SUPPLEMENTARY INFORMATION:

Background

The NTP announced the RoC review process for the 12th RoC on April 16, 2007 in the **Federal Register** (72FR18999 available at <http://ntp.niehs.nih.gov/go/15208>). An expert panel meeting is being convened on December 9–10, 2008, to review cobalt-tungsten carbide powders and hard metals for possible listing in the 12th RoC. The draft background document for cobalt-tungsten carbide hard metals and powders will be available on the RoC Web site by October 10, 2008 or in printed text from the RoC Office (see **ADDRESSES** above). Persons can register free-of-charge with the NTP listserv to receive notification when draft RoC background documents for candidate substances for the 12th RoC are made available on the RoC Web site (<http://ntp.niehs.nih.gov/go/231>).

Cobalt-tungsten carbide hard metals are composites of carbides (including tungsten carbide alone or in combination with small amounts of other carbides) with a metallic cobalt binder, pressed into a compact, solid form at high temperatures by a process known as “sintering.” Cobalt-tungsten carbide hard metals are used primarily in cutting tools. Cobalt-tungsten carbide hard metals are manufactured and used in the United States. Occupational exposure to cobalt-tungsten carbide hard-metal particles can occur during hard-metal production, recycling of hard-metal products, and grinding and sharpening of hard-metal tools.

Preliminary Agenda, Request for Comments, and Registration

Preliminary agenda topics include:

- Oral public comments on cobalt-tungsten carbide powders and hard metals.
- Peer review of the draft background document on cobalt-tungsten carbide powders and hard metals.
- Recommendation for listing status in the 12th RoC for cobalt-tungsten carbide powders and hard metals and scientific justification.

The meeting is scheduled for December 9–10, 2008, from 8:30 a.m. to adjournment each day. A copy of the preliminary agenda, expert panel roster, and any additional information, when available, will be posted on the RoC Web site or may be requested from the Director of the RoC Office (see **ADDRESSES** above). Individuals who plan to attend the meeting are encouraged to register on-line by December 1, 2008, to facilitate planning for the meeting.

Request for Comments

The NTP invites both written and oral public comments on the draft background document on cobalt-tungsten carbide powders and hard metals. All written comments received will be posted on the RoC Web site prior to the meeting and distributed to the expert panel and RoC staff for their consideration in the peer review of the draft background document and/or preparation for the expert panel meeting. Persons submitting written comments are asked to include their name and contact information (affiliation, mailing address, telephone and facsimile numbers, e-mail, and sponsoring organization, if any) and send them to Dr. Lunn (see **ADDRESSES** above) for receipt by November 24, 2008. Time will be set aside at the expert panel meeting for the presentation of oral public comments. Seven minutes will be available for each

speaker (one speaker per organization). Persons can register on-line to present oral comments or contact Dr. Lunn (see **ADDRESSES** above). When registering to comment orally, please provide your name, affiliation, mailing address, telephone and facsimile numbers, e-mail and sponsoring organization (if any). If possible, send a copy of the statement or talking points to Dr. Lunn by December 1, 2008. This statement will be provided to the expert panel to assist them in identifying issues for discussion and will be noted in the meeting record. Registration for presentation of oral comments will also be available at the meeting on December 9–10, 2008, from 7:30–8:30 a.m. Time allowed for comments by on-site registrants may be less than for pre-registered speakers and will be determined by the number of persons who register at the meeting. Persons registering at the meeting are asked to bring 25 copies of their statement or talking points for distribution to the expert panel and for the record.

Background Information on the RoC

The RoC is a congressionally mandated document [Section 301(b)(4) of the Public Health Services Act, 42 U.S.C. 241(b)(4)], that identifies and discusses agents, substances, mixtures, or exposure circumstances (collectively referred to as “substances”) that may pose a hazard to human health by virtue of their carcinogenicity. Substances are listed in the report as either known or reasonably anticipated to be human carcinogens. The NTP prepares the RoC on behalf of the Secretary of Health and Human Services. Information about the RoC and the nomination process can be obtained from its homepage (<http://ntp.niehs.nih.gov/go/roc>) or by contacting Dr. Lunn (see **FOR FURTHER INFORMATION CONTACT** above). The NTP follows a formal, multi-step process for review and evaluation of selected substances. The formal evaluation process is available on the RoC Web site (<http://ntp.niehs.nih.gov/go/15208>) or in printed copy from the RoC Office.
