

Example 2. Assume the same facts as in example 1 except that the unused credit is carried over to 1979. The carryover credit is not subject to the separate limitation under section 53(b) because that limitation does not apply to taxable years of a taxpayer beginning after December 31, 1978.

Example 3. B, a calendar year taxpayer, is a shareholder in Corporation W, a subchapter S corporation. In 1979, B's pro rata share of the targeted jobs credit covered by Corporation W was \$5,000 but B could only use \$3,000 of the credit in 1979. B carries back the unused credit to 1978. The carryback credit is not subject to the separate limitation under section 53(b).

(Secs. 44B, 381, and 7805 of the Internal Revenue Code of 1954 (92 Stat. 2834, 26 U.S.C. 44B); 91 Stat. 148, 26 U.S.C. 381(c)(26); 68A Stat. 917, 26 U.S.C. 7805)

[T.D. 7560, 43 FR 60445, Dec. 28, 1978. Redesignated and amended by T.D. 7921, 48 FR 52906, 52907, Nov. 23, 1983]

§ 1.55-1 Alternative minimum taxable income.

(a) *General rule for computing alternative minimum taxable income.* Except as otherwise provided by statute, regulations, or other published guidance issued by the Commissioner, all Internal Revenue Code provisions that apply in determining the regular taxable income of a taxpayer also apply in determining the alternative minimum taxable income of the taxpayer.

(b) *Items based on adjusted gross income or modified adjusted gross income.* In determining the alternative minimum taxable income of a taxpayer other than a corporation, all references to the taxpayer's adjusted gross income or modified adjusted gross income in determining the amount of items of income, exclusion, or deduction must be treated as references to the taxpayer's adjusted gross income or modified adjusted gross income as determined for regular tax purposes.

(c) *Effective date.* These regulations are effective for taxable years beginning after December 31, 1993.

(4) Estimating the net book income adjustment for purposes of estimated tax liability.

[T.D. 8307, 55 FR 33675, Aug. 17, 1990]

§ 1.56-1 Adjustment for the book income of corporations.

(a) *Computation of the book income adjustment*—(1) *In general.* For taxable years beginning in 1987, 1988, and 1989, the alternative minimum taxable income of any taxpayer is increased by the book income adjustment described in this paragraph (a)(1). The book income adjustment is 50 percent of the excess, if any, of—

(i) The adjusted net book income (as defined in paragraph (b) of this section) of the taxpayer, over

(ii) The pre-adjustment alternative minimum taxable income for the taxable year.

For purposes of this section, pre-adjustment alternative minimum taxable income is alternative minimum taxable income, determined without regard to the book income adjustment or the alternative tax net operating loss determined under section 56(a)(4). See paragraph (a)(4) of this section for examples relating to the computation of the income adjustment.

(2) *Taxpayers subject to the book income adjustment.* The book income adjustment is applicable to any corporate taxpayer that is not an S corporation, regulated investment company (RIC), real estate investment trust (REIT), or real estate mortgage investment company (REMIC).

(3) *Consolidated returns.* In the case of a taxpayer that is a consolidated group, the book income adjustment equals 50 percent of the amount, if any, by which its consolidated adjusted net book income (as defined in paragraph (b)(3)(i) of this section) exceeds its consolidated pre-adjustment alternative minimum taxable income (as defined in paragraph (b)(3)(iii) of this section). See paragraph (a)(4), Example 4 of this section. For purposes of this section, with respect to any taxable year the term “consolidated group” has the same meaning as in § 1.1502-1T. See paragraph (d)(6) of this section for rules relating to adjustments attributable to related corporations.

(4) *Examples.* The provisions of this paragraph may be illustrated by the following examples.

Example 1. Corporation A has adjusted net book income of \$200 and pre-adjustment alternative minimum taxable income of \$100. A must increase its pre-adjustment alternative minimum taxable income by \$50 $((\$200 - \$100) \times .50)$.

Example 2. Corporation B has adjusted net book income of \$200 and pre-adjustment alternative minimum taxable income of \$300. B does not have a book income adjustment for the taxable year because its adjusted net book income does not exceed its pre-adjustment alternative minimum taxable income.

Example 3. Corporation C has adjusted net book income of negative \$200 and pre-adjustment alternative minimum taxable income of negative \$300. C must increase its pre-adjustment alternative minimum taxable income by \$50 $((-\$200 - (-\$300)) \times .50)$. Thus, C’s alternative minimum taxable income determined after the book income adjustment, but without regard to the alternative tax net operating loss, is negative \$250 $(-\$300 + \$50)$.

Example 4. Corporations D and E are a consolidated group for tax purposes. D and E do not have a consolidated financial statement. On their separate financial statements D and E have adjusted net book income of \$100 and \$50 respectively, and pre-adjustment alternative minimum taxable income of \$50 and \$80 respectively. Assuming there are no intercompany transactions, DE’s consolidated adjusted net book income (as defined in paragraph (b)(3)(i) of this section) is \$150 and its consolidated pre-adjustment alternative minimum taxable income (as defined in paragraph (b)(3)(iii) of this section) is \$130. DE must increase its consolidated pre-adjustment alternative minimum taxable income by \$10 $((\$150 - \$130) \times .50)$.

(b) *Adjusted net book income*—(1) *In general.* “Adjusted net book income” means the net book income (as defined in paragraph (b)(2) of this section) adjusted as provided in paragraph (d) of this section. Except as provided in paragraph (d) of this section, a taxpayer may not make any adjustments to net book income.

(2) *Net book income*—(i) *In general.* “Net book income” means the income or loss for a taxpayer reported in the taxpayer’s applicable financial statement (as defined in paragraph (c) of this section). Net book income must take into account all items of income, expense, gain and loss of the taxable year, including extraordinary items,
