## What should I enter in the label field?

You must supply a Label for each file you are uploading. This field cannot be left blank, with one exception: you may leave the Label field blank for the first Manuscript Text.

For figures, tables, and supplementary data, the label should follow the naming convention used in the manuscript text (e.g. "Fig 1", "Table 2a"). This is so your figure & table legends and references in the manuscript will be correctly connected to the appropriate figure or table file.

In the rare cases when your manuscript text is in more than one file, you must use the Label field to specify the order of the pieces of text (e.g. "1", "2", "3").

See the image below for some examples:

Type	Label	Name	
Manuscript Text	1	C:\Documents and Settings\My Documents\manuscript.doc	Browse...
Manuscript Text	2	C:\Documents and Settings\My Documents\app.doc	Browse...
Figure	Fig 1	C:\Documents and Settings\My Documents\Figure1.tif	Browse...
Figure	Fig 2a-c	C:\Documents and Settings\My Documents\Fig2.tif	Browse...
Figure	Fig 3	C:\Documents and Settings\My Documents\Figure3.tif	Browse...
Table	Table 1	C:\Documents and Settings\My Documents\table.xls	Browse...
Supplementary Data	Arrays	C:\Documents and Settings\My Documents\supp.xls	Browse...
