

Join us for the 2008 Critical Infrastructure and Key Resources Learning Series

Seminar 1: Engaged Partnership for Disaster Response

This important series is designed to give you the tools, latest trends, issues and best practices in the infrastructure protection arena. Designed for owners and operators, as well as key government stakeholders, our webinars provide practical ideas for implementing infrastructure protection and resilience activities.

Who should attend - The audience for these seminars includes, but is not limited to: security, operations, facilities, systems and financial or risk managers; emergency management professionals; and others engaged in critical infrastructure protection.

R. JAMES CAVERLY

First in the series:

Seminar 1: August 26, 2008 – 1 p.m. to 2 p.m. ET

The roadmap for integrating Critical Infrastructure response as a key element of the New National Response Framework

Upcoming webinars:

October 15, 2008

Improvised Explosive Devices

November 12, 2008

Working with Regional Coalitions to implement the National Infrastructure Protection Plan
