

paragraph (d)(1) of this section) is greater than 50 percent.

(ii) *Special rule for transfers at death.* Property does not cease to be used predominantly in a qualified business use by reason of a transfer at death.

(iii) *Other dispositions of property.* [Reserved]

(5) *Examples.* The following examples illustrate the principles set forth in this paragraph.

Example 1. E uses a home computer 50 percent of the time to manage her investments. The computer is listed property within the meaning of section 280F(d)(4). E also uses the computer 40 percent of the time in her part-time consumer research business. Because E's business use percentage for the computer does not exceed 50 percent, the computer is not predominantly used in a qualified business use for the taxable year. Her aggregate business/investment use for purposes of determining the percent of the total allowable straight line depreciation that she can claim is 90 percent.

Example 2. Assume that E in *Example (1)* uses the computer 30 percent of the time to manage her investments and 60 percent of the time in her consumer research business. E's business use percentage exceeds 50 percent. Her aggregate business/investment use for purposes of determining her allowable investment tax credit and cost recovery deductions is 90 percent.

Example 3. F is the proprietor of a plumbing contracting business. F's brother is employed with F's company. As part of his compensation, F's brother is allowed to use one of the company automobiles for personal use. The use of the company automobiles by F's brother is not a qualified business use because F and F's brother are related parties within the meaning of section 267(b).

Example 4. F, in *Example (3)*, allows employees unrelated to him to use company automobiles as part of their compensation. F, however, does not include the value of these automobiles in the employees' gross income and F does not withhold with respect to the use of these automobiles. The use of the company automobiles by the employees in this case is not business/investment use.

Example 5. X Corporation owns several automobiles which its employees use for business purposes. The employees are also allowed to take the automobiles home at night. However, the fair market value of the use of the automobile for any personal purpose, e.g., commuting to work, is reported by X as income to the employee and is withheld upon by X. The use of the automobile by the employee, even for personal purposes, is a qualified business use the respect to X.

(e) *Method of allocating use of property*—(1) *In general.* For purposes of section 280F, the taxpayer shall allocate the use of any listed property that is used for more than one purpose during the taxable year to the various uses in the manner prescribed in paragraph (e) (2) and (3) of this section.

(2) *Passenger automobiles and other means of transportation.* In the case of a passenger automobile or any other means of transportation, the taxpayer shall allocate the use of the property on the basis of mileage. Thus, the percentage of use in a trade or business for the year shall be determined by dividing the number of miles the vehicle is driven for purposes of that trade or business during the year by the total number of miles the vehicle is driven during the year for any purpose.

(3) *Other listed property.* In the case of other listed property, the taxpayer shall allocate the use of that property on the basis of the most appropriate unit of time the property is actually used (rather than merely being available for use). For example, the percentage of use of a computer in a trade or business for a taxable year is determined by dividing the number of hours the computer is used for business purposes during the year by the total number of hours the computer is used for any purpose during the year.

(98 Stat. 494, 26 U.S.C. 280F; 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7986, 49 FR 42713, Oct. 24, 1984, as amended by T.D. 8061, 50 FR 46041, Nov. 6, 1985]

§ 1.280F-7 Property leased after December 31, 1986.

(a) *Inclusions in income of lessees of passenger automobiles leased after December 31, 1986*—(1) *In general.* If a taxpayer leases a passenger automobile after December 31, 1986, the taxpayer must include in gross income an inclusion amount determined under this paragraph (a), for each taxable year during which the taxpayer leases the automobile. This paragraph (a) applies only to passenger automobiles for which the taxpayer's lease term begins after December 31, 1986. See §§ 1.280F-5T(d) and 1.280F-5T(e) for rules on determining

Internal Revenue Service, Treasury

§ 1.280F-7

inclusion amounts for passenger automobiles for which the taxpayer's lease term begins before January 1, 1987. See §1.280F-5T(h)(2) for the definition of fair market value.

(2) *Inclusion Amount.* For any passenger automobile leased after December 31, 1986, the inclusion amount for each taxable year during which the automobile is leased is determined as follows:

(i) For the appropriate range of fair market values in the applicable table, select the dollar amount from the column for the taxable year in which the automobile is used under the lease (but

for the last taxable year during any lease that does not begin and end in the same taxable year, use the dollar amount for the preceding taxable year).

(ii) Prorate the dollar amount for the number of days of the lease term included in the taxable year.

(iii) Multiply the prorated dollar amount by the business/investment use (as defined in §1.280F-6T(d)(3)(i)) for the taxable year.

(iv) The following table is the applicable table in the case of a passenger automobile leased after December 31, 1986, and before January 1, 1989:

DOLLAR AMOUNTS FOR AUTOMOBILES WITH A LEASE TERM BEGINNING IN CALENDAR YEAR 1987 OR 1988

(v) The applicable table in the case of a passenger automobile first leased after December 31, 1988, will be contained in a revenue ruling or revenue procedure published in the Internal Revenue Bulletin.

(3) *Example.* The following example illustrates the application of this paragraph (a):

Example. On April 1, 1987, A, a calendar year taxpayer, leases and places in service a passenger automobile with a fair market value of \$31,500. The lease is to be for a period of three years. During taxable years 1987

and 1988, A uses the automobile exclusively in a trade or business. During 1989 and 1990, A's business/investment use is 45 percent. The appropriate dollar amounts from the table in paragraph (a)(2)(iv) of this section are \$260 for 1987 (first taxable year during the lease), \$568 for 1988 (second taxable year during the lease), \$842 for 1989 (third taxable year during the lease), and \$842 for 1990. Since 1990 is the last taxable year during the lease, the dollar amount for the preceding year (the third year) is used, rather than the dollar amount for the fourth year. For taxable years 1987 through 1990, A's inclusion amounts are determined as follows:

Tax year	Dollar amount	Proration	Business use (percent)	Inclusion amount
1987	\$260	275/365	100	\$196
1988	568	366/366	100	568
1989	842	365/365	45	379

Internal Revenue Service, Treasury

§ 1.280F-7

Tax year	Dollar amount	Proration	Business use (per- cent)	Inclusion amount
1990	842	90/365	45	93

(b) *Inclusions in income of lessees of listed property (other than passenger automobiles) leased after December 31, 1986—(1) In general.* If listed property other than a passenger automobile is not used predominantly in a qualified business use in any taxable year in which such property is leased, the lessee must add an inclusion amount to gross income in the first taxable year in which such property is not so predominantly used (and only in that year). This year is the first taxable year in which the business use percentage (as defined in §1.280F-6T(d)(1)) of the property is 50 percent or less. This inclusion amount is determined under this paragraph (b) for property for which the taxpayer's lease term begins after December 31, 1986 (and under §1.280F-5T(f) for property for which the

taxpayer's lease term begins before January 1, 1987). See also §1.280F-5T(g).

(2) *Inclusion amount.* The inclusion amount for any listed property (other than a passenger automobile) leased after December 31, 1986, is the sum of the amounts determined under subdivisions (i) and (ii) of this subparagraph (2).

(i) The amount determined under this subdivision (i) is the product of the following amounts:

(A) The fair market value (as defined in §1.280F-5T(h)(2)) of the property,

(B) The business/investment use (as defined in §1.280F-6T(d)(3)(i)) for the first taxable year in which the business use percentage (as defined in §1.280F-6T(d)(1)) is 50 percent or less, and

(C) The applicable percentage from the following table:

Type of property	First taxable year during lease in which business use percentage is 50% or less											
	1	2	3	4	5	6	7	8	9	10	11	12 and Later
Property with a recovery period of less than 7 years under the alternative depreciation system (such as computers, trucks and airplanes)	2.1	-7.2	-19.8	-20.1	-12.4	-12.4	-12.4	-12.4	-12.4	-12.4	-12.4	-12.4
Property with a 7- to 10-year recovery period under the alternative depreciation system (such as recreation property)	3.9	-3.8	-17.7	-25.1	-27.8	-27.2	-27.1	-27.6	-23.7	-14.7	-14.7	-14.7
Property with a recovery period of more than 10 years under the alternative depreciation system (such as certain property with no class life)	6.6	-1.6	-16.9	-25.6	-29.9	-31.1	-32.8	-35.1	-33.3	-26.7	-19.7	-12.2

§ 1.280F-7

26 CFR Ch. I (4-1-02 Edition)

Internal Revenue Service, Treasury

§ 1.280H-0T

(ii) The amount determined under this subdivision (ii) is the product of the following amounts:

(A) The fair market value of the property,

(B) The average of the business/investment use for all taxable years (in

which such property is leased) that precede the first taxable year in which the business use percentage is 50 percent or less, and

(C) The applicable percentage from the following table:

Type of property	First taxable year during lease in which business use percentage is 50% or less											
	1	2	3	4	5	6	7	8	9	10	11	12 and Later
Property with a recovery period of less than 7 years under the alternative depreciation system (Such as computers, trucks and airplanes)	0.0	10.0	22.0	21.2	12.7	12.7	12.7	12.7	12.7	12.7	12.7	12.7
Property with a 7- to 10-year recovery period under the alternative depreciation system (such as recreation property)	0.0	9.3	23.8	31.3	33.8	32.7	31.6	30.5	25.0	15.0	15.0	15.0
Property with a recovery period of more than 10 years under the alternative depreciation system (such as certain property with no class life)	0.0	10.1	26.3	35.4	39.6	40.2	40.8	41.4	37.5	29.2	20.8	12.5

(3) *Example.* The following example illustrates the application of this paragraph (b):

Example. On February 1, 1987, B, a calendar year taxpayer, leases and places in service a computer with a fair market value of \$3,000. The lease is to be for a period of two years. B's qualified business use of the property, which is the only business/investment use, is 80 percent in taxable year 1987, 40 percent in taxable year 1988, and 35 percent in taxable year 1989. B must add an inclusion amount to gross income for taxable year 1988, the first taxable year in which B does not use the computer predominantly for business (*i.e.*, the first taxable year in which B's business use percentage is 50 percent or less). Since 1988 is the second taxable year during the lease, and since the computer has a 5-year recovery period under the General and Alternative Depreciation Systems, the applicable percentage from the table in subdivision (i) of paragraph (b)(2) is -7.2%, and the applicable percentage from the table in subdivision (ii) is 10%. B's inclusion amount is \$154, which is the sum of the amounts determined under subdivisions (i) and (ii) of subparagraph (b)(2) of this paragraph. The amount determined under subdivision (i) is -\$86 [$\$3,000 \times 40\% \times (-7.2\%)$], and the amount determined under subdivision (ii) is \$240 [$\$3,000 \times 80\% \times 10\%$].
