Dear Neighbor,

When I was on the task force that drafted the original SCHIP bill in 1997, we wanted to give children from low-income families the medical care they would need to grow up healthy and strong. Ten years later the mission is still the same.

That's why I'm proud to support the Children's Health Insurance Program Reauthorization Act, which provides \$35 billion for children's health insurance. This bill will bridge the gap for 10 million children who live in families earning too much to qualify for Medicaid but not enough to afford private health insurance.

Together, we can give every child the opportunity for a bright future. By providing our children access to quality health care, we are increasing their chances for success. **Children are our nation's most precious resource and investments in their health will last a lifetime.**
