

§ 793.10

purposes of the section 13(b) (9) exemption provided that he performs the duties described above and is properly licensed by the Federal Communications Commission. Where two or more engineers are employed by a station, only one may qualify as "chief engineer"—that one who, on the basis of the factual situation, is in charge of the engineering work.

§ 793.10 Primary employment in named occupation.

The legislative history of the exemption is explicit that the exemption applies only to an employee who is employed "primarily" as an announcer, news editor, or chief engineer. Thus the Senate Report states: "The exemption is specifically limited to those employees who are employed primarily in the named occupations * * *" (S. Rept. 145, 87th Cong., 1st sess., p. 37). No specific rule can be established for determining whether in any given case an employee is employed "primarily" in the named occupations. Generally, however, where an employee spends more than half of the hours he works in a workweek in a named occupation, he will be considered to be primarily employed in such occupation during that workweek. The answer will necessarily depend upon the facts in each case.

§ 793.11 Combination announcer, news editor and chief engineer.

The 13(b)(9) exemption, as was made clear during the debate on the amendment, is intended to apply to employees employed in the named occupations by small market radio and television stations. It is known at the time of such debate that these stations employ only a small number of employees and that, at times, an employee of such a station may perform a variety of duties in connection with the operation of the station. For example, an employee may perform work both as an announcer and as a news editor. In such cases, the primary employment test under the section 13(b)(9) exemption will be considered to be met by an employee who is employed primarily in any one or any combination of the named occupations. Thus an employee who works both as an announcer and news editor for the greater part of the workweek

29 CFR Ch. V (7-1-06 Edition)

will be considered to be primarily employed in the named occupations during that week.

§ 793.12 Related and incidental work.

An employee who is employed primarily in one or more of the named occupations may also be engaged in other duties pertaining to the operation of the station by which he is employed. The Senate Report states that, for purposes of this exemption, employees who are primarily employed in the named occupation "may engage in related activities, including the sale of broadcasting time for the broadcasting company by which they are employed, as an incident to their principal occupation", (S. Rept. 145, 87th Cong., 1st sess., p. 37). Time spent in such duties will not be considered to defeat the exemption if the employee is primarily employed in the named occupations and if the other requirements of the exemption are met.

§ 793.13 Limitation on related and incidental work.

The related work which an employee may perform is clearly limited in nature and extent by a number of requirements. One limitation is that the work must be an incident to the employee's primary occupation. The work therefore may not predominate over his primary job. He is not "employed as" an announcer, news editor, or chief engineer if his dominant employment is in work outside such occupations (see *Walling v. Haden*, 153 F. 2d 196, cert. denied 328 U.S. 866). For instance, an announcer who spends 40 hours of his 48 hour workweek in selling broadcasting time would not be considered to be "incidentally" engaged in such selling. Selling would in such circumstances be his primary occupation. His duties as an announcer must constitute his primary job. Another requirement is that the work of the employees must be performed "for the broadcasting company by which they are employed * * *" (see S. Rept. cited in § 793.12). Sale of broadcasting time for a company which does not employ the employee as an announcer, news editor, or chief engineer, is not exempt work. Work which is not performed for the station by which the employee is employed, is not intended
