Commodity Credit Corporation, USDA

part for value loss crops unless otherwise determined by the Deputy Administrator.

§1478.5 Time for filing application.

Applications for benefits under the 1999 Crop Disaster Program must be filed before the close of business on February 25, 2000, or such other date that may be announced by the Deputy Administrator, in the county FSA office serving the county where the producer's farm is located for administrative purposes.

§1478.6 Limitations on payments and other benefits.

(a) A producer may receive disaster benefits under this part on 1999 crop year losses only.

(b) Payments will not be made under this part for grazing losses. Further, the Deputy Administrator may divide and classify crops based on loss susceptibility, yield, and other factors.

(c) No person shall receive more than a total of \$80,000 in disaster benefits under this part.

(d) No person shall receive disaster benefits under this part in an amount that exceeds the value of the expected production for the relevant period as determined by CCC.

(e) A person who has a gross revenue in excess of 2.5 million for the 1998 tax year shall not be eligible to receive disaster benefits under this part. Gross revenue includes the total income and total gross receipts of the person, before any reductions. Gross revenue shall not be adjusted, amended, discounted, netted or modified for any reason. No deductions for costs, expenses or pass-through funds will be deducted from any calculation of gross revenue. For purposes of making this determination, gross revenue means the total gross receipts received from farming, ranching and forestry operations if the person receives more than 50 percent of such person's gross income from farming or ranching; or the total gross receipts received from all sources if the person receives 50 percent or less of such person's gross receipts from farming, ranching and forestry.

(f) In the event the total amount of applications for disaster benefits under

this part exceeds the available funds, payments shall be reduced by a uniform national percentage. Such reductions shall be applied before any determination of limits on compensation due to multiple USDA benefits and after the imposition of applicable payment limitation and gross revenues caps. Available funds will not include funds made available under other parts for honey loans, mohair loans, and payments to livestock producers.

§ 1478.7 Requirement to purchase crop insurance.

(a) Any producer who elected not to purchase crop insurance on a crop in 1999 for which the producer receives crop loss assistance under this part must purchase crop insurance on that crop for the 2000 and 2001 crop years.

(b) If, at the time the producer is advised that he or she is eligible for crop loss assistance under this part, and the sales closing date for the 2000 crop year has passed for any crop for which crop insurance is required as specified in paragraph (a) of this section, the producer must purchase crop insurance for the 2001 crop year for any such crop.

(c) If any producer fails to purchase crop insurance as required in paragraph (a) or (b) of this section, the producer will be required to refund the benefits received or pay a lesser amount as may be specified by the Deputy Administrator.

§1478.8 Miscellaneous provisions.

(a) Disaster benefits under this part are not subject to administrative offset under §1403.8 of this chapter except as determined appropriate by the Deputy Administrator who may, among other offsets, deduct from the benefits accrued any reductions appropriate for a producer's failure to obtain crop insurance as required in connection with benefits for crop losses in prior years.

(b) A person shall be ineligible to receive disaster assistance under this part if it is determined by the State or county committee or an official of FSA that such person has:

(1) Adopted any scheme or other device that tends to defeat the purpose of a program operated under this part;

(2) Made any fraudulent representation with respect to such program; or

§ 1478.8

7 CFR Ch. XIV (1–1–01 Edition)

(3) Misrepresented any fact affecting a program determination.

(c) In the event there is a failure to comply with any term, requirement, or condition for payment or assistance arising under this part, and if any refund of a payment to CCC shall otherwise become due in connection with this part, all payments made in regard to such matter shall be refunded to CCC, together with interest as determined in accordance with paragraph (d) of this section and late-payment charges as provided for in part 1403 of this chapter.

(d) Producers shall be required to pay interest on any refund required of the producer receiving assistance or a payment if CCC determines that payments or other assistance were provided to the producer and the producer was not eligible for such assistance. The interest rate shall be one percent greater than the rate of interest that the United States Treasury charges CCC for funds, as of the date of payment. Interest that is determined to be due CCC shall accrue from the date such benefits were made available by CCC to the date repayment is completed. CCC may waive the accrual of interest if CCC determines that the cause of the erroneous determination was not due to any error by the producer.

(e) All persons with a financial interest in the operation receiving benefits under this part shall be jointly and severally liable for any refund, including related charges, which is determined to be due CCC for any reason under this part.

(f) In the event that any request for assistance or payment under this part was established as result of erroneous information or a miscalculation, the assistance or payment shall be recalculated and any excess refunded with applicable interest.

(g) The liability of any person for any penalty under this part or for any refund to CCC or related charge arising in connection therewith shall be in addition to any other liability of such person under any civil or criminal fraud statute or any other provision of law including, but not limited to, 18 U.S.C. 286, 287, 371, 641, 651, 1001 and 1014; 15 U.S.C. 714m; and 31 U.S.C. 3729. (h) Any person who is dissatisfied with a determination made with respect to this part may make a request for reconsideration or appeal of such determination in accordance with the regulations set forth at parts 11 and 780 of this title.

(i) Any payment or portion thereof to any person shall be made without regard to questions of title under State law and without regard to any claim or lien against the crop, or proceeds thereof.

(j) Payments that are earned under this part may be assigned in accordance with the provisions of part 1404 of this chapter upon filling out the applicable assignment form.

(k) For the purposes of 28 U.S.C. 3201(e), the restriction on receipt of funds or benefits under this program is waived; however, this waiver shall not preclude withholding or offsetting where it is deemed appropriate by the Deputy Administrator.

§1478.9 Matters of general applicability.

(a) For calculations of loss made with respect to insured crops, the producer's existing unit structure will be used as the basis for the calculation and may include optional units established in accordance with part 457 of this title. For uninsured and noninsurable crops, basic units will be established for these purposes.

(b) Loss payment rates and factors shall be established by the state committee based on procedures provided by the Deputy Administrator.

(c) County average yield for loss calculations will be the simple average of the 1993 through 1997 official county yields established by FSA.

(d) County committees will assign production when the county committee determines:

(1) An acceptable appraisal or record of harvested production does not exist;

(2) The loss is due to an ineligible cause of loss or practices that cause lower yields than those upon which the historic yield is based;

(3) The producer has a contract providing a guaranteed payment for all or a portion of the crop; or

(4) The crop is planted beyond the normal planting period for the crop.
