

§ 74.35

extent practicable and result in the highest possible return.

(g) When the recipient no longer needs the equipment, it may use the equipment for other activities in accordance with the following standards. For equipment with a current per unit fair market value of \$5000 or more, the recipient may retain the equipment for other uses provided that compensation is made to the original HHS awarding agency or its successor. The amount of compensation shall be computed by applying the percentage of HHS's share in the cost of the original project or program to the current fair market value of the equipment. If the recipient has no need for the equipment, the recipient shall request disposition instructions from the HHS awarding agency; such instructions must be issued to the recipient no later than 120 calendar days after the recipient's request and the following procedures shall govern:

(1) If so instructed or if disposition instructions are not issued within 120 calendar days after the recipient's request, the recipient shall sell the equipment and reimburse the HHS awarding agency an amount computed by applying to the sales proceeds the percentage of HHS share in the cost of the original project or program. However, the recipient shall be permitted to deduct and retain from the HHS share \$500 or ten percent of the proceeds, whichever is less, for the recipient's selling and handling expenses.

(2) If the recipient is instructed to ship the equipment elsewhere, the recipient shall be reimbursed by the HHS awarding agency by an amount which is computed by applying the percentage of the recipient's share in the cost of the original project or program to the current fair market value of the equipment, plus any reasonable shipping or interim storage costs incurred.

(3) If the recipient is instructed to otherwise dispose of the equipment, the recipient will be reimbursed by the HHS awarding agency for such costs incurred in its disposition.

(4) If the recipient's project or program for which or under which the equipment was acquired is still receiving support from the same HHS program, and if the HHS awarding agency approves, the net amount due may be

45 CFR Subtitle A (10-1-07 Edition)

used for allowable costs of that project or program. Otherwise the net amount must be remitted to the HHS awarding agency by check.

(h) The HHS awarding agency reserves the right to order the transfer of title to the Federal Government or to a third party named by the awarding agency when such third party is otherwise eligible under existing statutes. Such transfer shall be subject to the following standards:

(1) The equipment shall be appropriately identified in the award or otherwise made known to the recipient in writing.

(2) The HHS awarding agency may require submission of a final inventory that lists all equipment acquired with HHS funds and federally-owned equipment.

(3) If the HHS awarding agency fails to issue disposition instructions within 120 calendar days after receipt of the inventory, the recipient shall apply the standards of paragraph (g)(1) of this section as appropriate.

(4) When the HHS awarding agency exercises its right to order the transfer of title to the Federal Government, the equipment shall be subject to the rules for federally-owned equipment. (See § 74.34(g)).

[59 FR 43760, Aug. 25, 1994, as amended at 61 FR 11747, Mar. 22, 1996]

§ 74.35 Supplies.

(a) Title to supplies shall vest in the recipient upon acquisition. If there is a residual inventory of unused supplies exceeding \$5000 in total aggregate value upon termination or completion of the project or program and the supplies are not needed for any other federally-sponsored project or program, the recipient shall retain the supplies for use on non-federally sponsored activities or sell them, but shall, in either case, compensate the Federal Government for its share. The amount of compensation shall be computed in the same manner as for equipment. (See § 74.34(g)).

(b)(1) The recipient shall not use supplies acquired with Federal funds to provide services to non-Federal organizations for a fee that is less than private companies charge for equivalent services, unless specifically authorized

by Federal statute as long as the Federal Government retains an interest in the supplies.

(2) If the supplies are owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by the HHS awarding agency.

(3) User charges shall be treated as program income, in keeping with the provisions of § 74.24.

[59 FR 43760, Aug. 25, 1994, as amended at 61 FR 11747, Mar. 22, 1996]

§ 74.36 Intangible property.

(a) The recipient may copyright any work that is subject to copyright and was developed, or for which ownership was purchased, under an award. The HHS awarding agency reserves a royalty-free, nonexclusive and irrevocable right to reproduce, publish, or otherwise use the work for Federal purposes, and to authorize others to do so.

(b) Recipients are subject to applicable regulations governing patents and inventions, including government-wide regulations issued by the Department of Commerce at 37 CFR part 401, "Rights to Inventions Made by Non-profit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements."

(c) The Federal Government has the right to:

(1) Obtain, reproduce, publish or otherwise use the data first produced under an award; and

(2) Authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes.

(d)(1) In addition, in response to a Freedom of Information Act (FOIA) request for research data relating to published research findings produced under an award that were used by the Federal Government in developing an agency action that has the force and effect of law, the HHS Awarding Agency shall request, and the recipient shall provide, within a reasonable time, the research data so that they can be made available to the public through the procedures established under the FOIA. If the HHS Awarding Agency obtains the research data solely in response to a FOIA request, the agency may charge the requester a reasonable fee equaling

the full incremental cost of obtaining the research data. This fee should reflect costs incurred by the agency, the recipient, and applicable subrecipients. This fee is in addition to any fees the agency may assess under the FOIA (5 U.S.C. 552(a)(4)(A)).

(2) The following definitions apply for purposes of this paragraph (d):

(i) *Research data* is defined as the recorded factual material commonly accepted in the scientific community as necessary to validate research findings, but not any of the following: preliminary analyses, drafts of scientific papers, plans for future research, peer reviews, or communications with colleagues. This "recorded" material excludes physical objects (e.g., laboratory samples). *Research data* also do not include:

(A) Trade secrets, commercial information, materials necessary to be held confidential by a researcher until they are published, or similar information which is protected under law; and

(B) Personnel and medical information and similar information the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, such as information that could be used to identify a particular person in a research study.

(ii) *Published* is defined as either when:

(A) Research findings are published in a peer-reviewed scientific or technical journal; or

(B) A Federal agency publicly and officially cites the research findings in support of an agency action that has the force and effect of law.

(iii) *Used by the Federal Government in developing an agency action that has the force and effect of law* is defined as when an agency publicly and officially cites the research findings in support of an agency action that has the force and effect of law.

(3) The requirements set forth in paragraph (d)(1) of this section do not apply to commercial organizations.

(e) Title to intangible property and debt instruments purchased or otherwise acquired under an award or subaward vests upon acquisition in the recipient. The recipient shall use that property for the originally—authorized
