“(i)(1) A judge of the United States Court of Military Appeals who is separated from civilian service in the Federal Government after completing the term of service for which he was appointed as a judge of the court is eligible for an annuity under this subsection. An individual who is a former judge of the court who is separated from civilian service in the Federal Government and who completed the term of service on the court for which he was appointed is eligible for an annuity under this subsection. A judge or former judge who is eligible for an annuity under this subsection shall be paid that annuity if he elects, at the time he becomes eligible to receive that annuity, to receive that annuity in lieu of any other annuity for which he may be eligible at the time of such election (whether an immediate or a deferred annuity) under subchapter III of chapter 83 or chapter 84 of title 5 or any other retirement system for civilian employees of the Federal Government. Such an election may not be revoked.

The program may include provisions for the reduction in the annuity paid the judge or former judge as a condition for the annuity. An election by a judge or former judge to receive an annuity under this subsection terminates any right or interest which any individual may have to an annuity under any other retirement system for civilian employees of the Federal Government based on the service of the judge or former judge.

“(5) The Secretary of Defense shall periodically increase annuities and survivor annuities paid under this subsection in order to take account of changes in the cost of living. The Secretary shall pre-

“(6) A retired judge or former judge of the court who is receiving an annuity under this subsection and who is appointed to a position in the Federal Government shall, during the period of such retired judge’s or former judge’s service in such position, be entitled to receive only the annuity under this subsection or the pay for that position, whichever is paid at the higher rate.

“(7) A retired judge or former judge who is entitled to an annuity under this subsection and who later is appointed as a justice or judge of the United States to hold office during good behavior and who retires from that office, or from regular active service in that office, shall be paid either (A) the annuity under this subsection, or (B) the annuity or salary to which he is entitled by reason of his service as such a justice or judge of the United States, as determined by an election by the judge or former judge at the time of such retirement from the office, or from regular active service in the office, of justice or judge of the United States. SEC. 732. LINKAGE OF NATIONAL MILITARY STRATEGY AND WEAPON ACQUISITION PROGRAMS

(a) **FINDINGS.**—Congress makes the following findings:

(1) The Final Report to the President by the President’s Blue Ribbon Commission on Defense Management (the “Packard Commission”), the Defense Acquisition Study of the Center for Strategic and International Studies, and the Report of the Commission on Integrated Long-Term Strategy (referred to as “Discriminate Deterrence”) have separately identified significant deficiencies in the integration of weapon acquisition programs of the Department of Defense with national military strategy.

(2) There is no established process involving the Office of the Secretary of Defense and the Joint Staff in which strategy, policy, operational concepts, and resource constraints are fully debated, coordinated, and translated into weapon acquisition programs. The dominant role of setting requirements for new weapon systems remains with the headquarters staffs of the military departments, and the requirements developed by those departments often do not appear to have been rigorously evaluated in terms of their overall contribution to national military strategy.

(3) The requirements and planning process of the Department of Defense is not constrained by realistic projections of future defense budgets. Consequently, the process is fiscally unrealistic and, therefore, largely ignored in the subsequent planning and budgeting process. This process often results in disparate plans that do not optimize the potential contribution of the acquisition programs of each military department to the objectives of national military strategy.

(b) **SENSE OF CONGRESS.**—In light of the findings in subsection (a), it is the sense of Congress that—

(1) to ensure that the United States develops and acquires the proper mix of weapon systems to support national military strategy most effectively and efficiently, the Office of the Secretary of Defense and the Joint Staff should better define the links between national military strategy and specific acquisition programs;

(2) the Office of the Secretary of Defense, the Joint Staff, and the headquarters of the unified and specified combatant commands should more clearly define the necessary operational capabilities and concepts of operations as part of the requirements process and should explicitly consider alternative acquisition programs based on probable levels of resources likely to be approved by Congress and trade-offs among the acquisition programs of the military departments;

(3) the Secretary of Defense should ensure that resulting acquisition programs clearly reflect the objectives of national military strategy; and

(4) the Secretary of Defense should commission an independent study to assess the degree to which the development and acquisition of weapon systems is currently linked to and determined by the national military strategy and to recommend improvements where necessary or desirable.

SEC. 733. REPORT ON FUNDING FOR THE AMMUNITION PRODUCTION BASE

(a) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that the maintenance of the inactive portion of the Government-owned ammunition production base is critical to the defense of the United States; and

(2) that sufficient funding should be provided to maintain this base to meet surge requirements and mobilization requirements of the military departments.

(b) STUDY OF ALTERNATIVES.—The Secretary of Defense shall study alternatives to the current method of providing funds for maintenance of the ammunition production base in order to determine if there are methods other than the current one which would better ensure that appropriate levels of funds are used for the maintenance of that production base.

(c) REPORT.—The Secretary shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the alternative methods considered by the Secretary under subsection (b) for providing funds for the ammunition production base. The Secretary shall include in the report such comments and recommendations with respect to such methods, including recommendations for legislation, as the Secretary considers appropriate. The report shall be submitted not later than December 1, 1988.

SEC. 734. SENSE OF CONGRESS CONCERNING DECLASSIFICATION OF CLASSIFIED INFORMATION

It is the sense of Congress that the Secretary of Defense should take all reasonable measures to declassify classified material under the control of the Department of Defense that the Secretary determines to be no longer required in the interest of national security to be protected from unauthorized disclosure.

SEC. 735. ADVANCE PAYMENTS OF ADMINISTRATIVE CLAIMS

(a) INCREASE IN MAXIMUM PAYMENT.—Subsection (a) of section 2736 of title 10, United States Code, is amended to read as follows:

“(a)(1) In the case of a person who is injured or killed, or whose property is damaged or lost, under circumstances for which the Secretary of a military department is authorized by law to allow a claim, the Secretary of the military department concerned may

make a payment to or for the person, or the legal representatives of the person, in advance of the submission of such a claim or, if such a claim is submitted, in advance of the final settlement of the claim. The amount of such a payment may not exceed \$100,000.

“(2) Payments under this subsection are limited to payments which would otherwise be payable under section 2733 or 2734 of this title or section 715 of title 32.

“(3) The Secretary of a military department may delegate the authority to make payments under this subsection to the Judge Advocate General of an armed force under the jurisdiction of the Secretary. The Secretary may delegate such authority to any other officer or employee under the jurisdiction of the Secretary, but only with respect to the payment of amounts of \$25,000 or less.

Regulations.

“(4) Payments under this subsection shall be made under regulations prescribed by the Secretary of the military department concerned.”

10 USC 2736
note.

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall apply to any claim which would otherwise be payable under section 2733 or 2734 of title 10, United States Code, or under section 715 of title 32, United States Code, and which has not been finally settled on or before the date of the enactment of this Act.

SEC. 736. ENERGY EFFICIENCY INCENTIVE

(a) **ENERGY CONSERVATION INCENTIVE.**—In order to provide additional incentive for the Secretary of a military department to enter into contracts under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.), the Secretary may use the first-year energy cost savings (as defined in subsection (d)) realized under any such contract in the manner provided in subsection (b). The amount of savings available for use under subsection (b) shall be determined as provided in subsection (c) and shall remain available for obligation until expended.

(b) **AUTHORIZED USES OF SAVINGS.**—First-year energy cost savings may be used as follows:

(1) One-half of the amount of such savings may be used for the acquisition of energy conserving measures at a military installation in addition to any such energy conserving measures provided for that installation under a contract entered into under title VIII of the National Conservation Energy Policy Act.

(2) One-half of the amount of such savings may be used for any morale, welfare, or recreation facility or service that is normally provided with appropriated funds, or for any minor military construction project (as defined in section 2805(a) of title 10, United States Code), that will enhance the quality of life of members of the Armed Forces at the military installation at which the energy cost savings were realized.

(c) **DETERMINATION OF AMOUNT OF SAVINGS.**—Not more than 90 days after the end of the first year during which energy savings measures have been in operation under a contract entered into by the Secretary of a military department under title VIII of the National Energy Conservation Policy Act, the Secretary of the military department concerned shall determine the amount of first-year energy cost savings realized under the terms of the contract during that year by the military department concerned by reason of the energy savings measures acquired and installed at that installation pursuant to that contract.

(d) **DEFINITION.**—For purposes of this section, the term “first-year energy cost savings” means the savings realized by the United States during the first year of a contract entered into by the Secretary of a military department under title VIII of the National Energy Conservation Policy Act.

“(B) In considering offers in response to a solicitation requiring proposals described in paragraph (1)(B) or (2)(B), the head of an agency shall base any evaluation of items developed exclusively at private expense on an analysis of the total value, in terms of innovative design, life-cycle costs, and other pertinent factors, of incorporating such items in the system.”.

(5) A discussion of the feasibility and desirability of each of the following:

PART B—DEFENSE INDUSTRIAL BASE

SEC. 821. MAINTENANCE AND IMPROVEMENT OF THE DEFENSE INDUSTRIAL BASE

(a) **FINDINGS.**—Congress finds the following:

(1) A strong defense industrial base in the United States is essential to the national security and significantly enhances the capability of United States manufacturers and producers—

(A) to develop technologically superior defense material rapidly and to produce such material efficiently in cost-effective quantities during peacetime; and

(B) to expand productive capacity rapidly to meet the demands of a national emergency.

(2) A strong and responsive defense industrial base is a basic deterrent to aggression and, thus, helps to preserve peace.

(3) Studies conducted over a 10-year period by Congress, the General Accounting Office, the Department of Defense, and others have consistently shown a steady, unchecked erosion of the defense industrial base in the United States.

(4) Despite the uniformly adverse findings contained in the reports on such studies, the United States still lacks a coherent industrial base policy that is directly linked to national security strategy.

(5) Reliable methods for assessing the weaknesses and strengths of the defense industrial base have not been utilized.

(6) The development and implementation of an effective program for the restoration and maintenance of the defense industrial base is unlikely to occur without improved centralized policy direction and management.

(7) Existing programs and authorities designed to restore and maintain the defense industrial base have received inconsistent and, frequently, inadequate allocations of resources and

10 USC 2501
note.

management attention from the military departments and the Defense Agencies because the Office of the Secretary of Defense has not exercised strong leadership in defense industrial base management.

(8) Procurement policies, regulations, and practices of the Department of Defense do not sufficiently encourage—

(A) investment in advanced manufacturing technology and modernization of manufacturing facilities and equipment;

(B) the entry of efficient commercial producers into the defense procurement market; and

(C) continued participation of efficient producers in defense procurement competitions.

(b) AMENDMENTS TO TITLE 10.—(1) Chapter 148 of title 10, United States Code, is amended—

(A) by redesignating sections 2501 and 2502 as sections 2506 and 2507, respectively; and

(B) by striking out the chapter heading and the table of sections and inserting in lieu thereof the following:

“CHAPTER 148—DEFENSE INDUSTRIAL BASE

“Sec.

“2501. Centralized guidance, analysis, and planning.

“2502. Policies relating to defense industrial base.

“(1) provide overall policy guidance and direction to the military departments and the Defense Agencies on matters relating to the maintenance, expansion, and readiness of the defense industrial base of the United States;

“(2) analyze the capabilities of the defense industrial base of the United States to fulfill the requirements of national defense strategy in time of peace and the expanded requirements of national defense strategy in time of war or national emergency;

“(3) develop clear standards for assessing military mobilization requirements and the manner in which those requirements will be met;

“(4) develop and direct the implementation of plans, programs, and policies that promote the ability of the defense industrial base of the United States to fulfill the requirements of the Department of Defense; and

“(5) identify and plan for the procurement of items of supply that—

“(A) are suitable substitutes for military standard items of supply, or suitable substitutes for subsystems or components of military standard items of supply, that are anticipated to be unavailable from existing sources in quantities that are sufficient to meet planned requirements in time of war or national emergency; and

“(B) are commercially available from domestic sources.

“§ 2502. Policies relating to defense industrial base

“(a) **ACQUISITION POLICIES.**—The Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, shall establish and implement policies requiring—

“(1) for each major defense acquisition program, an analysis of the capabilities of the defense industrial base to develop, produce, maintain, and support such program;

“(2) the consideration of requirements for efficient manufacture during the design and production of the systems to be procured under the major defense acquisition program;

“(3) the use of advanced manufacturing technology, processes, and systems during the research and development and production phases of the acquisition of a weapon system under a major defense acquisition program;

“(4) to the maximum extent practicable for each major defense acquisition program, the development of an acquisition plan that provides for contract solicitations which encourage competing offerors to acquire, for use in the performance of the contract, modern technology, production equipment, and production systems (including hardware and software) that increase the productivity of the offerors and reduce life-cycle costs;

“(5) the encouragement of domestic source investment in advanced manufacturing technology production equipment and processes through—

“(A) recognition of the contractor’s investment in advanced manufacturing technology production equipment and processes in the development of the contract objective; and

“(B) increased emphasis in source selections to the efficiency of production;

“(6) the expanded use of commercial manufacturing processes rather than processes specified by the Department of Defense;

“(7) elimination of barriers to, and facilitation of, the integrated manufacture of commercial items and items being produced under defense contracts; and

“(8) the expanded use of commercial products as set forth in section 2325 of this title.

“(ii) the uninterrupted maintenance and repair of such system; and

“(iii) the sustained operation of such system.

“(C) The availability of required special tooling and production test equipment.

“(D) The identification of components or subsystems that are available solely from sources outside the United States.

“(E) Planned alternatives, if appropriate, for fulfilling requirements that during peacetime are fulfilled by sources outside the United States.

“(2) In the conduct of the analysis required under subsection (a)(1), the Under Secretary shall minimize the paperwork burden on the contractor, its subcontractors, and suppliers.

“(c) ASSESSMENTS.—(1) The Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, shall ensure that, for each major defense acquisition program—

“(A) the capability of the domestic defense industrial base to meet requirements for that program has been assessed by the military department or Defense Agency carrying out such program; and

“(B) the capability of the domestic defense industrial base to meet the aggregate requirements for all such programs has been assessed in the Office of the Secretary of Defense.

“(2) For purposes of this subsection, the term ‘domestic defense industrial base’ means firms engaged in production in the United States and Canada.

“§ 2503. Defense industrial base office

“The Under Secretary of Defense for Acquisition may establish within the Office of the Under Secretary of Defense for Acquisition a defense industrial base office to be the principal office in the Department of Defense for the development of policies and plans regarding the conduct of programs for the improvement of the defense industrial base of the United States. Such an office shall, at a minimum—

“(1) develop and propose plans and programs for the maintenance and fostering of defense industrial readiness in the United States;

“(2) develop and propose plans and programs to encourage the use by the defense industries of the United States of advanced manufacturing technology and processes and investment in improved productivity;

“(3) propose, consistent with existing law, the repeal or amendment of the regulations of the Department of Defense prescribed as part of the Federal Acquisition Regulation (the single system of Government-wide procurement regulation as defined in section 4(4) of the Office of Federal Procurement Policy Act) and such other regulations and policies as may be necessary to eliminate any adverse effect that the regulations and policies may have on investment in improved productivity; and

“(4) evaluate and propose for testing innovative ideas for improving defense industrial readiness in the United States, including ideas for improving—

“(A) manufacturing processes; and

“(B) the acquisition procedures of the Department of Defense.”.

(2) The items relating to chapter 148 in the tables of chapters at the beginning of part IV of subtitle A of title 10, United States Code, and at the beginning of such subtitle, are each amended to read as follows:

“148. Defense Industrial Base 2501”.

(c) ANALYSIS OF DEFENSE INDUSTRIAL BASE CAPABILITY.—(1) The Under Secretary of Defense for Acquisition shall require the Secretary of each military department to provide to the Under Secretary at least one analysis of the type described in section 2502(a)(1) of title 10, United States Code (as added by subsection (b)) for an acquisition program carried out by such department. The Under Secretary shall compile and analyze the data obtained from such analysis in order to ascertain whether the industrial base is capable of supporting each such program.

10 USC 2502
note.

(2) A program may not be selected for an analysis under this subsection if production of the system to be acquired under such program has begun.

(3) All analyses required under this subsection shall be completed not later than September 30, 1990.

“(d) VALVES AND MACHINE TOOLS.—(1) During fiscal years 1989, 1990, and 1991, funds appropriated or otherwise made available to the Department of Defense may not be used to enter into a contract for the procurement of items described in paragraph (2) that are not manufactured in the United States or Canada.

“(A) The restriction would cause unreasonable costs or delays to be incurred.

“(B) United States producers of the item would not be jeopardized by competition from a foreign country and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country.

“(C) Satisfactory quality items manufactured in the United States or Canada are not available.

“(F) The restriction would result in the existence of only one United States or Canadian source for the item.

SEC. 824. DEFENSE MEMORANDA OF UNDERSTANDING

Chapter 148 of title 10, United States Code, as amended by section 821, is further amended by inserting after section 2503 the following new section:

“§ 2504. Defense memoranda of understanding

“In the negotiation and renegotiation of each memorandum of understanding between the Secretary of Defense, acting on behalf of the United States, and one or more foreign countries (or any instrumentality of a foreign country) relating to research, development, or production of defense equipment, the Secretary of Defense shall—

“(2) regularly solicit and consider information or recommendations from the Secretary of Commerce with respect to the effect on the United States industrial base of such memorandum of understanding.”.

SEC. 825. DEPARTMENT OF DEFENSE OFFSET POLICY

(a) **FINDINGS.**—Congress makes the following findings:

10 USC 2505
note.

(1) Many contracts entered into by United States firms for the supply of weapon systems or defense-related items to foreign countries and foreign firms are subject to contractual arrangements under which United States firms must agree—

(A) to have a specified percentage of work under, or monetary amount of, the contract performed by one or more foreign firms;

(B) to purchase a specified amount or quantity of unrelated goods or services from domestic sources of such foreign countries; or

(C) to invest a specified amount in domestic businesses of such foreign countries.

Such contractual arrangements, known as “offsets”, are a component of international trade and could have an impact on United States defense industry opportunities in domestic and foreign markets.

(2) Some United States contractors and subcontractors may be adversely affected by such contractual arrangements.

(3) Many contracts which provide for or are subject to offset arrangements require, in connection with such arrangements, the transfer of United States technology to foreign firms.

(4) The use of such transferred technology by foreign firms in conjunction with foreign trade practices permitted under the trade policies of the countries of such firms can give foreign firms a competitive advantage against United States firms in world markets for products using such technology.

(5) A purchase of defense equipment pursuant to an offset arrangement may increase the cost of the defense equipment to the purchasing country and may reduce the amount of defense equipment that a country may purchase.

(6) The exporting of defense equipment produced in the United States is important to maintain the defense industrial base of the United States, lower the unit cost of such equipment to the Department of Defense, and encourage the standardized utilization of United States equipment by the allies of the United States.

(b) AMENDMENT TO TITLE 10.—Chapter 148 of title 10, United States Code, as amended by sections 821 and 824, is further amended by inserting after section 2504 the following new section:

President of U.S. “§ 2505. Offset policy; notification

“(a) ESTABLISHMENT OF OFFSET POLICY.—The President shall establish, consistent with the requirements of this section, a comprehensive policy with respect to contractual offset arrangements in connection with the purchase of defense equipment or supplies which addresses the following:

“(1) Transfer of technology in connection with offset arrangements.

“(2) Application of offset arrangements, including cases in which United States funds are used to finance the purchase by a foreign government.

TITLE IX—MATTERS RELATING TO ARMS CONTROL

SEC. 901. SENSE OF CONGRESS ON EXPANDING CONFIDENCE-BUILDING MEASURES

(a) **FINDINGS.**—Congress makes the following findings:

(1) Approximately two years have passed since the Conference on Confidence- and Security-Building Measures and Disarmament in Europe (CDE) adjourned in Stockholm following the adoption of measures designed to increase openness and predictability of military activities in Europe.

(2) To date, there have been seven formal observations and challenge inspections which have been conducted in accordance with the Stockholm agreements.

(3) The military leaders of the North Atlantic Treaty Organization have concluded that the Stockholm observations and inspections have positively contributed to an improved understanding of Warsaw Pact forces and capabilities.

(4) The Conventional Stability Talks (CST), which may begin before the end of 1988, will likely require careful and potentially prolonged negotiation.

(5) New negotiations will also begin under the auspices of the Conference on Security and Cooperation in Europe (CSCE) as a follow-on to the Stockholm conference.

(6) The confidence-building measures established at Stockholm could, if expanded, contribute significantly to the success of the CDE follow-on conference and also to the establishment of a procedural framework for verifying a future CST agreement.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that the President should give high priority to developing, in coordination with the North Atlantic Treaty Organization allies of the United States, stabilizing and verifiable proposals for expanding the regime of confidence-building measures in conjunction with the follow-on to the Conference on Confidence- and Security-Building Measures and Disarmament in Europe (CDE) and the new Conventional Stability Talks (CST).

SEC. 902. SENSE OF CONGRESS ON START TALKS

It is the sense of Congress that any agreement negotiated by the President to achieve a reduction and limitation on strategic arms (through the strategic arms reduction talks in Geneva or otherwise)—

(1) should not prevent the United States from deploying a force structure under the agreement which emphasizes survivable strategic systems and, in particular, should not in any way compromise the security of the United States ballistic-missile carrying submarine force, and

(2) should not prohibit or limit the deployment of non-nuclear cruise missiles.

SEC. 903. SENSE OF CONGRESS CONCERNING ROLE OF CONGRESS IN ARMS CONTROL AND DEFENSE POLICIES

It is the sense of Congress—

(1) that Congress, in exercising its authority under the Constitution “to raise and support Armies” and “provide and maintain Navies” and, in the case of the Senate, to advise and consent to the ratification of treaties, has a role to play in formulating arms control and defense policies of the United States, but

(2) that Congress, in exercising that authority, should not usurp, undermine, or interfere with the authority of the President under the Constitution to negotiate and implement treaties, especially in the case of treaties which affect arms control and defense policies of the United States.

SEC. 904. SENSE OF CONGRESS ON THE FIVE-YEAR ABM TREATY REVIEW

(a) **FINDINGS.**—Congress makes the following findings:

(1) The Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, With Associated Protocol (hereinafter in this section referred to as the "ABM Treaty" or the "Treaty") in Article XIV, Paragraph 2, reads as follows: "Five years after entry into force of this Treaty, and at five-year intervals thereafter, the Parties shall together conduct a review of this Treaty."

(2) Such Treaty entered into force on October 3, 1972, and the third five-year anniversary date specified for the conduct of the review contemplated in the Treaty, therefore, was October 3, 1987.

(3) As a fundamental principle of the canons of legal construction, a specified number of years after a specific and determinable date means the specified anniversary of such date and therefore the third five-year review of the ABM Treaty should have begun on or about October 3, 1987.

(4) The Parties to the Treaty have not met as required by the Treaty because the United States refused to meet on the date specified in the Treaty for such meeting (October 3, 1987) and has refused since such date to propose a date for the meeting.

(b) SENSE OF CONGRESS.—In light of the findings in subsection (a), it is the sense of Congress that the President should, without any further delay, propose an early date to conduct the overdue five-year review of the ABM Treaty. The President shall inform Congress of the results of that review immediately after it takes place.

(4) A net assessment of the effect that proposed arms control agreements between the United States and the Soviet Union and between NATO and the Warsaw Pact would likely have on United States force plans and contingency plans, including an assessment of the effect that such proposed agreements would have on the risks and costs to the United States.

(6) A statement of the strategy the United States and NATO will use to verify and deter noncompliance with proposed arms control treaties between the United States and the Soviet Union and between NATO and the Warsaw Pact.

(7) A discussion of the extent to which and the manner in which the United States intends to consult with its allies regarding proposed arms control agreements between the United States and the Soviet Union and between NATO and the Warsaw Pact.

(2) Whether the Soviet Union is developing or producing mobile or transportable engagement radars in violation of the 1972 Antiballistic Missile Treaty.

(3) The ability of the Soviet Union to develop an effective exoatmospheric antiballistic missile defense without using widespread deployments of traditional engagement radars.

(4) The ability of air defense interceptor missiles of the Soviet Union, now and in the future, to destroy warheads of ballistic missiles in flight.

(5) Whether silos or other hardened facilities of the Soviet Union located outside of the existing antiballistic missile site permitted near Moscow under the terms of the 1972 Antiballistic Missile Treaty are or could be associated with antiballistic missile defenses not permitted under that Treaty.

(6) Whether the Soviet Union is developing terminal antiballistic missile defenses.

(7) Whether the existing antiballistic missile site near Moscow that is permitted under the terms of that Treaty conceals or could conceal development, testing, or deployment by the Soviet Union of a widespread antiballistic missile system.

(8) Activities of the Soviet Union regarding boost-phase intercepts of ballistic missiles.

(9) The status of laser programs, particle-beam programs, and other advanced technology programs of the Soviet Union comparable to programs conducted by the United States under the Strategic Defense Initiative.

(10) The consequences for the United States of a successful effort by the Soviet Union to deploy an effective nationwide or limited antiballistic missile system.

(b) **ASSESSMENT OF ABILITY OF UNITED STATES TO COUNTER A SOVIET ABM SYSTEM.**—In conducting the study required by subsection (a), the President shall also assess the ability of the United States to counter effectively an effective antiballistic missile system

deployed by the Soviet Union. Such assessment shall consider both the deployment by the Soviet Union of a nationwide, and of a limited, antiballistic missile system. In assessing the ability of the United States to counter effectively such a system, the President—

(1) shall consider the ability of the United States to modify (A) existing strategic offensive forces (including modifications involving the development of additional penetration aids), and (B) current strategic doctrine and tactics; and

(2) shall consider whether the actions of the United States described in paragraph (1) could be accomplished over the same period of time that the Soviet Union would require to deploy such an antiballistic missile system.

(c) **REPORT.**—Not later than January 1, 1989, the President shall submit to Congress a report, in both a classified and an unclassified version, specifying the results of the study conducted pursuant to this section. SEC. 908. ANALYSIS OF ALTERNATIVE STRATEGIC NUCLEAR FORCE POSTURES FOR THE UNITED STATES UNDER A POTENTIAL START TREATY

(a) **FINDINGS.**—Congress makes the following findings:

(1) The United States and the Soviet Union are currently engaged in talks regarding the reduction of strategic nuclear arms.

(2) Such talks could result in a treaty requiring deep reductions in the strategic forces of the United States.

(4) Any such START Treaty should result in a stable balance of strategic forces between the United States and the Soviet Union which enhances the security of the United States.

(5) Congress should provide funds for the forces permitted under such a treaty that are required to ensure the stability of the force balance under such a treaty.

(6) Congress faces critical resource choices for fiscal year 1989 and subsequent fiscal years, and the resource choices made by Congress for those years could substantially influence the strategic force posture of the United States in the period after such a treaty goes into effect.

(b) **PRESIDENTIAL REPORT.**—Before entering into any Strategic Arms Reduction Treaty or other agreement with the Soviet Union for the reduction of strategic arms, but not later than September 15, 1988, the President shall submit to Congress a comprehensive report on the implications such a treaty or agreement might have on the strategic force postures of the United States during the 1990s. “(b) The materials, supplies, or equipment loaned to a country under this section may be expended or otherwise consumed in connection with any testing or evaluation program without a requirement for reimbursement of the United States if the Secretary—

“(2) approves of the expenditure or consumption of such materials, supplies, or equipment.

“(c) The Secretary of Defense may not loan to a country under this section any material if the material is a strategic and critical material and if, at the time the loan is to be made, the quantity of the material in the National Defense Stockpile (provided for under section 3 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b)) is less than the quantity of such material to be stockpiled, as determined by the President under section 3(a) of such Act.

SEC. 1004. SENSE OF CONGRESS ON NEED FOR MODERNIZATION OF THEATER NUCLEAR CAPABILITIES OF NATO

22 USC 1928
note.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The security of the North Atlantic Treaty Organization (NATO) alliance will continue for the foreseeable future to rely on a modern and credible nuclear deterrent.

(2) NATO should make every effort to achieve the goal of raising the threshold for the use of nuclear weapons in the event of a conflict in Europe.

(3) While recognizing that there is a critical need for improvements in conventional forces, Congress also recognizes that the United States will have to devote defense resources in the future to the continuing modernization of the theater nuclear capabilities of NATO.

(4) The modernization of the theater nuclear capabilities of NATO is a continuing process and stems from the 1983 Montebello decision by NATO to reduce the stockpile of nuclear weapons in Europe while taking steps to ensure that the remaining nuclear weapons of the alliance are responsive, survivable, and effective.

(5) Programs to modernize theater nuclear forces, which had a high priority for NATO before the ratification of the Intermediate-range Nuclear Forces (INF) Treaty, are at least as important following the ratification of that treaty in May 1988.

(6) The NATO Nuclear Planning Group recently reaffirmed its endorsement of development by the United States of a new missile for delivery of theater nuclear weapons as a follow-on to the current Lance missile, with a view toward an eventual decision on deployment of such a follow-on missile.

(b) **SENSE OF CONGRESS.**—In light of the findings in subsection (a), it is the sense of Congress that—

(1) modernization of the theater nuclear capabilities of the North Atlantic Treaty Organization is essential to the deterrence strategy of the NATO alliance, particularly in light of the requirements of the Intermediate-range Nuclear Forces (INF) Treaty for the destruction of intermediate-range nuclear weapons;

(2) continued modernization by the United States of theater nuclear capabilities should be undertaken in close consultation with other NATO member nations; and

(3) the United States should proceed with ongoing activities to meet the identified requirement of the NATO alliance for development of a new missile for delivery of theater nuclear weapons as a follow-on to the Lance missile.

SEC. 1005. REPORT ON NATO DEFENSE PROGRAM FOR FISCAL YEAR 1990

(a) **REPORT.**—The Secretary of Defense shall submit to Congress a report setting forth in detail the programs of the Department of Defense in support of the North Atlantic Treaty Organization

(2) a description of each such program and the level of funding requested by the President for each such program in the budget for fiscal year 1990.

(b) **SUBMISSION OF REPORT.**—The report under subsection (a) shall be submitted in conjunction with the submission to Congress of the President's budget for fiscal year 1990 pursuant to section 1105 of title 31, United States Code.

10 USC 133 note. **SEC. 1006. IMPROVEMENT IN DEFENSE RESEARCH AND PROCUREMENT LIAISON WITH ISRAEL**

SEC. 1007. MODIFICATION OF REQUIREMENT CONCERNING DESIGNATION OF MAJOR NON-NATO ALLIES

Section 1105(f) of the National Defense Authorization Act for Fiscal Year 1987 (22 U.S.C. 2767a) is amended—

(1) by striking out "Not later than January 1 of each year, the Secretary" and inserting in lieu thereof "The Secretary";

(2) by inserting " , whenever they consider such action to be warranted," after "Secretary of State"; and

(3) by inserting "to be added to or deleted from the existing designation of countries" in paragraph (1) after "countries".

SEC. 1008. CALL FOR CONTINUED DEFENSE BURDENSARING DISCUSSIONS WITH ALLIES

It is the sense of Congress that the President should continue the discussions (called for by Congress in section 1254(b)(1) of Public Law 100-204) with countries which participate in mutual defense alliances with the United States, especially the member nations of the North Atlantic Treaty Organization and Japan, for the purpose of reaching an agreement for a more equitable distribution of the burden of financial support for the alliances.

SEC. 1009. CONTRIBUTIONS BY JAPAN TO GLOBAL STABILITY

(a) **FINDINGS.**—The Congress makes the following findings:

(1) As noted by Congress in section 1012(a)(1) of Public Law 100-180 and in section 812(a)(1) of Public Law 99-93, the alliance of the United States and Japan is the foundation for the security of Japan and peace in the Far East and is a major contributing factor to the democratic freedoms and the economic prosperity enjoyed by both the United States and Japan.

(2) In keeping with the declaration made at the 1983 meeting in Williamsburg, Virginia, of the leaders of the leading industrialized democracies that "the security of our countries is indivisible and must be approached on a global basis", the Government of Japan, in actions welcomed by the United States—

(A) continues to fulfill the pledge made by the Prime Minister of Japan in May 1981 to develop the capabilities to

defend the territory of Japan and the airspace and sealanes around Japan to a distance of 1,000 nautical miles by 1990,

(B) has increased the amount of assistance provided to other countries during fiscal year 1988 by 6.5 percent over the amount of such assistance provided during fiscal year 1987, and

(C) is, according to recent reports, actively involved in increasing its contributions to the stability of the Republic of the Philippines.

(3) Japan could, because of its recent history and economic status, best fulfill a politically acceptable and significant role in maintaining the security of the leading industrialized democracies by increasing spending for its Official Development Assistance program in the manner described by Congress in section 1012(b) of Public Law 100-180.

(4) The failure of the United States and Japan to agree on the appropriate level of the contribution by Japan to maintaining the security of the leading industrialized democracies could weaken the long-term vitality, effectiveness, and cohesion of the alliance between the United States and Japan.

(b) **ANNUAL REPORT.**—The Secretary of Defense shall include with the annual report submitted pursuant to section 1003 of Public Law 98-525 (22 U.S.C. 1928 note) a report on the Official Development Assistance program of the Government of Japan. Such report shall be prepared each year in coordination with the Secretary of State and the Administrator of the Agency for International Development and shall include a description of the amount and nature of spending under such program by recipient, including distinguishing between grant aid, loans, and credits.

22 USC 1928
note.

(c) **POLICY ON DISCUSSIONS WITH JAPAN.**—It is the sense of Congress that in the discussions with Japan referred to in section 1008 for the purpose of reaching a more equitable distribution of the burden of financial support for the security of the leading industrialized democracies, the objective of such discussions should include the establishment of a schedule for increases in spending under Japan's Official Development Assistance program and its defense programs so that, by 1992, the level of spending on those programs (stated as a percentage of gross national product) will approximate the average of the levels of spending by the member nations of the North Atlantic Treaty Organization on official development assistance and defense programs (stated as a percentage of their respective gross national products).

(d) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the President shall submit to Congress a report on the progress of the discussions described in subsection (c) with respect to Japan.

President of U.S.

(e) **FURTHER CONGRESSIONAL ACTION.**—It is the sense of Congress that if, in the judgment of Congress, the report of the President under subsection (d) does not reflect substantial progress toward a more equitable distribution of the burden of maintaining the security of the leading industrialized democracies, Congress should review the extent of the distribution of the mutual security burden between the United States and Japan and should consider whether additional legislation is appropriate.

(b) **PRESIDENTIAL DETERMINATION.**—Not later than 15 days after the date of the enactment of this Act, the President may designate an agency other than the Department of Defense as the single lead agency for the purpose stated in subsection (a). The plan shall ensure that assignment of the responsibility for operating the communications network referred to in subsection (a)(1) is made not later than 60 days after the date on which the report required by this subsection is submitted to Congress.

(2) the continued ability of the United States Southern Command (which currently has its headquarters in the Republic of Panama) to carry out assigned missions, especially the mission

of defense of the Panama Canal, is essential to protecting and promoting the interests of the United States.

(b) **SENSE OF CONGRESS.**—In light of the findings in subsection (a), it is the sense of Congress that the President should take all steps necessary to ensure the continued ability of the United States Southern Command (or any successor command) to carry out assigned missions, especially the mission of defense of the Panama Canal.

SEC. 1302. LIMITATION ON ASSISTANCE TO PANAMANIAN DEFENSE FORCE

(a) **LIMITATION.**—The President may not use any funds appropriated to or for the use of any department, agency, or other entity of the United States for the purpose of providing assistance to the Panamanian Defense Force. The limitation in the preceding sentence shall cease to apply upon the submission by the President to Congress of a certification by the President—

(1) that no armed forces of the Soviet Union, the Republic of Cuba, or the Republic of Nicaragua are present in the Republic of Panama (other than military attachés accredited to the Republic of Panama); and

Manuel Noriega.

(2) that General Manuel Noriega has relinquished command of the Panamanian Defense Force and no longer holds any official position of leadership (either military or civilian) in the Republic of Panama.

(a) **FINDINGS.**—The Congress finds that—

(1) General Manuel Noriega, the commander of the Panamanian Defense Force, was indicted on February 5, 1988, in the United States District Courts for the Southern District and for the Middle District of Florida on a number of serious drug-related charges against the laws of the United States, including charges involving trafficking in illegal drugs, protecting and supporting drug traffickers, and laundering of drug-related money; and

(2) there have been reports in the news media and from other sources that discussions between officials of the United States and General Noriega may have occurred concerning arrange-

(b) **SENSE OF CONGRESS.**—It is the sense of Congress—

SEC. 1305. HUMAN RIGHTS VIOLATIONS BY THE GOVERNMENT OF POLAND

(a) **FINDINGS.**—Congress makes the following findings:

(b) **SENSE OF CONGRESS.**—It is, therefore, the sense of Congress—

(1) that the use of force against the workers of Nowa Huta and intimidation against other strikers in Poland should be condemned; and

(2) that improvement in relations between the United States and Poland must be predicated on an improvement in internationally recognized human rights in Poland, including the release of political prisoners, steps toward trade union pluralism and the rights of independent trade unions to organize, and steps toward genuine national reconciliation and dialogue.

SEC. 1436. NUCLEAR TEST BAN READINESS PROGRAM

42 USC 2121
note.

(a) **FINDINGS.**—The Congress makes the following findings:

(1) On September 17, 1987, the United States and the Soviet Union announced that they would resume full-scale, stage-by-stage negotiations on issues relating to nuclear testing, including further intermediate limitations on nuclear testing leading to the ultimate objective of a comprehensive nuclear test ban.

(2) It was agreed that the first step in these negotiations would be to reach agreement on verification measures that will make possible the ratification of the Threshold Test Ban Treaty of 1974 and the Peaceful Nuclear Explosions Treaty of 1976.

(3) To achieve the agreement on verification measures, the United States and the Soviet Union have agreed to design and conduct a Joint Verification Experiment at the test sites of each country during the summer of 1988.

(4) At the Moscow summit in May 1988, President Reagan and General Secretary Gorbachev reaffirmed their commitment to negotiations on "effective verification measures which will make it possible to ratify the Threshold Test Ban Treaty of 1974 and Peaceful Nuclear Explosions Treaty of 1976, and proceed to negotiating further intermediate limitations on nuclear testing leading to the ultimate objective of the complete cessation of nuclear testing as part of an effective disarmament process".

(b) **ESTABLISHMENT OF PROGRAM.**—The Secretary of Energy shall establish and support a program to assure that the United States is in a position to maintain the reliability, safety, and continued deterrent effect of its stockpile of existing nuclear weapons designs in the event that a low-threshold or comprehensive ban on nuclear explosives testing is negotiated and ratified within the framework agreed to by the United States and the Soviet Union.

Safety.

(c) **PURPOSES OF PROGRAM.**—The purposes of the program under subsection (b) shall be the following:

Safety.

(1) To assure that the United States maintains a vigorous program of stockpile inspection and non-explosive testing so that, if a low-threshold or comprehensive test ban is entered into, the United States remains able to detect and identify

potential problems in stockpile reliability and safety in existing designs of nuclear weapons.

(2) To assure that the specific materials, components, processes, and personnel needed for the remanufacture of existing nuclear weapons or the substitution of alternative nuclear warheads are available to support such remanufacture or substitution if such action becomes necessary in order to satisfy reliability and safety requirements under a low-threshold or comprehensive test ban agreement.

Research and development.

(3) To assure that a vigorous program of research in areas related to nuclear weapons science and engineering is supported so that, if a low-threshold or comprehensive test ban agreement is entered into, the United States is able to maintain a base of technical knowledge about nuclear weapons design and nuclear weapons effects.

(d) **CONDUCT OF PROGRAM.**—The Secretary of Energy shall carry out the program provided for in subsection (b). The program shall be carried out with the participation of representatives of the Department of Defense, the nuclear weapons production facilities, and the national nuclear weapons laboratories.
