

taxable year to which the loss is carried, the loss shall be allocated pro rata to other separate limitation income of the taxpayer for the taxable year. However, there shall be no re-characterization of separate limitation income pursuant to section 904(f)(5) as a result of the allocation of such a net operating loss to other separate limitation income of the taxpayer.

(4) *Examples.* The following examples illustrate the rules of paragraph (c) of this section.

Example 1. X is a domestic corporation which has a branch operation in Country A. For its taxable year ending December 31, 1987, X has a \$60 net operating loss which is carried back pursuant to section 172 to its taxable year ending December 31, 1985. The net operating loss resulted from a shipping loss; X had no U.S. source income in 1987. X had \$20 of general limitation income, \$40 of DISC limitation income and \$10 of U.S. source income for its 1985 taxable year. The \$60 NOL is allocated first to X's 1985 general limitation income to the extent thereof (\$20) since the general limitation income category of section 904(d) as in effect for pre-effective date taxable years is the income category that is analogous to shipping income for post-effective date taxable years. Therefore, X has no general limitation income for its 1985 taxable year. Next, pursuant to section 904(f) as in effect for pre-effective date taxable years, the remaining \$40 of the NOL is allocated first to X's \$10 of U.S. source income and then to \$30 of X's DISC limitation income for its 1985 taxable year. Accordingly, X has no U.S. source income and \$10 of DISC limitation income for its 1985 taxable year after allocation of the NOL. X has a \$10 balance in its shipping overall foreign loss account which is subject to recapture pursuant to section 904(f) as in effect for post-effective date taxable years. X will not be required to recharacterize, pursuant to section 904(f)(5), subsequent shipping income as DISC limitation income.

Example 2. Y is a domestic corporation which has a branch operation in Country B. For its taxable year ending December 31, 1987, X has a \$200 net operating loss which is carried back pursuant to section 172 to its taxable year ending December 31, 1986. The net operating loss resulted from a (\$100) general limitation loss and a (\$100) shipping loss. Y had \$100 of general limitation income and \$200 of U.S. source income for its taxable year ending December 31, 1986. The separate limitation losses for 1987 are allocated pro rata to Y's 1986 general limitation income as follows: \$50 of the (\$100) general limitation loss ($\$100 \times 100/200$) and \$50 of the (\$100) shipping loss ($\$100 \times 100/200$) is allocated to Y's

\$100 of 1986 general limitation income. The remaining \$50 of Y's general limitation loss and the remaining \$50 of Y's shipping loss are allocated to Y's 1986 U.S. source income. Accordingly, Y has no foreign source income and \$100 of U.S. source income for its 1986 taxable year. Y has a \$50 balance in its general limitation overall foreign loss account and a \$50 balance in its shipping overall foreign loss account, both of which will be subject to recapture pursuant to section 904(f) as in effect for post-effective date taxable years.

(d) *Recapture of FORI and general limitation overall foreign losses incurred in taxable years beginning before January 1, 1983.* For taxable years beginning after December 31, 1986, and before January 1, 1991, the rules set forth in § 1.904 (f)-6 shall apply for purposes of recapturing general limitation and foreign oil related income (FORI) overall foreign losses incurred in taxable years beginning before January 1, 1983 (pre-1983). For taxable years beginning after December 31, 1990, the rules set forth in this section shall apply for purposes of recapturing pre-1983 general limitation and FORI overall foreign losses.

(e) *Recapture of pre-1983 overall foreign losses determined on a combined basis.* The rules set forth in paragraph (a)(2) of this section shall apply for purposes of recapturing overall foreign losses incurred in taxable years beginning before January 1, 1983, that were computed on a combined basis in accordance with § 1.904 (f)-1(c) (1).

(f) *Transition rules for taxable years beginning before December 31, 1990.* For transition rules for taxable years beginning before January 1, 1990, see 26 CFR 1.904 (f)-13T as it appeared in the Code of Federal Regulations revised as of April 1, 1990.

§ 1.904(i)-1 Limitation on use of deconsolidation to avoid foreign tax credit limitations.

(a) *General rule.* If two or more includible corporations are affiliates, within the meaning of paragraph (b)(1) of this section, at any time during their taxable years, then, solely for purposes of applying the foreign tax credit provisions of section 59(a), sections 901 through 908, and section 960, the rules of this section will apply.

(1) *Determination of taxable income*—(i) Each affiliate must compute its net taxable income or loss in each separate category (as defined in § 1.904-5(a)(1), and treating U.S. source income or loss as a separate category) without regard to sections 904(f) and 907(c)(4). Only affiliates that are members of the same consolidated group use the consolidated return regulations (other than those under sections 904(f) and 907(c)(4)) in computing such net taxable income or loss. To the extent otherwise applicable, other provisions of the Code and regulations must be used in the determination of an affiliate's net taxable income or loss in a separate category.

(ii) The net taxable income amounts in each separate category determined under paragraph (a)(1)(i) of this section are combined for all affiliates to determine one amount for the group of affiliates in each separate category. However, a net loss of an affiliate (first affiliate) in a separate category determined under paragraph (a)(1)(i) of this section will be combined under this paragraph (a) with net income or loss amounts of other affiliates in the same category only if, and to the extent that, the net loss offsets taxable income, whether U.S. or foreign source, of the first affiliate. The consolidated return regulations that apply the principles of sections 904(f) and 907(c)(4) to consolidated groups will then be applied to the combined amounts in each separate category as if all affiliates were members of a single consolidated group.

(2) *Allocation*. Any net taxable income in a separate category calculated under paragraph (a)(1)(ii) of this section for purposes of the foreign tax credit provisions must then be allocated among the affiliates under any consistently applied reasonable method, taking into account all of the facts and circumstances. A method is consistently applied if used by all affiliates from year to year. Once chosen, an allocation method may be changed only with the consent of the Commissioner. This allocation will only affect the source and foreign tax credit separate limitation character of the income for purposes of the foreign tax credit separate limitation of each affiliate, and will not otherwise affect an affiliate's total

net income or loss. This section applies whether the federal income tax consequences of its application favor, or are adverse to, the taxpayer.

(b) *Definitions and special rules*— For purposes of this section only, the following terms will have the meanings specified.

(1) *Affiliate*—(i) *Generally*. Affiliates are includible corporations—

(A) That are members of the same affiliated group, as defined in section 1504(a); or

(B) That would be members of the same affiliated group, as defined in section 1504(a) if—

(I) Any non-includible corporation meeting the ownership test of section 1504(a)(2) with respect to any such includible corporation was itself an includible corporation; or

(2) The constructive ownership rules of section 1563(e) were applied for purposes of section 1504(a).

(ii) *Rules for consolidated groups*. Affiliates that are members of the same consolidated group are treated as a single affiliate for purposes of this section. The provisions of paragraph (a) of this section shall not apply if the only affiliates under this definition are already members of the same consolidated group without operation of this section.

(iii) *Exception for newly acquired affiliates*—(A) With respect to acquisitions after December 7, 1995, an includible corporation acquired from unrelated third parties (First Corporation) will not be considered an affiliate of another includible corporation (Second Corporation) during the taxable year of the First Corporation beginning before the date on which the First Corporation originally becomes an affiliate with respect to the Second Corporation.

(B) With respect to acquisitions on or before December 7, 1995, an includible corporation acquired from unrelated third parties will not be considered an affiliate of another includible corporation during its taxable year beginning before the date on which the first includible corporation first becomes an affiliate with respect to that other includible corporation.

(C) This exception does not apply where the acquisition of an includible

corporation is used to avoid the application of this section.

(2) *Includible corporation.* The term *includible corporation* has the same meaning it has in section 1504(b).

(c) *Taxable years.* If all of the affiliates use the same U.S. taxable year, then that taxable year must be used for purposes of applying this section. If, however, the affiliates use more than one U.S. taxable year, then an appropriate taxable year must be used for applying this section. The determination whether a taxable year is appropriate must take into account all of the relevant facts and circumstances, including the U.S. taxable years used by the affiliates for general U.S. income tax purposes. The taxable year chosen by the affiliates for purposes of applying this section must be used consistently from year to year. The taxable year may be changed only with the prior consent of the Commissioner. Those affiliates that do not use the year determined under this paragraph (c) as their U.S. taxable year for general U.S. income tax purposes must, for purposes of this section, use their U.S. taxable year or years ending within the taxable year determined under this paragraph (c). If, however, the stock of an affiliate is disposed of so that it ceases to be an affiliate, then the taxable year of that affiliate will be considered to end on the disposition date for purposes of this section.

(d) *Consistent treatment of foreign taxes paid.* All affiliates must consistently either elect under section 901(a) to claim a credit for foreign income taxes paid or accrued, or deemed paid or accrued, or deduct foreign taxes paid or accrued under section 164. See also § 1.1502-4(a); § 1.905-1(a).

(e) *Effective date.* Except as provided in paragraph (b)(1)(iii) of this section (relating to newly acquired affiliates), this section is effective for taxable years of affiliates beginning after December 31, 1993.

§ 1.905-1 When credit for taxes may be taken.

(a) *In general.* The credit for taxes provided in subpart A (section 901 and following), part III, subchapter N, chapter 1 of the Code, may ordinarily

be taken either in the return for the year in which the taxes accrued or in which the taxes were paid, dependent upon whether the accounts of the taxpayer are kept and his returns filed using an accrual method or using the cash receipts and disbursements method. Section 905(a) allows the taxpayer, at his option and irrespective of the method of accounting employed in keeping his books, to take such credit for taxes as may be allowable in the return for the year in which the taxes accrued. An election thus made under section 905(a) (or under the corresponding provisions of prior internal revenue laws) must be followed in returns for all subsequent years, and no portion of any such taxes accrued in a year in which a credit is claimed will be allowed as a deduction from gross income in any year. See also § 1.905-4.

(b) *Foreign income subject to exchange controls.* If, however, under the provisions of the regulations under section 461, an amount otherwise constituting gross income for the taxable year from sources without the United States is, owing to monetary, exchange, or other restrictions imposed by a foreign country, not includible in gross income of the taxpayer for such year, the credit for income taxes imposed by such foreign country with respect to such amount shall be taken proportionately in any subsequent taxable year in which such amount or portion thereof is includible in gross income.

§ 1.905-2 Conditions of allowance of credit.

(a) *Forms and information.* (1) Whenever the taxpayer chooses, in accordance with paragraph (d) of § 1.901-1, to claim the benefits of the foreign tax credit, the claim for credit shall be accompanied by Form 1116 in the case of an individual or by Form 1118 in the case of a corporation.

(2) The form must be carefully filled in with all the information called for and with the calculations of credits indicated. Except where it is established to the satisfaction of the district director that it is impossible for the taxpayer to furnish such evidence, the taxpayer must provide upon request the receipt for each such tax payment if credit is sought for taxes already paid
