NIH eRA Commons Release Notes Version 2.8.3.0

Performance	This release of Commons will implement several performance changes for the Status page, Internet Assisted Review (IAR) , and eSNAP modules. Version 2.8.3 will also correct several defects, incorporate new sort capabilities and standardized reference links, and will add new display items to the Status page.
NLM Webservices	The "Webservices" for the National Library of Medicine (NLM) is now active, where the expected response time to access data should show a great improvement.
	This service is a feature that links PI-submitted publications [recorded in the PI's Personal Profile] with the eSNAP. As a result, the PI does not have to manually key in these publications on the eSNAP.
Commons Logo	The Commons logo has been redesigned. The new logo features an addition of the phrase "Sponsored by National Institutes of Health" as well as modifications in design. The new logo accommodates Operating Divisions (OPDIVs) who have begun utilizing the Commons portal.
	Electronic Research Administration PRA Commons Sponsored by National Institutes of Health

Reference Letters

New functionality has been implemented for "Reference Letter" uploads that permits a "referee" (i.e., a reference for a PI) to upload a reference letter for a principal investigator. A Commons account is not necessary to upload a reference letter.

NOTE: Reference letter submission is currently available only for Director's Pioneer (DP1) applications.

The file must be a PDF and may be no larger than 3 MB. Follow these steps to upload a reference letter:

1. Click <u>Reference Letter</u>. The **Submit Reference Letter** page will appear.

NOTE: This screen is available to internal NIH and Operating Division (OPDIV) users only.

Navigation Links All navigation links on the following screens have been standardized to allow ease of navigation to any screen in the Commons.

- 1. Simple List of Applications
- 2. Preliminary Score Matrix (and Edit Score Matrix for SRAs/GTAs)
- 3. List of Applications for SRAs/GTAs
- 4. Meeting Materials (and Manage Meeting Materials for SRAs/GTAs)

NOTE: These screens are available to internal NIH and Operating Division (OPDIV) users only.

Meeting Materials The length of the URL for adding and editing meeting materials has been increased to 500 characters.

NOTE: The ability to add/edit meeting materials is available to internal NIH and Operating Division (OPDIV) users only.

Simple List of Applications

A **Simple List of Applications** screen has been developed. This screen shows one line records of grant applications with the following data elements:

- 1. Order of Review
- 2. Grant Number (hyperlinked to the IAR Grant Folder).
- 3. PI Name (hyperlinked to a **Full Featured List of Applications** just for that PI)
- 4. Project Title
- 5. Number of Assigned Reviewers
- 6. Number of Submitted Critiques (counts files only, not scores)
- 7. Average Score
- 8. View All PDF (to view a PDF file of all critiques for an application)
- 9. View All Word (to view Preliminary Summary Statements)
- 10. Lower Half
- 11. Link to the List of Applications

All fields are sortable.

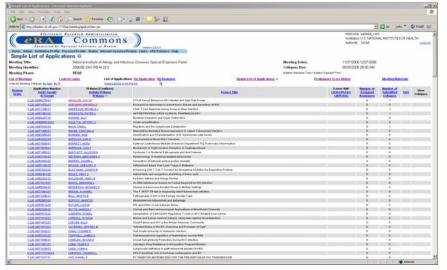

Figure 20: Simple List of Applications Page (IAR0007)

The **By Reviewer** link has been excluded from the **Simple List of Applications** but is available on the **Full Featured List of Applications**.

A link to the **Full Featured List of Applications** appears at the top of the page.

The Full Featured List of Applications may be viewed **By** Application or **By Reviewer**.

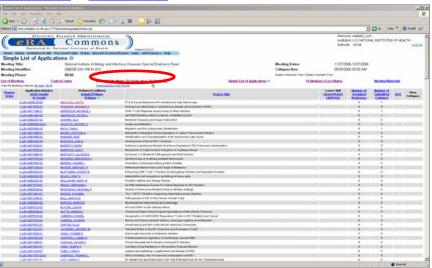

Figure 21: Click <u>By Application</u> or <u>By Reviewer</u> to view a Full Featured List of Applications (IAR0007).

A link to the **Simple List of Applications** has been added to the **Control Center**, **Full Featured List of Applications**, and **List of Meetings**.

Figure 24: List of Meetings Page (IAR0001)

NOTE: The **Simple List of Applications** is only available to SRAs/GTAs.

Full Featured List of Applications

On the **Score Matrix** and **List of Applications** pages, you may click on the PI's name to view a **Full Featured List of Applications** for the application record that was clicked on.

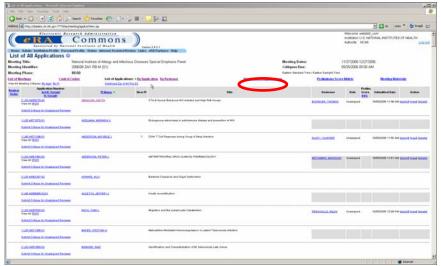

Figure 25: List of All Applications Page (IAR0007)

NOTE: This screen is available to internal NIH and Operating Division (OPDIV) users only.

Reviewer Critiques

You no longer have to navigate to the **List of Applications (By Reviewer)** in order to view a list of submitted critiques for one reviewer. By clicking on a reviewer's name in the **Control Center**, you will be able to view all applications assigned to that reviewer and applications for which the reviewer has submitted unassigned critiques. The same functionality is also available by clicking the reviewer's name on the **Full Featured List of Applications** screen.

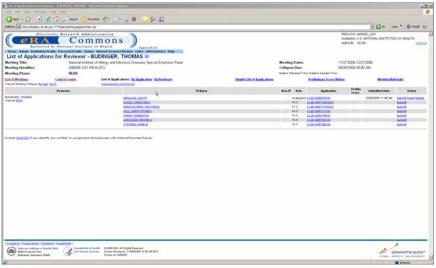

Figure 26: List of Applications for Reviewer (IAR0007)

NOTE: This screen is available to internal NIH and Operating Division (OPDIV) users only.

Mail Reviewers

In the **Control Center**, mail reviewers now have the appropriate annotation next to their name. This is based on the Reviewer Type as set up in Committee Management (Outside Opinion/Mail Reviewer Option).

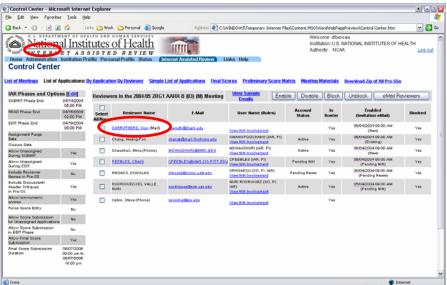

Figure 27: Control Center (IAR0008)

NOTE: This screen is available to internal NIH and Operating Division (OPDIV) users only.

Sortable Review Order (as set up in the Peer Review system) has been added to all screens in IAR that display lists of applications. This column is visible to all reviewers and internal NIH and Operating Division (OPDIV) staff.

Figure 28: Preliminary Score Matrix (IAR0008)

If you are a discussant and have not submitted a critique, you may do so in the *Read* phase. However, once the critique is submitted in the *Read* phase you will not have the ability to resubmit the critique/score again during the *Read* phase.

Review Order

Submission

Discussant Critique

Once an SRA/GTA submits a critique for an unassigned reviewer, the list of Unassigned reviewers will no longer display the reviewer who has already submitted the **Reviewers** unassigned critique; as resubmission of the critique may now be done via the regular **Submit** link which appears on the **List of Applications** screen. If you are a discussant on an application, you will be able to see the scores of **Blocked Reviewers** other reviewers even if you did not submit your own critique/score and are designated as blocked. The concept of blocking is no longer applicable to discussants/readers. A heading has been added to the Preliminary Scores column to specify that **Preliminary Score** scores are from worst to best (left to right). Subproject Grant Applications

When you click on the grant number for a subproject grant application you will be taken to the grant image of the parent application.

Financial Status Reports (FSR)

Foreign Institutions

A new checkbox has been created on the FSR Search screen for selecting foreign grants. This checkbox grants the Office of Financial Management (OFM) the ability to generate CAS transactions for these foreign FSRs.

The Foreign checkbox for foreign institutions is available to all users of the FSR system regardless of role.

eSNAP

The character limit for all editable institution/organization fields has been increased to 120 characters. Currently, this only affects the Name field.

Final Progress Reports

The following changes have been made to the e-mail that is sent when a Final Progress Report is submitted:

- 1. The Program Official (PO) for the grant has been added to the recipient list.
- 2. Throughout the body of the e-mail, "NIH Commons" has been changed to read "eRA Commons" due to Operating Divisions' (OPDIV) integration.

Editable Fields

E-Mail
