

**FIGURE C-1. Bachelor's degrees awarded in S&E and non-S&E fields, by sex: 1966–2005**

NOTE: National data not available for 1999.

SOURCE: National Science Foundation, Division of Science Resources Statistics, special tabulations of U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System, Completions Survey, 1966–2005.

Beginning in 2000, men and women earned roughly similar numbers of S&E bachelor's degrees.

- Women earned half of S&E bachelor's in 2005, up from 25% in 1966.
- The number of bachelor's degrees in S&E awarded to men fluctuated around 200,000 from 1976 to about 2002 and increased since then, reaching 230,806 in 2005.
- Women earn substantially more bachelor's degrees in non-S&E fields than men.

**FIGURE C-2. Bachelor's and associate's degrees awarded in computer sciences, by sex: 1985–2005**

NOTE: National data not available for 1999.

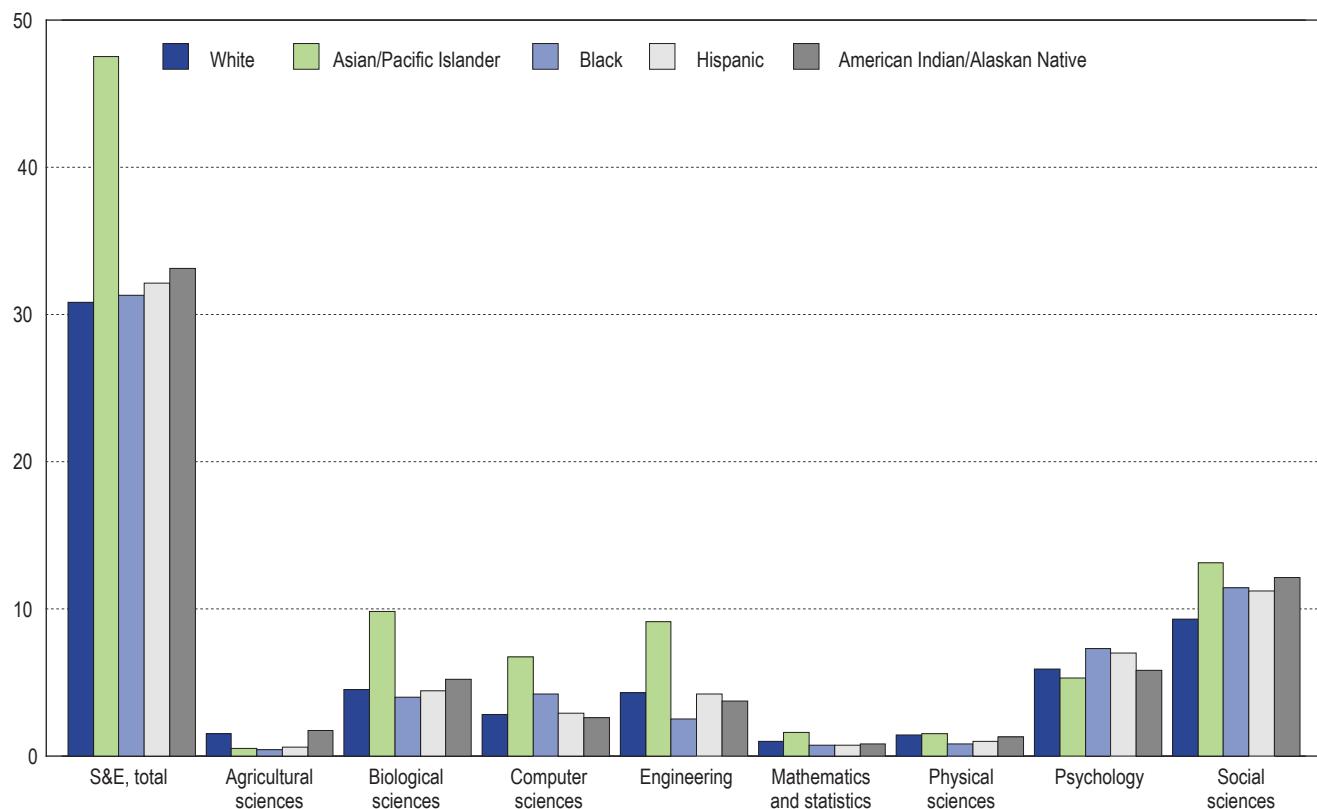

SOURCE: National Science Foundation, Division of Science Resources Statistics, special tabulations of U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System, Completions Survey, 1985–2005.

Women are a decreasing share of computer science degree earners.

- The percentage of bachelor's computer science degrees earned by women dropped from 37% in 1985 to 22% in 2005.
- The percentage of associate's degrees in computer science earned by women dropped from 49% in 1985 to 30% in 2005.
- In 2005, the numbers of computer science degrees earned by both men and women dropped sharply.

**FIGURE C-3. Science and engineering bachelor's degrees as share of all bachelor's degrees awarded, by race/ethnicity: 2005**

Percent

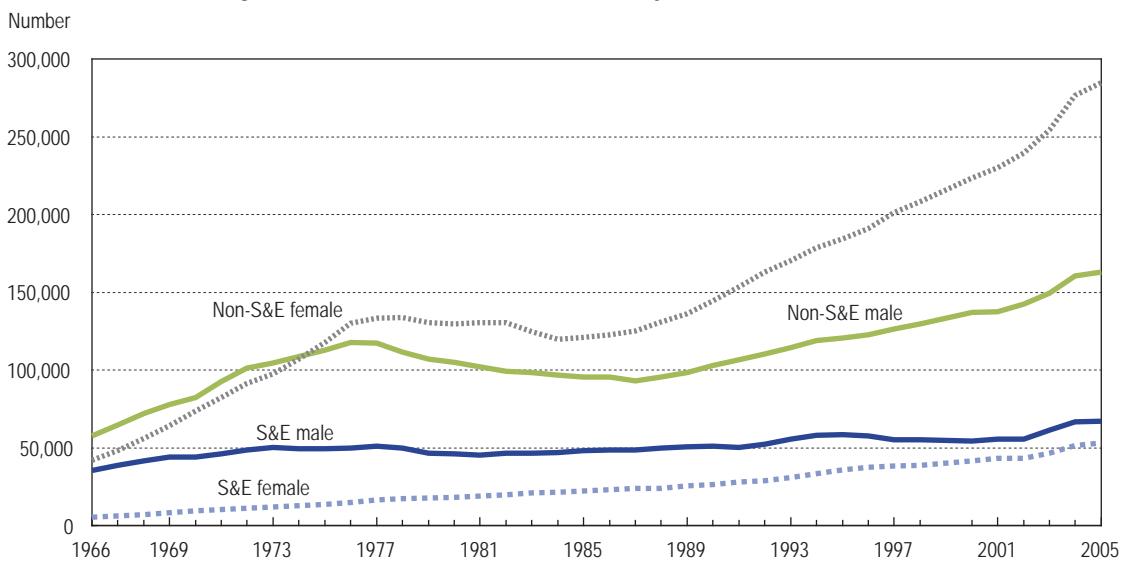

NOTE: Percents refer to percentage of each racial/ethnic group earning degrees in a given field. Physical sciences include earth, atmospheric, and ocean sciences.

SOURCE: National Science Foundation, Division of Science Resources Statistics, special tabulations of U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System, Completions Survey, 2005.

With the exception of Asians/Pacific Islanders, for whom almost half (48%) of all bachelor's degrees earned are in S&E, about one-third of all bachelor's degrees earned by each racial/ethnic group are in S&E.

- White, black, Hispanic, and American Indian/Alaskan Native S&E bachelor's degree recipients are similarly distributed across most broad S&E fields.
- Asians/Pacific Islanders earn a higher percent of their bachelor's degrees in computer sciences, biological sciences, and engineering than do other racial/ethnic groups.

FIGURE E-1. Master's degrees awarded in S&amp;E and non-S&amp;E fields, by sex: 1966–2005

NOTE: National data not available for 1999.

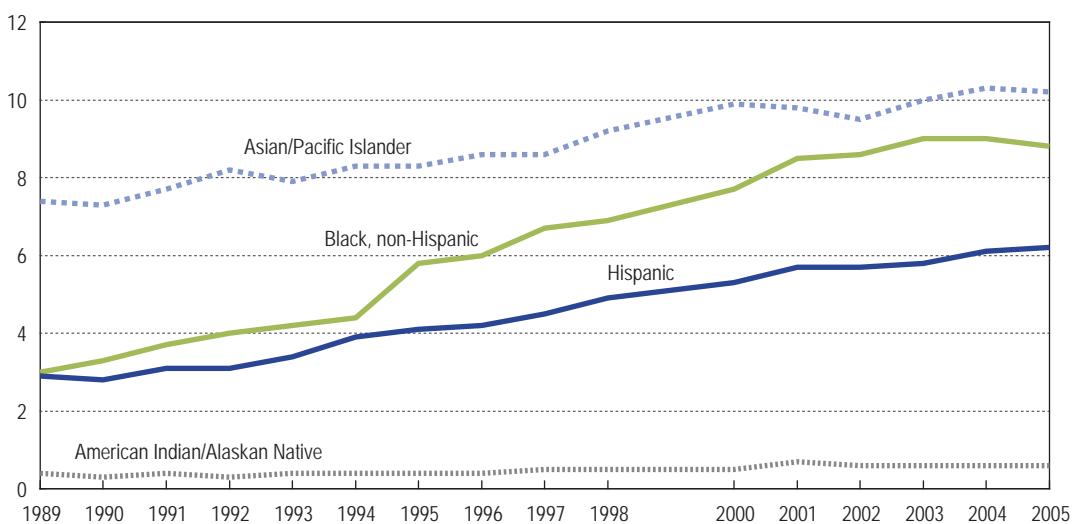

SOURCE: National Science Foundation, Division of Science Resources Statistics, special tabulations of U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System, Completions Survey, 1966–2005.

The number of master's degrees earned by women rose more rapidly than for men.

- The number of S&E master's degrees awarded annually to women rose almost 10-fold from 5,469 in 1966 to 53,051 in 2005.
- In 2005, women earned 44% of S&E master's degrees and 64% of non-S&E master's degrees.
- The number of S&E master's degrees awarded to men rose from 35,580 in 1966 to 66,974 in 2005.

**FIGURE E-2. Minority share of S&E master's degrees awarded to U.S. citizens and permanent residents, by race/ethnicity: 1989–2005**

Percent

NOTE: National data not available for 1999.

SOURCE: National Science Foundation, Division of Science Resources Statistics, special tabulations of U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System, Completions Survey, 1989–2005.

The number of S&E master's degrees earned by Asians/Pacific Islanders, blacks, Hispanics, and American Indians/Alaskan Natives increased since 1989.

- The percentage of S&E master's degrees awarded increased for all minority groups since 1989.
- The proportion of S&E master's degrees awarded to blacks and Hispanics more than doubled, from 3% to 9% and from 3% to 6%, respectively, from 1989 to 2005.

NOTES: Physical sciences include earth, atmospheric, and ocean sciences; physics; astronomy; and chemistry. Data on race/ethnicity were collected on broad fields of study only until 1994; therefore, 1994 data could not be adjusted to the exact field taxonomies used by the National Science Foundation (NSF). The primary difference between 1994 and later years is that history was included in social sciences in 1994 but is included in non-S&E from 1995 on. Data are not available for 1999.
