DOD APPROPS AMENDMENTS

NOTE: Under the unanimous consent agreement new amendments may be offered without prior notice.

BORDALL AMDT The amendment would ensure that Military Sealift Command (MSC) vessels are repaired by an American ship repair facility, if one is available in the same area of operation of the vessel. May be subject to a point of order

HOSTETTLER AMDT: The Amendment would defund the Defense Department's Base Realignment and Closure (BRAC) process. Specifically, the amendment prohibits any funds appropriated in the bill from being used to carry out any of the BRAC '05 preparatory activities that are to be executed in FY2004.
