To Whom It May Concern:

I am writing to express my interest in seeing the ICCVAM support non-animal testing methods that have been approved by our counterparts in Europe and other parts of the world. To me, this is a very important issue, and I imagine that many other Americans share my concern that we keep pace with the latest thinking and action to prevent unnecessary animal cruelty and testing, while simultaneously improving the usefulness of our medical research.

Thank you in advance for your thoughtful consideration of my concern in this matter.

Best regards,
Lesley Edwards
