

Subject: non-animal testing

Date: Tuesday, June 5, 2007 1:13 PM

From: Willa Martin

I am writing to let you know that many of us are in support of non-animal testing. There are so many alternate methods available now which don't subject innocent helpless animals to torture and excruciating pain that not to implement these alternate forms of testing in this day and age seems barbaric. Please note that we support the immediate acceptance of internationally validated non-animal tests.

Thank you,

Willa and Bob Wilson
