

Update Information 2006 Update Number 1

This package updates the *Subject Cataloging Manual: Subject Headings*, 5th edition, which was originally published in 1996 and has been updated semiannually since 1997. All new instruction sheets and replacement pages in 2006 Update Number 1 are dated February 2006. The table that follows lists the pages included in this package and summarizes the nature of the updates. Users who wish to maintain a permanent record of the history of the additions and changes listed here should file this table behind the **Update Information** tab in Volume 4 of the manual.

With this update, the manual is current through the end of February 2006. 2006 Update Number 2 is scheduled to be published in Autumn 2006.

Here are my suggestions for improving the Subject Cataloging Manual:

Preparation of Subject Heading Proposals H 200

GENERAL REQUIREMENTS FOR SUBJECT HEADING AUTHORITY RECORDS

1. Field 008. (Continued)

b. Cataloging source. The default value that appears in the box labeled **Cataloging source** (field 008/39) is the hyphen, which stands for **Library of Congress**. If the heading is being proposed by a cooperating partner library, change the value to **c, Library of Congress cooperative cataloging program**. In all other cases, leave the default value unchanged.

c. Other 008 information. Leave all other values on the 008 screen unchanged.

2. Priority 1 proposals. Use field 906, subfield \$v to indicate that the heading is being proposed for material that is handled on a priority 1 basis in the editorial process, such as CIPs. Do so by changing the default value **0** to **1**. If the priority of the proposal is lower than 1, leave the default value **0** in this subfield. Do not use any values other than **0** or **1**.

3. Library of Congress Control Number (010 and 019 fields). Use the LCCN number generator for subject authorities to create an LCCN for the proposal record. Paste the generated number into the 010 and the 019 fields of the record. In the 019 field, change the prefix **sh** to **sp**.

4. Classification numbers. Follow the rules and guidelines in H 365 to determine whether to assign a class number to the heading. Enter each number or span of numbers in a separate **053** field with a second indicator value **0**. For a single number, use the \$a subfield. For a span of numbers, use the \$a subfield for the beginning number of the span and the \$b subfield for the ending number. Provide the full class number (including class letters) in both the \$a and \$b subfields. Do not key a hyphen. Enter the appropriate qualifying term, if any, in a \$c subfield. Do not enclose data in the \$c subfield in parentheses. *Example:*

053 #0 \$a HG289 \$b HG297 \$c Finance

If no 053 field is being provided, delete the blank 053 field from the authority record.

H 200 Preparation of Subject Heading Proposals

GENERAL REQUIREMENTS FOR SUBJECT HEADING AUTHORITY RECORDS

5. Tags for headings and references. Subject headings and references are tagged according to the definitions in the *MARC21 Format for Authority Data*. For heading-subdivision combinations in 1XX, 4XX, or 5XX fields, tag for the \$a subfield. For example, use **100** for the heading **Jesus Christ–Date of death**; **110** for **Harvard University–Student housing**; **130** for **Beowulf–Characters**; etc. The following are the proper tags for the various types of subject headings and references:

- X00 - family name headings
personal name headings with non-free-floating subdivisions

- X10 - named entities that are corporate bodies or that have been
designated as similar to corporate bodies (see H 405)

- X11 - meeting headings with non-free-floating subdivisions

- X30 - uniform title headings with non-free-floating subdivisions

- X50 - topical headings
events that are not subdivisions under places
names of fictional and legendary characters, deities, etc.

- X51 - geographic headings, including named entities that have
been designated as geographic in nature (see H 405)

6. The heading. Enter the text of the proposed heading in the 1XX field before the label **[proposed]**, which appears in the template. Leave a blank space between the heading and the label **[proposed]**.

Preparation of Subject Heading Proposals H 200

8. *Tracings and references.*

c. 5XX's (BTs and RTs). (Continued)

There must be an authority record in the subject authority file for each subject heading used as a 5XX. In cases where a 5XX is made from a generic term divided by place or from a topic divided by a free-floating subdivision, for example, **Mountains–Colorado** or **Oxygen–Toxicology**, an authority record for the generic term divided by the specific place or for the specific heading-subdivision combination needed in the 5XX may not yet have been created. In these cases, it is not necessary for the cataloger to create the authority record; editorial staff will create it.

d. Narrower terms (NTs). Make references from the new heading being proposed to existing narrower headings by adding the new heading as a BT (that is, a 5XX field having a \$w control subfield containing the value **g**) to the existing authority records for the narrower terms. Do this by following the procedures in H 195 for changing references in existing subject authority records and submitting a printout of each changed record together with the proposal for the new heading. Although the MARC 21 format provides value **h** to identify narrower terms in a \$w control subfield of 5XX fields, the Library of Congress does not use this value nor include narrower terms in records for their broader terms.

9. Citation of sources. Use the **670** and **675** fields to cite sources that were consulted in preparing the proposal. See H 202 for instructions on the authority research required for subject heading proposals.

a. Work cataloged. Cite the work for which the heading is being proposed as the first 670 field. Provide the LCCN, the main entry and title, and the imprint date. In order to keep the citation brief, use authors' initials instead of their full forenames, and abbreviate words to the extent that this can be done without sacrificing clarity. Abridge titles if they are lengthy, but include key words that support the form of the proposed heading or that justify a UF reference, even if they appear in a subtitle. If the work has both a uniform title and a title page title, omit the uniform title in favor of the title page title. When establishing both a new heading and a new subdivision for the same work, cite the work in both authority records.

Example:

670 ## \$a Work cat: 96011759: Petering, D.E.K. The Anton
Wilhelm Petering family genealogy, 1995.

H 200 Preparation of Subject Heading Proposals

GENERAL REQUIREMENTS FOR SUBJECT HEADING AUTHORITY RECORDS

9. Citation of sources. (Continued)

b. Other sources in which the heading was found. Use additional 670 fields to cite sources that support the form of the proposal or references. Follow the style and conventions for citation of sources described in H 203. *Examples:*

670 ## \$a Rieger, R. Glossary of genetics, 1990 \$b (genotype-environment interaction)

670 ## \$a MEDLINE on 1stsearch, Feb. 15, 1996 \$b (genotype-environment interaction; genotype by environment interaction; gene-environment interaction; genotype x environment interaction)

Do not cite LC patterns or the *Subject Cataloging Manual* in 670 fields. Instead, use the 952 fields, as described in sec. 13, below.

c. Sources in which the heading was not found. Use a single 675 field to cite sources that were consulted but do not use the term or any variation of it. Cite these sources in the same manner as sources in which the term was found. Cite each source in a separate \$a subfield. Put a semicolon after each source citation before starting a new \$a subfield. Use no other subfield coding. *Example:*

675 ## \$a Lippincott; \$a Web. geog.; \$a Times atlas

10. Scope note. Follow the guidelines in H 400 for determining whether a scope note is appropriate. If a scope note is being provided for the heading being established, enter it in a 680 field. Use \$i subfields for explanatory text and \$a subfields for headings or subdivision terms that are used to amplify or illustrate the text contained in the \$i subfields. *Example:*

150 ## \$a Developmental neurobiology
680 ## \$i Here are entered works on the growth and differentiation of the nervous system. Works limited to the growth of the nervous system are entered under \$a Nervous system--Growth.

11. Geographic subdivision information. For geographic subject headings, add a 781 field showing the form of the heading when it is used as a geographic subdivision, or a 667 field stating that it is not valid for use as a geographic subdivision. See the detailed guidelines in H 836.

Preparation of Subject Heading Proposals H 200

GENERAL REQUIREMENTS FOR SUBJECT HEADING AUTHORITY RECORDS

12. Bibliographic file maintenance. Before submitting a completed proposal to the Subject Headings Editorial team, search the LC Database to locate existing bibliographic records that should be updated as a result of the new proposal. Enter the total number of records to be changed in a 952 field formatted as in the following example:

```
952 ## $a 5 bib. record(s) to be changed
```

Note: The templates for creating new subject authority records in the LC ILS already contain this field, with the numeral 0. If records are being submitted to be changed, replace the 0 with the appropriate number. If no records are submitted for change, leave the field as is.

13. LC pattern. When it is appropriate to cite an LC pattern (see H 202), enter it in a 952 field using the following terminology :

```
LC pattern: [heading being cited as pattern]
```

Example:

```
150 ## $a Poets, Zimbabwean  
952 ## $a LC pattern: Authors, Zimbabwean
```

This information is permanently retained in the authority record for the new heading in the LC ILS, but is not distributed outside the Library of Congress.

Note: The templates for creating new subject authority records in the LC ILS already contain this field. If a pattern is being cited, enter the appropriate heading. If a pattern is not being cited, delete the field.

Citing the Subject Cataloging Manual. If the heading and/or its reference structure is being established according to a pattern prescribed in a specific instruction sheet in the *Subject Cataloging Manual*, add a 952 field containing the number of the instruction sheet. Use the abbreviation SCM. *Example:*

```
952 ## $a SCM H 1334
```

H 200 Preparation of Subject Heading Proposals

GENERAL REQUIREMENTS FOR SUBJECT HEADING AUTHORITY RECORDS

14. *Comments accompanying proposal.* Enter any comments that are pertinent to the new heading, and that are intended to be a permanent part of the authority record, in a 952 field. These include information such as a definition of the heading or a description of its intended usage, a description of special problems or considerations that were factors in selecting the form of the heading or references, the impact that the new proposal might have on the assignment of other headings, or other relevant facts accumulated in doing authority research for the proposal. Communicate information that is only of transitory interest while the proposal is going through the editorial process by submitting a note together with the proposal.

15. *Cataloger's code.* Enter the appropriate four-character cataloger's code, for example **ta85**, in field 953, subfield \$a.

16. *Material to be submitted to the Subject Headings Editorial team.* Submit the following material, as a single package, for each new heading proposed:

- the item generating the proposal, and its associated paper work
- a printout of the newly created authority record
- printouts of authority records for any headings that have been changed to add the newly proposed heading as a 5XX (BT or RT)
- printouts or listings of bibliographic records to be changed (see D 240 for procedures for preparing and marking printouts)
- notes, if any, addressed to the Subject Headings Editorial team or to policy staff in the Cataloging Policy and Support Office.

17. *Changing a proposal record after it has been created and saved.* Catalogers may make online changes to a proposal record *only on the same day* on which the record was created. If it is necessary to make changes on a subsequent day (but before the proposal package has been submitted to the Subject Headings Editorial team), do so by making a printout of the record, annotating the printout in red showing the changes to be made, and submitting the annotated printout to the Subject Headings Editorial team together with the other material listed in sec. 16, above. If any additions or changes need to be made after the proposal has been submitted, notify the Subject Headings Editorial team of the desired change(s) by telephone, email, or inter-office mail. This restriction on making changes applies also to catalogers who encounter a proposal record in the LC Database that was created by another cataloger and is still in process.

Preparation of Subject Heading Proposals H 200

HOW TO CREATE A SUBJECT AUTHORITY RECORD ONLINE IN THE LC ILS

12. 670 and 675 fields (Sources found and Sources not found).

[see also GENERAL REQUIREMENTS, sec. 9]

Enter the citation of the work being cataloged as the first 670 field in the record, using the blank 670 field provided in the template. The first four digits of the LCCN (those that represent the year) are already present in the field. Key the remaining six digits, using leading zeroes if necessary, so that the number appears in the format YYXXXXXX, for example, 99001234. Note that no hyphens are used in the LCCN. Key a colon immediately following the LCCN, then a blank space, then the citation of the work being cataloged (formatted according to the rules provided in H 203).

If additional source citations fields are being provided, list each in a separate 670 field.

If citations are being provided for “sources not found”, make only one 675 field, listing each source in a separate \$a subfield, as described in H 203, sec. 9.

13. 680 field (Scope note).

[see also GENERAL REQUIREMENTS, sec. 10]

Enter the text of a scope note in a 680 field using the content designation described in *GENERAL REQUIREMENTS*, sec. 10, above.

14. 781 field (Form in which heading is used as a geographic subdivision).

[see also GENERAL REQUIREMENTS, sec. 11]

For geographic headings, add a 781 field providing the form used when the heading is assigned as a geographic subdivision. Use the guidelines and content designation described in *GENERAL REQUIREMENTS*, sec. 11, above.

15. 952 fields (Local notes).

[see also GENERAL REQUIREMENTS, sec. 12, 13, and 14]

Two 952 fields are provided in the template, the first for the number of bibliographic records to be changed and the second for the citation of an LC pattern.

H 200 Preparation of Subject Heading Proposals

HOW TO CREATE A SUBJECT AUTHORITY RECORD ONLINE IN THE LC ILS

15. 952 fields (Local notes).

Replace the **0** that is already present in the field with the actual number of bibliographic records that are being submitted to be changed. If no records are being submitted, leave this 952 field with **0** as the number of records to be changed.

If an LC pattern is being cited, move the cursor after the colon in "LC pattern:". Key a blank space followed by the heading being cited as a pattern. Do not use subfield codes or delimiters to separate the parts of the heading being cited. Use double hyphens to indicate a heading-subdivision combination. If citing more than one heading as a pattern, separate the headings with a semicolon and a space. Follow the criteria in H 202 for citing LC patterns.

If no LC pattern is being cited, delete this field.

If additional 952 fields are needed, add them to the authority record.

16. 953 field (Cataloger's code).

Field 953 is provided in the template. Enter the appropriate four-character cataloger's code, for example **ld07**, in subfield \$a of this field.

17. Proofing, correcting, and saving the record. Proofread the data and make any needed corrections. Fields may be added or deleted following the standard LC ILS techniques that are used to edit bibliographic records. When satisfied that the record is correct and complete, save it to the LC Database by clicking the boat icon.

Once the record has been saved, it is still possible for the cataloger to edit it online, but only on the same day on which the record was created. Retrieve the record, make any additions or changes that are necessary, and re-save it by clicking the boat icon. If it is necessary to make changes on a subsequent day, do so by making a printout of the record, annotating the printout in red showing the changes to be made, and submitting the annotated printout to the Subject Headings Editorial team, as described in sec. 18, below.

Citation of Sources H 203

5. Parenthetical information. Unless the proposed heading is found in the cited source in *exactly* the same form, provide the form and/or briefly quote the context in which it is found. If both the exact form and variants are found, provide both. Put this information in parentheses following the citation in a \$b subfield. *Examples:*

Heading proposed: Abscam Bribery Scandal, 1980

670 ## \$a NYT index, 1980 \$b (Abscam, Operation; Abscam; Abscam investigation)

Heading proposed: Russia–History–Streltsy Revolt, 1698

670 ## \$a Americana: \$b v. 25, p. 791 ("... in 1698, the Streltsy rose in revolt")

6. Model of citation form with content designation. The suggested form of citation is:

670 ## \$a [author]. [title], [date]: \$b [volume, page, etc.]
([data found])

Although not all citations include all of these elements, generally follow this order and style for those elements that are included. *Examples:*

670 ## \$a World Book: \$b v. 17, p. 86c (Coit Tower)

670 ## \$a Web. geog. \$b (Hsiang; Siang)

670 ## \$a Milberry, L. The Canadair North Star, 1982: \$b pp. 23ff.

670 ## \$a Evans, S. A short history of Bulgaria, 1960:
\$b pp. 59-61

7. Citing sources that are not publications.

a. BGN. In most cases, information is obtained from BGN via the World Wide Web, using the Geographic Names Information System (GNIS) or GEOnet Names Server (GNS) (cf. H 690, sec. 1). Cite these sources in the following manner:

670 ## \$a GNIS [or GEOnet], [date searched] \$b ([approved form, including coordinates, if supplied]; variants: [variants provided])

Example:

670 ## \$a GEOnet, Feb. 9, 2000 \$b (Tokaji Hegy, mountain, 48°07'N 21°23'E; variants: Tokaj Hegy, Kopasz Hegy)

H 203 Citation of Sources

7. *Citing sources that are not publications.*

a. *BGN. (Continued)*

If the printouts of BGN's Geographic Names Information System Alphabetical Finding List for United States states are consulted instead, cite them as:

670 ## \$a GNIS [*name of state*]\$(*[data found]*)

b. *Citing the Library of Congress database.* Use the phrase **LC database** as a standard way of indicating that the term being proposed as a heading or reference was found in titles in bibliographic records in the LC Database. Use **LC name authority file** to cite the name authority file. If variations of the term were found in the database, provide these in parentheses in a \$b subfield. *Example:*

Heading proposed: Environmental auditing
670 ## \$a LC database, Sept. 9, 1984 \$b (environmental
audit; environmental compliance auditing;
environmental auditing)

c. *Citing telephone calls.* In order to use information obtained by telephone to support a subject heading proposal, use the following citation form: **Phone call to [*name of person*]**. Include the date of the call only when adding a citation to an existing authority record to support a change of heading or reference. Also include, when pertinent and available, the person's title and the organization with which the person is affiliated. Provide in parentheses a *brief* summary of the relevant information provided by the person in a \$b subfield. *Example:*

Heading proposed: Public history
670 ## \$a Phone call to M. Cantelon, Natl. Council on Public
History \$b (term has not yet acquired a fixed
meaning)

7. *Citing sources that are not publications.* (Continued)

d. Citing the World Wide Web. Give the name of the Web site and the date it was consulted. In subfield \$b, give a location, if appropriate, and the information found.

Example:

Heading proposed: DataTimes (Information retrieval system)
670 ## \$a DataTimes WWW site, May 16, 1996 \$b main menu
(DataTimes information network)

Note: Catalogers are strongly discouraged from providing a URI (Uniform Resource Identifier) in the 670 field, since URIs are unstable, and addresses often change. In rare situations where it is necessary to cite a URI, the 670 \$u subfield must be used for this purpose.

e. Citing the Old Catalog heading. When proposing a heading for a named entity, geographic feature, chemical, biological organism, etc., for which an Old Catalog heading exists and has been found, cite it by the phrase **Old catalog heading** followed by the heading in parentheses in a \$b subfield. *Example:*

Heading proposed: Marion Reservoir (Kan.)
670 ## \$a Old catalog heading \$b (Marion Lake, Kan.)

8. *Citing sources in which the heading was not found.* Use the 675 field to cite sources that were consulted but do not use the term or any variation of it. The same style as that used for citing sources that support the proposal may be used. No further data should be provided. In the online record, the 675 field is not repeatable. Multiple sources appear in sequential \$a subfields.

Example:

675 ## \$a Web. geog.; \$a Lippincott

Music Heading Authority Records H 250

1. Creation of records. (Continued)

b. Headings consisting of combinations of terms that must be separately established, unless the headings are governed by the patterns described in sec. 2.

(1) Music of a single instrument qualified by style of music or playing. Examples:

```
150 ## $a Piano music (Jazz)
150 ## $a Guitar music (Slack key)
150 ## $a Electric guitar music (Rock)
```

The term in the qualifier must also be established as a heading for music in that style:

```
150 ## $a Jazz
150 ## $a Slack key (Guitar playing)
150 ## $a Rock music
```

Include in the record for music of the instrument a broader term for the style and a scope note to define the heading, whose usage is broader than that of similar headings without a qualifier for style of music. *Examples:*

```
150 ## $a Piano music (Jazz)
550 ## $w g $a Jazz
680 ## $i This heading is assigned to jazz for solo
      piano

150 ## $a Guitar music (Slack key)
550 ## $w g $a Slack key (Guitar playing)
680 ## $i $a This heading is assigned to guitar music
      in slack key style

150 ## $a Bass guitar music (Rock)
550 ## $w g $a Rock music
680 ## $i This heading is assigned to rock music for
      solo guitar
```

(2) Music for combinations of two instruments. Provide references from the instruments in reverse order or from other appropriate phrases. Examples:

```
150 ## $a Duets (Unspecified instrument and synthesizer)
450 ## $a Duets (Synthesizer and unspecified instrument)

150 ## $a Piano music (Pianos (2))
450 ## $a Piano duets

150 ## $a Violin and piano music
450 ## $a Piano and violin music
```

H 250 Music Heading Authority Records

1. Creation of records.

b. Headings consisting of combinations of terms that must be separately established, unless the headings are governed by the patterns described in sec. 2. (Continued)

(3) Headings with qualifiers for language of text. Establish the heading in inverted form (cf. H 306, sec. 2). Provide a reference from the direct form. The language, language group, or dialect must also be established. *Examples:*

150 ## \$a Buddhist hymns, Japanese
450 ## \$a Japanese Buddhist hymns

150 ## \$a Folk songs, Norwegian
450 ## \$a Norwegian folk songs

150 ## \$a Children's songs, Papiamentu
450 ## \$a Papiamentu children's songs

c. Special rules for certain categories of headings.

(1) Headings that may be qualified by language. The following headings may be qualified by language of text:

150 ## \$a Ballads
150 ## \$a Buddhist hymns
150 ## \$a Bhajans
150 ## \$a Canzonets (Part songs)
150 ## \$a Carols
150 ## \$a Children's songs
150 ## \$a Folk songs
150 ## \$a Hindu hymns
150 ## \$a Hymns
150 ## \$a Jaina hymns
150 ## \$a Part songs
150 ## \$a Revolutionary ballads and songs
150 ## \$a Sikh hymns
150 ## \$a Songs

Music Heading Authority Records H 250

1. Creation of records.

c. Special rules for certain categories of headings.

(1) Headings that may be qualified by language. (Continued)

Do not add the language to the headings **Sacred songs** or **Part songs, Sacred**. Instead, generally assign a second heading with the language and without the term **sacred**. *Examples:*

```
650 #0 $a Sacred songs.  
650 #0 $a Songs, Provençal.  
  
650 #0 $a Part songs, Italian.  
650 #0 $a Part songs, Sacred.
```

(2) *Addition of the qualifier "Arranged."* Authority records are required when adding , **Arranged** to headings for vocal forms and instrumental forms that do not imply medium of performance (cf. H 1917.5, sec 7). *Examples:*

```
150 ## $a Incidental music, Arranged  
150 ## $a Motion picture music, Arranged  
150 ## $a Oratorios, Arranged
```

(3) Dances.

(a) *The qualifier "(Music)".* Establish new headings representing types of dance music with the qualifier **(Music)** even if there is no corresponding heading for the dance. Establish new dance headings with the qualifier **(Dance)** even if there is no corresponding heading for the music for that dance. Do not retrospectively add a qualifier to the music heading when a corresponding new dance heading is established.

(b) *Medium of performance.* Headings for the music of individual dances are not qualified by medium of performance. If appropriate when cataloging dance music, add a second heading for medium of performance. *Examples:*

```
650 #0 $a Hulas (Music)  
650 #0 $a Guitar music (Slack key)  
  
650 #0 $a Waltzes.  
650 #0 $a Orchestral music.
```

H 250 Music Heading Authority Records

c. Special rules for certain categories of headings. (Continued)

(4) **Recorded accompaniments.** Recorded accompaniments are sound recordings with performance parts omitted so they can be performed by live musicians. Parenthetical qualifiers added to the heading **Recorded accompaniments** specify the medium of performance of the missing part(s), and not the medium of performance on the recording. Authority records are required for the headings with their qualifier. Make a related term reference to a general heading for unaccompanied music for the live performer, and include a scope note explaining the unusual meaning of the heading. *Examples:*

```
150 ## $a Recorded accompaniments (Flute)
550 ## $a Flute music
680 ## $a Here are entered musical sound recordings to
      be played while a live performer plays the
      flute part.
```

```
150 ## $a Recorded accompaniments (High voice)
550 ## $a Songs (High voice)
680 ## $a Here are entered musical sound recordings to
      be played while a live performer sings the
      voice part.
```

(5) **Cross references for headings that specify medium of performance.** With the exception of music for combinations of two instruments described in sec. 1.b.(2) above, no cross references or broader terms are given in authority records for headings containing combinations of terms for medium of performance by solo performers (cf. sec. 2.a below and H 1917.5). *Examples:*

```
150 ## $a Concertos (Oboe and harp)
150 ## $a Piano, flute, violin with instrumental ensemble
150 ## $a Woodwind quartets (Bassoon, clarinet, English
      horn, oboe)
```

Headings Qualified by Nationality, H 320 Ethnic Group, Language, Etc.

1. General provision. Establish editorially each instance of a subject heading with an adjectival qualifier for nationality, ethnic group, language, etc. *Examples:*

```
150 ## $a Investments, American
150 ## $a Art, American
150 ## $a Mythology, Armenian
150 ## $a Short stories, English
150 ## $a Mexican American children
```

Exception: In the case of inverted subdivisions with adjectival qualifiers, individual adjectives may be applied without establishing each usage once a multiple subdivision has been provided in the subject authority file or on a free-floating list. For instructions on multiple subdivisions, see H 1090. *Examples:*

```
650 #0 $a World War, 1939-1945 $v Personal narratives,
      American.
651 #0 $a United States $x Foreign public opinion, British.
```

If the subdivision is uninverted and no multiple has been provided, establish each instance as needed. *Example:*

```
151 ## $a France $x Civilization $x American influences.
```

2. Inverted or uninverted headings. Establish all qualified headings in the inverted form except for those qualified by ethnic groups of the United States or by Indian groups, major literary forms (see H 306, sec. 2.a.(1); H 351), and a few other well-established patterns.

*Note: Headings qualified by adjectives for religious groups, including the adjective **Jewish**, are established in uninverted form (cf. H 306, sec. 1).*

Examples:

```
150 ## $a English poetry
150 ## $a African American children
150 ## $a French students
150 ## $a Indian women
150 ## $a American property
150 ## $a German imprints
```

H 320 Headings Qualified by Nationality, Ethnic Group, Language, Etc.

3. References. Add as a standard reference to a qualified heading of this type a 450 field with the alternative form of the heading. If the heading is inverted, make the reference from the straight form; if straight, make the reference from the inverted form. *Examples:*

```
150 ## $a Art, French
450 ## $a French art

150 ## $a Mexican American art
450 ## $a Art, Mexican American
```

Do not add references from non-used variant forms of national and ethnic adjectival qualifiers. Instead make general see references from non-used adjectival variants according to the procedures in H 374.

Add additional 4XX or 5XX fields as appropriate. *Example:*

```
150 ## $a College and school drama, French
450 ## $a French college and school drama
550 ## $w g $a French drama
```

4. References for subdivisions used under qualified headings. When a subdivision established under the unqualified form of a heading has been provided with a complete reference structure, that reference structure should not normally be duplicated if the same subdivision is established under the qualified heading. *Examples:*

```
150 ## $a Corporations $x Investor relations
      [unqualified heading with subdivision]
450 ## $a Investor relations (Corporations)
550 ## $w g $a Public relations $x Corporations
550 ## $w g $a Stockholders

150 ## $a Corporations, American $x Investor relations
      [qualified heading with subdivision; no additional references needed]
```

Rivers, Valleys, Watersheds, Etc. H 800

8. Valleys. **Valley** designates the flatlands extending along the course of a river and its tributaries. The practice of using **Valley** as a free-floating term added to names of rivers and river systems was discontinued in July 1995. Generally establish headings for valleys by adding the term **Valley** to the heading for the name of the river, for example, **Hudson River Valley (N.Y. and N.J.)**. If the heading for the river is established in inverted form, add a comma before the term **Valley**, for example, **Medway, River, Valley (Scotland)**. If reference sources or bibliographic titles indicate that the word **River** is not part of the name of the valley, **River** may be omitted, for example, **San Joaquin Valley (Calif.)** [*not San Joaquin River Valley (Calif.)*]. Add 451 fields for alternative forms with or without the term **River**. If the river is not yet established, establish a heading for the river at the same time. Use the same qualifier for both the river and the valley headings. Make broader term references of the type **Valleys-[place]** corresponding to the references of the type **Rivers-[place]** that are made for the river. Do not formulate headings based on the names of two rivers in combination with each other. Instead, formulate separate headings based on each individual river. For example, for a work that discusses the Sacramento and lower San Joaquin valleys, formulate the following two headings:

```
151 ## $a Sacramento Valley (Calif.)
151 ## $a San Joaquin Valley (Calif.)
```

9. Watersheds. A watershed is the entire region or area that a river, river system, or other body of water drains, including mountainous areas. The practice of using **Watershed** as a free-floating term added to names of rivers and lakes was discontinued in March 1993. Establish headings for watersheds by adding the term **Watershed** to the heading for the name of the river, lake, or other body of water. If the heading for the river, etc., is established in inverted form, add a comma before the term **Watershed**, for example, **Snake River, South Fork, Watershed (Idaho)**. If the body of water is not yet established, establish a heading for it at the same time. Use the term **Watershed** even though the work being cataloged may use another expression, such as basin, drainage basin, river basin, catchment area, etc. (Although river basins are designated as watersheds, geological basins are established as such, using the term **Basin**, for example, **Diamond Basin (Nev.)**.) Generally retain the same qualifier as that used for the river, etc. Make broader term references of the type **Watersheds-[place]** corresponding to the references of the type **Rivers-[place]** that are made for the river, etc. Do not routinely undertake research to determine the full extent of the drainage area. If readily available information indicates that the geographic extent of the watershed of a major body of water substantially exceeds the boundaries of the jurisdiction(s) in which the body of water is located, establish the heading for the watershed to reflect that broader extent and make appropriate broader term references. Make a used for reference from the name of the watershed with

H 800 Rivers, Valleys, Watersheds, Etc.

9. *Watersheds.* (Continued)

the same qualifier as the heading for the body of water. Provide a scope note delineating the geographic extent. *Example:*

```
151 ## $a Winnipeg, Lake, Watershed
451 ## $a Winnipeg, Lake, Watershed (Man.)
550 ## $w g $a Watersheds $z Northwestern States
550 ## $w g $a Watersheds $z Ontario
550 ## $w g $a Watersheds $z Prairie Provinces
680 ## $i Here are entered works on the area drained by Lake
      Winnipeg, which extends from the lake in Manitoba east
      to Lake Superior, west to the Rockies, and south to
      Minnesota, the Dakotas, and Montana.
```

Do not establish watershed headings based on the names of two rivers in combination with each other. Instead, establish separate watershed headings for each river. For example, for a work that discusses the Virgin River-Meadow Valley Wash drainage basin, establish the following two headings:

```
151 ## $a Virgin River Watershed
151 ## $a Meadow Valley Wash Watershed (Nev.)
```

10. River regions. **Region** designates the largest area associated with a river, consisting not only of the drainage basin itself but also other adjacent territories beyond the basin. Following the instructions in H 760, formulate free-floating phrase headings for the names of regions of rivers by adding the word **Region** to the river name, rather than to the heading for the valley or watershed. *Example:*

```
651 #0 $a Potomac River Region.
[not 651 #0 $a Potomac River Valley Region.]
[not 651 #0 $a Potomac River Watershed Region.]
```

*Note: Names of valley regions not associated with rivers may be formulated on a free-floating basis in accordance with H 760, for example, **Death Valley Region (Calif. and Nev.)**.*

2. Islands in geographic subdivision practice.

a. Individual islands. (Continued)

If an individual island is part of an island group but is also located near its controlling jurisdiction, divide it through the controlling jurisdiction rather than through the island group. *Example:*

```
650 #0 $a Plants $z Papua New Guinea $z Bougainville Island.  
[not 650 #0 $a Plants $z Solomon Islands $z Bougainville Island.]
```

For special provisions applying to individual Caribbean islands, see sec. 2.c., below.

b. Island groups. As a general rule, follow the same provisions for island groups as for individual islands. Divide an island group that is controlled in its entirety by a single jurisdiction through the controlling jurisdiction or, if the group itself is an autonomous jurisdiction, assign it directly after topics. *Examples:*

```
650 #0 $a Fur trade $z Alaska $z Aleutian Islands.  
650 #0 $a Political parties $z Spain $z Balearic Islands.  
650 #0 $a Acculturation $z Papua New Guinea $z Admiralty  
Islands.  
650 #0 $a Law $z Philippines.  
650 #0 $a Prime ministers $z Vanuatu.  
650 #0 $a Labor supply $z Kiribati.
```

If the group is located some distance away from its controlling jurisdiction, as described above, assign it directly after topics. *Examples:*

```
650 #0 $a Meteorology $z Falkland Islands.  
650 #0 $a Shipwrecks $z Bermuda Islands.  
650 #0 $a Mollusks $z Galapagos Islands.
```

H 807 Islands

2. *Islands in geographic subdivision practice.*

b. Island groups. (Continued)

If an island group is controlled by more than one jurisdiction or comprises in itself more than a single autonomous jurisdiction, assign it directly after topics. *Examples:*

650 #0 \$a Earthquakes \$z West Indies.
650 #0 \$a Legends \$z Melanesia.

c. Islands of the Caribbean. Treat islands of the Caribbean in the same manner as islands in other parts of the world. Assign islands or island groups that are independent countries or equivalents of countries directly. Divide individual islands that are part of a multi-island country or country equivalent indirectly through the appropriate controlling jurisdiction. *Examples:*

650 #0 \$a Sea birds \$z Aruba.
650 #0 \$a Hurricanes \$z Dominica.
650 #0 \$a Nautical charts \$z Bahamas \$z Eleuthera Island.
650 #0 \$a Plants \$z British Virgin Islands \$z Virgin Gorda Island.
650 #0 \$a Lawyers \$z Virgin Islands of the United States \$z Saint John.
650 #0 \$a Marine algae \$z Netherlands Antilles \$z Bonaire.
650 #0 \$a Ethnobotany \$z Guadeloupe \$z Marie-Galante.

Do not divide individual islands through larger geographic groupings, such as **West Indies; Leeward Islands (West Indies); Windward Islands (West Indies)**. *Examples:*

650 #0 \$a Ethnology \$z Grenada.
[not 650 #0 \$a Ethnology \$z West Indies \$z Grenada.]
650 #0 \$a Natural history \$z Saint Martin (West Indies)
[not 650 #0 \$a Natural history \$z West Indies \$z Saint Martin.]

d. Cities assigned directly after topics. Assign the names of the following cities directly after topics: **Jerusalem** (see H 980); **Washington (D.C.)** (see H 1050). *Examples:*

```
650 #0 $a Performing arts $z Washington (D.C.)
650 #0 $a Taxation $z Jerusalem.
```

*Note: Since **Vatican City** (see H 1045) is treated as a country rather than as a city, it is also assigned directly after topics without interposing the name of a larger geographic entity.*

e. Islands. For the treatment of islands in geographic subdivision practice, see H 807.

f. Antarctica. Divide entities on the continent of Antarctica or within the Antarctic regions through **Antarctica**. *Example:*

```
650 #0 $a Geology $z Antarctica $z Weddell Sea Region.
```

6. Deletion of qualifiers. If the heading for the locality being brought out as a geographic subdivision has as its qualifier the same name as the country or division through which it is being subdivided, delete the country or division name from the qualifier of the locality, even if it is abbreviated, in order to avoid redundancy. Retain in parentheses any other data included in the qualifier to differentiate the heading, including names of obsolete jurisdictions. If no further data remain within the parentheses, delete the entire qualifier. *Examples:*

Free-Floating Subdivisions: Classes of Persons H 1100

TYPES OF HEADINGS COVERED: The subdivisions listed below may be used on a free-floating basis, as appropriate, under subject headings for classes of persons, including age and sex groups; social, economic, and political categories of persons; types of afflicted persons; members of particular religions; employees and occupational groups; etc. *Examples:* **Youth; Women; Fathers; Poor; Political prisoners; People with mental disabilities; Liver–Cancer–Patients; Catholics; Hare Krishnas; Fire fighters; Judges; Darts players; High technology industries–Employees.** The category includes headings for classes of persons that are formulated with subdivisions used under names of places or individual corporate bodies, for example, **Great Britain–Officials and employees; Stanford University– Faculty; United States. Navy–Officers.** Not included in this category are headings for social classes such as **Peasantry; Nobility; Middle class; Working class;** nor headings for ethnic groups and nationalities, such as **Hispanic Americans; Maori (New Zealand people); French.** For subdivisions used under ethnic groups and nationalities, see H 1103. However, headings for classes of persons qualified by ethnic or national adjectival qualifiers are included in this category, for example, **African American dentists; French students; Alien labor, Turkish.** Subdivisions from this list may be used under headings for groups of literary authors where there is no conflict with a subdivision designated for use under literary authors. Subdivisions specifically for use under literary authors are given in a separate list. For the additional subdivisions used under groups of literary authors, see H 1155.2. Headings for members of religious and monastic orders are also governed by a separate list. For subdivisions used under names of individual religious and monastic orders, see H 1186.

CONFLICTS: Determine if the use of a free-floating subdivision from this list conflicts with a previously established subject heading. In the event of a conflict between an established subject heading and a subdivision on this list, use the established heading unless a decision has been made to update or change all headings of that type. For example, use the established subject heading **Child abuse** rather than formulate a heading of the type **Children–Abuse of.** However, previously established headings of the type **Teachers, Training of** were changed to the form **Teachers–Training of.**

*Note: Most form subdivisions coded \$v in this list may also be used as topical subdivisions coded \$x when assigned to works **about** the form (see H 1075, sec. 1.d.).*

Free-Floating Subdivisions: Ethnic Groups H 1103

TYPES OF HEADINGS COVERED: The subdivisions listed below may be used on a free-floating basis, as appropriate, under subject headings for ethnic groups, including preliterate groups, historic peoples no longer in existence, races, and ethnic groups in the United States, for example, **Berbers; French-Canadians; Aboriginal Australians; Hmong (Asian people); Dinka (African people); Turkic peoples; Minoans; Blacks; Cuban Americans; Scandinavian Americans.** The category also includes the heading **Jews** and headings for Jews of various nationalities, for example, **Jews, Italian**, except for subdivisions noted in the list below and indicated by UF references in the subject authority file. Also included are headings for nationalities such as **Danish, Asians,** and **Ukrainians**, when they are used to designate those nationalities *outside* their native countries. The category includes headings for the indigenous peoples of the Western Hemisphere: **Indians**; headings for the five major regional groupings of Indians: **Indians of Central America; Indians of Mexico; Indians of North America; Indians of South America;** and **Indians of the West Indies**; as well as groups of tribes and individual tribes established as subject headings. *Examples:* **Aleuts; Eskimos; Navajo Indians; Spokane Indians; Uto-Aztecan Indians; Zapotec Indians.** The separate pattern list for groups of Indians, H 1152, was discontinued in February 1994. This list does not cover the general heading **Indigenous peoples**, nor the jurisdictional name headings established to represent the governments of tribes recognized by the United States government, for example, **Spokane Tribe of the Spokane Reservation, Washington.** For subdivisions used under classes of persons, including age and sex groups, social, economic, and political categories, members of religions, occupational groups, etc., see H 1100. Headings for such classes of persons qualified by ethnic or national adjectival qualifiers, such as **African American dentists, French students,** or **Alien labor, Turkish,** are also covered by H 1100 rather than this list.

NATIONALITIES: Do not subdivide headings for nationalities by subdivisions on this list to designate a topic in conjunction with a nationality in its own country. Instead, express the topic by headings of the type: [*topic*]-[*place*] or [*place*]-[*topic*], for example, **Mental health–United States, not Americans–Mental health; Spain–Antiquities, not Spanish–Antiquities.** Subdivisions on this list may be used under headings for nationalities only to express topics in conjunction with those nationalities *outside* their native countries, for example, **Spanish–Florida–Antiquities; Turks–Employment–Germany.** For instructions on the construction and use of headings for nationalities, see H 1919.5.

Note: Most form subdivisions coded \$v in this list may also be used as topical subdivisions coded \$x when assigned to works about the form (see H 1075, sec. 1.d.).

Free-Floating Subdivisions: Names of Places H 1140

BACKGROUND: *Until 1985, the **Subject Cataloging Manual and Library of Congress Subject Headings** provided two separate lists of subdivisions used under places, one for cities (H 1135) and one for regions, countries, etc. (H 1145). When the "city flip" was discontinued (cf. H 832), it was possible to resolve the few remaining discrepancies between the two lists and to consolidate them into a single list of subdivisions used, as applicable, under regions, countries, cities, etc. This instruction sheet superseded and replaced H 1135 and H 1145.*

TYPES OF HEADINGS COVERED: The subdivisions listed below may be used, within the limitations of the usage notes, as free-floating subdivisions under headings for geographic place names including continents; regions; islands; countries; states, provinces, and equivalent jurisdictions; counties and other local jurisdictions larger than cities; and headings for metropolitan areas, suburban areas, and regions based on names of cities. They may also be used, except as noted, under names of cities established as valid AACR2 name headings, under names of extinct cities established as subject headings (in accordance with the provisions of H 715), and under names of city sections, districts, or quarters (in accordance with the provisions of H 720). Appropriate subdivisions may also be used under headings for geographic features, including parks, reserves, streets and roads, etc., or regions based on geographic features following the guidelines for the assignment of such headings given in H 760. Appropriate subdivisions may also be used under names of bodies of water. For additional subdivisions used only under names of bodies of water, streams, etc., see H 1145.5. This list also covers the jurisdictional name headings established to represent the governments of tribes recognized by the United States government, for example, **Spokane Tribe of the Spokane Reservation, Washington**. This list does not cover names of celestial bodies and other astronomical features. This list also does not cover international organizations and corporate bodies that are not jurisdictions, for example, **Commonwealth of Independent States**, nor the corporate name headings that represent government agencies that control parks, etc., for example, **Yosemite National Park (Agency)**.

CHRONOLOGICAL SUBDIVISIONS: In 1997 restrictions were lifted on use of subdivisions of the type **–16th, [17th, 18th, 19th, 20th] century** under **–Civilization** and **–Intellectual life**, thereby allowing their use under geographic headings at any level. At the same time, subdivisions of the type **–16th [17th, 18th, 19th, 20th] century** were added under the subdivisions **–Economic conditions**; **–History**; **–History, Military**; **–History, Naval**; **–Politics and government**; **–Social conditions**; and **–Social life and customs**. These subdivisions were added to facilitate subject access by time period, primarily by authorizing their free-floating use under places smaller than countries, where chronological subdivisions were previously not established or used. These free-floating century subdivisions should be used with caution under names of countries and other geographic entities where chronological subdivisions for specific time periods have been established. Assign these century subdivisions only where there is no conflict with chronological subdivisions established in the subject authority file.

NOTES

¹Subdivisions on this list that represent specific pathological conditions, for example, –**Abnormalities**, –**Fractures**; –**Infections**; –**Virus diseases**; –**Wounds and injuries**, may be further subdivided by subdivisions listed under the subdivision –**Diseases**, for example, –**Diseases–Diagnosis**; **Diseases–Treatment**.

²Use –**Breeding** for the controlled mating and selection of animals by humans, usually for the purpose of improving the species or breed. Use –**Reproduction** for the physiological process by which animals generate offspring of the same kind.

³See H 1154.5 for further subdivisions used under legal topics.

⁴Subdivisions listed under –**Diseases** may also be used under subdivisions on this list that represent specific pathological conditions, for example, –**Infections–Diagnosis**; –**Fractures–Treatment**.

⁵Not established under **Fishes**. Use under individual animals and groups of animals as appropriate.

⁶Assign additional headings of the type [*individual chemical*]–**Physiological effect** for individual chemicals, drugs, insecticides, pesticides, etc.

⁷Use –**Feeding and feeds** for the nutritional preparations provided for animals by humans as well as for the process of providing nourishment to them. Use –**Food** for the nutritional substances that animals find on their own or provide for themselves as well as for their food habits.

Pattern Headings: Languages H 1154

PATTERNS: English language; French language; Romance languages

TYPES OF HEADINGS COVERED BY THE PATTERN: Headings for individual languages and groups of languages, including named dialects and artificial languages. Also included are headings formed using the free-floating subdivision **–Languages** under ethnic groups and names of countries, cities, etc. *Examples:* **Danish language; Indo-European languages; Navajo language; Abung dialect; Esperanto; Indians of North America–Languages; Gabon– Languages; New York (N.Y.)–Languages.** The category does not include the heading **Language and languages.**

CONFLICTS: Any subdivision listed here can be used as a free-floating subdivision under any heading belonging to the category if it is appropriate and no conflict exists in the subject authority file. Subject authority records may exist for headings employing variant phrases or subdivisions equivalent to subdivisions on this list.

LC practice:

If an exceptional variant form is to be retained, make a UF reference from the equivalent free-floating subdivision form following the procedures in H 195 if the reference does not yet exist. Otherwise, submit a proposal to change the variant form along with all bibliographic records requiring correction following the procedures in H 193.

NEW SUBDIVISIONS: Establish new subdivisions under **English language**, if possible, or if it is not possible, under **French language** for individual languages or **Romance languages** for groups of languages. Subdivisions listed below which are not valid under **English language** are indicated by a footnote.

PERIOD SUBDIVISIONS:

1. General rule. If the period subdivisions listed below and established under **English language** are not appropriate for another language, establish the appropriate subdivision under the specific language, for example, **Russian language–To 1300.**

2. Further subdivisions. Topical and form subdivisions valid for **English language** in general may also be used under any specific period subdivision, for example, **English language–Middle English, 1100-1500–Etymology–Names.**

NOTES

¹Use only under languages other than English.

²Not a free-floating subdivision. Establish headings for [...] **language–Business** [...]; [...] **language–Medical** [...]; [...] **language–Technical** [...]; and [...] **language–Written** [...] as needed.

³Use only under groups of languages.

⁴See H 1154.5 for further subdivisions used under legal topics.

⁵The subdivisions **–Dictionaries**, **–Dictionaries, Juvenile**, and **–Glossaries, vocabularies, etc.** may also be used under any valid topical subdivision, as appropriate (except **–Reverse indexes** and **–Terms and phrases**), for lists of words pertaining to that topic, for example, **English language–Usage–Dictionaries**; **English language–Orthography and spelling–Glossaries, vocabularies, etc.**; **English language–Synonyms and antonyms–Dictionaries, Juvenile**. Only a few examples are printed in this list for reference.

⁶Do not further subdivide by period subdivisions.

⁷Use only under ancient languages instead of **–Rhythm** and **–Versification**, for example, **Greek language–Metrics and rhythmic**.

⁸Under ancient languages use **–Metrics and rhythmic** instead, for example, **Greek language–Metrics and rhythmic**.

⁹Do not use under [*place*]–**Languages**. Use **Sociolinguistics–[*place*]** instead.

Buildings and Other Structures H 1334

3. Geographic qualifier.

c. Structure in a city. (Continued)

Structures in London, England. For a structure located in the original City of London or one of the inner boroughs, use the qualifier (**London, England**), for example, **Buckingham Palace (London, England)**. The inner boroughs of London are Camden, Greenwich, Hackney, Hammersmith and Fulham, Islington, Kensington and Chelsea, Lambeth, Lewisham, Southwark, Tower Hamlets, Wandsworth, and the City of Westminster. For a structure located in one of the outer boroughs, use as a qualifier the borough name as established in the name authority file, for example, **Hampton Court (Richmond upon Thames, London, England)**.

d. Temporary exhibition buildings. For temporary buildings associated with a particular exhibition, exposition, world's fair, etc., qualify by the name of the exhibition as established in the name authority file, substituting commas for any colons or parentheses that are part of the name heading. Do not separately subfield code the qualifier or any elements of it.
Examples:

Name heading for exposition:

111 2# \$a Exposition internationale \$d (1937 : \$c Paris,
France)

Exhibition building:

110 2# \$a Pavillon de l'Espagne (Exposition internationale,
1937, Paris, France)

Name heading for exposition:

111 2# \$a New York World's Fair \$d (1964-1965)

Exhibition building:

110 2# \$a New Jersey Tercentenary Pavilion (New York World's
Fair, 1964-1965)

H 1334 Buildings and Other Structures

3. *Geographic qualifier.* (Continued)

e. Bridges and tunnels. For bridges and tunnels that link either two cities or a city with another jurisdiction or area, use as the geographic qualifier the name of the city with which the structure is predominantly associated, for example, **Golden Gate Bridge (San Francisco, Calif.)**. If the structure is associated equally with both, use both, in alphabetical order, for example, **Westerscheldetunnel (Goes and Terneuzen, Netherlands); Mária Valéria Híd (Esztergom, Hungary, and Štúrovo, Slovakia)**.

f. Conflict. In the case where the heading for a structure constructed according to these rules would be the same as the heading for some other entity, the heading for the structure must be altered in some way to make it unique. There are two possible techniques:

- add the name of a smaller jurisdiction such as the county to the qualifier
- designate the kind of structure involved by adding, following the place in the qualifier, an appropriate generic term in English, for example, **(France : Castle)**. In the absence of a conflict, do not add a designating term merely to explain the nature of the structure.

Generally, use the first technique when the conflicting entities are of the same type, for example, two buildings. Use the second technique when the conflicting entities are of different types, for example, a city and a building, or when the first technique will not resolve the conflict. For conflicting entities within a single city, see sec. 3.c., above.

4. *References.*

a. UF references.

(1) Variant forms of name. Add 4XX fields from variant and alternative forms of the name found while conducting authority research, including any earlier names, appropriate vernacular forms if the name is established in English, or the English form if the name is established in the vernacular.

2. *Subject dictionaries. (Continued)*

a. Dictionaries in one language. Assign the heading **[topic]–[place, if appropriate]–Dictionaries–[name of language]** except when the language is English. For English assign the heading **[topic]–Dictionaries**, without indicating language. *Examples:*

650 #0 \$a Chemistry \$v Dictionaries \$x French.

650 #0 \$a Science \$v Dictionaries.

[not 650 #0 \$a Science \$v Dictionaries \$x English.]

650 #0 \$a Theater \$z France \$v Dictionaries \$x French.

b. Dictionaries in two languages. If a subject dictionary gives the terms of one language in terms of another language, assign two headings: **1. [topic]–[place, if appropriate]–Dictionaries–[first language]** and **2. [first language]–Dictionaries–[second language]**. If the second language is also given in terms of the first language assign two additional headings: **3. [topic]–[place, if appropriate]–Dictionaries–[second language]** and **4. [second language]–Dictionaries–[first language]**. Do not use the subdivision **–English** after **[topic]–Dictionaries**. *Examples:*

2. *Subject dictionaries.* (Continued)

c. Polyglot dictionaries. Several arrangements are possible for works in multiple languages. Assign headings as shown below, following the pattern that most closely corresponds to the situation in the work being cataloged. Do not use the subdivision **–English** after **[topic]–Dictionaries**.

One language into two languages:

```
650 #0 $a [topic] $v Dictionaries $x [first language].
650 #0 $a [first language] $v Dictionaries $x [second
language].
650 #0 $a [first language] $v Dictionaries $x [third

```

One language into several languages:

```
650 #0 $a [topic] $v Dictionaries $x [first language].
650 #0 $a [first language] $v Dictionaries $x Polyglot.
```

Two languages into one language:

```
650 #0 $a [topic] $v Dictionaries $x [first language].
650 #0 $a [topic] $v Dictionaries $x [second language].
650 #0 $a [first language] $v Dictionaries $x [third
language].
650 #0 $a [second language] $v Dictionaries $x [third
language].
```

Several languages into one language:

```
650 #0 $a [topic] $v Dictionaries $x Polyglot.
650 #0 $a Dictionaries, Polyglot.
```

Several languages into each other language:

```
650 #0 $a [topic] $v Dictionaries $x Polyglot.
650 #0 $a Dictionaries, Polyglot.
```

d. Lexicography. For works about dictionaries in a particular subject, establish the subdivision **–Lexicography** under the subject, for example, **Science–Lexicography**.

Literature: Fiction H 1790

LC practice: Sec. 4, below, describes standard practice followed at the Library of Congress. For an alternative approach to individual works of fiction, see the section SPECIAL PROVISIONS FOR INCREASED SUBJECT ACCESS TO FICTION at the end of this instruction sheet.

4. Individual works of fiction. Bring out topic(s) only for the following types of individual works of fiction:

a. Biographical fiction. Assign the heading [*name of biographee*]-**Fiction**.

b. Historical fiction. Assign headings for specific historical events, periods, etc., with the subdivision -**Fiction**, e.g. **World War, 1939-1945-Fiction**; **San Francisco Earthquake, Calif., 1906-Fiction**.

Do not assign a heading of this type when the event or period is merely the backdrop to a story. Assign it only when the event or period is the principal focus of the work.

Interpret the term **historical fiction** broadly to include works about entities such as movements, corporate bodies other than jurisdictions, camps, parks, structures, geographical features other than regions, ethnic groups, disasters, categories of events, etc.

c. Animal stories. Assign the heading **Animals-Fiction** to individual novels or stories about animals in general. For a work about a specific type of animal, assign a heading for the type of animal with the subdivision -**Fiction**, e.g. **Horses-Fiction**.

Assign no form headings to individual works of adult fiction, children's fiction, or young adult fiction.

5. Limitations on assigning headings. Assign topical and form headings, especially to single works of fiction or to collections by one author, only as they come readily to mind after a superficial review of the work being cataloged.

Do not attempt to assign a form heading to a collection of fiction by one author if the form is not stated on the title page or in another prominent location.

Do not attempt to discern topics which have not been made explicit by the author or publisher, or which could be interpreted as representing value judgments.

H 1790 Literature: Fiction

6. *History and criticism.*

a. General rule. For works about particular themes in fiction, assign as many headings as necessary to bring out the form (with subdivision –**History and criticism**) and the topic(s) (normally using headings of the type [*topic*] **in literature**), e.g.

```
650 #0 $a American fiction $y 20th century $x History and
      criticism.
650 #0 $a Politics in literature.
```

If a heading has both form and topical aspects, assign only the single heading with the subdivision –**History and criticism**, e.g. **Detective and mystery stories, American** –**History and criticism**.

b. Fiction about individual persons or families. For criticism of fiction about particular individuals or families, including dynasties and royal houses, assign the name of the person or family with the free-floating subdivision –**In literature**, e.g. **Faust, d. ca. 1540–In literature; Mann family–In literature**.

c. Fiction about imaginary persons. For criticism of fiction about particular imaginary individuals, assign the name of the person. Also assign if appropriate for the work the name of the author with the subdivision –**Characters**–[*name of character*] (cf. H 1610).
Example:

```
600 10 $a Doyle, Arthur Conan, $c Sir, $d 1859-1930
      $x Characters $x Sherlock Holmes.
650 #0 $a Holmes, Sherlock (Fictitious character)
```

d. Fiction about individual corporate bodies, places, and sacred works. For criticism of fiction about particular corporate bodies, places, or sacred works, assign the name of the entity with the free-floating subdivision –**In literature**, e.g. **United States. Federal Bureau of Investigation–In literature; Tahiti–In literature; Bible–In literature**.

Local History and Genealogical Source Materials H 1845

BACKGROUND: Prior to December 1975, many publications of interest to genealogists and local historians were assigned headings of the type **[topic]–[place]** but headings of the type **[place]–[topic]** were not necessarily required. This instruction sheet presents guidelines to assure that at least one heading of the latter type is assigned to these works. These provisions apply to all subject areas regardless of where a publication is classified.

GENERAL PROVISIONS:

1. General rule. Assign an additional heading of the type **[place]–[topic]** to all materials that deal with a particular place and would be of interest to genealogists and local historians if, in accordance with normal cataloging guidelines, the works would receive only headings of the type **[topic]–[place]**.

2. Subdivisions to be used. Assign the additional **[place]–[topic]** heading using a subdivision from the following list, or other appropriate subdivision:

- Antiquities
- Biography
- Church history
- Description and travel
- Economic conditions
- Ethnic relations
- Genealogy
- History [*or one of its various modifications, such as* –History, Military]
- Politics and government
- Race relations
- Religion
- Religious life and customs
- Social conditions
- Social life and customs

If none of the more specific subdivisions is appropriate, use either **–Genealogy** or **–History**. Do not assign the place name without subdivision.

H 1845 Local History and Genealogical Source Materials

GENEALOGICAL MATERIALS:

1. General rule. Assign a heading of the type [*place*]-**Genealogy** to works of value in the study of the origin, descent, and relationship of named families, especially to those works which assemble such information from family papers, deeds, wills, public records, parish registers, cemetery inscriptions, ship lists, etc. The following is a list of typical headings of interest to genealogists which, when assigned to a work, usually require the assignment of the additional heading:

Archives	Marriage records
Burial records	Mining claims
Business records	Names
Church records and registers	Obituaries
Court records	Probate records
Criminal registers	Public land records
Death notices	Public records
Deeds	Registers of births, etc.
Epitaphs	Slave records
Families of royal descent	Taxation-Lists
Heraldry	Titles of honor and nobility
Inscriptions	Trials
Inventories of decedents' estates	Voting registers
Land grants	Wills

2. Types of places to bring out. Assign the additional heading even if the place is a country or larger region such as a continent, for example, **Great Britain-Genealogy**. *Examples:*

Title: Wills and their whereabouts.

650 #0 \$a Wills \$z Great Britain.

add: 651 #0 \$a Great Britain \$x Genealogy.

Title: Tombstone inscriptions and family records of Jefferson Co.

650 #0 \$a Registers of births, etc. \$z Ohio \$z Jefferson County.

650 #0 \$a Cemeteries \$z Ohio \$z Jefferson County.

650 #0 \$a Inscriptions \$z Ohio \$z Jefferson County.

Title: Index to Chester County, Pennsylvania, wills and intestate records, 1713-1850.

650 #0 \$a Probate records \$z Pennsylvania \$z Chester County \$ v Indexes.

add: 651 #0 \$a Chester County (Pa.) \$x Genealogy \$v Indexes.

Music Form/Genre Headings: Medium H 1917.5 of Performance

4. Solo instruments in headings: Two or more of the same solo instrument or of the number of players of the instrument.

b. Music of individual instruments.

(2) Keyboard instruments.

(a) Number of hands.

Examples: (Continued)

150 ## \$a Organ music (4 hands)

650 #0 \$a Canons, fugues, etc. (Organ, 4 hands),
Arranged

650 #0 \$a Septets (Organ (4 hands), horn, trombone,
trumpets (2), tuba)

Do not enclose the number of hands in parentheses if the keyboard instrument is part of the accompaniment in vocal music headings (cf. sec. 10).

Example:

150 ## \$a Piano music (4 hands)

650 #0 \$a Songs (High voice) with piano, 4 hands.

650 #0 \$a Choruses, Secular (Mixed voices) with
piano, 4 hands.

H 1917.5 Music Form/Genre Headings: Medium of Performance

4. Solo instruments in headings: Two or more of the same solo instrument or of the number of players of the instrument.

b. Music of individual instruments.

(2) Keyboard instruments.

(b) Number of instruments.

i. Two keyboard instruments. If a work features two of the same solo keyboard instrument, make an authority record for music of the instrument, modified to show the number. *Examples:*

150 ## \$a Electronic organ music (Electronic organs (2))
650 #0 \$a Chorale preludes (Electronic organs (2))

150 ## \$a Harpsichord music (Harpsichords (2))
650 #0 \$a Concertos (Harpsichords (2) with string orchestra)

150 ## \$a Pianos (2)
650 #0 \$a Quartets (Pianos (2), percussion)
650 #0 \$a Choruses, Secular (Children's voices) with pianos (2)

ii. Three or more keyboard instruments. Three or more keyboard instruments constitute an ensemble. If the instruments are the same, the ensemble bears that instrument's name. *Example:*

150 ## \$a Piano ensembles
650 #0 \$a Piano ensembles, Arranged.
650 #0 \$a Suites (Piano ensemble)

Nationalities H 1919.5

BACKGROUND: Until 1981, headings for nationalities living in specific places outside their native country were formulated as *[nationality] in [place]*; a nationality living in several countries was expressed as *[nationality] in foreign countries*. Headings of the type *[nationality] in [place]* and *[nationality] in foreign countries* have been converted to *[topic]–[place]*. The geographic subdivision *–Foreign countries* has replaced the phrase *[. . .] in foreign countries*. This instruction sheet provides guidelines for establishing and assigning headings for nationalities.

1. General procedures.

a. Establishing headings for nationalities. Establish nationality headings according to the following model:

```
150 ## $a [nationality]
450 ## $a [variant form(s), if any]
550 ## $w g $a Ethnology $z [country of origin]
```

Provide for geographic subdivision of these headings by selecting the value **i** in field 008/06 (the box labeled **Subdivision** on the 008 input screen in the LC ILS).

Example:

```
150 ## $a Canadians
550 ## $w g $a Ethnology $z Canada
```

b. Use of geographic subdivision. These headings are used only to designate the presence of nationalities *outside* their native countries. Therefore, they are never assigned without local subdivision. Whenever a nationality heading is assigned, further subdivide it by the place where the presence of the nationality is being discussed, for example, **German–Brazil**.

With the exception of American ethnic groups, specific nationalities in foreign countries are designated in this manner, rather than by composite names such as **German Brazilians**.

*Note: Do not confuse this type of prohibited composite nationality name with names for true ethnic groups, i.e. groups with a common cultural and linguistic heritage, whose names are by chance in composite form, such as **French-Canadians**.*

H 1919.5 Nationalities

1. *General procedures.* (Continued)

c. Nationalities within their own countries. Do not use nationality headings for works that discuss the people of a country actually residing within that country. Instead, use either the name of the country with an appropriate subdivision, a [*topic*]-[*place*] heading, or a combination of both. *Examples:*

651 #0 \$a United States \$x Social life and customs.
[*not* 650 #0 \$a Americans \$x Social life and customs.]

650 #0 \$a Anthropometry \$z Sweden.
[*not* 650 #0 \$a Swedes \$x Anthropometry.]

d. Ethnic group subdivisions under nationality headings. Within the restrictions of sec. 1.c., above, treat nationality headings as ethnic groups, assigning subdivisions used under ethnic groups when appropriate, for example, **Iranians–France–Economic conditions** (cf. H 1103).

e. Position of geographic subdivision. When using, under a nationality heading, a subdivision that is itself further subdivided by place, assign the geographic subdivision as the final element, for example, **French–Employment–Germany**.

f. Nationalities in more than one foreign country. For works that discuss a specific nationality in several countries, use the subdivision **–Foreign countries** under the appropriate nationality heading. *Examples:*

650 #0 \$a Italians \$z Foreign countries.
650 #0 \$a Americans \$x Employment \$z Foreign countries.

Note: The subdivision **–Foreign countries** is free-floating when used under nationality headings.

Parks, Reserves, National Monuments, Etc. H 1925

3. *Special provisions for assignment of headings. (Continued)*

b. Topical themes. To works about parks that have a special topical theme or focus, assign additional headings as required to bring out this theme. *Example:*

Title: 'Round and about the dunes.

651 #0 \$a Indiana Dunes National Lakeshore (Ind.)
\$v Guidebooks.

651 #0 \$a Indiana Dunes State Park (Ind.)
\$v Guidebooks.

650 #0 \$a Sand dunes \$z Indiana \$z Indiana Dunes
National Lakeshore \$v Guidebooks.

650 #0 \$a Sand dunes \$z Indiana \$z Indiana Dunes State
Park \$v Guidebooks.

c. Parks as administrative agencies. To works that focus on, or include a substantial amount of material on, a park as an administrative agency rather than as a geographic entity, assign as a subject heading the appropriate name heading for the park instead of, or in addition to, the established subject heading. For example, a work about the administration of Mount Ranier National Park would be assigned

610 20 \$a Mount Rainier National Park (Agency).

A work that is both a physical description of the park and that includes a substantial amount of material about its administration would be assigned

651 #0 \$a Mount Ranier National Park (Wash.).

610 20 \$a Mount Rainier National Park (Agency).

H 1925 Parks, Reserves, National Monuments, Etc.

4. Structures, monuments, and geographic features within parks. Treat structures, monuments, or geographic features in parks, including both those that are the principal focus of the park and those that are only incidentally present in the park, as named entities in their own right. Establish separate headings for them in accordance with H 1334 or H 690. The former practice of linking the two headings as RTs has been discontinued. *Examples:*

```
150 ## $a Statue of Liberty (New York, N.Y.)
400 10 $a Bartholdi, Frédéric Auguste, $d 1834-1904.
      $t Liberty enlightening the world
450 ## $a Liberty enlightening the world (Statue)
550 ## $w g $a Statues $z New York (State)

151 ## $a Statue of Liberty National Monument (N.Y. and N.J.)
550 ## $w g $a National monuments $z New Jersey
550 ## $w g $a National monuments $z New York (State)

151 ## $a Great Smoky Mountains (N.C. and Tenn.)
451 ## $a Great Smokies (N.C. and Tenn.)

Assignment of headings. Assign the heading for the *park* to works that discuss the park as a whole including such aspects as the history of its establishment, the facilities available for public use, its organization, administration, financial affairs, etc. Assign the heading for the *feature, structure, or monument* to works that discuss only the entity itself without regard to its presence in the park, including such aspects as its physical description, history of construction, restoration, etc. To works that discuss *both* the park and the specific entity, assign both headings.

Simulation Methods in Special Fields H 2040

1. *–Simulation methods.* Use **–Simulation methods** as a free-floating subdivision under topical headings for works that discuss comprehensively the development or use of several types of models for studying particular systems, processes, or concepts. Do not use for works that discuss a single simulation method, except in the field of education (see H 2110, sec. 10).

2. *Simulation methods using a single model type.* For works that discuss the simulation of a particular system, process, or concept using only one model type, assign only the heading appropriate for the model type. *Examples:*

Abstract or symbolic models:

650 #0 \$a Shipping \$x Mathematical models.
650 #0 \$a Electronics \$x Graphic methods.
650 #0 \$a Seepage \$x Electromechanical analogies.
650 #0 \$a Interest rates \$x Econometric models.
650 #0 \$a Carcinogenesis \$x Computer simulation.

Physical or working models:

650 #0 \$a Engineering models.
650 #0 \$a Hydraulic models.
650 #0 \$a Ship models.
650 #0 \$a Wind tunnel models.
650 #0 \$a Airplanes \$x Models.

Simulators (training devices representing real-life situations):

650 #0 \$a Flight simulators.
650 #0 \$a Link trainers.
650 #0 \$a Railroad simulators.
650 #0 \$a Space simulators.

Gaming models (mock competitive situations where two or more persons encounter each other in the context of a real-life problem):

650 #0 \$a Simulation games.
650 #0 \$a Management games.
650 #0 \$a Educational games.
650 #0 \$a War games.

H 2040 Simulation Methods in Special Fields

3. *General computer simulation or digital computer simulation in a particular field.* Use the free-floating subdivision –**Computer simulation** under the pertinent topic.

4. *Analog computer simulation in a particular field.* Bring out such a topic by using two headings:

```
650 #0 $a [topic] $x Electromechanical analogies.  
650 #0 $a [topic] $x Data processing.
```

Societies H 2060

BACKGROUND: Past practice in subject cataloging provided several methods to show that a work discussed societies related to a particular subject or to show that a serial was published by a society. Phrase headings for societies in a particular discipline have been replaced by headings using the subdivision **–Societies, etc.** The subdivision **–Societies, periodicals, etc.**, previously used under names of persons was replaced by the subdivisions **–Societies, etc.** and **–Periodicals**. Also discontinued is the practice of using the subdivision **–Societies, etc.** to show that a serial publication is issued by a society and contains information about the society.

For classification of society publications, see F 225.

I. –Societies, etc. Use the subdivision **–Societies, etc.** as a free-floating topical subdivision under subjects for works discussing two or more societies or institutions related to those subjects. *Examples:*

```
650 #0 $a African Americans $z Massachusetts $x Societies, etc.
650 #0 $a Chemistry $x Societies, etc.
650 #0 $a Religious literature $x Publishing $x Societies, etc.
651 #0 $a United States $x History $y Civil War, 1861-1865
      $x Societies, etc.
600 10 $a Bolívar, Simón, $d 1783-1830 $x Societies, etc.
610 20 $a Catholic Church $z Italy $x Societies, etc.
```

Do not use the subdivision under headings for classes of persons, if the corresponding heading for the discipline can be assigned. *Example:*

```
650 #0 $a Engineering $x Societies, etc.
[not 650 #0 $a Engineers $x Societies, etc.]
```

H 2060 Societies

2. *–Societies and clubs.* Use the subdivision **–Societies and clubs** as a free-floating topical subdivision under headings for age and sex groups for works on organizations devoted to these groups or whose membership is drawn from these groups. Such works may discuss methods of establishing and conducting these organizations or may discuss specific organizations collectively. Use the subdivision also under qualified headings for age and sex groups. *Examples:*

```
650 #0 $a Boys $x Societies and clubs.  
650 #0 $a Women $x Societies and clubs.  
650 #0 $a Rural women $x Societies and clubs.  
650 #0 $a Jewish women $x Societies and clubs.  
650 #0 $a Older people $x Societies and clubs.  
650 #0 $a Minority older people $x Societies and clubs.
```

3. *Further subdivision by form subdivision.* The subdivisions **–Societies, etc.** and **–Societies and clubs** may be further subdivided by any appropriate form subdivision such as **–Bibliography** or **–Directories**.

4. *Societies or clubs in a particular place.* For general works on the societies and institutions in a particular place assign the heading **Associations, institutions, etc.–[place]**. For works discussing collectively the learned institutions or societies of a particular place assign **Learned institutions and societies–[place]**. For works discussing collectively the clubs of a particular place assign **Clubs–[place]**.

5. *Society publications.* Individual serial publications issued by a society may contain information on business matters of the society and/or information on the topic in which the society specializes. Assign headings to these works according to the type of information contained.

a. Business information only. Assign a heading for the name of the society, with the subdivision **–Periodicals** if appropriate.

b. Topical information only. Assign the heading or headings for the topic, with the subdivision **–Periodicals** if appropriate.

c. Both business and topical information. Assign headings for both the society and the topic, with the subdivision **–Periodicals** if appropriate.

Appendix A: Abbreviations

BACKGROUND: *In order to facilitate filing and searching in online systems, most of the standard abbreviations formerly used in subject headings were discontinued in 1969, with a few exceptions. Other abbreviations were changed as a result of the adoption of AACR2 in 1981. This instruction sheet describes the present status of abbreviations in subject heading practice. For guidelines on punctuation and spacing of abbreviations, see Appendix D.*

1. Policy for headings established in the subject authority file. Generally, do not include abbreviations when establishing new subject headings, except when specifically authorized in this instruction sheet.

2. Policy for headings established in the name authority file and used as subject headings. When assigning personal, corporate body, or jurisdictional name headings as subject headings, assign them exactly as they appear in name authority records, including all abbreviations.

LC practice:

3. Correction of existing records and headings in the subject authority file. When an error involving an abbreviation on a bibliographic record is encountered, update the record following standard correction procedures. When an obsolete heading involving an abbreviation is encountered in the subject authority file, change it according to the provisions of H 193.

4. Form and topical subdivisions with abbreviations. Many standard subdivisions were formerly abbreviated on LC cards, and may still be encountered when working with pre-1970 records. Spell out in full all topical and form subdivisions when assigning headings to new works being cataloged. Use no abbreviations in form or topical subdivisions except **etc.** (cf. sec. 9, below). *Examples:*

\$x Description and travel	[<i>not</i> \$x Desc. & trav.]
\$x History and criticism	[<i>not</i> \$x Hist. & crit.]
\$x Periodicals	[<i>not</i> \$x Period.]
\$x Politics and government	[<i>not</i> \$x Pol. & govt.]
\$x Social life and customs	[<i>not</i> \$x Soc. life & cust.]

Appendix A: Abbreviations

5. Acronyms, initialisms, etc. Establish concepts that are known primarily in an abbreviated form as such. Use the form of the abbreviation, acronym, etc., preferred in reference sources. Add a 4XX field with the spelled out form. *Examples:*

```
150 ## $a C.O.D. shipments
450 ## $a Cash on delivery shipments
450 ## $a Collect on delivery shipments

150 ## $a DBS/R (Computer system)
450 ## $a Datenbankbetriebssystem Robotron (Computer
      system)

150 ## $a DC-to-DC converters
450 ## $a Direct current-to-direct current converters

150 ## $a DDT (Insecticide)
450 ## $a Dichlorodiphenyltrichloroethane

150 ## $a MARC formats
450 ## $a Machine-Readable Cataloging formats

150 ## $a T-shirts
450 ## $a Tee shirts
```

6. Ampersands. Use ampersands in the following situations:

- **Name headings assigned as subjects.** When assigning a name heading established with an ampersand as a subject heading, retain the ampersand. *Examples:*

```
610 20 $a Black & Decker Manufacturing Company (Towson, Md.)
610 20 $a C.S. Wertsner & Son.
610 20 $a Dow Jones & Co.
```

- **Subject headings for named entities.** When establishing a subject heading for a proper-named entity tagged 110 or 151, establish it using an ampersand if the name is found only in that form in all sources consulted. Add a 4XX field with the ampersand spelled out as **and**. If the name is found in both a form that uses the ampersand and a form where **and** is spelled out, establish the heading using the spelled out form. Add a 4XX field using the ampersand form. *Examples:*

```
151 ## $a E & E Ranch (Tex.) [no other form found]
451 ## $a E and E Ranch (Tex.)
```

Appendix A: Abbreviations

15. Numerals. (Continued)

b. Ordinal numerals. Spell out an ordinal numeral if it is the initial element of a heading.

Examples:

650 #0 \$a First communion.
650 #0 \$a Fourth of July.
650 #0 \$a Fifteenth century.
650 #0 \$a Twenty-first century.
650 #0 \$a Twelfth Avenue (Seattle, Wash.)

Exceptions:

- When reference sources indicate that a numeral in a specific phrase is not normally spelled out, establish and assign the heading in that form. *Example:*

650 #0 \$a 20th Century Limited (Express train)

- For streets that have numerical names above one hundred, ordinal numerals may be abbreviated. *Example:*

651 #0 \$a 114th Street (Edmonton, Alta.)

Record ordinal numerals not in the initial position in a heading in the form **1st, 2nd, 3rd, 4th,** etc. *Examples:*

650 #0 \$a Dacian War, 1st, 101-102.
650 #0 \$a Dacian War, 2nd, 105-106.
650 #0 \$a Church history \$y 3rd century.
651 #0 \$a United States \$x Social life and customs
\$y 20th century.

16. Saint (including foreign equivalents). Spell out in full in subject headings. *Examples:*

650 #0 \$a Saint Bernard dog.
651 #0 \$a Saint Lawrence River.
651 #0 \$a Saint Ninian's Island (Scotland)
600 30 \$a Saint John family.

Appendix B: Capitalization

16. *Named events.* (Continued)

Exception: The generic terms in the following subdivisions have, by convention, been lowercased. Continue to follow this convention when establishing new headings for any of these events. Do not, however, propose any new subdivisions to be added to this list.

- [. . .] colony, [date]
- [. . .] conquest, [date]
- [. . .] dynasties, [date]
- [. . .] dynasty, [date]
- [. . .] intervention, [date]
- [. . .] movement, [date]
- [. . .] occupation, [date]
- [. . .] period, [date]
- [. . .] periods, [date]
- [. . .] rule, [date]

Examples:

```
150 ## $a Painting, Chinese $y Three kingdoms-Sui dynasty,  
220-618  
151 ## $a Lebanon $x History $y Israeli intervention,  
1982-1984  
151 ## $a India $x History $y British occupation, 1765-1947  
151 ## $a United States $x History $y Colonial period, ca.  
1600-1775
```

17. *Cultural and archaeological periods.* Do not capitalize headings for cultural and archaeological periods, except for the initial word. *Examples:*

```
150 ## $a Bronze age  
150 ## $a Iron age  
150 ## $a Mesolithic period  
150 ## $a Paleolithic period, Lower  
150 ## $a Stone age
```

Appendix B: Capitalization

18. Named movements. Capitalize only the initial word of a named movement. *Examples:*

```
150 ## $a Anti-Nazi movement
151 ## $a China $x History $y Reform movement, 1898
150 ## $a Ecumenical movement
150 ## $a Gay liberation movement
150 ## $a Pro-life movement
150 ## $a Stakhanov movement
150 ## $a Symbolism (Literary movement)
```

19. Named schools. Capitalize only the initial word when establishing headings or subdivisions for named schools (i.e. groups of painters, economists, architects, etc., that are under a common local or personal influence producing a general similarity in their work). *Examples:*

```
150 ## $a Chicago school of theology
150 ## $a Classical school of economics
150 ## $a Marxian school of sociology
150 ## $a Flower arrangement, Japanese $x Ko school
```

LC practice:

*Some headings of this type have been established with the word **school** uppercased. Change these headings as they are encountered in the subject authority file to the form specified above.*

20. Scientific names of plants and animals. Capitalize only the initial word of the scientific name of a plant or animal species or subspecies, even if subsequent words include proper nouns or adjectives. *Examples:*

```
150 ## $a Anguilla japonica
150 ## $a Litchi chinensis
450 ## $a Nephelium litchi
150 ## $a Pinus sibirica
450 ## $a Pinus cembra sibirica
```

Retain capitalization of initial or single words when a scientific name is included in another heading. *Examples:*

```
150 ## $a Captive Cyanoramphus unicolor
150 ## $a Captive Felidae
```

Appendix B: Capitalization

21. Geographic headings. Capitalize both generic and proper nouns and adjectives in names of places, regions, sites, metropolitan areas, and named geographic and geological features, including coasts, islands, rivers, valleys, watersheds, etc., in English headings or references. For non-English headings and references apply the appropriate capitalization rules according to Appendix A of AACR2 and reference sources. *Examples:*

```
151 ## $a Alaska, Gulf of (Alaska)
151 ## $a Assateague Island National Seashore (Md. and Va.)
151 ## $a Atlantic Coast (Canada)
151 ## $a Beluga Lake (Alaska)
151 ## $a Boundary Waters Canoe Area (Minn.)
151 ## $a Dakota Aquifer
151 ## $a Death Valley (Calif. and Nev.)
151 ## $a Ionian Islands (Greece)
151 ## $a Kostromskaiâ taezhnaiâ biologicheskaiâ stantsiia Region
(Russia)
151 ## $a McKinley, Mount, Region (Alaska)
151 ## $a Beijing Metropolitan Area (China)
151 ## $a Pennsylvania Dutch Country (Pa.)
151 ## $a Po River Valley (Italy)
151 ## $a Stone Creek Site (Alta.)
151 ## $a Tokyo Region (Japan)
151 ## $a Valley Forge National Historical Park (Pa.)
151 ## $a Washington Region

151 ## $a Parco naturale della Maremma (Italy)
451 ## $a Maremma, Parco naturale della (Italy)
451 ## $a Parco della Maremma (Italy)

151 ## $a Tatar Strait (Russia)
451 ## $a Tatarskiĭ proliv (Russia)
```

*Note: Lowercase the word **regions** in the heading **Arctic regions**. Example:*

```
151 ## $a Arctic regions $x Aerial exploration
```

Appendix B: Capitalization

22. Capitalization rules for languages other than English. Use the current, appropriate rules for capitalization for the language concerned when establishing headings and making references. For guidance consult such sources as Appendix A of AACR2 and reference sources. In cases of conflict, generally prefer the capitalization rule in Appendix A of AACR2. *Examples:*

151 ## \$a Tatar Strait (Russia)
451 ## \$a Tatarskiĭ proliv (Russia)

*Strait is capitalized in the English heading **Tatar Strait (Russia)** in accordance with sec. 21, above. The Russian word for strait, **proliv**, as part of the vernacular UF reference, is lowercased because it appears as such in Russian encyclopedias and because lowercasing is consistent with the capitalization rules for Russian geographic names in Appendix A of AACR2.*

151 ## \$a Balkan Mountains (Bulgaria)
451 ## \$a Stara planina (Bulgaria)

110 2# \$a Hôtel de ville (Marseille, France)
410 2# \$a City Hall (Marseille, France)

110 2# \$a Neues Rathaus (Leipzig, Germany)
410 2# \$a New City Hall (Leipzig, Germany)

151 ## \$a Parc provincial des Laurentides (Québec)
451 ## \$a Laurentides Provincial Park (Québec)
451 ## \$a Parc national des Laurentides (Québec)

Appendix C: Diacritics and Special Characters

BACKGROUND: **Diacritics** are marks placed over, under, or through letters or combinations of letters that indicate differences in pronunciation and meaning between the marked letter and its unmarked counterpart. Common diacritics are the umlaut (for example, ü), the acute (for example, ó), the grave (for example, à), and the macron (for example, ō). **Double diacritics** are two diacritics modifying a single letter, for example, Nguyễn. **Special characters** occupy a place of their own rather than modifying a letter. Common special characters include the Polish l (ł), miągiń znak ('), the ayn (‘), and the alif (’). **Superscript characters** are letters, numbers, or symbols written or printed higher on a line of text; **subscript characters** are letters, numbers, or symbols written or printed lower on a line of text.

PLACEMENT OF DIACRITICS IN LCSH: In *LCSH* diacritics and special characters are generally printed in accordance with either the LC romanization conventions for a particular language or with a conventional form found in reference sources.

1. Policy for headings established in the name authority file and used as subject headings. Transcribe from name authority records valid AACR2 personal, corporate, and jurisdictional names and uniform titles, with all indicated diacritics and special characters placed in accordance with LC's transcription or romanization conventions for a particular language.

Accent marks over uppercased letters in French, Portuguese, and Spanish. In February 2006 the previous prohibition on use of accent marks over uppercased letters in French, Portuguese, and Spanish was rescinded. Name headings established or revised after that date reflect the changed policy.

2. Policy for headings established in the subject authority file. Transcribe existing headings and subdivisions in AACR2 form exactly as they have been established in the subject authority file, using diacritics and special characters as indicated.

3. Establishing subject headings with or without diacritics. When, as a result of doing authority research, a choice must be made between a term without diacritics and the otherwise identical term with diacritics, generally prefer the term without diacritics if it is *clearly* the conventional English form. If there is no conventional English form, prefer the form of the term as found in the *Encyclopaedia Britannica* or in reference sources of the particular discipline or language, using diacritics to conform to LC's transcription or romanization conventions.

Appendix C: Diacritics and Special Characters

4. Diacritic use and LC practice. If it is determined that a heading or reference is to have diacritics, use diacritics that conform to LC transcription or romanization conventions, even if reference sources, including BGN, indicate different diacritics. Use judgment in determining whether to make UF references from forms with variant diacritics that are spelled differently from the proposed heading. (For forms that have variant diacritics but are spelled the same as the proposed heading, see sec. 5, below.) *Examples:*

BGN approved form: Jabal Şā'id, mountain

Heading as established:

151 ## \$a Şā'id Mountain (Saudi Arabia)
[BGN left hook under Ş changed to dot under S to conform to LC romanization practice; reference not made from Şa'id since spelling is identical.]

BGN approved form: Nísos Andíparos

Heading as established:

151 ## \$a Antiparos Island (Greece)
451 ## \$a Andiparos Island (Greece)
451 ## \$a Nísos Andíparos (Greece)
[Accent marks supplied by BGN in second 451 field]

Encyclopaedia Britannica: Kṣatriya

Heading as established:

150 ## \$a Kshatriyas
450 ## \$a Kṣatriyas
[Since spelling is not identical, UF reference made from the form based on Sanskrit with dot under ṣ to conventional English plural form.]

Appendix C: Diacritics and Special Characters

4. Diacritic use and LC practice. (Continued)

Accent marks over uppercased letters in French, Portuguese, and Spanish. Add diacritics according to the usage of the language. *Example:*

151 ## \$a Basques, île aux (Québec)

5. Diacritics in subject headings and references. Because some online systems cannot distinguish between a term without diacritics and the otherwise identically spelled term with diacritics, do not add 4XX fields for variants of this type, even if the terms do not represent the same word in a particular language. The following are examples of 4XX fields that should not be made:

100 3# \$a Cheng family
400 3# \$a Ch'eng family

100 3# \$a Ota family
400 3# \$a Ōta family

Note: For instructions on headings for family names of different meanings or different ethnic backgrounds that are distinguished only by the use of diacritical marks, see H 1631, sec. 3.c.

150 ## \$a Nirvana
450 ## \$a Nirvāṇa

151 ## \$a Drava River
451 ## \$a Dráva River

6. Superscript/Subscript characters. Since superscript or subscript characters are positioned on the same line as the rest of the heading both in the online authority and bibliographic records, as well as in the printed edition of *LCSH*, treat them as normal characters rather than as superscript or subscript characters. *Examples:*

Term: C*-algebras
Transcribe as: 150 ## \$a C*-algebras

Term: L₁ algebras
Transcribe as: 150 ## \$a L1 algebras

Term: L_p spaces
Transcribe as: 150 ## \$a Lp spaces

Appendix C: Diacritics and Special Characters

7. Greek or Hebrew letters. Romanize Greek or Hebrew letters when establishing subject headings. Do not use Greek or Hebrew letters in headings or references, even though they appear as such in reference sources. *Examples:*

150 ## \$a Chi Rho symbol
[not 150 ## \$a $\chi\rho$ symbol]

150 ## \$a Chi-square test
[not 150 ## \$a χ -square test]

150 ## \$a Lambda calculus
[not 150 ## \$a λ calculus]

150 ## \$a Pi
[not 150 ## \$a π]

8. Ampersands. Do not use ampersands in form or topical subdivisions, or to connect two words in the qualifier of a geographic heading. In subject headings, spell out ampersands using the word **and**.

Exception: When assigning as a subject heading a name heading established with an ampersand, use the ampersand. *Examples:*

610 20 \$a C.S. Wertsner & Son.
610 20 \$a Dow Jones & Co.

9. Common diacritics and special characters:

a. Acute (')

Avalokiteśvara (Buddhist deity)
Cévennes Mountains (France)
Daśnāmīs
Mossoró (Race horse)

Do not confuse this diacritic with the **mīagkiĩ znak** (') and the **apostrophe** ('), which are special characters.
