

Federal Deposit Insurance Corporation

§ 327.36

in which the acquiring institution re-transfers the deposits.

(3) *Treatment with respect to re-transfer institution.* Conduit deposits are treated as insured by the same insurance fund after having been acquired by the re-transfer institution as when held by the original transferor.

[61 FR 64983, Dec. 10, 1996]

§ 327.34 Application of AADAs.

This section interprets the meaning of the phrase “an insured depository institution’s ‘adjusted attributable deposit amount’ for any semiannual period” as used in the introductory text of § 327.32(a)(3).

(a) *In general.* The phrase “for any semiannual period” refers to the current semiannual period; that is, the period for which the assessment is due, and for which an institution’s adjusted attributable deposit amount (AADA) is computed.

(b) *Quarterly components of AADAs.* An AADA for a current semiannual period consists of 2 quarterly AADA components. The first quarterly AADA component for the current period is determined with respect to the first quarter of the prior semiannual period, and the second quarterly AADA component for the current period is determined with respect to the second quarter of the prior period.

(c) *Application of AADAs.* The value of an AADA that is to be applied to a quarterly assessment base in accordance with § 327.32(a)(2) is the value of the quarterly AADA component for the corresponding quarter.

(d) *Initial AADAs.* If an AADA for a current semiannual period has been generated in a transaction that has occurred in the second calendar quarter of the prior semiannual period, the first quarterly AADA component for the current period is deemed to have a value of zero.

(e) *Transition rule.* Paragraphs (b), (c) and (d) of this section shall apply to any AADA for any semiannual period beginning on or after July 1, 1997.

[61 FR 64984, Dec. 10, 1996]

§ 327.35 Grandfathered AADA elements.

This section explains the meaning of the phrase “total of the amounts determined under paragraph (a)(3)(iii)” in § 327.32(a)(3)(ii). The phrase “total of the amounts determined under paragraph (a)(3)(iii)” refers to the aggregate of the increments of growth determined in accordance with § 327.32(a)(3)(iii). Each such increment is deemed to be computed in accordance with the contemporaneous provisions and interpretations of such section. Accordingly, any increment of growth that is computed with respect to a semiannual period has the value appropriate to the proper calculation of the institution’s assessment for the semiannual period immediately following such semiannual period.

[61 FR 64984, Dec. 10, 1996]

§ 327.36 Growth computation.

This section interprets various phrases used in the computation of growth as prescribed in § 327.32(a)(3)(iii).

(a) *Annual rate.* The annual rate of growth of deposits refers to the rate, which may be expressed as an annual percentage rate, of growth of an institution’s deposits over any relevant interval. A relevant interval may be less than a year.

(b) *Growth; increase; increases.* Except as provided in paragraph (c) of this section, references to “growth”, “increase”, and “increases” may generally include negative values as well as positive ones.

(c) *Growth of deposits.* “Growth of deposits” does not include any decrease in an institution’s deposits representing deposits transferred to another insured depository institution, if the transfer occurs on or after July 1, 1996.

(d) *Quarterly determination of growth.* For the purpose of computing assessments for semiannual periods beginning on July 1, 1997, and thereafter, the rate of growth of deposits for a semiannual period, and the amount by which the sum of the amounts specified in § 327.32(a)(3)(i) and (ii) would have grown during a semiannual period, is to be determined by computing such
