

Subject: non-animal testing

Date: Tuesday, June 5, 2007 7:35 PM

ICCVAM,

As someone who suffers from severe migraine headaches, I want to let you know that I support your immediate acceptance of internationally validated non-animal tests. I do not want any animals suffering on account of my migraines, and it saddens me deeply that this has happened in the past. The United States should be a leader in developing alternative testing methods. So, please accept the internationally validated non-animal tests, and then be a leader to the world in developing other ones!

Sincerely,
Beth Levine
