

and reasons upon which the person relies to show that the compliance agreement was wrongfully canceled. As promptly as circumstances allow, the Administrator will grant or deny the appeal, in writing, stating the reasons for the decision. A hearing will be held to resolve any conflict as to any material fact. Rules of practice concerning a hearing shall be adopted by the Administrator.

[58 FR 8521, Feb. 16, 1993, as amended at 59 FR 67609, Dec. 30, 1994]

**§ 301.93-7 Assembly and inspection of regulated articles.**

(a) Any person (other than a person authorized to issue certificates or limited permits under §301.93-5(c)), who desires to move a regulated article interstate accompanied by a certificate or limited permit must notify an inspector<sup>6</sup> as far in advance of the desired interstate movement as possible (but no less than 48 hours before the desired interstate movement).

(b) The regulated article must be assembled at the place and in the manner the inspector designates as necessary to comply with this subpart.

**§ 301.93-8 Attachment and disposition of certificates and limited permits.**

(a) A certificate or limited permit required for the interstate movement of a regulated article, at all times during the interstate movement, must be attached to the outside of the container containing the regulated article, attached to the regulated article itself if not in a container, or attached to the consignee's copy of the accompanying waybill: *Provided however*, That the requirements of this section may be met by attaching the certificate or limited permit to the consignee's copy of the waybill only if the regulated article is sufficiently described on the certificate, limited permit, or waybill to identify the regulated article.

(b) The certificate or limited permit for the interstate movement of a regulated article must be furnished by the

carrier to the consignee at the destination of the regulated article.

(Approved by the Office of Management and Budget under control number 0579-0088)

**§ 301.93-9 Costs and charges.**

The services of the inspector during normal business hours (8 a.m. to 4:30 p.m., Monday through Friday, except holidays) will be furnished without cost. The user will be responsible for all costs and charges arising from inspection and other services provided outside of normal business hours.

**§ 301.93-10 Treatments.**

Treatment schedules listed in part 305 of this chapter to destroy the Oriental fruit fly are approved for use on regulated articles. The following treatments can be used for bell pepper, citrus and grape, tomato, premises, and soil:

(a) *Fruits and vegetables*<sup>7</sup>—(1) *Bell Pepper*—(i) *Vapor Heat*. Heat by saturated water vapor at 44.4 °C. (112 °F.) until approximate center of bell pepper reaches 44.4 °C (112 °F.). Maintain at 44.4 °C. (112 °F.) for 3¾ hours, then immediately cool.

(2) *Citrus and grapes*—(i) *Fumigation plus refrigeration*. Fumigate at normal atmospheric pressure (chamber or tarpaulin, load not to exceed 80%) with 32 g/m<sup>3</sup> methyl bromide at 21 °C. (70 °F.) or above, minimum gas concentrations 25 g/m<sup>3</sup> at ½ hour, 18 g/m<sup>3</sup> at 2 or 2½ hours, 17 g/m<sup>3</sup> at 3 hours. Fumigate for a minimum of 2 hours. Then, aerate fruit at least 2 hours before refrigeration (but begin refrigeration no more than 24 hours after fumigation is completed). Refrigerate based upon fumigation exposure time listed in the table below:

Fumigation exposure time	Refrigeration	
	Days	Temperature
2 hours .....	4	0.55–2.7 °C. (33–37 °F.)
	11	3.33–8.3 °C. (38–47 °F.)
2½ hours .....	4	1.11–4.44 °C. (34–40 °F.)
	6	5.0–8.33 °C. (41–47 °F.)
	10	8.88–13.33 °C. (48–56 °F.)

<sup>7</sup>Some varieties of fruit may be injured by approved treatments. The USDA is not liable for damages caused by this quarantine. Commodities should be tested by the shipper to determine each commodity's tolerance before commercial shipments are attempted.

<sup>6</sup>See footnote 3 at §301.93-5(a).
