

§ 800.216

(4) *Testing of prototype equipment activities.* Prototype or proposed equipment is tested to determine whether the equipment will improve the performance of activities under the Act. Prototype equipment-testing activities subject to supervision include but are not limited to (i) implementing instructions for the testing of prototype equipment, (ii) testing prototype equipment by official personnel, and (iii) approving or denying the use of prototype equipment for use under the Act.

§ 800.216 Activities that shall be monitored.

(a) *General.* Each of the administrative and technical activities identified in § 800.215 and the elevator and merchandising activities identified in this section shall be monitored in accordance with the instructions.

(b) *Grain merchandising activities.* Grain merchandising activities subject to monitoring for compliance with the Act include but are not limited to (1) failing to promptly forward an export certificate; (2) describing grain by other than official grades; (3) falsely describing export grain; (4) falsely making or using official certificates, forms, or marks; (5) making false quality or quantity representations about grain; and (6) selling export grain without a certificate of registration.

(c) *Grain handling activities.* Grain handling activities subject to monitoring for compliance with the Act include but are not limited to (1) shipping export grain without inspection or weighing; (2) transferring grain from intercompany barges into an export elevator at an export port location without Class X weighing; (3) violating any Federal law with respect to the handling, weighing, or inspection of grain; (4) deceptively loading, handling, weighing, or sampling grain; and (5) exporting grain without a certificate of registration.

(d) *Recordkeeping activities.* Elevator and merchandising recordkeeping activities subject to monitoring for compliance with the Act include those that are identified in section 12(d) of the Act and § 800.25 of the regulations.

(e) *Other activities.* Other activities subject to monitoring for compliance

§ 800.217 Equipment that shall be tested.

(a) *General.* Testing of equipment and prototype equipment described in this section shall be performed in accordance with the instructions.

(b) *Inspection equipment.* Each unit of equipment used in the official sampling, testing, or grading of grain, or in monitoring the official inspection of grain, shall be examined to determine whether the equipment is functioning in an approved manner. In addition, each unit of equipment for which official performance requirements have been established shall be tested for accuracy. For the purpose of this paragraph, diverter-type mechanical samplers used in obtaining warehouseman's samples shall be considered to be official inspection equipment used under the Act.

(c) *Weighing equipment.* Each unit of equipment used in the Class X or Class Y weighing of grain or in monitoring the Class X or Class Y weighing of grain, each related grain handling system, and each related computer system shall be examined to determine whether it is functioning in an approved manner. In addition, each unit of equipment for which official performance requirements have been established shall be tested for accuracy.

(d) *Prototype equipment*—(1) *At request of interested party.* Upon request of a financially interested party and with the concurrence of the Administrator, prototype grain inspection or weighing equipment may be tested by the Service for official use.
