

§ 982.40

7 CFR Ch. IX (1-1-01 Edition)

making marketing policy recommendations.

[24 FR 6185, Aug. 1, 1959, as amended at 46 FR 26039, May 11, 1981; 61 FR 17559, Apr. 22, 1996]

MARKETING POLICY

§ 982.40 Marketing policy and volume regulation.

(a) *General.* As provided in this section, prior to September 20 of each marketing year, the Board may hold meetings for the purpose of computing its marketing policy for that year and shall do so for the purpose of submitting any recommendations on its policy to the Secretary. The Board may designate one of its employees to compute and announce the preliminary computed free and restricted percentages.

(b) *Inshell trade demand.* If the Board determines that volume regulation would tend to effectuate the declared policy of the act, it shall compute and announce an inshell trade demand for that year prior to September 20. The inshell trade demand shall equal the average of the preceding three years' trade acquisitions of inshell hazelnuts: *Provided*, That the Board may increase such average by no more than 25 percent if market conditions justify such an increase. If the trade acquisitions during any or all of these years were abnormal because of crop or marketing conditions, the Board may use a prior year or years in determining the three-year average.

(c) *Inshell allocation.* (1) *Preliminary computed percentages.* Prior to September 20 of a marketing year, the Board shall compute and announce preliminary computed free and restricted percentages for that year, to release 80 percent of the inshell trade demand for that year. The preliminary computed free percentage shall be computed by multiplying that trade demand, adjusted by the declared carryin, by 80 percent, and by dividing that amount by the Board's estimate of orchard-run production less the average disappearance during the preceding three years, plus the undeclared carryin. The difference between 100 percent and the preliminary free percentage shall be the preliminary computed restricted percentage. At the same time, the

Board may announce the portion of the restricted supply that may be shelled or exported, and the remainder of that supply to be disposed of in outlets approved by the Board pursuant to § 982.52.

(2) *Interim final and final percentages.* On or before November 15, the Board shall meet to recommend to the Secretary the interim final and final free and restricted percentages, including the portion of the restricted supply that may be shelled or exported. The interim final percentages shall release 100 percent of the inshell trade demand previously computed by the Board for the marketing year. The final free and restricted percentages may release an additional 15 percent of the average of the preceding three years' trade acquisitions of inshell hazelnuts for desirable carryout. If the trade acquisitions during any or all of these years were abnormal, the Board may use a prior year or years in determining this three-year average. The final free and restricted percentages shall become effective 30 days prior to the end of the marketing year, or earlier as may be recommended by the Board and approved by the Secretary. The recommendations to the Secretary shall include the following:

(i) The estimated tonnage of merchantable hazelnuts expected to be produced during the marketing year.

(ii) The estimated tonnage of inshell hazelnuts held by handlers on the first day of the marketing year which may be available for handling as inshell hazelnuts thereafter.

(iii) Any other pertinent factors bearing on the marketing of hazelnuts during the marketing year.

Whenever the Secretary finds, on the basis of the recommendation of the Board or other available information that, to establish the interim final and final free and restricted percentages would tend to effectuate the declared policy of the act, the Secretary shall establish such percentages.

(d) *Grade and size regulations.* Prior to September 20, the Board may consider grade and size regulations in effect and may recommend modifications thereof to the Secretary.

(e) *Revision of marketing policy.* At any time prior to February 15 of the

Agricultural Marketing Service, USDA

§ 982.46

marketing year, the Board may recommend to the Secretary revisions in the marketing policy for that year: *Provided*, That in no event shall any such recommendation provide for free and restricted percentages based on an inshell trade demand which is more than 125 percent of the average of the preceding three years' trade acquisitions computed pursuant to paragraph (b) of this section for that marketing year. At any time during the period December 1 through February 10 at the request of two or more handlers, who during the preceding marketing year handled at least 10 percent of all hazelnuts handled, the Board shall meet to determine whether the marketing policy should be revised.

[51 FR 29548, Aug. 19, 1986, as amended at 61 FR 17560, Apr. 22, 1996]

§ 982.41 Free and restricted percentages.

The free and restricted percentages computed by the Board or established by the Secretary pursuant to § 982.40 shall apply to all merchantable hazelnuts handled during the current marketing year. Until the preliminary computed free and restricted percentages are computed by the Board for the current marketing year, the percentages in effect at the end of the previous marketing year shall be applicable.

[51 FR 29548, Aug. 19, 1986]

GRADE AND SIZE REGULATION

§ 982.45 Establishment of grade and size regulations.

(a) *Minimum standards.* No handler shall handle any inshell or shelled hazelnuts unless such inshell hazelnuts meet requirements of Oregon No. 1 grade and medium size (as defined in the Oregon Grade Standards Hazelnuts In Shell), and such shelled hazelnuts meet such requirements as are established by the Secretary on the basis of a recommendation of the Board, except as may be otherwise provided in § 982.57. These minimum standards may be modified by the Secretary on the basis of a recommendation of the Board or other information whenever he finds that such modification would tend to effectuate the declared policy of the act. Such minimum standards and the

provisions of this part relating to the administration thereof shall continue in effect irrespective of whether the season average price of hazelnuts is above the parity level specified in section 2(1) of the act.

(b) *Additional grade and size regulations.* When the season average price of hazelnuts is not determined to be above parity, the Secretary may establish additional grade and size regulations for inshell hazelnuts in the form of a more restrictive minimum standard than that specified in paragraph (a) of this section, or pack specifications as to grades and sizes that may be handled, if he finds, on the basis of a recommendation of the Board or other information, that such regulations would tend to effectuate the declared policy of the act.

[24 FR 6185, Aug. 1, 1959. Redesignated at 26 FR 12751, Dec. 30, 1961, and amended at 37 FR 589, Jan. 14, 1972]

§ 982.46 Inspection and certification.

(a) Before or upon handling any hazelnuts, or before any inshell or shelled hazelnuts are credited (under §§ 982.50 or 982.51) in satisfaction of a restricted obligation, each handler shall, at his own expense, cause such hazelnuts to be inspected and certified by the Federal-State Inspection Service as meeting the then effective grade and size regulations or, if inshell or shelled hazelnuts are withheld under § 982.51, the applicable requirements specified in that section. The handler obtaining such inspection of hazelnuts shall cause a copy of the certificate issued by such inspection service applicable to such hazelnuts to be furnished to the Board.

(b) All hazelnuts so inspected and certified shall be identified as prescribed by the Board. Such identification shall be affixed to the hazelnut containers by the handler under direction and supervision of the Board or the Federal-State Inspection Service, and shall not be removed or altered by any person except as directed by the Board.

(c) Whenever the Board determines that the length of time in storage and conditions of storage of any lot of certified merchantable hazelnuts have been or are such as to normally cause
