**1. DISPOSITION OF RECEIPTS FROM NATIONAL FOREST
REVENUES**

[As Amended Through Public Law 106-580, Dec. 31, 2000]

1. DISPOSITION OF RECEIPTS FROM NATIONAL FOREST REVENUES

A. Laws Comprising 16 U.S.C. 499

[Note: 16 U.S.C. 499 is an uncodified provision of law constructed by the Law Revision Counsel from the following sources: Act of March 4, 1907; Act of March 4, 1911; Act of March 4, 1917; and Act of June 7, 1924. Any amendment to 16 U.S.C. 499 must be made to the various source laws that form the section. These source laws follow the explanatory materials.]

Section 499 of title 16, United States Code, reads as follows:

§ 499. Disposal of money received by or on account of Forest Service; refund of excess and moneys erroneously collected; receipts from permits

All money received by or on account of the Forest Service for timber, or from any other source of national-forest revenue, including moneys received from sale of products from or for the use of lands in national forests created under section 471(b) of this title, and moneys received on account of permits for hunting, fishing, or camping on lands acquired under authority of sections 513 to 517 and 521 of this title, shall be covered into the Treasury of the United States as a miscellaneous receipt, and except as provided in sections 500 and 501 of this title¹, there is appropriated and made available, as the Secretary of Agriculture may direct, out of any funds in the Treasury not otherwise appropriated, so much as may be necessary to make refunds to depositors of money heretofore or hereafter deposited by them to secure the purchase price on the sale of any products or for the use of any land or resources of the national forests in excess of amounts found actually due from them to the United States and also so much as may be necessary to refund or pay over to the rightful claimants such sums as may be found by the Secretary of Agriculture to have been erroneously collected for the use of any lands, or for timber or other resources sold from lands located within, but not a part of, the national forests, or for alleged illegal acts done upon such lands, which acts are subsequently found to have been proper and legal.

(Mar. 4, 1907, ch. 2907, 34 Stat. 1270; Mar. 4, 1911, ch. 238, 36 Stat. 1253; Mar. 4, 1917, ch. 179, 39 Stat. 1149; June 7, 1924, ch. 348, § 9, 43 Stat. 655; May 29, 1928, ch. 901, § 1(97), 45 Stat. 993.)

The principal source for 16 U.S.C. 499 is the Act of March 4, 1907 (34 Stat. 1270), which superseded previous provisions relating

¹The words of this section reading, "except as provided in sections 500 and 501 of this title" were added by the Law Revision Counsel to relate this section to the apparent exceptions contained in 16 U.S.C. 500 and 501. These provisions are constructed from the Act of May 23, 1908, the Act of March 1, 1911, and the Act of March 4, 1913, which follow in this compilation.

to the disposal of money received from sale of products or use of any land or resources of the forest reserves.

The Act of March 4, 1911 (36 Stat. 1253), is the source of the last portion of the section beginning with the words, "and also so much as may be necessary," etc. That Act provides that so much of the former Act "which provides for refunds by the Secretary of Agriculture to depositors of moneys to secure the purchase price of timber or the use of lands or resources of the national forests such sums as may be found to be in excess of the amounts found actually due the United States, be, and is hereby, amended hereafter to appropriate and to include so much;"

The words of this section reading, "including moneys received from sale of products from or use of lands in national forests created under section 471(b) of this title" were derived from the fourth sentence of section 9 of Act of June 7, 1924 (43 Stat. 655), which reads as follows: "All receipts from the sale of products from or for the use of lands in such national forests shall be covered into the Treasury as miscellaneous receipts, forest reserve fund, and shall be disposed of in like manner as the receipts from other national forests as provided by existing law." Section 471(b) of this title, referred to in text, was based on the first and fifth sentences of section 9 of the 1924 Act. Section 9 of the 1924 Act was repealed by section 704(a) of Public Law 94-579 (90 Stat. 2792), which presumably would have also eliminated the sentence included in this section. However, the Law Revision Counsel continues to include the sentence since the repealer dealt with the implied authority of the President to make withdrawals resulting from the acquiescence of Congress, which was contained in the first and fifth sentences of section 9 of the 1924 Act.

The words "and moneys received on account of permits for hunting, fishing, or camping, on lands acquired under authority of sections 513 to 517 and 521 of this title," are from a provision of Act Mar. 4, 1917 (39 Stat. 1149), which reads, "Hereafter, all moneys received on account of permits for hunting, fishing, or camping on lands acquired under authority of said Act [Act Mar. 1, 1911, ch. 186, 36 Stat. 961; commonly referred to as the Weeks Law] or any amendment or extension thereof, shall be disposed of as is provided by existing law for the disposition of receipts from national forests."

The only actual amendment referenced is the Act May 29, 1928 (45 Stat. 993), which was made to the Act of March 4, 1911, and struck out a provision which required the Secretary of Agriculture to make an annual report to Congress of the amounts refunded under this section.

The term "such national forests" in the provision refers to the forests established under section 9 of the 1924 Act (16 U.S.C. 471). Such section 9 was repealed by section 704(a) of Public Law 94-579 (90 Stat. 2792), but the Law Revision Counsel continues to include the fourth sentence in 16 U.S.C. 499.

[Note: 16 U.S.C. 500 is an uncodified provision of law constructed by the Law Revision Counsel from the Act of May 23, 1908 (35 Stat. 260), and section 13 of the Act of March 1, 1911 (36 Stat. 963; commonly known as the Weeks Law). The Act of 1908 applies to national forests in the western United States that were acquired as part of the public domain. Section 13 of the Weeks Law applies to those national forests in the eastern United States acquired under the Weeks Law. Any amendment to 16 U.S.C. 500 must be made to the source laws that form the section. The source laws follow the explanatory materials.]

Section 500 of title 16, United States Code, reads as follows:

§ 500. Payment and evaluation of receipts to State or Territory for schools and roads; moneys received; projections of revenues and estimated payments¹

On and after May 23, 1908, 25 percent of all moneys received during any fiscal year from each national forest shall be paid, at the end of such year, by the Secretary of the Treasury to the State or Territory in which such national forest is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which such national forest is situated: *Provided*, That when any national forest is in more than one State or Territory or county the distributive share to each from the proceeds of such forest shall be proportional to its area therein. In sales of logs, ties, poles, posts, cordwood, pulpwood, and other forest products the amounts made available for schools and roads by this section shall be based upon the stumpage value of the timber. Beginning October 1, 1976, the term "moneys received" shall include all collections under the Act of June 9, 1930, and all amounts earned or allowed any purchaser of national forest timber and other forest products within such State as purchaser credits, for the construction of roads on the National Forest Transportation System within such national forests or parts thereof in connection with any Forest Service timber sales contract. The Secretary of Agriculture shall, from time to time as he goes through his process of developing the budget revenue estimates, make available to the States his current projections of revenues and payments estimated to be made under the Act of May 23, 1908, as amended, or any other special Acts making payments in lieu of taxes, for their use for local budget planning purposes.

C. Secure Rural Schools and Community Self-Determination Act of 2000

[Public Law 106-393; October 30, 2000; 16 U.S.C. 500 note]

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.¹

(a) **SHORT TITLE.**—This Act may be cited as the “Secure Rural Schools and Community Self-Determination Act of 2000”.

(b) **Table of Contents.**—[Omitted]

SEC. 2. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—The Congress finds the following:

(1) The National Forest System, which is managed by the United States Forest Service, was established in 1907 and has grown to include approximately 192,000,000 acres of Federal lands.

(2) The public domain lands known as revested Oregon and California Railroad grant lands and the reconveyed Coos Bay Wagon Road grant lands, which are managed predominantly by the Bureau of Land Management were returned to Federal ownership in 1916 and 1919 and now comprise approximately 2,600,000 acres of Federal lands.

(3) Congress recognized that, by its decision to secure these lands in Federal ownership, the counties in which these lands are situated would be deprived of revenues they would otherwise receive if the lands were held in private ownership.

(4) These same counties have expended public funds year after year to provide services, such as education, road construction and maintenance, search and rescue, law enforcement, waste removal, and fire protection, that directly benefit these Federal lands and people who use these lands.

(5) To accord a measure of compensation to the affected counties for the critical services they provide to both county residents and visitors to these Federal lands, Congress determined that the Federal Government should share with these counties a portion of the revenues the United States receives from these Federal lands.

(6) Congress enacted in 1908 and subsequently amended a law that requires that 25 percent of the revenues derived from National Forest System lands be paid to States for use by the counties in which the lands are situated for the benefit of public schools and roads.

(7) Congress enacted in 1937 and subsequently amended a law that requires that 75 percent of the revenues derived from the revested and reconveyed grant lands be paid to the coun-

ties in which those lands are situated to be used as are other county funds, of which 50 percent is to be used as other county funds.

(8) For several decades primarily due to the growth of the Federal timber sale program, counties dependent on and supportive of these Federal lands received and relied on increasing shares of these revenues to provide funding for schools and road maintenance.

(9) In recent years, the principal source of these revenues, Federal timber sales, has been sharply curtailed and, as the volume of timber sold annually from most of the Federal lands has decreased precipitously, so too have the revenues shared with the affected counties.

(10) This decline in shared revenues has affected educational funding and road maintenance for many counties.

(11) In the Omnibus Budget Reconciliation Act of 1993, Congress recognized this trend and ameliorated its adverse consequences by providing an alternative annual safety net payment to 72 counties in Oregon, Washington, and northern California in which Federal timber sales had been restricted or prohibited by administrative and judicial decisions to protect the northern spotted owl.

(12) The authority for these particular safety net payments is expiring and no comparable authority has been granted for alternative payments to counties elsewhere in the United States that have suffered similar losses in shared revenues from the Federal lands and in the funding for schools and roads those revenues provide.

(13) There is a need to stabilize education and road maintenance funding through predictable payments to the affected counties, job creation in those counties, and other opportunities associated with restoration, maintenance, and stewardship of Federal lands.

(14) Both the Forest Service and the Bureau of Land Management face significant backlogs in infrastructure maintenance and ecosystem restoration that are difficult to address through annual appropriations.

(15) There is a need to build new, and strengthen existing, relationships and to improve management of public lands and waters.

(b) PURPOSES.—The purposes of this Act are as follows:

(1) To stabilize payments to counties to provide funding for schools and roads that supplements other available funds.

(2) To make additional investments in, and create additional employment opportunities through, projects that improve the maintenance of existing infrastructure, implement stewardship objectives that enhance forest ecosystems, and restore and improve land health and water quality. Such projects shall enjoy broad-based support with objectives that may include, but are not limited to—

(A) road, trail, and infrastructure maintenance or obliteration;

(B) soil productivity improvement;

(C) improvements in forest ecosystem health;

- (D) watershed restoration and maintenance;
 - (E) restoration, maintenance and improvement of wild-life and fish habitat;
 - (F) control of noxious and exotic weeds; and
 - (G) reestablishment of native species.
- (3) To improve cooperative relationships among the people that use and care for Federal lands and the agencies that manage these lands.

D. County Payment Mitigation as a Result of Transportation System Moratorium

[Section 3006 of the 1998 Supplemental Appropriations and Rescissions Act (Public Law 105-174; 112 Stat. 85).]

SEC. 3006. [16 U.S.C. 1608 note] COUNTY PAYMENT MITIGATION—TRANSPORTATION SYSTEM MORATORIUM. (a)(1) This section provides compensation for loss of revenues that would have been provided to counties if no road moratorium, as described in subsection (a)(2), were implemented or no substitute sales offered as described in subsection (b)(1). This section does not endorse or prohibit the road building moratorium nor does it affect the applicability of existing law to any moratorium.

(2) The Chief of the Forest Service, Department of Agriculture, in his sole discretion, may offer any timber sales that were scheduled October 1, 1997, or thereafter, to be offered in fiscal year 1998 or fiscal year 1999 even if such sales would have been delayed or halted as a result of any moratorium (resulting from the Federal Register proposal of January 28, 1998, pages 4351-4354) on construction of roads in roadless areas within the National Forest System adopted as policy or by regulation that would otherwise be applicable to such sales.

(3) Any sales offered pursuant to subsection (a)(2) shall—

(A) comply with all applicable laws and regulations and be consistent with applicable land and resource management plans, except any regulations or plan amendments which establish or implement the moratorium referred to in subsection (a)(2); and

(B) be subject to administrative appeals pursuant to part 215 of title 36 of the Code of Federal Regulations and to judicial review.

(b)(1) For any previously scheduled sales that are not offered pursuant to subsection (a)(2), the Chief may, to the extent practicable, offer substitute sales within the same State in fiscal year 1998 or fiscal year 1999. Such substitute sales shall be subject to the requirements of subsection (a)(3).

(2)(A) The Chief shall pay as soon as practicable after fiscal year 1998 and fiscal year 1999 to any State in which sales previously scheduled to be offered that are referred to in, but not offered pursuant to, subsection (a)(2) would have occurred, 25 percent of any anticipated receipts from such sales that—

(i) were scheduled from fiscal year 1998 or fiscal year 1999 sales in the absence of any moratorium referred to in subsection (a)(2); and

(ii) are not offset by revenues received in such fiscal years from substitute projects authorized pursuant to subsection (b)(1).

(B) After reporting the amount of funds required to make any payments required by subsection (b)(2)(A), and the source from which such funds are to be derived, to the Committees on Appropriations of the House of Representatives and the Senate, the Chief shall make any payments required by subsection (b)(2)(A) from any funds available to the Forest Service in fiscal year 1998 or fiscal year 1999, subject to approval of the Committees on Appropriations of the House of Representatives and the Senate, that are not specifically earmarked for another purpose by the applicable appropriation Act or a committee or conference report thereon.

(C) Any State which receives payments required by subsection (b)(2)(A) shall expend such funds only in the manner, and for the purposes, prescribed in section 500 of title 16, United States Code.

(c)(1) During the term of the moratorium referred to in subsection (a)(2), the Chief shall prepare and submit to the Committees on Appropriations of the House of Representatives and the Senate a report on each of the following—

(A) a study of whether standards and guidelines in existing land and resource management plans compel or encourage entry into roadless areas within the National Forest System for the purpose of constructing roads or undertaking any other ground-disturbing activities;

(B) an inventory of all roads within the National Forest System and the uses which they serve, in a format that will inform and facilitate the development of a long-term Forest Service transportation policy; and

(C) a comprehensive and detailed analysis of the economic and social effects of the moratorium referred to in subsection (a)(2) on county, State, and regional levels.

The State of Alaska shall distribute such payment to home rule cities and general law cities (as such cities are defined by the State) located within the boundaries of the unit of general local government for which the payment was received. Such cities may use monies received under this paragraph for any governmental purpose.

(b) A unit of general local government may not receive a payment for land for which payment under this Act otherwise may be received if the land was owned or administered by a State or unit of general local government and was exempt from real estate taxes when the land was conveyed to the United States except that a unit of general local government may receive a payment for—

(1) land a State or unit of general local government acquires from a private party to donate to the United States within 8 years of acquisition;

(2) land acquired by a State through an exchange with the United States if such land was entitlement land as defined by this chapter; or

(3) land in Utah acquired by the United States for Federal land, royalties, or other assets if, at the time of such acquisition, a unit of general local government was entitled under applicable State law to receive payments in lieu of taxes from the State of Utah for such land: *Provided, however,* That no payment under this paragraph shall exceed the payment that would have been made under State law if such land had not been acquired.

(d) On October 1 of each year after the date of enactment of the Payment in Lieu of Taxes Act, the Secretary of the Interior shall adjust each dollar amount specified in subsections (b) and (c) to reflect changes in the Consumer Price Index published by the

Bureau of Labor Statistics of the Department of Labor, for the 12 months ending the preceding June 30.

§ 6904. Additional payments

(a) In addition to payments the Secretary of the Interior makes under section 6902 of this title, the Secretary shall make a payment for each fiscal year to a unit of general local government collecting and distributing real property taxes (including a unit in Alaska outside the boundaries of an organized borough) in which is located an interest in land that—

(1) the United States Government acquires for—

(A) the National Park System; or

(B) the National Forest Wilderness Areas; and

(2) was subject to local real property taxes within the 5-year period before the interest is acquired.

(b) The Secretary shall make payments only for the 5 fiscal years after the fiscal year in which the interest in land is acquired. Under guidelines the Secretary prescribes, the unit of general local government receiving the payment from the Secretary shall distribute payments proportionally to units and school districts that lost real property taxes because of the acquisition of the interest. A unit receiving a distribution may use a payment for any governmental purpose.

(c) Each yearly payment by the Secretary under this section is equal to one percent of the fair market value of the interest in land on the date the Government acquires the interest. However, a payment may not be more than the amount of real property taxes levied on the property during the last fiscal year before the fiscal year in which the interest is acquired. A decision on fair market value under this section may not include an increase in the value of an interest because the land is rezoned when the rezoning causes the increase after the date of enactment of a law authorizing the acquisition of an interest under subsection (a) of this section.

(d) The Secretary may prescribe regulations under which payments may be made to units of general local government when subsections (a) and (b) of this section will not carry out the purpose of subsections (a) and (b).

§ 6905. Redwood National Park and the Lake Tahoe Basin

(a) The Secretary of the Interior shall make a payment for each fiscal year to each unit of general local government in which an interest in land owned by the United States Government in the Redwood National Park is located. A unit may use the payment for any governmental purpose. The payment shall be made as provided in section 6903 of this title and shall include an amount payable under section 6903.

(b)(1) In addition to payments the Secretary makes under subsection (a) of this section, the Secretary shall make a payment for each fiscal year to each unit of general local government in which is located an interest in land—

(A) owned by the Government in the Redwood National Park; or

(B) acquired in the Lake Tahoe Basin under the Act of December 23, 1980 (Public Law 96-586, 94 Stat. 3383).

(2) The payment shall be made as provided in section 6904 of this title and shall include an amount payable under section 6904. However, an amount computed but not paid because of the first sentence of subsection (b) and the 2d sentence of subsection (c) of section 6904 shall be carried forward and applied to future years in which the payment would not otherwise equal the amount of real property taxes assessed and levied on the land during the last fiscal year before the fiscal year in which the interest was acquired until the amount is applied completely.

(3) The unit of general local government may use the payment for any governmental purpose.

(4) The Redwoods Community College District is a school district under section 6904(b) of this title.

§ 6906. Authorization of appropriations

Necessary amounts may be appropriated to the Secretary of the Interior to carry out this chapter. Amounts are available only as provided in appropriation laws.

§ 6907. State legislation requiring reallocation or redistribution of payments to smaller units of general purpose government

(a) Notwithstanding any other provision of this chapter, a State may enact legislation which requires that any payments which would be made to units of general local government pursuant to this chapter be reallocated and redistributed in whole or part to other smaller units of general purpose government which (1) are located within the boundaries of the larger unit of general local government, (2) provide general governmental services and (3) contain entitlement lands within their boundaries. Such reallocation or redistribution shall generally reflect the level of services provided by, and the number of entitlement acres within, the smaller unit of general local government.

(b) Upon enactment of legislation by a State, described in subsection (a), the Secretary shall make one payment to such State equaling the aggregate amount of payments which he otherwise would have made to units of general local government within such State pursuant to this chapter. It shall be the responsibility of such State to make any further distribution of the payment pursuant to subsection (a). Such redistribution shall be made within 30 days after receipt of such payment. No payment, or portion thereof, made by the Secretary shall be used by any State for the administration of this subsection or subsection (a).

(c) Appropriations made for payments in lieu of taxes for a fiscal year may be used to correct underpayments in the previous fiscal year to achieve equity among all qualified recipients.

SEC. 3. That there is hereby appropriated, for the fiscal year ending June thirtieth, nineteen hundred and ten, the sum of one million dollars, and for each fiscal year thereafter a sum not to exceed two million dollars for use in the examination, survey, and of lands located on the headwaters of navigable streams or those which are being or which may be developed for navigable purposes: *Provided*, That the provisions of this section shall expire by limitation on the thirtieth day of June, nineteen hundred and fifteen.

[Sections 4 and 5—Repealed by P.L. 94-588]

Timber given in such exchanges shall be cut and removed under the laws and regulations relating to such national forests, and under the direction and supervision and in accordance with the requirements of the Secretary of Agriculture. Lands so accepted by the Secretary of Agriculture shall, upon acceptance, become parts of the national forests within whose exterior boundaries they are located, and be subjected to all provisions of this Act.

SEC. 8. [16 U.S.C. 517] That the Secretary of Agriculture may do all things necessary to secure the safe title in the United States to the lands to be acquired under this Act, but no payment shall be made for any such lands until the title shall be satisfactory to the Attorney-General and shall be vested in the United States: *Provided*, [16 U.S.C. 517a] That in condemnation proceedings, heretofore or hereafter prosecuted, for the acquisition of lands under this Act, in which a decree is entered vesting title thereto in the United States upon payment of the award into the registry of the court, the Secretary of Agriculture is authorized to make such payment when advised by the Attorney General or his designee that the proceedings and the decree are regular.

SEC. 9. [16 U.S.C. 518] That such acquisition by the United States shall in no case be defeated because of located or defined rights of way, easements, and reservations, which, from their nature will, in the opinion of the Secretary of Agriculture, in no manner interfere with the use of the lands so encumbered, for the pur-

poses of the Act: *Provided*, That such rights of way, easements, and reservations retained by the owner from whom the United States receives title, shall be subject to the rules and regulations prescribed by the Secretary of Agriculture for their occupation, use, operation, protection, and administration, and that such rules and regulations shall be expressed in and made part of the written instrument conveying title to the lands to the United States; and the use, occupation, and operation of such rights of way, easements, and reservations shall be under, subject to, and in obedience with the rules and regulations so expressed.

SEC. 10. [16 U.S.C. 519] That inasmuch as small areas of land chiefly valuable for agriculture may of necessity or by inadvertence be included in tracts acquired under this Act, the Secretary of Agriculture may, in his discretion, and he is hereby authorized, upon application or otherwise, to examine and ascertain the location and extent of such areas as in his opinion may be occupied for agricultural purposes without injury to the forests or to stream flow and which are not needed for public purposes, and may list and describe the same by metes and bounds, or otherwise, and offer them for sale as homesteads at their true value, to be fixed by him, to actual settlers, in tracts not exceeding eighty acres in area, under such joint rules and regulations as the Secretary of Agriculture and the Secretary of the Interior¹ may prescribe; and in case of such sale the jurisdiction over the lands sold shall, ipso facto, revert to the State in which the lands sold lie. And no right, title, interest, or claim in or to any lands acquired under this Act, or the waters thereon, or the products, resources, or use thereof after such lands shall have been so acquired, shall be initiated or perfected, except as in this section provided.

SEC. 11. [16 U.S.C. 521] That, subject to the provisions of the last preceding section, the lands acquired under this Act shall be permanently reserved, held, and administered as national forest lands under the provisions of section twenty-four of the Act approved March third, eighteen hundred and ninety-one (volume twenty-six, Statutes at Large, page eleven hundred and three), and Acts supplemental to and amendatory thereof. And the Secretary of Agriculture may from time to time divide the lands acquired under this Act into such specific national forests and so designate the same as he may deem best for administrative purposes.

SEC. 12. [16 U.S.C. 480] That the jurisdiction, both civil and criminal, over persons upon the lands acquired under this Act shall not be affected or changed by their permanent reservation and administration as national forest lands, except so far as the punishment of offenses against the United States is concerned, the intent and meaning of this section being that the State wherein such land is situated shall not, by reason of such reservation and administration, lose its jurisdiction nor the inhabitants thereof their rights

SEC. 13. [16 U.S.C. 500] That twenty-five per centum of all moneys received during any fiscal year from each national forest into which the lands acquired under this Act may from time to time be divided shall be paid, at the end of such year, by the Secretary of the Treasury to the State in which such national forest is situated, to be expended as the state legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which such national forest is situated: *Provided*, That when any national forest is in more than one State or county the distributive share to each from the proceeds of such forest shall be proportional to its area therein. Beginning October 1, 1976, the term "moneys received" shall include all collections under the Act of June 9, 1930, and all amounts earned or allowed any purchaser of national forest timber and other forest products within such State as purchaser credits, for the construction of roads on the National Forest Transportation System within such national forests or parts thereof in connection with any Forest Service timber sales contract. The Secretary of Agriculture shall, from time to time as he goes through his process of developing the budget revenue estimates, make available to the States his current projections of revenues and payments estimated to be made under the Act of May 23, 1908, as amended, or any other special Acts making payments in lieu of taxes for their use for local budget planning purposes.

TITLE III—RETIREMENT OF SUBMARGINAL LAND

PROGRAM

SEC. 31. [7 U.S.C. 1010] The Secretary is authorized and directed to develop a program of land conservation and land utilization, in order thereby to correct maladjustments in land use, and thus assist in controlling soil erosion, reforestation, preserving natural resources, protecting fish and wildlife, developing and protecting recreational facilities, mitigating floods, preventing impairment of dams and reservoirs, developing energy resources, conserving surface and surface moisture, protecting the watersheds of navigable streams, and protecting the public lands, health, safety, and welfare, but not to build industrial parks or establish private industrial or commercial enterprises.¹

POWERS UNDER LAND PROGRAM

SEC. 32. [7 U.S.C. 1011] To effectuate the program provided for in section 31, the Secretary is authorized—

[(a)-Repealed by P.L. 87-703]

(b) To protect, improve, develop, and administer any property so acquired and to construct such structures thereon as may be necessary to adapt it to its most beneficial use.

(c) To sell, exchange, lease, or otherwise dispose of, with or without a consideration, any property so acquired, under such terms and conditions as he deems will best accomplish the purposes of this title, but any sale, exchange, or grant shall be made only to public authorities and agencies and only on condition that the property is used for public purposes.² *Provided, however,* That an exchange may be made with private owners and with subdivi-

sions or agencies of State governments in any case where the Secretary of Agriculture finds that such exchange would not conflict with the purposes of the Act, and that the value of the property received in exchange is substantially equal to that of the property conveyed. The Secretary may recommend to the President other Federal, State, or Territorial agencies to administer such property, together with the conditions of use and administration which will best serve the purposes of a land-conservation and land-utilization program, and the President is authorized to transfer such property to such agencies.

(d) With respect to any land, or any interest therein, acquired by, or transferred to, the Secretary for the purposes of this title, to make dedications or grants, in his discretion, for any public purpose, and to grant licenses and easements upon such terms as he deems reasonable.

(e)¹ to cooperate with Federal, State, territorial, and other public agencies and local nonprofit organizations in developing plans for a program of land conservation and land utilization or plans for the conservation, development, and utilization of water for aquacultural purposes, to assist in carrying out such plans by means of loans to State and local public agencies and local nonprofit organizations designated by the State legislature or the Governor, to conduct surveys and investigations relating to conditions and factors affecting, and the methods of accomplishing most effectively the purposes of this title, and to disseminate information concerning these activities. As used in this subsection, the term "aquaculture" means the culture or husbandry of aquatic animals or plants. Loans to State and local public agencies and to local nonprofit organizations shall be made only if such plans have been submitted to, and not disapproved within 45 days by, the State agency having supervisory responsibility over such plans, or by the Governor if there is no such State agency. No appropriation shall be made for any single loan under this subsection in excess of \$500,000 unless such loan has been approved by resolutions adopted by the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives. A loan under this subsection shall be made under a contract that provides, under such terms and conditions as the Secretary considers appropriate, for the repayment of the loan in not more than 30 years, with interest at a rate not to exceed the current market yield for outstanding municipal obligations with remaining periods to maturity comparable to the average maturity for the loan, adjusted to the nearest $\frac{1}{8}$ of 1 percent. Repayment of principal and interest on such loans shall begin within 5 years. In providing assistance for carrying out plans developed under this title, the Secretary shall be authorized to bear such proportionate share of the costs of installing any works of improvement applicable to public water-based fish and wildlife or recreational development as is determined by him to be equitable in consideration of national needs and assistance authorized for similar purposes under other Federal programs: *Provided*, That all engineering and other technical assistance costs relating to such development may

be borne by the Secretary: *Provided further*, That when a State or other public agency or local nonprofit organization participating in a plan developed under this title agrees to operate and maintain any reservoir or other area included in a plan for public water-based fish and wildlife or recreational development, the Secretary shall be authorized to bear not to exceed one-half of the costs of (a) the land, easements, or rights-of-way acquired or to be acquired by the State or other public agency or local nonprofit organization for such reservoir or other area, and (b) minimum basic facilities needed for public health and safety, access to, and use of such reservoir or other area for such purposes: *Provided further*, That in no event shall the Secretary share any portion of the cost of installing more than one such work of improvement for each seventy-five thousand acres in any project; and that any such public water-based fish and wildlife or recreational development shall be consistent with any existing comprehensive statewide outdoor recreation plan found adequate for purposes of the Land and Water Conservation Fund Act of 1965 (78 Stat. 897); and that such cost-sharing assistance for any such development shall be authorized only if the Secretary determines that it cannot be provided under other existing authority.

The Secretary shall also be authorized in providing assistance for carrying out plans developed under this title:

(1) To provide technical and other assistance, and to pay for any storage of water for present or anticipated future demands or needs for rural community water supply included in any reservoir structure constructed or modified pursuant to such plans: *Provided*, That the cost of water storage to meet future demands may not exceed 30 per centum of the total estimated cost of such reservoir structure and the public agency or local nonprofit organization shall give reasonable assurances, and there is evidence, that such demands for the use of such storage will be made within a period of time which will permit repayment of the cost of such water supply storage within the life of the reservoir structure: *Provided further*, That the public agency or local nonprofit organization prior to initiation or construction or modification of any reservoir structure including water supply storage, make provision satisfactory to the Secretary to pay for not less than 50 per centum of the cost of storage for present water supply demands, and all of the cost of storage for anticipated future demands: *And provided further*, That the cost to be borne by the public agency or local nonprofit organization for anticipated future demands may be repaid within the life of the reservoir structure but in no event to exceed fifty years after the reservoir structure is first used for the storage of water for anticipated future water supply demands except that (1) no payment on account of such cost need be made until such supply is first used, and (2) no interest shall be charged on such cost until such supply is first used, but in no case shall the interest-free period exceed ten years. The interest rate used for purposes of computing the interest on the unpaid balance shall be the average rate, as determined by the Secretary of the Treasury, payable by the Treasury upon its marketable public obligations outstanding at the beginning of the fiscal year in which the advancement for such water supply is first

made, which are neither due nor callable for redemption for fifteen years from date of issue;

(2) To provide, for the benefit to rural communities, technical and other assistance and such proportionate share of the costs of installing measures and facilities for water quality management, for the control and abatement of agriculture-related pollution, for the disposal of solid wastes, and for the storage of water in reservoirs, farm ponds, or other impoundments, together with necessary water withdrawal appurtenances, for rural fire protection, as is determined by the Secretary to be equitable in consideration of national needs and assistance authorized for similar purposes under other Federal programs.

(f) To make such rules and regulations as he deems necessary to prevent trespasses and otherwise regulate the use and occupancy of property acquired by, or transferred to, the Secretary for the purposes of this title, in order to conserve and utilize it or advance the purposes of this title. Any violation of such rules and regulations shall be punished by a fine of not more than \$500 or imprisonment for not more than six months, or both. Any person charged with the violation of such rules and regulations may be tried and sentenced by any United States commissioner¹ specially designated for that purpose by the court by which he was appointed, in the same manner and subject to the same conditions as provided for in title 18, United States Code, section 3401, subsections (b), (c), (d), and (e), as amended.

PAYMENTS TO COUNTIES

SEC. 33. [7 U.S.C. 1012] As soon as practicable after the end of each calendar year, the Secretary shall pay to the county in which any land is held by the Secretary under this title, 25 per centum of the net revenues received by the Secretary from the use of the land during such year. In case the land is situated in more than one county, the amount to be paid shall be divided equitably among the respective counties. Payments to counties under this section shall be made on the condition that they are used or school or road purposes, or both. This section shall not be construed to apply to amounts received from the sale of land.

APPROPRIATION

SEC. 34. [7 U.S.C. 1013] To carry out the provisions of this title, there is authorized to be appropriated not to exceed \$10,000,000 for the fiscal year ending June 30, 1938, and not to exceed \$20,000,000 for each of the two fiscal years thereafter.

SEC. 35. [7 U.S.C. 1013a] The provisions of this title shall extend to Puerto Rico and the Virgin Islands. In the case of Alaska, Puerto Rico, and the Virgin Islands, the term "county" as used in this title may be the entire area, or any subdivision thereof as may be determined by the Secretary, and payments under section 33 of

**4. FOREST AND RANGELAND RENEWABLE RESOURCES
PLANNING ACT OF 1974**

[As Amended Through Public Law 106-580, Dec. 31, 2000]

4. FOREST AND RANGELAND RENEWABLE RESOURCES PLANNING ACT OF 1974

(Public Law 93-378; Approved August 17, 1974)

AN ACT To provide for the Forest Service, Department of Agriculture, to protect, develop, and enhance the productivity and other values of certain of the Nation's lands and resources, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That [16 U.S.C. 1600 note] this Act may be cited as the "Forest and Rangeland Renewable Resources Planning Act of 1974".

SEC. 2. [16 U.S.C. 1600] FINDINGS.—The Congress finds that—

(1) the management of the Nation's renewable resources is highly complex and the uses, demand for, and supply of the various resources are subject to change over time;

(2) the public interest is served by the Forest Service, Department of Agriculture, in cooperation with other agencies, assessing the Nation's renewable resources, and developing and preparing a national renewable resource program which is periodically reviewed and updated;

(3) to serve the national interest, the renewable resource program must be based on a comprehensive assessment of present and anticipated uses, demand for, and supply of renewable resources from the Nation's public and private forests and rangelands, through analysis of environmental and economic impacts, coordination of multiple use and sustained yield opportunities as provided in the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C. 528-531), and public participation in the development of the program;

(4) the new knowledge derived from coordinated public and private research programs will promote a sound technical and ecological base for effective management, use, and protection of the Nation's renewable resources;

(5) inasmuch as the majority of the Nation's forests and rangeland is under private, State, and local governmental management and the Nation's major capacity to produce goods and services is based on these nonfederally managed renewable resources, the Federal Government should be a catalyst to encourage and assist these owners in the efficient long-term use and improvement of these lands and their renewable resources consistent with the principles of sustained yield multiple use;

(6) the Forest Service, by virtue of its statutory authority for management of the National Forest System, research and cooperative programs, and its role as an agency in the Depart-

ment of Agriculture, has both a responsibility and an opportunity to be a leader in assuring that the Nation maintains a natural resource conservation posture that will meet the requirements of our people in perpetuity; and

(7) recycled timber product materials are as much a part of our renewable forest resources as are the trees from which they originally came, and in order to extend our timber and timber fiber resources and reduce pressures for timber production from Federal lands, the Forest Service should expand its research in the use of recycled and waste timber product materials, develop techniques for the substitution of these secondary materials for primary materials, and promote and encourage the use of recycled timber product materials.

SEC. 3. [16 U.S.C. 1601] RENEWABLE RESOURCE ASSESSMENT.—(a) In recognition of the vital importance of America's renewable resources of the forest, range, and other associated lands to the Nation's social and economic well-being, and of the necessity for a long term perspective in planning and undertaking related national renewable resource programs administered by the Forest Service, the Secretary of Agriculture shall prepare a Renewable Resource Assessment (hereinafter called the "Assessment"). The Assessment shall be prepared not later than December 31, 1975, and shall be undated during 1979 and each tenth year thereafter, and shall include but not be limited to—

(1) an analysis of present and anticipated uses, demand for, and supply of the renewable resources, with consideration of the international resource situation, and an emphasis of pertinent supply and demand and price relationship trends;

(2) an inventory, based on information developed by the Forest Service and other "Federal agencies, of present and potential renewable resources, and an evaluation of opportunities for improving their yield of tangible and intangible goods and services, together with estimates of investment costs and direct and indirect returns to the Federal Government;

(3) a description of Forest Service programs and responsibilities in research, cooperative programs and management of the National Forest System, their interrelationships, and the relationship of these programs and responsibilities to public and private activities;

(4) a discussion of important policy considerations, laws, regulations, and other factors expected to influence and affect significantly the use, ownership, and management of forest, range, and other associated lands;

(5) an analysis of the potential effects of global climate change on the condition of renewable resources on the forests and rangelands of the United States; and

(6) an analysis of the rural and urban forestry opportunities to mitigate the buildup of atmospheric carbon dioxide and reduce the risk of global climate change,¹

(b) [Omitted-Amendment]

¹Note regarding paragraph (6): The comma should be a period. See P.L. 101-624, sec. 2408(a)(3), 104 Stat. 4061.

(c)¹ The Secretary shall report in the 1979 and subsequent Assessments on:

(1) the additional fiber potential in the National Forest System including, but not restricted to, forest mortality, growth, salvage potential, potential increased forest products sales, economic constraints, alternate markets, contract considerations, and other multiple use considerations;

(2) the potential for increased utilization of forest and wood product wastes in the National Forest System and on other lands, and or urban wood wastes and wood product recycling, including recommendations to the Congress for actions which would lead to increased utilization of materials now being wasted both in the forests and in manufactured products; and

(3) the milling and other wood fiber product fabrication facilities and their location in the United States, noting the public and private forested areas that supply such facilities, assessing the degree of utilization into product form of harvested trees by such facilities, and setting forth the technology appropriate to the facilities to improve utilization either individually or in aggregate units of harvested trees and to reduce wasted wood fibers. The Secretary shall set forth a program to encourage the adoption by these facilities of these technologies for improving wood fiber utilization.

(d)² In developing the reports required under subsection (c) of this section, the Secretary shall provide opportunity for public involvement and shall consult with other interested governmental departments and agencies.

(d)³(1) It is the policy of the Congress that all forested lands in the National Forest System shall be maintained in appropriate forest cover with species of trees, degree of stocking, rate of growth, and conditions of stand designed to secure the maximum benefits of multiple use sustained yield management in accordance with land management plans. Accordingly, the Secretary is directed to identify and report to the Congress annually at the time of submission of the President's budget together with the annual report provided for under section 8(c) of this Act, beginning with submission of the President's budget for fiscal year 1978, the amount and location by forests and States and by productivity class, where practicable, of all lands in the National Forest System where objectives of land management plans indicate the need to reforest areas that have been cut-over or otherwise denuded or deforested, and all lands with stands of trees that are not growing at their best potential rate of growth. All national forest lands treated from year to year shall be examined after the first and third growing seasons and certified by the Secretary in the report provided for under this subsection as to stocking rate, growth rate in relation to potential and other pertinent measures. Any lands not certified as satisfactory shall be returned to the backlog and scheduled for prompt

treatment. The level and types of treatment shall be those which secure the most effective mix of multiple use benefits.

(2) Notwithstanding the provisions of section 9 of this Act, the Secretary shall annually for eight years following the enactment of this subsection, transmit to the Congress in the manner provided in this subsection an estimate of the sums necessary to be appropriated, in addition to the funds available from other sources, to replant and otherwise treat an acreage equal to the acreage to be cut over that year, plus a sufficient portion of the backlog of lands found to be in need of treatment to eliminate the backlog within the eight-year period. After such eight-year period, the Secretary shall transmit annually to the Congress an estimate of the sums necessary to replant and otherwise treat all lands being cut over and maintain planned timber production on all other forested lands in the National Forest System so as to prevent the development of a backlog of needed work larger than the needed work at the beginning of the fiscal year. The Secretary's estimate of sums necessary, in addition to the sums available under other authorities, for accomplishment of the reforestation and other treatment of National Forest System lands under this section shall be provided annually for inclusion in the President's budget and shall also be transmitted to the Speaker of the House and the President of the Senate together with the annual report provided for under section 8(c) of this Act at the time of submission of the President's budget to the Congress beginning with the budget for fiscal year 1978. The sums estimated as necessary for reforestation and other treatment shall include moneys needed to secure seed, grow seedlings, prepare sites, plant trees, thin, remove deleterious growth and underbrush, build fence to exclude livestock and adverse wildlife from regeneration areas and otherwise establish and improve forests to secure planned production of trees and other multiple use values.

(3) Effective for the fiscal year beginning October 1, 1977, and each fiscal year thereafter, there is hereby authorized to be appropriated for the purpose of reforesting and treating lands in the National Forest System \$200,000,000 annually to meet requirements of this subsection (d). All sums appropriated for the purposes of this subsection shall be available until expended.

(e) The Secretary shall submit an annual report to the Congress on the amounts, types, and uses of herbicides and pesticides used in the National Forest System, including the beneficial or adverse effects of such uses.

SEC. 4. [16 U.S.C. 1602] RENEWABLE RESOURCE PROGRAM.— In order to provide for periodic review of programs for management and administration of the National Forest System, for research, for cooperative State and private Forest Service programs, and for conduct of other Forest Service activities in relation to the findings of the Assessment, the Secretary of Agriculture, utilizing information available to the Forest Service and other agencies within the Department of Agriculture, including data prepared pursuant to section 302 of the Rural Development Act of 1972, shall prepare and transmit to the President a recommended Renewable Resource Program (hereinafter called the "Program"). The Program transmitted to the President may include alternatives, and shall provide

in appropriate detail for protection, management, and development of the National Forest System, including forest development roads and trails; for cooperative Forest Service programs; and for research. The Program shall be developed in accordance with principles set forth in the Multiple-Use Sustained-Yield Act of June 12, 1960 (74 Stat. 215; 16 U.S.C. 528-531), and the National Environmental Policy Act of 1969 (83 Stat. 852; 42 U.S.C. 4321-4347). The Program shall be prepared not later than December 31, 1975, to cover the four-year period beginning October 1, 1976, and at least each of the four fiscal decades next following such period, and shall be updated no later than during the first half of the fiscal year ending September 30, 1980, and the first half of each fifth fiscal year thereafter to cover at least each of the four fiscal decades beginning next after such updating. The Program shall include, but not be limited to—

(1) an inventory of specific needs and opportunities for both public and private program investments. The inventory shall differentiate between activities which are of a capital nature and those which are of an operational nature;

(2) specific identification of Program outputs, results anticipated, and benefits associated with investments in such a manner that the anticipated costs can be directly compared with the total related benefits and direct and indirect returns to the Federal Government;

(3) a discussion of priorities for accomplishment of inventoried Program opportunities, with specified costs, outputs, results, and benefits;

(4) a detailed study of personnel requirements as needed to implement and monitor existing and ongoing programs; and

(5) Program recommendations which—

(A) evaluate objectives for the major Forest Service programs in order that multiple-use and sustained-yield relationships among and within the renewable resources can be determined;

(B) explain the opportunities for owners of forests and rangeland to participate in programs to improve and enhance the condition of the land and the renewable resource products therefrom;

(C) recognize the fundamental need to protect and, where appropriate, improve the quality of soil, water, and air resources;

(D) state national goals that recognize the interrelationships between and interdependence within the renewable resources;

(E) evaluate the impact of the export and import of raw logs upon domestic timber supplies and prices; and

(F) account for the effects of global climate change on forest and rangeland conditions, including potential effects on the geographic ranges of species, and on forest and rangeland products.

SEC. 5. [16 U.S.C. 1603] NATIONAL FOREST SYSTEM RESOURCE INVENTORIES.—As a part of the Assessment, the Secretary of Agriculture shall develop and maintain on a continuing basis a com-

prehensive and appropriately detailed inventory of all National Forest System lands and renewable resources. This inventory shall be kept current so as to reflect changes in conditions and identify new and emerging resources and values.

SEC. 6. [16 U.S.C. 1604] NATIONAL FOREST SYSTEM RESOURCE PLANNING.—(a) As a part of the Program provided for by section 4 of this Act, the Secretary of Agriculture shall develop, maintain, and, as appropriate, revise land and resource management plans for units of the National Forest System, coordinated with the land and resource management planning processes of State and local governments and other Federal agencies.

(b) In the development and maintenance of land management plans for use on units of the National Forest System, the Secretary shall use a systematic interdisciplinary approach to achieve integrated consideration of physical, biological, economic, and other sciences.

(c)¹ The Secretary shall begin to incorporate the standards and guidelines required by this section in plans for units of the National Forest System as soon as practicable after enactment of this subsection and shall attempt to complete such incorporation for all such units by no later than September 30, 1985. The Secretary shall report to the Congress on the progress of such incorporation in the annual report required by section 8(c) of this Act. Until such time as a unit of the National Forest System is managed under plans developed in accordance with this Act, the management of such unit may continue under existing land and resource management plans.

(d) The Secretary shall provide for public participation in the development, review, and revision of land management plans including, but not limited to, making the plans or revisions available to the public at convenient locations in the vicinity of the affected unit for a period of at least three months before final adoption, during which period the Secretary shall publicize and hold public meetings or comparable processes at locations that foster public participation in the review of such plans or revisions.

(e) In developing, maintaining, and revising plans for units of the National Forest System pursuant to this section, the Secretary shall assure that such plans—

(1) provide for multiple use and sustained yield of the products and services obtained therefrom in accordance with the Multiple-Use Sustained-Yield Act of 1960, and, in particular, include coordination of outdoor recreation, range, timber, watershed, wildlife and fish, and wilderness; and

¹ Section 312 of Public Law 101-121 (103 Stat. 743; 16 U.S.C. 1604 note) provides as follows: "SEC. 312. The Forest Service and Bureau of Land Management are to continue to complete as expeditiously as possible development of their respective Forest Land and Resource Management Plans to meet all applicable statutory requirements. Notwithstanding the date in section 6(c) of the NFMA (16 U.S.C. 1600), the Forest Service, and the Bureau of Land Management under separate authority, may continue the management of lands within their jurisdiction under existing land and resource management plans pending the completion of new plans. Nothing shall limit judicial review of particular activities on these lands: *Provided, however*, That there shall be no challenges to any existing plan on the sole basis that the plan in its entirety is outdated, or in the case of the Bureau of Land Management, solely on the basis that the plan does not incorporate information available subsequent to the completion of the existing plan: *Provided further*, That any and all particular activities to be carried out under existing plans may nevertheless be challenged."

(2) determine forest management systems, harvesting levels, and procedures in the light of all of the uses set forth in subsection (c)(1), the definition of the terms "multiple use" and "sustained yield" as provided in the Multiple-Use Sustained-Yield Act of 1960, and the availability of lands and their suitability for resources management.

(f) Plans developed in accordance with this section shall—

(1) form one integrated plan for each unit of the National Forest System, incorporating in one document or one set of documents, available to the public at convenient locations, all of the features required by this section;

(2) be embodied in appropriate written material, including maps and other descriptive documents, reflecting proposed and possible actions, including the planned timber sale program and the proportion of probable methods of timber harvest within the unit necessary to fulfill the plan;

(3) be prepared by an interdisciplinary team. Each team shall prepare its plan based on inventories of the applicable resources of the forest;

(4) be amended in any manner whatsoever after final adoption after public notice, and, if such amendment would result in a significant change in such plan, in accordance with the provisions of subsections (e) and (f) of this section and public involvement comparable to that required by subsection (d) of this section; and

(5) be revised (A) from time to time when the Secretary finds conditions in a unit have significantly changed, but at least every fifteen years, and (B) in accordance with the provisions of subsections (e) and (f) of this section and public involvement comparable to that required by subsection (d) of this section.

(g) As soon as practicable, but not later than two years after enactment of this subsection, the Secretary shall in accordance with the procedures set forth in section 553 of title 5, United States Code promulgate regulations, under the principles of the Multiple-Use Sustained-Yield Act of 1960, that set out the process for the development and revision of the land management plans, and the guidelines and standards prescribed by this subsection. The regulations shall include, but not be limited to—

(1) specifying procedures to insure that land management plans are prepared in accordance with the National Environmental Policy Act of 1969, including, but not limited to, direction on when and for what plans an environmental impact statement required under section 102(2)(C) of that Act shall be prepared;

(2) specifying guidelines which—

(A) require the identification of the suitability of lands for resource management;

(B) provide for obtaining inventory data on the various renewable resources, and soil and water, including pertinent maps, graphic material, and explanatory aids; and

(C) provide for methods to identify special conditions or situations involving hazards to the various resources and their relationship to alternative activities:

(3) specifying guidelines for land management plans developed to achieve the goals of the Program which—

(A) insure consideration of the economic and environmental aspects of various systems of renewable resource management, including the related systems of silviculture and protection of forest resources, to provide for outdoor recreation (including wilderness), range, timber, watershed, wildlife, and and fish;

(B) provide for diversity of plant and animal communities based on the suitability and capability of the specific land area in order to meet overall multiple-use objectives, and within the multiple-use objectives of a land management plan adopted pursuant to this section, provide, where appropriate, to the degree practicable, for steps to be taken to preserve the diversity of tree species similar to that existing in the region controlled by the plan;

(C) insure research on and (based on continuous monitoring and assessment in the field) evaluation of the effects of each management system to the end that it will not produce substantial and permanent impairment of the productivity of the land;

(D) permit increases in harvest levels based on intensified management practices, such as reforestation, thinning, and tree improvement if (i) such practices justify increasing the harvests in accordance with the Multiple-Use Sustained-Yield Act of 1960, and (ii) such harvest levels are decreased at the end of each planning period if such practices cannot be successfully implemented or funds are not received to permit such practices to continue substantially as planned;

(E) insure that timber will be harvested from National Forest System lands only where—

(i) soil, slope, or other watershed conditions will not be irreversibly damaged;

(ii) there is assurance that such lands can be adequately restocked within five years after harvest;

(iii) protection is provided for streams, streambanks, shorelines, lakes, wetlands, and other bodies of water from detrimental changes in water temperatures, blockages of water courses, and deposits of sediment, where harvests are likely to seriously and adversely affect water conditions or fish habitat; and

(iv) the harvesting system to be used is not selected primarily because it will give the greatest dollar return or the greatest unit output of timber; and

(F) insure that clearcutting, seed tree cutting, shelterwood cutting, and other cuts designed to regenerate an evenaged stand of timber will be used as a cutting method on National Forest System lands only where—

(i) for clearcutting, it is determined to be the optimum method, and for other such cuts it is determined to be appropriate, to meet the objectives and requirements of the relevant land management plan;

(ii) the interdisciplinary review as determined by the Secretary has been completed and the potential environmental, biological, esthetic, engineering, and economic impacts on each advertised sale area have been assessed, as well as the consistency of the sale with the multiple use of the general area;

(iii) cut blocks, patches, or strips are shaped and blended to the extent practicable with the natural terrain;

(iv) there are established according to geographic areas, forest types, or other suitable classifications the maximum size limits for areas to be cut in one harvest operation, including provision to exceed the established limits after appropriate public notice and review by the responsible Forest Service officer one level above the Forest Service officer who normally would approve the harvest proposal: *Provided*, That such limits shall not apply to the size of areas harvested as a result of natural catastrophic conditions such as fire, insect and disease attack, or windstorm; and

(v) such cuts are carried out in a manner consistent with the protection of soil, watershed, fish, wildlife, recreation, and esthetic resources, and the regeneration of the timber resource.

(h)(1) In carrying out the purposes of subsection (g) of this section, the Secretary of Agriculture shall appoint a committee of scientists who are not officers or employees of the Forest Service. The committee shall provide scientific and technical advice and counsel on proposed guidelines and procedures to assure that an effective interdisciplinary approach is proposed and adopted. The committee shall terminate upon promulgation of the regulations, but the Secretary may, from time to time, appoint similar committees when considering revisions of the regulations. The views of the committees shall be included in the public information supplied when the regulations are proposed for adoption.

(2) Clerical and technical assistance, as may be necessary to discharge the duties of the committee, shall be provided from the personnel of the Department of Agriculture.

(3) While attending meetings of the committee, the members shall be entitled to receive compensation at a rate of \$100 per diem, including traveltime, and while away from their homes or regular places of business they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

(i) Resource plans and permits, contracts, and other instruments for the use and occupancy of National Forest System lands shall be consistent with the land management plans. Those resource plans and permits, contracts, and other such instruments currently in existence shall be revised as soon as practicable to be made consistent with such plans. When land management plans are revised, resource plans and permits, contracts, and other instruments, when necessary, shall be revised as soon as practicable. Any revision in present or future permits, contracts, and other in-

struments made pursuant to this section shall be subject to valid existing rights.

(j) Land management plans and revisions shall become effective thirty days after completion of public participation and publication of notification by the Secretary as required under section 6(d) of this Act.

(k) In developing land management plans pursuant to this Act, the Secretary shall identify lands within the management area which are not suited for timber production, considering physical, economic, and other pertinent factors to the extent feasible, as determined by the Secretary, and shall assure that, except for salvage sales or sales necessitated to protect other multiple-use values, no timber harvesting shall occur on such lands for a period of 10 years. Lands once identified as unsuitable for timber production shall continue to be treated for reforestation purposes, particularly with regard to the protection of other multiple-use values. The Secretary shall review his decision to classify these lands as not suited for timber production as least every 10 years and shall return these lands to timber production whenever he determines that conditions have changed so that they have become suitable for timber production.

(l) The Secretary shall—

(1) formulate and implement, as soon as practicable, a process for estimating long-terms¹ costs and benefits to support the program evaluation requirements of this Act. This process shall include requirements to provide information on a representative sample basis of estimated expenditures associated with the reforestation, timber stand improvement, and sale of timber from the National Forest System, and shall provide a comparison of these expenditures to the return to the Government resulting from the sale of timber; and

(2) include a summary of data and findings resulting from these estimates as a part of the annual report required pursuant to section 8(c) of this Act, including an identification on a representative sample basis of those advertised timber sales made below the estimated expenditures for such timber as determined by the above cost process; and

(m) The Secretary shall establish—

(1) standards to insure that, prior to harvest, stands of trees throughout the National Forest System shall generally have reached the culmination of mean annual increment of growth (calculated on the basis of cubic measurement or other methods of calculation at the discretion of the Secretary): *Provided*: That these standards shall not preclude the use of sound silvicultural practices, such as thinning or other stand improvement measures: *Provided further*, That these standards shall not preclude the Secretary from salvage or sanitation harvesting of timber stands which are substantially damaged by fire, windthrow or other catastrophe, or which are in imminent danger from insect or disease attack; and

(2) exceptions to these standards for the harvest of particular species of trees in management units after consider-

¹Note regarding subsection (l). Probably should be "long-term".

ation has been given to be multiple uses of the forest including, but not limited to, recreation, wildlife habitat, and range and after completion of public participation processes utilizing the procedures of subsection (d) of this section.

SEC. 7. [16 U.S.C. 1605] COOPERATION IN RESOURCE PLANNING.—The Secretary of Agriculture may utilize the Assessment, resource surveys, and Program prepared pursuant to this Act to assist States and other organizations in proposing the planning for the protection, use, and management of renewable resources on non-Federal land.

SEC. 8. [16 U.S.C. 1606] NATIONAL PARTICIPATION.—(a) On the date Congress first convenes in 1976 and thereafter following each updating of the Assessment and the Program, the President shall transmit to the Speaker of the House of Representatives and the President of the Senate, when Congress convenes, the Assessment as set forth in section 3 of this Act and the Program as set forth in section 4 of this Act, together with a detailed Statement of Policy intended to be used in framing budget requests by that Administration for Forest Service activities for the five- or ten-year program period beginning during the term of such Congress for such further action deemed appropriate by the Congress. Following the transmission of such Assessment, Program, and Statement of Policy, the President shall, subject to other actions of the Congress, carry out programs already established by law in accordance with such Statement of Policy or any subsequent amendment or modification thereof approved by the Congress, unless, before the end of the first period of ninety calendar days of continuous session of Congress after the date on which the President of the Senate and the Speaker of the House are recipients of the transmission of such Assessment, Program, and Statement of Policy, either House adopts a resolution reported by the appropriate committee of jurisdiction disapproving the Statement of Policy. For the purpose of this subsection, the continuity of a session shall be deemed to be broken only by an adjournment since die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain shall be excluded in the computation of the ninety-day period. Notwithstanding any other provision of this Act, Congress may revise or modify the Statement of Policy transmitted by the President, and the revised or modified Statement of Policy shall be used in framing budget requests.

(b) Commencing with the fiscal budget for the year ending September 30, 1977, requests presented by the President to the Congress governing Forest Service activities shall express in qualitative and quantitative terms the extent to which the programs and policies projected under the budget meet the policies approved by the Congress in accordance with subsection (a) of this section. In any case in which such budget so presented recommends a course which fails to meet the policies so established, the President shall specifically set forth the reason or reasons for requesting the Congress to approve the lesser programs or policies presented. Amounts appropriated to carry out the policies approved in accordance with subsection (a) of this section shall be expended in accord-

ance with the Congressional Budget and Impoundment Control Act of 1974, Public Law 93-344.

(c) For the purpose of providing information that will aid Congress in its oversight responsibilities and improve the accountability of agency expenditures and activities, the Secretary of Agriculture shall prepare an annual report which evaluates the component elements of the Program required to be prepared by section 4 of this Act which shall be furnished to the Congress at the time of submission of the annual fiscal budget commencing with the third fiscal year after the enactment of their Act. With regard to the research component of the program, the report shall include, but not be limited to, a description of the status of major research programs, significant findings, and how these findings will be applied in National Forest System and in cooperative State and private Forest Service programs. With regard to the cooperative forestry assistance part of the Program, the report shall include, but not be limited to, a description of the status, accomplishments, needs, and work backlogs for the programs and activities conducted under the Cooperative Forestry Assistance Act of 1978.

(d) These annual evaluation reports shall set forth progress in implementing the Program required to be prepared by section 4 of this Act, together with accomplishments of the Program as they relate to the objectives of the Assessment. Objectives should be set forth in qualitative and quantitative terms and accomplishments should be reported accordingly. The report shall contain appropriate measurements of pertinent costs and benefits. The evaluation shall assess the balance between economic factors and environmental quality factors. Program benefits shall include, but not be limited to, environmental quality factors such as esthetics, public access, wildlife habitat, recreational and wilderness use, and economic factors such as the excess of cost savings over the value of foregone benefits and the rate of return on renewable resources.

(e) The reports shall indicate plans for implementing corrective action and recommendations for new legislation where warranted.

(f) The reports shall be structured for Congress in concise summary form with necessary detailed data in appendices.

SEC. 9. [16 U.S.C. 1607] NATIONAL FOREST SYSTEM PROGRAM ELEMENTS.—The Secretary of Agriculture shall take such action as will assure that the development and administration of the renewable resources of the National Forest System are in full accord with the concepts for multiple use and sustained yield of products and services as set forth in the Multiple-Uses Sustained-Yield Act of 1960. To further these concepts, the Congress hereby sets the year 2000 as the target year when the renewable resources of the National Forest System shall be in an operating posture whereby all backlogs of needed treatment for their restoration shall be reduced to a current basis and the major portion of planned intensive multiple-use sustained-yield management procedures shall be installed and operating on an environmentally-sound basis. The annual budget shall contain requests for funds for an orderly program to eliminate such backlogs: *Provided*, That when the Secretary finds that (1) the backlog of areas that will benefit by such treatment has been eliminated. (2) the cost of treating the remainder of such

area exceeds the economic and environmental benefits to be secured from their treatment, or (3) the total supplies of the renewable resources of the United States are adequate to meet the future needs of the American people, the budget request for these elements of restoration may be adjusted accordingly.

SEC. 10. [16 U.S.C. 1608] TRANSPORTATION SYSTEM.—(a) The Congress declares that the installation of a proper system or transportation to service the National Forest System, as is provided for in Public Law 88-657, the Act of October 13, 1964 (16 U.S.C. 532-538), shall be carried forward in time to meet anticipated needs on an economical and environmentally sound basis, and the method chosen for financing the construction and maintenance of the transportation system should be such as to enhance local, regional, and national benefits¹, except that the financing of forest development roads as authorized by clause (2) of section 4 of the Act of October 13, 1964, shall be deemed “budget authority” and “budget outlays” as those are defined in section 3(a) of the Congressional Budget and Impoundment Control Act of 1974 and shall be effective for any fiscal year only in the manner required for new spending authority as specified by section 401(a) of that Act.

(b) Unless the necessity for a permanent road is set forth in the forest development road system plan, any road constructed on land of the National Forest System in connection with a timber contract or other permit or lease shall be designed with the goal of reestablishing vegetative cover on the roadway and areas where the vegetative cover has been disturbed by the construction of the road, within ten years after the termination of the contract, permit, or lease either through artificial or natural means. Such action shall be taken unless it is later determined that the road is needed for use as a part of the National Forest Transportation System.

(c) Roads constructed on National Forest System lands shall be designed to standards appropriate for the intended uses, considering safety, cost of transportation, and impacts on land and resources.

SEC. 11. [16 U.S.C. 1609] (a) NATIONAL FOREST SYSTEM DEFINED.—Congress declares that the National Forest System consists of units of federally owned forest, range, and related lands throughout the United States and its territories, united into a nationally significant system dedicated to the long-term benefit for present and future generations, and that it is the purpose of this section to include all such areas into one integral system. The “National Forest System” shall include all national forest lands reserved or withdrawn from the public domain of the United States, all national forest lands acquired through purchase, exchange, donation, or other means, the national grasslands and land utilization projects administered under title III of the Bankhead-Jones

¹The paragraph under the heading “CONSTRUCTION AND LAND ACQUISITION” in title II of Public Law 97-100, approved December 23, 1981 (95 Stat. 1405), sought to amend this section by striking all after “benefits” and inserting “: *Provided*, That limitations on the level of obligations for construction of forest roads by timber purchasers shall be established in annual appropriation Acts.” However, the amendment was mistakenly drafted to section 9 rather than section 10 of this Act. This section was originally section 9 until redesignated by section 2 of Public Law 94-588 (90 Stat. 2949). Consequently, the amendment could not be executed.

Farm Tenant Act (50 Stat. 525, 7 U.S.C. 1010-1012), and other lands, waters, or interests therein which are administered by the Forest Service or are designated for administration through the Forest Service as a part of the system. Notwithstanding the provisions of the Act of June 4, 1897 (30 Stat. 34; 16 U.S.C. 473), no land now or hereafter reserved or withdrawn from the public domain as national forests pursuant to the Act of March 3, 1891 (26 Stat. 1103; 16 U.S.C. 471), or any act supplementary to and amendatory thereof, shall be returned to the public domain except by an act of Congress.

(b) The on-the-ground held offices, field supervisory offices, and regional offices of the Forest Service shall be so situated as to provide the optimum level of convenient, useful services to the public, giving priority to the maintenance and location of facilities in rural areas and towns near the national forest and Forest Service program locations in accordance with the standards in section 901(b) of the Act of November 30, 1970 (84 Stat. 1383), as amended.

SEC. 12. [16 U.S.C. 1610] RENEWABLE RESOURCES.—In carrying out this Act, the Secretary of Agriculture shall utilize information and data available from other Federal, State, and private organizations and shall avoid duplication and overlap of resource assessment and program planning efforts of other Federal agencies. The term “renewable resources” shall be construed to involve those matters within the scope of responsibilities and authorities of the Forest Service on the date of this Act and on the date of enactment of any legislation amendatory or supplementary thereto.

SEC. 13. [16 U.S.C. 1611] LIMITATIONS ON TIMBER REMOVAL.—(a) Secretary of Agriculture shall limit the sale of timber from each national forest to a quantity equal to or less than a quantity which can be removed from such forest annually in perpetuity on a sustained-yield basis: *Provided*, That, in order to meet overall multiple-use objectives, the Secretary may establish an allowable sale quantity for any decade which departs from the projected long-term average sale quantity that would otherwise be established: *Provided further*, That any such planned departure must be consistent with the multiple-use management objectives of the land management plan. Plans for variations in the allowable sale quantity must be made with public participation as required by section 6(d) of this Act. In addition, within any decade, the Secretary may sell a quantity in excess of the annual allowable sale quantity established pursuant to this section in the case of any national forest so long as the average sale quantities of timber from such national forest over the decade covered by the plan do not exceed such quantity limitation. In those cases where a forest has less than two hundred thousand acres of commercial forest land, the Secretary may use two or more forests for purposes of determining the sustained yield.

(b) Nothing in subsection (a) of this section shall prohibit the Secretary from salvage or sanitation harvesting of timber stands which are substantially damaged by fire, windthrow, or other catastrophe, or which are in imminent danger from insect or disease attack. The Secretary may either substitute such timber for

timber that would otherwise be sold under the plan or, if not feasible, sell such timber over and above the plan volume.

SEC. 14. [16 U.S.C. 1612] PUBLIC PARTICIPATION AND ADVISORY BOARDS.—(a) In exercising his authorities under this Act and other laws applicable to the Forest Service, the Secretary, by regulation, shall establish procedures, including public hearings where appropriate, to give the Federal, State, and local governments and the public adequate notice and an opportunity to comment upon the formulation of standards, criteria, and guidelines applicable to Forest Service programs.

(b) In providing for public participation in the planning for and management of the National Forest System, the Secretary, pursuant to the Federal Advisory Committee Act (86 Stat. 770) and other applicable law, shall establish and consult such advisory boards as he deems necessary to secure full information and advice on the execution of his responsibilities. The membership of such boards shall be representative of a cross section of groups interested in the planning for and management of the National Forest System and the various types of use and enjoyment of the lands thereof.

SEC. 15. [16 U.S.C. 1613] REGULATIONS.—The Secretary of Agriculture shall prescribe such regulations as he determines necessary and desirable to carry out the provisions of this Act.

SEC. 16. [16 U.S.C. 1614] SEVERABILITY.—If any provision of this Act or the application thereof to any person or circumstances is held invalid, the validity of the remainder of the Act and of the application of such provision to other persons and circumstances shall not be affected thereby.

TIMBER SALES ON NATIONAL FOREST SYSTEM LANDS

SEC. 14. [16 U.S.C. 472a] (a) For the purpose of achieving the policies set forth in the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C. 528-531) and the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 476; 16 U.S.C. 1601-1610), the Secretary of Agriculture, under such rules and regulations as he may prescribe, may sell, at not less than appraised value, trees, portions of trees, or forest products located on National Forest System lands.

(b) All advertised timber sales shall be designated on maps, and a prospectus shall be available to the public and interested potential bidders.

(c) The length and other terms of the contract shall be designed to promote orderly harvesting consistent with the principles set out in section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended. Unless there is a finding by the Secretary of Agriculture that better utilization of the various forest resources (consistent with the provisions of the Multiple-Use Sustained-Yield Act of 1960) will result, sales contracts shall be for a period not to exceed ten years: *Provided*, That such period may be adjusted at the discretion of the Secretary to provide additional time due to time delays caused by an act of an agent of the United States or by other circumstances beyond the control of the purchaser. The Secretary shall require the purchaser to file as soon as practicable after execution of a contract for any advertised sale with a term of two years or more, a plan of operation, which shall be subject to concurrence by the Secretary. The Secretary shall not extend any contract period with an original term of two years or more unless he finds (A) that the purchaser has diligently performed in accordance with an approved plan of operation or (B) that the substantial overriding public interest justifies the extension.

¹ Most of this Act consisted of amendments to the Forest and Rangeland Renewable Resources Planning Act of 1974.

(d) The Secretary of Agriculture shall advertise all sales unless he determines that extraordinary conditions exist, as defined by regulation, or that the appraised value of the sale is less than \$10,000. If, upon proper offering, no satisfactory bid is received for a sale, or the bidder fails to complete the purchase, the sale may be offered and sold without further advertisement.

(e)(1) In the sale of trees, portions of trees, or forest products from National Forest System lands (hereinafter referred to in this subsection as "national forest materials"), the Secretary of Agriculture shall select the bidding method or methods which—

(A) insure open and fair competition;

(B) insure that the Federal Government receive not less than the appraised value as required by subsection (a) of this section;

(C) consider the economic stability of communities whose economies are dependent on such national forest materials, or achieve such other objectives as the Secretary deems necessary; and

(D) are consistent with the objectives of this Act and other Federal statutes.

The Secretary shall select or alter the bidding method or methods as he determines necessary to achieve the objectives stated in clauses (A), (B), (C), and (D) of this paragraph.

(2) In those instances when the Secretary selects oral auction as the bidding method for the sale of any national forest materials, he shall require that all prospective purchasers submit written sealed qualifying bids. Only prospective purchasers whose written sealed qualifying bids are equal to or in excess of the appraised value of such national forest materials may participate in the oral bidding process.

(3) The Secretary shall monitor bidding patterns involved in the sale of national forest materials. If the Secretary has a reasonable belief that collusive bidding practices may be occurring, then—

(A) he shall report any such instances of possible collusive bidding or suspected collusive bidding practices to the Attorney General of the United States with any and all supporting data;

(B) he may alter the bidding methods used within the affected area; and

(C) he shall take such other action as he deems necessary to eliminate such practices within the affected area.

(f) The Secretary of Agriculture, under such rules and regulations as he may prescribe, is authorized to dispose of, by sale or otherwise, trees, portions of trees, or other forest products related to research and demonstration projects.

(g) Designation, marking when necessary, and supervision of harvesting of trees, portions of trees, or forest products shall be conducted by persons employed by the Secretary of Agriculture. Such persons shall have no personal interest in the purchase or harvest of such products and shall not be directly or indirectly in the employment of the purchaser thereof.

(h) The Secretary of Agriculture shall develop utilization standards methods of measurement, and harvesting practices for the removal of trees, portions of trees, or forest products to provide for the optimum practical use of the wood material. Such standards,

methods, and practices shall reflect consideration of opportunities to promote more effective wood utilization, regional conditions, and species characteristics and shall be compatible with multiple use resource management objectives in the affected area. To accomplish the purpose of this subsection in situations involving salvage of insect-infested, dead, damaged, or down timber, and to remove associated trees for stand improvement, the Secretary is authorized to require the purchasers of such timber to make monetary deposits, as a part of the payment for the timber, to be deposited in a designated fund from which sums are to be used, to cover the cost to the United States for design, engineering, and supervision of the construction of needed roads and the cost for Forest Service sale preparation and supervision of the harvesting of such timber. Deposits of money pursuant to this subsection are to be available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: *Provided*, That such deposits shall not be considered as moneys received from the national forests within the meaning of sections 500 and 501 of title 16, United States Code: *And provided further*, That sums found to be in excess of the cost of accomplishing the purposes for which deposited on any national forest shall be transferred to miscellaneous receipts in the Treasury of the United States.

(i)(1) For sales of timber which include a provision for purchaser credit for construction of permanent roads with an estimated cost in excess of \$20,000, the Secretary of Agriculture shall promulgate regulations requiring that the notice of sale afford timber purchasers qualifying as "small business concerns" under the Small Business Act, as amended, and the regulations issued thereunder, an estimate of the cost and the right, when submitting a bid, to elect that the Secretary build the proposed road.

(2) If the purchaser makes such an election, the price subsequently paid for the timber shall include all of the estimated cost of the road. In the notice of sale, the Secretary of Agriculture shall set a date when such road shall be completed which shall be applicable to either construction by the purchaser or the Secretary, depending on the election. To accomplish requested work, the Secretary is authorized to use from any receipts from the sale of timber a sum equal to the estimate for timber purchaser credits, and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to construct a road that meets the standards specified in the notice of sale.

(3) The provisions of this subsection shall become effective on October 1, 1976.

6. COOPERATIVE FORESTRY ASSISTANCE ACT OF 1978
[As Amended Through Public Law 106-580, Dec. 31, 2000]

6. COOPERATIVE FORESTRY ASSISTANCE ACT OF 1978

(Public Law 95-313; Approved July 1, 1978)

AN ACT To authorize the Secretary of Agriculture to provide cooperative forestry assistance to States and others, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Cooperative Forestry Assistance Act of 1978".

SEC. 2. [16 U.S.C. 2101] FINDINGS, PURPOSE, AND POLICY.

(a) FINDINGS.—Congress finds that—

(1) most of the productive forest land of the United States is in private, State, and local governmental ownership, and the capacity of the United States to produce renewable forest resources is significantly dependent on such non-Federal forest lands;

(2) adequate supplies of timber and other forest resources are essential to the United States, and adequate supplies are dependent on efficient methods for establishing, managing, and harvesting trees and processing, marketing, and using wood and wood products;

(3) nearly one-half of the wood supply of the United States comes from nonindustrial private timberlands and such percentage could rise with expanded assistance programs;

(4) managed forest lands provide habitats for fish and wildlife, as well as aesthetics, outdoor recreation opportunities, and other forest resources;

(5) the soil, water, and air quality of the United States can be maintained and improved through good stewardship of privately held forest resources;

(6) insects and diseases affecting trees occur and sometimes create emergency conditions on all land, whether Federal or non-Federal, and efforts to prevent and control such insects and diseases often require coordinated action by both Federal and non-Federal land managers;

(7) fires in rural areas threaten human lives, property, forests and other resources, and Federal-State cooperation in forest fire protection has proven effective and valuable;

(8) trees and forests are of great environmental and economic value to urban areas;

(9) managed forests contribute to improving the quality, quantity, and timing of water yields that are of broad benefit to society;

(10) over half the forest lands of the United States are in need of some type of conservation treatment;

(11) forest landowners are being faced with increased pressure to convert their forest land to development and other purposes;

(12) increased population pressures and user demands are being placed on private, as well as public, landholders to provide a wide variety of products and services, including fish and wildlife habitat, aesthetic quality, and recreational opportunities;

(13) stewardship of privately held forest resources requires a long-term commitment that can be fostered through local, State, and Federal governmental actions;

(14) the Department of Agriculture, through the coordinated efforts of its agencies with forestry responsibilities, cooperating with other Federal agencies, State foresters, and State political subdivisions, has the expertise and experience to assist private landowners in achieving individual goals and public benefits regarding forestry;

(15) the products and services resulting from nonindustrial private forest land stewardship provide income and employment that contribute to the economic health and diversity of rural communities; and

(16) sustainable agroforestry systems and tree planting in semiarid lands can improve environmental quality and maintain farm yields and income.

[(18)¹ the same forest resource supply, protection, and management issues that exist in the United States are also present on an international scale, and the forest and rangeland renewable resources of the world are threatened by deforestation due to conversion to agriculture of lands better suited to other purposes, over-grazing, over-harvesting, and other causes which pose a direct adverse threat to people, the global environment, and the world economy.]

(b) PURPOSE.—It is the purpose of this Act to authorize the Secretary of Agriculture (hereafter in this Act referred to as the “Secretary”), with respect to non-Federal forest lands² of the United States, to assist in—

(1) the establishment of a coordinated and cooperative Federal, State, and local forest stewardship program for management of the non-Federal forest lands;

(2) the encouragement of the production of timber;

(3) the prevention and control of insects and diseases affecting trees and forests;

¹ Section 607(b)(1)(C) of Public Law 101-513 (104 Stat. 2072) amended section 2(a) of the Cooperative Forestry Assistance Act of 1978 by adding at the end paragraph (18). Public Law 101-513, also known as the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1991, was approved on November 5, 1990. On November 28, 1990, section 1212 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 3521) amended section 2 in its entirety without taking into account the recent amendments made by Public Law 101-513. Consequently, paragraph (18) no longer appears in the text of section 2(a).

² Note regarding subsection (b): Section 607(b)(2) of Public Law 101-513 (104 Stat. 2072, approved November 5, 1990) attempted to amend section 2(b) of the Cooperative Forestry Assistance Act of 1978 by inserting “in the United States, and forest lands in foreign countries,” after “non-Federal forest lands,” the first place it appears and in paragraph (10). Two problems prevent execution of the amendment. First, a comma does not appear in the phrase “non-Federal forest lands”. Second, even if the comma appeared, section 1212 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 3521) amended section 2 in its entirety on November 28, 1990, without taking into account the recent amendments made by Public Law 101-513.

(c) **POLICY.**—It is the policy of Congress that it is in the national interest for the Secretary to work through and in cooperation with State foresters, or equivalent State officials, nongovernmental organizations, and the private sector in implementing Federal programs affecting non-Federal forest lands.

(d) **CONSTRUCTION.**—This Act shall be construed to complement the policies and direction under the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1600 et seq.).

(E) protecting and improving forest soil fertility and the quality, quantity, and timing of water yields; and

(F) encouraging the investment of a portion of the proceeds from the sale of timber or other forest resources in stewardship activities that preserve, protect, maintain, and enhance their forest land.

(b) STATE FORESTRY ASSISTANCE.—The Secretary is authorized to provide financial, technical, and related assistance to State foresters, or equivalent State officials, to—

(1) develop genetically improved tree seeds;

(c) IMPLEMENTATION.—In implementing this section, the Secretary shall cooperate with other Federal, State, and local natural resource management agencies, universities and the private sector.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

FORESTRY INCENTIVES

SEC. 4. [16 U.S.C. 2103] (a) The Secretary is authorized to develop and implement a forestry incentives program to encourage the development, management, and protection of nonindustrial private forest lands. The purposes of such program shall be to encourage landowners to apply practices that will provide for afforestation of suitable open lands, reforestation of cutover or other nonstocked or understocked forest lands, timber stand improvement practices, including thinning, prescribed burning, and other silvicultural treatments, and forest resources management and protection, so as to provide for the production of timber and other forest resources associated therewith.

(b) For the purposes of this section, the term "private forest land" means land capable of producing crops of industrial wood and owned by any private individual, group, Indian tribe or other native group, association, corporation, or other legal entity.

(c) Landowners shall be eligible for cost sharing under this program if they own one thousand acres or less of private forest land, except that the Secretary may approve cost sharing with landowners owning more than one thousand acres of such land if significant public benefits will accrue. In no case, however, may the Secretary approve cost sharing with landowners owning more than five thousand acres of private forest land.

(d) The Secretary shall administer this section in accordance with regulations the Secretary shall develop in consultation with the committee described in section 13(c) of this Act. Regulations issued under title X of the Agricultural Act of 1970, as in effect before the amendment made by section 336(d)(1) of the Federal Agriculture Improvement and Reform Act of 1996, to the extent not inconsistent with the provisions of this section, shall remain in effect until revoked or amended by regulations issued under this subsection. The regulations issued under this subsection shall include guidelines for the administration of this section at the Federal and State levels, and shall identify the measures and activities eligible for cost sharing under this section.

(e) Individual forest management plans developed by the landowner in cooperation with and approved by the State forester or equivalent State official shall be the basis for agreements between the landowners and the Secretary under this section. The Secretary shall encourage participating States to use private agencies, consultants, organizations, and firms to the extent feasible for the preparation of individual forest management plans.

(f) In return for the agreement by the landowner, the Secretary shall agree to share the cost of implementing those forestry practices and measures set forth in the agreement for which the Secretary determines that cost sharing is appropriate. The portion of such cost (including labor) to be shared shall be that portion that the Secretary determines is necessary and appropriate to implement the forestry practices and measures under the agreement, but not more than 75 percent of the actual costs incurred by the landowner. The maximum amount any individual may receive annually under the program authorized by this section shall be determined

by the Secretary in consultation with the committee described in section 13(c) of this Act.

(g) The Secretary shall, for the purposes of this section, distribute funds available for cost sharing among the States only after assessing the public benefit incident thereto, and after giving appropriate consideration to (1) the acreage of private commercial forest land in each State, (2) the potential productivity of such land, (3) the number of ownerships eligible for cost sharing in each State, (4) the need for reforestation, timber stand improvement, or other forestry investments on such ownerships, and (5) the enhancement of other forest resources.

(h) The Secretary may, if the Secretary determines that doing so will contribute to the effective and equitable administration of the program authorized by this section, use an advertising and bid procedure in determining the lands in any area to be covered by agreements under this section.

(i) In implementing this section, the Secretary may use the authorities provided in section 1001, 1002, 1003, 1004, and 1008 of the Agricultural Act of 1970, as in effect before the amendment made by section 336(d)(1) of the Federal Agriculture Improvement and Reform Act of 1996.

(j) There are hereby authorized to be appropriated for each of fiscal years 1996 through 2002 such sums as may be needed to implement this section, including funds necessary for technical assistance and expenses associated therewith.

SEC. 5. [16 U.S.C. 2103a] FOREST STEWARDSHIP PROGRAM.

(a) **ESTABLISHMENT.**—The Secretary, in consultation with State foresters or equivalent State officials, shall establish a Forest Stewardship Program (hereafter referred to in this section as the “Program”) to encourage the long-term stewardship of nonindustrial private forest lands by assisting owners of such lands to more actively manage their forest and related resources by utilizing existing State, Federal, and private sector resource management expertise and assistance programs.

(b) **GOAL.**—The goal of the Program shall be to enter at least 25,000,000 acres of nonindustrial private forest lands in the Program by December 31, 1995.

(c) **DEFINITION.**—For the purposes of this section, the term “nonindustrial private forest lands” means rural, as determined by the Secretary, lands with existing tree cover, or suitable for growing trees, and owned by any private individual, group, association, corporation, Indian tribe, or other private legal entity.

(d) **IMPLEMENTATION.**—In carrying out the Program the Secretary, in consultation with State foresters or equivalent State officials, shall provide financial, technical, educational, and related assistance to State foresters or equivalent State officials, including assistance to help such State foresters or equivalent officials to provide financial assistance to other State and local natural resource entities, both public and private, and land-grant universities for the delivery of information and professional assistance to owners of nonindustrial private forest lands. Such information and assistance shall be directed to help such owners understand and evaluate alternative actions they might take, including—

(1) managing and enhancing the productivity of timber, fish and wildlife habitat, water quality, wetlands, recreational resources, and the aesthetic value of forest lands;

(2) investing in practices to protect, maintain, and enhance the resources identified in paragraph (1);

(3) ensuring that afforestation, reforestation, improvement of poorly stocked stands, timber stand improvement, practices necessary to improve seedling growth and survival, and growth enhancement practices occur where needed to enhance and sustain the long-term productivity of timber and nontimber forest resources to help meet future public demand for all forest resources and provide the environmental benefits that result; and

(4) protecting their forests from damage caused by fire, insects, disease, and damaging weather.

(e) **ELIGIBILITY.**—All nonindustrial private forest lands that are not in management under Federal, State, or private sector financial and technical assistance programs existing on the date of enactment of this section are eligible for assistance under the Program. Nonindustrial private forest lands that are managed under such existing programs are eligible for assistance under the Program if forest management activities are expanded and enhanced and the landowner agrees to meet the requirements of this Act.

(f) **DUTIES OF OWNERS.**—To enter forest land into the Program, landowners shall—

(1) prepare and submit to the State forester or equivalent State official a forest stewardship plan that meets the requirements of this section and that—

(A) is prepared by a professional resource manager;

(B) identifies and describes actions to be taken by the landowner to protect soil, water, range, aesthetic quality, recreation, timber, water, and fish and wildlife resources on such land in a manner that is compatible with the objectives of the landowner; and

(C) is approved by the State forester, or equivalent State official; and

(2) agree that all activities conducted on such land shall be consistent with the stewardship plan.

(g) **STEWARDSHIP RECOGNITION.**—The Secretary, in consultation with State foresters or equivalent State officials, is encouraged to develop an appropriate recognition program for landowners who practice stewardship management on their lands, with an appropriate, special recognition symbol and title.

(h) **AUTHORIZATION OF APPROPRIATIONS.**—There are hereby authorized to be appropriated \$25,000,000 for each of the fiscal years 1991 through 1995, and such sums as may be necessary thereafter, to carry out this section.

SEC. 6. [16 U.S.C. 2103b] STEWARDSHIP INCENTIVE PROGRAM.

(a) **ESTABLISHMENT.**—The Secretary, in consultation with State foresters or equivalent State officials, shall establish a program within the Forest Service, to be known as the “Stewardship Incentive Program” (hereafter referred to in this section as the “Program”), to meet the objectives and goals of section 5.

(b) ELIGIBILITY.—

(1) IN GENERAL.—Owners of nonindustrial private forest lands shall be eligible for cost-sharing assistance under the Program if such owners—

(A) have developed an approved forest stewardship plan pursuant to section 5(f);

(B) agree to implement approved activities pursuant to paragraph (4) in accordance with the plan for a period of not less than 10 years unless the State forester or equivalent State official approves a modification to such plan; and

(C) own not more than 1,000 acres of nonindustrial private forest land, except that the Secretary may approve the provision of cost-sharing assistance to landowners that own more than 1,000 acres of such land if the Secretary determines that significant public benefits will accrue from such approval.

(2) LIMITATION.—

(A) SECRETARY.—The Secretary shall not approve of the provision of cost-sharing assistance to any landowner owning in excess of 5,000 acres of nonindustrial private forest land.

(B) LANDOWNER.—A landowner shall not receive cost-share assistance for management on acreage under this section if such landowner receives cost-share assistance on the same acreage under section 4.

(3) STATE PRIORITIES.—The Secretary in consultation with the State forester, or equivalent State official, other State natural resource management agencies, and the State Coordinating Committee established pursuant to section 19(b), may develop State priorities for cost sharing under this section that will promote unique forest management objectives in that State.

(4) APPROVED ACTIVITIES.—

(A) DEVELOPMENT.—The Secretary, in consultation with the State Coordinating Committees established pursuant to section 19(b), shall develop a list of approved forest activities and practices that will be eligible for cost-share assistance under the Program within each State.

(B) TYPE OF ACTIVITIES.—The Secretary, in developing a list of approved activities and practices under subparagraph (A), shall attempt to achieve landowner and public purposes including—

(i) the establishment, management, maintenance, and restoration of forests for shelterbelts, windbreaks, aesthetic quality, and other conservation purposes;

(ii) the sustainable growth and management of forests for timber production;

(iii) the protection, restoration, and use of forest wetlands;

(iv) the enhanced management and maintenance of native vegetation on other lands vital to water quality;

- (v) the growth and management of trees for energy conservation purposes;

- (vii) the management of outdoor recreational opportunities; and
- (viii) other activities approved by the Secretary.

(c) REIMBURSEMENT OF ELIGIBLE ACTIVITIES.—

(1) IN GENERAL.—The Secretary shall share the cost of developing and carrying out the forest stewardship plan under section 5(f), and in implementing the approved activities that the Secretary determines are appropriate and in the public interest, with a landowner who has entered in an agreement to place the forest land of such owner into the Program.

(2) RATE.—The Secretary, in consultation with the State forester, or equivalent State official, shall determine the appropriate reimbursement rate for cost-share payments under paragraph (1) and the schedule for making such payments.

(3) MAXIMUM.—The Secretary shall not make cost-share payments under this subsection to a landowner in an amount in excess of 75 percent of the total cost to such landowner of developing the forest stewardship plan and implementing eligible activities under the plan. The maximum payments to any one landowner shall be determined by the Secretary.

(d) RECAPTURE.—

(1) IN GENERAL.—The Secretary shall establish and implement a mechanism to recapture payments made to a landowner in the event that the landowner fails to implement any approved activity specified in the forest stewardship plan for which such owner received cost-share payments.

(2) ADDITIONAL PROVISION.—The provisions of paragraph (1) are in addition to any other provision available.

(e) DISTRIBUTION.—The Secretary shall distribute funds available for cost sharing under this section among the States only after assessing the public benefit incident to such distribution and after giving appropriate consideration to—

(5) the opportunities to enhance nontimber resources on such forest lands; and

(6) the anticipated demand for timber and nontimber resources in each State.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated \$100,000,000 for each of the fiscal years 1991 through 1995, and such sums as may be necessary thereafter, to carry out this section.

SEC. 7. [16 U.S.C. 2103c] FOREST LEGACY PROGRAM.

(a) ESTABLISHMENT AND PURPOSE.—The Secretary shall establish a program, to be known as the Forest Legacy Program, in co-

operation with appropriate State, regional, and other units of government for the purposes of ascertaining and protecting environmentally important forest areas that are threatened by conversion to nonforest uses and, through the use of conservation easements and other mechanisms, for promoting forest land protection and other conservation opportunities. Such purposes shall also include the protection of important scenic, cultural, fish, wildlife, and recreational resources, riparian areas, and other ecological values.

(b) STATE AND REGIONAL FOREST LEGACY PROGRAMS.—The Secretary shall exercise the authority under subsection (a) in conjunction with State or regional programs that the Secretary deems consistent with this section.

(c) INTERESTS IN LAND.—In addition to the authorities granted under section 6 of the Act of March 1, 1911 (16 U.S.C. 515), and section 11(a) of the Department of Agriculture Organic Act of 1956 (7 U.S.C. 428a(a)), the Secretary may acquire from willing landowners lands and interests therein, including conservation easements and rights of public access, for Forest Legacy Program purposes. The Secretary shall not acquire conservation easements with title held in common ownership with any other entity.

(d) IMPLEMENTATION.—

(1) IN GENERAL.—Lands and interests therein acquired under subsection (c) may be held in perpetuity for program and easement administration purposes as the Secretary may provide. In administering lands and interests therein under the program, the Secretary shall identify the environmental values to be protected by entry of the lands into the program, management activities which are planned and the manner in which they may affect the values identified, and obtain from the landowner other information determined appropriate for administration and management purposes.

(2) INITIAL PROGRAMS.—Not later than November 28, 1991, the Secretary shall establish a regional program in furtherance of the Northern Forest Lands Study in the States of New York, New Hampshire, Vermont, and Maine under Public Law 100-446. The Secretary shall establish additional programs in each of the Northeast, Midwest, South, and Western regions of the United States, and the Pacific Northwest (including the State of Washington), on the preparation of an assessment of the need for such programs.

(e) ELIGIBILITY.—Not later than November 28, 1991, and in consultation with State Forest Stewardship Coordinating Committees established under section 19(b) and similar regional organizations, the Secretary shall establish eligibility criteria for the designation of forest areas from which lands may be entered into the Forest Legacy Program and subsequently select such appropriate areas. To be eligible, such areas shall have significant environmental values or shall be threatened by present or future conversion to nonforest uses. Of land proposed to be included in the Forest Legacy Program, the Secretary shall give priority to lands which can be effectively protected and managed, and which have important scenic or recreational values; riparian areas; fish and wildlife values, including threatened and endangered species; or other ecological values.

(f) APPLICATION.—For areas included in the Forest Legacy Program, an owner of lands or interests in lands who wishes to participate may prepare and submit an application at such time in such form and containing such information as the Secretary may prescribe. The Secretary shall give reasonable advance notice for the submission of all applications to the State forester, equivalent State official, or other appropriate State or regional natural resource management agency. If applications exceed the ability of the Secretary to fund them, priority shall be given to those forest areas having the greatest need for protection pursuant to the criteria described in subsection (e).

(g) STATE CONSENT.—Where a State has not approved the acquisition of land under section 6 of the Act of March 1, 1911 (16 U.S.C. 515), the Secretary shall not acquire lands or interests therein under authority granted by this section outside an area of that State designated as a part of a program established under subsection (b).

(h) FOREST MANAGEMENT ACTIVITIES.—

(1) IN GENERAL.—Conservation easements or deed reservations acquired or reserved pursuant to this section may allow forest management activities, including timber management, on areas entered in the Forest Legacy Program insofar as the Secretary deems such activities consistent with the purposes of this section.

(2) ASSIGNMENT OF RESPONSIBILITIES.—For Forest Legacy Program areas, the Secretary may delegate or assign management and enforcement responsibilities over federally owned lands and interests in lands only to another governmental entity.

(i) DUTIES OF OWNERS.—Under the terms of a conservation easement or other property interest acquired under subsection (b), the landowner shall be required to manage property in a manner that is consistent with the purposes for which the land was entered in the Forest Legacy Program and shall not convert such property to other uses. Hunting, fishing, hiking, and similar recreational uses shall not be considered inconsistent with the purposes of this program.

(j) COMPENSATION AND COST SHARING.—

(1) COMPENSATION.—The Secretary shall pay the fair market value of any property interest acquired under this section. Payments under this section shall be in accordance with Federal appraisal and acquisition standards and procedures.

(2) COST SHARING.—In accordance with terms and conditions that the Secretary shall prescribe, costs for the acquisition of lands or interests therein or project costs shall be shared among participating entities including regional organizations, State and other governmental units, landowners, corporations, or private organizations. Such costs may include, but are not limited to, those associated with planning, administration, property acquisition, and property management. To the extent practicable, the Federal share of total program costs shall not exceed 75 percent, including any in-kind contribution.

(k) EASEMENTS.—

(1) **RESERVED INTEREST DEEDS.**—As used in this section, the term “conservation easement” includes an easement utilizing a reserved interest deed where the grantee acquires all rights, title, and interests in a property, except those rights, title, and interests that may run with the land that are expressly reserved by a grantor.

(2) **PROHIBITIONS ON LIMITATIONS.**—Notwithstanding any provision of State law, no conservation easement held by the United States or its successors or assigns under this section shall be limited in duration or scope or be defeasible by—

(A) the conservation easement being in gross or appurtenant;

(B) the management of the conservation easement having been delegated or assigned to a non-Federal entity;

(C) any requirement under State law for re-recording or renewal of the easement; or

(D) any future disestablishment of a Forest Legacy Program area or other Federal project for which the conservation easement was originally acquired.

(3) **CONSTRUCTION.**—Notwithstanding any provision of State law, conservation easements shall be construed to effect the Federal purposes for which they were acquired and, in interpreting their terms, there shall be no presumption favoring the conservation easement holder or fee owner.

(1) **OPTIONAL STATE GRANTS.**—

(1) **IN GENERAL.**—The Secretary shall, at the request of a participating State, provide a grant to the State to carry out the Forest Legacy Program in the State.

(2) **ADMINISTRATION.**—If a State elects to receive a grant under this subsection—

(A) the Secretary shall use a portion of the funds made available under subsection (m), as determined by the Secretary, to provide a grant to the State; and

(B) the State shall use the grant to carry out the Forest Legacy Program in the State, including the acquisition by the State of lands and interests in lands.

(m) **APPROPRIATION.**—There are authorized to be appropriated such sums as may be necessary to carry out this section.

SEC. 8. [16 U.S.C. 2104] FOREST HEALTH PROTECTION.

(a) **IN GENERAL.**—The Secretary may protect trees and forests and wood products, stored wood, and wood in use directly on the National Forest System and, in cooperation with others, on other lands in the United States, from natural and man-made causes, to—

(1) enhance the growth and maintenance of trees and forests;

(2) promote the stability of forest-related industries and employment associated therewith through the protection of forest resources;

(3) aid in forest fire prevention and control;

(4) conserve forest cover on watersheds, shelterbelts, and windbreaks;

(5) protect outdoor recreation opportunities and other forest resources; and

(6) extend timber supplies by protecting wood products, stored wood, and wood in use.

(b) ACTIVITIES.—Subject to subsections (c), (d), and (e) and to such other conditions the Secretary may prescribe, the Secretary may, directly on the National Forest System, in cooperation with other Federal departments on other Federal lands, and in cooperation with State foresters, or equivalent State officials, subdivisions of States, agencies, institutions, organizations, or individuals on non-Federal lands—

(1) conduct surveys to detect and appraise insect infestations and disease conditions and man-made stresses affecting trees and establish a monitoring system throughout the forests of the United States to determine detrimental changes or improvements that occur over time, and report annually concerning such surveys and monitoring;

(2) determine the biological, chemical, and mechanical measures necessary to prevent, retard, control, or suppress incipient, potential, threatening, or emergency insect infestations and disease conditions affecting trees;

(3) plan, organize, direct, and perform measures the Secretary determines necessary to prevent, retard, control, or suppress incipient, potential, threatening, or emergency insect infestations and disease epidemics affecting trees;

(4) provide technical information, advice, and related assistance on the various techniques available to maintain a healthy forest and in managing and coordinating the use of pesticides and other toxic substances applied to trees and other vegetation, and to wood products, stored wood, and wood in use;

(5) develop applied technology and conduct pilot tests of research results prior to the full-scale application of such technology in affected forests;

(6) promote the implementation of appropriate silvicultural or management techniques that may improve or protect the health of the forests of the United States; and

(7) take any other actions the Secretary determines necessary to accomplish the objectives and purposes of this section.

(c) CONSENT OF ENTITY.—Operations under this section to prevent, retard, control, or suppress insects or diseases affecting forests and trees on land not controlled or administered by the Secretary shall not be conducted without the consent, cooperation, and participation of the entity having ownership of or jurisdiction over the affected land.

(d) CONTRIBUTION BY ENTITY.—No money appropriated to implement this section shall be expended to prevent, retard, control, or suppress insects or diseases affecting trees on non-Federal land until the entity having ownership of or jurisdiction over the affected land contributes, or agrees to contribute, to the work to be done in the amount and in the manner determined appropriate by the Secretary.

(e) ALLOTMENTS TO OTHER AGENCIES.—The Secretary may, in the Secretary's discretion, and out of any money appropriated to implement this section, make allocations to Federal agencies having jurisdiction over lands held or owned by the United States in the amounts the Secretary determines necessary to prevent, retard, control, or suppress insect infestations and disease epidemics affecting trees on those lands.

(f) LIMITATION ON USE OF APPROPRIATIONS.—

(1) REMOVING DEAD TREES.—No amounts appropriated shall be used to—

(A) pay the cost of felling and removing dead or dying trees unless the Secretary determines that such actions are necessary to prevent the spread of a major insect infestation or disease epidemic severely affecting trees; or

(B) compensate for the value of any property injured, damaged, or destroyed by any cause.

(2) INSECTS AND DISEASES AFFECTING TREES.—The Secretary may procure materials and equipment necessary to prevent, retard, control, or suppress insects and diseases affecting trees without regard to section 3709 of the Revised Statutes (41 U.S.C. 5), under whatever procedures the Secretary may prescribe, if the Secretary determines that such action is necessary and in the public interest.

(g) PARTNERSHIPS.—The Secretary, by contract or cooperative agreement, may provide financial assistance through the Forest Service to State foresters or equivalent State officials, and private forestry and other organizations, to monitor forest health and protect the forest lands of the United States. The Secretary shall require contribution by the non-Federal entity in the amount and in the manner determined appropriate. Such non-Federal share may be in the form of cash, services, or equipment, as determined appropriate by the Secretary.

(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated annually such sums as may be necessary to carry out subsections (a) through (g).

(i) INTEGRATED PEST MANAGEMENT.—

(A) provide cost-share assistance to such cooperators who have established an acceptable integrated pest management strategy, as determined by the Secretary, that will prevent, retard, control, or suppress gypsy moth, southern pine beetle, spruce budworm infestations, or other major insect infestations in an amount no less than 50 percent nor greater than 75 percent of the cost of implementing such strategy; and

(B) upon request, assist the cooperator in the development of such integrated pest management strategy.

(2) AUTHORIZATION OF APPROPRIATIONS.—There are hereby authorized to be appropriated annually \$10,000,000 to implement this subsection.

SEC. 9. [16 U.S.C. 2105] URBAN AND COMMUNITY FORESTRY ASSISTANCE.

(a) FINDINGS.—The Congress finds that—

(1) the health of forests in urban areas and communities, including cities, their suburbs, and towns, in the United States is on the decline;

(2) forest lands, shade trees, and open spaces in urban areas and communities improve the quality of life for residents;

(3) forest lands and associated natural resources enhance the economic value of residential and commercial property in urban and community settings;

(4) urban trees are 15 times more effective than forest trees at reducing the buildup of carbon dioxide and aid in promoting energy conservation through mitigation of the heat island effect in urban areas;

(5) tree plantings and ground covers such as low growing dense perennial turfgrass sod in urban areas and communities can aid in reducing carbon dioxide emissions, mitigating the heat island effect, and reducing energy consumption, thus contributing to efforts to reduce global warming trends;

(6) efforts to encourage tree plantings and protect existing open spaces in urban areas and communities can contribute to the social well-being and promote a sense of community in these areas; and

(7) strengthened research, education, technical assistance, and public information and participation in tree planting and maintenance programs for trees and complementary ground covers for urban and community forests are needed to provide for the protection and expansion of tree cover and open space in urban areas and communities.

(b) PURPOSES.—The purposes of this section are to—

(1) improve understanding of the benefits of preserving existing tree cover in urban areas and communities;

(2) encourage owners of private residences and commercial properties to maintain trees and expand forest cover on their properties;

(3) provide education programs and technical assistance to State and local organizations (including community associations and schools) in maintaining forested lands and individual trees in urban and community settings and identifying appropriate tree species and sites for expanding forest cover;

(4) provide assistance through competitive matching grants awarded to local units of government, approved organizations that meet the requirements of section 501(c)(3) of the Internal Revenue Code of 1986, or other local community tree volunteer groups, for urban and community forestry projects;

(5) implement a tree planting program to complement urban and community tree maintenance and open space programs and to reduce carbon dioxide emissions, conserve energy, and improve air quality in addition to providing other environmental benefits;

(6) promote the establishment of demonstration projects in selected urban and community settings to illustrate the benefits of maintaining and creating forest cover and trees;

(7) enhance the technical skills and understanding of sound tree maintenance and arboricultural practices including practices involving the cultivation of trees, shrubs and complementary ground covers, of individuals involved in the planning, development, and maintenance of urban and community forests and trees; and

(8) expand existing research and educational efforts intended to improve understanding of—

(A) tree growth and maintenance, tree physiology and morphology, species adaptations, and forest ecology,

(B) the value of integrating trees and ground covers,

(C) the economic, environmental, social, and psychological benefits of trees and forest cover in urban and community environments, and

(D) the role of urban trees in conserving energy and mitigating the urban heat island.

(c) GENERAL AUTHORITY.—The Secretary is authorized to provide financial, technical, and related assistance to State foresters or equivalent State officials for the purpose of encouraging States to provide information and technical assistance to units of local government and others that will encourage cooperative efforts to plan urban forestry programs and to plant, protect, and maintain, and utilize wood from, trees in open spaces, greenbelts, roadside screens, parks, woodlands, curb areas, and residential developments in urban areas. In providing such assistance, the Secretary is authorized to cooperate with interested members of the public, including nonprofit private organizations. Assistance under this subsection may include, but will not be limited to, assistance in matters related to organization management, program planning and management, budget and fiscal accounting services, personnel training and management, information services, and recordkeeping. Assistance under this subsection may be extended only upon request by State foresters or equivalent State officials.

(b) To ensure that data regarding forest lands are available for and effectively presented in State and Federal natural resources planning, the Secretary is authorized to provide financial, technical, and related assistance to State foresters or equivalent State officials in the assembly, analysis, display, and reporting of State forest resources data, in the training of State forest resources planners, and in participating in natural resources planning at the State and Federal levels. The Secretary shall restrict assistance under this subsection to the implementation of the forestry aspects of State and Federal natural resources planning conducted under other laws. This subsection shall not be construed, in any way whatsoever, as extending, limiting, amending, repealing, or otherwise affecting any other law or authority.

(c) To ensure that new technology is introduced, new information is integrated into existing technology, and forest resources research findings are promptly made available to State forestry personnel, private forest landowners and managers, vendors, forest operators, wood processors, public agencies, and individuals, the Secretary is authorized to carry out a program of technology implementation.

(1) In implementing this subsection, the Secretary is authorized to work through State foresters or equivalent State officials, and, if the State forester or equivalent State official is unable to deliver these services, the Secretary is authorized to act through appropriate United States Agriculture agencies, subdivisions of States, agencies, institutions, organizations, or individuals to—

(A) strengthen technical assistance and service programs of cooperators participating in programs under this Act by applying research results and conducting pilot projects and field tests of management and utilization

(3) The Secretary shall use forest resources planning committees at National and State levels in implementing this subsection.

(d) There are hereby authorized to be appropriated annually such sums as may be needed to implement this section.

[16 U.S.C. 2108] (a) To provide flexibility in funding activities authorized under this Act, the Secretary may, upon the request of any State, consolidate the annual financial assistance payments to that State under this Act, in lieu of functional cost sharing mechanisms, formulas, or agreements. However, consolidated payments shall not include money appropriated under section 4 of this Act or money from any special Treasury fund established under this Act.

(b) Consolidation of payments made under this section shall be based upon State forest resources programs developed by State foresters or equivalent State officials, and reviewed by the Secretary.

(c) Consolidated payments to any State during any fiscal year shall not exceed the total amount of non-Federal funds expended within the State during that year to implement its State forest resources program. However, the Secretary may make payments that exceed the non-Federal amount expended for selected activities under the program, if the total Federal expenditure during any fiscal year does not exceed the total non-Federal expenditure during that year under the State forest resources program.

(d) The Secretary may make consolidated payments on the certificate of the State forester or equivalent State official that the conditions for Federal payment have been met.

(e) The Secretary shall administer this section to ensure that the use of consolidated payments does not adversely affect or eliminate any program authorized under this Act.

(f) Subject to applicable appropriation Acts, the total annual amount of financial assistance to any participating State after the enactment of this Act shall not be less than the base amount of

financial assistance provided to that State under all the provisions of law specified in section 16 of this Act during the fiscal year in which this Act is enacted. (b) Money appropriated under this Act shall remain available until expended.

(c) Requirements for the development of State forest resources programs and State participation in management assistance, planning assistance, and technology implementation, the apportionment of funds among States participating under this Act, the administrative expenses in connection with activities and programs under this Act, and the amounts to be expended by the Secretary to assist non-State cooperators under this Act, shall be determined by the Secretary in consultation with a committee of not less than five State foresters or equivalent State officials selected by a majority of the State foresters or equivalent State officials from States participating in programs under this Act. However, the Secretary need not consult with such committee regarding funds to be expended under emergency conditions that the Secretary may determine.

(d) For the purposes of this Act—

(1) The terms “United States” and “State” shall include each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and the territories and possessions of the United States;

(2) The term “forest resources” shall include esthetics, fish and wildlife, forage, outdoor recreation opportunities, timber, and water; and

(3) The term “urban forestry” means the planning, establishment, protection, and management of trees and associated plants, individually, in small groups, or under forest conditions within cities, their suburbs, and towns.

(e) The Secretary may prescribe rules and regulations, as the Secretary deems appropriate, to implement the provisions of this Act.

(f) The Secretary is authorized to make grants, agreements, contracts, and other arrangements the Secretary deems necessary to implement this Act.

(g) This Act shall be construed as supplementing all other laws relating to the Department of Agriculture and shall not be construed as limiting or repealing any existing law or authority of the Secretary, except as specifically cited in section 16 of this Act.

For the purposes of providing assistance to other countries under this subsection, the term "non-Federal forest land" shall mean any forest land and related renewable natural resources in such countries. In providing the assistance authorized under this subsection, the Secretary shall coordinate with other Federal officials, departments, agencies, or international organizations, as the President may direct. The references to "State foresters or equivalent State officials" in this Act shall not apply to the assistance provided by the Secretary to other countries under this subsection.]

SEC. 14. [16 U.S.C. 2110] STATEMENT OF LIMITATION.

This Act shall not authorize the Federal Government to regulate the use of private land or to deprive owners of land of their rights to property or to income from the sale of property, unless such property rights are voluntarily conveyed or limited by contract or other agreement. This Act does not diminish in any way the rights and responsibilities of the States and political subdivisions of States.

REPORTS

SEC. 15. [16 U.S.C. 1606 note] To ensure that Congress has adequate information to implement its oversight responsibilities and to provide accountability for expenditures and activities under this Act, section 8(c) of the Forest and Rangeland Renewable Resources Planning Act of 1974 is amended by—

(1) inserting immediately before the period at the end of the last sentence "and in cooperative State and private Forest Service programs"; and

(2) adding a new sentence at the end thereof as follows:
"With regard to the cooperative forestry assistance part of the Program, the report shall include, but not be limited to, a

¹Subsection (h) was added by section 607(b)(3) of Public Law 101-513 (104 Stat. 2072, approved November 5, 1990). The amendment was drafted in anticipation of amendments to the Cooperative Forestry Assistance Act of 1978 to be made by the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101-624; 104 Stat. 3525). Two problems arose. The anticipated amendments were changed somewhat so that the amendatory language in Public Law 101-513 refers to the wrong section and Public Law 101-624 was enacted on November 28, 1990, after the date of the enactment of Public Law 101-513. Consequently, subsection (h) does not appear in the law. The cross references in subsection (h) to other provisions of the Cooperative Forestry Assistance Act of 1978 are also wrong because of the redesignations actually made by Public Law 101-624. Paragraphs (1) through (10) of section 3(b) do not exist as section 3(b) now has only six paragraphs. Paragraphs (1) through (5) of section 7(b) probably refer to paragraphs (1) through (5) of section 8(b), or possibly to all seven paragraphs of section 8(b). Paragraphs (1) through (3) of section 9(b) either refer to section 9(b), which actually has eight paragraphs, or to section 10(b), which has four paragraphs. The former is the choice of the Law Revision Counsel while the latter is the choice of the Legislative Counsel.

description of the status, accomplishments, needs, and work backlogs for the programs and activities conducted under the Cooperative Forestry Assistance Act of 1978.”

**7. FOREST RESOURCES CONSERVATION AND SHORTAGE
RELIEF ACT OF 1990**

[As Amended Through Public Law 106-580, Dec. 31, 2000]

7. FOREST RESOURCES CONSERVATION AND SHORTAGE RELIEF ACT OF 1990

TITLE IV—EXPORTS OF UNPROCESSED TIMBER

SEC. 487. [16 U.S.C. 620 note] SHORT TITLE.

This title¹ may be cited as the “Forest Resources Conservation and Shortage Relief Act of 1990”.

SEC. 488. [16 U.S.C. 620] FINDINGS AND PURPOSES.

(a) **FINDINGS.**—The Congress makes the following findings:

- (1) Timber is essential to the United States.
- (2) Forests, forest resources, and the forest environment are exhaustible natural resources that require efficient and effective conservation efforts.
- (3) In the interest of conserving those resources, the United States has set aside millions of acres of otherwise harvestable timberlands in the western United States, representing well over 100,000,000,000 board feet of otherwise harvestable timber.
- (4) In recent years, administrative, statutory, or judicial action has been taken to set aside an increased amount of otherwise harvestable timberlands for conservation purposes.
- (5) In the next few months and years, additional amounts of otherwise harvestable timberlands may be set aside for conservation purposes, pursuant to the Endangered Species Act of 1973, the National Forest Management Act of 1976, or other expected statutory, administrative, and judicial actions.
- (6) There is evidence of a shortfall in the supply of unprocessed timber in the western United States.
- (7) There is reason to believe that any shortfall which may already exist may worsen unless action is taken.
- (8) In conjunction with the broad conservation actions expected in the next few months and years, conservation action is necessary with respect to exports of unprocessed timber.

(b) **PURPOSES.**—The purposes of this title are—

- (1) to promote the conservation of forest resources in conjunction with State and Federal resources management plans, and other actions or decisions, affecting the use of forest resources;
- (2) to take action essential for the acquisition and distribution of forest resources or products in short supply in the western United States;
- (3) to take action necessary, to meet the goals of Article XI 2.(a) of the GATT 1994 (as defined in section 2(1)(B) of the

¹This title was enacted as title IV of the Customs and Trade Act of 1990 (Public Law 101-382).

Uruguay Round Agreements Act), to ensure sufficient supplies of certain forest resources or products which are essential to the United States;

(4) to continue and refine the existing Federal policy of restricting the export of unprocessed timber harvested from Federal lands in the western United States; and

(5) to effect measures aimed at meeting these objectives in conformity with the obligations of the United States under the WTO Agreement and the multilateral trade agreements (as such terms are defined in paragraphs (9) and (4), respectively, of section 2 of the Uruguay Round Agreements Act).

SEC. 489. [16 U.S.C. 620a] RESTRICTIONS ON EXPORTS OF UNPROCESSED TIMBER ORIGINATING FROM FEDERAL LANDS.

(a) **PROHIBITION ON EXPORT OF UNPROCESSED TIMBER ORIGINATING FROM FEDERAL LANDS.**—No person who acquires unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States may export such timber from the United States, or sell, trade, exchange, or otherwise convey such timber to any other person for the purpose of exporting such timber from the United States, unless such timber has been determined under subsection (b) to be surplus to the needs of timber manufacturing facilities in the United States.

(b) **SURPLUSES.**—

(1) **DETERMINATIONS BY SECRETARY CONCERNED.**—The prohibition contained in subsection (a) shall not apply to specific quantities of grades and species of unprocessed timber originating from Federal lands which the Secretary concerned determines to be surplus to domestic manufacturing needs.

(2) **PROCEDURES.**—Any determination under paragraph (1) shall be made in regulations issued in accordance with section 553 of title 5, United States Code. Any such determination shall be reviewed at least once in every 3-year period. The Secretary concerned shall publish notice of such review in the Federal Register, and shall give the public an opportunity to comment on such review.

SEC. 490. [16 U.S.C. 620b] LIMITATIONS ON THE SUBSTITUTION OF UNPROCESSED FEDERAL TIMBER FOR UNPROCESSED TIMBER EXPORTED FROM PRIVATE LANDS.

(a) **DIRECT SUBSTITUTION.**—(1) Except as provided in paragraph (3) and subsection (c), no person may purchase directly from any department or agency of the United States unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States if—

(A) such unprocessed timber is to be used in substitution for exported unprocessed timber originating from private lands; or

(B) such person has, during the preceding 24-month period, exported unprocessed timber originating from private lands.

(2) Notwithstanding paragraph (1)—

(A) Federal timber purchased pursuant to a contract entered into between the purchaser and the Secretary concerned before the date on which regulations to carry out this subsection are issued under section 495 shall be governed by the

regulations of the Secretary concerned in effect before such date that restrict the substitution of unprocessed timber originating from Federal lands for exported timber originating from private lands;

(B) in the 1-year period beginning on the effective date of this title, any person who operates under a Cooperative Sustained Yield Unit Agreement, and who has an historic export quota shall be limited to entering into contracts under such a quota to a volume equal to not more than 66 percent of the person's historic export quota used during fiscal year 1989;

(C) a person referred to in subparagraph (B) shall reduce the person's remaining substitution volume by an equal amount each year thereafter such that no volume is substituted under such a quota in fiscal year 1995 or thereafter; and

(D) the 24-month period referred to in paragraph (1)(B) shall not apply to any person who—

(i) before the enactment of this Act, has, under an historic export quota approved by the Secretary concerned, purchased unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States in substitution for exported unprocessed timber originating from private lands;

(ii) certifies to the Secretary concerned, within 3 months after the date of the enactment of this Act, that the person will, within 6 months after such date of enactment, cease exporting unprocessed timber originating from private lands; and

(iii) ceases exports in accordance with such certification.

(3) **APPLICABILITY.**—In the case of the purchase by a person of unprocessed timber originating from Federal lands west of the 119th meridian in the State of Washington, paragraph (1) shall apply only if—

(A) the private lands referred to in paragraph (1) are owned by the person; or

(B) the person has the exclusive right to harvest timber from the private lands described in paragraph (1) during a period of more than 7 years, and may exercise that right at any time of the person's choosing.

(b) **INDIRECT SUBSTITUTION.**—

(1) **IN GENERAL.**—Except as provided in paragraph (2), no person may, beginning 21 days after the date of the enactment of this Act, purchase from any other person unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States if such person would be prohibited from purchasing such timber directly from a department or agency of the United States. Acquisitions of western red cedar which are domestically processed into finished products to be sold into domestic or international markets are exempt from the prohibition contained in this paragraph.

(2) **EXCEPTIONS.**—(A) The Secretary of Agriculture shall, as soon as practicable but not later than 9 months after the date of the enactment of this Act, establish, by rule, a limited

amount of unprocessed timber originating from Federal lands described in subparagraph (B) which may be purchased by a person otherwise covered by the prohibition contained in paragraph (1). Such limit shall equal—

(i) the amount of such timber acquired by such person, based on the higher of the applicant's actual timber purchasing receipts or the appropriate Federal agency's records, during fiscal years 1988, 1989, and 1990, divided by 3, or

(ii) 15 million board feet, whichever is less, except that such limit shall not exceed such person's proportionate share, with respect to all persons covered under this paragraph, of 50 million board feet.

(B) The Federal lands referred to in subparagraph (A) are Federal lands administered by the United States Forest Service Region 6 that are located north of the Columbia River from its mouth and east to its first intersection with the 119th meridian, and from that point north of the 46th parallel and east.

(C) Any person may sell, trade, or otherwise exchange with any other person the rights obtained under subparagraph (A), except that such rights may not be sold, traded, or otherwise exchanged to persons already in possession of such rights obtained under subparagraph (A).

(D) Federal timber purchased from Federal lands described in subparagraph (B) pursuant to a contract entered into between the purchaser and the Secretary of Agriculture before the date on which regulations to carry out this subsection are issued under section 495 shall be governed by the regulations of the Secretary of Agriculture in effect before such date that restrict the substitution of unprocessed timber originating from Federal lands for exported timber originating from private lands.

(c) SOURCING AREAS.—

(1) IN GENERAL.—The prohibitions contained in subsections (a) and (b) shall not apply with respect to the acquisition of unprocessed timber originating from Federal lands within a sourcing area west of the 100th meridian in the contiguous 48 States approved by the Secretary concerned under this subsection by a person who—

(A) in the previous 24 months, has not exported unprocessed timber originating from private lands within the sourcing area; and

(B) during the period in which such approval is in effect, does not export unprocessed timber originating from private lands within the sourcing area.

The Secretary concerned may waive the 24-month requirement set forth in subparagraph (A) for any person who, within 3 months after the date of the enactment of this Act, certifies that, within 6 months after such date, such person will, for a period of not less than 3 years, cease exporting unprocessed timber originating from private lands within the sourcing area.

(2) REQUIREMENTS FOR APPLICATION FOR SOURCING AREAS FOR PROCESSING FACILITIES LOCATED OUTSIDE THE NORTHWESTERN PRIVATE TIMBER OPEN MARKET AREA.—The Secre-

taries concerned shall, not later than 3 months after the date of the enactment of this Act, prescribe procedures to be used by a person applying for approval of a sourcing area under paragraph (1). Such procedures shall require, at a minimum, the applicant to provide—

(A) information regarding the location of private lands (except private land located in the northwestern private timber open market area) from which such person has, within the previous year, harvested or otherwise acquired unprocessed timber which has been exported from the United States; and

(B) information regarding the location of each timber manufacturing facility owned or operated by such person within the proposed sourcing area boundaries at which the applicant proposes to process timber originating from Federal lands.

The prohibition contained in subsection (a) shall not apply to a person before the date which is 1 month after the procedures referred to in this paragraph are prescribed. With respect to any person who submits an application in accordance with such procedures by the end of the time period set forth in the preceding sentence, the prohibition contained in subsection (a) shall not apply to such person before the date on which the Secretary concerned approves or disapproves such application.

(3) GRANT OF APPROVAL FOR SOURCING AREAS FOR PROCESSING FACILITIES LOCATED OUTSIDE OF THE NORTHWESTERN PRIVATE TIMBER OPEN MARKET AREA.—(A) IN GENERAL¹.—For each applicant, the Secretary concerned shall, on the record and after an opportunity for a hearing, not later than 4 months after receipt of the application for a sourcing area, either approve or disapprove the application. The Secretary concerned may approve such application only if the Secretary determines that the area that is the subject of the application, in which the timber manufacturing facilities at which the applicant desires to process timber originating from Federal lands are located, is geographically and economically separate from any geographic area from which that person harvests for export any unprocessed timber originating from private lands.

(B) FOR TIMBER MANUFACTURING FACILITIES LOCATED IN IDAHO.—Except as provided in subparagraph (D), in making a determination referred to in subparagraph (A), the Secretary concerned shall consider the private timber export and the private and Federal timber sourcing pat-

¹ Section 318 of the Department of the Interior and Related Agencies Appropriations Act, 1997 (part of Public Law 104-208; 16 U.S.C. 620c note) provides as follows:

SEC. 318. No funds appropriated under this or any other Act shall be used to review or modify sourcing areas previously approved under section 490(c)(3) of the Forest Resources Conservation and Shortage Relief Act of 1990 (Public Law 101-382) or to enforce or implement Federal regulations 36 CFR part 223 promulgated on September 8, 1995. The regulations and interim rules in effect prior to September 8, 1995 (36 CFR 223.48, 36 CFR 223.87, 36 CFR 223 subpart D, 36 CFR 223 subpart F, and 36 CFR 261.6) shall remain in effect. The Secretary of Agriculture or the Secretary of the Interior shall not adopt any policies concerning Public Law 101-382 or existing regulations that would restrain domestic transportation or processing of timber from private lands or impose additional accountability requirements on any timber. The Secretary of Commerce shall extend until September 30, 1997, the order issued under section 491(b)(2)(A) of Public Law 101-382 and shall issue an order under section 491(b)(2)(B) of such law that will be effective October 1, 1997.

terns for the applicant's timber manufacturing facilities, as well as the private and Federal timber sourcing patterns for the timber manufacturing facilities of other persons in the same local vicinity of the applicant, and the relative similarity of such private and Federal timber sourcing patterns.

(C) FOR TIMBER MANUFACTURING FACILITIES LOCATED IN STATES OTHER THAN IDAHO.—Except as provided in subparagraph (D), in making the determination referred to in subparagraph (A), the Secretary concerned shall consider the private timber export and the Federal timber sourcing patterns for the applicant's timber manufacturing facilities, as well as the Federal timber sourcing patterns for the timber manufacturing facilities of other persons in the same local vicinity of the applicant, and the relative similarity of such Federal timber sourcing patterns. Private timber sourcing patterns shall not be a factor in such determinations in States other than Idaho.

(D) AREA NOT INCLUDED.—In deciding whether to approve or disapprove an application, the Secretary shall not—

(i) consider land located in the northwestern private timber open market area; or

(ii) condition approval of the application on the inclusion of any such land in the applicant's sourcing area, such land being includable in the sourcing area only to the extent requested by the applicant.

(4) DENIAL OF APPLICATION FOR SOURCING AREAS FOR PROCESSING FACILITIES LOCATED OUTSIDE THE NORTHWESTERN PRIVATE TIMBER OPEN MARKET AREA.—(A) Subject to subparagraph (B), and notwithstanding any other provision of law, in the 9-month period after receiving disapproval of an application submitted pursuant to this subsection, the applicant may purchase unprocessed timber originating from Federal lands in the area which is the subject of the application in an amount not to exceed 75 percent of the annual average of such person's purchases of unprocessed timber originating from Federal lands in the same area during the 5 full fiscal years immediately prior to submission of the application. In the subsequent 6-month period, such person may purchase not more than 25 percent of such annual average, after which time the prohibitions contained in subsection (a) shall fully apply.

(B) If a person referred to in subparagraph (A) certifies to the Secretary concerned, within 90 days after receiving disapproval of such application, that such person shall, within 15 months after such disapproval, cease the export of unprocessed timber originating from private lands from the geographic area determined by the Secretary for which the application would have been approved, such person may continue to purchase unprocessed timber originating from Federal lands in the area which is the subject of the application, without being subject to the restrictions of subparagraph (A), except that such purchases during that 15-month period may not exceed 125 percent of the annual average of such person's purchases of un-

processed timber originating from Federal lands in the same area during the 5 full fiscal years immediately prior to submission of the application which was denied.

(C) Any person to whom subparagraph (B) applies may not, during the 15-month period after the person's application for sourcing area boundaries is denied, export unprocessed timber originating from private lands in the geographic area determined by the Secretary concerned for which the application would have been approved in amounts that exceed 125 percent of the annual average of such person's exports of unprocessed timber from such private lands during the 5 full fiscal years immediately prior to submission of the application.

(5) REVIEW OF DETERMINATIONS FOR SOURCING AREAS FOR PROCESSING FACILITIES LOCATED OUTSIDE THE NORTHWESTERN PRIVATE TIMBER OPEN MARKET AREA.—Determinations made under paragraph (3) shall be reviewed, in accordance with the procedures prescribed in this title, not less often than every 5 years.

(6) SOURCING AREAS FOR PROCESSING FACILITIES LOCATED IN THE NORTHWESTERN PRIVATE TIMBER OPEN MARKET AREA.—

(A) ESTABLISHMENT.—In the northwestern private timber open market area—

(i) a sourcing area boundary shall be a circle around the processing facility of the sourcing area applicant or holder;

(ii) the radius of the circle—

(I) shall be the furthest distance that the sourcing area applicant or holder proposes to haul Federal timber for processing at the processing facility; and

(II) shall be determined solely by the sourcing area applicant or holder;

(iii) a sourcing area shall become effective on written notice to the Regional Forester for Region 6 of the Forest Service of the location of the boundary of the sourcing area;

(iv) the 24-month requirement in paragraph (1)(A) shall not apply;

(v) a sourcing area holder—

(I) may adjust the radius of the sourcing area not more frequently than once every 24 months; and

(II) shall provide written notice to the Regional Forester for Region 6 of the adjusted boundary of its sourcing area before using the adjusted sourcing area; and

(vi) a sourcing area holder that relinquishes a sourcing area may not reestablish a sourcing area for that processing facility before the date that is 24 months after the date on which the sourcing area was relinquished.

(B) TRANSITION.—With respect to a portion of a sourcing area established before the date of enactment of this paragraph that contains Federal timber under con-

tract before that date and is outside the boundary of a new sourcing area established under subparagraph (A)—

(i) that portion shall continue to be a sourcing area only until unprocessed Federal timber from the portion is no longer in the possession of the sourcing area holder; and

(ii) unprocessed timber from private land in that portion shall be exportable immediately after unprocessed timber from Federal land in the portion is no longer in the possession of the sourcing area holder.

(7) RELINQUISHMENT AND TERMINATION OF SOURCING AREAS.—

(A) IN GENERAL.—A sourcing area may be relinquished at any time.

(B) EFFECTIVE DATE.—A relinquishment of a sourcing area shall be effective as of the date on which written notice is provided by the sourcing area holder to the Regional Forester with jurisdiction over the sourcing area where the processing facility of the holder is located.

(C) EXPORTABILITY.—

(i) IN GENERAL.—On relinquishment or termination of a sourcing area, unprocessed timber from private land within the former boundary of the relinquished or terminated sourcing area is exportable immediately after unprocessed timber from Federal land from within that area is no longer in the possession of the former sourcing area holder.

(ii) NO RESTRICTION.—The exportability of unprocessed timber from private land located outside of a sourcing area shall not be restricted or in any way affected by relinquishment or termination of a sourcing area.

(d) DOMESTIC TRANSPORTATION AND PROCESSING OF PRIVATE TIMBER.—Nothing in this section restricts or authorizes any restriction on the domestic transportation or processing of timber harvested from private land, except that the Secretary may prohibit processing facilities located in the State of Idaho that have sourcing areas from processing timber harvested from private land outside of the boundaries of those sourcing areas.

SEC. 491. [16 U.S.C. 620c] RESTRICTION ON EXPORTS OF UNPROCESSED TIMBER FROM STATE AND OTHER PUBLIC LANDS.

(a) ORDER TO PROHIBIT THE EXPORT OF UNPROCESSED TIMBER ORIGINATING FROM STATE OR OTHER PUBLIC LANDS.—Except as provided in subsection (g), the Secretary of Commerce shall issue orders to prohibit the export from the United States of unprocessed timber originating from public lands, as provided in subsection (b).

(b) SCHEDULE FOR DETERMINATION TO PROHIBIT THE EXPORT OF UNPROCESSED TIMBER ORIGINATING FROM STATE OR OTHER PUBLIC LANDS.—

(1) STATES WITH ANNUAL SALES OF 400,000,000 BOARD FEET OR LESS.—With respect to States with annual sales volumes of 400,000,000 board feet or less, the Secretary of Commerce shall issue an order referred to in subsection (a) to prohibit, notwith-

(2)¹ STATES WITH ANNUAL SALES OF GREATER THAN 400,000,000 BOARD FEET.—With respect to any State with an annual sales volume greater than 400,000,000 board feet, the Secretary of Commerce shall issue an order referred to in subsection (a) to prohibit, notwithstanding any other provision of law, the export of unprocessed timber originating from public lands, effective as of the date of enactment of the Forest Resources Conservation and Shortage Relief Act of 1997.

(3) PROHIBITION ON SUBSTITUTION.—

(A) PROHIBITION.—Subject to subparagraph (B), each order of the Secretary of Commerce under paragraph (1) or (2) shall also prohibit, notwithstanding any other provision of law, any person from purchasing, directly or indirectly, unprocessed timber originating from public lands in a State if—

(i) such unprocessed timber would be used in substitution for exported unprocessed timber originating from private lands in that State; or

(ii) such person has, during the preceding 24-month period, exported unprocessed timber originating from private lands in that State.

(B) EXEMPTION.—The prohibitions referred to in subparagraph (A) shall not apply in a State on or after the date on which—

(i) the Governor of that State provides the Secretary of Commerce with notification of a prior program under subparagraph (C) of subsection (d)(2),

(ii) the Secretary of Commerce approves a program of that State under subparagraph (A) of subsection (d)(2), or

(iii) regulations of the Secretary of Commerce issued under subsection (c) to carry out this section take effect,

whichever occurs first.

(4) REPORT TO CONGRESS.—Not later than June 1, 1995, the Secretary of Commerce, in conjunction with the Secretaries of Agriculture and Interior, shall issue a report to the Congress on the effects of the reallocation, as a result of the enactment of this title, of public lands timber resources to the domestic timber processing sector, the ability of the domestic timber processing sector to meet domestic demand for forest products,

(1) ADMINISTRATION BY THE SECRETARY OF COMMERCE.—

(A) IN GENERAL.—Subject to subparagraph (B), the Secretary of Commerce shall, as soon as possible after the date of the enactment of the Forest Resources Conservation and Shortage Relief Amendments Act of 1993—

(i) determine the species, grades, and geographic origin of unprocessed timber to be prohibited from export in each State that is subject to an order issued under subsection (a);

(ii) administer the prohibitions consistent with this title;

(iii) ensure that the species, grades, and geographic origin of unprocessed timber prohibited from export within each State is representative of the species, grades, and geographic origin of timber comprising the total timber sales program of the State; and

(iv) issue such regulations as are necessary to carry out this section.

(B) EXEMPTION.—The actions and regulations of the Secretary under subparagraph (A) shall not apply with respect to a State that is administering and enforcing a program under subsection (d).

(2) COOPERATION WITH OTHER AGENCIES.—The Secretary of Commerce is authorized to enter into agreements with Federal and State agencies with appropriate jurisdiction to assist the Secretary in carrying out this title.

(d) AUTHORIZED STATE PROGRAMS.—

(1) AUTHORIZATION OF NEW STATE PROGRAMS.—Notwithstanding subsection (c), the Governor of any State may submit a program to the Secretary of Commerce for approval that—

(A) implements, with respect to unprocessed timber originating from public lands in that State, the prohibition on exports set forth in the Secretary's order under subsection (a); and

(B) ensures that the species, grades, and geographic origin of unprocessed timber prohibited from export within the State is representative of the species, grades, and geographic origin of timber comprising the total timber sales program of the State.

(2) APPROVAL OF STATE PROGRAMS.—

(A) PROGRAM APPROVAL.—Not later than 30 days after the submission of a program under paragraph (1), the Secretary of Commerce shall approve the program unless the Secretary finds that the program will result in the export of unprocessed timber from public lands in violation of this title and publishes that finding in the Federal Register.

(B) STATE PROGRAM IN LIEU OF FEDERAL PROGRAM.—If the Secretary of Commerce approves a program submitted under paragraph (1), the Governor of the State for which the program was submitted, or such other official of that State as the Governor may designate, may administer and enforce the program, which shall apply in that State in lieu of the regulations issued under subsection (c).

(C) PRIOR STATE PROGRAMS.—Not later than 30 days after the date of the enactment of the Forest Resources Conservation and Shortage Relief Amendments Act of 1993, the Governor of any State that had, before May 4, 1993, issued regulations under this subsection as in effect before May 4, 1993, may provide the Secretary of Commerce with written notification that the State has a program that was in effect on May 3, 1993, and that meets the requirements of paragraph (1). Upon such notification, that State may administer and enforce that program in that State until the end of the 9-month period beginning on the date on which the Secretary of Commerce issues regulations under subsection (c), and that program shall, during the period in which it is so administered and enforced, apply in that State in lieu of the regulations issued under subsection (c). Such Governor may submit, with such notification, the program for approval by the Secretary under paragraph (1).

(e) PRIOR CONTRACTS.—Nothing in this section shall apply to—

(B) January 1, 1991, with respect to States with annual sales volumes greater than 400,000,000 board feet; or

(2) any contract under which exports of unprocessed timber were permitted pursuant to an order of the Secretary of Commerce in effect under this section before October 23, 1992.

(f) WESTERN RED CEDAR.—Nothing in this section shall be construed to supersede section 7(i) of the Export Administration Act of 1979 (50 U.S.C. App. 2406(i)).

(j) **SURPLUS TIMBER.**—The prohibitions on exports contained in orders of the Secretary of Commerce issued under subsection (a) shall not apply to specific quantities of grades and species of unprocessed timber originating from public lands which the Secretary concerned determines by rule to be surplus to the needs of timber manufacturing facilities in the United States. Any such determination may, by rule, be withdrawn by the Secretary concerned if the Secretary determines that the affected timber is no longer surplus to the needs of timber manufacturing facilities in the United States.

(k) **SUSPENSION OF PROHIBITIONS.**—Notwithstanding any other provision of this section, beginning on January 1, 1998, and annually thereafter, if the President finds, upon review of the purposes and implementation of this title, that the prohibitions on exports required by subsection (a) no longer promote the purposes of this title, then the President may suspend such prohibitions, except that such suspension shall not take effect until 90 days after the President notifies the Congress of such finding.

(B)(i) Subject to clause (ii), if the Secretary of Commerce finds, on the record and after an opportunity for a hearing, that a person, with willful disregard for the restrictions contained in an order of the Secretary under section 491(a) on exports of unprocessed timber from public lands, exported or caused to be exported unprocessed timber originating from public lands in violation of such order, the Secretary may assess against such person a civil penalty of not more than \$500,000 for each violation, or 3 times the gross value of the unprocessed timber involved in the violation, whichever amount is greater.

(ii) Clause (i) shall not apply with respect to exports of unprocessed timber originating from public lands in a State that is administering and enforcing a program under section 491(d).

(2) OTHER VIOLATIONS.—(A) If the Secretary concerned finds, on the record and after an opportunity for a hearing, that a person has violated any provision of this title or any regulation issued under this title relating to lands which they administer (notwithstanding that such violation may not have caused the export of unprocessed Federal timber in violation of this title), such Secretary may—

(i) assess against such person a civil penalty of not more than \$75,000 for each violation if the Secretary determines that the person committed such violation in disregard of such provision or regulation;

(ii) assess against such person a civil penalty of not more than \$50,000 for each violation if the Secretary determines that the person should have known that the action constituted a violation; or

(iii) assess against such person a civil penalty of not more than \$500,000 if the Secretary determines that the person committed such violation willfully.

(bb) not impose the penalty; or

(cc) on condition of there being no further violation under this paragraph for a prescribed period, suspend imposition of the penalty.

(ii) CONTRACTUAL REMEDIES.—In the case of a minor violation of this title (including a regulation), the Secretary concerned shall, to the maximum extent practicable, permit a contracting officer to redress the violation in accordance with the applicable timber sale contract rather than assess a penalty under this paragraph.

(3) PENALTIES NOT EXCLUSIVE; JUDICIAL REVIEW.—A penalty assessed under this subsection shall not be exclusive of any other penalty provided by law and shall be subject to review in an appropriate United States district court.

(d) ADMINISTRATIVE REMEDIES.—

9. FOREST AND RANGELAND RESEARCH

[As Amended Through Public Law 106-580, Dec. 31, 2000]

A. Forest and Rangeland Renewable Resources Research Act of 1978

(Public Law 95-307; Approved June 30, 1978)

AN ACT To direct the Secretary of Agriculture to carry out forest and rangeland renewable resources research, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That [16 U.S.C.1641 note] this Act may be cited as the "Forest and Rangeland Renewable Resources Research Act of 1978".

SEC. 2. [16 U.S.C. 1641] FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) Forests and rangeland, and the resources of forests and rangeland, are of strategic economic and ecological importance to the United States, and the Federal Government has an important and substantial role in ensuring the continued health, productivity, and sustainability of the forests and rangeland of the United States.

(2) Over 75 percent of the productive commercial forest land in the United States is privately owned, with some 60 percent owned by small nonindustrial private owners. These 10,000,000 nonindustrial private owners are critical to providing both commodity and noncommodity values to the citizens of the United States.

(3) The National Forest System manages only 17 percent of the commercial timberland of the United States, with over half of the standing softwoods inventory located on that land. Dramatic changes in Federal agency policy during the early 1990's have significantly curtailed the management of this vast timber resource, causing abrupt shifts in the supply of timber from public to private ownership. As a result of these shifts in supply, some 60 percent of total wood production in the United States is now coming from private forest land in the southern United States.

(4) At the same time that pressures are building for the removal of even more land from commercial production, the Federal Government is significantly reducing its commitment to productivity-related research regarding forests and rangeland, which is critically needed by the private sector for the sustained management of remaining available timber and forage resources for the benefit of all species.

(5) Uncertainty over the availability of the United States timber supply, increasing regulatory burdens, and the lack of Federal Government support for research is causing domestic wood and paper producers to move outside the United States to find reliable sources of wood supplies, which in turn results

in a worsening of the United States trade balance, the loss of employment and infrastructure investments, and an increased risk of infestations of exotic pests and diseases from imported wood products.

(6) Wood and paper producers in the United States are being challenged not only by shifts in Federal Government policy, but also by international competition from tropical countries where growth rates of trees far exceed those in the United States. Wood production per acre will need to quadruple from 1996 levels for the United States forestry sector to remain internationally competitive on an ever decreasing forest land base.

(7) Better and more frequent forest inventoring and analysis is necessary to identify productivity-related forestry research needs and to provide forest managers with the current data necessary to make timely and effective management decisions.

(b) This Act shall be deemed to complement the policies and direction set forth in the Forest and Rangeland Renewable Resources Planning Act of 1974.

(c) It is the purpose of this Act to authorize the Secretary to expand research activities to encompass international forestry and natural resource issues on a global scale.

(H) enlarge the Eastern Hardwood Cooperative by devoting additional resources to field analysis of the response of hardwood species to atmospheric pollution, and other factors that may affect the health and productivity of these ecosystems.

(2) The Secretary shall establish a committee to advise the Secretary in developing and carrying out the Program, which shall be composed of scientists with training and experience in various disciplines, including atmospheric, ecological, and biological sciences. Such scientists shall be selected from among individuals who are actively performing research for Federal or State agencies or for private industries, institutions, or organizations.

10. MULTIPLE-USE OF THE NATIONAL FOREST SYSTEM
[As Amended Through Public Law 106-580, Dec. 31, 2000]

A. Multiple-Use Sustained-Yield Act of 1960¹

(Public Law 86-517; Approved June 12, 1960)

AN ACT To authorize and direct that the national forests be managed under principles of multiple use and to produce a sustained yield of products and services, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That [16 U.S.C. 528] it is the policy of the Congress that the national forests are established and shall be administered for outdoor recreation, range, timber, watershed, and wildlife and fish purposes. The purposes of this Act are declared to be supplemental to, but not in derogation of, the purposes for which the national forests were established as set forth in the Act of June 4, 1897 (16 U.S.C. 475). Nothing herein shall be construed as affecting the jurisdiction or responsibilities of the several States with respect to wildlife and fish on the national forests. Nothing herein shall be construed so as to affect the use of administration of the mineral resources of national forest lands or to affect the use or administration of Federal lands not within national forests.

SEC. 2. [16 U.S.C. 529] The Secretary of Agriculture is authorized and directed to develop and administer the renewable surface resources of the national forests for multiple use and sustained yield of the several products and services obtained therefrom. In the administration of the national forests due consideration shall be given to the relative values of the various resources in particular areas. The establishment and maintenance of areas of wilderness are consistent with the purposes and provisions of this Act.

SEC. 3. [16 U.S.C. 530] In the effectuation of this Act the Secretary of Agriculture is authorized to cooperate with interested State and local governmental agencies and others in the development and management of the national forests.

SEC. 4. [16 U.S.C. 531] As used in this Act, the following terms shall have the following meanings:

(a) "Multiple use" means: The management of all the various renewable surface resources of the national forests so that they are utilized in the combination that will best meet the needs of the American people; making the most judicious use of the land for some or all of these resources or related services over areas large enough to provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions; that some land will be used for less than all of the resources; and harmonious and

coordinated management of the various resources, each with the other, without impairment of the productivity of the land, with consideration being given to the relative values of the various resources, and not necessarily the combination of uses that will give the greatest dollar return or the greatest unit output.

(b) "Sustained yield of the several products and services" means the achievement and maintenance in perpetuity of a high-level annual or regular periodic output of the various renewable resources of the national forests without impairment of the productivity of the land.

SEC. 5. [16 U.S.C. 528 note] This Act may be cited as the "Multiple-Use Sustained-Yield Act of 1960".

(d) **SUSTAINABLE HARVEST LEVELS FOR FOREST BOTANICAL PRODUCTS.**—The Secretary of Agriculture shall conduct appropriate analyses to determine whether and how the harvest of forest botanical products on National Forest System lands can be conducted on a sustainable basis. The Secretary may not permit under the pilot program the harvest of forest botanical products at levels in excess of sustainable harvest levels, as defined pursuant to the Multiple-Use Sustained-Yield Act of 1960 (16 U.S.C. 528 et seq.). The Secretary shall establish procedures and timeframes to monitor and revise the harvest levels established for forest botanical products.

(e) **WAIVER AUTHORITY.**—

(1) **PERSONAL USE.**—The Secretary of Agriculture shall establish a personal use harvest level for each forest botanical product, and the harvest of a forest botanical product below that level by a person for personal use shall not be subject to charges and fees under subsections (b) and (c).

(2) **OTHER EXCEPTIONS.**—The Secretary may also waive the application of subsection (b) or (c) pursuant to such regulations as the Secretary may prescribe.

11. RENEWABLE RESOURCES EXTENSION ACT OF 1978
[As Amended Through Public Law 106-580, Dec. 31, 2000]

11. RENEWABLE RESOURCES EXTENSION ACT OF 1978

(Public Law 95-306; Approved June 30, 1978)

AN ACT To provide for an expanded and comprehensive extension program for forest and rangeland renewable resources

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That [16 U.S.C. 1671 note] this Act may be cited as the "Renewable Resources Extension Act of 1978".

FINDINGS

SEC. 2. [16 U.S.C. 1671] Congress finds that—

(1) the extension program of the Department of Agriculture and the extension activities of each State provide useful and productive educational programs for private forest and range landowners and processors and consumptive and non-consumptive users of forest and rangeland renewable resources, and these educational programs complement research and assistance programs conducted by the Department of Agriculture;

(2) to meet national goals, it is essential that all forest and rangeland renewable resources (hereinafter in this Act referred to as "renewable resources"), including fish and wildlife, forage, outdoor recreation opportunities, timber, and water, be fully considered in designing educational programs for landowners, processors, and users;

(3) more efficient utilization and marketing of renewable resources extend available supplies of such resources, provide products to consumers at prices less than they would otherwise be and promote reasonable returns on the investments of landowners, processors, and users;

(4) trees and forests in urban areas improve the esthetic quality, reduce noise, filter impurities from the air and add oxygen to it, save energy by moderating temperature extremes, control wind and water erosion, and provide habitat for wildlife; and

(5) trees and shrubs used as shelterbelts protect farm lands from wind and water erosion, promote moisture accumulation in the soil, and provide habitat for wildlife.

TYPES OF PROGRAMS; ELIGIBLE COLLEGES AND UNIVERSITIES

SEC. 3. [16 U.S.C. 1672] (a) the Secretary of Agriculture (hereinafter in this Act referred to as the "Secretary"), under conditions the Secretary may prescribe and in cooperation with the State directors of cooperative extension service programs and eligible colleges and universities, shall—

(1) provide educational programs that enable individuals to recognize, analyze, and resolve problems dealing with renewable resources, including forest- and range-based outdoor recreation opportunities, trees, and forests in urban areas, and trees and shrubs in shelterbelts;

(2) use educational programs to disseminate the results of research on renewable resources;

(3) conduct educational programs that transfer the best available technology to those involved in the management and protection of forests and rangelands and the processing and use of their associated renewable resources;

(4) develop and implement educational programs that give special attention to the educational needs of small, private non-industrial forest landowners;

(5) develop and implement educational programs in range and fish and wildlife management;

(6) assist in providing continuing education programs for professionally trained individuals in fish and wildlife, forest, range, and watershed management and related fields;

(7) help forest and range landowners in securing technical and financial assistance to bring appropriate expertise to bear on their problems;

(8) help identify areas of needed research regarding renewable resources;

(9) in cooperation with State foresters or equivalent State officials, promote public understanding of the energy conservation, economic, social, environmental, and psychological values of trees and open space in urban and community area environments and expand knowledge of the ecological relationships and benefits of trees and related resources in urban and community environments; and

(10) conduct a comprehensive natural resource and environmental education program for landowners and managers, public officials, and the public, with particular emphasis on youth.

(b) As used in this Act, the term "eligible colleges and universities" means colleges and universities eligible to be supported and maintained in whole or in part, with funds made available under the provisions of the Act of July 2, 1982 (12 Stat. 503-505, as amended; 7 U.S.C. 301-305, 307, 308), and the Act of August 30, 1890 (26 Stat. 417-419, as amended; 7 U.S.C. 321-326, 328), including Tuskegee Institute, and college and universities eligible for assistance under the Act of October 10, 1962 (76 Stat. 806-807, as amended; 16 U.S.C. 582a, 582a-1-582a-7).

(c) In implementing this section, all appropriate educational methods may be used, including, but not limited to, meetings, short courses, workshops, tours, demonstrations, publications, news releases, and radio and television programs.

STATE RENEWABLE RESOURCES EXTENSION PROGRAMS

SEC. 4. [16 U.S.C. 1673] (a) The State director of cooperative extension programs (hereinafter in this Act referred to as the "State director") and the administrative heads of extension for eli-

gible colleges and universities in each State shall jointly develop by mutual agreement, a single comprehensive and coordinated renewable resources extension program in which the role of each eligible college and university is well defined. In meeting this responsibility, the State director and the administrative heads of extension for eligible colleges and universities shall consult and seek agreement with the administrative technical representatives and the forestry representatives provided for by the Secretary in implementation of the Act of October 10, 1962 (76 Stat. 806-807, as amended; 16 U.S.C. 582a, 582a-1-582a-7), in the State. Each State's renewable resources extension program shall be submitted to the Secretary annually. The National Agricultural Research, Extension, Education, and Economics Advisory Board established under section 1408 of the Food and Agriculture Act of 1977 shall review and make recommendations to the Secretary pertaining to programs conducted under this Act.

(b) The State director and the administrative heads of extension for eligible colleges and universities in each State shall encourage close cooperation between extension staffs at the county and State levels, and State and Federal research organizations dealing with renewable resources, State and Federal agencies that manage forests and rangelands and their associated renewable resources, State and Federal agencies that have responsibilities associated with the processing or use of renewable resources, and other agencies or organizations the State director and administrative heads of extension deem appropriate.

(c) Each State renewable resources extension program shall be administered and coordinated by the State director, except that, in States having colleges eligible to receive funds under the Act of August 30, 1890 (26 Stat. 417-419, as amended; 7 U.S.C. 321-326, 328), including Tuskegee Institute, the State renewable resources extension program shall be administered by the State director and the administrative head or heads of extension for the college or colleges eligible to receive such funds.

(d) In meeting the provisions of this section, each State director and administrative heads of extension for eligible colleges and universities shall appoint and use one or more advisory committees comprised of forest and range landowners, professionally trained individuals in fish and wildlife, forest, range, and watershed management, and related fields, as appropriate, and other suitable persons.

(e) For the purposes of this Act, the term "State" means any one of the fifty States, the Commonwealth of Puerto Rico, Guam, the District of Columbia, and the Virgin Islands of the United States.

NATIONAL RENEWABLE RESOURCES EXTENSION PROGRAM

SEC. 5. [16 U.S.C. 1674] (a) The Secretary shall prepare a five-year plan for implementing this Act, which is to be called the "Renewable Resources Extension Program" and shall submit such plan to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate no later than the last day of the first half of the fiscal

year ending September 30, 1980, and the last day of the first half of each fifth fiscal year thereafter. The Renewable Resources Extension Program shall provide national emphasis and direction as well as guidance to State directors and administrative heads of extension for eligible colleges and universities in the development of their respective State renewable resources extension programs, which are to be appropriate in terms of the conditions, needs, and opportunities in each State. The Renewable Resources Extension Program shall contain, but not be limited to, brief outlines of general extension programs for fish and wildlife management (for both game and nongame species), range management, timber management (including brief outlines of general extension programs for timber utilization, timber harvesting, timber marketing, wood utilization, and wood products marketing) and watershed management (giving special attention to water quality protection), as well as brief outlines of general extension programs for recognition and enhancement of forest- and range-based outdoor recreation opportunities, for urban and community forestry activities, and for planting and management of trees and shrubs in shelterbelts, and give special attention to water quality protection and natural resource and environmental education for landowners and managers, public officials, and the public.

(b) In preparing the Renewable Resources Extension Program, the Secretary shall take into account the respective capabilities of private forests and rangelands for yielding renewable resources and the relative needs for such resources identified in the periodic Renewable Resource Assessment provided for in section 3 of the Forest and Rangeland Renewable Resources Planning Act of 1974 and the periodic appraisal of land and water resources provided for in section 5 of the Soil and Water Resources Conservation Act of 1977.

(c) To provide information that will aid Congress in its oversight responsibilities and to provide accountability in implementing this Act, the Secretary shall prepare an annual report, which shall be furnished to Congress at the time of submission of each annual fiscal budget, beginning with the annual fiscal budget for the fiscal year ending September 30, 1981. The annual report shall set forth accomplishments of the Renewable Resources Extension Program, its strengths and weaknesses, recommendations for improvement, and costs of program administration, each with respect to the preceding fiscal year.

(d) To assist Congress and the public in evaluating the Renewable Resources Extension Program, the program shall include a review of activities undertaken in response to the preceding five-year plan and an evaluation of the progress made toward accomplishing the goals and objectives set forth in such preceding plan. Such review and evaluation shall be displayed in the program, for the Nation as a whole, and for each State.

(POPULARLY KNOWN AS THE CLARKE-McNARY ACT)

CHAP. 348. AN ACT To provide for the protection of forest lands, for the reforestation of denuded areas, for the extension of national forests, and for other purposes, in order to promote the continuous production of timber on lands chiefly suitable therefor

[Sections 1-4 repealed by Public Law 95-313, sec. 13(a)(1), 92 Stat. 374]

SEC. 5. [16 U.S.C. 568] The Secretary of Agriculture is hereby authorized and directed, in cooperation with the land grant colleges and universities of the various States or, in his discretion, with other suitable State agencies, to aid farmers through advice, education, demonstrations, and other similar means in establishing, renewing, protecting, and managing wood lots, shelter belts, windbreakers, and other valuable forest growth, and in harvesting [,] utilizing, and marketing the products thereof. [Section 9 was repealed by section 704(a) of Public Law 94-579 (90 Stat. 2792). However, the Law Revision Counsel continues to include certain sentences of section 9 in the United States Code since the repealer dealt with the implied authority of the President to make withdrawals resulting from the acquiescence of Congress, which was contained in the first and fifth sentences of section 9 of the 1924 Act. The fourth sentence of section 9 is included in 16 U.S.C. 499.]

¹ A road maintenance fund was also established by section 6 of Public Law 88-657 (16 U.S.C. 537; commonly known as the Forest Roads and Trails Act). That section is found in item 17 of this set of forest-related compilations. The projects shall emphasize reducing risks to human safety and public health and property and enhancing ecological functions, long-term forest productivity, and biological integrity. The Secretary shall commence the projects during fiscal year 2001, but the projects may be completed in a subsequent fiscal year. Funds shall not be expended under this section to replace funds which would otherwise appropriately be expended from the timber salvage sale fund. Nothing in this section shall be construed to exempt any project from any environmental law."

E. Cooperative Work-Other Fund

(The penultimate paragraph under the heading "FOREST SERVICE" in the Act of June 30, 1914 (38 Stat. 430; 16 U.S.C. 498))

That hereafter [June 30, 1914] all moneys received as contributions toward cooperative work in forest investigations, or the protection, management, and improvement of the National Forest System, shall be covered into the Treasury and shall constitute a special fund, which is hereby appropriated and made available until expended, as the Secretary of Agriculture may direct, for the payment of the expenses of said investigations, protection, management, or improvements by the Forest Service, and for refunds to the contributors of amounts heretofore or hereafter paid in by them in excess of their share of the cost of said investigations, protection, management, or improvements. Payment for work undertaken pursuant to this paragraph may be made from any appropriation of the Forest Service that is available for similar work if a written agreement so provides and reimbursement will be provided by a cooperator in the same fiscal year as the expenditure by the Forest Service. A reimbursement received from a cooperator that covers the proportionate share of the cooperator of the cost of the work shall be deposited to the credit of the appropriation of the Forest Service from which the payment was initially made or, if the appropriation is no longer available, to the credit of an appropriation of the Forest Service that is available for similar work. The Secretary of Agriculture shall establish written rules that establish criteria to be used to determine whether the acceptance of contributions of money under this paragraph would adversely affect the ability of an officer or employee of the Department of Agriculture to carry out a duty or program of the officer or employee in a fair and objective manner or would compromise, or appear to compromise, the integrity of the program, officer, or employee. The Secretary of Agriculture shall establish written rules that protect the interests of the Forest Service in cooperative work agreements.

F. Reforestation Trust Fund

(Section 303 of Public Law 96-451, the Act of October 14, 1980 (16 U.S.C. 1606a))

SEC. 303. REFORESTATION TRUST FUND.

(a) There is established in the Treasury of the United States a trust fund, to be known as the Reforestation Trust Fund (hereinafter in this section referred to as the "Trust Fund"), consisting of such amounts as are transferred to the Trust Fund under subsection (b)(1) and any interest earned on investment of amounts in the Trust Fund under subsection (c)(2).

(b)(1) Subject to the limitation in paragraph (2), the Secretary of the Treasury shall transfer to the Trust Fund an amount equal to the sum of the tariffs received in the Treasury after January 1, 1989, under headings 4401 through 4412 and subheadings 4418.50.00, 4418.90.20, 4420.10.00, 4420.90.80, 4421.90.10 through 4421.90.20, and 4421.90.70 of chapter 44, subheadings 6808.00.00 and 6809.11.00 of chapter 68 and subheading 9614.10.00 of chapter 96 of the Harmonized Tariff Schedule of the United States.

(2) The Secretary shall not transfer more than \$30,000,000 to the Trust Fund for any fiscal year.

(3) The amounts required to be transferred to the Trust Fund under paragraph (1) shall be transferred at least quarterly from the general fund of the Treasury to the Trust Fund on the basis of estimates made by the Secretary of the Treasury. Proper adjustment shall be made in the amounts subsequently transferred to the extent prior estimates were in excess of or less than the amounts required to be transferred.

(c)(1) It shall be the duty of the Secretary of the Treasury to hold the Trust Fund, and (after consultation with the Secretary of Agriculture) to report to the Congress each year on the financial condition and the results of the operations of the Trust Fund during the preceding fiscal year and on its expected condition and operations during the next fiscal year. Such report shall be printed as both a House and Senate document of the session of the Congress to which the report is made.

(2)(A) It shall be the duty of the Secretary of the Treasury to invest such portion of the Trust Fund as is not, in his judgment, required to meet current withdrawals. Such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose, such obligations may be acquired (i) on original issue at the issue price, or (ii) by purchase of outstanding obligations at the market price. The purposes for which obligations of the United States may be issued under the Second Liberty Bond Act are hereby extended to authorize the issuance at par of special obligations exclusively to the Trust Fund. Such special obligations shall bear interest at a rate equal to the average rate of interest, computed as to the end of the calendar month next

preceding the date of such issue, borne by all marketable interest-bearing obligations of the United States then forming a part of the Public Debt; except that where such average rate is not a multiple of $\frac{1}{8}$ of 1 percent, the rate of interest of such special obligations shall be the multiple of $\frac{1}{8}$ of 1 percent next lower than such average rate. Such special obligations shall be issued only if the Secretary of the Treasury determines that the purchase of other interest-bearing obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States on original issue or at the market price, is not in the public interest.

(B) Any obligation acquired by the Trust Fund (except special obligations issued exclusively to the Trust Fund) may be sold by the Secretary of the Treasury at the market price, and such special obligations may be redeemed at par plus accrued interest.

(C) The interest on, and the proceeds from the sale or redemption of, any obligations held in the Trust Fund shall be credited to and form a part of the Trust Fund.

(d) The Secretary of Agriculture is hereafter authorized to obligate such sums as are available in the Trust Fund (including any amounts not obligated in previous fiscal years) for—

(1) reforestation and timber stand improvement as specified in section 3(d) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1601(d)) and other forest stand improvement activities to enhance forest health and reduce hazardous fuel loads of forest stands in the National Forest System; and

(2) properly allocable administrative costs of the Federal Government for the activities specified above.

G. Limitation on Indirect Expenditures

(The 19th paragraph under the heading "ADMINISTRATIVE PROVISIONS, FOREST SERVICE" in title II of the Department of the Interior and Related Agencies Appropriations Act, 2001 (Public Law 106-291; 114 Stat. 973; 16 U.S.C. 579d)

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

* * * * *

The Forest Service shall fund indirect expenses, that is expenses not directly related to specific programs or to the accomplishment of specific work on-the-ground, from any funds available to the Forest Service: *Provided*, That the Forest Service shall implement and adhere to the definitions of indirect expenditures established pursuant to Public Law 105-277¹ on a nationwide basis without flexibility for modification by any organizational level except the Washington Office, and when changed by the Washington Office, such changes in definition shall be reported in budget requests submitted by the Forest Service: *Provided further*, That the Forest Service shall provide in all future budget justifications, planned indirect expenditures in accordance with the definitions, summarized and displayed to the Regional, Station, Area, and detached unit office level. The justification shall display the estimated source and amount of indirect expenditures, by expanded budget line item, of funds in the agency's annual budget justification. The display shall include appropriated funds and the Knutson-Vandenberg, Brush Disposal, Cooperative Work-Other, and Salvage Sale funds. Changes between estimated and actual indirect expenditures shall be reported in subsequent budget justifications: *Provided*, That during fiscal year 2001 the Secretary shall limit total annual indirect obligations from the Brush Disposal, Knutson-Vandenberg, Reforestation, Salvage Sale, and Roads and Trails funds to 20 percent of the total obligations from each fund. Obligations in excess of 20 percent which would otherwise be charged to the above funds may be charged to appropriated funds available to the Forest Service subject to notification of the Committees on Appropriations of the House and Senate.

TITLE V—NATIONAL FOREST SYSTEM

ADDITIONS TO EXISTING NATIONAL FORESTS

Sec. 501. [16 U.S.C. 539] (a) The following units of the National Forest System are hereby expanded:

(1) Chugach National Forest by the addition of four areas, Nelie Juan, College Fjord, Copper/Rude River, and Controller Bay, containing approximately one million nine hundred thousand acres of public land, as generally depicted on the map entitled "Chugach National Forest additions—proposed", and dated October 1978; and

(2) Tongass National Forest by the addition of three areas, Kates Needle, Juneau Icefield, and Brabazon Range, containing approximately one million four hundred and fifty thousand acres of public lands, as generally depicted on the map entitled "Tongass National Forest additions—proposed", and dated October 1978.

(b) Subject to valid existing rights, lands added to the Tongass and Chugach National Forests by this section shall be administered by the Secretary in accordance with the applicable provisions of this Act and the laws, rules, and regulations applicable to the national forest system: *Provided*, That the conservation of fish and wildlife and their habitat shall be the primary purpose for the management of the Copper/Rule River addition and the Copper River-Bering River portion of the existing Chugach National Forest, as generally depicted on the map appropriately referenced and dated October 1978: *Provided*, That the taking of fish and wildlife shall be permitted within zones established by this subsection pur-

suant to the provisions of this Act and other applicable State and Federal law. Multiple use activities shall be permitted in a manner consistent with the conservation of fish and wildlife and their habitat as set forth in special regulations which shall be promulgated by the Secretary.

MINING AND MINERAL LEASING ON CERTAIN NATIONAL FOREST LANDS

SEC. 502. [16 U.S.C. 539a] Subject to valid existing rights, the minerals in public lands within the Copper River addition to the Chugach National Forest, are hereby withdrawn from location, entry, and patent under the United States mining laws. With respect to such areas, the Secretary, under such reasonable regulations as he deems appropriate, may permit the removal of nonleasable minerals from the lands in the manner prescribed by Reorganization Plan Numbered 3 of 1946 and the Act of March 4, 1917 (39 Stat. 1150; 16 U.S.C. 520), and the removal of leasable minerals from such lands in accordance with the mineral leasing laws, if the Secretary finds that such disposition would not have significant adverse effects on the administration of the area. All receipts derived from disposal of nonleasable minerals under this section shall be paid into the same funds or accounts in the Treasury of the United States and shall be distributed in the same manner as provided for receipts from national forests.

FISHERIES ON NATIONAL FOREST LANDS IN ALASKA

SEC. 505. [16 U.S.C. 539b] (a) The Secretary of Agriculture shall, in consultation with the Secretaries of Commerce and the Interior, and with the State of Alaska, pursuant to his existing authority to manage surface resources, promulgate such reasonable regulations as he determines necessary after consideration of existing laws and regulations to maintain the habitats, to the maximum extent feasible, of anadromous fish and other foodfish, and to maintain the present and continued productivity of such habitat when such habitats are affected by mining activities on national forest lands in Alaska. The Secretary of Agriculture, in consultation with the State, shall assess the effects on the populations of such fish in determinations made pursuant to this subsection.

(b) Because of the large scale of contemplated mining operations and the proximity of such operations to important fishery resources, with respect to mining operations in the Quartz Hill area of the Tongass National Forest, the regulations of the Secretary shall, pursuant to this subsection, include a requirement that all mining operations involving significant surface disturbance shall be in accordance with an approved plan of operations. Before approving any proposed plan or distinct stages of such plan of operations for any such claims when any fishery habitat or fishery value may be affected, the Secretary shall, in consultation with the Secretaries of Commerce and the Interior and the State of Alaska, determine—

(1) that such plan or stages of such plan are based upon and shall include studies or information which he determines are adequate for—

- (A) evaluating the water quality and water quantity, fishery habitat, and other fishery values of the affected area; and
 - (B) evaluating to the maximum extent feasible and relevant, the sensitivity to environmental degradation from activities carried out under such plan of the fishery habitat as it affects the various life stages of anadromous fish and other foodfish and their major food chain components;
- (2) that such plan adequately identifies the risks the operations under such plan or such stages might pose to and the benefits the operations under such plan might provide to—
- (A) the natural stability and the present and continued productivity of anadromous fish and other foodfish;
 - (B) fishery habitat, including but not limited to water quality and water quantity; and
 - (C) other fishery values;
- (3) that such plan includes provisions which he determines are adequate for the purposes of—
- (A) preventing significant adverse environmental impacts to the fishery habitat (including but not limited to water quality and water quantity) or other fishery values; and
 - (B) maintaining present and continued productivity of the habitat of anadromous fish and other foodfish which might be affected by the mining and other activities proposed to be conducted in accordance with such plan or such stages of the plan of operations;
- (4)(A) the Secretary shall ensure, to the maximum extent feasible, that the cumulative effects of activities carried out under the operating plan will not interfere with the ability to collect baseline information needed by the Secretary to evaluate the effects of various stages of the operating plan on the fishery habitat and productivity of such habitats;
- (B) the Secretary shall review such plan and mining activities on at least an annual basis. With respect to any mining or associated activities, the Secretary, if he determines upon notice and hearing, that the activities are harmful to the continued productivity of anadromous fish, or other foodfish populations or fishery habitat, shall require a modification of the plan to eliminate or mitigate, if necessary, the harmful effects of such activities; and
- (5) upon a finding by the Secretary that a mining activity conducted as a part of a mining operation exists which constitutes a threat of irreparable harm to anadromous fish, or other foodfish populations or their habitat, and that immediate correction is required to prevent such harm, he may require such activity to be suspended for not to exceed seven days, provided the act activity may be resumed at the end of said seven-day period unless otherwise required by a United States district court.
- (c) Nothing in this section shall enlarge or diminish the responsibility and authority of the State of Alaska to manage fish and

wildlife or to exercise its other responsibilities under applicable law.

(d) Except as specifically provided in subsection (b)(5), nothing in this section shall enlarge or diminish the responsibilities and authorities of the Secretary of Agriculture to manage the national forests.

* * * * *

COOPERATIVE FISHERIES PLANNING

SEC. 507. [16 U.S.C. 539c] (a) The Secretary of Agriculture is directed to implement a cooperative planning process for the enhancement of fisheries resources through fish hatchery and aquaculture facilities and activities in the Tongass National Forest. Participation in this process shall include but not be limited to the State of Alaska and appropriate nonprofit aquaculture corporations. The Secretary may contract with private, nonprofit associations for services in such planning.

(b) Each subsequent revision of National Forest management plans under the Forest and Renewable Resources Planning Act of 1974 and the National Forest Management Act of 1976 shall contain a report on the status of the planning process undertaken under this paragraph, including, but not limited to, a description of current hatchery and aquaculture projects, an analysis of the success of these projects, and a prioritized list of projects anticipated for the duration of the management plan. The report shall be submitted by the Secretary to the Congress with recommendations for any legislative action which the Secretary may deem necessary to implement the proposed hatchery and aquaculture projects.

TITLE VII—NATIONAL WILDERNESS PRESERVATION SYSTEM

NATIONAL FOREST TIMBER UTILIZATION PROGRAM

SEC. 705.¹ [16 U.S.C. 539d] (a) Subject to appropriations, other applicable law, and the requirements of the National Forest Management Act of 1976 (Public Law 94-588), except as provided in subsection (d) of this section, the Secretary shall, to the extent consistent with providing for the multiple use and sustained yield of all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest which (1) meets the annual market demand for timber from such forest and (2) meets the market demand from such forest for each planning cycle.

(b)(1) The Secretary is authorized and directed to establish a special program of insured or guaranteed loans to purchasers of national forest materials in Alaska to assist such purchasers in the acquisition of new technologies which lead to the utilization of

¹So in law. See section 101 of P.L. 101-626, 104 Stat. 4426.

wood products which might otherwise not be utilized. The Secretary is authorized to promulgate such regulations as he deems appropriate to define eligibility requirements for the participation in the loan program and the terms and conditions applicable to loans made under the program. Except as otherwise provided in this section or regulations promulgated specifically for this loan program, such program shall be carried out in a manner which is consistent with other authorities available to the Secretary.

(2) To carry out the special loan program established by this section, there are hereby authorized beginning after the fiscal year 1980 to be appropriated \$5,000,000 from National Forest Fund receipts, to be deposited in a special fund in the Treasury of the United States to remain available until expended. Repayments of principal and interest and other recoveries on loans authorized by this section shall be credited to this fund and shall remain available until expended in order to carry out the purposes of this section.

(c) Within three years after the date of enactment of this Act, the Secretary shall prepare and transmit to the Senate and House of Representatives a study of opportunities (consistent with the laws and regulations applicable to the management of the National Forest System) to increase timber yields on national forest lands in Alaska.

(d) All provisions of section 6(k) of the National Forest Management Act of 1976 (16 U.S.C. 1604(k)) shall apply to the Tongass National Forest except that the Secretary need not consider economic factors in the identification of lands not suited for timber production.

(e) In order to assure protection of riparian habitat, the Secretary shall maintain a buffer zone no less than one hundred feet in width on each side of all Class I streams in the Tongass National Forest, and on those Class II streams which flow directly into a Class I stream, within which commercial timber harvesting shall be prohibited, except where independent national forest timber sales have already been sold prior to March 1, 1990, or where volume has been released prior to March 1, 1990, to either the Alaska Pulp Corporation or the Ketchikan Pulp Company pursuant to the long-term timber sale contracts numbered 12-11-010-1545 and A10fs-1042 respectively. If such an independent timber sale or released volume is within the buffer zone, the Secretary shall make every effort to relocate such independent sale or released volume to an area outside of the buffer zone. The Secretary shall use best management practices, as defined in the Region 10 Soil and Water Conservation handbook (FSH 2509.22), January 1990, to assure the protection of riparian habitat on streams or portions of streams not protected by such buffer zones. For the purposes of this subsection, the terms "Class I streams" and "Class II streams" mean the same as they do in the Region 10 Aquatic Habitat Management Handbook (FSH 2609.24), June 1968.

(f) Subject to appropriations, the provisions of this Act and other applicable law (including but not limited to the requirements of the National Forest Management Act of 1976 (Public Law 94-588)) and in order to assure the continuation of the Small Business Administration timber sale program, the Secretary shall, in con-

sultation with the Administrator of the Small Business Administration and to the extent consistent with providing for the multiple use and sustained yield or all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest to those purchasers qualifying as "small business concerns" under the Small Business Act as amended (15 U.S.C. 631 et seq.).

REPORTS

SEC. 706. (a) The Secretary is directed to monitor timber supply and demand in southeastern Alaska and report annually thereon to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives.

(b) Within five years from the date of enactment of this Act and every two years thereafter, the Secretary shall review and report to Congress on the status of the Tongass National Forest in southeastern Alaska. This report shall include, but not be limited to, (1) the timber harvest levels in the forest since the enactment of this Act; (2) the impact of wilderness designation on the timber, fishing, and tourism industry in southeast Alaska; (3) measures instituted by the Forest Service to protect fish and wildlife in the forest; and (4) the status of the small business set aside program in the Tongass Forest, and (5) the impact of timber management on subsistence resources, wildlife, and fisheries habitats.

(c) The study required by this section shall be conducted in cooperation and consultation with the State, affected Native Corporations, the southeast Alaska timber industry, the Southeast Alaska Conservation Council, the southeast Alaska commercial fishing industry, and the Alaska Land Use Council.¹

¹ Subtitle G enacted as part of title XXIII of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101-624; 104 Stat. 4045). Chapter 2 of this subtitle has its own short title. See section 2372.

CHAPTER 2—NATIONAL FOREST-DEPENDENT RURAL COMMUNITIES

SEC. 2372. [7 U.S.C. 6601 note] SHORT TITLE.

This chapter may be cited as the “National Forest-Dependent Rural Communities Economic Diversification Act of 1990”.

SEC. 2373. [7 U.S.C. 6611] FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) the economic well-being of rural America is vital to our national growth and prosperity;

(2) the economic well-being of many rural communities depends upon the goods and services that are derived from National Forest System land;

(3) the economies of many of these communities suffer from a lack of industrial and business diversity;

(4) this lack of diversity is particularly serious in communities whose economies are predominantly dependent on timber and recreation resources and where management decisions made on National Forest System land by Federal and private organizations may disrupt the supply of those resources;

(5) the Forest Service has expertise and resources that could be directed to promote modernization and economic diversification of existing industries and services based on natural resources;

(6) the Forest Service has the technical expertise to provide leadership, in cooperation with other governmental agencies and the private sector, to assist rural communities dependent upon National Forest System land resources to upgrade existing industries and diversify by developing new economic activity in non-forest-related industries; and

(7) technical assistance, training, education, and other assistance provided by the Department of Agriculture can be targeted to provide immediate help to those rural communities in greatest need.

(b) PURPOSES.—The purposes of this chapter are—

(1) to provide assistance to rural communities that are located in or near National Forest System land and that are economically dependent upon natural resources or are likely to be economically disadvantaged by Federal or private sector land management practices;

(2) to aid in diversifying such communities' economic bases; and

(3) to improve the economic, social, and environmental well-being of rural America.

SEC. 2374. [7 U.S.C. 6612] DEFINITIONS.

As used in this chapter:

(1) The term “action team” means a rural natural resources and economic diversification action team established by the Secretary pursuant to section 2375(b).

(2) The term “economically disadvantaged” means economic hardship due to the loss of jobs or income (labor or proprietor) derived from forestry, the wood products industry, or

related commercial enterprises such as recreation and tourism in the national forest.

(3) The term "rural community" means—

(A) any town, township, municipality, or other similar unit of general purpose local government, or any area represented by a not-for-profit corporation or institution organized under State or Federal law to promote broad based economic development, or unit of general purpose local government, as approved by the Secretary, that has a population of not more than 10,000 individuals, is located within a county in which at least 15 percent of the total primary and secondary labor and proprietor income is derived from forestry, wood products, and forest-related industries such as recreation, forage production, and tourism and that is located within the boundary, or within 100 miles of the boundary, of a national forest; or

(B) any county that is not contained within a Metropolitan Statistical Area as defined by the United States Office of Management and Budget, in which at least 15 percent of the total primary and secondary labor and proprietor income is derived from forestry, wood products, and forest-related industries such as recreation, forage production, and tourism and that is located within the boundary, or within 100 miles of the boundary, of a national forest.

(4) The term "Secretary" means the Secretary of Agriculture.

SEC. 2375. [7 U.S.C. 6613] RURAL FORESTRY AND ECONOMIC DIVERSIFICATION ACTION TEAMS.

(c) **ORGANIZATION.**—The Secretary shall design and organize any action team established pursuant to subsection (b) to meet the unique needs of the requesting rural community. Each action team shall be directed by an employee of the Forest Service and may include personnel from other agencies within the Department of Agriculture, from other Federal and State departments and agencies, and from the private sector.

(e) **ELIGIBILITY.**—The Secretary shall ensure that no substantially similar geographical or defined local area in a State receives a grant for technical assistance to an economically disadvantaged community under this chapter and a grant for assistance under a designated rural development program during any continuous five-year period.

(f) **APPROVAL.**—After reviewing requests under this section for financial and economic feasibility and viability, the Secretary shall approve and implement in accordance with section 2376 those action plans that will achieve the purposes of this chapter.

SEC. 2376. [7 U.S.C. 6614] ACTION PLAN IMPLEMENTATION.

(b) **ASSISTANCE.**—To implement action plans, the Secretary may make grants and enter into cooperative agreements and contracts to provide necessary technical and related assistance. Such grants, cooperative agreements, and contracts may be with the affected rural community, State and local governments, universities, corporations, and other persons.

(c) **LIMITATION.**—The Federal contribution to the overall implementation of an action plan shall not exceed 80 percent of the total cost of the plan, including administrative and other costs. In calculating the Federal contribution, the Secretary shall take into account the fair market value of equipment, personnel, and services provided.

(d) **AVAILABLE AUTHORITY.**—The Secretary may use the Secretary’s authority under the Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101 et seq.) and other Federal, State, and local governmental authorities in implementing action plans.

(e) **CONSISTENCY WITH FOREST PLANS.**—The implementation of action plans shall be consistent with land and resource management plans.

SEC. 2377. [7 U.S.C. 6615] TRAINING AND EDUCATION.

(a) **PROGRAMS.**—In furtherance of an action plan, the Secretary may use the Extension Service and other appropriate agencies of the Department of Agriculture to develop and conduct education programs that assist businesses, elected or appointed officials, and individuals in rural communities to deal with the effects of a transition from being economically disadvantaged to economic diversification. These programs may include—

- (1) community economic analysis and strategic planning;

(2) methods for improving and retooling enterprises now dependent on national forest resources;¹

(3) methods for expanding enterprises and creating new economic opportunities by emphasizing economic opportunities in other industries or services not dependent on National Forest System land resources; and

(3) supporting the development of new industries or commercial ventures unrelated to National Forest System land resources.

(b) INTEREST RATES.—The interest rates on a loan made pursuant to this section shall be as determined by the Secretary, but not in excess of the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the maturity of such loan, plus not to exceed 1 percent, as determined by the Secretary, and rounded to the nearest one-eighth of 1 percent.

SEC. 2379. [7 U.S.C. 6617] AUTHORIZATION OF APPROPRIATIONS AND SPENDING AUTHORITY.

(a) AUTHORIZATION OF APPROPRIATIONS.—Except as provided in subsection (b), there are authorized to be appropriated—

(1) an amount not to exceed 5 percent of the sum of—

(A) the sums received by the Secretary from sales of timber and other products of the forests; and

(B) user fees paid in connection with the use of forest lands; and

17. FOREST ROADS AND TRAILS

[As Amended Through Public Law 106-580, Dec. 31, 2000]

A. Public Law 88-657

(The Act of October 13, 1964, commonly known as the Forest Roads And Trails Act)

AN ACT To enable the Secretary of Agriculture to construct and maintain an adequate system of roads and trails for the national forests, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That [16 U.S.C. 532] the Congress hereby finds and declares that the construction and maintenance of an adequate system of roads and trails within and near the national forests and other lands administered by the Forest Service is essential if increasing demands for timber, recreation, and other uses of such lands are to be met; that the existence of such a system would have the effect, among other things, of increasing the value of timber and other resources tributary to such roads; and that such a system is essential to enable the Secretary of Agriculture (hereinafter called the Secretary) to provide for intensive use, protection, development, and management of these lands under principles of multiple use and sustained yield of products and services.

SEC. 2. [16 U.S.C. 533] The Secretary is authorized, under such regulations as he may prescribe, subject to the provisions of this Act, to grant permanent or temporary easements for specified periods or otherwise for road rights-of-way (1) over national forest lands and other lands administered by the Forest Service, and (2) over any other related lands with respect to which the Department of Agriculture has rights under the terms of the grant to it.

SEC. 3. [16 U.S.C. 534] An easement granted under this Act may be terminated by consent of the owner of the easement, by condemnation, or after a 5-year period of nonuse the Secretary may, if he finds the owner has abandoned the easement, make a determination to cancel it. Before the Secretary may cancel an easement for nonuse the owner of such easement must be notified of the determination to cancel and be given, upon his request made within 60 days after receipt of the notice, a hearing in accordance with such rules and regulations as may be issued by the Secretary.

SEC. 4. [16 U.S.C. 535] The Secretary is authorized to provide for the acquisition, construction, and maintenance of forest development roads within and near the national forests and other lands administered by the Forest Service in locations and according to specifications which will permit maximum economy in harvesting timber from such lands tributary to such roads and at the same time meet the requirements for protection, development, and management thereof, and for utilization of the other resources thereof. Financing of such roads may be accomplished (1) by the Secretary

utilizing appropriated funds, (2) by requirements on purchasers of national forest timber and other products, including provisions for amortization of road costs in contracts, (3) by cooperative financing with other public agencies and with private agencies or persons, or (4) by a combination of these methods: *Provided*, That where roads of a higher standard than that needed in the harvesting and removal of the timber and other products covered by the particular sale are to be constructed, the purchaser of the national forest timber and other products shall not be required to bear that part of the costs necessary to meet such higher standard, and the Secretary is authorized to make such arrangements to this end as may be appropriate. The Secretary is authorized, under such rules and regulations as he shall prescribe, to permit the transfer of unused effective purchaser credit for road construction earned after the date of enactment of this sentence [December 16, 1975], from one timber sale to a purchaser to another timber sale to the same purchaser within the same National Forest.

SEC. 5. [16 U.S.C. 536] Copies of all instruments affecting permanent interests in land executed pursuant to this Act shall be recorded in each county where the lands are located. Copies of all instruments affecting interests in lands reserved from the public domain shall be furnished to the Secretary of the Interior.

SEC. 6. [16 U.S.C. 537] The Secretary may require the user or users of a road under the control of the Forest Service, including purchasers of Government timber and other products, to maintain such roads in a satisfactory condition commensurate with the particular use requirements of each. Such maintenance to be borne by each user shall be proportionate to total use. The Secretary may also require the user or users of such a road to reconstruct the same when such reconstruction is determined to be necessary to accommodate such use. If such maintenance or reconstruction cannot be so provided or if the Secretary determines that maintenance or reconstruction by a user would not be practical, then the Secretary may require that sufficient funds be deposited by the user to provide his portion of such total maintenance or reconstruction. Deposits made to cover the maintenance or reconstruction of roads are hereby made available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: *Provided*, That deposits received for work on adjacent and overlapping areas may be combined when it is the most practicable and efficient manner of performing the work, and cost thereof may be determined by estimates: *And provided further*, That unexpended balances upon accomplishment of the purpose for which deposited shall be transferred to miscellaneous receipts or refunded.

SEC. 7. [16 U.S.C. 538] Whenever the agreement under which the United States has obtained for the use of, or in connection with, the national forests and other lands administered by the Forest Service a right-of-way or easement for a road or an existing road or the right to use an existing road provides for delayed payments to the Government's grantor, any fees or other collections re-

ceived by the Secretary for the use of the road may be placed in a fund to be available for making payments to the grantor.

B. Prohibition on Timber Purchaser Road Credits

(Section 329 of the Department of the Interior and Related Agencies Appropriations Act, 1999 (as contained in section 101(e) of division A of Public Law 105-277))

SEC. 329. [16 U.S.C. 535a] (a) **PROHIBITION ON TIMBER PURCHASER ROAD CREDITS.**—In financing any forest development road pursuant to section 4 of Public Law 88-657 (16 U.S.C. 535, commonly known as the National Forest Roads and Trails Act), the Secretary of Agriculture may not provide effective credit for road construction to any purchaser of national forest timber or other forest products.

(b)(1) **CONSTRUCTION OF ROADS BY TIMBER PURCHASERS.**—Whenever the Secretary of Agriculture makes a determination that a forest development road referred to in subsection (a) shall be constructed or paid for, in whole or in part, by a purchaser of national forest timber or other forest products, the Secretary shall include notice of the determination in the notice of sale of the timber or other forest products. The notice of sale shall contain, or announce the availability of, sufficient information related to the road described in the notice to permit a prospective bidder on the sale to calculate the likely cost that would be incurred by the bidder to construct or finance the construction of the road so that the bidder may reflect such cost in the bid.

(2) If there is an increase or decrease in the cost of roads constructed by the timber purchaser, caused by variations in quantities, changes or modifications subsequent to the sale of timber made in accordance with applicable timber sale contract provisions, then an adjustment to the price paid for timber harvested by the purchaser shall be made. The adjustment shall be applied by the Secretary as soon as practicable after any such design change is implemented.

(c) **SPECIAL ELECTION BY SMALL BUSINESS CONCERNS.**—(1) A notice of sale referred to in subsection (b) containing specified road construction of \$50,000 or more, shall give a purchaser of national forest timber or other forest products that qualifies as a “small business concern” under the Small Business Act (15 U.S.C. 631 et seq.), and regulations issued thereunder, the option to elect that the Secretary of Agriculture build the roads described in the notice. The Secretary shall provide the small business concern with an estimate of the cost that would be incurred by the Secretary to construct the roads on behalf of the small business concern. The notice of sale shall also include the date on which the roads described in the notice will be completed by the Secretary if the election is made.

(2) If the election referred to in paragraph (1) is made, the purchaser of the national forest timber or other forest products shall pay to the Secretary of Agriculture, in addition to the price paid for the timber or other forest products, an amount equal to the esti-

mated cost of the roads which otherwise would be paid by the purchaser as provided in the notice of sale. Pending receipt of such amount, the Secretary may use receipts from the sale of national forest timber or other forest products and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to accomplish the requested road construction.

(d) **POST CONSTRUCTION HARVESTING.**—In each sale of national forest timber or other forest products referred to in this section, the Secretary of Agriculture is encouraged to authorize harvest of the timber or other forest products in a unit included in the sale as soon as road work for that unit is completed and the road work is approved by the Secretary.

(e) **CONSTRUCTION STANDARD.**—For any forest development road that is to be constructed or paid for by a purchaser of national forest timber or other forest products, the Secretary of Agriculture may not require the purchaser to design, construct, or maintain the road (or pay for the design, construction, or maintenance of the road) to a standard higher than the standard, consistent with applicable environmental laws and regulations, that is sufficient for the harvesting and removal of the timber or other forest products, unless the Secretary bears that part of the cost necessary to meet the higher standard.

(f) **TREATMENT OF ROAD VALUE.**—For any forest development road that is constructed or paid for by a purchaser of national forest timber or other forest products, the estimated cost of the road construction, including subsequent design changes, shall be considered to be money received for purposes of the payments required to be made under the sixth paragraph under the heading “FOREST SERVICE” in the Act of May 23, 1908 (35 Stat. 260, 16 U.S.C. 500), and section 13 of the Act of March 1, 1911 (35 Stat. 963; commonly known as the Weeks Act; 16 U.S.C. 500). To the extent that the appraised value of road construction determined under this subsection reflects funds contributed by the Secretary of Agriculture to build the road to a higher standard pursuant to subsection (e), the Secretary shall modify the appraisal of the road construction to exclude the effect of the Federal funds.

(g) **EFFECTIVE DATE.**—(1) This section and the requirements of this section shall take effect (and apply thereafter) upon the earlier of—

(A) April 1, 1999; or

(B) the date that is the later of—

(i) the effective date of regulations issued by the Secretary of Agriculture to implement this section; and

(ii) the date on which new timber sale contract provisions designed to implement this section, that have been published for public comment, are approved by the Secretary.

(2) Notwithstanding paragraph (1), any sale of national forest timber or other forest products for which notice of sale is provided before the effective date of this section, and any effective purchaser road credit earned pursuant to a contract resulting from such a notice of sale or otherwise earned before that effective date shall remain in effect, and shall continue to be subject to section 4 of Pub-

lic Law 88-657 and section 14(i) of the National Forest Management Act of 1976 (16 U.S.C. 472a(i)), and rules issued thereunder, as in effect on the day before the date of the enactment of this Act.

grated natural resources management plan for each military installation in the United States under the jurisdiction of the Secretary, unless the Secretary determines that the absence of significant natural resources on a particular installation makes preparation of such a plan inappropriate.

(2) COOPERATIVE PREPARATION.—The Secretary of a military department shall prepare each integrated natural resources management plan for which the Secretary is responsible in cooperation with the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service, and the head of each appropriate State fish and wildlife agency for the State in which the military installation concerned is located. Consistent with paragraph (4), the resulting plan for the military installation shall reflect the mutual agreement of the parties concerning conservation, protection, and management of fish and wildlife resources.

(3) PURPOSES OF PROGRAM.—Consistent with the use of military installations to ensure the preparedness of the Armed Forces, the Secretaries of the military departments shall carry out the program required by this subsection to provide for—

(A) the Commanding Officer of the installation or persons designated by that Officer are authorized to enforce such special hunting and fishing permits and to collect, spend, administer, and account for fees for the permits, acting as agent or agents for the State if the integrated natural resources management plan so provides, and

(B) the fees collected under this paragraph may not be expended with respect to other than the military installation on which collected, unless the military installation is subsequently closed, in which case the fees may be transferred to another military installation to be used for the same purposes.

(c) After an integrated natural resources management plan is agreed to under subsection (a)—

(1) no sale of land, or forest products from land, that is within a military installation covered by that plan may be made under section 2665 (a) or (b) of title 10, United States Code; and

(2) no leasing of land that is within the installation may be made under section 2667 of such title 10; unless the effects of that sale or leasing are compatible with the purposes of the plan.

TITLE II—CONSERVATION PROGRAMS ON CERTAIN PUBLIC LAND

SEC. 201. [16 U.S.C. 670g] (a) The Secretary of the Interior and the secretary of Agriculture shall each, in cooperation with the State agencies and in accordance with comprehensive plans developed pursuant to section 202 of this title, plan, develop, maintain, and coordinate programs for the conservation and rehabilitation of wildlife, fish, and game. Such conservation and rehabilitation programs shall include, but not be limited to specific habitat improvement projects and related activities and adequate protection for species of fish, wildlife, and plants considered threatened or endangered.

(b) The Secretary of the Interior shall implement the conservation and rehabilitation programs required under subsection (a) of this section on public land under his jurisdiction. The Secretary of the Interior shall adopt, modify, and implement the conservation and rehabilitation programs required under such subsection (a) on public land under the jurisdiction of the Chairman, but only with the prior written approval of the Atomic Energy Commission, and on public land under the jurisdiction of the Administrator, but only with the prior written approval of the Administrator. The Secretary

of Agriculture shall implement such conservation and rehabilitation programs on public land under his jurisdiction.

SEC. 202. [16 U.S.C. 670h] (a)(1) The Secretary of the Interior shall develop, in consultation with the State agencies, a comprehensive plan for conservation and rehabilitation programs to be implemented on public land under his jurisdiction and the Secretary of Agriculture shall do the same in connection with public land under his jurisdiction.

(2) The Secretary of the Interior shall develop, with the prior written approval of the Atomic Energy Commission, a comprehensive plan for conservation and rehabilitation programs to be implemented on public land under the jurisdiction of the Chairman and develop, with the prior written approval of the Administrator, a comprehensive plan for such programs to be implemented on public land under the jurisdiction of the Administrator. Each such plan shall be developed after the Secretary of the Interior makes, with the prior written approval of the Chairman or the Administrator, as the case may be, and in consultation with the State agencies, necessary studies and surveys of the land concerned to determine where conservation and rehabilitation programs are most needed.

(b) Each comprehensive plan developed pursuant to this section shall be consistent with any overall land use and management plans for the lands involved. In any case in which hunting, trapping, or fishing (or any combination thereof) of resident fish and wildlife is to be permitted on public land under a comprehensive plan, such hunting, trapping, and fishing shall be conducted in accordance with applicable laws and regulations of the State in which such land is located.

(c)(1) Each State agency may enter into a cooperative agreement with—

(A) the Secretary of the Interior with respect to those conservation and rehabilitation programs to be implemented under this title within the State on public land which is under his jurisdiction;

(2) Any conservation and rehabilitation program included within a cooperative agreement entered into under this subsection may be modified in a manner mutually agreeable to the State agency and the Secretary concerned (and the Chairman or the Administrator, as the case may be, if public land under his jurisdiction is involved). Before modifying any cooperative agreement which affects public land under the jurisdiction of the Chairman, the Secretary of the Interior shall obtain the prior written approval of the Atomic Energy Commission and before modifying any cooperative agreement which affects public land under the jurisdiction of the Administrator, the Secretary of the Interior shall obtain the prior written approval of the Administrator.

(C) provide for range rehabilitation where necessary for support of wildlife;

(D) provide adequate protection for fish and wildlife officially classified as threatened or endangered pursuant to section 4 of the Endangered Species Act of 1973 (16 U.S.C. 1533) or considered to be threatened, rare, or endangered by the State agency;

(E) require the control of off-road vehicle traffic;

(F) if the issuance of public land area management stamps is agreed to pursuant to section 203(a) of this title—

(i) contain such terms and conditions as are required under section 203(b) of this title;

(ii) require the maintenance of accurate records and the filing of annual reports by the State agency to the Secretary of the Interior or the Secretary of Agriculture, or both, as the case may be, setting forth the amount and disposition of the fees collected for such stamps; and

(iii) authorize the Secretary concerned and the Comptroller General of the United States, or their authorized representatives, to have access to such records for purposes of audit and examination; and

(G) contain such other terms and conditions as the Secretary concerned and the State agency deem necessary and appropriate to carry out the purposes of this title.

A cooperative agreement may also provide for arrangements under which the Secretary concerned may authorize officers and employ-

(4) Except where limited under a comprehensive plan or pursuant to cooperative agreement, hunting, fishing, and trapping shall be permitted with respect to resident fish and wildlife in accordance with applicable laws and regulations of the State in which such land is located on public land which is the subject of a conservation and rehabilitation program implemented under this title.

(5) The Secretary of the Interior and the Secretary of Agriculture, as the case may be, shall prescribe such regulations as are deemed necessary to control, in a manner consistent with the applicable comprehensive plan and cooperative agreement, the public use of public land which is the subject of any conservation and rehabilitation program implemented by him under this title.

(d) Agreements entered into by State agencies under the authority of this section shall not be deemed to be, or treated as, cooperative agreements to which the Federal Grant and Cooperative Agreement Act of 1977 (41 U.S.C. 501 et seq.) applies.

SEC. 203. [16 U.S.C. 670i] (a) Any State agency may agree with the Secretary of the Interior and the Secretary of Agriculture (or with the Secretary of the Interior or the Secretary of Agriculture, as the case may be, if within the State concerned all conservation and rehabilitation programs under this title will be implemented by him) that no individual will be permitted to hunt, trap, or fish on any public land within the State which is subject to a conservation and rehabilitation program implemented under this title unless at the time such individual is engaged in such activity he has on his person a valid public land management area stamp issued pursuant to this section.

(b) Any agreement made pursuant to subsection (a) of this section to require the issuance of public land management area stamps shall be subject to the following conditions:

(1) Such stamps shall be issued, sold, and the fees therefor collected, by the State agency or by the authorized agents of such agency.

To the maximum extent practicable, the sale of such stamps shall be combined with the sale of such State hunting, trapping, and fishing licenses.

(3)¹ Except for expenses incurred in the printing, issuing, or selling of such stamps, the fees collected for such stamps by the State agency shall be utilized in carrying out conservation and rehabilitation programs implemented under this title in the State concerned. Such fees may be used by the State agency to acquire lands or interests therein from willing sellers or donors to provide public access to program lands that have no existing public access for enhancement of outdoor recreation and wildlife conservation: *Provided*, That the Secretary of Agriculture and the Secretary of the Interior maintain such access, or ensure that maintenance is

¹ Margin so in law. See section 201 of Public Law 100-653 (102 Stat. 3826).

provided for such access, through or to lands within their respective jurisdiction.

(4) The purchase of any such stamp shall entitle the purchaser thereof to hunt, trap, and fish on any public land within such State which is the subject of a conservation or rehabilitation program implemented under this title except to the extent that the public use of such land is limited pursuant to a comprehensive plan or cooperative agreement; but the purchase of any such stamp shall not be construed as (A) eliminating the requirement for the purchase of a migratory bird hunting stamp as set forth in the first section of the Act of March 16, 1934, commonly referred to as the Migratory Bird Hunting Stamp Act (16 U.S.C. 718a), or (B) relieving the purchaser from compliance with any applicable State game and fish laws and regulations.

(5) The amount of the fee to be charged for such stamps, the age at which the individual is required to acquire such a stamp, and the expiration date for such stamps shall be mutually agreed upon by the State agency and the Secretary or Secretaries concerned; except that each such stamp shall be void not later than one year after the date of issuance.

(6) Each such stamp must be validated by the purchaser thereof by signing his name across the face of the stamp.

(7) Any individual to whom a stamp is sold pursuant to this section shall upon request exhibit such stamp for inspection to any officer or employee of the Department of the Interior or the Department of Agriculture, or to any other person who is authorized to enforce section 204(a) of this title.

SEC. 204. [16 U.S.C. 670j] (a)(1) Any person who hunts, traps, or fishes on any public land which is subject to a conservation and rehabilitation program implemented under this title without having on his person a valid public land management area stamp, if the possession of such a stamp is required, shall be fined not more than \$1,000, or imprisoned for not more than six months, or both.

(2) Any person who knowingly violates or fails to comply with any regulations prescribed under section 202(c)(5) of this title shall be fined not more than \$500, or imprisoned not more than six months, or both.

(b)(1) For the purpose of enforcing subsection (a) of this section, the Secretary of the Interior and the Secretary of Agriculture may designate any employee of their respective departments, and any State officer or employee authorized under a cooperative agreement to enforce such subsection (a), to (i) carry firearms; (ii) execute and serve any warrant or other process issued by a court or officer of competent jurisdiction; (iii) make arrests without warrant or process for a misdemeanor he has reasonable grounds to believe is being committed in his presence or view; (iv) search without warrant or process any person, place, or conveyance as provided by law; and (v) seize without warrant or process any evidentiary item as provided by law.

(2) Upon the sworn information by a competent person, any United States magistrate or court of competent jurisdiction may

issue process for the arrest of any person charged with committing any offense under subsection (a) of this section.

(3) Any person charged with committing any offense under subsection (a) of this section may be tried and sentenced by any United States magistrate designated for that purpose by the court by which he was appointed, in the same manner and subject to the same conditions as provided for in section 3401 of title 18, United States Code.

(c) All guns, traps, nets, and other equipment, vessels, vehicles, and other means of transportation used by any person when engaged in committing an offense under subsection (a) of this section shall be subject to forfeiture to the United States and may be seized and held pending the prosecution of any person arrested for committing such offense. Upon conviction for such offense, such forfeiture may be adjudicated as a penalty in addition to any other provided for committing such offense.

(d) All provisions of law relating to the seizure, forfeiture, and condemnation of a vessel for violation of the customs laws, the disposition of such vessel or the proceeds from the sale thereof, and the remission or mitigation of such forfeitures, shall apply to the seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this section, insofar as such provisions of law are applicable and not inconsistent with the provisions of this section; except that all powers, rights, and duties conferred or imposed by the customs laws upon any officer or employee of the Department of the Treasury shall, for the purposes of this section, be exercised or performed by the Secretary of the Interior or the Secretary of Agriculture, as the case may be, or by such persons as he may designate.

(3) The term “salvage timber sale” means a timber sale for which an important reason for entry includes the removal of disease- or insect-infested trees, dead, damaged, or down trees, or trees affected by fire or imminently susceptible to fire or insect attack. Such term also includes the removal of associated trees or trees lacking the characteristics of a healthy and viable ecosystem for the purpose of ecosystem improvement or rehabilitation, except that any such sale must include an identifiable salvage component of trees described in the first sentence.

(4) The term “Secretary concerned” means—

(A) the Secretary of Agriculture, with respect to lands within the National Forest System; and

(B) the Secretary of the Interior, with respect to Federal lands under the jurisdiction of the Bureau of Land Management.

(b) COMPLETION OF SALVAGE TIMBER SALES.—

(1) SALVAGE TIMBER SALES.—Using the expedited procedures provided in subsection (c), the Secretary concerned shall prepare, advertise, offer, and award contracts during the emergency period for salvage timber sales from Federal lands described in subsection (a)(4). During the emergency period, the Secretary concerned is to achieve, to the maximum extent feasible, a salvage timber sale volume level above the programmed level to reduce the backlogged volume of salvage timber. The preparation, advertisement, offering, and awarding of such contracts shall be performed utilizing subsection (c) and notwithstanding any other provision of law, including a law under the authority of which any judicial order may be outstanding on or after the date of the enactment of this Act.

(2) USE OF SALVAGE SALE FUNDS.—To conduct salvage timber sales under this subsection, the Secretary concerned may use salvage sale funds otherwise available to the Secretary concerned.

(3) SALES IN PREPARATION.—Any salvage timber sale in preparation on the date of the enactment of this Act shall be subject to the provisions of this section.

(c) EXPEDITED PROCEDURES FOR EMERGENCY SALVAGE TIMBER SALES.—

(1) SALE DOCUMENTATION.—

(A) PREPARATION.—For each salvage timber sale conducted under subsection (b), the Secretary concerned shall prepare a document that combines an environmental assessment under section 102(2) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)) (including regulations implementing such section) and a biological evaluation under section 7(a)(2) of the Endangered Species Act of 1973 (16 U.S.C. 1536(a)(2)) and other applicable Federal law and implementing regulations. A document embodying decisions relating to salvage timber sales proposed under authority of this section shall, at the sole discretion of the Secretary concerned and to the extent the Secretary concerned considers appropriate and feasible, consider the environmental effects of the salvage timber sale and the effect, if any, on threatened or endangered species, and to the extent the Secretary concerned, at his sole discretion, considers appropriate and feasible, be consistent with any standards and guidelines from the management plans applicable to the National Forest or Bureau of Land Management District on which the salvage timber sale occurs.

(B) USE OF EXISTING MATERIALS.—In lieu of preparing a new document under this paragraph, the Secretary concerned may use a document prepared pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) before the date of the enactment of this Act, a biological evaluation written before such date, or information collected for such a document or evaluation if the document, evaluation, or information applies to the Federal lands covered by the proposed sale.

(C) SCOPE AND CONTENT.—The scope and content of the documentation and information prepared, considered, and relied on under this paragraph is at the sole discretion of the Secretary concerned.

(2) REPORTING REQUIREMENTS.—Not later than August 30, 1995, the Secretary concerned shall submit a report to the appropriate committees of Congress on the implementation of this section. The report shall be updated and resubmitted to the appropriate committees of Congress every six months thereafter until the completion of all salvage timber sales conducted under subsection (b). Each report shall contain the following:

(A) The volume of salvage timber sales sold and harvested, as of the date of the report, for each National Forest and each district of the Bureau of Land Management.

(B) The available salvage volume contained in each National Forest and each district of the Bureau of Land Management.

(C) A plan and schedule for an enhanced salvage timber sale program for fiscal years 1995, 1996, and 1997 using the authority provided by this section for salvage timber sales.

(D) A description of any needed resources and personnel, including personnel reassignments, required to conduct an enhanced salvage timber sale program through fiscal year 1997.

(E) A statement of the intentions of the Secretary concerned with respect to the salvage timber sale volume levels specified in the joint explanatory statement of managers accompanying the conference report on H.R. 1158, House Report 104-124.

(3) **ADVANCEMENT OF SALES AUTHORIZED.**—The Secretary concerned may begin salvage timber sales under subsection (b) intended for a subsequent fiscal year before the start of such fiscal year if the Secretary concerned determines that performance of such salvage timber sales will not interfere with salvage timber sales intended for a preceding fiscal year.

(4) **DECISIONS.**—The Secretary concerned shall design and select the specific salvage timber sales to be offered under subsection (b) on the basis of the analysis contained in the document or documents prepared pursuant to paragraph (1) to achieve, to the maximum extent feasible, a salvage timber sale volume level above the program level.

(5) **SALE PREPARATION.**—

(A) **USE OF AVAILABLE AUTHORITIES.**—The Secretary concerned shall make use of all available authority, including the employment of private contractors and the use of expedited fire contracting procedures, to prepare and advertise salvage timber sales under subsection (b).

(B) **EXEMPTIONS.**—The preparation, solicitation, and award of salvage timber sales under subsection (b) shall be exempt from—

(i) the requirements of the Competition in Contracting Act (41 U.S.C. 253 et seq.) and the implementing regulations in the Federal Acquisition Regulation issued pursuant to section 25(c) of the Office of Federal Procurement Policy Act (41 U.S.C. 421(c)) and any departmental acquisition regulations; and

(ii) the notice and publication requirements in section 18 of such Act (41 U.S.C. 416) and 8(e) of the Small Business Act (15 U.S.C. 637(e)) and the implementing regulations in the Federal Acquisition Regulation and any departmental acquisition regulations.

(C) **INCENTIVE PAYMENT RECIPIENTS; REPORT.**—The provisions of section 3(d)(1) of the Federal Workforce Restructuring Act of 1994 (Public Law 103-226; 5 U.S.C.

5597 note) shall not apply to any former employee of the Secretary concerned who received a voluntary separation incentive payment authorized by such Act and accepts employment pursuant to this paragraph. The Director of the Office of Personnel Management and the Secretary concerned shall provide a summary report to the appropriate committees of Congress, the Committee on Government Reform and Oversight of the House of Representatives, and the Committee on Governmental Affairs of the Senate regarding the number of incentive payment recipients who were rehired, their terms of reemployment, their job classifications, and an explanation, in the judgment of the agencies involved of how such reemployment without repayment of the incentive payments received is consistent with the original waiver provisions of such Act. This report shall not be conducted in a manner that would delay the rehiring of any former employees under this paragraph, or affect the normal confidentiality of Federal employees.

(6) COST CONSIDERATIONS.—Salvage timber sales undertaken pursuant to this section shall not be precluded because the costs of such activities are likely to exceed the revenues derived from such activities.

(7) EFFECT OF SALVAGE SALES.—The Secretary concerned shall not substitute salvage timber sales conducted under subsection (b) for planned non-salvage timber sales.

(8) REFORESTATION OF SALVAGE TIMBER SALE PARCELS.—The Secretary concerned shall plan and implement reforestation of each parcel of land harvested under a salvage timber sale conducted under subsection (b) as expeditiously as possible after completion of the harvest on the parcel, but in no case later than any applicable restocking period required by law or regulation.

(9) EFFECT ON JUDICIAL DECISIONS.—The Secretary concerned may conduct salvage timber sales under subsection (b) notwithstanding any decision, restraining order, or injunction issued by a United States court before the date of the enactment of this section.

(d) DIRECTION TO COMPLETE TIMBER SALES ON LANDS COVERED BY OPTION 9.—Notwithstanding any other law (including a law under the authority of which any judicial order may be outstanding on or after the date of enactment of this Act), the Secretary concerned shall expeditiously prepare, offer, and award timber sale contracts on Federal lands described in the "Record of Decision for Amendments to Forest Service and Bureau of Land Management Planning Documents Within the Range of the Northern Spotted Owl", signed by the Secretary of the Interior and the Secretary of Agriculture on April 13, 1994. The Secretary concerned may conduct timber sales under this subsection notwithstanding any decision, restraining order, or injunction issued by a United States court before the date of the enactment of this section. The issuance of any regulation pursuant to section 4(d) of the Endangered Species Act of 1973 (16 U.S.C. 1533(d)) to ease or reduce restrictions on non-Federal lands within the range of the northern spotted owl shall be deemed to satisfy the requirements of section

102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)), given the analysis included in the Final Supplemental Impact Statement on the Management of the Habitat for Late Successional and Old Growth Forest Related Species Within the Range of the Northern Spotted Owl, prepared by the Secretary of Agriculture and the Secretary of the Interior in 1994, which is, or may be, incorporated by reference in the administrative record of any such regulation. The issuance of any such regulation pursuant to section 4(d) of the Endangered Species Act of 1973 (16 U.S.C. 1533(d)) shall not require the preparation of an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(e) ADMINISTRATIVE REVIEW.—Salvage timber sales conducted under subsection (b), timber sales conducted under subsection (d), and any decision of the Secretary concerned in connection with such sales, shall not be subject to administrative review.

(f) JUDICIAL REVIEW.—

(1) PLACE AND TIME OF FILING.—A salvage timber sale to be conducted under subsection (b), and a timber sale to be conducted under subsection (d), shall be subject to judicial review only in the United States district court for the district in which the affected Federal lands are located. Any challenge to such sale must be filed in such district court within 15 days after the date of initial advertisement of the challenged sale. The Secretary concerned may not agree to, and a court may not grant, a waiver of the requirements of this paragraph.

(2) EFFECT OF FILING ON AGENCY ACTION.—For 45 days after the date of the filing of a challenge to a salvage timber sale to be conducted under subsection (b) or a timber sale to be conducted under subsection (d), the Secretary concerned shall take no action to award the challenged sale.

(3) PROHIBITION ON RESTRAINING ORDERS, PRELIMINARY INJUNCTIONS, AND RELIEF PENDING REVIEW.—No restraining order, preliminary injunction, or injunction pending appeal shall be issued by any court of the United States with respect to any decision to prepare, advertise, offer, award, or operate a salvage timber sale pursuant to subsection (b) or any decision to prepare, advertise, offer, award, or operate a timber sale pursuant to subsection (d). Section 705 of title 5, United States Code, shall not apply to any challenge to such a sale.

(4) STANDARD OF REVIEW.—The courts shall have authority to enjoin permanently, order modification of, or void an individual salvage timber sale if it is determined by a review of the record that the decision to prepare, advertise, offer, award, or operate such sale was arbitrary and capricious or otherwise not in accordance with applicable law (other than those laws specified in subsection (i)).

(5) TIME FOR DECISION.—Civil actions filed under this subsection shall be assigned for hearing at the earliest possible date. The court shall render its final decision relative to any challenge within 45 days from the date such challenge is brought, unless the court determines that a longer period of time is required to satisfy the requirement of the United States Constitution. In order to reach a decision within 45 days, the

district court may assign all or part of any such case or cases to one or more Special Masters, for prompt review and recommendations to the court.

(6) PROCEDURES.—Notwithstanding any other provision of law, the court may set rules governing the procedures of any proceeding brought under this subsection which set page limits on briefs and time limits on filing briefs and motions and other actions which are shorter than the limits specified in the Federal rules of civil or appellate procedure.

(7) APPEAL.—Any appeal from the final decision of a district court in an action brought pursuant to this subsection shall be filed not later than 30 days after the date of decision.

(g) EXCLUSION OF CERTAIN FEDERAL LANDS.—

(1) EXCLUSION.—The Secretary concerned may not select, authorize, or undertake any salvage timber sale under subsection (b) with respect to lands described in paragraph (2).

(2) DESCRIPTION OF EXCLUDED LANDS.—The lands referred to in paragraph (1) are as follows:

(A) Any area on Federal lands included in the National Wilderness Preservation System.

(B) Any roadless area on Federal lands designated by Congress for wilderness study in Colorado or Montana.

(C) Any roadless area on Federal lands recommended by the Forest Service or Bureau of Land Management for wilderness designation in its most recent land management plan in effect as of the date of the enactment of this Act.

(D) Any area on Federal lands on which timber harvesting for any purpose is prohibited by statute.

(h) RULEMAKING.—The Secretary concerned is not required to issue formal rules under section 553 of title 5, United States Code, to implement this section or carry out the authorities provided by this section.

(i) EFFECT ON OTHER LAWS.—The documents and procedures required by this section for the preparation, advertisement, offering, awarding, and operation of any salvage timber sale subject to subsection (b) and any timber sale under subsection (d) shall be deemed to satisfy the requirements of the following applicable Federal laws (and regulations implementing such laws):

(1) The Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1600 et seq.).

(2) The Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.).

(3) The National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(4) The Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(7) Any compact, executive agreement, convention, treaty, and international agreement, and implementing legislation related thereto.

(8) All other applicable Federal environmental and natural resource laws.

(j) EXPIRATION DATE.—The authority provided by subsections (b) and (d) shall expire on December 31, 1996. The terms and conditions of this section shall continue in effect with respect to salvage timber sale contracts offered under subsection (b) and timber sale contracts offered under subsection (d) until the completion of performance of the contracts.

(k) AWARD AND RELEASE OF PREVIOUSLY OFFERED AND UNAWARDED TIMBER SALE CONTRACTS.—

(1) AWARD AND RELEASE REQUIRED.—Notwithstanding any other provision of law, within 45 days after the date of the enactment of this Act, the Secretary concerned shall act to award, release, and permit to be completed in fiscal years 1995 and 1996, with no change in originally advertised terms, volumes, and bid prices, all timber sale contracts offered or awarded before that date in any unit of the National Forest System or district of the Bureau of Land Management subject to section 318 of Public Law 101-121 (103 Stat. 745). The return of the bid bond of the high bidder shall not alter the responsibility of the Secretary concerned to comply with this paragraph.

(2) THREATENED OR ENDANGERED BIRD SPECIES.—No sale unit shall be released or completed under this subsection if any threatened or endangered bird species is known to be nesting within the acreage that is the subject of the sale unit.

(3) ALTERNATIVE OFFER IN CASE OF DELAY.—If for any reason a sale cannot be released and completed under the terms of this subsection within 45 days after the date of the enactment of this Act, the Secretary concerned shall provide the purchaser an equal volume of timber, of like kind and value, which shall be subject to the terms of the original contract and shall not count against current allowable sale quantities.

(l) EFFECT ON PLANS, POLICIES, AND ACTIVITIES.—Compliance with this section shall not require or permit any administrative action, including revisions, amendment, consultation, supplementation, or other action, in or for any land management plan, standard, guideline, policy, regional guide, or multiforest plan because of implementation or impacts, site-specific or cumulative, of activities authorized or required by this section, except that any such administrative action with respect to salvage timber sales is permitted to the extent necessary, at the sole discretion of the Secretary concerned, to meet the salvage timber sale goal specified in subsection (b)(1) of this section or to reflect the effects of the salvage program. The Secretary concerned shall not rely on salvage timber sales as the basis for administrative action limiting other multiple use activities nor be required to offer a particular salvage timber sale. No project decision shall be required to be halted or delayed by such documents or guidance, implementation, or impacts.

(c)(1) OTHER REVENUES.—In addition to the sum of the revenues and collections estimated by the Secretary of the Interior to be covered into the fund pursuant to this section, as amended, there are authorized to be appropriated annually to the fund out of any money in the Treasury not otherwise appropriated such amounts as are necessary to make the income of the fund not less than \$300,000,000 for fiscal year 1977, and \$900,000,000 for fiscal year 1978 and for each fiscal year thereafter through September 30, 2015.

(2) To the extent that any such sums so appropriated are not sufficient to make the total annual income of the fund equivalent to the amounts provided in clause (1), an amount sufficient to cover the remainder thereof shall be credited to the fund from revenues due and payable to the United States for deposit in the Treasury as miscellaneous receipts under the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1331 et seq.): *Provided*, That notwithstanding the provisions of section 3 of this Act, moneys covered into the fund under this paragraph shall remain in the fund until appropriated by the Congress to carry out the purpose of this Act.

SEC. 4. (a) [16 U.S.C 4601-6a] ADMISSION FEES.²—Entrance or admission fees shall be charged only at designated units of the National Park System or National Conservation Areas administered by the Department of the Interior and National Recreation Areas, National Monuments, National Volcanic Monuments, National Scenic Areas, and no more than 21 areas of concentrated public use

¹The reference in section 2(a) is set forth as it appears in the original public law. The reference was probably intended to refer to subsections (b) through (e) of section 485.

²Public Law 100-55 (101 Stat. 371; 16 U.S.C. 4601-6a note) provided as follows:

“That, notwithstanding any other provision of law, after the date of the enactment of this Act [June 19, 1987], the Secretary of the Interior shall not charge any entrance or admission fee at the Statue of Liberty National Monument, New Jersey and New York.”

administered by the Department of Agriculture. For purposes of this subsection, the term "area of concentrated public use" means an area that is managed primarily for outdoor recreation purposes, contains at least one major recreation attraction, where facilities and services necessary to accommodate heavy public use are provided, and public access to the area is provided in such a manner that admission fees can be efficiently collected at one or more centralized locations. No admission fees of any kind shall be charged or imposed for entrance into any other federally owned areas which are operated and maintained by a Federal agency and used for outdoor recreation purposes.

(1)(A)(i) For admission into any such designated area, an annual admission permit (to be known as the Golden Eagle Passport) shall be available, for a fee of not more than \$25. The permittee and any person accompanying him in a single, private noncommercial vehicle, or alternatively, the permittee and his spouse, children, and parents accompanying him where entry to the area is by any means other than private, non-commercial vehicle, shall be entitled to general admission into any area designated pursuant to this subsection. The annual permit shall be valid for a period of 12 months from the date the annual fee is paid. The annual permit shall not authorize any uses for which additional fees are charged pursuant to subsections (b) and (c) of this section. The annual permit shall be nontransferable and the unlawful use thereof shall be punishable in accordance with regulations established pursuant to subsection (e). The annual permit shall be available for purchase at any such designated area.

(ii)¹ The Secretary of the Interior and the Secretary of Agriculture may authorize businesses, nonprofit entities, and other organizations to sell and collect fees for the Golden Eagle Passport subject to such terms and conditions as the Secretaries may jointly prescribe. The Secretaries shall develop detailed guidelines for promotional advertising of non-Federal Golden Eagle Passport sales and shall monitor compliance with such guidelines. The Secretaries may authorize the sellers to withhold amounts up to, but not exceeding 8 percent of the gross fees collected from the sale of such passports as reimbursement for actual expenses of the sales. Receipts from such non-Federal sales of the Golden Eagle Passport shall be deposited into the special account established in subsection (i), to be allocated between the Secretary of the Interior and the Secretary of Agriculture in the same ratio as receipts from admission into Federal fee areas administered by the Secretary of Agriculture and the Secretary of the Interior pursuant to subsection (a).

(B) For admission into a specific designated unit of the National Park System, or into several specific units located in a particular geographic area, the Secretary is authorized to make available an annual admission permit for a reasonable fee. The fee shall not exceed \$15 regardless of how many units of the park system are covered. The permit shall convey the privileges of, and shall be subject to the same terms and conditions as, the Golden Eagle Passport, except that it shall be valid

only for admission into the specific unit or units of the National Park System indicated at the time of purchase.

(2) Reasonable admission fees for a single visit at any designated area shall be established by the administering Secretary for persons who choose not to purchase the annual permit. A "single visit" means more or less continuous stay within a designated area. Payment of a single visit admission fee shall authorize exits from and reentries to a single designated area for a period of from one to fifteen days, such period to be defined for each designated area by the administering Secretary based upon a determination of the period of time reasonably and ordinarily necessary for such a single visit. The fee for a single-visit permit at any designated area applicable to those persons entering by private, noncommercial vehicle shall be no more than \$5 per vehicle. The single-visit permit shall admit the permittee and all persons accompanying him in a single vehicle. The fee for a single-visit permit at any designated area applicable to those persons entering by any means other than a private noncommercial vehicle shall be no more than \$3 per person. Except as otherwise provided in this subsection, the maximum fee amounts set forth in this paragraph shall apply to all designated areas.

(3) No admission fee shall be charged for travel by private, noncommercial vehicle over any national parkway or any road or highway established as a part of the National Federal Aid System, as defined in section 101, title 23, United States Code, which is commonly used by the public as a means of travel between two places either or both of which are outside the area. Nor shall any fee be charged for travel by private, noncommercial vehicle over any road or highway to any land in which such person has any property right if such land is within any such designated area. In the Smoky Mountains National Park, unless fees are charged for entrance into said park on main highways and thoroughfares, fees shall not be charged for entrance on other routes into said park or any part thereof. Notwithstanding any other provision of this Act, no admission fee may be charged at any unit of the National Park System which provides significant outdoor recreation opportunities in an urban environment and to which access is publicly available at multiple locations.

(4) The Secretary of the Interior and the Secretary of Agriculture shall establish procedures providing for the issuance of a lifetime admission permit (to be known as the "Golden Age Passport") to any citizen of, or person domiciled in, the United States sixty-two years of age or older applying for such permit. Such permit shall be nontransferable, shall be issued for a one-time charge of \$10, and shall entitle the permittee and any person accompanying him in a single, private, noncommercial vehicle, or alternatively, the permittee and his spouse and children accompanying him where entry to the area is by any means other than private, noncommercial vehicle, to general admission into any area designated pursuant to this subsection. No other free permits shall be issued to any person: *Provided*, That no fees of any kind shall be collected from any

persons who have a right of access for hunting or fishing privileges under a specific provision of law or treaty or who are engaged in the conduct of official Federal, State, or local Government business and *Provided further*, That for no more than three years after the date of enactment of this Act, visitors to the United States will be granted entrance, without charge, to any designated admission fee area upon presentation of a valid passport.

(5) The Secretary of the Interior and the Secretary of Agriculture shall establish procedures providing for the issuance of a lifetime admission permit to any citizen of, or person domiciled in, the United States, if such citizen or person applies for such permit, and is blind or permanently disabled. Such procedures shall assure that such permit shall be issued only to persons who have been medically determined to be blind or permanently disabled for purposes of receiving benefits under Federal law as a result of said blindness or permanent disability as determined by the Secretaries. Such permit shall be nontransferable, shall be issued without charge, and shall entitle the permittee and any person accompanying him in a single, private, noncommercial vehicle, or alternatively, the permittee and his spouse and children accompanying him where entry to the area is by any means other than private, noncommercial vehicle, to general admission into any area designated pursuant to this subsection.

(6)(A) No later than 60 days after the date of enactment of this paragraph, the Secretary of the Interior shall submit to the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate a report on the entrance fees proposed to be charged at units of the National Park System. The report shall include a list of units of the National Park System and the entrance fee proposed to be charged at each unit. The Secretary of the Interior shall include in the report an explanation of the guidelines used in applying the criteria in subsection (d).

(B) Following submittal of the report to the respective committees, any proposed changes to matters covered in the report, including the addition or deletion of park units or the increase or decrease of fee levels at park units shall not take effect until 60 days after notice of the proposed change has been submitted to the committees.

(7) No admission fee may be charged at any unit of the National Park System for admission of any person 16 years of age or less.

(8) No admission fee may be charged at any unit of the National Park System for admission of organized school groups or outings conducted for educational purposes by schools or other bona fide educational institutions.

(9) No admission fee may be charged at the following units of the National Park System: U.S.S. Arizona Memorial, Independence National Historical Park, any unit of the National Park System within the District of Columbia, Arlington

House—Robert E. Lee National Memorial, San Juan National Historic Site, and Canaveral National Seashore.

(10) For each unit of the National Park System where an admission fee is collected, the Director shall annually designate at least one day during periods of high visitation as a "Fee-Free Day" when no admission fee shall be charged.

(11) In the case of the following parks, the fee for a single-visit permit applicable to those persons entering by private, noncommercial vehicle (the permittee and all persons accompanying him in a single vehicle) shall be no more than \$10 per vehicle and the fee for a single-visit permit applicable to persons entering by any means other than a private noncommercial vehicle shall be no more than \$5 per person: Yellowstone National Park and Grand Teton National Park and after the end of fiscal year 1990, Grand Canyon National Park. In the case of Yellowstone and Grand Teton, a single-visit fee collected at one unit shall also admit the vehicle or person who paid such fee for a single-visit to the other unit.

(12) Notwithstanding section 203 of the Alaska National Interest Lands Conservation Act, the Secretary may charge an admission fee under this section at Denali National Park and Preserve in Alaska.

(b) RECREATION USE FEES.—Each Federal agency developing, administering, providing or furnishing at Federal expense, specialized outdoor recreation sites, facilities, equipment, or services shall, in accordance with this subsection and subsection (d) of this section, provide for the collection of daily recreation use fees at the place of use or any reasonably convenient location: *Provided*, That in no event shall there be a charge by any such agency for the use, either singly or in any combination, of drinking water, wayside exhibits, roads, overlook sites, visitors' centers, scenic drives, or toilet facilities, nor shall there be any such charge solely for the use of picnic tables: *Provided*, That in no event shall there be a charge for the use of any campground not having a majority of the following: tent or trailer spaces, picnic tables, drinking water, access road, refuse containers, toilet facilities, personal collection of the fee by an employee or agent of the Federal agency operating the facility, reasonable visitor protection, and simple devices for containing a campfire (where campfires are permitted). For the purposes of this subsection, the term "specialized outdoor recreation sites" includes, but is not limited to, campgrounds, swimming sites, boat launch facilities, and managed parking lots. Any Golden Age Passport permittee, or permittee under paragraph (5) of subsection (a) of this section, shall be entitled upon presentation of such permit to utilize such special recreation facilities at a rate of 50 per centum of the established use fee.

(c) RECREATION PERMITS.—Special recreation permits for uses such as group activities, recreation events, motorized recreation vehicles, and other specialized recreation uses may be issued in accordance with procedures and at fees established by the agency involved.

(d) All fees established pursuant to this section shall be fair and equitable, taking into consideration the direct and indirect cost to the Government, the benefits to the recipient, the public policy

or interest served, the comparable recreation fees charged by non-Federal public agencies, the economic and administrative feasibility of fee collection and other pertinent factors. Clear notice that a fee has been established pursuant to this section shall be prominently posted at each area and at appropriate locations therein and shall be included in publications distributed at such areas. It is the intent of this Act that comparable fees should be charged by the several Federal agencies for comparable services and facilities.

(e) In accordance with the provisions of this section, the heads of appropriate departments and agencies may prescribe rules and regulations for areas under their administration for the collection of any fee established pursuant to this section. Persons authorized by the heads of such Federal agencies to enforce any such rules or regulations issued under this subsection may, within areas under the administration or authority of such agency head and with or, if the offense is committed in his presence, without a warrant, arrest any person who violates such rules and regulations. Any person so arrested may be tried and sentenced by the United States magistrate¹ specifically designated for that purpose by the court by which he was appointed, in the same manner and subject to the same conditions as provided in title 18, United States Code, section 3401, subsections (b), (c), (d), and (e), as amended. Any violations of the rules and regulations issued under this subsection shall be punishable by a fine of not more than \$100.

(f) The head of any Federal agency, under such terms and conditions as he deems appropriate, may contract with any public or private entity to provide visitor reservation services. Any such contract may provide that the contractor shall be permitted to deduct a commission to be fixed by the agency head from the amount charged the public for providing such services and to remit the net proceeds therefrom to the contracting agency.

(g) Nothing in this Act shall authorize Federal hunting or fishing licenses or fees or charges for commercial or other activities not related to recreation, nor shall it affect any rights or authority of the States with respect to fish and wildlife, nor shall it repeal or modify any provision of law that permits States or political subdivisions to share in the revenues from Federal lands or any provision of law that provides that any fees or charges collected at particular Federal areas shall be used for or credited to specific purposes or special funds as authorized by that provision of law.

(h) [Repealed by section 1081(f) of Public Law 104-66 (109 Stat. 721).]

(i)(1)(A)² Except in the case of fees collected by the United States Fish and Wildlife Service or the Tennessee Valley Authority,

The amounts so withheld shall be retained by the Secretary of Agriculture or the Secretary of the Interior, as appropriate, and shall be available, without further appropriation, for expenditure by the Secretary concerned to cover fee collection costs in that fiscal year. The Secretary concerned shall deposit into the special account established

at recreation sites under the administrative jurisdiction of the Department of the Army under section 4(b) of that Act (16 U.S.C. 4601-6a(b)).

(2) USE.—The amounts withheld shall be retained by the Secretary and shall be available, without further Act of appropriation, for expenditure by the Secretary in accordance with subsection (b).

(3) AVAILABILITY.—The amounts withheld shall remain available until September 30, 2005.

(b) USE OF AMOUNTS WITHHELD.—In order to increase the quality of the visitor experience at public recreational areas and to enhance the protection of resources, the amounts withheld under subsection (a) may be used only for—

- (1) repair and maintenance projects (including projects relating to health and safety);
- (2) interpretation;
- (3) signage;
- (4) habitat or facility enhancement;
- (5) resource preservation;
- (6) annual operation (including fee collection);
- (7) maintenance; and
- (8) law enforcement related to public use.

(c) AVAILABILITY.—Each amount withheld by the Secretary shall be available for expenditure, without further Act of appropriation, at the specific project from which the amount, above base-line, is collected.

Section 310 of the Omnibus Parks Technical Corrections Act of 2000 (Public Law 106-176; 114 Stat. 34; 16 U.S.C. 4601-6a note) provides as follows:

SEC. 310. NATIONAL PARK SERVICE ENTRANCE AND RECREATIONAL USE FEES.

(a) The Secretary of the Interior is authorized to retain and expend revenues from entrance and recreation use fees at units of the National Park System where such fees are collected under section 4 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-6a), notwithstanding the provisions of section 4(i) of such Act. Fees shall be retained and expended in the same manner and for the same purposes as provided under the Recreational Fee Demonstration Program (section 315 of Public Law 104-134, as amended (16 U.S.C. 4601-6a note)).

(b) Nothing in this section shall affect the collection of fees at units of the National Park System designated as fee demonstration projects under the Recreational Fee Demonstration Program.

(c) The authorities in this section shall expire upon the termination of the Recreational Fee Demonstration Program.

³Section 107 of the Department of the Interior and Related Agencies Appropriations Act, 1998 (Public Law 105-83; 111 Stat. 1561; 16 U.S.C. 4601-6a note), provides as follows: "In fiscal year 1998 and thereafter, for those years in which the recreation fee demonstration program authorized in Public Law 104-134 is in effect, the fee collection support authority provided in 16 U.S.C. 4601-6(i)(1)(B) [probably should be 4601-6a(i)(1)(B)] applies only to parks not included in the fee demonstration program, and that the amount retained under this authority to cover fee collection costs will not exceed those costs at the non-demonstration parks, or 15 percent of all fees collected at non-demonstration parks in a fiscal year whichever is less. Fee collection costs for parks included in the fee demonstration program will be covered by the fees retained at those parks."

pursuant to subparagraph (A) any amounts so retained which remain unexpended and unobligated at the end of the fiscal year. For the purposes of this subparagraph, for any fiscal year, the term "fee collection costs" means those costs for personnel and infrastructure directly associated with the collection of fees imposed under this section.

(C) UNITS AT WHICH ENTRANCE FEES OR ADMISSIONS FEES CANNOT BE COLLECTED.—

(i) WITHHOLDING OF AMOUNTS.—Notwithstanding subparagraph (A), section 315(c) of section 101(c) of the Omnibus Consolidated Reversions and Appropriations Act of 1996 (16 U.S.C. 4601-6a note; Public Law 104-134), or section 107 of the Department of the Interior and Related Agencies Appropriations Act, 1998 (16 U.S.C. 4601-6a note; Public Law 105-83), the Secretary of the Interior shall withhold from the special account under subparagraph (A) 100 percent of the fees and charges collected in connection with any unit of the National Park System at which entrance fees or admission fees cannot be collected by reason of deed restrictions.

(ii) USE OF AMOUNTS.—Amounts withheld under clause (i) shall be retained by the Secretary and shall be available, without further Act of appropriation, for expenditure by the Secretary for the unit with respect to which the amounts were collected for the purposes of enhancing the quality of the visitor experience, protection of resources, repair and maintenance, interpretation, signage, habitat or facility enhancement, resource preservation, annual operation (including fee collection), maintenance, and law enforcement.

(2) Amounts covered into the special account for each agency during each fiscal year shall, after the end of such fiscal year, be available for appropriation solely for the purposes and in the manner provided in this subsection. No funds shall be transferred from fee receipts made available under this Act to each unit of the national park system: *Provided, however,* That in making appropriations, funds derived from such fees may be used for any purpose authorized therein. Funds credited to the special account shall remain available until expended.

(3) For agencies other than the National Park Service, such funds shall be made available for resource protection, research, interpretation, and maintenance activities related to resource protection in areas managed by that agency at which outdoor recreation is available. To the extent feasible, such funds should be used for purposes (as provided for in this paragraph) which are directly related to the activities which generated the funds, including but not limited to water-based recreational activities and camping.

(4) Amounts covered into the special account for the National Park Service shall be allocated among park system units in accordance with subsection (j) for obligation or expenditure by the Director of the National Park Service for the following purposes:

(A) In the case of receipts from the collection of admission fees: for resource protection, research, and interpretation at units of the National Park System.

(B) In the case of receipts from the collection of user fees: for resource protection, research, interpretation, and maintenance activities related to resource protection at units of the National Park System.

(j)(1) 10 percent of the funds made available to the Director of the National Park Service under subsection (i) in each fiscal year shall be allocated among units of the National Park System on the basis of need in a manner to be determined by the Director.

(2) 40 percent of the funds made available to the Director of the National Park Service under subsection (i) in each fiscal year shall be allocated among units of the National Park System in accordance with paragraph (3) of this subsection and 50 percent shall be allocated in accordance with paragraph (4) of this subsection.

(3) The amount allocated to each unit under this paragraph for each fiscal year shall be a fraction of the total allocation to all units under this paragraph. The fraction for each unit shall be determined by dividing the operating expenses at that unit during the prior fiscal year by the total operating expenses at all units during the prior fiscal year.

(4) The amount allocated to each unit under this paragraph for each fiscal year shall be a fraction of the total allocation to all units under this paragraph. The fraction for each unit shall be determined by dividing the user fees and admission fees collected under this section at that unit during the prior fiscal year by the total of user fees and admission fees collected under this section at all units during the prior fiscal year.

(5) Amounts allocated under this subsection to any unit for any fiscal year and not expended in that fiscal year shall remain available for expenditure at that unit until expended.

(k) When authorized by the head of the collecting agency, volunteers at designated areas may sell permits and collect fees authorized or established pursuant to this section. The head of such agency shall ensure that such volunteers have adequate training regarding—

- (1) the sale of permits and the collection of fees,
- (2) the purposes and resources of the areas in which they are assigned, and
- (3) the provision of assistance and information to visitors to the designated area.

The Secretary shall require a surety bond for any such volunteer performing services under this subsection. Funds available to the collecting agency may be used to cover the cost of any such surety bond. The head of the collecting agency may enter into arrangements with qualified public or private entities pursuant to which such entities may sell (without cost to the United States) annual admission permits (including Golden Eagle Passports) at any appropriate location. Such arrangements shall require each such entity to reimburse the United States for the full amount to be received from the sale of such permits at or before the agency delivers the permits to such entity for sale.

(1)(1) Where the National Park Service provides transportation to view all or a portion of any unit of the National Park System, the Director may impose a charge for such service in lieu of an admission fee under this section. The charge imposed under this paragraph shall not exceed the maximum admission fee under subsection (a).

(2) Notwithstanding any other provision of law, half of the charges imposed under paragraph (1) shall be retained by the unit of the National Park System at which the service was provided. The remainder shall be covered into the special account referred to in subsection (i) in the same manner as receipts from fees collected pursuant to this section. Fifty percent of the amount retained shall be expended only for maintenance of transportation systems at the unit where the charge was imposed. The remaining 50 percent of the retained amount shall be expended only for activities related to resource protection at such units.

(m) Where the primary public access to a unit of the National Park System is provided by a concessioner, the Secretary may charge an admission fee at such units only to the extent that the total of the fee charged by the concessioner for access to the unit and the admission fee does not exceed the maximum amount of the admission fee which could otherwise be imposed under subsection (a).

(n)(1) In the case of each unit of the National Park System for which an admission fee is charged under this section, the Secretary of the Interior shall establish, by October 1, 1993, a commercial tour use fee to be imposed on each vehicle entering the unit for the purpose of providing commercial tour services within the unit. Fee revenue derived from such commercial tour use fees shall be deposited into the special account established under subsection (i).

(2) The Secretary shall establish the amount of fee per entry as follows:

(A) \$25 per vehicle with a passenger capacity of 25 persons or less, and

(B) \$50 per vehicle with a passenger capacity of more than 25 persons.

(3) The Secretary may periodically make reasonable adjustments to the commercial tour use fee imposed under this subsection.

(4) The commercial tour use fee imposed under this subsection shall not apply to either of the following:

(A) Any vehicle transporting organized school groups or outings conducted for educational purposes by schools or other bona fide educational institutions.

(B) Any vehicle entering a park system unit pursuant to a contract issued under the Act of October 9, 1965 (16 U.S.C. 20-20g) entitled "An Act relating to the establishment of concession policies in the areas administered by the National Park Service and for other purposes."

(5)(A) The provisions of this subsection shall apply to aircraft entering the airspace of units of the National Park System identified in section 2(b) and section 3 of Public Law 100-91 for the specific purpose of providing commercial tour services within the airspace of such units.

(B) The provisions of this subsection shall also apply to aircraft entering the airspace of other units of the National Park System for the specific purpose of providing commercial tour services if the Secretary determines that the level of such services is equal to or greater than the level at those units of the National Park System specified in subparagraph (A).

ALLOCATION OF LAND AND WATER CONSERVATION FUND FOR STATE
AND FEDERAL PURPOSES

SEC. 5. [16 U.S.C 4601-7] ALLOCATION.—There shall be submitted with the annual budget of the United States a comprehensive statement of estimated requirements during the ensuing fiscal year for appropriations from the fund. Not less than 40 per centum of such appropriations shall be available for Federal purposes. Those appropriations from the fund up to and including \$600,000,000 in fiscal year 1978 and up to and including \$750,000,000 in fiscal year 1979 shall continue to be allocated in accordance with this section. There shall be credited to a special account within the fund \$300,000,000 in fiscal year 1978 and \$150,000,000 in fiscal year 1979 from the amounts authorized by section 2 of this Act. Amounts credited to this account shall remain in the account until appropriated. Appropriations from the special account shall be available only with respect to areas existing and authorizations enacted prior to the convening of the Ninety-fifth Congress, for acquisition of lands, waters, or interests in lands or waters within the exterior boundaries, as aforesaid, of—

- (1) the National Park System;
- (2) national scenic trails;
- (3) the National Wilderness Preservation System;
- (4) federally administered components of the National Wild and Scenic Rivers System; and
- (5) national recreation areas administered by the Secretary of Agriculture.

FINANCIAL ASSISTANCE TO STATES

SEC. 6. [16 U.S.C 4601-8] GENERAL AUTHORITY; PURPOSES.—(a) The Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized to provide financial assistance to the States from moneys available for State purposes. Payments may be made to the States by the Secretary as hereafter provided, subject to such terms and conditions as he considers appropriate and in the public interest to carry out the purposes of this Act, for outdoor recreation: (1) planning, (2) acquisition of land, waters, or interests in land or waters, or (3) development.

(b) APPORTIONMENT AMONG STATES; NOTIFICATION.—Sums appropriated and available for State purposes for each fiscal year shall be apportioned among the several States by the Secretary, whose determination shall be final, in accordance with the following formula:

- (1) Forty per centum of the first \$225,000,000; thirty per centum of the next \$275,000,000; and twenty per centum of all

additional appropriations shall be apportioned equally among the several States; and¹

(2) At any time, the remaining appropriation shall be apportioned on the basis of need to individual States by the Secretary in such amounts as in his judgment will best accomplish the purposes of this Act. The determination of need shall include among other things a consideration of the proportion which the population of each State bears to the total population of the United States and of the use of outdoor recreation resources of individual States by persons from outside the State as well as a consideration of the Federal resources and programs in the particular States.

(3) The total allocation to an individual State under paragraphs (1) and (2) of this subsection shall not exceed 10 per centum of the total amount allocated to the several States in any one year.

(4) The Secretary shall notify each State of its apportionments; and the amounts thereof shall be available thereafter for payment to such State for planning, acquisition, or development projects as hereafter prescribed. Any amount of any apportionment that has not been paid or obligated by the Secretary during the fiscal year in which such notification is given and for two fiscal years thereafter shall be reapportioned by the Secretary in accordance with paragraph (2) of this subsection, without regard to the 10 per centum limitation to an individual State specified in this subsection.

(5) For the purposes of paragraph (1) of this subsection, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands (when such islands achieve Commonwealth status) shall be treated collectively as one State, and shall receive shares of such apportionment in proportion to their populations. The above listed areas shall be treated as States for all other purposes of this title.

(c) MATCHING REQUIREMENTS.—Payments to any State shall cover not more than 50 per centum of the cost of planning, acquisition, or development projects that are undertaken by the State. The remaining share of the cost shall be borne by the State in a manner and with such funds or services as shall be satisfactory to the Secretary. No payment may be made to any State for or on account of any cost or obligation incurred or any service rendered prior to the date of approval of this Act.

(d) COMPREHENSIVE STATE PLAN REQUIRED; PLANNING PROJECTS.—A comprehensive statewide outdoor recreation plan shall be required prior to the consideration by the Secretary of financial assistance for acquisition or development projects. The plan shall be adequate if, in the judgment of the Secretary, it encompasses and will promote the purposes of this Act: *Provided*, That no plan shall be approved unless the Governor of the respective State certifies that ample opportunity for public participation in plan development and revision has been accorded. The Secretary shall develop, in consultation with others, criteria for public partici-

pation, which criteria shall constitute the basis for the certification by the Governor. The plan shall contain—

(1) the name of the State agency that will have authority to represent and act for the State in dealing with the Secretary for purposes of this Act;

(2) an evaluation of the demand for and supply of outdoor recreation resources and facilities in the State;

(3) a program for the implementation of the plan; and

(4) other necessary information, as may be determined by the Secretary.

The plan shall take into account relevant Federal resources and programs and shall be correlated so far as practicable with other State, regional, and local plans. Where there exists or is in preparation for any particular State a comprehensive plan financed in part with funds supplied by the Housing and Home Finance Agency, any statewide outdoor recreation plan prepared for purposes of this Act shall be based upon the same population, growth, and other pertinent factors as are used in formulating the Housing and Home Finance Agency financed plans.

The Secretary may provide financial assistance to any State for projects for the preparation of a comprehensive statewide outdoor recreation plan when such plan is not otherwise available or for the maintenance of such plan.

For fiscal year 1988 and thereafter each comprehensive statewide outdoor recreation plan shall specifically address wetlands within that State as an important outdoor recreation resource as a prerequisite to approval, except that a revised comprehensive statewide outdoor recreation plan shall not be required by the Secretary, if a State submits, and the Secretary, acting through the Director of the National Park Service, approves, as a part of and as an addendum to the existing comprehensive statewide outdoor recreation plan, a wetlands priority plan developed in consultation with the State agency with responsibility for fish and wildlife resources and consistent with the national wetlands priority conservation plan developed under section 301 of the Emergency Wetlands Resources Act or, if such national plan has not been completed, consistent with the provisions of that section¹

(e) PROJECTS FOR LAND AND WATER ACQUISITION; DEVELOPMENT.—In addition to assistance for planning projects, the Secretary may provide financial assistance to any State for the following types of projects or combinations thereof if they are in accordance with the State comprehensive plan:

(1) ACQUISITION OF LAND AND WATERS.—For the acquisition of land, waters, or interests in land or waters, or wetland areas and interests therein as identified in the wetlands provisions of the comprehensive plan (other than land, waters, or interests in land or waters acquired from the United States for less than fair market value), but not including incidental costs relating to acquisition.

Whenever a State provides that the owner of a single-family residence may, at his option, elect to retain a right of use and occupancy for not less than six months from the date of

¹ At the end of subsection (d), there should be a period.

acquisition of such residence and such owner elects to retain such a right, such owner shall be deemed to have waived any benefits under sections 203, 204, 205, and 206 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1984) and for the purposes of those sections such owner shall not be considered a displaced person as defined in section 101(6) of that Act.

(2) DEVELOPMENT.—For development of basic outdoor recreation facilities to serve the general public, including the development of Federal lands under lease to States for terms of twenty-five years or more: *Provided*, That no assistance shall be available under this Act to enclose or shelter facilities normally used for outdoor recreation activities, but the Secretary may permit local funding, and after the date of enactment of this proviso not to exceed 10 per centum of the total amount allocated to a State in any one year to be used for sheltered facilities for swimming pools and ice skating rinks in areas where the Secretary determines that the severity of climatic conditions and the increased public use thereby made possible justifies the construction of such facilities.

(f) REQUIREMENTS FOR PROJECT APPROVAL; CONDITION.—(1) Payments may be made to States by the Secretary only for those planning, acquisition, or development projects that are approved by him. No payment may be made by the Secretary for or on account of any project with respect to which financial assistance has been given or promised under any other Federal program or activity, and no financial assistance may be given under any other Federal program or activity for or on account of any project with respect to which such assistance has been given or promised under this Act. The Secretary may make payments from time to time in keeping with the rate of progress toward the satisfactory completion of individual projects: *Provided*, That the approval of all projects and all payments, or any commitments relating thereto, shall be withheld until the Secretary receives appropriate written assurance from the State that the State has the ability and intention to finance its share of the cost of the particular project, and to operate and maintain by acceptable standards, at State expense, the particular properties or facilities acquired or developed for public outdoor recreation use.

(2) Payments for all projects shall be made by the Secretary to the Governor of the State or to a State official or agency designated by the Governor or by State law having authority and responsibility to accept and to administer funds paid hereunder for approved projects. If consistent with an approved project, funds may be transferred by the State to a political subdivision or other appropriate public agency.

(3) No property acquired or developed with assistance under this section shall, without the approval of the Secretary, be converted to other than public outdoor recreation uses. The Secretary shall approve such conversion only if he finds it to be in accord with the then existing comprehensive statewide outdoor recreation plan and only upon such conditions as he deems necessary to assure the substitution of other recreation properties of at least equal fair market value and or reasonably equivalent usefulness and

location.:¹ *Provided*, That wetland areas and interests therein as identified in the wetlands provisions of the comprehensive plan and proposed to be acquired as suitable replacement property within that same State that is otherwise acceptable to the Secretary, acting through the Director of the National Park Service, shall be considered to be of reasonably equivalent usefulness with the property proposed for conversion.

(4) No payment shall be made to any State until the State has agreed to (1) provide such reports to the Secretary, in such form and containing such information, as may be reasonably necessary to enable the Secretary to perform his duties under this Act, and (2) provide such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement and accounting for Federal funds paid to the State under this Act.

(5) Each recipient of assistance under this Act shall keep such records as the Secretary shall prescribe, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or used, and the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(6) The Secretary, and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under this Act.

(7) [Paragraph (7) was repealed by section 814(d)(1)(H) of the Omnibus Parks and Public Lands Management Act of 1996 (Public Law 104-333; 110 Stat. 4196)]

(8) With respect to property acquired or developed with assistance from the fund, discrimination on the basis of residence, including preferential reservation or membership systems, is prohibited except to the extent that reasonable differences in admission and other fees may be maintained on the basis of residence.

(g) **COORDINATION WITH FEDERAL AGENCIES.**—In order to assure consistency in policies and actions under this Act, with other related Federal programs and activities (including those conducted pursuant to title VII of the Housing Act of 1961 and section 701 of the Housing Act of 1954) and to assure coordination of the planning, acquisition, and development assistance to States under this section with other related Federal programs and activities, the President may issue such regulations with respect thereto as he deems desirable and such assistance may be provided only in accordance with such regulations.

(h) **CAPITAL IMPROVEMENT AND OTHER PROJECTS TO REDUCE CRIME.**—

(1) **AVAILABILITY OF FUNDS.**—In addition to assistance for planning projects, and in addition to the projects identified in subsection (e), and from amounts appropriated out of the Violent Crime Reduction Trust Fund, the Secretary may provide financial assistance to the States, not to exceed \$15,000,000,

¹ In paragraph (3), the period should not appear before the proviso.

for projects or combinations thereof for the purpose of making capital improvements and other measures to increase safety in urban parks and recreation areas, including funds to—

(A) increase lighting within or adjacent to public parks and recreation areas;

(B) provide emergency phone lines to contact law enforcement or security personnel in areas within or adjacent to public parks and recreation areas;

(C) increase security personnel within or adjacent to public parks and recreation areas; and

(D) fund any other project intended to increase the security and safety of public parks and recreation areas.

(2) **ELIGIBILITY.**—In addition to the requirements for project approval imposed by this section, eligibility for assistance under this subsection shall be dependent upon a showing of need. In providing funds under this subsection, the Secretary shall give priority to projects proposed for urban parks and recreation areas with the highest rates of crime and, in particular, to urban parks and recreation areas with the highest rates of sexual assault.

(3) **FEDERAL SHARE.**—Notwithstanding subsection (c), the Secretary may provide 70 percent improvement grants for projects undertaken by any State for the purposes described in this subsection, and the remaining share of the cost shall be borne by the State.

ALLOCATION OF MONEYS FOR FEDERAL PURPOSES

SEC. 7. [16 U.S.C 460l-9] (a) Moneys appropriated from the fund for Federal purposes shall, unless otherwise allotted in the appropriation Act making them available, be allotted by the President to the following purposes and subpurposes:

(1) For the acquisition of land, waters, or interests in land or waters as follows:

NATIONAL PARK SYSTEM; RECREATION AREAS.—Within the exterior boundaries of areas of the National Park System now or hereafter authorized or established and of areas now or hereafter authorized to be administered by the Secretary of the Interior for outdoor recreation purposes.

NATIONAL FOREST SYSTEM.—Inholdings within (a) wilderness areas of the National Forest System, and (b) other areas of national forests as the boundaries of those forests exist on the effective date of this Act, or purchase units approved by the National Forest Reservation Commission subsequent to the date of this Act, all of which other areas are primarily of value for outdoor recreation purposes: *Provided*, That lands outside of but adjacent to an existing national forest boundary, not to exceed three thousand acres in the case of any one forest, which would comprise an integral part of a forest recreational management area may also be acquired with moneys appropriated from this fund: *Provided further*, That except for areas specifically authorized by Act of Congress, not more than 15 per centum of the acreage added to the National Forest System pursuant to this section shall be west of the 100th meridian.

NATIONAL WILDLIFE REFUGE SYSTEM.—Acquisition for (a) endangered species and threatened species authorized under section 5(a) of the Endangered Species Act of 1973; (b) areas authorized by section 2 of the Act of September 28, 1962, as amended (16 U.S.C. 460k-1); (c) national wildlife refuge areas under section 7(a)(5) of the Fish and Wildlife Act of 1956 (16 U.S.C. 742f(a)(4)) and wetlands acquired under section 304 of the Emergency Wetlands Resources Act of 1986; (d) any areas authorized for the National Wildlife Refuge System by specific Acts.

(2) For payment into miscellaneous receipts of the Treasury as a partial offset for those capital costs, if any, of Federal water development projects hereafter authorized to be constructed by or pursuant to an Act of Congress which are allocated to public recreation and the enhancement of fish and wildlife values and financed through appropriations to water resource agencies.

(3) Appropriations allotted for the acquisition of land, waters, or interests in land or waters as set forth under the headings "NATIONAL PARK SYSTEM; RECREATIONAL AREAS" and "NATIONAL FOREST SYSTEM" in paragraph (1) of this subsection shall be available therefor notwithstanding any statutory ceiling on such appropriations contained in any other provision of law enacted prior to the convening of the Ninety-fifth Congress or, in the case of national recreation areas, prior to the convening of the Ninety-sixth Congress; except that for any such area expenditures may not exceed a statutory ceiling during any one fiscal year by 10 per centum of such ceiling or \$1,000,000, whichever is greater.

(b) ACQUISITION RESTRICTION.—Appropriations from the fund pursuant to this section shall not be used for acquisition unless such acquisition is otherwise authorized by law: *Provided, however,* That appropriations from the fund may be used for preacquisition work in instances where authorization is imminent and where substantial monetary savings could be realized.

(c)(1) BOUNDARY CHANGES: DONATIONS.—Whenever the Secretary of the Interior determines that to do so will contribute to, and is necessary for, the proper preservation, protection, interpretation, or management of an area of the national park system, he may, following timely notice in writing to the Committee on Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate of his intention to do so, and by publication of a revised boundary map or other description in the Federal Register, (i) make minor revisions of the boundary of the area, and moneys appropriated from the fund shall be available for acquisition of any lands, waters, and interests therein added to the area by such boundary revision subject to such statutory limitations, if any, on methods of acquisition and appropriations thereof as may be specifically applicable to such area; and (ii) acquire by donation, purchase with donated funds, transfer from any other Federal agency, or exchange, lands, waters, or interests therein adjacent to such area, except that in exercising his authority under this clause (ii) the Secretary may not alienate property administered as part of the national park system in order to acquire lands by exchange, the Secretary may not acquire property without the consent of the owner, and the Secretary may acquire

property owned by a State or political subdivision thereof only by donation. Prior to making a determination under this subsection, the Secretary shall consult with the duly elected governing body of the county, city, town, or other jurisdiction or jurisdictions having primary taxing authority over the land or interest to be acquired as to the impacts of such proposed action, and he shall also take such steps as he may deem appropriate to advance local public awareness of the proposed action. Lands, waters and interests therein acquired in accordance with this subsection shall be administered as part of the area to which they are added, subject to the laws and regulations applicable thereto.

(2) For the purposes of clause (i) of paragraph (1), in all cases except the case of technical boundary revisions (resulting from such causes as survey error or changed road alignments), the authority of the Secretary under such clause (i) shall apply only if each of the following conditions is met:

(A) The sum of the total acreage of lands, waters, and interests therein to be added to the area and the total such acreage to be deleted from the area is not more than 5 percent of the total Federal acreage authorized to be included in the area and is less than 200 acres in size.

(B) The acquisition, if any, is not a major Federal action significantly affecting the quality of the human environment, as determined by the Secretary.

(C) The sum of the total appraised value of the lands, waters, and interests therein to be added to the area and the total appraised value of the lands, waters, and interests therein to be deleted from the area does not exceed \$750,000.

(D) The proposed boundary revision is not an element of a more comprehensive boundary modification proposal.

(E) The proposed boundary has been subject to a public review and comment period.

(F) The Director of the National Park Service obtains written consent for the boundary modification from all property owners whose lands, waters, or interests therein, or a portion of whose lands, waters, or interests therein, will be added to or deleted from the area by the boundary modification.

(G) The lands are adjacent to¹ other Federal lands administered by the Director of the National Park Service.

Minor boundary revisions involving only deletions of acreage owned by the Federal Government and administered by the National Park Service may be made only by Act of Congress.

¹ Paragraph (2)(G) was added to section 7(c) of the Land and Water Conservation Fund Act of 1965 by section 814(b)(2)(B) of the Omnibus Parks and Public Lands Management Act of 1996 (Public Law 104-333; 110 Stat. 4194). Section 129 of Public Law 106-176 (114 Stat. 30) sought to amend paragraph (2)(G), but instead of amending section 7(c)(2)(G) of the Land and Water Conservation Fund Act of 1965, it referred to section 814(b)(2)(G) of Public Law 104-333, which doesn't exist. The amendment is as follows:

SEC. 129. BOUNDARY REVISIONS.

Section 814(b)(2)(G) of Public Law 104-333 is amended by striking "are adjacent to" and inserting "abut".

FUNDS NOT TO BE USED FOR PUBLICITY

SEC. 8. [16 U.S.C 460l-10] Moneys derived from the sources listed in section 2 of this Act shall not be available for publicity purposes: *Provided, however,* That in each case where significant acquisition or development is initiated, appropriate standardized temporary signing shall be located on or near the affected site, to the extent feasible, so as to indicate the action taken is a product of funding made available through the Land and Water Conservation Fund. Such signing may indicate the per centum and dollar amounts financed by Federal and non-Federal funds, and that the source of the funding includes moneys derived from Outer Continental Shelf receipts. The Secretary shall prescribe standards and guidelines for the usage of such signing to assure consistency of design and application.

H. Cabin User Fee Fairness Act of 2000

Title VI of the Department of the Interior and Related Agencies Appropriations Act,
2001 (Public Law 106-291; 114 Stat. 1014)

TITLE VI—USER FEES UNDER FOREST SYSTEM RECREATION RESIDENCE PROGRAM

SEC. 601. [16 U.S.C. 6201 note] SHORT TITLE.

This title may be cited as the “Cabin User Fee Fairness Act of 2000”.

SEC. 602. [16 U.S.C. 6201] FINDINGS.

Congress finds that—

(1) cabins located on forest land have provided a unique recreation experience to a large number of cabin owners, their families, and guests each year since Congress authorized the recreation residence program in 1915; and

(2) the fact that current appraisal procedures have, in certain circumstances, been inconsistently applied in determining fair market values for residential lots demonstrates that problems exist in accurately reflecting market values.

SEC. 603. [16 U.S.C. 6202] PURPOSES.

The purposes of this title are—

(1) to ensure, to the maximum extent practicable, that the National Forest System recreation residence program is managed to preserve the opportunity for individual and family-oriented recreation; and

(2) to develop and implement a more consistent procedure for determining cabin user fees, taking into consideration the limitations of an authorization and other relevant market factors.

SEC. 605. [16 U.S.C. 6204] ADMINISTRATION OF RECREATION RESIDENCE PROGRAM.

The Secretary shall ensure, to the maximum extent practicable, that the basis and procedure for calculating cabin user fees results in a fee for an authorization that reflects, in accordance with this title—

(1) the market value of a lot; and

(2) regional and local economic influences.

SEC. 606. [16 U.S.C. 6205] APPRAISALS.

(a) **REQUIREMENTS FOR CONDUCTING APPRAISALS.**—In implementing and conducting an appraisal process for determining cabin user fees, the Secretary shall—

(1) complete an inventory of improvements that were paid for by—

- (A) the agency;
- (B) third parties; or
- (C) cabin owners (or predecessors of cabin owners),

during the completion of which the Secretary shall presume that a cabin owner, or a predecessor of the owner, has paid for the capital costs of any utility, access, or facility serving the lot being appraised, unless the Forest Service produces evidence that the agency or a third party has paid for the capital costs;

(2) establish an appraisal process to determine the market value of the fee simple estate of a typical lot or lots considered to be in a natural, native state, subject to subsection (b)(4)(A);

(3) enter into a contract with an appropriate professional appraisal organization to manage the development of specific appraisal guidelines in accordance with subsection (b), subject to public comment and congressional review;

(4) require that an appraisal be performed by a State-certified general real estate appraiser, selected by the Secretary and licensed to practice in the State in which the lot is located;

(5) provide the appraiser with appraisal guidelines developed in accordance with this title;

(6) notwithstanding any other provision of law, require the appraiser to coordinate the appraisal closely with affected parties by seeking information, cooperation, and advice from cabin owners and tract associations;

(7) require that the appraiser perform the appraisal in compliance with—

(A) the most current edition of the Uniform Standards of Professional Appraisal Practice in effect on the date of the appraisal;

(B) the most current edition of the Uniform Appraisal Standards for Federal Land Acquisitions that is in effect on the date of the appraisal; and

(C) the specific appraisal guidelines developed in accordance with this title;

(8) require that the appraisal report—

(A) be a full narrative report, in compliance with the reporting standards of the Uniform Standards of Professional Appraisal Practice; and

(B) comply with the reporting guidelines established by the Uniform Appraisal Standards for Federal Land Acquisitions; and

(9) before accepting any appraisal, conduct a review of the appraisal to ensure that the guidelines made available to the appraiser have been followed and that the appraised values are properly supported.

(b) **SPECIFIC APPRAISAL GUIDELINES.**—In the development of specific appraisal guidelines in accordance with subsection (a)(3),

the instructions to an appraiser shall require, at a minimum, the following:

(1) APPRAISAL OF A TYPICAL LOT.—

(A) IN GENERAL.—In conducting an appraisal under this section, the appraiser—

- (i) shall not appraise each individual lot;
- (ii) shall appraise a typical lot or lots, selected by the cabin owners and the agency in a manner consistent with the policy of the program; and
- (iii) shall be provided, and give appropriate consideration to, any information contained in the inventory of improvements relating to the lot being appraised.

(B) ESTIMATE OF MARKET VALUE OF TYPICAL LOT.—

(i) IN GENERAL.—The appraiser shall estimate the market value of a typical lot in accordance with this title.

(ii) EQUIVALENCE TO LEGALLY SUBDIVIDED LOT.—In selecting a comparable sale under this title, the appraiser shall recognize that the typical lot will not usually be equivalent to a legally subdivided lot.

(2) EXCEPTION FOR CERTAIN SALES OF LAND.—In conducting an appraisal under this title, the appraiser—

(A) shall not select sales of comparable land that are sales of land within developed urban areas; and

(B) should not, in most circumstances, select a sale of comparable land that includes land that is encumbered by a conservation or recreational easement that is held by a government or institution, except land that is limited to use as a site for 1 home.

(3) ADJUSTMENTS FOR TYPICAL VALUE INFLUENCES.—

(A) IN GENERAL.—The appraiser shall consider, and adjust as appropriate, the price of sales of comparable land for all typical value influences described in subparagraph (B).

(B) VALUE INFLUENCES.—The typical value influences referred to in subparagraph (A) include—

- (i) differences in the locations of the parcels;
- (ii) accessibility, including limitations on access attributable to—
 - (I) weather;
 - (II) the condition of roads or trails;
 - (III) restrictions imposed by the agency; or
 - (IV) other factors;
- (iii) the presence of marketable timber;
- (iv) limitations on, or the absence of, services such as law enforcement, fire control, road maintenance, or snow plowing;
- (v) the condition and regulatory compliance of any site improvements; and
- (vi) any other typical value influences described in standard appraisal literature.

(4) ADJUSTMENTS TO SALES OF COMPARABLE PARCELS.—

(A) UTILITIES, ACCESS, OR FACILITIES.—

(i) AGENCY.—Utilities, access, or facilities serving a lot that are provided by the agency shall be included as features of the lot being appraised.

(ii) CABIN OWNERS.—Utilities, access, or facilities serving a lot that are provided by the cabin owner (or a predecessor of the cabin owner) shall not be included as a feature of the lot being appraised.

(iii) THIRD PARTIES.—Utilities, access, or facilities serving a lot that are provided by a third party shall not be included as a feature of the lot being appraised unless, in accordance with subsection (a)(1), the agency determines that the capital costs have not been or are not being paid by the cabin owner (or a predecessor of the cabin owner).

(iv) WITHDRAWAL OF UTILITY OR ACCESS BY AGENCY.—If, during the term of an authorization, the agency or an act of God creates a substantial and materially adverse change in—

(I) the provision or maintenance of any utility or access; or

(II) a qualitative feature of the lot or immediate surroundings,

the cabin owner shall have the right to request, and, at the discretion of the Secretary, obtain a new determination of the base cabin user fee at the expense of the agency.

(B) ADJUSTMENT FOR EXCLUSION.—In a case in which any comparable sale includes utilities, access, or facilities that are to be excluded in the appraisal of the subject lot, the price of the comparable sale shall be adjusted, as appropriate.

(C) ADJUSTMENT PROCESS.—

(i) IN GENERAL.—The appraiser shall consider and adjust, as appropriate, the price of each sale of a comparable parcel for all nonnatural features referred to in subparagraph (A)(ii) that—

(I)(aa) are present at, or add value to, the comparable parcel; but

(bb) are not present at the lot being appraised; or

(II) are not included in the appraisal as described in subparagraph (A).

(ii) ADJUSTMENTS.—

(I) IN GENERAL.—In a case in which the price of a parcel sold is to be adjusted in accordance with subparagraph (B), the adjustment may be based on an analysis of market or cost information or both.

(II) COST INFORMATION.—If cost information is used as the basis of an adjustment under subclause (I), the cost information shall be supported by direct market evidence.

(iii) ANALYSIS OF COST INFORMATION.—An analysis of cost information under clause (ii)(I) should include

allowances, as appropriate, if the allowances are consistent with—

(I) the Uniform Standards of Professional Appraisal Practice in effect on the date of the analysis; and

(II) the Uniform Appraisal Standards for Federal Land Acquisition.

(D) REAPPRAISAL FOR AND RECALCULATION OF BASE CABIN USER FEE.—Periodically, but not less often than once every 10 years, the Secretary shall recalculate the base cabin user fee (including conducting any reappraisal required to recalculate the base cabin user fee).

SEC. 607. [16 U.S.C. 6206] CABIN USER FEES.

(a) IN GENERAL.—The Secretary shall establish the cabin user fee as the amount that is equal to 5 percent of the market value of the lot, as determined in accordance with section 606, reflecting an adjustment to the typical market rate of return due to restrictions imposed by the permit, including—

(1) the limited term of the authorization;

(2) the absence of significant property rights normally attached to fee simple ownership; and

(3) the public right of access to, and use of, any open portion of the lot on which the cabin or other enclosed improvements are not located.

(b) FEE FOR CARETAKER CABIN.—The base cabin user fee for a lot on which a caretaker cabin is located shall not be greater than the base cabin user fee charged for the authorized use of a similar typical lot in the tract.

(c) ANNUAL CABIN USER FEE IN THE EVENT OF DETERMINATION NOT TO REISSUE AUTHORIZATION.—If the Secretary determines that an authorization should not be reissued at the end of a term, the Secretary shall—

(1) establish as the new base cabin user fee for the remaining term of the authorization the amount charged as the cabin user fee in the year that was 10 years before the year in which the authorization expires; and

(2) calculate the current cabin user fee for each of the remaining 9 years of the term of the authorization by multiplying—

(A) $\frac{1}{10}$ of the new base cabin user fee; by

(B) the number of years remaining in the term of the authorization after the year for which the cabin user fee is being calculated.

(d) ANNUAL CABIN USER FEE IN EVENT OF CHANGED CONDITIONS.—If a review of a decision to convert a lot to an alternative public use indicates that the continuation of the authorization for use and occupancy of the cabin by the cabin owner is warranted, and the decision is subsequently reversed, the Secretary may require the cabin owner to pay any portion of annual cabin user fees that were forgone as a result of the expectation of termination of use and occupancy of the cabin by the cabin owner.

(e) TERMINATION OF FEE OBLIGATION IN LOSS RESULTING FROM ACTS OF GOD OR CATASTROPHIC EVENTS.—On a determination by

the agency that, because of an act of God or a catastrophic event, a lot cannot be safely occupied and the authorization for the lot should accordingly be terminated, the fee obligation of the cabin owner shall terminate effective on the date of the occurrence of the act or event.

SEC. 608. [16 U.S.C. 6207] ANNUAL ADJUSTMENT OF CABIN USER FEE.

(a) **IN GENERAL.**—The Secretary shall adjust the cabin user fee annually, using a rolling 5-year average of a published price index in accordance with subsection (b) or (c) that reports changes in rural or similar land values in the State, county, or market area in which the lot is located.

(b) **INITIAL INDEX.**—

(1) **IN GENERAL.**—For the period of 10 years beginning on the date of enactment of this title, the Secretary shall use changes in agricultural land prices in the appropriate State or county, as reported in the Index of Agricultural Land Prices published by the Department of Agriculture, to determine the annual adjustment to the cabin user fee in accordance with subsections (a) and (d).

(2) **STATEWIDE CHANGES.**—In determining the annual adjustment to the cabin user fee for an authorization located in a county in which agricultural land prices are influenced by the value influences described in section 606(b)(3), the Secretary shall use average statewide changes in the State in which the lot is located.

(c) **NEW INDEX.**—

(1) **IN GENERAL.**—Not later than 10 years after the date of enactment of this title, the Secretary may select and use an index other than the method of adjustment of a cabin user fee described in subsection (b)(2) to adjust a cabin user fee if the Secretary determines that a different index better reflects change in the value of a lot over time.

(2) **SELECTION PROCESS.**—Before selecting a new index, the Secretary shall—

(A) solicit and consider comments from the public; and

(B) not later than 60 days before the date on which the Secretary makes a final index selection, submit any proposed selection of a new index to—

(i) the Committee on Resources of the House of Representatives; and

(ii) the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(d) **LIMITATION.**—In calculating an annual adjustment to the base cabin user fee as determined by the initial index described in section (b), the Secretary shall—

(1) limit any annual fee adjustment to an amount that is not more than 5 percent per year when the change in agricultural land values exceeds 5 percent in any 1 year; and

(2) apply the amount of any adjustment that exceeds 5 percent to the annual fee payment for the next year in which the change in the index factor is less than 5 percent.

SEC. 609. [16 U.S.C. 6208] PAYMENT OF CABIN USER FEES.

(a) **DUE DATE FOR PAYMENT OF FEES.**—A cabin user fee shall be prepaid annually by the cabin owner.

(b) **PAYMENT OF EQUAL OR LESSER FEE.**—If, in accordance with section 607, the Secretary determines that the amount of a new base cabin user fee is equal to or less than the amount of the current base cabin user fee, the Secretary shall require payment of the new base cabin user fee by the cabin owner in accordance with subsection (a).

(c) **PAYMENT OF GREATER FEE.**—If, in accordance with section 607, the Secretary determines that the amount of a new base cabin user fee is greater than the amount of the current base cabin user fee, the Secretary shall—

(1) require full payment of the new base cabin user fee in the first year following completion of the fee determination procedure if the increase in the amount of the new base cabin user fee is not more than 100 percent of the current base cabin user fee; or

(2) phase in the increase over the current base cabin user fee in approximately equal increments over 3 years if the increase in the amount of the new base cabin user fee is more than 100 percent of the current base cabin user fee.

SEC. 610. [16 U.S.C. 6209] RIGHT OF SECOND APPRAISAL.

(a) **RIGHT OF SECOND APPRAISAL.**—On receipt of notice from the Secretary of the determination of a new base cabin user fee, the cabin owner—

(1) not later than 60 days after the date on which the notice is received, may notify the Secretary of the intent of the cabin owner to obtain a second appraisal; and

(2) may obtain, within 1 year following the date of receipt of the notice under this subsection, at the expense of the cabin owner, a second appraisal of the typical lot on which the initial appraisal was conducted.

(b) **CONDUCT OF SECOND APPRAISAL.**—In conducting a second appraisal, the appraiser selected by the cabin owner shall—

(1) have qualifications equivalent to the appraiser that conducted the initial appraisal in accordance with section 606(a)(4);

(2) use the appraisal guidelines used in the initial appraisal in accordance with section 606(a)(5);

(3) consider all relevant factors in accordance with this title (including guidelines developed under section 606(a)(3)); and

(4) notify the Secretary of any material differences of fact or opinion between the initial appraisal conducted by the agency and the second appraisal.

(c) **REQUEST FOR RECONSIDERATION OF BASE CABIN USER FEE.**—A cabin owner shall submit to the Secretary any request for reconsideration of the base cabin user fee, based on the results of the second appraisal, not later than 60 days after the receipt of the report for the second appraisal.

(d) **RECONSIDERATION OF BASE CABIN USER FEE.**—On receipt of a request from the cabin owner under subsection (c) for reconsider-

ation of a base cabin user fee, not later than 60 days after the date of receipt of the request, the Secretary shall—

- (1) review the initial appraisal of the agency;
- (2) review the results and commentary from the second appraisal;
- (3) determine a new base cabin user fee in an amount that is—

(A) equal to the base cabin user fee determined by the initial or the second appraisal; or

(B) within the range of values, if any, between the initial and second appraisals; and

- (4) notify the cabin owner of the amount of the new base cabin user fee.

SEC. 611. [16 U.S.C. 6210] RIGHT OF APPEAL AND JUDICIAL REVIEW.

(a) **RIGHT OF APPEAL.**—Notwithstanding any action of a cabin owner to exercise rights in accordance with section 610, the Secretary shall by regulation grant the cabin owner the right to an administrative appeal of the determination of a new base cabin user fee.

(b) **JUDICIAL REVIEW.**—A cabin owner that is adversely affected by a final decision of the Secretary under this title may bring a civil action in United States district court.

SEC. 612. [16 U.S.C. 6211] CONSISTENCY WITH OTHER LAW AND RIGHTS.

(a) **CONSISTENCY WITH RIGHTS OF THE UNITED STATES.**—Nothing in this title limits or restricts any right, title, or interest of the United States in or to any land or resource.

(b) **SPECIAL RULE FOR ALASKA.**—In determining a cabin user fee in the State of Alaska, the Secretary shall not establish or impose a cabin user fee or a condition affecting a cabin user fee that is inconsistent with 1303(d) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3193(d)).

SEC. 613. [16 U.S.C. 6212] REGULATIONS.

Not later than 2 years after the date of enactment of this title, the Secretary shall promulgate regulations to carry out this title.

SEC. 614. [16 U.S.C. 6213] TRANSITION PROVISIONS.

(A) **IN GENERAL.**—Except as provided in subparagraph (B), for a lot that has been appraised on or after September 30, 1995, the annual fee shall be equal to the amount of the fee in effect on the date of enactment of this title, adjusted annually to reflect changes in the Implicit Price Deflator-Gross National Product Index.

(B) APPRAISALS RESULTING IN BASE FEE INCREASE.—

(i) **IN GENERAL.**—Except as provided in clause (ii), for a lot that has been appraised on or after September 30, 1995, for which the appraisal resulted in an increase of the base fee by an amount greater than \$3,000, the annual fee shall be equal to the sum of \$3,000 plus the amount of the annual fee in effect on October 1, 1996, adjusted annually to reflect the percentage change in the Implicit Price Deflator-Gross National Product Index.

(I) the cabin owner of a lot described in clause (i) requests a new appraisal or peer review under subsection (c); and

(II) the base cabin user fee established as a result of the appraisal or peer review is determined to be an amount that is 90 percent or more of the fee in effect for the lot as determined by an appraisal conducted on or after September 30, 1995,

the Secretary shall charge the cabin owner, in addition to the annual fee that would otherwise have been due under section 609, the difference between the base cabin user fee determined through the conduct of the new appraisal or peer review and the annual fee that would otherwise have been due under section 609, to be assessed retroactively for each year beginning with the year in which the previous appraisal was conducted, and to be paid in 3 equal annual installments.

(b) TERM.—

(1) **LOTS NOT APPRAISED SINCE SEPTEMBER 30, 1995.**—For a lot that has not been appraised since September 30, 1995, the Secretary shall charge fees in accordance with subsection (a)(2)(A) until—

(2) **LOTS APPRAISED ON OR AFTER SEPTEMBER 30, 1995.**—For a lot that has been appraised on or after September 30, 1995, the Secretary shall charge fees under subsection (a)(2) until—

(A) the cabin owner requests a new appraisal or peer review, and a base cabin user fee is established, under subsection (c); or

(B) in the absence of a request for a peer review or a new appraisal under subsection (c), the date that is 2 years after the date on which the Forest Service promulgates regulations and policies and develops appraisal guidelines under this title.

(c) REQUEST FOR NEW APPRAISAL UNDER NEW LAW.—

(1) **IN GENERAL.**—Not later than 2 years after the promulgation of final regulations and policies and the development of appraisal guidelines in accordance with section 606(a)(5), cabin owners that are subject to appraisals completed after September 30, 1995, but before the date of promulgation of final regulations under section 613, may request, in accordance with paragraph (2), that the Secretary—

(B) **INCONSISTENCY.**—If peer review described in subparagraph (A) results in a determination that an appraisal or appraisal report includes provisions or procedures that were implemented or conducted in a manner inconsistent with this title, the Secretary shall, as appropriate and in accordance with this title—

(ii) subject to an agreement with the cabin owners, conduct a new appraisal and fee determination.

[As Amended Through Public Law 106-580, Dec. 31, 2000]

20. EDUCATION LAND GRANT ACT

(Title II of Public Law 106-577, Approved December 28, 2000)

TITLE II—CONVEYANCE OF NATIONAL FOREST SYSTEM LANDS FOR EDUCATIONAL PURPOSES

SEC. 201. [16 U.S.C. 479a note] SHORT TITLE.

This title may be cited as the "Education Land Grant Act".

SEC. 202. [16 U.S.C. 479a] CONVEYANCE OF NATIONAL FOREST SYSTEM LANDS FOR EDUCATIONAL PURPOSES.

(a) **AUTHORITY TO CONVEY.**—Upon written application, the Secretary of Agriculture may convey National Forest System lands to a public school district for use for educational purposes if the Secretary determines that—

(1) the public school district seeking the conveyance will use the conveyed land for a public or publicly funded elementary or secondary school, to provide grounds or facilities related to such a school, or for both purposes;

(2) the conveyance will serve the public interest;

(3) the land to be conveyed is not otherwise needed for the purposes of the National Forest System;

(4) the total acreage to be conveyed does not exceed the amount reasonably necessary for the proposed use;

(5) the land is to be used for an established or proposed project that is described in detail in the application to the Secretary, and the conveyance would serve public objectives (either locally or at large) that outweigh the objectives and values which would be served by maintaining such land in Federal ownership;

(6) the applicant is financially and otherwise capable of implementing the proposed project;

(7) the land to be conveyed has been identified for disposal in an applicable land and resource management plan under the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1600 et seq.); and

(8) an opportunity for public participation in a disposal under this section has been provided, including at least one public hearing or meeting, to provide for public comments.

(b) **ACREAGE LIMITATION.**—A conveyance under this section may not exceed 80 acres. However, this limitation shall not be construed to preclude an entity from submitting a subsequent application under this section for an additional land conveyance if the entity can demonstrate to the Secretary a need for additional land.

(c) **COSTS AND MINERAL RIGHTS.**—(1) A conveyance under this section shall be for a nominal cost. The conveyance may not include the transfer of mineral or water rights.

(2) If necessary, the exact acreage and legal description of the real property conveyed under this title shall be determined by a survey satisfactory to the Secretary and the applicant. The cost of the survey shall be borne by the applicant.

(d) REVIEW OF APPLICATIONS.—When the Secretary receives an application under this section, the Secretary shall—

(1) before the end of the 14-day period beginning on the date of the receipt of the application, provide notice of that receipt to the applicant; and

(2) before the end of the 120-day period beginning on that date—

(A) make a final determination whether or not to convey land pursuant to the application, and notify the applicant of that determination; or

(B) submit written notice to the applicant containing the reasons why a final determination has not been made.

(e) REVERSIONARY INTEREST.—If, at any time after lands are conveyed pursuant to this section, the entity to whom the lands were conveyed attempts to transfer title to or control over the lands to another or the lands are devoted to a use other than the use for which the lands were conveyed, title to the lands shall revert to the United States.
