

MODULAR GRANTS

Select research grant applications requesting up to
\$250,000 direct costs per year in modules of \$25,000

DEFINITIONS AND ADDITIONAL INFORMATION

TERM	DEFINITION	ADDITIONAL INFORMATION
Direct Costs	Costs that can be specifically identified with a particular project or activity	
Modular Research Grant Applications	Select research grant applications requesting up to \$250,000 direct costs per year in modules of \$25,000 without the need for detailed supporting information related to separate budget categories. When modular procedures apply, they affect not only application preparation but also review, award, and administration of the application/award. Modular grant applications began with the January round of FY 2000.	NIH Modular Research Grant Applications
NIH Institutes and Centers	The NIH organizational component responsible for a particular grant program or set of activities	NIH Institutes and Centers Acronym List NIH Institutes, Centers & Offices
Research Grants	Extramural awards made for Other Research Grants, Research Centers , Research Projects, and SBIR/STTRs. Includes the following: R, P, M, S, K, U series (excluding UC6) DP1, DP2, D42,G12.	

To access data tables for each slide while in presentation view right-click on the slide and select "edit slides" Then double-click on the graph image and the datasheet should appear in a separate window or select the data tab from the spreadsheet. If the datasheet does not appear, right-click in the chart area and select "datasheet"
