

taxpayer primarily for sale to customers in the ordinary course of his trade or business), any excess of the proceeds of the sale over the adjusted basis of such property shall be included in the taxpayer's gross income for the taxable year in which such sale is made. See, however, section 453 and the regulations thereunder for special rules relating to certain installment sales. If farm produce is exchanged for merchandise, groceries, or the like, the market value of the article received in exchange is to be included in gross income. Proceeds of insurance, such as hail or fire insurance on growing crops, should be included in gross income to the extent of the amount received in cash or its equivalent for the crop injured or destroyed. See section 451(d) for special rule relating to election to include crop insurance proceeds in income for taxable year following taxable year of destruction. For taxable years beginning after July 12, 1972, where a farmer is engaged in producing crops and the process of gathering and disposing of such crops is not completed within the taxable year in which such crops are planted, the income therefrom may, with the consent of the Commissioner (see section 446 and the regulations thereunder), be computed upon the crop method. For taxable years beginning on or before July 12, 1972, where a farmer is engaged in producing crops which take more than a year from the time of planting to the time of gathering and disposing, the income therefrom may, with the consent of the Commissioner (see section 446 and the regulations thereunder), be computed upon the crop method. In any case in which the crop method is used, the entire cost of producing the crop must be taken as a deduction for the year in which the gross income from the crop is realized, and not earlier.

(d) *Definition of "farm"*. As used in this section, the term "farm" embraces the farm in the ordinarily accepted sense, and includes stock, dairy, poultry, fruit, and truck farms; also plantations, ranches, and all land used for farming operations. All individuals, partnerships, or corporations that cultivate, operate, or manage farms for gain or profit, either as owners or ten-

ants, are designated as farmers. For more detailed rules with respect to the determination of whether or not an individual is engaged in farming, see § 1.175-3. For rules applicable to persons cultivating or operating a farm for recreation or pleasure, see sections 162 and 165, and the regulations thereunder.

(e) *Cross references*. (1) For election to include Commodity Credit Corporation loans as income, see section 77 and regulations thereunder.

(2) For definition of gross income derived from farming for purposes of limiting deductibility of soil and water conservation expenditures, see section 175 and regulations thereunder.

(3) For definition of gross income from farming in connection with declarations of estimated income tax, see section 6073 and regulations thereunder.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 31, 1960, as amended by T.D. 7198, 37 FR 13679, July 13, 1972; T.D. 8729, 62 FR 44546, Aug. 22, 1997]

§ 1.61-5 Allocations by cooperative associations; per-unit retain certificates—tax treatment as to cooperatives and patrons.

(a) *In general*. Amounts allocated on the basis of the business done with or for a patron by a cooperative association, whether or not entitled to tax treatment under section 522, in cash, merchandise, capital stock, revolving fund certificates, retain certificates, certificates of indebtedness, letters of advice or in some other manner disclosing to the patron the dollar amount allocated, shall be included in the computation of the gross income of such patron for the taxable year in which received to the extent prescribed in paragraph (b) of this section, regardless of whether the allocation is deemed, for the purpose of section 522, to be made at the close of a preceding taxable year of the cooperative association. The determination of the extent of taxability of such amounts is in no way dependent upon the method of accounting employed by the patron or upon the method, cash, accrual, or otherwise, upon which the taxable income of such patron is computed.

(b) *Extent of taxability.* (1) Amounts allocated to a patron on a patronage basis by a cooperative association with respect to products marketed for such patron, or with respect to supplies, equipment, or services, the cost of which was deductible by the patron under section 162 or section 212, shall be included in the computation of the gross income of such patron, as ordinary income, to the following extent:

(i) If the allocation is in cash, the amount of cash received.

(ii) If the allocation is in merchandise, the amount of the fair market value of such merchandise at the time of receipt by the patron.

(iii) If the allocation is in the form of revolving fund certificates, retain certificates, certificates of indebtedness, letters of advice, or similar documents, the amount of the fair market value of such document at the time of its receipt by the patron. For purposes of this subdivision, any document containing an unconditional promise to pay a fixed sum of money on demand or at a fixed or determinable time shall be considered to have a fair market value at the time of its receipt by the patron, unless it is clearly established to the contrary. However, for purposes of this subdivision, any document which is payable only in the discretion of the cooperative association, or which is otherwise subject to conditions beyond the control of the patron, shall be considered not to have any fair market value at the time of its receipt by the patron, unless it is clearly established to the contrary.

(iv) If the allocation is in the form of capital stock, the amount of the fair market value, if any, of such capital stock at the time of its receipt by the patron.

(2) If any allocation to which subparagraph (1) of this paragraph applies is received in the form of a document of the type described in subparagraph (1) (iii) or (iv) of this paragraph and is redeemed in full or in part or is otherwise disposed of, there shall be included in the computation of the gross income of the patron, as ordinary income, in the year of redemption or other disposition, the excess of the amount realized on the redemption or other disposition over the amount pre-

viously included in the computation of gross income under such subparagraph.

(3)(i) Amounts which are allocated on a patronage basis by a cooperative association with respect to supplies, equipment, or services, the cost of which was not deductible by the patron under section 162 or section 212, are not includible in the computation of the gross income of such patron. However, in the case of such amounts which are allocated with respect to capital assets (as defined in section 1221) or property used in the trade or business within the meaning of section 1231, such amounts shall, to the extent set forth in subparagraph (1) of this paragraph, be taken into account by such patron in determining the cost of the property to which the allocation relates. Notwithstanding the preceding sentence, to the extent that such amounts are in excess of the unrecovered cost of such property, and to the extent that such amounts relate to such property which the patron no longer owns, they shall be included in the computation of the gross income of such patron.

(ii) If any patronage dividend is allocated to the patron in the form of a document of the type described in subparagraph (1) (iii) or (iv) of this paragraph, and if such allocation is with respect to capital assets (as defined in section 1221) or property used in the trade or business within the meaning of section 1231, any amount realized on the redemption or other disposition of such document which is in excess of the amount which was taken into account upon the receipt of the document by the patron shall be taken into account by such patron in the year of redemption or other disposition as an adjustment to basis or as an inclusion in the computation of gross income, as the case may be.

(iii) Any adjustment to basis in respect of an amount to which subdivision (i) or (ii) of this subparagraph applies shall be made as of the first day of the taxable year in which such amount is received.

(iv) The application of the provisions of this subparagraph may be illustrated by the following examples:

Example (1). On July 1, 1959, P, a patron of a cooperative association, purchases a tractor for use in his farming business from such

§ 1.61-5

26 CFR Ch. I (4-1-02 Edition)

association for \$2,200. The tractor has an estimated useful life of five years and an estimated salvage value of \$200. P files his income tax returns on a calendar year basis and claims depreciation on the tractor for the year 1959 of \$200 pursuant to his use of the straight-line method at the rate of \$400 per year. On July 1, 1960, the cooperative association allocates to P with respect to his purchase of the tractor a dividend of \$300 in cash. P will reduce his depreciation allowance with respect to the tractor for 1960 (and subsequent taxable years) to \$333.33, determined as follows:

Cost of tractor, July 1, 1959	\$2,200
Less:	
Depreciation for 1959 (6 mos.) ...	\$200
Adjustment as of Jan. 1, 1960, for cash patronage dividend	300
Salvage value	200
	700
Basis for depreciation for the remain- ing 4½ years of estimated life	1,500
Basis for depreciation divided by the 4½ years of remaining life	333.33

Example (2). Assume the same facts as in example (1), except that on July 1, 1960, the cooperative association allocates a dividend to P with respect to his purchase of the tractor in the form of a revolving fund certificate having a face amount of \$300. The certificate is redeemable in cash at the discretion of the directors of the association and is subject to diminution by any future losses of the association, and has no fair market value when received by P. Since the certificate had no fair market value when received by P, no amount with respect to such certificate was taken into account by him in the year 1960. In 1965, P receives \$300 cash from the association in full redemption of the certificate. Prior to 1965, he had recovered through depreciation \$2,000 of the cost of the tractor, leaving an unrecovered cost of \$200 (the salvage value). For the year 1965, the redemption proceeds of \$300 are applied against the unrecovered cost of \$200, reducing the basis to zero, and the balance of the redemption proceeds, \$100, is includible in the computation of P's gross income.

Example (3). Assume the same facts as in example (2), except that the certificate is redeemed in full on July 1, 1962. The full \$300 received on redemption of the certificate will be applied against the unrecovered cost of the tractor as of January 1, 1962, computed as follows:

Cost of tractor, July 1, 1959	\$2,200
Less:	
Depreciation for 1959 (6 mos.) ...	\$200
Depreciation for 1960	400
Depreciation for 1961	400
	1,000
Unrecovered cost on Jan. 1, 1962	1,200

Adjustment as of Jan. 1, 1962, for proceeds of the redemption of the revolving fund certificate	300
Unrecovered cost on Jan. 1, 1962, after adjustment	900
Less: Salvage value	200
	700
Basis for depreciation on Jan. 1, 1962	700
If P uses the tractor in his business until June 30, 1964, he would be entitled to the following depreciation allowances with respect to the tractor:	
For 1962	280
For 1963	280
For 1964 (6 mos.)	140
	700
Balance to be depreciated	0

Example (4). Assume the same facts as in example (3), except that P sells the tractor in 1961. The entire \$300 received in 1962 in redemption of the revolving fund certificate is includible in the computation of P's gross income for the year 1962.

(c) *Special rule.* If, for any taxable year ending before December 31, 1959, a taxpayer treated any patronage dividend received in the form of a document described in paragraph (b) (1) (iii) or (iv) of this section in accordance with the regulations then applicable (whether such dividend is subject to paragraph (b) (1) or (3) of this section), such taxpayer is not required to change the treatment of such patronage dividends for any such prior taxable year. On the other hand, the taxpayer may, if he so desires, amend his income tax returns to treat the receipt of such patronage dividend in accordance with the provisions of this section, but no provision in this paragraph shall be construed as extending the period of limitations within which a claim for credit or refund may be filed under section 6511.

(d) *Per-unit retain certificates; tax treatment of cooperative associations; distribution and reinvestment alternative.* (1)(i) In the case of a taxable year to which this paragraph applies to a cooperative association, such association shall, in computing the amount paid or returned to a patron with respect to products marketed for such patron, take into account the stated dollar amount of any per-unit retain certificate (as defined in paragraph (g) of this section)—

(a) Which is issued during the payment period for such year (as defined in subparagraph (3) of this paragraph) with respect to such products,

(b) With respect to which the patron is a qualifying patron (as defined in subparagraph (2) of this paragraph), and

(c) Which clearly states the fact that the patron has agreed to treat the stated dollar amount thereof as representing a cash distribution to him which he has reinvested in the cooperative association.

(ii) No amount shall be taken into account by a cooperative association by reason of the issuance of a per-unit retain certificate to a patron who was not a qualifying patron with respect to such certificate. However, any amount paid in redemption of a per-unit retain certificate which was issued to a patron who was not a qualifying patron with respect to such certificate shall be taken into account by the cooperative in the year of redemption, as an amount paid or returned to such patron with respect to products marketed for him. This subdivision shall apply only to per-unit retain certificates issued with respect to taxable years of the cooperative association to which this paragraph applied to the association (that is, taxable years with respect to which per-unit retain certificates were issued to one or more patrons who are qualifying patrons).

(2)(i) A patron shall be considered to be a "qualifying patron" with respect to a per-unit retain certificate if there is in effect an agreement between the cooperative association and such patron which clearly provides that such patron agrees to treat the stated dollar amounts of all per-unit retain certificates issued to him by the association as representing cash distributions which he has constructively received and which he has, of his own choice, reinvested in the cooperative association. Such an agreement may be included in a by-law of the cooperative which is adopted prior to the time the products to which the per-unit retain certificates relate are marketed. However, except where there is in effect a "written agreement" described in subdivision (ii) of this subparagraph, a patron shall not be considered to be a "qualifying patron" with respect to a per-unit retain certificate if it has been established by a determination of the Tax Court of the United States, or any

other court of competent jurisdiction, which has become final, that the stated dollar amount of such certificate, or of a similar certificate issued under similar circumstances to such patron or any other patron by the cooperative association, is not required to be included (as ordinary income) in the gross income of such patron, or such other patron, for the taxable year of the patron in which received.

(ii) The "written agreement" referred to in subdivision (i) of this subparagraph is an agreement in writing, signed by the patron, on file with the cooperative association, and revocable as provided in this subdivision. Unless such an agreement specifically provides to the contrary, it shall be effective for per-unit retain certificates issued with respect to the taxable year of the cooperative association in which the agreement is received by the association, and unless revoked, for per-unit retain certificates issued with respect to all subsequent taxable years. A "written agreement" must be revocable by the patron at any time after the close of the taxable year in which it is made. To be effective, a revocation must be in writing, signed by the patron, and furnished to the cooperative association. A revocation shall be effective only for per-unit retain certificates issued with respect to taxable years of the cooperative association following the taxable year in which it is furnished to the association. Notwithstanding the preceding sentence, a revocation shall not be effective for per-unit retain certificates issued with respect to products marketed for the patron under a pooling arrangement in which such patron participated before such revocation. The following is an example of an agreement which would meet the requirements of this subparagraph:

I agree that, for purposes of determining the amount I have received from this cooperative in payment for my goods, I shall treat the face amount of any per-unit retain certificates issued to me on and after _____ as representing a cash distribution which I have constructively received and which I have reinvested in the cooperative.

(Signed)

(3) For purposes of this paragraph and paragraph (e) of this section, the payment period for any taxable year of the cooperative is the period beginning with the first day of such taxable year and ending with the 15th day of the 9th month following the close of such year.

(4) This paragraph shall apply to any taxable year of a cooperative association if, with respect to such taxable year, the association has issued per-unit retain certificates to one or more of its patrons who are qualifying patrons with respect to such certificates within the meaning of subparagraph (2) of this paragraph.

(e) *Tax treatment of cooperative association; taxable years for which paragraph (d) does not apply.* (1) In the case of a taxable year to which paragraph (d) of this section does not apply to a cooperative association, such association shall, in computing the amount paid or returned to a patron with respect to products marketed for such patron, take into account the fair market value (at the time of issue) of any per-unit retain certificates which are issued by the association with respect to such products during the payment period for such taxable year.

(2) An amount paid in redemption of a per-unit retain certificate issued with respect to a taxable year of the cooperative association for which paragraph (d) of this section did not apply to the association, shall, to the extent such amount exceeds the fair market value of the certificate at the time of its issue, be taken into account by the association in the year of redemption, as an amount paid or returned to a patron with respect to products marketed for such patron.

(3) For purposes of this paragraph and paragraph (f)(2) of this section, any per-unit retain certificate containing an unconditional promise to pay a fixed sum of money on demand or at a fixed or determinable time shall be considered to have a fair market value at the time of its issue, unless it is clearly established to the contrary. On the other hand, any per-unit retain certificate (other than capital stock) which is redeemable only in the discretion of the cooperative association, or which is otherwise subject to conditions beyond the control of the patron,

shall be considered not to have any fair market value at the time of its issue, unless it is clearly established to the contrary.

(f) *Tax treatment of patron.* (1) The following rules apply for purposes of computing the amount includible in gross income with respect to a per-unit retain certificate which was issued to a patron by a cooperative association with respect to a taxable year of such association for which paragraph (d) of this section applies.

(i) If the patron is a qualifying patron with respect to such certificate (within the meaning of paragraph (d) (2) of this section), he shall, in accordance with his agreement, include (as ordinary income) the stated dollar amount of the certificate in gross income for his taxable year in which the certificate is received by him.

(ii) If the patron is not a qualifying patron with respect to such certificate, no amount is includible in gross income on the receipt of the certificate; however, any gain on the redemption, sale, or other disposition of such certificate shall, to the extent of the stated dollar amount thereof, be considered as gain from the sale or exchange of property which is not a capital asset.

(2) The amount of the fair market value of a per-unit retain certificate which is issued to a patron by a cooperative association with respect to a taxable year of the association for which paragraph (d) of this section does not apply shall be included, as ordinary income, in the gross income of the patron for the taxable year in which the certificate is received. Any gain on the redemption, sale, or other disposition of such a per-unit retain certificate shall, to the extent its stated dollar amount exceeds its fair market value at the time of issue, be treated as gain on the redemption, sale, or other disposition of property which is not a capital asset.

(g) “*Per-unit retain certificate*” defined. For purposes of paragraphs (d), (e), and (f), of this section, the term “per-unit retain certificate” means any capital stock, revolving fund certificate, retain certificate, certificate of indebtedness, letter of advice, or other written notice—

(1) Which is issued to a patron with respect to products marketed for such patron;

(2) Which discloses to the patron the stated dollar amount allocated to him on the books of the cooperative association; and

(3) The stated dollar amount of which is fixed without reference to net earnings.

(h) *Effective date.* This section shall not apply to any amount the tax treatment of which is prescribed in section 1385 and § 1.1385-1. Paragraphs (d), (e), and (f) of this section shall apply to per-unit retain certificates as defined in paragraph (g) of this section issued by a cooperative association during taxable years of the association beginning after April 30, 1966, with respect to products marketed for patrons during such years.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6855, 30 FR 13134, Oct. 15, 1965]

§ 1.61-6 Gains derived from dealings in property.

(a) *In general.* Gain realized on the sale or exchange of property is included in gross income, unless excluded by law. For this purpose property includes tangible items, such as a building, and intangible items, such as goodwill. Generally, the gain is the excess of the amount realized over the unrecovered cost or other basis for the property sold or exchanged. The specific rules for computing the amount of gain or loss are contained in section 1001 and the regulations thereunder. When a part of a larger property is sold, the cost or other basis of the entire property shall be equitably apportioned among the several parts, and the gain realized or loss sustained on the part of the entire property sold is the difference between the selling price and the cost or other basis allocated to such part. The sale of each part is treated as a separate transaction and gain or loss shall be computed separately on each part. Thus, gain or loss shall be determined at the time of sale of each part and not deferred until the entire property has been disposed of. This rule may be illustrated by the following examples:

Example (1). A, a dealer in real estate, acquires a 10-acre tract for \$10,000, which he divides into 20 lots. The \$10,000 cost must be equitably apportioned among the lots so that on the sale of each A can determine his taxable gain or deductible loss.

Example (2). B purchases for \$25,000 property consisting of a used car lot and adjoining filling station. At the time, the fair market value of the filling station is \$15,000 and the fair market value of the used car lot is \$10,000. Five years later B sells the filling station for \$20,000 at a time when \$2,000 has been properly allowed as depreciation thereon. B's gain on this sale is \$7,000, since \$7,000 is the amount by which the selling price of the filling station exceeds the portion of the cost equitably allocable to the filling station at the time of purchase reduced by the depreciation properly allowed.

(b) *Nontaxable exchanges.* Certain realized gains or losses on the sale or exchange of property are not "recognized", that is, are not included in or deducted from gross income at the time the transaction occurs. Gain or loss from such sales or exchanges is generally recognized at some later time. Examples of such sales or exchanges are the following:

(1) Certain formations, reorganizations, and liquidations of corporations, see sections 331, 333, 337, 351, 354, 355, and 361;

(2) Certain formations and distributions of partnerships, see sections 721 and 731;

(3) Exchange of certain property held for productive use or investment for property of like kind, see section 1031;

(4) A corporation's exchange of its stock for property, see section 1032;

(5) Certain involuntary conversions of property if replaced, see section 1033;

(6) Sale or exchange of residence if replaced, see section 1034;

(7) Certain exchanges of insurance policies and annuity contracts, see section 1035; and

(8) Certain exchanges of stock for stock in the same corporation, see section 1036.

(c) *Character of recognized gain.* Under Subchapter P, Chapter 1 of the Code, relating to capital gains and losses, certain gains derived from dealings in property are treated specially, and under certain circumstances the maximum rate of tax on such gains is 25 percent, as provided in section 1201. Generally, the property subject to this
