

New MARC 21 Values/Fields: Summary

MARCH 2002 TAG TABLE CHANGES FOR VOYAGER 2000.1.3

This document summarizes changes to the LC ILS Tag Tables (LCMARC21) made available in March of 2002. The new elements and changes to elements come primarily from Update No. 1 (October 2000) to the MARC 21 Formats for Bibliographic and Authority data, although some of the changes pre-date that update.

Although these data elements are now valid in the LC ILS, not all of them will be actively supplied in LC cataloging (they may occur as “pass through” data elements in records done as copy cataloging). In general, this document summarizes the subset of newly available data elements from two aspects: 1) those to begin actively supplying; 2) those NOT to supply (those not actively supplied should be considered “pass through” data elements). This summary is relevant to general cataloging (all cataloging for the data elements NOT to supply). Application of newly available data elements relevant to cataloging done in the special format divisions will be determined by staff in those divisions, as will the guidelines for their application.

Staff should evaluate any customized templates and/or macros they may have developed to determine if these changes have an impact.

1. BIBLIOGRAPHIC ELEMENTS	Actively Supply?	
	YES	NO
CONTROL FIELDS		
MAP 006/12, 008/29 (Form of item)-- new position	X	
Visual Materials 006/12, 008/29 (Form of item)-- new position	X	
Computer File 007/06-13 -- new positions		X (generally code as “fills” in newly generated 007s)
Kit 007		X
Notated Music 007		X
Tactile Material 007		X
VARIABLE FIELDS		
505 - Formatted Contents Note--new subfield: \$u Uniform Resource Identifier		X (continue to use 856)
514 - Data Quality Note--new subfield: \$u Uniform Resource Identifier		X (continue to use 856)
514 - Data Quality Note--new subfield: \$z - Display note	X	
520 - Summary, Etc.--new subfield: \$u Uniform Resource Identifier		X (continue to use 856)

1. BIBLIOGRAPHIC ELEMENTS	Actively Supply?	
	YES	NO
522 - Geographic Coverage Note-- field now repeatable	X	
530 - Additional Physical Form Available Note--new subfield: \$u Uniform Resource Identifier		X (continue to use 856)
545 - Biographical or Historical Data--new subfield: \$u Uniform Resource Identifier		X (continue to use 856)
552 - Entity and Attribute Information Note--new subfield: \$u Uniform Resource Identifier		X (continue to use 856)
552 - Entity and Attribute Information Note--new subfield: \$z Display Note	X	
555 - Cumulative Index/Finding Aids Note--new subfield: \$u Uniform Resource Identifier		X (continue to use 856)
583 - Action Note--new subfield \$u Uniform Resource Identifier		X (continue to use 856)
583 - Action Note--new subfield \$2 Source of term		X
853-855 - Captions and Pattern--new subfield \$z Numbering scheme		X (bib record use only in OCLC/CONSER)
856 - Electronic Location and Access--new subfield \$y Link text		X
923 - Local supplier invoice or shipment ID--new subfields: \$b Barcode (piece identification) \$c Copy \$f Fund code \$i Instruction \$l Line item type \$p Price \$q Quantity \$t Title number \$x Note		X (DO NOT USE for online input/update; for use in embedded order data ONLY)
MARC Language Codes --new code nds Low German [formerly coded: gem (Germanic (Other))]	X	

2. AUTHORITY ELEMENTS	Actively Supply?	
	YES	NO
VARIABLE FIELDS		
043 - Geographic Area Code--new subfields: \$b \$2		X X
678 - Biographical or Historical Data-- new subfield: \$u Uniform Resource Identifier		X
