Maumee Valley and other points. There are good pottery and fire clays, the fire bricks of Mineral Point being among the best in the United States. Cleveland, Massillon, Youngstown, and the towns on the Ohio River are the chief seats of the iron manufacture, which includes pig, forged, and rolled; iron castings and sheet iron works, rails, Bessemer steel rails, etc. The discovery of natural gas in apparently inexhaustible quantities at Findlay, and many other places in the State, has given its industrial interests an additional and marked impetus. The railroad facilities are rapidly increasing, and Ohio is now a net work of well constructed and busy transportation lines.

The number of newspapers and periodicals published in Ohio is 1,151, including 170 daily, 5 tri-weekly, 49 semi-weekly, 721 weekly, 2 fortnightly, 9 semi-monthly, 1 every three weeks, 146 monthly, 6 bi-monthly and 22 quarterly. The places of publication number 419, of which 88, designated by a dagger (†), are county seats.

S'thru Cleve., Cln., Chic. & St. L.; N. Y., Chic. & St. L.; and five other railroads. Tel. Exp. Banks. Excellent harbor of refuge, and canal connection with the Ohio river. Principal port on Lake Erie, with a large commerce; very extensive shipping trade in iron ore, coal and lumber. Pork packing interests are important, and the petroleum oil refining works are claimed to be the largest in the world. Head quarters of the Standard Oil Company. Iron interest is large, there being 150 iron and steel manufactories, employing about 15,000 hands. Also five large ship yards extensively engaged in building wooden and steel vessels. Its institutions include Adelbert College, the Case School of Applied Science, the Western Reserve University, a Public Library, several medical colleges, hospitals, and asylums, etc. Two immense viaducts extend across the gulf, which divides the city, and are among the finest and costliest works of the kind in the United States.

OKLAHOMA.

Population 1,414,042.

STATE CAPITAL, GUTHRIE.

OKLAHOMA is bounded on the north by Kansas, on the east by Arkansas and Missouri, and on the south and west by Texas. Land area, 70,430 square miles. Surface is generally rolling prairie, with abundant timber in the eastern part. The land is generally tillable and the principal occupation of the people is agriculture. More wheat is raised than any other cereal. Corn is largely grown, and the area devoted to it is rapidly increasing. The value of the crop of 122,239,000 bushels in 1908 was \$62,342,000, an increase of more than \$13,000,000 over that of 1907. Cotton, oats, alfalfa, broom corn, Kafir corn, and barley are also profitable crops. Hay and fruit of excellent quality are raised in considerable quantities. The wealth of summer forage crops which may be grown and the abundant pasturage which wheat affords during the winter make the production of all classes of live stock very profitable. Limestone, gypsum, and good building stone are plentiful. Large shipments of flour are made to other States, after supplying home consumption. Cotton seed oil mills use the cotton seed produced on the farms, and large numbers of cattle are fed on the meal and hulls.

The number of newspapers and periodicals published in Oklahoma is 616, including 55 daily, 5 semi-weekly, 596 weekly, 3 semi-monthly and 17 monthly. The places of publication number 368, of which 74, designated by a dagger (†), are county seats.

OREGON.

Population *500,000.

STATE CAPITAL, SALEM.

OREGON is bounded north by Washington, east by Idaho, south by Nevada and California, and west by the Pacific Ocean; average length from east to west, about 300 miles; average breadth, about 200 miles; land area, 94,560 square miles. It is divided unequally by the Cascade Mountains. East of this range the surface is generally undulating table land, with high cone-like hills and deep canyons. Between the Cascade and Coast Ranges is the Willamette Valley, 40 miles wide by 140 miles long, and exceedingly fertile; from the Coast Range westward the surface is mountainous, hilly, and broken. This section is suited for wool growing, stock raising, and the growth of winter wheat, barley, oats, and hay. The eastern portion does better as a stock raising region, but good wheat is also grown there. In the valley, wheat, corn, hops, tobacco, wool, flax, fruit, linseed, dairy products, and potatoes are raised in large quantities. The mountain regions are abundantly forested, the principal species being fir, cedar, pine, birch, and spruce. Many of the trees are gigantic in size, and afford excellent lumber. The Rogue River Valley, on account of its mild climate, is well adapted for raising fruits and grapes and large quantities are shipped from there annually. The manufactures comprise lumber—the large Douglas spruce affording the best masts and spars in the world;—leather, boots and shoes, saddlery, milling and smelting of ores, carriages, furniture, liquors, linseed oil, etc. The packing of beef and pork, and canning of salmon are successfully carried on. Gold and silver are produced, but not in very large amounts; copper and iron ore are abundant, clay, glass sand, granite, marble, etc., are plentiful.

The number of newspapers and periodicals published in Oregon is 248, including 28 daily, 11 semi-weekly, 181 weekly, 1 semi-monthly and 21 monthly. The places of publication number 125, of which 34, designated by a dagger (†), are county seats.

PENNSYLVANIA.

Population 6,928,515.

STATE CAPITAL, HARRISBURG.

PENNSYLVANIA is bounded north by New York and Lake Erie, east by New York and New Jersey, south by Delaware, Maryland, and West Virginia, and west by West Virginia and Ohio. Its greatest length from east to west is about 302 miles; its greatest breadth about 175 miles; mean length 280 miles; mean breadth 158 miles; land area, 44,985 square miles. The surface is exceedingly varied, chiefly level or slightly undulating in the southeast, hilly and mountainous in the interior, and generally rolling or broken in the west. A series of parallel ridges, members of the Appalachian system, each with a distinct name, traverse the State from northeast to southwest. The most eastern of these is the South Mountain, an extension of the Blue Ridge, and the western and highest the Allegheny, from which the surface slopes generally toward Ohio. Nearly one-fourth of the State is wooded, and a very large amount of lumber is manufactured, Williamsport and Lock Haven being the chief centres of this industry. The soil of the valleys and plains is generally fertile, and some of it exceedingly so. Lancaster County, and some of the counties bordering on the Ohio River, are the most productive. The State excels in dairy and market garden produce and all the agricultural staples of the Northern States. The tobacco crop is exceeded only by that of Kentucky and Virginia. Lancaster and York counties are the chief seats of the industry, Lancaster yielding nearly twice as much as any other county in the United States. Its beds of anthracite and bituminous coal and iron ore, and the great oil basin, are sources of immense wealth. Anthracite coal is found mainly in the counties of Carbon, Dauphin, Lackawanna, Luzerne, and Schuylkill, to some extent in Columbia and Northumberland, and semi-anthracite in Sullivan and Wyoming. Bedford, Bradford, Centre, Clearfield, Fulton, Lycoming, and Tioga counties contain fields of semi-bituminous coal, while the bituminous coal beds are located beyond the main Allegheny Ridge, every county west of it, with the exception of Erie, yielding more or less of this coal. Mercer supplies a good block coal for furnace use. The petroleum region is situated mainly in the counties of Venango, Butler, McKean, and Clarion. Salt springs abound in the same region, also natural gas wells, the gas from which is used for heating and lighting purposes. It is rich in minerals, slate, and building-stone of many kinds. There are many medicinal springs, the principal of which are at Bedford, Doubling Gap, Ephrata, Yellow Springs, and York. The southeastern corner of the State (bounded by a line running from Trenton, N. J., to Norristown, thence nearly to Lebanon, thence across the Susquehanna in a southwesterly direction to the Maryland line, east of Gettysburg) is rich in limestone and marble, of which great quantities are quarried for use in Philadelphia. This region also produces combined iron and chromium ores, hematite, magnetic iron, and corundum. Nickel is found at Lancaster, galena at Phoenixville, zinc at Friedensville and Bethlehem. A handsome black limestone is quarried at Williamsport, roofing-slates in the Lehigh and Delaware Valleys, Silurian limestone in the Cumberland Valley and at other points. In manufactures, Pennsylvania is second only to New York, and Philadelphia is one of the principal seats of foreign and coastwise trade. The leading exports are grain, provisions, petroleum, tobacco, oil cake, lumber, tallow, hides, leather, shoes, cotton goods, machinery, and coal. Erie and Pittsburg are also great commercial centres. Kensington and Chester are the chief ship building stations. Pittsburg, Allegheny, Harrisburg, Reading, and Scranton are the chief seats of the iron manufactures. Philadelphia is one of the great manufacturing cities of the world, and has an enormous production of iron goods, textile fabrics, and other articles.

The number of newspapers and periodicals published in Pennsylvania is 1,395, including 299 daily, 8 tri-weekly, 44 semi-weekly, 853 weekly, 6 fortnightly, 11 semi-monthly, 222 monthly, 1 every six weeks, 1 seven times a year, 8 bi-monthly and 32 quarterly. The places of publication number 464, of which 67, designated by a dagger (†), are county seats.

PHILADELPHIA , pop. 1,441,735 (M 2 & 6½); PHILADELPHIA Co. (S.E.), pop. 1,441,735 On W. bank of Delaware R., at m. of Schuylkill R., 96 m. from the ocean, 87 m. S.W. of New York. Penna.; Balt. & Ohio; Phila. & Read.; Phila., Balt. & Wash.; and other railroads. Tel. Exp. Banks. Port of entry; the metropolis of Pennsylvania, and the third city of the U. S. in population. Philadelphia is principally distinguished as a manu-facturing city. Among the most notable of its industries are the Cramp Shipyards, and the Baldwin Locomotive Works, with a capacity of 3,000 locomotives annu-ally. In carpets, woolen and cotton goods, and other textile fabrics, its production is enormous, and the same may be said of the products of iron and steel, while many other branches of manufacture are also very largely represented. The domestic and foreign commerce of this city is also large, but is secondary in importance to its manufactures. Among its numerous institutions may be named Independence Hall, the University of Pennsylvania, the Pennsylvania Hospital and many others, Jefferson and other medical colleges, Girard College, Drexel Institute, Franklin Institute, Academy of Natural Sciences, Academy of Fine Arts, Philadelphia Library, the magnificent City Hall, and Fairmount Park, the largest and most picturesque pleasure ground in the United States.

Erie; and several other railroads. Tel. Exp. Banks. Second city of Pennsylvania, and the leading iron and steel manufacturing city in America. Its pig iron product is said to be one-fourth, and its steel product more than one-half of the total product of the United States. The glass manufacture is also very important, the product being claimed to be about one-half of the total produced in this country. Coke is very largely produced, and there are numerous smaller manufactures. The abundance of natural gas fuel gives Pittsburgh special advantages in manufacturing. The commerce of this city is also very considerable; oil, coal, lumber, iron, steel and glass products, etc., being largely distributed. Here are the University of Pittsburgh, Pennsylvania College for Women (Presbyterian), Carnegie Technical Schools, Carnegie Institute and Library, a United States Arsenal, etc.</i>

RHODE ISLAND.

Population 450,082.

STATE CAPITAL, PROVIDENCE.

RHODE ISLAND is bounded on the north and east by Massachusetts, south by the Atlantic Ocean, and west by Connecticut. Its extreme length from north to south is 47½ miles; extreme breadth, 40 miles; average breadth, 35 miles; land area, 1,053 square miles. The surface is for the most part rough, hilly and stony. There are no mountains, and few hills of any eminence. Nearly one-fourth is woodland. Soil generally fertile, especially that of the smaller islands; but parts are level and marshy. Rhode Island is not an agricultural State. The wheat and buckwheat crop is merely nominal; other cereals small; dairy and market-garden produce and live stock very moderate. The most prominent industries are cotton, woolen and worsted goods, machinery, jewelry, silver and plated ware, clothing, iron and ironware, rubber and elastic goods, leather, refined sugar and molasses, and flour mill products. In its production of cotton goods it is only surpassed by Massachusetts. Coal is mined at Cumberland, Portsmouth and Valley Falls, but is hard and difficult to burn. There are extensive granite quarries at Westerly.

The number of newspapers and periodicals published in Rhode Island is 51, including 13 daily, 3 semi-weekly, 26 weekly, 1 semi-monthly, 7 monthly and 1 bi-monthly. The places of publication number 18, of which 4, designated by a dagger (†), are county seats.

SOUTH CAROLINA.

Population 1,453,818.

STATE CAPITAL, COLUMBIA.

SOUTH CAROLINA is bounded north and northeast by North Carolina, southeast by the Atlantic Ocean, west and southwest by Georgia. Its greatest length from east to west is about 275 miles, and its greatest breadth about 210 miles; land area, 30,170 square miles. The surface presents nearly the same features as that of North Carolina. The coast for 100 miles inland is low and level, with sandy soil, numerous swamps, and extensive pine forests; then follows a tract of low sand hills, the soil of which is moderately productive. The land rises abruptly on the western edge of this belt, and continues to rise until it terminates in the Blue Ridge, the highest peak of which, Table Mountain, is 4,000 feet above the sea. The swamps embrace over 1,000,000 acres, and the pine lands 6,000,000. The sea islands are mainly devoted to sea island cotton and rice, and the palmetto grows on them; the tidal swamps to rice; inland swamps, when drained, to rice, cotton, corn and peas; the salt marshes to long cotton; the oak and pine and oak and hickory lands to corn and cotton; and the pine barrens to fruits and vegetables. Rice, cotton, and corn thrive best in the central and southern counties. The northwestern region produces corn, wheat, barley, oats, tobacco, and many fruits. Stock raising and wool growing are carried on with profit. Figs and pomegranates grow in the lower counties, and the peach and grape thrive over the State generally; strawberries abundant. The manufactures are principally cotton goods, flour, lumber, machinery, tar, turpentine, carriages, and fertilizers. Commerce is mainly confined to Charleston, Georgetown, and Beaufort. Exports are chiefly rice, cotton, lumber, phosphate, naval stores, cotton seed and its oil, oil cake, fish, and spring vegetables. Considerable shad and oyster fishing. The mineral wealth, though large, has not been much developed. Considerable gold is found in the northwestern counties. There are large deposits of excellent iron ore in Greenville, Pickens, Spartanburg, and Union Counties; manganese, copper, lead, and bismuth are also found, mainly in the northwest; white and colored marbles and limestones, granites and cyanites, soapstones, flagging stone, and buhr stone abundant. In Fairfield Co. is found what is claimed to be the finest granite in the United States. It is of beautiful appearance, great strength and fine quality. Aiken County contains immense beds of the finest porcelain clay. A little coal is found in Chesterfield County. The most valuable mineral at the present day is, however, a bone phosphate marl, a fossil deposit of recent origin and one of the best of fertilizers, found in the lowlands and river beds near Charleston; on the Stono, Ashepoo and Edisto Rivers; also near St. Helena Sound.

The number of newspapers and periodicals published in South Carolina is 156, including 15 daily, 1 tri-weekly, 19 semi-weekly, 107 weekly, 3 semi-monthly and 13 monthly. The places of publication number 77, of which 43, designated by a dagger (†), are county seats.

SOUTH DAKOTA.

Population 454,624.

STATE CAPITAL, PIERRE.

SOUTH DAKOTA is bounded north by North Dakota, east by Minnesota and Iowa, south by Nebraska, and west by Montana and Wyoming. Length, east to west, nearly 360 miles; width, about 240 miles. Land area about 76,850 square miles. The Missouri River furnishes navigation for boats of three to six hundred tons burden. That portion of the State east of the Missouri River is mostly rolling prairie; the soil on the Mississippi slope being a black, sandy loam, with clay subsoil. West of the River the land is more broken, with mining and grazing land in the southwestern section or Black Hills region, which is a mountain district of nearly 5,000 square miles in extent, exceedingly rich in valuable minerals, and in great part well adapted to stock raising. It is largely forested, and with the aid of irrigation much of it might be adapted to agriculture. The eastern portion of the State is especially adapted to the raising of wheat and other cereals, potatoes, vegetables, and flax. The Missouri River and all small streams and lakes are lined with timber. The principal agricultural products are wheat, corn, oats, barley, flax, hay and vegetables. Dairy products, 7,974,000 pounds of butter, 940,000 pounds of cheese. The value of the cattle and hogs marketed in 1908 was \$32,000,000; dairy and creamery products, \$6,500,000; eggs and poultry, \$4,000,000; garden products and fruit, \$3,500,000; wool and hides, \$1,500,000. The wheat product was 55,000,000 bushels; corn, 50,000,000 bushels; oats, 21,000,000 bushels; barley, 12,000,000 bushels; and hay, 2,000,000 tons. The mineral output was \$12,000,000. The Black Hills possess some of the richest gold mines in the world; the gold production for 1908 was over \$7,000,000. Tin occurs in great abundance, though as yet but little developed, from difficulty in reducing. Other important minerals are silver, copper, iron, gypsum, mica, marble, building stone, lime, brick, fire, and potter's clay, and coal. Petroleum and natural gas are also present, while various other minerals exist.

The number of newspapers and periodicals published in South Dakota is 120, including 19 daily, 5 semi-weekly, 37 weekly, 3 semi-monthly and 14 monthly. The places of publication number 281, of which 55, designated by a dagger (†), are county seats.

TENNESSEE.

Population 2,172,476

STATE CAPITAL, NASHVILLE.

TENNESSEE is bounded north by Kentucky and Virginia; southeast by North Carolina, south by Georgia, Alabama, and Mississippi; west by Arkansas and Missouri; greatest length from east to west 432 miles, breadth 100 miles; land area, 41,750 square miles. The State is popularly divided into East, Middle, and West Tennessee. East Tennessee comprises the eastern mountain border, the beautiful East Tennessee Valley, and about half of the Cumberland Mountain plateau. Middle Tennessee reaches from about the center of the plateau to the Tennessee River, and is a region of fertile terraces, including the vast elliptical basin of nearly 5,000 square miles, known as the Garden of Kentucky. West Tennessee extends from the Tennessee River to the Mississippi, and is somewhat broken in the east, succeeded by a rolling plain descending to the latter river. The Mississippi bottom is a low, flat, alluvial plain, covered with forests and abounding with lakes and swamps. West Tennessee is extremely fertile, and produces corn and cotton in large quantities. Middle Tennessee is generally fertile, giving excellent grain, tobacco, and much cotton, especially toward the south. East Tennessee valley lands are fertile, producing corn, cotton, and winter wheat; potatoes, oats, hay, and hemp are extensively produced; great numbers of stock are raised, especially swine; the wool clip is large and excellent, and much attention is paid to fine breeds of horses. The leading cereals are corn, wheat, oats and rye. Corn averages about 70,000,000 bushels; wheat about 10,000,000 bushels; cotton, 240,000 bales, and tobacco about 50,000,000 pounds annually. Peanuts form a product of some importance, yielding about 1,000,000 bushels. Tennessee is rich in marble of various kinds, limestone and other building stone; valuable copper mines exist in Polk County; coal and iron ore are very abundant. The coal deposits underlie 5,100 square miles, and the output in 1896 was over 6,000,000 tons. Iron mining and smelting is becoming very extensive, and much iron ore is exported to the iron working towns on the Ohio River. The lumbering interest is very great, there being a large area of valuable hardwood timber. About \$25,000,000 is invested in the various branches of the lumber industry. Wool carding and cloth dressing are carried on extensively. Flour and grist mill products are very large. Tennessee is one of the foremost States in the production of rock phosphate. Union County contains zinc and lead mines. Colored marbles are found in immense quantities in East and West Tennessee; roofing slates in East Tennessee; hydraulic limestone in East, Middle and West Tennessee; there are also building limestone, sandstone, and granite; fire and potter's clay.

The number of newspapers and periodicals published in Tennessee is 819, including 16 daily, 9 semi-weekly, 228 weekly, 1 three times a month, 4 semi-monthly, 47 monthly and 14 quarterly. The places of publication number 140, of which 86, designated by a dagger (†), are county seats.

TEXAS.

Population 3,536,618.

STATE CAPITAL, AUSTIN.

TEXAS is bounded north by New Mexico, Oklahoma, and Arkansas, east by Oklahoma, Arkansas, and Louisiana, southeast by the Gulf of Mexico, southwest by Mexico, and west by New Mexico; greatest length, about 746 miles; greatest breadth, 825 miles; land area, 262,290 square miles. From the Sabine River to the Trinity River is the great timber region, generally level and sandy in the south, rolling and fertile in the north. From the Trinity to the Colorado is prairie, timbered along streams, with extensive forests of live oak, extending through central and western Texas to the Red River, called the "Cross Timbers." The total area of timber is about 40,960,000 acres, of which 25,000,000 are in pines. The pecan tree is widely distributed, and is a valuable nut-bearing tree, its yield being estimated at 3,000,000 pounds, or 56 per cent. of the entire crop of the United States. Western Texas embraces the counties between the Colorado and Rio Grande; four-fifths of it is prairie; timber generally confined to banks of streams. Between the Colorado and the Brazos Rivers are the Comanche and Leon River Mountain ranges. In the north and northwest are the Church and Double Mountains, and the surface is generally broken until the Llano Estacado, or Staked Plain, is reached, when the surface is gently undulating and vegetation scanty. Between the Pecos and Rio Grande are several ranges, sometimes attaining an elevation of 5,000 feet. The chief crops are cotton, corn, and wheat. One-seventh of the world's cotton crop is produced in Texas. The former two may be grown in nearly any part of the State, but especially in the eastern and central sections; the latter chiefly in the north and centre. Sea island cotton is grown on the coast. Sugar cane is raised chiefly on the Brazos and other rivers, near their mouths, and rice in the south and southeast. Oats, barley, tobacco, and sweet and white potatoes are grown to some extent. Texas now produces immense quantities of orchard and garden products. Thousands of acres are under irrigation from flowing artesian wells, principally located in southwest Texas. Swine thrive on the abundant mast of the forests. The chief occupation westward is stock raising and wool growing. Figs and oranges thrive in the south. Manufacturing interests are increasing. The leading products are lumber, cotton seed oil, flour, carriages, foundry and machine shop products, woollens, marble, etc. There are immense deposits of copper along the line of the Texas Pacific Railroad; coal, timber, limestone, soapstone, and iron are found in the same region. Argentiferous galena is found in large quantities in northwestern Texas; immense quantities of magnetic iron in Mason, Llano, and the western counties which is now being developed. There is a field of lignite coal about 5,000 square miles in extent, and a field of semi-anthracite in Brown, Coleman, Comanche, and Hamilton Counties. Salt is produced in large quantities from springs in El Paso, Lampasas, Llano, and Mitchell Counties; asphaltum is abundant. Large quantities of saltpetre are found in Blanco and Burnet Counties; marble and roofing slate, grindstones, potter and fire clays, marl and other fertilizers are found in great quantities.

The number of newspapers and periodicals published in Texas is 650, including 89 daily, 29 semi-weekly, 708 weekly, 1 fortnightly, 8 semi-monthly, 62 monthly and 2 quarterly. The places of publication number 650, of which 214, designated by a dagger (†), are county seats.

UTAH.

Population 316,331.

STATE CAPITAL, SALT LAKE CITY.

UTAH is bounded north by Idaho and Wyoming, east by Wyoming and Colorado, south by Arizona, and west by Nevada; length, north to south, about 350 miles; width, about 200 miles; land area, 82,000 square miles. The surface is generally mountainous, interspersed with arid plains, valleys, and basins. The grazing and mountain lands comprise about seven-eighths of the State. The area at present under cultivation is about four per cent.; eleven per cent. can be made productive by irrigation. Irrigation is nearly everywhere necessary, and where employed brings good results, as the soil contains all the elements of fertility. The State contains over 70 miles of canals and nearly 7,000,000 cubic feet of irrigation reservoirs. Wheat, oats, barley, corn, potatoes, hay, sugar beets, and wool are the chief products. Cattle and sheep raising are profitable industries and are often successfully carried on where farming is impracticable. Agricultural products of all kinds in 1903 amounted to over \$24,000,000 in value, while the value of manufactures was \$13,000,000. About 9000 acres are devoted to orchard and nursery interests and over 13,000 acres to the production of sugar beets. The chief wealth of the State, however, is in its minerals. The total output in 1903 of gold, silver, lead, and copper was over \$25,000,000, of which amount gold, lead, and copper furnished over \$5,000,000 each and silver upwards of \$10,000,000; coal and salt are also largely produced. Manufactures are chiefly those of goods needed for home consumption, but for many years extensive works for the mining and smelting of ores have been established and of late much extended.

The number of newspapers and periodicals published in Utah is 91, including 7 daily, 2 tri-weekly, 6 semi-weekly, 66 weekly, 3 semi-monthly and 7 monthly. The places of publication number 48, of which 21, designated by a dagger (†), are county seats.

VERMONT.

Population 350,373.

STATE CAPITAL, MONTPELIER.

VERMONT is the most northwesterly of the New England States, bounded north by Quebec, east by New Hampshire, south by Massachusetts, and west by New York. It is 143 miles long by from 40 to 85 miles wide, with a land area of 9,135 square miles. The Green Mountains traverse it from north to south, mainly in two ranges, generally covered with dense forests, but affording excellent pasturage. Western Vermont and a large tract of the eastern part comprise beautiful pastoral regions, but the central part is rugged and mountainous. The best soil is found on the western slope of the mountains near the border of Lake Champlain, and in the valley lands of the Connecticut River. The State occupies a prominent position in agriculture. When its area, population, amount of forest land, and long severe winters are considered, there is perhaps no other State that yields so large a return. All the ordinary agricultural staples are abundantly produced; wool and dairy products are large and excellent; cattle, sheep, and horses are raised in large numbers, and the yield of maple sugar is unequalled. Manufactures occupy a prominent position in its industries, and cover a wide range of goods, including flour, furniture, cotton and woolen goods, leather, agricultural tools, tin and copper ware, lumber, etc. Large quantities of lumber are exported, and marble and slate extensively quarried. The principal marble quarries are at Brandon, Dorset, Isle La Motte, Manchester, Middlebury, New Haven, Pittsford, Proctorsville, (serpentine), Roxbury (verd-antique), Rutland, Shelburn, Sutherland Falls, Swanton and West Rutland; slate quarries at Castleton, Fair Haven, Guilford, Northfield, Pawlet and Poulney granite at Barre and Brattleboro. Potters' clay comes from Bennington and Rutland; steatite from Castleton and Grafton. Manganese, brown hematite, kaolin and ochre from Brandon, South Wallingford and Manchester Centre; copper ore from Vershire and Corinth. Rutland is the largest marble centre in the world, not less than \$6,000,000 of capital and 4,000 men being employed in 15 quarries and 20 mills. During the last ten years the development of the granite business at Barre, six miles from Montpelier, has been very large. Burlington is a large market for Vermont and Ottawa lumber, having extensive mills and a trade extending throughout the Eastern States. Vermont continues to be the greatest breeding state of fine horses (Morgans and Hambletonians) and of Spanish merino sheep. Every year numbers of these superior animals are shipped to all parts of this country, to South America and to Australia.

The number of newspapers and periodicals published in Vermont is 107, including 9 daily, 89 weekly, 1 semi-monthly, 7 monthly and 1 eight times a year. The places of publication number 69, of which 12, designated by a dagger (†), are county seats.

VIRGINIA.

Population 1,973,104.

STATE CAPITAL, RICHMOND.

VIRGINIA is bounded north by West Virginia and Maryland, east by Maryland and the Atlantic Ocean, south by North Carolina and Tennessee, and west by Kentucky and West Virginia. Its greatest length from east to west is about 440 miles, its greatest breadth 192 miles; land area, 40,125 square miles. The surface is divided into six great natural divisions, the Tidewater, comprising the south and southeast; the Middle, an undulating plain, extending westward to the Coast Range; the Piedmont, from the Coast Range to the Blue Ridge Mountains, and from the Potomac River to North Carolina; the Blue Ridge, stretching across the State in a southwesterly direction; the Valley—a part of the great Appalachian Valley, reaching from Canada to Alabama—a broad belt of rolling country between the Blue Ridge and the Kittatinny or North Mountain; and the Appalachian, a mountainous region traversed by the Alleghenies. The soil in the Tidewater region is a light sandy loam, yielding large crops of vegetables and small fruits. The Valley Region has a rich fertile soil, well adapted for cereals, of which corn, wheat, oats and rye are the principal. Much of the Mountain Region is uncultivated and chiefly forest land; but the parallel valleys are very fertile. The Piedmont, Blue Ridge, Valley, and Appalachian regions are noted for their grasses. The yield of tobacco is only equaled by that of Kentucky. Some cotton is grown in the Tide-water section; fruit grows all over the State. A considerable part of the tide water region is devoted to raising early vegetables for northern markets. Dairying, stock raising, and wool-growing are important industries. The timber export is large. There are profitable fisheries of bass, shad, etc., and the oyster trade is very important. The manufacturing interests are comparatively small, but are increasing, the chief seats being Richmond, Alexandria, Danville, and Lynchburg. The more important products are iron, tobacco, leather, coke, cotton, paper, agricultural implements, machinery, etc. Virginia has excellent natural advantages for commerce, but it is only lately that she has begun to take a prominent part in foreign trade. There are beds of anthracite, semi-bituminous, and bituminous coal in the southwestern counties, not much developed; salt is an important product of this region. There are coal bearing strata in other parts of the State, particularly near Richmond; the coal is bituminous, and generally of good quality. Virginia has vast beds of gypsum and marl, abundant iron ore, fine granite, marble, and other building stones; zinc, sulphur, kaolin, fire clay, and many other minerals. It abounds in mineral springs of great reputation. Iron and manganese are extensively mined, also zinc and lead ores. Lime burning is an important industry. Considerable quantities of coal are produced from the Trans-Appalachian district.

The number of newspapers and periodicals published in Virginia is 258, including 32 daily, 2 tri-weekly, 10 semi-weekly, 168 weekly, 1 fortnightly, 4 semi-monthly, 32 monthly, 3 bi-monthly and 6 quarterly. The places of publication number 135, of which 69, designated by a dagger (†), are county seats.

WASHINGTON.

Population 1,158,998.

STATE CAPITAL, OLYMPIA.

WASHINGTON is bounded north by British Columbia, west by the Pacific Ocean, east by Idaho, and south by Oregon. Its average length, east to west, is 360 miles; width, 220 miles; land area 66,880 square miles. It is divided by the Cascade Mountains into two distinct parts. Western Washington is a fine timber country, with many fertile valleys, well settled and very productive in vegetables, which grow to an immense size, fruit of all kinds, and hops. Dairying is an interest of growing importance. Extensive coal and iron mines are being operated, coke ovens established, and the State will be, in a short time, the Pennsylvania of the Pacific Coast. The discoveries during the past two years have been of copper, silver, galena and gold mines, all of which are rapidly being developed. There is also an abundance of iron ore, limestone, granite, marble, etc. Eastern Washington is especially adapted for the raising of all kinds of grain, fruit, vegetables, hops, corn, and particularly wheat. The climate is perfection; the mean average temperature for the year being 53°. It is the best agricultural country on the Pacific Coast. Cattle and stock of all kinds do remarkably well; the ranges are good and it is not considered necessary to feed the stock in the winter time, owing to the generally light snow fall and the abundance of natural grasses. Puget Sound is a vast harbor, having an extent of 1,594 miles of shore line, and Seattle, its principal sea port, is fast becoming the metropolis of the northwest Pacific Coast. Fish of all kinds abound, and the canning of salmon employs many hundred people in the season. Manufacturing establishments are increasing every day and the State is on the eve of great developments. Ship building is one of the most important industries. The principal articles of export are lumber, coal, wheat and salmon. Hops are a leading product of Western Washington. Of the area of the State, 20,000,000 acres are in timber, with 10,000,000 additional of mineral and mountain lands, mostly timbered. Parts of this area bear immense trees, ten to twelve feet in diameter and 300 feet high.

The number of newspapers and periodicals published in Washington is 367, including 34 daily, 7 semi-weekly, 283 weekly, 3 semi-monthly, 39 monthly and 1 bi-monthly. The places of publication number 187, of which 38, designated by a dagger (†), are county seats.

WEST VIRGINIA.

Population 1,076,406.

STATE CAPITAL, CHARLESTON.

WEST VIRGINIA is bounded north and east by Pennsylvania and Maryland, east and south by Virginia, and west by Kentucky and Ohio. Its greatest length from north to south is about 240 miles; greatest breadth, 100 miles; land area, 21,645 square miles. A large part of the surface is mountainous and hilly; about two-thirds is covered with forest. The soil of the ridges is fertile to the tops, and the summits of many mountains are flat, natural meadows or glades. The valley of the Great Kanawha is the finest grazing region of the State. Blue grass is indigenous; the lumber trade is important, the forests being principally composed of hardwood timber of the most valuable kinds. Nearly the whole of the State lies within the Allegheny coal system, and large quantities of coal are exported both by river and rail, and new mines are constantly being opened. The total area underlain by coal is estimated at not less than 16,000 square miles. It is generally bituminous. The Kanawha Valley is one of the great salt producing regions of the United States. Petroleum is extensively produced, chiefly in Ritchie, Pleasants, Marshall, Wood, and Wirt Counties. Natural gas is found in several sections, Wheeling and the Northern Pan Handle using it as a fuel almost to the exclusion of coal. Limestone, sandstone, and grinding stone abound generally through the State. The minerals and mineral springs are inexhaustible. West Virginia is especially famous for wool, while the live stock interests generally are large. Other great staples are corn, wheat, oats, and tobacco. Manufactures are comparatively undeveloped, except in the towns along the Ohio River. The State has enormous water power, all its streams having a rapid descent, but so far this has been but little utilized. The leading industries are steel and iron in various forms, glass, flour, salt, wood pulp, liquor, lumber, queensware and porcelain, fire brick, leather, cigars and tobacco, and machinery. The cigar manufacture is very important. Wheeling is the largest and most important city; it is the manufacturing center and all the industries enumerated above, except salt, flourish there.

The number of newspapers and periodicals published in West Virginia is 220, including 32 daily, 4 semi-weekly, 106 weekly, 1 semi-monthly and 17 monthly. The places of publication number 95, of which 55, designated by a dagger (†), are county seats.

WISCONSIN.

Population 2,228,949.

STATE CAPITAL, MADISON.

WISCONSIN is bounded north by Lake Superior, northeast by Michigan, east by Lake Michigan, south by Illinois, and west by Iowa and Minnesota. Its greatest length from north to south is 300 miles; greatest breadth, 200 miles; land area, 54,450 square miles. The surface is generally an elevated plain, with high bluffs along the rivers and lakes, and elsewhere gently undulating, diversified with prairie, woodlands, and numerous lakes. The State ranks high in agricultural products. The northern part of the State is heavily timbered but is fast settling up. It has a somewhat severe climate, but outside the wooded country the soil is good, producing large crops, but not of corn. The lumber business of this section of the State, in pine and hard wood, has built up many large and flourishing inland cities like Oshkosh, Eau Claire, Wausau, Chipewau Falls, Stevens' Point, Merrill and Shawano. There is an immense deposit of the best iron ore, extending across the entire northern part of the State and known as the Gogebic iron belt; many valuable mines have been opened, and the shipments of Bessemer and hematite ore have added millions of wealth to the productive capacity of the State and largely increased the population. Galena limestone, lead, and zinc exist in the southwest, chiefly near Mineral Point. One of the best hydraulic cements comes from the neighborhood of Milwaukee. Wheat, corn, rye, oats, barley, potatoes, dairy products, and maple sugar are all raised in large quantities; hops are exceedingly prolific; fruit growing is an important industry. Cheese and butter making have increased to enormous proportions, especially in the central and southern counties, and the growing of seed leaf tobacco for wrappers has become an important and profitable industry, the product commanding the highest market price. The leading agricultural products are oats, corn, wheat, barley, tobacco, butter and cheese. Large numbers of horses are bred; sheep are numerous, and the wool clip large and valuable. The lakes and streams abound with fish, especially trout and black bass. Manufactures are thriving and numerous, lumber and wood work of all kinds holding a very prominent position. The manufactures of furniture, wagons, agricultural implements, leather and brooms are large and increasing, while at Milwaukee are situated several of the largest and wealthiest beer brewing corporations in the world, and the manufactures of cotton and woolen goods, nails, paper, steel rails and merchant iron are conspicuous and valuable.

The number of newspapers and periodicals published in Wisconsin is 674, including 63 daily, 21 semi-weekly, 535 weekly, 1 fortnightly, 3 semi-monthly, 48 monthly, 1 bi-monthly, 1 every fourth week, and 1 quarterly. The places of publication number 838, of which 71, designated by a dagger (†), are county seats.

Exp. Banks. Port of entry, and the largest city in the State. Manufacturing interests here are numerous and extensive. Bay View Rolling Mills employ nearly 2000 men, the E. P. Allis machine shops about 1500. Knit goods very extensively produced. Flour is also manufactured in very great quantities. The mammoth breweries produce annually over 1,000,000 barrels of beer. Other important products are leather, lumber, boots and shoes, carriages, furniture, tobacco and cigars. Milwaukee has an excellent harbor and a very large shipping trade, being among the greatest grain markets in the world. Its wheat shipments are over 8,000,000 bushels annually, and large quantities of corn, barley, oats, rye, flour and lumber are handled. State Normal School, an Industrial School for Girls, and, in the vicinity, a National Soldiers' Home.

WYOMING.

Population 101,816.

STATE CAPITAL, CHEYENNE.

WYOMING is bounded north by Montana, east by South Dakota and Nebraska, south by Colorado and Utah, and west by Utah, Idaho, and Montana; length, east to west, 365 miles; width, 274 miles; land area, 97,575 square miles. Its surface is broken by mountain ranges, deep river canons and flat topped hills or buttes, the latter a feature of South Wyoming, which rise from valley or plain like walled cities or mounds. There are large elevated plateaus or parks, of which the principal is the Great Yellowstone or National Park. There are extensive areas of pine and spruce timber, widely distributed throughout the mountain regions. Stock raising, sheep husbandry, and coal mining are the leading pursuits. Irrigation is needed in a large part of the country to make the soil productive. It is estimated that 10,000,000 acres may be reclaimed by irrigation. This is being actively applied, more than 4,500 miles of irrigation ditches having been dug in the past ten years. The question of the formation of reservoirs by the Government is under consideration. Gold and silver are plentiful. There are vast beds of iron ore and plenty of good coal, the latter underlying 30,000 square miles of territory, much of it workable. Gypsum, salt, soda, sulphur, copper, lead, tin, and other minerals are found. Petroleum seems abundant in central and northern Wyoming. It is produced to some extent. In manufactures, the sawing of lumber and railroad ties, milling of quartz, and railroad repair and machine shops in the towns on the line of the Union Pacific Railroad, occupy the leading places.

The number of newspapers and periodicals published in Wyoming is 71, including 4 daily, 6 semi-weekly, 56 weekly and 5 monthly. The places of publication number 44, of which 14, designated by a dagger (†), are county seats.

PORTO RICO.

Population 1,037,028.

CAPITAL, SAN JUAN.

Thirty-five miles east of San Domingo. The island is 90 miles long from east to west and 36 miles broad. It is traversed by a mountain range from east to west, the highest point of which is about 3,700 feet. In the interior are extensive savannas affording good pasturage, and there are also tracts of level, fertile land along the coast. The climate is generally salubrious. Copper, iron, lead and coal are found. Porto Rico is wholly an agricultural island, its principal products are sugar, coffee, rice, tobacco, salt, maize, yams, bananas and other tropical fruits. The trade of Porto Rico is chiefly with the United States, Great Britain, Spain, Cuba and Germany. The principal towns are San Juan, Ponce, Mayaguez, Arecibo, Aguadilla and Guayama.

The number of newspapers and periodicals published in Porto Rico is 22, including 11 daily, 1 semi-weekly, 7 weekly, and 3 semi-monthly. The places of publication number 6, of which 4, designated by a dagger (†), are department capitals.

(All papers are Spanish unless otherwise stated).

Papers marked with an asterisk (*) are reported to us as being published, but no copies have yet been received.

HAWAII.

Population, 192,407.

TERRITORIAL CAPITAL, HONOLULU.

The HAWAIIAN ISLANDS are situated in the North Pacific Ocean between longitude 154° 40' and 160° 30' west and latitude 22° 16' and 18° 13' north. The eight principal islands have an area of 6,454 square miles, the others are mere rocks. Hawaii is the largest and has given its name to the whole group. The islands are of volcanic formation. There are two active volcanoes. Kilauea and Mauna Loa. Mauna Kea, the highest point on Hawaii, is 13,825 feet high; the mountains generally range from 4,000 to 5,000 feet. Their sides abound in forests containing an abundance of timber and ornamental woods. Agricultural products are in the order named—sugar, rice, coffee, fruits, and vegetables. Bananas are an important product, over 100,000 bunches being exported annually, with a capacity of many times that number. The culture and canning of pineapples is a large and rapidly developing industry. The United States practically monopolizes the trade of Hawaii. The total exports from July 1, 1904, to June 30, 1905, to the United States, were valued at \$36,112,055. The total imports for the same year from the United States reached a total value of \$11,753,180.

The number of newspapers and periodicals published in five towns of Hawaii is 37, including 6 daily, 2 tri-weekly, 3 semi-weekly, 13 weekly and 8 monthly.

ALBERTA.

Population.....185,412

PROVINCIAL CAPITAL, EDMONTON.

The PROVINCE OF ALBERTA, formerly a part of the Northwest Territories, is bounded on the north by the parallel of 60° north, on the west by British Columbia, on the south by the 49th parallel (the boundary of the United States) and on the east by the Province of Saskatchewan. Its length from north to south is about 800 miles, its greatest breadth from east to west about 400 miles and its land area is 251,180 square miles. The northern half is unsettled except for the scattered trading stations of the Hudson's Bay Company. The southern portion has for a number of years been the grazing ground of large herds of cattle, and is now attaining prominence in agriculture, especially in grain growing, for which the soil and climate seem peculiarly adapted. The province is developing rapidly, its population having increased from 73,022 in 1901 to 185,412 in 1906, and the number of farms in the same period having increased from 9,433 to 30,286. In 1906 the wheat crop was 5,932,267 bushels, oats 21,927,071 bushels, and barley 3,876,468 bushels. The other principal crops are hay, potatoes and sugar beets. Live stock forms an important part of the wealth of the province, there being 226,504 horses and 950,632 head of cattle in 1906. In the Rocky mountain section, in the extreme western portion of the province, large deposits of coal are found, also gold, iron and zinc. The fur industry in the north is of great value, and a large business is done in Edmonton in supplies for this industry, and in shipping its products.

The number of newspapers and periodicals published in 40 towns of Alberta is 69, including 8 daily, 2 semi-weekly, 55 weekly, 1 semi-monthly and 3 monthly.

BRITISH COLUMBIA.

Population.....177,272

PROVINCIAL CAPITAL, VICTORIA.

BRITISH COLUMBIA is bounded on the north by the parallel of 60° north, on the west by the Pacific Ocean and Alaska, on the south by the 49th parallel (the boundary of the United States), on the east by the Rocky Mountains and the meridian of 120° west. It is the largest of all the Canadian Provinces, having an area of 390,344 square miles. It includes a number of islands, the largest being Vancouver, which contains the capital of the Province, has an area of about 14,000 square miles, and produces the finest coal on the Pacific Coast. Over 300,000 tons are exported annually to the United States, and the quantity is steadily increasing. The Province is about 700 miles long and 500 wide. The Fraser River, its principal stream, is 800 miles long, and 600 yards wide at its mouth; its valley containing much the greater part of the arable land. Its surface is largely mountainous and densely wooded, producing trees of enormous size. Lumbering is one of the principal industries, but as the land becomes cleared the soil is found very fertile and a considerable area is well adapted for agriculture of all kinds. The fruit growing industry is expected to become important. The climate is temperate and healthy, and is particularly suited for stock raising. Gold has been found in large quantities, and mining it is one of the chief industries. Upwards of \$15,000,000 of this metal have been exported during the last 15 years. Copper, and iron ore are widely distributed, and many other minerals are found. The fisheries are also very valuable. Fur bearing animals are very numerous. The principal town on the mainland is Vancouver, the terminus of the Pacific Canadian Railway.

The number of newspapers and periodicals published in British Columbia is 90, including 4 daily, 1 tri-weekly, 7 semi-weekly, 57 weekly and 11 monthly. The places of publication number 45, of which 6, designated by a dagger (†), are district capitals.

MANITOBA.

Population.....365,688

PROVINCIAL CAPITAL, WINNIPEG.

MANITOBA is bounded south by Minnesota and North Dakota, east by Ontario and Keewatin, north by Keewatin and west by Saskatchewan, and has an area of 60,520 square miles. Its surface is principally prairie land, with groves of timber along the rivers and streams. The soil is probably the richest in the world, and produces the finest wheat known in the market. All other cereals grow and ripen in great abundance, also vegetables and small fruits of all kinds. For grazing and cattle raising the facilities are unbounded, hay being chiefly made from the prairie grasses, which are very nutritious, and in illimitable abundance. Cultivated grasses also answer well. Coal of the lignitic variety is abundant, though mining operations have not yet been attempted. The Laurentian district of the north and east is thought to be rich in other minerals, though it is yet unexplored. This region gives a rich yield of furs, while its streams are full of fish. Winnipeg is on the main line of the Canadian Pacific Railway, which passes through Manitoba from east to west, and from it several railways branch out into the Province and the United States. The means of water communication are also very considerable.

The number of newspapers and periodicals published in 62 of the cities and towns of Manitoba is 122, including 8 daily, 1 semi-weekly, 96 weekly, 2 semi-monthly and 15 monthly.

SASKATCHEWAN.

Population.....257,763

PROVINCIAL CAPITAL, REGINA.

The PROVINCE OF SASKATCHEWAN, formerly a part of the Northwest Territories, is bounded on the north by the parallel of 60° north, on the west by the Province of Alberta, on the south by the 49th parallel (the boundary of the United States), and on the east by Keewatin and Manitoba. Its length from north to south is about 800 miles, and its greatest breadth about 400 miles. Its land area is 242,832 square miles. North of the 54th parallel the country is a region of lakes, swamps and forests, and is practically uninhabited, except by Indians, the white population consisting chiefly of the employes of the Hudson's Bay Company. The annual production of furs from this region is very large. The southern portion is unexcelled as a grain-growing district. The wheat production in 1906 was 50,183,359 bushels, and the crop of oats was 41,899,257 bushels. In addition to these, over 2,000,000 bushels each of barley and potatoes, 30,000 tons of hay and large quantities of sugar beets, flax and other crops were raised. Live stock is also of considerable value, there being, in 1906, 240,566 horses and 472,854 cattle in the province. Coal is mined to some extent.

The number of newspapers and periodicals published in 83 towns of Saskatchewan is 192, including 6 daily, 4 semi-weekly, 91 weekly and 1 monthly.

NEW BRUNSWICK.

Population.....331,120

PROVINCIAL CAPITAL, FREDERICTON.

NEW BRUNSWICK is bounded north by Quebec, east by the Gulf of St. Lawrence, west and south by the Bay of Fundy, part of Nova Scotia, and Maine. It is 210 miles in length and 180 miles in breadth, and has a coast line of about 500 miles. Its area is 27,174 square miles. Surface generally very undulating, there being scarcely an elevation on the east coast exceeding 300 feet, while on the north there is a section of mountainous character, consisting of hills of considerable elevation, covered with dense forest, and surrounded by fertile valleys and table lands. Its forests are very extensive, and lumbering is one of the principal industries. The climate is very healthy and the soil fertile, with great agricultural capabilities. The principal cereals, root plants, and vegetables are raised, with apples and the small fruits. Ship building formerly extensively carried on, has fallen off of late years. The fisheries, viz: salmon, smelt, herring and lobster, are second in value only to those of Nova Scotia. Coal, antimony, copper, iron, manganese and other minerals are found in considerable quantities. Manufactures are chiefly sawed lumber and wooden wares, cotton and woolen goods, refined sugar, rope and cordage, canned goods, polished granite, boots and shoes, edge tools, furniture, paper, castings, machinery, locomotives, etc. Chief exports—lumber, fish, cotton goods, potatoes, butter and eggs, beef and mutton, gypsum, hay, etc.

The number of newspapers and periodicals published in New Brunswick is 53, including 9 daily, 1 tri-weekly, 9 semi-weekly, 23 weekly, 2 semi-monthly, 8 monthly and 1 bi-monthly. The places of publication number 17, of which 7, designated by a dagger (†), are county seats.

NOVA SCOTIA.

Population..... 459,574

PROVINCIAL CAPITAL, HALIFAX.

NOVA SCOTIA consists of a very narrow peninsula, connected with New Brunswick by a narrow Isthmus about 16 miles wide, and of the island of Cape Breton. It is bounded on the north by the Gulf of St. Lawrence, on the east and south by the Atlantic, on the west by the Bay of Fundy and New Brunswick. It is 300 miles long and from 80 to 100 wide, with an area of 20,907 square miles, or about 13,000,000 acres, of which 5,000,000 are fit for tillage. The Cobequid Range runs through the interior, the soil on both sides of it being very fertile; which is also the case in the beautiful valley of the Annapolis River. The soil is very rich and productive, and agricultural productions are extensive, wheat, rye, oats, barley, buckwheat, corn, vegetables, and fruit growing abundantly. Apples are exported in considerable quantities. The forests are extensive and valuable, and the yield of timber is large. The principal minerals are coal, iron and gold. Coal is in great abundance, and is freely worked. Iron is in large quantities and practically inexhaustible; it is of a fine quality and commands the highest price in the market. Manganese, gypsum, and roofing slate abound. Manufactures are numerous, and include coarse cloth, flannels, blankets, carpets, boots and shoes, saddlery, furniture and farm implements. Ship-building is important. The fisheries are reckoned among the richest in the world. The capital city, Halifax, is situated on the west side of the harbor of that name, and contains about 40,000 inhabitants. The harbor is one of the finest in existence, over half a mile in width at its narrowest part, and extensive enough to contain all the navies of the world. Halifax is the winter port for the direct mail steamers, and has direct communication with Liverpool, Boston, Baltimore, Quebec and the West Indies. As a summer resort it is yearly becoming better known; its suburbs furnish the pleasantest of drives and superior bathing facilities, and its public gardens have been pronounced by all who have visited them the most beautiful on this side of the Atlantic.

The number of newspapers and periodicals published in Nova Scotia is 81, including 14 daily, 1 tri-weekly, 4 semi-weekly, 56 weekly, 2 fortnightly, 2 semi-monthly and 8 monthly. The places of publication number 37, of which 16, designated by a dagger (†), are county seats.

ONTARIO.

Population..... 2,182,947

PROVINCIAL CAPITAL, TORONTO.

ONTARIO is bounded on the east by Quebec, and the Labrador peninsula, north and north west by Hudson's Bay and Keewatin, southwest and south by the Great Lakes and St. Lawrence River, west by Manitoba, and has an area of 181,800 square miles, exclusive of its water surface. It is the most populous and wealthy Province of the Dominion of Canada, and contains a number of large cities with populations of from 30,000 to 50,000; Ottawa, population 45,000, is the seat of Government and capital of the Dominion. Surface is mostly undulating, traversed by the Laurentian Hills and Blue Mountains, but except in the neighborhood of Lake Superior and Georgian Bay these nowhere exceed a few hundred feet in height. The agricultural resources are very great. Three-fourths of the present area of habitation is fertile, while an immense region beyond is capable of cultivation; very large crops of cereals are raised. The apple orchards of the southwest are very productive, and small fruits and vegetables are prolific. Stock raising and dairy farming succeed remarkably well, cattle, butter and cheese being exported in large quantities. Timber is largely produced and exported, including pine, oak, maple, walnut, hickory, etc. There are very extensive saw mills at Ottawa. The mineral treasures are exceedingly rich and varied; iron, copper, lead and silver are very abundant. Some gold has been found between Georgian Bay and the Ottawa River; petroleum, salt, rock salt and peat beds also exist, the annual yield of petroleum being nearly 16,000,000 gallons. Mica is extensively worked. Marble, said to be equal to that of Carrara, is quarried. Galena, plumbago, and various other minerals exist. Manufactures are rapidly increasing in number and importance, among the principal being agricultural implements of all kinds, wagons, carriages, railroad stock, including locomotives, cotton and woolen factories, tanneries, furniture, paper, soap, wooden ware factories, etc. The railway enterprise is very great, and in addition to the great trunk lines, the Grand Trunk Railway and Canadian Pacific, every important section has competing lines stretching out to it.

The number of newspapers and periodicals published in Ontario is 659, including 53 daily, 17 semi-weekly, 449 weekly, 4 fortnightly, 9 semi-monthly, 117 monthly and 10 quarterly. The places of publication number 281, of which 47, designated by a dagger (†), are county seats.

PRINCE EDWARD ISLAND.

Population.....103,259

PROVINCIAL CAPITAL, CHARLOTTETOWN.

PRINCE EDWARD ISLAND is bounded north by the Gulf of St. Lawrence, east by Cape Breton Island, south by Nova Scotia proper, and west by New Brunswick. The greatest length is 130 miles; greatest breadth, 34 miles; least breadth, 4 miles; area about 2,134 square miles. The surface is gently undulating, large part of it formerly forest, but the forest area has been greatly reduced by lumbering operations, fires, etc. Soil a light loam, not known to contain available minerals, but remarkably rich and particularly favorable for the growth of grasses. Principal productions—wheat, barley, oats, horses, sheep, pork, potatoes, cheese, starch, etc. It has valuable fisheries, especially of cod, mackerel, lobsters, and oysters; upwards of thirty-five thousand barrels of the latter being shipped annually from the port of Summerside alone. Has manufactures of tweeds, flannels, pottery, boots and shoes, agricultural implements and domestic articles, sufficient only for home use; ship building was formerly carried on to a considerable extent, but has recently become much reduced.

The number of newspapers and periodicals published in Prince Edward Island is 13, including 3 daily, 1 semi-weekly and 9 weekly. The places of publication number 3, of which 2, designated by a dagger (†), are county seats.

QUEBEC.

Population.....1,648,898

PROVINCIAL CAPITAL, QUEBEC.

QUEBEC is bounded north by Hudson Bay, east by Labrador and the Gulf of St. Lawrence, south by New Brunswick, Maine, New Hampshire and New York, southwest by the Ottawa River, which separates it from Ontario. Length from east to west 700 to 1,000 miles, breadth about 300 miles; area about 188,688 square miles. Surface south of St. Lawrence generally hilly, northern part mountainous and rocky and abounding in rivers and small lakes. A great part of the surface is covered with forests. Soil in many districts is rich, and cereals grow well. Oats, potatoes and hay are the chief crops; also wheat, barley, rye, buckwheat, flax, peas and beans are raised. Hops and apples are extensively grown. Cattle raising and cheese dairying are important industries. Copper and mica abound in the eastern townships, and iron almost everywhere. Lead, silver, platinum, zinc, etc., are in abundance, and there are large deposits of phosphate of lime in the Ottawa River district. Gold is found in several places. The lumber industry is the principal one. The fisheries are also important and rank next to those of New Brunswick in value. Ship building is carried on in Quebec. Lumber is a valuable article of export. The principal manufactures are cloth, linen, furniture, leather, sawed timber, flax, iron and hardware, paper, chemicals, boots and shoes, cotton and woolen goods, agricultural implements, etc. Montreal, though not the capital, is the largest city in the Province and the chief commercial city of the Dominion.

The number of newspapers and periodicals published in Quebec is 154, including 15 daily, 1 tri-weekly, 2 semi-weekly, 1 six times a month, 98 weekly, 2 fortnightly, 31 monthly, 1 bi-monthly and 3 quarterly. The places of publication number 46, of which 22, designated by a dagger (†), are county seats.

NEWFOUNDLAND.

Population.....216,615

CAPITAL, ST. JOHN'S.

NEWFOUNDLAND is in the Atlantic Ocean, at the mouth of the Gulf of St. Lawrence, bounded north and northeast by Labrador (Belle Isle Straits intervening); Cape Breton is off its southwest point; east by the Atlantic Ocean, and west by the Gulf of St. Lawrence. Its extreme length is 350 miles; average breadth 130 miles, and area 40,200 square miles. Surface generally rugged, with numerous lakes and rivers; not much timber, except along the streams and on the western side of the island. Soil is fertile near many of the lakes and rivers, and in many places farming is profitable. Wheat grows well; also potatoes and green crops generally; apples and small fruits are profitable. The timber lands are unsettled, and lumbering is not carried on. Copper and lead are mined; the other minerals comprise iron, silver, manganese, nickel, plumbago, marble, limestone, coal, etc. The fisheries, both on the Grand Bank and inshore, are very extensive and valuable. The seal fishery employs many vessels and steamers. The Newfoundland cod fishery is the most extensive of the kind in the world. The aggregate annual catch of cod in North American waters is estimated at about 150,000,000 fish, worth about \$15,000,000. Principal exports are fish and fish-oils, seal-oil and skins, and amount to more than \$5,000,000 annually. Manufactures are very limited, and are confined to St. John's. The coast of Labrador, on the mainland, is now included in the colony; it comprises about 120,000 square miles, but has only 4,211 inhabitants.

The number of newspapers and periodicals published in Newfoundland is 17, including 4 daily, 8 weekly, 4 monthly and 1 quarterly. The places of publication number 5, of which 3, designated by a dagger (†), are county seats.

(For map see New Brunswick.)

CUBA AND WEST INDIES.

CUBA.

Population 1,572,797.

CAPITAL, HAVANA.

CUBA, the largest of the West India Islands, is situated about 100 miles south of Florida from which it is separated by the Florida Straits. It is 800 miles in length from east to west; greatest breadth at Cape Cruz, 110 miles; average width from 50 to 60 miles, except at its western extremity where it is about 30 miles. Total area about 42,000 square miles. A mountain range intersects it longitudinally. The climate is hot and dry, and healthy only in the interior. Snow is never known to fall, but frost occurs occasionally on the highest points. The rainy season is mainly confined to July, August and September. The mountains are rich in minerals and there are abundant forests of mahogany, ebony, cedar and other valuable woods. The vegetation is exceedingly luxuriant; the principal cereal is Indian corn, of which two crops are obtained in a year. Rice is also produced in large quantities, but the principal crops are sugar, coffee and tobacco, and of these the first is by far the most important.

HAYTI AND SANTO DOMINGO.

Population, 600,000.

(For Map, see Cuba.)

Next to Cuba, the largest of the West Indian Islands. The western or smaller part of the island is known as Hayti, and the eastern, which comprises about two-thirds of the whole, is known as the Dominican Republic. The total area is nearly 30,000 square miles. The surface is mountainous in the centre with extensive plains in the southeast. Soil is highly fertile, a great part of the Island is covered with dense forests of mahogany, logwood, cedar and other valuable timber. The chief products are cotton, rice, maize, cocoa, arrowroot, tobacco, sugar, coffee, bread-fruit, indigo, mahogany, logwood, etc.

BERMUDA. (BRITISH.)

Population 19,289

(White, 6,718; Negroes, 12,571).

CAPITAL, HAMILTON.

A group of islands (British) in the North Atlantic Ocean, 660 miles southeast of New York. Although said to be 365 in number, they occupy a space only 18 miles by 6 miles. The largest has an area of 9,000 acres, the whole group containing only about 12,000. They are of coral formation, on the summit of a submarine mountain. The climate is delightful, without extremes of heat or cold, the temperature ranging from 55 to 85 degrees, and the islands are a favorite Winter resort for Americans and Canadians. The soil produces almost every description of fruits, flowers and vegetables abundantly. Onions are the chief crop, and the culture of flowers, especially lilies, for the American market, is a large and growing industry.

JAMAICA. (BRITISH.)

Population 650,000.

(Of whom about 15,000 are whites.)

CAPITAL, KINGSTON.

The most important of the British West India Islands, situated 90 miles south of Cuba. Its length is 145 miles, the greatest width 50 miles. Area 4,250 square miles. It is traversed by mountains in all directions, the highest of which (Blue Mountain) reaches an elevation of 7,360 feet. There are numerous other peaks varying from 2,000 to 6,000 feet. The soil in the valleys is very productive and vegetation extremely luxuriant. Most of the staple products of tropical climates are raised. Jamaica is famous for its coffee. In addition to sugar, which is the chief product, dye-woods, coffee, cocoa, ginger and other spices, rum, fruits, etc., are largely exported. There is an abundance of timber, including all tropical hard woods; there are no mines or fisheries and manufacturing interests are very small.

MONTHLY AND WEEKLY PUBLICATIONS OF GENERAL CIRCULATION.

SPECIAL NOTE.

In dividing publications of **general circulation** into classes or groups, it is not possible to meet the ideas of every publisher or every advertiser.

It must be borne in mind that some publications have more than one subject to which they devote special attention. Because of this there is apt to be some difference of opinion concerning the best classification of the publications that appear in the Magazine, the Women's, or the Mail Order list.

If the publication sought has general circulation, as distinguished from special or class circulation, it can as a rule be found in one of the three lists in this group, if it is not in the one first consulted.

MAGAZINES, WOMEN'S PUBLICATIONS, AND MAIL ORDER JOURNALS.

See Special Note on Page 1085.

ADVERTISEMENTS

Whenever the words "See advt." appear below the circulation figures given any paper in the catalogue section, they refer to an advertisement of that paper in the following pages.

We suggest that it be consulted.

Not all newspaper publishers believe in advertising as a means of helping their own business. Some do, however, as the following pages attest.

We bespeak from those who use this book, special consideration for the publishers who have shown their enterprise and their faith in advertising by paying for space in which to set forth the special claims of their publications to the patronage of discriminating advertisers.

The Index opposite will tell who and where they are.

A handwritten signature in cursive script, appearing to read "A. Mearns". The signature is written in dark ink and is positioned below the main text of the page.

Publishing Plants of the Lewis Publishing Company, producing over Ten Million Copies of the Company's Daily, Weekly, and Monthly Journals each month. Conceded to be the largest and finest publishing plants in the world.

An Open Invitation

Advertisers and advertising men are cordially invited to come out to University City whenever they visit St. Louis. University City is a 40 minutes trolley ride from the St. Louis business district. Thousands of people from all parts of the world visit us every year. It is an interesting, educating and wonderful sight—especially to those engaged in the advertising business.

No advertising man can leave here without the impression that here, in University City, stands advertising's greatest monument.

THE LEWIS PUBLISHING CO. University City, St. Louis, Mo.

We Do Not Make Claims— We Submit Proofs

No man should spend his money or his firm's money without **KNOWING** what he buys. No business ascends the ladder of success far or stays up long that buys "pigs in a poke."

Such buying wouldn't "prove out" in our business and will not in the buying of advertising space.

The Woman's Magazine

submits proofs of circulation in any way the advertiser desires. Name the way you want. That serves to show the exact **QUANTITY**.

We allow you to determine the **QUALITY** of the Woman's Magazine circulation by getting, on your request, our **PAID** subscription list of any town or city in the United States where you are familiar with the people. You can decide whether or not those people use your goods. Will you give us a chance to let you risk **YOUR OWN** judgment on this point?

We have ready for you detailed circulation statement by States.

We will do more. We will furnish exact circulation in cities or in towns you may name.

We have nothing to conceal. All to tell. When you buy space you can feel sure your dollar goes as far as anyone's else dollar. Our rate card is fair—and inflexible.

Name the kind of information you want if it is not covered in the above. It is to our interest to furnish it and to your best interest to **KNOW** it.

Let us show you **WHY** you should include The Woman's Magazine in your next list.

Tell us who you are, and where you are—the information is yours for mutual benefit.

What Part of this \$50,000,000 Did You Get?

There is a post office in Ohio with five Rural Delivery routes. The town itself has 1500 population, besides six cities, within 25 miles, that range from 7000 to 50,000. The combination of cities have stores that offer buying advantages superior to the average.

YET

the carriers on those five routes sold money orders to a total of nearly \$7000 in 12 months.

This is a concrete example of the buying possibilities of the thousands of rural routes, and a positive demonstration of the power of honest advertising. This particular community has been buying by mail before. So has every other community. Conservative rural residents in one single locality wouldn't toss up \$7000 in an experimental way. They have learned cash values. They know the value and advantage of assortment.

AND THERE ARE 41,000 RURAL ROUTES IN THE UNITED STATES! Over \$50,000,000 of spending money!

Tell the responsive subscribers of the Woman's Magazine what you have to sell. They buy by mail. You sell by mail. With the right kind of circulation going to the right kind of people, we believe no advertiser can show good reason WHY he should not be a Woman's Magazine advertiser.

We want one thing only from you, the advertiser—a chance to show (to PROVE) circulation quality, circulation quantity.

Reach the plastic minds that control pliable purses along a line of least resistance—Woman's Magazine is such an avenue.

We ask you to send for complete circulation statement. We will answer any advertiser's question.

Determination Makes its Paths St. Louis Star

the home paper of St. Louis, the growing gateway to the great southwest—an empire of vastness and richness.

The ST. LOUIS STAR has a larger percentage of home circulation than any other newspaper in St. Louis.

Quality did it. Quality in this case consists of clean, complete general, state and city news services with advertising columns free from medical or other objectionable advertising.

The growth of the ST. LOUIS STAR has not been spasmodic. It has been of that even, substantial, come-to-stay kind that stimulates to greater things the capable brains of the men that made for St. Louis such a paper.

Pick up a sample copy with us.

Look at the general make-up from a typographical standpoint; go into the news matter, and the fine hand of a TRAINED editorial force is immediately apparent; note the press work, and another example of mechanical skill is thrown to view. The type matter, the cuts, the advertisements, all stand out as only perfect machinery and competent men can accomplish.

Your advertisement would stand out and the results to be obtained could only come from a publication that covers St. Louis as does the ST. LOUIS STAR.

You are invited to prove our circulation, or we will prove it for you.

You can have access to our print paper bills.

You can go right in our press room and our mailing room.

Or, without our knowledge, you can go out as many afternoons as you like and follow as many different carriers. Count how many each delivers, then come to the office and compare your figures with our records.

While you follow our boys, note what other St. Louis papers are doing.

The city is open. Take the workingman's section or the most exclusive residence section in the west end.

Every man connected with the ST. LOUIS STAR is faced the same way, energetically working and making "our" paper a greater home paper every day, and here is one of the proofs—

25,629 more people read the ST. LOUIS STAR every day during the month of October, 1909, than during October, 1908.

*If an Advertiser Really Wants His Publicity to
Go Into the 114 Counties of Missouri*

There is a Way

THE JOURNAL OF
AGRICULTURE
ST. LOUIS, DOES IT

The JOURNAL OF AGRICULTURE circulates almost wholly in Missouri—the State that produced over 215,000,000 bushels of corn in 1909; over 3½ million hogs; other farm products in proportion.

The balance of the circulation goes to farmers—equally prosperous—in adjoining States.

Continuous prosperity has developed positive purchasing power among the people who watch for the weekly visit of the only agricultural publication that has paid subscribers in every one of the 114 counties of Missouri and PROVES its circulation.

An advertiser cannot annoy us by asking questions about what we want to sell him. In justification of our desire to sell, we prove how much actual circulation the JOURNAL OF AGRICULTURE has and exactly where it is.

Ask us any question you like. We will answer it without hesitation, with honesty. We will not “side-step,” four-flush nor bluff. You can have all the information that is in our circulation department and look at it from any angle you like—and then ask us more questions.

Post office receipts always in evidence.

We pay money for space to tell you this. It is worth money for you to know it.

Guarantees to Make Good in Dollars and Cents

Any loss that a subscriber may suffer at the hands of any advertiser whose business may be accepted for

The Woman's Farm Journal

The publisher, through this just policy, wins the confidence of his subscribers; besides, no advertiser wants to feel that his advertisement is next one from which is absent that sincerity and honesty of purpose that makes advertising a success—that makes subscribers come to know and to believe in advertised goods.

The policy has won the unqualified confidence of THE WOMAN'S FARM JOURNAL subscribers. They believe in us because the publication is edited for them and their interests. The record of 19 years shows that advertised goods appealing directly to men or directly to women have profited the advertiser.

No advertiser should be without full information about a publication that sells to men and to women alike.

No advertiser can afford to have a losing paper on his list of mediums. Neither can he afford to keep from his list a paying publication.

THE WOMAN'S FARM JOURNAL is a paying publication.

We know. We made it so.

We can tell you how it was done.

We want to tell it to you.

A long list of advertisers have known it for years.

Go back year after year in our files. They show who knows, and these same men's advertisements in the late issues prove that **THEY KNOW** they know.

It is to **YOUR** benefit to get our detailed circulation statement—and ask all the questions you like. We will send the statement and answer all the questions—and do it by return mail.

For Home Owners, Home Builders
and Prospective Home Builders

Beautiful Homes

It fills a real desire. Every advertiser an actual prospective buyer for the materials that enter the construction of a house, the furnishing of it or its improvement.

A medium that is supported by home owners and home builders. A medium built for them—no one else. A sample copy would convince any advertiser that it goes into the hands of those whose interest in building homes is a live, active interest. If it were not, they would not be subscribers.

BEAUTIFUL HOMES has the Lewis habit when it comes to proving circulation. Name the way you want to get it—it is yours.

Detailed statements, sample copies and rate cards always ready to mail. Your request—and we want it—would take them back to you by first mail.

We are prompt. Missing an issue of BEAUTIFUL HOMES is like missing money out of your pocket. You know how the latter feels. You will never know how the former feels until you have tried it.

An in-the-home paper, a woman's daily newspaper with news features, market reports, household pages, fashion pages, and special features not found in other daily newspapers.

The WOMAN'S NATIONAL DAILY advertising rates are based on GUARANTEED PAID circulation. No concessions to offer anyone. The publisher that makes a concession to ONE advertiser is unfair to ALL the others.

You know it.

When a publisher makes a concession to one advertiser, that advertiser can accept the apparent advantage as a substantial basis for his suspicion that still another—maybe his most direct competitor—is getting a greater concession. The way to be fair is to be fair.

We Are Pre-eminently Efficient

Here live the richest people on earth—the people you should talk to—sell to.

Inside that black line we have by far the greatest circulation.

Go into more homes and stay there.

Let us be your salesman inside that black line.

The circulation is now more than one million one hundred thousand each week and is rapidly growing.

We know our readers—friends worth having—clean-minded folk.

They admire an attractive picture, cheer for a rattling story, applaud a fine sentiment, mightily relish good humor; but they won't stand scolding, abuse, or bad temper.

They want action, color, health, good cheer. There is never a sour or pessimistic note in our columns.

By the way, there are by actual count more words, which means a greater number of stories, more special articles, more short anecdotes, in four copies of the Associated Sunday Magazines than in any one issue of any of the standard monthly magazines.

Awhile ago we took a straw vote to find out how long copies of the Associated Sunday Magazines lived—were kept in the house.

50% of our readers keep a permanent file.

20% keep the magazines until they are thoroughly read.

19% when they have finished reading pass the magazines on to their friends.

1847—SIXTY-TWO YEARS OF PROGRESS—1909

The Evening Wisconsin

Milwaukee's Leading Home Paper

SOME OF THE REASONS why you should include this paper in your advertising appropriations for 1910—if you wish to receive profitable returns:

Its average daily circulation is over 40,000 copies.

It not only thoroughly covers the City of Milwaukee and all the surrounding suburbs, but it goes to over 1,000 other towns in the State of Wisconsin.

It regularly carries the advertisements of every Leading Milwaukee Merchant—they have proved its value.

Since January 1st, 1909—eight months—it has carried over 8,000 columns of Display Advertising.

The fact that its columns are always clean and pure makes it fit for every home—makes it the “home paper”—the paper for the Advertiser

If you intend to advertise in the
great State of Wisconsin,
use Wisconsin's Great Paper.

Third Nat'l Bank Bldg., St. Louis

BUFFALO NEWS Guaranteed circulation over 95,000 copies daily. Every prominent local and foreign advertiser uses the News—many exclusively. Stands supreme and unapproached in its field. Ask anybody in Buffalo—the best test.

MEMPHIS COMMERCIAL APPEAL Guaranteed circulation over 50,000 copies daily and 70,000 copies Sunday. Ninety-five per cent. of the literate population of Memphis and Memphis territory read The Commercial Appeal. Ninety-seven per cent. of its city circulation is delivered into the homes.

ST. JOSEPH NEWS & PRESS Guaranteed circulation of 39,000 copies daily. The best proposition by long odds, not only of St. Joseph, but of the Middle West. Flat rate makes it a splendid "try out" proposition. Only evening newspaper in city of over 100,000 population.

PITTSBURGH POST Guaranteed circulation over 58,000 daily—72,000 Sunday. Less duplication than any other Pittsburgh paper. Combination rate with The Evening Sun gives 120,000 exclusive circulation at Pittsburgh's fairest rate. The Post's prestige and influence make Post advertising pay.

PITTSBURGH SUN Guaranteed circulation over 64,000 daily. The only Democratic evening paper in Pittsburgh, and has a clientele unduplicated and distinctly its own. Ask the Pittsburgh merchants.

NEW ORLEANS ITEM Guaranteed circulation over 30,000 copies daily and Sunday. New plant, new equipment, growing every month; a phenomenal success. Best proposition in New Orleans and no complete success there without using it. Largest circulation—fairest rate—makes the Item pay.

BOSTON TRAVELER Guaranteed circulation over 95,000 copies daily. A clean, 1-cent, home-reading newspaper, with a clientele distinctly its own. Second cheapest per line per thousand in Boston. Always makes good.

BINGHAMTON PRESS AND LEADER Guaranteed circulation over 21,000 copies daily. Over double the circulation of its nearest competitor (guaranteed), and is supreme in its field as a result-producing proposition. One of the country's most notable newspapers.

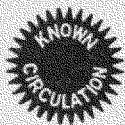

INDIANAPOLIS SUN Guaranteed over 20,000 daily. By far the best space bargain in one of the best and most responsive cities in the country. The Sun is a necessity on any list that attempts to cover Indianapolis and it is delivering tremendously.

COLUMBIA STATE Guaranteed circulation over 13,000 daily, 14,000 Sunday. Ranks with the leading newspapers of the country in return-producing value. No advertising campaign successful and no Southern list complete without it.

CHATTANOOGA TIMES Guaranteed circulation over 19,500 daily. Reaches 11,000 homes in Chattanooga every day—more than double that of the other Chattanooga paper.

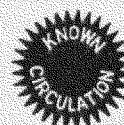

NASHVILLE AMERICAN Guaranteed circulation 25,000 daily. Leading morning paper of Nashville. Carries more local store advertising every week than any other Nashville paper.

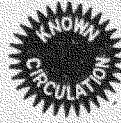

EVANSVILLE COURIER Guaranteed circulation over 18,000 daily and Sunday. Largest circulation by thousands, and only Evansville paper that will prove circulation. See report A. A. A. on Evansville.

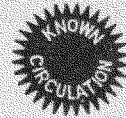

Regardless of what other newspapers may conclude is business judgment, the known circulation list represents newspapers that have no dark press rooms, no closed books, no evasive circulation statements. In making up your list of advertising, use those papers where there are no padlocked press rooms to keep you from the truth.

SEE NEXT PAGE.

The "Known Circulation" seal is a mark of fixed purpose—to show the advertiser what circulation he is buying—to prove value—to be honest and square—to offer space as space should be bought, as a fixed, definite business proposition.

ATLANTA GEORGIAN & NEWS Guaranteed circulation over 40,000 daily—the paper that has "changed the map" in Atlanta and offers advertisers a proven circulation and equality in rates. One look at the Georgian and News tells why.

LITTLE ROCK GAZETTE Guaranteed circulation over 17,000 daily and 20,000 Sunday. Only morning newspaper in the Capital of the State, and Arkansas can be covered exclusively by the Gazette. Only Little Rock newspaper proving its circulation. 75 per cent. more circulation guaranteed.

SYRACUSE JOURNAL Guaranteed circulation over 27,000 daily. Only one local (Syracuse and environs) circulation than any other Syracuse paper. Ask your Syracuse connection.

NORFOLK LEDGER-DISPATCH Guaranteed circulation over 18,000 daily. The consolidation of the Ledger and The Dispatch gives Norfolk only one afternoon paper and one paper that dominates its field. Larger circulation by 25 per cent. than all other Norfolk papers combined.

NEWPORT NEWS TIMES-HERALD Guaranteed circulation over 5,000 daily. Best medium in Newport News. Only evening paper in its city, and with Norfolk Ledger-Dispatch (combined rates) thoroughly covers all Tidewater, Virginia.

MOBILE ITEM Guaranteed circulation over 11,500 daily—Largest circulation of any Mobile paper. Dominates its field—best advertising medium—absolutely necessary to a successful Mobile campaign.

BIRMINGHAM LEDGER Guaranteed circulation over 22,000 daily—more than that of any other Birmingham paper. Recognized generally as the best advertising medium in Alabama.

SAVANNAH PRESS Guaranteed circulation over 10,000 copies daily. To thoroughly cover Savannah The Press must be used, and with a reasonable rate card it is not only the cheapest, but the best. Ask anybody in Savannah.

RICHMOND EVENING JOURNAL Guaranteed circulation over 17,000 copies daily. The paper that gets the LOCAL business. Gives splendid results at a fair rate. Examine a copy.

THE "BIG FIVE" WEEKLIES

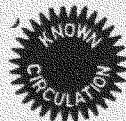

PENNSYLVANIA GRIT Guaranteed circulation over 140,000 copies weekly. Goes into more than 10,000 of the smaller cities, towns, and villages of the country. Read by prosperous people, wage earners, trades people. Ask anybody about "Grit"—America's greatest weekly.

UTICA SATURDAY GLOBE Guaranteed circulation over 140,000 copies weekly. Beautifully printed and carefully edited to the likes of a purchasing clientele throughout New York, Pennsylvania and New England. To reach the right sort, don't omit the Globe.

NATIONAL TRIBUNE Guaranteed circulation over 115,000 copies weekly. Published at Washington and a publication of absorbing interest to all Civil, Spanish, and Philippine War veterans. One of the best-known "pullers" on "keyed" advertisements.

WEEKLY COMMERCIAL APPEAL Guaranteed circulation over 90,000 copies weekly. Thoroughly covers the most prosperous section of the rich South and Southwest. One of the best-known leaders on numbers of "keyed" propositions. Try out the Commercial Appeal's rich territory.

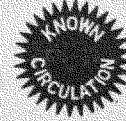

ELMIRA TELEGRAM Guaranteed circulation over 90,000 copies weekly. Unapproached in a rich field as a medium to cover majority of the territory of Southern New York and Northern and Northeastern Pennsylvania. At the rate a sure result producer.

Advertising Is Overdone in the City

In the shop windows, on the bill boards, by hand bills and dodgers, by innumerable dailies, weeklies and other periodicals, and in a thousand other ways, so that your advertisement, if noticed at all amid the bustle and distractions of city life, makes little impression on the busy metropolitan population.

The vast majority of the city population are fighting a life-and-death struggle to make both ends meet.

The Country People Constitute Two-Thirds of the Population

They live in families and most of them own their homes; unaffected by the panic, with large crops at high prices for a series of years, they have become the most prosperous constituent of our population; large consumers with money to spend and meager home facilities for satisfying their increasing wants, the practice of trading by mail-order has become almost universal and is rapidly growing with them.

Here Is the Best Market and the Least Competition

They are looking for your goods; they read and ponder the ads., and they patronize the advertisers.

COMFORT'S Circulation Is Among the Country People

Each month it is welcomed in a million and a quarter homes, in many of which it is their only paper or periodical.

 Every Saturday

The only newspaper in all New England that chronicles Catholic social activity

Seventy per cent. of the people of Massachusetts are foreign born, or of the first generation of foreign born parents. The largest proportion of these are members of the Catholic Church. In a pamphlet recently issued by the Massachusetts Census Bureau, entitled "Race in Industry," it is shown that the Catholic wage-earners of Massachusetts, numbering 500,000 persons, earn \$300,000,000 per year. It is figured that \$250,000,000 of this goes into the channels of trade. They eat, drink, wear clothes and buy things, and thousands of them read THE REPUBLIC, Boston's Leading Weekly.

HE housewife is the *guiding spirit* in every department of the home. She does all the buying for herself, for the home, and nearly all for the other members of the family. *She is the person* whom most manufacturers of national products *must reach* to sell goods.

More than 400,000 women subscribe to THE HOUSEWIFE. Because it is clean, wholesome, interesting and practical, THE HOUSEWIFE enters into their homes as a *confidant* and *close companion*.

Its advertising columns are supported by practical hints and helps which make it exceptionally valuable for advertising any article appealing to the wife and mother.

During the years 1908 and 1909 more than *seventy national advertisers* used THE HOUSEWIFE for the *first time after a thorough investigation* of the value of its circulation. Their *number is augmented* constantly by other conservative houses. And here is an impressive fact—when an advertiser once enters THE HOUSEWIFE'S columns, results are invariably so gratifying as to give it a permanent place near the top of the list.

The rate is low, considering its circulation and compared with similar publications. A line to our advertising department will bring full information, rates, sample copies, etc.

"The Best Newspaper in America"

Mr. Chas. H. Grasty, in an article in the June, 1909, issue of *World's Work*, says:

"THE KANSAS CITY STAR" is often spoken of as the best newspaper in America. . . . The Star began with one standard—public service. Everything has been secondary to that."

And, recognizing the character of The Star, Mr. William Allen White has said:

"No newspaper in New York—morning or evening—is as good a newspaper, as clean in tone, as independent in thought, as honest in conviction, and so cosmopolitan in its news-sense. A paper as good as THE KANSAS CITY STAR in New York will circulate by the million."

But the greatest mark of appreciation is that "Everybody in Kansas City" and the best and most prosperous people in the surrounding cities and towns regularly read

Green's Fruit Grower and Home Companion

*A Monthly Magazine for the Fruit
Growing Farmer and His Family*

Do you realize that the entire output of gold in the United States during the past year was \$90,000,000 while the fruit crop from a single state last year sold for \$101,000,000. If you appeal to the farm folks with your advertising **Green's Fruit Grower** ought to be among the first on your list.

The fruit-growing farmers are among the most progressive and prosperous people in the land. The only way to reach all of this class of farm folks is through **Green's Fruit Grower**.

Ask N. W. AYER & SON or any good advertising agency, or write to **Green's Fruit Grower Company, Rochester, N. Y.**

Green's Fruit Grower reaches practically all of the fruit-growing farmers in the country. It is read by at least 125,000 of the first families of farm folks.

ADVERTISING & SELLING

is a combination of "Profitable Advertising" of Boston—the oldest and only strictly independent monthly advertising magazine in the world—and "Selling Magazine"—the only magazine in its field.

The combination of these two unique, and already proven, valuable publications makes "ADVERTISING & SELLING" the only single publication covering these two branches of marketing—advertising and selling. Its circulation is double that of either of the old magazines.

The editorial department is conducted by George French, formerly editor of "Profitable Advertising."

The business department still has the assistance of the former owners of each of the old publications, but has increased facilities, and will prove of valuable assistance to advertisers.

A Man Is Known by the company he keeps. Readers of modern newspapers have come to judge them—to a certain extent at least—by the character of the advertising which they print. No other newspaper published in the United States is as particular as **THE CHICAGO EVENING POST** in scrutinizing the advertising copy offered for its columns.

Nothing unworthy is accepted at any price. Get-rich-quick schemes, patent medicine buncombe, speculative and mining claims and objectionable announcements of any kind are rigidly barred. Such advertising as The Evening Post presents to its readers day by day is from reliable firms, and Post readers have learned to believe and appreciate this fact.

This matter becomes of vital interest to business men who are buying advertising space when the character of **THE EVENING POST'S** readers—the most intelligent class in and about the great City of Chicago—is taken into consideration.

Reasons Why

It will pay you to advertise in the

Wächter und Anzeiger

It is the only German Daily (and Sunday) in Cleveland, and 39.78 per cent of the total population in Cleveland is German

Therefore your advertisement in the columns of the Waechter & Anzeiger will be read by thousands who can be reached through no other medium.

Cleveland Germans are prosperous—they own 44.9 per cent. of all the homes owned in Cleveland.

In these homes the Waechter & Anzeiger is read—the home circulation brings results.

It is a modern, up-to-date newspaper of acknowledged influence.

It has for more than half a century enjoyed the entire confidence of its readers. This confidence is shared by the advertiser using its columns.

No street sales. Your advertisement in its columns finds its way direct into the family.

Benziger's Magazine

A Catholic monthly of the very highest class—the publication that has proved a "Good Puller" for honest and marketable propositions.

It differs from the ordinary magazine in that it is more intimately in touch and sympathy with the life and needs of its subscribers.

Its endorsement of your goods or proposition will be valuable to you—it will be glad to give you this backing if what you sell is worthy of it.

Guaranteed Average Circulation, 75,000

Further facts and figures will be gladly furnished on application.

The Journal and Messenger *The Leading Baptist Paper in the Central States.*

There are over 4,000,000 Baptists in the United States. THE JOURNAL AND MESSENGER is one of the four leading Baptist papers in the Northern States. Its field lies west of the Alleghany Mountains. The central office is in Cincinnati.

THE JOURNAL AND MESSENGER receives the active support of its denomination, and reaches most of the well-to-do families with means to buy, and thus becomes the best advertising medium for the best articles—those that have merit. One advertising agency and many advertisers report that they get better results in proportion to the cost and circulation than from any other religious paper. Size 32 pages, 9x13 inches. Subscription price, \$2.00. The paper has been published continuously since 1831.

Two Magazines that Reach a Clientage of Their Own

No Duplication

The STRAND

The STRAND is a big, progressive, modern monthly magazine, always ahead in providing new features.

The main feature is its distinct individuality and its unusual and unexpected articles of live interest, all profusely illustrated. It has a clientage peculiarly its own; consequently

The STRAND offers a circulation which cannot be duplicated by any other magazine

The WIDE WORLD

The magazine which scours the globe for stories, anecdotes, topics of interest. Profusely illustrated. Wholly different from other magazines. The WIDE WORLD is an advertising proposition unlike any other. The best value for the money in the market.

Prices Are Right!

Books are opened to audit of A. A. A. and with every yearly contract we give a guarantee of an average combined monthly circulation of 200,000 for \$200, less agent's commission and 5 per cent. cash discount.

The Boston Cooking School Magazine

reaches more cooking teachers and lecturers, dietitians in hospitals, matrons of public institutions, managers of tea rooms, etc., etc., than any other periodical published. About ten per cent of its circulation goes to this class of readers—the rest to well-to-do housekeepers.

For advertising a food product, a kitchen utensil, or a household necessity there is no better medium for the money.

THE HOME OF THE DANVILLE PUBLICATIONS

Normal Instructor and Primary Plans cover the entire Educational field and teach more Teachers than any other similar publications. Most of our readers are in small towns and country districts and are therefore more or less dependent on advertisements and catalogs for their supplies. They are not only good mail order customers, but bureaus of information to the community as well, for the teacher's opinion is sought by parents in selecting many things for their children and home, and if she is acquainted with your proposition, she will recommend it. Don't you think it worth while to get in touch with this vast army of instructors? Let us send you our rate card and further information. We refer you to N. W. JOE MITCHELL CHAPPLE, Editor of the National Magazine, is the eldest of four boys. His trading of an old violin for a hand printing press marked the beginning of the Chapple Publishing Company. The brothers, four years apart in age, followed their leader, Joe, and the course covered many states. The Chapples' establishment and ownership of several newspapers led to their greatest success, at Boston, in *The National Magazine*.

Four brothers, all pulling together, have accomplished what one could not do alone. The difficulties encountered in building up a great magazine they have overcome.

The National Magazine has become a strong exponent of National progress and affairs; each month a quarter of a million people buy it. Joe Mitchell Chapple features the writings of the Nation's leaders on government subjects in *The National Magazine* each month, and the books, "Heart Throbs," "Heart Songs," "Happy Habit," made famous by readers of *The National*, tell a story no mere words can describe.

At news-stands, Fifteen Cents. By subscription, One Dollar and Fifty Cents a year.

CONTINUALLY turning the rich soil to be found in new fields—planting ideas of patriotism—harvesting thousands of new readers in every state in the Union—this is the way the remarkable growth of the National Magazine is being secured.

Where the National has an interested reader, its advertiser has a promising buyer.

COME! Enjoy the benefits which the wave of good feeling created by the National's policy will add to your advertising.

You select progressive, enterprising salesmen—they are essential to your business—the same rule should apply to your selection of advertising mediums. Let the National carry your line on its next trip.

The SOUTHERN RURALIST is valued so highly by its readers that they keep it for reference. The last week in August, 1909, the Brinly-Hardy Co., of Louisville, Ky., received three orders for Corn Shellers through The Ruralist. The last insertion of their ad appeared in the March 1st, 1909, issue. They gave us a new contract.

Watered Circulation vs. Buying Power

How Can the Percentage of Waste Circulation vs. Efficient Circulation be Estimated?

By the methods employed in securing circulation. By eliminating clubbing offers; by a comparison of subscription lists with taxpayers, etc.

Are Rates Based on Circulation Figures or on "Net" Efficiency of Readers Buying Power?

It is the custom to base rates on gross circulation. **THE THEATRE MAGAZINE'S** rate is based, first, on purchasing efficiency of its readers; second, on the known quantity of its readers' full-paid subscription price; third, on the net paid-in-advance reading value of its circulation.

The circulation of **THE THEATRE MAGAZINE** is "net" efficiency from the start. There is no water (bargain clubbing offer), no indiscriminate element, no cheap clap-trap readers. Its 62,000 circulation is a solid group who love the luxuries as well as the necessities of life and have the money to buy them. This fact guarantees a higher return on your advertising investment.

The Theatre Magazine

Has built a small but highly efficient circulation of over 62,000 subscribers whose average incomes range from \$2000 a year up. Its readers are the best buying element in the cities and towns. Rates, current copies, etc., on application to

THEATRE MAGAZINE, 26 West 33d St., New York

You Must Use These Papers

OR you will fail to reach a majority of the BETTER CLASS OF WHITE PEOPLE in the Southern States. We know the South as only Southern men can know it. As the largest special agency in the country it has been our business to study Southern conditions *right on the ground* for the last ten years and, in all candor, we say to the Northern advertiser that if he depends on other media than ours to reach the substantial element of white men and women in the great wealth-producing agricultural sections of the South, he *will fail utterly* in putting his proposition before millions of the best buyers that any section of the country can offer. Neither Northern magazines nor Southern dailies and weeklies will fully accomplish his end—a condition we are prepared to prove to his satisfaction. The South must be judged by its own peculiar standard of circulation and the rules that apply in the North and West *do not* obtain at all in the South.

We would like to explain all this to you; and as the better element of Southerners are now practically rolling in wealth, you could not select a more opportune time for offering your goods to them.

On the opposite page is a list of the 47 standard publications we represent. WHITE circulation only absolutely GUARANTEED. Rate, from 10c to 7c per inch per 1000 circulation, according to space taken. Let us estimate on your proposition and explain how WE can make it pay you to use all or part of our list.

For
Twenty-
Seven
Years

The
Great
Outdoor
Magazine

¶ It is more so to-day than ever.

¶ It has the first call on the writings of the leading authorities on out-door subjects.

It is a Distinctive Publication

¶ It gets unusually "close" to its readers, because *it is essentially their particular type of magazine.*

¶ Over ten thousand of them write its Herbert Whyte Department of Helpfulness yearly for information on all sorts of subjects.

¶ They represent a little less than one in every ten of the *total readers*, but are still numerous enough to be *very* significant of the magazine's standing.

¶ They live in good homes, travel, have summer homes, and camps, own automobiles (30% of them), play golf and are generally so "substantial" as to be able to enjoy all of the recreations and pleasures which appeal to red-blooded "live" people.

¶ They are the very best type of *human beings* in the world, too, for good *general advertisers* to appeal to.

¶ As *customers* they are worth more to manufacturers than *any other one class.* They are not fickle and their *patronage* is the best *endorsement* a concern can have. Their trade *brings* trade.

¶ Advertisers using OUTING reach *more of them* and obtain a *greater influence on them per dollar expended* than through the use of *any other medium.*

¶ We have a large amount of specific proof fully warranting that statement. Furnished gladly on request.

The Medical World

REACHES THE MEDICAL PROFESSION EFFICIENTLY AND CHEAPLY

THE MEDICAL WORLD was established in 1883—more than a quarter of a century ago—and has steadily grown in popularity with the profession and with advertisers. It is to-day one of the leading medical monthlies of this country.

From the beginning THE MEDICAL WORLD has followed the plan of "no long articles," keeping strictly to short, practical, helpful articles on subjects of live interest. It is to its readers a medium through which they exchange views, experiences, ideas, report successes or failures, and ask the other readers for suggestions in difficult cases. This is one of the things that has made it so popular with its readers, and hence the efficient advertising medium that it is.

The class reached by THE MEDICAL WORLD are the active, general-practice physicians in all parts of the entire United States, but more particularly in the smaller cities, the towns, and the country districts.

It is published the first of each month. Copy should reach us by the 17th of the preceding month.

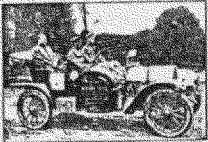

THE MEDICAL WORLD'S circulation is more than 27,000 copies every issue, and we are always glad to show proof of same. Write for rates; they are low for the service given.

HARTFORD Dunlop Detachable Tires

"The Tire
That Lasts"

Hartford Dunlop Tires Carry a Message from General Wood, New York, to San Francisco, giving no trouble whatever and Looking Little the Worse for Wear.

This is the Mitchell Ranger bearing dispatches from Maj. Gen. Leonard A. Wood, U. S. A., New York, to Gen. John F. Weston, U. S. A., San Francisco. Driver—Frank K. Zirkles, Private. Malcolm E. Perrott, beside him—Lieut. B. B. Rosenbhal in tonneau.

Hartford Dunlop Tires were selected for this strenuous journey because they are the acknowledged tires for hard service, easier than any other to operate in case of replacement. However, no replacement was necessary. The car arrived in San Francisco with the same set of tires it was equipped with when it left New York.

Here is the story of Hartford Tires as it appeared in the *San Francisco Chronicle*.

Good Work By Hartfords

A perfect score for the Hartford Dunlop tires that equipped the Mitchell Ranger which has now added to the record the continent is reported. It is noted that the four tires that were on the car when it left New York came through without trouble. And the wonderful thing about it is that they show not a great deal of wear and look good for plenty more work.

Another good record has lately been made by Hartford Dunlop tires. They were the equipment of the Columbus car that made the round trip dash of 150 miles between Los Angeles and San Diego in 40 hours and 21 minutes, and a letter from W. G. Chandler of Los Angeles states that the car never had to stop on account of its tires, there being not even a puncture during the long stretch of hard running.

Suppose Some Big Telephone Company offered you an opportunity to talk into a transmitter connected with wires leading direct into 233,989 homes, scattered from ocean to ocean; and guaranteed that the receiver of each instrument was being held to the ear of a woman.

Would you have anything to say?

If you could carefully prepare your remarks beforehand, would you not consider it worth quite a sum a minute to be able to talk into that transmitter?

The simile pictured above is a good one.

Our "transmitter" is *The Modern Priscilla*.

For twenty years there has been no magazine more closely identified with things dear to women. We guarantee that 233,989 women are waiting, often impatiently, for this publication from month to month. **Each has paid for it in advance.**

You can talk to these women for the small sum of \$1.00 a line.

They are good listeners, and whether you want them to buy direct from you or to buy your goods through the dealer, you will find them most satisfactorily responsive.

Don't take our word for this. Ask any first-class Advertising Agent, or any one of the hundreds of advertisers who are using *THE MODERN PRISCILLA*. Or, write to us for the most exhaustive information about a magazine subscription list ever compiled by a publisher. (See opposite page.)

Different From All Others

THE DAKOTA FARMER, Aberdeen, S. D., is *different* from all other farm papers in that it confines its subscription soliciting to a certain territory—North and South Dakota and Eastern Montana. One-half the farmers in the two Dakotas subscribe for and read THE DAKOTA FARMER.

Different in that it is published in the heart of its territory by men who know it thoroughly. The editor of The Dakota Farmer is a farmer and lives on and farms his farm.

Different in that it endeavors to sell subscriptions at a profit instead of getting names on the list regardless of cost. In line with this policy the subscription price will be raised to \$1.00 a year Feb. 1, 1910. The farmers of the Dakotas are willing to pay a reasonable price—one that will pay a reasonable profit to the seller—for an article of merit.

The DAKOTA FARMER Is a Real Farm Paper

Not an experiment; not a medium for the exploiting of hobbies by theorists; not a reprint—but editorially devoted to discussion of the actual conditions which obtain in the territory covered—North and South Dakota and Eastern Montana.

A QUALITY PROPOSITION The Dakota Farmer is a quality proposition—nothing cheap about it. **High class advertising only is wanted or solicited.** If yours is a **quality proposition**, and of interest to the farmers in the territory covered, it will pay you to use The Dakota Farmer.

The Dakotas and Montana

Richest and most prosperous agricultural district in the world. Sales possibilities unlimited. The publishers of The Dakota Farmer *know* the territory thoroughly and are prepared to be of service to advertisers. THE CIRCLE PLAN

To show that beauty, and honor, and kindness, and joy have not vanished from off the face of the earth, nor out of the hearts of men; to recognize and exploit the good in social, business, and public life; to find in individuals and in families the secrets of the life worth living, and then to tell these secrets to other individuals and families; to search out and tell in simple, direct language the romance of self-sacrifice, of noble endeavor, of high achievement, of devotion to others—not forgetting the humble and obscure while admiring the brilliant and famous; to spread the contagion of good until men and women and little children in every great city and every remote hamlet shall be caught in the epidemic; to come close to the hearts of these men and women and little children, and draw them, if we may, close to us in mutual sympathy and helpfulness; to encourage and join in their work and their play; to provide stories, and music, and pictures, and fun; to arouse enthusiasm; to awaken ambition; to guide this enthusiasm and this ambition into practical, worthy, successful effort: to be a magazine that loves and is proud of the people, both in city and in country, in mansion and in cottage, in high position and at the workbench, and that shall win the love and pride of these people in return—this is THE CIRCLE plan.

Sure Shot ADVERTISING

If you have anything to sell that good, live men want, need, or can use—you can make a hit with an advertisement in the

NATIONAL SPORTSMAN

It's a magazine of sports and outdoor life, good, snappy stories, with the breath of the forest and the salt air in every paragraph. A standard magazine size monthly. PREFERRED POSITION OPPOSITE READING TO EVERY ADVERTISER. No buried ads; all conspicuous. Sample copy and rates sent free upon application.

If You Were Trying

to reach an exclusive class, a liberal clientele, a number of people who can afford to buy and who have plenty of money to pay for what they buy, you would not think of placing the advertisement in a journal of large and indiscriminate circulation, but you would take the time to investigate the claims of a journal for the cultured. Such a journal is the weekly

San Francisco News Letter

Fifty years old, it has a circulation among the rich and the well-to-do. It is the standard weekly newspaper of California. It will pay you as an advertiser to investigate its claims. Advertising in the SAN FRANCISCO NEWS LETTER pays.

The Overland Monthly

It is recognized as the best of all Western magazines. It is seen monthly in thousands of homes from one end of the country to the other. It circulates from the Occident to the Orient, and it is mostly read in the Middle West and on the Pacific Coast. If you have an article to sell and you wish to reach the people of the West, you will naturally want to do so through their home magazine, the

*Young, prosperous and in
the market for your goods,*

With the Cash!

This truthfully describes conditions in the great Northwest—Minnesota and the Dakotas—the most promptly responsive advertising field in the United States. Being a comparatively new section, the farm lands are richly fertile, the farmers are young and have not, as have the older farmers in long settled sections, purchased farm utilities which will last for the next twenty years, but they are literally in the market every day and they have the cash to pay for what they buy.

The Northwestern Agriculturist

is the real live proposition up here. It is the only weekly farm paper in Minnesota and the Dakotas. The first issue of each month is a magazine number. It is an up-to-date farm paper and does the work for up-to-date advertisers.

They are really **sectional** papers; so carefully are they edited their text matter is strictly local in its value to our readers wherever they live. ¶ Orange Judd Weeklies have all the advantages of sectional and state papers plus the advantage of being national journals, and thus able to command the services of agricultural writers of renowned ability and breadth of view.

covers the rich agricultural states of the central west from Michigan and Indiana to the Pacific coast. It's the **only** farm paper that covers **all** the West. Its exclusive crop and market reports, and technical but practical articles are authoritative; its household features absorbingly interesting. It's the one western farm paper that guarantees the reliability of its advertisers, and it reaches the very best of the prosperous farmers who are buyers of advertised goods. **Its Circulation 90,000 Guaranteed**

has for 67 years been the "Agricultural Bible" of farmers in the middle and southern states from New York and Ohio south to the Gulf. American Agriculturist has more subscribers than any other two agricultural weeklies covering this section, furnishes 50% more reading, and four times as many illustrations. Its exclusive crop and market reports are authoritative upon supply, demand and prices. It guarantees the reliability of its advertisers, and it guarantees to its advertisers the circulation they pay for, and the best class of farmers. **Its Circulation 110,000 Guaranteed**

covers the six New England States. It reaches one out of every three farmers in New England—and the best third, too. Its circulation is greater than all the other farm papers covering New England combined. Its authoritative but strictly practical and adaptable reading matter makes it acknowledged the **only** New England farm paper. For density of circulation, for editorial leadership, confidence in its advertisements and purchasing power of its readers New England Homestead is absolutely unique. ¶ It guarantees its advertisers' reliability. **Its Circulation 50,000 Guaranteed**

Of the Farmers, by the Farmers and For the Farmers

The above applies with the greatest possible force to **FARMERS' TRIBUNE**, the great agricultural and live stock weekly, published at Sioux City, Iowa.

FARMERS' TRIBUNE is edited and published by men who are among America's most successful farmers and breeders. As a proof of the truth of this statement we mention the fact that Lakewood Farm, owned and developed by our President and General Manager, Mr. H. G. McMillan, has produced more prize-winning Percherons during the past five years than any other breeding establishment in the world. We cannot emphasize too strongly the fact that

Farmers' Tribune

is absolutely reliable editorially. Our editor, Mr. John Thompson, is a successful farmer and breeder. He is not only a practical farmer, but also an alumnus of one of our great agricultural colleges, and is an able and forceful writer.

FARMERS' TRIBUNE enjoys the confidence of its 50,000 subscribers in South Dakota, northeastern Nebraska, southwestern Minnesota, and northwestern Iowa.

Advertisers are getting big results
from **FARMERS' TRIBUNE**

If you have anything to sell that is used in the home or on the farm, advertising space in our columns will put you in touch with our army of buyers—200,000 members of farmers' families—in the states above mentioned. We shall take pleasure in quoting you display and classified advertising rates.

KIMBALL'S DAIRY FARMER

Successful Farming

GUARANTEED

is absolutely the strongest single advertising force in its territory—the great wealth-producing heart of the country.

SUCCESSFUL FARMING'S subscribers own more land than is comprised in all that part of the United States east of the eastern line of Ohio.

Approximately two-thirds of all the grain and live-stock produced in the United States is raised in this great wealth-producing heart of the country.

If all of the more than two million of Successful Farming readers were formed in a single line, it would take four men walking at the rate of fifteen miles a day, including Sundays, to walk past them and hand a card to each one of them within thirty days.

You can reach them all with a 100 line advertisement in Successful Farming every month for only \$200 a month.

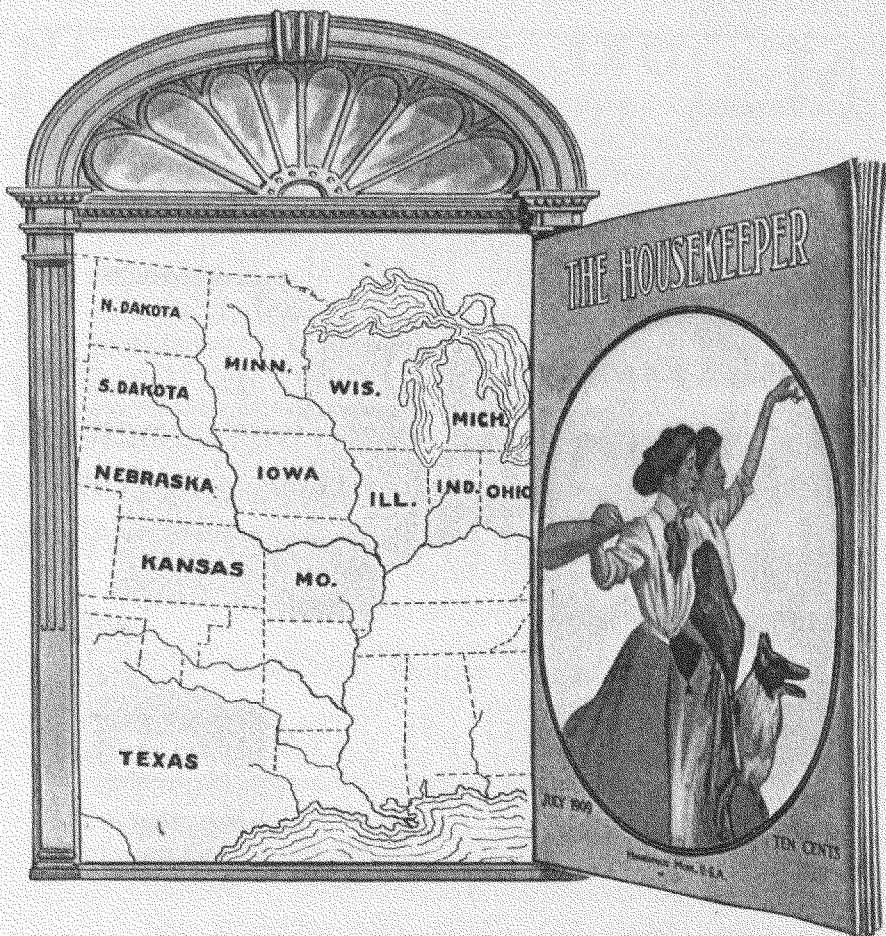

SUCCESSFUL FARMING, Des Moines, Iowa

THE BALTIMORE AMERICAN and THE BALTIMORE STAR

are the best and most profitable mediums in Baltimore for advertising, because:

They have the largest paid circulation of any of the Baltimore papers; they are clean, well printed newspapers, and have the large majority of the most desirable readers in Baltimore; they have a larger clientele of local and foreign advertisers than any other newspaper in Baltimore; they carry over two and one-half times as many advertisements each week as any other Baltimore newspaper; fully one-third of the Baltimore advertisers use the Daily and Sunday American only. Average net circulation for first six months of 1909:—

342,000 circulation is in the
homes of these rich states.

MORE than 70% of The Housekeeper's circulation is in these thirteen Mid-Western States—the richest in the United States.

THE Housekeeper is the only big magazine published in the West; it has a peculiar appeal to people of the West.

The Housekeeper stands practically alone in this rich, business-bringing field.

I want you to realize, Mr. Advertiser, that The Housekeeper will tell your story to 250,000 thrifty housewives and their families in these thirteen states; people who have the money to buy what they want.

You can't afford to overlook this productive territory, and you certainly can't afford to miss The Housekeeper's subscribers.

Be sure The Housekeeper is on your list. Let me send you more particulars.

"I had rather pay the same money for an advertisement in a paper with 5,000 circulation, that is read by earnest, thoughtful people who are interested in that paper and its policy, than to pay it to a paper with 50,000 circulation to anyone and everyone, with no specific message to convey to any special class."

—The advertiser who said this had in mind a paper of the character of GLEANINGS.

People who are deeply interested in their work, are as greatly interested in the paper which deals with their special calling—which tells them the how and why—is specifically their paper. No one receives a copy of

GLEANINGS IN BEE CULTURE

unless he or she is a subscriber. Those who receive it, therefore, are interested directly in the subjects with which the paper deals specifically. It is a paper full of information and practical advice. Characterful, purposeful, sincere and exceptionally expert in its particular line.

Advertisers who have used its columns have written us of their experiences. The satisfaction thus expressed means something to *you* if *you* have advertising money to spend.

Agricultural EPITOMIST

A solid, well-balanced, monthly magazine of agricultural interest to the progressive farmer folk—those who earn a living and a surplus by tilling the soil. It spreads the gospel of good farming, good living and good markets and brings new thought to life to bear upon homely problems.

Edited in the heart of the richest farming country in the world, its circulation being principally in the Ohio, Mississippi and Missouri Valleys.

Its position in an advertising sense is assured, as is indicated by the class, quantity and continuity of its patronage. Every month every advertiser in the AGRICULTURAL EPITOMIST receives a facsimile Post Office Receipt like this.

No. <i>HT3A</i>	Post Office, <i>Spencer, Ind</i>	State, <i>Ind</i>

December issue was 20 pages and weighed 8 papers to the pound. Multiplying \$1.270 by 8 gives 280,160 copies for December.

In a quarter of a million farm homes of the great Middle West the Agricultural Epitomist is a welcome visitor every month. Here's good business for you. Let us tell you more about it.

A Magazine for Women

—just a reminder

Women buy or influence the buying of nine-tenths of the necessities and luxuries of home life.

—why McCALL'S

McCALL'S is essentially a magazine for women. Every copy of the 1,000,000 mailed monthly is cover-full of things intensely interesting to women, whether they be single or married, of economical or extravagant tastes. Every copy goes straight to the center of the home circle. McCALL'S is read every month by fully 5,000,000 women, who have the money to buy and would buy your goods if they knew their good points.

—and its readers

McCALL'S readers are the kind that renew year after year—that recommend it to their friends—that consult the advertising pages of every copy long after it has become a back number. This loyalty emphasizes the real home value that makes it pay advertisers—and pay them well.

—pay advertisers

If you sell anything that a woman would buy for herself or for her home, by all means advertise where it pays to advertise—in McCALL'S.

Theodore Roosevelt's African Hunting Articles

are giving SCRIBNER'S MAGAZINE great advertising prominence.

In the long list of mediums offering splendid value to advertisers SCRIBNER'S *is of first importance.*

A long-established Magazine of the highest literary and artistic type, selling at 25 cents, and with a great popular distribution is unique. To advertisers of merit it is *the ideal medium.*

No man more universally popular than Theodore Roosevelt ever wrote. The sales of SCRIBNER'S since his articles began far exceed the most sanguine expectations. Each month the edition has been greatly increased; each month it has *sold out.*

SCRIBNER'S begins 1910 with an edition far exceeding all records for a Magazine selling for more than 15 cents.

The beauty to the advertiser in this increased circulation of SCRIBNER'S is that every person who buys *Scribner's* buys it because they really want it.

SCRIBNER'S will hold this great gain and add to it each month of 1910.

Three Magazines of Character

These three magazines have a personal following as valuable to the advertiser as the personal trade of a live, upright salesman is valuable to the manufacturer.

The most beautiful magazine in America, whose readers have almost unlimited buying power. A big-page magazine $8\frac{1}{2} \times 12$, reading matter on every other page. Printed magnificently on coated paper throughout.

Is a fact magazine read by active-minded men and women who get their information and initiative from it. A result producer. One of the greatest gainers of advertising in 1909. Standard magazine size.

"Every Garden Means a Home." The monthly bible of thousands of garden cranks. A wonderful medium for general advertisers proved in scores of instances. Large page 8×10 , reading matter on every other page, giving every advertisement position.

No waste circulation in any Doubleday-Page magazine, every copy reaching an active buyer. :

The **METHODISTS**

Pittsburg, Cincinnati, Chicago, Kansas
City, San Francisco, Portland

THE METHODISTS make no apology for being Religious Weeklies. It is true, some magazines try to persuade the advertiser that their magazine is not classed as "religious," but "purely as a family weekly." BOSH! We are proud that THE METHODISTS are the official publications of the greatest Protestant Church in the world.

Why try to conceal the fact that they cater to the Religious side? Nearly every one in your community and ours has had a religious training of some sort—and, as a rule, are pretty substantial people. They all purchase about the same kind of commodities, and it's a good plan to appeal to them along the line of "least resistance"—and usually they have the most confidence in the publications of their first choice.

THE METHODISTS solicit your advertising, because we feel sure they will be profitable to you. The Methodists are the substantial people who have money to spend and who are loyal to church and church paper, and patronize its advertising columns.

THE METHODISTS can place your advertisement in a quarter of a million homes of the prosperous buying people in the smaller cities and towns at \$1.00 per line. The most liberal proposition ever presented by publications enjoying the prestige of THE METHODISTS.

Very Truly Yours

THE METHODISTS

57 Washington St., Chicago.

OUR one million circulation goes to paid-in-advance subscribers and it is therefore a simple matter for us to show advertisers just what kind of homes they reach when they use space in LUPTON'S.

We have prepared some elaborate and interesting data on this subject, for distribution among advertisers, because we realize that this is the all-important point with *thinking* advertisers.

Only after we have "proved up" regarding the purchasing power of the homes which make up our one million circulation, is the vital importance of the following points apparent:

1st.—Lowest rate per line per thousand—practically 50% lower than the rate of any other medium with an equally desirable million circulation.

2nd.—A concentrated circulation in the smaller cities with populations ranging from 25,000 down to the rural districts.

LUPTON'S

THE PEOPLE'S HOME JOURNAL
and GOOD LITERATURE

F. M. LUPTON, Publisher.

The great majority of the local dealers in the most important lines are located in the small cities with populations of 25,000 and less, as shown by the following table:

	Total	Large Cities	Small Cities
Dry Goods, - - -	26,212	7,316	18,896
Grocers and General Stores,	242,000	52,235	189,765
Hardware, - - -	26,500	3,977	22,523
Jewelers, - - -	18,700	3,988	14,712
Furniture, - - -	25,000	3,241	21,759
Druggists, - - -	44,427	9,046	35,381

Over 70% of the population of the entire country buy through these small-city dealers.

Certainly no alert advertiser can afford to overlook or even underestimate the extreme importance of this tremendous field.

Because 94% of our one million subscribers reside in these small cities and are customers of these small-city dealers, LUPTON'S is the logical medium for advertisers who want their full share of this small city business.

The Evening Herald

BINGHAMTON, N. Y.

Binghamton's Home Paper

A newspaper that stands well at home carries first of all the home business. THE EVENING HERALD wears the distinctive seal of approval, by reason of the fact that it is the only evening newspaper in Binghamton which carries daily the advertising of Binghamton's Largest Advertiser. The discussion on Home Circulation among the advertisers of Binghamton has been decided unequivocally in favor of THE EVENING HERALD. No other Binghamton newspaper actually delivers so large a percentage of its circulation in the immediate buying district of Binghamton. So liberally do the local merchants patronize THE EVENING HERALD that a gain of 6,392 inches in advertising carried during the first nine months of 1909 is recorded over the corresponding months one year ago. No competitor has questioned this gain, none has claimed anything near its equal.

The World's Greatest Farm Paper Combination, embracing a section where agriculture is at its best, where the farmer has felt the uplift of modern progress, where the luxuries of the home are familiar, where automobiles are not uncommon property, where electric equipment is everywhere, where the telephone is a means of comfort and commerce, where hot water heating is the rule. Here the farmers have money to spend and they represent the biggest buying power known to-day.

Dominating the agricultural situation, preserving an unyielding cleanliness in contents, holding fast to a policy of helpfulness, these two papers have subscribers who are believers and their faith is extended to the advertising pages.

It shall be our earnest endeavor to continue worthy to render our readers and our advertisers value received with interest.

New Yorker's Version of the Advertising Value of the Buffalo Evening News—Is One of Newspaperdom's "Winning Dailies" and "Quality-Quantity" Emblem Papers

EDITOR'S NOTE—A "Winning Daily" means a complete and comprehensive newspaper that has achieved unusual success through merit; a paper of the very highest character, that is fair in its policy and deals openly and independently with the public. Besides this, the "Winning Daily" is the paper which enters the homes and finds most favor there; which possesses quality through and through; a newspaper which has been thoroughly endorsed by advertisers in letters to NEWSPAPERDOM; which carries the largest volume of the best classes of advertising and never swerves from its established rates; which, in short, is clean, dignified, progressive, and absolutely free from the yellow taint—these are the attributes of the newspaper granted NEWSPAPERDOM's "Winning Daily" emblem.

WRITTEN BY JAMES M'UTCHEON

IT IS a matter of record that for a city of its size Buffalo is the home of the most successful newspaper in the country, and that the Buffalo Evening News prints more advertising than many newspapers in our largest cities. The Buffalo Evening News is the important newspaper in all the territory between New York City and Chicago—the one recognized necessity to advertisers seeking the "best" between the country's two largest cities.

Newspaperdom selected the Buffalo Evening News as one of its original twenty "Winning Dailies." That was eleven years ago. Since then the Evening News has been honored by the bestowal of Newspaperdom's "Quality and Quantity" emblem. The Evening News is the one Buffalo newspaper which has been universally endorsed by all classes of advertisers in letters to Newspaperdom—some three hundred of them.

The Buffalo Evening News is admitted to have the largest circulation of any Buffalo paper. It prints many thousands of lines more of advertising every week in the year than any of its contemporaries. Its enormous circulation in the homes where its advertisements are carefully read and "believed in" makes it by all odds one of the only four American newspapers which print over 30 per cent. of the total advertising carried by all newspapers combined in the respective cities.

The Buffalo Evening News for the year of 1909 smashed all previous advertising and circulation records by a large percentage.

While newspaper and business conditions have made and unmade "Winning Dailies," the Buffalo Evening News has steadily held the place of "Winning Daily" of the Empire State in Newspaperdom's annual "Winning Dailies" number for eleven successive years.

It is unnecessary to say to experienced advertisers that an exclusive, loyal clientele of people of standing and character forms the most profitable class to reach. That the Buffalo Evening News does reach this class is demonstrated in the hundreds of letters sent to Newspaperdom from time to time by local and other advertisers, all expressing in unstinted praise the value always returned by Evening News publicity.

And when it is understood that the money-earning, money-spending people north of New York City and east of Chicago cannot be reached as a whole except through the Buffalo Evening News—cannot be reached even though all other Buffalo papers are used—then the discriminating advertisers know what to do. Subscribers to a newspaper of character are people of character, and they are the ones most desirable to reach.

THE TRI-WEEKLY CONSTITUTION

The Great Southern "Farmer's Daily" is constant company in the richest farm homes the South affords. Three times each week 6,000 Rural Route Carriers deliver this paper into farm homes along their routes. It is read by educated, thinking, prosperous farmers who are up-to-date in every particular and want the news of the world three times each week.

They have money to buy anything they need.

The average circulation from January to August, 1909, was 111,171.

The circulation by states is as follows:

Georgia.....	38,545	Florida.....	3,055
Alabama.....	20,963	Arkansas.....	3,117
South Carolina.....	10,598	Tennessee.....	2,174
North Carolina.....	9,694	Virginia.....	1,093
Mississippi.....	8,842	Other States.....	3,880
Texas.....	6,058		
Louisiana.....	3,152	Total.....	111,171

Advertising rates 50 cents an agate line. Covers an entire week's service of three insertions. The paper comes out Monday, Wednesday and Friday.

It is the best mail-order and publicity medium in this country, and reaches people who will and do buy advertised goods.

You cannot possibly make a mistake in placing the Tri-weekly Constitution on your list for business during the coming season. If you want detailed information, showing circulation by towns in states covered, it will be furnished you.

We Claim that advertisers can cover Lewiston, Auburn and Androscoggin County as thoroughly with the "SUN" as with any other paper and *At Less Cost.*

The LADIES' WORLD

Devoted to the
Things pertaining
to Practical
Home-making

¶ One's own environments are responsible for and dictate the necessary and imaginary needs and desires which are only appeased through possessing the thing wanted—and that may range from a pen to a piano.

¶ The woman that reads THE LADIES' WORLD has environments that prompt the desire to enjoy all those things that tend toward comfortable and agreeable homes and promote pleasant, satisfactory living conditions for the whole family.

¶ Any advertiser who does himself the justice to place THE LADIES' WORLD on his list opens a wide and unobstructed avenue to the open purses of the hundreds of thousands who can and do buy the things necessary to conform to the natural or acquired environments in which they live.

¶ Advertising space in THE LADIES' WORLD is worth more to others and to you than it costs. Let us have an opportunity to get our circulation statements before you for consideration.

The Largest Single Buyer of Elgin Watches

STEVE HARRIS was doing a nice retail jewelry business in Kansas City,—when the thought struck him that there was a big percentage of our 80 millions of people who did *not* live in Kansas City, but who *were* buying Watches, or Diamonds, or Silverware, or something like that, from somebody else.

So Steve went after their trade. He got up a 2 inch ad., telling about his prices on Elgin Watches. He put that ad. in Home Life, which he knew circulated only in the small Towns, *where 67% of the 80 millions live.* He got a flood of replies which he turned into a profitable percentage of sales.

But Steve wanted more business. So he increased his "copy" to 3 inches,—then to 6 inches,—then a quarter-page,—then a half-page,—sales all the while keeping up with the increased space.

He took on some other mediums, but he used only publications with a known *Small-Town* circulation; Home Life leading the list,—with a record of five quarter-pages, and one half-page in six consecutive months, and all Elgin Watch "copy." Home Life readers buy Diamonds of Steve, too.

But you may be sure they buy *needful* things, as well as Jewels. In fact, they buy the needful things first. They are good, substantial, reliable folk, and they know a good thing when they see it.

They will buy *your* goods if you ask them. Let me send you a sample copy of a great salesman for Advertisers.

THE PACIFIC MONTHLY

stands undisputed in the Western field, in prestige, circulation and advertising patronage. The advertising columns have been growing at a faster rate than those of any other magazine.

Sixteen big, national automobile manufacturers are using space in Pacific this year.

You cannot thoroughly cover the Western Field without using The Pacific Monthly.

Write for a copy of our Booklet showing the names of national advertisers who are using space in Pacific Monthly. The names of national advertisers who advertise in it are the very best proof of the value of its pages to you.

Truthful Circulations

The following regularly furnish sworn circulation statements and allow complete investigation of books, records and press rooms by any advertiser or responsible representative, at any time, without previous notice:

Portland Journal

Oregon

Daily circulation exceeds 34,000; Sunday exceeds 35,000—and this is guaranteed to be more circulation in the city of Portland and state of Oregon than possessed by any other Portland newspaper. Lowest rates per thousand of circulation on the Pacific coast.

Herald

Augusta, Ga.

Present circulation in excess of 9,000 copies daily. Considerably larger city and greater total circulation than only competitor and carries greater volume of local and classified advertising. "The Herald" is Augusta's best and most result-producing newspaper.

Dispatch and Daily

York, Pa.

Sworn average daily circulation for six months, ending June 30, 1909—19,045. Circulation four times greater than only competitor. No other medium necessary to cover York and surrounding territory completely.

News and Courier

Charleston, S. C.

Sworn average daily circulation for six months ending June 30, 1909—8,343; Sundays, 11,115. Charleston and surrounding country can be covered completely by use of "News & Courier" alone. Double the circulation of only competitor.

Republican

Cohoes, N. Y.

Present daily circulation in excess of 3600 copies daily and this is *guaranteed* to be a larger circulation than all other newspapers circulated in the city, *combined*. Carries $\frac{1}{3}$ more local advertising than only competitor and is the only paper permitting circulation investigation.

Virginian-Pilot

Norfolk, Va.

Average sworn circulation for the first nine months, 1909, *net press run*, daily, 14,351; Sunday, 16,013 *net*. The greater portion of this circulation is home delivered, in the city by carriers and out of town by agents. Carries more display advertising the year round than any other Norfolk newspaper.

Post

Bridgeport, Conn.

The leading newspaper in its territory, carrying more local, classified and foreign advertising than any other Bridgeport newspaper. Sworn daily average circulation in excess of 13,000. Detailed sworn statements covering any period gladly furnished.

Star-Independent

Harrisburg, Pa.

Average (sworn) daily paid circulation, first six months, 1909, 14,977. 90% is delivered by its own carriers direct to the homes. Contracts accepted guaranteeing largest paid circulation of any Harrisburg newspaper or no pay. Examinations by various advertising interests from time to time have verified its claims in each instance.

The American and Reveille

(AFTERNOON)

(MORNING)

Carries the Story to the People of Bellingham and Northwestern Washington

The American and Reveille accomplish the remarkable feat of reaching 90% of the homes of Bellingham and nearly that large a per cent of those of Northwestern Washington with their morning and afternoon editions.

The American in the afternoon carries thirty per cent more advertising than does the only other afternoon paper in the field, while the Reveille is the only morning paper in Northwestern Washington.

See How Things Have Changed

During the first six months of 1909, the Evening American carried 19,197 inches of foreign advertising.

During the same time the Evening Herald carried 18,489 inches of foreign advertising.

The American beating the Herald 708 inches.

During the first six months of 1908 the American carried 13,779 inches of foreign advertising.

During the same time the Herald carried 21,804 inches of foreign advertising, beating the American the year previous for the first six months 8,025 inches.

In one year things so changed that the American gained 5,418 inches of foreign, and during the same period the Herald lost 3,315.

The reason for this is told in a little booklet giving the views of the leading merchants of Bellingham, which will be sent upon request.

All Advertisements appear in both Morning and Afternoon Editions.

FARM JOURNAL

was founded on and is supported by the knowledge of what the American farmer wants, needs and expects to find in his favorite farm paper, and the ability to put that knowledge year after year in a get-at-able way that lends real assistance by way of indisputable information which, in effect, goes to make up net profits at the end of the year—gets real money in the bank subject to his check.

The real story is a short one. The realization of the editorial possibilities made **FARM JOURNAL** quality. The quality made the circulation—and made it well. The circulation gave that necessary paying quality that is absolutely essential to get any advertiser to repeat an order for space.

Scores of advertisers have been in the **FARM JOURNAL** for years. *That one fact* ought to be enough to convince any advertiser what he ought to do about the **FARM JOURNAL**—and do it without missing an issue.

* Since this count was taken Farm Journal's list has increased to approximately 700,000 through an extensive advertising campaign in the fall and winter of 1909-10.

The concrete foundation for these columns was erected by knowledge and ability to build the kind of farm paper a farmer wanted—needed. Seven hundred thousand wide-awake, practical farmers, who paid their subscriptions and pay for everything they buy, have recognized it makes them money—in turn, so does an advertiser if he has meritorious goods that a farmer can use. Circulation 145,000

THE Commoner's circulation is chiefly in the Central West, the best section of country in the United States for the advertiser. Its subscribers are among the well-to-do and most progressive class of people in this region.

The "Commoner" paid advertisers well at the present rate, 50c per line, when the circulation was but 100,000. With a hundred and forty-five thousand subscribers and no increase in rate, it has given its patrons a splendid service and is to-day carrying advertisers who have been with it constantly during the nine years of its publication. The rate of 50c per line is most reasonable for the quantity and quality of its circulation.

The confidence and good will the "Commoner" enjoys of its readers is extended to those who use its pages to announce what they have to sell. For further information address

What Makes It Pay

THE constantly increasing number and infinite variety of important periodicals creates a growing demand for a magazine like *Current Literature*, which digests and reviews for the average American citizen—man or woman—month by month, all the world's news and knowledge.

Dr. Edward J. Wheeler, formerly Editor of the *Literary Digest*, in less than five years, by his sheer ability, has multiplied the number of readers by ten—a striking example of the magic touch of intelligent, well-directed editorial knowledge and experience.

Ten departments, edited by experts under Dr. Wheeler's direction, tell by word and picture the story of the month in an attractive and interesting manner. Is it any wonder that over 77,000 subscribers—the pick of the American Commonwealth—find *Current Literature* a necessary part of their daily lives—a magazine in which the active man or woman can find just that part of the world's news and the world's knowledge that he or she needs and wants?

 With a net rate of practically a dollar a page per thousand, *Current Literature* is an attractive bargain for advertisers and advertising agents. When we take into account, also, that this is a high-class, three-dollar-a-year circulation, it becomes plain why *Current Literature* pays advertisers and pays them well. *Current Literature* for the rate is the best paying magazine published.

We reserve the right to raise the advertising rates without notice, on account of the rapid growth of *Current Literature* in circulation and influence. We reserve the right to refuse contracts for more than a year.

CIRCULATION

is valuable to the advertiser only when it has been attained by natural growth. There is one magazine that has not had to resort to combination-lists, premium-plans or any of the other methods that have forced circulation upon the people by "additional" inducements.

THE RED BOOK MAGAZINE has won a national place in popular esteem by merit alone. Every subscription has been paid for at the regular price.

Upon the news-stands THE RED BOOK MAGAZINE is the people's choice. It sells itself. It is welcomed. It is read. It has attained its national popularity because of quality—in art, literature, interest.

That is why advertising in THE RED BOOK MAGAZINE brings exceptional returns to the advertiser. Read it and see.

MARCO MORROW, Director of Advertising

Topeka, Kansas, Dec. 23, 1909.

General Advertiser,
Anywhere.

Dear Sir:—

In 1909 the value of the crops produced by the farms of the United States was \$8,760,000,000.

In 1900—only nine years ago—the value of the agricultural products of the United States was \$3,688,700,000. That means an increase of more than 137% in nine years. Is it any wonder that a good many people think that the farmer is getting more than his share of this country's prosperity?

The territory covered by the Capper Publications has been particularly fortunate. The farmers of Kansas alone close their season's work with grain, hay, other crops and live stock to the value of

\$532,685,245,—

an increase of \$57,440,414 over the values of 1908.

That is the most productive year in the state's history—and, what is of equal importance, it is one of many successive years of great prosperity.

It comes to a people who are already feeling easy and comfortable.

In considering its significance don't overlook this fact:

There are approximately 180,000 farms in Kansas.

That means that the 1909 crop of farm products—including live stock—averaged \$2,959.36 on every farm in the state.

The increase in values over last year is more than \$300 for each farm in the state.

Can you find anywhere else in the world 180,000 families in a bunch with \$3,000 apiece to represent their year's work?

It is this prosperity of the territory the Capper Publications cover which accounts for the remarkable results they give advertisers and the large volume of business they carry.

I ask your careful attention to the details concerning these several publications given on the following pages.

There is money for you in this territory.

Yours very truly

Arthur Capper

Publisher.

The Capper Publications

Topeka, Kansas

Topeka Daily Capital

Guaranteed circulation 33,000 daily.
Advertising rates 7 to 4 cents per line.
Classified rate 1 cent per word.

The Topeka Daily Capital is THE daily newspaper of Kansas, big in circulation and in influence—the only daily in the state with a state-wide circulation and the only seven-day-a-week paper in the state.

The Capital has a larger circulation than any other daily in the United States published in a city the size of Topeka, and is, I believe, unique in the fact that it has paid subscribers at every postoffice in the state.

In the fifty largest towns of the state the Capital has a paid circulation of 21,000. In the smaller towns and on the rural routes a circulation of 12,000.

It is the only Topeka daily which is willing to show advertisers positive proof of circulation.

I guarantee more circulation than any other daily in Kansas. And you can write this in your advertising contract.

I guarantee that the Capital has more circulation in Topeka, and more circulation outside of Topeka, than its one local competitor.

The Capital carries more local advertising, more classified advertising, more foreign advertising, than any other daily in Kansas.

A daily which carries in its Sunday edition 35 to 40 columns of classified business, as the Capital does regularly, is a rara avis.

During 1908 the Capital carried a total of 279,249 lines over the paid advertising carried by its local competitor. Here, as always, "there's a reason," and its lead both in circulation and in volume of business grows every month.

Farmers Mail and Breeze

Guaranteed circulation 100,000 weekly.
Advertising rates 40 cents per line.
Classified rate 5 cents per word.
Full page (740 lines) \$240.00.
Forms close Monday—early in the morning.

It is something of a happening when a weekly farm paper reaches a circulation of 100,000 copies. Only four weekly farm papers are in the 100,000 class. It is sometimes said to be the limit of weekly farm paper circulation. Maybe so.

This circulation is nearly all in Kansas and Oklahoma. Nearly three-fourths is in Kansas, where it reaches more farmers than any other farm paper in any one state.

They pay \$1 because they want it.

This paper has carried during 1909 a larger average volume of business than any other weekly farm paper in the country. In its own territory it carries not only the largest total volume of advertising, but more of each class of advertising—agricultural, machinery, general business, livestock, poultry, land, seeds and nursery.

And it holds old advertisers in a way not surpassed by any other farm paper in the West. That's why its already large volume of advertising is constantly increasing.

Practically all farm paper advertisers want to reach Kansas, and Kansas cannot be reached in any thorough way without the use of Farmers Mail and Breeze.

Its circulation is distributed as follows:

Kansas.....67,330	Missouri.....2,806
Oklahoma.....23,917	Scattering.....4,474
Nebraska.....4,122	Total.....101,649

Of the four weekly farm papers of 100,000 the rates of Farmers Mail and Breeze are lowest.

A farm paper with 100,000 circulation in Kansas and northern Oklahoma is my idea of an indispensable farm paper.

What do you think about it?

The Capper Publications

Topeka, Kansas

Missouri Valley Farmer

Guaranteed circulation 325,000 monthly.
 Advertising rate \$1.50 per agate line.
 Full page (740 lines) \$825.00.
 Back cover page \$900.
 Forms close 25th of the month.

A monthly agricultural paper of the practical, helpful, common-sense sort, that appeals to the judgment and wins the affection and respect of the people for whom it is intended.

Only two agricultural monthlies exceed it in paid circulation and none exceeds it in pulling power for the legitimate advertiser with a proposition that appeals to the prosperous farmer and his family.

Its circulation (paid) is distributed as follows:

Missouri.....48,227	Utah.....1,960
Kansas.....47,190	Washington.....4,582
Nebraska.....9,209	Connecticut.....756
Iowa.....17,160	Maine.....924
Oklahoma.....26,404	Massachusetts...889
Texas.....31,888	New Hampshire...492
Illinois.....14,126	Rhode Island.....87
Indiana.....9,307	Vermont.....918
Minnesota.....7,043	Alabama.....2,248
Ohio.....8,617	Florida.....577
Wisconsin.....7,912	Georgia.....1,789
Michigan.....5,230	Kentucky.....6,222
South Dakota.....6,176	Louisiana.....2,344
Colorado.....4,435	Mississippi.....2,581
Arkansas.....9,821	North Carolina...4,126
North Dakota...5,228	South Carolina...917
Pennsylvania...7,091	Tennessee.....7,211
Arizona.....501	Virginia.....2,824
California.....4,426	West Virginia...7,278
Idaho.....4,174	
Nevada.....418	
Oregon.....4,228	
	Total.....327,428

And the circulation is all paid in advance. I don't depend on the post-office to tell me when to stop Missouri Valley Farmer subscriptions. If they are not renewed at expiration off they go from the list.

The farmers in the states named above never before had so much money to spend. You can reach more of them through Missouri Valley Farmer than through any other one medium.

The readers of Missouri Valley Farmer are mighty responsive to any good advertised proposition.

And if you are an economical space buyer the circulation and the rate ought to suit you, down to the ground.

The Household

Guaranteed circulation 500,000 monthly.
 Advertising rate \$2.00 per agate line.
 Full page (740 lines) \$1,000.
 Back cover page \$1,100.
 Forms close 20th of month.

The strictly "mail order" advertiser has not rested on a bed of roses in the past score of months.

Good mediums are scarce.

I know, because I spend upwards of \$1,000 every week in the year in strictly mail-order advertising.

I believe I know what sort of circulation the mail-order advertiser needs to bring him the best results.

That's the sort of circulation I have built for the Household.

I don't claim that it's the only gem in the diadem, but I do honestly believe that it is a great big \$2-a-line's worth.

In fact, I know it is.

It reaches a half million families of the great American middle class—the best mail-order buyers in the world in these states:

Alabama.....11,178	Nebraska.....14,717
Arizona.....1,098	Nevada.....697
Arkansas.....14,640	New Hampshire...2,009
California.....9,063	New Jersey.....2,784
Colorado.....5,973	New Mexico.....2,724
Connecticut.....2,058	New York.....15,354
Delaware.....599	North Carolina...9,712
District of Colum- bia.....62	North Dakota.....5,342

I want you to use the Household in full confidence that I will do my best to "make good."

Kansas Weekly Capital

Guaranteed circulation 100,000 weekly.
 Advertising rate 25 cents per agate line.
 Classified rate 3 cents per word.
 Forms close Wednesday.

The Kansas Weekly Capital is a sprightly news weekly and market-report that reaches more than 100,000 farmers in Kansas and the adjacent states. These readers look to this paper for their touch with the outside world and a market where they can buy to the best advantage.

Its circulation:

Kansas	71,486
Oklahoma	23,042
Missouri	3,487
Nebraska	3,921
Scattering	2,148
Total	104,084

I will confess that I am surprised almost every day by the results that the Kansas Weekly Capital brings good advertisers.

But why shouldn't it pay?

It's the "big" paper in 100,000 homes—and I do my best to satisfy the people who look to it for news and information.

I have kept the rate low in order that advertisers may get "double measure"—pressed down and running over.

And wise advertisers are profiting thereby.

Its volume of business is increasing every week—and it carries none of the liquor ads which constitute the bulk of business in many weeklies in the Southwest.

Nebraska Farm Journal

Guaranteed circulation 100,000 monthly.
 Advertising rate 40 cents per agate line.
 Classified rate 4 cents per word.
 Full page (740 lines) \$240.00.
 Forms close 25th of the month.

The circulation has grown all the time since I bought this paper in August, 1908, until now it has reached the 100,000 mark.

Some surprise has been expressed that the circulation should so soon reach the 100,000 mark. Well, brethren, we have the facilities, the organization, here. Putting Nebraska Farm Journal up to 100,000 in one year is not the biggest thing we have done during the past year. We simply had to have this circulation by this fall, for a monthly farm paper of less than 100,000 cannot hope to do much in an advertising way. We went after it and got it.

And it is paid circulation, all of it, of the stop-when-out kind.

And the circulation is larger right now than that of any other farm paper published in the state in which it is published.

Forty cents per line—that's buying space in a monthly farm paper with 100,000 circulation.

And advertisers are coming in for the season in a mighty satisfactory way.

They will not be sorry.

The paid circulation is distributed as follows:

Nebraska	42,300	Wyoming	2,962
Kansas	8,204	Minnesota	3,497
Iowa	24,335	Scattering	7,086
South Dakota	10,229		
North Dakota	4,116	Total	104,419

To the Publishers of American and Canadian Newspapers:

Gentlemen:

In the printing of a newspaper there is nothing, as you know, so apt to give poor results as poor ink. If your paper looks gray, if your cuts fill up and the type faces are blurred, the first question that arises in the press room is "What is the matter with the ink?" Ink has shouldered more sins of commission and omission than any other medium which goes to make up a newspaper. The head of the press room will rarely admit that the press work is at fault. He is always ready to find fault with the ink or the paper, generally the ink. Good ink, good paper, good press work end in good result. Your press work may be the best in the world and your paper inferior to none, yet your printing, if your ink is not good, will ruin your result. To get good ink it is necessary to have the best of raw materials and the greatest skill in combining them. We believe we have achieved this result.

Day in and day out, our ink is surpassed by none and equalled by few. We buy the best carbon that can be obtained for newspaper ink and we have covered ourselves in a contract for a number of years with two of the largest gas carbon producers in the world. The linseed

oil that we use, as well as the rosin varnish, is the best to be had, and the dry colors which we manufacture have a tone and brilliancy which bear fruit in ink that retains these characteristics to a degree that has been commented upon time and time again.

We are not cheap ink makers. We make a high-grade product at a medium price. We want your trade. The New York American, which is admitted to be the best printed paper in this country, uses entirely the American Ink Company's products, as do also all the other Hearst newspapers. We sell to other important papers and have turned out in 1907 more than five million pounds of ink. Notwithstanding this, we have recently enlarged materially our plant, and would be glad to communicate with any publisher upon the ink question.

Yours very truly,

THE ADVERTISERS' TELEGRAPH CODE

THE REASON: The increasing volume of telegraphing done in the publishing business is responsible for this attempt to furnish a code for its especial use.

It is hoped that advertisers, publishers, advertising agents and special agents will find it convenient and economical.

THE AMERICAN NEWSPAPER ANNUAL AND DIRECTORY, being the recognized representative of the publishing interests of the country, seems to be the proper place to incorporate it. Every publisher whose advertisement appears in this book (see index) will have a copy of the book and therefore of the code. So far as we know, every advertising agent in the country likewise uses the book. The special agents also have it. So do direct advertisers and so do our customers. This insures the code a wide circulation from the start.

This code is also published in pocket form. That edition contains several pages of code words in blank to which may be given private meanings for private use.

We shall be very glad to have any suggestions for improvements which may occur to those who use the code.

A handwritten signature in cursive script, reading "A. M. Johnson". The signature is written in dark ink and is positioned at the bottom right of the page.

NUMERALS.

The code, as here printed, is designed to be used for ordinary numbers. It will be observed that each word ends with "u".
