Attention FSR System Users: Latest News!

The NIH eRA Commons 2.0 FSR Project is now open to all registered users. We are continuing to contact users of the previous electronic submittal system to sign them up and help them acclimate to the new way of submitting FSRs. If you haven't submitted FSRs electronically in the past, your institution's Business Official may now register online at:

https://commons.era.nih.gov/commons/registration/registrationInstructions.jsp

If you are worried about your personal account, please contact the Signing Official (SO) at your institution (this is generally the Director of Grants and Contracts) and inquire as to the process for creating an account.

The registration is for ALL of the NIH eRA Commons not just the FSR module, so your account is created in house. If you do not have an institutional-level account and have submitted FSRs electronically in the past, you can contact Dave Chicchirichi at 301-435-0690 x 604.

We will keep you up to date on our progress, so please check back here often.

Sincerely,

The FSR Deployment Team
02/04/2003
