

List of Tables

		Page Number
Table 1*	Accuracy of <i>In Vitro</i> Pyrogen Test Methods.....	xix
Table 1-1	Summary of U.S. and European Legislation and Statutory Protocol Requirements for Pyrogenicity Testing	1-5
Table 2-1	<i>In Vitro</i> Pyrogen Test Method Components	2-3
Table 2-2	Prediction Model Used for <i>In Vitro</i> Pyrogen Test Methods	2-8
Table 3-1	Parenteral Drugs Used in the Validation Studies for Determining Test Method Accuracy	3-2
Table 3-2	Parenteral Drugs Used in the Validation Studies for Determining Test Method Reproducibility.....	3-2
Table 4-1	Test Guidelines for the Rabbit Pyrogen Test	4-3
Table 4-2	Decision Criteria for Determining a Pyrogenic Response in the Rabbit Pyrogen Test.....	4-6
Table 6-1*	Accuracy of <i>In Vitro</i> Pyrogen Test Methods.....	6-2
Table 6-2	Predictivity of <i>In Vitro</i> Pyrogen Test Method for Each Endotoxin Spike Concentration	6-5
Table 7-1	Intralaboratory Repeatability Assessed with Saline Spiked with WHO-LPS 94/580	7-3
Table 7-2	Intralaboratory Reproducibility of <i>In Vitro</i> Pyrogen Test Methods.....	7-5
Table 7-3	Interlaboratory Reproducibility of <i>In Vitro</i> Pyrogen Test Methods.....	7-7
Table 7-4	Interlaboratory Reproducibility of <i>In Vitro</i> Pyrogen Test Methods.....	7-8
Table 9-1	Results of Pyrogen Testing of Pharmaceutical/Biological Products in the Human PBMC Assay, the BET, and the RPT	9-2
Table 9-2	Results of Pyrogen Testing of Pharmaceutical/Biological Products by the Human WB Culture Assay, the BET, and the RPT	9-3
Table 9-3	IL-6 Production from WB after Exposure to Endotoxin or Five Infanrix [®] Vaccines	9-5
Table 9-4	IL-6 Production by MM6 Cells after Exposure to Endotoxin or Five Infanrix [®] Vaccines.....	9-6
Table 9-5	Pyrogenic Activity of Blood Preparations for Parenteral Use	9-9
Table 9-6	Pyrogenic Activity of Vaccine Preparations	9-10
Table 9-7	Comparison of the WB Test, BET, and the RPT for Detecting Pyrogens in Production Batches of Biological Products	9-12
Table 9-8	Results of Pyrogen Testing of Batches of Therapeutic HSA Using the MM6/IL-6, BET, and RPT	9-13
Table 9-9	Comparison of the Application Spectra of the RPT, the BET, and the Human WB Assay (PyroCheck [®]).....	9-14
Table 11-1	Cost Estimates for the RPT and <i>In Vitro</i> Pyrogen Tests.....	11-3

* Tables 1 and 6-1 are identical. Table 1 provides supporting information for the Executive Summary, while Table 6-1 provides the information in Section 6.1, where test method accuracy is discussed in greater detail.
